Danish Vice-Consul, tel. 15006
Netherlands Vice-Consul, tel. 10926
**REPAIRS:** All types of deck and engine repairs possible.
**DRY DOCKS:** Largest dry dock: length 185 metres, breadth 20·76 metres, depth 8·80 metres. Six smaller docks.
**REPATRIATION:** Not allowed.
**AIRPORT:** 30 kilometres from port.
**TIME:** GMT plus one hour. Permanent.
**POLICE/AMBULANCE/FIRE:** Tel. 90000.
**TELEPHONES:** None available.
**SERVICES:** Compass adjusting.
**AUTHORITY:** Harbourmaster, Ölandsgatan 2, Karlskrona. tel. 0455/10712.

## KÖPING: 59.31 N. 16.00 E.

**DOCUMENTS:** See "Stockholm".
**PILOTAGE:** Via Södertälje: Pilots obtainable for inward bound vessels from Landsort to Södertälje and from Södertälje to Köping; for outward bound vessels from Köping and Södertälje. Via Stockholm: Pilots obtainable for inward bound vessels from Simpnäs, Furusund, Sandhamn, Dalarö and Landsort to Stockholm and from Stockholm to Köping; for ourward bound vessels from Köping and Stockholm. (Also see "Stockholm".) Harbour pilotage obtainable but not compulsory in harbour area.

Distances: Landsort – Södertälje (nautical miles), 34; Södertälje – Köping, (nautical miles) 69; Landsort – Dalarö, (nautical miles), 32; Dalarö – Stockholm, (nautical miles), 46; Sandhamn – Stockholm, (nautical miles), 36; Stockholm – Köping, (nautical miles), 78; Västerås – Köping, (nautical miles), 27; Harbour Pilotage, (nautical miles), 2.

**ANCHORAGES:** At the "Broken" light buoy, clay bottom.
**RESTRICTIONS:** Ice is prevalent in Lake Mälaren and the inlet from the Baltic from January to March, but the entrance channel is usually kept open during a normal winter season with the aid of ice-breaking tugs. No current.
**MAX. SIZE:** The pilot station on Lake Mälaren, tel. Södertälje 30467, will give information on the max. admissible sizes of vessels. In general the following applies:

| *Max. Admissible* | *Via Södertälje* | *Via Stockholm* |
|---|---|---|
| Length | 120 metres | 110 metres |
| Breadth | 18 metres | 15 metres |
| Draught | 6 metres | 5·65 metres |
| Height of masts above water level | 35 metres | 26 metres |

The figures stated for the draught are subject to variation according to the water level. The entrance fairway to the port has been dredged to a depth of 6·2 metres, the width of the bottom being 40 metres.
**VHF:** Work freq. Channel 14. Call Köping Port Radio, Channel 16.
**TUGS:** Available day/night.
**BERTHING:** Deep-water harbour. Has 529 metres of quayage with depth of 6·2 metres alongside and is equipped with three 6-tons portal cranes and four 7-tons level-luffing jib cranes, two having max. lifting capacity 10 tons. Also 80 metres cross-quay – without cranes – loading/unloading with vessels own winches. Quays are rail-connected and equipped with electricity, telephone and fresh water. About 10,000 m.² of concrete stockyards within reach of cranes and outside this area at short distance from cranes, space of about 25,000 m.² available for storage of goods. Also about 18,000 m.² sheds of different types in connection to quays.

Cranes well equipped with lifting devices such as grabs of different types, etc. Conveyor belts of varying length, fork trucks, trimming and other cargo handling equipment also available.

Old Harbour: Has 400 metres of quayage with depth varying from 3·6 to 4·5 metres alongside, mobile cranes are used.

Oil Harbour: A modern oil harbour (built 1969) is situated at the mouth of River Kopingsan (North side), the jetty having one outside and one inside berth with depth of 6·2 and 5·7 metres respectively.
**STEVEDORES:** Working hours: 0700–0900, 0930–1300 and 1400–1630 (Monday to Friday). Special conditions on Christmas Eve, New Year's Eve, Easter Eve, Whitsun Eve and Midsummer Eve.

Overtime work: can usually be executed on Mondays, Tuesdays,

Thursdays and Fridays for 2 hours daily and 5 hours on Saturday. Overtime on the day of departure can be extended to five hours totally Mondays–Fridays and to 8 hours on Saturdays.
**GANGWAY/DECK WATCHMEN:** Always available.
**FUEL:** Water, provisions, coal and oil obtainable.
**REPAIRS:** Minor mechanical, electrical and other repairs can be carried out by different local firms. Diver available.
**AUTHORITY:** Port is owned by town of Köping and administered by a Harbour Board. Harbour Office (close to quay), tel. 0221/18315. Cables: Midlandport.

## LANDSKRONA: 55.52 N. 12.48 E. (See Plan)

**DOCUMENTS:** See Stockholm.
**PILOTAGE:** Pilot available on request from Helsingborg pilot station or from Landskrona pilot station in daytime. Five hours' notice required. Pilot stations and boats equipped with VHF. (Also see "Stockholm".)
**ANCHORAGE:** Vessels of up to 10m. draft can safely anchor North of Staffans Bank.
**MAX. SIZE:** Depth in channel and harbour 11 metres (36 ft.) Max. draft 10 metres. Vessels up to 253 metres length have sailed from harbour.
**HEALTH:** See "Stockholm".
**RADIO:** Gothenburg Radio call sign SAG; Malmö Radio call sign SDP. The harbour office, pilot station, pilot boats and tug boats equipped with VHF.
**TUGS:** Tugs usually meet off Pilhaken lightbuoy. Ship's lines to be used.
**BERTHING:** Terminal for handling bulk cargoes. Rock phosphate can be discharged with a capacity of 8,000 tons per 24 hours.
**MEDICAL:** Medical attention and hospital facilities available.
**TANKERS:** No oil berth in Landskrona.
**DENSITY:** Density of water changes with currents.
**FRESH WATER:** Available from quay.
**FUEL:** Small quantities of fuel oil can be obtained from quay.
**WATCHMEN:** Available.
**OPENING/CLOSING HATCHES:** Usually carried out by ship's crew.
**CERTIFICATES:** See "Stockholm".
**CUSTOMS ALLOWANCES:** See "Stockholm".
**IDENTIFICATION CARDS:** Not needed.
**CONSULS:**

**REPAIRS:** All types of deck and engine repairs.
**DRY DOCKS:** Dry dock for ships up to about 25,000 tons dw. (189 m. length). Floating dock for up to about 5,000 ton dw.
**AIRPORT:** Sturup, 60 km.
**TIME:** GMT plus 1. Permanent.
**HOLIDAYS:** See "Stockholm".
**POLICE/AMBULANCE/FIRE:** Tel. 90000.
**TELEPHONES:** Can be placed aboard.
**SERVICES:** Compass adjusting.
**REGULATIONS:** Anchoring prohibited between and up to 50 m. from harbour lights.
**AUTHORITY:** Landskrona Hamnförvaltning, Lilla Strandgatan 1, Box. 275, 261 23 Landskrona. Tel. 0418/17911.

## LULEA: 65.35 N. 22.09 E.

**DOCUMENTS:** See "Stockholm".
**PILOTAGE:** Telegraphic address, "Pilotstation Lulea". Advance notice, 5 hours. VHF Channel 16, 156.80. Pilot boat, orange with international signals. Pilot is boarding about 1 mile South-west of Rodkallen Pilotstation. Location of anchorage when awaiting Pilot, South of pilot station. (Also see "Stockholm".)
**ANCHORAGE:** Germandöfjärden and inner road.
**RESTRICTIONS:** Navigation season approx. April to December.
**MAX. SIZE:** Max. draft 37 ft. at mean water (8·90 metres.)
**HEALTH:** No special regulations.
**RADIO:** Härnösand Radio, call signal SAH.
**TUGS:** At the inner road for the ore dock, and in Sandöleden 1 n.m. South of the oil terminal. Ship's lines to be used.

A new tug, *Victoria*, 4,600 h.p. is available. The tug is also used for ice-breaking in the channel and harbour.

**BERTHING:** *Ore Quay:* Length 415 metres. Depth at quay 13·2 metres. Two ore loaders, 4,000 tons per hour each.

*Deep Quay:* Length 345 metres. Depth 9 metres. General cargo and wood for wood loading.

*NJA Quay:* Length 498 metres. Depth 7·8 metres. Iron, steel loading.

**BRIDGES:** When passing up to Northern side of port, notice has to be given 2 hours in advance for opening of Bergnäsbridge.
**STEVEDORES:** Bottenviken Stuveribolag.
**TANKERS:** Dia. of lines from 150 mm. up to 350 mm. 2 oil jetties depth 7·8 m. and 12·6 m.
**DENSITY:** Fresh water, 1000.
**FRESHWATER:** Fresh water available at any berths.
**FUEL:** All grades of oil available.
**GANG/DECK WATCHMEN:** Safety watchmen are to be on board all tankers when loading or discharging.
**OPENING/CLOSING HATCHES:** Stevedores.
**SHIP'S CERTIFICATES:** See "Stockholm".
**CUSTOMS ALLOWANCE:** (Tobacco) 200 cigarettes for ea crew member once a week. (Wine/Spirits) ½ litre for each cr member over 21 years old, once a week.
**IDENTIFICATION CARDS:** Not necessary.
**CONSULS:**

| | |
|---|---|
| British 16329 | Norwegian 13070 |
| Finnish 10440 | Netherland 12019 |
| France 10440 | German 23025 |

**REPAIRS:** Only small engine repairs.
**AIRPORT:** 10 km. from port. Served by regular airlines.
**TIME:** GMT plus 1. Permanent.
**HOLIDAYS:** See "Stockholm".
**POLICE/FIRE/AMBULANCE:** Telephone 90000.
**TELEPHONES:** Connections available at oil terminal, ore dock a southern dock.
**GENERAL:** All ships mooring at oil terminal over 3,000 dwt, a ore dock have to use tugs.
**DEVELOPMENTS:** A coal terminal is to be built one mile Ea of the oil terminal. The capacity will be 1·5 million tons per ye The coal will be used in Norrbottens Jarnverk AB new coke facto The terminal is expected to be ready 1975. Depth alongside 12·6 at MW.
**AUTHORITY:** Luleå Hamnstyrelse, 0920/93000. Varvsgatan 41, 00 Luleå.

## LYSEKIL: 58.17 N. 11.26 E.

**DOCUMENTS:** See "Stockholm".
**PILOTAGE:** Latest 5 hours prior arrival pilot station Tovas Ur or Gaeven to be ordered either by phone Lysekil 10271 or via Ag (Also see "Stockholm".)
**ANCHORAGES:** Safe anchorages both for small and large vess inside harbour or just outside harbour in Gullmarsfiord.
**RESTRICTIONS:** No restrictions night entry, except max. dr possible 30 ft. No tide.
**MAX. SIZE:** Maximum permissible length for berthing about 60 Draft 30 ft.
**HEALTH:** Declaration of health only when required from custo or for vessel coming from outside Scandinavia.
**RADIO:** Cable Agents giving ETA, draft, cargo and cash requ via Gothenburg Radio.
**RADAR/VHF:** No port radar service, VHF for calling Pilot, Chan 16.
**TUGS:** Must be requested from Uddevalla or Gothenburg at le 1 day before arrival.
**STEVEDORES:** Ordered by Agents.
**MEDICAL:** Hospital in town.
**TANKERS:** Oil berth Munkedal, discharge line 12 in. connect 8 in. See "Developments".
**DENSITY:** About 1027.
**FRESH WATER:** Available from shore installation.
**FUEL:** Only Gasoil and Diesel available.
**GANGWAY/DECK WATCHMEN:** Available but not compulso
**OPENING/CLOSING HATCHES:** Normally opened by crew.
**SHIP'S CERTIFICATES:** Registered Tonnage Certificate.
**CUSTOMS ALLOWANCE:** See "Stockholm".
**IDENTIFICATION CARDS:** Not required.
**CONSULS:** Denmark, Finland, Iceland, Norway.
**REPAIRS:** Only small repairs possible.
**HOLIDAYS;** See "Stockholm".
**REPATRIATION:** Change of crew and repatriation possible.
**AIRPORT:** None.
**TIME:** Local time GMT plus one. Permanent.
**TELEPHONE:** Police 90000/13030; Ambulance Taxi 10101; F Brigade 10254.
**DEVELOPMENTS:** New tanker berth at Brofjorden for vess up to 500,000 dwt is under construction and expected to be rea 1975. Position of berth: 58.20.7. N. 11.24.5 E.

*Crude Oil Pier:* Max. length 350 m., max. beam 60 m., max. dr 25 m. Max. dwt 350,000 tons to be increased at a later date. Minim depth of water 27 m., minimum underkeel clearance recommen is 10%.

## MALMÖ: 55.37 N. 13.01 E. (See Plan)

**DOCUMENTS:**
2 Crew Lists.
1 Passenger List.
2 Lists of Personal Effects (Tobacco List).

1 Declaration of Health.
2 Stores Lists.
3 Cargo Manifests.
1 Bill of Measurement.
1 Certificate of Nationality.
1 Deratisation Certificate.

**PILOTAGE:** Vessel applies for Pilot by telegram, by telephone or VHF (telegraphic address, Pilotstation, Malmö; tel. 186470; VHF Channel 16 and 6). Advance notice required 5 hours before pilotage to commence. Pilot boat orange-coloured cutter equipped VHF and radar. Pilot boards at Malmö roadstead. In case of bad weather vessel awaits Pilot at roadstead. (Also see "Stockholm".)

**ANCHORAGE:** Vessels anchor about five cables North of fairway buoy "Roder Prick" and East of leading lights Centralhamnsrannan Nedre and Ovre, and South-west of leading lights Malmo Oljehamn, Nedre and Malmo Oljehamn Ovre. Depth 12 to 14 metres and bottom hard clay.

**RESTRICTIONS:** Speed must be reduced inside breakwaters. When red flag hoisted (red lantern at night) at the North Eastern Dry dock pier head, indicating dock gates open, vessels may pass breakwater at minimum speed. Bridge opening signal for passing from South Wharf Basin two long blasts, followed by one short.

**MAX. SIZE:** Maximum length recommended in Oil Harbour 740 ft. on draft not exceeding 34 ft. Maximum length recommended at Oil Jetty in Free Port 650 ft. on draft not exceeding 24 ft., or 600 ft. on draft not exceeding 26 ft. Maximum length recommended in new harbour is 490 ft. on maximum draft 21 ft. and in Industrial Harbour 550 ft. on maximum draft 26 ft. No tides.

**HEALTH:** Free pratique automatically granted arriving from non-infested areas. If arriving from infested areas health declaration must be presented immediately on arrival. If diseases on board suspected, vessel allowed to enter after approval City Medical Adviser, but nobody allowed on board until vessel's crew examined by doctor and after approval of medical adviser.

**RADIO:** Vessel can route ETA cables to Gothenburg Radio (call sign SAG or Channel 26 on VHF), open all hours. Radio stations can also be called by radio-telephone on 2182 kHz.

**VHF:** Port Control Office equipped with VHF (Channel 16, 12 and 14), open 24 hours a day. Masters can receive information about berthing place, present traffic and existing hazards to navigation in harbour area.

**TUGS:** Tugs usually meet vessels at roadstead. Ship's lines used. Four tugs, supplied at all hours, also carry out ice-breaking.

**BERTHING:**

New Year's Day (1st January); Twelfth Day (6th January); Good Friday; Easter Sunday and Easter Monday; 1st May; Whit Sunday and Whit Monday; Midsummer Day; All Saints' Day; 25th December and 26th December; New Year's Eve; Easter Eve; Whitsun Eve; Midsummer Eve; Christmas Eve.

**POLICE/AMBULANCE/FIRE:** Police 90000 or 0270/10020; Ambulance 90000; and Fire 90000 or 0270/12249.

**TELEPHONES:** In Sandarne, quay telephones can be placed on board. Two telephones.

**GENERAL:** There is a VHF port radio at the Port Office, Söderhamn. Working time 0800–1700. Channel 16 for call and working channel. During the ice-breaking season the tug may be out even at night. Tug has same channels. Söderhamn custom district includes only Stugsund. Illjungfrun Pilot also serves ports of Ala, Ljusne and Vallvik.

**SERVICES:** Facilities for discharge of tank-washings max. 20 tons. Tank-cleaning and facilities for discharge of tank-washings of great extent are Stockholm and Sundsvall. Compass adjusting in Stugsund berth.

**REGULATIONS:** Port regulations available from Agent or Port Office.

**DELAYS:** Fog, ice and bad weather may delay berthing. Rain and snow can delay loading and discharging of dry cargo.

**AUTHORITY:** Hamnforvaltningen, Soderhamn, tel. 0270/14828 or 11311.

## SÖLVESBORG: 56.03 N. 14.35 E. (See Plan)

**DOCUMENTS:** See "Stockholm".

**PILOTAGE:** Pilot station at Åhus, tel. 044/240027, needs five hours' notice. Pilot station and pilot boat can be ordered by VHF Channel 16 (156, 80 mHz). Harbour office in Sölvesborg can be called on same frequency. (Also see "Stockholm".)

**ANCHORAGE:** Roadstead to S. of harbour 25 ft. deep with good holding ground.

**MAX. SIZE:** Depth in outer harbour 8·2 metres (27 ft.) and in inner harbour 7·5 metres (25 ft.) Recommended for ships to have 1 ft. 6 in. of water under keel. Maximum length 200 m. (656 ft.) Breadth 30 m. (98 ft.). Draft 7·7 m. (25 ft.) for vessel entering harbour. Largest ship to enter harbour was 20,000 tons oil tanker with load of 9000 tons. That is, however, not the upper limit. Harbour entrance has bottom breadth of 65 metres (213 ft.).

**HEALTH:** See "Stockholm".

**RADIO:** Malmö Radio and Gothenburg Radio.

**VHF:** Harbour Office can be reached by VHF, Channel 16 (156.80 mHz). Working frequency Channel 14 (15.70 mHz).

**TUGS:** Available. Ordered through Agent or directly to Harbour Office.

**STEVEDORES:** Need notice before 1500 if loading/discharging shall start at 0730 hours following morning, or notice before 1000 hours if loading/discharging shall start 1300 hours the same day.

**TANKERS:** 3 Shore-lines for oil products from oil jetty to depots. 1. 250 mm. for bunker C (2nd fuel); 2. 200 mm. for paraffin oil; 3. 200 mm. for petrol. For discharge coasters use ship's equipment. Bigger ships discharging bunker C oil use harbour's 8 in. rubber hose.

**FRESH WATER:** Fresh water available.

**FUEL:** Ordered from oil companies by ship's Agents.

**GANGWAY/DECK WATCHMEN:** Watchmen normally not needed. Can be ordered by ship's agents.

**OPENING/CLOSING HATCHES:** Normally opened/closed by crew.

**SHIP CERTIFICATES:** See "Stockholm".

**TOBACCO ALLOWANCE:** Basis for forming an estimate is ship's stay in Swedish ports. Normally 200 cigarettes/week.

**WINE/SPIRIT ALLOWANCE:** Normally 1 bottle/week.

**IDENTIFICATION CARDS:** Not needed.

**CONSULS:** Royal Danish Vice-Consulate. Railway Station Building. Tel. 0456/10115.

**REPAIRS:** Carried out by Solvesborgs Shipyard. Tel. 0456/10950.

**DRY DOCKS:** Dry dock in ship yard, 341 ft. long, 51 ft. wide at entrance, 14½ ft. deep on sill HWOST.

**REPATRIATION:** No facilities.

**AIRPORT:** 50 km. to Kristianstad Airport and 60 km. to Ronneby Airport. Served by regular inland airlines.

**TIME:** Local time = GMT plus 1 hour. Permanent.

**HOLIDAYS:** See "Stockholm".

**POLICE/AMBULANCE/FIRE:** Dial 90 000 and ask for Police, Ambulance or Fire Department.

**TELEPHONES:** Telephones available in Agent's offices at quay and telephone boxes.

**DELAYS:** Normally no delays.

**AUTHORITY:** Chairman of the Harbour Board, Valjegatan 17, 294 00 Sölvesborg. Tel. 0456/10247. Harbour Office, Box 49, 294 00 Sölvesborg.

## STENUNGSUND: 58.04 N. 11.49 E.

**DOCUMENTS:**

3 Crew Lists.
2 Passenger Lists.
1 Tobacco and/or Stores List.
1 Manifest.
1 List of Animals on Board (if any).

Access to the usual ship's papers (measurement, register, certificate, etc.).

If away from Sweden more than 15 days: Bill of Health.

**PILOTAGE:** Pilots board West of Skallen Lighthouse outside Marstrand. Pilots will not take big ships during darkness. Those ships must anchor and await daylight. Calling for Pilot can be made in usual manner and on VHF, Channel 16. Give twenty-four hours notice of ETA through Agents. (Also see "Stockholm".)

**ANCHORAGE:** While awaiting berth vessels anchor outside harbour N.W. of jetty. Safe anchorages everywhere, but fairway South of Galterön Lighthouse has to be avoided.

**RESTRICTIONS:** Large vessels daylight entry only.

**MAX. SIZE:** 65,000 d.w. Draft at berth is only limit, 12·7 m. at North side, and 11 m. at South side of jetty at mean water level.

**HEALTH:** No special pratique necessary. If any disease or fever suspected on board, doctor must be called on arrival. Pratique automatically granted when entering from another port in Sweden.

**RADIO:** Gothenburg radio.

**VHF:** Channel 16.

**TUGS:** Tugs from Gothenburg will join at bridge South of harbour. Ship's lines always used.

**STEVEDORES:** None. Tanker port only.

**MEDICAL:** Doctors and dentists available at short notice. Hospitals situated at Uddevalla and Kungälv, ambulances at Stenungsund.

**TANKERS:** 8 in. hoses at jetty. At North side of jetty tankers berth starboard side to, and at South side port side to. 4-ton crane situated on jetty but ship's derrick also used for hoses.

**FRESH WATER:** Supplied by hose at a rate of 25 tons/hour.

**FUEL:** Only available by barge from other places (i.e. Gothenburg). Bunkering only during daylight. Can be ordered at short notice.

**FIRE PRECAUTIONS:** Normal.

**GANGWAY/DECK WATCHMEN:** Watchmen from ashore necessary when telephone connected.

**CUSTOMS ALLOWANCES:** 200 cigarettes. One bottle of spirits.

**IDENTIFICATION CARDS:** Not required.

**CONSULS:** None at Stenungsund, but at Gothenburg.

**REPAIRS:** Some minor repairs may be effected.

**REPATRIATION:** All facilities exist. Consuls at Gothenburg.

**AIRPORT:** Gothenburg 50 km. away. Regular airlines.

**TIME:** GMT plus 1 hour. Permanent.

**HOLIDAYS:** Tankers load and discharge all year round.

**TELEPHONES:** Connected on board if wanted. Watchmen attend calls. Fireman and alarm on jetty during whole operation.

**AUTHORITY:** Statens Vattenfallsverk, Varmekraftverken, 444–00 Stenungsund, Sweden. Cables "Kraftverket". Tel. 0303–70670.

## STOCKHOLM: 59.19 N. 18.03 E. (See Plans)

**DOCUMENTS:**
(*a*) Crew List; normally 2 copies; for oil harbour at Loudden and Free Port, 3 copies
(*b*) Passenger List: regular passenger services 2 copies; cruise ships (lists for cruise ships must be sent in advance to Agent for forwarding to Immigration Authorities), 2 copies.
(*c*) Customs Documents: arrival report (form can be obtained on arrival), 4 copies.
(*d*) Quarantine Certificate or Bill of Health: Deratisation Certificate not more than six months old to be shown. *Note:* Additional quarantine regulations may be imposed in special circumstances.
(*e*) Manifest: 3 copies.
(*f*) Bills of l ading: 1 copy of each. Liners may be subject to other regulations with regard to (*e*) and (*f*) above.
(*g*) Ship's documents: Tonnage Certificate. Certificate of nationality.

**PILOTAGE:** (*Sweden general*). Applications for licensed Pilots should be made at least five hours before pilotage is due to commence. When making application specify name of vessel, tonnage, draft and destination. Also give estimated time for taking pilot on board and route. If this procedure not followed, the Maritime Service cannot guarantee to supply a Pilot without considerable delay to vessel.

Preferable make application by telephone, or by radio via a coastal station or by some other method direct to pilot station nearest point where pilotage is to begin. Also possible request Pilot by VHF (ultra shortwave) telephone to any Maritime Service pilot station, Pilot waiting point or lighthouse which is equipped with VHF.

The Maritime Service's network of permanent VHF telephone stations has been extended to give almost complete coverage of all pilot stations and waiting points and is also operative for a number of lighthouses. The radio stations can operate on different channels and are equipped for frequency modulation. During hours when pilot stations are open, a constant watch is kept on frequency 156·80 mc/s (Channel 16). This frequency should be used for all signals and replies – and for distress traffic. Outside these hours, normal traffic transmissions, i.e. applications for Pilots, etc. should be made on frequency of 156·65 mc/s (Channel 13) or on reserve operating frequency of 156·60 mc/s (Channel 12).

When making VHF telephone call, the type of call signal that should be sent is "Lotsarna (or pilot station) plus the name of the pilot station or the pilotage attendance".

| Calling Pilot: | | | |
| During daylight | Flag G | Flag G | Flag G |
| At night | International PT with morse lamp | International PT with morse lamp | international PT with morse lamp |
| Audible signal in reduced visibility | International PT with siren | International PT with siren | International PT with siren |
| | Pilot may be called by radio or VHF. | | |
| | *Arholm* | *Sandham* | *Landsort* |
| Boarding point | At Björkö outside outer Skerries, 2–3 n.m. N.W. or E. of Simpnäsklubb | 2 n.m. S.E. of Revengegrund light | 2½ n.m. S. of Öja |
| Anchorage for vessels awaiting Pilot | Near position stated above | Near position stated above | Near position stated above |

**ANCHORAGES:**

| | *Arholma* | *Sandhamn* | *Landsort* |
|---|---|---|---|
| (*a*) Prohibited anchorage | 59° 30′ N.<br>19° 05′ E.<br>59° 45′ N.<br>19° 14′ E. | 59° 17′ N.<br>18° 54′ E. | |
| (*b*) Suitable anchorages | 2–4 n.m. N.N.W. of Simpnäsklubb | 2–4 n.m. E. and S. of Revengegrund | 6–8 n.m. S.S.E. of Landsort |
| (*c*) Depth | 33–38 fathoms | 11–22 fathoms | 11–16 fathoms |

**RESTRICTIONS:** Very large passenger vessels and fully-loaded tankers of approx. 15,000 tons dwt or over not allowed pass through Skerries during darkness. Via Landsort 40 ft. draft; via Sandhamn 36 ft. draft; via Simpnäs 30 ft. draft.

Ships with gross tonnage exceeding 400 tons must proceed only with an Easterly course in Lindalssundet. Ships with gross tonnage exceeding 400 tons must not proceed through Kodjupet and Sandhamnssundet (between Sandon and Korso).

Tankers with gross tonnage exceeding 22,000 tons must be accompanied by a tug from the narrows at Dalaro and Sandham through the Archipelago to Stockholm and nearby ports.

Ships with a gross tonnage exceeding 400 tons, not using a Pil must be equipped with VHF telephone which must be continuou watched on Channel 16.

Ships with gross tonnage exceeding 1,000 tons must report en to and exit out of the Archipelago as well as arrival to, and depar from the port, to the nearest manned pilot station.

Tankships with gross tonnage exceeding 1,200 tons carryin crude oil products, mineral oil and certain chemicals must ha licensed Pilot in the passages Arholma–Stockholm; Soderham Stockholm; Sandhamn–Stockholm; Landsort–Stockholm; Landso Nynashamn; Landsort–Sodertalje and in the Lake of Malaren.

**MAX. SIZE:** Via Sandhamn:
Overall length = approx. 820 ft.
Beam = ,, 100 ft.
Draft = ,, 36 ft.
Via Landsort:
Overall length = approx. 820 ft.
Beam = ,, 100 ft.
Draft = ,, 39 ft.
Via Simpnäs:
Overall length = approx. 650 ft.
Beam = ,, 100 ft.
Draft = ,, 29 ft.
There are no tides.

**HEALTH:** Vessels arriving from ports outside Europe must h inward clearance provide Customs Office with written declaration freedom from infection. Further instructions will be issued by Cu toms Office where such a declaration cannot be given.

**RADIO:** Stockholm Radio, call sign: SDJ.

**RADAR/VHF:** All three pilot stations have radar for internal u No harbour radar service. VHF Channels 16 and 12.

| Low water normal | MLW | −2 6 | +0 6 |
| lowest observed | LLW | −2 11 | −0 4 |

* Different heights of the water refer to the Swedish State Measure Datum:

** Besides the quay cranes there are 4 pontoon cranes of 6–260 tons lifting capacity, the biggest one with own propelling machinery. The number of cranes is thus 98. In addition to these there are 12 cranes in private ownership.

**DENSITY:** Salt content of 0·5%. No variations.

**FRESH WATER:** Fresh water may be obtained from quayside as well as from water barges or tugs. 1,000 cu. ft. per hour can be delivered from quayside, but at Loudden maximum 3,500 cu. ft. per hour can be delivered. Water supply capacity of tugs and water-boats varies up to maximum of 1,750–5,250 cu. ft. per hour. Special delivery charges payable for delivery of water to tanker discharge quays outside Port area by water-boat.

**FUEL:** All grades bunker oil, lubricating oil, etc. can be supplied.

**DEVELOPMENTS:** Container terminal in Free Port area completed. Depth at quayside = 34 ft. 6 in.

**GANGWAY/DECK WATCHMEN:** Not essential, but recommended for large tankers.

**OPENING/CLOSING HATCHES:** If opened and closed by stevedores, subject to extra fee.

**CERTIFICATES:**

Tonnage Certificate.
Certificate of Nationality.
Deratisation Certificate not more than six months old.
Ship's articles, crew list or similar document listing all persons signed on aboard.

**CUSTOMS ALLOWANCES:** Tobacco: 200 cigarettes per person per week or 200 g. (7 oz.) of tobacco per person per week. Wine and/or spirit: One bottle of spirits per person per week, one bottle of wine per person per week.

**CARGO GEAR:** Cargo vessels carrying goods which constitute a fire or explosion hazard or other flammable or otherwise dangerous goods must notify Port Authorities in advance of nature and quantity of goods concerned. In certain cases a red flag or red light must be carried at masthead.

**IDENTIFICATION CARDS:** Passport or seaman's discharge book with photograph.

**DENSITY:** Nearly fresh water.

**FRESH WATER:** Nearly all berths supply water by own installations.

**FUEL:** All grades, but if delivery on Saturday or holidays, notice must be given in good time, otherwise all installations are closed over weekend.

**FIRE PRECAUTIONS:** Tankers discharging, smoking only allowed in special rooms on board, not on deck or on quay.

**GANGWAY/DECK WATCHMEN:** Available for gangway. Not compulsory.

**OPENING/CLOSING HATCHES:** Normally done by the crew.

**MEDICAL:** Yellow fever, cholera and smallpox inoculations obtainable only in hospital.

**CUSTOMS ALLOWANCE:** 200 cigarettes and 1 bottle of 75 centilitre per man/week. Extra granted on request.

**CERTIFICATES:** See "Stockholm".

**IDENTIFICATION CARDS:** Not necessary.

**CONSULS:** Finland, Norway, Denmark, Germany, Holland, Belgium, Great Britain, France, Iceland.

**CARGO GEAR:** No additional requirements.

**REPAIRS:** Most repairs possible.

**TIME:** GMT plus 1 Permanent.

**DRY DOCK:** At Hernösand or Gävle.

**HOLIDAYS:** New Year's Day; Epiphany; Good Friday; Easter Monday; Labour Day; Ascension Day; Whit Monday; Midsummer Day; All Saints' Day; Christmas Day; Second Christmas Day. Work ceases at 11.30 on the following eves of holidays and is voluntary and paid with 100% overtime, Easter Eve; Whitsun Eve; Midsummer Eve; Christmas Eve; and New Year's Eve.

**POLICE/AMBULANCE/FIRE:** Telephone numbers: Accidents, Police 90000; Fire, ask for alarm 90000. Foreign call 001. Ambulance 12 32 00. Taxi 15 72 00. Pilot station 86000. Board of Trade 11 32 91.

**DEVELOPMENTS:** Harbour can be closed by ice some time during winter but assistance given by State ice-breakers as long as possible.

**AUTHORITY:** Sundsvalls Kommun, Hamnforvaltning.

**AGENTS:** Chartering, Tramp & Liner Agents. Aktiebolaget Emil Bredenberg, Sjögatan 1, 851 02 Sundsvall. Tel. 060/11 11 47. Telex. 710 43. Bankers: Svenska Handelsbanken, Sundsvall, A 0.11 38 11 Sundsvall.

## TRELLEBORG: 55.21 N. 13.09 E.

**DOCUMENTS:** See "Stockholm".

**PILOTAGE:** Available day and night. Meet inward-bound ships on roads with motor boat. Outward-bound pilot obtained from pilot station of Trelleborg. Tel. 10141. Pilots also attend warpings and hawser-moorings. Pilot boats provided with short-wave radio telephone, and in pilot station an up-to-date radar set is installed. Also see "Stockholm".

**ANCHORAGE:** Recommended West of entrance fairway between fairway buoy and No. 1 light buoy. Depth varies from 23 ft. to 46 ft. Anchor ground good – clay and sand.

**RESTRICTIONS:** Entrance a straight, perch-buoyed fairway of about 5,415 ft. length, having measured depth of 28 ft., and a bottom width of 328 ft. Distance between moles 282 ft.

**HEALTH:** See "Stockholm".

**TUGS:** Tug-boats can be promptly obtained from Malmo.

**BERTHING:** New Harbour has depth of 26 ft. with quay on Northern side of basin. It is 1,640 ft. long and served by two bridges cranes and two gantry cranes. Western harbour basin has depth of 23 ft. in Western and Northern part and 26 ft. in Eastern part. Eastern harbour basin has depth of 21 ft. in Eastern and Northern part and 26 ft. in Western part. Oil quay 230 ft. long has depth at quay of 26 ft. is situated on Southern side of New Harbour. Tankers of maximum length 570 ft. can approach this quay. From oil harbour area direct importation of oils is made to Svenska Fina, Statens Järnvagär (the Swedish State's Railway Company), the Trelleborgs Gummifabriks AB (Trelleborg Rubber Factory Ltd.). Five berths equipped for Ro/Ro traffic.

**STEVEDORES:** Available (tel. 112 66, 112 69).

**FRESH WATER:** Available on all quays at request in Harbour Office.

**FUEL:** All grades bunker oils supplied at oil quay through direct pipe-line from sea depot. Orders on phone Trelleborg 107 76. Bunker coal can be ordered.

**REPAIRS:** Available through private firms. Tel. Trelleborg 150 60, 109 66 or 124 50. Diver available.

**TIME:** GMT plus 1 hour. Permanent.

**TELEPHONES:** Ship's telephone available at oil quay, tel. 148 28, and at the Harbour Bridge, tel. 147 67. Order is made through Harbour Administration.

**AUTHORITY:** Trelleborgs Hamnförvaltning.

## UDDEVALLA: 58.21 N. 11.56 E.

**DOCUMENTS:**

2 Crew Lists.

2 Passenger Lists.

Health document. Derat. Certificate when ship arrives from abroad, except from Denmark and Norway.

8 Manifests.

2 copies of Bills of Lading.

Tonnage Certificate.

Nationality Certificate.

**PILOTAGE:** Pilotage at Marstrand. Address "Marstrand Pilotstation". Required ETA five hours. VHF 16 and 6. Pilot boat South of Pater Noster Lighthouse. (Also see "Stockholm".)

**MAX. SIZE:** Draft 10·5 m.

**HEALTH:** Cable to Agent and he will arrange with health authorities.

**RADIO:** SAG. Gothenburg Radio (Göteborg radio).

**RADAR/VHF:** No port radar service, VHF Channels 14 and 16.

**TUGS:** Tugs will join in port where otherwise agreed on.

**STEVEDORES:** Arranged with Agent.

**BERTHING:**

| *Berth* | *Length metres* | *Depth metres* | *Cranes* |
|---|---|---|---|
| Skeppsholmspiren | 270 | 11 | 5, 10–25 t. |
| Badökajen | 430 | up to 10 | 8, 7–12 t. |
| Bävekajen | 180 | ,, ,, 7 | 3, 5–6 t. |
| Inner Harbour | 480 | ,, ,, 6 | mobile cranes |
| Junokajen | 200 | ,, ,, 7 | ,, ,, |

**TANKERS:** Draft in the Skeppsviken Oilport, 10·5 m.; at the Badö Oilport, 9·5 m.

**CARGO-HANDLING FACILITIES:** The newly completed "Skeppsholmspiren" has 270 metres of wharf with 11 metres depths at MW. Five electric cranes of 12 to 25 tons capacity. This wharf is especially constructed to handle the loading/unloading of bulk cargoes ore, coal, coke, scrap iron, etc. Very large storage areas. Connected to the National Railway System.

*Grain Cargoes:* Three silos owned by private companies.

**FRESH WATER:** Available at any quay.

**FUEL:** All grades available.

**FIRE PRECAUTIONS:** Only for Benzine tankers, when a fireman shall be on duty as a watchman.

**GANGWAY/DECK WATCHMEN:** There are watchmen available.

**OPENING/CLOSING HATCHES:** Preferably by crew. Can be arranged by stevedores.

**CERTIFICATES:** Tonnage Certificate, Nationality Certificate; Derat Certificate.

**CUSTOMS ALLOWANCE:** 200 cigarettes and one bottle of spirits for each man as a normal quantity. Possible to be increased for Master.

**IDENTIFICATION CARDS:** Not required.

**CONSULS:**

Danish, tel. 10186 Norway, tel. 10055
Finland, tel. 11631 Holland, tel. 34430

**REPAIRS:** Facilities available.

**DRY DOCKS:** Dock for 20,000 tons d.w.

**REPATRIATION:** In accordance with instructions of consul.

**AIRPORT:** Gothenburg, 100 kilometres.

**TIME:** GMT plus 1. Permanent.

**POLICE/AMBULANCE/FIRE:** Police, 90 000; Ambulance, 90 000; Fire 90 000.

**TELEPHONES:** Available for placing on board.

**AUTHORITY:** Harbour Manager, 451 01 Uddevalla 1. Tel. 149 40.

**AGENT:** Anders Smith Shipping AB, Bavebacksgatan 19, POB 31 S–451 01 Uddevalla 1. Telex 42044 Smith S. Tel. 0522–36280; 30040; after hours tel. 0522–16729. Cables: "Andsmith Uddevalla".

## UMEA: 63.49 N. 20.16 E. (See Plan)

**DOCUMENTS:**

*Ship's Documents:*

Tonnage Certificate.
Certificate of Nationality.
Deratisation Certificate (not older than six months).

*Supplied by Master on arrival:*

1 copy of each Manifest.
1 copy of each Bill of Lading.

*Supplied by Agent and signed by the Master on arrival from foreign ports:*

1 Maritime Declaration of Health.
3 Crew Lists (one set).
2 Passenger Lists (one set).
1 Crew Effects Declaration.
2 Ship's Stores Declarations.
2 Cargo Declarations.
4 Reports of Arrival.
1 Declaration of Living Animals (if any) (supplied by the Customs Officer).

*Furthermore on arrival from any port:*

1 Report of Arrival, with double net tons, if applicable (Harbour Office).
1 Passenger List (if any in transit).
1 Crew List.

*On departure to a Foreign Port*

5 Reports of Departure.

**PILOTAGE:** Umea Pilot Station: Bredskar. Tel. 090–45021 and 090–45544. Telegraphic address "Pilotstation Umea".

At least 5 hour's advance notice of ETA at pilot station, stating time and pilot station and destination, can be given over any Swedish coastal radio station or free of charge on VHF over any Swedish pilot station and some lighthouses.

Pilot station and pilot boats fitted with VHF Channel 16 – calling and safety; Channel 13 – pilotage and traffic; Channel 12 spare channel.

All pilot boats orange with flag "H" and equipped with radar.

Boarding point, 63° 36.5′ N. 20° 25.5′ E., 0·5 nautical miles South of Vaktaren Lighthouse. In case of bad weather, in the fairway, closer to the pilot station.

Anchorage for vessels awaiting Pilot: 63° 36′ N. 20° 28′ E., 1·5 nautical miles South East of Vaktaren Lighthouse. Depth 18 to 30 metres.

**ANCHORAGES:** See "Pilotage".

Osterfjarden roadstead between Umea Uthamn and Obbola. Length about 2,800 metres and about 400 metres wide, midstream in River Umea. To the North and South of 63° 42.3′ N. 20° 21.0′ E. and with a depth of 12 to 22 metres.

*Anchorage is forbidden* around position 63° 40.5′ N. 20° 20.0′ E.

Cables and fresh water pipe-line on Osterfjarden roadstead passing East–West around lat. 63° 42.5′ N.

**RESTRICTIONS:** Entry permitted during darkness, for tankers, not more than 13,000 tons dwt. and a maximum draft of 7.62 metres, and dry cargo vessels with a draft not exceeding 8·53 metres.

During unsuitable weather conditions, according to the Pilot on duty.

Tankers, exceeding 1,600 grt. and with a cargo of mineral oil products and other dangerous cargoes, must take a Pilot.

**MAX. SIZE:** Maximum depth and maximum permissible draft (at MW) in the fairway as follows:

| *The fairway to:* | *Maximum draft metres* |
|---|---|
| Ferry Station No. 1–2 | 8·0 |
| Ferry Station No. 3 Oil Berth, Stormskar Berth No. 1–10 and Obbla | 10·2 |
| Holmsund Oil Jetty | 5·5 |
| Umea Inner Harbour and Gimonas Oil Jetty | 3·0 |

No tide.

**PRATIQUE:** Free pratique automatically for ships arriving from non-infected areas. In event of any suspected disease or fever on board notify the Agent, who will give necessary directions. It is possible to send a telegraphic message to "Sanitary Authority, Umea" containing state of health on board, in ordinary items or code. (Also see "Documents".)

**IDENTIFICATION CARDS:** None required.
**CONSULS:** Denmark, Finland and Norway.
**REPAIRS:** Most deck and engine repairs, as well as electrical.
**DRY DOCKS:** None.
**REPATRIATION:** Yes. Accommodation to be ordered in good time.
**AIRPORT:** Arlanda, 120 kilometers. International lines.
**TIME:** GMT plus 1 hour.
**HOLIDAYS:** See "Stockholm".
**POLICE/AMBULANCE/FIRE:** Tel. 90000.
**TELEPHONES:** In oil and deep-water harbour, most quays fitted with telephones.
**SERVICES:** Compass adjusting. Small radio repairs by local radio men.
**SHORE LEAVE:** Crew can leave vessel after customs clearance and immigration control.
**AUTHORITY:** Västerås Harbour Board, Sigurdsgatan 2, 722 10 Västerås. Tel. 021–180100.

## VASTERVIK: 57.46 N. 16.38 E.

**PILOTAGE:** Pilot boards at Ido, available day and night.
**BERTHING:** *Outer Harbour:* Djuphamnskajen, length 200 metres, depth 8 metres.
Oil Quay: depth 8 metres, equipped with three 8 in. pipe-lines.
Ferry Harbour: quay length 100 metres, depth 5·5 metres.
*Inner Harbour:* quay length 900 metres, depth alongside from 4 to 6 metres.
Oil berth: depth alongside 6 metres.
**FRESH WATER:** Can be obtained from all quays.
**AUTHORITY:** Vasterviks Hamn, Box 73 593 01 Vastervik.

## VISBY: 57.38 N. 18. 17 E. (See Plan)

**DOCUMENTS:** See "Stockholm".
**PILOTAGE:** Tel. 0498–10138 at 0600–2200, if possible five hours before arrival. Pilotage day or night. Embark/disembark outside port entrance. Radar–VHF on pilot station. (Also see "Stockholm".)
**ANCHORAGE:** Outside harbour, water depth 30 to 50 m. Clay bottom. No mooring buoys anywhere.
**RESTRICTIONS:** No tide in harbour. Currents outside harbour up to 4–5 knots running along coast. Prevailing winds, Summer time mostly S.W., Winter between N.W. and N.E. Harbour open to winds between S.W.–W., which with strong winds will make swell along the piers.
**MAX. SIZE:** Largest vessel, 2,500–3,000 d.w. Max. length about 100 m., turning in harbour.

**TUGS:** None available.
**BERTHING:** Four roll-off/roll-on berths. Oil Quay. Depth at all quays 5 to 6 metres. No mooring buoys inside harbour. Prohibited anchor in inner basin.
**BRIDGES:** No bridges or overhead cables.
**STEVEDORES:** Working hours, Monday–Friday 0700–1700. Overtime possible.
**FRESH WATER:** Available.
**FUEL:** Coal, oil.
**REPAIRS:** Only small repairs are possible.
**AUTHORITY:** Visby Harbour Office. Tel. 0498–10427, 0498–10162.

## WALLHAMN: 58.01 N. 11.42 E. (See Plan)

**DOCUMENTS:**
3 Crew Lists.
2 Passenger Lists.
1 Tobacco and/or Stores List.
1 Manifest.

**PILOTAGE:** Pilots board West of Skallen Lighthouse outside Marstrand. No pilotage of big ships during darkness. Big ships will have to anchor and await daylight. Address: "Marstrand Pilot Station", tel. 0303–60004, VHF Channel 16. Twenty-four hours' notice to be given through Agents.
**ANCHORAGE:** Whilst awaiting berth, vessels can anchor South of the entrance.
**RESTRICTIONS:** Large vessels entry only in daylight.
**MAX. SIZE:** About 35,000 dwt. Draft not to exceed 25 ft. (20 ft. at the inner quay for stone-loading).
**HEALTH:** No special action except for suspected disease, in which case Agent should be contacted for further information.
**RADIO:** Gothenburg Radio.
**TUGS:** Tugs from Gothenburg will join at entrance.
**BERTHING:** Two berths for roll-on/roll-off; 200 metres of quay for conventional handling; 50 metres of quay for loading of stone-products.
**STEVEDORES:** ETA given to Agents is sufficient.
**MEDICAL:** Doctors and dentists available at short notice. Nearest hospital in Kungaelv, 45 km.
**FRESH WATER:** Supplied from quay.
**FUEL:** Most grades of bunker oil available with short notice.
**GANGWAY/DECK WATCHMEN:** Available and recommended at least when connecting ship's telephone (0304–60383).
**OPENING/CLOSING HATCHES:** By crew or by stevedores.
**CUSTOMS ALLOWANCES:** 200 cigarettes, 1 bottle of spirits allowed each man.
**IDENTIFICATION CARDS:** Not necessary. Seamen's Book or Passports should be carried.
**CONSULS:** In Gothenburg, 55 km. away.
**REPAIRS:** Smaller repairs performed by own workshop. More complicated repairs by experts from Skaerhamn, 30 km. away.
**REPATRIATION:** All facilities available.
**AIRPORT:** Torslanda International Airport, Gothenburg, 55 km. away.
**TIME:** GMT plus 1 hour, all the year round.
**HOLIDAYS:** Stevedoring and clearance of vessels can be performed every day of the year, 24 hours' service.
**TELEPHONE:** Connected onboard if wanted.
**POLICE/AMBULANCE/FIRE:** Tel. 90 000.
**SHORE LEAVE:** No restrictions.
**AUTHORITY:** Wallhamn AB Port Authority, S–444 01 Stenungsund, Sweden. Tel. 0304–60250. Cables: "Wallhamn".

**AGENTS:** Wallhamn AB – Roto Line, POB 103, S–444 01 Stenungsund, Sweden. Tel. 0304–60250. Telex 2429.

## YSTAD: 55.26 N. 13.50 E. (See Plan)

**DOCUMENTS:**
Crew List.
Passenger List.
Custom Documents.
Manifests.
Bills of Lading.
Ship's Papers, etc.

**PILOTAGE:** Vessels approaching Ystad's Harbour must apply for Pilot at Trelleborg at least 5 hours before pilotage due to commence. Tel. 10141 or VHF (Channel 16), stating tonnage, draft and destination. VHF tel. call sign "Lotsarna plus name of pilot's station". (Also see "Stockholm".)
**ANCHORAGE:** Inner road: 0·5 n.m. S.W. harbour entrance, 7–9 metres depth; sand and clay. Outer road: 1·0 n.m. S.W. harbour entrance, 9–10 metres depth; sand and clay, good anchorage ground. The road is open for winds between S.S.W. Spanska redden: 1·5 n.m. S.W. to S. harbour entrance, 13–16 metres depth. The road is open for winds between S.E. to S.W.
**RESTRICTIONS:** Vessels draft. 20 ft. can enter harbour during darkness, and during day draft of 22 ft. 6 in.
**BERTHING:** Vessels of 160 metres length and 20 metres breadth can enter harbour.
**MAX. SIZE:** Largest fully loaded vessel that can enter harbour about 5,000 d.w.
**RADIO:** Göteborg, Malmö and Karlskrona.
**VHF:** Between 0500–1900 possible contact pilot station by VHF Channel 16. Outside these hours frequency 156·65 mc/s (Channel 13) or operating frequency 156·50 mc/s (Channel 12).
**TUGS:** Tug usually meets vessel about 1 mile S.S.W. harbo entrance. Ship's lines used. Tugs not compulsory.
**STEVEDORES:** Stevedores must be ordered from Ystads Stuv AB. working hours Monday–Friday 0700–1630. Meal intervals 090 0930 and 1200–1300.
**MEDICAL:** Agents to be notified in advance if medical attent wanted.
**TANKERS:** Load/discharge lines 8 in. diameter, but reduc pieces for 6 in. and 10 in. diameter.
**FRESH WATER:** Available from quays. About 20 tons/hour.
**FUEL:** Coal and oil can be obtained.
**GANGWAY/DECK WATCHMEN:** Can be arranged.
**OPENING/CLOSING HATCHES:** Crew.
**CERTIFICATES:** See "Stockholm".
**CUSTOMS ALLOWANCES:** (Tobacco), about 200 cigarettes 200 gram of tobacco for each member of crew. (Spirits), one bot for each member of crew.
**CARGO GEAR:** Loading/discharging with shore cranes.
**IDENTIFICATION CARDS:** Not needed.
**CONSULS:** Danish Consul, tel. 13800. Finnish Consul, tel. 1394 Norwegian Consul, tel. 13930.
**REPAIRS:** Slipway for vessels up to about 500 d.w.
**AIRPORT:** 40 km. distant and served by regular airlines.
**TIME:** GMT plus 1 hour. Permanent.
**HOLIDAYS:** Christmas; New Year; Easter; Whitsun and Mi summer. No cargo work.
**POLICE/AMBULANCE/FIRE:** Police tel. 13620; Ambulance 9000 Fire 96000.
**SHORE LEAVE:** Permitted.
**AUTHORITY:** Ystads Hamnförvaltning, Ystad. Tel. 10005, 1038

# Syria

**GENERAL:** Restricted Entry into Syrian Territorial Waters: Vesse destined for Syrian ports (Lattakia, Banias and Tartous) are on allowed to enter the territorial waters of Syria between 0600 a 1600 hours – subsequently only during day-time.

The Master should communicate with the Port Authorities Lattakia over radio frequency 2182–500 and Channel 16 stating th arrival, position and speed of the vessel. Consequently no vesse are allowed to leave during darkness.

## BANIAS 35.14 N. 35.56 E.

**PILOTAGE:** Pilots board all tankers approaching the Termina These Pilots act in the same capacity as Mooring Masters in th berthing of vessels, after which they supervise the raising of th flexible hoses and their connection to the ship's manifold. Durin loading operation they act as the Company's Representatives. Th Company's Mooring Masters will meet tankers in the vicinity o Marqab Light Buoy.

It is requested that tankers of 40,000 dwt. and over should hav rigged, when in light condition, an accommodation ladder lowere to about 12 ft., above the water. This can be adjusted to suit cond tions. A pilot ladder should be rigged immediately abaft the accom modation ladder, to within 2 ft. above the water. This will enable th Pilot to ascend the pilot ladder clear of the launch and then step o to the lower platform of the accommodation ladder. United Kingdo Merchant Shipping (Pilot Ladders) Rules 1965 is relevant.

**APPROACHES:** Vessels approaching the port should keep to th authorised passsage, defined by the following co-ordinates:
(*a*) Lat. 35° 13′ 00″ N. Long. 35° 42′ 00″ E.
(*b*) Lat. 35° 13′ 00″ N. Long. 35° 56′ 00″ E.
(*c*) Lat. 35° 16′ 00″ N. Long. 35° 55′ 24″ E.
(*d*) Lat. 35° 16′ 00″ N. Long. 35° 40′ 34″ E.

**ANCHORAGE:** In the event of a berth not being available, o suspension of mooring operations on arrival, a good anchorage to be used South of the berths in the vicinity of the Marqab Lig Buoy.

Shore control will keep you advised of expected time of berthin etc. It is important and in your own interests to maintain a listenin watch on Channel 16 R/T or visual on the shore signal station t avoid delays.

On being advised of expected time Mooring Master will boar heave short your anchor before his arrival.

**MAX. SIZE:** No. 2 Berth – draft 50 ft. Winter – 52 ft. Summer
No. 3 Berth – draft 51 ft. ,, – 53 ft. ,,
No. 4 Berth – draft 42 ft. ,, – 44 ft. ,,
No. 5 Berth – draft 34 ft.

**NOTICE OF READINESS:** Time of your Notice of Readine tendered will be considered when vessel arrives in the very ne vicinity of the Marqab Light Buoy (position Lat. 35° 12′ 7″ N. Lon 35° 54′ 46″ E.), where the Mooring Master, who is the Compan Representative, will board and receive ship and remain on boa throughout the entire operation.
**HEALTH:** Masters of tankers due may obtain free pratique addressing the usual quarantine message to their Agents throu commercial radio channels.
**RADIO:** Syrian Company for Oil Transport, Banias Terminal mu be informed 48 hours prior to arrival of a vessel's ETA, quantity cargo required if in a state to load and maximum loading ra required. All times to be given in GMT.

Banias Terminal Radio Station. Call sign: "YKM 5". Frequency: 500 kc/s and 442 kc/s and VHF Channel 16.

Tanker VHF Radio Communications. Vessels approaching Banias can communicate with the Terminal by FM, VHF, Channel 16. Range-30 to 40 miles. Frequency 156·8 Mc/s. Simplex Operation. Call sign: Banias. On arrival, ships radio installations will be sealed off according to normal practice and the boarding Mooring Master will put his own portable equipment on board. Communications will then be as follows:

Banias. Equipment: Fixed station sited in the Terminal. Call sign: "Banias". Frequency: Transmitting 163·6 Mc/s. Receiving 159·1 Mc/s. Range: 8 miles. Watches: Continuous whilst vessels are in port or immediate vicinity.

Mobile Station. Equipment: Placed aboard vessel on arrival at Banias. Call sign: Ship's name. Frequency: Transmitting 159·1 Mc/s. Receiving 163·6 Mc/s. Range: 5 miles. Watches: Mutually agreed between ship and the Terminal on first establishing contact.

*Note:* The radio telephone circuit is connected with the main Company Communications network in Banias Terminal.

Communication with the Petroleum Company should be through the Agent.

It is essential that tankers bound Banias communicate with station ODC–8 at least 48 hours before arrival and thereafter maintain contact.

**MOORING REQUIREMENTS:** For tankers loading at Banias are as follows:

*Forward*

Anchors to be fitted with marker buoys with 20 fathoms of line.

2×120 fathom mooring lines.

2 rope stoppers.

1 suitable wire stopper (preferably carpenter patent) for use with 4¼ in. to 5½ in. mooring lines.

*Aft*

4×120 fathom mooring lines.

4 rope stoppers.

2 suitable wire stoppers (preferably carpenter patent) for use with 4¼ in. to 5½ in. mooring lines.

*Boat Ropes*

To be rigged on either side of ship, and of not less than 4½ in. circumference.

**BERTHING:** At all berths vessels moor using both anchors forward, with wires to a buoy on the port bow, one buoy astern and one on each quarter. Hoses are lifted on the port side.

Berth No. 1: Out of commission.
Berth No. 2: depth 56 ft., 2×20 in./16 in. hoses.
Berth No. 3: ,, 57 ft., 2×20 in./16 in. hoses.
Berth No. 4: ,, 48 ft., 2×16 in./12 in. hoses.
Berth No. 5: ,, 40 ft., two 12 in. hoses.
Berth No. 6: ,, 46 ft., two 12 in. hoses.

**HOSES:** A SWL of 7 tons is recommended. Must be capable of plumbing overside abreast of Loading Manifold.

*Loading Manifold:* Two suitable reducers already fitted and to be connected to our hose connections (12 in. series 150 flanges).

Two spanners ⅜ in. of non-sparking metal; two spanners ⅞ in. non-sparking metal; two hammers 7 lb. of non-sparking metal. One axe 2½ lb. Four sets of hose clamps complete with bolts. Gaskets for the 12-in. hose connections. Four slings Terylene rope, 1¾-in. diameter, 9 ft. from end to end. Four stoppers Terylene rope, 1¾-in. diameter, 18 ft. long with one 12-in. eye at the end. Two stop-lines Terylene rope, 2-in. diameter, 50 ft. long, complete with a hook, spliced at one end. Hook tested to 8 tons. Two Terylene ropes, 1¼-in. diameter, 120 ft. long, to be ready on stoppage loading. Two rubber mattresses to be used under stop-lines to protect them from chaffing.

Ship's crew with an officer in charge to assist all operations, as advised by the Mooring Master. This includes lifting, connecting, disconnecting, lowering of hoses and tending anchor cables and moorings.

**FRESH WATER:** Facilities are not available for the supply of potable or boiler water.

**FUEL:** Bunkers are not available at Banias.

**BALLAST:** All tankers should ensure ballast is clean. Authorities are most strict and impose heavy fines for the slightest contravention. Ballast quantity should be kept to the minimum required to ensure safe manoeuvring. No facilities for disposal of ballast ashore.

Banias is an open roadstead and sudden changes in weather can be experienced especially during the winter months. It is good practice to commence loading as soon as hoses are connected and whilst ballast discharge is still in progress, always providing this can be achieved safely and with no danger of contamination.

**POLLUTION:** The Port Authorities will, in cases where pollution is ascertained, collect a declaration from the Master of the offending ship, in which declaration he authorises his agents to pay any fine to be levied by the official committee in the future.

In the light of the above and to avoid any delay to vessels, owners are kindly requested to:

1. Supply vessels with necessary chemicals to destroy any quantity of oil overflowing into the sea.
2. Provide a bank guarantee of Stg. £5,000 to be deposited against eventual fines. Such a guarantee (or cash) must be given before offending vessel is released.

**LOADING:** Ships' Personnel are solely responsible for the loading operation, i.e. starting, loading rate, tank switching, topping off, stopping, etc. The Mooring Master will pass requirements to the shore control. It is in vessel's interest to advise loading rate required, also to give 30 minutes' notice of expected time of commencing loading. Order to start will be taken as final.

The Mooring Master must be advised when ship estimates 1,000 tons to go for completion of loading.

Ensure scuppers are effectively plugged. On no account are plugs to be removed.

A complete watch on deck must be maintained throughout the operation, especially towards the shore signal station, to ensure safe loading and avoid delays.

*Loading Rates:* No. 2, 7,000 tph.; No. 3, 8,500 tph.; No. 4, 6,500 tph.; No. 5, 4,000 tph.

**REGULATIONS:** *Vessel in berth:* Ships are not allowed to remain in berth for any reason when loading operation stopped. Hoses disconnected and dropped to sea unless stay authorised by Terminal Superintendent.

*Lighting:* During hours of darkness the manifold and poop mooring area of the sea in vicinity of ship should be adequately lit.

*Main Engines:* Must be kept on shore notice. Repairs which will immobilise must not be carried out in berth.

*Deck Machinery:* Must be ready for immediate use at all times.

*Whistle or Siren:* To be available at all times.

*Signalling:* An "Aldis" type lamp to be readily available.

*Stores, provisions, etc.:* It is strictly forbidden for provisions, stores or other items to be received or discharged whilst loading is in progress. Launches or other craft must not lie alongside during the same period.

*Tanker Safety Regulations:* Tanker Safety Requirements must be strictly adhered to at all times. The Mooring Master is authorised to stop all operations should he consider the safety regulations are not being complied with.

*Boarding:* The boarding of a vessel whilst in mooring should be restricted to persons holding valid passes which are issued by the IPC on application to ship's Agents and authorised chandlers.

This restriction is carried out in conjunction with the Syrian Harbour and Security Authorities.

**WEATHER:** The Director of Port Authorities has issued statistics of the weather conditions along the Syrian coast after an experience of 20 years.

*State of winds and whirlwinds on the Syrian Coast*

| *Winter* | *Kind and direction of winds* |
|---|---|
| December | Regular winds blowing from N.E. to S.E., sometimes S. to S.W., the alteration of winds is accompanied with rains. |
| January | Excess of storms starting to blow from S.E. to N.E. The alteration of winds from the E. is occasionally accompanied by heavy rains with probability of hail. |
| February | Excess of storms and heavy rains blowing from S.W. to N.E. and E. |
| *Spring* | |
| March | Variable winds from S.E. to S.W. and accompanied by heavy rains and altering to N.W. slight. |
| April | Variable winds from N.W. and S.W., and S. winds accompanied with light rains. |
| May | Regular winds blowing S.W. to N.W. and altering to S. sometimes accompanied by rain. |
| *Summer* | |
| June | Slight winds from S.W. and S. |
| July | Moderate winds from S. to S.W. |
| August | Slight N.W. winds. |
| *Autumn* | |
| September | Winds S.W. and N.W. accompanied by some rain from 15th September. Winds will lighten during the end of the day and will alter at night to slight E. |
| October | Variable winds from W. to S. and N.W. accompanied by rain will alter at night to E. |
| November | The winds are variable from N.E. and N.W. accompanied sometimes by rain which will alter to E. |

**SERVICES:** In the event of tankers requiring assistance to lift loading hoses, recover lost anchors, and cables, etc., limited aid may be given during normal working hours. Current charges are available on application from Agent.

**SHIPMASTER'S REPORT:** Cigarette allowance is strictly enforced at 40 cig. per man, and has to be carefully declared. If the Chief Steward has a slop-chest, it has to be carefully declared. Whisky has to be declared separately from other spirits, but in practice it is better to declare each type of spirits separately.

The ship's Log Book is stamped by the police.

The new flag is red, white and black, with an eagle in the centre and may be obtained through the Agent.

**AUTHORITY:** Syrian Company for Oil Transport, P.O. Box 13, Banias. Cables: SCOT, Banias. Telex: 20031.

**AGENT:** Gulf Agency Co. (Syria) Ltd., Banias, Syria. Cables "Gacship", Banias. Tel. 455. Telex 20906 Beirut.

## LATTAKIA: 35.31 N. 35.46 E.

**PORT LIMITS:** *Anchorage:* Within a circle of 1 mile in diameter centred in position 35° 31′ 6″ N. 35° 45′ 0″ E.

A vessel is considered to be an "arrived ship" when moored at anchor in the above-mentioned area, and announced her arrival to the Pilot Station.

Free pratique is granted between 0700 to sunset. Passenger ships at any time.

Laytime commences to count according to Charter Party Terms or Genweight C1 or if not mentioned from the time of nomination to work after granting free pratique.

**DOCUMENTS:**
4 Arrival Declarations.
4 Crew Lists (with Passports).
4 Lists of Transit Passengers (with Passports).
4 Lists of Landing Passengers (with Passports).
1 List of Cargo in Transit.
2 Cargo Manifests for Discharging.
1 List of Cigarettes and Spirits.
1 Stores List.

**APPROACHES:** Vessels approaching the port should keep to the authorised passage defined by the following co-ordinates:

| | |
|---|---|
| Lat. 35° 32′ 30″ N. | Long. 35° 31′ 00″ E. |
| Lat. 35° 32′ 30″ N. | Long. 35° 45′ 06″ E. |
| Lat. 35° 30′ 36″ N. | Long. 35° 45′ 24″ E. |
| Lat. 35° 30′ 36″ N. | Long. 35° 30′ 30″ E. |

**PILOTAGE:** Advise ETA 24 hours in advance. Pilot boards at anchorage.

**ANCHORAGE:** Within a circle of one mile diameter centred in position 35° 31′ 6″ N., 35° 45′ 0″ E.

**MAX. SIZE:** Harbour draft maximum 31 ft. for cargo vessels and 23 ft. passenger vessels. Oil terminal draft 52 ft., length 600 ft.

**HEALTH:** Free pratique granted by Authorities who board vessel at entrance. Certificate of Health signed by Master required. If coming from another port in same country, pratique granted immediately, free of charge.

**RADIO:** Call sign YKM7 continuous watch on 2182 kc/s and 500 kc/s.

**TUGS:** 800 h.p. tugs always ready with pilot boat. Ship's lines usually used.

**SPECIALISED CARGO-HANDLING FACILITIES:** Silos for grain export capacity 4,500 tons with three loading ways with full capacity of 500 tons per hour.

Silos quay length: 180 metres with 9·5 metres depth. Import of grain only for bagging.

No berths for handling liquid chemicals or LPG carriers only two berths for fuel, benzine and light fuel.

In accordance with the five-year Development Plan (1971 to 1975) the Lattakia Harbour will be enlarged and container quays fully equipped will be constructed.

**MEDICAL:** Several hospitals available.

**POLLUTION:** See "Banias".

**TANKERS:** One berth, max. size of vessel 600 ft. length, 52 ft. draft. Hose connections 10 in.

**DENSITY:** 1025.

**FRESH WATER:** Available by barge in basin and from pipeline on quay.

**GANGWAY/DECK WATCHMEN:** Can be supplied at Master's request.

**OPENING/CLOSING HATCHES:** Performed by crew.

**CUSTOMS ALLOWANCES:** 2 packets cigarettes per man per day. One bottle of spirits per man. No control on beers or wines.

**CREW IDENTIFICATION CARDS:** Only Passports required.

**REPAIRS:** Engine and deck repairs available.

**TIME:** Local time: GMT plus 2 hours. Summer time (1st May – 30th September): GMT plus 3 hours.

**TELEPHONES:** At present available only at passengers' quay. Facilities will eventually extend to all ships.

**GENERAL:** No vessels allowed to cross line from end of breakwater up to shore at following point: 35° 32′ 30″ N. 35° 31′ 30″ E.

**SHORE LEAVE:** Permitted within regulated limits.

**HOLIDAYS:** New Year's Day (January 1st); Ramadan; Revolution Day (March 8th); Adha; Mohammedan New Year; Easter Sunday; Evacuation Day (April 17th); Labour Day (May 1st); Birthday of the Prophet; Ramadan; Christmas Day (December 25th).

The dates of the Mohammedan holidays are stated approximately. Friday: weekly day of rest. Arrangements for work on Fridays must be made at least 24 hours in advance. Working hours: 07.00–14.00. With the exception of the first 3 days of both the Ramadan and Adha holidays, May 1st and Revolution Day, the port operates all the year round, weather permitting, against payment of the prescribed overtime fees outside ordinary working hours.

**WEATHER:** See "Banias".

**AUTHORITY:** Directorate of Lattakia Port.

**AGENT:** Gulf Agency Co. (Syria) Ltd., POB 210, Lattakia, Syria. Cables "Gacship", Lattakia, Tel. 12214, 12670. Telex 20906 Beirut.

## TARTOUS: 34.53 N. 35.45 E.

**DOCUMENTS:** Bill of Health – The usual International form should be filled in on arrival and the Agent will deliver on board the Bill of Health and Port Clearance upon departure.

Manifests – Should be certified by the Syrian Consulate at port of loading in four copies.

Ship's Registry – To be presented to the Port Authorities upon request.

Crew List – In four copies should be handed over to the Agent along with passenger or transit manifests.

Store List – Two copies required by Customs who will allow 40 cigarettes to be retained by each person on board, the balance of slop chest and stores shall be sealed during ship's stay in port. Customs officers are at liberty to search crew quarters.

Deratisation Certificate – Valid certificate required and no extension can be obtained.

**APPROACHES:** Vessels approaching the port should keep to the authorised passage defined by the following co-ordinates:

| | |
|---|---|
| Lat. 34° 56′ 24″ N. | Long. 35° 38′ 00″ E. |
| Lat. 34° 56′ 24″ N. | Long. 35° 48′ 36″ E. |
| Lat. 34° 59′ 00″ N. | Long. 35° 50′ 00″ E. |
| Lat. 34° 59′ 00″ N. | Long. 35° 52′ 36″ E. |
| Lat. 34° 54′ 24″ N. | Long. 35° 51′ 12″ E. |
| Lat. 34° 54′ 24″ N. | Long. 35° 37′ 48″ E. |

**ANCHORAGE:** Vessels proceeding to Tartous pick up Pilot at the Anchorage which is ½ mile South-west of the main breakwater. The rocky bottom constitutes good holding ground with a depth of up to 20 metres of water.

**MAX. SIZE:** At present minimum depths are at the entrance of the harbour about 2 cables seaward of the green light on the South-west Breakwater. Depth about 33 ft. Maximum draft 32 ft. dependent on swell.

*Tankers:* See below.

**RADIO:** Tartous Radio, call sign YKO, continuous watch on 218 kHz from 0600 to 2400.

**BERTHING:** Mooring Masters are temporarily supplied by Lattakia port and vessels should therefore contact Agents at Lattakia giving them their ETA and requirements. Vessels berth heading to the predominant South-western winds, i.e. stb. side alongside unless contrary winds prevail at the time of the berthing.

Southern breakwater – 2,650 metres long called Main breakwater
Northern breakwater – 1,650 ,, ,, ,, Lee breakwater

The distance between the two heads of these breakwaters is 25 metres with a depth of 10½ metres, which is being dredged in order to bring it up to 13 metres.

The harbour is divided into three basins which are protected by the two breakwaters: (1) The North basin; (2) The Middle basin; (3) The Southern basin. The Southern basin is the only one used presently for the discharge of cargo.

Twelve vessels can be moored at anchor inside the breakwater of this basin, the depth being between 8–13 metres. The turning circle at the entrance is 450 metres diameter with a depth of 11–13 metres.

The main quay which is 150 metres wide offers on its southern side from the shore side 300 metres of jetty with a depth alongside of 2-4 metres, 300 metres with 8 metres and 200 metres with 9 to 10·5 metres depth. A standard gauge railway line is installed on the entire length of the quay.

**POLLUTION:** See "Banias".

**TANKERS:** Tartous Sealine Terminal:
Maximum safe length of tankers acceptable – 1,500 ft.
Maximum safe draft of tankers acceptable – 68 ft.
Maximum deadweight of tankers acceptable – 100,000 tons.

This is a one-berth Terminal that offers the same approaches used to reach the port of Tartous. Vessels await pilot 1·6 miles West of berth and the loading capacity is 4,000 tons per hour. Mooring, daylight only.

This operation performed without tug assistance but should there be a situation necessitating the help of a tug, same can be ordered from nearby Tartous port where 300 h.p. tugs stationed.

There are two breast buoys, two aft buoys and one astern, the vessel holding on its two anchors forward. In view of the rather sudden South-westerly winds, it may be decided to supplement the mooring lines with steel wires to assist in holding vessel in moorings.

The two flexible 10 in. hoses forming a "Y" will be connected to ship's manifold for side loading and the Terminal will supply the necessary standard flanges for the connection if required.

The Berthing Master will also supervise the loading and will keep in close contact with the control room by portable VHF radio since the vessel's own equipment has to be sealed during the ship's stay in port.

**FRESH WATER:** Unlimited supplies available to vessels berthed alongside the main pier.

**FUEL:** Only available in very limited quantities by tanker truck.

**MEDICAL:** Medical facilities are available, but serious cases may involve transportation to Lattakia or Damascus.

**DEVELOPMENTS:** A new quay for phosphate is now under construction 300 metres long and 4 metres depth and will be prolonged by a quay of 250 metres long and 11 metres depth for vessels loading phosphate up to 25,000 tons capacity.

A dry dock will be soon under construction for repairing vessels and tankers with a capacity varying between 40 and 60,000 tons. Also two slip-ways for general overhaul for small vessels of 1,00 tons and less.

**FLOATING CRANE:** A floating crane of 100 tons lifting capacity available.

**SHORE LEAVE:** No amenities for the crew exist in the town of Tartous but crew may, if required, proceed ashore with a landing permit issued by the local security services.

**WEATHER:** See "Banias".

**AUTHORITY:** Harbour Master.

**AGENT:** Gulf Agency Co. (Syria) Ltd., Houssein Ali Building, Alnarges Street, PO Box 19, Tartous, Syria. Cables "Gacship", Tartous. Tel. 21897, 22287. Telex: Beirut 20906.

# Taiwan

## HUALIEN: 23.59 N. 121.38 E.

**PORT LIMITS:** Radius of 1 mile from the centre of Hualien Kai Breakwater Beacon (23° 59′ 11.3″ N. 121° 38′ 35″ E.).

**DOCUMENTS:**
Ship's Register.
Derat Certificate.
Last Port Clearance.

Taiwan Tonnage Dues Certificate.
Pratique.
8 copies Crew List.
1 copy Crew List visaed by office of China Mission (applicable to American and Philippine vessels.)
8 copies Passenger List – Landing and transit.
1 list showing dates of vaccination (within 3 years) of all crew and any landing passengers. WHO "yellow Books" may be examined.
1 Chinese Maritime Customs Stores List.
1 list Foreign Currency in safe.
1 list Narcotics in safe.
1 list Arms and Ammunition.
1 set of copy Bills of Lading.
2 Manifests of Inward Cargo.
3 Manifests of Through Cargo.
2 lists of Unmanifested Inward Parcels.
2 lists of Mail for landing.
Vessel's Log Book.

**PILOTAGE:** Compulsory. At anchorage hoist G flag.

**ANCHORAGE:** Bearing of Hualien Kan Lighthouse (23° 58′ 40″ N. 21° 36′ 20″ E. is 315° distant about 3/4 miles.

**RESTRICTIONS:** Hualien Harbour closed to all ships at 0000 until 0500. Large ships not allowed to enter after sunset.

**MAX. SIZE:** Draft not exceeding 23 ft. and length 450 ft. may enter Hualien Harbour at present time.

**HEALTH:** At anchorage hoist Q flag.

**RADIO:** Hualien Radio XSY; ETA reported 24 hours at least before arrival.

**TUGS:** Normally used in harbour. Ship's lines should be used.

**STEVEDORES:** Stevedores will be assessed against ships except otherwise agreed between ships and consignees or shippers.

**MEDICAL:** Hospitalization can be arranged through Agent.

**FRESH WATER:** Hoses from water-lines to tanks.

**FUEL:** Fuel viscosity, SUS at 122°F, max. 225; SUS at 85°F, min. 225; SUS at 122°F, max. 200; Diesel fuel viscosity, SUS, 100°F 35–45. Fuel line 6 in. connection, otherwise notify in advance.

**DEVELOPMENTS:** The second stage of harbour extension will be completed in 1973. This will increase harbour capacity by three ship berths.

**OPENING/CLOSING HATCHES:** Normally carried out by stevedores.

**CERTIFICATES:**
Ship's Nationality Certificate.
Load Line Certificate.
Tonnage Certificate.
Certificate of Inspection of Ship.
Ship Safety Equipment Certificates.

**IDENTIFICATION CARDS:** Required.

**AIRPORT:** Domestic airport connected to Taipei and Kaohsiung International Airport (4 flights daily).

**TIME:** GMT plus 8 hours.

**AUTHORITY:** Hualien Harbour Bureau.

**AGENT:** (see Keelung). Recommended Owners contact their Taiwan Agents before sending vessel to Hualien as berthing facilities very limited.

## KAOHSIUNG: 22.37 N. 120.16 E.

**PORT LIMITS:** Ship considered to be an "arrived vessel" when anchored at a location within 2 miles distance from the harbour lighthouse.

**DOCUMENTS:**
10 Crew Lists.
1 Customs Stores List.
1 Narcotic List.
1 Foreign Currency List.
1 Crew's Declaration List.
1 Arms and Ammunition List.
1 Parcel, Passenger and Mail List (all nil items may be put in one statement).
1 set of Bills of Lading and Manifests.

**PILOTAGE:** Compulsory. Agents will arrange for pilot to board vessel at anchorage outside breakwater about 1½–2 miles West of Kaohsiung Lighthouse. Pilot boat flies code flag "H".

**ANCHORAGE:** Depth 15 metres, or anywhere clear of dredged channel.

**RESTRICTIONS:** Port closed for entry after sunset; vessels can sail at 2300 hours latest. Tankers with maximum draft 34 ft. must await high tide.

**MAX. SIZE:** Length and breadth no restriction (maximum size ever entered: 849′ 08″ LOA and 131′ 06″ b). Draft for dry cargo or bulk carriers 32 ft.; tankers 34 ft. during high tide. Tankers with draft over 34 ft. up to 55 ft. discharge at Monobuoy outside main port area, position: 22° 30′ N. 120° 18′ E.

**HEALTH:** Free pratique granted at anchorage after Master's completing Quarantine Declaration Form furnished by Quarantine doctors. No quarantine necessary if second port in Taiwan. Quarantine doctor will attend only in case any suspected contagious disease on board.

**RADIO:** Kaohsiung Radio (XSW). Normally used by Agents when cabling vessels.

Contact with the Agent and Port Authorities may be made via Kaohsiung Radio on VHF Channel 16.

**RADAR/VHF:** No radar service. VHF will be used soon.

**CARGO-HANDLING FACILITIES:** *Container Terminals:* The first container terminal includes the piers No. 40, 41 and 42. The second container terminal includes the piers No. 63, 64 and 65. Container handling equipment includes: two straddle carriers for handling 20 ft. to 24 ft. containers, another seven straddle carriers for 30 ft., 35 ft. and 40 ft. containers. One side loader for handling 20 ft. containers. One lateral straddle carrier for loading 20 ft. containers. One truck weigher, another two weighers for handling 20ft. and 40 ft. containers.

*Grain, and other bulk handling equipment:* One silo, 40,000 tons capacity, unloading 300 tons per hour. 35 grabs for unloading grain and 15 grabs for other cargo.

*Sulphur* unloaded by hoist with nets, 25 tons can be discharged per hoist per hour.

**TUGS:** Harbour tugs usually join vessel after entry and while berthing. Ship's lines always used.

**BERTHING:** No specific requirement except tankers with maximum draft of 34 ft. must berth high tide. *Wharves:* There are at present 40 wharves (including one shallow water wharf) with a total length of 6,925 metres, capable of accommodating 49 vessels – 32 ships of 10,000 ton or over and 16 of 3,000 ton or over simultaneously. *Buoys:* The harbour has in all 24 mooring buoys, including 4 sets of 20,000–ton class, 15 sets of 10,000 ton class and 5 sets of under 10,000-ton class, capable of berthing 20 vessels.

**STEVEDORES:** All Government stevedores ordered by Agents as required.

**MEDICAL:** No advance notice required unless emergency case. Vaccination Certificates against smallpox (3 years) and Cholera inoculation (6 month) required.

**TANKERS:** Discharge lines at oil terminal inside harbour 8 in. (two berths), and 12 in. at Monobuoy outside with necessary reducers supplied from ashore. In latter case, Master must inform Agents size of ship's manifold.

A single buoy mooring Chinese Petroleum Corp terminal is situated in position 22° 30′ 17″ N. and 120° 17′ 56″ E. A white flashing signal light is mounted at the centre of the buoy with a range in excess of five miles. The light appears for one second and goes off for three, it then appears for one second and goes off for twelve. This cycle is repeated.

The area around the mooring buoy has a depth of 68 feet and can accommodate tankers up to 140,000 dwt. The current runs at a maximum of 2½ knots.

A second monobuoy installed in the position of 22° 29′ 45.1″ N. 120° 16′ 40.8″ E., capable of discharging tankers up to 250,000 dw tons.

The buoy mooring has facilities for two 12″ hose connections and one 10″ bunker line. Fresh water is not obtainable. Stores can be arranged for delivery by boat under police escort. Other services available to tankers at the buoy are confined to those of an emergency nature.

Vessels programmed to use the Talnpou SBM Terminal are required to anchor off Kaohsiung Harbour for quarantine and immigration clearance, then to proceed to the SBM about 7 miles S.S.E. of the harbour anchorage.

Should the berths be occupied, the vessel is required to anchor 1·5 nautical miles North of the SBM in 14 fathoms. The Pilot/Cargo Supervisor and his hose-handling party board in this vicinity from a tug.

After the discharge of cargo, the vessel is required to return to Kaohsiung harbour anchorage for inspection and outward clearance.

**DENSITY:** Average 1015 in Summer, 1023 in Winter.

**FRESH WATER:** Most berths supply from shore lines, otherwise from barge.

**FUEL:** All grades, mostly received from barge. Owners must contact suppliers for nomination through Chinese Petroleum Corp. before ship's arrival.

**FIRE PRECAUTIONS:** No specific regulations, but routine precautions should be enforced.

**DEVELOPMENTS:** Three new berths have just been completed. No. 45 will handle general cargo vessels; No. 46 will be specifically for sugar loading; and No. 47 will be equipped with a silo of 40,000 tons capacity as a grain berth. In addition, one berth (Wharf No. 62) to handle chemical liquid cargo is under construction. A second entrance now being cut. When completed 1975, port will accommodate o.b.o. carriers of 75,000 tons, and later 100,000 tons.

A dry dock is under construction capable of handling 450,000 dwt. VLCC's. To be completed in 1976.

**GANGWAY/DECK WATCHMEN:** Recommended to meet local security requirements.

**OPENING/CLOSING HATCHES:** Mostly handled by stevedores except steel hinged covers, which are to be done by crew.

**CERTIFICATES:** Ship's Registry, Load-line Certificate and Safety Equipment Certificate must be inspected by Customs/Harbour Authorities.

**CUSTOMS ALLOWANCES:** 200 cigarettes or 1 box cigars and 1 bottle of wine or spirit allowed each.

**CARGO GEAR:** No additional requirements, but Cargo Gear Certificate must be valid.

**IDENTIFICATION CARDS:** Not required.

**CONSULS:** Japanese General Consulate, tel. 226620. Others in capital city Taipei, 230 miles North of Kaohsiung.

**REPAIRS:** Good for minor repairs. The Bureau's two ship repairs yard are separately located at pier No. 10 and Basin No. 6 in Chi-hou. Pier No. 10 yard includes a main office, a dry dock, vehicle repair plant etc. Chi-hou yard: repair workshops, slipways, etc., complete with appliances and equipment. Offers repair service to various types of ships under 4,000 tons.

**DRY DOCK:** Only small one: 116×17·0 metres takes vessel under 4,000 gt and draft less than 12 ft. 6 in.

**REPATRIATION:** Crew changes arrangeable.

**AIRPORT:** 7 miles from main port area. Open for international flights.

**TIME:** Local: GMT plus 8 hours. No alterations during the year.

**HOLIDAYS:** New Year's Day (Jan. 1–2); Yough Day (Mar. 29); Labour Day (May 1); Confucius' Birthday (Sept. 28); National Day (Oct. 10); Taiwan Restoration Day (Oct. 25); Dr. Sun's Birthday (Nov. 12); Constitution Day (Dec. 25); and Chinese Lunar New Year's Day (2 days mostly in Feb.). No work on New Year's Day (Jan. 1), Labour Day and Chinese Lunar New Year's Eve and New Year's Day. Double stevedoring rates for rest of holidays.

**POLICE/AMBULANCE/FIRE:** Police and ambulance: call 555183; Fire: 555183 or 226119.

**TELEPHONE:** Telephone on board.

**SERVICES:** Competent technicians available for repairs of radar, radio, compass adjusting and other navigational aids. Tank cleaning equipment and facilities not available.

**SHORE LEAVE:** Normally granted.

**REGULATIONS:** A curfew exists in the port area between 0100–0400 hours daily. No traffic is allowed during this period. Anybody going aboard must obtain a boarding pass.

**DELAYS:** Generally about one day's berthing delay for general cargo liners and 2–3 days for bulk cargo ships, especially during typhoon season in the months of July to Sept.

**AUTHORITY:** Ministry of Communications, Taipei, Taiwan.

**AGENTS:** Jardine, Matheson & Co. Ltd., 36 Kwei Teh Street, PO Box 81, Taipei, Taiwan. Shipping Agents, Lloyd's Agents, Cargo Surveyor. Tel. 571281 (10 lines). Telex TP391. Cables: "Jarocean".

Sub-Agent: Loong Gon Co. Ltd., 65 Lin Hai Yit Road, Kaohsiung. Tel. 553757, 555023. Cables "Loonggon", "Jarocean".

### KEELUNG: 25.09 N. 121.44 E.

**PORT LIMITS:** Considered to be an "arrived ship" once she has reported to Keelung Signal Station by VHF or visual signals whether she has entered the outer harbour or not. However, quarantine and customs inspectors do not attend ships outside the breakwater (as they do not have adequate transportation) and they do not consider a ship is an "arrived ship" unless she enters the outer harbour.

**DOCUMENTS:**

Ship's Registry.
Last Port Clearance.
Crew List.
Fumigation Certificate.
Import Manifests.
Through Cargo List.
Store List.
Arms and Ammunition List.
Narcotics List.
Foreign Currency List.
Parcel List.
Passenger List.
Yellow-book for every person on board. (Vaccination Certificate).

**PILOTAGE:** Compulsory from anchorage to dock and any other movements in port. Pilot may also meet ship within one mile outside breakwater upon ship's/Agent's request. VHF and Signal Station 25° 09′ 27″ N. 121° 44′ 23″ E. VHF radio listening on Channel 16, records arrival time and passes information to Agents or Pilots.

**ANCHORAGES:** Area is in Outer Harbour depth 8 to 16 metres but can only take eight ocean-going vessels, ship may also anchor/remain outside breakwater waiting for Pilot or entry instructions.

**RESTRICTIONS:** Permission must be granted from Naval Signal Station located at Lat. 25° 09′ 43″ N. Long 121° 45′ 08″ E. for entering breakwater. Ship's agent should declare ship's ETA to Port Authorities 24 hours ahead. Port closes from 0001 to 0500 hours daily.

**MAX. SIZE:** Maximum draft 35 ft. and length overall preferably less than 700 ft. Navigation Channel-length 2 kilometres, breadth 150 to 350 metres.

**HEALTH:** Radio pratique not acceptable. Quarantine will clear vessel at anchorage area. Stool test will be conducted if vessel arrives from an affected area within five days.

**RADIO:** Radio Keelung. Send cables to "Harbour Master Keelung" report ETA, draft, etc. Channel 16–156·8 mc/s for safety and calling purposes. Channel 14–156·7 mc/s for harbour control after contact and identified.

**RADAR/VHF:** No radar service to assist navigation in port. VHF only used on ship's arrival. However, pilots carry pocket walkie-talkie to communicate with tugs and line-men on dock. Also see "Pilotage" and "Radio".

**TUGS:** Three main tugs with more than 1,000 h.p. each assist mooring and unmooring. Join at any point within breakwater. Ship's lines used.

**BERTHING:** Docking during day only. Pilot compulsory. Vessels usually anchor in outer harbour first for pratique and inspection.

**SPECIALISED CARGO HANDLING FACILITIES:** Wharf No. 2 to 4 and 14 to 18. 2 at 4 tons stationary shore cranes on each wharf.

Berth 2 and E2, passenger ships.

Berth 20, for receiving ore, sulphur, etc., and loading fertiliser.

Berth 22–26, for container ships and "lash" vessels. Equipment includes 3 gantry cranes, 4 straddle-carriers for 20′–40′ containers and 1 side-loader for landing 30′ containers.

Berth 30, 3 elevators for grain in bulk.

Generally ship's gear is required for cargo handling on all except fully containerised vessels.

One berth for handling liquid chemicals sulphur: is unloaded by hoist with nets, 35 tons can be discharged per hoist per hour.

**STEVEDORES:** Owned and operated by Harbour Bureau, a government organization. Stevedores paid by tonnage instead of hours. Stowage plan and cargo details must be presented to concerned offices 24 hours prior operation.

**MEDICAL:** Clinics with English-speaking doctors available at Keelung and modern hospitals available in Taipei, 30 kilometres from port.

**TANKERS:** Wharf No. 33 specially reserved for tankers, draft limited to 34 ft. For other procedures in port tankers are treated same as other carriers.

**DENSITY:** 1002 to 1023.

**FRESH WATER:** Available subject 24 hours advance notice. Usually delivered by barges. No limitation on quantity.

**FUEL:** Ordinary bunkers available but require 3–5 days advance notice. Fuel barge operated by C.P.C.

**FIRE PRECAUTIONS:** Red flags will be flown on dock and fire-fighting automobile and tug will be standing by while tanker in operation.

**DEVELOPMENT:** A proposed five-year development plan being carried out. After completion, which is expected in 1973, another 10 deep-water berths will be added to this port. Container berth to be completed 1973.

**GANGWAY/DECK WATCHMEN:** Harbour policeman always assigned by authorities at gangway free of charge. Other gangway deck watchmen are recommended.

**OPENING/CLOSING HATCHES:** Normally carried out by stevedores, excepting new designs on modern vessels.

**CERTIFICATE:** International certificates, Safety Equipment, Load Line, Cargo Gear, etc.

**CUSTOMS ALLOWANCES:** Each crew member allowed 10 packs cigarettes for own use. Master enjoys some privileges and can keep several cartons if he thinks necessary. Wine and/or Spirit, no restrictions but slopchest will be sealed on arrival.

**IDENTIFICATION CARDS:** Passport or other identification papers are needed.

**CONSULS:** None. Mostly stationed at Taipei.

**REPAIRS:** All types of deck and engine repairs can be carried out in port.

**DRY DOCK:** One for vessels under 100,000 tons and the other for 25,000 tons.

**REPATRIATION:** Crew repatriation usually carried out through International Airport in Taipei, and Immigration prefer either individual or group visa for landing crew from ship.

**AIRPORT:** International airport in Taipei only 30 minutes by car.

**TIME:** GMT plus 8 hours. No alterations.

**HOLIDAYS:** New Year's Day (1–2 Jan.); Lunar New Year's Day (2 days in Feb.); Youth Day (29 Mar.); Labour Day (not a national holiday but only for labourers) (1 May); Confucius Birthday (Teachers' Day) (28th Sept.); National Day (10 Oct.); Taiwan Restoration Day (25 Oct.); Dr. Sun's Birthday (12 Nov.); Constitution Day (25 Dec.).

**POLICE/AMBULANCE/FIRE:** The gangway guard assigned by Harbour Police or ship's Agent will act in emergencies.

**TELEPHONE:** Local telephones available to be placed on board.

**GENERAL:** Shore pass issued by Immigration for each crew member on ship's arrival and will be collected on ship's departure. Anyone who loses a shore pass is subject to fine.

**SERVICE:** Harbour Master prohibits discharge of tank washing etc., in port.

**SHORE-LEAVE:** Crew allowed ashore except for crew members from Communist countries.

**REGULATIONS:** Searching for stowaways is strictly carried out on arrival and departure.

**DELAYS:** Keelung has rainfall on about 240 days in a year, port is sometimes congested after continuous rain.

**AUTHORITY:** Ministry of Communications. Taipei, Taiwan.

**AGENTS:** Jardine Matheson & Co. Ltd., 36 Kwei Teh Street, PO Box 81, Taipei, Taiwan. Shipping Agents, Lloyd's Agents, Cargo Surveyors. Tel. 571281 (10 lines). Telex TP391. Cables: "Jarocean". Sub-Agent: Loong Gon Co. Ltd., 10 Chung Yit Road, Keelung, Tel. 22443, 22444. Cables "Loonggon" "Jarocean".

## Tanzania

**GENERAL:** *All Ports: (Ship's Officer's Report):* The Boarding Customs require crew declarations on their special form duly signed by each individual member of crew. The excess private property or the items not required during the ship's stay in port, are to be collected and placed in a locker or room and sealed by the Customs. This seal has to be kept intact even in the case of the vessel sailing from Tanzania to Kenya or vice versa. On arrival at the next port, the previous Custom's seal is replaced by the local authorities. No new crew declaration is needed if once filed at first port. However, it is recommended that an extra copy of the crew declaration is kept on board as a record in case it is requested by the local authorities.

### CHAKE CHAKE: 05.14 S. 39.46 E.

**DOCUMENTS, HEALTH:** Refer to "Zanzibar", where vessel required call for clearance by Port Officials.

**PILOTAGE:** Not compulsory, but restricted to daylight only.

**RESTRICTIONS:** Entrance approached through Owen Channel or through passage between Mesale Island South and Ras Kingojelin. Depths from 10 to 22 fathoms but there are patches of 2½ fathoms. Narrowest part of channel is 1·5 cables wide.

Vessels may enter and leave at any state of the tide, but in daylight hours only.

**ANCHORAGE:** No mooring buoys. Vessel's work cargo to lighters. Depth decreases to 3 fathoms for coastal anchorage off Ras Banani.

**MAX. SIZE:** 170 ft. length; 15 ft. draft.

**TUGS:** Not available and not required.

**FRESH WATER:** Not available.

**FUEL:** Not available.

**AUTHORITY:** See "Zanzibar".

## DAR-ES-SALAAM: 06.50 S. 39.17 E.

**PORT LIMITS:** The port of Dar-es-Salaam includes all tidal waters enclosed by a boundary which, commencing at high water mark at a point South east of Ras Koronja (approximately 9·66 km. East of the city of Dar-es-Salaam), follows a straight line due North to the West tip of the Outer Sinda Island. Thence a straight line to Makatumbe Lighthouse, thence a straight line drawn to South tip of Mbudya Island, thence a straight line drawn 254° to the high water, mark at a point on the mainland South of the entrance to Mto Peremji. Thence following the high water mark around Msansani Bay, Dar-es-Salaam Inner Harbours to the first point due South of Outer Sinda Island.

**DOCUMENTS:**

Health Certificates (forms supplied by Pilot).
6 Crew Lists.
10 Passenger lists.
Ships Manifest.
Heavy Lift List.
Dangerous Cargo List.
Ship's Register.
Declaration and Advice of Consumable Stores (Form C-7 supplied by Customs).
Crew Declaration (Form C-8 supplied by Customs).

**PILOTAGE:** Compulsory South of Makatumbe lighthouse, for all vessels over 200 nrt. The pilot launch is painted white and shows the conventional day and night signals. Vessels wishing to enter must await the arrival of the pilot launch at the Outer Anchorage, and, if necessary, must anchor clear of the leading marks. During the hours of darkness ships entering or leaving the port are limited to 485 ft. OA on tides not exceeding 9 ft. range.

**ANCHORAGE:** *Shipmaster's Report:* In good weather tankers waiting can anchor in a depth of 18 metres, 12 cables from Makatumbe Light true bearing 250 degrees.

**RESTRICTIONS:** Movements in and out of the basin are subject to restrictions depending on drafts and state of the tide at spring tides. Tankers and vessels carrying explosives are not allowed to leave or enter during hours of darkness.

There is a signal station (with tower, flagstaff and red roof) on East Ferry Point (lat. 6° 50′ S, long 39° 18′ E.). Entry prohibited signals are: day signal – black flag is masthead; night signal – three red lights disposed vertically, and distant signals – black square on white background.

The entrance channel at North end of the basin is about 1¼ miles in length from its outer entrance between the edges of the banks fronting North and South Reefs to the Inner Harbour, South of West Ferry Point.

There is a sharp bend in the channel at West Ferry Point. Minimum depth of 24 ft. LWOST, and minimum width of 420 ft. between the 4 fathoms contour lines. A very strong ebb and flood runs through the channel at periods of spring tides. Maximum current at spring tides – 3½ knots. During period of S.E. monsoon strong winds and heavy seas may make entry difficult, but in Inner Harbour port working is normally unaffected by weather.

**MAX. SIZE:** Twin-screw vessels not exceeding 600 ft. and single-screw vessels not exceeding 575 ft., 28–33 ft. depending tide. Tankers 575 ft. 32 ft. draft. Also refer to "Mjimwema".

**HEALTH:** Radio Port Health officer giving ETA, name last port and health condition of passengers and crew. Q Flag to be displayed until free pratique given.

**BERTHING:** In the Inner Harbour there are mooring and anchorage berths for up to 9 deep-sea ships ranging from 350 ft. to 600 ft. in length and from 23 ft. to 30 ft. in draft. Deep-water quays total length 3,024 ft. giving 5×600 ft. (Berths 1 to 8) with 35 ft. depth at LWOST.

In addition there are 2 coaster anchorages. The Southern Creek, at the South-east corner of the basin has a navigable distance of 1¾ miles for ships drawing up to 30 ft. of water.

**CARGO-HANDLING FACILITIES:** The port has no special facilities for bulk handling cargoes but, subject to advance notice being given, vacuvators and grabs can be made available.

Two berths, Nos. 7 and 8, are capable of accommodating container vessels, but the port has no handling facilities.

**TANKERS:** Bulk Oil Jetty at which tankers up to 575 ft. OA, and 32 ft. draft can discharge to tanks ashore. Depth alongside of 35 ft. There is a refinery on the opposite side of the creek to the Bulk Oil Jetty; the tankers serving the refinery are not to exceed 20,000 dwt capacity for the time being. Also refer to "Mjimwema".

**STEVEDORES:** Week days (except Saturdays) 0700 – 1500 (45 minutes break, 1500–2200 hours (no break), 2200–0600 hours (no break). Saturdays 0700–1345 hrs. (no break), 1400–2100 hours (no break). Sundays and public holidays 0700–1500 hours (45 minutes break), 1500–2200 hours (no break).

**FRESH WATER:** Available at deep-water berths, and a water barge supplies water to ships at anchorage. All water is chlorinated but should be boiled and filtered. Water for boiler requires feed treatment (formal solutions adequate).

**FUEL:** Not generally available.

**MEDICAL:** Doctors and good modern hospital facilities exist.

**DEVELOPMENTS:** Three more deep-water berths are under construction with an option of two more.

**REPAIRS:** Several light engineering workshops. There is an East African Harbours Corporation Dockyard for construction and maintenance of East African Harbours Corporation's lighters and other small craft. This has a slipway for vessels up to 100 ft., lifting power 100 tons. The Port Administration employs a skin diver.

**REPATRIATION:** Can be arranged.

**CUSTOMS ALLOWANCE:** Each crew member is allowed one carton of cigarettes, one opened bottle of spirits and 8 small beers.

**AIRPORT:** International airport with daily connections to all parts of the world.

**TIME:** GMT plus 3 hours. No alterations.

**HOLIDAYS:** Christmas Day and International Workers' Day are the only holidays on which no work is performed. Other holidays on which restricted working may be carried out are: Zanzibar Revolutionary Day (12th January); Id-el-Fitr (two days); Id-el-Haj; Good Friday; Easter Monday; Union Day (26th April); Maulidi Day; Saba Saba Day (7th July); Tanganyika Independence and Republic Day (9th December).

**SHORE LEAVE:** Allowed.

**AUTHORITY:** East African Harbours Corporation, Port Manager, Box 1130, Dar-es-Salaam. Cables "Harbours Dar-es-Salaam".

**AGENT:** East African Commercial & Shipping (Dar-es-Salaam) Ltd., Deep Water Berth Kurasini, PO Box 3015, Dar-es-Salaam. Tel. 25591. Telex 41075.

## MJIMWEMA TERMINAL: 06.49 S. 39.22 E.

**DOCUMENTS** and all General Information; refer to "Dar-es-Salaam".

**LOCATION:** The position of the Mono Buoy is Lat. 6° 49′ 20″ South, Long., 39° 22′ 00″ East, lying approximately 1½ miles offshore in Mjimwema Bay. The buoy lies in 24 metres depth of water. The currents are up to about one knot and the direction varies.

**PILOTAGE:** Mooring Master/Pilot boards in an approximate position Makatumbe Island lighthouse bearing 240°. True distance 3½ miles. Should the Pilot not be available on arrival, vessels are advised to keep underway and await the Pilot rather than anchor.

After mooring operations a Mooring Master/Pilot will remain on board.

Vessels must provide adequate means of boarding for Pilot, Customs and other officials. A pilot ladder with spreaders 4 ft. from the water and manropes are required.

The Mooring Master shall be provided with meals and accommodation comparable to a senior officer on board. The crew of the mooring launch will be provided with food comparable with ratings on board. No special foods need be provided.

**RESTRICTIONS:** Initially, berthing and unberthing will be in daylight hours only. It is expected after experience is gained that there will be no pilotage restrictions. It is anticipated that after the first few departures, night departures will be allowed and night arrivals may later be allowed at the discretion of the Harbour Master.

**MAX. SIZE:** The Mono Buoy accommodates tankers up to 100,000 tons dwt. Minimum length allowed, 650ft. Maximum draft allowed, 55ft.

**PRATIQUE:** Customs, Port Health and Immigration will board vessels on arrival.

**RADIO:** Within six hours of clearing the loading port, each tanker shall provide the Agent with the following information:

(*a*) Name of Ship.
(*b*) Name of last port from which the vessel cleared and the loading port if different from above.
(*c*) Estimated date and time of arrival at Dar-es-Salaam (Mjimwema).
(*d*) Cargo loaded.
(*e*) API gravity.
(*f*) Arrival draft, fore and aft.
(*g*) Lifting capacity of derricks.
(*h*) Size of manifolds.
(*i*) Personnel requirements.

72 hours from the pilot station, a second cable should be sent to Agent with following information:

(*a*) Name of ship.
(*b*) Amended time of arrival.
(*c*) Names of crew leaving the vessel (if any).
(*d*) Requirements of doctor and dentist.
(*e*) Any other requirements.

A final cable should be sent about 36 hours from the pilot station giving finally amended ETA.

When within 20 miles of Dar-es-Salaam Signal Station vessel should call the Signal Station on either Channel 12 or 16. A continuous watch is kept on both channels. Call sign is Dar-es-Salaam Signal Station.

VHF Channels 16 calling, 12 berthing. VHF Channel whilst discharging to be decided.

Portable radios can be provided for vessels not having a VHF set and the Agent should be so informed in order to allow time to dispatch a portable radio on arrival. A vessel arriving without suitable means of communication and not having informed the Agent of the fact could occur delays which would be to ship's account.

The Mooring Master will be in direct control of all radio communications on the vessel while in the terminal area. Any unauthorised communications may result in the immediate cessation of all operations and removal from the berth.

**READINESS:** Notice of readiness will only be accepted by the Pilot/Mooring Master on behalf of the Harbour's Corporation, when the ship is berthed and connected.

Any vessel which is not, in the opinion of the berth controller, ready in all aspects to discharge, may be rejected until corrections are made. The Harbour Master's decisions are final.

**BERTH:** The Mono Buoy is a single point mooring buoy. The body of the buoy being secured in a fixed position with 6 moorings and the top of the buoy is in the form of a turntable allowing the ship, moorings and hoses to take up the position the vessel lies naturally due to tide, wind and current conditions.

**MOORING:** The following equipment is required to moor with safety: Two 10-in. nylon circumference ropes. 100 ft. in length. Four end joining shackles.

The vessel approaches the Mono Buoy head to wind and tide or the resultant of these forces, and should have two mooring ropes lowered to the water, each having a 15 ft. lashing of 3-in. rope on it.

As the vessel nears the mooring, a launch will take the port rope from the ship and connect it to the port pick-up rope and return to the ship to take the starboard rope and repeat the operation on that side.

The vessel should heave on the ropes as soon as they are inboard and heave herself to the buoy until the chain is on the fairlead. The ship wire should then be shackled to the chain and turned up on bits. This applies to both sets of moorings.

**HOSES:** Raising and lowering of, connecting and disconnecting of hoses as well as other shipboard duties will be performed by the ship's crew under the advice of the Mooring Master. The ship should be capable of lifting 10 tons on her derrick, with a minimum of 7½ tons.

When the vessel is securely moored, the launch will bring the hoses alongside on the port side. The vessel will lower the cargo hook to the boatman who will hook it on to the lifting ring on the forward hose. The hose will then be lifted to full height on the boom and secured on the "Hang off Chains" supplied. The hose is then lowered to the deck and the operation repeated with the after hose.

After completion of discharge the hoses will be filled with sea water by the ship. The hoses can then be disconnected from the manifold and lifted over the side of the ship and hung there on the slip ropes to be slipped off simultaneously with the moorings. This last operation will be carried out on the advice of the Mooring Master.

**UNMOORING:** On sailing, hoses will already have been disconnected and ready to be slipped at the direction of the Mooring Master.

The weight will be taken on the two approach ropes by heaving slowly with the winch. The shackles will then be released and the ropes slacked away until they are finally paid out through the fairlead and dropped into the sea.

The shore equipment should then be collected together under the derrick and returned to the boat.

**BALLAST:** Ballasting will be allowed during discharge but only with the express permission of the berthing controller, and in the case of ballasting in dirty tanks a dry certificate must be issued. Vessels will not be allowed to tank clean. There are no sludge tanks ashore.

**FUEL:** No bunkers available.

**FRESH WATER:** Only very limited quantities of fresh water in the region of about 50 tons can be provided.

**STORES:** Stores are available in Dar-es-Salaam, but the East African Harbours Corporation cannot undertake to transport stores to the Mono Buoy. Transport of stores to the buoy will be the responsibility of the Agent.

**REPAIRS:** During periods of calm and the fact that there is little current, it is foreseen that the problem of riding up on the buoy may occur. The vessel's engines shall therefore be available at all times and the telegraph shall be on stand-by while the vessel is in the berth. Engine repairs are not permitted. Should a vessel not be able to use her engines the cargo will be stopped and the vessel towed to a safe anchorage at the vessel's cost, until she can safely return to the berth.

**SHORE LEAVE:** Shore leave will not be permitted. Should any of the crew require to be landed for medical or relief reasons, the Agent will be responsible for providing transport to the Inner Harbour. East African Harbours Corporation craft will on no account be available to ferry crew members to and from the passenger pontoon. The Mono Buoy lies 4½ miles from the passenger landing pontoon, which is situated in the Inner Harbour.

**POLLUTION:** It is the Master's responsibility to see that no oil of any kind is pumped or spilled overboard from his vessel. This includes oily water from bilges, crude residues from the previous voyages or any other matter that may result in the pollution of the area. Owners and Masters should comply with any international regulations and recommendations concerning the prevention of pollution of the sea.

Serious consequences will arise if the above rule is broken. All costs and expenses involved will be for the account of the vessel concerned and the Master may be prosecuted under the Tanzania Merchant Shipping Act.

**REGULATIONS:** While in the berth the vessel should provide a pilot ladder on the opposite side of the vessel to the gangway, secured at the rail and ready for use.

No boats of any kind shall be lowered without permission from the Customs, Immigration and Harbour Master, except in an emergency.

East African Harbours Corporation maintains vessels to assist in berthing. These vessels are under the direct supervision of the Mooring Master/Pilot. Any service or facility provided by the East African Harbours Corporation, including the services of the Mooring Master/Pilot and boats are the vessel's risk. The furnishing of Mooring Master/Pilot and launches or other services and facilities shall not be construed to be or give rise to a personal contract.

**AUTHORITY:** Harbour Master, Dar-es-Salaam, for Port Manager.

## MKOANI (KOHANI): 05.21 S. 39.38 E.

**DOCUMENTS, HEALTH:** Refer to "Zanzibar."

**PILOTAGE:** No pilot available.

**RESTRICTIONS:** Vessels passing through channel between Zanzibar and Pemba should inform Port Authorities 24 hours in advance.

Entrance through Mkoani leading marks, buoyed and well-lit channel, depth of 11 fathoms. Vessels may enter and sail any time night and day.

**ANCHORAGE:** No mooring buoys. Minimum depth 6 fathoms. Vessels work cargo to lighters. Sandy bottom with mud close inshore.

**MAX. SIZE:** Length 250 ft.

**TUGS:** Not available and not required.

**FRESH WATER:** Not available.

**FUEL:** Not available.

**AUTHORITY:** See "Zanzibar".

## MTWARA: 10.16 S. 40.12 E.

**DOCUMENTS, HEALTH:** Refer to "Dar-es-Salaam".

**PILOTAGE:** Compulsory. Pilot boards half mile North of Shangani Reef buoy. Pilot can be contacted by VHF Channels 16 and 12. Radio operating only between 0800 and 1600 hours.

**ANCHORAGE:** No safe anchorage outside port. Anchorage for six vessels inside harbour.

**RESTRICTIONS:** Port closed from 1800 to 0600 hours. Buoyed entrance channel 1·5 cables wide at narrowest point. No tidal restrictions.

**MAX. SIZE:** Length 575 ft., draft 32 ft.

**RADIO:** Dar-es-Salaam or Mombasa Radio.

**TUGS:** Join vessel off Signal Station. Tug's lines used.

**BERTHING:** Deep-water Quay; 1,248 ft. length; 32 ft. depth alongside. Two berths available at quay.

**CARGO GEAR:** Vessels load/discharge using ship's gear.

**STEVEDORES:** Stowage plan required preferably before ship's arrival.

**MEDICAL:** Doctor available. All crew require valid smallpox vaccination and yellow fever inoculation certificates.

**DENSITY:** 1025

**FRESH WATER:** May be available in emergency but only between 2100 and 0500 hours. 20–30 tons per hour.

**FUEL:** Not available.

**GANGWAY/DECK WATCHMEN:** Arranged by Agents.

**IDENTIFICATION CARDS:** Required.

**REPATRIATION:** Possible.

**AIRPORT:** 7 miles distant. Daily service to international airport.

**TIME:** GMT plus 3 hours.

**HOLIDAYS:** All holidays worked as Sunday except following when no work done: Christmas Day and 1st May.

**TELEPHONES:** Direct connection on board not possible.

**SHORE LEAVE:** Crew allowed ashore.

**AUTHORITY:** East African Harbours Corporation, PO Box 9184, Dar-es-Salaam.

**AGENT:** See "Dar-es-Salaam".

## TANGA: 05.04 S. 39.08 E.

**PORT LIMITS:** From high water mark at Ras Kwawa 090° to the meridian of 39° 15′ E., thence 180° to the parallel of Lat. 5° 05′ S. thence 270° to the mainland at high water mark. Time of anchorage within port limits to constitute an "arrived vessel".

**DOCUMENTS, HEALTH:** Refer to Dar-es-Salaam.

**PILOTAGE:** ETA required via Mombasa Radio, if not given by Agents at previous port of call. Pilot embarks from white launch in vicinity of Ulenge Beacon on Ras Kazone leading line. Pilot ladder required on port side in North-east monsoon, and on starboard side in South-west monsoon.

Vessels wishing to enter must await the arrival of the Pilot at the outer anchorage and, if anchored, must anchor well clear of the leading lines.

**APPROACHES:** Tanga is approached from the South-east through channel on line of Ulenge leading marks bearing 319° T. A 3-fathom bank to starboard is marked by ship channel buoy. Care should be taken in this vicinity as there is frequently a strong set to the North-east. On the port hand, Niule Reef is marked on Northern tip by a buoy. After passing Niule Reef Beacon it is necessary to turn to port on to Ras Kazone leading marks bearing 266° T. until Ulenge Beacon is sighted.

A signal Station is situated immediately below Ras Kazone High light. Signals are exhibited to indicate if inner channel to harbour is clear. Morse lamp messages may be exchanged with incoming vessels.

Late afternoon arrivals to Tanga may encounter poor visibility of land marks due to haze from setting sun, but a chimney on the fertiliser factory site on Ras Kazone with three vertical red lights at a height of 100 metres is conspicuous.

**RADIO:** Mombasa Radio. Ras Kazone Signal Station keeps 24-hour VHF watch on Channel 16, working on Channel 12.

**ANCHORAGES:** Inner Harbour provides safe anchorage for four vessels up to 600 ft. length and 27 ft. maximum draft also one coaster up to 250 ft. and 17 ft. draft. In addition there are six anchorages in Outer Harbour for vessels of draft greater than 27 ft., least depth of water being 45 ft. LWOST. Incoming vessels without Pilot should not anchor within one mile of Ras Kazone.

**BERTHING:** All except bulk cargo work is carried out at anchor. Vessels are not berthed in Inner Harbour during hours of darkness except by special request in cases of urgency. 30 lighters available, capacity up to 250 tons each.

**CARGO-HANDLING FACILITIES:** One 20-ton fixed crane is available on lighterage wharf for heavy lifts. A jetty on the Eastern side of Ras Kazone provides one berth for vessels of 20,000 dwt. equipped for the discharge of bulk cargoes and liquid ammonia. Two portal cranes of 7 tons capacity fitted with grabs. Jetty currently handling bulk products for fertiliser factory.

**PASSENGER FACILITIES:** All passengers and visitors to ships pass through the customs passenger terminal at the Eastern end of the new lighter wharf, and embark or disembark from the pontoon landing stage. Private hire launches available.

**FRESH WATER:** Not available.

**FUEL:** Not available.

**GENERAL:** Refer to "Dar-es-Salaam" for all general information.

**AUTHORITY:** Tanga Port Manager.

**AGENT:** Notco (Tanzania) Ltd., PO Box 5029. Tanga.

## WETE (Pemba): 05.14 S. 39.43 E.

**DOCUMENTS, HEALTH:** Refer to Zanzibar.

**PILOTAGE:** Not compulsory, but restricted to daylight only. Vessels passing through channel between Zanzibar and Pemba should inform Port Authorities 24 hours in advance.

**RESTRICTIONS:** Entrance through Uvinje Cap, channel depth decreasing to 11 fathoms, with shallow patches to be avoided. Narrowest part of channel is 1·5 cables wide. Vessels may enter and leave at any state of tide but in daylight only.

**ANCHORAGE:** No mooring buoys. Vessels work cargo to lighters. Depth decreases to 2½ fathoms. Mud bottom.

**MAX. SIZE:** 240 ft. length; 25 ft. draft.

**TUGS:** Not available and not required.

**FRESH WATER:** Not available.

**FUEL:** Not available.

**AUTHORITY:** See "Zanzibar".

## ZANZIBAR: 06.09 S. 39.11 E.

**DOCUMENTS:**

Bill of Health.
3 Crew Lists.
6 Passenger Lists.
3 Cargo Manifests.
3 Customs Manifests.

**PILOTAGE:** Compulsory. Vessels approaching from English pass embark Pilot at Seagull Buoy, and vessels approaching from South pass meet Pilot at Penford Buoys. Pilot takes vessel in and out, day and night. Notice of ETA required 6 hours in advance.

**ANCHORAGE:** Six anchorages to accommodate vessels drawing up to 32 ft. Additional anchorage provided for vessels carrying explosives.

**RESTRICTIONS:** Two entrances, English pass and South pass. The former is approximately 1 mile wide and has minimum depth of 6 fathoms and 4 ft. and a very narrow angular turning corner of 1·7 cables width. South pass wider and deeper than English pass. Passes are well buoyed and lighted. In English pass, tidal stream runs North and is stronger on ebb than on rising tide. South pass, tidal stream runs N.N.W. and stronger on flood than on ebb-tide. Vessel may enter or leave at any state of tide at any time.

**MAX. SIZE:** (Anchorage) Length 1,100 ft., beam 110 ft., draft 32 ft.

**HEALTH:** Pratique given by Quarantine Officer who boards on arrival. All crew required to be in possession of valid smallpox vaccination and yellow fever inoculation certificates.

**TUGS:** Two tugs of 88 h.p. and one of 176 h.p. employed for towage of lighters. No tugs for berthing vessels.

**BERTHING:** Concrete pile wharf 800 ft. long to North of Ras Shangani used mainly for lighterage purposes and for berthing Government coasters. Under special circumstances, upon prior request to Port Officer, vessels of less than 375 ft. length and drawing less than 20 ft. may be permitted to berth alongside, but due prevailing onshore winds this practice not encouraged.

**STEVEDORES:** Normal working hours 0700 to 1500 Monday to Friday, and 0700 to 1200 Saturdays. Overtime may be worked up to 2200 on Mondays to Saturdays with one hour extension to 2300 for finishing ships only. All work on Sundays and public holidays is overtime, and may be either from 0700 to 1600 with two hours extension to 1800 for finishing ship, or 1200 to 2000 with 2 hours extension to 2200 for finishing ship.

Average rates: bagged cargoes 15 tons per gang hour, general cargo 8 tons per gang hour.

**LIGHTERS:** 18 lighters, capacities from 150 tons to 261 tons, total capacity 3,674.

**FRESH WATER:** Water at wharf, and can also be supplied to vessels at anchorage by one water boat total capacity 240 tons.

**FUEL:** Not available.

**AUTHORITY:** Serikali ya Zanzibar, Port and Marine Dept., Sanduku la Posta, 263, Zanzibar.

# Territoire Francaise d'Afars et Issas

## DJIBOUTI: 11.36 N. 43.08 E. (See Plan)

**DOCUMENTS:** Crew List for ship's agent. Crew Manifests and Manifests of Passengers in transit or for disembarkation, for whom disembarkation cards are to be completed. Presentation of Health Declaration and verification of compulsory immunisations by the health representative. Cargo Manifest, required in five copies prior to any discharging operations, also deposit of one copy at port operation office.

**PILOTAGE:** Is compulsory. Pilot boards in vicinity of buoy No. 2 of the Heron Bank, where all vessels must wait. Call signals are regulated by International Code. Vessels at the quay wishing to put to sea must call Pilot half an hour beforehand by three long blasts (in addition to the "G" flag). VHF radiotelephony station to liaise with ships. Ships must ensure a permanent watch on Channel 12, at the latest after clearing parallel of Muskali beacon.

**MAX. SIZE:** Entrance to inner roads dredged to 11 metres depth.

**ANCHORAGE:** Anchorage zone is within following limits:

1. Eastern limit: a line parallel to and 0·25 miles West of the North passage.
2. Southern limit: Latitude 11° 37′ N.
3. Western limit: a bearing with the Western extremities of Penguin and Ambouli Banks in alignment.

It is forbidden to anchor within 5 miles on each side of the alignment of Ambouli and d'Ayabele lights.

Average depth is of 15 to 20 metres. Anchor hold is excellent, even with a strong South-west monsoon when there is often a heavy swell.

**RESTRICTIONS:** Entry during the day or night. Highest tide 2 metres 90. Mean tide is approximately 1 metre 60, and lowest are 0 metre 20. Tidal currents are very weak in bay and rarely exceed 1 knot.

**HEALTH:** Generally free pratique by radio can be granted to all ships applying through Coastwise Station Djibouti Radio. Ships must radio in plain or international code, a maximum of 12 hours and a minimum of 4 hours prior to arrival in port. In all cases, when Pilot boards vessel he gives Captain a copy of Maritime Health Declaration which must be filled in by Captain and countersigned by ship's doctor, if the crew includes one. An examining official comes on board when vessel arrives to receive the Maritime Health Declaration. Smallpox certificate required from all travellers coming from all countries. Cholera certificate required from all travellers coming from an infected area, excepting children of under six months of age.

**RADIO:** For short distance communications, ships contact shore by radio telephone VHF through Harbour Master's office. Port office is equipped with a VHF station transmission and reception: Channel 12 (156·6 mHz). For medium or long distance communications, ships contact shore by radiotelegraphy and radiotelephony through Djibouti coastwise station, call sign: TXZ; call frequency: 8·682 and 500 kc/s; working frequency 8·682 and 464 kc/s.

**TUGS:** In winter (slight Easterly monsoon), a single tug is generally sufficient for manoeuvring. In summer during the Khamsin period, berthing or sailing often requires two tugs. There is a 1,320 h.p. diesel tug "Henri Lambert", a 1,000 h.p. tug "Administrateur Bernard" and two auxiliary 600 h.p. tugs.

**BERTHING:** Exterior docks comprise:

Dock 11 depth of 11 m.
Dock 12 depth of 12 m.
Dock 10 depth of 11 m.
Dock 13 depth of 10.80 m.
Dock 9 depth of 9 m.

Average depth of remaining roadstead is between 15 and 20 m.

**STEVEDORES:** Available three companies, hours from 7 to 17.30 hours.

**MEDICAL:** Port Medical Service directed by medical practitioner specialised in industrial medicine is situated in a building neighbouring the port offices. It operates a dispensary. Passengers and sailors in transit are treated by private doctors from town who may visit the ships. Serious cases can be hospitalised in Djibouti's civil or military hospitals.

**TANKERS:** Reception lines: berths 12 to 13 specially equipped for reception of bunkering products are linked with installations of the petroleum companies by a 16-in. dock-line and 12-in. (FO) and another of 12-in. (DO). Pier No. 10 is connected to the installation with a dock-line of 12-in. Rate of discharging can reach between 2,000 and 2,500 tons per hour. Reception of white products is assured from quay No. 13 by an 8-in. line; for gas there is a 4-in. line.

**FRESH WATER:** Each quay provided with three to five 200 mm. water-hydrants. Delivery of 40 cubic metres of water per hour. Regardless of the season, there is never any shortage of fresh water.

**FUEL:** A complete range of different viscosities and products is available. Meet all the usual requirement of bunkering vessels. Ample supplies of fuel and diesel oil are always available.

**GANGWAY/DECK WATCHMEN:** Available.

**OPENING/CLOSING HATCHES:** Normally carried out by stevedores.

**IDENTIFICATION CARDS:** Required.

**CONSULS:**

| | | |
|---|---|---|
| Belgium | Rue de Bruxelles | Tel. 360 |
| Ethiopia | Rue Clochette | „ 318 |
| Germany | 23, Avenue Maréchal Foch | „ 421, 207 |

**REPAIRS:** Small repairs available.

**REPATRIATION:** Good facilities exist.

**AIRPORT:** Local airport with regular flights.

**HOLIDAYS:** *Section A:* New Year's Day (1 January); Aid Seghir (El Fithir) and the following day; Labour Day (1 May); Ascension Day; Aid El Kebir and the following day; Muslim New Year (1st Mouharam); National Holiday (14 July); Mouloud El Nabi; Armistice Day (11 November); Christmas Day (25 December).

*Section B:* Easter Sunday; Easter Monday; Whit Sunday; Whit Monday; Assumption (15 August); All Saints (1 November).

Dates referring to religious holidays vary every year, particularly where Muslim holidays are concerned. Loading and discharging operations as well as bunkering can be carried out during all of above holidays when other services are also available. Where loading and discharging are concerned, days in Section B are paid as ordinary working days but if work is carried out on days in Section A then special tariffs will apply to hourly and daily wages which are increased by 100%.

**TELEPHONES:** Available on every berth.

**SHORE LEAVE:** Allowed.

**AUTHORITY:** Directeur, Port de Commerce de Djibouti, P.O.B. 7, Djibouti. T.F.A.I.

**AGENT:** Socopao – Djibouti, P.O. Box 57. Tel. 24.50. Telex 827 Djibouti. Cables "Marill".

# Thailand

## BANGKOK: 13.42 N. 100.34 E. (See Plan)

## KOHSICHANG:

North-east Monsoon 13.09 N. 100.50 E.
South-west Monsoon 13.11 N. 100.50 E.

**PORT LIMITS:** A vessel is normally considered to be an "arrived ship" on passing the Paknam Customs Station.

**DOCUMENTS:** Ship's forms: Crew List; Passenger List; Store List; List of arms and ammunitions for ship's use; List of Arms and Ammunitions in possession of passengers; List of opium and harmful habit-forming drugs; List of crew private belongings (cigarettes, radio, gramophone, camera, etc., including foreign currencies and liquors); Dangerous Cargo List; List of heavy lifts; Stowage plan; Inward cargo manifest; Transit cargo manifest; Through Cargo manifest; list of containers.

Documents to obtain from officials and agents: Immigration forms No. 3, 4 and 35, obtainable from Agents. International Maritime Declaration, obtainable from Quarantine Officer.

**APPROACHES:** The entrance of the river Chao Phraya is marked by the Bangkok bar light beacon situated at the lat. 13° 26′ 24·3″ N., long. 100° 35′ 48·1″ E. Sea-going vessels have to cross the bar at the mouth of the river through an 18 km. long bar channel, which is dredged to a depth of 8·5 m. from MSL (mean sea level), and a bottom width of 100 m. in the straight section and 250 m. in the curve.

The depth of the river within the port area varies from 8·5 m. to 11 m. from MSL.

The MSL at the Bangkok bar and at Klongtoi is 2·3 m. and 1·63 m. above lowest low water respectively.

At present the limiting length of vessels entering the port is 172·2 m. (565 ft.). The limiting draft of vessels will be determined by the bar adder plus the depth of water (predicted in the Tide Table published yearly by the Hydrographic Department RTN) from LLW at the Bangkok bar, but the maximum draft of vessels allowed to cross the bar is not over 27 ft.

The MSL at the Bangkok bar and at Klongtoi is 2·3 m. and 1·63 m. above lowest low water respectively.

**PILOTAGE:** Compulsory at Bangkok; Kohsichang not required; Advance notice required 48 hours prior to arrival.

Location pilot vessel Bangkok: lat. 13° 23′ 33″ N., long. 100° 35′ 12″ E. Area waiting pick-up Pilot will be anchorage close to pilot vessel, preferably 500 to 600 metres from pilot vessel, enabling pilot boat to get alongside safely. Pilot vessel marked by white flashing light every two seconds.

**ANCHORAGE:** (Map/DeLong Pier site). Capacity – Ten deep draft ships. Location – North-east of Ko Khram Yai Island between 12. 43 N. and 12. 44 N. Minimum depth 7½ fathoms. Good holding ground. (Deep water port site.) Capacity unlimited. Location – South and South-west of Channel entrance between 12. 34 N. and 12. 35 N. Minimum depth 9 fathoms. Good holding ground. No protection from weather.

**RESTRICTIONS:** *Bangkok:* No restrictions, able enter day a night, dependent tide at Bar Channel. *Kohsichang:* No restriction able enter day and night.

**MAX. SIZE:** Bangkok: not exceeding 565 ft. LOA Kohsichang. Se "Berthing".

**HEALTH:** *Radio Pratique:* According to the Thai Ministry of Healt Regulations and International Health's Regulations article 36:

Under the responsibility of ship's captain and shipping Agen vessels from infected areas may apply for exemption of Quarant through radio pratique by telegram sent to Quarantine Bangko stating name of ship, last port, number of passengers and hea of crew and passengers.

(*a*) Vessels with passengers from infected areas proceeding t the berthing places in Bangkok must slow down at Paknam enablin Port Health Officer to board the ship for inspection.

(*b*) Vessels without passengers from infected areas go direc to berthing places in Bangkok where they will receive Port Hea Officer for inspection.

*Remarks:* In case of suspected infectious disease on board a ship or anything wrong about health or ship sanitation, the shi captain is requested, as early as possible, to inform the Port Hea Officer at International Quaratine Office (Medical) Section, Immigra tion Division, North Sathorn Road, Bangkok, Tel. 39588.

*Documents Required:* 1 copy of Maritime Declaration of Heal 1 copy of Crew List; 1 copy of Passenger List; Derating or Deratin Exemption Certificate.

*Vaccination:* Vaccination Certificates required: Smallpox; Chole (only when leaving from infected areas); Yellow fever (only whe leaving from infected areas).

However, vaccination may be done as deemed necessary by Por Health Officer even if the crew or passengers are from non-infecte areas.

Vaccination certificates will be shown collectively for trans passengers/crew members and individually for disembarkin passengers/crew members only.

*Exemption from Vaccination:* If the Port Health Officer is of th opinion that vaccination is contra-indicated on medical grounds he shall provide the persons with reasons, written in English, unde lying that opinion, which health authorities should take into accoun

*Death on Board:* In the case of death on board after the ship was a the anchorage or at the port, permission to land the corpse must b obtained after the inspection of the Port Health Officer, which th cause of death was not quarantinable diseases.

Ship's captain or shipping Agent must inform the Port Heal Officer for inspection if there are cadavers and/or remains on boar who died in a foreign port, in order to pass through the quarantin The dead should be accompanied by a death certificate (or a tru copy), signed by the medical officer and placed in a coffin hermeti cally sealed in a casket, which is air-tight and waterproof.

*According to Immigration Law B.E. 2493 (1950):* The traveller t Thailand must be free from diseases forbidden under section 14 of the Immigration law such as: trachoma, leprosy, tuberculosi venereal diseases, including physical or mental defects who cann earn their living.

**RADIO:**

| *Name of Station* | *Frequencies* | *Remarks* |
|---|---|---|
| Bangkok Radio: | | |
| HSA Long Wave | 500 kHz (for calling)<br>480, 512 (for traffic) | operate 24 hours |
| HSA Short Wave | 8686 kHz (for calling)<br>8686, 12800 kHz (for traffic) | operate 7 time a day every day beginning hours of 0000, 0200, 0500, 0800, 1100, 1400 and 1600 (GMT). |

In addition to above, communication can be made through the Po Radio and Pilot Radio; however these two stations can be reache within steaming time of less than 24 hours prior to arrival at Bangko their particulars as follows:

| | | |
|---|---|---|
| *Port Radio* | | |
| HSC 61 | 500 kHz | operate 24 hours |
| *Port Radio* | | |
| HSC 60 | 500 kHz | operate during office hours |

*Information to be supplied by incoming Vessel:*

(1) Last port od departure.
(2) Estimated time of arrival pilot station.
(3) Draft (fresh water).
(4) General cargo tonnage for discharge.
(5) Dangerous cargo.
(6) Heavy lift required.
(7) Fresh water required.
(8) Number of passengers (landing and transit).
(9) Time of dropping anchor at pilot vessels.

**VHF:** VHF communication with port radio and pilot radio throu Channel 16 (24 hours service). Also VHF communication with sho for International Maritime Mobile Service under following:

Channel 24
For ship transmitting frequencies 157.20) } (for calling)
For shore „ „ 161.80) }
Channel 26
For ship transmitting frequencies 157.30) } (for traffic) service
For shore „ „ 161.90) } 24 hours
Channel 28
For ship transmitting frequencies 157.40) } (for traffic)
For shore „ „ 162.00) }

**TUGS:** Will join when vessel approaches berth, using tug's line without extra charge. Six tugs available, 25 tons static pull.

**BERTHING:** No difficulties in approaching berth. Agents will cable to Master to inform when Pilot has been ordered to board vessel.

*Midstream:* 21 anchorage places and mooring buoys for sea-going vessels.

2 berths in front of Co-operative Salt wharf for 500 ft. vessels
4 Berths in front of Customs boarding station for 300 ft. vessels.
2 berths at Bangplakod for 565 ft. vessels.
1 berth at Bangplakod for 500 ft. vessels.
5 berths South Sathupradit (6 mooring buoys) for 450 ft. vessels.
3 berths North Sathupradit for 400 ft. vessels.
4 berths North of Krungthep bridge for 280 ft. vessels.

*Berths:* 66 wharves on both sides of the river for sea-going vessels:

10 berths for imported general cargo (km. 27 to km. 29) on the left bank of the river at Klongtoi operated by the Port Authority of Thailand for 565 ft. vessels.

1 berth for imported general cargo (km. $39\frac{1}{2}$) on the right bank of the river operated by Thai Maritime Company for 400 ft. and 280 ft. vessels.

1 berth for imported general cargo (km. 46) on the right bank of the river operated by Thai Maritime Company for 250 ft. vessels.

14 berths for imported petroleum product operated by private and government organization for 150 ft., 350 and 565 ft. vessels.

40 berths for export cargo operated by private companies for 280 ft. to 565 ft. vessels.

36 dolphins in front of Klongtoi wharf. A row of 36 dolphins along the river at a distance of 275 m. from the Klongtoi wharf, to accommodate 7 ocean-going freighters for exported cargo.

*Kohsichang:* Seven berths available, no limit on length, max. draft 35–47 ft.

**CRANES:** 2 floating cranes at 125 tons capacity may be used for handling cargo in the ship's holds. Both are owned and operated by private companies.

**BRIDGES:** Bangkok port has one bridge only. However, as bridge up river, vessel permitted to pass bridge with LOA not exceeding 280 ft.

**STEVEDORES:** Vessel to advise Agents 48 hours prior arrival, text required in this cable to be ETA, Drafts, Tonnage of cargo aboard for Bangkok, number of Crew/passengers, Dangerous cargo/Heavy lifts, Gangs required.

**MEDICAL:** Hospital facilities available, advance notice of ETA required.

**TANKERS:** Diameter of shore line various from 6 in. to 20 in. All terminals able provide reducers.

**DENSITY:** Bangkok: Minimum 1000, maximum 1011; Kohsichang: 1021.

**FRESH WATER:** Available, supply can be made through barges and shore line, capacity of barges from 120 to 250 tons, rate of supply approximately 30 tons per hour. Advance notice 24 hours.

**FUEL:** Available. Supply can be made by barge and alongside terminals, no delay on bunkering, advance notice 48 hours.

**DEVELOPMENTS:** *East Quay wall expansion at Klongtoi Wharf:* This project will provide 6 more berths for ocean-going vessels, consisting of 4 berths for conventional freighters, 2 berths for special container ships and a 450 m. long wharf for lighter aboard ship (LASH). The construction work is now being carried out and expected to be completed in 1976.

*New alignment for Bangkok Bar Channel:* This project is the result of a study on the siltation in the Bangkok Bar Channel aimed at reducing the expensive maintenance dredging cost. It is also proposed to widen the existing channel from 100 m. to 150 m. for safety of Navigation. A project for the new alignment of the Bangkok Bar Channel is now under consideration.

*Laem Chabang deep sea port:* The location of this deep sea port is expected to be at Laem Chabang on the Eastern side of the Gulf of Thailand near the town of Sriracha and about 120 kilometres South East of Bangkok. A Dutch engineering firm has been appointed to make the initial survey and final design under the financial assistance of the Dutch Government.

**GANGWAY/DECK WATCHMEN:** Necessary.

**OPENING/CLOSING HATCHES:** In general carried out by stevedores without extra charges. (Ordinary hatch covers, not new hatch cover system.)

**TOBACCO ALLOWANCE:** 200 cigarettes for officers, while crew member only 100 for 3 days.

**WINE/SPIRIT ALLOWANCE:** One bottle each, opened.

**CARGO GEAR:** Supplied by stevedores except cargo tent and fork-lift truck.

**IDENTIFICATION CARDS:** Required for all crew and officers.

**CONSULS:**

## PHUKET: 07.50 N. 98.25 E.

**DOCUMENTS:**

*PRIOR TO ARRIVAL AT PHUKET:*

*Entry documents and advance information.*

Custom and Immigration Entry forms as well as list of other documents required on *vessel's own forms* to be completed in advance for presentation on arrival Phuket will be sent in advance to the Agent at one of the previous ports together with request for the following information required 4 days in advance of vessel's arrival.

Confirmation of ETA and any subsequent revised ETA.
Captain's name.
Last port of call before Phuket.
Next port of call after Phuket.
Net registered tonnage (n.r.t.).
Hatch distribution and gangs workable.
Cash advance of Master.

*Flags:* Vessels are required to fly the Thai flag and display the code flag "Q" on arrival.

**PILOTAGE:** There is no official Pilot available.

**ANCHORAGE:** The following anchorages are regularly used by ocean carriers of deep draft calling Phuket for loading or discharging cargo.

*During the North-east Monsoon Season:* prevailing wind from November through March and periods of strong Easterly winds, vessels are recommended to anchor in position 7° 53′ N. and 98° 27′ 15″ E. about half a mile off Laom Mai Pai to pick up the boarding party and stevedores before proceeding to the actual anchorage for loading at position 7° 57′ N. and 98° 33′ E., about one mile off Koh Yac Hyai, draft approx. 16 metres (50 ft.) at LWOS. However, during calm weather periods cargo operation will be carried out at the first mentioned anchorage.

*During the South-west Monsoon season:* Prevailing from April through October and any periods of strong Westerly winds, vessels are recommended to anchor at position 7° 53′ N. 98° 27′ 15″ E. about half a nautical mile off Laom Mai Pai, draft approx. 14 metres or 45 ft. at LWOS.

To facilitate cargo operations during swell from South, vessels are requested to anchor as close as possible to the above anchorage positions according to the Master's judgement.

No Pilot is required on approaching the above anchorage; however, it should be noted *three ocean-going dredges* are operating in the area between Koh Dok Mai and Kon Khai Nok which should be passed at a distance of about 1,500 ft. to keep clear of their anchor lines. The dredgers are lit up and clearly visible at night.

It should also be noted during the new moon period there are several small fishing craft in the area.

**RESTRICTIONS:** *Channel:* The channel around Koh Tapae Kyai is normally passed clockwise and is marked by a system of buoys, the position of which are shown on Thai charts. However, it is also possible to turn around by swinging on the anchor between just after passing buoy No. 3 on a rising tide (South to North) just before high tide.

*Width of Channel:* Minimum 230 ft. at buoy No. 6 measured (chart datum at LLW) at 6 metre depth curve. Maximum 900 ft. at buoy No. 4 measured at 6 metre depth curve.

*Restriction in Navigation:* (1) Entering or leaving through the North channel involves a rather sharp turn with a radius of about 1,000 ft. and angle of about 115° between the axis of channel in a restricted area between buoy No. 6 and Koh Tapai Noi Island. Please also note the wreck buoy between buoy No. 6 and Koh Tapao Noi.

(2) The draft at buoy No. 6 is about 24 ft. 6 in. at Lowest High Water.

(3) At buoy No. 5 are placed two pairs of mooring buoys parallel in the channel, occasionally used by tankers discharging petroleum products to Esso and Shell installations ashore. The width between the narrowest pier is about 150 ft. and vessels are required to pass between these mooring buoys.

**HEALTH:** All crew and passengers must have valid health certificates for small-pox and cholera.

**RADIO:** Messages to and from vessels at sea on the West coast of the Malayan Peninsula are best transmitted via Penang Radio in time to allow retransmission to Phuket at about the following local times:

Weekdays at 0930 hours, 1400 hours, and 1630 hours. Sundays at 1630 hours.

For vessels outside this area, messages can be sent via Bangkok or Singapore as applicable. Cables via Bangkok Radio are normally transmitted every second hour from 0800 to 2100 hours local time, whereas cables via Singapore are sometimes retransmitted via Bangkok Radio and sometimes via Penang Radio.

There are no facilities for ship-to-shore communication in Phuket, but vessels are *not* required to close down their radio station or VHF set while in port.

There is long-distance telephone connection with Bangkok, Penang, Singapore and Kuala Lumpur from Phuket at all hours.

*Despatch Cables:* Agent will in all probability need to send cables via the ship's radio reloading results, etc., subject to the Captain's approval. The cost of all such cables is to be borne by the vessel.

**TUGS:** No tugs available.

**BERTHING:** *Pier Facilities:* At Laen Klusi, Thailand Smelting and Refining Co. Ltd. have built a crossway connected by a short bridge to a pier which is parallel to the channel. The pier and channel are presently only suitable to accommodate vessels up to about 10,000 dwt. and approx. 430 ft. long, not exceeding 22 ft. draft. Vessels berthing at the pier are recommended to anchor at position 7° 48′ 24″ N. and 98° 25′ 12″ E. to await loading and favourable tide.

*Dimensions of the pier:* Length 61 m. (200 ft.), width 12 m. (40 ft.). Depth about 24 ft. 6 in. at LLW.

*Fenders:* The pier is protected by a system of wooden fenders in addition to which there is one fender at each end of the pier with solid rubber buffers.

*Mooring Buoys:* There are two mooring buoys about 700 ft. apart each at equal distance from the end of the pier.

**MEDICAL:** It is only possible to get a doctor on board in the most severe cases, but otherwise there are two hospitals in Phuket, one of which is managed by American Seventh Day Adventists Mission Doctors and the other is a Government Hospital.

**FRESH WATER:** Limited and difficult to obtain.

**FUEL:** Limited and difficult to obtain.

**CONSULS:** None.

**SURVEYORS:** No marine surveyors in Phuket; however, a surveyor can be called from Bangkok.

**REPAIRS:** No facilities.

## SATTAHIP: (Military port, Royal Thai Navy). Chuk Samet Port 12° 30′ 40″ N. 100° 55′ 00″ E. Tungprong Port 12° 41′ 58″ N. 100° 50′ 21″ E.

**PORT LIMITS:** Extend to approximately 1,500 yards from the quay wall at Chuk Samet Port, and 1,000 yards from piers at Tungprong Port.

**DOCUMENTS:** See "Bangkok".

**PILOTAGE:** Recommended working daily during the day time only. Advance notice required 4 hours prior to arrival on working day (on holiday notice required at 0830–1200) Radio frequency used when handling the vessel is 27125 mHz.

**ANCHORAGE:** Anchorage area for waiting berth and Pilot:

*Chuk Samet Port;* Capacity: eight deep-draft ships minimum depth 8 fathoms.

| | |
|---|---|
| Lat. 12° 34′ N. | Lat. 12° 36′ N. |
| Long. 100° 50′ 35″ E. | Long. 100° 51′ 35″ E. |

*Tungprong Port;* Capacity: four deep-draft ships minimum depth 10 fathoms.

| | |
|---|---|
| Lat. 12° 43′ N. | Lat. 12° 45′ N. |
| Long. 100° 49′ E. | Long. 100° 49′ 30″ E. |

**RESTRICTIONS:** Berthing day time only.

**MAX. SIZE:** See "Berthing".

**RADIO:** Radio telephone.

| *Name of station* | *Frequencies* | *Remarks* |
|---|---|---|
| MSC | 2738 mHz | Day time |
| Portsat | 2738 mHz | Day time |

**TUGS:** Join when vessel approaches berth, charge for use of tu lines.

**BERTHING:**

*Limitation of Draft:*

*Chuk Samet Port:* Depth 32 ft. below LWOS or 36 ft. below ML

(1) For cruising in the channel

32 ft.
— 3 ft. for squat, tidal phenomena, etc.
— 2 ft. for under keel clearance

Draft = 27 ft. at LWOS

(2) For staying in port

32 ft.
— 2 ft. for under keel clearance

Draft=30 ft. at LWOS

(3) Draft of the vessel could be increased for the day of sta by adding the figure of the height of tide at low water of that da the figure of draft in (2) above (30 ft.+height of tide at LW).

*Tungprong Port:* Depth 29·8 ft. below LWOS or 33 ft. below ML Draft of the vessel to be brought and stayed alongside is 27·8 ft. LWOS.

| | *Number of Berths* | *Max. LOA (ft.)* | *Remarks* |
|---|---|---|---|
| Chuk Samet | 4 | 600 | General Car |
| | 1 | 600 | Tanker |
| Tungprong | 3 | 600 | Ammunitio |

Cruise passenger ships are permitted to berth at Sattahip.

**STEVEDORES:** Vessel to advise Agent 7 days prior to arri Text required in this cable are: flag, ETA, draft, tonnage of ca aboard for port, number of crew/passengers, dangerous car heavy lifts, gangs required.

**MEDICAL:** Hospital facilities available.

**TANKERS:** Diameter of shore lines are 6, 12 and 20 in.

**DENSITY:** 1021.

**FRESH WATER:** Limited, 200 tons per trip, addition 100 tons boiler. Supply can be made by water trucks, advance notice of E required.

**FUEL:** Available, supply can be made by barges, advance notic ETA required.

**GANGWAY/DECK WATCHMEN:** Necessary.

**OPENING/CLOSING HATCHES:** Carried out by stevedo without extra charge.

**CUSTOMS ALLOWANCES:** 200 cigarettes for each officer, for each crew member for 3 days. One bottle each, wines and spir opened.

**CARGO GEAR:** Supplied by stevedores.

**IDENTIFICATION CARDS:** Required for all crew and officers

**REPAIRS:** Only for minor repairs.

**TIME:** GMT plus 7 hours. Throughout the year.

**POLICE/AMBULANCE/FIRE:** Security centre 2187; Duty off 2102 (after duty hours); Police 3180; Ambulance 116; Fire 117.

**TELEPHONES:** Available (U.S. military circuits).

**SHORE LEAVE:** Permitted.

**AUTHORITY:** Director, Captain Watanapol Seneewong Ayudhaya 986–2693.

## SRIRACHA: 13.07 N. 100.51 E.

**DOCUMENTS:**

*For Customs*

6 copies Crew List.
6 ,, Personal Belonging List.
6 ,, Provisions – Stores List.
6 ,, Foreign Currency List.
6 ,, Deck Stores List.
6 ,, Arms – Ammunition List.
6 ,, Opium List.
6 ,, Drug Store List.
6 ,, Bonded Store List.
6 ,, Passenger List (to be typed also if no passengers abo

*For Immigration*

3 copies No. 3, 4 Inward Form.
3 ,, No. 3, 4 Outward Form.
2 ,, No. 35 Immigration Form.
2 ,, Crew List.

The above forms No. 3–4–35 will be handed to Master by Agent's representative on arrival.

*For Quarantine*

2 copies Vaccination List (Cholera–Smallpox).
1 copy Maritime Declaration of Health.

**PILOTAGE:** Not compulsory. The terminal will provide a Moo Master to give assistance in berthing. Advance notice require hours prior to arrival. No VHF communications between ship terminal.

The Mooring Master boards off the berth in approx. pos 13° 07′ N., 100° 50.5′ E.

It is reported that, when crossing the Bar with Ko Nok Islet abe distance 1·5 miles, vessel steering 048T, least recorded depth approximately 56 ft. LW.

The Mooring Master acts as supervisor and liaison between ship and shore and remains on board until clear of berth.

Accommodation ladder required.

**APPROACHES:** The recommended courses approaching sea-berth through the Southern part of Ko-Sichang are as follows:

| | | |
|---|---|---|
| from Junction point named "A" | Lat. 12° 43′ 00″ N.<br>Long. 100° 44′ 36″ E. | TC = 360° |
| to Junction point named "B" | Lat. 12° 56′ 14″ N.<br>Long. 100° 44′ 36″ E. | |
| from Junction point named "B" | Lat. 12° 56′ 14″ N.<br>Long. 100° 44′ 36″ E. | TC = 022° |
| to Junction point named "C" | Lat. 13° 00′ 00″ N.<br>Long. 100° 46′ 12″ E. | |
| from Junction point named "C' | Lat. 13° 00′ 00″ N.<br>Long. 100° 46′ 12″ E. | TC = 037° |
| to Junction point named "D" | Lat. 13° 06′ 20″ N.<br>Long. 100° 51′ 00″ E. | |

from point "D" A/C to 000° (T) up to Anchorage Area or point "E".

| | |
|---|---|
| Point "E" | Lat. 13° 07′ 00″ N.<br>Long. 100° 51′ 00″ E. |

**ANCHORAGE:** Within 1 mile of position "E" in a depth of 12 fathoms. The bottom is mud.

**RESTRICTIONS:** Tankers berth in daytime only.

**MAX. SIZE:** Length 900 ft., max. draft 50 ft.

**HEALTH:** If vessel arriving from foreign port, cable required 48 hours prior to arrival at Quarantine Bangkok, stating number of crew and passengers, ETA, last port of call and date of sailing, any sickness or death arising during the voyage, otherwise confirming all well.

Vessels shall have derating certificates valid on arrival as well as all passengers' and crew members' valid vaccination certificates against cholera and smallpox.

**RADIO:**

| *Name of Station* | *Frequencies* | *Remarks* |
|---|---|---|
| Bangkok Radio: | | |
| HSA Long Wave | 500 kc/s (for calling)<br>554, 512<br>480,468 (for traffic) | operate 24 hours. |
| HSA Short Wave | 8686 kc/s (for calling)<br>8450,8420,8400<br>8380,8360,8330,<br>8320 kc/s (for traffic) | operate 5 times a day every day beginning hours of 0900, 1200, 1500, 1800 and 2100. |

Masters of all vessels proceeding to Sriracha are to notify their Agent by radio of their expected time of arrival at least 3 (three) days prior to arrival. This notice shall be amended in the event of any change in the time of arrival.

In addition to the above, the ETA message shall be confirmed 24 hours before arrival. The first notice of arrival is to contain the following information:

Cargo grade and quantities to be discharged.
Discharging rates, barrels per hour.
Deepest salt water draft.
Bunkers and water on arrival.
Urgent stores to be delivered on arrival, if any.
Bunkers and water to be delivered, if any.
Laundry service, if any.
Nature of any extraordinary repairs to be effected.
Any other matter to be attended to on arrival as electronic equipment repairs, medical attention or hospitalisation, crew repatriation (in this case advise name, age, nationality, passport number).
Cash required, if any.
Crew's liberty launch service, if any.

**BERTHING:** One buoy berth for tankers up to 50 ft. draft. Other berths where draft 43 ft. 6 ins. and 32 ft. 6 ins. Reducers available. No facilities for discharge of tank washing.

Each berth consists of six buoys – one at either bow and quarters, and inshore beam buoys abreast of focsle and poop breaks. The main berth is arranged to accommodate a tanker of 90,000 dwt. The required moorings are two ropes and a wire to each bow and quarter buoy, and one wire to each breast buoy. The offshore anchor is used (1½ to 2 shackles) but only for purposes of dredging in to the berth, and holding the vessel's bow whilst moorings are run out.

The discharge hoses connected to the vessels manifold are 2×12 in. being in turn connected to 2×16 in. hoses which leads into a common manifold on the sea bed. The submarine line to the shore is of 32 in. diameter and of about 1 mile in length.

Maximum permissible discharge pressure at ships rail, approx. 110 PSI.

Upon completion of discharge and clearing berth, vessels proceed to an anchorage off the berths, in order to carry out the Immigration Clearance, which necessitates the signing of an Immigration Form by every crew member in the presence of the Immigration Officer. After signing the form the vessel is free to sail.

**MEDICAL:** Hospital facilities available, advance notice of ETA preferred.

**DENSITY:** About 1021.

**FRESH WATER:** Can be supplied by barge. 24 hours notice required.

**FUEL:** Can be supplied by barge. 48 hours notice required.

**DEVELOPMENTS:** A project for a new deep-sea port at Sriracha has been approved and is under survey.

**CUSTOMS ALLOWANCES:** 200 cigarettes for each officer, 100 for each crew member for three days.

Each man allowed one opened bottle wine/spirits.

**IDENTIFICATION CARDS:** Required for all officers and crew.

**CONSULS:** At Bangkok:

| | | | |
|---|---|---|---|
| Argentina | 36911–3 | Korea | 31940 |
| Australia | 35970 | Laos | 32010 |
| Austria | 58327 | Malaysia | 36927 |
| Belgium | 30840 | Netherlands | 53368 |
| Brazil | 59070 | New Zealand | 31318 |

**AIRPORT:** Situated about 25 km. from Bangkok, regular international services.

**TIME:** GMT plus 7 hours. No changes during the year.

**AUTHORITY:** Director General, Maj. Gen. Prachuab Suntharangkul. 861021 912229. Deputy Director, Captain Lapoh Israngkul Na Audhya, 862021 72306.

# Togo Republic

## KPEME: 06.12 N. 01.30 E.

**DOCUMENTS:**

2 Crew Lists.
2 Stores Lists.
2 Private Property Declaration Lists.
2 Lists of last two Ports of Call.
2 Passenger Lists (if no passengers, 2 lists stating same).
2 Cargo Manifests (if no cargo for Kpeme, 2 lists stating same).

**PILOTAGE:** The limits of the port of Kpeme are fixed at 1 mile from all points of the jetty. Pilot boards out of the above limits. The Company Pilot remains on board while ship is berthed and disembarks when vessel cleared port limits. International code pilot signal used. At night, vessel should anchor between 110° and 180° at least 1 mile from the end of jetty.

**APPROACHES:** By day the extremity of the jetty (three artificial islands and two loading machines) forms an obvious landmark.

At night a white light (situated at the extremity of the jetty, 23 metres above the sea) all around horizon – light 3 sec., occulting 1 sec., light 1 sec., occulting 1 sec.

**RESTRICTIONS:** Vessels should signal twice the date and probable time of her arrival. The first time 72 hours and the second time 24 hours prior arrival. Vessels berth in daylight only from 0530 to 1530 GMT. Unmooring can be effected day and night. Water approaches are clear. Any ship should have both fore anchor cables in perfect order and capable of being used in their entirety. Any ship should be able to leave immediately if she receives order to do so from Harbour Master. With this in mind, engines must be on standby. Ships are not authorised to cross port entrance without a Pilot on board.

**MAX. SIZE:** Tankers up to 31 ft. draft on arrival. Bulk carriers up to 38 ft. draft on sailing.

**PRATIQUE:** Send message for free pratique within 24 hours of arrival to Port Health Officer, Kpeme.

**RADIO:** Until vessel within 600 miles, communicate through Portishead. Within 500 to 300 miles via Abidjan Radio TUA 487 kHz. and within 300 miles via Lome Radio 5VA 472 kHz.

**VHF:** VHF radio station, call "Kpeme Port" on Channel 16.

**TUGS:** No tugs available. Two mooring launches of 150 h.p. each are at vessel's disposal.

**BERTHING:** Loading facility comprised of three artificial islands carrying conveyor belts for loading phosphate only. They are breasted by a row of four dolphins. Vessel moors using port anchor and wires to four buoys which hold the ship parallel to the dolphins and about 20 metres off. Springs are run to the dolphins. Each loader delivers at a rate of 1,250 tons per hour and two holds can be loaded at same time.

**TANKERS:** Moor at a special berth situated to the East at 0·4 miles away from the extremity of the phosphate pier. Submarine lines 12½ in. diameter, hose connections 8 in. diameter.

**FRESH WATER:** Not available.

**FUEL:** Not available.

**MEDICAL:** No facilities at Kpeme. In emergency, doctor obtained from Lome, about 25 miles away, or from Anecho, 7 miles away.

**CONSULS:** Nearest at Lomé.

**REPAIRS:** No facilities available.

**CUSTOMS ALLOWANCES:** 200 cigarettes or 2 oz. tobacco; one bottle of spirits. No Customs Authorities board the vessels or seal bonded stores.

**REPATRIATION:** No facilities exist for effecting crew changes. However, in emergencies repatriation can be arranged.

**AIRPORT:** Nearest Lome – four flights a week to Europe.

**TIME:** GMT.

**TELEPHONES:** Placed on board, charges included in stay-in-port tax.

**SHORE LEAVE:** Not allowed.

**GENERAL:** In the rainy season, high winds and swell may delay berthing operation.

**AUTHORITY:** Compagnie Togolaise des Mines du Benin. PO Box 379, Lome. Telex Phosphates Lome 5214. Cables: Phosphat Lome Togo.

## LOME: 06.08 N. 01.17 E.

**DOCUMENTS:**

5 Crew Lists.
5 Kru-boy Lists.
5 Passenger Lists.

4 lists Previous Port of Call.
1 Maritime Declaration of Health.
1 List of arms and ammunition.

**APPROACH:** The approach to the port, by night, is assisted by three lights:

(1) *Baguida* (pos. 06° 09·5′ N. and 01° 19·5′ E.), occulting white and red. Lt. 2·5 sec., occ. 0·5 sec., period 3 sec. Vis. 17 miles. Sector: red 042°, covers the breakwater as well as the old Lomé Wharf (pos. 6° 07′ N. and 1° 13·5′ E.).

(2) *Lomé Togo-Port* situated on head of West breakwater (pos. 06° 08′ N. and 01° 17·5′ E.). Qk. Fl. (4) white and red every 10 sec. Vis. 5 miles. Red light sector covers only old wharf and is not visible seawards.

(3) *Lomé Light* situated near town of Lomé (pos. 06° 07′ N. and 01° 13′ E.). Group Fl. (2) white every 10 sec. Vis. 15 miles all around horizon.

By day, large, light-coloured transit sheds and a high, grey water tower (pos. 06° 08·5′ N. and 01° 16·5′ E.) are the first indications of port from seawards.

**PILOTAGE:** Pilots available seven days a week from 0600 to 1800 only. Pilot station equipped VHF radio and works 24 hours per day on Channel 16. Pilot boat green motorboat with orange superstructure and international flag "H". Pilot boards half a mile to one mile South-east of breakwater.

**ANCHORAGE:** Vessels which arrive during darkness should anchor about a half to one mile South to South-east of breakwater, in white sector of Baguida light in 8 fathoms, where good holding ground (sand) obtained. Northern boundary of anchorage is red sector of Baguida light.

**MAX. SIZE:** Maximum length 900 ft. (270 m.) and max. draft 31 ft. (9·5 m.).

**HEALTH:** Health Inspector will board on arrival alongside and examine for cases of infectious diseases, after which will declare vessel free or not. Vessels entering must fly international quarantine signal "Q". Large hospital situated in Lomé with doctors in attendance.

**RADIO:** Lomé radio station can be contacted on 472 and 500 kHz, call sign "5VA". Port operations carried out on VHF Channel 16, with range of approximately 30 miles. Aero beacon (pos. 06° 10·7′ N. and 01° 16·3′ E.) call sign "LME" on 379 kHz.

**TUGS:** One tug 960 h.p. available. For vessels of more than 500 grt tug is obligatory when berthing or unberthing.

**STEVEDORES:** Agent should be informed as soon as possible of ships' ETA, length, maximum draught, tonnage to load and/or discharge and number of gangs required. Agents should advise pilot station of vessel's ETA.

**TANKERS:** Togo-Port has sea pipe-line belonging to the Société Togolaise d'Entreposage. Tankers should moor at three large mooring buoys inside breakwater. Diameter of pipeline 8 in. Discharging about 230 tons per hour (depending on ship-pumps). Maximum length which can be handled at buoys is 720 ft. (220 m.) maximum draught 31 ft. (9·5 m.).

**DENSITY:** Density 1025. Harbour open to sea.

**FRESH WATER:** Available at every berth except tanker berth Delivery rate 45 tons/hour. Fresh water examined monthly for purity by Sanitary Authority.

**FUEL:** Diesel fuel only available for small craft, such as fishing vessels, small motor-ships and tugs.

**FIRE PRECAUTIONS:** No extraordinary precautions are required. Vessels with hazardous cargo should declare this on ETA telegram to Agent. During time in port these vessels should take necessary precautions themselves, and all fire hoses should be ready rigged on deck. By day international code signal "B" should be displayed and by night a red light should be shown at masthead or at an all-round visible place.

Smoking on berths and within sheds *strictly* prohibited. Infringements of fire regulations punishable by fine.

**DEVELOPMENTS:** A second quay, a fishing harbour, a slip for small vessels and a tanker berth are projected for the Eastern section.

**GANGWAY/DECK WATCHMEN:** Gangway watchmen and hatch security watchmen available; they wear a distinctive uniform.

**OPENING/CLOSING HATCHES:** Either ship's crew or dockworkers.

**CERTIFICATES:** All normal ship certificates should be available for inspection.

**CUSTOMS ALLOWANCES:** Because Togo-Port is a Free Port, no individual declaration by crew members necessary.

**CARGO GEAR:** No extraordinary regulations. No cranes available and ships' own gear used for discharging and loading.

**IDENTIFICATION CARDS:** Shore landing passes issued by port police and should be supplemented by personal ID-Cards.

**CONSULS:** Ambassadors or Consuls from nearly all major maritime nations at Lomé

**REPAIRS:** Minor repairs only.

**DRY DOCKS:** Not available at present, but a slip for small vessels is included in future development.

**AIRPORT:** Lomé airport with daily flights to Europe.

**SEAMEN'S CLUB:** A modern Seamen's Club with swimming-pool, bar and library situated ½ mile from port.

**LOCAL TIME:** GMT throughout year.

**PUBLIC HOLIDAYS:** New Year's Day (1 January); Independence Day (27 April); Labour Day (1 May); Christmas Day (25 December). All other holidays will be worked in port with supplementary labour charges.

**POLICE/AMBULANCE/FIRE:** Push-button fire alarms situated in every shed and on exterior South wall of shed "B". Telephone for contacting Police, Fire-Station or Hospital available day a night in Harbour Masters office.

**TELEPHONES:** Three public telephones within the port limi No telephones on board.

**SERVICES:** No tank cleaning or compass adjusting available.

**DELAYS:** Ships berth in rotation of arrival at anchorage. Prior given to passenger ships as well as to vessels having less than tons of cargo for discharge.

**GENERAL:** Distance from port to Lomé city-centre is 4 miles. Ta available at entrance of port.

**AUTHORITY:** Port Autonome de Lomé, BP 1225, Lomé/Tog West Africa. Cables: "Togoport". Telex. 243.

**AGENT:** Socopao Togo, B.P. 821, Lome. Tel. 5588/89; Telex 25 Cables, "Freight Lome".

# Tonga (Friendly Islands)

## NUKU'ALOFA: 21.08 S. 175.12 W.

**DOCUMENTS:** *Immigration Dept.*
2 Crew Lists.
2 Passenger Lists.
*Customs Dept.*
2 Crew Lists.
2 Passenger Lists.
1 Bond List.
3 Cargo Manifests.
*Agents*
1 Crew List.
1 Passenger List.
3 Cargo Manifests.

**PILOTAGE:** Order through Agents at least 24 hours prior to arriv Pilot boat may be contacted on R/T one hour before arrival at pil station. This position is indicated on B.A. Chart (approaches Nuku'alofa). There are two approaches, namely the Ava Lahi Pa sage and the Piha Passage.

Vessels may anchor in the vicinity of No. 1 Buoy if required to awa Pilot, but this is not normally necessary as the Pilot is available requested. Pilot boat carries usual signals.

**ANCHORAGES:** Vessels may anchor wherever they wish with the port, subject to the approval of the Harbour Master.

**MAX. SIZE:** length unlimited, beam unlimited, draft 40 ft.

**HEALTH:** Radio pratique may be requested from Tongame Nuku'alofa. Any suspected disease or fever must be reported radio.

**TUGS:** No tug is required for berthing, but a tug is available in cas of breakdown.

**STEVEDORES:** There is a Master Porter employed by the Que Salote Wharf Administration, who will supply whatever gangs a required. The number of hatches to be worked and the tonnage cargo must be passed by the Agent to the Harbour Master at lea 24 hours before vessel arrives.

**MEDICAL:** It is advisable to inform Agent in advance shou medical attention be required. Hospital facilities are availab Vaccination certificates are required for visitors who are stayin Ship's crew do not require them generally.

**DENSITY:** 1025 at all states of tide.

**FRESH WATER:** Available ex Queen Salote Wharf at 25 tons p hour delivery.

**FUEL:** A small quantity of light diesel fuel could be supplied, sufficie to enable a vessel to make the port of Suva.

**DEVELOPMENTS:** Queen Salote Wharf to be extended to at lea 600 ft. Land is to be reclaimed on the Eastern and Western sides the wharf.

**GANGWAY/DECK WATCHMEN:** Not necessary as entry wharf is restricted.

**OPENING/CLOSING HATCHES:** This work is complet optional.

**CERTIFICATES:** Normal requirements. Harbour Master m require to inspect cargo gear record.

**CUSTOMS ALLOWANCE:** A reasonable quantity is allowed Customs according to expected stay in port. There are hea penalties for smuggling.

**CARGO GEAR:** Valid certificates issued by competent authoriti are recognised.

**IDENTIFICATION CARDS:** Not necessary.

**CONSULS:** None.

**REPAIRS:** Repairs can be carried out in the Marine workshop.

**REPATRIATION:** No facilities.

**AIRPORT:** 14 miles from town. Flights to and from Suva Tuesdays, Thursdays and Saturdays.

**TIME:** Local time 13 hours fast on Greenwich.

**HOLIDAYS:** *No work of any description is permitted on the Sabba This is strictly enforced.* Official Holidays are: Christmas Day; Boxi Day; Good Friday; New Year's Day; Easter Monday; Anzac Da Emancipation Day (June 4th); Constitution Day (4th Novembe H.M. Queen Elizabeth Birthday; King's Birthday (July 4th).

**POLICE/AMBULANCE/FIRE:** Telephone numbers not necessa Just ask for the Department required.

**AUTHORITY:** Harbour Master, Queen Salote Wharf, Nuku'alo Tel. 264. Telegraphic address: "Marine, Nuku'alofa."

**OTHER PORTS:** Panga, Ha'api Group; Neiafu, Vava'u Group; both these ports are suitable for any size of vessel at anchor. Service is by lighter. Vessels of 400 ft. in length with a maximum draft of 22 ft. may berth at Neiafu.

## Trinidad

### BRIGHTON (Texaco Oil Terminal): 10.15 N. 61.38 W.

**DOCUMENTS/HEALTH/CONSULS, etc.:** Refer to "Port of Spain".
**PILOTAGE:** Compulsory.
**ANCHORAGE:** Good holding ground in roadstead. Loading pier situated 10° 15′ N. – 61° 38′ W., extending in a N.W. direction for 2010′.
**RESTRICTIONS/MAX. SIZE:** Outer Berth East, 29 ft. 6 in. MLWST; Outer Berth West, 24 ft. 6 in. MLWST; Centre Berth East, 21 ft. 6 in. MLWST; Centre Berth West, 21 ft. 6 in. MLWST; Inner Berth West, 21 ft. 6 in. MLWST.
**TUGS:** Not used. Launch assists with lines.
**STEVEDORES:** Supplied by Agent if necessary for loading Asphalt in drums only.
**FRESH WATER:** Available only at berth. Pumping rate 15 to 20 tons per hour.
**FUEL:** All grades of fuel alongside or by barge. Fresh water.
**WATCHMEN:** Customs guard on 24 hours duty at ship's side.
**CUSTOMS ALLOWANCES:** 200 cigarettes and moderate amount of spirits.
**IDENTIFICATION CARDS:** Not required.
**REPAIRS AND DRY DOCKS:** At Chaguaramas.
**MEDICAL:** All facilities available.
**REPATRIATIONS:** Can be arranged.
**AIRPORT:** See "Port of Spain".
**TIME:** GMT minus 4 hours.
**TELEPHONES:** No facilities for telephones on board.
**SHORE LEAVE:** No restrictions.
**DELAYS:** Not usual.

**AGENT:** See "Port of Spain".

### CHAGUARAMAS (Chaguaramas Terminals Ltd.): 10.40 N. 61.39 W.

**DOCUMENTS/HEALTH/CONSULS, etc.:** Refer to "Port of Spain".
**PILOTAGE:** Compulsory. Pilots board in Chaguaramas Bay – 10° 46′ N. – 61° 43′ W.
**ANCHORAGE:** Safe anchorage in Chaguaramas Bay between mainland and Gaspar Grande Island about ½ mile off the dock.
**RESTRICTIONS/MAX. SIZE:** No restrictions night operation. Two docks – main wharf with overhead cranes for loading and discharging bauxite – 960 ft. long, maximum draft 32 ft. Smaller wharf – 400 ft., draft 25 ft.
**TUGS:** Not used. Launch assists in mooring.
**STEVEDORES:** Not necessary. All loading/discharging done by Chaguaramas Terminals employees.
**FRESH WATER:** Available from dock, 40 tons per hour. Also supplied by barge.
**FUEL:** Can be delivered from dock or supplied by barge.
**WATCHMEN:** Customs guards on duty at ships side.
**CUSTOMS ALLOWANCES:** 200 cigarettes and a moderate amount of spirits.
**IDENTIFICATION CARDS:** Not required.
**CARGO GEAR:** Loading – carried out with travelling tower rate 1,000 tons per hour. Conveyor system. Discharging – carried out with travelling rig of two 4 ton grabs. Conveyor system.
**REPAIRS/FLOATING DOCK:** Operated by Swan Hunter Docks. Displacing up to 11,380 tons, 560 ft. long vessels. Also good berthing alongside, draft to 35 ft., and a safe close anchorage, draft 50 ft. General extensive repairs undertaken.
**MEDICAL:** All facilities available.
**REPATRIATION:** Can be arranged.
**AIRPORT:** See Port of Spain.
**TIME:** GMT minus 4 hours.
**TELEPHONES:** No facilities for telephones on board.
**SHORE LEAVE:** No restrictions.

**AGENT:** See "Port of Spain".

### CRONSTADT ISLAND: 10.39 N. 61.38 W.

Terminal owned and operated by Barytes and Minerals Ltd., handling bulk barytes.

Vessels from abroad calling at Cronstadt are required to proceed first to Chaguaramas for clearance formalities.
**DOCUMENTS/HEALTH/CONSULS, etc.:** Refer to "Port of Spain".
**PILOTAGE:** Compulsory.
**TUGS:** One tug used for berthing if required.
**RESTRICTIONS:** Berthing/unberthing in daylight only.
**MAX. SIZE:** 400 ft. length. This size vessel would overhang wharf approx. 100 ft. fore and aft. Draft not limited as depth of water alongside is 60 ft.

**BERTHING:** Vessel moored with 2 springs, 3 head and stern lines to dock. Discharging carried out with shore crane grab bucket 3 tons capacity.
**FRESH WATER:** available by barge.
**FUEL:** Available by barge.

**AGENT:** See "Port of Spain".

### GALEOTA POINT: 10.05 N. 61.00 W.

**LOCATION:** Galeota Single Buoy Mooring Terminal is located 3 miles on a bearing of 192° from Galeota Point Lighthouse, and is an open, unsheltered roadstead. Galeota Point is a narrow headland about 210 ft. high and located in lat. 10° 08′ 00″ N. and long. 60° 59′ 30″ W. The lighthouse, situated on top of the point, exhibits a light 240 ft. above sea level which flashes white every five seconds, and is seen for 22 miles. The buoy itself exhibits a quick flashing (one flash per second) red light, 10 ft. high, and visible for four miles through 360°.
**DOCUMENTS:**
Health Declaration, International Health Form to be filled out by Master on arrival.
Derat Certificate/Derat Exemption.
4 Crew Lists.
Ship's Register.
2 Stores Lists, signed by Master.
2 Passenger Manifests, if any passengers on board.
Bonded-stores List, each crew member is allowed to retain in his possession 200 cigarettes and one bottle of spirits. The balance must be listed and will be sealed in a locker by the Customs.
Clearance from last port of call.
Manifest, or if no cargo a statement that vessel is in ballast.
**PILOTAGE:** Vessels arriving should approach to within three to four miles of Galeota lighthouse, on a bearing of 220/230° and will be met by the Amoco Mooring Master and a Trinidad/Tobago Pilot. The Pilot will be stationed on the bridge and will advise the vessel on the approach to the buoy. The Amoco Representative will be positioned in the bow to advise the ship's crew in picking-up and making fast the floating nylon mooring lines.

Vessels are requested to have a pilot ladder safely and securely rigged, ready for immediate use, and long enough to reach the Mooring Master's launch. If at night, adequate lighting must be rigged overside for the Mooring Master to approach the side of the ship and climb the safety ladder.
**ANCHORAGE:** Approaching vessels should never anchor to the East or North-east of Galeota Point. A submarine pipe-line from a platform in lat. 10° 10′ 24″ N. and long. 60° 39′ 56″ W. enters the Galeota Point area about ½ mile Northward of the lighthouse. Vessels should approach from the South-westward, and never anchor in the vicinity of the SBM or between the buoy and the coastline.
**RESTRICTIONS:** The Galeota Terminal operates twenty-four hours per day, seven days a week. Ships are loaded and unmoored at any hour, weather and other circumstances permitting. Vessels are moored during daylight hours only; however an exception to this rule may be made at the discretion of the Terminal.
**NOTICE OF READINESS:** The company will make every effort to load vessels upon arrival or as promptly as berth is available, weather permitting.

Notice of Readiness will not be accepted as at time of arrival, unless the vessel is in all respects ready to load. Arrival time will be considered as the time the Mooring Master boards the vessel or the time that the vessel anchor, whichever occurs first.

In the event that the berthing is delayed on account of weather, vessels will keep their position in line. Vessels required to leave the port area on account of weather (port closed) should keep in contact with the Terminal via radio in order that they will be available when the weather moderates.
**RADIO:** Incoming tankers must send ETA via commercial radio station 9YL three days before arrival, on the marine HF frequencies. Galeota Point listens on 2182 kc/s and operates with Amoco's marine units on 2398 kc/s.

Ships equipped with FM/VHF radio may call Galeota Point on 156·8 Mc/s, Channel 16.

The first ETA messages should also include a definite statement of the details of any equipment required from shore for connecting submarine hoses to ship's manifold. Further ETA messages should be sent to Amoco when the vessel is 24 and 12 hours distant from Galeota Point and at any other time any appreciable change occurs in the original ETA or those subsequent thereto. The 12 hours ETA should include a positive statement regarding ship's readiness to load on arrival and the number of hours that will be required to discharge ballast after ship is berthed in mooring.

Ship-to-shore communications while ships are in moorings will be by portable VHF radio telephone units. The Mooring Master will advise Masters and Officers regarding the emergency whistle signals set up for use in event VHF radio telephone units become inoperative. The use of the ship's radio station and/or battery-charging equipment is prohibited during cargo transfer operations.
**CLEARANCE:** Trinidad and Tobago Customs Officials will be stationed at Galeota and in most instances the Customs Officer will also handle the duties of the Quarantine and Immigration Officers. Should Customs guards be stationed on board vessel while in the moorings, it is expected that ship will provide foods for these guards and other officials. All vessels calling at Galeota Terminal must provide an accommodation ladder for the officials.
**SINGLE-BUOY MOORING:** The tankers load by means of a 42-

in. pipe-line from shore to SBM which is 3 miles offshore. The ballast water is pumped ashore through a 16-in. submarine line. The buoy piping consists of two 20-in. diameter for crude and one 16-in. diameter for deballasting with a by-pass. The loading hoses from the buoy to the tanker consist of two 20-in. floating hoses, 770 ft. long ending in 12-in. hoses of 105 ft. length.

This SBM is designed for maximum tanker size of 250,000 dwt. and is located in 95 ft. water depth. Amoco maintains launches to assist in mooring and unmooring vessel.

Tankers to have ready two nylon or manila messenger lines of not less than 6 in. circumference and at least 300 ft. long.

**HOSE CONNECTIONS:** After the tanker is securely moored the floating loading/deballasting hoses must be lifted to the rail with ship's equipment. The two 12-in. hose lifts weigh about 5 tons each. The flange connection on each hose is for a 12-in. manifold. Hoses are lifted individually by the ship's gear, and may be connected on either the port or starboard side. The 12-in. hoses are connected direct to the manifold and tankers should have their manifold fittings available.

The Mooring Master and the hose crew will sling and connect the hoses to the vessel's manifold. The ship's personnel are expected to operate the winch and assist where necessary. A deck officer should be present at all times.

**BALLAST:** No dirty ballast will be pumped overboard. A separate ballast disposal line (16 in.) is available at the terminal to pump ballast to a pit on shore where oil and water can be separated, and disposal made.

A vessel must have sufficient ballast for safe manoeuvring, and usually one-third of its tonnage is adequate. However, by a careful watch of the weather information and berthing instructions and by a knowledge of the behaviour of his own vessel a Master may desire to come to the terminal with minimum ballast.

In addition to the lights usually displayed, vessels discharging ballast or loading cargo during darkness will illuminate the area around the ship to the satisfaction of the Mooring Master, in order that any oil on the surface of the sea may readily be detected, and appropriate action taken. Vessels unable to illuminate the sea satisfactorily may not discharge ballast during darkness. Vessels should provide suitable flood-lights for working on deck during night operation.

Vessels equipped with a separate system of ballast tanks will be allowed to discharge ballast and load oil simultaneously, providing approval is received from the Terminal Superintendent.

All precautions shall be taken to prevent any loss of oil overboard, drip pans must be in place, and used when disconnecting oil hose from manifold. The waters in and adjacent to the Galeota Terminal must never be polluted.

**LOADING:** Maximum crude oil loading rate through two 12-in. deck hoses is about 25,000 b.h.b. The flow is by pump and the line pressure will not exceed 60 psi.

Tankers valves must not be closed against incoming oil stream. At least three minutes is required to shut down pumps and stop flow of oil.

If ship-to-shore communications fail, the emergency signal is a continuous blast on the tanker's whistle.

**MEDICAL:** Vessels requiring emergency medical assistance should immediately contact the terminal by Marine VHF radio, and supply the necessary pertinent information which will be passed to the Agent.

Neither medical nor hospital facilities are available at Galeota or provided by Amoco. Limited facilities are available in Mayaro, which is about 30 min. drive, and unlimited service is available in Port of Spain, which is 2 hours drive.

**FRESH WATER:** Only available by barge from Port of Spain.

**FUEL:** Only available by barge from Port of Spain.

**REPAIRS:** Masters of vessels loading or discharging at Galeota Terminal are advised that this port is considered an "open roadstead" and under no circumstances may engines be shut down for repairs while their ships are moored in the SBM system. There are no facilities for making vessel repairs, but arrangements may be made through vessel's Agent to utilize the Port of Spain facilities.

It is emphasized that all vessels in the SBM system must be in readiness to clear immediately on instructions to do so.

**CONSULS:** Nearest at Port of Spain.

**TIME:** GMT minus 4 hours, and daylight saving (Summer time) is not applicable.

**SHORE LEAVE:** Shore leave for personnel of vessels loading or unloading at the terminal arranged through the vessel's Agent. All personnel going ashore must land at the Amoco small-boat harbour. Sufficient crew must be aboard at all times for letting go lines in order to clear the mooring immediately if necessary.

All vessels are required to fly the Trinidad and Tobago ensign on the foremast during daylight hours. Flags may be obtained from Agent.

The presence of unauthorized craft alongside is extremely hazardous. Ship's Masters are requested to require all non-Amoco craft to clear ship's side as soon as personnel have been embarked or disembarked.

No stores may be handled on the weather deck while ship is loading cargo, discharging dirty ballast, or while any ullage hatches, loading hose, or tank tops open.

A safety check-off list and terminal rules for safety will be delivered by the Mooring Master.

**TERMINAL OPERATORS:** Amoco Trinidad Company, POB 714, Trinidad, West Indies. Cables "Amocotri Trinidad". Telex "Amoco WG 287.

## POINTE-A-PIERRE (Texaco Oil Terminal a Refinery): 10.19 N. 61.28 W.

**DOCUMENTS/HEALTH, etc.:** As for "Port of Spain".

Officials require accommodation ladder to be rigged, usually port side, for boarding and clearance.

**PILOTAGE:** Compulsory. Pilot ordered by Agent after recei of ETA. Pilot ladder conforming to International Safety Regulatio to be supplied by vessel.

**ANCHORAGE:** Safe anchorage and good holding ground in th roadstead. On account of Pierre Shoal, a 21 ft. patch about 1¾ cable South-west of the head of the main viaduct, vessels of modera draft should approach with the main viaduct bearing more than 07 The main viaduct consists of pipe-lines supported by reinforc concrete piling, located at 10° 20′ N. – 61° 30′ W. and extends in W.S.W. direction for 6,190 ft.

**RADIO:** Texaco Trinidad Inc. maintains their own radio station o frequency 2638 Mc/s. and VHF Channels 16, 13, 12, 11, 8 and 6.

**MAX. SIZE:**

No. 1 berth North: 40 ft. MLWST; 720 ft. LOA.
No. 2 Berth North: 40 ft. MLWST; 775 ft. LOA.
No. 2 berth South: 35 ft. MLWST; 330 ft. LOA.
No. 3 berth North: 35 ft. MLWST; 640 ft. LOA.
No. 3 berth South: 20½ ft. MLWST; 350 ft. LOA.
No. 4 berth North: 21 ft. MLWST; 350 ft. LOA.
No. 5 sea berth: 40 ft. MLWST; 900 ft. LOA.
No. 6 sea berth North: 48 ft. MLWST; no limit.
No. 6 sea berth South: 48 ft. MLWST; no limit.
No. 7 berth: 35 ft. MLWST; 700 ft. LOA.
No. 8 berth: 33 ft. MLWST; 570 ft. LOA.

**TUGS:** Texaco Trinidad Inc. maintains three tugs to assist i berthing.

**FRESH WATER:** Available alongside or by barge (if available an adequate notice given prior arrival).

**FUEL:** All grades supplied alongside or by barge.

**SPECIAL PRECAUTIONS:** Tankers loading or discharging.

Bonding: When a ship has docked, the bonding cable and ho shall be connected.

Weather: Loading and discharging of dangerous petroleum m be stopped during an electrical storm and ullage screens or ullag plugs must be put in place.

Emergency alarm: This safety device is conveniently placed on docks and is under the control of the jetty personnel. This is use only in cases of emergency and has the effect of stopping all sho pumps immediately it is used. Owing to the size of vessels usin No. 6 Berths, loud-sounding horns are situated on the hose stru tures and are sounded by the jetty attendant when urgent attentio from the ship is required.

Hose pressure: The maximum discharge pressure allowed on th jetty hose is 130 pounds. Pressure of jetty hose for loading sh not exceed 130 pounds.

Hot work: No burning, welding or major repairs can be carrie out in the harbour without permission. Repairs involving hot wo may be started only if a permit has been issued and the necessar gas-free certificate granted by the Company's qualified inspector.

Hoses: Loading hoses are connected up by dock personnel, b must be supported by ship's tackle at the rail during loading o discharging. Ship's officers should keep a close watch on the hos during operations and stop loading and/or discharging operation if anything untoward happens to the hoses. A drip pan is to b placed under all hose connections in use. After loading fuel o Marine diesel or NOR, air is used for displacing hose contents in the vessel before being disconnected. For all other products the hos is drained into ship's tanks or jetty slop tank.

Towing wires: On completion of mooring on arrival, a suitab wire shall be hung over the bow and stern on the side away from th dock so that, in an emergency a tug can tow the ship off. The wi should be properly secured on board and it should be long enoug to reach the water's edge at the ship's lightest draft.

No Smoking: Smoking is prohibited on all the piers and launche Smoking on board ship is permitted only in those enclosed space that are specifically designated by the Master as "Smoking Areas"

Tank lids: Tank lids must be closed while handling cargo, an at all other times if tanks are not free of gas. Flame screens mu be in position on all open ullage plug holes.

**GANGWAY/DECK WATCHMEN:** An efficient watch must b maintained on deck and in the engine room of all ships in port, an a sufficient number of men must be on board at all times to move th vessel either for harbour operations or in emergency situations.

**CUSTOMS ALLOWANCES:** 200 cigarettes and moderate amou of spirits.

**IDENTIFICATION CARDS:** Not required.

**MEDICAL:** Advance notice of medical attention preferred. Moder hospital facilities.

**TELEPHONES:** On dockside and at all sea berths.

**SHORE LEAVE:** Crew not allowed ashore at Pointe-a-Pier Regular launch service from ship to San Fernando, 3 miles away.

**AGENT:** See "Port of Spain".

## POINT FORTIN (Shell Oil Terminal): 10.12 N. 61.42 W

**DOCUMENTS/HEALTH/CONSULS, etc.:** Refer to "Port Spain".

**PILOTAGE:** Pilotage is compulsory. Pilots board ½ mile off ma jetty (Lat. 10° 12′ N. – Long. 61° 42′ W.).

**ANCHORAGE:** There is safe anchorage ½ mile off the head of the jetty.

**MAX. SIZE:** Jetty 2 miles long with "T" head providing two outer berths of 700 ft. length and a depth of 38 ft. One inner berth of 300 ft. length and a depth of 35 ft. and other inner berths of 300 ft. length with a depth of 15 ft. 6 in.

One conventional buoy mooring (six-buoy mooring) of 850 ft. length and a depth of 53 ft. situated 4,819 ft. North off jetty head.

**TUGS:** Required for berthing at outer berths for vessels of 30,000 dwt. and over and for unberthing vessels with a draft of 36 ft. or deeper. Also required for berthing and unberthing at conventional buoy mooring. Launch assists in berthing and unberthing.

**BERTHING:** Bottom alongside, mud; back pressure (hose), 100 lb; Current, flood South-westerly, ebb North-easterly 2 to 5 knots; rise and fall tide, 4 ft.

**FRESH WATER:** Not available at CBM.

**FUEL:** Not available at CBM.

**DIRTY BALLAST:** No facilities available. Only small amount (approx. 200 tons) tank drainings acceptable on jetty and only if fluid at ambient temperature.

**PRECAUTIONS:** Normal oil terminal safety precautions applicable.

**WATCHMEN:** Customs guards on duty at ship's side.

**CUSTOMS ALLOWANCES:** 200 cigarettes, and a moderate amount of spirits.

**IDENTIFICATION CARDS:** Not required.

**REPAIRS AND DRY DOCKS:** At Chaguaramas.

**MEDICAL:** All facilities available.

**REPATRIATIONS:** Can be arranged.

**AIRPORT:** See "Port of Spain".

**TIME:** GMT minus 4 hours.

**TELEPHONES:** No facilities for telephones on board.

**SHORE LEAVE:** No restrictions.

**AGENT:** See "Port of Spain".

## POINT LISAS: 10.22 N. 61.29 W.

**DOCUMENTS:**

7 Copies Crew List.
2 Copies Ship's Stores List.
1 Copy Crew Stores List.
4 Copies Immigration arrival Report (supplied on arrival).
1 Declaration of Health (supplied on arrival)
Ship's Register.

**PILOTAGE:** Pilots ordered through Agent; 48/24/12 hour ETA needed. Pilotage is compulsory. Pilots board at Head of Pt. Lisas Channel (10° 22′ 37″ N., 61° 39′ 38″ W.); Pilot ladder conforming to International Safety Regulations to be supplied by vessel.

Launch hire arranged by Dock Master to take out Pilot to vessels on arrival, and again take off Pilots from vessels on departure.

**CLEARANCE:** Point Lisas being a port of entry is equipped with resident Customs Officer and Guard. Ships arriving from abroad could proceed directly to Point Lisas as Customs officer acts for Harbour Master/Immigration/Port Health. Tel. 659 2221.

**ANCHORAGE:** Safe anchorage ¼ mile off head of channel. On occasions, when port congested, vessels may be requested to anchor Port of Spain Roads (10° 41′ N. – 61° 33′ W.) before proceeding Pt. Lisas.

**RESTRICTIONS:** No restrictions on night entry – departure.

**MAX. SIZE:** Point Lisas "Liquid Pier" (vessels handling bulk sugar, molasses, caustic soda and Anhydrous Ammonia in Liquid form). Maximum LOA: 600 ft. Maximum draft: 28 ft. LW.

Point Lisas "Solids Pier" (vessels discharging plant equipment, and loading sulphuric acid in drums and bagged and bulk fertiliser). Maximum LOA: 400 ft. Maximum draft: 20 ft. LWOST.

**HEALTH:** Crews of vessels arriving must have valid Vaccination Certificates, covering smallpox. If not in possession, Master should advise when giving ETA and Port Health Officer will vaccinate on arrival.

For quarantine if required, or authentication of vaccination certificate, Honorary Port Health Officer could be in attendance at short notice. Tel. 656 2311.

**TUGS:** Molasses, bulk sugar and LPG carriers use a tug to assist in berthing and unberthing at Pt. Lisas "Liquid Pier". Tug will be ordered by the Agent.

**STEVEDORES:** If necessary will be ordered by Agents. No ETA to stevedores necessary.

**FRESH WATER:** Supplied at both piers. Also by barge.

**FUEL:** All grades supplied by barge. At "Solids Pier" gas oil only can be supplied ex shore installation.

**PRECAUTIONS:** When loading LPG – no smoking on pier or on ship's deck.

**WATCHMEN:** Customs guards on 24 hours duty at ship's side.

**OPENING/CLOSING HATCHES:** Normally by crew.

**CUSTOMS ALLOWANCES:** 200 cigarettes and a moderate amount of spirits.

**IDENTIFICATION CARDS:** Not required.

**CONSULS:** At Port of Spain.

**REPAIRS AND DRY DOCKS:** At Chaguaramas, 20 miles North of Pt. Lisas.

**HOLIDAYS:** New Year's Day (January 1st); Good Friday; Easter Monday; May Day (May 1st); Whit Monday; Corpus Christi; Discovery Day (August 5th); Independence Day (August 31st); Diwali Day (late October/early November); Eid-ul-Fitr (December 21st–22nd, approximately); Christmas Day (December 25th); Boxing Day (December 26th). Work is possible, except for May Day, on these holidays.

**POLICE/FIRE/AMBULANCE:** Accidents – Police – Help, 62999; Fire – First Aid, 62998; Foreign Calls, 6216.

**VHF SERVICE:** Pt. Lisas Dockmaster can be contacted on VHF Channels 16, 14 and 12.

**MEDICAL:** Advance notice of attention required will assist. Modern hospital facilities available.

**REPATRIATIONS:** Crew changes and repatriation can be arranged.

**AIRPORT:** Piarco International Airport – 30 miles from Point Lisas. Daily flights to world-wide destinations.

**TIME:** GMT minus 4 hours.

**TELEPHONES:** No facilities for telephones on board.

**SERVICES:** Efficient maintenance gang available for normal work, tank cleaning, painting, etc.

**SHORE LEAVE:** No restrictions.

**DELAYS:** Due to congestion, sometimes delays are unavoidable, usually not more than 24 hours.

**AUTHORITY:** Federation Chemicals Ltd.

**AGENT:** Melville Shipping and Trading Ltd., Steamship Operators and Agents, 68/70 Sackville Street, Port of Spain. Tel. 54060, 54218, 52384, 54977, 54287. Telex POS 265. Cables "Meltra". Code: New Boe. Bankers: Royal Bank of Trinidad & Tobago Ltd. AO Tel. 23009, 41950, 43149, 22212.

## PORT OF SPAIN: 10.39 N. 61.32 W. (See Plan)

**DOCUMENTS:**

*For Immigration.* On boarding, 3 Crew Lists and 3 Passengers Lists if passengers on board. Inspection of Derat. Certificate. Health Declaration and arrival report forms supplied by Immigration on boarding to be made up. Passengers and Crew must have valid smallpox certificates.

*For Customs.* 2 Crew Lists and 1 Passengers List if passengers on board, 2 Customs Ship's Stores Lists, 1 Crew's Stores List. Forms supplied on boarding.

Port doctor will board if calling from quarantine port. No forms required other than inspecting smallpox certificates of crew and passengers.

**PILOTAGE:** Not compulsory to Port of Spain anchorage but if required will attend from outside Bocas or where required through Agents in ETA message. Calling Pilot International Code Flag "H" by day and white light over red at night or International Code signal "G" on whistle.

Gangway or standard type pilot ladder with spreaders about 10 ft. apart. Ladder must be clean. It is desirable that 1 stanchion be securely fitted in the bulwark at the top of the ladder.

Pilot station is situated on Port of Spain Wharf.

**ANCHORAGE:** Depends entirely on draft but should not be nearer than ½ mile from Grier Channel entrance. except in cases of vessels loaded with explosives; this anchorage is clearly defined on Chart.

Open roadstead in Gulf of Paria but can be considered as sheltered with choppy seas at times. Bottom shelves gradually from shoreline to 7 fathoms at Western end of harbour limits, increasing to 20 fathoms outside harbour limits Westward. Type of bottom, mud. Swinging area unlimited. No mooring buoy. Distance from anchorage to shore 2¼ miles at 5 fathoms to 5 miles at 7 fathoms, vessel will swing to the tide if loaded, and to the wind if light.

Currents ½ to 1½ knots flood and ebb rise and fall of tides, variable minimum 1 ft. 5 in. maximum 4 ft. Rainy season June–December. Dry season December–June not always predictable. Rain squalls occur during months of July, August and September up to 30 to 40 knots unpredictable hurricane most unusual. Prevailing winds are mostly Easterly. Normally stronger during daylight.

**RADIO:** Advise through North Post wireless or telephone, call sign 9 YL. ETA 48 hours and 24 hours with other requirements.

**RESTRICTIONS/MAX. SIZE:** The Grier Channel, 350 ft. wide, leads to a dredged basin in which are the docks. No restrictions length, but maximum draft in channel, in basin and alongside is 30 ft. There is 4,600 ft. of docking area.

**HEALTH:** Crews of vessels arriving must have valid Vaccination Certificates, covering smallpox. If not in possession, Master should advise when giving ETA and Port Health Officer will vaccinate on arrival.

**TUGS:** There are 3 tugs in Port of Spain to assist in docking operations.

**BERTHING:** Eight berths with 32 ft. depth. Length of wharf 4,500 ft. Width of apron: King's Wharf 50 ft., extension 75 ft. Warehouses: Seven on wharf face, 254,250 sq. ft. Nine other warehouses, 136,147 sq. ft.

**STEVEDORES:** Labour on Docks and labour on ships: Controlled by Port Contractors Ltd. Ordered by Agents. Gang size on Docks: 14 to 18 men. Gang size on vessels: 13 men, 1 gangman, 2 winch drivers, 8 hold men, 1 cooper, and 1 hatch foreman.

**CARGO HANDLING:** One berth on the Eastern side is an open wharf without a seafront warehouse. This berth is strictly used for containerised and passenger (cruise) vessels. The Eastern wharf is 3,300 ft. with five seafront warehouses. On the Western side the wharf is 1,200 ft. long with two seafront warehouses for general cargo, but at these two berths there are also facilities for receiving bulk cargo, i.e. grain, liquid oil, fats and molasses. These cargoes are usually discharged by vessel's equipment, but grain can be discharged by shore equipment at a slower rate.

There are now one floating crane, 60 tons capacity, one crawler

crane of 160 tons capacity and also one 125-ton fork lift for handling 20 ft. containers. There is also a trailer service for 20 ft. containers from dock to consignee's warehouse.
**FRESH WATER:** Supplied alongside all berths.
**FUEL:** All grades supplied by barge.
**WATCHMEN:** Customs guards on 24 hours duty at ship's side.
**OPENING/CLOSING HATCHES:** This is handled by stevedores.
**CUSTOMS ALLOWANCES:** 200 cigarettes and a moderate amount of spirits.
**CARGO GEAR:** Vessels normally load and discharge with their own gear but shore cranes and heavy lift cranes available on the dock.
**IDENTIFICATION CARDS:** Not required.
**CONSULS:**

## SOBO (Pitch Point): 10.15 N. 61.37 W.

Crude Oil Terminal operated by B.P. Trinidad Limited. Vessels from abroad calling at Sobo are required to proceed first to Brighton for clearance formalities.
**DOCUMENTS/HEALTH/CONSULS, etc.:** Refer to "Port of Spain".
**PILOTAGE:** Compulsory.
**TUGS:** Not used. Launch assists berthing.
**RESTRICTIONS:** Berthing/unberthing only on flood tide.
**MAX. SIZE:** Controlled by depth alongside jetty – 29 ft.
**BERTHING:** Vessel moored with springs on jetty. Other lines to buoys.
**FRESH WATER:** Not available.
**FUEL:** Available by barge.

**AGENT:** See "Port of Spain".

## TEMBLADORA (Alcoa Bauxite Terminal): 10.41 N. 61.35 W.

**DOCUMENTS/HEALTH/CONSULS, etc.:** Refer to "Port of Spain".
**PILOTAGE:** Pilotage is compulsory. Pilots board ½ mile off installation.
**ANCHORAGE:** Safe anchorage ¼–½ mile off head of jetty.
**RESTRICTIONS/MAX. SIZE:** There are two wharves: No. 1 with a length of 976 ft. and No. 2 with a length of 675 ft. Both are dredged to 36 ft.
**TUGS:** Alcoa maintain their own tug to assist in docking operations.
**STEVEDORES:** Not necessary.
**FRESH WATER:** Supplied at both piers, also by barge.
**FUEL:** All grades by barge.
**WATCHMEN:** Customs guards on duty at ship's side.
**OPENING/CLOSING HATCHES:** Handled by crew.
**CUSTOMS ALLOWANCES:** 200 cigarettes and a mod
amount of spirits per man.
**CARGO GEAR:** As "Port of Spain". Loading: Carried out
travelling tower conveyor system, rate 1,200 tons per hour. Disc
ing: With travelling towers grabs two each 5 tons capacity rat
tons per hour.
**IDENTIFICATION CARDS:** Not required.
**REPAIRS AND DRY DOCKS:** At Chaguaramas.
**MEDICAL:** All facilities available. Advance notice of requirem
should be given.
**REPATRIATIONS:** Can be arranged.
**AIRPORT:** See "Port of Spain".
**TIME:** GMT minus 4 hours.
**TELEPHONES:** No facilities for telephones on board.
**SHORE LEAVE:** No restrictions.

**AGENT:** See "Port of Spain".

## LA GOULETTE (including Tunis): 36.49 N. 10.18 E.

**DOCUMENTS:** *Required by Police:*
2 Crew Lists.
2 Passenger Lists.
*Required by Customs:*
1 Crew List.
2 Passenger Lists.
2 Crew Manifests.
*Required by Port Health:*
1 Crew List.
1 Passenger List.

**PILOTAGE:** To call Pilot contact Goulette Radio station, call sign 3VW, 24 hour watch on 2182 kc/s. Pilot boats are in permanent direct contact with Goulette Radio. International code visual and sound pilot signals may be used on arrival at the sea buoy.

Pilot launches are stationed inside the port, and proceed on call to meet vessels about a ½ mile beyond the sea buoy, i.e. the buoy No. 1 in the entrance channel to the port.

**ANCHORAGE:** Anchorages in the port roads are safe except during strong winds and heavy seas from the North or North-east; good holding ground.

Larger vessels anchor about ½ mile North-east of the sea buoy in depths of 12–14 m. Small vessels may anchor either North or South of the approach channel in depths of 7–9 m. in the vicinity of buoys Nos. 4 and 5 provided that they do not obstruct navigation in the entrance channel.

**RESTRICTIONS:** Tankers and ore carriers are not allowed to enter and leave port during the hours of darkness. Depth of water at low water is 27 ft. 6 in.

**MAX. SIZE:** *La Goulette:* up to maximum draft 27 ft. 6 in. Max. length 200 m. *Tunis:* up to maximum draft 21 ft. 6 in.

**HEALTH:** Master is required to complete Declaration of Health on arrival. Vessels which have previously called at another Tunisian port are given automatic free pratique except in time of epidemic.

**RADIO:** Tunis Radio 24 hour watch on 2182 kc/s, radio-telephone watch from 0600 to 2200 on 500 kc/s. Goulette Radio call sign 3VW 24 hour watch on 2182 kc/s.

**TUGS:** Are available to assist berthing as directed by the Pilot. Tugs join vessels in the vicinity of buoys Nos. 4 and 6, that is 400 or 500 m. from the berths. Vessels lines always used.

**STEVEDORES:** Gangs are ordered before 0600 for morning work; before 1300 for the afternoon and before 2000 for night work.

**MEDICAL:** Preferable to advise Agent in advance if doctor required on board. Crew members should possess international vaccination certificates.

**TANKERS:** One berth is reserved for tankers with a maximum draft of 27 ft. 6 in.

**FRESH WATER:** Hydrants are situated on the quays supplying fresh water at a rate of 12–15 cub. metres per hour. A water barge of 50 tons capacity can supply vessels at anchor.

**FIRE PRECAUTIONS:** A watchman has to be permanently employed on board tankers when alongside. A tug equipped with fire-fighting equipment is required to stand by tankers discharging.

**DEVELOPMENTS:** Dredging is being carried out to provide a depth of 11.60 m. in the entrance channel, and a depth of 11 m. at the oil berth. When dredging is completed the maximum allowable draft will be 32 ft.

**WATCHMEN:** The employment of gangway watchmen is necessary.

**OPENING/CLOSING HATCHES:** Are performed by ship's crew.

**CUSTOMS ALLOWANCES:** Each crewman is allowed two packets of cigarettes or 4 cigars or 50 gr. of tobacco and one opened bottle of alcohol.

**CONSULS:** Following countries are represented in Tunisia:
Australia
Denmark
France
Italy
Morocco
Norway
Panama
Algeria
Venezuela

**REPAIRS:** Machinery and boiler repairs can be effected on board. For large repairs it is necessary to send part to the Shipyards of Soconema at Menzel Bourguiba – 70 miles away.

**DRY DOCKS:** at Menzel Bourguiba 4 dry docks, the largest of which is 253 m. long 41 m. wide, 10.5 m. depth.

**REPATRIATION:** Can be arranged.

**AIRPORT:** Situated 10 km. from the port. Regular daily flights to Europe and N. Africa.

**TIME:** GMT plus 1 hour. No alterations during the year.

**HOLIDAYS:** 20th March (Independence Day); 1st May (Labour Day); 25th July (Republic Day); 15th October( Evacuation Day). In addition there are 13 other holidays on which work is carried out on payment of overtime.

**POLICE/FIRE/AMBULANCE:** Tunis Police, tel. 5389; Goulette Police, tel. 275.028; Fire. 198; Ambulance 260.022.

Telephones can be connected on board vessels and are compulsory for tankers.

**SHORE LEAVE:** Crew members are permitted to go ashore obtaining a pass from the Port Police.

**AUTHORITY:** Office des Ports Nationaux Tunisiens, Port de la Goulette. Tel. 275.300. Telegram "Ofpornatu". Telex 386.

**AGENT:** Compagnie Tunisienne de Navigation, Head Office: 5, Avenue Dag Hammarskjoeld, Tunis/Tunisia. Cables "Cotunav-Tunis"; Teleprinter 475 & 479. Tel. 242.999.

## LA SKHIRRA (Terminal Platform): 34.18 N. 10.09 E. (See Plan)

**DOCUMENTS:**
5 Crew Lists.
2 Lists of Crew Personal Effects.
2 Stores Lists.
5 Passenger Lists, if passengers carried.
Manifest of cargo on board.
Manifest of cargo in transit.

**PILOTAGE:** Compulsory for berthing alongside. Pilot employed by TRAPSA. ETA required 48 hours and 24 hours before arrival. Call pilot by international code signals on arrival, or by VHF Channel 16. TRAPSA will advise if vessel required to anchor, or berth immediately. Pilot boards one mile off the terminal by black and white motor launch.

**ANCHORAGE:** Vessels should anchor outside the prohibited zone which is limited to the South by the parallel of Buoy No. 5 and to the East by bearing 350° from the terminal platform light.

**MAX. SIZE:** Length 300 metres. Draft 47 ft. 6 in. or up to 51 ft. at high water.

**HEALTH:** International Quarantine signals to be shown on arrival. Vessels normally receive free pratique at the quay after berthing. Suspect vessels must wait at anchor until pratique is given.

**RADIO:** TRAPSA operate coastal station Laskhirra Radio, (3VP). Messages for TRAPSA passed by other stations should be addressed Rapetrol Laskhirra.

**VHF:** The harbour office and loading terminal are equipped with VHF on the following channels: 156.8 Mc/s (calling), 156.6 Mc/s. 156.7 Mc/s. 156.55 Mc/s. Contact with tugs can be made on all four channels.

**TUGS:** Two tugs 1,500 h.p. each, normally used for berthing. Lines provided by tugs.

**BERTHING:** Two loading berths situated one each side of terminal platform connected by a jetty to the shore. For safe manoeuvring tankers are recommended to arrive with ballast up to 30% of summer deadweight. Mooring may need to be doubled during months of December to April, when sudden violent squalls sometimes occur. A vessel alongside requiring tug assistance may sound one long blast at frequent short intervals.

Depth alongside loading berths is 15 to 16 metres. Loading platform is served by three 30 in. oil pipe-lines and two 24 in. ballast lines. Each berth equipped with four 12 in. flexible hoses.

**MEDICAL:** Advance notice required of any medical assistance needed. Hospital facilities available. Crew members require valid vaccination certificates.

**BALLAST:** All ballast, except permanent, to be pumped to shore installation. Heavy fines for water pollution.

**FRESH WATER:** Not available.

**FUEL:** Not available.

**CUSTOMS ALLOWANCES:** Two packets cigarettes allowed each crew man. No alcohol allowed.

**CONSULS:** Following countries are represented at Sfax: France, Sweden, Great Britain, Netherlands and Italy.

**REPAIRS:** There are no facilities for repairs. Nearest at Sfax.

**REPATRIATION:** Can be arranged.

**AIRPORT:** Nearest at Tunis 350 km. away.

**TIME:** GMT plus 1 hour all year round.

**SHORE LEAVE:** Not allowed in Trapsa installation. Can be arranged through Agent.

**AUTHORITY:** T.R.A.P.S.A., BP B, Sfax. Telex 40811, La Skhirra. Cables "Rapetrol Laskhirra".

## SFAX: 34.44 N. 10.46 E.

**DOCUMENTS:** Within 24 hours of arrival Masters must submit a written declaration giving the name of ship and of the Master, Owner or Charterer, vessel's tonnage, draft, cargo, port of origin and destination, number of crew on board. Also required:
Customs Manifest.
Crew List for Police.
List of Dangerous Cargo.
Health Declaration.

**PILOTAGE:** Compulsory for all vessels over 100 gross tons. Pilotage commences at the outer buoys of the entrance channel. Day signals for Pilot, International Code Signal "P.T." or Code flag "S" hoisted alone or below code pennant. Night signals according to international rules. For entry at night, vessels must radio Harbour Master at the latest one hour before sunset to confirm their intention. Before boarding, Pilot will check that vessel does not exceed the maximum authorised draft. If the "Entry Prohibited" signal is not hoisted at the port signal mast, vessel may await Pilot in the channel axis about 1 mile off the outer buoys. Pilot boards from a launch 11 metres long, displaying international pilot signals. Pilot may be contacted by radio through Radio Port de Sfax. Agent must give advance notice of vessels arrival to Harbour Master 24 or 48 hours beforehand.

**ANCHORAGE:** In immediate vicinity of the port, depths up to 15 metres, good holding ground.

**MAX. SIZE:** Length 192 metres, beam 26 metres, draft 33 ft.

**HEALTH:** To request free pratique, hoist "Q" flag on arrival, or radio to Port Health Service. Pratique normally given at the berth after mooring. Suspect vessels are required to wait at anchor until pratique is given.
**RADIO:** Sfax Port Call—call sign 3VW2, operating from 05.00–09.00 and 15.00–19.00. GMT.
Calling frequency 2182 kc/s., working frequency 1743 kc/s. CR3. Used only for communications with port services. Meteorological information provided on request.
**TUGS:** Join vessel at outer buoys or according to circumstances in the outer port.
**BERTHING:** North-east Quay 820 m. long phosphate berth.
West Quay 150 m. long phosphate berth.
Petrol Pier 105 m. long. Max. size: length 180 m., draft 33 ft.
Salicole Pier salt loading berth.
**STEVEDORES:** Available, arranged by Agent basis vessel's ETA.
**MEDICAL:** Advance notice preferred if medical attention required. Hospital facilities available. Vaccination certificates required for all crew.
**DENSITY:** 1025.
**FRESH WATER:** Hydrants fitted on all quays. Written request for replenishing water is required by Harbour Master.
**FUEL:** Available by barge.
**DEVELOPMENTS:** Entrance channel to be widened to 60 metres. Dredging to 12·50 metres of channel and principal quays. These projects are under study.
**WATCHMEN:** Normally ship's crew. Available from shore if required.
**OPENING/CLOSING HATCHES:** Normally performed by crew.
**IDENTIFICATION CARDS:** Required by all crew.
**CONSULS:** Local representatives for France, Great Britain, Netherlands, Norway, Sweden, Denmark, Spain, Italy, Greece, Portugal and Belgium.
**REPAIRS:** Small engine repairs can be effected. Floating dock for vessels less than 350 tons.
**REPATRIATION:** Can be arranged.
**AIRPORT:** There is an airfield 7 km. from the city. No regular services.
**TIME:** GMT plus 1 hour.
**HOLIDAYS:** 1st January; 18th January; Aid El Kebir; Hegirian New Year; 20th March; 9th April; 1st May; Mouled; 1st and 2nd June; 25th July; 3rd August; 13th August; 3rd September; 15th October; Aid Es Seghir.
**POLICE:** Tel. 21–700.
**SHORE LEAVE:** Allowed.
**AUTHORITY:** Direction du Port de Sfax. Tel. 21644, 21532, 21486.

## SOUSSE (Suza): 35.50 N. 10.38 E.

**DOCUMENTS:**
3 Crew Lists.
3 Passenger Lists.
4 Crew Personal Effects Lists.
Health Declaration.
Manifest of Provisions on Board.
2 copies vessel's particulars declaration.
**PILOTAGE:** Contact Pilot Station. Tel. 03.20.401.
**RESTRICTIONS:** Entrance to the port coming from the sea is East to West. Channel 820 m. long, dredged to 10 m. depth. Depth in port area 9·50 m., height of tide 0·60 m.
**BERTHING:** One basin for ocean-going ships, yacht basin and fishing vessel harbour.
Length of quays 830 m. 8 berths.
**HEALTH:** Free pratique normally given at the quays after mooring. Pratique is automatic for vessels coming from another Tunisian port. In case of suspected disease on board vessel will be ordered to quarantine anchorage.
**STEVEDORES:** Minimum of 24 hours advance notice of ETA to Agent is required.
**MEDICAL:** Doctor available to board vessel. Hospital, private clinics and all facilities available.
**REPAIRS:** No facilities.
**WATCHMEN:** It is recommended to employ shore watchmen.
**OPENING/CLOSING HATCHES:** Carried out by stevedores at the request of Masters.
**CUSTOMS ALLOWANCES:** Each crew member is allowed one carton of cigarettes and one opened bottle of wine or spirits. In case of a prolonged stay in port, Customs may renew these quantities.
**IDENTIFICATION CARDS:** Crew member's identification cards will be collected by the Immigration service and exchanged for shore passes while vessel is in port.
**TIME:** GMT plus 1 hour all year round.
**HOLIDAYS:** There are 17 days official holiday during the year. Work can be carried out on all holidays except 1st May on payment of 100% overtime.
**AIRPORT:** Skanes Monastir – 13 km. from the port.
**AUTHORITY:** Direction du Port, Rue Assad Ibn. E. Fourst, Sousse Tunisia.

# Turkey

**GENERAL:**
On arrival off Canakkale, coming from the Aegean, or off Büyük coming from the Black Sea, ships must stop for sanitary inspect However, tankers with a dwt. over 100,000 tons proceeding to Gulf of Izmit to discharge or load petroleum products may ob pratique there without stopping at Canakkale, provided Agents notified 96 hours in advance.

In the event of bad weather at Canak, vessels may be allowed continue their voyage to Istanbul and undergo the sanitary insp tion there. Permission to do so is notified to them by the Ca Sanitary Office with the signal "H.M." in day time and three ver lights (green, white, green) at night.

Pilotage through the Dardanelles and the Bosphorus is not co pulsory. Pilot stations, equipped with VHF operating on Chan 16, are located at Canakkale, Istanbul and Telli Tabia (Up Bosphorus).

*Turkish Flag:* All foreign ships are required to fly Turkish during their stay in Turkish ports or when passing through Straits (Dardanelles and Bosphorus).

*Sanitary and Port Inspections:* On arrival at a Turkish port, e ship is boarded by a Sanitary Officer for examination. Nobody join or leave the ship before this inspection is completed.

The ship must produce the following documents:
Sanitary Declaration Form.
Deratisation Certificate.
Ship's Register.
Load-line Certificate.
Safety Radio Certificate.
Safety Equipment Certificate.
Cargo Ship Safety Construction Certificate.

*Police Customs Controls:* After obtaining free sanitary pratiq the ship must likewise produce:
(1) 3 Crew Lists together with every member's passport, discha book or Z-card.
(2) 1 List of Provisions, Stores and Bunkers.
(3) 1 Declaration of all Monies or cheques carried in the sh safe.
(4) Manifests of all cargo on board, whether for discharge Turkish or foreign ports.
(5) 1 List of Passengers landing in Istanbul showing national number, date and source of entrance visa (if such visa required) together with the passports.
(6) 1 List of Transit Passengers together with the passports.

Documents covered by items 1, 2, 3, 4 and 6 as well as a lis passengers embarking at Istanbul are also required on departure

Police and Customs Controls are effected at Istanbul wh arriving from the Aegean and at Büyükdere when arriving from Black Sea. However, vessels under 500 n.r.t. have to undergo com formalities at Canakkale, both inwards and outwards, apart fr those to be effected at Istanbul. It is recommended to prepare accommodation ladder to facilitate the boarding of officials.

Excepting the case of tourist vessels, the Customs Officers seal stocks of provisions and tobacco, spirits, as well as any ot items in bond. Sufficient quantities of the foregoing will be unsealed for the needs of the ship during the stay in port.

If stores left unsealed are exhausted while a ship is in por request to the Customs Officers will ensure further withdrawal.

The seals must not be broken before the ship's exit from territo waters or if sailing from one Turkish port to another Turkish por

*Special Rules for the Passage of the Bosphorus:* Art. 35 of "International Regulations for Preventing Collisions at Sea" d not apply to ships navigating in the Bosphorus. Ships proceed up the Bosphorus must keep to the European side, and com down must keep to the Asiatic side of mid-stream; that is to they must always keep to the left in so far as is consistent safety.

During their passage through the Bosphorus, ships must regu their speed, without exceeding the 10-knot limit over the bot so that piers, landing stages, etc., or other craft (sailing and row boats, etc.) may not be damaged by their wash. Further, they m take care not to hinder fishing and diving operations or to dam submarine telephone, telegraph or electric cables.

*Sound Signals, Wireless Sets:* It is forbidden to make use of si or steam whistles in the harbour, except for manoeuvring purpo as laid down in the regulations for the avoidance of collisions.

Wireless transmitters are not sealed on arrival of a vessel but recommended that their use in Turkish territorial waters be restric to cases of emergency.

*Refuse:* No refuse such as garbage, ashes, polluted oil and like can be thrown or pumped overboard, nor any scraping, clean of tanks and/or bilges can be effected inside port limits.

## ALIAGA: 38.50 N. 26.57 E.

Aliaga Refinery Terminal.
**LOCATION:** *Northern Point:* Lat. 38° 50′ N. Long. 26° 57′ 36″ E
*Southern Point:* Lat. 38° 50′ 10″ N. Long. 26° 46′ 33″ E.
**DOCUMENTS:** See "Izmir".
**PILOTAGE:** Pilot boards 1 to 2 miles N.W. of Tasli Burnu Lig
**ANCHORAGE:** The port itself is situated about 40 miles N. of Izmir on the Southern arm of the Gulf of Candarli and the anch age is considered safe for large ships.

**RESTRICTIONS:** Water depth at entrance about 14 fathoms. Water depth at crude oil wharf 15 metres.

**MAX. SIZE:** Crude oil berth designed for up to 100,000 dwt. Products berth designed for up to 40,000 dwt.

**PRATIQUE:** *Customs:* Customs post at refinery.

*Immigration:* None locally. Incoming and outgoing personnel have to be processed at Izmir and escorted under guard to and fro.

*Health:* No office locally. Officials have to be brought from Izmir.

**RADIO:** Cable address of Aliaga Refinery: "Petrol Izmir".

Four days prior arrival, Agents require notice of ETA (time and date) followed by any subsequent change.

**TUGS:** Two 2,000 h.p. tugs are on order. Meanwhile tug can be obtained, if free, from Port Monopoly Izmir at additional cost. Mooring boat also on order, meanwhile local boat available for hire.

**BERTHING:** Incoming tankers discharge at a "T"-type oil jetty just South of Tasli Burnu Light. The jetty runs parallel to the coastline and is situated 39° 49′ 30″ N. 26° 57′ 30″ E. approximately. The outer arm of the jetty, 317 metres long, is designed for crude oil tankers of 75/100,000 dwt. on the outer side and for tankers of 40,000 dwt. on the inner. The outer S.E. arm is designed for products tankers of up to 22,000 dwt. and the inner berth for small tankers of up to 8,000 dwt.

The crude oil berth is roughly in the centre of the N.W. arm and has four loading arms. The jetty is protected by four pivotal concrete buffers.

The products berth is similarly in the centre of the arm and is equipped with flexible hoses. Crude oil pumping rate up to about 3,000 tons per hour.

**FRESH WATER:** Not available.

**FUEL:** Not available.

**AIRPORT:** Izmir is not an international airport and cargo is nearly always transhipped leading to unforeseen delays.

**SUPPLIES:** From local towns; adequate fresh fruit and vegetables and meat.

**AUTHORITY:** See "Izmir".

**AGENT:** See "Izmir".

## CANAKKALE 40.08 N. 26.24 E.

**DOCUMENTS:** Vessels in transit through the Dardanelles must stop at Canakkale and produce following documents to boarding Officer:

Certificate of Registry.
Derat. Certificate.
Crew List.
Name of Agent in Istanbul.

Vessels proceeding to a Turkish port will require in addition:

4 Crew Lists.
2 Personal Effects Lists.
2 Currency Lists.
2 Stores Lists.

**PILOTAGE:** Not compulsory for vessels proceeding to Istanbul. Compulsory for vessels over 1,500 GRT proceeding to Canakkale. Vessels requiring a Pilot use International Code signals, or signal "G" by light or whistle. No advance notice required. Telegraphic address of Pilot Station, Kilavuzluk Canakkale, via radio station TAM 7. Pilot boards off Khepez lighthouse, where vessel should slow down but no need to anchor. In bad weather pilot boat will anchor in Gulf of Kilya.

Also see "Shipmaster's Report".

**ANCHORAGE:** Vessels may anchor in position 40° 09′ 00″ N., 26° 23′ 09″ E. in depths of 12 to 16 fathoms.

**MAX. SIZE:** Vessels of any size may navigate Canakkale Strait.

**HEALTH:** All vessels bound for a Turkish port must stop for Sanitary Clearance at Canakkale. Any suspected disease on board must be declared. Sick crew members may be landed for hospitalisation.

Also see "Shipmaster's Report".

**RADIO:** Radio Station TAM 7 situated at local Post Office.

**TUGS:** One tug available, belonging to pilot station. Ship's tow lines always used.

**BERTHING:** Agents require at least 24 hours notice to arrange berthing at Canakkale Pier. Vessel may be required to shift to anchorage to give place to Turkish passenger vessels which have priority.

**STEVEDORES:** Arranged by Agent on basis of Master's ETA.

**MEDICAL:** 12 hours notice required to arrange medical assistance. Hospital facilities available.

**DENSITY:** Salt water. No tide.

**FRESH WATER:** Only available from the pier, rate approx. 10 tons per hour.

**FUEL:** Marine grades not available.

**DEVELOPMENTS:** New installations and berths under construction.

**WATCHMEN:** Customs guard compulsory for vessels at the pier.

**HATCHES:** May be operated by crew or stevedores according to Charter Party.

**CUSTOMS ALLOWANCES:** Crew allowed retain only quantities for personal consumption.

**IDENTIFICATION CARDS:** Required for crew members going ashore.

**CONSULS:** Italy, tel. 1008.

**REPAIRS:** Minor repairs can be effected.

**REPATRIATION:** Can be arranged if visa requirements are satisfactory.

**AIRPORT:** Situated 2 km. from Canakkale, internal services only.

**TIME:** GMT plus 2 hours all year round.

**HOLIDAYS:** Cargo work can be arranged on all holidays by agreement.

**POLICE/FIRE/AMBULANCE:** Police tel. 1181; Fire 00; Ambulance 1098.

**SHORE LEAVE:** Allowed at all times.

**SHIPMASTER'S REPORT:** *Dardanelles and Bosporus:* A pilot station has been established at Mehmetcik Point (Cape Helles); if the weather is too bad to embark the Pilot here vessel should proceed to Canakkale. If a Pilot is required for both Dardanelles and Bosporus, give 24 hours' notice through Istanbul Agent. Same Pilot remains on board for full transit, Sea of Marmara included, and this applies for both North- and South-bound traffic. Pilots at Dardanelles and Bosporus work VHF Channel 16.

*Sanitary Control:* White launch. Officers do not board but require Chief or 2nd Officer to go down into boat. Canakkale required Ship's Register, Derat, Crew List and Quarantine Declaration of Health. It is also required to fill in a form giving details of ship, cargo, last port, number of crew and passengers, etc., also name of ship's Agent in Turkey.

**AUTHORITY:** Canakkale Liman Baskanligi, Tel. 1121.

## DERINCE: 40.45 N. 24.49 E.

**PILOTAGE:** Pilotage in the Gulf of Izmit is compulsory for foreign flag vessels. The Izmit Gulf Pilot will disembark at harbour limits. Harbour Pilot also compulsory for all foreign flag vessels.

**ANCHORAGE:** Suitable anchorage at harbour entrance.

**TUGS:** Two tugs are available, 970 h.p. each.

**BERTHING:** Pier length 207 metres, depths alongside vary from 5 metres up to 7·35 metres.

**BULK HANDLING FACILITIES:** Two silos with storage capacity 5,000 tons each. Loading capacity 160 tons per hour, discharging capacity 120 tons per hour.

**AUTHORITY:** General Directorate of Turkish State Railways.

## EREGLI (Karadeniz Eregli), including Usunkum: 41.18 N. 31.27 E.

**DOCUMENTS:**

5 Crew Lists.
5 Passenger Lists.
3 Provisions Lists, including Bonded Stores.
3 Cargo Manifests.
3 sets Bills of Lading.

**PILOTAGE:** Pilotage available night and day for use in port under all weather conditions. Pilotage is carried out by qualified and experienced Pilots.

Compulsory for ships over 500 tons to have pilot service, and for ships over 1,000 gross tons to have pilot and tug-boat service.

Ships will take Pilots on board at a reasonable distance off the breakwater's red light. It is strongly advised that ships awaiting Pilot should avoid drifting South of the transit line of the green light on the breakwater ruin (Boshane Mendiregi) and the Citadel ruin which can be seen on top of the hill. (Transit direction is approximately 041° true.) The distance from the entrance of the port to the dock is approximately 4·6 cables, and the depth gradually decreases from 10 fathoms to 5 fathoms at the dock side.

In stormy weather, if the Pilots are unable to board, ships will proceed to a point in the Inner Port enabling the Pilots to board.

**ANCHORAGE:** Vessel waiting Pilot may anchor about 1 mile West of breakwater red light. The bottom of the port is muddy and sandy, and therefore ships can lay at anchor in any weather without fear of drifting.

**RESTRICTIONS:** *Eregli:* The depth of water in Outer Harbour is 15 metres (49·2 ft.) and Inner Harbour has 10 metres (35 ft.)

*Usunkum:* The length of Usunkum breakwater is 1,250 metres. The depth of water is 42 ft. Under normal weather conditions ships up to 34 ft. (inclusive) can enter into the Inner Harbour and berth alongside the dock safely. Average tide is about 1 ft. The width of channel is 200 metres but safe lane is 144 metres wide.

**MAX. SIZE:** *Eregli:* Under normal weather conditions ships up to 35 ft. draft can enter Inner Harbour and dock safely.

*Usunkum:* Up to 34 ft. draft can be berthed.

**HEALTH:** Pratique given after port doctor's visit on vessel's arrival. Crew vaccination certificates should be presented if required. Sanitary certificate required for any live animals on board.

**RADIO:** Istanbul Radio, TAH.

**TUGS:** Available. Normally join vessel outside the breakwater. Ships lines always used. Towing is done by one or two 600 h.p. diesel tugs. Towage is required for entering, leaving, berthing and shifting according to the size of the ship. Ships having a draft of over 20 ft. shall not use their own propellers in the Inner Harbour except in case of danger or absolute necessity.

Vessels with a draft greater than 30 ft. may be asked by the Port Authority to use a second tug at a very high cost.

**BERTHING:** *Eregli:* Inner quay is about 400 metres long for general cargo and 135 metres for coal loading.

The normal depth alongside quay is 30 ft. The docks have loading and unloading facilities, a railway track and open and closed warehouses at a very short distance. The railroad is a local system and is not connected to the Turkish railroad network. It has a length of approximately 16 km. for coalmine operations.

*Buoys:* There are four mooring buoys in the port 105 metres apart and at a distance of 170 metres from the breakwater at an average depth of 8 fathoms, buoys anchored with 50 tons concrete blocks and marked I, II, III and IV starting from the main breakwater head.

It is possible and safe to moor to the buoys with or without anchor and to moor to the breakwater by the stern (if the ship's length is adequate).

*Usunkum:* Usunkum has one loadout dock of about 172 metres length and one ore unloading dock about 195 metres length and a small general-purpose quay for small ships.

**STEVEDORES:** At least 24 hours notice required to order gangs.
**MEDICAL:** All details of any medical assistance required to be given to Agent with one hours notice. Hospital facilities available. Vaccinations can be arranged.
**FRESH WATER:** Can be delivered at 40 tons per hour.
**REPAIRS:** Small repairs such as lathing, levelling, welding, blacksmith work and woodwork can be effected ashore.
**HATCHES:** Opened and closed by either stevedores or crew according to Charter Party.
**CUSTOMS ALLOWANCES:** 200 grams tobacco and two bottles wine/spirits allowed each man per week.
**IDENTIFICATION CARDS:** Needed for crew going ashore.
**CONSULS:** No local representatives.
**REPATRIATION:** No facilities exist.
**TIME:** GMT plus 2 hours all year round.
**HOLIDAYS:** Cargo work can be arranged on all holidays.
**POLICE/FIRE/AMBULANCE:** Police tel. 28; Fire tel. 00; Ambulance tel. 500.
**TELEPHONES:** Cannot be connected on board.
**SHORE LEAVE:** Crew permitted to go ashore at all times.
**AUTHORITY:** Karadeniz Eregli Liman Baskanligi, Eregli-Karadeniz. Tel. 7.

## GIRESUN (Kerasunda): 40.56 N. 38.24 E.

**PILOTAGE:** Pilot ordered by Agent who requires 24 hours notice in advance of vessel's arrival. Compulsory for all foreign flag vessels.
**ANCHORAGE:** Good anchorage in Outer Harbour. Vessels should keep the entrance channel clear.
**TUGS:** Available in the harbour, but normally not required for vessels entering and leaving.
**BERTHING:** Entrance between breakwaters with width 275 metres depth 14 metres.

Berth A for passenger vessels, berth length 150 metres, depth alongside up to 8·5 metres.

Berth B for cargo vessels, berth length 275 metres, depth alongside up to 8·5 metres.

Berth C length 135 metros, depth alongside up to 8 metres.

Other berths for Port Administration vessels.

**STEVEDORES:** Working hours normally from 0800 to 1200 and from 1300 to 1700.
**FRESH WATER:** Not available.
**FUEL:** Not available.
**REPAIRS:** No repairing facilities.

## GOLLUK: 37.14 N. 27.38 E.

**DOCUMENTS:** The following documents have to be prepared by Masters before arrival:

4 copies of Crew Lists.
2 copies of Store Lists.
1 copy Health Document.
4 copies of Passenger Lists.
3 copies of Customs Documents.
3 copies of Manifests for cargo destined to port.
1 copy of Manifest for all transit cargo aboard.

N.B. Ship's particulars Form is to be filled by Masters upon arrival and remitted to the Port Authorities.

**RESTRICTIONS:** Golluk is a well-protected natural harbour, not affected by winds from any direction. Deep water approaches to pier.
**PILOTAGE:** Pilot unavailable.
**HEALTH:** Vessels to show their Sanitary Certificate if available aboard and also their Registry. Presentation also of Vaccination Certificate of all the crew, if required by sanitary officials. Pratique is necessary on arrival even if vessel has called at another port in the same country. Sanitary Certificate is required for live animals aboard.
**RADIO:** Izmir radio station, call letters TAN2. Istanbul radio station, call letters TAH.
**TUGS:** Not available.
**BERTHING:** One pier 170 metres long used for handling emery ore in bulk. Depths alongside 39 ft. shelving to 20 ft. at ninety metres from seaward end.
**CUSTOMS ALLOWANCES:** 50 cigarettes for each member of crew going ashore. Aboard the vessel each member of the crew is permitted to have one carton out of Bond. One litre wine/spirits for each member of the crew in opened bottle is permitted out of Bond. However, this allowance is to be kept aboard the vessel.
**TIME:** Local time GMT plus 2 hours. No alterations during the year.
**HOLIDAYS:** New Year's Day (from December 31st 1200 hrs. to January 1st 2400 hours); National Sovereignty Day (from April 22nd 1200 hrs. to April 23rd 2400 hours); Spring Day (1st May); Constitution Day (27th May); Sports Day (19th May); Victory Day (30th August); National Holiday (28th October 1200 hrs. to 30th October 2400 hrs.); Sheker Bayram (3 days movable); Kurban Bayram (4 days, movable).

## ISKENDERUN: 36.35 N. 36.10 E.

**DOCUMENTS:**

5 Crew Lists.
4 Passenger Lists.
2 copies Transit Cargo Manifest.
3 copies Inward Cargo Manifest, of which one must be lega by Turkish Consula'e at loading port. If no consulate exis same to be certified by local Customs Officer or Authorities.
1 set Bills of Lading.
2 copies Cargo Stowage Plans.
Health Documents.
2 Stores Lists.
Ship's Certificates.

**PILOTAGE:** Compulsory. Ordered by Agent on basis of Mas ETA. International Code signals used to call Pilot who board harbour entrance. Two pilot boats available.
**ANCHORAGE:** Safe anchorage in open roadstead at ½ to ¼ from shore. Vessels over 30,000 tons dwt. work cargo at ancho using ship's gear to lighters and pontoons. Vessels loading charging to lighter should anchor as close as possible to har entrance but not less than 800 metres from the pier.
**MAX. SIZE:** At anchorage, no limitations. Alongside pier, le 166 metres, draft up to 30 ft. Also see 'Tankers'.
**HEALTH:** Pratique obtained on arrival. Master required to s vessel's Health Declaration and Certificate of Registry. Crew va nation certificates to be produced if required. Sanitary certific required if live animals on board.
**RADIO:** Istanbul Radio, call sign TAH. Izmir Radio, call sign TA
**TUGS:** Four tugs available of 300, 700, 970, and 1,200 h.p. respe vely.
**BERTHING:** Jetty 509 metres long can accommodate two la vessels and several small vessels simultaneously.

Berth No. 1 at jetty head, 48 metres length, 35 ft. depth.
Berth No. 2, South side, 166 metres length, 28–32 ft. depth.
Berths 3 and 4, suitable only for tugs and small vessels.
Berth No. 5, North side, 166 metres length, 29–34 ft. depth.

Due to shelving depths vessels of 20,000 to 30,000 dwt. berth pa alongside and lighten cargo then shift once or twice further in.

The T.M.O. have a silo of 20,000 tons capacity which can de up to 300 tons per hour. Loading capacity of ore, 200 tons per h Unloading capacity for coal, 150 tons per hour.

*Inner Port*, used only by pontoons, lighters and tugs.

Priority given to Army, food relief and passenger ships.

**STEVEDORES:** Two consecutive shifts of 8 hours each day anchor, approximately 100 tons can be handled each shift, general cargo. Baled cargo, 125 tons per shift. Bagged cargo, tons per shift.

Gangs secured by Agent through the Port Monopoly, 24 ho prior arrival.

**MEDICAL:** Master to inform Agent by cable if urgent med assistance required on arrival, also indicating, if possible, serio ness of case in order to take adequate steps.
**TANKERS:** Two buoy mooring berths operated by Mobil Oil a Petrol Ofisi, suitable for vessels up to 50,000 tons dwt.

No slop reception facilities.

**FRESH WATER:** Supplied only by barge, two available eac 250 tons capacity.
**FUEL:** Not available.
**DEVELOPMENTS:** A new port complex is under constructio prolongation of the inner port area. Quays to be completed 1
**WATCHMEN:** Services of watchmen recommended. Three s of 8 hours each. Extra tariff for Sundays and holidays.
**HATCHES:** May be opened/closed by ship's crew. May be formed by stevedores at tariff rates.
**CUSTOMS ALLOWANCES:** 50 cigarettes for each man go ashore. On board the vessel each man may hold 200 cigarettes one open bottle wine/spirits out of bond.
**IDENTIFICATION CARDS:** Seamen's Book is sufficient.
**CONSULS:** Vice-consulates of Sweden, Norway, Netherla France, Greece, Italy and Iran.
**REPAIRS:** Welding and other minor types of repairs are possi
**REPATRIATION:** Can be arranged.
**AIRPORT:** Adana Airport, served only by domestic lines routes to Beirut and Istanbul. Airport situated 140 km. from Isk derun. Twice daily service to international airport Istanbul.
**POLICE/AMBULANCE/FIRE:** Police 1044; Ambulance 14 Fire 1000.
**TIME:** GMT plus 2 hours all year round.
**HOLIDAYS:** New Year's Day (commencing 1200 Dec. 31 National Sovereignty Day (April 23rd, half day April 22nd); Sp Day (May 1st); Constitution Day (May 27th); Sports Day (May 18 Victory Day (August 30th); October 28th (half day); October 2 and 30th; Sheker Bayram (3 days, movable); Kurban Bayram (4 da movable).
**SHIPMASTER'S REPORT:** Customs and health clearanc performed at anchor outside the port. Vessels should anchor ab ½ mile North of the landing stage in the main part of the town. officials and Agents arrive by boat and when clearance is given Pilot comes out. Vessels with cargo for the chemical works Sariseki (3½ miles North of the main port) the procedure is same except that a Pilot is not required.

Customs, immigration, and health officials require 4 crew lists arrival. The Agent will require 2 more crew lists prior to the vess departure for clearance with the Harbour Master. On departure vessel will anchor off again while outward clearance is obtained

Summer time is in operation all over Turkey from 1st April until 30th September each year.

**AUTHORITY:** Harbour Master, Iskenderun.

**AGENT:** Gulf Agency Company (Turkey) Limited, POB 277, Iskenderun. Tel. 1277, 2277, 3290. Telex 4 ISK MAKZUME. Cables: "GACSHIP Iskenderun."

## ISTANBUL: 41.01 N. 28.58 E.

**DOCUMENTS:** *Operating Vessels*

5 Crew Lists.
6 Passenger Lists.
3 Stores Lists.
1 Transit Cargo Manifest.
2 Inward Freighted Manifests.
2 Inward Non-freighted Manifests.
Copies of relevant Bills of Lading accompanying Inward Manifests,
Ship's Certificates (Deratisation, Tonnage, Safety, Safety Radio, Class or Freeboard).
3 ships safe money lists. (If there is no money on board, please issue three lists as follows: THERE IS NO MONEY ON BOARD).
Harbour Masters Sailing Permit (which must be exchanged at each Turkish port and kept on board).

*Transiting Vessels*

Master to present only Tonnage and Deratisation Certificates during Sanitary Control at both Straits (Canakkale and Buyukdere).

**PILOTAGE:** For both operating and transiting vessels, Pilot secured by the Agent through the Port Monopoly Administration. Master to wire ETA notices 48 and 24 hours prior to arrival. Pilot boarding vessel with service boat hoisting red and white flag. Pilot boarding vessel off Haydarpasa and Seraglio or off Kavak. Pilotage for entering and berthing in harbour areas is compulsory. Pilotage through Bosphorus is optional. All Pilots can be contacted by VHF Channel 16.

Also see "Shipmaster's Report".

**ANCHORAGE:** Free and safe anchorage in roads off Marmara coast approach to Instanbul. It is however recommended to anchor the nearest possible to the harbour. Anchoring at other anchorage areas is subject to special permission via Harbour Mastorate. Good anchorage off Haydarpasa and off Yenikapi, Ahirkapi for large vessels and for smaller vessels there is a good anchorage between Dolmabahce Palace and Kurucesme.

**RESTRICTIONS:** Ships carrying hazardous cargoes (inflammable, explosives, corrosives, etc.) are not allowed to enter the harbours. Ships can anchor in roads outside the harbour at any time without Pilot. Ships to operate upon arrival at night can enter the harbours with Pilot and with special permission through the Port Monopoly Administration. Forty-eight hours' notice has to be given to the Harbour Master of Istanbul for vessels calling at Istanbul and/or passing in transit through Bosphorus.

Vessels entering the Black Sea must keep to the European side and those leaving the Black Sea must keep to the Asiatic side of the fairway.

**MAX. SIZE:** No limitation of draft in open roadstead, at anchor. Maximum draft in port alongside quay: 10 metres for dry cargo ships. Tankers up to 48 ft. draft can berth at Haramidere oil port.

**HEALTH:** Sanitary control of both transiting and operating vessels performed at the Straits entrance (Canakkale and Buyukdere). Ships entering from South must slow down at Canakkale and ships arriving from North must slow down at Buyukdere for Sanitary Control. In case of non-performance of such control due to bad weather, Master has to inform Agent in time and have to stop and wait at South Entrance of the Bosphorus until Sanitary Control is performed otherwise heavy fine would be levied.

Also see "Shipmaster's Report".

**RADIO:** Wirelesses to be routed to Agent via Istanbul Radio. Call sign of Istanbul Radio Station is THA. Frequency MW 500 m. Ships can also communicate with Agent by radio telephone on frequency 2182 kc/s. It is recommended that ships be on watch for any radio telephone call by Agent for any berthing and operation arrangement.

**TUGS:** Arranged by Agent. Tug-boat compulsory for vessels over 2,000 grt, charged per hour or fraction of each operation.

Two of 970 h.p., 1 of 620 h.p. and 1 of 200 h.p. Lighters: 1 of 100 tons, 6 of 150 tons and 3 of 230 tons.

**BERTHING:** Priority to Army, food relief and passenger ships. If no berth available then ships to wait for turn in roads at anchor.

**WHARVES:**

| | *Length in metres* | *Depth of Water in metres* |
|---|---|---|
| Karakoy (ex Galata) exclusively for passenger vessels | 520 | 7–10 |
| Salipazari | 600 | 10 |
| Sarayburnu | 240 | 6 |
| Camialti and Haskoy (Golden Horn) | 68 | 3–4 |

*Haydarpasa.* This port, protected by two breakwaters of an overall length of 1,709 metres, has quays of 1,988 metres total length, that may simultaneously accommodate six medium-sized vessels and where cargo operations may be made direct to and from wharves or railway trucks.

The draft of water at the quays varies between 6 and 10 metres.

*Silos:* 4 grain silos are available:

| *Capacity* | *Delivery per hour* | *Intake per hour* |
|---|---|---|
| 34,500 tons | 200 tons | 100 tons |
| 20,000 tons | 120/150 tons | 90/100 tons |
| 10,800 tons | 120/150 tons | 90/100 tons |
| 5,280 tons | 120/150 tons | 90/100 tons |

*Equipment* – Total number of cranes: 31.

Electrical Cranes along the quays:

3 of 1·5-ton capacity
10 ,, 3 ,, ,,
6 ,, 5 ,, ,,
1 ,, 6 ,, ,,
1 ,, 8 ,, ,, (coal winch)
1 ,, 25 ,, ,, (fixed with swinging boom)
1 ,, 25 ,, ,, (gantry crane on rails)

Rubber Wheeled Mobile Cranes:

6 of 5-ton capacity
1 ,, 8 ,, ,, with caterpillar tracks
1 ,, 10 ,, ,,
1 ,, 18 ,, ,,

**BULK HANDLING:** Three grain silos are available:

One of 34,500 ton capacity with 200 ton delivery/100 ton intake per hour.

One of 10,800 ton capacity with 120–150 ton delivery, 90–100 ton intake per hour.

One of 5,280 ton capacity with 120–150 ton delivery, 90–100 ton intake per hour.

**TANKERS:** The oil port called Haramidere is a small bay open to Southern winds and 60 km. distant from Istanbul in the Sea of Marmara. There are buoys and oil pumping platform in this bay. Tankers can berth by dropping two anchors and mooring by stern at these buoys or at platform. Average sea depth is 48 ft.

**BRIDGES:** There are two bridges: Galata Bridge is between Eminonu and Karakoy: Ataturk bridge is between Unkapani and Azapkapi. Both bridges are opened in the morning for vessels entering the Inner Harbour (Golden Horn). Vessels wanting to pass through the bridges have to give notice in due time to the Harbour Master of Istanbul.

**STEVEDORES:** Gangs of stevedores secured by the Agent through the Port Monopoly, 24 hours prior arrival. Average loading and discharging rates of about 150–200 tons per gang per shift depending also on the kind of goods. Discharging operations are generally performed alongside the wharves and loading operations at buoys; however, as stated above, can also be effected alongside simultaneously with discharging. Working hours: Monday to Friday 0800/1200 and 1300/1700 hours; Saturday 0800/1200 hours.

**MEDICAL:** Master to inform Agent by cable if urgent medical assistance is required upon arrival, also indicating if possible seriousness of case in order to take adequate steps.

**DENSITY:** Always variable due to strong currents, however, can be reckoned as 1015.

**FRESH WATER:** Supplied by barge and shore installation at the rate of 30–60 tons per hour.

**FUEL:** Diesel oil, gas oil and bunker fuel can be supplied by barge at transit cost, subject 48 hours pre-advice. Fuel supplied only against advance payment in foreign exchange (dollars, sterling or Swiss francs).

**GANGWAY/DECK WATCHMEN:** Recommended.

**OPENING/CLOSING HATCHES:** Owners or Master to decide whether this work should be undertaken by the stevedores or by the crew.

**CERTIFICATES:** Safety, Safety Equipment, Safety Radio, Class and Freeboard documents.

**CUSTOMS ALLOWANCE:** 40 cigarettes and one bottle wine/spirits per crew member.

**CARGO GEAR:** Generally shore cranes operating. However, ship using own means when such cranes are not available. Full lights to be supplied by ship.

**IDENTIFICATION CARDS:** Seaman's book is sufficient.

**REPAIRS:** At the Golden Horn are three graving-docks:

One 388 ft. length, 72 ft. width at entrance
Two 279 ft. ,, 62 ft. ,,
Three 600 ft. ,, 63 ft. ,,

At Istinye (in the Bosphorus) are:

1 floating dock 137·50 m. length, 21·25 m. width with 8,500 tons lifting capacity. 1 floating dock 67·82 m. length, 30·40 m. width with 5,000 tons lifting capacity. 1 floating dock 126·14 m. length, 34·0 m. width with 10,000 tons lifting capacity. In cases of necessity floating docks of 5,000 and 10,000 tons capacity can be united and be put in operation as single floating dock with 15,000 tons lifting capacity. Every kind of repair can be effected at Istinye docks.

At Fener (Golden Horn) is a dry dock for vessels up to 600 tons, and at Kaskoy (Golden Horn) is a dry dock for vessels up to 176 tons, length 176 ft. and 176 ft. respectively. There are also some privately owned. All kinds of repairs can be effected.

**SURVEYORS:** American Bureau of Shipping, Bureau Veritas, Germanischer Lloyd, Lloyd's, Norske Veritas.

**REPATRIATION:** Crew exchange and repatriation is possible for citizens of Italy, Great Britain, Benelux, Sweden, Norway, West Germany, Austria, Switzerland, France, Ireland, U.S.A., Iceland, Pakistan, Monaco, Australia, Canada, Japan, New Zealand, Spain, Cyprus, Portugal, Tunis, Kenya, Iran, Yugoslavia, Romania, Morocco. Citizens of other states not specified above are subject to a Turkish visa.

**AIRPORT:** Yesilkoy Airport is an international airport with daily connection to everywhere. Airport distant 15 km. from Istanbul.

**TIME:** GMT plus 2 hours, GMT plus 3 hours in Summertime.

**HOLIDAYS:** New Year's Day (Dec. 31st p.m. and January 1st); National Sovereignty (April 22nd p.m. and April 23rd); Spring Day (May 1st); Sports and Youth Day (May 19th); Sheker Bayram (3 days) (movable); Courban Bayram (4 days) (movable); Liberty/Constitution Day (May 26th p.m. and May 27th); Victory Day (August 30th); Proclamation of the Republic (Oct. 28th p.m. to Oct. 30th). In the event of a holiday ending on a Friday, the Saturday that follows is considered also as a holiday in full, and normal working starts as of Monday morning 0800 hours.

**POLICE/AMBULANCE/FIRE:** Fire Istanbul 21 42 22, Uskudar 33 20 30; Police 27 45 00; Ambulance Istanbul 21 15 95, Beyoglu 44 49 98, Uskudar 33 04 01.

**TELEPHONES:** No installation for connection facility on board.

**SERVICES:** Tank cleaning (gas-free service), deratisation, compass adjusting carried out by experts of shipyards or Turkish Maritime Lines.

**SHORE LEAVE:** Crew members are allowed ashore at all times.

**SHIPMASTER'S REPORT:** *Dardanelles and Bosporus:* If a Pilot is required for both Dardanelles and Bosporus, give 24 hours' notice through Istanbul Agent. Same Pilot remains on board for full transit, Sea of Marmara included, and this applies for both North- and Southbound traffic. Pilots at Dardanelles and Bosporus work VHF Channel 16.

*Sanitary Control:* Required at Buyukdere, Ship's Register, De-Rat, Crew List and certificate issued at Canakkale North-bound.

**AUTHORITY:** Marmara Bulgesi Liman ve Denizisleri Mudurlugu. Tel. 44.21.97; Director 44.23.91; Harbour Master 44.23.74.

**AGENT:** Gulf Agency Co. (Turkey) Ltd., POB 1230–Karakoy, Istanbul/Turkey. Cables: "Gacshipping – Istanbul". Telex 213 1st Mayou. Tel. 44 29 80.

## IZMIR: 38.25 N. 27.09 E.

**DOCUMENTS:**

5 Crew Lists.
4 Passenger Lists.
2 Manifests of Transit Cargo.
3 Manifests of Inward Cargo, one of which must be legalised before arrival by Turkish Consulate at loading port.
1 set Bills of Lading.
2 sets Cargo Stowage Plans.
2 Stores Lists.
Health Documents.
Ships Certificates.

N.B. Ship's particulars form is to be filled in by Masters upon arrival at Izmir, and remitted to the Port Authorities.

**PILOTAGE:** Vessels are permitted to arrive and sail from Izmir by day and night. After entering the Gulf of Izmir, Masters who are not familiar with the waters, require a pilot at Pelican Spit. The pilotage from Pelican Spit to Izmir is not compulsory and Masters must notify their Agents at least 12 hours in advance giving their ETA at Pelican Spit and ask for a Pilot.

Pilot can be contacted on VHF Channel 16.

**ANCHORAGE:** In the Outer Harbour, 300 metres outside Old Port breakwater, ample space for vessels to anchor. Cargo operations cannot be performed at anchor unless vessels have red label cargoes aboard for Izmir or in transit.

**RESTRICTIONS:** Docking of ships at the old port is not permitted during night, but ships can sail any time during night. At the new port, docking is permitted during night (weather permitting) also ships can sail any time during night. There are no tides at Izmir.

**MAX. SIZE:** Vessels of any size with a maximum of 33 ft. draft can operate at Izmir. There is a pipe-line for oil-carriers in the Gulf of Izmir where tankers with a maximum draft of 33 ft. can operate.

In Old Port, length restricted to 165 metres, max. draft 8 metres.

**HEALTH:** Vessels to show their Sanitary Certificate – if available aboard – also their Registry. Presentation also of Vaccination Certificate of all the crew, if required by sanitary officials. Pratique is necessary on arrival even if the vessel has called at another port in the same country. Sanitary Certificate is required for live animals aboard. If quarantine (fumigation) of the vessel is necessary, very considerable time is lost for vessel to proceed to Fumigation Station at Klazomene, located at about 20 miles from Izmir (in the Gulf of Izmir) where fumigation can be effected and bad cases hospitalised. Very costly and loss of time caused.

**RADIO:** Izmir Radio Station: call letters TAN2. Istanbul Radio Station: call letters TAH.

**TUGS:** Tugs are compulsory for vessels of more than 2,000 grt. At Harbour's Master's estimation, two tugs will be used for vessels over 4,000 grt in case of bad weather. Dues will be collected for each tug.

Four tugs of 200, 300, 970 and 1200 h.p. continuously availab

**BERTHING:** *Old Port:* Location Lat. 38° 25′ N. Long. 27° 1 Harbour entrance to port 130 ft. wide, depth 40 ft., harbour le 1,200 metres, harbour width 700 metres. (Pilot boards ¼ mile of trance).

Precaution to be taken against North-east and South winds. M ing stern to quay. Operations effected by means of lighters. A gether 8 vessels can berth in Inner Harbour with a draft of 24 to

*Alsancak – New Port:* Located at a distance of about 2 miles the old port. Depth alongside berths 22 to 33 ft. Pilot's boar vessels outside breakwater of old port. Presently 9 cargo ves of various sizes (mainly medium and small sizes) otherwise 5 vessels of big size can operate at the new port. There is also a b for one big size passenger vessel or 2 small size vessels.

**BULK HANDLING FACILITIES:** Grain silo has capacity 4 tons. The conveyor can deliver between 2,500 and 3,000 tons i hours

Bulk ore loaded by grabs. Daily loading capacity per shift hours is between 750 to 1,000 tons.

**STEVEDORES:** Straight time 08.00/12.00, 13.00/17.00. Over 18.00/02.00, 13.00/17.00 (Saturdays). Sundays and holidays as as Saturdays from 13.00: overtime charges 50% increase on charges.

For overtime discharging operations at the new port hand charges (overtime) from ship's tackle to the Custom's wareho are for account of the ship.

9 men per gang aboard (6 labourers, 2 winchmen, 1 hatch ten 3 lightermen or men on the Dock.

Extra men used to reinforce regular gangs and in hatches com ted with cargo to be discharged thus securing a quick despatch

**MEDICAL:** Advance notice optional. There is a local Engl speaking doctor for service on board vessels.

Hospitals: U.S. Military Hospital, French Hospital, Governm Hospital (Memleket). Doctors available to board ships or patien proceed to their clinics.

U.S. Military Hospital for emergency cases but not accep regular patients.

**TANKERS:** Izmir is a discharging port for tankers. Socony M Oil receives petroleum products in bulk through a pipeline at a tance of about 1 mile from their shore installations. Depth at end of the pipeline is 33 ft. The pipeline is of 12 in. and the pum is effected through a flexible of 10 in. at an average of about 45 tons per hour.

British Petroleum, receives petroleum products at a Jetty w the tankers berth stern to with a draft of maximum 23 ft. Pumpin effected by the vessel from her stern with a flexible hose of 6

Petrol Ofisi receives petroleum products at their jetty. Ves berthed stern to with a draft of 17 ft. Same procedure for pum as for British Petroleum. The above three installations are locate the Gulf of Izmir opposite to the new port of Alsancak.

**FRESH WATER:** Fresh water is available for drinking. The w is given both from dock or by barge. Water is supplied by Monopoly. Delivery at the dock about 20 tons per hour. By ba about 40 tons per hour.

Two barges each of 200 tons capacity available.

**FUEL:** All kinds of fuel available subject to 24 hours' advance no Fuel supplied only against advance payment in free foreign excha direct to Agent of the vessel.

**DEVELOPMENTS:** New port of Alsancak to be extended du the next five years by the construction of a breakwater, do warehouses totalling a berthing capacity of additional 5 to 6 ca vessels.

**GANGWAY/DECK WATCHMEN:** Services of watchmen commended. Three shifts of 8 hours per day.

**OPENING/CLOSING HATCHES:** This work can be carried by crew. If carried out by stevedores the cost is charged to ves

**CERTIFICATES:**

Deratisation Certificate.
Registry.
Vaccination Certificates (if required).
Health Certificate.

**CUSTOMS ALLOWANCES:** 50 cigarettes for each membe the crew going ashore. Aboard the vessel each member of crew is permitted to have one carton out of Bond. Wine an spirits: One litre for each member of the crew in an open bott permitted out of Bond. However, this allowance is to be kept abo the vessel.

**IDENTIFICATION CARDS:** Seamen's Book is sufficient.

**CONSULS:**

**REPAIRS:** Ship's repair shops available: Denizcilik Ba (Turkish State-owned), Lui Tius (private). Deck and engine re are possible.

**DRY DOCKS:** No dry docks available.

**REPATRIATION:** All facilities available for crew changes and arranging necessary repatriations.
**AIRPORT:** Airport from dock – distance 30 kilometres. Airport is served by Turkish Airlines with 5 flights per day (local flights in connection with Istanbul International flights). Also one daily flight from Izmir to Athens (Greece) and back by Turkish Airlines.
**TIME:** Local time 2 hours ahead of GMT. No alterations made to clocks during the year.
**HOLIDAYS:** New Year's Day (from December 31st 12.00 hrs. to January 1st, 24.00 hours); National Sovereignty Day (from 22nd April, 12.00 hours to April 23rd, 24.00 hours); Spring Day (May 1st); Constitution Day (May 27th); Sports Day (May 19th); Victory Day (August 30th); National Holiday (October 28th, 12.00 hours to October 30th, 24.00 hours); Sheker Bayram (3 days) movable; Kurban Bayram (4 days) movable.

On these days offices are closed. Work in port is allowed by paying 50% overtime to the S.T. wages. The overtime for the National Holiday (Oct. 29th) is paid 100% on the total regular overtime, which makes 300%. On the first days for Sheker and Kurban Bayram work aboard is doubtful.
**POLICE/AMBULANCE/FIRE:** Police, tel. 22771; Ambulance, tel. 22319; Fire, tel. 22222.
**TELEPHONES:** It is possible to place telephones aboard vessels at the new port of Alsancak.
**SHORE LEAVE:** Crew members are allowed to go ashore.
**REGULATIONS:** Berths at the new port of Alsancak are obtained on basis of the time and date of arrival of each vessel. If the port is congested, vessels wait for their turn at anchor.
**DELAYS:** During the active export season, some delays occur varying one or two days.
**AUTHORITY:** Izmir Harbour Master, Ataturk Caddesi 178, Izmir, Turkey. Tel. 23693.

**AGENT:** Gulf Agency Company (Turkey) Limited, POB 857, Izmir. Tel. 32755 and 32864. Telex 71 IZR Makzume. Cables: "GACSHIP Izmir."

## MERSIN: 36.47 N. 34.38 E.

**DOCUMENTS:**
5 Crew Lists.
4 Passenger Lists.
2 Transit Cargo Manifests.
3 Inward Cargo Manifests, one of which must be legalised prior arrival by Turkish Consulate at loading port; if no Turkish Consulate, same to be certified by local Customs Authorities.
1 each of the Bills of Lading accompanying Manifests.
2 Cargo Stowage Plans.
Health Documents.
Ship's Certificates (Safety Equipment, Safety Radio, Class and Freeboard Documents).
2 Store Lists.

**PILOTAGE:** Agent orders Pilot through Port Monopoly Administration. Master to wire ETA notices 48 and 24 hours prior to arrival. Pilot boards vessel with service boat hoisting red and white flag. Sound signals: two long and one short blast. Pilot boards vessel outside main breakwater. Shipmaster can use VHF station according existing international frequencies.
**ANCHORAGE:** Safe anchorage in open roads outside main breakwater.
**RESTRICTIONS:** No particular restrictions. Ships can anchor in roads outside main breakwater at any time without Pilot.
**MAX. SIZE:** No limitation of draft in open roadstead, at anchor. Maximum draft in port alongside quay: 14 metres for tankers, 10 metres for other ships.
**HEALTH:** Clearance is effected on arrival. Vaccination Certificates to be presented if required. If suspected disease on board radio Agents full details before arrival.
**RADIO:** Istanbul Radio, call sign TAH, Izmir Radio, call sign TAN2, Mersin Radio TAM5. Wireless messages to be routed to Agent, preferably via Istanbul Radio. Port VHF service in operation.
**TUGS:** Tug boat compulsory for vessels over 1,000 grt. charged per hour or fraction of each operation. Four tugs available up to 1,200 h.p.
**BERTHING:** Priority to Army, food relief and passenger ships. If no berth available then ships to wait for turn in roads at anchor.

**BULK HANDLING FACILITIES:** At Quay Nos. 8 and 9 there is conveyor system which can deliver 600 tons per hour from each spout Discharging rate 100 tons per hour from each of the two suckers.
**STEVEDORES:** Gangs of stevedores secured by the Agent through the Port Monopoly, to be ordered 24 hours prior to arrival.

Generally two consecutive shifts of 8 hours per day. Discharging/loading rates average:
100 tons per shift general cargo.
200 tons per shift bagged cargo
150 tons per shift baled cargo
175 tons per shift bulk ore
Max. rate for ore 400 tons per shift if grab loading.
**MEDICAL:** Master to inform Agent by cable if urgent medical aid is required upon arrival, also indicating if possible seriousness of case in order to take adequate steps.
**TANKERS:** Quays No. 20 and 21, 350 metres long, berths on each side with depth of 12·5 metres.
*ATAS Refinery Terminal:* Depth in harbour channel, 11·2 metres and, in approaches to channel, 12·3 metres. Turning basin 1,148 ft. diameter, depth 42 ft. 8 in. Depth alongside berths 48 ft. 6 in.

Maximum length 229 metres, draft 11·6 metres. Tankers up to 12·19 metres draft have berthed.

Tankers in ballast up to 15,000 dwt. may berth/unberth at any time, day or night. Other vessels manoeuvre in daylight hours only.

One finger pier, berths for two tankers, 10-in. hose connections to 26-in. shore line. No facilities for slop disposal ashore.

Fresh water available from barge 100 tons each load.
**DENSITY:** Salt water 1025.
**FRESH WATER:** Fresh water supplied to tankers by barge but otherwise by shore installation at the rate of 30/35 tons per hour.
**FUEL:** Almost all kinds of fuel available in transit and facilities for delivery to ships. Fuel supplied only against exchange in advance.
**GANGWAY/DECK WATCHMEN:** Available and recommended.
**OPENING/CLOSING HATCHES:** Owners or Masters to decide whether this work should be undertaken by the stevedores or by the crew.
**CUSTOMS ALLOWANCES:** 40 cigarettes and one bottle wine/spirits per crew member.
**CARGO GEAR:** Generally shore cranes operating. However, ship using her own means when such cranes are not available. Full lights to be supplied by ship.
**IDENTIFICATION CARDS:** Seamen's Book is sufficient.
**CONSULS:** Lebanon, Italy, Norway and Sweden.
**REPAIRS:** Welding and other minor types of repairs are possible.
**REPATRIATION:** Repatriation can be arranged by air.
**AIRPORT:** Adana Airport served only by domestic line THY (Turkish Airlines) with routes to Beirut and Istanbul. Distance is 75 km. from Mersin. Twice per week to Beirut in winter and thrice during spring summer. Twice daily to Ankara and Istanbul.
**TIME:** GMT plus 2 hours all year round.
**HOLIDAYS:** New Year's Day (6th February); Kurban Bayrami (23rd April); Labour Day (27th May); Constitution Day (30th August); Victory Day (29th October); Republic Day (20th November); Ramazan Day; and other minor holidays.
**POLICE/AMBULANCE/FIRE:** Telephone numbers: Police 3439; Ambulance 3555; Fire 0000.
**TELEPHONES:** No installation for connection on board.
**GENERAL:** Two consecutive shifts every day, the first one starting 0800/1700 and the second one at 1700/2400/0100. Agent may provide extra men if necessary to help ship's despatch. Ships have to hoist a Turkish flag.
**SHORE LEAVE:** Crew allowed shore leave.

**AGENTS:** Gulf Agency Company (Turkey) Limited, PO Box 328, Mersin, Turkey. Cable address: GACShip. Telex: 11. Telephones: 1080–3731.

## SAMSUN: 41.19 N. 36.21 E.

**PILOTAGE:** Refer to "Canakkale" and "Istanbul."

Harbour Pilot compulsory for all foreign vessels. Ordered by Agent subject to vessel's advance notice of ETA.
**ANCHORAGE:** Good anchorage in the Outer Harbour.
**TUGS:** Tugs are available.
**BERTHING:** Harbour protected by two breakwaters, entrance width 300 metres, depth 11·9 metres.

One quay, 956 metres long, depth alongside from 6·5 to 11 metres, providing 4 deep-water berths.
**FRESH WATER:** Available from the quay.
**FUEL:** Not available.
**STEVEDORES:** Working hours for general cargo: From 0800 to 2400 hours in two shifts.

For bulk cargo: 24 hours operations in three shifts.

## TRABZON: 41.01 N. 39.46 E.

**PILOTAGE:** Refer to "Canakkale" and "Istanbul".

Harbour Pilot compulsory for all foreign flag vessels. Arranged by Agent subject to vessel's notice of ETA in advance.
**ANCHORAGE:** In the Outer Harbour off the breakwater.
**MAX. SIZE:** Vessels up to 29 ft. draft.
**TUGS:** Two tugs available. Towage compulsory for vessels over 550 tons.
**BERTHING:** Main wharf 410 metres long, depth alongside 10 metres. Vessels may be loaded and discharged while moored stern to the breakwater.
**FRESH WATER:** Obtainable from the quay.
**FUEL:** Fuel oil obtainable in limited quantities.
**STEVEDORES:** Working hours from 0800 to 1200 and from 1300 to 1700. Overtime can be arranged.
**REPAIRS:** There are no repair facilities.

### ZONGULDAK: 41.28 N. 31.49 E.

**PILOTAGE:** Refer to "Canakkale" and "Istanbul".

Harbour Pilots obtainable from Coaling Company, Pilot boards off port entrance by launch. Ordered by Agent subject to vessel's ETA given at least 24 hours before arrival.

**ANCHORAGE:** Good anchorage off the harbour in depth of 13 fathoms, sand and mud bottom.

Anchorage prohibited South of a line drawn in direction 292.5° distance 7·5 cables from head of the Northern breakwater. The Southern limit of this area is a line drawn in direction 262° from the head of the Northern breakwater to the shore.

**RESTRICTIONS:** Harbour entrance between breakwaters. Entrance width 600 ft.

Traffic signals displayed from signal mast on Northern breakwater, as follows:

Two black balls or two red lights, meaning "Harbour closed."

Two black cones or two green lights, meaning "Harbour open."

A black ball over black cone or red light over green light, meaning "Do not attempt to enter".

A black cone over a black ball or green light over a red light, meaning "No tug available."

A black ball between two black cones or red light between two green lights, meaning "Wait. You will be piloted into the harbour."

Three black balls, or three red lights, meaning "Because of unfavourable weather you cannot be piloted into the harbour."

**TUGS:** Available.

**BERTHING:** Coal quays length 1,650 ft. depth alongside 10 metres.

Cargo quay length 500 ft. depth alongside 10 metres.

Northern Breakwater, two berths, at inner end with depth of 7 metres alongside.

**FRESH WATER:** Available from the quays.

**FUEL:** Only coal bunkers available.

(b) *Addresses and telephone numbers of V/O "Sovinflot", V/O "Sovfracht", V/O "Sovsudopodyom" and V/O "Soyuzvneshtrans":*

Vsesoyuznoe Obyedinenie "Sovinflot" acts as General Agent for all Soviet shipping companies abroad and co-ordinates agency services rendered to foreign flag vessels at U.S.S.R. ports through the local Inflot agencies.

Postal address: V/O "Sovinflot", 1/4 Zhdanov Street, Moscow, K-12, U.S.S.R.

Tel. 296–50–32. Cables "Sovinflot Moscow". Telex 7217 (answer back 7217 Sovinflot Su, 7236 Sovinflot Su).

Vsesoyuznoe Obyedinenie "Sovfracht"—All Union Chartering Association carries out operations connected with chartering of foreign and Soviet tonnage for transportation of goods, both for the Soviet foreign trade organisations and foreign charterers respectively.

Postal address: V/O "Sovfracht", 32/34 Smolenskaya Square, Moscow, G-200, U.S.S.R.

Tel. 244–24–11. Cables "Sovfracht Moscow". Telex 7168–7172, 7541, 7542, 7217, 7636.

Vsesoyuznoe Obyedinenie "Sovsudopodyom" performs offshore and deep-sea salvaging, ship-raising and underwater engineering works, deep-sea towage and dredging.

Postal address: 1/4 Zhdanov Street, Moscow, K-12, U.S.S.R.

Tel. 151–02–32. Cables "Sovsudopodyom Morflot Moscow". Telex 7197 (answer back 7197 Morflot-SU).

Vsesoyuznoe Obyedinenie "Soyuzvneshtrans"—handles tra portation and forwarding of export and import cargoes on So territory as well as transit of goods via the U.S.S.R.

Postal address: V/O "Soyuzvneshtrans", 32/34 Smolensk Square, Moscow, G-200, U.S.S.R.

Tel. 244–39–51. Cables "Suyuzvneshtrans Moscow". Telex 7 7291.

(c) *Guiding principles to comply with when calling at U.S. ports*: When calling at U.S.S.R. ports Masters of all foreign vessels are requested to comply with the Instructions and Pr sions of the Government of the U.S.S.R. published annually in is No. 1 of the U.S.S.R. Notices to Mariners, Special Instructions vessels calling at U.S.S.R. ports and General Rules for So merchant and fishing sea ports.

All vessels calling at U.S.S.R. ports must also abide by Customs and Obligatory Harbour Regulations of each partic port of call which are obtainable through the local Inflot agenc viz. shipping agents for foreign flag vessels at U.S.S.R. ports.

(*d*) *Ship/shore radio link*: Ships' communication with ports of is usually maintained through the local port radio stations, so information of which is given in the respective entries for the po

Ships' radio stations and/or radio-telephones (excluding VH must not be operated when the vessel navigates or lies at anc within the limits of the port boundaries as well as when calling or leaving the port, except in emergency, e.g.:

when giving distress signals;

when rendering assistance to other vessels in distress;

while making way through the ice;

after having obtained special permission of the Harbour Maste

(*e*) *Notice of arrival*: At least 48 hours prior to arrival Maste should give notice through Inflot agency to the Port Administra stating the following particulars:

Name and call-sign of the ship.

Nationality (flag).

Last port of call.

Draft for and aft and length.

Net and gross register tonnage.

Nature and total quantity of cargo to be discharged or loaded stowage plan.

Number, location and weight of heavy lifts (over 3 tons), if any.

Number and length of oversized pieces (over 9 metres), if any.

Shipowners' cable address and telex number.

Quantity and location of tanks with ballast water and time requi for deballasting (for tankers only).

Whether vessel requires supply of electric power from shore lighting purposes.

Health and sanitary conditions both aboard the ship and at last port of call.

Quantity of fresh water, bunkers, provisions, etc., if required.

Estimated time of arrival (ETA).

Likewise, Masters of incoming vessels shall also report to In agency twelve hours before arrival the following particulars only

Name and call sign of the ship.

Draft.

ETA as definite and final.

Masters should immediately advise the Port of Call Administ tion through Inflot agency of all unforeseen delays.

Masters should also notify charterers in due time and as conditions of the relevant Charter Party or Sale Contract.

All possible damages to a vessel which may occur either for la of all relevant details mentioned above or due to untimely and incorrect information given by the Master to the Port Authori when advising ETA, etc., are to be for the vessel's account.

Vessels calling at ports for bunkers, fresh water, provisions, et only, should advise their ETA, etc., to the Port Administration per details shown above.

In case a vessel is not equipped with radio the Master shall adv ETA and relevant details to the next Port of Call Administrat through the radio station of the last port of call.

The Port of Call Administration should provide Masters of ca vessels with all necessary information regarding anchorage, berth and handling of cargo not later than 2 hours prior to vessel's arri

Since for some ports time and terms of giving Notice of Arr are different from those mentioned above, Masters are advised look for the precise information in the entry for the particular P of Call.

(*f*) *Pilotage*: Pilotage is compulsory for all vessels that enter leave U.S.S.R. sea and river ports, as well as when mooring, unmo ing and shifting berths in the harbour.

A Pilot having boarded a vessel shall be obliged to hand over the Master a pilotage receipt conforming to a specimen establish by the Ministry of the Merchant Marine of the U.S.S.R.

The following data shall be entered by the Master on the recei name of the vessel, its flag, draft, length, breadth, net register to nage as well as the time and place of the Pilot's arrival.

The Master of a vessel shall be obliged to pay a fine in an amo of double the rate due as pilotage fee for incorrectly declaring draft, length or breadth of a vessel or its net register tonna irrespective of the liability established by law for the consequen which may occur as a result of the incorrect information.

(*g*) *Anchorages*: A vessel approaching the Port of Call and having been boarded by a Pilot immediately on arrival, or for other reason, shall anchor in the anchorage area speci designated for the purpose.

All vessels when at anchor shall carry the lights or the marks to the International Regulations for prevention Collisions at S Apart from that every vessel by night, when at anchor, shall illuminated from stem to stern with additional lights placed so that the hull be as far as possible visible from the surface of the water.

Vessels using a kedge anchor shall, in addition to the lights and the marks as to the International Regulations for Prevention Collisions at Sea, conspicuously display by night a white light and by day a red flag lowered from the stern by the anchor chain to the extent of half of the side's height.

In restricted visibility whether by day or night, every vessel when at anchor shall use sound signals conforming strictly with the International Regulations for Prevention Collisions at Sea.

All vessels when in port must hoist their national flags on the stern's flagstaff.

During winter months all vessels when in Arctic ports must hoist their national flags daily until they are visible and during summer from 0800 to 2000 hours.

Restrictions:

No vessel shall anchor beyond or on the boundaries of the recommended anchorage area and/or obstruct leading lines, buoys, navigation lights and marks.

No anchorage is allowed in the prohibited zones shown on the charts in the Sailing Directions and/or in the Obligatory Harbour Regulations as well as announced in the appropriate Notices to Mariners.

No anchorage is allowed at a distance of less than 1.5 cable length off fairways and leading lines as well as in depths not providing a vessel with a safe anchorage while drifting on the anchor chain.

No vessel shall anchor within the water area of a shipbuilding yard after being refused to carry out repairs.

It is prohibited to change a vessel's anchorage by drifting.

Vessels carrying explosives or inflammable liquids must anchor in the areas recommended for them only.

Masters of all vessels when at anchor are not allowed without the Harbour Master's consent, except in emergency, and/or in case of Port and Boarding officials, to give anybody permission to come alongside in a private launch or a small rowing boat whether under oars or sail and board a vessel.

Swimmers must not be allowed to come on board a ship.

Should, in case of emergency, swimmers have been taken on board or strangers have been discovered aboard a vessel, the Master of such ship shall forthwith without delay report the fact to the Harbour Master and shall later hand those people over to the Representatives of the Port Administration.

(*h*) *Regulations for entering and leaving U.S.S.R. ports*: Every vessel coming from abroad shall hoist quarantine signals of the International Code of Signals depending on health and sanitary conditions on board.

For entry permit a vessel must contact the Port Control service either by VHF radio-telephone or by means of visual signals, viz. by day hoisting her call-sign and by night making call-sign signals in Morse Code by search-light or by Morse-lamp.

No ship shall enter the harbour until the proper signal has been hoisted at the Signal Station or by a pilot boat authorising such entry.

No vessel is allowed to enter the harbour until the prohibition signals hoisted at the signal station have been lowered down.

If entry is refused a vessel must immediately slow down, alter course and if possible go off the fairway and have to drift or drop anchor in the recommended area.

Turn of entry to the harbour is controlled by the Port Administration with regard to tonnage of vessel, nature of cargo, weather conditions in the port area, readiness of the port to start cargo operations and other circumstances.

Simultaneous entry of two or more vessels to the harbour or vice versa is not allowed in the majority of ports.

Under all circumstances a vessel entering the harbour must give way to the outgoing one not preventing her manoeuvrability.

When approaching U.S.S.R. ports all vessels must follow the recommended course announced in issue No. 1 of the U.S.S.R. Notices to Mariners.

(*i*) *Sanitary and Quarantine requirements*: Cargo vessels arriving from ports subject to cholera at Azov and Black Sea ports of U.S.S.R., and not equipped with retention tank for sewage should have all toilets sealed whilst at the U.S.S.R. ports, passengers and crew being obliged to use the shore toilets.

According to the requirements of the U.S.S.R. Medical Authorities dumping of sanitary wastes from vessels equipped with retention tanks is allowed at sea, not less than 50 miles off the U.S.S.R. shore line.

The discharge of oil-contaminated water and/or oil residues is prohibited in all sea areas within 50–100 miles from the U.S.S.R. coast as to the Regulations of the International Convention (1967) for the Prevention of Pollution of the Sea by Oil.

Not later than 6 hours before arrival Masters of all vessels coming from foreign countries to the U.S.S.R. ports should advise Quarantine Authorities by radio through Inflot Agency giving full details of health conditions on board as well as sanitary conditions at the last port of call.

If medical assistance is required on board Master has to contact Inflot Agency by radio.

No shore connection is allowed to a vessel until free pratique is obtained.

Foreign vessels are granted free pratique after the arrival formalities have been accomplished by the boarding officials, viz. Health Authorities, Customs and Immigration.

Masters are advised to ask a Sanitary Officer for inoculation, vaccination, fumigation, decontamination, etc., if required, whilst he is on board a ship together with the other boarding officials.

Veterinary Certificates of Good Health are required for livestock, all kinds of meats, animal food and raw meat stuff brought to U.S.S.R. ports from abroad. Certificates should be issued by the proper authorities of the country from which the cargoes have been exported.

Masters should have a Phytoquarantine Certificate for goods of vegetable nature.

It is prohibited to take ashore fruit, vegetables, grain, seeds, plants, plant products, etc., without a certificate issued by a local branch of the U.S.S.R. Agricultural Quarantine Inspection. Animals and birds are not allowed to be brought ashore without a Veterinary Certificate.

(*j*) *Documents*:

(A) Upon arrival at a U.S.S.R. port: The following ship's documents should be produced by the Master to the representative of Inflot Agency for further examination by the boarding officials upon arrival at a U.S.S.R. port:

Ship's Patent.
Ship's Certificate of Registry.
International Radio Certificate.
International Class Certificate.
Measurement Certificate.
Load-line Certificate (or Internation Load-line Exemption Certificate).
Passenger Ship Safety Certificate.
Safety Construction Certificate.
Safety Equipment Certificate (or Safety Equipment Exemption Certificate).
Safety Radiotelegraphy Certificate.
Safety Radiotelephony Certificate.
Loading Certificate.
Health Certificate.

Model Clearance Forms introduced as from 1st January 1974:

On arrival of the ship the Master is to submit to the representatives of the Port Authorities the following documents (IMCO Forms) duly signed by ship's administration:

5 copies of General Declaration (Form 1) (filling in of points 8 and 11 is not compulsory).

4 copies of Cargo Declaration (Form 2) (filling in of point 6 is not compulsory). Points 7, 8 and 9 are to be filled in for:

(*a*) cargoes for which Bills of Lading were not issued (names of Shippers and Consignees to be stated);
(*b*) transit cargoes;
(*c*) cargoes for other Soviet ports;
(*d*) agricultural cargoes.

Ship's Stores Declaration (Form 3) – not required.

2 copies of Crew's Effects Declaration (Form 4) (amount of Captain's and crew members' valuables: gold, silver, platinum, jewellery, bonds, travel cheques, etc., personal fire arms and cartridges (ammunition), explosives and narcotics are to be stated in point 2).

4 copies of Crew List (Form 5).

4 copies of Passenger List (Form 6).

The Master has also to produce to Port Authorities for checking:

Deratisation Certificate.
Main Ship's Articles Book (Muster Roll).
Passports (Seamen's Books).
Vaccination Certificates of crew and passengers.

In accordance with article 38 of the Merchant Shipping Code of the U.S.S.R. a foreign flag ship which, on calling at a U.S.S.R. port, raises doubts as to her meeting the requirements of safe navigation may, irrespective of whether she possesses the necessary ship's papers mentioned above, be subjected to an examination by way of technical survey on the same basis as ships sailing under the State Flag of the U.S.S.R.

The Obligatory Harbour Regulations to be complied with fully during a vessel's stay at a U.S.S.R. port should be handed over to the Master either by Pilot or by representative of the Harbour Master's Office, or by Agent.

(B) Before sailing from a U.S.S.R. port:

No other documents apart from those mentioned under item "A" are required in order to obtain the authorisation to leave the port.

No vessel is to get under way without having obtained the permission of the Harbour Master.

The authorisation to leave the port shall be given after a vessel herself and her draft shown in the Master's Statement have been checked by a Port Authorities' representative.

The Harbour Master may not allow a vessel to leave the port, in case:

1. The Cargo Loading Regulations have not been fulfilled.
2. In view of the seaworthiness of a vessel which may cause a threat to the safety of life at sea or on board.
3. In case the ship's documents regulations have been broken and the port dues, tolls and fines have not been paid.

All expenses which may occur due to a vessel's possible delay in the port in connection with the reasons stated above are to be for the Owners' account.

(*k*) *Customs Regulations and Allowances*: Commodities and articles not designed for the port of call are not allowed to be taken ashore and should be sealed by a Customs Officer, if necessary, immediately after the clearance formalities have been accomplished or after the part of the delivered cargo loaded and stowed at the same place has been discharged.

It is prohibited to bring in or to take out of the country any Soviet currency. No articles are to be taken ashore or brought on board a ship without a permission of the Customs Authorities otherwise all the articles concealed should be regarded as smuggled goods and a fine shall be imposed. Likewise, sale of any articles of foreign origin on U.S.S.R. territory shall be also regarded as smuggling. In all U.S.S.R. ports tobacco is allowed to be taken ashore in small quantities and for personal consumption only. No wine or alcohol is allowed to be brought ashore.

(*l*) *Berthing*: Berthing can only be effected with a State Pilot on board. Likewise, no vessel shall leave or shift berth without employing the services of a Pilot authorised by the Port Administration to make the voyage in question.

Vessels must take up the berths assigned to them and conform strictly to the Obligatory Harbour Regulations in force.

A Pilot or the Agent shall provide the Master with all necessary information as regard to depths, tugs, conditions in the Harbour, etc., before mooring starts.

The responsibility for the safety of a vessel during her manoeuvring and berthing as well as for possible damages to a berth or other port facilities shall always rest with the Master.

No vessel is allowed to change berth due to handling of cargo or for any other reason unless the main engines, the mooring winches, the stearing gear, etc., are in good working order and there is sufficient number of the members of the crew to ensure shifting berth when required.

It is strictly prohibited to work with vessel's propellers when lying alongside berth. To avoid damage to the underwater parts of a berth while mooring or unmooring every vessel must have the main engines going "dead slow" until her stern is 10 metres from the quay.

When berthing, Masters should use strong and reliable mooring lines and make them fast over the quay pile-moorings and bollards only. It is strictly prohibited to make fast mooring lines over any part of the quay equipment which has not been intended for that purpose.

When lying alongside berth, every vessel must have a gangway or a gangway board with a lifeline secured along, led ashore and made fast. There should be a life net under the gangway platform and a lifebuoy nearby. Gangways must be sufficiently illuminated at night.

(*m*) *Stay in port*: When lying alongside berths, all vessels to be moored by long safe ropes which are to be kept fast at all times, and constant watch should be kept by day and at night.

All mooring ropes must be fitted with rat-guard plates.

From sunset to sunrise all vessels' decks, cargo decks and gangways must be illuminated.

Every vessel, whether in the outer roads or in the harbour, must always have on board a sufficient number of crew to be able to ensure both the ship's safety and her everyday routine. Vessel's fire-fighting and life-saving equipment must always be ready for use on board or to render assistance to other vessels or shore objects in case of emergency.

When in port, no vessel is allowed, without having obtained the Harbour Master's permission, to make repairs to the main engines or to the ship's auxiliary equipment thus depriving her of the opportunity to shift berth at short notice in case of emergency.

It is not allowed, without the permission of the Port Administration, to use vessel's boats, underwater oxygen and any underwater apparatus of other types.

No vessel is allowed to clean boilers or dischage any sort of chemicals or organic products into the water.

It is strictly recommended to avoid giving off smoke and sparking from vessels' funnels.

No rubbish, bottles, waste foodstuff, baskets, carcasses, stones, dirt, ashes or any objectionable or malodorous matter shall be thrown into the water or on the quay. The Master of any ship shall cause anything of this nature to be removed by special barges or lorries day by day. No oil or oily water is to be pumped out or allowed to escape into the harbour. Washing water and/or oil residues must be discharged into shore facilities only.

(*n*) *Ship's movement in the harbour and shifting berths*: No vessel shall leave or shift berths without the permission of the Port Authorities. In case there are no provisions in the Contract of Carriage of Goods by Sea or in the Bill of Lading, a vessel shall accomplish one shifting from berth to berth during the course of her loading and shifting upon unloading to the loading berth at the Owners' risk and expense. Any subsequent shifting shall be at the expense of the goods.

All shiftings in the port connected with a vessel's needs, viz. bunkering, loading supplies and/or provisions, making repairs, etc., shall be at the expense of the vessel.

All haulings both during the course of loading and unloading shall also be at vessel's expense.

(*o*) *Tugs and salvage assistance*: Tugs and salvage craft for rendering necessary services and assistance to foreign vessels are available in all the U.S.S.R. ports.

If necessary, Masters should order tugs from the Port Controller through Inflot Agency in time stipulated by the Obligatory Harbour Regulations.

Tugs, if necessary, are usually ordered by the Master according to a Pilot's advice.

In some ports use of tugs during mooring and shifting berths is compulsory due to the heavy conditions of navigation.

Masters shall be charged for tug assistance, if required, according to the current port rates. Time for use of tugs shall be counted from the moment of leaving their usual berthing place up to the moment they return.

Notes: In all the U.S.S.R. ports one hour time is fixed for passage of a tug-boat to a vessel from her usual berthing place and vice versa after she has accomplished her assistance, except the port of Archangel where two hours time is applied. For detention of a tug-boat a vessel shall be charged as per usual working time.

For cancellation of a tug, a vessel shall be charged full rate, inc ing detention time and time of passage of a tug from ther bert the vessel and vice versa.

When ordering a tug for unmooring, Master should fill in and a special application form given by the Agent. The actual tim completing the towage shall be approved by the Master of a tow vessel.

In ports where the towage is compulsory when mooring and sh ing berths, the Master shall be charged for the tugs' assista whether used or not, and having refused tugs shall be held resp sible for the consequences thereupon.

(*p*) *Notice of readiness*: In case there are no special provision the Contract of Carriage of Goods by Sea, the Master shall, dur the established office hours upon the accomplishment of Custo formalities and having obtained free pratique, deliver through Agent in the port, viz. Inflot Agency, a notice of the ship's readin for loading or unloading to the consignee or the shipper.

The notice of the vessel's readiness shall be considered accep if she is actually ready to load the cargo into or unload it out of all vessel's holds or tanks.

(*q*) *Handling of cargo*: All cargo handling areas in the ports under control of the Port Administration which shall provide vess with labour, tally staff, sheds and warehouses, employees, etc.

To ensure successful handling of cargo the vessel shall, wh required by shippers or consignees, receive or discharge cargo and night, as well as on Sundays and holidays, furnishing free charge all necessary cargo handling gear. Though in most po the cargo handling is done by port cranes both from the quays a lighters, a vessel shall, in some ports, use her own cargo handi equipment, which has to be in good working condition.

In the latter case, the Master shall produce to the Agent the Ca Equipment Certificate which must be valid.

Loading or unloading time is calculated as to the rates stipula in a Charter Party or according to the Customs of the Port in t absence of same.

Should the port labour participate in the opening or closing hatches, a vessel's administration shall be responsible for the ru of safety engineering to be complied with.

Opening and closing of mechanised ship's hatches shall alwa be done by the ship's crew.

Should shore cranes be used for loading or unloading instead a vessel's cargo-handling equipment, the Master shall beforeha remove aerials, aerial halyards, stay rods, wires, etc., crossing air space over a ship's hatches and preventing the shore cran derricks from free circulation.

Overloaded and/or wrongly loaded vessels shall not be allow to leave the port until the cargoes are properly stowed.

A vessel shall be considered overloaded or wrongly loaded,

(a) a vessel's load lines corresponding to the maximum depth which she should have been loaded are underwater without any li

(b) the cargoes loaded in the holds and/or on deck have not be made fast enough or have not been made fast at all;

(*c*) a vessel has a bad list caused by faulty loading or her stabi does not correspond with the ship's documents;

(*d*) a vessel loaded with bulk or liquid cargoes has not used necessary materials or accommodations to prevent cargoes fr shifting or overflowing in case of vessel's pitching and rolling;

(*e*) the deck cargo is considered as a danger for the safety of vessel and the safety of life on board caused by faulty loading;

(*f*) in the course of loading some other loading regulations ha been broken.

(*r*) *Agency*: All foreign vessels upon arrival at the U.S.S.R. po are attended by the maritime agencies Inflot.

Inflot agencies provide foreign vessels with the following service

inform the Port Authorities and other organisations about vesse expected time of arrivals (ETA), nature and quantity of cargo to handled, expected time of loading or discharging, etc.;

render assistance to the Masters in obtaining Pilots, tugs, bert launches, etc.;

fulfil all the necessary formalities connected with the vesse arrival and departure;

ensure that Masters are acquainted with the Port Rules, Obligat Harbour Regulations as well as other documents and instructio issued by the Port Authorities;

give advice to the Shipowners and other interested parties rega ing vessels' movement and the prospects for the handling of carg

render help in speeding up loading and/or unloading of the carg

provide vessels with supervisors and tallymen;

make time sheets and submit them to the Masters, Port Autho ities, Shippers and/or Receivers for their further approval;

sign on Masters' behalf cargo and other documents;

organise bunkering, delivery of fresh water, provisions, techni supplies and all kinds of ship-repairs;

render help to the members of the crews in obtaining medi assistance;

make payment of dues, charges, fines (if any), etc., on beha the Shipowners and for their account;

take all necessary measures for improvement of the handling cargoes and ships' services;

look after the Court (Arbitration) cases and cargo claims on beh of the Shipowners;

make Sea Protests as well as translation and duplicating of documents on Masters' requests;

repatriate members of the crews from the U.S.S.R. to their ho ports;

invite surveyors qualified by the U.S.S.R. Register of Shipp to conduct vessels' surveys;

make extension of ships' documents;
render help to the Shipowners in delivering and redelivering of their vessels on time charter;
assist in arranging cargo fumigation on board;
perform any commissions on the instructions of the Shipowners in regard to the ships' services and protection of their interests before any Authorities.

It is in the interest of the Master to advise Inflot Agency timely information as regard to a vessel's name and nationality; her net and gross register tonnage; draft fore and aft; kind of cargo to be discharged or loaded per each hold (stowage plan); number, weights and location of heavy lifts, number and length of oversized (over 9 metres) pieces and Owners' cable address and telex number thus putting the Agent in a position to calculate the approximate sum of the disbursement expenses and ask the Shipowners to remit same (disbursement accounts are to be paid before vessel's departure).

Note: Bearing in mind the fact that most of the shore offices are closed on Sundays and holidays, the Master shall cable to Inflot Agency well in advance his order for bunkers, repairs, technical supplies and cash to enable the Agent to make necessary arrangements.

All branches of Inflot Agency work round the clock, including Sundays.

Cable address of any branch of Inflot Agency is "Inflot", e.g. Inflot Archangel, Inflot Novorossiysk, etc.

(s) *Fire safety measures*: Fire safety measures on all foreign vessels staying at U.S.S.R. ports must comply with the Fire Safety Regulations of the 1960 International Convention for the Safety of Life at Sea as well as with the provisions of the International Code for the Carriage of Dangerous Goods by Sea. Every vessel upon arrival at a port must keep constant fire watch day and night and have fire-fighting and life-saving equipment always ready for action. Members of the crews must keep strictly to the Fire Safety Regulations especially during vessels' stay at oil and timber berths. Giving off smoke out of the funnels is strictly prohibited. In all the U.S.S.R. ports a fire brigade could be called through the Agent, or over the phone by dialing 01 in case of fire.

(t) *Medical assistance*: Medical assistance, if required, is available, including vaccination and inoculation as well as dispensary and hospital treatment in all the U.S.S.R. ports. In case of emergency an ambulance or a doctor should be called through the Agent or by telephone – 03 in all the ports.

(u) *Customs of the ports*: Customs of the ports should apply in case:
(1) there is no Contract of the Carriage of Goods by Sea;
(2) there are no provisions in a Charter Party or in the Bills of Lading in respect of items covered by these Customs;
(3) a Charter Party or a Sale contract and/or any other Contracts of the Carriage of Goods by Sea specially refer to these Customs of the Ports.

(v) *National and general holidays of the U.S.S.R.*: National and general holidays in the U.S.S.R. are fixed.

Five days working week with two holidays has been introduced for most of the industrial enterprises, government and commercial offices and other institutions. Saturdays and Sundays are weekly holidays in the U.S.S.R.

The other holidays are:

1st January (New Year's Day); 8th March (International Women's Day); 1st and 2nd May (Days of International Workers' Solidarity); 9th May (World War II Victory Day); 7th and 8th November (Anniversary of the Great October Socialist Revolution, 1917); 5th December (U.S.S.R. Constitution Day).

## ARCHANGEL: 64.32 N. 40.31 E.

Port open for navigation from May to November.

**LOCATION:** A White Sea port. Archangel is situated at the mouth of the Severnaya Dvina river, in the South-east corner of Dvina Bay. A part of the harbour is situated at the Northern end of the Povrakulsky Island, at the junction of the Maimax river and the Kuznechikha river, and is called the Economia Avant-port. The total length of the port area is about 30 miles.

**DOCUMENTS:** Refer to beginning of U.S.S.R. section.

**PILOTAGE:** Compulsory. Notices of ETA in accordance Soviet Wood Charter Party. Pilot boat located in area 64° 57′ N., 40° 05′ E. VHF Channel 16. Pilot boat is tug-boat with word "Pilot" on wheelhouse. Vessels awaiting Pilot may anchor at safe distance to North from pilot boat location. In event bad weather pilot boat goes to shelter, being available by VHF radio.

While waiting for a Pilot, vessels may lie at anchor at a safe distance to the North from the pilot boat location.

In the event of bad weather a Pilot shall board a vessel at a sheltered place shown by him.

When a Pilot is not able to board a vessel due to weather conditions, a pilot boat is usually situated on the Southern side of the Mudyug Island. In this event vessels should anchor at the entrance of the channel from seaward and wait for a Pilot's arrival.

**ANCHORAGES:** Anchorages in port area usually indicated by Pilot, depending upon draft, etc.

There are several anchorages on the way to the port of Archangel. The depths are about 10 m. and the holding ground is sand and mud. The anchorages are:
(1) Quarantine anchorage – in the Chizhov roadstead.
(2) At the entrance of the channel leading through the Beresovy Bar from seaward.
(3) On the South-western and Southern sides of Mudyug Island.
(4) In the channel of Beresovy Bar vessels may anchor at the line of the leading lights not obstructing them from seaward, in depths of 6 m.–7 m. The bottom is sand and mud. The anchorage however, is open to South-westerly and North-westerly winds and not recommended for large vessels.
(5) All vessels may obtain good anchorage at the islands Muravoy and Lebedin. The holding ground is sand. The anchorage is well sheltered from all winds except those from North-westward.
(6) Vessels waiting for Customs and Quarantine formalities to be accomplished should anchor in the Northern part of the Maimax river, opposite the Customs post, situated at Chizhov Island at a distance of 0·5 mile to the South of it, in depths of 4·5 m.–9 m. Vessels with drafts exceeding 4·5 m. are recommended to anchor to the North of the parallel of the rear light mark of the Lapominsky leading light marks.
(7) A good anchorage may be obtained in the Solombala Roads. When at anchorage at the Solombala Cat Island, vessels are not recommended to cross the 2 m. isobath.
(8) Vessels may also obtain a good anchorage in depth of 7·5 m.–19 m. in the Town roadstead which is opposite the town of Archangel.

**MAX. SIZE:** Vessels longer than 150 m. not recommended enter port. Draft not to exceed 26 ft.

**HEALTH:** All vessels coming from foreign countries inspected by Sanitary Office. If no diseases vessel obtains free pratique. If vessel entering after calling at another U.S.S.R. port, pratique automatic.

**RADIO:** All information from sea may be routed through Murmansk Radio (UMN) and Archangel Radio (UGE), A1 500 kc/s., A3 2182 kc/s.

All vessels when approaching the port of Archangel should establish radio contact through the coastal "Archangel radio" station which operates 24 hours perday on the following frequencies:

| *Call sign* | *Frequencies* working (kc/s) | calling (kc/s) | *Type of trans-mission* | *Time* | *Remarks* |
|---|---|---|---|---|---|
| UGE | 500 | 500 | A1 | H24 | |
| UXN | 6505·5 | 6270 | A1 | HX | |

Storm signals are shown from a mast on the roof of the Port of Archangel Authority (lat. 64° 32′ N., long. 40° 31′ E.) and from a mast of the Solombala signal station situated in the suburbs of the town of Archangel, on the embankment of the Severnaya Dvina river named after George Sedov (lat. 64° 35′ N., long. 40° 30′ E.).

Signals can be made by the International code of Signals by day and by Morse system at night.

Masters of vessels proceeding to the port of Archangel should advise ETA and all necessary information to the Inflot Agency as per conditions of the "Soviet Wood" Charter Party.

24 hours prior to arrival advise ETA to the Harbour Master. Four hours prior to approaching the Beresovy Bar Masters should advise more precise time of arrival.

**TUGS:** If necessary ordered two hours before arrival and normally join vessel near berth. Usually use ship's lines.

**BERTHING:** To certain extent depends upon tides. 37 berths available with depths alongside up to 8·25 m.

There are a large number of berths in the port along the river front, as well as at the Economia Avant-port.

Berths are equipped to handle timber, wood-pulp, paper, machinery and general cargo. There are enclosed warehouses and concrete floor sheds in the port.

**BRIDGES:** Vessels proceeding to load cargo at sawmills 2 and 3 have to pass under bridge which is opened twice a day.

**STEVEDORES:** No particular ETA advices to stevedores/shippers required except those mentioned in Soviet Wood C/P. Loading rates, etc., also stipulated by Charter Party.

Mobile electric cranes of up to 20 tons capacity are operated on the quays. There are also floating cranes of up to 50 tons capacity, other cargo handling equipment and intra-port transport facilities. Sometimes, cargo handling is by vessels' gear.

**MEDICAL:** If any medical attention or prompt assistance required, Master has to contact Agent. No advance notice required. Clinic and hospital available.

**DENSITY:** Fresh water practically throughout port.

**FRESH WATER:** Usually delivered by lighters (minimum charge for 15 tons). A few berths equipped with shore water lines.

**FUEL:** Some grades available. Delivery on by barge.

**FIRE PRECAUTIONS:** While lying alongside timber berth vessel to take maximum fire precautions.

**DEVELOPMENTS:** For the immediate future no draft increase expected. Some berths under reconstruction and cranes being installed to load timber.

**GANGWAY/DECK WATCHMEN:** Not available from shore. Usual watch kept by ship's crew.

**OPENING/CLOSING HATCHES:** Normally carried out by ship's crew.

**SHIP'S CERTIFICATES:**
Seaworthiness.
Measurement.
Loading Line.

Cargo Equipment.
Safety Equipment Certificates.
Deratisation Certificate.

**CUSTOMS ALLOWANCES:** Tobacco/wine: No quantity limits, but not allowed to be brought ashore.

**IDENTIFICATION CARDS:** Only Seamen's Books required.

**CONSULS:** No Consuls in Archangel.

**REPAIRS:** All types of repairs possible.

**DRY DOCKS:** Largest dry dock 140 m. max. length; length at coping level 126 m.; suitable for ships not exceeding 5,000 tons and 18 m. beam. There are other smaller docks.

**REPATRIATION:** Repatriation and crew changes require visa formalities.

**AIRPORT:** Airport near town. Served by regular airlines.

**TIME:** GMT plus 3 hours.

**HOLIDAYS:** General holidays: all Sundays and Saturdays: January 1st (New Year's Day); March 8th (World Women's Day); May 1st, 2nd (World Labour Day); May 9th (Victory Day); November 7th, 8th (Great October Socialist Revolution Day); December 5th (U.S.S.R. Constitution Day). Cargo work on these days at shippers' discretion.

**POLICE/AMBULANCE/FIRE:** Police 02; Ambulance 03; Frie 01.

**TELEPHONES:** Can be arranged on board.

**SERVICES:** Compass adjusting, radar and radio repairs, etc.

**SHORE LEAVE:** Each crew member properly signed in Ship's Articles and having valid Seamen's Book allowed ashore.

**DELAYS:** On account of rain when loading timber.

**NAVIGATION:** Masters proceeding for loading timber should bear in mind that the swing bridge on their way to timber mills No. 2 and No. 3 is open twice daily.

All vessels with drafts of less than 3·6 m. especially when engaged in towing timber rafts, should keep out of the way of a deep-drafted vessels when passing through narrow places and approaching channels both at sea and in the river, and should not hamper their safe passage in such places. They should also safely pass vessels engaged in dredging of a channel.

When approaching a bend in a channel, every vessel should beforehand give a signal by one prolonged blast on her whistle or siren, reduce her speed and when it is safe and practicable, keep to that side of the channel which lies on the starboard side of such vessel.

Every Master when passing through a narrow channel, or approching a bend in a channel should take positive early action prescribed by the International Regulations for Preventing Collisions at Sea to avoid a risk of collision with a vessel approaching from the other direction.

Low-drafted vessels shall not overtake each other when navigating in the channel of the Beresovy Bar. A vessel proceeding to the port along the course of the channel must keep out of the way of another vessel leaving the port.

No vessel shall navigate in the port harbours in restricted visibility when navigational lights, marks, leading lights, buoys etc. are not visible.

*Ice:* At the head of Dvina Bay drift-ice extends as far as 12 miles from the shore by the end of November. The Severnaya Dvina estuary usually gets frozen over at the beginning of November. At Dvina Bay the ice usually breaks up in April and at the Severnaya Dvina estuary – at the beginning of May. Thus, navigation in the port area lasts between 6–7 months from May till October.

Powerful ice-breakers, ice-strengthened vessels and tugs are maintained by the Port of Archangel Authorities to assist in navigation of the Dvina Bay waters and off the coast when ice conditions prevail.

*Tide:* The tidal range at the head of Dvina Bay reaches 0·8 m.–1 m. and at Mudyug Island 0·1 m.–0·5 m.

The in-going flood stream is usually stronger and about one hour longer in duration than the out-going ebb stream.

Sometimes the in-going stream at the bar of Severnaya Dvina may be hardly observed, being reduced to a few minutes of slack water. It may run steadily for some time then gradually attains its usual strength and goes on to set up to the time of high water.

The tidal streams in the Severnaya Dvina are considerably influenced by both strength and direction of the wind.

Moderate Northerly and Westerly winds increase the height of the tide and hold the fall of the water.

Only the in-going flood streams have been observed at the Severnaya Dvina estuary at springs. The extreme tidal range of the water level observed there is about 4 m.

**AUTHORITY:** Harbour Master, Nab. Lenina, 26, tel. 3–96–72. Deputy Harbour Master, tel. 9–73–74.

**AGENT:** Shipping Agency "Inflot", Archangel. Tel. 35874, 38573, 34040.

## BATUMI: 41.39 N. 41.38 E. (See Plan)

**DOCUMENTS:** Refer to beginning of U.S.S.R. section.

**PILOTAGE:** Compulsory. Batumi situated in South of Black Sea Caucasian coast, at head of Batumijsky Bay. Navigation is year round. Navigational range marks to note when approaching port are: Batumijsky beacon, Burun-Tabia light, Batumijsky light buoy with siren and Batumijsky leading light marks. When proceeding Batumi, Master should give 96 hours notice prior arrival, advising Port Controller and "Inflot" Agency: time of arrival, description and quantity of cargo brought in, location, ship's draft and length, as well as declare services required. Four hours prior to approaching port, Master shall advise more precise time of arrival. Inflot arrange Pilot.

Pilot boards vessel either at the Receiving Buoy or in the port roads. Watch is kept by a pilot boat day and night.

**ANCHORAGES:** A mole protects port from seaward; safe anch age provided except during periods of winds blowing from S.W. and N.W. when "Tyagun" is formed at port (strong variable cur with surge). At time of "Tyagun" ships recommended stop load discharging operations and to head out of berth using anchor mooring buoy, or to put to sea. S.W. wind is particularly troubleso

Outer roads, some 5 cable's lengths wide and with depths u 20 m., stretch for about 1½ miles N.E. from Batumijsky light buoy a shoal's border. Roads' bottom is mud and sand.

Inner roads situated between Western shore Batumijsky Bay shoal stretching from Bay's Southern and Eastern shores. Dep over 11·5 m. at roads. Roads open to N. winds, but with other wi blowing strongly, anchorage not safe on roads; ship must take cautions not to lose her anchors. In case of stormy weather autumn and in winter particularly, ships without cargo must e port with sufficient ballast on board.

The recommended anchorage is in the outer roads at a dista of 7·8 cables to N.N.E. from the Eastern side of Batumi Point, dep 9–14·4 m.

In the outer roads vessels may anchor only after having obtai the Harbour Master's permission and according to Pilot's reco mendation.

In the inner roads vessels may obtain anchorage only East of the entrance leading line. It is strictly prohibited to lie at anc both on the leading line and to the West of it.

**BALLAST:** In case of stormy weather, in Autumn and Wi particularly, vessels without cargo must enter the port with bal water on board, having ensured fore draft not less then 1·5 m.–1

Ballast water should not be contaminated with oil residues.

**RESTRICTIONS:** Vessels may enter and leave the port at time of day and night. All vessels when entering or leaving the must have keel clearance of not less than 0·3 m. (1 ft.).

In the event of stormy weather vessels approaching the por time of South-westerly and North-westerly winds particula should obtain Harbour Master's entry permit. If due to the "Tyagu vessels are not allowed to enter the harbour, they should anc either in the outer or inner roads.

All necessary information as regard to changes of wind, pos bility or turn of entry to the port for vessels at anchor in the ou roads, is given by the Harbour Master over the VHF radio-telepho or by the signal station by flags of the International Code of Signa in Morse Code or by semaphore signals.

**MAX. SIZE:** For oil carriers: Berth No. 1, 175 m. LOA 31·6 ft. dr Berth No. 2, 165 m. LOA 30·5 ft. draft; Berth No. 3 165 m. LOA 30· draft; Berth No. 4, 150 m. LOA 29·5 ft. draft; Berth No. 5, 212 m. L 29·5 ft. draft. For Cargo ships: Two berths where vessels may charge. Maximum draft 32·5 ft.

**BERTHING:** The berths of the port with depths alongside of to 10·3 m. are equipped to handle crude oil and oil products, bu (coal, grain, ores) and generals (machinery and mechanical equ ment) as well as passenger shipping. There are covered wareho and concrete floor sheds in the port.

A vessel should lie at a berth with her bow directed to the p entrance and with her anchor dropped from the proper side. Berth in the harbour may only be effected with tugs' assistance.

A vessel may be berthed at the outer side of the Oil Jetty a having obtained the Harbour Master's permission.

Vessels entering or leaving the harbour are not allowed to p vessels loading at the outer (Northern) side of the Oil Jetty a distance of less than 80 metres.

The berths of the port are equipped with electric cranes of up 10 tons capacity. There is also a floating crane of 100 tons capac Other cargo handling equipment, covered warehouses and conc floor sheds are available.

**TIDE:** The range of water level in the port area is small and is to the effects of strong winds. The maximum range observed 0·

**RADIO:** All vessels when approaching the port of Batumi sho establish radio contact via Batumi Radio port radio station operat 24 hours per day on the following frequencies:

| Call Sign | Frequencies (kc/s.) Working | Frequencies (kc/s.) Calling | Type of Transmission | Ti |
|---|---|---|---|---|
| UFA | 484 | 500 | A1 | H |
| UKK | 8456 | 8366 | A1 | H |
| Batumi Radio | 2182 | 2182 | A3 | H |
| "Polden 7" ("Noon-7"-Port Control) | 156·65 mc/s | 156·80 mc/s | F3 | H |
| "Polden-1" | 156·70 mc/s | 156·80 mc/s | F3 | H |

Shore signal station is situated 1·6 cables from Batumi Point. Int national Code signals, and sometimes storm signals, are hois at the mast of the signal station.

**MEDICAL:** Medical attendance in local seamen's hospital. Mast to advise by radio prior arrival of medical attendance required board.

**DENSITY:** 1018·5.

**FRESH WATER:** Supplied ex-shore to ship directly. Maxim pressure 20 tons per hour. Also supplied ex water barge. Maxim quantity delivered by barge is 650 tons. Pressure about 60–80 t per hour.

**FUEL:** Ships can be supplied with bunkers: heavy fuel oil, light oil, diesel oil. Bunkers may be taken at the oil berths and can also delivered by bunkering vessel to a ship handling non-danger cargo. In the latter case fire precautions must be strictly observed by the vessel taking bunkers.

**FIRE PRECAUTIONS:** No special precautions. There is one fire-fighting boat.

**OPENING/CLOSING HATCHES:** According to Charter Party and contract.

**CUSTOMS ALLOWANCES:** Tobacco. No restrictions. Wine and/or spirits. No restrictions.

**IDENTIFICATION CARDS:** Not required.

**CONSULS:** Turkey.

**REPAIRS:** Only light hull repairs, machinery and gear.

**AIRPORT:** Batumi connected by airlines with different towns in Soviet Union. Airport situated about 5 km. from port.

**TIME:** GMT plus 4 hours.

**HOLIDAYS:** New Year's Day; 8th March (Women's Day); 1st May; 7th–8th November; 5th December; but port works those days.

**SHORE LEAVE:** Crew members allowed ashore till midnight.

**SHIPMASTER'S REPORT:** There is now a sea-loading berth at this port immediately outside the harbour, the vessel lying to two anchors and stern on close to the breakwater and close Eastward of the harbour entrance.

The stern is secured to two buoys, using ship's ropes, five to a port quarter buoy and three to a starboard quarter buoy.

The bow is in about 60 ft. of water and the stern in about 42 ft., and vessels of up to about 40,000 tons dwt. are loaded there, this vessel loading safely to a draft of 37 ft. 6 in.

Two ten-inch pipe-lines are connected on the starboard side, one for discharging ballast ashore and one for loading at a rate of about 1,600 tons per hour. The charge for discharging ballast ashore is 7 kopeks per ton and it is not permitted to discharge any ballast into the harbour.

One copy of a money list was required.

**AUTHORITY:** The Port of Batumi Authority, postal address: 18 Gogebashvili Street, Port of Batumi, U.S.S.R. Cables: Morport Batumi. Tel. 9–22–20.

**AGENT:** The port of Batumi Main Maritime Agency "Inflot", postal address: 5 Gogebashvili Street, Port of Batumi, U.S.S.R. Cables: Inflot Batumi. Tel. 9–24–15.

## BERDYANSK: 46.45 N. 36.48 E. (See Plan)

**DOCUMENTS:** Refer to beginning of U.S.S.R. section.

**APPROACHES:** The port of Berdyansk is situated in the North-eastern part of Berdyansk Bay, on the Northern coast of the Azov Sea.

Inner roads and port facilities are protected from Southern and South-westerly winds by a mole and a breakwater.

Navigation in the port is year round, but in Winter ice-breaker assistance is necessary for about two months.

Vessels should proceed to the harbour through the approach channel, with least depth of 6·6 m.

**PILOTAGE:** Pilot meets vessel at Reception buoy No. 12, situated at the beginning of the approach channel.

**ANCHORAGE:** Vessels may obtain good anchorage in Berdyansk outer roads situated on both sides of the approach channel leading into the harbour.

The outer roads are well protected from Northerly winds, but during Southern and South-westerly winds the anchorage is troublesome.

At time of strong South-westerly swell ships in the outer roads are usually effected by heavy pitching and rolling, and plenty of cable should be paid out on both anchors. Holding ground in outer roads is shell and mud.

**RESTRICTIONS:** Vessels can enter and leave at any time of day and night.

At least 0·3 m. (1 ft.) kell clearance at low tide is required to enter or leave the port. The maximum permitted draft for entry to the port is 6·7 m., and length 160 m.

Speed of vessels proceeding through the approach channel should not exceed 6 knots. Vessels are not allowed to enter the approach channel or navigate in the harbour in restricted visibility and fog.

**BERTHING:** Berths of the port with depths alongside of up to 7 m. are equipped to handle general and bulk cargoes (ores, mineral-building materials), metals, cotton, foodstuff, vegetables, etc., and passenger traffic. There are covered warehouses and concrete floor sheds in the port.

Quays are equipped with electric cranes of up to 10 tons capacity. There is also a floating crane and other cargo-handling equipment and intraport transport facilities.

**RADIO:** Master should not later than 4 hours prior to arrival to Reception buoy No. 12 advise time of arrival and the maximum draft of the ship to the Harbour Master.

Vessels should establish radio contact through "Berdyansk Radio" port radio station operating 24 hours daily on the following frequencies:

| *Call Sign* | *Working* | *Calling* | *Type of transmission* | *Time* |
|---|---|---|---|---|
| UBH | 500 kc/s. | 500 kc/s. | A1 | H24 |
| | 418 kc/s. | | A1 | H24 |
| Berdyansk-Dispetcherskaya (Berdyansk-Port Control) | 156·6 mc/s | 156·8 mc/s | F3 | H24 |

**FUEL:** Available in limited quantities.

**FRESH WATER:** Supplied at berths.

**REPAIRS:** Only minor hull and machine repairs.

**AUTHORITY:** The Port of Berdyansk Authority. Postal address: 9 Uritsky Street, Berdyansk, U.S.S.R. Cables Morport Berdyansk. Tel. 90–81 (switchboard).

**AGENT:** Branch of the port of Zhdanov Main Maritime Agency "Inflot" at the port of Berdyansk. Postal address: 9 Uritsky Street, Berdyansk, U.S.S.R. Cables Inflot Berdyansk. Tel. 31–87; 90–81 (ext. 39).

## GRIGOREVSKY: 46.35 N. 31.10 E. (approx.).

**GENERAL:** New port under construction in Grigorjyevskiy Liman, about 16 miles N.E. of Odessa. Port expected to commence operations 1976, and to have a depth of about 14 metres. Port is to be used for shipment of chemical products.

## IGARKA: 67.24 N. 86.30 E. (See Plan)

**GENERAL:** A sea and river port, Igarka is situated about 344 miles Southward of the mouth of the Enisei river which flows into the Enisei Gulf of the Kara Sea.

The port is open for navigation about 4 months (110–115 days) from July till October. Ice first begins to form in the second half of October. Ice-breaker assistance is rendered within half a month.

No tidal range is observed in the port waters.

The port of Igarka is well protected from the effects of the wind. It specialises in timber exports.

**DOCUMENTS:** refer to beginning of U.S.S.R. section.

**PILOTAGE:** Compulsory for Yenisei River and entering port. Pilot vessel *Meridian* is located in the following positions: 71° 45′ N., 83° 0′ 0″ E., and 71° 37′ N., 83° 30′ E. Pilot radio station OEFV, operates on 500 kc/s at the following times (Moscow time): from 00.00–03.00, 07.00–13.00, 15.00–17.00, 19.00–21.00 and 23.00–24.00. Master to give notice 96 hours before arrival at the pilot station and confirm ETA 5 hours before arrival. Within 15 miles of the pilot station, communication is made through "Akatsia" radio, OKV on 132 Mc/s or VHF Channel 16.

On approaching pilot boat, vessel should reduce speed to dead slow, or stop engines if requested. In the event of bad weather, Pilot is embarked or disembarked at a place as directed by the pilot boat.

Distance of pilotage from the pilot station to Igarka is 360 miles, and 2 Pilots together are usually required.

If pilot not available, vessel should anchor in vicinity of pilot station. Berthing Pilots and Pilots for departing vessels are arranged by "Inflot".

**ANCHORAGE:** Information on best location of anchorage, if required, will be given by the pilot boat.

The anchorage in the outer roads is bounded on the East by the leading lines of Igarka and Northern Igarka leading marks, on the West by the leftbank of the Enisei river, on the North by the beam line of the buoy of Igarka Oseryodok, on the South by the leading line of Port of Igarka entrance leading marks.

All vessels when at anchor in the outer roads anchorage should lie at anchor as close to the bank of the river as possible, not to obstruct vessels' traffic along the Karmakulskie, Igarka and Northern Igarka leading lines.

In the event of bad weather or main engine trouble a vessel should lie at anchor in a place as directed by a river Pilot, who shall advise a Master all necessary data about the anchorage: depths, direction and speed of the current, etc.

**RESTRICTIONS:** Vessels can enter or leave the port 24 hours per day.

To ensure safe passage across the Lipatnikovsky and Turushinsky bars of the Enisei river, vessels proceeding to the port of Igarka must have draft not exceeding 7·3 m. (see "Max. Size.)

**MAX. SIZE:** Length 160 metres, draft is limited by river depths, maximum 24 ft.

**HEALTH:** Not later than 4 hours before arrival, Master to radio "Inflot" advising health condition on board. International code quarantine signals to be shown on arrival at port limits. No one, except Pilot and Port Authorities, may board or leave the ship until free pratique is given after port health inspection.

**RADIO:** Communications with Agent through Igarka radio, sign UFR, operating 24 hours on 500 kc/s and 470 kc/s. Ship's radio station must not be operated when vessel is at anchor.

**TUGS:** Normally join vessel with Harbour Pilot on approaching port. Vessels at anchor order tugs through "Inflot". Ship's tow lines used.

**BERTHING:** Tug assistance for berthing is compulsory. A berthing Pilot boards a vessel from a tug either in the outer roads or in the port.

After having approached a berth at a safe distance, a vessel, in most cases, should cast two anchors and then with tug assistance, turn stern to the Island and moor with three mooring ropes led from the stern. When mooring, a vessel should have ready on board 4 mooring ropes each not less than 100 metres in length (3 ropes to be led ashore and 1 prepared for a tug.)

Vessels moored in the inner roads must have strong ropes which should be made fast over the pile moorings only.

If 3 or 4 vessels are moored at the quay, the outside ones should have a red light exhibited in the middle of each mooring rope led ashore.

Notice of readiness and other conditions of loading – as per the

"Soviet Wood" Charter Party. Opening and closing of mechanised hatches by ship's crew, otherwise by port workers.

When a vessel is moored in the inner roads, stern to the Island, loading is by floating cranes; when at berth – ship's derricks are used.

Loading is by use of ship's soft manila strops, 6 cm. in diameter and 12 metres total length.

A test label should be attached to every strop.

**MEDICAL:** Medical assistance is free, hospital facilities available – all arrangements made by "Inflot".

**DENSITY:** Fresh water.

**FRESH WATER:** May be taken from the river.

**FUEL:** Available.

**WATCHMEN:** Ship's crew to provide watchmen services.

**HATCHES:** Mechanical hatches operated by crew, otherwise handled by stevedores.

**IDENTIFICATION CARDS:** Required for crewmen going ashore.

**CUSTOMS ALLOWANCES:** Only reasonable quantities for personal consumption may be taken ashore.

**REPATRIATION:** No facilities.

**AIRPORT:** Situated 1·5 km. away, one daily flight to Krasnogarsk.

**TIME:** GMT plus 7 hours.

**HOLIDAYS:** No official holidays are observed during the navigation season.

**POLICE/AMBULANCE/FIRE:** Police, tel. 0–02; Ambulance, tel. 0–04; Fire, tel. 0–01.

**TELEPHONES:** Telephones cannot be connected on board vessel.

**SHORE LEAVE:** Permitted during 06.00–24.00 subject to police control.

**GENERAL:** It is forbidden for crew to swim in the harbour.

**AUTHORITY:** Port Office, 47 Gorky Street, Igarka. Tel. 4–10. Cables: Morport, Igarka.

**AGENT:** "Inflot". Cables: "Inflot" Igarka.

## ILICHEVSK: 46.19 N. 30.40 E. (See Plan)

**GENERAL:** The port of Ilichevsk is situated on the North-western coast of Black Sea, on the right bank of the Sukhoi Liman, about 15 miles to the South-west from Odessa City.

The Sukhoi Liman is divided by dams into three parts called Basin No. 1, Basin No. 2 and Basin No. 3.

A part of Basin No. 1 bounded by the leading line of the Port of Ilichevsk leading lights, thence by the South-western coast of the Liman, thence by the Southern Sand Headland, is called the Inner Roads.

The berths for large sea-going vessels are along the Western side of the Southern Sand Headland, thence along Southern and South-western sides of Basin No. 1.

The berths of the Western side of Basin No. 1 are used by fishing trawlers.

Navigation at the port is year round. Ice usually begins to form in the second half of December and finally disappears in February. Ice-breaker assistance is required in severe winters for about a 30 day period.

**DOCUMENTS:** Refer to beginning of U.S.S.R. section.

**PILOTAGE:** Compulsory. Master shall give agent preliminary information not less tha 96 hours prior arrival stating: Vessel's name and E.T.A., type and quantity cargo on board (or required), draft, length and beam, number and weight of each heavy lift and where stowed (if any), number of passengers, service required, In case of delay, Master shall advise agent accordingly. Approaching port communication can be established by radio-telephone on international frequencies. Vessels which have entered inner roads are prohibited to broadcast except in emergency. Call sign of port Radio Station UEH-2. Inwards and outwards pilotage of all foreign vessels is compulsory. Pilot and Boarding Officials embark or disembark in outer roads near Pilot Buoy. Position of embarkation or disembarkation may be changed as agreed upon with Master when weather conditions unfavourable. Embarkation and disembarkation of Pilot and Boarding Officials shall be effected in compliance with Regulation 17 Chapter V of "International Convention for Safety of Life at Sea" 1960. Position of Pilot buoy 46° 18′ N.; 30° 45′ E.

**APPROACHES:** The approach channel leads from seaward into Basin No. 1. Depths in mid-channel are 12·2 m. Strong Easterly and Southerly winds may cause heavy surge in the channel influencing a vessel's manoeuvrability.

**ANCHORAGES:** When vessel not boarded by Pilot immediately on arrival it shall anchor in anchorage area specially designated in outer roads south of Pilot buoy and await boarding of officials or Pilot. The leading entrance line extending from Harbour gates to Pilot buoy and further seawards, marks northern limit of anchorage area. No vessel shall anchor north of or on this line.

A good anchorage can be obtained in the outer roads situated at a distance of 2 miles off the coast between the parallels of 46° 17′ N. and 46° 21′ N. The outer roads are open to all winds blowing from N.E. via S. up to N.W.

The anchorage (on charts marked as No. 24) is situated about 1·2 mile to the South-east of the port entrance. It is bounded by the following points:

| | |
|---|---|
| 46° 18′ 12″ N. | 30° 41′ 36″ E. |
| 46° 17′ 12″ N. | 30° 41′ 00″ E. |
| 46° 17′ 12″ N. | 30° 42′ 10″ E. |
| 46° 17′ 48″ N. | 30° 42′ 48″ E. |

The holding ground is grey mud and clay.

**RESTRICTIONS:** Vessels entering Channel shall make way for vessels leaving. Passage in and out governed by shore Signal Station located on Port Radar Building. If no signals exhibited on signal mast, both in and out simultaneous navigation is permitted. Sp of vessel shall not exceed 5 knots except for emergency case improve manoeuvrability. Vessels prohibited anchor in Cha except in emergency when necessary prevent immediate dange drifting aground, or engine or rudder damage, or other justifie reasons. Such cases shall be immediately reported to Harb Master.

**MAX. SIZE:** The maximum permitted draft is 11 m. length 260

Vessels drawing over 11 m. must obtain the Harbour Mas permit for entry to the port.

**HEALTH:** Foreign vessels granted free pratique when ber alongside and all arrival formalities accomplished by the boar officials, irrespective whether day or night. If berthing delayed, un certain circumstances vessel may be granted free pratique at ro where anchored. Event suspected disease Master shall inform Ag by radio. When arriving from another Soviet Black Sea port, pratique automatic.

**RADIO:** Channel 16 (156, 80 m.c/s.) for radio-telephone used calling only, with subsequent switch to any other Channel, information addressed to ship's Agent, Cable address "In Ilichevsk", Telex No. 232448. Port Radio UEH.2.

Radio contact can be established through the port radio sta "Ilichevsk Radio" operating 24 hours daily on the following quencies:

| *Call sign* | *Working* | *Calling* | *Type of trans-mission* |
|---|---|---|---|
| UEH-2 | 500 kc/s | 500 kc/s | A1 |
| "Buran-13" | 156·80 mc/s | 156·80 mc/s | F3 |
| Ilichevsk-Radio (main port control) | 2535 kc/s | 2535 kc/s | A3 |

The port radar station gives all possible information to all vess navigating in restricted visibility and in the absence of floa marks, from the point of a Pilot's embarkation up to the port.

Radar navigation is controlled by a Pilot.

A signal post is situated at the Northern side of the entrance to port.

**TUGS:** Normally join vessel when approaching mooring be Ship's lines used.

**BERTHING:** Quays with depths alongside of up to 11·5 m. equipped to handle oil, general, bulk and other cargoes. There mechanised warehouses and open concrete floor sheds.

Electric cranes of up to 41 tons capacity are operated on the qu and by the warehouses. There are floating cranes with lifting capa of up to 100 tons, other cargo-handling equipment and intra-p transport means.

Opening and closing of mechanised hatches is always done the ship's crew.

**TIDE:** The range of the water level caused by strong winds reach 2 m. The rise of the water level is due to Northerly winds the fall of the water level – to Southerly winds.

The changes of the water level caused by variation in atmosphe pressure ("Seish" phenomena) and are observed periodically. T phenomena can last from a few minutes up to several days and range of the water level may reach 0·6 m.

**STEVEDORES:** No particular ETA advices required.

**RADAR:** Port Radar Station gives all possible technical informa to any vessel navigating within Station's broadcast zone, if reques Navigation in channel controlled by Port Radar Station. Commu cation between Station and vessels established by radio-teleph on international frequencies.

**MEDICAL:** Medical assistance rendered immediately when quested. Hospital facilities available. Particular inoculations quired prescribed by International Sanitary Regulations.

**DENSITY:** Average density 1.010.

**FRESH WATER:** Available. Delivered from berth or applian

**FUEL:** Following grades available: (*a*) Fuel Oil Redwood visco at 50°C 1250–1500. (*b*) Marine Fuel Oil Redwood, viscosity at 5 187–360. Diesel Oil Redwood, viscosity at 20°C 32–47. Orders bunkers preferably 3 days prior arrival in port.

**DEVELOPMENTS:** Presently port only partially constru Work of further development being carried out.

**GANGWAY DECK WATCHMEN:** Watch carried out by cre

**OPENING/CLOSING HATCHES:** By crew.

**CUSTOMS ALLOWANCES:** No restrictions. Free use on boa

**CARGO GEAR:** No additional requirements. Cargo work usu carried out by means of shore cranes.

**IDENTIFICATION CARDS:** Required.

**CONSULS:** None.

**REPAIRS:** Good facilities. All kinds of repairs for vessels of up 60,000 dwt. can be carried out.

**DRY DOCKS:** Docking arrangements settled with Black S Steamship Co. of Odessa, Lastochkina 1 Street. A floating do 250 metres length, 18 metres depth. There is a new floating do with a lifting capacity of 15,000 tons.

**AIRPORT:** The distance from Odessa Airport about 30 km.

**TIME:** GMT plus 3 hours.

**HOLIDAYS:** Official Holidays are Sundays and following Calen dates: January 1st, March 8th, May 1st, 2nd, 9th, November 7th, December 5th.

**POLICE-AMBULANCE-FIRE:** All mentioned services ea obtained through agent.

**TELEPHONES:** Can be placed on board.

**GENERAL:** Shipowners recommended deposit funds for disbu ments prior to arrival. All bank operations carried out by Vnesht bank of Moscow.

**SERVICES:** Shipchandler's supplies, Technical equipment supplies, Laundry, Car Hire.
**SHORE-LEAVE:** Permitted.
**DELAYS:** Vessels berthed at specialised berths depending upon cargo. Delays if berths occupied. Normally no delays in bunkering.
**AUTHORITY:** Odessa-18, Management of the Ilyichevsk Merchant Sea Port, USSR. Cables: "Morport Ilichevsk. Tel. 6-99-36-05; 6-99-36-34.

**AGENT:** The Port of Ilichevsk Maritime Agency "Inflot". Postal address: The Port of Ilichesvk, Odessa-18, Ukrainian S.S.R., U.S.S.R. Cables "Inflot Ilichevsk". Tel. 6-99-36-58; 6-99-36-61. Telex 448.

## IZMAIL: 45.20 N. 28.51 E. (See Plan)

**GENERAL:** A sea and river port, Izmail is situated on the left bank of the Kiliiskoe Ghirlo (Kilia Mouth) of the Danube river, between the 92nd and 94th km.

Navigation in the port lasts about 317 days per year. The Danube river usually becomes frozen over at the end of December or early January. In the less severe winters navigation can be effected with ice-breaker assistance.
**DOCUMENTS:** Refer to beginning of U.S.S.R. section.
**PILOTAGE:** Compulsory. Pilot should be ordered through "Inflot" before leaving the port of Sulina giving vessels ETA at Izmail. Alterations in ETA whilst vessel is navigating the Sulinsky channel should be advised to "Inflot". Also refer to Sulina, Romania.

Navigation in the Kilia Mouth up to the port of Zhdanov is allowed with a port of Izmail Pilot on board, who should be ordered through Inflot Agency after leaving the port of Sulina. ETA at the Chatal of Izmail should be stated in the message. Masters should keep the Port of Izmail Harbour Master informed of all delays in the Sulina Channel and, if necessary, advise alterations in ETA at the Chatal of Izmail.
**ANCHORAGE:** Vessels can obtain anchorage in the roads situated in the area between 91·4 km. and 92 km. Depths in the roads from 5 m.–15 m., the holding ground is soft mud.
**RESTRICTIONS:** Izmail port is situated on the left bank of the Kilia channel, channel depths are 10–20 metres. Reni port is situated on the left bank of the Danube, channel depths are 10–20 metres. Ice-breakers assistance is available during periods when the Danube is frozen. Draft and length of the vessel entering the port of Izmail should be the same as of vessels navigating through the Sulina Channel.
**HEALTH:** International code quarantine signals are to be shown on arrival and free pratique is given by the quarantine doctor who will board the vessel to examine Master's Health Declaration.
**RADIO:** Vessels can establish radio contact via the port radio station Izmail Radio operating 24 hours per day on the following frequencies:

| *Call sign* | *Working* | *Calling* | *Type of trans-mission* | *Time* |
|---|---|---|---|---|
| UJO-3 | 472 | 468 | A1 | HX |
| UJO-5 | 1296 | 12552 | | |
| | 8586 | 8361 | | |
| | 4357 | 4186 | | |
| "Izmail" (Port) | 156·6 mc/s | 156·8 mc/s | F3 | HX |

**TUGS:** Vessels normally berth and unberth without tug assistance. A tug can be made available if particularly requested.
**BERTHING:** Vessels drawing up to 8·25 m. can enter the port and moor at berths with same depths alongside.

Quays are equipped to handle general and bulk cargoes, metals, chemicals, timber and passenger shipping.

There are enclosed warehouses, open concrete floor sheds and a grain elevator.

Simultaneous berthing and shifting berth of two or more vessels at neighbouring berths is not allowed. On the quays there are electric cranes of up to 15 tons capacity. There are floating grain elevators, floating cranes with lifting capacity of 15 tons and other cargo handling equipment and machinery.

According to the customs of the port opening and closing of hatches is usually by ship's crew but it can also be done by stevedores for vessel's account.
**FRESH WATER:** Available in unlimited quantity.
**FUEL:** Heavy fuel oil available.
**WATCHMEN:** Gangway watchmen compulsory, carried out by ship's crew.
**HATCHES:** Normally opened and closed by ship's crew. Stevedores can perform this work at special request.
**CUSTOMS ALLOWANCES:** No restrictions on crew consumption tobacco and alcohol on board. It is prohibited to take these items ashore.
**IDENTIFICATION CARDS:** Required for crewmen going ashore.
**REPAIRS:** Hull and machine repairs can be effected.
**REPATRIATION:** Can be arranged.
**AIRPORT:** Regular connections with internal services.
**TIME:** GMT plus 3 hours all the year round.
**TIDE:** Changes of water level in the river are due to effects of the wind and seasonal increase and decrease of the amount of water brought down from the land in Winter; rise of water level is due to the ice piling up.

Maximum rise of water level is in April, May and June, usually caused by Easterly winds. The least water level is observed in August September and October, due to Westerly winds.
**HOLIDAYS:** New Year's Day (1st January), National Women's Day (8th March); Workers' Day (1st and 2nd May); Victory Day (9th May); Anniversary of October Revolution (7th and 8th November); Soviet Constitution Day (5th December).
**POLICE/FIRE/AMBULANCE:** Izmail – Police, tel. 316; Fire, tel. 524; Ambulance, tel. 600. Reni – Police, tel. 205; Fire, tel. 210; Ambulance, tel. 203.
**SHORE LEAVE:** Allowed up to midnight.
**AUTHORITY:** The Port of Izmail Authority. Postal address: 1 Parakhodnaya Street, Izmail, U.S.S.R. Cables "Morport Izmail". Tel. 9-04-06, 4-71.

**AGENT:** The port of Izmail Shipping Agency "Inflot". Postal address: 14 Port Street, Izmail, U.S.S.R. Cables "Inflot Izmail". Tel. 9-01-81, 9-05-29.

## KHERSON: 46.37 N. 32.37 E. (See Plan)

**GENERAL:** The sea and river commercial port of Kherson is situated on the right bank of the Dnieper river and on the left bank of the Koshevaya river.

The port is open for navigation all the year round but in severe winters ice-breaker assistance is required.

Ice at the estuary of the Dnieper finally disappears in the first half of March.
**DOCUMENTS:** Refer to beginning of U.S.S.R. section.
**APPROACHES:** The port is accessible for sea-going vessels. The approaching channel is very well marked by navigational marks; therefore, there are no difficulties in navigating a vessel along it when entering or leaving the port.
**PILOTAGE:** Compulsory. Navigational range marks, leading marks of Stanislov, Adjigolsky beacons, Verbchansky and Maliy Kasperovsky leading light buoys, and spar buoys. Master advises Port Controller and Inflot Agency ETA minimum of 96 hours prior notice.

Masters of vessels proceeding to the port of Kherson must advise ETA to the Harbour Master and Inflot Agency at the Port of Odessa 24 hours prior to arrival at the Vorontsov lighthouse. More precise time should be given 6 hours before approaching the lighthouse.

After having embarked a Pilot at the Vorontsov lighthouse, vessels proceed farther to the port of Kherson. Upon passing the Port of Odessa, Master should advise ETA to the local Inflot Agency at the port of Kherson.
**ANCHORAGES:** A part of the Dneiper river from the Northern border of the town of Kherson, nearly up to the Maly Potemkin Island, is considered as the Port of Kherson Roads.

Anchorages are situated in the following places: *(a)* in the Dnieper river between leading lines No. 6 and No. 7 (broad reach); *(b)* at the estuary (Liman) of the Dnieper river, 2 miles South-westward off the Stanislav Point.

The roadstead for foreign vessels is situated between the beam line of creek No. 2 (46° 38′ N., 32° 38′ E.) and the upper leading marks line, marking the place where a submarine cable is laid 6·5 cables S.W. of the creek.
**RESTRICTIONS:** The permitted draft for passing through the channel is 25 ft. (7·62 m.) but it may vary depending on weather conditions.

In the summer the channel is open for navigation 24 hours a day.

Speed of vessels having draft over 5 m. should not exceed 10 knots whilst navigating through the channel.

There are no length restrictions for vessels entering the port.

Navigation through the channel in restricted visibility is strictly prohibited.
**HEALTH:** No automatic pratique.
**RADIO:** Ship-shore radio link can be established through the port radio station operating 24 hours on the following frequencies:

| *Call sign* | *Working* | *Calling* | *Type of trans-mission* | *Time* |
|---|---|---|---|---|
| UHZ | 500 kc/s | 500 kc/s | A1 | H24 |
| "Kherson Radio" | 2182 kc/s | 2182 kc/s | A3 | H24 |
| "Glazur" (Port Control) | 156·80 mc/s | 156·80 mc/s | F3 | H24 |

A signal mast is located on the roof of the sea and riverside passenger terminal.
**BERTHING:** Nine berths, depths up to 8 m. 40 cm.

Mooring is effected with port Pilot assistance. Number of tugs required for mooring is determined by Pilot with Master's consent.

Cranes of up to 10 tons capacity are operated on the quays and by the warehouses. There are floating cranes with lifting capacity of up to 27 tons and other cargo handling equipment, intra-port transport included.

Berths of the port, with depths of up to 8·40 m. alongside are equipped to handle general and bulk cargoes (ore, chemicals, building materials), metals, grain, timber, cotton, cement, food products, etc., as well as passenger traffic. There are enclosed warehouses, a grain elevator and open concrete floor sheds.

Opening and closing of hatches is usually done by the ship's crew. It may also be done by port workers for vessels account.
**TIDE:** Changes in the water level observed in the port are due to the effects of the wind and variation in atmospheric pressure. The maximum range of the water level caused by winds may reach 2 m.

The changes of the water level due to variation in atmospheric pressure ("Seish" effect) are observed at times. They may last from a few minutes up to several days and may reach 0·58 m.
**MEDICAL:** Hospital facilities available.
**FRESH WATER:** Available.
**FUEL:** Fuel oil, diesel oil of certain viscosities, also coal.
**OPENING/CLOSING HATCHES:** By shore workmen.

**REPAIRS:** Only minor repairs can be carried out. There are no dry docks in the port.
**TIME:** GMT plus 3 hours.
**AUTHORITY:** Ul Ushakova, 4 Kherson, Ukrainian S.S.R., U.S.S.R. Tel. 291402. Telegraphic address, Morflot Kherson.

**AGENT:** The Port of Kherson Maritime Agency "Inflot". Postal address: The Sea Passenger Terminal, Port of Kherson, U.S.S.R. Cables "Inflot Kherson". Telex 132.

## KHOLMSK: 47.03 N. 142.03 E. (See Plan)

**GENERAL:** The seaport of Kholmsk is situated on the Western coast of Sakhalin Island, in the Tartarsky Strait of the Japan Sea and at the head of the Gulf of Nevelskoy.

The port is open for navigation all the year round. The port is frozen over in January. Ice finally disappears in the middle of March. The formation of fast ice along the coast is usually of small account. At times drift ice appears from the North. The action of the wind and sea sometimes packs pieces of drift ice into large hammocks along the shore.

Despite the fact that the port harbours are surrounded by moles, the port area is subject to effects of the wind and waves between October and March in particular. During this period a strong variable current with surge ("Tyagun") or heavy waves occur in the port. Due to this reason vessels are recommended to use manila ropes for mooring berths.

When Westerly or North-westerly winds begin to blow, vessels are recommended to leave the port for sea.

The outer roads of the port are bounded by an arc of 7 cables length radius, the centre of which is marked with a light located on the Southern mole of the Commercial Harbour.

The port is divided into three parts: The Kovsh, The Commercial and Fishing Harbours. The Commerical Harbour is situated in the centre of the port area. It is protected by the Southern and Northern moles. The entrance to the Harbour 150 m. wide, is situated between these two moles. Due to shoal water along the coast, there is not much space for vessels manoeuvrability in the Commercial Harbour. Cargo berths are situated in a basin of the Southern part of the Harbour.

The port of Kolmsk, due to its position, size and weather conditions in the area, cannot be used as a shelter port.

The Commercial Harbour is not protected at all from heavy swells caused by strong Westerly and North-westerly winds blowing more often in the period between October and March. Therefore, vessels are recommended to leave the port for sea after having received a storm warning about a gale coming from Westerly or North-westerly directions.

All vessels proceeding to the port of Kholmsk in the Autumn and/or Winter must have available on board a sufficiency of fuel, fresh water, provisions and safe manila ropes, be seaworthy in all respects, thus ensuring vessel's safety during a possible stay in the open sea roadstead.

In case there are no vacant berths in the port, vessels are not allowed to enter the harbour without prior permission.

It is also prohibited to enter the harbour after a storm warning has been received by vessel despite the fact that there are vacant berths in the port.

**PILOTAGE:** Pilot meets a vessel in the outer roads. In the event of bad weather, when Pilot is unable to come on board, vessel should follow in the wake of pilot boat.

**ANCHORAGES:** There are no anchorages protected from the wind in the Gulf of Nevelskoy.

During off-shore winds vessels may anchor in the outer roads situated opposite the port entrance. The outer roads are open to Westerly winds; depths are from 16 m.–40 m. The bottom is sand and mud.

Masters should bear in mind that during the period of navigation fish nets are usually laid in the outer roads. The seaward side of the border of the fish nets, situated about 8 cables length off-shore, is usually marked by wooden buoys with flagstaffs.

Anchorage in the outer roads may also be obtained at 4–6 cables length off shore. Depths are from 18 m. to 20 m. Holding ground sand and stone.

A vessel should proceed to the anchorage along the leading line of the port of Kholmsk leading lights. At a distance of half a mile off the port entrance, a vessel should steer off the leading line at 2–3 cables length and then cast anchor.

The holding ground is better in the Southern part of the outer roads than in the Northern part.

When at anchor, a vessel may not approach the leading line closer than 1·5 cables length.

**RESTRICTIONS:** Vessels may enter the port at any time of day or night.

**MAX. SIZE:** The maximum permissible draft for the entry to the port is 6 m. length – 100 m. Since depths in the channel may vary at times, the Port Authorities shall undertake to advise the Masters of incoming vessels accordingly.

**RADIO:** Ship–shore radio link can be established through the port radio-station Kholmsk Radio operating 24 hours a day on the following frequencies:

| *Call sign* | *Working* | *Calling* | *Type of trans-mission* |
|---|---|---|---|
| UFO | 500 | 500 | A1 |
| UFO | 522 | 480 | A1 |
| UQB | 8675 | 8370 | A1 |
| UQB | 3605 | 4186 | A1 |
| Kholmsk Radio | 4361·6 | — | A3A |
| Kholmsk Radio | — | 4066·1 | A3 |
| Reclama (Port Control) | 2182 | 2182 | A3 |
|  | 161·90 mc/s | 156·80 mc/s | F3 |

The port signal station is situated at the Southern mole ba
There is also a radar station in the port.

**BERTHING:** Berths with depths from 2 m. up to 6·5 m. alongsi are equipped to handle general and bulk cargoes, metals, timb food products, etc., as well as passenger traffic.

Number of tugs required for assistance is usually agreed betw Pilot and Master.

Cranes of up to 41 tons capacity are operated on the quays. Th is also other cargo-handling equipment and intra-port transp facilities. There are enclosed warehouses and open concrete f sheds.

**FUEL:** Not available.
**FRESH WATER:** Available.
**REPAIRS:** Only minor repairs can be carried out. There are no docks in the port.
**TIDE:** Changes in the water level are of small account and usually caused by tides. The tide is diurnal with one high water one low water a day. The time difference between high and low wa is irregular. The range of the tide is very small, reaching only 0·25 at mean springs.
**TIME:** GMT plus 11 hours.
**AUTHORITY:** The Port of Kholmsk Authority. Postal addre 1 Katernaya Street, Port of Kholmsk, Sakhalin Region, U.S.S Cables "Morport Kholmsk". Tel. 3–04, 3–05.

**AGENT:** The Port of Kholmsk Main Maritime Agency "Infl 6 Morskaya Street, Port of Kholmsk, Sakhalin, U.S.S.R. Cab "Inflot Kholmsk". Tel. 22–86; 34–92.

## KLAIPEDA: 55.43 N. 21.07 E. (See Plan)

**GENERAL:** A Baltic seaport, Klaipeda is situated in a narrow st called the Morskoi Canal, which connects the Kursky Gulf with t Baltic Sea.

The port of Klaipeda comprises the Morskoi (Sea) Canal consi ing of three harbours; The Zimnyaya (Winter), The Novaya (Ne and the Zavodskaya (Industrial), then the Boat Basin, the Fishi Port and the Danghe river quays situated down the auto-bridge.

The Southern half of the port water area a part of the Danghe ri up to the mouth, and the Kursky Gulf become frozen over ev winter for quite a long time. Part of the port situated to the Nort the Danghe river mouth very seldom gets frozen over, but t entrance to the Morskoi Canal may be packed by the drift ice in t course of a few days.

The port is open for navigation all the year round but in the win time ice will be managed with ice-strengthened tugs' assistance.

**DOCUMENTS:** Refer to beginning of U.S.S.R. section.
**APPROACHES:** The width of the approaching channel to the p is about 80 m. and depth 8·4 m. Depths of the channel at a distan of 400–600 metres from the entrance to the Sea Canal are subject changes due to lots of sand and mud brought down from the Kurs Gulf by the spring floods, in particular. The entrance to the Sea Can is protected by the Northern and Southern moles.

The length of the fairway of the Sea Canal from the entrance up t the Secluma–Kyaules–Nugara shoal at the entrance to the Kurs Gulf is 4 miles, width varies from 180 m. to 300 m. and the dept are from 6 m. to 9 m. at the mean water level.

The permissible drafts for vessels navigating along the Sea Can are as follows: Up to 7 m. from the canal entrance up to the Zimnya (Winter) harbour.

Harbour: up to 6 m. from the Winter Harbour; up to the Fishi Port; from the Fishing Port up to the Timber.

Harbour – not more than 4 m.

**PILOTAGE:** Report 96 hours, then 24 hours prior arrival by rad giving ETA, name vessel, fresh water draft. Pilot compulsory inwar outward and shifting. Pilot meets vessel at buoy No. 1 unless wi force above 5 Beaufort or fog. In such cases pilot station instruc Master by radio-telephone and fixes meeting with Pilot.

Pilot station is situated at the entrance to the Zimnyaya (Win Harbour.

**ANCHORAGE:** A good anchorage can be obtained in the ou roads at receiving light buoy No. 1 (55° 44′ N., 21° 00′ E.).

The outer roads are situated at a distance of 2 miles to W.N. from the entrance to the Morskoi (Sea) Canal. Depth are from 19 m 23 m.

The holding ground is sand and clay. Anchorage in the ou roads is not safe during heavy seas caused by Westerly winds.

**ENTRY RESTRICTIONS:** Day and night entrance. Maximu permissible draft 8 m. Anchorage at inner roads limited to vess under 100 m. length.

**MAX. SIZE:** Length and breadth unlimited. Maximum permiss draft for all vessels entering the port, 8 m.; and for tankers loading installations outside main port area, 9 m.

**BERTHING:** No specific requirements. Vessels allocated be according kind of cargo to be loaded/discharged and their turn.

The quays of the port with depths alongside of up to 9·75 m. are equipped to handle general, bulk and liquid cargoes as well as passenger shipping. There are enclosed warehouses and concrete floor sheds.

Mobile electric cranes of up to 45 tons capacity are operated along quayside and by warehouses. There are also other cargo handling facilities including a coal loading installation.

**RADIO:** Vessels can establish radio contact through the port radio station Klaipeda Radio operating 24 hours per day on the following frequencies:

| *Call sign* | *Working* | *Calling* | *Type of trans-mission* | *Time* |
|---|---|---|---|---|
| UNM-2 | 500 | 500 | A1 | H24 |
| | 455 | 454 | A1 | H24 |
| | 4343 | 4183 | A1 | HX |
| | 6475 | 6275·25 | A1 | HX |
| | 8701 | 8370 | A1 | HX |
| | 12703 | 12552 | A1 | HX |
| Klaipeda Radio | 2181 | 2182 | A3 | H24 |
| Dispetcher (Port Control) | 156·45 mc/s | 156·80 mc/s | F3 | H24 |
| Ocean (Pilot watch) | 161·90 mc/s | 156·80 mc/s | F3 | H24 |
| Neftegavan (Oil Harbour Port Control) | 156·65 mc/s | 156·80 mc/s | F3 | H24 |
| Klaipeda Radio (CPR)* | 161·95 mc/s | 156·80 mc/s | F3 | H24 |

* CPR – Central Port Radio Station.

Vessels' traffic in the roads and harbours is controlled by the signals exhibited at the signal stations situated at the entrances to the port and New Harbour.

Storm signals are shown at the same stations and also at the Fishing Port signal station.

**TUGS:** Ordered by Pilot if necessary. Mooring and unmooring of large sea-going vessels can be effected with tugs' assistance only. Number of tugs to be ordered depends on the weather conditions and can be agreed upon between Master and Pilot. Master should order tugs by radio well in advance.

**STEVEDORES:** Report 48 hours, then 12 hours prior arrival giving ETA, and 72 hours then 12 hours prior arrival advising perishable goods, characteristics of vessel, gross capacity, number and measurement of hatches, tween-decks, shelter-decks, description and quantity of cargo, stowage plan, heavy lifts, pieces of above 3 tons each especially indicated. Day and night loading/discharging operation, Sundays and holidays included.

**MEDICAL:** Master to advise by radio prior arrival if medical attendance required onboard.

**TANKERS:** Three berths. Maximum draft 9 m. Shore facilities for discharge of ballast.

**FRESH WATER:** Most berths supply by shore installations, otherwise barge. Quantities under 15 tons from barge charged as 15 tons.

**FUEL:** Deliveries only by bunker barge.

**WATCHMEN:** Compulsory for gangway checking. Guard net and life buoy required.

**OPENING/CLOSING HATCHES:** Normally by crew. Possible by shore workers.

**CONSULS:** No Consuls at Klaipeda.

**REPATRIATION:** No facilities for crew changes. Arranging any necessary repatriation at Captain's request effected by Immigration Authorities.

**AIRPORT:** At Palanga (25 km. from Klaipeda), served by regular lines: Palanga–Moscow, Palanga–Leningrad, Palanga–Riga. Airport at Klaipeda – some regular flights per day: Klaipeda–Vilnius, Klaipeda–Kaunas, Klaipeda–Kaliningrad.

**POLICE/AMBULANCE/FIRE:** Tel. Police, 02; Ambulance, 03; Fire, 01.

**GENERAL:** In case of stormy weather or dense fog vessels are lying at Outer Roads until entering permitted by Harbour Master. In such cases vessels lying alongside berth to be shifted to Inner Road.

**CERTIFICATES:** All ship certificates required on every call.

**CUSTOMS ALLOWANCES:** Cigarettes and wine/spirits on board limited by personal requirements; take ashore maximum 2 packets cigarettes, no wine/spirits.

**REPAIRS:** Urgent repairs possible. Pre-advise 2 days. Dry dock 6,500 t. Ordered only on special agreement with Lithauen Steamship Company. All kinds of repairs for vessels of 10,000 dwt. can be effected.

**TIME:** Moscow time, GMT plus 3 hours.

**TIDE:** There are periodical alterations in the water level, chiefly due to the effects of the wind. In general, strong Westerly, Northerly, North-westerly and sometimes South-westerly winds raise the water and Southerly and Easterly winds lower it.

The water level usually begins to rise suddenly. It rises very quickly but lasts for a very short period of time. The maximum difference between high and low level is usually observed in Autumn and Winter.

Sometimes the changes in the water level can be caused by the considerable variation in atmospheric pressure ("Seish" effect).

**TELEPHONES:** May be arranged on board.

**SHORE LEAVE:** Crew members allowed ashore with shore-pass obtainable from Immigration Authorities.

**AUTHORITY:** The Port of Klaipeda Authority, 18 Plachioi Street, Klaipeda, U.S.S.R. Cables "Morport Klaipeda". Tel. 6-22-18; 6-45-94. Telex 187.

**AGENTS:** "Inflot" Agency. Address: Klaipeda, ul. Platchioy 18. Tel. 6-42-70, 6-32-36. Cables: Inflot, Klaipeda. Telex: 179.

### LENINGRAD: 59.54 N. 30.15 E. (See Plan)

**GENERAL:** A Baltic Sea port, Leningrad is situated on the islands of the Neva Delta, at the head of the Nevskaya Guba (Neva Bay), in the Eastern extremity of the Gulf of Finland. Year-round navigation is possible with ice-breaker assistance from the end of November until about 20th April. Ice first begins to form in the middle of November, when usual winter frosts come, and in January (time varies with the season) all the area becomes completely covered with fast ice.

**DOCUMENTS:** Refer to beginning of U.S.S.R. section.

**APPROACHES:** The Kronstadt Korabelny Farvater (Kronstadt Ship's Channel) which is about 12 miles in length, extends from the port of Leningrad Entrance light buoy to the Leningrad Morskoi Canal, which is about 15 miles in length, and leads to the entrance of the sea commercial port of Leningrad. The least bottom width of about 80 m. is in the part of the Canal which is protected by two dams (moles).

**PILOTAGE:** Compulsory, ship shall inform Agent before approaching Leningrad entrance buoy, 60° 02′ N. 29° 26′ E. 96, 48 and 24 hours prior arrival. VHF with pilot boat, Channel 16, call signal "pilot Leninets"; if bad weather pilot boat leads ships to Kronstadt road where Pilot comes aboard.

**ANCHORAGE:** Vessels approaching the port from seaward should take anchorage off the port of Leningrad Entrance light buoy. The depths in the roads are between 20 –25 m. and the holding ground is mud and sand.

**RESTRICTIONS:** No restrictions night entry, no tide in Leningrad. Vessels with drafts from 9·5 m. to 9·8 m. must be towed into the harbour with main engines stopped.

All vessels navigating within the port must keep strictly to the following regulations:

(*a*) Vessel's speed should not exceed 10 knots when navigating in the Kronstadt Korabelny Farvater and in the open part of the Leningrad Morskoi Canal (from the entrance up to the moles).

(*b*) When navigating in the channel between the moles of the Leningrad Morskoi Canal as well as in the Bolshaya Neva river from the Neva Gates up to Lieutenant Schmidt bridge and also in the Ekateringofka river, vessels speed should not exceed 6 knots.

(*c*) In the inner roads and in the port harbours, Masters should navigate with a speed ensuring the safety of vessel but never exceeding 6 knots.

**MAX. SIZE:** Draft restriction 9·8 metres. The maximum permissible draft is 9 m. at mean water level. No restrictions as to the length of a vessel.

**HEALTH:** Master of vessel coming from foreign port shall report every sick passenger or crewman; Health Authorities board together with Customs and Immigration and if find all in order grant free pratique. Each vessel shall produce Deratisation Certificate and Sanitary Patent.

**RADIO:** Cable Agent "Inflot" ETA, draft and other data, information required via Leningrad Radio Station. All vessels when approach-the port of Leningrad should establish radio contact via the coastal Leningrad Radio station operating 24 hours a day on the following frequencies:

| *Call sign* | *Working* | *Calling* | *Type of trans-mission* | *Time* |
|---|---|---|---|---|

* CPR – Central Port Radio Station.

Port radar station gives all possible information to any vessel navigating in the Kronstadt Korabelny Farvater and Leningradsky Morskoi Canal during restricted visibility, from the Leningrad entrance light buoy (lat. 60° 02′ N., long. 29° 26′ E.) up to the dams (moles) of the Leningrad Morskoi Canal. Navigation is usually controlled by a Pilot.

Signals regulating vessels traffic in the harbour gates, called the Nevskie Vorota (Neva Gates), as well as signals indicating that the Leningrad Morskoi Canal is closed for Westward bound traffic are hoisted at the Commercial port signal mast situated on Kanonersky Island, at the Western side of the Neva Gates. Storm signals are shown at the same mast.

Signals for vessels approaching the entrance to the Commercial port of Leningrad from seaward are hoisted at the pilot vessel.

Traffic prohibition signals, when the pilot vessel is absent from her usual position may be exhibited at a vessel specially designated for this purpose.

**TUGS:** Normally join incoming vessels at Inner Road. Ships lines usually used. Vessels drawing 8 m. and over must be towed when proceeding in the Leningrad Morskoi Canal from the Lesnoi Mole Roads (Timber Mole Roads) up to the Neva Gates.

The number of tugs a Master should order for inward and outward towage as well as for shifting berths in the harbour depends on Pilot's advice.

**BERTHING:** Berths of the port, with depths alongside of up to 11·5 m. are equipped to handle general and bulk cargoes (coal, ores, grain, building material), sugar, metals, timber products, etc., as well as passenger vessels. Enclosed single and multifloor warehouses, an elevator, cold stores and concrete floor sheds are available in the port.

Opening and closing of hatches is usually done by the ship's crew, otherwise according to the charter party conditions.

The port of Leningrad is equipped with modern cargo-handling facilities. There are floating, fixed and mobile shore cranes, an elevator, coal loaders, fork lifts and other mechanical equipment.

**TIDE:** No tide at Leningrad but, considerable rises of water level may be caused by strong Westerly winds – and falls by Easterly winds. Usually the changes in water level are greater during the Autumn and Winter months. During Autumn and Winter the range of level may reach 1·2 m. from the mean water level and sometimes even more.

During Spring and Summer it is never more than 0·5 m. The greatest rises in the water level are observed in the Neva Bay. The extreme difference in level between the maximum rise and the minimum fall of these seasonal changes is about 3·5 m. At the mouth of the Neva river the greatest changes in the water level are caused by the South-westerly autumn gales. The difference in level usually reaches 0·2 m.–0·3 m. and only sometimes up to 1 m.

**STEVEDORES:** Ordered by Agent.

**RADAR:** Pilot in contact with radar service.

**MEDICAL:** Masters to advise Agent prior arrival if medical attendance required aboard.

**DENSITY:** Fresh water in port area.

**FRESH WATER:** Most berths supplied by shore installations, otherwise barges.

**FUEL:** All grades available.

**FIRE PRECAUTIONS:** No smoking allowed in port area, except n places specially allocated.

**WATCHMEN:** Not compulsory.

**OPENING/CLOSING HATCHES:** According to charter party.

**CERTIFICATES:**

- Passenger Ship Safety.
- Safety Equipment.
- Safety Radiotelephony.
- Safety Radiotelegraphy.
- Exemption Certificate.

**CUSTOMS ALLOWANCES:** No restrictions on board.

**IDENTIFICATION CARDS:** Needed, will be given on arrival.

**CONSULS:** The Consulates of Finland and German Democratic Republic are situated in Leningrad.

**REPAIRS:** All types of repairs for vessels of up to 10,000 dwt. can be carried out in the port.

**DRY DOCKS:** Available.

**TIME:** GMT plus 3 hours, no alterations during year.

**POLICE/FIRE/AMBULANCE:** Police 9692; First-Aid from Port 503; from Town 03; Port Fire 8509, 8536, 8973; Town Fire 01.

**AUTHORITY:** Port of Leningrad Authority. Postal address: 5 Mezhevoy Canal, Leningrad, L-35, U.S.S.R. Tel. Commercial port 99–94, 97–61; Timber port – 99–75. Cables "Lenmortorgport Leningrad, L-35".

**AGENT:** "Main Maritime Agency Inflot", Post – "Inflot", Leningrad L–35 U.S.S.R. Tel. 164812, 169921. Telex 505.

## MESANE, (Mezen): 65.53 N. 44.07 E.

**GENERAL:** A commercial seaport, Mezen is situated at a distance of 22 miles to the South of the mouth of the Mezen river flowing into the head of the Gulf of Mezen, in the White Sea.

The port area is bounded on the North by a line connecting the Ryabinov and the Nerpinsky points and on the South by the parallel of 65° 50′ N., Northward of the town of Mezen. The anchorage at the Kuloi river mouth is also included at the port of Mezen area.

Drift ice in the Gulf of Mezen appears in the first half of November. By the middle of February the Gulf becomes completely frozen over. Ice finally disappears in the first half of May.

The port is open for navigation about 6 months of the year, starting from the end of May or beginning of June.

Ice-breaker assistance cannot be effected in the outer roads in the event of fast ice.

Tidal streams are observed in the Mezen river. The tide is semi-diurnal with two high waters and two low waters a day.

**DOCUMENTS:** Refer to beginning of U.S.S.R. section.

**PILOTAGE:** Compulsory. Vessels met by pilot boat in area of pilot buoy (66° 12′ N., 44° 04′ E.) about 22 miles from port. No direct connection between ships and pilot station. Alternative area in event of bad weather Outer Roads of Mesane, entering direction 183°. These Roads used for boarding Pilot only on Pilot's option. Information to be in accordance with Soviet Wood Charter Party. Pilot boat equipped radio telephone (2182 kc/s, call name "Petchoretz Dva"), word "Pilot" painted on wheel house. Pilot boat to be given a good lee.

Pilotage cannot be effected at night.

A Pilot cannot board a vessel earlier than 2 hours before the high water in the Semzha river, and a vessel may be piloted into the port not later than one hour before the water in the river reaches high level.

Pilots do not board vessels in rough water (if the wind is over Fo 6 Beaufort scale).

In case Pilot cannot embark a vessel in the outer roads, Mas should follow in the wake of pilot boat up to Tolstic Point (l 66° 04′ N., long. 44° 05′ E.) where a Pilot will board ship. After leav the port Master should disembark Pilot on to pilot boat and th follow it up to the outer roads of the port of Mezen.

The pilot station is located at one cable length North-eastward the Semzha light mark.

**ANCHORAGE:** Depths at anchorages 5–7 metres. Anchorage c be obtained in the outer roads and in certain places of the Mez river situated between the outer roads and the Kamenka settlem

The outer roads are situated at the Mezen river mouth. They a bounded on the South by a line connecting the Ryabinov and th Maslyany Points.

Vessels in the outer roads are subject to effects of the Nor westerly and North-easterly winds and heavy waves caused b them. The depths in the outer roads are about 7 m. The hold ground is sand, mud and rocks. Anchorage can be obtained in th inner roads with depths at low water of up to 4·5 m.–5 m. (length area is 1·5 mile and width up to 150 m.).

The inner roads are situated opposite the Kamenka settlem A good anchorage can be obtained there by two vessels sim taneously. The anchorage at Burnovsky point with depths fro 4·5 m.–5·5 m. can be used by two loaded vessels drawing up to 4·2

**RESTRICTIONS:** Vessels may enter port only in daytime on hig water. Masters have to pay full attention to Pilot's advice as river ha varying bends.

**MAX. SIZE:** The permitted draft for the entry to the port is announce monthly by the Port Authorities. It should not exceed 3·9 m.–4·2 The maximum permitted length is 70 m.

**HEALTH:** As for "Archangel".

**RADIO:** Besides Murmansk and Archangel, messages may b routed through Mesane Radio (UZT, A1 500 kc/s, VHF Channel 16

Vessels can establish radio contact through the port radio stati Mezen Radio operating 24 hours a day on the following frequencies

| *Call sign* | *Working* | *Calling* | *Type of transmission* | *Tim* |
|---|---|---|---|---|
| UZT | 500 kc/s | 500 kc/s | A1 | HX |
| Dispetcher (Port Control of the cargo handling area) | 160·65 mc/s | 156·80 mc/s | F3 | H24 |
| Port (Harbour Master's Office) | 156·70 mc/s | 156·80 mc/s | F3 | HX |

**BERTHING:** The floating dams are used as mooring berths in th port. The depths alongside at low water are about 3·5 m. Vessel drawing over 3·9 m. are usually grounded while loading at low wat (not always afloat but safe aground).

The port of Mezen specialises in timber exports but other cargoe are also handled at berths. Covered warehouses and open concre floor sheds are available.

Tug assistance for mooring berths is not compulsory. Berthing i usually done in the day time. Tugs, if necessary are ordered b Master.

Rendering of Notice of Readiness opening and closing of hatche are usually done in accordance with the "Soviet Wood" chart party.

Loading of timber is done by ship's winches.

**TIDE:** The difference between high waters and low waters is sma but the range of the tide is comparatively big. It reaches at mea neaps 2·8 m. and 3·1 m. at mean springs, except for the Sezmha rive area where the mean spring tide reaches 7·7 m. Everywhere in th Gulf of Mezen the differences in the times of high and low wat are large and in some places they may reach 5 hours.

Considerable changes in the water level are observed in th Spring. They are usually caused by the seasonal increase in th amount of water (due to melting snow) brought down by the rivers

**REPAIRS:** Only minor repairs can be effected. There are no d docks in the port.

**FUEL:** Supplies not guaranteed.

**FRESH WATER:** Fresh water can be supplied from the berths.

**TIME:** GMT plus 3 hours.

**AUTHORITY:** The Port of Mezen Authority, Morport, Kamen Settlement, Mezen, Archangel region, U.S.S.R. Cables "Morp Mezen". Tel. The Timber mill exchange – Port.

**AGENT:** A branch of the Port of Archangel Main Maritime Agen "Inflot" at the Port of Mezen.

Port – "Inflot", Kamenka Settlement, Mezen, Archangel regio U.S.S.R. Cables "Inflot Mezen-Kamenka". Tel. The timber mi excahnge – "Inflot".

## MURMANSK: 69.00 N. 33.03 E. (See Plan)

**GENERAL:** A Barents Commercial Seaport and Fishing Po Murmansk, is situated at the Eastern coast of the Southern elbow shaped bend of the Gulf of Kolsky, between the Zeleny (Green) a Khaldeev Points. It is the last unfrozen port of the Northern se route.

In very severe winters the Southern and middle elbow-shape bends of the Gulf get frozen over for a short period of time i February or March, during calm and frosty weather. In mild winter drift ice is observed. The Northern part of the Gulf never gets froze over. The port of Murmansk is open for navigation all the year round. In the event of ice conditions in the Gulf of Kolsky, ice-breaker assistance will be effected in compliance with the Harbour regulations in force.

The port area occupies nearly all Southern elbow-shaped bend of the Gulf of Kolsky. The port of Murmansk consists of two harbours: the Commercial and the Fishing Harbours. The Commercial Harbour is divided into 4 areas: The Rudny (Ore), The Ugolny (Coal), The Central, and Passenger Terminal.

The Fishing Port extends to the South of the Passenger Terminal.

**DOCUMENTS:** Refer to beginning of U.S.S.R. section.

**PILOTAGE:** Compulsory. Pilot station is situated at Tuva-Goobay in Kilsky Bay, position 69° 11′ 09″ N., 33° 34′ 08″ E. ETA to be given to Agents 96, 48, 24 and 12 hours before arrival. Pilot launch is distinguished by word "Pilot" in black letters on both sides. Pilots can be contacted on VHF Channel 16. Every vessel should drift whilst waiting for Pilot since depths in the pilot station are too big to permit anchorage.

During rough sea Pilot is not able to board a ship at the pilot station area. In this event vessel should follow the Pilot boat in the wake of it up to the Salny Island and embark a Pilot Southward of the Island at a place indicated by Pilot boat.

**ANCHORAGE:** At the pilot station depths are too great to permit anchorage, but there is sufficient sea room for vessel to await Pilot with engines stopped. Anchorage with depths from 20 m.–35 m. is situated in the Southern elbow-shaped bend of the Gulf of Kolsky, Westward of the Kievaraksky leading line (the port outer roads). The holding ground is good.

Every vessel waiting for mooring berth should anchor Westward of the Kievaraksky leading line but not obstructing other vessels traffic.

It is strictly prohibited to lie at anchor Eastward of the Kievaraksky leading line. If, in case of emergency, a Master has to lie at anchor in the prohibited area, he should immediately report the fact to the Harbour Master of the Commercial port of Murmansk.

**RESTRICTIONS:** Vessels can enter the inner roads of the port at any time of day or night.

The speed of vessels navigating within the limits of the Gulf of Kolsky is restricted by the following limits:

(*a*) It shall not exceed 12 knots in the area bounded by the parallels of the Letinsky Point and the Northern side of the Salny Island.

(*b*) It shall not exceed 10 knots in the area bounded by the parallels of the Northern side of the Salny Island and Pinagory Point.

(*c*) It shall not exceed 6 knots in the area Southward of Pinagory Point.

**MAX. SIZE:** Vessels up to 32 ft. maximum draft for berthing.

**HEALTH:** International quarantine signals to be used on arrival No later than 6 hours before arrival at the inner area Master should radio Agents giving full details of state of health on board, and requesting pratique which will be given on arrival.

**RADIO:** Murmansk Radio operating 24 hours on 2182 kHz. Coastal radio station UMN operating 24 hours on 500 and 472 kHz. Coastal radio station UMV operating 24 hours on 13080 kHz.

Radio contact can be established through the port radio station Murmansk Radio, operating 24 hours a day on the following frequencies:

| *Call sign* | *Working* | *Calling* | *Type of transmission* | *Time* |
|---|---|---|---|---|
| UMN | 500 | 500 | A1 | H24 |
|  | 472 | 468 |  |  |
| UMV | 12,730 | 12,555 | A1 | H24 |
| UMV | 6,400 | 6,274·5 | A1 | HX |
|  | 8,690 | 8,368 |  |  |
|  | *1660 | 16,716 |  |  |
| Murmansk-Radio | 2,182 | 2,182 | A3 | H24 |
| Murmansk-Radio | 8,757·6 | — | A3H | HX |
|  | — | 82,236 | A3 | HX |
| Rascat (Radar & Pilot Service) | 161·50 mc/s | 156·90 mc/s | F3 | H24 |
|  | 161·70 mc/s | 157·10 mc/s | F3 | H24 |
| Port (CPR)* (Pilot Service) | 160·95 mc/s | 156·35 mc/s | F3 |  |
|  | 161·90 mc/s | 157·30 mc/s |  |  |
|  | 161·95 mc/s | 157·35 mc/s |  |  |
| "Inflot" (Shipping Agency) | 156·70 mc/s | 156·70 mc/s | F3 |  |

* CPR – Central Port Radio Station

The pilot service operates through the "Port" (CPR) and "Rascat" (CPR) – Central Port Radio Station.

All vessels when at anchor or navigating in the Gulf of Kolsky must keep constant radio watch.

The port radar station gives all possible information to any vessel navigating in the Gulf in the restricted visibility. Radar navigation is usually controlled by a Pilot on board a vessel.

The storm and tide signals are made by the International Code of Signals by day and by Morse system at night from Murmansk storm signals station (lat. 68° 59′ N., long. 33° 03′ E.) located on the roof of the Harbour Master's office.

The signals are shown at the Western yard-arm and storm signals at the Eastern yard-arm of the station.

*Notice of Arrival:* Every foreign vessel on approaching the Gulf of Kolsky must ask for entry permission into the Gulf from the Toros Island signal station by exhibiting her International Code Number by day and at night her call sign should be made in Morse code by searchlight.

**VHF:** Port VHF maintains contact between Pilots and ship within harbour limits, and between ship and shore. Calling on Channel 16 working channel will be according to instructions from shore.

**TUGS:** Normally join vessel in the inner area of the port. Tug's lines are used.

**BERTHING:** Main berths, depth alongside 32 ft. at low water. Average height of tide about 3·9 metres. Vessels berth port or starboard side alongside at Master's and Pilot's discretion. The berths of the Commercial Harbour with depths alongside of up to 10·5 m. are equipped to handle general and bulk cargoes, metals, machinery, chemicals, foodstuffs, etc.

There are enclosed mechanised warehouses for apatite including open concrete floor sheds.

It is prohibited to approach a berth without sounding a prolonged blast of the whistle. Same signal should be sounded when leaving an outer berth and the inner basin, as well as when passing a vessel lying at anchor in the outer roads.

Berths of the port are equipped with mobile electric cranes of up to 40 tons capacity. There are floating cranes with lifting capacity of up to 90 tons, and other cargo handling equipment and intra-port transport. Since loading/unloading is usually done by the port cranes, there are no specific requirements to vessels cargo gear.

**STEVEDORES:** Arranged by Agent on basis of Masters ETA. Loading and unloading is carried on throughout 24 hours a day including holidays.

**MEDICAL:** Hospital and medical facilities available. Vaccination can be arranged. If doctor required on board Master should inform Agents by radio or VHF.

**DENSITY:** At the berth varies between 1006 and 1025.

**FRESH WATER:** Available from most berths, otherwise supplied by barge. To avoid delay recommended to order before arrival.

**FUEL:** All grades available. Delivered by barge. Advance notice required.

**DEVELOPMENTS:** Reconstruction is being carried out in order to speed up loading of iron-ore and other cargoes.

**WATCHMEN:** Not obligatory.

**HATCHES:** Opening and closing of hatches is usually performed by ship's crew.

**CERTIFICATES:** At first Russian port of call certificates of tonnage and those required by International Convention will be required for examination.

**CUSTOMS ALLOWANCES:** No restrictions on crew's consumption of tobacco and alcohol on board. It is forbidden to take these items ashore.

**CONSULS:** There is no local representation.

**REPAIRS:** All kinds of repairs can be carried out for vessels of up to 40,000 dwt.

**DRY DOCKS:** Large dock; length 173 metres, width 45 metres. Small dock; length 141 metres, width 30 metres.

**TIDE:** Changes of the water level in the Gulf are due to the tides. The tide is semi-diurnal with two high waters and two low waters a day. The difference in time of high and low water is about 6 hours. The range of the tide at mean neap is about 2·4 m. and at mean spring 4·5 m. The maximum tidal range observed in the Gulf of Kolsky is 4·5 m. The extreme range of water level is usually observed during the Autumn months and the lowest during Spring.

**TIME:** GMT plus 3 hours.

**TELEPHONES:** Ambulance, tel. 003, 395 and 442; Fire service, tel. 252 and 524.

**AUTHORITY:** Murmansk Sea Trade Port, 19 Port Settlement, Murmansk. Tel. 25177 and 25627. Telex: 128. Cables: Mortorgport, Murmansk.

**AGENT:** The Port of Murmansk Main Maritime Agency "Inflot", 19 The Port Settlement, Murmansk 24, U.S.S.R. Cables "Inflot Murmansk". Tel. 2-56-66; 2-51-97. Telex 128.

### NAKHODKA: 42.48 N. 132.54 E. (See Plan)

**GENERAL:** A commercial port, Nakhodka is situated in Nakhodka Bay, in the North-western part of the Japan Sea.

At first America Bay is covered with sludge or sometimes thin ice due to snow falling into the cooled water. After ice has formed, it is often broken up by winds into pieces of drift ice which is frequently driven out by strong winds from the bay into the sea.

Nakhodka Bay is usually covered with fast ice from the beginning of January until March.

The port is open for navigation all the year round with ice-strengthened tug's assistance during ice conditions.

The Northern part of Nakhodka Bay from the entrance up to the line connecting the Lindgolm and Basnin Points is occupied by the Commercial port. The Fishing port is situated Southward of this line.

The port of Nakhodka area is bounded on the East by a straight line connecting Astafyev and Shefner Points, on the South-west by a straight line connecting Lindgolm and Basnin Points.

Part of America Bay water area bounded on the South by a line connecting the Povorotny (Turning) and Likhachev Points is also included in the port of Nakhodka area.

**DOCUMENTS:** Refer to beginning of U.S.S.R. section.

**PILOTAGE:** Compulsory. Radio "Inflot" 96, 48 and 24 hours before arrival, advising ETA, ship's dimensions, cargo details, number of passengers and any other requirements. 4 hours before arrival an accurate confirmation of ETA is required to order Pilot. Vessels approaching port should first make for position 42° 27.2′ N., 132° 56.3′ E. Approach to this area is indicated by radio signals "Gannov" and "Povorotny". On arrival in this position Master should again report to the Harbour Master via "Inflot".

From this position vessel should follow course No. 1 along the

2 mile wide fairway. As soon as the light at the entrance of America Bay is visible vessel should steer towards that light as far as quarantine anchorage "A" where the Pilot boards. Tankers proceeding to the oil terminal should approach port along parallel 42° 47′ N. and enter anchorage area "D" on course 270°. Further movement to berths from anchorage areas may only be carried out with a Pilot on board. Pilots are ordered by radio via "Inflot". Pilot boards from a white motor boat with the word "Pilot" in black letters painted on the wheelhouse. International Code Pilot Signals are used. The Pilot boat is normally located near the entrance to the port. In winter the pilot launch may be replaced by a powerful tug.

Every vessel approaching the port of Nakhodka should keep the Commercial port leading light marks in line, berthing 267·9° and on this course enter the port.

Vessels entering or leaving America Bay, when Northward of parallel 46° 46′ N. must proceed at slow speed thus ensuring the manoeuvrability of vessel.

**ANCHORAGE:** Depths in anchorage area "A" are from 13–20 metres. Anchorage area "D" has depths of from 18–28 metres.

The holding ground in both anchorages is mud, sand with mud, stone.

"A" – Quarantine anchorage is limited by a line connecting the following positions:

42° 48′ 36″ N., 132° 56′ 30″ E.
42° 48′ 36″ N., 132° 58′ 06″ E.
42° 47′ 42″ N., 132° 56′ 30″ E.
42° 47′ 42″ N., 132° 58′ 06″ E.

The "A" area (Quarantine Harbour) serves as a Pilot-boarding zone and as an anchorage for dry cargo vessels over 3,000 g.r.t.

Anchorage "D" (area No. 177) is bounded by the following points:

42° 46′ 36″ N., 132° 54′ 30″ E.
42° 46′ 48″ N., 132° 54′ 30″ E.
42° 47′ 24″ N., 132° 55′ 18″ E.
42° 47′ 24″ N., 132° 55′ 36″ E.
42° 46′ 36″ N., 132° 55′ 36″ E.

Anchorage "D" is used by vessels proceeding to the Chadaudzha Oil Harbour.

Temporary anchorage is allowed only in America Bay, Eastward of the line connecting Astafyev and Shefner Points not closer than 1 cable length from the entrance leading line, areas prohibited for anchorage excluded.

Temporary anchorage is allowed for vessels drawing up to 6 m. off the side of the fairway Southward of the Commercial port leading light marks.

To lie at anchor in the fairway and in the dredged harbours of Nakhodka Bay, except in emergency, is strictly prohibited.

**RESTRICTIONS:** Vessel may not enter port without first obtaining permission of port control. Anchorage of oil tankers is only allowed in area "D". Vessels can enter or leave the port at any time of day or night.

**MAX. SIZE:** The permitted draft for vessels proceeding to the Commercial port is 9·6 m., and 9 m. for the Fishing port and the Passenger Terminal.

Vessels drawing over the permitted draft must obtain Harbour Master's permission prior to entry to the port.

**HEALTH:** Advise "Inflot" by radio in advance if there is any case of quarantine illness on board the ship. Smallpox vaccination is compulsory for all crew members. If vessel is arriving from a cholera area, then cholera inoculations are also required.

**RADIO:** Nakhodka Radio, call sign UKI, operating 24 hours on frequencies 500, 532 and 8475 kHz.

| *Call sign* | *Working* | *Calling* | *Type of transmission* | *Time* |
|---|---|---|---|---|
| UKI | 500 kc/s. | 500 kc/s. | A1 | H24 |
| UKK-3 | 8,510 kc/s. | 8,448 kc/s. | A1 | HX |
| | 12,990 kc/s. | 12,627 kc/s. | | |
| | 6,439 kc/s. | — | | |
| Port 5 | 160·65 mc/s. | 156·05 mc/s. | F3 | HX |
| Lotos (Port Control) | 156·45 mc/s. | 156·45 mc/s. | F3 | H24 |
| Golos-1 (Port Service & Pilot Watch) | 156·70 mc/s.<br>156·80 mc/s. | 156·70 mc/s.<br>156·80 mc/s. | F3 | H24 |

The traffic and storm signals are exhibited at the Signal Station situated 2·5 cables Westward of Shefner Point.

**TUGS:** Tug and mooring launch assistance available. Tugs join the vessel in America Bay as directed by Master or Pilot. Ship's tow lines are used.

**BERTHING:** May be effected at any time of day or night. In daytime vessels mooring position will be marked by a flag and at night be a red lantern. These signals mark the point where the ship's bow should be at the mooring.

The quays of the port with depths alongside up to 9·6 m. are equipped to handle general and bulk cargoes, metals, cotton, timber, cement, etc., and passenger shipping.

Electric cranes of up to 41 tons capacity are operated on the quays. There are also floating cranes with lifting capacity of up to 100 tons and other cargo handling equipment, intra-port transport included.

Loading and/or unloading is usually done in accordance with conditions and rates stipulated by Charter Parties and Sales Contracts.

**STEVEDORES:** Arranged through "Inflot".

**MEDICAL:** Medical service is free. All requirements should be ordered in advance through "Inflot".

**FRESH WATER:** Can be supplied at the berth or by barge.

**FUEL:** Available subject to advance notice. If fuel required by barge at the anchorage a written request to the Agent is required at leas hours in advance.

**TANKERS:** Slop reception facilities are available.

**DEVELOPMENTS:** Constructing new port at Urangel, 8 mi from Nakhodka, having: Coal pier, annual capacity 10 million to Coal conveyor, annual capacity 5 million tons. Wood chip conve system, annual capacity 800,000 tons. Container system.

**HATCHES:** May be opened and closed by stevedores at Mast request.

**CUSTOMS ALLOWANCES:** No restrictions on tobacco a alcohol on board ship. Only tobacco required for personal consum tion may be taken ashore.

**CONSULS:** North Korea, tel. 5310. Japan, tel. 7519.

**WIND:** The most dangerous wind for vessels lying in Nakhod Bay is the strong Southern wind of long duration caused by typhoo The wind usually gives rise to water level and sends heavy wa of up to 4 m. height into the Bay.

**REPAIRS:** All kinds of repairs for vessels of up to 30,000 dwt. c be carried out.

**REPATRIATION:** Can be arranged during summer months p vided passport and documentation in order. During winter mon there are no facilities for foreigners to reach nearest internatio airport so repatriation is only possible via infrequent passen ships to Japan.

**AIRPORT:** Nearest international airport is at Khabarovsk, 1, kilometres away. Vladivostok is now closed to foreigners or inte national traffic, though sometimes used for air freight.

**TIME:** GMT plus 10 hours all the year round.

**SHORE LEAVE:** Permitted subject to police control.

**AUTHORITY:** Port Office, ul Portovaya 22, Nakhodka, Primor Krai U.S.S.R. Telephone: 62–98. Cables: Torgport, Nakhodka.

**AGENT:** "Inflot", Leninskaya, ul 2. Telephones: 54–05, 56- Cables "Inflot", Nakhodka.

## NARYAN-MAR: 67.38 N. 53.00 E.

**GENERAL:** A commercial port, Naryan-Mar is situated in t South-eastern part of the Barents Sea, at a distance of 70 miles fr the Pechora river mouth on the right bank of the Gorodetsky Sh Creek.

The port is open for navigation for a period of 100–110 days in t year, starting from July.

In the Pechora river inlet ice first begins to form between 20th a 25th October, but sometimes appears at the beginning of the mont

The inlet becomes completely frozen over at the middle of Decem ber. Ice finally disappears at the end of June or sometimes beginni of July. Changes in the water level in the Pechora Inlet, due to melti of ice in spring, have not been observed.

The formation of ice in the rivers flowing into the Pechora In usually depends upon the time of the appearance of ice in the In itself. Rivers, as a rule, become frozen over by the middle of Octobe The ice in the rivers usually breaks up earlier than it finally di appears in the Pechora Inlet.

The Pechora river at the Kuya settlement area becomes froz over at the end of October, and the ice there finally disappea by the end of May.

**DOCUMENTS:** Refer to beginning of U.S.S.R. section.

**PILOTAGE:** Compulsory. Besides information stipulated in Sov Wood Charter Party, vessels approaching pilot buoy may conta Port Authorities or Pilot in first fifteen minutes of any odd ho from 0700 till 2300 (Moscow time), frequency 2182 kc/s. Signals f Pilot to be given in accordance with International Code. Pilot bo wooden, standard type, white painted, with word "Pilot" in bla letters on wheel-house. Pilot usually boards vessel at the Pi Anchorage light buoy (lat. 68° 30′ N., long. 54° 32′ E.). In case o bad weather, and in extraordinary circumstances Pilot shall emba vessel in the Srednevskie Islands area. In this event a vess approaching the port from seaward should follow pilot boat in th wake of it, up to the Srednevskie Islands leading line where Pi will be able to board ship.

Master of a vessel proceeding to the port of Naryan-Mar shou order a Pilot through the Harbour Master 24 hours prior to arri at the Pilot Anchorage light buoy and advise more precise ETA n later than 4 hours before approaching it.

Master should order Pilot not later than 2 hours prior to shifti berth and/or leaving the port.

**ANCHORAGE:** Depths at anchorage 18–21 ft. Also Inner Road where anchorage will be indicated by Pilot. A recommended ancho age for foreign vessels is situated in the area with the central poi 68° 30′ N., 54° 33′ E. The depths in the anchorage are from 5·4 m 6·6 m.

An anchorage can be obtained at the right bank of the Pecho river off Urpinsky leading line No. 24. Depths are from 4 m.–17 m The bottom is sand and mud.

Good anchorages with depths from 5 m.–10 m. can also b obtained opposite Zakhrebetny Bay and North-eastward of the tow of Naryan-Mar.

All vessels arriving from abroad or leaving the port for abroa must anchor opposite Zakhrebetny Bay for the performance of po formalities.

**RESTRICTIONS:** Vessels can enter or leave the port at any tim of day or night.

The permitted draft for entry to the port is about 4·5 m. but it i usually advised by the Port Authorities at the beginning of naviga tion. The maximum permitted length of a vessel is 110 m.

Access to the port is by the fairway leading from the Pilot Anchorage light buoy across the Pechora river bar.

The bar itself is the extensive shoal water area extending Northward of the Bolvansky Nos Point. Three channels are dredged across the bar: The Receiving Channel, the Bar Channel and the Povorotny Channel. The last one serves as turning-point from the Receiving Channel into the Bar Channel. Vessels drawing not more than 4·3 m. can pass across the bar only at high water level.

It is prohibited to enter or leave the port through the Bar Channel and/or Receiving Channel as well as to navigate in the port area during dense fog, heavy rain and snow falls, strong winds of over Force 6 and absence of the floating marks.

With the appearance of ice in the Pechora Inlet and in the Pechora river, entry to the port is not allowed without Harbour Master's permission.

The speed of a vessel navigating from the Pilot Anchorage light buoy through the Receiving Bar Turning, Alekseevsky, Polovsky, Kuisky, Urpinsky and other Channels shall not exceed 6 knots, with the exception of the part of the Pechora river between the Zakhrebetny and Srednevsky Channels where it is allowed to navigate with speed not exceeding 12 knots.

When passing floating cranes nearby, lighters and vessels lying alongside the port quays, every ship should proceed at dead slow speed.

**MAX. SIZE:** Draft declared by Port Authorities after being checked in the beginning of the season, and is about 15 ft.

**HEALTH:** Vessels inspected by sanitary officer. If no diseases, vessel obtains free pratique. Pratique automatic when vessel arrives from another Russian port.

**RADIO:** Archangel and Naryan-Mar Radio (UOY, A, 500 kc/s.).

| *Call sign* | *Working* | *Calling* | *Type of transmission* | *Time* |
|---|---|---|---|---|
| UOY | 500 kc/s. | 500 kc/s. | A1 | HX |
| Pogruzka (Port Control) | 156·80 mc/s. | 156·80 mc/s. | F3 | HX |
|  | 156·45 mc/s. | 156·45 mc/s. | F3 | HX |
| UZ1-2 (Pilot Watch at the Zeleny/Green/Island) | 156·80 mc/s. | 156·80 mc/s. | F3 | HX |

The Pechora storm signals station (lat. 67° 39′ N., long. 52° 59′ E.) is located on the roof of the Port of Naryan-Mar Authority Office.

Storm signals for vessels traffic in the Pechora Inlet are shown by day and night at the mast and yardarms of the station.

*Notice of Arrival:* Should be given in accordance with the "Soviet Wood" Charter Party conditions.

**BERTHING:** The port of Naryan-Mar specialises in timber exports. Depths at the berths are up to 6·5 m. There are enclosed warehouses and open concrete floor sheds.

The necessary number of tugs for entering or leaving the port as well as for shifting berth shall be agreed upon between Pilot and Master.

A mooring berth is usually indicated by a Pilot. Shifting berths without having obtained Harbour Master's permission is not allowed. Ship's tow lines are usually used during towage.

Diesel portable cranes of up to 4 tons capacity are operated on the quays. There are also track-laying cranes of up to 12 tons and floating cranes with lifting capacity from 5–40 tons.

**STEVEDORES:** As per Soviet Wood Charter Party.

**MEDICAL:** No advance notice required. Clinic and hospital available.

**DENSITY:** Fresh water irrespective of tide.

**FRESH WATER:** Delivered by tanker.

**FUEL:** Not available.

**GANGWAY/DECK WATCHMEN:** Not necessary.

**OPENING/CLOSING HATCHES:** Normally carried out by crew.

**SHIP CERTIFICATES:**

Seaworthiness.
Measurement.
Load line.
Cargo Equipment.
Safety Equipment.
Deratisation Certificates.

**CUSTOMS ALLOWANCES:** Tobacco/Wine. No quantity limits.

**IDENTIFICATION CARDS:** Only Seamen's Books.

**CONSULS:** No Consuls.

**REPAIRS:** Small repairs only.

**DRY DOCKS:** None.

**REPATRIATION:** Repatriation and crew changes require visa formalities.

**AIRPORT:** Airport served by regular lines and situated near town.

**TIME:** GMT plus three hours. No seasonal alterations.

**TIDE:** Changes in the water level in the port area depend upon tides and effects of the wind.

The tide is semi-diurnal with two high waters and two low waters a day. The range of the tide varies from 0·9 m.–1·8 m. Changes in water level are caused by the effects of the wind and may reach 1 m.–1·5 m.

**HOLIDAYS:** See "Archangel".

**POLICE/AMBULANCE/FIRE:** Police 02; Ambulance 03; Fire 01.

**TELEPHONES:** Can be arranged on board.

**SHORE LEAVE:** Each crew member properly signed in ship's Articles and having valid Seaman's Book is allowed ashore.

**DELAYS:** Caused by rains, when vessel loading cargo of sawn goods.

**AUTHORITY:** The Port of Naryan-Mar Authority, 11 Embankment Street, Port of Naryan-Mar, Archangel region, U.S.S.R. Cables "Morport Naryan-Mar". Tel. 2–43; 5–54.

**AGENT:** A branch of the Port of Archangel Main Maritime Agency "Inflot" at the port of Naryan-Mar. Pechora Timber Mill Khatanzeisky, the Port of Naryan-Mar, Archangel Region, U.S.S.R. Cable "Inflot Naryan-Mar". Tel. "Inflot" via the timber mill switchboard.

## NOVOROSSIYSK: (Including Sheskharis-Oil Harbour) 44.43 N. 37.48 E. (See Plan)

**GENERAL:** The port of Novorossiysk is situated in the North-eastern part of the Black Sea, in the Bay of Novorossiysk, 60 miles South-eastward of the Kerch Strait.

The port is open for navigation all the year round. Ice very seldom appears in the port area. Sometimes, in the very severe winters particularly, a very narrow strip of thin ice (so called "zabereghi") may be formed on the coast line.

In winter, strong gusty North-easterly winds (called "Bora"), reaching hurricane force at times, blow from the coastal mountains. Due to these winds, vessels lying at anchor in Novorossiysk Bay may very quickly become covered with ice when the temperature of the air is cooled below freezing-point.

It is impossible to enter the port when "Bora" blows, therefore, all vessels are recommended to leave Novorossiysk Bay for the open sea beforehand or lay at anchor in the Yuzhnaya Ozereika roads, at a distance of 8·5 miles Westward of the entrance to the port of Novorossiysk, until the weather improves.

The range of water level in Novorossiysk Bay caused by the effect of the winds, does not exceed 0·6 m. The changes of water level, due to variation in atmospheric pressure ("Seish" effects), are observed at times. The "Seish" may last up to several days. The maximum range of water level, due to the "Seish", observed in Novorossiysk Bay is 0·6 m.

The port consists of two harbours – the Dry Cargo Harbour and Oil (Sheskharis) Harbour.

The inner roads are situated at the head of Novorossiysk Bay and divided from the outer roads by the Western and Eastern Moles. The outer roads are situated between the moles and the Southern border of the port.

The Dry Cargo Harbour situated inside the inner roads is protected by two (Western and Eastern) moles.

Two passages, the Western and Eastern, divided by Penaisky Shoals, lead to the inner roads through the port area. The Western passage is wider in comparison with the Eastern, and vessels may enter outer roads passing through it by one course.

**DOCUMENTS:** Refer to beginning of U.S.S.R. section.

**PILOTAGE:** Compulsory: 96 hours prior arrival cable Inflot giving ETA, name vessel, gross tonnage, exact draft, type of engine. Flag' sound and Morse signal G. Pilot meets vessel at 44° 37′ N.; 37° 52′ E. Movement of vessel within inner harbour – only under Pilot guidance. If Pilot is not available vessel should anchor in area No. 52, opposite the Kabardinka settlement, recommended as an anchorage, and wait until Pilot arrives.

**ANCHORAGES:** 44° 37′ 7″ N.; 37° 52′ E.; depth up to 22 m.; Outer Roads anchorabe unsafe during N.E. winds (gales). Master must keep engine ready or proceed for anchorage to S. Ozereika Roads under these sea conditions. Vessels obliged to receive daily weather message at 15.00 LT on 420 kc/s.

In the outer roads there are four recommended anchorages:

1. Anchorage No. 52 is situated Northward of Doob Point. Depths are from 12 m.–27 m., holding ground is mud. In the event of winds blowing from seaward vessels are recommended to leave this area for the inner roads.
2. Anchorage area No. 16 is situated 2·5 cables length Westward of Penai Point. Depths are from 13 m.–27 m. holding ground is mud, and mud with shell.
3. Anchorage area No. 63 – 8 cables length westward of Penai Point. Depths are from 13 m. to 27 m., the holding ground is mud and mud with shell.
4. Anchorage No. 51 – 6 cables length South-eastward of entrance to the port. Depths are from 20 m. to 24 m.

Anchorage beyond the borders of the recommended areas is strictly prohibited.

Vessels approaching the port of Novorossiysk with North-easterly gales ("Bora") blowing, or caught by the storm whilst lying in the outer or inner roads, or after having received storm warning, should use every opportunity to proceed to sea or lay at anchor in the Yuzhnaya Ozereika Roads, having the main engines ready and keeping constant anchor watch.

Under the circumstances, every vessel should keep regular radio contact with port radio station.

Masters of vessels lying at anchor in the outer roads and/or in the port, are usually warned beforehand about the forthcoming North-easterly winds. Since these winds may reach hurricane force during a very short period of time, particularly in winter, all Masters lying at anchor in Novorossiysk Bay are recommended to pay careful attention at every change of the weather, to watch position of vessel to be able to prevent her drifting about anchor and proceed to sea in due time.

**RESTRICTIONS:** No restrictions on night entry. Mooring and/or unmooring, both in the Dry Cargo Harbour and the Sheskharis Oil Harbour cannot be effected during Southerly or North-easterly winds over Force 7.

**MAX. SIZE:** The permitted length for entry into port is 250 metres, draft 11 m. for dry cargo vessels and 13·5 m. for tankers.

**HEALTH:** Free pratique automatic for vessels coming direct from

U.S.S.R. port. From other countries, usual procedure of sanitary inspection applies.

**RADIO:** Vessels can establish radio contact through port radio station Novorossiysk Radio operating 24 hours a day on the following frequencies:

| *Call sign* | *Working* | *Calling* | *Type of trans-mission* | *Time* |
|---|---|---|---|---|
| UDN | 450 kc/s. | 500 kc/s. | A1 | H24 |
| Novorossiysk Radio | 2,182 kc/s. | 2,182 kc/s. | A3 | H24 |
| Novorossiysk Radio | 4,364·7 kc/s. | 4,066·1 kc/s. | A3 | H24 |
| UFN | 12,822 kc/s. | 12,537 kc/s. | A1 | H24 |
| | 17,100 kc/s. | 16,730 kc/s. | A1 | H24 |
| "Tiraj" (Port Control) | 156·45 mc/s. | 156·45 mc/s. | F3 | H24 |
| "Lotsman" (Pilot Watch) | 156·30 mc/s. | 156·30 mc/s. | F3 | H24 |
| "Inflot" (Shipping Agency) | 156·80 mc/s. | 156·80 mc/s. | F3 | H24 |

The port signal station is equipped with radar which gives all possible information for ensuring safe pilotage, and also helps Pilots in shifting vessels within the port inner roads.

**TUGS:** The following number of tugs and their power are stipulated for mooring operations in accordance with size of vessels to be berthed:

| *Ship's length* | *Number of tugs and power* |
|---|---|
| from 50 to 100 m. | 1 tug, from 150 i.h.p. to 600 |
| from 101 to 160 m. | 2 tugs, from 600 i.h.p. to 1,200 |
| from 161 to 200 m. | 2 tugs, 1×2,300 i.h.p., 1×1,200 i.h.p. or 3×1,200 i.h.p. |
| from 201 to 250 m. | 3 tugs, from 1,200 i.h.p. to 2,300 |
| over 250 m. | 4 tugs, from 1,200 i.h.p. to 2,300 |

Notes:

1. Exceptions to the above regulations are possible if the Shipmaster consents to deviations and the Harbour Master grants permission for the same. But the deviations should not effect the safety of mooring operations.

2. While manoeuvring ships to the Sheskharis Berths or jetty No. 25 one more tug of 150 i.h.p. is engaged regardless of the ship's size in view of the constructive features of the berths.

**BERTHING:** When proceeding in inner harbour vessels must keep both anchors ready to let go; ships to be moored by safe ropes which to be kept tight at all times. Also be ready to use anchor chain over bollard according to Pilot's recommendation. Strictly prohibited to work with propellers lying alongside berth. All mooring ropes must be fitted with rat-guard plates.

The quays of the Dry Cargo Harbour with depths alongside of up to 11·5 m. are equipped to handle general and bulk cargoes (coal, ore), metals, timber, sugar, grain, cement, fruit and vegetables.

Berths of the port are equipped with modern cargo handling facilities. There are portal cranes of up to 40 tons capacity, a floating crane with lifting capacity of up to 100 tons, automatic and electric cargo lifters and other equipment.

Opening and closing of hatches is usually done by ship's crew with the help of portal cranes at dry cargo berths, if ordered by Master, grain berth excluded.

Ores are loaded in compliance with the Temporary Regulations for Carrying Ores handed over to the Shipmaster by Inflot Agents during inwards clearance.

Following are the basic requirements of the above Regulations to the ores being loaded. (*a*) moisture contents not higher than 12% (if other percentage is not stipulated by Charter Party); (*b*) angle of repose is not less than 35°.

Grain and other bulk cargoes are to be loaded in strict conformity with the International Convention.

**STEVEDORES:** All necessary services including stevedoring work available under Port Authority guidance. Port cargo-handling regions where ships berth managed by Port Authority and used for stevedoring, tallymen service, storage, etc. On the matters connected with services available, foreign vessels have to apply to Port Authority through Maritime Agency "Inflot".

**MEDICAL:** In case of accident (emergency), medical attendance rendered at any time. Hospital facilities available. Also inoculation, vaccination, etc.

**TANKERS:** Bearing in mind N.E. gales, oil carriers lying alongside oil pier must have boat-ropes lowered to water and illuminate them at night. All scupper holes on main deck must be closed tightly. Master responsible for overflow of oil in the vicinity of harbour and has to bear harbour cleaning costs. No repair work can be done on tankers lying alongside oil pier. No ballast water may be pumped out, no garbage or refuse thrown overboard. Ballast water to be pumped into shore slop tank.

The Sheskharis Oil Harbour is situated in the Eastern part of the outer roads, 2·2 miles North-westward of the Penai Point. It is protected by a mole from the North and an oil jetty from the South. The base of the jetty is used as a berth for fire-fighting boats.

Large vessels are not recommended to approach the head of the oil jetty since the rock-bottom with depths from 12 m.–15 m. extends at 50 m. length Westward.

Since it is not safe to stay alongside berths in the Sheskharis Oil Harbour during strong winds blowing from any direction, all tankers, after having received a storm warning should take urgent measures to leave for sea.

Depths at the berths of the Sheskhari Oil Harbour are up to 14·5 m.

To ensure safe loading/unloading of oil products as well as to expedite the vessel's turn around time, every tanker should equipped with cargo-receiving valves capable of fitting 8-12 shore-loading connections.

These valves should allow the upward connection with sh cargo flanges of not less than 1 m. in height and located on d at 3 m.–5 m. length from side of vessel.

**DENSITY:** About 1010–1014.

**FRESH WATER:** Available from shore; minimum quantity voiced at 15 tons.

**FUEL:** Most grades available. Fuel for tankers can be supp ex-shore. Bunkers for dry cargo vessels are usually delivered lighters.

**FIRE PRECAUTIONS:** All operations involving open fire a sparks are prohibited on oil pier. Two fire-extinguishers, thick and sand must be ready beside hose connection.

**WATCHMEN:** Gangway watch compulsory and carried out crew.

**OPENING/CLOSING HATCHES:** Normally by crew, otherw according Charter Party.

**CUSTOMS ALLOWANCES:** No quantity limits but noth allowed to be taken ashore.

**IDENTIFICATION CARDS:** Crew members get shore passes

**CONSULS:** No Consulates in port or its vicinities.

**REPAIRS:** All kinds of repairs for vessels of up to 60,000 dwt. c be carried out.

**DRY DOCKS:** None.

**REPATRIATION:** No facilities exist for effecting crew changes crew member may be repatriated due to family reasons or sickne but repatriation requires visa formalities.

**AIRPORT:** Nearest airport (Krasnodar) served by regular in lines is situated at 150 km. from port.

**TIME:** GMT plus 3 hours; no alterations during year.

**HOLIDAYS:** New Year's Day, 8th March (World's Women's Da May 1st, 2nd (Labour Day); May 9th (Victory Day); November 7 8th (Great October Socialist Revolution Day); December 5th (U.S.S Constitution Day). Cargo work can be arranged on those days.

**POLICE/AMBULANCE/FIRE:** Police, 02; Ambulance, 03; Fire,

**TELEPHONES:** Can be arranged to be fitted on board.

**SHORE LEAVE:** Crew members are allowed ashore. Crew membe of foreign vessels get shore passes which grant them permissi to stay ashore till 2400 hours. Crew members who lose their sho passes as well as those late from ashore, are not granted sho leave any longer in conformity with local regulations.

**AUTHORITY:** The Port of Novorossiysk Authority, 14 Le Street, Novorossiysk, Krasnodarsky Krai, U.S.S.R. Cables "Morp Novorossiysk". Tel. General Manager of the Port: 9–92–41; 9–23– Harbour Master: 9–95–16; 9–95–82. Telex 829.

**AGENT:** Main Shipping Agency "Inflot", 13 Portovaja Str., T 99–2–49, 99–2–85, 99–2–60. Cables: "Inflot" Novorossiysk. Telex: 8

## ODESSA: 46.29 N. 30.44 E. (See Plan)

**GENERAL:** The port of Odessa is situated on the North-weste coast of the Black Sea in the South-western part of Odessa Bay.

The port is open for navigation all the year round, but with ic breaker assistance in severe winters about 30 days of the year. I first begins to form in the second half of December and fina disappears in February. After ice has formed it is often broken by strong winds and stormy weather. In mild winters ice has n been observed in Odessa Bay.

Range of water level caused by winds depends on force and peri they blow, and may reach 2 m.

Atmospheric pressure has also a direct influence on the wa level ("Seish" effect), but is weaker than effects of the wind. T "Seish" may last from a few minutes up to several days caus change of water level up to 0·58 m.

**DOCUMENTS:** Refer to beginning of U.S.S.R. section.

**PILOTAGE:** Compulsory. Arranged through Inflot, but vessel give 96, 24 hours and 6 hours notice through Odessa radio. Pi boat recognised by international pilot flag. Vessel requiring Pi shows international flag "G". Pilot boards vessel in region 1 m from Vorontzov lighthouse. In bad weather vessel enters Inn Roads according to instructions given by radio. Fenders should on side where Pilot boards.

Vessels leaving the port of Odessa for the port of Kherson sho proceed there under control of a State Commissioned Pilot.

**ANCHORAGES:** The Outer Roads, between the port and Sever Odessky Cape, depths up to 14 m. Open to winds from N.E. to S.S Good holding ground.

On arrival at the outer roads, vessels should lie at anchor whi waiting for a berth.

**RESTRICTIONS:** Vessels enter only with Pilot and should ha lights according to Pilot's instructions. Vessels berthed depend on kind of cargo carrying or loading.

Vessels can enter and leave the port at any time of day or nigh

Medium size vessels when entering or leaving port must ha keel clearance not less than 1 ft.; large vessels not less than 2 ft.

Vessels are allowed to moor at berth only after having obtai Harbour Master's permission, and when the corresponding sig is exhibited at the signal station.

The speed of a vessel shall not exceed 4 knots when pass through the channel and/or in the port water areas marked navigational marks.

Large vessels laden with ballast water only, are allowed to mo to berths if winds do not exceed Force 6. A vessel of small size m be turned broadside on to a loaded vessel of a larger size, but not vice versa.

It is strictly prohibited to turn a third vessel broadside on to two other vessels having been turned broadside earlier. In the event of ice a vessel may turn broadside on to another vessel only after having obtained Harbour Master's special permission.

**MAX. SIZE:** The maximum permitted draft is 11 m. Length up to 230 m.

**HEALTH:** Free pratique given on berthing. In case of suspected disease Master must inform Inflot by cable. Free pratique cannot be granted automatically.

**RADIO:** Vessels can establish radio contact through the port radio station Odessa Radio operating 24 hours a day on the following frequencies:

| *Call sign* | *Working* | *Calling* | *Type of trans-mission* | *Time* |
|---|---|---|---|---|
| UDE | 500 kc/s. | 500 kc/s. | A1 | H24 |
| UFB | 8,685 kc/s. | 8,361 kc/s. | A1 | H24 |
|  | 12,950 kc/s. | 12,535·5 kc/s. |  |  |
| Odessa Radio | 2,182 kc/s. | 2,182 kc/s. | A3 | H24 |
|  | 3,310 kc/s. | 3,180 kc/s. | A3 | H24 |
|  | 17,258·5 kc/s. | — | A3H | HX |
|  | — | 16,463·5 kc/s. | A3 | HX |
|  | 22,706 kc/s. | — | A3H | HX |
|  | — | 22,080·5 kc/s. | A3 | HX |
|  | 4,364·7 kc/s. | — | A3H | HX |
|  | — | 4,066·1 kc/s. | A3 | HX |
| "Neptun-1" (Chief Port Control) | 156·80 mc/s. | 156·80 mc/s. | F3 | H24 |
| "Neptun-7" (Pilot Watch) | 156·80 mc/s. | 156·80 mc/s. | F3 | H24 |
| "Inflot" (Shipping Agency) | 156·80 mc/s. | 156·80 mc/s. | F3 | H24 |

Traffic and storm signals are exhibited at the port signal station located on quay No. 2 of Quarantine Mole.

**RADAR:** Vessel's radar not to be used in Outer Roads.

**TUGS:** Tugs meet vessel in place indicated by Master through Pilot.

**BERTHING:** Thirty eight berths available with depths alongside up to 12·0 m.

**STEVEDORES:** Portal electric cranes of up to 45 tons capacity are operated on the quays by the warehouses. There are grain-loaders and floating cranes with lifting capacity of up to 100 tons, other cargo handling equipment and intraport transport.

Opening and closing of mechanised hatches is always done by the ship's crew.

Opening of hatches on arrival and closing of non-mechanical hatches after loading of cargo has been completed, is done by ship's crew.

Opening and closing of non-mechanised hatches in the course of loading or unloading is done by port workers.

**MEDICAL:** Advance notice for medical attendance required. Notice should be given to Inflot. Hospital facilities available in case of emergency.

**TANKERS:** No reducing pieces necessary. Oil slop facilities available. The Oil Harbour is situated in the Northern part of the port (the inner roads), Northward of Rabochaya Harbour which is formed by a "T"-shaped mole extending East-south-eastward off-shore. The bottom of the Eastern side of the mole is dangerous, therefore vessels are recommended not to approach it closer than 100 metres.

**DENSITY:** Average density 1.0012 varying with season.

**FRESH WATER:** Fresh water may be supplied ex shore or ex water barge. Minimum quantity ex barge 15 tons.

**FUEL:** Bunkers can be supplied, and to be ordered 72 hours before arrival.

**GANGWAY/DECK WATCHMEN:** Not necessary.

**OPENING/CLOSING HATCHES:** By stevedores.

**CUSTOMS ALLOWANCES:** Tobacco. No limits on board vessel, but when going ashore not more than 1 or 2 packs. Wine and/or spirits not to be taken ashore.

**CARGO GEAR:** All cargo gear must have certificates for maximum weight capacity.

**IDENTIFICATION CARDS:** Necessary.

**CONSULS:**

Bulgarian Consulate tel. 2–45–72
Indian Consulate tel. 2–37–10
Cuban Consulate tel. 5–14–69

**REPAIRS:** All types of deck and engine repairs can be carried out.

**DRY DOCKS:** Available.

**REPATRIATION:** Can be arranged.

**AIRPORT:** Distance to airport 10 miles. Direct airlines with several socialist countries and with the rest of the world through Moscow. Planes fly to Moscow 3 times a day.

**TIME:** Local time GMT plus 3 hours.

**HOLIDAYS:** Work can be arranged on below mentioned holidays through Sovfracht, Moscow, at special rates. Holidays: 1st January, 8th March, 1st and 2nd May, 9th May, 7th and 8th November, 5th December.

**POLICE/AMBULANCE/FIRE:** Police (Militia), 02 from town; 902 from port.

**TELEPHONES:** Telephones may be installed on board.

**SERVICES:** Tank-cleaning equipment available.

**SHORE LEAVE:** Crew members allowed to stay ashore till midnight. Master without limitation.

**DELAYS:** Vessels berthed in turn.

**AUTHORITY:** The Port of Odessa Authority, Postal address: 1 Vakulenchuk Square, Odessa, V–4, U.S.S.R. Cables "Morport Odessa". Tel. 293–34–91; 293–35–00.

**AGENT:** The Port of Odessa Main Maritime Agency "Inflot". Postal address: 1 Vakulenchuk Square, Odessa, V–4 U.S.S.R. Cables "Inflot Odessa". Tel. 293–37–62; 293–37–81. Telex 185.

## ONEGA: 63.54 N. 38.06 E.

**GENERAL:** The port of Onega is situated on the right bank of the Onega river (3–4 miles up from the mouth), flowing into Onezhsky Bay off the White Sea.

Port open for navigation for about 6–7 months per year, starting from May. In autumn, when the river is covered with ice, assistance of ice-breaker is required but may not be rendered regularly.

Opening and closing of the port for navigation as well as turn and order of entering the port is usually regulated by the Port Authorities.

Changes of water level in the river depend on tide, spring floods and effects of the wind.

The tide is semi-diurnal with two high and two low waters a day. At the Onega river mouth the range of the tide at mean springs may reach 2·7 m.

The rises of the water level are due to North-westerly, Northern and North-easterly winds. The falls of the water level are usually caused by South-easterly, Southerly and South-westerly winds.

The Onega river becomes frozen over at the beginning of November. Ice begins to form in October and usually breaks up at the end of April or early May.

A vast area of shoal waters is situated at the mouth of the Onega river.

Access into the Onega river is by the Karelsky Fairway. Vessels drawing up to 4·8 m. may pass through it at high water.

Since depths in the river vary, Masters are recommended to get in touch with the Harbour Master to make enquiries about the existing least depth in the fairway before entering the river.

The port specialises in timber exports.

**DOCUMENTS:** Refer to beginning of U.S.S.R. section.

**PILOTAGE:** Compulsory. Pilot station can be called on 500 kc/s (call signal UQQ, watch hours 0400–0600, 0800–1000, 1200–1400, 1800–2000 GMT) and on 2182 kc/s. Information to be given in accordance with Soviet Wood Charter Party. Pilot boat wooden standard type, white painted with word "Pilot" in black letters on wheel-house. Signals to be made in accordance with International Code. Pilot taken on board near Letnij Orlov East light buoy (64° 55′ N., 36° 25′ E.). In case of moderate sea vessel to proceed one or two cable's lengths to South, keeping distance of one mile off shore. In respect of safe boarding Pilots require vessel to make a lee for pilot boat. Vessel awaiting Pilot may anchor to the South of the East light buoy at distance of one mile off shore.

**ANCHORAGE:** When sea is moderate or rough and winds are from N.W. quarter, recommended anchorage is in area of Solovetzky island under point Petchak, where vessel may approach shore as close as one mile and anchor at depths of 33 ft. Vessels lying on Karesky Roads recommended anchorage in event of storm from N.W. quarter is at Purnema area where a light anchorage buoy installed (64° 20′ N., 37° 27′ E.), depths are 6–10 m.

During Southerly winds of Force 5–6, a safe anchorage with depths of 10 m. can be obtained in the Konyukhov Inlet, 1 mile off-shore.

**RESTRICTIONS:** Vessels having draft not more than 3 metres may enter port at any time, but with draft more than 3 m. only one hour before high water.

**MAX. SIZE:** The maximum permitted draft is usually announced at the beginning of the navigation season after sounding of the fairway has been accomplished. It varies from 5·1–6·4 m. Maximum permitted length is 124 m.

**HEALTH:** Alongside or on the Roads all vessels coming from abroad inspected by Sanitary Office representative. If no diseases, vessel obtains free pratique. If vessel enters directly after calling at another Russian port, pratique automatic.

**RADIO:** Besides Murmansk and Archangel, Onega Radio (UZS), 500 kc/s.; VHF of pilot office at port of Onega (Channel 16).

Vessels can establish radio contact through the port radio station Onega Radio operating 24 hours a day on the following frequencies:

| *Call sign* | *Working* | *Calling* | *Type of trans-mission* | *Time* |
|---|---|---|---|---|
| UZS | 500 kc/s. | 500 kc/s. | A1 | HX |
| "Onega Port" (Port Control) | 156·45 mc/s. | 156·45 mc/s. | F3 | H24 |
| "Inflot" (Shipping Agency) | 156·65 mc/s. | 156·80 mc/s. | F3 | HX |
| "Portnadzor" (Harbour Master) | 156·65 mc/s. | 156·80 mc/s. | F3 | HX |

The Onega storm signals station is located on the roof of the Harbour Master's office. Day signals warning about forthcoming storms and strong winds in the Onega Bay area are exhibited at mast of the signal station.

**TUGS:** If necessary, ordered by Pilot or Master and join vessel near berth. Usually ship's lines used.

**BERTHING:** Depths at the port berths are up to 6·5 m. There are enclosed warehouses and open concrete floor sheds.

**STEVEDORES:** No particular ETA advices to stevedores/shippers. Loading of timber usually carried out by ship's winches at average rate of 24 stds. per hatch per working day.

**MEDICAL:** Doctor and hospital facilities available.
**FRESH WATER:** Available. Usually delivered by tankers.
**FUEL:** Availability not guaranteed.
**GANGWAY/DECK WATCHMEN:** Usually by ship's crew.
**OPENING/CLOSING HATCHES:** Usually by ship's crew.
**CUSTOMS ALLOWANCES:** No restriction on quantity, but nothing to be taken ashore.
**IDENTIFICATION CARDS:** Only Seamens Books required.
**REPAIRS:** Small repairs only.
**REPATRIATION:** Subject to visa formalities.
**AIRPORT:** Nearest at Archangel.
**TIME:** GMT plus 3 hours.
**HOLIDAYS:** See "Archangel".
**SHORE LEAVE:** Allowed up to midnight.
**AUTHORITY:** The Port of Onega Authority. Postal address: 198 Oktyabrsky Prospekt, Archangel Region, U.S.S.R. Cables "Morport Onega". Tel. 21–33 (Harbour Master) 21–51, 24–91 (Port Controller).

**AGENT:** A branch of the port of Archangel, Main Maritime Agency "Inflot" at the port of Onega. Postal address: OLDK Office. Timber Mill No. 32/33 Settlement, Onega-2, Archangel Region, U.S.S.R. Cables "Inflot Onega". Tel. Timber Mill Switchboard 33–33, "Inflot".

## POTI: 42.09 N. 41.39 E. (See Plan)

**GENERAL:** The port of Poti is situated 2 miles North of the Rioni river mouth and on the South-eastern coast of the Black Sea.

Port open for navigation all the year round.

Changes of the water level in the port area are caused by the winds and usually reach 0·6 m.

The maximum range of the water level observed in the river is 0·9 m.

**DOCUMENTS:** Refer to beginning of U.S.S.R. section.
**PILOTAGE:** Compulsory. Radio 96, 48 hours prior arrival to Port Controller and Inflot Agency advising ETA, description and quantity of cargo, location and weight of heavy lifts, if any, number of passengers, ship's length and draft, as well as any services required. Confirmation of ETA required 4 hours prior arrival. Inflot will arrange Pilot basis above information.

Pilot will board vessel in the outer roads at 5 cables length from the Poti light buoy.

**ANCHORAGE:** In outer port which protected by Novy Severny, Yuzhny, and Zapadny Moles, and by Zapadny Breakwater. Safe anchorage for deep drafted vessels, except in periods when "Tyagun", a strong variable current with surge, occurs, with winds from N.W., W., and S.W.

The outer roads are bounded by two parallels – 42° 12′ N. and 42° 08′ N., by the meridian of 41° 35′ E. and the coast line.

The roads are open to winds blowing from the sea. Therefore, in the event of stormy weather vessels are recommended to leave anchorage in the outer roads for sea.

A good anchorage with depths of 10 m. to 30 m. can be obtained at a distance of 1·3 miles North-west and 1·1 mile West of the head of the Western mole.

Vessels are prohibited from anchoring in the South-western part of the Southern Harbour and in the centre of the Inner Basin.

**RESTRICTIONS:** Strong winds from W., S.W. and E. can make it difficult to enter port. At least 25 cm. keel clearance required to enter or leave port.

Vessels are prohibited from entering the port in case the entrance and the leading lights are covered with fog.

Vessels speed shall not exceed 4 knots in the port areas marked by navigation marks.

There are no restrictions for night entry.

**MAX. SIZE:** The maximum permitted draft for entry to the port is 9·4 m. and the length – from 170 m. to 190 m.
**HEALTH:** Free pratique automatic for vessels from another U.S.S.R. port. Other vessels are boarded on arrival.
**RADIO:** Vessels can establish radio contact through the port radio station Poti Radio operating 24 hours on the following frequencies:

| *Call sign* | *Working* | *Calling* | *Type of trans-mission* | *Time* |
|---|---|---|---|---|
| UVB | 421 kc/s. | 500 kc/s. | A1 | H24 |
| "Zapad" (Port Control) | 156·45 mc/s. | 156·45 mc/s. | F3 | H24 |
| UFC | 17,190·5 kc/s. | 16,736 kc/s. | A1 | XH |
| | 4,295 kc/s. | 4,185 kc/s. | A1 | XH |
| | 8,695 kc/s. | 8,366 kc/s. | A1 | XH |

**BERTHING:** The port of Poti comprises three harbours: the Yuzhnaya (Southern), Severnaya (Northern) and Vnutrenniaya (inner) harbours. Fifteen berths in port, with depths up to 8·35 m. alongside.

Berthing in the port can be effected with tug assistance only.

The berths of the port are equipped to handle general and bulk (ore, coal) cargoes, mineral oil products, metals, fruits, vegetables, etc., as well as passenger traffic.

Portal electric cranes of up to 20 tons capacity are operated on the quays. There are also floating cranes with lifting capacity of up to 100 tons.

**MEDICAL:** Qualified medical service is available free of charge, including dispensary and hospital treatment.
**STEVEDORES:** Arranged by Inflot.
**DENSITY:** About 1015, variable with season.
**FRESH WATER:** Fresh water supplied ex shore to ship directly or ex water barge in boundaries of port. Minimum quantity delivered by barge is 15 tons.
**FUEL:** All types of fuel available except marine diesel for bunke
Quantities over 500 tons supplied only subject 4 to 5 days adva
notice.
**CUSTOMS ALLOWANCES:** No restriction on quantities
nothing to be taken ashore.
**CONSULS:** See "Odessa".
**REPAIRS:** Floating cranes up to 100 tons capacity available. O
minor repairs can be effected. There are no dry docks in the por
**AIRPORT:** Nearest at Odessa.
**TIME:** GMT plus 4 hours all year round.
**HOLIDAYS:** 1st January (New Years Day); 8th March (Internatio
Women's Day); 1st, 2nd May (Workers' International Solidarity Da
9th May (Victory Day); 7th 8th November (Anniversary of Octo
Revolution); 5th December (U.S.S.R. Constitution Day).
**POLICE/FIRE/AMBULANCE:** Police service, tel. 0–2; Ambulan
tel. 0–3; Fire Service, tel. 0–1.
**SHORE LEAVE:** Crew members allowed ashore up to midnigh
**AUTHORITY:** Address: ul. Lenina, 50 Poti, Georgian S.S.R.
9 32 02, 9 32 05. Cables, Morport Poti.

**AGENTS:** Main Maritime Agents, Inflot, ul. Lenina, 50, Poti.
9 32 27. Cables, "Inflot" Poti.

## RENI: 45.26 N. 28.18 E. (See Plan)

**GENERAL:** The port of Reni is situated at a distance 25 miles
from the Izmail Chatal Point on the left bank of the Danube river.

The port is open for navigation for about 317 days of the ye
In severe winters ice-breaker assistance is required.

The Dunai river and Kilia Mouth become completely frozen o
only in severe winters, at the end of December or early Janu
Ice finally disappears in February or early March.

Changes of the water level are due to effects of the wind a
spring floods.

Maximum rises of the water level are usually observed in Ap
May and June, maximum falls August, September and October.

Maximum range of the water level observed in the river is 6 m.

**DOCUMENTS:** Refer to beginning of U.S.S.R. Section.
**PILOTAGE:** Compulsory. All vessels proceeding from the Izm
Chatal Point up to Reni and vice versa must navigate under com
of a State Commissioned Pilot.
**ANCHORAGE:** Vessels should anchor in the port roads w
depths from 10 m. to 20 m. The holding ground is clay and mud.
**RESTRICTIONS:** There are no time restrictions for the entry
the port. Both draft and length of vessels are limited by depths a
width of the Sulin channel.
**RADIO:** Vessels can establish radio contact through the port ra
station Reni Radio operating 24 hours per day on the follow
frequencies:

| *Call sign* | *Working* | *Calling* | *Type of trans-mission* | *Tim* |
|---|---|---|---|---|
| UJN–3 (Port) | 489 kc/s. | 468 kc/s. | A1 | HX |
| "Reni" (Port) | 161·90 mc/s. | 157·30 mc/s. | F3 | HX |
| Vaza" (Port) | 156·80 mc/s. | 156·80 mc/s. | F3 | HX |

**BERTHING:** Tug assistance is not compulsory. Tugs are availa
if requested by Master.

The port is accessible for large ships. The berths with dep
alongside of up to 8·25 m. are equipped to handle general and b
cargoes, crude oil and oil products, grain and food products.

Cranes of up to 10 tons capacity are operated on the quays. A
there are floating cranes with lifting capacity of up to 100 tons a
other cargo handling equipment.

**FUEL:** Available.
**FRESH WATER:** Can be supplied ex shore and by barges.
**TIME:** Local time: GMT plus 3 hours all the year round.
**AUTHORITY:** The Port of Reni Authority. Postal address:
Dunai Street, The Port of Reni, U.S.S.R.

**AGENT:** The Port of Reni Maritime Agency "Inflot". Postal addre
192 Dunai Street, The Port of Reni, U.S.S.R. Cables "Inflot Re
Tel. 3–47, 3–46.

## RIGA: 56.57 N. 24.05 E. (See Plan)

**GENERAL:** A Baltic seaport, Riga is situated at the mouth of
Daugava (Western Dvina) river falling into the Gulf of Riga.

The water area of the port is formed by the lower part of
Daugava river from the mouth up to a railway bridge, thence by
Milgravis channel and Sarcandaugava Creek.

The roadstead of the port is situated at the mouth of the Daug
river.

The port is open for navigation all the year round, but ice-brea
assistance is required round about 4 months of the year.

The Gulf of Riga is frozen over for quite a long time. On the co
of the Gulf, ice first appears in December and finally disappe
in April. The middle part of the Gulf gets frozen over only in sev
winters and for a short period. Usually ice in this area is mos
drift ice.

Considerable changes of the water level may be caused by str
winds and variation in atmospheric pressure ("Seish" effects).

The range of the water level caused by winds depends on the fo
of the wind, direction and period of time it blows.

Most sharp rises and falls of the water level are observed at
mouth of the Daugava river. They may reach at times 1·3 m.–1
higher and 0·9 m.–1·1 m. lower than the datum at Kronshtadt.

The level of the water in the port usually depends on the ordinary water level in the Daugava river.

The maximum rise of the water level caused by winds may reach 2 m. higher and fall – 1 m. lower than the mean water level observed over a period of many years.

**DOCUMENTS:** Refer to beginning of U.S.S.R. section.

**PILOTAGE:** Compulsory. Inflot will arrange Pilot on receipt of ETA at Daugavgriva Buoy, which to be given 96, 48, 24 and 4 hours prior arrival. Also advise with ETA details of cargo, last port of call, passengers if any, ship's draft and length.

Pilot meets vessel at receiving light buoy No. 1 Daugavgriva. In case of bad weather, when Pilot is unable to come aboard, vessel should follow in the wake of a pilot boat, up to the mouth of the river, where Pilot will board vessel.

Vessels leaving the port should navigate under Pilot control to receiving buoy No. 1 Daugavgriva.

**ANCHORAGE:** The best anchorage can be obtained in the port of Riga roads, at a distance 4 miles off the Daugavgriva lighthouse, bearing 310° Westward of light buoy No. 1. Depths in the anchorage are from 22 m. to 35 m. The bottom is mud and sand. It is not recommended to come closer to the shore without a Pilot on board.

The port of Riga roads are situated North-west of the entrance to the mouth of the Daugava river.

The roads are open to winds blowing between South-west and North-east; therefore, in autumn, when these winds prevail, anchorage there is unsafe.

In periods when heavy waves in the roads are caused by fresh Northerly winds, vessels are recommended to leave the roads for shelter in the port or go to the open part of the Gulf of Riga.

The depths in the roads are from 15 m. to 30 m. Holding ground is good.

**RESTRICTIONS:** Permitted draft for the entry into port is between 7·5 m.–9·5 m. at the mean water level.

Entry to the Daugava river and the port of Riga is accessible for vessels having drafts ensuring safe passage across the river bar.

As a rule, vessels passing along the channel are requested to have keel clearance not less than 0·45 m.

The speed of vessels navigating in the Daugava river should not exceed 6 knots.

There are no restrictions as to length of vessel and time of entry to the port.

**MAX. SIZE:** Maximum draft allowable is between 7·5 m. to 8·25 m.

**HEALTH:** Pratique obtainable after vessels mooring when Health Officials visit vessel with Immigration and Customs Officers. Health Inspector to be informed of any medical assistance required.

**RADIO:** *Notice of Arrival:* In winter when the Irben Strait and the Gulf of Riga are completely frozen over and ice-breaker assistance is required, vessels proceeding to the port of Riga should advise Harbour Master their ETA to the edge of the ice, vessel's ice classification and estimation in days for the expenditure of fresh water and fuel available on board to the moment of approaching the edge of the ice.

Vessels can establish ship-shore radio contact via the port radio station Riga Radio, operating 24 hours a day on the following frequencies:

| *Call sign* | *Working* | *Calling* | *Type of trans- mission* | *Time* |
|---|---|---|---|---|
| UKB | 500 kc/s. | 500 kc/s. | A1 | H24 |
| UKB | 489 kc/s. | 468 kc/s. | A1 | H24 |
| UDH | 4,236 kc/s. | 4,184 kc/s. | A1 | H24 |
| | 8,660 kc/s. | 8,367 kc/s. | | |
| | 13,070 kc/s. | 12,547·5 kc/s. | | |
| "Riga Radio" | — | 4,066·1 kc/s. | A3H | HX |
| | 436·7 kc/s. | — | A3 | HX |
| "Riga Radio" (SPR–Central Port Radio) | 156·80 mc/s. | 156·80 mc/s. | F3 | H24 |
| "Port Riga" | 156·70 mc/s. | 156·70 mc/s. | F3 | H24 |
| (Port Control) | 156·70 mc/s. | 156·70 mc/s. | F3 | H24 |

**BERTHING:** Berths of the port with depths from 7·5 m. to 9·7 m. alongside are equipped to handle general and bulk (ore, coal) cargoes, metals, timber, grain, food products and passenger traffic.

Number of tugs to be ordered for entry assistance or for shifting berth is decided by Master in accordance with Pilot's recommendation.

Cranes of up to 45 tons capacity are operated on the quays and by the warehouses. Also, there are floating cranes with lifting capacity of up to 100 tons, other cargo handling equipment and intra-port transport.

Opening and closing of hatches is usually done in accordance with conditions of Charter Party and B/L.

**MEDICAL:** All medical assistance available.

**STEVEDORES:** Arranged by Inflot who should be given necessary information in advance.

**DENSITY:** About 1002.

**FRESH WATER:** Available at quays.

**FUEL:** Fuel is usually taken at the oil jetties. Bunkers may also be delivered to the roads or supplied by lighters at a berth during loading/unloading of non-inflammable cargoes.

**GANGWAY/DECK WATCHMEN:** Recommended. These duties normally performed by crew.

**OPEN/CLOSE HATCHES:** Normally by ship's crew.

**CUSTOMS ALLOWANCES:** No restriction on quantities, but nothing may be taken ashore.

**IDENTIFICATION CARDS:** Seaman's Book required.

**CONSULS:** None.

**REPAIRS:** Repairs possible for hull, machinery, radio and navigational equipment. Floating crane available, capacity 100 tons. All kinds of repairs for vessels up to 30,000 dwt. can be carried out.

**REPATRIATION:** Only subject to visa restrictions.

**TIME:** GMT plus 3 hours all year round.

**HOLIDAYS:** 1st January, 8th March, 1st and 2nd May, 9th May, 7th and 8th November, 5th December.

**POLICE/FIRE/AMBULANCE:** Advise Inflot.

**SHORE LEAVE:** Crew allowed ashore.

**AUTHORITY:** Port of Riga Authority. Postal address: 6 V. Latsis Street, Riga-33, U.S.S.R. Cables "Morport Riga". Tel. 33–92–35; 33–92–54; 33–93–54.

**AGENT:** The Port of Riga Main Maritime Agency "Inflot". Postal address: 6 V. Latsis Street, Riga–33, U.S.S.R. Cables "Inflot Riga". Tel. 33–15–37; 33–97–03. Telex 1157.

## SOCHI: 43.34 N. 39.43 E. (See Plan)

**GENERAL:** The port of Sochi is an ice-free port, situated at the mouth of the Sochi river, South-easterly of the Uch-Dere Point, in the Eastern part of the Black Sea.

The port is protected by the Caucasian chain of mountains from cold North-easterly winds but it is open to winds blowing from Southerly and Westerly directions when heavy waves may roll over the port moles causing heavy swell in the harbour.

The port mostly handles passenger traffic.

There are passenger terminals, one of which serves hydrofoil ships only. About 3 million passengers visit the port yearly.

A cargo pier is equipped to handle fruit, building materials and cars. There are enclosed warehouses on the cargo pier and on one of the passenger terminals.

**DOCUMENTS:** Refer to beginning of U.S.S.R. section.

**PILOTAGE:** Pilot boat usually meets vessel at a distance of about 1 mile from the port. In the event of bad weather or restricted visibility, vessel should anchor or drift at a safe distance from the port until Pilot arrives.

**ANCHORAGE:** Deep drafted vessels may obtain anchorage in the outer roads Westward of the Northern mole, in the area encircled by a 9 cables length radius with the Sochi lighthouse as centre of circle. The depths in the roads are from 11 m. to 13 m., where there are mooring buoys.

Anchorage may also be obtained in depths of about 10 m. at 5 cables length from the shore.

Anchorage can also be obtained at 1·3–1·5 mile distance S.S.W. of the Sochi lighthouse. Depths there are about 29 m. The bottom is mud with sand, and small stone closer to the shore.

Anchorages are open to winds blowing from the sea.

Area No. 141 prohibited both for anchorage and fishing is situated at a distance of 1·3 miles South-westward of the light located on the Northern Mole. It extends for 9 miles to N.W.–S.E. The area is shown on charts.

**RESTRICTIONS:** There are no time restrictions for entry to the port.

In case of stormy weather entry to the port is difficult due to the swell caused by heavy waves in the approach and in the narrow entrance to the port.

The maximum permitted draft is 8 m., length 180 m.

In the event of heavy surf vessels must anchor in the outer roads since entry to the port is impossible.

During the Autumn–Winter period the port of Sochi cannot be used as a shelter port, because lying in the port is dangerous due to the strong variable current ("Tyagun") usually caused by gales blowing between S.E. and N.W.

Under these circumstances the Port Authorities cannot guarantee safety to a vessel which, after having received a storm warning, did not make for sea, and bear no responsibility for the consequences.

**RADIO:** Vessels can establish ship-shore radio contact through the port radio station Sochi Radio, operating 24 hours a day on the following frequencies:

| *Call sign* | *Working* | *Calling* | *Type of trans- mission* | *Time* |
|---|---|---|---|---|
| UZB | 516 kc/s. | 500 kc/s. | A1 | H24 |
| Port Control | 156·80 mc/s. | 156·80 mc/s. | F3 | HX |
| Pilot Watch | 156·30 mc/s. | 156·30 mc/s. | F3 | HX |
| "Inflot" (Shipping Agency) | 156·80 mc/s. | 156·80 mc/s. | F3 | HX |

A signal station is located at the Sochi lighthouse.

**BERTHING:** Tug assistance for vessels over 2,000 g.r.t. which enter or leave the port is compulsory.

A vessel intending to enter port with tug assistance should keep the Sochi mid-channel leading marks in line ahead and stop the main engines in due time to allow vessel to come to the state of "no motion" at a distance of 1 mile from the port entrance.

Only under these conditions is a tug allowed to approach a vessel and receive or cast off the tow rope.

A 5-ton crane is operated on the cargo berth. There are also truck-layer cranes with lifting capacity of 10 tons, diesel cranes and other cargo handling equipment.

**FUEL:** Not available.

**FRESH WATER:** Can be supplied by pipe-lines at nearly all berths.

**REPAIRS:** Not available.

**TIME:** GMT plus 3 hours all the year.

**AUTHORITY:** The Port of Sochi Authority. Postal address:

1 Voykov Street, Sochi, U.S.S.R. Cables "Morport Sochi". Tel. 996–63–64; 996–63–63; 996–62–04. Telex 128.

**AGENT:** A branch of the port of Novorossiysk Main Maritime Agency "Inflot" at the port of Sochi. Postal address: 1 Voykov Street, Sochi, U.S.S.R. Cables "Inflot Sochi". Tel. 99–05–86; 996–62–70. Telex 128.

## SUKHUMI: 42.59 N. 41.01 E. (See Plan)

**GENERAL:** A Black Sea passenger port Sukhumi is situated at the head of the Sukhumi Gulf, 2 miles East-northeast of the Sukhumi Point. The port is open for navigation all the year round. Both the port itself and the Gulf are open to winds blowing from the sea.

Several berths of the port are equipped to handle passenger traffic.

The port area is bounded on the South-west by the line of the Sukhumi leading light marks, (bearing 105°–285°) extended up to the shore.

The port is visited by regular and cruise passenger vessels.

**DOCUMENTS:** Refer to beginning of U.S.S.R. section.

**PILOTAGE:** A Pilot meets a vessel in the outer roads.

**ANCHORAGE:** Anchorages are situated in the outer roads on the Northern coast of the Sukhumi Gulf, opposite the mouth of the Beslet river.

A good anchorage can be obtained at the line of the Sukhumi leading light marks. Depths are from 12 m. to 50 m. The bottom is mud.

Master should watch carefully the Sukhumi leading light marks when approaching the anchorage and cast anchor only at the moment when the leading light marks are in line or some small distance closer to the shore.

At 2 cables length seaward of the leading line, the depths increase sharply and reach 130 m.

Whilst waiting for a berth vessel should lie at anchor at the line of the Sukhumi leading light marks. This anchorage is unsafe during the gales blowing from the sea.

**RESTRICTIONS:** Vessels may enter or leave the port at any time of day or night.

**MAX. SIZE:** The maximum permitted draft is 7·6 m., length 180 m.

**RADIO:** Ship-shore radio contact can be established via the port radio station Sukhumi Radio operating 24 hours a day on the following frequencies:

| *Call sign* | *Working* | *Calling* | *Type of trans-mission* | *Time* |
|---|---|---|---|---|
| UFF | 458 kc/s. | 500 kc/s. | A1 | H24 |

* CPR–Central Port Radio Station.

Storm signals are exhibited at a signal mast located on the roof of the Port Authority's office.

**BERTHING:** Vessels are not allowed to moor to berths during the dense fog and in restricted visibility when navigational lights and the current indicator on the passenger berth are not visible. In this event vessel should anchor and disembark passengers in the outer roads.

When mooring, Master should bear in mind the direction of the current and the effect on the mooring angle of vessel.

By day, the direction of the current indicated by a sparbuoy located at the head of the passenger pier, and at night, by lights exhibited from the elevation of the front leading light.

A green light shown lower than the front leading light indicates Easterly current, and a red light, current of Westerly direction.

The rate of the current is usually determined by the Master himself.

Due to the constant influence of the current, mooring is usually effected without tug assistance.

There are no portal cranes on the passenger pier. Handling of cargo is done by the truck-layer cranes with lifting capacity of 10 tons.

**FUEL:** Can be supplied by lighters.

**FRESH WATER:** Supplied ex-shore.

**TIME:** GMT plus 4 hours all the year.

**AUTHORITY:** The Port of Sukhumi Authority. Postal address: 66 Rustaveli Street, Port of Sukhumi, U.S.S.R. Cables "Morport Sukhumi". Tel. 34–00; 34–13; 82–02.

**AGENT:** A branch of the Port of Batumi Main Maritime Agency "Inflot" at the Port of Sukhumi. Postal address: The Port of Sukhumi, U.S.S.R. Cables "Inflot Sukhumi".

## TALLINN: 59.27 N. 24.45 E. (See Plan)

**GENERAL:** A Baltic seaport, Tallinn is situated in Tallinn Bay on the South-west coast of the Gulf of Finland. Year-round navigation is possible. Tallinn Bay is usually frozen over in severe winters only. In the winter months the port of Tallinn is kept open for navigation by ice-breakers. The tidal range in Tallinn Bay is of very small account. The difference of the water level in the Bay is due solely to the effects of the wind. A rise of the water about 0·4–0·5 m. from mean water level is observed during North-westerly and Westerly winds. The fall of the water is caused by South-easterly and Easterly winds. It usually reaches 0·2–0·4 m. below the mean water level.

**DOCUMENTS:** Refer to beginning of U.S.S.R. section.

**PILOTAGE:** Compulsory. Advise Agent of vessel's ETA and 24 hours before arrival. If the time of passage to the port is than 48 hours, ETA should be given no later than one hour departure from previous port.

Radio Agent 4 hours before arrival requesting a Pilot. Pilotag compulsory, 24 hour service. Pilot boards at Western Tallina bank, approximate position 59° 42.5′ N., 24° 38.0′ E.

International code signals may be used to call Pilot who will c out in a motor-boat as ordered by Agents on basis of Masters E Pilot boat can be contacted on VHF Channel 16.

N.B. Vessels should proceed to Tallinsky Bay through Northern Passage. The Straits of Sooripy are temporarily close navigation.

**ANCHORAGE:** Vessel awaiting Pilot may anchor in pilot boar zone. The main anchorage for Tallinsky bay is situated to the Eas Tallinsky light and limited by a line connecting the following tions: 59° 28.5′ N., 24° 47.1′ E. 50° 28.7′ N., 24° 48.8′ E. 59° 28.5 24° 49.1′ E. 59° 27.8′ N., 24° 47.7′ E.

Anchorage is not protected from the seaward side, depths 12·5 to 26 metres. Anchorage is forbidden in other parts of Ta sky Bay.

**RESTRICTIONS:** Entrance to the harbour inside the breakwa is through the North or the South entrance. Maximum permi draft for both entrances is 23 ft. At South entrance depths according to current and tide. Pilot will advise regarding depth able. At the Northern entrance a submarine cable is laid, and vess passing through are required to have both anchors secured. and departure can be effected by day and night. Movement of through both entrances is controlled by a signal exhibited at the of the north pier.

**MAX. SIZE:** Vessels up to 23 ft. draft can enter harbour. Tank with cargo to discharge are limited to maximum length 100 me Vessels arriving for bunkering or supplies are not required to harbour.

**HEALTH:** International quarantine signals to be used on arri No later than 6 hours before arrival at the inner area Master sh radio Agents giving full details of state of health on board, and questing pratique which will be given on arrival.

**RADIO:** All vessels when approaching the Port of Tallinn sh establish radio contact via Tallinn Radio port radio station operates 24 hours a day on the following frequencies:

| *Call sign* | *Working* | *Calling* | *Type of trans-mission* | *Tim* |
|---|---|---|---|---|
| UNS | 500 kc/s. | 500 kc/s. | A1 | H2 |
| UAH | 6,485 kc/s. | 6,276·75 kc/s. | A1 | H2 |
| UAH | 8,476 kc/s. | 8,369 kc/s. | A1 | HX |
| | 12,723 kc/s. | 12,541·5 kc/s. | | |
| | 17,077 kc/s. | 16,732 kc/s. | | |
| Tallinn Radio | 2,182 kc/s. | 2,182 kc/s. | A3 | H2 |
| "Tallinn Port" (Port Control) | 156·80 mc/s. | 156·80 mc/s. | F3 | H2 |
| | 156·45 mc/s. | 156·45 mc/s. | F3 | H2 |
| "Portnadzor" (Harbour Master) | 156·80 mc/s. | 156·80 mc/s. | F3 | H2 |

Vessels entering and leaving the Old Harbour should signals exhibited at the signal station situated at the Nort Gates (the North Entrance) to the port.

**TUGS:** Tugs assistance available for berthing subject to Pi advice. Tugs can be ordered through Agents. Ship's lines norm used. When tugs are ordered in advance the cost will be charged the vessel whether tugs are used or not.

**BERTHING:** Vessel will not be allowed to berth unless main gines and steering mechanism are in good working order. All vess in port are required to fly their national flags between 0800 and set. On holidays and special occasions vessels may be requeste dress their ships if requested by Port Authorities.

The berths of the port with depths alongside up to 8·25 m. equipped to handle general bulk and liquid (chemical produc cargoes, sugar, cement, metals, foodstuff, etc., as well as passen traffic. Covered warehouses with mechanical equipment and conc floor sheds are available.

**STEVEDORES:** Arranged by Agent on basis of Master's E Loading and unloading is carried on throughout 24 hours a including holidays.

Loading and unloading is usually done by shore mobile elec cranes of up to 10 tons capacity, by floating cranes of up to 100 capacity and by other cargo handling equipment.

**TANKERS:** Tankers moor at berth No. 19, length 207 metres, de alongside 9 metres. No slop facilities available. Tankers are mally required by the charter party to reserve a slop tank on bo Discharge of tank washings is prohibited within 100 miles of coast.

**FRESH WATER:** Supplied by pipe-lines at all berths.

**FUEL:** Bunkers are available and can be taken from the quays delivered by lighters.

**FIRE PRECAUTIONS:** Masters of tankers are presented w copy of Safety Regulations by the Agent on arrival.

**WATCHMEN:** Compulsory to maintain a gangway watch by sh crew.

**HATCHES:** Normally opened and closed by ship's crew. In weather hatch covers are put on by stevedores.

**CERTIFICATES:** At first Russian port of call, certificates of nage and those required by international convention will be requ for examination.

**CUSTOMS ALLOWANCES:** No restrictions on crew's consumption of tobacco and alcohol on board. It is forbidden to take these items ashore.
**CONSULS:** No local representation.
**REPAIRS:** Only minor repairs may be effected at machine shop ashore.
**TIME:** GMT plus 3 hours all the year round.
**HOLIDAYS:** All holidays are worked by stevedores.
**TELEPHONES:** Connection on board vessels can be made free of charge at berths number 7, 8, 9, 10, 13, 14, 15 and 16.
**AUTHORITY:** Tallinn Sea Port, 25, Uus-Sadama Street, Tallinn. Cables: Morport Tallinn. Tel. 2–70–09, 2–70–70, 2–70–80.

**AGENT:** "Inflot," 7, ul. Uus-Sadama. Telephone: 48825, 48512. Telex: 107. Cables: "Inflot", Tallinn.

## TUAPSE: 44.06 N. 39.04 E. (See Plan)

**DESCRIPTION:** The port of Tuapse is situated between the mouths of the rivers Tuapse and Pauk at the head of Tuapse Bay and on the Caucasian coast of the Black Sea. Year-round navigation.

The port is protected by the Western, South-western and Pervomaisky breakwaters and by the Southern mole.

The Western part of the port, called the Old Port, is used by fishing trawlers, and the Eastern part of the New Port by cargo vessels.

The entrance to the port, about 220 m. wide, is situated between the heads of the South-western breakwater and the Southern Mole.

A part of the port area bounded by the shore and navigational marks is considered as the port inner roads.

Despite the fact that the harbour is protected by breakwaters and a mole, lying in the port is not always safe due to heavy waves caused by Southerly gales.

Waves may roll over the breakwaters when strong winds blow and may cause heavy swell in the harbour.

During strong winds blowing from directions between the South-east and North-west and, at times, even without winds, lying in the port is dangerous due to strong variable current with surge (called "Tyagun"). In this event vessels are recommended to leave the port for sea.

Changes in the water level in the port area are caused by the effects of the wind. The maximum range of the water level observed is 0·6 m.

Also, the changes in the water level may be caused by variation in atmospheric pressure ("Seish" effect), which may last from a few minutes up to several days.
**DOCUMENTS:** Refer to beginning of U.S.S.R. section.
**PILOTAGE:** Vessels wait for Pilot at anchorage. Compulsory in and out. Master to advise Port Controller and Inflot Agency ETA, 96 hours in advance (confirmed 4 hours before arrival; 2 hours before, apply for entry permit), description of cargo, location and weight of heavy lifts, number of passengers, ships draft, length and services required.

Pilotage is effected, in turn, in accordance with sequences of vessels orders received by the "Port Control".

In the event of bad weather (wind Force 6 and over) when Pilot is unable to board vessel in the outer roads, Master should either lie at anchor or wait with engines working at speed ensuring safety of the vessel until weather improves.
**ANCHORAGES:** Available in depths up to 23 m. Vessel arriving at anchorage should inform time anchored, time required for deballasting ashore, overall length, deepest draft as per seasonal marks, and await berthing orders. Despite jetties and breakwater, anchorage not always secure since S.W. winds bring confused swell or variable current with surge called "Tyagun", during which vessels sometimes swept from moorings. Advisable put to sea during strong S.W. winds and "Tyagun".

Area No. 142 prohibited for anchorage and fishing, is situated opposite entrance to Tuapse Bay. Borders of the area are shown on charts.

There are 2 anchorages situated in the outer roads South-westward of the South-western breakwater. Depths there are from 13·6 m. to 24 m. The bottom is fine sand and shell.

The outer roads of the port extend South-westward of the breakwaters up to the border of area No. 142. The outer roads are bounded on the South by the meridian of the base of the Southern Mole.

During winter, all vessels lying at berths should constantly be ready to leave the port for sea after having received a storm warning.
**RESTRICTIONS:** There are no time restrictions for entry to the port.

The entrance channel, 100 m. wide starts at 0·9 cables length off the western side of the head of Pervomaisky breakwater and extends to W.N.W. for 2·7 cables length. The depths in mid channel, all the way through, are 13·7 m.

Every vessel should lie at anchor in the outer roads whilst waiting for Pilot and mooring berth.

Every Master when navigating along the leading line and in the inner roads, should proceed at moderate speed ensuring the manoeuvrability of vessel.
**MAX. SIZE:** The maximum permitted draft for entry to the port is 12 m.
**HEALTH:** Sanitary officer boards on arrival or when berthed. No automatic pratique.
**RADIO:** Ship–shore radio contact can be established through the port radio station Tuapse Radio operating 24 hours a day on the following frequencies:

| Call sign | Working | Calling | Type of trans-mission | Time |
|---|---|---|---|---|
| UVW | 430 kc/s. | 430 kc/s. | A1 | H24 |
| "Tuapse Radio" | 2,182 kc/s. | 2,182 kc/s. | A3 | H24 |
| "Firma" (Port Control) | 156·70 mc/s. | 156·70 mc/s. | F3 | H24 |
| | 161·80 mc/s. | 157·20 mc/s. | F3 | H24 |
| "Lotsman" (Pilot Watch) | 156·60 mc/s. | 156·60 mc/s. | F3 | H24 |
| "Inflot" (Shipping Agency) | 156·80 mc/s. | 156·80 mc/s, | F3 | H24 |

Entry permit and Pilot should be asked for by radio through the "Port Control" 2 hours prior to approaching the port.
**TUGS:** Compulsory. Ship's lines.
**BERTHING:** Berthing at any time. 14 berths with depths up to 10·8 metres. Mooring can be effected during winds up to Force 6.

Cranes of up to 10 tons capacity are operated alongside the quays and by the warehouses. There are floating cranes and other cargo handling equipment, intra-port transport included.

Opening and closing of hatches is usually done by the ships crew if not otherwise stipulated in a Charter Party.

Loading and/or unloading of cargo is usually done by shore cranes.
**RADAR/VHF:** VHF only. Channel 16. Communication with Inflot on VH available. Business radio messages from vessels at anchorage also permitted. International radio watch should be kept by vessels at anchorage for business purposes.
**MEDICAL:** All patients to visit polyclinic on weekdays only, to be reported by Masters to sanitary doctor on arrival.
**DENSITY:** 1010/1015.
**FRESH WATER:** Available from any berth. Boiler water can be delivered by barges to the outer roads.
**FUEL:** Only heavy fuel oil and gas oil. Available at oil berths. Also available ex-lighters. Masters giving 48 or at least 24 hours notice.
**FIRE PRECAUTIONS:** Smoking strictly prohibited on all decks of any vessels moored to oil piers. Naked lights and flashlights strictly prohibited. No work that can produce a spark is allowed

During bad weather essential shore leave should be granted only to limited part of staff and crew to ensure that sufficient crew on board at all times to shift vessel at short notice in case of emergency.

Plug holes. Flame arresters must be placed in all plug holes during loading; and all scuppers must be plugged.

When receiving bunkers remember that in all cases orders to stop pumping oil upon completion of bunkering should be given from ship with 5 or 10 minutes standby notice to pier workmen.
**GANGWAY/DECK WATCHMEN:** Not required.
**CUSTOMS ALLOWANCE:** No restrictions.
**IDENTIFICATION CARDS:** Not required.
**CONSULS:** None.
**REPAIRS:** All kind of repairs for vessels of up to 10,000 dwt. can be carried out.

Main engine should not be immobilised when alongside berth without special permission by Harbour Master through Agent.
**REPATRIATION:** Possible in emergency.
**AIRPORT:** 5 hours by train.
**TIME:** GMT plus 3.
**HOLIDAYS:** 1st January, 8th March, 1st, 2nd May, 9th May, 7th, 8th November, 5th December.
**TELEPHONES:** Only available for tankers.
**GENERAL:** Ballast: No ballast water, clean or dirty, to be pumped overside in Roads and in harbour. Deballasting into shore storage compulsory and cost and time for ship's account.

Photographing: Photography within harbour or installations, railway bridges, etc., except regular views in town, prohibited.

Ratguards: All mooring lines should be provided with ratguards immediately upon mooring, otherwise fine is imposed without notice.

Smoke: The emission of dense smoke from vessel's funnel in harbour is prohibited and subject to fine without notice, as well as sparking from funnel.

Boats: Vessels not allowed to use their boats, while at anchorage, and swimming prohibited. Gangways should be lowered only for officials.

Intoxicated seamen not allowed on oil piers and medical attendance to them is rendered by Sobering Station for special charge.

No articles should be taken from and to ship without Custom's permission. No import or export of Soviet currency is allowed.

Painting of shell plating is allowed in daytime and only from quay.

No garbage or refuse should be thrown overboard, and all outlets facing quay to be closed or protected by shields.
**SERVICES:** Compass adjusting.
**SHORE LEAVE:** Crew allowed ashore to midnight. Master no restrictions.
**AUTHORITY:** Ul. Maxima Gorkogo 2, Tuapse, Krasnodarskykrai, U.S.S.R. Tel. 0–79, 2–15. Telegraphic address Morport Tuapse.

**AGENT:** Maritime Agency "Inflot". Telex: 865. Tel. 322, 427. Postal address: 25 Gagarin Street, Tuapse, Krasnodarsky Krai, U.S.S.R. Cables: "Inflot Tuapse."

## VENTSPILS: 57.24 N. 21.31 E. (See Plan)

**GENERAL:** A Baltic Sea port, Ventspils is situated at the mouth of the Venta river. Navigation is year round.

There are periodical alterations in the water level of the Venta river, chiefly due to the effects of the wind. The rise of the water level is usually due to moderate Westerly winds, and the fall is caused by Easterly winds.

The maximum rise of the water level in the Venta river is at the time of spring floods.

The port of Ventspils area includes the Avantport and the Commercial port. A fairway, 330 metres wide, leads to the port from seaward. The draft of vessels passing through the fairway should not exceed 9·4 m.

Vessels with drafts over 9·4 m. leave the port by another fairway, depth 11·4 m., width 80·0 m., which branches off the approach fairway at a distance of 3 cables to the North-westward from the entrance to the Avant-port, and extends in true line bearing 306·5° up to mid-channel Receiving light-buoy No. 2.

Vessels can enter the port by this channel only after having obtained the Harbour Master's permission.

**DOCUMENTS:** Refer to beginning of U.S.S.R. section.

**PILOTAGE:** Vessels approaching port apply for Pilot through Maritime Agency "Inflot" (Telegr. Inflot Ventspils, Telex 86122, Tel. 6213, 51369 or by R/T on 2182 k/cs., or on Channel 16 short range VHF), reporting 96 hours, 48 hours and 24 hours and 4 hours ETA. Pilotage compulsory for all merchant vessels. Pilot boat has word "Pilot" painted in large letters on each side and carries a pilot flag or signal at masthead. Sound signal for Pilot is "G". Pilot boat has radio telephone, Channel 16 short range VHF. Pilot taken on board in area of anchorage. In bad weather Pilot can board inside of breakwater by prior arrangement with Harbour Master through Inflot.

Pilot service is available by day and night. Pilot usually boards a vessel at Ventspils Reception Buoy No. 1.

**ANCHORAGES:** The Avant-port is protected by the Northern and Southern moles. The anchorage in the Avant-port, with depths from 3 to 10 metres, is not safe during strong Westerly winds.

Recommended anchorages for vessels with medium drafts are situated at a distance of 3–4 miles Westward of the port of Ventspils. Depths are from 15–18 metres. The holding ground (sand) is good.

**RESTRICTIONS:** Vessels exceeding 140 metres length and 25 ft. draft enter harbour with Pilot on board only in daytime.

A valid ice-class certificate is required for entry to the port when the fairway is covered with ice.

When proceeding along the fairway and in the Venta river from the entrance to the Avant-port up to the railway bridge speed not to exceed 5 knots.

**MAX. SIZE:** Length 220 metres and draft 36 ft. for Tankers, and 180 metres length and 29 ft. draft for other ships. Breadth not limited.

**HEALTH:** Pratique obtainable after mooring. Sanitary Inspector visits vessel after mooring together with Immigration and Custom House Officer. If medical care required the Sanitary Inspector has to be informed.

**RADIO:** Radio contact should be established via the Ventspils Radio port radio station which operates 24 hours a day on the following frequencies:

| *Call sign* | *Working* | *Calling* | *Type of trans-mission* | *Time* |
|---|---|---|---|---|
| UNI | 500 kc/s. | 500 kc/s. | A1 | H24 |
| "Ventspils Radio" | 2,182 kc/s. | 2,182 kc/s. | A3 | H24 |
| "Ventspils Radio" | 156·8 mc/s. | 156·8 mc/s. | F3 | H24 |
| "Nadzor" (Pilot Watch) | 156·8 mc/s. | 156·8 mc/s. | F3 | H24 |

Vessels' traffic both in the roads and in the harbours is controlled by signals exhibited at the Signal Station located on the Pilot tower, at the base of the Southern mole.

**TUGS:** Tugs normally join vessel inside breakwater using ship's lines only. Masters must order tugs in the following circumstances.

1. When a vessel is in ballast and her length is over 120 metres or when a vessel is fully loaded and her length is over 100 metres.

2. Master of a fully loaded vessel, the length of which is less than 100 metres, or in case of a vessel laden with ballast when her length is less than 120 metres, should order tugs in accordance with the Pilot's recommendation, weather conditions and the vessel's manoeuvrability.

3. As a rule, Masters should order two tugs when mooring at a berth.

Normally tugs join vessels within the port.

**BERTHING:** The commercial port is situated along the Venta river front and extends for about 2 miles up to the mouth of the river. The width of the mouth is about 100 metres. Depths in the Commercial port area are from 6 to 10 metres. The river becomes wider farther up from the mouth and reaches 150 m. in the area of the town of Ventspils.

There are two harbours – Rybnaya (Fish Harbour) and Zimnyaya (Winter Harbour) on the left bank of the river at 3 cables length from the mouth.

Berths with depths of up to 11·5 m. are equipped to handle general, bulk (coal, mineral building materials) and liquid (oil, oil products), cargoes, timber, metals, etc.

There are enclosed warehouses, open concrete floor sheds and a grain elevator.

Quays are equipped with electric cranes of up to 45 tons capacity. There are floating cranes of up to 100 tons capacity, pipe lifters and other cargo handling equipment and machinery.

Opening and closing of hatches is normally done by the ship's crew.

**STEVEDORES:** Master's and/or shipowner's information of cargo details, stowage – especially for ships with inward general cargoes – is required in proper time. Information has to be addressed to Inflot Ventspils.

**MEDICAL:** Hospital facilities available. Advance notice desi however depends on kind of sickness. Particular innoculati vaccination/fever certificates etc. not required.

**TANKERS:** All grades oil loaded by shore loading hoses in meter of 200, 250, 280, 300 and 350 mm. Total 4 berths all fitted deballasting installation for slops. Maximum draft from 30 up to

**DENSITY:** In port about 1,002.

**FRESH WATER:** Fresh water available, delivered from shore barge. Minimum for 15 tons vessels are charged if supplied by ba

**FUEL:** All grades available subject to prior inquiry. Bunkers ca taken from the oil-jetty or supplied by lighters.

**GANGWAY/DECK WATCHMEN:** Service of watchmen rec mended; however, Captain's option.

**OPENING/CLOSING HATCHES:** Opening and closing hatches normally is carried out by crew; however, at the Maste request may be carried out by shore men.

**SHIP CERTIFICATES:** Required to be on board:

Intern. Tonnage.
Intern. Class.
Load-line.
Safety Equipment.
Intern. Radio.
Certificates of Deratisation.

**CUSTOMS ALLOWANCES:** There is no restriction for crew and bond locker is not sealed.

**IDENTIFICATION CARDS:** Seaman's Book required.

**CONSULS:** No Consulates.

**REPAIRS:** Small deck and engine repairs can be carried out.

**DRY DOCKS:** None.

**REPATRIATION:** Repatriation of crew left behind a vessel hospital is arranged by other tramp-ships with Captain's conse No facilities exist for effecting crew changes.

**TIME:** GMT plus 3 hours. No alterations during year.

**HOLIDAYS:** 1st January (New Year's Day); 8th March (Inter tional Women's Day); 1st and 2nd May (May Day Holidays); May (Victory Day); 7th and 8th November (The Great Octo Socialist Revolution Day); 5th December (The U.S.S.R. Consti tion Day). Cargo work never stopped on Holidays.

**POLICE/AMBULANCE/FIRE:** If required have to be orde through Maritime Agency "Inflot".

**TELEPHONES:** No arrangements exist for placing telephones board.

**SERVICES AVAILABLE:** Tankers' deballasting installation slops; service for radar and VHF repairs; compass adjusting; wo shop for ordinary deck and engine repairs; ship chandler servi bunker supply.

**SHORE LEAVE:** Crew members allowed ashore.

**AUTHORITY:** The Port of Ventspils Authority. Postal addres 22 Dzintaru Street, Ventspils, U.S.S.R. Cables: "Mortorgp Ventspils". Tel. 5–12–22; 5–13–95; 5–14–30.

**AGENT:** The Port of Ventspils Maritime Agency "Inflot". Pos address: 18 Dzintaru Street, Ventspils, U.S.S.R. Cables: "Inf Ventspils. Tel. 6–12–13; 5–13–69. Telex: 122.

## VOSTOCHNY: 42.44 N. 133.03 E.

New port being constructed. Log-loading berth understood to be operation and a chip berth to be completed 1974. Container a coal berths to be constructed and completion expected 1975- depths up to 17 metres.

## VYBORG: 60.43 N. 28.44 E. (See Plan)

For Saimaa Canal see Index.

**GENERAL:** A Baltic Sea port Vyborg is situated at the head of th Gulf of Vyborg in the North-eastern part of the Gulf of Finland.

There are two harbours in the port: the Southern Harbour and th Harbour of the Vyborg Hydro-base.

The Southern harbour is situated on the Western side of th peninsula between Krepostnoy Bridge, at the Fortress of Vybor in the North, and Smolyanoy Point in the West (lat. 60° 43′ N long. 28° 44′ E.).

The Harbour of the Vyborg Hydro-base is situated 2·5 cable North-westward of Smolyanoy Point. It is protected by a "T"-shap pier.

The port is open for navigation from April up to the middle December. Ice in the Gulf of Vyborg begins to form normally abo the middle of November. The Gulf usually becomes frozen over the middle of December and the last ice finally disappears in Ap

Whilst tidal range in the Gulf of Vyborg is of small accou considerable changes in the water level may be caused by stro winds (up to 1·6), variation in atmospheric pressure (up to 1 m. and the seasonal increase of the amount of water brought dow from the land. The rise of the water level is usually caused Southerly, South-westerly and sometimes by Northerly winds. Th maximum range of the water level in the Gulf is about 2·0 m.

The Vyborg Fairway (least depth 7·3 m.) leads from the entran to the Gulf of Vyborg across the Transund roadstead up to th entrance of the Inner Vysotsky Roads. The Vyborg Sea Chann (least depth 6·1 m.) leads from the Inner Vysotsky Roads into th port, situated at the head of the Gulf. Both of these and the Fairwa and the Channel, are open for navigation any time of day or night.

**DOCUMENTS:** Refer to beginning of U.S.S.R. section.

**PILOTAGE:** Compulsory. Pilot is ordered through "Inflot". Notic of arrival to be given 96 hours in advance and confirmed four hou before arrival. Pilot station "Vikrevoz" can be contacted on VHF Channel 16.

Vessels proceeding to the Port of Vyborg from the Gulf of Finland take Pilots at Vikhrevoy Island (Whirlwind Island), lat. 60° 34′ N., long. 28° 27′ E.

Vessels proceeding from the port of Vyborg to the Gulf of Finland may take Pilots either at the Brusnichnoe Lock of the Gulf of Novinsky or at Maly (Small) Vysotsky Island, or in the Port of Vyborg, depending on the location of the place where a vessel's movement commences.

In the event of bad weather when a Pilot is not able to board or leave a vessel at Vikhrevoy Island, the position of embarkation or disembarkation may be changed to a point Eastward of the Island, with Master's consent.

In case a Master cannot embark or disembark a Pilot Eastward of Vikhrevoy Island, he shall:

(a) When approaching the port from seaward either lie at anchor or return to sea until the weather improves.

(b) While proceeding along the Vyborg Fairway or the Vyborg Sea Channel, lie at anchor in the area indicated by Port Control and wait for the time when a Pilot is able to board.

**ANCHORAGES:** There are several anchorages at Vyborg Fairway and at Vyborg Sea Channel areas.

These anchorages are bounded by the following points:

Anchorage *No. 1. Large Transund Roadstead*
(1) 60° 35′ 34″ N., 28° 30′ 18″ E.
(2) 60° 35′ 17″ N., 28° 30′ 54″ E.
(3) 60° 35′ 00″ N., 28° 30′ 21″ E.
(4) 60° 35′ 17″ N., 28° 29′ 43″ E.

Anchorage *No. 2. Large Transund Roadstead*
(1) 60° 36′ 54″ N., 28° 28′ 40″ E.
(2) 60° 36′ 31″ N., 28° 29′ 30″ E.
(3) 60° 36′ 05″ N., 28° 28′ 42″ E.
(4) 60° 36′ 29″ N., 28° 27′ 49″ E.

Anchorage *No. 3. Small Transund Roadstead*
(1) 60° 37′ 34″ N., 28° 31′ 40″ E.
(2) 60° 36′ 05″ N., 28° 32′ 30″ E.
(3) 60° 36′ 05″ N., 28° 31′ 42″ E.
(4) 60° 37′ 29″ N., 28° 30′ 49″ E.

Anchorage *No. 4. South-eastward of the Sea Channel*
(1) 60° 39′ 16″ N., 28° 36′ 52″ E.
(2) 60° 38′ 59″ N., 28° 37′ 28″ E.
(3) 60° 38′ 41″ N., 28° 36′ 54″ E.
(4) 60° 38′ 58″ N., 28° 36′ 18″ E.

Anchorage *No. 5. North-westward of the Sea Channel*
(1) 60° 40′ 56″ N., 28° 39′ 18″ E.
(2) 60° 40′ 46″ N., 28° 39′ 30″ E.
(3) 60° 40′ 41″ N., 28° 39′ 08″ E.
(4) 60° 40′ 50″ N., 28° 39′ 55″ E.

The holding ground in the anchorages is sand, mud, stone and clay. The depths are from 11 to 17 metres.

**RESTRICTIONS:** Maximum permitted speed in the Vyborg Fairway and in sections No. 1 and No. 3 of the Vyborg Sea Channel is 6·5 knots. In other sections of the Vyborg Sea Channel and through the Saimaa Canal, the maximum permitted speed is 5 knots. (For Saimaa Canal, see Index.)

**MAX. SIZE:** The maximum permitted draft for entry to the port is 5·8 m., length 120 metres at mean water level. Vessels with draft exceeding 5·8 m. are allowed to enter port only after having obtained Harbour Master's permission.

**HEALTH:** International code quarantine signals to be shown on arrival. Vessels placed in quarantine will be instructed where to anchor by the pilot station.

**RADIO:** Radio contact can be established through the Vyborg Radio port radio station operating 24 hours daily on the following frequencies:

| *Call sign* | *Working* | *Calling* | *Type of trans-mission* | *Time* |
|---|---|---|---|---|
| UNN | 500 kc/s. | 500 kc/s. | A1 | H24 |
| | 444 kc/s. | | A1 | H24 |
| Vyborg Radio (Port Control via CPR*) | 156·8 mc/s. | 156·8 mc/s. | F3 | H24 |
| Vyborg Radio (Pilot Service of the Saimaa Canal) | 156·6 mc/s. | 156·6 mc/s. | F3 | HX |
| Ostrov Vikhrevoy (Whirlwind Island) Pilot Station. | 156·6 mc/s. | 156·6 mc/s. | F3 | HX |
| Zaliv Novinskogo Gulf of Novinsky Pilot Station | 156·6 mc/s. | 156·6 mc/s. | F3 | HX |
| Vyborg Radio (Inflot Agency) | 156·8 mc/s. | 156·8 mc/s. | F3 | H24 |

*CPR – Central Port Radio Station.

Traffic in the Vyborg Sea Channel and Saimaa Canal is controlled by the signals exhibited at the signal masts located on the Northern side of Vysotsky Island and on the roof of the Gulf of Novinsky Pilot Station.

Every vessel whilst proceeding along the Fairways and the Channel must have VHF radio-telephone in good working order, being able to ensure a reliable radio contact with the port of Vyborg and between vessels. If a vessel is not equipped with VHF radio, a Master can hire a VHF portable radio-set from a pilot station (via Pilot) for a fixed charge.

**TUGS:** Available, ordered through "Inflot".

**BERTHING:** Can only be effected with Pilot on board. Berths of the port with depths alongside of up to 8·25 m. are equipped to handle general and bulk cargoes, timber, etc., as well as passenger traffic. There are enclosed warehouses and open concrete floor sheds.

Berths are equipped with electric cranes of up to 10 tons capacity. There are floating cranes of up to 15 tons capacity and other cargo-handling equipment and machinery.

Opening and closing of hatches is usually done by the ship's crew, but if required it can be done by port labour for vessel's account.

**MEDICAL:** "Inflot" to be advised in advance if any medical attention required.

**DENSITY:** Salinity 5%.

**FRESH WATER:** Available. Can be supplied by pipe-lines at all berths or delivered by barges.

**FUEL:** Not available.

**WATCHMEN:** Not required.

**HATCHES:** Usually opened and closed by crew. Can be operated by stevedores on request.

**CUSTOMS ALLOWANCES:** No control on board the vessel. It is forbidden to take alcohol off the ship.

**REPAIRS:** Minor repairs can be effected.

**TIME:** GMT plus 3 hours all year round.

**HOLIDAYS:** Cargo operations can be carried out on all holidays.

**TELEPHONE:** Connection to vessels is not possible.

**SHORE LEAVE:** Permitted subject to police control.

**AUTHORITY:** The Port of Vyborg Authority. Postal address: 1 Yuzhny Val Street, Vyborg, U.S.S.R. Cables "Morport Vyborg". Tel. 12–34, 12–44, 28–11.

**AGENT:** The Port of Vyborg Maritime Agency "Inflot". Postal address: Inflot, PO Box 40, Vyborg, U.S.S.R. Cables "Inflot Vyborg". Tel. 12–86, 37–33. Telex 521.

## YALTA: 44.30 N. 34.10 E. (See Plan)

**GENERAL:** An ice-free Black Sea passenger and commercial port, Yalta is situated at the head of Yalta Bay and on the Southern coast of the Crimea Peninsula.

The port is open for navigation all the year round.

The port is formed by a harbour protected by a mole. Depths in the harbour are up to 10 m.

Yalta is mainly a passenger port, but it is equipped to handle dry cargo vessels.

**DOCUMENTS:** Refer to beginning of U.S.S.R. section.

**PILOTAGE:** Pilot meets vessel in the outer roads, at a distance of 1 mile South-easterly of Yalta lighthouse.

**ANCHORAGES:** Vessels can obtain anchorage at a distance of 1–2 miles, bearing 180 m. to 20 m. Holding ground is good.

The port outer roads are situated in Yalta Bay South-easterly and Southerly of the port entrance. They are open to winds blowing between E.N.E. and S.W. At times vessels may be turned broadside to waves caused by Southerly winds.

A good anchorage may also be obtained at 5·5 cables length South-south-westerly off the head of the New Mole with depths from 15 m. to 17 m. The bottom is mud.

**RESTRICTIONS:** Vessels may enter or leave the port at any time of day or night. Vessels entering or leaving the port must have keel clearance of not less than 0·2 m.

**MAX. SIZE:** Permissible draft is 9 m., length 215 m.

**RADIO:** Ship-shore radio contact can be established through the port radio station Yalta Radio operating 24 hours a day on the following frequencies:

| *Call sign* | *Working* | *Calling* | *Type of trans-mission* | *Time* |
|---|---|---|---|---|
| UCO | 500 kc/s. | 500 kc/s. | A1 | H24 |
| Yalta Radio | 2,464 kc/s. | 2,100 kc/s. | A1 | HX |
| Lazur (Port Control) | 156·80 mc/s. | 156·80 mc/s. | F3 | H24 |

**BERTHING:** Cranes of up to 7 tons capacity are operated along cargo quays.

Handling of cargo at the passenger terminal is usually done by ship's cargo gear. A 5-ton shore crane may be ordered, if necessary.

**TUGS:** Tug assistance for mooring is compulsory. Masters of vessels entering the port must order at least one tug when mooring.

Masters of deep-drafted vessels must order a tug-boat when unmooring from berths Nos. 1, 3 and 5 if it is impossible to leave berth by drifting with the assistance of off-shore blowing wind.

**FUEL:** Not available.

**FRESH WATER:** Can be supplied by pipe-lines at all berths.

**REPAIRS:** Not available.

**TIME:** GMT plus 3 hours.

**AUTHORITY:** The Port of Yalta Authority, Postal address: 5 President F. D. Roosevelt Street, Port of Yalta, U.S.S.R. Cables "Morport Yalta". Tel. 2–23–73; 2–42–42.

**AGENT:** A branch of the Port of Odessa Main Maritime Agency "Inflot" at the Port of Yalta. Postal address: 5 President F. D. Roosevelt Street, Port of Yalta, U.S.S.R. Cables "Inflot Yalta". Tel. 2–46–91. Telex 815.

## ZHDANOV: 47.06 N. 37.35 E. (See Plan)

**GENERAL:** A sea of Azov port, Zhdanov is situated 14 miles Northward of the entry into the Taganrog Gulf, at the Western end of it and at the mouth of the Kalmius river.

All-year round navigation is possible but during 30–90 days period of ice conditions with ice-breaker assistance for ice-strengthened vessels only.

Ice usually begins to form at the end of November or the beginning of December, and 3–4 weeks later the Gulf becomes completely frozen over. The increase of fast ice usually lasts up to the first half of February. As a rule the ice usually breaks up in the middle of March. It finally disappears at the end of March or, as an exception, in the first half of April.

The port of Zhdanov consists of the Outer and Inner Roads, the Ugolnaya (or the Coal) Harbour, the Grain Harbour, the Ship-repairing Basin, the Schmidt Harbour at the mouth of the Kalmius river, and the port of Azovstal situated Eastward of the mouth of the river.

**DOCUMENTS:** Refer to beginning of U.S.S.R. section.

**PILOTAGE:** Compulsory. Inform Kerch Harbour Master ETA 96 hours 24 hours and 6 hours, off Kerch Strait. On arrival Kerch Pilot Buoy No. 21 (Lat. 45° 13′ 37″ N. Long. 36° 27′ 45″ E.), drop anchor and await Pilot; also keep continuous radio watch. 48 hours prior arrive, advise Port Controller and "Inflot" Agency, ETA description and quantity of cargo, location and weights of heavy lifts (if any), number of passengers, draft and length, and declare services required, 24 hours at latest but giving more precise information 4 hours prior to arrival at mouth Zhdanov canal. Entering and sailing day and night.

Not later than 4 hours prior to arrival at the mouth of the Coal Harbour approach channel, buoy No. 16, a Master should order a Harbour Pilot.

**ANCHORAGE:** With protection from seaward by moles, the port is a safe anchorage. Outer Zhdanov Roads depth up to 8·2 m. Limits of Roads on Eastern side are meridian of Kosa Liapina (headland), on Northern side – the five metre isobath. At anchor in Roads Master should bear in mind that Roads are open to winds veering from N.E. via S. to S.W. and in autumn the water level is subject to falls and rises on account of winds. The bottom holds anchors well. Inner Roads are within port's aquatorium and protected by dike erections.

**RESTRICTIONS:** Vessels can enter or leave the port at any time of day and night. All vessels entering or leaving the port should have keel clearance not less than 0·5 ft. (15 cm.).

The maximum allowed speed in the approach channels is 4·5 knots and in the part of the Coal Harbour approach channel, protected by a wooden dam, only 3 knots.

The speed of a vessel may be increased in case of necessity to keep her course along the leading line or prevent her drifting off the channel due to the effect of current or wind.

**MAX. SIZE:** Draft 7·7 m., length/breadth no restrictions.

**HEALTH:** After presenting Vaccination Certificates free pratique obtained. After proceeding from one port of U.S.S.R. to another free pratique obtained automatically.

**RADIO:** Vessels approaching the port of Zhdanov should establish radio contact through Zhdanov Radio port radio station operating 24 hours daily on he following frequencies:

| *Call sign* | *Working* | *Calling* | *Type of trans-mission* | *Time* |
|---|---|---|---|---|
| UDC | 500 kc/s.<br>416 kc/s. | 500 kc/s. | A1 | H24 |
| UBN | 12,732 kc/s.<br>17,085 kc/s. | 12,550 kc/s.<br>16,734 kc/s. | A1 | HX |
| UBN | 22,616 kc/s. | 22,247·5 kc/s. | | |
| UBN | 8,620 kc/s. | 8,363 kc/s. | A1 | H24 |
| Zhdanov Radio | 2,182 kc/s. | 2,182 kc/s. | A3 | H24 |
| Port Control | 156·45 mc/s. | 156·80 mc/s. | F3 | H24 |
| Port Nadzor | 156·70 mc/s. | 156·80 mc/s. | F3 | HX |

**RADAR:** The port of Zhdanov radar station gives all possible information to any vessel navigating along the Coal Harbour approach channels in the restricted visibility and during the absence of the floating navigation marks.

Radar navigation is controlled by a Pilot in charge.

Storm signals are exhibited at a signal mast located at the Dividing Pier.

**TUGS:** Available. Use ship's lines. Tug assistance for shifting berths is compulsory. Number of tugs to be ordered shall be advised by Pilot.

**BERTHING:** The berths of the port with depths of up to 7·7 m. are equipped to handle general, bulk and liquid cargoes, timber, metals, food stuff, fruit, vegetables, etc., and passenger shipping as well. There are enclosed warehouses, open concrete floor sheds and a grain elevator.

On the quays there are electric cranes of up to 15 tons capacity, coal and grain loaders. There are floating cranes with lifting capacity of up to 100 tons and other cargo handling equipment.

*The Grain Harbour* is bounded by two piers – by the Dividing Pier from South-westward and by the Eastern Pier from North-eastward.

It is protected from South-easterly winds by the Inner Roads Breakwater. There are numerous piles and dolphins along the Eastern Pier. The depths in the central part of the Grain Harbour are from 8·7 m. to 9·1 m.

*The Schmidt Harbour* is situated at the right bank of the mouth of the Kalmius River, at the South-eastern outskirts of the town of Zhdanov. It is used by small vessls. The access to the Schmidt Harbour is by an approach channel dredged in the coastal shoal water. Navigation along the channel is ensured by leading lights.

Storm signals are shown at the station situation Southward o entry to the Schmidt Harbour.

*The Coal Harbour* approach channel is the main fairway for to the port of Zhdanov. It passes through a coastal shoal enters the Southern part of the Coal Harbour.

Navigation along the Avant-port and the Coal Harbour appro channels is also ensured by leading lights, light buoys and buoys.

*The access to the port of Azovstal* is by a channel branching North-eastward of the Coal Harbour approach channel.

**MEDICAL:** Masters to advise by radio prior arrival of med attendance required on board. Hospital facilities available. Vacci tion Certificates to be presented.

**DENSITY:** About 1005.

**WEATHER:** Changes of the water level in the Taganrog Gulf caused by strong winds and variation in atmospheric press ("Seish").

Rise of the water level is due to South-westerly winds. Fall of water level is usually caused by Easterly and North-easterly win Range of water level is about 1 m.

Maximum range of water level due to variation in atmosphe pressure observed in August is about 0·6 m. The "Seish" usu starts in calm weather and may last for several days.

**FRESH WATER:** Delivered at berth. Also delivered by lighters

**FUEL:** Only heavy fuel and gas oil available. Supplied from quays, and also delivered by lighters.

**OPENING/CLOSING HATCHES:** Crew allowed open and clo stevedores placing beams.

**CERTIFICATES:** Registered Tonnage Certificates required.

**CUSTOMS ALLOWANCES:** No quantity restrictions. Noth to be taken ashore.

**IDENTIFICATION CARDS:** Not required.

**CONSULS:** None.

**REPAIRS:** The Ship-repairing Basin is situated in the North part of the Inner Roads. It is bounded on the South-west by Eastern Pier and on the East by the Eastern Damb. The entrance the Basin is situated between the heads of the Eastern Pier and Eastern Damb. The depths in the Basin are from 6·1 m. to 9·9 m.

All kinds of repairs for vessels of up to 9,000 tons dwt. can carried out.

**DRY DOCKS:** 2,500 and 5,000 tons.

**REPATRIATION:** All facilities for repatriation subject to formalities.

**AIRPORT:** 15 km. from port with regular airlines.

**TIME:** Local time GMT plus three hours.

**HOLIDAYS:** 1st January; 1st, 2nd, 9th May; 7th, 8th Novemb 5th December.

**AMBULANCE/FIRE:** Ambulance 025; Fire 01.

**TELEPHONES:** Can be placed on board.

**AUTHORITY:** Manager of Sea Trading Port Zhdanov, tel. 3-95- 34. Postal address: 99 the Port Street, Zhdanov-10, Donetsk regi U.S.S.R. Cables "Morport Zhdanov".

**AGENTS:** Zhdanov Main Maritime Agency "Inflot" head office port Zhdanov, branches in port Berdjansk and Kerch. Post addre Portovaya 99, Zhdanov, U.S.S.R. Tel. 3–95–271, 3–95–415. Cabl Inflot. Telex: 195.

# United Arab Emirates

## ABU AL BU KHOOSH: 25.26 N. 53.08 E.

**LOCATION:** The terminal is bounded by the following co-ordina South of Sassan Oil Field.

(a) 25.21 N. 53.05 E.
(b) 25.29 N. 53.12 E.
(c) 25.26 N. 53.05 E.
(d) 25.26 N. 53.12 E.

Anchoring is prohibited within this area.

**OPERATORS:** Total ABK – Abu Dhabi. Telex AH 2347.

**DOCUMENTS:** Total ABK act as Agents and prepare all crude loading documents.

*Early departure procedure:* At the Master's option, he may order to expedite the turn-round of vessels and avoid undue del caused by weather or other circumstances, use the early depart procedure. In this case Masters are requested to sign blank car documents.

Normally completed cargo documents required by the Mas will be placed on board prior to sailing. If this is not possible with incurring delays of undue nature, the relevant documents wil airmailed to the Master to await the vessel's arrival at discha port.

The official cargo, quantity loaded, will be transmitted by ra whilst unmooring. In the event of a dispute, the receipt of a le of protest will be acknowledged by the Mooring Master.

Any protests by the Master concerning the quality of cargo sho be made before departure and any resulting investigation should made before the vessel sails.

*Outward clearance:* A tanker will be considered clear to dep Total ABK Terminal when the crude oil loading documents ha been delivered to the Master, or in the case of E.D.P., clearance be given through the Mooring Master.

*Mail:* Official ship's mail and crew's personal mail will be hand by Total ABK and shipowner's debited accordingly.

**PILOTAGE:** Compulsory within the Terminal limits. Vessels to moored at Total ABK Terminal will be boarded by a Total A Mooring Master in the anchorage area. The Mooring Master advise the ship's Master on approaches to the storage tanker, mooring and unmooring, connecting and disconnecting hoses and all other operations within the Terminal area including all manoeuvring of the vessel. A qualified deck officer must be on watch at all times while the vessel is alongside the storage tanker.

**ANCHORAGE:** An area immediately South of Terminal limits is designated as the Anchorage Area, centred on position: 25° 26′ N., 53° 08′ E. This co-ordinate represents the centre of a circle with a radius of ½ mile which must be used by vessels requiring to wait at anchor. Anchoring within the Terminal limits is strictly prohibited.

**NAVIGATION AIDS:** The S.P.M. is fitted with a white light flashing the morse letter "U" every 30 seconds visible for a distance of 5 miles. A platform AK1 is situated in position 25° 29′ 30·5″ N., 53° 09′ 02.3″ E. and another in position 25° 29′ 37·5″ N., 53° 08′ 43·4″ E. which shows two flares in the North-east direction (approximately) 10 metres and 600 metres.

**MAX. SIZE:** Length 280 metres, breadth 43·40 metres, max. dwt 140,000 tons. Max. size will probably be increased at some future date. Depth of water 30 metres.

**RADIO:** Initial communication between vessels and Total ABK should be via Bahrain Radio (call sign GOU) which operates on a 24-hour basis. ETA in GMT to be sent 72, 48, and 24 hours prior arrival, through Bahrain Radio.

*Communications within 60 miles of Terminal:* Once ships are within 60 miles of ABK Terminal, communication may be established by radio telephone on International Marine VHF Channel 16 (156·8). This frequency is monitored continuously.

Once contact has been made on Channel 16, further conversation should be conducted on either Channel 14 (156·7 mc/s), Channel 12 (156·60 mc/s) or Channel 6 (156·3 mc/s).

*Communications after Total ABK Mooring Master has boarded:* A Total ABK Mooring Master will board incoming tankers in the anchorage area and will bring with him portable VHF radio telephone units. From that time onwards, all and any communications between ship and the storage vessel will be conducted by the Mooring Master.

*Radio transmissions for advice of tanker arrivals:* Telegram to be sent by the storage tanker to the export tanker about 80 hours before her arrival:

Please advise your ETA in GMT 72, 48 and 24 hours before arrival to Total ABK Abu Dhabi, Telex AH 2347, via Bahrein Radio stop Cargo requirements stop Deballasting time if any stop Maximum loading rate acceptable stop Distance in metres from bow to manifold stop Flange dimensions of vessel's manifold connection stop 50 miles before arrival please contact terminal by VHF Channel 16 to receive berthing instructions stop Total ABK.

*Mooring instructions:* If vessels are obliged or instructed to anchor, they should do so in the recommended area about 3 nautical miles from the storage vessel.

**READINESS:** After arrival at the anchorage area and when the tanker is ready in every respect to load, the Master may tender his notice of readiness.

Notices of readiness will be accepted provided one or other of the following events shall have transpired: (a) the Master shall have received the Mooring Master on board, or (b) the Master shall have dropped anchor in the anchorage area.

*Port closed:* Notices of readiness will not be accepted during periods when the port is closed. The port is closed when the weather is such that it is too rough for incoming tankers to berth. The decision regarding the opening and closing of the port will rest with the ABK Terminal Superintendent or his deputy.

**MOORING:** Weather permitting, Total Abu Al Bu Khoosh Terminal operates only from sunrise to sunset, seven days a week. Vessels moor port side to the storage tanker "Jaranda" equipped with five Yokohama fenders on her starboard side, which is moored to the S.P.M. Launch may assist in berthing vessels under the direct control and supervision of the Mooring Master.

*Preparation for mooring:* Vessels are requested to have, on their starboard side, a pilot ladder and/or pilot hoist or accommodation ladder safely and securely rigged for immediate use and long enough to reach the Mooring Master's launch. Vessels will provide a lee for the Mooring Master on the starboard side both when boarding and leaving.

For vessels with a freeboard of 30 feet or more, the accommodation ladder shall be rigged out, lowered down so the platform is not more than 10 feet from the water level and a short pilot ladder, rigged to cover the access to the platform. Tankers are requested to have ready on the forecastle head two head lines, polypropylene if possible.

Tankers are requested to have ready on the port side amidships a derrick rigged and ready to pick up the hoses (16 in. diameter).

*Hoses:* The hoses shall be hoisted by the storage tanker's crane, but connected by ship's crew. The Mooring Master will advise the ship's Officer in charge concerning lifting techniques.

**LOADING:** all communications relative to the loading of the vessel shall be routed through the Mooring Master who will remain in contact with the storage tanker constantly via portable VHF units. In case of temporary breakdown of the portable VHF circuit, contact may be continued on International Marine Channels 16, 14 or 8.

*Failure of communications:* Should all communications with the storage tanker fail, loading will cease immediately.

*Emergency shut down:* An emergency cessation of loading may be affected by use of the ship's VHF Channel 16.

*Loading rates:* Maximum loading rate will be 6,000 metric tons per hour.

*Gases:* ABK crude oil contains $H^2S$ (sulphurated hydrogen). This gas quickly deadens the sense of smell so that a dangerous concentration cannot be detected by odour. During loading, gas should be vented off through the tanker's normal venting system. Personnel engaged in ullaging tanks should keep to windward and avoid breathing fumes as much as possible. Resuscitators, breathing apparatus and life-lines should be readily available.

*Valve closure against high-speed loading:* No valves which will stop or seriously impair or reduce the flow rate of oil from the storage tanker are to be operated without pricr agreement with the Mooring Master. The practice of throttling back on the ship's cargo valves is to be avoided. If a lower rate is required, the storage tanker is to be advised and the pumping rate will be reduced to the required level. The Master will be held liable for any damage arising from the sudden cessation of flow caused by default of the ship. It cannot be over emphasised that to do so can be extremely dangerous and cause extensive damage to equipment.

**BALLAST:** Due to the exposed location of the crude oil loading berth, vessels are required to carry sufficient ballast for safe handling, having due regard to existing weather and sea conditions. A vessel found by the Mooring Master to be not adequately ballasted will be rejected.

*Clean ballast:* As there are no ballast discharging facilities, vessels must arrive at the Terminal with clean ballast, ensuring that all pipelines, pumps and strainers have been flushed out prior to arriving. The Mooring Master will inspect ship's ballast on boarding and has the power to reject any vessel that he thinks would cause pollution of the sea area, in which case vessel must proceed to sea and return only when ballast is completely free of oil. Any vessel rejected besause of dirty ballast will automatically nullify its Notice of Readiness and will lose any priority of position for loading. Ballast discharge should not be commenced without the prior agreement of the Mooring Master.

*Inspection during loading:* At night the sea around the vessel shall be adequately lit, as frequent inspection by the Mooring Master will be made during the discharge of ballast. Any pollution whatsoever will be cause for rejection. Similarly, any hull leaks causing pollution during loading will be cause for rejection and the vessel will not be re-accepted unless satisfactory evidence of repairs has been certified by a qualified surveyor.

**MEDICAL:** Medical and dental services are not available at the Terminal. In emergencies requiring hospitalisation, the patient will be hoisted to the helideck on the storage tanker and flown by helicopter to Dubai or Abu Dhabi.

**FRESH WATER, FUEL, etc.:** Bunkers, fresh water, stores, boats for hire, repair facilities, facilities for changing ship's crew are not available at the Terminal.

**GENERAL:**

*Radio equipment:* Radio, radar or other electric equipment must not be energised while the vessel is alongside the SPM except VHF radios, telephone and communications equipment approved by the Terminal.

*Repairs:* While berthed at the Terminal, the ship's boilers, main engine, steering machinery and other equipment essential for manoeuvring shall be maintained in a condition to permit the ship to move away from storage vessel at short notice. Repairs or other work which may immobilise the ship should not be undertaken without prior arrangement with the Terminal.

## DAS ISLAND: Abu Dhabi, 25.09 N. 52.52 E. (See Plan)

*Note:* Shipping operations Das Island governed by Abu Dhabi (Port of Das Island) Regulation, 1963 (Queen's Regulation No. 2 of 1963). Owners recommended provide Masters in advance with copies of Regulations obtainable from H.M. Stationery Office.

**DESCRIPTION:** Das Island some 160 miles South-east of Bahrain and is part of State of Abu Dhabi, largest of Arab Emirates. The Island is base for off-shore drilling and export of crude oil by Abu Dhabi Marine Areas Limited – ADMA.

**DOCUMENTS:**

Bills of Health for Ports visited on voyage.
2 Crew Lists.
3 Manifests (1 original and 2 copies).
1 International Maritime Declaration of Health.

**APPROACHES AND PROHIBITED ANCHORAGES:** Umm Shaif and Zakum drilling areas situated some 20 miles East and 48 miles South-east of Das Island together with pipeline to Das Island from Zakum field are marked on Admiralty Charts. Only selected towers equipped with lights, all other wellheads, drilling rigs and towers within drilling areas are unlighted. Wellheads in Umm Shaif field telemetered and controlled by microwave radio beams transmitted from radio tower on Das Island. Unburied pipelines from wellheads to Island also in this area and it *is essential* that vessels do *not* steam into or anchor in it. Cautions have been issued in Notices to Mariners warning vessels against entering both Umm Shaif and Zakum areas and against anchoring in vicinity of Zakum Pipeline.

*Southern Route.* Vessels should normally approach port from South and must pass not less than 3 miles South of drilling rigs and towers in Umm Shaif area, thence towards South-east corner of Island. Vessels must leave port by this route unless they have to use Northern buoyed channel.

*Northern Route.* Is via buoyed channel which primarily intended for use of deep draughted vessels sailing from port. Vessels arriving should normally use the channel only if their draught is such that Southern Route cannot be used with safety. Prior radio advice of vessel's intention to use channel to enter port should be given to ADMA. When using Northern Route vessels should not pass at greater distance than 1½ miles East of shore of Das Island when negotiating area between No. 2 berth and channel entrance buoys.

**PILOTAGE:** Berthing Master will undertake pilotage, berthing and unberthing of tankers save that Master shall remain solely responsible, on behalf of owners for safety and proper navigation. Berthing Master will normally board vessels approaching Das Island by Southern Route approximately 2 miles South-east of southern extremity of Das Island. When approaching Das Island by Northern Route via buoyed channel Berthing Master will board from position 030° 3 miles from Das Island Light. If adverse weather prevents boarding in this position Berthing Master will board in lee of Das Island. Vessels requested not to navigate at greater distance than 1½ miles off Das Island when passing through cautioned area Eastwards of Das Island where anchoring is prohibited.

**ANCHORAGES:** Main anchorage for dry-cargo vessels is in about 40 ft. of water, approximately ½ mile from Harbour South of tanker loading berth. Other anchorages for dry-cargo vessels lie to Southwest and West of the Island. Tankers should normally anchor approximately 1½ to 2 miles South-east of the Southern loading platform, should a berth not be immediately available.

Vessels should avoid anchoring in vicinity of submarine pipelines established to Eastward of Das Island.

Sea bed all round Island is rock, covered with a few inches of loose sand. Holding is poor and vessels are advised to pay out at least 60 fathoms of chain. Vessels at anchor, awaiting berths, lighters or any services provided by the port must at all times keep a listening watch using Channel 16 where possible. If a vessel is not equipped to operate on this Channel then any of the frequencies may be used by arrangement.

**MAX. SIZE:** No. 1 Tanker Berth is suitable for berthing tankers in ballast condition up to 90,000 Summer dwt. and when fully loaded up to 50,000 dwt. Minimum depth of water alongside the berth is 55 ft.

No. 2 Tanker Berth is suitable for berthing tankers in ballast condition up to 260,000 Summer dwt., fully loaded tankers of up to 130,000 dwt. and partially loaded tankers of up to 165,000 tons displacement with mean draft not exceeding 56 ft. Minimum depth alongside is 67 ft.

No. 3 Tanker Berth is suitable for berthing tankers in ballast condition up to 300,000 tons S. dwt. and with a loaded draft not exceeding 73 ft.

**WEATHER AND TIDE:** Prevailing winds are from the North-west. The rise of the tide can be up to 5 ft., usual variation is 3 ft.

**HEALTH:** Vessels arriving at Das must carry the usual Bills of Health for ports visited on the voyage. Masters of vessels are requested to inform ADMA if there is any person ill on board or if there has been sickness within the week prior to arrival. Pratique is granted by the Port Medical Officer through the Berthing Master or Agency Clerk.

**RADIO:** *Das Radio Station.* Position: 25° 08′ 43″ N. 52° 52′ 38″ E. Call sign: 2AI 15.

*Details of Transmission:*

| *Service* | *Frequencies* kc/s | *Transmission* | *Radiated Power kw* |
|---|---|---|---|

| (iv) | Continuous watch kept on 157·1 mc/s – reply on 161·7 mc/s (Channel 22). Watch kept on 157 mc/s – reply on 161·6 mc/s (Channel 20) by arrangement. |

*Arrival Messages.* All vessels bound for Das Island should contact ADMA Radio Station and give 72 hours notice of ETA. Where this is not practicable they should give at least 48 hours notice. In the event of difficulties this information should be transmitted to Das via the Cable Wireless Station at Bahrain. As soon as direct contact is established between a vessel and ADMA Radio Station, the latter will advise the route to be followed in approaching the Island.

**TUGS:** Tugs provided by ADMA must be used by all tankers when berthing and unberthing.

**BERTHING:** Full power must be available on main engines during berthing operations. Berthing Masters will not berth vessels if not properly equipped with satisfactory mooring lines, or if deck appliances inoperable, or if steering gear, telegraphs and whistles not in an efficient condition. Master should notify Berthing Master of any defects or peculiarities of vessel.

*No. 1 Berth:* No. 1 Tanker Berth approximately ¾ mile off East coast of Das Island is served by submarine pipeline from tankage on Island. Tankers berth against four flexible dolphins which protect berth operating platform. Six mooring dolphins are each provided with twin bollards. Each dolphin carries permanent mooring wire secured to Senhouse slip enabling quick release in emergencies. Hooks for backsprings located on operating platform are each equipped with 48 ft. length of 18-in. cable-laid manilla spring. Loading installation comprises four booms each equipped with 10-in. bore flexible for loading crude oil. Two similar booms available for loading discharging bunkers. Fittings available to connect these hose 8-in., 10-in. and 12-in. manifolds to ASA 150 or BS 1560–1968, 300 or BS. "H" details.

*No. 2 Berth:* No. 2 Tanker Berth is sited to the North of Tanker Berth. It is of similar construction to No. 1 berth except quick release hooks are provided on the mooring dolphins and the breasting dolphins for securing vessels' backsprings. Perma mooring wires are provided on the four inner mooring dolph The loading installation comprises three 16-in. booms with hoses for crude oil loading, one 16 in. boom with 12-in. hose crude oil loading and bunker discharging, and two 12-in. bo with 10-in hoses for bunker loading. Fittings are available to co to 4-in., 5-in., 6-in., 8-in. and 10-in. manifolds for crude oil loa with flanges to BS., ASA and metric standard details.

*No. 3 Berth:* No. 3 Berth is a Single Point mooring buoy an situated approximately 7,500 ft. East of the East coast, in posi Lat. 25° 08′ 53″ North, Long. 52° 54′ 07″ East.

The mooring for tankers are comprised of two 15 in. circumfere floating nylon ropes, terminating in a 3 in. dia. stud link cha chain which is secured to the tankers forward mooring bitts usi 15 in. circumference nylonsnotter. This equipment is provide the Company.

The loading installation comprises two 20 in. diameter floa hose strings terminating in 16 in. diameter tail hose for crude load For bunker loading and discharge one 16 in. floating hose st terminating in one 12 in. tail hose, is provided. The flanges ar BS 1560.

Vessels using this berth will be required to be fitted with a fairlead on or near the centre line to accept the chafing chain. minimum aperture dimensions are 24 in. horizontally and 1 vertically to permit direct connection. Alternative arrangements provided for mooring vessels with smaller size apertures.

Vessels also require a derrick or crane capable of plumbing least 2 ft. outboard of the ships side over the entire length of port manifold (including the bunker connection if required). S of the crane/derrick to be in accordance with the following requ ments:

| | |
|---|---|
| Less than 45,000 tons S. dwt | 7 tons SWL |
| 45,000–100,000 tons S. dwt | 8 tons SWL |
| Over 100,000 tons S. dwt | 10 tons SWL |

Berths cannot be occupied during adverse easterly weat Loaded tankers only berthed at discretion of Port Officer and de from tidal conditions, awaiting daylight, etc., may be incu Minimum acceptable length overall 525 ft. Vessels other than must not approach nearer than 2 miles to premises witho Berthing Master on board unless otherwise instructed by Officer. In approaching and leaving berths it is essential to a anchoring in area of submarine pipelines which run in approxima east and west direction some 2,500 ft. north of No. 2 berth. We and other conditions permitting, tankers can berth and unbert all times. Every vessel berthing must fit adequate rat guards to mooring ropes and wires.

**GENERAL CARGO OPERATIONS:**

(*a*) *Declaration of Dangerous Cargo:* Attention is drawn to Sec 58 of the Queen's Regulation whereby any dangerous cargo, whe intended for Das Island or not, must be declared to the Port Offi on arrival.

(*b*) *Discharge or Loading of Dry Cargo:* Cargo vessels discha in the anchorage into barges using their own gear, and should a with derricks rigged.

A series of dumb barges (average capacity 120 tons dwt.) normally available for landing all cargo. Charges are usually m for stevedoring services up to under ship's tackle and for suppl tally clerks on board the vessels.

For the handling of cargo, a labour force of up to 50 men is usu available.

Whenever possible, the Island craft will come alongside imme ately a vessel anchors and the Cargo Superintendent will board discuss handling procedure with the Chief Officer. Discharge cargo is carried out continuously provided weather and oth conditions permit.

Vessels may be asked to provide winchmen.

(*c*) *Cargo Manifests:* One original and two copies of gen cargo manifests are required.

**LOADING:** Two grades of crude are available on each be Zakum Crude average API 40·5 and Umm Shaif Crude with aver API 37·5.

*Loading:* Loading will not commence until the ship's load officer reports the ship ready for loading and the shore loading are satisfied with the connections and preparations made loading.

*Loading and Discharging Rates:*

No. 1 Berth

Crude oil loading maximum 5,000 tph with a maximum of 1,250 through each hose

| | |
|---|---|
| Bunker discharging | 1,800 tph approximately |
| Bunker loading | 650 tph approximately |

No. 2 Berth

| | |
|---|---|
| Crude Oil loading | 10–12,000 tph approximately |
| Bunker discharging | 2,000 tph approximately |
| Bunker loading | 750 tph approximately |

No. 3 Berth

| | |
|---|---|
| Crude oil loading | 10–15,000 tph approximately |
| Bunker discharge | |
| Bunker loading | 1,000 tph approximately |

The permissible maximum loading rate is entirely at the Company's option and will vary according to the circumstances and the type of tanker concerned, subject always to the Master's over-riding discretion.

*Pumping Signals:* Pumping Operations are controlled by a cable signalling system between the berth operating platform and the Control Room on the Island. The platform is also linked to the Island Automatic Telephone Exchange.

In the event of failure of direct communications the following visual and sound signals should be used between tankers and the Marine Office Signal Station:

| *Signal* | *Whistle by night and day* | *Flag Signal by day* | *Light at night* |
|---|---|---|---|
| Ready to load | 6 short blasts | Code flag N | Morse N |
| Slow Speed | 1 long blast | 1 square red shape or flag | 1 red light |
| Full Speed | 2 short blasts | 2 square red shapes or flags | 2 red lights |
| Stop | 3 long blasts | Shapes or flags lowered | Lights lowered |

At No. 3 Berth, pumping operations are controlled by portable VHF radio telephone between the vessel and the Control Room on the Island.

**BALLAST:** There are no facilities for receiving vessels ballast ashore for treatment. All vessels must have clearn ballast for overboard discharge.

Vessels using No. 3 Berth will be required to deballast and load simultaneously so that in normal circumstances they will not be flying light whilst moored at the buoy. It is therefore essential that the Company be promptly informed should the vessel be unable to deballast and load simultaneously with risk of admixture.

**MEDICAL:** Medical Officer resident on Island and ADMA maintain small hospital. Medical attention only available in case of serious illness or emergency.

**FRESH WATER:** Not available.

**FUEL:** Medium fuel oils available from shore storage. Average API 17·5 and maximum viscosity 1,500 seconds Redwood. Diesel available.

**FIRE PRECAUTIONS:** Three fire-fighting tugs available.

**GANGWAY:** Ship's gangway required on No. 1 tanker berth.

**TOBACCO ALLOWANCE:** No restrictions.

**WINE/SPIRIT ALLOWANCE:** Conveyance of alcoholic liquor from any vessel to the shore or from the shore to any vessel, or from one vessel to another, is prohibited without the appropriate written permits from the Political Agent and the Port Officer.

**CONSULS:** HBM Hon. Consul, Marine Department, ADMA Ltd., Das Island, Abu Dhabi, Arabian Gulf – Tel. 546, Cables, Admarine Das Bahrain.

**REPAIRS:** Not available.

**DRY DOCKS:** None.

**REPATRIATION:** Limited.

**AIRPORT:** ADMA operated private Airport. 5 flights per week. Limited capacity, seats subject to availability.

**TIME:** GMT plus 4 hours.

**HOLIDAYS:** 1st January; Easter Sunday; 25th December and Moslem holidays.

**POLICE/AMBULANCE/FIRE:** Tel. Police 258; Ambulance 333; Fire 353.

**SHORE LEAVE:** Not permitted.

**DEVELOPMENTS:** Gas liquefaction plant to be built with expected annual capacity of about three million tons of liquefied gas. The plant will also produce naphtha and sulphur and is expected operational in 1976. Operators will be Abu Dhabi Marine Areas Ltd. (ADMA). Sulphur produced will be moved from the plant by on-shore stocking-out conveyors to form a stockpile. It will then be taken to the shiploader on its own jetty offshore by 1,450 metres (1,190 yards) of conveyor handling 500 tons an hour.

**AUTHORITY:** Marine Superintendent, ADMA Ltd., Das Island, Abu Dhabi. Tel: Das Island 546, 412 or 331.

**AGENT:** (Protecting only) See "Mina Zayed".

## DUBAI: 25.16 N. 55.18 E.

Also see "Port Rashid".

**COURTESY FLAG:** Dubai flag resembles an "H" or pilot flag, and this could be shown until Agent's representative brings one on board.

**PROHIBITED AREA:** Work on the construction of the Dubai dry dock has commenced and all shipping is warned to keep clear of an area contained within a line drawn from Port Rashid Main Light (lat. 25° 16.0′ N., long. 55° 16.2′ E.) to a position (lat. 25° 16.2′ N., long. 55° 15.1′ E.) i.e. 272–1,850 metres from this light thence to the shore line on a Bearing of 180°. This has been declared a prohibited area.

Small craft, dredgers and hooper barges will be operating within this area. The main breakwater will consist initially of an island with the breakwater extending both seawards and shorewards from it.

White flashing beacons will be positioned at 400 m. intervals along the breakwater and in addition various construction lights will be exhibited.

Legal steps will be taken against any negligence whatsoever from Masters.

**DOCUMENTS:** Following should be airmailed to Agent prior ship's arrival: 6 copies Dangerous Cargo List, Stowage plan in duplicate, Hatch list in duplicate, 7 copies of cargo manifests, 1 copy of each Bill of Lading. On arrival, 3 crew Lists required.

**APPROACHES:** Open roadstead. Cargo discharged into barges.

**ANCHORAGE:** Marked by light buoy in position 310°, 1·06 miles from Nayif Tower. Recommended anchor to N.E. of light buoy in approx. position 25° 17′ 4″ N., 55° 16′ 16″ E. Depth 36 to 40 ft., holding-ground considered poor, bottom sand and coral. The closer ships are able to anchor to the buoy, the faster turn-around on barges will be attained. *Warning:* Occasional strong N.W. winds, known as "Shamal" will make discharging impossible and *it is very important* that ships have engines on "stand-by" during such times. Ships allowed enter and leave anchorage at any time of day or night. Launch service through Agent's ship to shore from anchorage, and ship's own boats can also be used without Authorities' permission.

**PILOTAGE:** None.

**RESTRICTIONS:** All cargo discharged into barges at anchorage. Coasters with drafts of 11 ft. 6 in. or less can enter creek and discharge alongside. Such vessels usually require a tug boat to pilot them into the creek. Tugs available through Agent. Importation of artificial pearls is prohibited. Purchase of liquor forbidden except by permit.

**HEALTH:** Prior arrival, Masters are required to send a cable to the Port Health Dept. addressed "Quarantine-Municipality-Dubai" on the following lines:

(Vessel's name) . . . ETA . . . Hour . . . Date . . .
Crew all healthy request free pratique
Master

Normally all vessels declared healthy by the Master are automatically allowed to berth immediately on arrival, and Health Dept. personnel will board vessels after berthing.

*Arrival:* Ships boarded immediately upon arrival weather permitting, and Masters then have to complete a short Arrival Report. No formalities of any kind with Port Authorities and ships allowed to arrive and sail at any time.

*Departure:* No port clearance is issued in Dubai. A letter will be issued by Agent which may be produced at next port of call instead of usual departure clearance.

**RADIO:** No port radio station. Cables from vessels outside Gulf may be routed through Muscat Radio, and from inside Gulf through Bahrain Radio. Vessels should advise Agent of ETA 72, 48 and 24 hours prior arrival. Some Agents also equipped with VHF calling Channel 16. Ship's radio station may be operated at anchorage.

Nearing Dubai and approximately 8–10 hours prior to arrival vessel, should switch on VHF Channel 16 and call Agent. On contact, change to one of Channels 14, 13, 12, 9 or 6 for further communication. Regular contact then maintained until departure from Dubai.

**DISCHARGE TURN:** Priority of discharge given to ships carrying mail and/or passengers for Dubai. Ships carrying less than 100 weight or measurement tons have priority and are supplied with one barge for discharge of cargo immediately on arrival, whether turn is in force or not. Should there be congestion, Agents require Stowage Plan showing clearly that all Dubai cargo is freely available and Master's signature on a request for discharge turn. Based on this, vessels will be registered for turn. Registration can only performed during office hours.

After confirmed registration, at which will be given a deadline for turn, ships may proceed to other ports for discharge, but must return Dubai prior time and date given, otherwise turn is lost. Particular cargoes for H.H. The Ruler have priority. This should be evidenced by Manifests which will be produced to Customs Authorities in Dubai for approval. The cargoes must be accessible for immediate discharge, which should be verified by stowage plan.

**STEVEDORES:** Loading/Discharging Rates: Stevedores, tally clerks, supervisors, etc., will be supplied from shore at the same time as ships are supplied with barges. These people working under vessels' supervision and reponsibility.

First Shift: from 0800 hours to 1800 hours. Second shift: from 1800 hours to 2400 hours. Third Shift: from 0000 hours to 0800 hours. Very difficult to get stevedores to work third shift unless ship will complete within a reasonable time into the third shift. First two shifts always worked.

Drinking water must be supplied by ship free of charge to all men from shore but food to supervisors, tally clerks, watchmen and foremen.

Expected outturn working three hooks:

| | |
|---|---|
| Bagged cargo | 400–500 tons |
| Cased cargo | 150–200 ,, |
| Timber on deck | 300–350 ,, |
| Timber in hatches | 200–250 ,, |

Usually five ships can work at one time.

**MEDICAL:** Qualified doctors available ashore and also a hospital. Most medicines available at fairly low prices. Dentist also available. Walking cases should be brought ashore *in the morning* for treatment, but in emergency, a doctor will board the ship.

**TANKERS:** See "Port Rashid".

**FRESH WATER:** Can be supplied at Dubai anchorage at following rates (approx.): quantities 600 tons, 75 tons, or 25 tons at one time.

**FUEL:** See "Port Rashid".

**FIRE FIGHTING:** No facilities available at anchorage.

**DEVELOPMENTS:** Three dry docks for vessels up to one million tons dwt. under construction, completion planned for 1976. Dimensions as follows: Length 1,230 ft., breadth 230 ft. for vessels up to 500,000 tons dwt.

Length 1,361 ft., breadth 262 ft. for up to 500,000 dwt. and for vessels of special design, such as shallow-draft tankers.

Length 1,722 ft., breadth 410 ft. for 1,000,000 tons dwt.

In addition to the three dry docks, there will be eleven berths and five moorings for handling all types of repair fabrication and maintenance work. The agreement for the construction of this complex was signed in September 1973, and when fully operational the facility is expected to employ about 4,000 people.

**CUSTOMS ALLOWANCES:** *Tobacco:* 1,000 cigarettes or 200 cigars or one kilo of tobacco. *Perfumes:* One litre of toilet water (Eau de Cologne) and not more than 150 grams of perfume. *Currency:* Unlimited. *Alcoholic Liquor:* 1½ litres of wine and 1½ litres of other alcoholic beverages provided that the arriving passenger is a non-Muslim.

**CONSULS:** The British Embassy, the Kuwait Embassy, the Indian Consulate and the Pakistan Consulate.

**REPAIRS:** Fully equipped engineering workshops capable of carrying out fairly extensive repairs available.

**DRY DOCK:** See "Developments".

**REPATRIATION:** Official signing-off and signing-on can be made only for British flag vessels as no other country represented in Dubai. However, crew change can be effected through Agent. Arriving or departing crew do not require visas but must hold valid Seaman Books. The Seaman Book will substitute the visa which otherwise is compulsory.

**AIRPORT:** Regular international scheduled flights. Also domestic flights within Gulf area.

**TIME:** GMT plus 4 hours.

**HOLIDAYS:** Every Friday which is Muslim Sabbath. Banks closed on this day. During the year there are the following Idd Holidays: Idd al Adha (about end February); New Year's Day (19 March); Idd al Fitr (about beginning December). Holidays shift according to the Muslim Year.

**SHORE LEAVE:** Officers and crew may come ashore during daylight hours for shopping and recreation. They shall then carry a valid passport, ID-card or Seaman Book, which will be placed at the Immigration Office when landing. The passport, ID-card or Seaman Book will be returned upon returning to ship. No alcoholic beverages allowed to be brought ashore.

**GENERAL:** Dunnage – not available. Heavy lifts – not available at anchorage. Shore cranes have lifting capacity up to 30 tons.

**LAUNDRY:** Available but about two–three days required.

**PROVISIONS:** Fresh vegetables, frozen stuff, bonded stores, etc., available. Requirements should be given immediately on arrival. (The liquor and beer prices are low.)

**SURVEYORS:** Lloyds.

**AUTHORITY:** Port and Customs Dept. Dubai Port Authority.

**AGENT:** Gulf Agency Co. (Dubai) Ltd. POB 2404, Dubai, Trucial States. Cables: "Confidence", Dubai. Tel: 31300. After office hours: 31549, 31367. Telex DB 448 (answer-back: "Confidence DB 448") Radio: Marine VHF radio, stand-by on Channel 16 (156,8 MHz) Callsign "Confidence, Dubai".

Operators of ship-servicing and supply organisation: Crew-changes, mail spares and/or delivery of provisions undertaken at sea without deviation to serviced vessel.

## FATEH TERMINAL (offshore Dubai). (See Plan)

Oil Loading Terminal of the Dubai Petroleum Company.

*Note:* All tankers loading Fateh Terminal cleared by Dubai Petroleum Company, taking care of all necessary documentation concerning cargo. DPC does not charge owners/operators for this service. However, for all other agency services DPC refers owners/operators to regular shipping agents in Dubai.

According present oil company regulations vessels not allowed receive any deliveries or any launch alongside while loading at Terminal. Deliveries of mail, spare parts and performance of crew changes will, therefore, take place at Terminal anchorage, Dubai anchorage, or at a rendezvous point.

Weather permitting, Fateh Terminal operates 24 hours a day, 7 days a week and provided berth not occupied, tankers will be berthed upon arrival, day or night.

**LOCATION:** Fateh Terminal consists of the crude oil production and export facilities of the Fateh and South-West Fateh Fields offshore Dubai, United Arab Emirates. The Terminal Limits are bounded by the following co-ordinates:

| | | |
|---|---|---|
| (1) | 25° 40′ N. | 54° 30′ E. |
| (2) | 25° 40′ N. | 54° 26′ E. |
| (3) | 25° 33′ N. | 54° 15′ E. |
| (4) | 25° 30′ N. | 54° 15′ E. |
| (5) | 25° 28′ N. | 54° 17′ E. |
| (6) | 25° 28′ N. | 54° 30′ E. |

Within this area the anchoring of vessels is prohibited and the Terminal Safety Regulations have effect.

**NAVIGATIONAL AIDS:** Both SPMs are fitted with a white light flashing the Morse letter "U" every 30 seconds visible for a distance of 5 miles.

The three submerged oil storage tanks, platforms, bridges and production units exhibit lights flashing "U" in Morse and are also equipped with foghorns sounding "U" in the Morse Code every 30 seconds. Various working lights are also shown.

The two oil storage vessels Majmaa I and Majmaa II are fitted with a white light flashing the Morse letter "U" every 30 seconds visible for a distance of 5 miles.

Each vessel is also equipped with a continuously operating foghorn sounding the letter "U" in Morse at intervals of 30 seconds.

The Central Production and A Platforms exhibit lights flashing "U" in Morse and a foghorn every 30 seconds sounds the letter "U" in Morse.

Various working lights are also shown from the well platforms within the area. All are fitted with a white light flashing the letter "U" every 30 seconds.

Each well platform is fitted with foghorns sounding "U" in Code every 30 seconds.

Four flares in position:

| | | |
|---|---|---|
| (1) | 25° 35′ 50″ N. | 54° 25′ 50″ E. |
| (2) | 25° 35′ 56″ N. | 54° 25′ 20″ E. |
| (3) | 25° 35′ 48″ N. | 54° 25′ 18″ E. |
| (4) | 25° 29′ 44″ N. | 54° 18′ 29″ E. |

give an orange light which may be visible at a great distanc the Terminal, depending on atmospheric conditions, in additio flare structures show a white light flashing "U" in Morse ev seconds visible for 5 miles.

Numerous small unlit buoys for the use of working craft ma encountered within the Terminal area.

**APPROACHES:** On approaching Terminal, Masters of inco tankers should head for Anchorage Area (see "Anchorage") w under normal conditions, their vessel will be boarded by a Mooring Master.

**ANCHORAGE:** An area immediately East of Terminal Limi designated as the Anchorage Area, centred on position as fol

25° 36′ N.
54° 31′ E.

This co-ordinate represents the centre of a circle with a radi approximately one mile which must be used by vessels requiri wait at anchor. Anchoring within the Terminal limits is strictly hibited. For reference purposes, the anchorage area bearing Port Rashid (Dubai) Light is 298° true, distance 44·6 miles and Jazirat Sirri Light 187.5° true, distance 17·5 miles.

If a tanker is not scheduled to berth on arrival (e.g. another is in the berth, or the port is closed on account of adverse we conditions, etc.) Masters will be advised by radio and requeste anchor.

**FACILITIES:** For the export of crude oil two single point moo buoys have been installed in positions:

(1) 25° 35′ 12.6″ N.
54° 25′ 46.3′ E.
Bearing 261° true 4·8 miles from anchorage.
(2) 25° 35′ 12.6″ N.
54° 24′ 35.0″ E.
Bearing 262° true, 5·7 miles from anchorage.

**READINESS:** After arrival at the Anchorage Area and whe tanker is ready in every respect to load, the Master may tende Notice of Readiness.

Notices of Readiness will be accepted provided one or other following events shall have transpired:

(*a*) The Master shall have received the Mooring Master on b or;

(*b*) The Master shall have dropped the anchor in the Ancho Area.

*Port closed:* Notices of Readiness will not be accepted d periods when the port is closed. The port is "closed" whe weather is such that it is too rough for incoming tankers to The decision regarding the opening and closing of the port wi with the Fateh Terminal Superintendent or his Deputy.

*Order of Berthing:* Vessels will normally berth in order of arri

**DOCUMENTS:** *Documentation and ship's agency:* In the no course of events, DPC acts as tanker Agent and prepares all oil loading documents. For these services no charge is made.

*Early Departure Procedure:* At the Master's discretion. In ord expedite turn-round of vessels in this port and avoid undue d caused by weather or other circumstances, Masters of vesse arrival are requested to sign blank cargo documents.

Normally, completed cargo documents required by the Maste be placed on board prior to sailing. If this is not possible wi incurring undue delays, the relevant documents will be airmaile the Master to await the vessel's arrival at her discharge port.

The official cargo, i.e. quantity loaded, will be transmitted by whilst unmooring. In the event of a dispute, the receipt of a Let Protest will be acknowledged by the Mooring Master. Any pro by the Master concerning the quality of cargo should be made b departure and any resulting investigation should be made befo vessel sails.

*Outward Clearance:* A tanker will be considered clear to d Fateh Terminal when the crude oil loading documents have delivered to the Master, or in the case of early departure, clea will be given through the Mooring Master.

*Mail:* Official ship's mail and crew's personal mail will be ha and shipowners debited accordingly.

**PILOTAGE:** Pilotage is compulsory within the Terminal li Vessels to be moored at Fateh Terminal will be boarded by a Mooring Master in the Anchorage Area. The Mooring Maste advise the ship's Master on approaches to the SPM, moorin unmooring, connecting and disconnecting hoses and all operations within the Terminal area including all manoeuvring vessel. The Master or one of his qualified deck officers must the bridge at all times while the tanker is being manoeuvred.

The services of a Mooring Master are provided without ch upon the express understanding and condition that whe Mooring Master furnished by DPC goes aboard a vessel fo purpose of assisting such a vessel, he becomes for such pur the servant of the owners of the vessel and DPC shall not be for any damage or injury resulting from the advice or assis given or made by such Mooring Master while aboard or in the of the assisted vessel.

**MOORING:** *Preparation for Mooring:* Vessels are requested to pilot ladder, hoist and/or accommodation ladder safely and se rigged for immediate use and long enough to meet the Mooring Master's launch. Vessels will provide a lee for the Mooring Master on the port side both when boarding and leaving.

For vessels with a freeboard of 40 ft. or more, the accommodation ladder shall be rigged out, lowered down so the platform is not more than 10 ft. from the water level and a short pilot ladder rigged to cover the access to the platform.

Tankers are requested to have ready on the forecastle head the following:

(*a*) 2 towing ropes, polypropylene if possible.
(*b*) 2 messenger ropes, minimum lengths of 300 ft.

Tankers are requested to have ready on the port side amidships the following:

(*a*) Derrick rigged and ready to pick up from a launch.
(*b*) Mooring shackles.
(*c*) Wire strops and hose connection gear.

*Securing of the Terminal's Nylon Ropes:* On the near approach to the buoy, a launch will attach a ship's line to one of the Terminal's floating nylon ropes. This will be hove aboard and secured to the towing bracket if the ship is so fitted, or otherwise secured by a ship's or Terminal mooring wire previously passed aboard. The same operation will be repeated with the second nylon rope.

**LOADING:** *Lifting Hoses:*

SPM I: Two 16 in. diameter hoses will be lifted by ship's gear on the port side. Each lift is five tons.

SPM II: Two 16 in. diameter hoses will be lifted by ship's gear on the port side. Each lift will be seven tons.

The hoses shall be hoisted and connected by ship's crew. The Mooring Master will advise the ship's officer in charge concerning lifting techniques.

*Sundry Hose Connecting Equipment:* Tankers shall be equipped with the necessary blocks, tackle, wrenches, gaskets, bolts, nuts, etc., to efficiently effect the hose connection.

*Flange sizes:* 16 in.–12 in. reducers will come on board the tankers with the mooring gear thus enabling tankers with either 16 in. or 12 in. ASA 150 lb. flanges to connect directly to the Terminal hoses. Flange size 16 in.–12 in., 16 in.–10 in. reducers with ASA 150 lb. flanges are available if required to enable tankers with 12 in.–10 in. manifold connections to connect to the Terminal hoses.

*Communications During Loading:* (See Radio.) All communications relative to the loading of the vessel shall be routed through the Mooring Master who will remain in contact with the Production Platform constantly via portable VHF units. In case of temporary breakdown of the portable VHF circuit, contact may be continued on International Marine Channels 16, 14 or 8 if the vessel is so fitted.

*Failure of Communications:* Should communication with the Production Platform fail, loading will cease.

*Emergency Shut down:* An emergency cessation of loading may be effected by the ship's VHF Channel 16.

*Loading rate:* At SPM No. 1 the maximum loading rate will be 40,000 barrels per hour. At SPM No. 2 the maximum loading rate will be 100,000 barrels per hour.

**RADIO:** *Communications with DPC:* Cable Address: Dupetco, Dubai. Telex: DB 423.

*Initial Communication:* Initial communication between ships and DPC should be via Bahrain Radio (call sign GOU) which operates on a 24-hour basis.

*Communications within 60 miles of Terminal:* Once ships are within about 60 miles of Fateh Terminal communication may be established by radio telephone on International Marine VHF Channel 16 (156·8). This frequency is monitored continuously. Once contact has been made on Channel 16, further conversation should be conducted on either Channel 14 (156·7 mc), Channel 13 (156·65 mc), Channel 12 (156·60 mc), or Channel 8 (156·40 mc).

*Communications after DPC Mooring Master has Boarded:* A DPC Mooring Master will board incoming tankers in the anchorage area and will bring with him portable VHF radio telephone units From that time onwards all communications between ship and platform will be conducted by the Mooring Master via the portable VHF units, unless owing to failure of portables it is necessary to revert to mains VHF Channels

*Advice of Tanker Arrivals:*

*Initial Estimated Time of Arrival (ETA):* When a tanker bound for Fateh Terminal is within 72 hours of arrival at Fateh Terminal, the Master should notify DPC by cable via Bahrain Radio giving the following information:

(*a*) Name of tanker.
(*b*) ETA in GMT (Dubai time is GMT+4 throughout the year).
(*c*) Quantity of cargo required.
(*d*) Maximum loading rate.
(*e*) If the ship's hose connections are different from 16-in. or 12-in. standard ASA 150 lb. type, the size should be stated.

*Subsequent ETAs:* Section (*a*) and (*b*) of the above message should be repeated via Bahrain Radio when the tanker is within 24 hours and again when within 12 hours of arrival at the Fateh Terminal.

Unreasonably insufficient or inaccurate ETA messages may alter the order of berthing of ships to the disadvantage of those ships giving sufficient and accurate ETA messages.

*Radio Telephone Communication when Approaching Fateh Terminal:* When about 60 miles off the Terminal contact may be made by radio telephone on International Marine VHF Channel 16, and communications should continue via this method until a DPC Mooring Master boards.

**BALLAST:** *Precautions Regarding Pollution:* It is the responsibility of the ship's Master to see that no crude oil (or bunkers', diesel or bilge) or dirty ballast is pumped or spilled overboard from his ship whilst in the area. Drip pans should be used, especially when disconnecting hoses in order to prevent spillage overboard.

*Scuppers to be Plugged:* Before loading commences, all overside scuppers shall be made oil-tight.

*No facilities for Receiving Dirty Ballast:* At Fateh Terminal there are no slop tanks or facilities for receiving dirty ballast. Tankers must arrive with clean ballast. In the event a tanker does have dirty ballast it will not be allowed to be pumped overboard. The dirty ballast will be collected into one tank, measured and left aboard.

*Discharging Ballast at Night:* During the discharge of ballast in darkness, the sea shall be adequately lighted in the area of discharge.

**MEDICAL:** At Fateh Terminal medical and dental services are not available. In emergencies requiring hospitalisation, the patient will be taken by boat from the tanker to the production platform, hoisted to the upper deck of the platform and flown by helicopter to Dubai. The shipowner will be charged for all expenses incurred.

**FUEL:** Bunker "C" is available at the Fateh Terminal Anchorage from an awaiting bunkering tanker, providing sufficient notice has been given. Arrangements should be made through local shipping agents in Dubai.

**GENERAL:** The following are not available at Fateh Terminal: fresh water; stores; boats for hire; repair facilities; facilities for changing ship's crew.

There is no shore leave.

**AGENT:** Gulf Agency Co. (Dubai) Ltd., POB 2404, Dubai, U.A.E. Cables: "Confidence", Dubai. Tel. 31300, after office hours 31549, 31367. Telex: 448 (answerback: "Confidence DB448").

VHF Radio: standing by on Channel 16 (156·8 mHz) communicating on Channels 14, 12 or 6, call sign "Confidence Dubai".

SSB Radio: standing by on 6910 mHz lower side band, communicating on frequencies 3539, 6910 and 7010 mHz. Call sign "Confidence Dubai".

## JEBEL DHANNA, Abu Dhabi: 24.11 N. 52.38 E.

**FLAG:** See "Mina Zayed".

**APPROACHES:** (*Inward Passage*).

Outer Route between Jazirat az Zarqa and Ghasha Tower Beacon marked by two light floats and four buoys. The two light floats are both port hand marks, and the buoys starboard hand, as indicated by shape, colour and light characteristics. Depths along route vary and shown on chart.

Inner Channel, from Ghasha Tower to berths at Jebel Dhanna marked by 21 light buoys. Least depth in this channel is 46 ft. and minimum width of 800 ft. between Nos. 7 and 10 buoys.

(*Outward Passage*)

After clearing berth an outward bound vessel should steer to pass midway between Nos. 13 and 20 buoys, leaving Alaq Island to starboard. From Nos. 13 and 20 buoys the same track is followed as for inward passage.

**DOCUMENTS:**

2 Crew Lists.
2 Passenger Lists.
2 Manifests.
1 International Maritime Declaration of Health.

**READINESS:** Vessels calling at Jebel Dhanna terminal tender their notice of readiness on arrival at Gasha pilot station while awaiting for Pilot and/or berth. Even though Masters tender their notice of readiness on arrival at Gasha pilot station over radio, the Form of Notice of Readiness will be supplied to Masters when the Pilot/mooring master boards the vessel and the Master can put his arrival time as the time "*notice of readiness tendered*". The Pilot/mooring master is physically receiving the notice of readiness on behalf of the oil company at the time he boards the vessel, and he inserts the time as "*notice of readiness received*". However, the oil company is recording the actual time of Master's tendering time in the loading time-sheet, and the same time will be considered as vessel ready to load from that time.

**EARLY DEPARTURE PROCEDURE:**

A. Early Departure Procedure is presently in effect at Jebel Dhanna.

B. This procedure will be offered to Masters on a voluntary basis but will exclude voyages of less than ten days' duration.

C. Official declaration indicating acceptance/non acceptance will be signed by the Master on arrival.

D. If EDP is requested, Bill of Lading and Manifest will be prepared in advance except for cargo figures and be presented to Master for signature. Master may authorise Agent to sign all other documents on his behalf.

E. Bills of Lading and Manifest will be retained on board as indicated by documentation.

F. On completion of loading, the Terminal will endeavour to present completed cargo documents on board prior to sailing. In the event that the vessel sails before documents are completed vessel to maintain continuous radio watch after sailing, until cargo loaded quantities have been passed to the vessel by the Agent via Bahrain radio. Advice of cargo loaded quantities should be transmitted to the vessel within two hours of sailing, and the quantities so advised should be inserted on Bills of Lading and Manifests.

G. In case of disagreement on Cargo figures, Master may authorise Agent to serve an official Letter of Protest.

H. All ship's documents, sent to London office under this procedure must be endorsed "EDP applied".

This procedure is used by all vessels loading at Jebel Dhanna terminal, but the oil company pointed out that a very limited use of this procedure is actually made inasmuch as all ship's documentation is generally put on board by the time a vessel has disconnected hoses, unmoored and is ready to sail.

**PILOTAGE:** Give 48 hours notice of ETA, etc., to Agent via Cable and Wireless, Bahrain. On confirmation of ETA on VHF Channel 16 either to "Jebel Dhanna Radio" or "Jebel Dhanna Pilots", Pilot will meet and board inward bound ship to West of Gasha Tower Beacon on request and will conduct through Inner channel to berth. Pilots act in same capacity as Mooring Masters in berthing vessels, after which they supervise raising of flexible hoses and connection to ship's manifold. Pilots disembark off Ghasha Tower outwards.

**TIDES:** In outer approaches, i.e. from Zarqa to Ghasha Tower, tides almost purely diurnal, but semi-dirunal effect becomes more evident as Dalma is approached and is (comparatively) most marked at Jebel Dhanna. However, this semi-diurnal effect not of great significance and for all practical purposes it can be taken that there is only one high water and one low water per day throughout length of approach and at Jebel Dhanna, but times of high and low water at various control points are not coincident.

High water at 01 buoy occurs on average about 1½ hours before high water at Jebel Dhanna, but differences may be from about ½ hour up to 2½ hours.

*Tidal Streams.* In berth area, streams generally do not exceed ½ knot and are predominantly confined to S.E. and S.W. quadrants. In outer approaches, streams appear to attain a maximum of 1 knot approximately along line of route, but this information should be regarded with caution as it depends on limited observation.

**ANCHORAGES:** If berth not available, or if ships cannot sail immediately after loading, they can anchor in an area South of Buoys Nos. 13 and 20 and North of Berths. This area marked by No. 15 buoy to West, No. 22 buoy to East and by berths to South. Alaq Island lies in the middle of this area and is marked by two buoys No. 17 and N. Alaq and by S. Alaq Beacon.

**RESTRICTIONS:** Vessels must receive clearance from Jebel Dhanna Terminal to enter channel. This is to ensure that all outward-bound vessels are aware of traffic movements in channel. Mooring, loading and unmooring carried out by day and night.

**MAX. SIZE:** (Also see "Berthing"). Maximum length: 1,100 ft.; Maximum breadth: 180 ft.

*Note:* Draught of laden tankers leaving Jebel Dhanna controlled by depth in Inner Channel between Nos. 7 and 10 Buoys. This is 46 ft. below Chart Datum and Zero of predictions. An allowance of 3 ft. under keel is considered sufficient for vessels to up 100,000 tons. 4 ft. required for vessels in excess of 100,000 dwt., and 5 ft. for vessels over 225,000 dwt.

**EQUIPMENT:** Port and Starboard anchors to be fitted with anchor buoys and sufficient line to facilitate recovery of anchor in the event of loss.

Four good mooring lines of not less than 150 fathoms each and of a suitable size for the vessel. Two additional 150 fathoms lines securely tailed to the first lines for occasions where 150 fathoms may not reach the stern buoys initially.

For vessels of 50,000 dwt and larger, powered mooring winches with 200 fathoms wire mooring rope are recommended.

Suitable new rope stoppers to be available forward and aft.

Two good stoppers for use on 5½ in. circumference wires. Preferably patent carpenter's stoppers.

Two good boat ropes 4½ in. circumference of at least 200 ft. long.

A clean, safe pilot ladder of adequate length battened so as to prevent turning. A suitable line to be ready for hauling gear on board, such as hose clamps, reducers and elbows. A lifebuoy should be placed handy to this ladder.

Tankers of 40,000 dwt and over should have rigged, when in ballast, an accommodation ladder lowered to about 12 ft. above water This can be adjusted to suit the conditions. A pilot ladder should be rigged immediately abaft the accommodation ladder, to within 2 ft. of the water. This will enable the Pilot and others when the vessel is moored to ascend the pilot ladder clear of the launch and then step on to the lower platform of the accommodation ladder.

**HEALTH:** International Maritime Declaration of Health. In case of suspected disease Agent to be informed on VHF Channel 16. Smallpox and cholera inoculation required.

**RADIO:** Cables to Agent, Receivers, etc., should be sent via "Bahrain Radio". When vessels within range they should confirm ETA on Channel 16, 156·8 mc/s to either Jebel Dhanna Terminal Call Sign "Jebel Dhanna" or Jebel Dhanna Pilots call sign "Jebel Dhanna Pilots"; ship's Agent in Jebel Dhanna also equipped with Channel 16.

**TUGS:** No tugs available.

**BERTHING:** Berthing is by mooring to 2 anchors and stern buoys. Arrangements in advance by contacting Jebel Dhanna Pilots on Channel 16.

Berths are approached on W.S.W. course passing S.E. of Alaq Island. Leading lights have been established which will lead ships on the line of the two anchors when in berth. A small marker buoy has been established to assist the Mooring Master in placing starboard anchor in correct position. Vessels berth heading N.W. Holding ground good. Bottom consists of clayey silt.

*Sea Line Loading Berths.* Four sea-line berths Nos. 1, 2, 3 and 4. Nos. 1 and 2 supplied by single 36-in. lines, and Nos. 3 and 4 supplied by 42-in. lines, each terminating in a header which passes under vessel in berth.

| *Berth* | *Draught acceptable* | *Approximate deadweight acceptable* | *Maximum loading rate* | *Strings of flexible hoses* | *Length of sea line* |
|---|---|---|---|---|---|
| No. 1 | 45′ | 83,000 | 6,000 t.p.h. | Two 12″ | 16,269′ |
| No. 2 | 46′ | 85,000 | 6,000 t.p.h. | Two 16″ | 16,427′ |
| No. 3 | 49′ | 90,000 | 11,000 t.p.h. | Four 16″ | 19,000′ |
| No. 4 | 49′ | 90,000 | 11,000 t.p.h. | Four 16″ | 17,000′ |

* Deadweights shown for vessels loading full cargoes. Part C goes may be greater. Nos. 2, 3 and 4 Berths can accommod 250,000 dwt. tankers.

Depth of water available in berth, and swinging circle, after deducti 6 ft. for height above sea bed of sea line end cradle is as follow No. 1 Berth, 51 ft.; No. 2 Berth, 52 ft.; No. 3 Berth, 55 ft.

Swinging circle defined as 1½ ship's lengths from dropping po tion of ship's inshore anchor.

With 3 ft. under keel general limitations as follows:

(*a*) Ships drawing 44 ft. may sail at any time on any day.
(*b*) Ships drawing 45 ft. will rarely have to use tides.
(*c*) Ships drawing 46 ft. will usually have to use tides.
(*d*) Ships drawing 47 ft. will *always* have to use tides.
(*e*) Ships drawing 48 ft. will *occasionally be neaped.*
(*f*) Ships drawing 49 ft. will be neaped 276 days ± per year. The b months are June, July and August.

Seaward ends of pipelines, terminate in 12 in. or 16 in. flexi hoses, there being four such strings of hoses at each berth. T taken up on each side of vessel.

Additional information obtainable from Jebel Dhanna Pilots Channel 16 prior to vessel's arrival.

**HOSES:** Derricks or cranes must be capable of lifting a str of hoses from the sea-bed to a height of 30 ft. above the deck. F lifting 16 in. diameter hoses, the lifting gear should have a S of not less than 10 tons and for 12 in. diameter hoses a SWL of less than 5 tons.

Gear should be rigged on both sides of the vessel in order to hoses on either side or both sides simultaneously as required.

It may be convenient to handle blank flanges, reducers, etc., w the derrick or crane. Reducers or adaptors should be bolted to ships flanges, so as to take 12 in. or 16 in. hose as may be necessa

*Note:* Where a vessel has two or more loading connectio those used should not be less than 7 ft. apart.

Hose Hang off bitts are required at about 10 ft. from the ship rail at the loading manifold to secure the submarine hoses on bo sides.

**LOADING:** Crude oil SG 0·8250/0·8340. API 38/40. The oil load stream of the ship is controlled on shore and it is extremely dang ous if a ship's valve is closed against the flow of oil.

Particular care must be exercised by ship's personnel, towar completion of loading, in the "topping off" tanks to ensure that Terminal is given timely advice of any reduction in loading rate quired. Adequate "stand-by" notice should be given before the fi "stop". To prevent excessive pressure from surge on ship/sho connections, ship valves should be closed slowly.

The Terminal facilities at Jebel Dhanna have been designed that tankers can be loaded by gravity at rates up to 6,000 tons hour in Berths 1 and 2 and 11,000 tons per hour in Berths 3 and 4

**BALLAST:** No facilities for disposal of slops or dirty ballast.

When a vessel enters port waters in ballast, the ballast water overside discharge must be clean and a declaration signed by Master and delivered to the representative of the Terminal to effect. Ashes, oil, oily water or other refuse must not be discharg overboard in port waters. Vessel's scuppers must be effectiv plugged and leakage or spillage of oil aboard ship must not be sw or washed overboard whilst in port waters.

It is essential that vessel is adequately ballasted to ensure s handling and manoeuvring. Please comply with the Mooring Maste requests as to ballast quantity and disposition.

Jebel Dhanna is an open roadstead and subject to sudden chang in weather. On occasions it is of great advantage to commence lo ing whilst discharging ballast or prior to completely deballast to avoid having the vessel in a flying light condition.

**DEVELOPMENTS:** The pumps for loading have been insta and commissioned towards the end of 1972. Also, one Product Station will be commissioned during the next year.

During 1973 a fourth berth will be constructed in addition to t existing three, and is scheduled to be in operation on 1st Janu 1974.

**DENSITY:** Specific gravity 1·031.

**FRESH WATER:** Not available.

**FUEL:** Not available.

**FIRE PRECAUTIONS:** As laid down in the Abu Dhabi (Por Jebel Dhanna) Regulations 1967. Also IOTTSG Safety Guide.

**GANGWAY/DECK WATCHMEN:** Not necessary.

**CUSTOMS ALLOWANCES:** Tobacco: No restrictions in qu tity on board but must not be conveyed ashore or from one vesse another without appropriate written permit from Customs Auth ties and Port Officer. Wine and/or Spirit: Conveyance of alcoh liquor from any vessel to the shore or from the shore to any ves or from one vessel to another, prohibited without appropriate wri permits from Port Officer and Customs Authorities.

**IDENTIFICATION CARDS:** Not required.

**CONSULS:** None.

**REPAIRS/DRY DOCKS:** No facilities.

**REPATRIATION:** With sufficient notice, Agents will assist in repatriation. Valid Seamans Book essential. If urgent, via Abu Dh but facilities are limited and if possible crew changes should made at other ports.

**AIRPORT:** One mile distant, small air strip owned by Abu Dh Petroleum Company for private use. Nearest International Air is Abu Dhabi the capital of the State.

**TIME:** Local time GMT plus 4 hours. No alterations made to cl during year.

**MEDICAL:** A male nurse can occasionally be obtained fr LAMNALCO, the piloting company, upon request of ship's Ag but in case of extreme emergency an aeroplane can be chart from Bahrain or Abu Dhabi to pick up the patient at Jebel Dhanna for transfer and treatment in Abu Dhabi, Bahrain or Dubai.

**POLICE/AMBULANCE/FIRE:** No Fire or Ambulance facilities available.

The Abu Dhabi Defence Force, Oilfield Security Section maintains a police post at Jebel Dhanna and is responsible to act in case of accident or other emergency, whether ashore or in territorial waters.

**TELEPHONES:** None.

**SERVICES:** None.

**SHORE LEAVE:** Crews not allowed ashore.

**REGULATIONS:** The Abu Dhabi (Port of Jebel Dhanna) Regulation 1967.

**AUTHORITY:** Port Officer, Jebel Dhanna, c/o Abu Dhabi Petroleum Company Ltd., PO Box 270, Abu Dhabi, Arabian Gulf.

**AGENT:** National Shipping Gulf Agency Co. (Abu Dhabi) Ltd., Jebel Dhanna. Cables: "Confidence Abu Dhabi". Tel.: Jebel Dhanna Hotel. Radio: Marine VHF radio, stand-by Channel 16 (156·8 mHz) call sign "Confidence Jebel Dhanna".

## MINA ZAYED (Abu Dhabi): 24.29 N. 54.20 E. (See Plan)

**COURTESY FLAG:** Vessels calling at ports in the State of Abu Dhabi should fly the flag of the United Arab Emirates as a courtesy flag, and *not* the flag of the State of Abu Dhabi.

**DOCUMENTS:** Eight copies of Cargo Manifest are required, with full cargo particulars, such as Bill of Lading number, marks/numbers, description, weight and measurement. It is essential that all this information is given on the manifest for each consignment, and the manifests should reach the Agent prior to arrival of vessel in order to be submitted to the Port/Customs Authorities 48 hours before the ship is berthed.

Also stowage particulars should be given in full in order for Agent to advise the Port Authorities the equipment and labour required for efficient handling of the vessels.

**REGISTRATION:** The Ministry of Communication, Ports Department, Abu Dhabi, have issued the following information regarding the registration of vessels for berthing at Abu Dhabi:

"As from the 8th May 1973 ships may register themselves with the Port Authority and then decide, if they wish to proceed to another port reporting back on the given approximate date of berthing.

"Ships with any tonnage of cargo may register subject to proof being given to the Port Authority that the Abu Dhabi cargo is immediately available.

"As the registration of ships is a new procedure at this port, the Port Authority reserves the right to impose or alter any restrictions that may be found necessary in the light of the practical experience gained in its operation.

"Furthermore, only an approximate date of berthing can be given until such time as the port is fully supplied with its cargo handling equipment, and the Port Authority cannot be held responsible for any delays that may occur after the vessel's return, although every endeavour will be made to keep the agencies fully informed of the situation."

**PILOTAGE:** Pilotage into Mina-a-Zaid compulsory, but not to the outer anchorage situated in the area around position 24° 34′ N. 54° 19′ E.

Ships should wait for Pilots in the area stated above and not enter the channel unless instructions to the contrary are given, and hoist the international pilot signal.

Ships should have ready an efficient pilot ladder complying with the international convention of safety of life at sea and properly lit at night. Ships should afford the Pilot a good lee.

**RESTRICTIONS:** Port and starboard hand buoys have been established marking the new channel approaches to Abu Dhabi Harbour. The channel is dredged to 31 ft. and is 500 ft. wide.

In the first instance and until further notice, ships will only enter or leave during daylight hours. Max. draft 32 ft.

**ANCHORAGE:** Position 24.27 N., 54.17.6 E., 4½ miles off shore. Depth at anchorage about 5–6 fathoms. Holding ground good but anchorage exposed to North and Westerly winds when precautions to be taken against anchor dragging.

**RADIO:** Ships should inform their Agents, 48 hours prior to arrival, of their ETA and draft, and confirm 12 hours before arrival. They should also contact "Abu Dhabi Pilots" on VHF Channel 16 earliest possible, with the above information.

**TUGS:** It is a requirement that two tugs are required on every ship when berthing and unberthing at this port. Any reduction in this number will be solely at the discretion of the Pilot.

**BERTHING:** Anchors and mooring ropes and wires should be ready for making fast before entering.

There are six berths each of 600 ft. length with depth of 32 ft. at five of the berths and 34 ft. at the other berth.

Tower crane for discharging available.

Presently there are 15 mobile cranes of sizes varying from 5 tons capacity to approx. 40 tons capacity and these are now used on the lighterage wharf as well as in the storage area.

6 electric cranes are now available 5×5 tons 1×10 tons.

Port Authority are purchasing ample cargo equipment which is now arriving in batches as delivery and shipping space avail.

**STEVEDORING:** Arranged through Agent. Labourers work under direct supervision of vessel and her officers. Stevedores do not accept any responsibility for loss or damage to cargo, nor for stevedores' damages to vessel. One gang consists of 2 Serangs, 1 Tindal 2 winchmen and 15 labourers. Local custom proclaims that ship's responsibility for cargo ceases only after cargo landed ashore. No special regulations for dangerous cargoes but vessels having such cargoes aboard expected anchor at safe distance from other ships at anchorage. Vessels carrying cement must lighter cargo from anchorage. No floating-cranes for heavy lifts but mobile crane of 45 tons capacity available for hire on shore work.

Official port working hours are from 0700 to 1900 from Saturday to Wednesday, on Thursday from 0700 to 1500 only, and Friday as the week-end holiday. Normal working hours for stevedore labour are from 0700 to 2230.

Discharging rates are presently: Generals 60/80 tons per day/per hook; pipes 120/150, and bagged cargo 80/100; but are to be improved as result of increased cargo-handling facilities.

**MEDICAL:** Fully equipped Government Hospital. Qualified personnel, and most medicines available.

**TANKERS:** See "Das Island" and "Jebel Dhanna".

**FRESH WATER:** Available at all berths in moderate quantities as availability of distillate plants permit.

**FUEL OIL:** Diesel oil and gas oil is expected to be available by barge by the end of the year (1974).

**LAUNDRY:** Reasonably good laundries available at moderate rates.

**PROVISIONS:** May be arranged subject 48 hours notice to Agent.

**AIRPORT:** Regular scheduled international flights, also domestic flights within Gulf area.

**TIME:** GMT plus 4 hours.

**HOLIDAYS:** Friday is weekly holiday. Otherwise usual Muslim holidays observed. Cargo work generally not affected by holidays.

**SHORE LEAVE:** Not generally encouraged, but if Masters notify Agent names of crew wishing to go ashore a permit can be obtained from Immigration Department. Absolutely necessary that every crew member be in possession of valid seaman's book.

**CLEARANCE:** Port clearance must be obtained prior to departure.

**AUTHORITY:** Govt. of Abu Dhabi, Port Department.

**AGENT:** National Shipping, Gulf Agency Co. (Abu Dhabi) Ltd. POB 377, Abu Dhabi, Trucial States. Cables "Confidence", Abu Dhabi. Tel. 43008/9. Radio: Marine VHF radio, stand-by on Channel 16 (156·8 mHz). Call sign "Confidence, Abu Dhabi". Telex, AH-248-Gacship.

## MUBAREK TERMINAL: 25.49 N. 55.11 E.

**LOCATION:** The Mubarek Oil Terminal is situated off the island of Abu Musa, and is under the jurisdiction of the Emirate of Sharjah and operated by the Crescent Petroleum Company.

**DOCUMENTS:**

*Customs:* One Crew List.

One Crew Declaration of Personal Effects (including cigarettes, etc.).

One Store List.

Six copies of Cargo Manifests for terminal discharge.

The copy of Cargo Manifest for transit cargo with a summary.

*Health:* The vessel should have a clean Bill of Health or equivalent document from the last port of call. The vessel's Master and all members of the crew shall possess international Certificates of Health showing valid Smallpox Vaccination Certificates. From time to time Cholera Vaccination Certificates may be required and it is, therefore, prudent that all crew members are in possession of valid Certificates.

*Police:* The police will require four copies of a crew list and a passenger manifest if any passengers are on board.

Crew Lists and Crew Declaration of Personal belongings must be on the approved Government Documents. Vessels are advised on their initial visit to the terminal to obtain sufficient forms for future visits.

Clearance from the last port of call will be required by the Government authorities.

**PILOTAGE:** Vessels to be moored, anchored or manoeuvred at Mubarek Oil Terminal will be boarded by Company Mooring Master in the close vicinity of the suggested anchorage area. Vessels must not enter the restricted limits of the terminal unless a Company Mooring Master is on board.

Ships are requested to have a pilot ladder safely and securely rigged and ready for immediate use and long enough to reach the Company Mooring Master's launch. A combination of pilot ladder and ships accommodation ladder so arranged that personnel can first use pilot ladder until part way up the vessel's side and then transfer to the accommodation ladder is recommended, especially on very large ships. A light line should be ready to take aboard the Company Mooring Master's portable radio. There should be adequate lighting at night. Vessels will provide a lee for the Company Mooring Master's launch when boarding and leaving.

The Company Mooring Master may require the vessel to anchor at any time he deems it necessary for the safety of the vessel or moorings or both or for infringement of the terminal regulations.

The Company Terminal Superintendent shall be the sole authority as to when the terminal is open or closed for normal working due to weather conditions.

**NAVIGATION AIDS:** A floating barge named *Baraka I*, 546 ft. long, used for storage of crude oil and for accommodation and headquarters of terminal personnel, lies permanently moored in position 25° 49′ 43″ N., 55° 11′ 49″ E. approximately 065° 6,000 ft. from the terminal's single buoy mooring. *Baraka I* is equipped with normal navigational warning lights and aids as required by convention.

A permanent fixed oil production platform, incorporating crude oil treating facilities, rises approximately 50 ft. above water at 25° 50′ 43″ N., 55° 11′ 49″ E., approximately 000° 6,079 ft. from the aforementioned *Baraka I*. Also a tripod drilling platform rises approximately 50 ft. above water at 25° 51′ 44″ N., 55° 12′ 55″ E., approximately 044° 1·7 miles from the production platform. Said structures are equipped with one clear light flashing "U" code on each corner and a fog horn operating two seconds on and 18 seconds off. A permanently fixed flare structure (tripod) rises 150 ft. (flare tip) above water at 25° 30′ 56″ N., 55° 12′ 00″ E., approximately 037°, 1,716 ft. from the oil production platform.

**READINESS:** Notice of Readiness will not be accepted as at time of arrival unless the vessel is in all respects ready to load. Arrival time will be considered the time the Company Mooring Master boards the vessel, or the time the vessel is within the approved anchorage area, whichever occurs first. Notice of Readiness is to be in English.

**ANCHORAGE:** An anchorage area diameter 6,000 ft. has been established with the centre in position 25° 46′ 45″ North, 55° 13′ 13″ East.

When arriving by day display flag "Q"; by night display Red Light over White Light for Quarantine Service.

**RESTRICTED AREA:** A restricted area of approx. 38 sq. miles has been established with a boundary formed by an imaginary line from:
(*a*) 25° 54′ 26″ North 55° 13′ 49″ East in a WSW direction to
(*b*) 25° 15′ 14″ North 55° 07′ 19″ East thence in a SSE direction to
(*c*) 25° 46′ 33″ North 55° 09′ 37″ East thence in a ENE direction to
(*d*) 25° 49′ 44″ North 55° 16′ 08″ East thence in a NNW direction to
the position above.

**HEALTH:** Customs, Federal Police and Immigration Officials will board the vessel as soon as possible after arrival to give inward clearance and "pratique" service.

**RADIO:** Initial communication by radio between ship and Crescent Petroleum Company should be via Bahrain Radio, call-sign "GOU", which operates on a 24 hours basis and by HF/SSB International Maritime Radiotelephone Service to Mubarek Oil Terminal.

Company Mooring Master will have sole control of radio installations during the period a vessel is manoeuvring or moored, and no radio transmissions will be permitted on board ship except by the express permission of the Mooring Master in each case, only the Mooring Master may transmit on Channels 12 and 6 during the period he is on board. He will have a VHF radio telephone with him.

Mubarek Oil Terminal Radio Station call sign "Crescent–2" particulars are as follows:

Operated by Crescent Petroleum Company, Sharjah, position lat. 25° 49′ 32″ North, long. 55° 11′ 49″ East.

*Frequencies*
2,182, 2,788·0, 4,139·5, 6,213·5 and 8,284·4 kHz.
Hours of operation: 24 hours per day.

Mubarek Oil Terminal Control Centre keeps continuous watch on VHF radio-telephone Channel 16. Vessel approaching the terminal should make contact on Channel 16 when the terminal will request her to switch to an alternate channel.

**TUGS:** The Company maintains launches to assist in mooring and unmooring vessels. These are under the direct supervision and control of the Company Mooring Master.

**BERTHING:** Vessels to load crude oil cargo will be normally accepted and berthed in chronological order of arrival provided such vessels have current nomination for cargo valid at the time of tender, carry clean ballast if any, and have cargo tanks in a fit condition to receive cargo. Also, they must be in all respects properly equipped and ready to moor. Should berthing be delayed on account of bad weather, vessels will keep their position in line.

Vessels required to leave the terminal area on account of bad weather should keep in contact with the terminal via the Company radio station at Mubarek Oil Terminal, call sign Crescent–2, in order that they may be available when the weather is fit for resumption of operations. The Company reserves the right to load vessels out of turn following the return of good weather, to the extent that such loading "out of turn" does not materially delay the loading of other vessels in line. Further the Company reserves the right to decline to moor a specific vessel if its condition or facilities are unsafe for mooring or loading even though the terminal may be open to other vessels.

The Company Terminal Superintendent's decision on this will be final.

**S.P.M.:** The single point buoy mooring berth (SBM), eleven metres in diameter and located in 163 ft. of water, is designed to handle tankships in the 350,000 dwt. class, but fitted at present with hoses for vessels of 250,000 dwt. ASA 150 pound flanged connections and one 20″ floating hose, reduced to 16″. Tanker Rail Hose for connection to export tanker's loading manifold, the length of hose being 940 ft.

Loading rates will be in the 40,000 barrels per hour range. The SBM is also provided with two permanently attached 18 inch circumference synthetic fibre floating mooring lines.

**EQUIPMENT:** Vessels must have suitable winches or capstans in good operating condition on the forecastle deck. Constant tension type winches may not be used except when they can be solidly locked and the constant tension feature not used.

All vessels should have ready messenger lines on forecastle head for bringing two mooring lines aboard from single point mooring (SBM).

Mooring winches on forecastle head for handling two 10 inch circumference synthetic fibre floating pick up lines from SBM.

Adequate chafing gear to prevent damage to mooring lines.

Adequate mooring bitts to secure mooring lines.

**HOSES:** After the vessel is securely moored the cargo hose will be hoisted on the port side. The berth is equipped with 1×16″ loading hose, the weight of the hose lift being approximately se and a half tons. Therefore, all lifting equipment and tackle sho have a safe working load of at least seven and a half tons. The ho is lifted by ship's gear and crew, and all connecting of the hose w be done by them. The lifting derrick, equipment tackle, etc., sho be topped off and ready on arrival. Terminal loading hose is fit with ANSI 150 pound flat face flange and ships should have adapte and fittings to enable this hose to be connected to the ship's ma fold. The Company Mooring Master advises the ship's personne hose lifting and connecting procedure; however, a deck officer mu be present and must direct the ship's crew in all handling. T Company Mooring Master may reject a ship for unsatisfactory ho handling.

Do not close valves against crude flow.

Emergency flow stop signal if all communications fail will be continuous sounding of the ship's whistle from either export tan or *Baraka I*.

**FRESH WATER:** Not available.

**FUEL:** Not available.

**CONSULS:** Various consulates are located in Abu Dhabi a Dubai.

**REPAIRS:** No repairs, painting, etc., are to be made while berthin unberthing, or in the berth.

**CUSTOMS:** Cigarettes, cigars, tobacco, matches, spirits, win beers, perfume, arms, ammunition and possibly other items have be locked up under Customs seal from time of arrival of ship u time of leaving territorial waters.

**TIME.** Local time is GMT plus 4 hours throughout the year.

**SERVICES:** No supplies of any kind and no medical services (exce in case of emergency and subject to a doctor being available), other services are available at Mubarek Oil Terminal.

**SHORE LEAVE:** No shore leave is permitted.

**GENERAL:** *Light Dues:* The Middle East Navigation Aids Serv (MENAS) charges light dues according to the size of the vessel a the number of visits to the Gulf during the year. At the present ti these dues are charged at the rate of stg. £0·26 per 100 n.r.t.

*Positively no provision is made for dirty ballast:* Any ship arriv with dirty ballast will be rejected and all costs accruing therefr will be to the ship's account. Notice of readiness shall not be acce ted until vessel returns with clean ballast and tanks fit to rece cargo. She will on second arrival tender a new notice of readine to load.

**AUTHORITY:** Crescent Petroleum Company PO Box 211. Shar UAE. Cables "Crespet", Sharjah. Telex 5496 ("5496 Crespt SH")

**AGENT:** Gulf Agency Co. (Sharjah) Ltd. Cables "Confidenc Sharjah. Telex 5719 ("5719 Confid SH").

## MUBARRAS ISLAND, Abu Dhabi: 24.28. N. 53.22
## (HALAT AL MUBARRAS)

**FLAG:** All vessels calling at Mubarras are required to fly the na nal flag of The United Arab Emirates which is available from sh Agent.

**LOCATION:** Mubarras Island is located approximately Lat. 24° North, Long. 53° 22′ East, some 55 miles west of Port of Abu Dha United Arab Emirates, Arabian Gulf.

The Island constitutes export terminal of crude oil produce Abu Dhabi Oil Company Limited (Japan). Crude oil produced fr the Company's Mubarras oilfield is transported to Central Facili Platform (CFP) situated approximately 19 miles east northeast Mubarras Island by 4″ to 14″ flowlines, thence relayed by a transmission line to the Island. The Company has tank storage 1,548,000 barrels of crude oil on the Island.

Tanker loading is accomplished by means of a single-bu mooring (SBM) system installed about 8 miles offshore east of Island.

Average API Gravity of crude oil to be loaded is 38 degrees a flash point is below 35 degrees Fahrenheit.

**PORT LIMITS:** The port area of Mubarras and its approach cover the area bounded by straight lines connecting the follow points:

| | | |
|---|---|---|
| (a) | 24° 30.0′ N. | 53° 36.0′ E. |
| (b) | 24° 24.0′ | 53° 36.0′ |
| (c) | 24° 24.0′ | 53° 27.0′ |
| (d) | 24° 26.7′ | 53° 21.7′ |
| (e) | 24° 30.0′ | 53° 21.7′ |

Masters of all vessels entering the Port must follow instruct by the Company's Port Master as to approaches, anchoring, ber ing and unberthing.

**APPROACHES:** *Refer to M.E.N.A.S. Navigation Notices*

Buoys have been laid as follows to mark the channel leading to Oil Loading Terminal which is established at Halat Mubarras.

| *Buoy name* | *Latitude North* | *Longitude East* | *Buoy colour* | *Light character* |
|---|---|---|---|---|
| Mubarras Approach | 25° 01′ 00″ | 53° 37′ 80″ | Black | Fl. W. ev. 5 sec.<br>Fitted radar reflec |
| Mubarras Entry | 24° 53′ 50″ | 53° 28′ 40″ | Black | Fl. W. ev. 10 sec. |
| 1. | 24° 43′ 65″ | 53° 28′ 10″ | Black | Fl. W. ev. 2 sec.<br>Fitted radar reflec |
| 3. | 24° 38′ 55″ | 53° 32′ 05″ | Black | Fl. W. ev. 3 sec.<br>Fitted radar reflec |
| 5. | 24° 34′ 00″ | 53° 40′ 10″ | Black | Fl. W. ev. 5 sec.<br>Fitted radar reflec |

| | | | | |
|---|---|---|---|---|
| 6. | 24° 31′ 95″ | 53° 40′ 65″ | Red | Fl. R. ev. 2 sec. |
| 7. | 24° 31′ 95″ | 53° 40′ 15″ | Black | Fl. W. ev. 2 sec. |
| 8. | 24° 30′ 85″ | 53° 41′ 00″ | Red | Fl. R. ev. 5 sec. |
| 9. | 24° 30′ 35″ | 53° 40′ 50″ | Black | Fl. W. ev. 3 sec. |
| 10. | 24° 30′ 00″ | 53° 40′ 80″ | Red | Fl. R. ev. 3 sec. |
| 11. | 24° 27′ 35″ | 53° 38′ 10″ | Black | Fl. W. ev. 5 sec. |
| 12. | 24° 28′ 95″ | 53° 40′ 50″ | Red | Fl. R. ev. 5 sec. |
| 13. | 24° 26′ 45″ | 53° 36′ 65″ | Black | Fl. W. ev. 3 sec. |
| 14. | 24° 26′ 25″ | 53° 37′ 00″ | Red | Fl. R. ev. 3 sec. |
| 15. | 24° 26′ 00″ | 53° 33′ 05″ | Black | Fl. W. ev. 2 sec. |

In the section of the channel from the Approach Buoy to No. 5 buoy the depth reduces from 85 ft. to 55 ft. Between No. 5 Buoy and No. 14 buoy the channel requires to be navigated with care, the least depth being about 48 ft. with a least width between the paired buoys,

(a) No. 7 and No. 6
(b) No. 9 and No. 10
(c) No. 13 and No. 14

of about 3 cables. After passing Nos. 13 and 14 buoys the channel deepens to 50 to 55 ft.

**DOCUMENTS:**

2 Crew Lists.
2 Passenger Lists.
2 Manifests.
1 International Maritime Declaration of Health.

**PILOTAGE:** Pilot is provided by the Company free of charge at the request of vessel's Master based on express understanding and condition that he is aboard the vessel for purpose of assisting the Master and becomes, for such purpose, the servant of the owners of the vessel.

It is recommended that the Master of vessel calling at Mubarras for the first time requests Pilot to go on board the vessel for both inward and outward passage of the channel. The Pilot will normally board the vessel in the vicinity of No. 5 Buoy and will advise the Master on approaches to the berth and he will remain on board to act as Mooring Master and direct loading operations.

*Mooring Master:* The Mooring Master provided by the Company will undertake pilotage, mooring and unmooring of the tankers.

The Mooring Master shall board vessels to be moored at SBM in the anchorage area or in the vicinity of No. 15 Buoy. The Mooring Master will advise the Master of vessel on approaches to the SBM, mooring, unmooring, connecting and disconnecting hoses and all other operations within the port area. All manoeuvring of vessels within the port area shall be done only in accordance with the advice of Mooring Master, subject to the understanding that in all cases and circumstances the Master of the vessel shall remain solely responsible for the safety and proper manoeuvring of the tanker. Master or one of his qualified deck officers must be on the bridge at all times while vessel is being manoeuvred.

**ANCHORAGE:** The tanker anchorage is within 2 mile radius of lat. 24° 26′ 8″ N., long. 53° 34′ E. Depth of water varies from 15·5 to 18 metres (51 to 59·5 ft.). The sea bed all around the anchorage is coral with a few inches of loose sand. Holding is poor and a vessel is advised to pay-out at least six shackles of chain.

Vessels will be advised by radio of a suitable anchorage if above anchorage and the berth are not immediately available. Vessels shall not anchor or wait at the South area of lat. 25 N. without obtaining any information from the Port Master.

*Anchorage for Dry-cargo Ships:* Anchorage for dry-cargo ships is directed by Port Master by VHF radio.

*Prohibited Area for Navigation and Anchorage:* The area within 1·5 miles radius from CFP is prohibited for navigation and anchorage. No vessels shall anchor within the range of 1·5 miles from submarine pipe-lines.

**MAX. SIZE:** See "Approaches" – depth over shoal areas; also see "Tides".

**PRATIQUE:** Vessels arriving at Mubarras Terminal must carry the usual Bills of Health for ports visited on the voyage. Masters of vessels are requested to inform the Company if there is any person ill on board or if there has been sickness within the week prior to arrival.

Pratique is usually granted by Port Medical Officer through the Mooring Master or Agency Clerk.

**RADIO:** Tankers bound for Mubarras should advise their ETA and other information at least 72 hours before arrival, confirming the ETA again at least 24 hours before arrival.

Vessels may find it helpful to route their first message through Singapore, Bombay or Bahrain Radio Station. All cables should be addressed to the Company through ship's Agent.

The first message should be sent according to the following form, but any items which are the same with a recent previous voyage to this port may be omitted.

(1) ETA Mubarras.
(2) Last Port.
(3) Next Port.
(4) Deballasting time.
(5) Quantity of cargo required.
(6) Maximum loading rate.
(7) Diameter of cargo manifold.
(8) Distance from manifold to ship's side.
(9) Derrick capacity.
(10) Diameter of fairlead.
(11) Name of Master.
(12) Number of crew.
(13) Whether Pilot is required or not.

Radio Station in Mubarras Terminal Office.

Short-range communication to Mubarras Terminal Office can be made by calling "Mubarras Terminal" on VHF or SSB radio telephone. Vessels should inform the office with their ETA preferably when they pass the Strait of Hormus. After anchoring, vessels should advise anchoring time and maintain a listening watch on Channel 16 until Mooring Master boards.

Call Sign: "Mubarras Terminal".

| *Frequency:* | *Reception* | *Transmission* |
|---|---|---|
| F3 | Ch. 16 | Ch. 10, 12, 14 |
| A3 | 2182 Kc/s. | 2638 Kc/s. |

Operating Periods: Round the clock.

**BALLAST:** All vessels arriving at this port are required to have on board sufficient clean ballast to give a safe draft for manoeuvring purposes. Vessels arriving with insufficient ballast may be required to increase the quantity, should the Mooring Master consider that it would not be safe to berth the vessel for loading. As a general rule, vessels shall not start discharging ballast until mooring is completed.

Upon completion of deballasting the Mooring Master will inspect the tanks. If the tanks are not satisfactory, he may require further pumping until such time as they meet the required standard.

It is strictly prohibited to discharge oil, oily water or other refuse that may result in pollution of the sea. International oil pollution regulations must be strictly observed by all vessels. *The terminal does not have facilities to receive oily ballast.*

**TUGS:** Following vessels are always available for use for marine operations at this port.

| *Name of Vessel* | *G.R.T.* | *B.H.P.* | *Spd. (kt)* |
|---|---|---|---|
| No. 1 Union (Tug/workboat) | 499 | 1,120×2 | 12 |
| No. 2 Union (Speedboat) | 50 | 480×2 | 21 |
| No. 3 Union (Mooring boat) | 25 | 195×2 | 11 |
| No. 4 Union (Mooring boat) | 5 | 30×1 | 7 |

**BERTH:** *Position of Buoy:* Lat. 24° 25′ .98 N. Long. 53° 31′ .54 E. *Depth of Water*, 15·5 metres (51·6 ft.).

The berth is a single-buoy-mooring system consisting of a buoy 44·32 ft. (13·5 metres) in diameter, moored to six pendant legs of 3 in. high strength chain shackled to anchor piles at a radius of 855 ft. (260 metres), and having a rotating deck carrying the pipe-line and mooring connections.

One 32 in. crude oil line has been laid approximately 52,500 ft. (16 km.) from the shore to a position close under the buoy. From the underwater manifold the crude oil goes to the buoy through a 24 in. underwater hose. The connection between turntable piping of SBM and tanker manifold consists of one hose string of 840 ft. long, 720 ft. of 24 in. hoses terminating in 2×16 in. hoses of 120 ft.

**LOADING:** The maximum loading rate of crude oil is 40,000 bbls./hr. or 6,400 kl/hr.

*Notice of Readiness:* The Master of each vessel should present a Notice of Readiness to load to the Company's Mooring Master who will sign it on behalf of the Company.

The Notice of Readiness should be tendered at the time of the vessel's arrival at the tanker anchorage area, which is, in principle, understood to be either the time of dropping the anchor in the anchorage, or, if the vessel does not anchor, the time that the Mooring Master boards to commence berthing.

Notice of Readiness will not be accepted during periods when the port is closed. The port is "closed" when the weather is such that it is too rough for incoming tankers to berth. The decision regarding the opening and closing of the port will rest with Port Master.

When the vessel is ready in all respects for loading the ship's officer must inform the Mooring Master who will transmit the necessary messages to the control room on shore. Mooring Master is authorised to control all the loading operations.

All cargo documents and shore figures are usually prepared on board and the Mooring Master will sign the documents on behalf of the Company.

**MOORING:** *Preparation:* Before Mooring Master boards, vessels should have ready the following:

(*a*) Jacob's ladder at lee side.
(*b*) Hawser one each at fore and aft deck, polypropylene if possible.
(*c*) One steel crowbar.
(*d*) Port derrick with double wire rigged for minimum lift 5 tons.

After vessel is anchored, the Company's mooring and hose connection crew will board and pick up mooring and hose connection materials from tug/workboat. Vessel is requested to provide windlass and winch operators.

*Mooring Master:* Unless pilotage is required the Mooring Master will board the arriving vessels in the anchorage area. Vessels are requested to have pilot ladder safely and securely rigged ready for immediate use and long enough to meet the Mooring Master's launch. Vessels should have their crew standing by ready to receive mooring and hose connection materials and should maintain a lee until this is completed. Mooring Master will instruct the crew in the setting up of the forward mooring.

*Moorings:* Two bollard ropes are made fast round the port bitts with their attached shackles about 5 ft. inboard from the fairleads as far forward as possible. The size of the fairlead opening should be at least 300 mm. (12 in.) to prevent chain from jamming in the fairleads.

Attached to the mooring connections on the buoy are two 18 in. nylon ropes (144 mm. dia., breaking strain 250 tons). These ropes are 160 ft. (48 metres) long, and have at their free end a length of stud link chain which includes enlarged end link for receiving the shackles used on the deck of the tanker. From the outer end of this chain there are connected two mooring lines consisting of pick-up wires, pick-up ropes and a towing rope (port side only) The nylon rope is supported by "doughnut" floats and the chain is hung by large plastic buoys 5 ft. in diameter and coloured red and yellow.

*Hose Connection:* After completion of mooring the boat which has been holding the hoses clear during berthing will bring the floating hose to the ship's side and connect the derrick runner to the balance buoy. These are lifted aboard one by one and connected by distance piece which was already connected to vessel's manifold by hose connection crew during mooring operation.

*Unmooring:* After the hose disconnection is completed, mooring ropes are slacked off and then dropped into the water. Tug/workboat will come alongside either before or after the vessel backs off the berth, whichever is convenient, and will receive mooring and hose connection materials.

**TIDES:** The maximum tidal range in this area is 6 ft., the average tidal range at the Spring tide 3 ft. and the Chart Datum is 0·7 ft. below ISLW. Tidal stream is variable according to the place and the lay of the land. But the flowing tide usually runs westward and ebbing tide eastward. Speed of a current is around 2 knots at the highest.

"Tide and Current Table" is published annually by the Company, applicable to Mubarras and the surrounding area, and will be obtained on application to the Company.

**WEATHER:** Local weather at Mubarras is almost similar to that of Jebel Dhanna and Abu Dhabi town, being extremely hot and humid in summer. Temperature sometimes soars as high as 50° Centigrade with almost 100 per cent humidity in July and August.

**MEDICAL:** The Company does not operate a clinic and hospital at Mubarras. But when necessary, Master may obtain medical attention for ship's personnel from the ship's Agent who may in the case of serious illness or injury recommend treatment at the Abu Dhabi government hospital. The ship owner will be charged for all expenses incurred.

**FRESH WATER:** Not available at Mubarras except in case of extreme emergency.

**FUEL:** Not available.

**CONSULS:** No consular business is available at Mubarras. However, various countries have representations in Abu Dhabi.

**REPAIRS:** There are no repair facilities at Mubarras. However, radar and electronics repairs are available in Abu Dhabi and technicians can be sent to Mubarras for repairs through notifying the ship's Agent.

**SURVEYORS:** Lloyds, ABS, Veritas surveyors are available in Bahrain and they can be brought if ample notice is given to ship's Agent.

**CUSTOMS:** Under normal circumstances customs officers do not board tankers at this port but upon arrival the Master is required to submit to the customs through the ship's Agent a manifest of any cargo to be landed at Mubarras.

After loading is completed the Mooring Master will sign on behalf of customs an outward manifest and issue the port clearance. These will be handed to the Master by the Agent.

**REPATRIATION:** Repatriation of ship's personnel may be accomplished by special arrangements through the ship's Agent who should be informed well in advance of the vessel's arrival. Launch or helicopter fare in case of repatriation will be charged to Owners.

**TIME:** Local standard time at Abu Dhabi is GMT +4 hours throughout the year.

**FIRE-FIGHTING:** Tug/workboat "No. 1 Union" stationed at Mubarras Island is equipped for fire fighting. She is capable of pumping 1,700 gallons of water per minute from three nozzles and is usually on emergency stand-by during tanker loading operations.

**GENERAL:** *Engine:* The main engines and all gear must be in an operable condition and in a state of immediate readiness whilst the vessel is on the berth.

*Stores:* Provisions and deck stores not available.

*Divers:* The services of the Company diver may be available to vessels where it is essential that a diver's services are required to enable a vessel to sail. All requests for such services should be routed through the ship's Agent to the Port Master.

*Mail:* Mail can be received and sent through ship's Agent.

*Dry Cargo Discharge:* A "T" shaped jetty at Mubarras Island can accommodate a vessel with maximum 12 ft., of draft. Discharge of dry cargo must be arranged well in advance through ship's agent in Abu Dhabi who will supply labour and barges from Abu Dhabi. No gear whatsoever is available at Mubarras.

**CHARGES:** To cover the cost of mooring/unmooring, towage, hired launch and maintenance of channel light buoys the following port charges are collected by the Company from all tankers entering the port:

A basic charge of U.S.$380 per vessel plus U.S.$4.60 per 100 net registered tons with maximum charge of U.S.$3,680 per call.

A standard Agency Fee of U.S.$280 per visit is charged for tankers by ship's Agent.

Port Dues are levied by the Abu Dhabi Government in the amount of B.D. 0.060 (sixty fils) per ton of gross registered tonnage of each tanker.

In case the tanker loads crude oil less than its deadweight tonnage the port dues will be determined by calculating the amount of cargo actually loaded as a percentage of the deadweight tonnage of the tanker and by applying the above rate with reference to the following table:

| *Percentage of deadweight tonnage loaded* | *Percentage of port dues* |
|---|---|
| From 0 to 40 | 40% of the GRT |
| More than 40 to 50 | 50% of the GRT |
| More than 50 to 60 | 60% of the GRT |
| More than 60 to 70 | 70% of the GRT |
| More than 70 to 80 | 80% of the GRT |
| More than 80 to 90 | 90% of the GRT |
| More than 90 | 100% of the GRT |

**AUTHORITY:** Abu Dhabi Oil Co. Ltd. (Japan). POB 630, Dhabi. United Arab Emirates. Cables: "OILJAPAN", Abu D Telex: AH 260. Tel. 61100.

**AGENT:** National Shipping/Gulf Agency Co. (Abu Dhabi) Ltd appointed by Abu Dhabi Oil Co. Ltd. (Japan) as exclusive ship agents for all vessels calling at Halat Al Mubarras Terminal, address particulars are as follows:

National Shipping, Gulf Agency Co. (Abu Dhabi) Ltd., POB Abu Dhabi, United Arab Emirates. Cables: "Confidence", Dhabi. Tel.: AH 248. Tel.: 43008, 43009.

Bank: The British Bank of the Middle East, Account No. Abu Dhabi, United Arab Emirates.

ETA messages shall be sent to National Shipping/Gulf Ag Co. (Abu Dhabi) Ltd., cable address: "Confidence", Abu D via Bahrain Radio.

Vessels can otherwise communicate with NSGAC, Abu D over Marine Radio HF, frequencies: standing by on 2182 kc/s. transmitting on 2182, 2301, 2368, 2738, 2003, 2126 and 2406 call sign "Confidence", Abu Dhabi.

Vessels equipped with SSB radios can also communicate NSGAC, Abu Dhabi, on the frequencies, standing by on 6910 lower side band and transmitting on 3539 and 6910 mHz, call "Confidence", Abu Dhabi.

Under favourable weather and transmitting conditions comm cation can also be performed over the VHF radio on the follo frequencies: standing by on Channel 16 (156·8 mHz) and tr mitting on Channel 9, 10, 12, 13 and 14, call sign "Confiden Abu Dhabi.

## PORT RASHID, Dubai: 25.16 N. 55.16 E. (See Pl

**FLAG:** See "Mina Zayed".

**DOCUMENTS:** The following should be airmailed to Agent p to ship's arrival.

- 6 Dangerous Cargo Lists.
- 2 Stowage Plans.
- 2 Hatch Lists.
- 7 Cargo Manifests.
- 1 each Bill of Lading.
- 3 Crew Lists required (on arrival).

**APPROACHES:** Fairway Buoy Black spherical, flash w every 1½ seconds in position Lat. 25° 16.8′ N. 55° 16.2′ E.

Vessels should await Pilot to seaward and East of this b anchoring if necessary.

**PILOTAGE:** Compulsory. Pilot may board from launch or by and in all cases a pilot ladder should be provided and a lee g Pilot boards from 0600 hours to 2359 hours, though generally ves not wishing to work cargo will not enter port outside of day hours. Vessels may leave up to 2359 hours, or later, by arrange with the Harbour Master in special cases.

**RESTRICTIONS:** Vessels permitted to leave Port Rashid u midnight under pilotage control, subject to weather conditions restrictions imposed by the Construction Company.

Vessels will not be allowed to remain alongside the berths w not working cargo if other vessels are waiting.

**MAX. SIZE:** Tanker berth draft, 34 ft. Commercial berths No. 1 2, 33 ft. Commercial berths No. 3–9, 30 ft. 6 in.

**TUGS:** Two 1,300 h.p. tugs are available, the practice bein secure alongside; therefore, derricks should be swung in and ga ways hoisted.

Tugs are fitted with VHF and contact should be made on Cha 16, changing to Channels 14 or 6.

**RADIO:** The Port Signal Station, fully equipped with VHF height approximately 57 ft. above sea level, is situated at the ward end of No. 1 Berth, Port Rashid. Vessels should contact Signal Station by VHF Channel 16 and request berthing instructi etc.

Vessels should advise their Agents the arrival time, LOA draft, and advise amended ETA where possible by VHF. The turn will pass the information on to the Port Authority.

**PRATIQUE:** Normal quarantine regulations apply and prat can be given by the Pilot on cargo vessels always subject to Health Authorities approval. Health Authorities only board w the vessel is alongside, except in the case of a suspected s Passenger ships are always boarded by the Port Health Authori

**BERTHING:** All berths alongside quays in enclosed harbour.

*Quay No. 1* at root of Main Breakwater comprises three be Berth No. 1 for passenger and mail traffic, depth 35 ft. along Berth No. 2 for dry cargo, depth 32 ft. alongside. Berth No. 3 for cargo, depth 30 ft. alongside.

*Quay No.* 2 five dry cargo berths.

*Quay No. 3* five dry cargo berths.

*Oil Berth* at Main Breakwater just inside harbour entrance.

**FRESH WATER:** Good fresh water is available at each be loading rate approximately 30 tons per hour per hose. Agents sh be asked to make arrangements, stating tonnage before ar Available by charge at tanker berth.

*Anchorage:* Fresh water supplied ex water barge at ancho at a cost of about Dirhams 25s. per ton plus towage at about Dir 530s. The capacity of the water barge is 400 tons and no deadfr charged. The barge can supply water within 4 miles of the ancho

Workboats which deliver water are available at times for hire rate of about US Dollars 250 per hour. Time commences at berth at Port Rashid and ceases on return to the berth. In this the water cost is Dirhams 5s. per ton.

Workboat able to deliver water anywhere, no limit of distance.

**FUEL:** Marine fuel-oil viscosity 1,500 secs., diesel and gas oils are available ex-Shell supply at berth nos. 1 to 8 and at the tanker berth. Facilities will be extended to include supply at all berths. A transshipment berth for gas oil and diesel bunkering is also available with a maximum depth alongside of 20 ft. Delivery hose is 2½ in. diameter but can be flanged to suit requirements. Maximum flow rate is approximately 120 Imp. gals. per minute of gas oil (diesel) at a viscosity of 35 secs. Redwood.

**TANKERS:** A tanker berth operated by Shell Markets (M.E.) Ltd., who have exclusive bunkering rights in Port Rashid, is capable of taking vessels up to 850 ft. in length and draft not exceeding 33 ft. Vessels in excess of 33 ft. and not exceeding 35 ft. draft may be berthed by arrangement with the Harbour Master, at or near high water, subject to weather conditions.

**CARGO HANDLING:** *Shore:* Normal port working hours: 1st shift: 0800 to 1300 hours (winter), 0700 to 1200 hours (summer), 1500 to 1800 hours; 2nd shift: 1900 hours to 2359 hours; 3rd shift: 0001 hours to 0600 hours (on request). Not Fridays, or public holidays.

The Port Manager may request full night working in the interest of the port.

Each berth is provided with fork-lift trucks and trailers. Pallets to assist cargo handling are available without charge. Cargo is discharged direct to sheds (400 ft. by 200 ft.) or to storage areas where mobile cranes varying from 5 to 40 tons lift operate.

*Ship:* Ships gangs are available for distribution to vessels through Agents, vessels should advise their requirements before arrival. The gangs board and operate under the supervision of ship's officers. No quay cranes are provided, so ship's derricks/cranes must be used, together with cargo handling equipment. A close liaison should be maintained with the Cargo Superintendent or Shed Supervisor at all times.

*Lighterage:* When berths are fully occupied, vessels may discharge/load ex-lighters at anchorage.

**STEVEDORES:** Gangs available, ordered by Agent before vessel's arrival. Gangs board and operate under supervision of ship's officer. Ship's gear used.

Normal working hours: first shift 0700 to 1200 hours, and 1500 to 1800 hours. Second shift 1900 to 2359 hours. Third shift (on request) 0001 to 0600 hours.

**MEDICAL:** Qualified doctors and hospital available at Dubai. New Government Hospital to be available in 1973.

**TELEPHONES:** Situated on the quays, no connection made to vessels.

**SHORE LEAVE:** Passports must be left with Immigration Officer and collected on return.

**GENERAL:** Refer to "Dubai" for all general information.

**AUTHORITY:** Dubai Port Services, Port Manager, POB 2149 Dubai (U.A.E.)

**AGENT:** See "Dubai".

### RAS AL-KHAIMA: 25.45 N. 56.01 E.

No deep-water harbour at present. Deep-sea vessels are required to anchor off, and discharge into lighters which are unloaded at either Khor Khowair or Ras al-Khaima.

There is a new jetty, length 100 m., suitable for berthing smaller vessels, which is protected by a breakwater, and development plans include dredging the inlet to enable vessels to berth with a draft of up to 25 ft.

**AGENT:** See "Dubai".

### SHARJAH: (Mina Khalid) 25.22 N. 55.24 E.

**DOCUMENTS:** See "Dubai".

**PILOTAGE:** Compulsory for all vessels.

**ANCHORAGE:** (See "Restrictions"): Vessels with draft in excess of berthing maximum, required to discharge into barges at anchorage approx. one mile off pier. Barges arranged by Agent. It is understood that an anchorage buoy has been established as follows: Black Pillar Buoy showing white light every 1·5 seconds in position 25° 22′ 41″ North, 55° 21′ 35″ East. Vessels should anchor in vicinity of buoy. Depth 38 ft.

**RESTRICTIONS:** Vessels with draft up to 29 ft. able to enter near time of high water (HTL 32 ft.).

Vessels of less than 25 ft. draft may generally enter slack tides and may leave at any state of tide. Night berthing is avoided but vessels can leave the harbour during dark hours at any time.

**HEALTH:** Quarantine clearance by cable through Agent. Health Certificate with valid smallpox inoculation is compulsory and cholera inoculation (if coming from cholera-infected areas).

**RADIO:** Vessels should advise their Agents ETA, draft, hatch distribution and any other requirements, giving as much notice as possible.

**VHF:** Sharjah Harbour Office can be contacted on Channels 16, 12, 9 and 6.

**TUGS:** Arranged by Agent. At least one tug recommended.

**BERTHING:** Arrangements made with Harbour Master by ship's Agent for necessary berthing as required. Pier has two berths:

Distance of pier (middle) from sea shore 600 m. (2000 ft.), length of pier (platform) 81,20 m. (270 ft.), breadth of pier (platform) 31·20m. (104 ft.), depth of water L.T.L. 9/00 m. (30 ft.), depth of water H.T.L. 10/20 m. (34 ft.), height of pier above sea ground 13·50 m. (45 ft.).

**MEDICAL:** Upon application to ship's Agent, medical examination of crew members can be arranged. Personnel will either be sent to private Doctor or to Public Health Department, as circumstances dictate. Serious cases will be referred to Government Hospital doctor.

**TANKERS:** No facilities.

**DENSITY:** 1025/1028.

**FRESH WATER:** Available and can be delivered on berths at jetty.

**FUEL:** All types of oil bunkers can be obtained from major oil companies and from other suppliers, by barge.

**REPAIRS:** Good facilities for repairs.

**DRY DOCKS:** None.

**REPATRIATION:** Crew members joining ships at Sharjah may enter or transit via Sharjah or Dubai without visa, provided they carry valid Seaman Book or Seaman ID Card. In absence of such documents Non-Objection Certificate must be obtained from Agent, against which visa will be issued. Cable Agent of seamen's full names and flight details preferably 24 hours in advance.

**AIRPORTS:** Dubai. International flights. Distance 20 minutes by car. Also local airport at Sharjah.

**TIME:** GMT plus 4 hours. Permanent.

**AUTHORITY:** Director of Ports and Customs, Sharjah.

**AGENT:** Gulf Agency Company (Sharjah) Ltd., POB 435, Sharjah, Trucial States. Cables: "Confidence" Sharjah, Tel.: 8353. Telex DB 448, Dubai. Radio: Marine VHF radio, stand-by on Channel 16 (156/8 MHz). Call sign: "Confidence" Sharjah.

Air-freighted spare parts and ships' mail to Sharjah should be addressed to GAC Sharjah, but sent to Dubai Airport marked "In Transit for M/S . . . " Certificate of Origin should follow the airway bill or in cases of emergency be sent to GAC Sharjah, soonest after shipment. Cable "Confidence" Sharjah, of flight details and airway bill number.

## United Arab Republic (Egypt)

### ALEXANDRIA: 31.09 N. 29.53 E.

**DOCUMENTS:**

4 copies of Crew List.

Complete set of Manifests covering all cargo on board showing names of shippers and consignees.

4 copies List of passengers in transit.

Landing cards for passengers landing finally in U.A.R. and for those landing in U.A.R. in transit.

4 copies List of passengers finally landing in U.A.R. (if any) together with their addresses in U.A.R.

Deck log books showing date of last call at a U.A.R. port, completed up to the time of arrival.

*For Quarantine:* Quarantine Questionnaire in duplicate (Form No. 15 Q.A.) showing all ports of call, as well as dates of sailings for the last 30 days, nature of cargo on board, destination, as well as sickness among crew or passengers, if any, specially when it is presumed that the sick will be hospitalised. These forms can be filled on arrival if not available on board before arrival.

One Crew List and one Passenger List.

Deratisation Certificate should be handy for inspection.

Clearance from Last Port.

*For Immigration Officer:*

Arrival Immigration form, duly completed.

One Passenger List.

List of Passengers finally landing, in duplicate.

Crew List.

Valid passport with entry visa is required for landing in U.A.R. for passengers landing. Emergency visa can be granted on arrival if so required.

*For Customs Use:*

Bonded Store List, in duplicate.

Crew List and passengers' List in duplicate, showing rate of consumption of each.

**PILOTAGE:** Compulsory. Pilot boards off harbour entrance. International code signals used.

**RESTRICTIONS:** Entrance channels 36 ft. depth, being dredged to 50 ft. Arriving vessels should keep 50 miles offshore between sunset and sunrise.

**MAX. SIZE:** Up to 35 ft. draft.

**RADIO:** Alexandria Radio, call sign SUH, operating 24 hours daily on 444, 500 and 8578 kHz and between 0600 to 1800 GMT on 12,974 kHz. Also harbour VHF Channel 16.

**HEALTH:** On entering, vessels must hoist the International Quarantine Signal for compulsory quarantine. Any sickness must be reported to the doctor. The Quarantine Doctor meets ships whilst entering the port and ships are boarded in turn.

In the event of a vessel arriving from a port that has been internationally declared infectious and the incubation period has not yet expired at the time of the ship's arrival at a U.A.R. port, the vessel is put under compulsory Quarantine, moored at an isolated berth and no shore contact is allowed. Nevertheless the ship can still carry out her normal operations on condition that all shore personnel are holding valid vaccination and/or inoculation certificates issued by the Quarantine Administration. The ship's personnel should also carry International Vaccination and/or Inoculation Certificates. Final landing passengers, not carrying such certificates, will be landed under Quarantine supervision and will be kept isolated at the lazarette until incubation period is over.

Pratique may be granted prior to ship's arrival provided the following conditions are adhered to:

(1) The vessel must be a regular liner known to the Quarantine Authorities and have a doctor on board.

(2) Details shown on the Quarantine Statement should be wirelessed to the Quarantine Authorities 24 hours prior to ship's arrival.

(3) Captains of vessels must declare before their arrival any accidents, which might have taken place on board prior to the arrival in port.

(4) The ship must not have called at any infected port.

**TUGS:** Five tugs available up to 1,200 h.p.

**BERTHING:** Alongside quays in depths up to 35 ft.

**TANKERS:** Petroleum Basin: in West part of outer harbour, Berths 3 and 4, depth alongside 38 ft., max. length 700 ft., draft 35 ft. Berths 3 and 4: in East part of outer harbour. Stern to moorings.

**FRESH WATER:** Available by barge, and alongside most quays.

**FUEL:** Available by barge.

**MEDICAL:** All facilities available. International vaccination certificates required.

**TIME:** Winter: from 1st October to 30th April, local time 2 hours ahead GMT. Summer: from 1st May to 30th September, local time 3 hours ahead GMT.

**HOLIDAYS:** The following are the public holidays in U.A.R.:

1st and 2nd Day of Ramadan Bairam
Courban Bairam Eve } changeable dates
1st and end day of Courban Bairam
Mohamedan New Year's day } as based on Moslem Calendar
Prophet's Birthday (Mewlid El-Nabi)

Eastern Monday (Sham El Nassim) (changeable); Evacuation Day (18th June); Revolution Day (23rd July); Victory Day (23rd December).

**AUTHORITY:** Alexandria Port Authority.

## MARSA AL HAMRA (El Alamein): 30.59 N. 28.52 E.

*WEPCO Terminal*

The Mono Mooring Buoy is in an open and unsheltered roadstead. The mooring buoy is located at latitude 30° 58.7′ North, longitude 28° 52.2′ East. It is 53 miles on a bearing of 255° from Ras-el-Tin lighthouse, Alexandria, and three miles off shore in approximately 66 ft. of water.

**DOCUMENTS:**

4 copies Crew List.

Deck log books showing date of last call at a U.A.R. port, completed up to the time of arrival.

Quarantine Questionnaire in duplicate (Form No. 15 Q.A.) showing all ports of call, as well as dates of sailings for the last 30 days, nature of cargo on board, destination, as well as sickness among crew or passengers, if any, specially when it is presumed that the sick will be hospitalised. These forms can be filled on arrival if not available on board before arrival.

Deratisation Certificate should be handy for inspection.

Clearance from Last Port.

Bonded Store List, in duplicate.

Crew List and Passengers' List in duplicate, showing rate of consumption of each.

**PILOTAGE:** The S.-S.W.-W. quadrant from the buoy is prohibited anchorage area, Gebisa Reef is at latitude 30° 58′ 30″ North, longitude 28° 49′ 10″ East, at 2·7 miles on a bearing of 260° from the buoy.

The mooring buoy carries a light, flashing six times per minute, and visible all round to a distance of 4½–5 miles in clear tropical weather.

Surface current sets East at 10 miles offshore at the rate of one knot. Maximum rise and fall of tide in the mooring area is 2 ft.

Vessel arriving should approach to within 2 miles North of the buoy, where they will be met by the Harbour Master or Pilot who will advise the ship's Master on approaches to the mooring buoy, mooring and unmooring.

**RESTRICTIONS:** Normally vessels are moored during daylight hours only, but permission can be obtained to sail at night. Arriving vessels should keep 50 miles off shore between sunset and sunrise.

**HEALTH:** Hoist International Code Quarantine signals when entering. Any sickness must be reported to local authorities.

**RADIO:** The commercial radio station at Alexandria will handle WEPCO radio traffic. Alexandria Coast Radio Station (call sign SUH) operates 24 hours a day on 444,500 and 8,578 kHz, and between 06.00 hours and 18.00 hours GMT on 12,974 kHz.

Ships nearing Al Hamra Terminal may contact the terminal by FM/VHF radio on 156.70 mHz or 2182 kHz.

While at the mooring, ship-to-shore communication is by portable VHF radio-telephone units, under the direct charge of the Mooring Master.

**TUGS:** Not available and not required.

**BERTHING:** Two good lines must be ready on the forecastle to be sent to the buoy plus a further two lines for use as messengers. Ship's lifting gear must be ready near the port manifold for lifting and connecting two 12-in. hoses, with proper reducers if the manifold does not fit 12 in. hose with 150 ASA standard flanges. The total weight per hose assembly is approximately five tons. Maximum loading rate is 3,700 t.p.h.

A pilot ladder must be safely rigged for immediate use and long enough to reach the Mooring Master's launch. At night adequate lighting must be rigged overside to enable the Mooring Master to approach and board the ship safely, and searchlights shoul rigged on both sides of the bridge to assist in running lines to buoy.

**BALLAST:** No dirty ballast may be pumped overboard, and the ship's Master's responsibility to ensure that no oil – whe crude, diesel bunker or bilge – is pumped or spilled into the wa of and surrounding the Terminal. Ballast can be pumped as through one or both of the floating hoses direct to disposal faci on shore.

**CUSTOMS ALLOWANCES:** Present regulations at El Ala allow each seaman to retain in his possession a maximum o cigarettes or one ounce of tobacco or five cigars. All other smo items must be collected and listed before arrival. The list wi checked by Customs before sealing the locker, and any discrep cies will be subject to fines. There must be no items aboar Israeli origin.

**FRESH WATER:** Not available.

**FUEL:** Not available.

**MEDICAL:** Nearest hospital facilities are at Alexandria, at leas minutes drive from the terminal.

**TIME:** From 1st October to 30th April, local time 2 hours ahea GMT. From 1st May to 30th September, local time 3 hours ahea GMT.

**AUTHORITY:** Western Desert Petroleum Company.

## RAS GHARIB: 28.21 N. 33.06 E.

A natural port at the Western side of Suez Gulf sheltered by the C and a chain of reefs.

**DOCUMENTS:**

4 copies Crew List.

Deck log books showing date of last call at a U.A.R. port, com ted up to the time of arrival.

Deratisation Certificate should be handy for inspection.

Clearance from Last Port.

Bonded Store List, in duplicate.

Crew List and Passengers' List in duplicate, showing rat consumption of each.

Quarantine Questionnaire in duplicate (Form No. 15 Q.A.) show all ports of call, as well as dates of sailings for the last 30 d nature of cargo on board, destination, as well as sickness am crew or passengers, if any, specially when it is presumed that sick will be hospitalised. These forms can be filled on arrival if available on board before arrival.

**PILOTAGE:** Compulsory. International Pilot flag must be hois and Pilot will board vessel on arrival. Vessels should approach anchorage from South-eastward and wait Southward of the pr bited anchorage until boarded by the Harbour Master who will them either to moorings or to an anchorage clear of the prohib area of the pipe-lines.

Two pairs of leading beacons stand about 4 and 5½ cables, be three others that stand about 12 cables Southward of Ras Gh light-structure. About 2 cables further Southward are two lea beacons. All the above beacons are difficult to identify until c inshore.

**ANCHORAGE:** Ras Gharib anchorage, South-westward of cape, affords some shelter, but a moderate swell round the cap experienced on most days. Vessels can obtain anchorage in dep of about 5 fathoms.

During most of the year there are Northerly winds, force 3–5, b December and January there are occasionally calms. On very occasions, there are Southerly gales of short duration which m the anchorage untenable.

The Northerly wind causes some swell in the anchorage, but not normally severe enough to interfere with the working of ligh or boats of moderate size. It is, however, unpleasant for small bo except alongside the piers, which are well protected.

Except in the vicinity of the piers, there is usually some swel the beaches. There is practically no rainfall and sand storms o only very occasionally and they do not interfere with work in anchorage.

Anchorage is prohibited, owing to the existence of pipe l within an area indicated by pecked lines on the chart.

**HEALTH:** On entering, vessels must hoist the Internati Quarantine Signal for compulsory quarantine. Any sickness mus reported to the doctor, specially when it is presumed that the will be hospitalised.

The vessel's personnel should carry international vaccination or inoculation certificates.

**MAX. SIZE:**

| | *Crude Oil North Pier* | *South Pier No. 1* | *South Pier N* |
|---|---|---|---|
| Depth of water | 22 ft. | 37 ft. | 78 |
| Max. permitted draft | 18 ft. | 32 ft. | 55 |
| Max. permitted length | 420 ft. | 560 ft. | 960 |
| Max. permitted width | 55 ft. | 70 ft. | any wi |
| Loading rate | 200 t.p.h. | 400 t.p.h. | 1,500 |
| Loading capacity | 5,000 tons | 29,000 tons | 100,000 |
| Diameter of crude oil line | 18 in. | 18 in. | 30 |
| Diameter of ballast water line | 10 in. | 12 in. | 18 |

**SUPPLIES:** Transit and fresh provisions as well as deck engine stores provided by the United Arab Contracting and M Supply Company.

**FRESH WATER:** Not available.

**FUEL:** Not available.

**CUSTOMS ALLOWANCES:** Present regulations allow each seaman to retain in his possession a maximum of 50 cigarettes or one ounce of tobacco or five cigars. All other smoking items must be collected and listed before arrival. The list will be checked by Customs before sealing the locker, and any discrepancies will be subject to fines. There must be no items aboard of Israeli origin.

**TIME:** *Winter:* from 1st October to 30th April, local time 2 hours ahead GMT. *Summer:* from 1st May to 30th September, local time 3 hours ahead GMT.

**AGENT:** Canal Shipping Agencies Co. Through its four branches, Asswan, Assuit, Damanhour and El Menia Shipping Agency. Cable address "Canaship". Telex 2275. Agency UN, Cairo.

## RAS SHUKHEIR: 28.08 N. 33.17 E.

**ADVICE OF ARRIVAL:** It is important that ships establish radio contact with "GUPCO" (Gulf of Suez Petroleum Co.) when three days distant from Terminal and maintain this contact until just previous to arrival at the Terminal. All ships should send a 72-hour ETA message to "Panintoil Cairo" giving the best estimate of ship's arrival time at the Terminal. This ETA message should also include a definite statement of the details of any equipment required from shore for connecting submarine hoses to ship's manifold. Further ETA messages should be sent to "Panintoil Cairo" when the vessel is 24 hours and 12 hours distant from Ras Shukheir and at any other time any appreciable change occurs in the original ETA or those subsequent thereto. The 12 hour ETA should include a positive statement regarding ship's readiness to load on arrival and the number of hours that will be required to discharge ballast after ship is berthed in mooring.

**DOCUMENTS:**

4 copies Crew List.

Deck log books showing date of last call at a U.A.R. port, completed up to the time of arrival.

Deratisation Certificate should be handy for inspection.

Clearance from Last Port.

Bonded Store List, in duplicate.

Crew List and Passengers' List in duplicate, showing rate of consumption of each.

Quarantine Questionnaire in duplicate (Form No. 15 Q.A.) showing all ports of call, as well as dates of sailings for the last 30 days, nature of cargo on board, destination, as well as sickness among crew or passengers, if any, specially when it is presumed that the sick will be hospitalised. These forms can be filled on arrival if not available on board before arrival.

**PILOTAGE:** Compulsory. International pilot flag must be hoisted and Pilot will board vessel on arrival. Ras Shukheir lighthouse is located in Lat. 28° 08′ 15″ North, and Long. 33° 16′ 20″ East. It is a white flashing light, flashing every 3 seconds and visible for 10 miles.

Gebal Gharib, situated about 18 miles South-westward, 5,742 ft. high. It makes a nearly perfect equilateral triangle with Ras Shukheir and Ras Gharib Lighthouse. Ras Gharib Lighthouse is an excellent landmark whether by day or night for vessels approaching from North, but caution should be exercised since this Light is obscured from 308 degrees to the Westward. The sea-berth buoys are unlighted.

The company's Mooring Master will meet all incoming tankers about two miles from Ras Shukheir Terminal on a bearing of 290/300 degrees from Ras Shukheir Lighthouse and will advise ship's personnel in mooring and unmooring, raising and lowering of hoses.

Vessels are requested to have a pilot ladder safely and securely rigged, ready for immediate use, and long enough to reach the Mooring Master's launch. If at night, adequate lighting must be rigged overside for the Mooring Master to approach the side and climb the ladder safely.

**ANCHORAGE:** There are a number of oil well installations, structures and submarine pipelines located in the Gulf of Suez opposite to Ras Shukheir Terminal and approaching vessels are warned of these obstacles in manoeuvring and anchoring. Vessels should approach from the Eastward and if necessary anchor Southeast of the sea berth. *Never anchor north of the sea berth.*

**RESTRICTIONS:** The Ras Shukheir Terminal operates 24 hours per day, seven days a week. Ships are loaded and unmoored at any hour, weather and other circumstances permitting. Vessels are moored during daylight hours only, however, an exception may be made at the discretion of the Terminal.

**HEALTH:** The vessel's personnel should carry international vaccination and/or inoculation certificates.

**RADIO:** The Alexandria or Port Said coast radio stations will handle GUPCO radio traffic. Ships may contact GUPCO through their cable address "Gupcoil Cairo". The message will be received on their Cairo Radio Telegraph Office local teleprinter circuit. Tape perforated and relayed to the Ras Shukheir Terminal.

Cables from Ras Shukheir Terminal to the ships would be handled in the same manner. The Alexandria or Port Said coast radio stations transmit traffic lists at regular intervals listing the call signs of all ships for which they have traffic on hand. Thus any ship hearing its call sign in the traffic list of the coast station would call the coast station immediately after the traffic list.

**FM/VHF RADIO TELEPHONE:** When ships are near Ras Shukheir Terminal, they may use their FM/VHF radios to contact the Terminal using 160.70 mc/s or 160.80 mc/s.

**MAX. SIZE:**

| | *Pier for 60,000* dwt. | *Pier for 100,000* dwt. | *Pier for 150,000* dwt. |
|---|---|---|---|
| Max. permitted draft | 45 ft. | 55 ft. | 58 ft. |
| Max. permitted length | 1,000 ft. | 1,200 ft. | 1,200 ft. |
| Min. permitted length | 600 ft. | 750 ft. | 600 ft. |
| Diameter of load line | 46 in. | 36 in. | 30 in. |
| Min. lifting capacity of tanker deck winch | 5 tons | 5 tons | 5 tons |
| Loading capacity | 3,500 t.p.h. | 3,500 t.p.h. | 3,500 t.p.h. |

**SUPPLIES:** Transit and fresh provisions as well as deck and engine stores provided by United Arab Contracting and Marine Supply Co.

**SUBMARINE HOSE LOADING BERTH:** Tanker is loaded by means of submarine pipelines to which are attached two hoses for oil loading and one hose for discharging ballast water. A 36 in. line transports the oil and a 16 in. line, the ballast water. The loading berth is located approximately 940 metres (3080 ft.) offshore in a water depth of approximately 60 feet (10 fathoms). The loading and ballast lines are laid in the same trench and run in a direction N. 55° 00′ E. The mooring buoys are numbered 1, 2, 3, 4 and 5 starting with 1 North of the mooring and running consecutively in a clockwise direction.

**LOADING READINESS AND ARRIVAL TIME:** The company will make every effort to load vessels upon arrival or as promptly as berth is available, weather permitting. Notice of Readiness will not be accepted as at time of arrival unless the vessel is in all respects ready to load. Arrival time will be considered as the time the Mooring Master boards the vessel or the time that vessel anchors, whichever occurs first.

**FRESH WATER:** Not available.

**FUEL:** Not available.

**REPATRIATION:** Not recommended.

**CUSTOMS ALLOWANCES:** Present regulations allow each seaman to retain in his possession a maximum of 50 cigarettes or one ounce of tobacco or five cigars. All other smoking items must be collected and listed before arrival. The list will be checked by Customs before sealing the locker, and any discrepancies will be subject to fines. There must be no items aboard of Israeli origin.

**TIME:** Winter: from 1st October to 30th April, local time 2 hours ahead GMT. Summer: from 1st May to 30th September, local time 3 hours ahead GMT.

**AGENT:** Canal Shipping Agencies Co. Through its four branches, Asswan, Assuit, Damanhour and El Menia Shipping Agency. Cable address "Canaship". Telex 2275. Agency UN, Cairo.

## SAFAGA: 26.46 N. 34.00 E.

**DOCUMENTS:** The following documents are required on arrival

Quarantine Questionnaire in duplicate (Form No. 15 Q.A.) showing all ports of call, as well as dates of sailings for the last 30 days nature of cargo on board, destination, as well as sickness among crew or passengers, if any, specially when it is presumed that the sick will be hospitalised. These forms can be filled on arrival if not available on board before arrival.

One Crew List and one Passenger List.

Deratisation Certificate should be handy for inspection.

Clearance from Last Port.

Complete set of Manifests covering all cargo on board showing names of shippers and consignees.

4 copies List of Passengers in Transit.

4 copies Crew List.

Deck log books showing date of last call at a U.A.R. port, completed up to the time of arrival at Port Said or Suez.

**PILOTAGE:** Compulsory. International pilot flag must be hoisted and Pilot will board vessel on arrival. Masters should endeavour to arrive at the N. end of the island by sunrise, at Safaga Port by early morning; the light behind them will show up the reefs clearly. Wind, light in the morning, gains strength during the day, making tying up more difficult. A beacon (Morewood Beacon), visible a mile off, is erected on the southern spit of the island. After rounding the spit, Masters keep five cables clear of visible reefs and enter the harbour keeping the two large beacons to the North of the pier in line. Anchorage is then indicated by a small red or white flag. The Manager or his representative, of the Safaga Phosphate Company will meet ships in launch with instructions on berthing.

**MAX. SIZE:** Safe draft in the fairway, over reefs and alongside pier: 27 ft. 6 in.

**HEALTH:** On entering, vessels must hoist the International Quarantine Signal for compulsory quarantine. Any sickness must be reported to the doctor especially when it is presumed that the sick will be hospitalised.

The vessel's personnel should carry international vaccination and/or inoculation certificates.

**BERTHING:** There are two mooring buoys marked B and C and two mooring posts marked A and D.

(1) The anchor position is marked by a small red or white flag. When mooring, manilla ropes only should be used, as wire ropes can be run out afterwards when ship is alongside.

(2) Due to rocky nature of sea bottom, it is very desirable that ship in coming into berth, does not override her anchor, as, if this happens, chain is apt to foul coral bottom and cause trouble later on.

(3) Endeavour to have all way off ship when anchor position is reached. Drop anchor as close to flag as convenient and go astern. If necessary check cable when two shackles have been paid out.

(4) Run rope to Buoy C, run rope to Buoy B, run rope to Post D, then run rope to Post A. Run Spring to S1, S2, S3, and pull alongside. Company's launches will run all ropes.

(5) If wind is blowing strongly off shore, a Spring to S3, may be run immediately a good rope to Buoy B is made fast.

(6) The best way, to reach the anchor position is to steer straight for same, keeping Buoy C on port side. This will keep vessel clear of Buoy C and when anchor is dropped, the stern should swing clear of this Buoy. If it does not, a rope can be run to S3 and the stern pulled in before falling back on pier.

(7) With anchor dropped as shown, six shackles should see No. 1 hatch at the pier, but if chain is slackened carelessly, it may foul bottom and be insufficient to reach pier.

If visibility is very good, a course can be made between the Hyndman and Cannon Reefs, and altered to bring the beacons referred to into line. Rock phosphate and ground phosphate are loaded at this port for shipment all over the world. The mines are situated some 30 km. away and are connected by company's own railway. Rock phosphate loaded (200 tons per hour) from elevator and phosphate in bags by ship's gear. No water or stores.

Cargo vessels can berth alongside a new quay of 600 metres with a draft of 27 ft.

**TIME:** *Winter:* from 1st October to 30th April, local time 2 hours ahead GMT. *Summer:* from 1st May to 30th September, local time 3 hours ahead GMT.

**HOLIDAYS:** The following are the public holidays in U.A.R.:

1st and 2nd Day of RamadanBairam
Courban Bairam Eve
1st and end day of Courban Bairam
Mohamedan New Year's day
Prophet's Birthday (Mewlid El-Nabi)
} changeable dates as based on Moslem Calendar

Eastern Monday (Sham El Nassim (changeable); Evacuation Day (18th June); Revolution Day (23rd July); Victory Day (23rd December). Friday is the Sabbath day.

**AUTHORITY:** Ports and Lights administration.

**AGENT:** Canal Shipping Agencies Co. Through its four branches, Asswan, Assuit, Damanhour and El Menia Shipping Agency. Cable address "Canaship". Telex 2275. Agency UN, Cairo.

## SUEZ CANAL (including Port Said and Suez):

During April 1974 the following information was received from Canal Shipping Agencies:

". . . work for the clearance of the Suez Canal is being carried out, and we hope that navigation will be resumed during the first quarter of 1975. The permissible draft will be 38 ft. on resumption of navigation, and this will be increased to 40 ft. six months later. Facilities at both Port Said and Suez ports will be the same as they were in 1967."

In view of the above, we believe it may be of assistance to print hereunder information as supplied to us by the Canal authorities in 1968, but Masters will have in mind that *changes in this information may now exist*, and will be guided accordingly.

**DOCUMENTS:** The following documents are required on arrival:

4 copies Crew List.
Ship's Register and Suez Canal Special Tonnage Certificate.
General arrangement and capacity plans of the vessel, if transiting the Suez Canal for the first time, or, undergone any alterations.
Suez Canal Authority's double bottom tanks capacity form.
Navigability form.
Documents concerning oil residues (if applicable).
Dry Dock Certificate (if applicable).
Complete set of Manifests covering all cargo on board showing names of shippers and consignees.
4 copies List of Passengers in Transit.
Landing cards for passengers landing finally in U.A.R. and for those landing in U.A.R. in transit.
4 copies List of passengers finally landing in U.A.R. (if any) together with their addresses in U.A.R.
Deck Log Books showing date of last call at a U.A.R. port, completed up to the time of arrival at Port Said or Suez.
Mail Waybills for ports beyond Suez Canal ports and alternatively, a document from the Master is required (cargo and passenger ships only).
Quantity of bunkers, water and cargo on board.
Free Pratique Certificate issued by the local Quarantine Doctor.

In case of a Northbound vessel loading or discharging alongside quay staying more than 24 hours in Suez, the following documents should also be presented:

(1) Load Line Certificate.
(2) Safety Equipment Certificate.
(3) Radio Safety Certificate.
(4) Documents covering names and ratings of ship's officers and their diplomas.

*For Pilot's Use:*

(1) Arrival form of the Suez Canal Authority.
(2) Declaration "E" form for dangerous cargo on board in transit.
(3) Any other documents relating to shipments of dangerous cargo, radio-active or fissile.

*N.B.* Plain Suez Canal Forms are normally handed to Master by Pilots or ship's Agents, to be filled on arrival and also for use on consequent voyages.

*Quarantine Authorities:*

Quarantine Questionnaire in duplicate (Form No. 15 Q.A.) showing all ports of call, as well as dates of sailings for the last 30 days, nature of cargo on board, destination, as well as sickness among crew or passengers, if any, specially when it is presumed that sick will be hospitalised. These forms can be filled on arrival if available on board before arrival.

One Crew List and one passenger list.
Deratisation Certificate should be handy for inspection.
Clearance from last port.

*Passports:*

For Immigration Officer the following documents are required arrival:

Arrival Immigration form, duly completed.
One Passenger List.
List of Passengers finally landing, in duplicate.
Crew List.
Valid passport with entry visa is required for landing in U.A for passengers landing. Emergency visa can be granted arrival if so required.

*For Customs Use:*

(1) Bonded Store List, in duplicate.
(2) Crew List and passengers' list in duplicate, showing rate consumption of each.

**PILOTAGE:** *Port Said:* On arrival at the Pilot Station at Port Sa vessels should contact the pilot boat announcing their arrival to receive the necessary instructions for either: (*a*) to stop in ord to receive a Pilot; (*b*) to anchor at the waiting area; (*c*) to proceed the channel where the Pilot boards.

Vessels arriving from sea can contact the Canal Authority wireless on the following frequencies:

Port Said: Port Office freq. 2182 kc/s. Calling Port Said On freq. 156·35 mc/s. Calling Port Said Seven; VHF can also be used Channel 16.

Pilot boat: freq. 156·3 mc/s. Calling Pilot boat at a range of 20 Call sign 4.

Vessels transiting canal can also contact S.U.Q. at Ismailia wireless, on the following frequencies: freq. 454 kc/s., 425 kc 468 kc/s.

*Waiting area at Port Said:*

The waiting area where vessels anchor waiting for Port Pilots situated to the West of a line joining the West buoy of the first of light buoys and the fairway buoy, and South of the parallel latitude passing through the fairway buoys. All ships waiting enter Port Said Channel, have to anchor at this area. It is of gr importance that a vessel should announce its arrival immediate on reaching the pilot station for two reasons:

(*a*) To avoid delay in entering the harbour, as vessels are pilot in accordance with their turn in contacting the pilot boat.
(*b*) The arrival of a vessel is immediately transmitted to the Su Canal Authority's Office, thus enabling the Agent to decla the ship in time, even before she enters the harbour and ensu her transit with the appropriate convoy. Such registrati cannot be done if the vessel does not adopt the above pr cedure. Passenger vessels are given priority in turn, in enteri the harbour.

Notice is hereby given that the entrance channel to Port Sa harbour is buoyed as follows:

(*a*) A Fairway light buoy painted with white vertical stripes show a white flashing light every 5 seconds approx. fitted with rad reflector and surmounted by a top mark resembling St. Andrew Cross.
(*b*) *Position of buoy:* 032° 40′ – 6·04 miles from Port Said lighthou
(*c*) The first pair of light buoys indicates the entrance of channel. The West buoy is painted black and surmounted a conical superstructure giving a flashing green light.
(*d*) *Position of buoys:* 037° 03′ at a distance of 5·13 miles fr Port Said lighthouse.
(*e*) The East buoy is painted red and surmounted by a cylindri superstructure giving a flashing red light.
(*f*) *Position of buoy:* 127° 40′ from the West buoy at a distance 1,969 ft. from the West buoy.
(*g*) Several other pairs of lights indicate the limits of the chan to the East and West. The East buoys are painted red show a fixed red light and the West buoys are painted bla and show a fixed green light.
(*h*) A fixed red light on a pylon on the North quay of Abbas Ba in line with an occulting red light on a pylon West of the oil tanks at Raswa, indicates the axis of the entrance chan to the harbour.

Pilotage is compulsory on entering or departing Port Said Harbo as well as in the Canal and it is free of charge for vessels transit the Canal except when shifting or changing berth. Vessels transiting the Canal are subject to the payment of these char both at Port Said and Suez. Vessels under 300 tons Suez Ca net tonnage are allowed to transit the Canal from any direction a *Patron* (instead of Pilot) without being compelled to attend convoy timings and after authority has been granted by the S Canal Authority.

In view of the continuous expansion in the sizes of vessels, the consequent increase in the height of the hull, it is becom very difficult for the roads Pilot to board vessels by using customary rope ladder without causing him considerable fati Therefore, it is recommended that Owners and Masters of large tankers instal on their vessels a mechanical hoist for Pilot, and one of the ship's officers be present to ensure its correct use, the safety of the Pilots and to avoid accidents.

It is also recommended that the Mechanical Hoist be installed a convenient distance from the effect of the propeller and away the vessel's stern.

Suez: As regards Suez Bay, it is sheltered from all points except from South. Very occasionally during Southerly gales (period December to April) motor-launches and boats are unable to communicate with ships in the roads.

Newport Rock lighthouse marks the Southern extremity and ships usually anchor opposite the entrance to the Suez Canal. All ships entering the port of Suez have to anchor in the pilotage zone which is limited by the imaginary line which extends from Ras Adabiya to Eyoun Moussa and comprises the coastal zone North of this line up to the Suez Canal entrance.

The town stands on a spit of the desert projecting Eastward with the Bay of Suez on its Southern side, lat. 29° 58′ N., long 32° 10′ E.

Pilotage in the port of Suez is compulsory for all vessels entering, moving within or leaving the port.

Naval ships and vessels whose Suez Canal net tonnage is less than 300 tons are exempted from pilotage, but they have to contact the pilot boat for orders prior to making any movement. Vessels exempted from pilotage may have a Pilot if so required.

*Pilotage Waiting Area at Suez:* The boundaries of the pilotage waiting area for ships arriving at Suez from South have been limited as follows:

Northerly: Lat. 29° 52.16′ N.
Southerly: Lat. 29° 51.73′ N.
Easterly: Long. 32° 34.5′ E.
Westerly: Line joining Newport Rock and Buoy No. 3.

The area East to long. 32° 33.93′ E. is allowed for ships drawing less than 25 ft. The area West 32° 33.93′ E. is for ships drawing more than 25 ft.

The pilot boat is normally stationed at the proximity of green buoy No. 1 South of Newport Rock.

When entering the pilotage waiting area, the following signals should be hoisted: Pilot – Vessel's signal letters. Quarantine – Nature of dangerous cargo (if any).

Vessels have to contact the pilot boat for instructions, reduce speed and have the pilot ladder ready.

Vessels wishing to anchor in Suez roads on their exit from Canal for the purpose of carrying out repairs, cargo operations, replenishment of bunkers, water, etc., should when ready to sail hoist the pilot signal and send the following message to S.U.Q. *Ismailia:* "Vessel's Name in Suez Roads ready to sail Please send Pilot thanks". In case of rough weather, the pilot boat leaves its station.

**ANCHORAGE:** Anchorage in the Port of Suez:

**ENTRY RESTRICTIONS:** There is no restriction regarding entering Port Said harbour as well as Suez Bay. We would only point out that vessels wishing to enter Port Said harbour must arrive at the pilot station not later than 0330 hours and 1530 as the Northbound convoy normally exits the Canal daily from 1730 hours till 2300 hours and the second Southbound convoy starts getting under way to enter the Canal from 2300 hours to 0200 hours. Vessels arriving after 0330 and wishing to transit the Canal and in accordance with the Suez Canal regulations will have to wait at the pilot station till 0900 hours. As regards Suez Bay and because there is only one Northbound convoy which commences at 0430 hours vessels are advised to arrive at the pilot station not later than 0330 hours to be included in this convoy, otherwise they are allowed to enter Suez harbour after 0900 hours. The rise and the fall of tide at Port Said is negligible but high water fall and changes twice every 24 hours is normal at Suez. Spring tide rises 7 ft., ebbs 4 ft. After a continuance of Southerly winds for two or three days, the water will sometimes rise eight to nine ft.

*Convoy timings:* The times at which vessels must arrive at the pilot station at Port Said and in the Suez Bay to join the Southbound and Northbound convoys respectively:

*Port Said pilot station:* To join the first Southbound convoy (entering at 0700 hours local time) vessels must arrive at the pilot station not later than 0330 hours local time.

To join the second Southbound convoy, the entry to which commences at 2300 hours local time, vessels must arrive at the pilot station not later than 1530 hours local time.

Vessels transiting the Canal for the first time and/or vessels that require remeasurement should arrive at the pilot station one and a half hours earlier (i.e. 0200 hours for the 0700 hours convoy and 1400 hours for the 2300 hours convoy).

*Suez pilot station:* To join the Northbound convoy, the entry to which commences at 0430 hours local time, vessels must arrive at the pilot station not later than the following hours with their pilot signal hoisted:

(*a*) Vessels that have transited the Canal before:
Loaded tankers: 0200 local time
Other vessels: 0330 hours local time

(*b*) Vessels transiting the Canal for the first time and/or vessels that require re-measurements:
Loaded tankers: 0100 hours local time
Other vessels: 0230 hours local time

*Important:* Whilst the above are the official times imposed by the Suez Canal Authority, it is however, recommended that Masters arrive half an hour earlier, to eliminate the possibility of their vessels being delayed on account of alleged late arrival at the pilot station or being considered as having anchored at an area away from the pilot station. This applies to both Port Said and Suez pilot stations.

**SIZES OF VESSELS:** The following are the maximum dimensions of ships authorised to enter Port Said and Suez harbour as well as to transit the Suez Canal:

*Dimensions for Normal Transits:* Transit of ships with the following dimensions will be considered as "ordinary":

(*a*) North/South

| Length B.P. | *Beam* (ft.) | *Draft* (ft.) |
|---|---|---|
| | up to 119 | 37 |
| | 122 | 36 |
| up to 900 ft. | 125 | 35 |
| | 128 | 34 |
| | 132 | 33 |

(*b*) South/North

| Length B.P. | *Beam* (ft.) | *Draft* (ft.) |
|---|---|---|
| | up to 128 | 38 |
| up to 900 ft. | 131 | 37 |
| | 134 | 36 |

Ships are subject to successive trial runs with 36 ft. and 37 ft. draft before they can transit with the maximum permissible draft of 38 ft. indicated in the "Rules of Navigation".

*Dimensions for special transits:* In case LBP is between 900 ft. and 1,000 ft. and/or beam exceeds 134 ft. transit will be considered as "special transit".

(*a*) North/South

| Length B.P. | *Beam* (ft.) | *Draft* (ft.) |
|---|---|---|
| | up to 128 | 34 |
| 900/1,000 ft. | 132 | 33 |
| | 136 | 32 |

(*b*) South/North

| Length B.P. | *Beam* (ft.) | *Draft* (ft.) |
|---|---|---|
| | up to 128 | 38 |
| 900/1,000 ft. | 131 | 37 |
| | 134 | 36 |

In such cases and before transit takes place the Authority must be provided with a detailed lines-plan of the ships' "Cross and Longitudinal Sections".

After the Authority's approval, transit will be permitted with the escort of one or two tugs. The speed will be lower than the regular one and transit will take place in good weather conditions.

*Dimensions for exceptional transits:* As from 1968 dimensions for "Exceptional Transits" will be limited for either Northbound or Southbound transits, as follows:

| Length B.P. | *Beam* (ft.) | *Draft* (ft.) |
|---|---|---|
| | over 136/150 | 32 |
| 900/1,000 ft. | 155 | 31 |
| | 160 | 30 |

In such cases the Authority must be provided before transit is effected with the following:

(*a*) A detailed lines-plan of the ship's "Cross and Longitudinal Sections".
(*b*) Results of laboratory tests carried out on the ship's model and a report about her steering are to be submitted to the Suez Canal Authority research Laboratory (such tests can be carried out in the Suez Canal Laboratory).

Upon examination of the tests and reports, the Authority will determine the number and power of escorting salvage tugs needed during transit. Transit will be effected in good weather conditions at reduced speed.

*Remarks:*

(*a*) Concerning ships fitted with bulbous bows, length B.P. will be measured starting from the bulk's front (Cases 2 and 3).
(*b*) In all cases the draft should be determined so that the ratio between the ship's wet cross-section and the Canal cross sectional area (1,800 sq. metres) does not exceed 1 : 4.
(*c*) If the 1 : 4 ratio is exceeded, the Authority will effect a reduction in the transit speed.

The Suez Canal Authority is undertaking a project to be accomplished by 1972 aiming at increasing the Canal cross sectional area to 2,500 sq. metres, so as to allow the transit of vessels with a draft of 48/50 ft. and a beam of about 135 ft.

**HEALTH:** On entering, vessels must hoist the International Quarantine Signal for compulsory quarantine. Any sickness must be reported to the doctor specially when it is presumed that the sick will be hospitalised. The Quarantine doctor meets the ships whilst entering the port and the ships are boarded in turn. To get a quick clearance and not to be left for later attendance, Masters are requested to receive the doctors as soon as they board and to have the following documents ready:

*Quarantine Forms in Duplicate:* When inserting the ship's register net tonnage special care should be taken in indicating same on the two quarantine forms (Form No. 15 Q.A.) as the dues are calculated on that tonnage, as incorrect information may cause complications.

Deratisation Certificate should be handy for inspection.

Clearance from Last Port should also be handy.

All ports at which the vessel has called as well as dates of sailings for the last 30 days should be inserted in the form.

*Quarantine Signals:*

*By day: "Q" flag* (signifying vessel healthy). *"Q" Over first substituted* (*QQ*). (Vessels have cases of infectious diseases more than 5 days ago, and there have been unusual mortality among the ratings or crew on board.) *"Q" over L flag* (*QL*) signifying (vessel is infected and has cases of infectious diseases less than 5 days ago.)

*By night: red light over white:* The flags and lights must remain hoisted until free pratique is granted. Ships in transit under Quara tine through the Suez Canal will use the same signals until th clear the other end of the Canal.

*Important:* In the event of a vessel arriving from a port that h been internationally declared infectious and the incubation peri has not yet expired at the time of the ship's arrival at a U.A.R. p the vessel is put under compulsory Quarantine, moored at an isola berth and no shore contact is allowed. Nevertheless, the ship c still carry out her normal operations on condition that all sho personnel are holding valid vaccination and/or inoculation certi cates issued by the Quarantine Administration. The ship's person should also carry International Vaccination and/or Inoculati Certificates. Final landing passengers, not carrying such certificat will be landed under Quarantine supervision and will be kept isolat at the lazarette until incubation period is over.

*Pratique granted by radio:* Pratique may be granted prior to shi arrival provided the following conditions are adhered to:

(1) The vessel must be a regular liner to the Quarantine Autho ties and has a doctor on board.
(2) Details shown on the Quarantine Statement should be radio to the Quarantine Authorities 24 hours prior to ship's arriv
(3) Captains of vessels must declare before their arrival a accidents, which might have taken place on board prior to th arrival in port.
(4) The ship must not have called at any infected port.

**RADIO:** ETA messages can be transmitted to Agent and Su Canal Authority through Port Said Radio and/or Alexandria Rad for vessels calling at Port Said. The same procedure can also b adopted for vessels calling at Suez through Kosseir Radio.

As a rule, Masters should send their ETA not less than 48 hou before ship's arrival. In addition to the ETA, all requirements shou be included in the wireless message as well as detailed informatio regarding cargo operations, draft, number of passengers d embarking, details of their baggage and crew changes, if any. If th ship is operating a tour in the town and/or a quick trip to Cai numbers of participants must also be contained in the same wirele message. Number of bags of mail to be discharged, if any, shou also be included.

This is to enable the ship's Agent to notify, in good time, t parties concerned, to prepare in advance the necessary custo permits, and to ensure all requirements to be supplied without dela

Vessels transiting the Canal for the first time, should also inclu in the ETA message, whether fitted with a projector or not and i the affirmative to state of electricians are required, thus enabli the Agent to make the necessary arrangements and avoid any dela

In accordance with the Suez Canal Authority's instructions a in order to avoid delaying vessels from joining the respective co voys, vessels transiting the Canal for the first time are required t include the following information in their ETA message:

Suez Canal gross and nett tonnages and date of last Suez Ca Special Tonnage Certificate.

Registered gross and net tonnages and date of last regist Ship's nationality and Owner's name.

If the ship has previously transited the Canal, the followi information should be included in the ETA message:

Whether there have been any constructional changes. If n changes have taken place, the following message should be se "Particulars no change navigable."

**RADAR/VHF:** There is no radar service at either Port Said Suez, but VHF can be used with the Suez Canal Authority Channel 16. Transit vessels can also contact S.U.Q. at Ismailia wireless on the following frequencies: Freq. 454 kc/s., 425 kc 468 kc/s.

**TUGS:** Highly qualified tugs and crew are available on boa several tugs owned by the Suez Canal Authority in Port Said, Su and in all Suez Canal stations. These tugs assist vessels to be in Port Said harbour as well as in Canal if a case arises. It is solely to the Canal Authority to decide whether more than one t is needed (free of charge) to assist any ship to moor in the P Said harbour, but if a Master of a vessel finds it necessary to empl an extra tug for berthing or if he needs a tug for any other reaso such an operation will then be charged against the vessel.

*Salvage tug boats:*

(1) From 3,000 to 3,500 h.p. *Barei, Batal, Mongued, Mounir.*
(2) From 3,500 to 5,000 h.p. *Antar.*
(3) Over 5,000 h.p. *Mared, Chahm.*

*Harbour Tug boats:*

(1) 800 h.p. *Moein, Monkez, Montasser.*
(2) 1,600 h.p. *Bark, Chabar, Chadid, Hout, Kirsh, Morgan.*

*General conditions:*

(1) Hire is reckoned from the time of starting to raise steam ceases when the tug returns to its depot.
(2) The charges for "waiting" will not apply while the tug has remain under full steam either for a long or short peri ready to proceed. These charges only apply while waiting a long period and when the tug is able to bank fires whil the disposal of the client.
(3) Fractions of hour will be reckoned as full hour.
(4) Hire charges are increased by 10% when tug is used a official office hours, on Fridays or on public holidays.
(5) Hire charges are increased by 50% when tug is used outs Canal waters.
(6) Towing charges outside the territorial waters are agreed up with the Authority.
(7) This tariff may be revised every 3 months without notice.

**BERTHING:** *Port Said:*

| Place or names | Number | Nos. | Length of berth | | Length of vessel | | Observations |
|---|---|---|---|---|---|---|---|
| | | | (m.) | (ft.) | (m.) | (ft.) | |
| Black Berths | 7 | 1 N | 220 | 721 | 72 | 563 | On the Eastern side of the channel |

| | | 6 R | 280 | 919 | 226 | 742 | |

*Note:* In good weather the length on buoys may be increased from 3 to 9 metres according to the length of the berth and height of the vessel.

*Suez:*

*Port Ibrahim:* Port Ibrahim is the port of Suez. It consists of North and South basins.

*North Quay:* The North basin has, on the North side, a quay length of 2,415 ft. a total breadth of 975 ft. and depth of 27 ft. at high tide. Quay is connected with the railway which runs the whole length of this quay and which can accommodate four large ships.

Berths 4 and 5 where stores are available are suitable for loading and discharging cement in big quantities.

*Khedivial Quay:* Berths Nos. 9, 10 and 11, length 1,194 ft., depth 24 ft. at high tide.

*Pilgrim's Quay:* (Pontoon Berth) No. 6, one berth, length 500 ft., depth 24 ft. at high tide.

N.B. No cranes are allocated to these quays but mobile cranes (5–15 tons) only can be used.

*Adabiya Quay:* This quay is situated on the Western shore of the Suez Bay, and is under the control of the Naval Authorities. Only vessels carrying military cargo consigned to the Military Authorities can be accommodated. The maximum draft is 28 ft. and can accommodate four large vessels. Quay is equipped with steam and electric travelling cranes, capacity 3–15 tons.

*Marakib Quay:* Situated at the entrance of the Canal depth 28 ft.; can accommodate passenger and cargo vessels.

**STEVEDORES:** As stated in the ETA messages, Masters are advised to include in their messages details of cargo to be discharged in either Port Said or Suez, hatch by hatch and gangways required, if possible. All loading and discharging operations in Port Said harbour and Suez Roads are effected by lighters. There are steel lighters, wooden barges and self-propelled barges available for this purpose that will allow rapid work being carried out. At Port Said several frozen cargo ships are provided with flat floating pontoons to facilitate discharge of cargo. At Port Said the draft of water does not allow ships to be berthed alongside quays to carry out cargo operations except in Cherif and Abbas Quays which accommodate vessels up to 27 ft. and consequently same are carried out also from and into lighters which are brought alongside the vessels whilst at anchor.

**MEDICAL:** It is very essential for Agent to receive advance notice of required medical attendance at least 24 hours prior to ship's arrival. All ordinary medical supplies are available and prescriptions are executed at any time at moderate prices and delivered during ship's stay in port. Medical assistance at Port Said and Suez is available. Consultations on board could be arranged through ship's Agent at any time by day or night. Reliable dentists are available at Port Said and could be consulted on board, if necessary, and during the following period at their clinics: From 0900 to 1300 hours and from 1600 to 1900 hours.

Occulists are available for consultations at town clinics in Port Said during usual working hours. Opticians are also available at Port Said. The following hospitals are available with ample first, second and third class accommodation, accepting patients irrespective of nationality at reasonable charges:

| *At Port Said* | *At Suez* |
|---|---|
| Al Mabarra Hospital | Al Helal Hospital |
| Notre Dame de la Deliverande Hospital | Abou El-Azayem Hospital |
| Two General Government Hospitals | General Government Hospital |
| T.B. Hospital | Isolation Hospital |
| Isolation Hospital | Ophthalmic Hospital |
| Ophthalmic Hospital, | |

Ship's personnel should carry international vaccination and/or inoculation certificates if a vessel is arriving from a port that has been internationally declared infectious and the incubation period has not yet expired at the time of arrival.

**TANKERS:** There is a bunkering station at Port Said harbour which can accommodate four tankers with not more than 38 ft. for the purpose of discharging their cargo of fuel or diesel oil to the different oil bunkering companies, but the petroleum basins for tankers at Port Said is as follows:

Seven jetties can accommodate vessels with maximum length of 555 ft., loaded with draft of 28 ft. 6 in.

If jetties 2 and 4 are occupied by large tankers, then No. 3 would have to be used by a small tanker.

*Oil Storage:* There is ample tank storage for bulk petroleum products.

*New Suez Terminal:* The terminal is situated in Suez Roads and has two berths. Minimum depth of water at LWOST in the approach channel is 39 ft. Minimum depth of water at LWOST alongside each berth is 42 ft. Maximum safe length of tanker applicable = 750 ft.

Each berth has six pipe-lines, 4 lines × 20 in., 2 lines × 16 in., 1 line × 4 in. (fresh water).

All types of oil products can be handled at both berths. No facilities are available at present for reception of dirty ballast.

**FRESH WATER:** Is available for supply ex self-propelled barges to any quantity required at all times with a minimum supply of 50 tons.

**FUEL:** Different grades of fuel oil are available from different firms. It is customary that the Master should advise in his ETA message of the vessel's requirements, fuel or diesel oil, at least 24 hours prior to ship's arrival into port. Bunkering is by contract between the Owners and the different bunkering firms, and nominations should be arranged for each vessel separately between the Owners and Head Office of the bunkering firm abroad, and for which payment is also effected abroad. Only the Compagnie Orientale Des Petroles accepts payment in cash out of Shipping Account No. 2 for supplies effected by them and in which case a nomination is not required. Vessels can be berthed in the oil installation and thus can effect their bunkering requirements through pipe-lines. Tankers which are not gas-free, cargo vessels carrying dangerous materials and passenger vessels, which are moored opposite the town, can be supplied with the requirements of fuel and diesel oil ex self-propelled barges with maximum capacity of 700 tons.

**FIRE PRECAUTIONS:** In accordance with the Suez Canal Authority's regulations, tankers and vessels carrying dangerous materials must comply with their requirements, concerning fire regulations.

**DEVELOPMENTS:** Since the nationalisation in 1956 of the former Suez Canal Company, several improvements have taken place to facilitate transit and to accommodate larger ships. A by-pass between Kantara and Ferdan of about 9 km. in length exists to enable Northbound vessels to pass Southbound ships. The maximum draft allowed presently in the Canal is 38 ft. for Northbound vessels only. The Suez Canal Authority is undertaking a project to be accomplished by 1978 aiming at increasing the Canal cross sectional area to 2,500 sq. metres, so as to allow the transit of vessels with a draft of 48/50 ft. and a beam of about 135 ft. Same draft will be applicable to both Port Said and Suez and at the same time, as the project is being accomplished.

**GANGWAY/DECK WATCHMEN:** In both basins Cherif and Abbas at Port Said, where cargo vessels are normally berthed, ships' gangways can be used for disembarkation and embarkation. Passenger vessels are moored in special berths, i.e. Red Buoys, opposite the town, and can be supplied with one or two floating bridges (snake pontoon) which can connect the ship with the shore to enable the transit passengers and members of crew to proceed ashore. Cargo ships and other vessels mooring at the different buoys must lower their gangway to facilitate disembarkation and embarkation of ship's personnel as well as different officials. As far as Suez is concerned, all vessels must lower their gangway for the same purpose stated above. A deck watchmen is recommended.

**OPENING/CLOSING HATCHES:** In accordance with Charter Parties, the opening and closing of hatches are dealt with as instructed in this Agreement, but for vessels carrying out minor cargo operations, it is customary that stevedores open and close ships' hatches against ship's account. To expedite vessel's transit, it is always recommended that ship's crew, during vessel's entering into the harbour should open the hatches and rig ship's derricks in order that they may be ready for cargo operations immediately upon ship's arrival at either Port Said and Suez.

**SHIP'S CERTIFICATES:**

- Ship's Register.
- Suez Canal Special Tonnage Certificate.
- General Arrangement and Capacity Plans.
- Load Line Certificate.
- Safety equipment Certificate.
- Radio Safety Certificate.
- Documents covering names and ratings of ship's officers and their diplomas.

**CUSTOMS ALLOWANCE:** Every member of crew is entitled to have one carton of cigarettes, 8 ounces of tobacco, and one bottle of spirits for his own consumption during ship's stay in Port Said, Suez Canal transit, until vessel exits the Canal or vice-versa. Same applies to passengers, and a limited quantity of bonded stores can be permitted in public rooms and bars on passenger ships. Crew and passenger list, in duplicate, showing the amount in possession of each must be ready on vessel's arrival for submission to the Customs Representatives who normally proceed on board on arrival to seal up the Bonded Stores.

**CARGO GEAR:** These are normally supplied by the stevedores to comply with the nature of cargo discharged or loaded from cargo ships. Rope lengths and other cargo gear may be additionally required to expedite ship's discharge.

**CREW IDENTIFICATION CARDS:** Every member of crew must have a seaman's book deposited with the Officer in charge for inspection, if so required by the Immigration Authorities. If a vessel is stopping in Port Said or Suez for a lengthy time, these seaman's books are normally taken off the ship by the said Authorities and kept in their departing office pending ship's sailing day when they are placed on board by the proper officer on a previous advice. Identity cards are also needed if a crew member wishes to proceed ashore for a short visit to the town or for proceeding to any excursion inland.

**CONSULS:** The following countries have Consulates or Consular Agencies in Port Said:

U.S.S.R.
U.S.A.
Italy
Greece
West Germany
Panama
Republic of China
Holland
Norway
Denmark
Finland
Sweden
Spain
U.K.

**REPAIRS:** Most types of repairs whether temporary or permanent can be carried out here by the Suez Canal Authority's shipyard or its subsidiary companies, under the supervision of the appropriate surveyors, if necessary. Suez workshops are well equipped for undertaking all kinds of marine repairs to Hull, main and auxiliary engines, boilers, navigation aids, radar and cooling, and installations.

Vessels carrying explosives are not allowed to carry out repairs, Tankers loaded or in ballast but not gas free are not allowed to carry out repairs, except in cases of force majeure of which the Canal Authority is sole judge. Gas-free tankers must present Gas-free Certificate before they are allowed to carry out any repairs. If unavailable, a chemist approved by the Suez Canal Authority can be appointed for testing the tanks and issuing the Gas-free Certificate. The aforementioned restrictions are applicable at Port Said only and not at Suez where vessels anchor at roads and are of no danger.

*Other Repairs Facilities:* Exist at Port Said for air conditioning, wireless telegraphy, radar, course and rudder recorder, refrigerators, and refrigerating units.

All kinds of repairs to echo sounding devices are carried out at Port Said by experienced specialists at reasonable charge, for the different types and dealt with by the Port Said Engineering Works with the exception of Raytheon radar, B.T.H. radar and Cossor radar which are represented by the Eastern Electronics.

**DRY DOCKS:** A floating dock of 25,000 tons is available at Port Said as well as a dry dock at Suez. Sufficient notice is required to book the date for either the floating or the dry dock.

Repair facilities are available at Suez, where a dry dock is suitable to accommodate vessels up to 8,000 tons dwt.

*Dimensions:*

| | |
|---|---|
| Extreme length to inner still | 464 ft. |
| Breadth at entrance | 73 ft. |
| Height of water over keel blocks: | |
| at Spring tide | 22 ft. for., 26 ft. 3 in. aft |
| at Neap tide | 19 ft. for., 23 ft. 3 in. aft |

The maximum draft at which a vessel can use the dry dock is 17 ft. for. and 20 ft. aft. Deeper drafts may be arranged with the management.

The Suez Canal Authority's Floating Dock and Shipyard is situated at the Northern entrance of the Suez Canal, opposite to Port Said lighthouse.

Ships up to 50,000 tons dwt. may undergo all kind of repairs in the shortest possible time. Tankers, by gas-freeing during their voyage from their home harbour to Port Said, will save at least four days if they carry out their repairs in our dock.

**REPATRIATION:** It is quite common that crew changes can be effected without any hindrance. As regards "signing off" members of crew, necessary facilities are given by the Immigration Authorities for their landing by granting them emergency visas and thus their repatriation arrangement by sea or by air can be effected easily. The "signing on" of foreign seamen is subject to the following regulations:

(*a*) A seaman and/or officer (non-residents) must be of the same nationality of the ship when arriving from abroad for this purpose.

(*b*) If a ship requires any rating, priority to engage Egyptian crew is given, unless indicated otherwise by means of a teleg or a letter from the ship's Owners abroad.

**AIRPORT:** The distance between the international airpor Cairo and Port Said or Suez is normally 2½ hours. Internatio airlines serve this airport. Cairo Shipping Agency is on cons contact with Agent for the necessary instructions.

In the interest of all and in order not to lose any time and to a any restrictions when sending crew members by plane to join th respective vessels, it is essential that the Agent concerned sho notify by cable in good time the flight number as well as the time a date of the arrival in Cairo, thus enabling the Agent to notify Ca Shipping Agency for the necessary clearance and as to whe they should be sent to join their vessels.

**TIME:** Local time during the Winter season is two hours ahead GMT and this becomes three hours ahead of Summer time.

*Winter:* From 1st October to 30th April – local time 2 ho ahead GMT.

*Summer:* From 1st May to 30th September – local time 3 ho ahead GMT.

**HOLIDAYS:** The following are the public holidays in U.A. 1st and 2nd Days of Ramadan Bairam, Courban Bairam Eve (chan able dates); 1st and last days of Courban Bairam, Mohamedan N Year's day, Prophet's Birthday (Mewlid El-Nabi) (as based Moslem Calendar); Eastern Monday (Sham El Nassim) (changeab Evacuation Day (18th June); Revolution Day (23rd July); Vict Day (23rd December).

If a holiday falls on a Friday it is possible that the following work day will be decreed a holiday also.

**POLICE/AMBULANCE/FIRE:** Vessels which are moored in t harbour either in Port Said or Suez require assistance from t Port Police, should hoist the International Code Signal (Y.M.). Th is always a police guard appointed by these Authorities on each s in either Port Said or Suez harbour. First-aid assistance can prov ambulances at a request through the Agent. In case of fire on boa when in port, the Captain must inform the Port Authorities (the Su Canal Authority) immediately and at the same time give a gene warning by means of a long blast of whistle or siren and be prepa to move his ship to another berth if so required. The Suez Ca Authority own seven tugs and other crafts distributed in vari points of the Canal with individual output from 10 to 950 tons p hour well equipped with fire-fighting appliances, ready for use any moment.

**TELEPHONES:** There are no telephone facilities available in P Said except at berth No. 4 Red where passenger ships are norma berthed, and this can be connected when snake pontoon is fi with ship's gangway.

**SERVICES:** Port Said and Suez being situated at a middle po between the East and the West, have become an ideal centre replenishing stores and provisions which can be obtained in bo or from town. The chandling firms attending to all ships calling U.A.R. ports are:

(*a*) The United Arab Marine Contracting & Supply Co., (ca address: "Consup").

(*b*) The International Marine Services Co. (Cable addre "Marinco").

Delivery of provisions and stores is effected 24 hours a day Port Said and Suez.

It is recommended that Masters should order their requireme prior to their arrival with a view to avoiding any delay specially ships joining the 0700 hours convoy Southbound.

Deck and engine stores are ample and are also available and s at (in bond) prices.

*Paints:* All kinds (bottom, boot-top, topside, enamel, engine rea mixed, heat resisting, varnishes) are also available at "in bon prices. Painting of ships or undertaking any maintenance work board is permitted while ship is in port waiting to join the North the South bound vonvoys as well as while transiting the Suez Can

The following companies are represented here:

| | |
|---|---|
| International Marine Paint | Represented by The United Ar Contracting Co. (cable addres "Consup") |
| Hamples Marine Paint<br>Campex Marine Paint<br>Wiederhol Marine Paint | Represented by The Internatio Marine Services Co. (cable address: "Marinco") |

*Chemicals:* The following chemical firms are represented in P Said and Suez:

| | |
|---|---|
| Gemlen & Co. | Represented by The United A Contracting Co. (cable addres "Consup") |
| Bird Archer/Norus (Tommons & Chartes) Chemicals. | Represented by The Internatio Marine Services Co. (cable address: "Marinco") |
| Drew Chemicals Cameroid Products. | |
| Paroline Chemicals Cameroid Products. | |
| Walker Bow. | |

*Grease and lubrication oils.* Available from:

Esso Petroleum Co.
Misr Petroleum Co. (ex Shell)
Mobile Oil Co.
Caltex Oil Co..
Ocean Oil Co.
Wisure Oil Co.
Fina Oil Co.
Gulf Oil Co.
Castrol Burma Oil.

An advance notice of 48 hours is necessary to arrange for lubric ing oils and/or bunkers required.

*Charts:* Admiralty Charts are available at Port Said only from

United Arab Marine Contracting & Supply Co. If any order has to be supplied at Suez, arrangements can be made for the required charts to be sent there.

*Cigarettes:* American and British cigarettes are available "in bond".

*Technical Gases:* Technical gases are also available at Port Said and Suez, and empty containers can be exchanged.

*Fish:* Bream, prawns, crabs, rock fish available throughout the year; Mullet available June/February; Slip soles available November/March.

*Vegetables:* Beans, beetroots, cauliflower, cabbages, carrots, eggplant, endive, garlic, herbs, lettuce, marrows, parsley, radishes, spinach, tomatoes, turnips, escarole, onions, potatoes: *available throughout the year.*

Green peas, celery, pumpkins: *available January/March.*

Artichokes: *available October/April.*

Parsnips, spring onions: *available November/May.*

Green pepper, mint, lady's finger: *available June/September.*

Capsicum: *available May/December.*

Cucumber: *available February/December.*

Lemon, limes: *available throughout the year.*

Fresh figs, fresh dates: *available August/October.*

Bananas: *available October/June.*

Grapefruits, oranges, tangerines, *available October/May.* (When out of season import citrus are available).

Apricots: *available May/June.*

Water melons, sweet melons: *available May/October.*

Grapes: *available June/October.*

Plums, peaches: *available June/October.*

Mangoes: *available August/September.*

Pears: *available August/October.*

Apples: *available November/February* (also imported the whole year).

*Eggs:* Eggs are available throughout the year.

*Meat:* Fresh meat is only supplied to vessels having a Mohammedan Crew after permission is obtained from the Customs. Other vessels are supplied with "frozen" in bond.

*Laundry:* Well equipped, reliable and fast services are available at Port Said, through the ship's contractor. Ship's laundry is usually delivered within 24 hours. For vessels remaining a few hours in Port Said and transiting the Canal, their laundry could be collected, washed and ironed and then transported to Suez by special car or lorry for delivery to them there.

*Garbage:* No refuse or ashes are allowed to be thrown whilst ships are moored in Port Said, transiting the Canal or in Suez Roads. Small barges are available in Port Said and Suez for disposal of garbages or ashes which craft could be obtained at a reasonable hire.

*Motor Launches and Tugs Hire:* Motor launches and tugs required for extra service are charged for as under:

*At Port Said:*

Motor launches per hour at day time, pt. 60 each; night time, pt. 75 each; motor launches per day, pt. 300 each; night, pt. 450 each.

*At Suez:*

Motor launches per hour, pt. 1,250 each; tugs per hour, pt. 5,000 each.

*Divers:* Suez Canal Authority's Divers as well as other Contractors' experienced divers are available, capable of carrying out any kind of underwater repairs including welding and fees are subject to the kind of job to be performed. Anchors and other articles left behind by any ship in Canal waters are retrieved on no cure no pay basis.

**SHORE LEAVE:** Crew members are allowed ashore provided that they obtain a shore leave pass issued by the Immigration Authorities through the local Agent. They can proceed ashore by means of motor launches or rowing boats at their own expense. For vessels mooring opposite the town and connected with the shore by snake pontoon, crew, together with passengers, can proceed ashore free of charge.

**REGULATIONS:** As Port Said and Suez are considered the leading ports to the Suez Canal, the Suez Canal Authority has established a convoy system for vessels transiting the Suez Canal. It is important that the timings indicated are to be complied with. However, it is recommended that Masters arrive half an hour earlier to eliminate the possibility of their vessels being delayed on account of alleged late arrival at the pilot station or being considered as having anchored at an area away from the pilot station.

*Times of Entry for Convoys:*

(*a*) Northbound: One convoy daily. Entry commences at 0430 hours local time. Loaded tankers in the lead followed by other vessels.

(*b*) Southbound: Two convoys daily. Entry commences: 1st convoy 0700 hours local time. 2nd convoy 2300 hours local time.

*Conditions of Transit:* Each vessel must be provided with a projector, either its own which should be in compliance with the Canal Authority's regulations, or a hired one obtainable from the Suez Canal Light Company. In case of hire, two electricians will be provided and the vessel is to supply them with food and accommodation.

Two or more mooring boats will be provided with a crew consisting of three men for each, to assist the vessel in mooring in the Canal when required. A sheltered place or accommodation, as well as food has to be provided by the ship.

Connecting links made fast to bitts or clinched on board should be hung over the vessel's side.

Wireless watch should be kept in accordance with the indication of the Pilot. The Authority's station S.U.Q. transmits on a frequency of 420 kc/s. (714 m.). Vessels communicating with S.U.Q. must transmit on a frequency of 425 kc/s. (841 m.).

Canal Pilots will be supplied with a wireless telephone to facilitate the despatch or receipt of messages. These sets require a direct current of 6 volts and special sockets according to the dimensions stated below, and which should be installed on the bridge within reach of the Pilot: The potential difference at the socket must not be less than 6 volts. The socket must withstand a current of 5 amps. The socket's dimensions are as follows:

| | |
|---|---|
| Diameter of each female | 4 mm. |
| Length of each female | 18 mm. |
| Distance between the two females | 12 mm. |

In the event of such sockets and/or the required current not being available, the telephone will be accompanied by a battery, at vessel's expense. Each vessel should be equipped with: (*a*) Rudder Angle Indicator, (*b*) R.P.M. Indicator.

According to Article 15 para. 2a of the Suez Canal Rules of Navigation, the above appliances must be fitted on the bridge in such a position that the Pilot may read both, without having to move away from his situation. An exemption to the above requirements is granted to vessels having a Suez Canal gross tonnage of less than 2,500 tons (excluding spaces not permanently added to the gross tonnage) and to ships not passing through the Canal more than three times a year.

*Pilot Signals:*

*By Day:* International Code Flag "G" under a black ball, (for entrance in Suez Basin, only "G" flag).

*By Night:* Three white lights vertically hoisted, which must be clearly visible from the watch tower of the Suez Canal Authority's offices.

**PORT AUTHORITIES:** The Suez Canal Authority is the Authority governing Port Said harbour as well as Suez Bay, as far as reception of ships and their transit of the Suez Canal. The Suez Canal Shipping Agencies Company is responsible for shipping companies in Canal Zone, Suez Gulf and U.A.R. Red Sea ports, through four branches at Port Said for each of which there is a branch at Suez and one in Cairo. Their names are:

| | |
|---|---|
| Aswan Shipping Agency | tel. 5051 (7 lines) |
| Assiut Shipping Agency | tel. 2710 and 2722 |
| Damanhour Shipping Agency | tel. 4231 and 2951 (3 lines and 8606 (8 lines). |
| El Menia Shipping Agency | tel. 4462 and 3333 (3 lines). |

There is also Cairo Shipping Agency, tel. no. 77893, who is looking after crew arrival and repatriation through Cairo Airport as well as receiving parcels for vessels calling at either Port Said or Suez.

# United Kingdom (See Plan)

## ABERDEEN: 57.09 N. 02.03 W.

**DOCUMENTS:**

1 Maritime Declaration of Health.
1 Crew's Effects List.
2 Ship's Report by Master.
1 Home Office Form 1B6.
1 Stores List.
1 Certificate of Deck Cargo Tonnage.
1 Light Certificate.
1 Port Dues Certificate.
Ship's Certificate of Registry.
Mercantile Marine Office Certificate – for British ships only.
Load-line Certificate.
Safety Equipment Certificate.
Lloyds Certificate.
De-rat Certificate.
Ship's Register.
Light Bills.
Safety Radio Certificate.

In addition, Manifests and Bills of Lading are usually sent to Agent direct from loading port.

**PILOTAGE:** Aberdeen has a compulsory pilotage district and there are eight licensed Pilots. Boatage service, although not compulsory, is available. There are eight licensed boatmen.

**RESTRICTIONS:** Navigation channel. max. designed width 110 ft., max. designed depth at HWOST 34 ft. Traffic signals regulate the movement of vessels in the Navigation Channel.

Entrance to Victoria Dock, depth at HWOST 26 ft., clear width at entrance 62½ ft.

Entrance to Upper Dock, width of entrance 67 ft.

**MAX. SIZE:** The port can accommodate a vessel of up to 525 ft. in length, 80 ft. in beam and drawing 30½ ft. of water, and at the various berths in tidal and non-tidal waters can handle expeditiously bulk and general cargoes.

**HEALTH:** Foreign arrivals to complete Maritime Declaration of Health. They are cleared immediately on arrival by either a port doctor or an officer of H.M. Customs depending on where the ship comes from and whether there is sickness on board.

Vessels arriving from ports within accepted area (N. European ports) and coastal arrivals need not present Declaration in all cases; when there is sickness on board the Port Health Authority must be informed preferably not more than 12 hours and not less than 3 hours before arrival.

**RADIO:** There is a VHF radio communications system which operates on Channels 6, 11, 12 and 16.

**BERTHING:** Tidal:

| | | | | |
|---|---|---|---|---|
| Tidal Harbour | length 3,461 ft. | Depth 26–34 ft. HWOST | | |
| Albert Basin | ,, | 5,586 ft. | ,, | 25–29 |
| River Dee (Navigable) | ,, | 1,884 ft. | ,, | 25–28 |
| River Dee Dock | ,, | 1,398 ft. | ,, | 28–31 |
| Non-Tidal: | | | | |
| Upper Dock | ,, | 1,950 ft. | ,, | 18–30 |
| Victoria Dock | ,, | 4,326 ft. | ,, | 22–28 |

*Deep-water Berths:*

No. 1 Atlantic Wharf. This is 480 ft. long with 30 ft. water at low tide and 42¾ ft. at HWOST. Two-storey transit shed. Two 3-ton electric portal cranes. Excellent road and rail connection.

No. 2 Pacific Wharf. This is 525 ft. long with 32 ft. of water at low tide and 44¾ ft. at HWOST. Open quay.

In 1974 the Upper Dock and Victoria Dock will become tidal with access at all stages of the tide and with a minimum depth of 20 ft. within the docks.

**FRESH WATER:** This service is provided by the Corporation of Aberdeen and is available at all quays.

**REPAIRS:** Ship-repairing facilities and shipping supplies are offered by a number of private firms and individuals with premises beside the harbour.

**DRY DOCKS:**

| | *Overall length (ft.)* | *Breadth at entrance (ft.)* | *Depth on blocks (ft.)* | *Lifting capacity* |
|---|---|---|---|---|
| No. 1 | 180 | 29 | 16 | 700 tons |
| No. 4 | 180 | 38 | 18 | 1,000 tons |

There are also two privately owned slipways.

**MEDICAL:** Doctors and hospital facilities available. Agents should be advised in advance of any medical attention required.

**CUSTOMS ALLOWANCES:** At the discretion of Local Customs Inspector. Normal allowances are equivalent to ½ lb. of tobacco per man and equivalent to 1 bottle of wine per man. Allowances may be halved for home trade vessels. Vessels in port for more than three or four days may receive extra allowances.

**CONSULS:**

**TIME:** BST is GMT plus one hour. GMT during winter months.

**HOLIDAYS:** 1st and 2nd January; Spring Holiday (variable date); Summer Holiday (variable date); September Holiday (variable date); Christmas Day (25th December).

**POLICE/AMBULANCE/FIRE:** Dial 999 from any telephone and ask for service required.

**TELEPHONES:** There are berths at which GPO telephone service can be made available to vessels. All operational posts are linked by telephone network.

**AUTHORITY:** Aberdeen Harbour Board, Harbour Office, 16 Regent Quay. Telephone: Aberdeen 52571.

## ARDROSSAN: 55.38 N. 04.49 W.

**DOCUMENTS:** Normal documents required:
- Customs Documents.
- Health Documents.
- Crew List.
- Passenger List.
- Ship's Papers, etc.

**PILOTAGE:** Telegraphic address – "Harbour" Ardrossan. VHF Channels 16 and 12. Pilot boat "Crinan" (30 ft. length). Signals for Pilot – flag, lamp or sound letter "G". Pilot taken on board approximately ¾ mile S.W. of Breakwater Light.

24 hours notice required and amendment if ETA changes.

**ANCHORAGE:** 12 to 15 fathoms 1 mile S.W.

**RESTRICTIONS:** Two balls by day, or two red lights vertically by night, from a flagstaff at Montgomerie Pier, at elevations of 66 ft. and, 60 ft. indicate that vessels must not enter.

**MAX. SIZE:** Eglinton Dock approximately 420 ft. by 57 ft. by 23 ft./25 ft. (depending on tide). North Montgomerie Pier Tanker Berth – maximum length 575 ft., maximum draft, up to 70 ft. beam, 23 ft./26 ft.; over 70 ft. beam, 22 ft./25 ft.

**HEALTH:** All vessels requiring attention of Medical Officer shall show flag signal ZW by day,or between sunset and sunrise, either morse signal ZW by lamp, or a red light over a white light, not more than 6 ft. apart. Other vessels shall show flag signal "Q" by day, or between sunset and sunrise either morse signal Q by lamp or a red over a white light, not more than 6 ft. apart.

Certificate of Pratique will be issued by Customs Boarding Officer on receiving a satisfactory and fully completed Maritime Declaration of Health. No further formalities required at subsequent ports of call in the U.K.

**RADIO:** VHF Channels 12 and 16. Radio telephone per Portpatrick.

**TUGS:** As for Pilotage. (If second tug required orders to be given not later than 1600 hrs. and by 1530 hrs. on Friday for week-end work.) Tug's lines used – no additional charge.

**BERTHING:** No special requirements except with draft over 16 ft. when vessel may be delayed waiting for tide.

**STEVEDORES:** Orders to be given by 1130 hrs. previous day.

**MEDICAL:** No advance notice required unless medical attentio necessary immediately on vessel's arrival. No hospital facilitie Ardrossan, nearest hospital being at Irvine, 6 miles and Kilmarn 16 miles.

**TANKERS:** Hoses 8 in. Berths (1) Up to 3,000 d.w. (2) Up to appro mately 20,000 d.w. Maximum draft 22 ft./26 ft. depending on beam a tide.

**DENSITY:** Sea water 1025

**FRESH WATER:** Available continually at all berths.

**FUEL:** Marine oils available ex pipeline, or by road tanker.

**FIRE PRECAUTIONS:** Patrolman required for hazardous cargo

**DEVELOPMENTS:** Roll-on/roll-off berth for specialised traffic.

**GANGWAY/DECK WATCHMEN:** Recommended.

**OPENING/CLOSING HATCHES:** Opened and closed by crew

**CERTIFICATES:** Following Certificates are requested: Lo Line, safety radio, safety equipment, safety construction, derati tion, and Current Trinity House Light Bills.

**CUSTOMS ALLOWANCE:** Standard U.K. allowances.

**IDENTIFICATION CARDS:** Not required.

**CONSULS:** Norwegian Vice Consulate, Danish Vice Consula R. L. Alpine & Co. Ltd., Winton Buildings, Ardrossan. T Ardrossan 3065.

**REPAIRS:** Limited repair facilities.

**REPATRIATION:** Customs Boarding Officer acts for Immig tion Dept. and arrangements for repatriation can be arranged conjunction with ship's Agent.

**AIRPORTS:** Prestwick 18 miles. Glasgow 25 miles.

**TIME:** BST, that is GMT plus one hour. GMT in winter months.

**HOLIDAYS:** 1st and 2nd January; Easter Monday; Third Mond in July; First Monday in October; and Christmas Day. Cargo wo may be available on certain holidays by special arrangement.

**POLICE/AMBULANCE/FIRE:** Police tel. Saltcoats 63966; Am lance, Fire: Ask telephone operator.

**SHORE LEAVE:** No restriction.

**AUTHORITY:** Ardrossan Harbour Company Limited, Harbo Office, Ardrossan. Tel. Ardrossan 3972/4. Telex 77654.

## AYR (including Troon): 55.28 N. 04.38 W.

**DOCUMENTS:** *Customs Require:*
- 2 copies Form XS1.
- Ship's Register.
- Load-line Certificate.
- Safety Radio Certificate.
- Passenger List.
- Pratique.
- Crew List.

*Port Health require:*
- Derating Certificate.

*Agents require:*
- 1 copy Form XS4.
- Bills of Lading.
- 2 copies Manifest.

**PILOTAGE:** 24 hours notice of ETA required for Pilot via Age or Dock Authority.

**ANCHORAGE:** To Pilot's advice.

**RESTRICTIONS:** Draft restriction at LW. Enter on Pilot's advic

**MAX. SIZE:** 300 ft. in length and 18 ft. draft – depending on bert

**HEALTH:** Pratique granted by Customs on arrival.

**RADIO:** Local station, call sign GPK on 2381 kc/s. VHF radio on operating on Channel 14 and listening on Channel 16.

**TUGS:** No tugs available.

**STEVEDORES:** 24 hours notice of ETA should be given to stev dores.

**MEDICAL:** Hospital facilities nearby in town.

**DENSITY:** Varies according to weather.

**FRESH WATER:** Available at all berths, rates upon application.

**FUEL:** All grades available, 24 hours notice.

**GANGWAY/DECK WATCHMEN:** Deck watchman require may be supplied by arrangement with stevedores.

**OPENING/CLOSING HATCHES:** Performed by ship's crew.

**CUSTOMS ALLOWANCES:** ¼ lb of tobacco or equivalent ciga ettes, and 1/6th gallon wine/spirits per man.

**IDENTIFICATION CARDS:** Seamen's identity cards should b carried.

**REPAIRS:** Most engine and deck repairs available.

**DRY DOCKS:** Two at Troon, max. length 400 ft., breadth 50 ft.

**AIRPORT:** Nearest at Prestwick, 7 miles away, mostly internation flights.

**TIME:** GMT plus 1 hour, reverting to GMT in winter months.

**HOLIDAYS:** Official holidays: First two working days in Janua Easter Monday; Ayr Races (2 days in third week in Septemb Christmas Day. No work at all on these days.

**POLICE/AMBULANCE/FIRE:** Dial 999, and ask for service r quired.

**TELEPHONES:** No connection on board vessel.

**SERVICES:** Special arrangements can be made for tank washi and compass adjusting through Glasgow.

**SHORE LEAVE:** No restrictions on shore leave.

**AUTHORITY:** British Transport Docks Board, Dock Offi North Harbour Street, Ayr. Tel. Ayr 67261.

## BARROW-IN-FURNESS: 54.07 N. 03.14 W. (See Plan)

**DOCUMENTS:**

2 Crew Lists.
2 Passenger Lists.
Health Declaration.
Ship's Certificates and Cargo Documents.

**PILOTAGE:** Pilot boards at Lightning Knoll Buoy, using pilot cutter, usually 2 or 3 hours before high water.

The Lightning Knoll pilot vessel and the Heysham Lake pilot vessel listen on 2,182 kHz (MF) and are also equipped with VHF listening on Channel 16. The working frequencies are 2,241 and 2,246 kHz and Channels 6, 12 and 14 respectively. The Lightning Knoll vessel listens continuously when on station and the Heysham Lake vessel listens from 5 to 15 minutes past the even hours from 0805 to 2015 local time. As the Lightning Knoll vessel only goes on station when ships are expected, ships which are suitably equipped should pass their ETA through any United Kingdom Post Office Coast Station to their Agent 24 hours before arrival.

**ANCHORAGE:** At Lightning Knoll Buoy, depth of 5 fathoms at LW. In adverse weather conditions vessels proceed to Ramsay Bay, 10 miles away, for shelter.

**RESTRICTIONS:** No docking after HW. Tidal range 21 to 32 ft. Deduct 2 ft. 6 in. from height of high water to allow for invert at dock entrance. Access to the port, which is protected from the prevailing Westerly winds by Walney Island, is gained from the Irish Sea through the harbour along the well-defined Walney Channel. The depth of water on the Ramsden Dock entrance sill can range from 33 ft. at high water springs to 21 ft. at high water neaps.

**MAX. SIZE:** Length 600 ft. Beam 75 ft. Draft according to tide.

**HEALTH:** Vessels arriving from abroad are given pratique by Customs Boarding Officers. In case of suspected disease or fever on board notify Agent prior arrival. Agent will advise Port Health Authorities.

**RADIO:** Local stations: Anglesea Radio, and/or Port Patrick Radio. Port VHF service in operation, call Ramsden Radio Channel 16.

**BERTHING:**

| *Docks* | *Water area in acres* | *Width of entrance* |
|---|---|---|
| Ramsden | 62 | 100 ft. |
| Buccleuch | 31½ | 100 ft. |
| Devonshire | 30 | 80 ft. |

Walney Channel Deep-water Berth: 850 ft. long × 100 ft. wide × 33 ft. deep.

Ramsden includes: Ramsden Dock Basin with three berths equipped for handling bulk cargoes with a total quayage of 1,240 ft., taking vessels of up to 30 ft. draft, and Anchor Line Basin with three berths 840 ft., 500 ft., and 900 ft. long respectively, taking vessels of up to 24 ft. draft. Equipped for Ro/Ro traffic.

**STEVEDORES:** All quayside labour and stevedoring is undertaken by the British Transport Docks Board. Handling woodpulp – 200/300 tons per gang per day.

**DENSITY:** Salt water 1025.

**FRESH WATER:** Available from quayside hydrants.

**FUEL:** No stocks at Barrow. Can be supplied by road or coastal tanker.

**WATCHMEN:** Not compulsory.

**OPENING/CLOSING HATCHES:** Handled by ship's crew.

**IDENTIFICATION CARDS:** Seamen's Book or Passport required by non-British crew.

**CONSULS:** Norway, Portugal, Spain. Tel. Barrow 22323.

**AIRPORT:** Nearest at Manchester, 100 miles distant. Flights to all parts. Local Airport facilities by arrangement.

**HOLIDAYS:** As for other ports in England, plus New Year's Day (1st January).

**POLICE/AMBULANCE/FIRE:** Police: Tel. Barrow 24532; Ambulance: Tel. Barrow 24201, 21035 and 21363; Fire: Tel. Barrow 21363.

**AUTHORITY:** Docks Manager, British Transport Docks Board, Barrow and Silloth, Ramsden Dock Road. Dock Office: Barrow-in-Furness, Lancashire. Tel. 22911.

## BARRY: 51.24 N. 03.16 W. (See Plan)

**DOCUMENTS:** See "Cardiff".

**PILOTAGE:** Telegraphic address of pilot station: Barry Pilots, Pier Head, Barry Docks. Amount of advance notice of ETA required: 24 hours. Final confirmation to be given by VHF or RT when within 2 hours of pilot station. VHF channel or frequency to be used when contacting pilot boat or pilot station: VHF Channel 16 thence working channels 6, 8, 10, 11.

Pilot boat: motor launch black hull with "Barry Pilot" in white on same. Brown superstructure. Light or sound signals to be made by vessels requiring a Pilot: flag G over numeral 6 flown by day, or 6 sounded on whistle or siren; flashed by lamp at night.

Exact area where pilot boat is located normally between Nash Point and Breaksea L.V. Smaller vessels may be boarded in Barry Roads.

**ANCHORAGE:** Barry Roads, 10 fathoms, safe anchorage. Large vessels should anchor West of Breaksea L.V. Small vessels ¾ of a mile S.E. of Barry Dock Entrance.

**RESTRICTIONS:** Entrance only before HW to 4 hours after HW.

**MAX. SIZE:** 575 ft. × 75 ft. × 31 ft. draft.

**HEALTH:** Pratique granted by Customs on arrival.

**RADIO:** Barry Docks Radio, Channel 22.

**VHF:** Channel 22, frequencies 157·10–161·70.

**TUGS:** Join vessel at Barry Road. Tug's or ship's lines utilised.

**BERTHING:** The port is fully equipped to receive all types of oil chemicals, including LPG. Also modern facilities exist for handling all types of bulk as well as conventional cargoes. A roll-on/roll-off berth is available. Container traffic is not a feature of the port.

**BRIDGES:** Bridge swung to vessel's requirements.

**STEVEDORES:** An early ETA essential. Enables planning to be effected in conjunction with other work in port.

**MEDICAL:** Hospital facilities available. Advance notice desirable.

**TANKERS:** Six tanker berths, maximum draft 31 ft.

**DENSITY:** Density 1020.

**FRESH WATER:** 15/20 tons per hour per hose.

**FUEL:** All grades ex stock.

**GANGWAY/DECK WATCHMEN:** The services of watchmen provided at discretion of Shipowner or Agent.

**OPENING/CLOSING HATCHES:** Work normally undertaken by ship's crew but the port will, if requested, provide a crane to assist in this work on completion of a "Hatch beam form". Riggers may be employed on this work at request of shipowner.

**CUSTOMS ALLOWANCES:** 1 oz. tobacco per day per man, ¼ pt. wine or spirits per day per man.

**IDENTITY CARDS:** Not needed by Port Authority.

**CONSULS:** None. Majority located at Cardiff 8 miles East of Barry.

**REPAIRS:** All types of repair undertaken by private ship repairers.

**DRY DOCKS:** One 940 ft. × 78½ ft.

**REPATRIATION:** All facilities available.

**AIRPORT:** Glamorgan (Rhoose) Airport, 4 miles, served by regular airlines.

**TIME:** British Standard Time, GMT plus one hour. Reverting to GMT in winter months.

**HOLIDAYS:** Bank Holidays. Arrangements made to work if essential.

**POLICE/AMBULANCE/FIRE:** Call operator by dialling 999.

**TELEPHONES:** At main berths.

**AUTHORITY:** British Transport Docks Board, Dock Office, Barry. Tel. Barry 2311 (STD 04462). Telex 49421.

**AGENT:** Cory Brothers Shipping Ltd., Cory's Buildings, 57 Bute Street, Cardiff, CF1 1SZ. Cables: "Cory Cardiff." Telex: 49300. Tel: Cardiff 31141.

## BELFAST: 54.36 N. 05.56 W. (See Plan)

**DOCUMENTS:**

1 Passenger and Crew List for Immigration.
1 Crew Declaration C142 (for HM Customs).
1 List of Ship's Stores (for HM Customs).
1 Maritime Declaration of Health.
1 Cargo Manifest.

**PILOTAGE:** Pilot station is situated on end of East pier at Carrickfergus. It is manned continuously. Vessels requiring a pilot should give as much advance notice as possible of ETA, but in any case not less than 1 hour. Pilots may be ordered through:

(i) Pilot Station Carrickfergus, tel. Carrickfergus 2329.
(ii) Port Operations Station, tel. Belfast 34422 Ext. 330, or Belfast 59107.
(iii) Belfast Harbour Office, tel. Belfast 34422 Ext. 225, 0900–1700 hrs. Monday–Friday. 0900–1200 hrs. Saturday.

There are two motor launches servicing pilots. "Eleanor Laura" is 51 ft. 6 in. long and "Mabel Helen" is 46 ft 8 in. long. Both vessels are painted black with word Pilot in white letters on each side.

Pilot launches may be contacted on VHF Channel 16 and working frequency Channel 6. Listening watch is kept from 40 to 50 minutes past each hour on 2182 kc/s. MF with working frequencies of 2246 and 2301 kc/s.

Usual international signals should be made for a Pilot. Pilots board from 1½ to 2 miles South-east of Carrickfergus. In poor visibility the pilot launch makes a sound signal of 4 short blasts. Vessels may be led into calm water before boarding.

**ANCHORAGES:** Safe anchorages, according to draught and size of vessel are available through Belfast Lough East of a line from Carrickfergus to Grey Point.

**RESTRICTIONS:**

Intended depths in the entrance channels: Victoria Channel, sea to Refinery berths – 30 ft. below datum. Refinery to Thomson wharf – 26 ft. below datum.

Musgrave Channel, 21 ft. below datum.

Herdman Channel, 21 ft. below datum.

**MAX. SIZE:** Vessels' size is restricted only by depth of water available. See "Restrictions", "Berthing", and "Tankers".

**HEALTH:** Use International Code quarantine signals. Master of a ship approaching a port in Northern Ireland from a foreign port other than an excepted port must ascertain state of health of all persons on board, and must fill in and sign Declaration of Health. It should be completed and ready to deliver to the Customs Officer, or authorized officer of the Port Health Authority, whichever first boards the ship.

If any suspected diseases on board, free pratique will not be granted by Her Majesty's Customs until the ship has been visited by the Port Medical Officer. Therefore in these cases notify PORTELTH BELFAST by radio in advance.

**RADIO:** The best station for messages, cables, etc., is Port Patrick, call signal GPK.

**VHF:** Belfast Port Operation and Information service is situated at Northwest corner of East Twin dock. A continuous watch is maintained on VHF R/T on Channel 16. Working Channel is 12. Call sign is Belfast Harbour Radio.

**TUGS:** Tugs are owned by Cory Ship Towage Ltd., Tel. No. Belfast 743278. They are fitted with VHF Channels 16, 12, 8 and 6.

Tugs normally meet inward bound vessels in vicinity of number 20 beacon. Use of tugs' lines is optional. Charge for use of each tug line is £1.

**BERTHING:** The following berths are equipped for handling containers or drive-on, drive-off traffic:

| *Berth* | *Max. draft (ft.)* |
|---|---|
| Donegall Quay 3<br>(1×25 tonne derrick crane) | 14 |
| Donegall Quay 4<br>(2×7½ tonne portal crane) | 14 |
| Donegall Quay 5<br>(No cranes) | 14 |
| Donegall Quay 6<br>(No cranes) | 14 |
| Ballast Quay & Spencer Dock<br>(3×25 tonne derrick cranes)<br>(1×16 tonne derrick carne) | 16 |
| York Dock A<br>(No cranes) | 24 |
| York Dock 1<br>(1×35 tonne derrick crane) | 24 |
| Herdman Channel West<br>(2×30 tonne transporter cranes) | 18 |
| Gotto Wharf<br>(2×30 tonne transporter cranes) | 21 |
| Pollock Basin 3<br>(6 tonne portal crane) | 21 |
| Pollock Dock 7<br>(10 tonne portal crane) | 28 |
| Stormont Wharf 2<br>(200 tonne cantilever crane)<br>(30 tonne crane) | 28 |
| Albert Quay 6<br>(30 tonne crane) | 18 |

Paktank Storage Co. Ltd. have constructed a bulk liquid terminal for the storage of petroleum, chemical products, etc. Special tankers ship liquid gas to the storage installation of Kosangas (Northern Ireland) Ltd. at Musgrave Channel.

**STEVEDORES:** Two schooling times per day for stevedoring gangs – 8.00 a.m. 1.00 p.m. Gangs for all week-end work are schooled at 1.00 p.m. on Fridays.

**MEDICAL:** All kinds of medical treatment are available. Agent should be given as much notice as possible for arrangements to be made. International vaccination certificates for smallpox are required.

**TANKERS:** Tankers have to observe (i) Belfast Harbour Commissioners By-Laws for loading, discharging, etc., of petroleum spirit. (ii) Chamber of Shipping Tanker Safety Code.

Capacity for 6,000 tons of tank washings to be processed at B.P Refinery.

*Tanker berths:* B.P. oil refinery 35 ft. No. 1 oil jetty 28 ft. No. 2 oil jetty 28 ft. 6 in.

**DENSITY:** Average density of water in Inner Harbour is about 1012, and Outer Harbour is about 1024.

**FRESH WATER:** Available at almost all berths. Delivery is by hose at a rate of appxoximately 35 tons per hour. Arrangements can be made through Belfast Water Commissioners (ship's water), tel. 749402.

**FUEL:** All grades of fuel oil are available. Forty-eight hours advance notice of requirements should be given.

**FIRE PRECAUTIONS:** Ships have to observe (i) Belfast Harbour Commissioners By-Laws for regulating the use of fires, lights and electrical apparatus. (ii) Chamber of Shipping Tanker Safety Code.

Special precautions for vessels carrying petroleum, explosives, calcium carbide and dangerous goods are set out in the appropriate by-laws. A copy of general port fire notice, delivered to all ships on arrival.

**GANGWAY/DECK WATCHMEN:** Normally, a member of ship's company acts as watchman. Shore watchmen may be obtained through Agent.

**OPENING/CLOSING HATCHES:** Conventional beams and hatches and slab hatches are opened and closed by stevedores. McGregor or patent steel hatches are worked by ship's personnel. Ship's personnel are required to work all types of hatches at grain silos.

**CERTIFICATES:**

Register. Radio Certificate. Load Line Certificate. Safety Equipment Certificate. Safety Construction Certificate. Light Bills. Passenger Certificate if applicable. Chain Register. Derat station Certificate.

**CUSTOMS ALLOWANCE:** Tobacco: 8 oz. tobacco are permitted per man and issues are made at 8 day intervals. Wine and/or Spirits: Wine, beer and spirit issues are made, in moderation, at 4 day intervals.

**IDENTIFICATION CARDS:** Seamen's identity cards required.

**CONSULS:**

**REPAIRS:** All types of deck and engine repairs are possible.

**DRY DOCKS:** East Twin dry dock, length of floor 1,100 ft., breadth of floor 167 ft., breadth of entrance 165 ft., level of sill 26 ft. 6 in. below datum.

Harland and Wolff building dock, length of floor 1,825 ft., bread of floor and entrance 305 ft., level of sill 16 ft. 10 in. below datum.

Five other dry docks available.

**REPATRIATIONS:** Crews may be changed and repatriatio arranged. Immigration must be informed.

**AIRPORT:** Aldergrove airport is approximately 17 miles fr Belfast. There are daily flights to all parts of United Kingdom.

**TIME:** British Standard Time is kept, that is GMT plus 1 ho Reverting to GMT in winter months.

**HOLIDAYS:** Stevedore holidays are 17th March, Easter Mond and Easter Tuesday, 12th and 13th July and 25th and 26th Decemb Cargo can be worked on these days except 25th December, at dou time rates.

**POLICE/AMBULANCE/FIRE:** All can be contacted by phon 999 and ask for services required. Additionally: Fire Brigade Bel 22222; Ambulance Belfast 41212; Harbour Police Belfast 23555; through Belfast Harbour Radio on VHF/RT Channels 16 and 12.

**TELEPHONE:** Telephone can be placed on board at certain ber GPO charge for connecting is £30.

**SERVICES:** All principal makes of radio, radar and gyro equipme can be serviced. Compass adjusting and D/F calibration can b carried out.

**SHORE LEAVE:** Normally no restrictions on shore leave.

**AUTHORITY:** Belfast Harbour Commissioners, Harbour Offi Corporation Square, Belfast, BT1 3AL. Tel. Belfast 34422. Te 74204.

## BLYTH: 55.08 N. 01.30 W (See Plan)

**DOCUMENTS:**

Certificate of Registry.
Load Line Certificate.
Wireless Telegraphy and/or Safety Radio Certificate.
Safety Equipment.
Ship Construction.
Light Dues Payments.
Bills of Lading, Manifest and Stowage Plan usually sent in advan of vessel.
List of members of crew (of ship arriving in U.K.) who are aliens were engaged outside U.K. (Home Office Form I.B.6A). Pa senger form to be completed when reporting vessel's arriv from foreign ports.

**PILOTAGE:** Call by R/T when within 50 miles of port, and VH when approx. one hour off port. Pilot boats black hull with word "Pilot" on Hull or Superstructure. Letters in white. Fly internation Pilot Flag at masthead and at night show international light signa for pilot boat on station.

Vessel requiring Pilot sounds two short and three long blasts exhibits international Code Flag "G". By night flashes internation Code Signal "G" or "PT". Pilot boats operate and will board with radius of two miles of East Pier Lighthouse, or further weather pe mitting. Pilots board at Pier end area during adverse weather.

**ANCHORAGES:** No anchorages within harbour – in good weath vessels can anchor off port east of Fairway Buoy.

**RESTRICTIONS:** No night restrictions. Entry according to dra Channel dredged to 27 ft. MLWST and approaches 30 ft. MLWST Upper River and South Harbour 24 ft. MLWS. Rise of tide 14 springs, 7 ft. neaps.

**MAX. SIZE:** Bulk carriers up to 22,500 dwt. discharge at Alca (U.K.) Limited Terminal. Max. draft 32 ft.

For other berths max. length 625 ft., draft 28 ft.

**HEALTH:** International quarantine signals to be used. Pratiqu will be granted by Customs or Port Health officer if Maritime Heal Declaration is clean. If suspected diseases on board radio "POR TELTH BLYTH" in advance advising details.

**RADIO:** Cullercoats Radio.

**VHF:** Details of movements within port given over VHF from po control office. Calling Chanel 16, working Channel 12.

**TUGS:** Normally join vessel at harbour entrance. Extra charge f use of tugs lines.

**BERTHING:** Alcan Bulk Alumina Terminal, depth alongside 36 f MLWST.

North Quay, South Harbour, depth alongside 24 ft. MLWST. Coal-loading berths and waiting berths, 19 ft. to 30 ft. MLWS. We Quay, dredged depth 19 ft. MLWS. South Side Berths, dredged dep 30 ft. MLWS. Wimbourne Quay dredged depth 24 ft. MLWS.

**STEVEDORES:** Blyth Harbour Commission, Traffic Departme South Harbour, Blyth. Tel. Blyth 3611/2. ETA requested day befo arrival.

**MEDICAL:** Notice not necessary but advisable. Hospital faciliti available. Inoculation, vaccinations and/or certificates not speci cally required.

**DENSITY:** Sea water. Fresh water effect negligible.

**FRESH WATER:** Obtainable from shore hydrants. Rate of deliv approximately 20 tons per hour.

**FUEL:** BHC operate a bunkering Agency on behalf of Shell Mex B.P. Ltd. 24 hours notice usually required. Grades gas oil and mari diesel.

**GANGWAY/DECK WATCHMEN:** Not usually employed a these duties are carried out by the crews.

**OPENING/CLOSING HATCHES:** Normally carried out by cre

**CUSTOMS ALLOWANCES:** Tobacco: [50/250 grammes. Win Spirit: Wine up to 0·75 litres. Spirits up to 0·375 litres.

**IDENTIFICATION CARDS:** Seaman's book or Passport des able.

**CONSULS:** Denmark, Norway, Netherlands.

**REPAIRS:** All types of deck and engine repairs possible.
**DRY DOCKS:** Three dry docks available No. 1 L 467 ft. 10 in. × B 60 ft. 9 in., No. 2 L 338 ft. 9 in. × B 44 ft. 10 in. No. 3 L 311 ft. × B 46 ft
**REPATRIATION:** Can be arranged by H.M. Immigration Office, Blyth.
**AIRPORT:** 15 miles. Served by regular airlines.
**TIME:** BST is GMT plus one hour. GMT in winter months.
**HOLIDAYS:** Christmas Day; New Year's Day; Good Friday; Easter Monday; Spring Bank Holiday and Late Summer Holiday. Cargo work can be arranged on these days by request.
**POLICE/AMBULANCE/FIRE:** Tel. 999.
**TELEPHONES:** Can be fixed aboard by arrangement.
**AUTHORITY:** Blyth Harbour Commission, 79 Bridge Street, Blyth. Tel. Blyth 2066. Telex 536567.

## BRIDLINGTON: 54.05 N. 00.12 W.

**DOCUMENTS:**
Crew List.
Passengers List.
Ship's Register.
Customs Documents.
Manifests.
Bills of Lading.
Ship's papers.

**PILOTAGE:** Vessels approach within ¼ mile, flying G Flag. Local fishermen act as Pilots and board approximately 1 hour prior to berthing time.
**ANCHORAGES:** For small vessels of not more than 12 ft. draft, 1 mile South-east of harbour. Deeper-drafted vessels 3 miles East of Harbour. Good holding grounds except in heavy weather from East to South.
**RESTRICTIONS:** In accordance with state of tide and draft restrictions.
**MAX. SIZE:** Maximum permissible length 149 ft. Draft 13 ft. on spring tides.
**HEALTH:** Pratique required from all vessels other than from a British port. Q Flag to be flown.
**RADIO:** Humber Radio Station is the best for a vessel to route ETA, etc.
**TUGS:** None available.
**MEDICAL:** Agents require advance notice of required medical attention. Hospital facilities available. Relevant medical information, i.e. fever, etc., required.
**DENSITY:** Sea water.
**FRESH WATER:** Unlimited quantity available. Delivery from shore pipe-line at the rate of 10 ton per hour.
**FUEL:** All grades available. Delivery by road tankers.
**OPENING/CLOSING HATCHES:** Normally carried out by crew.
**IDENTIFICATION CARDS:** Not required.
**CONSULS:** No local Consuls. Nearest port of availability, Hull, Yorks.
**REPAIRS:** Limited engine and deck repairs.
**REPATRIATION:** No facilities exist for crew change.
**AIRPORT:** Yeadon, 45 miles, served by regular airlines.
**HOLIDAYS:** Normal Bank Holidays cargo can be worked on these days.
**POLICE/AMBULANCE/FIRE:** Police Bridlington 2222; Ambulance 0482-881198; Fire 3585.
**TELEPHONES:** No arrangements exist for placing telephones aboard.
**SHORE LEAVE:** Crew members allowed ashore.
**AUTHORITY:** Bridlington Harbour Master: Harbour Commissioners. Tel. 3022. Telex 537567.

## BRISTOL: 51.27 N. 02.35 W.

**DOCUMENTS:**
1 Maritime Declaration of Health.
1 Crew's Effects List.
2 Ship's Report by Master.
1 Home Office form I.B.6.
1 Stores List.
1 Certificate of Deck Cargo tonnage.
1 Grain Certificate.
1 Light Certificate.
1 Port Dues Certificate.
1 Passenger List.
1 Landing Card for each passenger.
Ship's Certificate of Registry.
Mercantile Marine Office Certificate (British ships only).
In addition, Manifests and Bills of Lading are usually sent to Agent direct from loading port.

**PILOTAGE:** Telegraphic address, Brispilot Avonmouth. Notice required, not less than 12 hours (preferably more) before arrival Breaksea Light Vessel. VHF Channel, calling 16, working 6. A 58 ft. motor pilot boat, black hull, "Bristol Pilot" in large white letters amidships.

Position: Two pilotage stations. Western station at Breaksea extends from a line drawn 180° from Sully Island. Weather and other circumstances permitting the motor pilot boat operates from Barry Harbour to board vessels expected to dock at Bristol. Eastern station at Avonmouth or in King Road. A motor pilot boat operates from Avonmouth from 3 hours before until 3 hours after high water, for boarding and landing pilots Eastward of Walton Bay. This pilot boat also equipped with VHF and radio-telephone.

Pilot boats in Bristol Channel have adopted distinctive pilot signals, made audibly during foggy weather when the fog signal for a vessel is heard, and by morse lamp at night in clear weather. The distinctive signal for Bristol pilots is the International Morse Code Numeral 2, viz · · – – – Vessels desiring to embark or disembark a pilot are invited to adopt a similar procedure.
**ANCHORAGES:** Barry Road affords good anchorage in moderate weather for vessels awaiting a Pilot. Walton Bay affords good anchorage within 6 miles of Avonmouth.
**RESTRICTIONS:** Avonmouth Docks. No restrictions at night. Sill clearance of 4 ft. for all vessels with a maximum draft of 34 ft. 6 in. salt water. There are restrictions on draft during neap tides to possible 28 ft. Range of high water – 33 ft. to 48 ft.

Portishead Docks. Sill clearance of 5 ft. for vessels up to 55 ft. beam. Sill clearance of 6 ft. for vessels up to 60 ft. beam.
**MAX. SIZE:** Avonmouth Docks. Maximum length 690 ft., beam 95 ft., draft 34 ft. 6 in. salt water.

Portishead Docks. Maximum length 415 ft., beam 60 ft., draft 26 ft. (normal tides).
**HEALTH:** Foreign arrivals to complete Maritime Declaration of Health. They are cleared immediately on arrival by either the Port Doctor or an officer of HM Customs depending on where the ship comes from and whether there is sickness on board.

Vessels arriving from ports within accepted area and coastal arrivals need not present Declaration, but when there is sickness on board Port Health Authority must be informed.
**RADIO:** Niton Radio, Lands End Radio, Portishead Radio.
**RADAR/VHF:** No port radar service, but an extensive VHF coverage exists from West of Barry Roads, to all dock entrances.
**TUGS:** Vessels docking on flood tide normally join at old oil jetty to Northward of the entrance lock. Vessels docking on ebb tide, tugs join between Firefly and Cockburn Buoys. Ship's line always used.
**BRIDGES:** Avonmouth Docks. Junction between Avonmouth Dock and Royal Edward available at all times if necessary by arrangement with Dock Master.
**STEVEDORES:** At least 24 hours notice required in order that necessary labour may be allocated.
**MEDICAL:** Absolutely necessary for Agent to have as much notice as possible of any medical attention required. All facilities available.
**DENSITY:** Avonmouth Docks: Average density 1,012 to 1,015; in the river fluctuates according to tides. Portishead Docks: The density is 1,015.
**FRESH WATER:** Avonmouth and Portishead Docks: available at all berths, 24 hours a day from hoses connected to standpipe. Delivery rate 25–30 tons per hour.
**FUEL:** Most grades available – 24 hours notice required.
**FIRE PRECAUTIONS:** According to local laws, available on request.
**DEVELOPMENTS:** A new 70-acre dock, West Dock II, is under construction on land directly opposite Avonmouth Docks. The new dock will have a lock 1,200 ft. × 140 ft. wide, a turning circle for ships of 1,400 ft. with 45 ft. of water along the three × 2,000 ft. of developed quays. Ships of up to 70,000 tons dwt. will be accommodated. The dock should be operational in 1975.

At the Oil Basin, a bulk liquid storage installation for petroleum, molasses and chemicals is also under construction. Two major development schemes now operational are the Ocean Container Terminal at "T" berth, equipped with a 30-ton capacity gantry container crane, and the reconstructed and modernised grain discharging berths at the Royal Edward Dock.
**GANGWAY/DECK WATCHMEN:** Not absolutely necessary – Available if required.
**OPENING/CLOSING HATCHES:** If crew open hatches on the first day then they must continue to do so whilst vessel is discharging/loading, otherwise dockers attend to this.
**CERTIFICATES:**
Load Line Certificate.
Safety Equipment Certificate.
Lloyd's Construction Certificate.
Derat Certificate.
Ship's Register.
Light Bills.
Safety Radio Certificate.
**CUSTOMS ALLOWANCE:** Tobacco: Home trade – equivalent of ¼ lb. tobacco. Foreign trade – equivalent of ½ lb. tobacco. Wine and/or Spirits: Officer – equivalent of 1 quart of wine per day. Crew – equivalent of 1 bottle of wine in 4 days.
**IDENTIFICATION CARDS:** Not necessary unless being repatriated.
**CONSULS:**
Belgian Consul
Danish Consul
Frensh Consular Agent
Finnish Vice Consul
German Consul
Icelandic Consul
Italian Consular Agent
Netherlands Vice Consul
Norwegian Vice Consul
Portuguese Vice Consul
Spanish Vice Consul
Swedish Vice Consul
**REPAIRS:** All types of repairs are carried out.
**DRY DOCK:**

| | *Total length* | *Length over blocks* | *Width of Entrance* | *Depth of water on sill* |
|---|---|---|---|---|
| Avonmouth Docks | 875 ft. | 850 ft. | 100 ft. | 32 ft. |

**REPATRIATION:** Repatriation can be effected to all parts of world.
**AIRPORT:** Local airport approximately 12 miles away. London can be reached in 2 hours by train.
**TIME:** BST is GMT plus 1 hour. GMT in winter months.
**HOLIDAYS:** Easter (varies); Spring Bank Holiday (last Monday in May); August Bank Holiday (varies, usually last Monday in August); Christmas Day (25th December); Boxing Day (26th December). Work can be arranged on these holidays, although unusual to work 25th/26th December.
**POLICE/AMBULANCE/FIRE:** Avonmouth Docks. A fire pillar system is installed giving direct contact to Authority's police for all emergency services. Can also be contacted by telephoning Avonmouth 2591.

Portishead Docks. Emergency services obtained through Authority's Police, tel. Portishead 2381.
**TELEPHONES:** Can be put on board at most berths.
**AUTHORITY:** Port of Bristol Authority, Queen's Square, Bristol. Tel. Bristol 25381, Avonmouth 3681, Portishead 8601.
**AGENT:** Cory Brothers Shipping Ltd., Portview Road, Avonmouth, Bristol, BS11 9YX. Cables: "Cory Bristol". Tel. Avonmouth 5081. Telex 44129.

## BRIXHAM: 50.24 N. 03.30 W.

**DOCUMENTS:** See "London".
**PILOTAGE:** Trinity House Pilot, tel. Brixham 2214.
**DEEP SEA AND COASTAL PILOTAGE:** Pilots for Channel, North Sea, British Coast and Baltic. 48 hours before arrival radio "HUTCHINSON GRAVESEND" stating ETA off Brixham and port(s) of destination. On approaching Brixham contact Brixham Pilots on VHF Channel 16. Pilots board by motor-launch 1 mile N.E. of Berry Head. Pilots can also board at any British or Continental port as required.
**ANCHORAGES:** At Torbay in deep water.
**MAX. SIZE:** Inner harbour; length, 231 ft. At jetty; 400 to 500 ft.; draft 24 ft.
**RADIO:** Berryhead Coastguard, tel. Brixham 2156.
**TUGS:** None. In emergency may use fishing boats.
**BERTHS:** Jetty any time. Inner Harbour with arrangement with Harbour Master, tel. 3321.
**MEDICAL:** MOH advises.
**DENSITY:** Salt water. 1025.
**FRESH WATER:** Available.
**FUEL:** Available at jetty.
**REPAIRS:** Engine welding, plumbing by local firms.
**REPATRIATION:** No facilities.
**AIRPORT:** Exeter, 35 miles away.
**POLICE/AMBULANCE/FIRE:** Brixham 2231 or 3065 or 999.
**SERVICES:** No tank cleaning. Compass adjusting with arrangement with Harbour Master.
**SHORE LEAVE:** Allowed.
**AUTHORITY:** Harbour's Administrator, T.C.B. Council, Fishmarket, Brixham, tel. Brixham 51854.

## CARDIFF: 51.29 N. 03.10 W. (See Plan)

**PORT LIMITS:** A vessel is considered as "arrived" when it is in the lock.
**DOCUMENTS:**

1 Crew List.
1 Health Form.
1 Port Immigration, i.e. Crew List, and where applicable, a passenger list.
Pratique issued by Customs.
1 List of Consumable Stores (tobacco, snuff, alcohol, etc.).
3 Bills of Lading (one original and two copies).

**PILOTAGE:** Channel pilotage and dock pilotage not compulsory except for vessels carrying passengers. Pilots embark from pilot cutters operating from Barry Harbour.

Pilot Cutters are marked on each side "Cardiff Pilots" and operate radio continuous watch on 2182 kc with working frequency of 2246 kc and 2301. Signal for pilot cutter – numeral 7 on whistle or siren. Telegraphic address Carpil Barry. Minimum of 24 hours notice required of ETA.
**ANCHORAGE:** Barry Roads: afford good anchorages in moderate weather in depths from 5 to 6 fathoms (9·1 to 11 metres) about ½ mile South-west of the entrance to Barry Docks. Clay bottom.
**RESTRICTIONS:** Entry to docks restricted to a period of 4 hours before and 3 hours after high tide, according to size and draft of vessel.

Entrance lock 850 ft. length, 90 ft. wide.
**MAX. SIZE:**

*Queen Alexandra Dock.* LOA 660 ft., beam 86 ft., max. draft 33 ft.
*Roath Dock.* LOA 650 ft., beam 84 ft., max. draft 32 ft.

Vessels near maximum dimensions may be accepted on certain tides after consultation with the Dock Master.
**HEALTH:** Maritime Declaration of Health to be made to Port Authority or Customs Officer, whoever boards ship first. In event of contagious fever on board, Port Health Authority must be advised by radio before arrival. No pratique necessary if vessel is entering port from another port in U.K.
**RADIO:** Ilfracombe Radio and Portishead Radio.
**VHF:** A port operation VHF service maintained at dock entra during tidal hours. Call sign "Cardiff Radio" calling on Channe and operating on Channel 14.
**TUGS:** Tugs normally join vessel ½ mile to seaward of Outer W Channel Buoy, and arrangements for attendance of tugs should made through ship's Agent.
**BERTHING:** Arranged through Dockmaster, and berths w docks are flat quays. Rise and fall usually varies between 3 and
**SPECIALISED CARGO HANDLING FACILITIES:**

Grain: Spillers berth, 2 Suction Plants. Average discharge 900 t per day (450 tons per 8 hours per gang).

Iron and Non-ferrous Ores: Dowlais Wharf (British Steel Corpo tion). 5 kangaroo cranes. Average discharge 10,000 tons per (2,500 tons per 8 hours per gang).

Coal (Imports): Pontoon berth, Roath Dock. Self-discharg vessels. Average discharge 4,000–5,000 tons per day (2,000–2,500 t per 8 hours per gang).

Crushed Bones: Bone Suction Plant, Roath Dock. Average d charge 300–400 tons per day (150–200 tons per 8 hours per gang).

Petroleum Products: 5 Petroleum berths (2 in Roath Dock; 1 Queen Alexandra Dock and 1 in Penarth Harbour). Average discha approximately 448 M³ per hour.

There are no specialised berths equipped for containers, roll-o roll-off traffic, liquid chemicals, LPG carriers, fertilisers, sulphur, e
**BRIDGES:** Bridges throughout the port can be operated at a time.
**STEVEDORES:** Arrangements for employment of stevedo undertaken by Docks Board through ship's Agent.
**MEDICAL:** All facilities available. Agents should be advised advance if medical services required.
**TANKERS:** Three tanker berths available, one in Queen Alexand Dock, two in Roath Dock where there is also a tanker-cleaning be Special instructions are issued to Master on arrival at port.

*Penarth.* One berth, 500 ft. long.
**DENSITY:** Full salt water.
**FRESH WATER:** Available 24 hours daily from quayside, deliv 20 tons per hour maximum.
**FUEL:** Fuel of all grades available.
**FIRE PRECAUTIONS:** For tankers, strict fire precautions quired in accordance with latest safety procedures.

*Emergency Action – Fire:* In the event of an outbreak of fire matter how small) immediately dial 999 on the ship-to-shore te phone. When the operator answers, say "Fire", and wait until are connected to the Fire Station Control. Then repeat: "Fire at th Petroleum Berth, Roath Dock". In event of the ship-to-shore te phone being inaccessible or out of order, use GPO call box situa on dockside road to stern of the vessel.
**GANGWAY/DECK WATCHMEN:** Performed by ship's crew a necessary for tankers.
**OPENING/CLOSING HATCHES:** Carried out by ship's crew.
**CUSTOMS ALLOWANCE:** Tobacco, 1 oz. per day per ma maximum 8 days. Wine/Spirits, ¼ pint spirits per man per day eve 4 days.
**IDENTIFICATION CARDS:** Not needed.
**CONSULS:** Ships should contact Agent.
**REPAIRS:** All types of repairs possible.
**DRY DOCKS:** Dimension of largest dry dock 635 ft. × 75 ft. Dime sion of smallest dry dock 600 ft. × 71½ ft.
**REPATRIATION:** Facilities exist to exchange crews and repa ate to any part of world.
**AIRPORT:** Airport 8 miles from Cardiff, serving other airports all parts of world.
**TIME:** Local time is British Standard Time, GMT plus 1 hour. GM in winter months.
**HOLIDAYS:** Good Friday; Easter Monday; Whit Monday (Spr Holiday); August (Summer Holiday) one day; Christmas D Boxing Day.
**POLICE/AMBULANCE/FIRE:** Dial 999 on public telephone se vice and ask for service required.
**TELEPHONES:** Ship/Shore telephone supplied at certain berths service organized through ship's agent.
**GENERAL:** Cardiff is a port which has very big range of tides a important that accurate ETA's and maximum drafts supplied ship's Master in order that Agent may place orders for tugs a Pilots in sufficient time to be in attendance when required
**AUTHORITY:** British Transport Docks Board, Cardiff Dock Tel. 42544, extension 8410. Telex, 49542.

**AGENT:** Lambert Brothers Ship Agencies Ltd., Exchange Buildin Cardiff. Tel. 25201. Telex: 49348. Cables: "Lambert Cardiff".

## COWES (including Newport, Isle of Wight): 50.46 01.18 W.

**DOCUMENTS:** As for "Portsmouth".
**PILOTAGE:** See Southampton entry for sea pilotage. As Cowe within the Isle of Wight Pilotage District, a Sea Pilot must employed by all vessels subject to compulsory pilotage. Tri House Cowes Pilots conduct vessels between the anchorage a and berths in Cowes Harbour and Newport, 5 miles further up t River Medina. Pilots board from launches *Thosbro* or *Tanta* which are equipped with VHF, Channels 16, 12, 9 and 6. A Pilot c always be obtained by making a link-call to Cowes 3812 (24 ho service).
**ANCHORAGES:** Vessels waiting to proceed to Cowes or Newp

should anchor within the area bounded by Old Castle Point, "Prince Consort" light-buoy and the harbour entrance light-buoy. The prohibited anchorage on either side of the leading line must be respected, and vessels must not obstruct the fairway into Cowes, nor the deep water channel used by large vessels bound for Southampton. The mooring buoys are reserved for hovercraft and the Trinity House lighthouse tender. Mooring chains run East and West for 500 ft. from each of these mooring buoys. Tidal streams in the anchorage are strong. Cowes is an international yachting centre, and the anchorage is often crowded with small craft, especially during July, August and September.

Cowes Roads anchorage, North of the deep water channel, is used by large vessels waiting to berth in Southampton Water, taking bunkers or changing crews.

**MAX. SIZE:** Cowes – 300 ft. long, 17 ft. draft at high water springs. Vessels must expect to take the bottom in soft mud at low water. Newport – 150 ft. long, 8 ft. draft. Newport Harbour practically dries out at low water.

**RESTRICTIONS:** Tankers may load and discharge at all times, subject to the Petroleum Acts.

A channel marked by small orange buoys is reserved for the use of hovercraft. Other vessels using the area should do so with caution.

Overhead cables at Kingston; 115 ft. above MHWS.

**FLOATING BRIDGE:** A chain ferry plies between East and West Cowes. An all-round amber light is shown from the leading end of the bridge when under way. Approaching vessels should sound one prolonged blast on the whistle when not less than ½ mile away. The bridge gives way to all river traffic. The chains of the ferry are at least 2 ft. above the river bottom in mid-channel at all times.

**HEALTH:** See "Portsmouth".

**RADIO:** See "Southampton" entry for Sea Pilot communications. See "Pilotage" entry for local communications.

Southampton Port Radio, the port operations and radar station for the port of Southampton, will often help out in cases of difficulty, although there is no obligation for them to do so and they accept no responsibility. Southampton Port Radio VHF Channels 16, 14, 12, 11, 10, 18, 20 and 22. Medium frequency through Nitonradio.

**TUGS:** Tow-boat launches are available to assist vessels.

**BERTHING:** *Shepards Wharf.* Vessels up to 150 ft. length, bulk cargoes of stone, grain, bagged fertilisers.

*Medina Wharf.* Vessels 17 ft., spring draft, length 270 ft. OAL. Loading and unloading bulk cargoes of stone, coal, fertilisers, grain, etc.

*Kingston Wharf.* As for Medina Wharf, above.

**STEVEDORES:** By arrangement with Agent and wharf owners. Normal working hours: 0800–1700 Monday to Friday. Overtime on Saturdays, etc., by arrangement. No work on public holidays.

**MEDICAL:** All medical facilities are available. Agent should be given advance notice of requirements. If call is solely to land sick personnel, see "Southampton" entry.

**DENSITY:** Cowes – 1025 salt water.

Newport – varies according to amount of recent rainfall and state of tide.

**FRESH WATER:** Available on all commercial wharves.

**FUEL AND DIESEL OIL:** Available by arrangement with Agent.

**CRANAGE:** Hammerhead crane at J. S. Whites, 50 tons. Shepards Wharf: mobile cranes, 1½ tons. Medina Wharf: 2 grabbing cranes of 4½ tons for bulk cargoes.

**HATCHES:** Opened and closed by ship's crew.

**REPAIRS:** All hull and engine repairs undertaken to vessels capable of Cowes entry. Graving dock for ships up to 200 ft. in length and 14 ft. draft.

**SERVICES:** Compass adjuster, radar and radio mechanics available from Southampton. Charts and general stores available locally.

**OIL POLLUTION:** Cowes and the Solent are world-famous yachting centres. Pollution is dealt with severely.

**AUTHORITY:** Cowes Harbour Commissioners. Harbour Master: Tel. Cowes 3952.

## DARTMOUTH: 50.21 N. 03.34 W.

**PORT LIMITS:** A line from Inner Froward Point to Combe Point.

**DOCUMENTS:** Normal documents for U.K. ports.

**PILOTAGE:** No direct radio contact with Pilots. To obtain services of a Pilot, Master must advise his Agent by cable, giving ETA and draft. Pilots can be available at short notice but Agents only operate normal office hours. In emergency Harbour Master may be contacted by telephone at any time. Anchorage when awaiting Pilot: 5 cables E.S.E. Castle Ledge buoy in 12 fathoms.

**ANCHORAGE:** Vessels can anchor in 5 fathoms, 7 cables 150(T) from Kingswear Lighthouse. Or in a position as above, for Pilot.

**RESTRICTIONS:** Vessels up to 27 ft. draft can enter at any time.

**MAX. SIZE:** Maximum length 600 ft., maximum draft 27 ft.

**HEALTH:** Pratique granted by Customs on arrival.

**RADIO:** Route cables, etc., through Niton or Lands End Radio Stations.

**TUGS:** Tugs are not normally available.

**BERTHING:** All berthing on midstream buoys.

**MEDICAL:** All medical services are available; if possible give notice of requirement.

**DENSITY:** Normally salt. 1025.

**FRESH WATER:** Available only for small vessels.

**FUEL:** Not available.

**GANGWAY/DECK WATCHMEN:** It is advisable to have watchmen.

**REPAIRS:** All repairs unless of a major or underwater type can be carried out.

**REPATRIATION:** Facilities exist.

**AIRPORT:** 35 miles from Exeter airport. Internal and short range Continental flights.

**TELEPHONES:** Not normally available, except for HM ships.

**GENERAL:** Dartmouth does not now operate as a commercial port except for small vessels up to about 800 tons deadweight en route to Totnes, although the harbour is suitable for ships of 10,000 tons deadweight, and mooring buoys are available for such vessels.

**AUTHORITY:** Dartmouth Harbour Commission, Lloyds Bank Chambers, Dartmouth. Tel. Dartmouth 2337.

## DOVER: 51.07 N. 01.18 E. (See Plan)

**DOCUMENTS:** Required on arrival:

Declaration of Health (one copy) for H.M. Waterguard.
Crew List H.O. Form I.B.6. for H.M. Immigration.
Crew Declaration Form C.142 for H.M. Waterguard.
Deratisation Certificate.

It is required to report and clear a vessel at Customs House if remaining in port more than 24 hours. or loading and discharging cargo or embarking and disembarking passengers, with following:

Passenger List. Cargo Manifests. Ship's documents.

**PILOTAGE:** Requests for Pilot normally made by local Agent.

Vessels from Westward obtain Pilot from Pilot station, Folkstone.

Vessels from Eastward obtain Pilot from position approx. 1 mile South East of Dover Harbour Eastern Arm Head.

Vessels approaching Dover Harbour Entrances should do so with caution in accordance with instructions from Port Control. Masters are warned of the high frequency of cross channel vessels and hovercraft entering and leaving by both entrances.

*Port Control:* Signal Station situated at end of Eastern arm operates VHF Channels 6, 12 and 16. Motor launches serving Pilots are also fitted with VHF Channels 6, 12 and 16.

**DEEP SEA AND COASTAL PILOTS:** For Channel, North Sea, British Coast and Baltic.

Contact agency 36 hours before arrival by radio, giving ETA Dover and destination port(s).

Agencies are: "Hutchinson Gravesend" and "Hammond Dover".

On approaching Dover contact Port Control by VHF for instructions and: For "Hutchinson" Pilot – hoist, flash or sound No 1. For "Hammond" Pilot – hoist, flash or sound "B".

Pilots will also board at any UK or continental port as required.

**ANCHORAGE:** Limited space available in Outer Harbour. Contact Port Control in advance for instructions.

**RESTRICTIONS:** Attention is drawn to the strict requirement of obtaining permission to enter or leave the harbour. It will be noted that although the traffic control signal may be exhibited for entry/departure, every vessel manoeuvring to enter or leave the port is required to obtain specific permission to enter or leave, as the case may be.

Vessels awaiting permission to proceed should keep at a safe distance and clear of the entrance until so authorised. Responsibility for entering or leaving with caution and the safe navigation of each vessel subsequent to the receipt of permission to proceed continues to remain the responsibility of the Master.

*Explosives – dangerous cargo:* Declaration to be made and permission obtained prior to entering the harbour. Board not compellable to receive within the harbour any articles which in their opinion would endanger safety of harbour or vessels or goods.

**HEALTH:** Vessels arriving in Dover Outer Harbour are boarded by Water guard who grant pratique on arrival. Coastwise vessels from U.K. ports have automatic pratique.

**RADIO:** Vessels from East use North Foreland Radio call sign GNF and vessels from Westward use Niton Radio call sign GNI.

**RADAR/VHF:** Port Control is fitted with radar and VHF, and Masters can make initial contact with Port Control VHF Channels 12, 6, and 16.

**TUGS:** Tugs normally join vessels inside Dover harbour, but meet vessels outside by arrangement. Charges £40·50 per movement. Tug's ropes normally used at a charge of £2 per rope.

**BERTHING:** All berths in Outer Harbour can be reached at all times. Those in dock can be reached 2 hours before until 1 hour after each high water. All berthing requirements are allocated by Port Control.

**CARGO-HANDLING FACILITIES:** Four berths equipped for handling roll-on/roll-off traffic. Additional berth under construction.

**STEVEDORES:** No particular ETA required as ship's Agent makes all necessary arrangements. *Packaged Goods.* Approximately 25 tons per gang per hour average discharging rate.

**MEDICAL:** Medical assistance can be arranged by Agent to vessels passing Dover Harbour. Doctor will board a vessel in English Channel or on arrival at anchorage in Outer Harbour. Hospital facilities are available.

**DENSITY:** 1016.

**FRESH WATER:** Available to all vessels by pipe-line 20 tons per hour.

**FUEL:** Gas oil available from Shell Mex & B.P. Ltd., and Esso. 24 hours notice required.

**GANGWAY/DECK WATCHMEN:** Supplied on request.

**OPENING/CLOSING HATCHES:** By crew.

**CERTIFICATES:** Certificates to be obtained for foreign clearance, Register, Load Line, Safety Construction, Passenger and Safety Equipment.

**CONSULS:**

**REPAIRS:** Facilities available for minor engine repairs.
**REPATRIATION:** All facilities exist.
**AIRPORT:** Most repatriations by air through London Airport.
**TIME:** Local time BST one hour in advance of GMT. Reverting to GMT in winter months.
**HOLIDAYS:** Official holidays: 1st January; Good Friday; Easter Monday; Spring Holiday (end May); August Bank Holiday; Christmas Day; Boxing Day.
**POLICE/AMBULANCE/FIRE:** Dover 999.
**TELEPHONES:** Not available.
**SERVICES:** Repairs to radar equipment, compass adjusting, supply of charts and crew changes can be arranged outside Dover Harbour in the English Channel at all times.
**SHORE LEAVE:** Yes, allowed.
**AUTHORITY:** Dover Harbour Board, Harbour House, Dover. Tel. 206560.

**AGENT:** P.D. Wharfage and Transport Ltd., The Clock Tower, Esplanade, Dover, Kent. Cables "Shipbroker Dover". Telex 96130. Tel. Dover 2755 and 2766.

## DUNDEE: 56.28 N. 02.57 W. (See Plan)

**DOCUMENTS:**
3 Crew Lists.
3 Passenger Lists.
1 Tobacco Manifest.
1 Health Declaration.
Cargo Manifests.
Bills of Lading.
Derat.
Lights Certificate.

**PILOTAGE/VHF:** Port Control Service, call sign "Dundee Harbour Radio", maintains a 24 hour listening watch on VHF Channel 16 (156·8 mc/s and also operates on Channels 12 and 11 156·6 mc/s and 156·5 mc/s).

Pilotage is compulsory in Dundee Pilotage District. Pilots board incoming vessels within a 3-mile radius seaward of Tay Fairway Buoy or as close to as weather permits. The pilot boat is only on sea station when shipping is expected and accurate ETAs are essential.

ETA should be given 6 hours before arrival either by radiotelephone link call to Dundee Port Control 24121 or by radiotelegram to "Port Control" Dundee. Amendments may be made up to 2 hours before the original ETA. When within VHF range (approximately 25 miles from Tay Fairway Buoy) ETAs may be confirmed by contacting "Dundee Port Control" on Channel 16 and transferring to Channel 12 to pass messages.

Pilot boats, when on station, keep a listening watch on Channel 16 and transfer to Channel 6 (156·3 mc/s) to pass messages.

**ANCHORAGES:** Pilots are instructed where to anchor vessels. There are three deep-water anchorages to accommodate vessels up to 28 ft. draught. Two to accommodate vessels up to 22 ft. draught, and other minor anchorages.
**RESTRICTIONS:** Tide and draught 28 ft. at MHWS. Vessels enter 2 hours before HW. 24 ft. at MHWN. Vessels enter 2 hours before HW.
**MAX. SIZE:** Length 600/700 ft., beam 80/85 ft., draught 28 ft.
**HEALTH:** Health declaration on arrival – if clean, automatic pratique. Suspect disease as per international requirements. Pratique automatic if already called at another port.
**RADIO:** Any UK coast station. Nearest stations – Stonehaven and Cullercoats.
**TUGS:** Tugs join vessel in vicinity of West Ferry. Tug lines optional, charge made if tugs line used.
**BERTHING:** Deep-drafted vessels must arrive fairway buoy at least two hours before HW to berth on same tide.

King George V Wharf: grabbing cranes (fertilisers, coal). General cargo and tanker berths. 28 ft. MLWS.

Eastern Wharf: roll-on/roll-off berth. General cargo. 20 ft. MLWS.

Camperdown Dock/Victoria Dock: general cargo, live cattle quarantine station. 16 ft. draft.

No container or liquid chemical facilities.

**STEVEDORES:** One ETA to Agent or port suffices for all services.
**MEDICAL:** If vessel arrives from a suspect port (e.g. India/Pakistan) doctor will board and request smallpox certificates. Advance notice required for ordinary medication for arrivals week-ends. Hospitals and casualty stations available.
**TANKERS:** Diameter of hoses – 8 in. Slop discharge facilities not available. Two tanker berths – 28 ft. draft. Discharge only.
**DENSITY:** 1005 oz. at MLWS. 1002 oz. at MHWS.
**FRESH WATER:** Available, 24 hour service. Delivery, Hose from quays. Rate, 40 tons per hour.
**FUEL:** Small quantities gas oil by road tanker. Large quantities any type by coastal tanker, subject 3 or 4 days notice.
**FIRE PRECAUTIONS:** Regulations are handed to Master on arrival.
**GANGWAY/DECK WATCHMEN:** Recommended for large vessels.
**OPENING/CLOSING HATCHES:** Stevedores will give weather cover only.

**CERTIFICATES:** As required by Board of Trade (Lifesav Radio, Registry, Medicines, Crew Agreement, Load Line) also de
**CUSTOMS ALLOWANCE:** Foreign-going, 25 cigs. or 1 tobacco per day. 8 days allowance granted. Home trade, same for foreign-going but only 4 days allowance granted. Spi ¼ pint per day for 4 days, further issue granted after 4 days for forei going only.
**IDENTIFICATION CARDS:** Not required.
**CONSULS:**

| | | | |
|---|---|---|---|
| Belgium | 23044 | Netherlands | 22267 |
| Denmark | 23044 | Norway | 23044 |
| Finland | 23111 | Portugal | 22131 |

**REPAIRS:** Engine and deck repairs by Robb/Caledon Shipyard.
**DRY DOCK:** Dry dock available for vessels of up to 500 ft. leng 46 ft. beam, draft 13 ft. 6 in. springs.
**REPATRIATIONS:** Yes, facilities exist.
**AIRPORT:** Only U.K. flights available.
**TIME:** British Standard Time (GMT plus 1 hour). GMT in win months.
**HOLIDAYS:** 1st and 2nd January; 2nd Monday April; La Monday July; 1st Monday October; Christmas Day. Cargo can arranged for all days except Christmas Day.
**POLICE/AMBULANCE/FIRE:** Tel. 999.
**TELEPHONES:** Quay telephones installed.
**AUTHORITY:** Dundee Harbour Trust, Dock Street, Dundee. T 24121.

## FALMOUTH: 50.09 N. 05.04 W.

**DOCUMENTS:**
1 Maritime Declaration of Health.
1 Crew's Effects List.
2 Ship's Report by Master, or Authority X S 4.
1 Home Office Form 1S6.
1 Stores List.
1 Certificate of Deck Cargo Tonnage.
1 Light Certificate.
1 Port Dues Certificate.
Ship's Certificate of Registry.
Mercantile Marine Office Certificate – for British ships Only.
Load-line Certificate.
Safety Equipment and Construction Certificates.
Lloyds Certificate.
Derat Certificate.
Ship's Register.
Light Bills.

**PILOTAGE:** This is a compulsory pilotage district. The Pilot w board from a cutter which cruises 2 miles South of St. Anthon Lighthouse. In poor visibility a ship requiring a Pilot uses the di tinguishing signal of "G" to which Pilot Cutter will reply with "T Pilots operate R/T on Channel 16 and 2182 kHz if required.
**ANCHORAGES:** Vessels in excess of 600 ft. usually anchor Falmouth Bay. Other vessels in outer harbour.
**MAX. SIZE:** See "Tankers".
**HEALTH:** Foreign arrivals to complete Maritime Declaration Health. They are cleared immediately on arrival by either a po doctor or an officer of H.M. Customs depending on where the sh comes from and whether there is sickness on board.

Vessels arriving from ports within accepted area (N. Europe ports) and coastal arrivals need not present Declaration in all case when there is sickness on board the Port Health Authority must informed preferably not more than 12 hours and not less than hours before arrival.

**BERTHS:** There is a large and three smaller dry docks and addition, Shell Mex and B.P. maintain a bulk storage plant. 13 dee water beths. Combined frontage 8,000 ft. Vessels of 818 ft. have be accommodated. Draft LWOST 18 ft.–27 ft. depending on berth.
**TUGS:** Available. On call during working hours and outside hours when required if advance notice given. Tug's lines are to used.
**STEVEDORES:** Employed through National Dock Labour Boar 36 hour's notice recommended.
**TANKERS:** Tankers berth at Eastern Breakwater provided dr not more than 27 ft. berthing at H.W. Max. length 550 ft. Coa Lines Berth: Max. draft 16 ft. There is a tank-cleaning installati available. Tankers of 840 ft. with draft 17 ft. forward and 23 ft. have been accommodated at Eastern wharf.
**BUNKERS AND WATER:** All classes of fuel oil and diesel are available and water is piped on the Dock Company wharves. A the repair berths, or in Carrick Roads, bunkers and water must delivered by barge.
**CONSULS:** Denmark, Greece, Netherlands, Norway, Sweden an Spain.
**GANGWAY/DECK WATCHMEN:** Available in shipyard request.
**HATCHES:** Normally carried out by crew.
**AIRPORTS:** London (Heathrow and Gatwick) 5½ hours via Readin or Bristol.
**MEDICAL:** Doctors and hospital facilities available. Agents shou be advised in advance of any medical attention required.
**CUSTOMS ALLOWANCES:** At the discretion of Local Custo Inspector. Normal allowances are equivalent to ½ lb. tobacco per ma and equivalent to 1 bottle of wine per man. Allowances may

halved for home trade vessels. Vessels in port for more than three or four days may receive extra allowances.

**REPAIRS:** All ship repairs can be carried out by local repair yards.

**DRY DOCKS:** Falmouth Docks and Engineering Co.

Queen Elizabeth Dock: length 850 ft. width 130 ft.
Falmouth Docks, No. 1: ,, 555 ft. ,, 75 ft.
Falmouth Docks, No. 3: ,, 750 ft. ,, 88 ft.
Falmouth Docks, No. 4: ,, 648 ft. ,, 86 ft.

**TIME:** British Standard Time is GMT plus 1 hour. GMT in winter months.

**HOLIDAYS:** 1st January; Good Friday (variable date); Easter Monday (variable date); Spring Bank Holiday (variable date); August Bank Holiday (variable date); Christmas Day (25th December); Boxing Day (26th December).

**POLICE/AMBULANCE/FIRE:** Dial 999 from any telephone and ask for service required. Or County Police, Falmouth 312821; Dock Police, Falmouth 311400; County Fire Service, Falmouth 314274; Docks Fire Service, Falmouth 311400; Ambulance, Truro 2349.

**TELEPHONES:** Can be placed on board in dry dock and most repair berths but not at Eastern Oil Wharf.

**SHORE LEAVE:** Granted.

**AUTHORITY:** Falmouth Harbour Commissioners.

**AGENT:** G C Fox & Company, 48 Arwenack Street, Falmouth. Tel: 311300. Telex: 45-237. Cables: "Fox Falmouth".

## FELIXSTOWE: 51.57 N. 01.21 E.

**DOCUMENTS:**

Stores List.
Crew List.
Health Declaration.
Manifests.
Bills of Lading.
Ship's papers, including Register, Load-line Certificate, Safety Equipment Certificate, Radio Certificate, U.K. Light Dues, if any.

**PILOTAGE:** Cork or Sunk Pilot station, Master's option. 12 hours notice ETA vessel Cork or Sunk Pilot Cutters to be given via G.P.O. Coastal Station (Northforeland, Humber Radio) stating grt, max. draft, and port of destination. Cables: "Sunk Pilot Vessel" – Northforeland Radio within MF range. Sunk Pilot Cutter 2182 kilocycles, VHF range 156·8 megacycles, VHF Channel 16 then transfer to 156·3 megacycles, VHF Channel 6.

**ANCHORAGES:** At Cork Light Vessel; Quarantine anchorage off Harwich Road; "Northshelve" off Harwich; and in River Stour.

**RESTRICTIONS:** All vessels up to 25 ft. draft can enter Harwich Roads day and night on any state of tide. Max. draft for Container Quays and Oil Terminal 30/33 ft. depending on tides. At least 3 ft. keel clearance required at all times between channel bed and keel of vessel.

**MAX. SIZE:**

(*a*) General cargo vessels: Dock Basin 145 ft. wide entrance. Depth 18 ft. LWOST. No lock gates. Suitable vessels able to leave on any state of tide.

North Quay: 640 ft. in length.
South Quay: 610 ft. in length.
East Quay: 430 ft. in length.

(*b*) Container vessels. Container Quay depth: 33 ft. LWOST. Approach Channel Harwich Harbour Estuary: 23·5 ft. LWOST.

(*c*) Roll-on, roll-off vessels: Terminal: Vessels up to 450 ft. overall. Depth 22 ft. LWOST.

(*d*) Tankers. Oil Terminal: Vessels 600 ft. overall. Depth 33 ft. LWOST.

**HEALTH:** Pratique flag in daylight and lighted signals in darkness to be displayed by vessel on arrival. Health Declaration to be given in writing or verbally by Master on arrival. If disease suspected, then report to pilot station who will advise Health Authorities.

**RADIO:** Northforeland, Humber, Niton (or any other radio station convenient to vessel's position).

**RADAR/VHF:** No port radar service. VHF only on dock tug. Channel 16.

**TUGS:** Stationed at Felixstowe, join vessels Harwich approaches or where ordered by Pilots. Vessels to use tug lines at additional cost.

**BERTHING:** Regulated by Harbour Master through pilot stations and tugs. Vessels able berth within restrictions of individual berths.

| | *Depth of water at LWOST* | *Length of quay in feet* |
|---|---|---|
| Transatlantic Container Terminal | 33 ft. | 1,330. Two container berths and one roll-on/roll-off berth. |
| Dock Basin | 18 ft. | East Quay 430; North Quay 640, South Quay 610. Vessels up to 350 ft. in length are accepted. |
| Ferry Terminal | 22 ft. | 310. Vessels up to 450 ft. in length are accepted. |

**STEVEDORES:** 24 hours notice required by Agent to advise stevedores of vessel's ETA, in order to arrange berthing and allocation of labour. All stevedoring arranged between Dock Company and vessel's agent.

**MEDICAL:** Prior notice desirable through Agent to arrange attention. All services available.

**TANKERS:** 4-inch and 6-inch connections. No slop facilities. No facilities for gas freeing alongside or in harbour.

One tanker berth available. Vessels up to 600 ft. overall, maximum draft 31 ft.

**DENSITY:** 1025 salt water.

**FRESH WATER:** Pipe-line connections to all quays. Delivery approximately 50 tons per hour. Barge service available for supplies to vessels at anchor.

**FUEL:** Only gas oil available, 35 secs. pipe-line and barge delivery. 24 hours notice required.

**FIRE PRECAUTIONS:** Standard precautions at all berths.

**DEVELOPMENTS:** (*a*) North extension beyond oil jetty with 60 acres of land to be reclaimed from sea. New quays consisting of two roll-on/roll-off berths and 1,000 ft. quay for handling of unlisted cargoes, the first stage of this development, that is the roll-on/roll-off berth, will be completed November/December 1973 and the following facilities will be completed in 1974.

(*b*) South-east extension of present container quay by 600 ft. has now been completed and therefore the container quay is now able to accept three container vessels at any one time and three port-tainer cranes are available.

**GANGWAY/DECK WATCHMEN:** Not compulsory. If required, cost negotiable.

**OPENING/CLOSING HATCHES:** Work undertaken by crew.

**CERTIFICATES:**

Valid Derrick and Rigging Certificates.
Ship's Register.
Load-line.
Safety Equipment.
Radio.
Derat.
Construction.
(Light Dues Receipts).

**CUSTOMS ALLOWANCES:** 100 cigarettes or equivalent in tobacco or cigars per man. 1 bottle spirits.

**IDENTIFICATION CARDS:** Not necessary if in possession of Seaman's Book or Passport.

**CONSULS:** Royal Norwegian and Royal Swedish Vice-Consul, Ipswich 59281.

**REPAIRS:** Facilities exist for small repairs only.

**DRY DOCKS:** None available.

**REPATRIATION:** All facilities available.

**AIRPORTS:** Southend – 70 miles; Heathrow – 90 miles. International flights.

**TIME:** GMT. In summer months, April to October, time advanced 1 hour.

**HOLIDAYS:** All normal Bank Holidays, but official notification of port closures for such holidays is given well in advance of relevant dates.

**POLICE/FIRE/AMBULANCE:** Emergency points on all quays. Tel. 300 or, outside dock area, 999.

**TELEPHONES:** Shore connections available by prior arrangement for vessels on regular trades.

**GENERAL:** ETA to Agent required 72 hours, 48 hours, and 24 hours prior arrival.

**SERVICES:** Most services available for dry cargo vessels, but no special tank cleaning or tank washing facilities for tankers.

**SHORE LEAVE:** No restrictions.

**AUTHORITY:** Felixstowe Dock & Railway Co., Felixstowe Dock, Felixstowe, Suffolk. Tel. 4433 or 2134. Telex 98277. Cables: "Docks Felixstowe".

**AGENT:** Cory Brothers Shipping Ltd., Powell Duffryn House, Dock Estate, Felixstowe, Suffolk. Tel. 5671. After office hours: Felixstowe 2508; Ipswich 59117; Needham Market 523. Telex 98434. Cables: "Cory Felixstowe".

## FISHGUARD: 52.01 N. 04.58 W.

**DOCUMENTS:** as for "Cardiff".

**PILOTAGE:** Local Pilot available on request. Pilotage compulsory under Milford Haven Authority.

**ANCHORAGES:** Eastward of a line joining N. and E. breakwaters.

**MAX. SIZE:** Any length, any beam, 18 ft. draft alongside quay.

**RADIO:** Fishguard Radio, VHF Channel 16.

**RADAR/VHF:** VHF Channel 16.

**TUGS:** None.

**FACILITIES:** Stern loading, car and roll-on/roll-off Ferry Port.

**STEVEDORES:** No stevedores – vessels loaded and discharged by British Railway dock porters.

**MEDICAL:** Doctors available. Hospital facilities 16 miles away.

**DENSITY:** 1025.

**FRESH WATER:** Available alongside quay.

**FUEL:** Available with prior warning.

**GANGWAY/DECK WATCHMEN:** No watchmen available; not required.

**OPENING/CLOSING HATCHES:** Crew.

**REPAIRS:** Minor repairs by BR workshops and contractors.

**AIRPORT:** Cardiff is the nearest.

**GENERAL:** Coastguard and lifeboat facilities are available.

**SHORE LEAVE:** Allowed.

**AUTHORITY:** Shipping and Port Manager. Tel. Fishguard 2881.

## FLEETWOOD: 53·55 N. 03·00 W.

**DOCUMENTS:**

Manifests.
Bills of Lading.

Ship's papers.
Crew Lists.
Customs Documents.
Health Documents.

**PILOTAGE:** Pilot to be picked up off No. 1 Fairway Buoy. Ordered through ship's Agent giving 24 hours notice of ETA.

**ANCHORAGES:** Good anchorage in outer limits of harbour in Lune Deeps in 14 fms.

**RESTRICTIONS:** Vessels under power must not navigate any portion of this harbour above No. 9 Buoy at a greater rate of speed than *five knots*, also on passing other vessels, either steam or sail, hopper barges, pontoons in tow, etc. in the channels outside the above-mentioned No. 9 Buoy, and within harbour limits due care must be taken to pass them at a rate of speed that will not cause risk from displacement, or what is commonly called "backwash", and that all vessels must be navigated in this harbour strictly in conformity to the Collision Regulations and Signals of Distress.

Vessels bound into Fleetwood must not enter the river without being sure they have sufficient depth of water to ensure their getting to the quays or piers to which they are bound.

In the event of any vessel grounding on the "Tiger's Tail" or in any other part of the Fleetwood Harbour, the Master shall not attempt to refloat the vessel by reversing the engines, or by any other means whatsoever, until all incoming vessels following have passed the stranded vessel and the channel is clear of shipping.

**MAX. SIZE:** (Within enclosed docks): 350 ft. LOA; 46 ft. 6 in. beam.

So far as draft is concerned, allowances have to be made for clearing the lock invert. These allowances vary according to the beam of the ship and the following scale may be taken as a guide:

| *Beam of Vessel* | | *Clearance Required* | |
|---|---|---|---|
| ft. | in. | ft. | in. |
| 37 | 0 | 2 | 3 |
| 44 | 0 | 4 | 0 |
| 45 | 6 | 6 | 0 |
| 46 | 0 | 3 | 3 |
| 46 | 4 | 9 | 3 |
| 46 | 6 maximum | 10 | 3 |

**HEALTH:** Pratique is automatic.

**RADIO:** VHF Port Operations and Information Service. Call sign: Fleetwood Docks Radio. Channel 16 (156.80 Mc/s): Calling and Safety. Channel 12 (156.60 Mc/s): Port Operations.

All movements of vessels arriving for and sailing from the docks are controlled by the Dock Master using the VHF Port Operations and Information Service located in the Dock Master's office at the entrance to Fleetwood Docks (Lat. 53° 55′ 6″ N., Long. 3° 00′ 30″ W.). This service is operated during the tidal period of two hours each side of high water, and vessels must maintain a listening watch when approaching or leaving the port. Messages must be restricted to matters appertaining to general navigation, berthing instructions, and the safety of ships or persons within the port area. Messages of any other nature will not be accepted.

**TUGS:** Tug service operated by FFVOA Ltd., 190/192 Dock Street, Fleetwood.

**BERTHING:** Under normal conditions the lock gates operate for two hours each side of high water.

There is a Lift-on/lift-off Container Berth within the enclosed docks. This is a daily container service between Fleetwood and Ireland. The General Cargo berths can be used for handling liquid chemicals and bulk cargoes.

**STEVEDORES:** Arranged through ship's Agent.
**MEDICAL:** Ship's Agent will organise medical attention if required.
**DENSITY:** 1015 at half tide; 1025 at high water.
**FRESH WATER:** Fresh water available through stand pipes. Charge according to consumption (sliding scale).
**FUEL:** All grades of fuel available.
**FIRE PRECAUTIONS:** No specific requirement outside usual "No smoking" precautions.
**GANGWAY/DOCK WATCHMEN:** Ship's watchmen required.
**OPENING/CLOSING HATCHES:** Normally carried out by crew.
**REPAIRS:** Two slipways located in Fish Dock with lifting capacities of 1,050 and 650 tons respectively.
**REPATRIATION:** Arranged through ship's Agent.
**AIRPORT:** Squires Gate, Blackpool, 10 miles away.
**TIME:** GMT in winter. GMT plus one hour in summer months.
**HOLIDAYS:** Christmas Day and Boxing Day; Good Friday and Easter Monday; Spring Bank Holiday; Autumn Bank Holiday.

Cargo working can be arranged on any of these days upon request.

**POLICE/AMBULANCE/FIRE:** British Transport Police available on Docks Estate. Ambulance 999; Fire 999.
**TELEPHONES:** Can be arranged through Post Office.
**SERVICES:** Compass adjusting.
**SHORE LEAVE:** Crew members are allowed ashore.
**DEVELOPMENTS:** A Roll-on/roll-off berth is under construction and is expected to be operational early 1975.
**AUTHORITY:** British Transport Docks Board, Fleetwood Docks, Fleetwood. Tel. 2323.

## FOWEY: 50.20 N. 04.39 W.

**PORT LIMITS:** The whole of the Fowey river to a line across the entrance to the harbour. A vessel is considered to have arrived on entering the harbour unless she is anchored just outside by the Pilot to await suitable conditions for entering, in which case she is considered to have arrived on being so anchored.

**DOCUMENTS:**

Crew and Passenger Lists are helpful, but not essential.
Aliens List is essential.
List of Bonded Stores, including beer.
List of Personal Dutiable Articles owned by Crew.
Bill of Health, if available.
De-Ratisation Certificate.
Manifest of all cargo on board.
Copies of Bills of Lading.
Stowage plan, if available.
Normal Ship's Papers.

**PILOTAGE:** Vessel requiring Pilot gives ETA as far in advanc possible to Agent. Vessel displays normal signals off port. V calling channel 16, working channel 9. Pilot boats are black. Th Pilot boards off entrance. Vessels can anchor South of entranc necessary.

**RESTRICTIONS:** Vessels can enter at any time, if their draf less than 18 ft. Otherwise according to tide.

**MAX. SIZE:** 460 ft. in length. Loaded draft of 28 ft. Vessels of th draft have to be handled at or near high water.

Vessels up to 486 ft. in length have been handled, but subject prior consultation with the Harbour Master and owners of the load berths.

**HEALTH:** Vessel is boarded on entering port by Port Health Offic who gives his Pratique.

**RADIO:** Land's End Radio, Niton, or Portishead.

**TUGS:** Two diesel tugs are available and normally join vessels entering entrance. Ship's lines usually used. Only one tug requi for vessels under 350 ft. length.

**BERTHING:** Vessels waiting for berths are normally moored, usi their own anchor with their stern to a buoy. On the berth, vesse require long ropes.

**CARGO FACILITIES:** The port is specially equipped to hand china clay and ball clay in bulk and in bags. No other commod passes through the port either inwards or outwards. There are thr berths each with a 3-ton crane and a bulk conveyor capable handling up to about 330 tons per hour. A new berth is also no under construction.

**STEVEDORES:** Earliest ETA possible is required, especia when a vessel arrives over week-end.
**MEDICAL:** If medical Officer is required on arrival, advise Age earliest opportunity. Hospital facilities are available.
**DENSITY:** River fully salt at all states of the tide.
**FRESH WATER:** Available at all jetties, delivered by hose a rate very variable.
**FUEL:** Gas/Oil only available. As much notice as possible advisable.
**DEVELOPMENTS:** The new berth which is under constructi will be 550 ft. in length and completion is expected late in 1974.
**GANGWAY/DECK WATCHMEN:** Not normally employed.
**OPENING/CLOSING HATCHES:** Carried out by crew.
**CUSTOMS ALLOWANCE:** 200 cigarettes or ½ lb. tobacco, foreign-going. Wine and/or Spirits. ½ pt. if foreign-going.

Half this allowance for vessels arriving from home trade ports.

**IDENTIFICATION CARDS:** Not needed.

**CONSULS:**

Belgium J. H. Samuel, Trafalgar Square, Fowey. Tel. 3414
Finland " " "
France " " "
Sweden " " "

**REPAIRS:** Not possible. Minor repairs only.
**REPATRIATION:** Yes, facilities exist.
**HOLIDAYS:** Saturdays, Sundays, and all Public Holidays.
**POLICE/AMBULANCE/FIRE:** Telephone 999.
**TELEPHONES:** No arrangements made for connection on boar
**SERVICES:** Compass adjusting can be arranged.
**SHORE LEAVE:** Allowed.
**DELAYS:** There is a possibility of delay in heavy rain.
**AUTHORITY:** Fowey Harbour Commissioners, Albert Qua Fowey, Cornwall. Tel. 2471.

**AGENT:** Toyne Carter & Co., Fowey, Cornwall. Tel. Fowey (0726 3274. Telegraphic address: "Toyne Fowey". Telex: 45331 - A "Toyne Fowey". After hours tel. Fowey 3428; 2370 or 2525. Shi Agents and Shipbrokers.

## GARSTON: 53.21 N. 02.54 W.

**DOCUMENTS: HEALTH:** and all general information, refer "Liverpool".

**RESTRICTIONS:** Locking into/out of Garston commences 3 hou before HW and ceases 3 hours after for vessels of 250 ft. in len or under. Vessels over this length must enter when the river and do are level – about one hour before HW to half an hour after.

**MAX. SIZE:** 500 ft. length, 63 ft. beam, draft about 6 ft. less than H Liverpool.

**RADIO:** As Liverpool. VHF Channel 20.

**BERTHING:** *Stalbridge Dock:*

| | |
|---|---|
| Width of entrance | 65 ft. |
| Depth on sill | 26 ft. 8 in. |
| Lock length | 276 ft. |
| Total water area | 14½ acres |
| Length of quays | 3,200 ft. |

*Old and North Docks:* entered from Stalbridge Dock

| | |
|---|---|
| Total water area | 14 acres |
| Length of quays | 4,610 ft. |

**DENSITY:** 1025.

**FRESH WATER:** Available Monday to Friday 0800 to 1600 hours All watering required outside of these hours is by arrangement and must be paid for at overtime rates. Rate of delivery, 10 tons per hour.

**DEVELOPMENTS:** Modernization of coaling facilities and further adaptation to containers under consideration.

**OPENING/CLOSING HATCHES:** Hatches to be opened and closed by the crew except on request.

**AIRPORT:** Liverpool airport, 1 mile distant.

**HOLIDAYS:** Normal English Bank Holidays. Vessels can be worked on these days but this involves additional payment.

**POLICE/FIRE/AMBULANCE:** Dial 999 and ask for service required.

**TELEPHONES:** No connection can be made to vessels.

**GENERAL:** Vessels are required to "stem" on entering the dock; that is, to send an Officer to the Pierhead Office to enter the vessel into the Stemming Book giving all details regarding the vessel and cargo and to sign the sheet.

**AUTHORITY:** British Transport Docks Board, Dock Road, Garston, Liverpool L19.2JW. Tel. 051–427 5971.

## GLASGOW and Clyde District: 55.51 N. 04.16 W.

(See Plan)

**DOCUMENTS:** For Customs Clearance and to meet Immigration Authorities requirements, following valid documents are required:

Ship's Crew List.
Port Health Declaration.
Register, Load-line Certificate.
Safety Equipment, Safety Construction and Safety Radio Certificates.
Derat Exemption or Fumigation Certificate.
British Tonnage Certificate.
Copy Manifests and Bills of Lading.
Grain Form (No. S/107) if bulk grain.
Completed Customs Form C.142.

**PILOTAGE:** Compulsory pilotage from and to Kempock Point (Gourock pilot station) tel. Gourock 31331. "Gourock Pilots Radio" Channel 14 – frequency 156.7 Mc/s.

Optional pilotage is available to and from Cumbrae Island.

Vessel to advise Agent 72, 48 and 24 hours before arrival with subsequent advice of any changes to ETA, stating where Pilot required to board, ETA and draft.

Normal ladder, etc., for Pilot boarding.

**ANCHORAGES:** As defined by Clyde Port Authority and in special circumstances (e.g. draft, condition of ship, hazardous cargo, etc.) under advice of Pilot.

Anchorages are available for vessels of all drafts in the Tail of the Bank area (off Greenock) and lower Firth of Clyde.

**RESTRICTIONS:** As defined by Clyde Port Authority and under Clyde Pilotage Authority requirements.

**MAX. SIZE:** As defined by Clyde Port Authority for berths in Glasgow and Greenock and subject to consideration of particular circumstances prevailing in each case.

**HEALTH:** The Master of a foreign-going vessel proceeding direct from a foreign port to the port of Glasgow must send wireless message to "PORTELTH GLASGOW". This message must be sent off not more than 12 hours and not less than 4 hours before the arrival of the ship and state:

(a) The name of ship.
(b) The time on the 24-hour clock it is expected to arrive at the Tail of the Bank, Greenock.
(c) The port of departure and last port of call.
(d) The number of crew, and passengers, if any.
(e) The state of health or any circumstances on board which are likely to lead to infection or the spread of infectious disease.

The Master must fill in and sign the Declaration of Health on pages 1 and 2. It should be completed and ready to deliver to the Officer of Her Majesty's Customs or Officer of the Port Health Authority, whichever shall first board the vessel.

If the answer to any of the health questions on page 1 is "Yes" free pratique will not be granted by Her Majesty's Customs until the ship has been visited by the Port Medical Officer.

The Master must therefore: 1. When the ship comes, whether by day or night, within the district, show or give the following signals:

(a) the international signal "ZW" flown at the masthead or where it can best be seen from the shore, and
(b) Between sunset and sunrise, either: (i) the signal "ZW" flashed in the Morse code by lamp, or (ii) a signal consisting of a red light over a white light, the lights being not more than 6 ft. apart, shown at the peak or where the signal can best be seen from the shore.

2. If the answer to all of the health questions on page 1 is "No" the Master must show or give the following signals when the ship comes, whether by day or night, within the district:

(a) the international flag signal "Q" flown at the masthead or where it can best be seen from the shore: and
(b) between sunset and sunrise, either (i) the signal "Q" flashed in the Morse code by lamp, or (ii) a signal consisting of a red light over a white light, the lights being not more than 6 ft. apart, shown at the peak or where the signal can best be seen from the shore.

3. Article 17 of the Public Health (Ship) (Scotland) Regulations 1966 states:

If, within four weeks after the Master of a ship has delivered a Maritime Declaration of Health pursuant to regulation 16 or a corresponding provision in force in England, Wales or Northern Ireland, the ship arrives in a district or calls at another district, as the case may be, the Master shall report to the Customs Officer or authorised officer, whoever first boards the ship, any case or suspected case of infectious disease which has occurred on board since the Declaration was delivered and which has not already been reported.

4. Article 18 of the Public Health (Ships) (Scotland) Regulations 1966 states:

On arrival of a ship from any foreign port or from any infected area which is not a foreign port, no person other than a Pilot, a customs officer, an immigration officer or an authorised officer shall, without the permission of the medical officer, board or leave the ship until it is free from control under these regulations and the Master shall take all steps necessary to secure compliance with this provision.

5. The maximum penalty for breach of the Public Health (Ships) (Scotland) Regulations 1966 is £100, and in the case of a continued offence, a further penalty not exceeding £50 for every day during which the offence continues.

**RADIO:** Any GPO radio station.

There is a Port Operations VHF/FM system in operation utilising Channels 12, 14 and 16 in the International Maritime Band as under: West of Bowling, Channel 12; East of Bowling, Channel 14; calling up, Channel 16.

**RADAR/VHF:** Radar service not available. Port Radio service.

**TUGS:** As required by Master and under advice of the Pilot. Tug's lines only are used.

**CONTAINER HANDLING FACILITIES:** Container terminal at Greenock for two container ships to berth and work simultaneously. Two straddle carriers and three transporter cranes available. Length of Quay 1,200 ft. Depth 42 ft. LWOST.

**GRAIN HANDLING FACILITIES:** *Meadowside Granary:* Total capacity, 176,000 tons. Six grain elevators, each with discharge rate of 200 tph.

**STEVEDORES:** Arranged by Agent in accordance with Master's advice of ETA.

**MEDICAL:** Full medical and hospital facilities available.

**TANKERS:** Agents will advise Master by radio to prepare appropriate manifold connections. No slop facilities at Old Kilpatrick, Bowling, Faslane, Finnart. In Glasgow a small vessel is equipped for removal of sludge, tank washing, etc.

Oil installations:

*Bowling* (ESSO): Private berth. Maximum length of vessels swinging off Bowling Basin is 550 ft. under suitable conditions. Berthing and unberthing is permitted day and night, according to state of tide.

A port regulation prohibits ships which are not gas free and have on board or have carried cargo with a flash-point of below 73 degrees from navigating the river East of Bowling.

*Old Kilpatrick:* Admiralty oil installation. Canting facilities in the river off Rothesay Dock, maximum length of vessels permitted is 630 ft. during daylight and under suitable weather conditions. Admiralty, Old Kilpatrick, advise maximum length at the berth is 570 ft., draft 30 ft.

Berthing and unberthing is permitted day and night, according to state of tide. Fully loaded vessels are berthed port side to at high water and must be capable of discharging over the tide. Light or partly loaded vessels may swing on arrival, berth starboard side to.

No low flash-point cargo may be discharged and vessels having low flash-point on board are not permitted at this berth.

Vessels which have carried crude oil as previous cargo are not permitted to load at this berth unless all tanks have been cleansed. There are no facilities for receiving dirty ballast.

*Finnart:* B. P. Installation. Maximum permissible size of vessel 300,000 tons deadweight – maximum draft 90 ft. salt water.

*Faslane:* Esso Petroleum. Maximum permissible size of vessel 40,000 tons deadweight.

**DENSITY:** Port of Glasgow – Brackish.

**FRESH WATER:** Available at all berths by shore hose.

**FUEL:** All major oil companies represented in Glasgow. As much notice as possible required, all grades can be supplied.

**FIRE PRECAUTIONS:** As per Clyde Port Authority Regulations. Tanker berths – as per B.P., Esso and Admiralty Regulations.

**GANGWAY/DECK WATCHMEN:** At Master's discretion.

**OPENING/CLOSING HATCHES:** To be carried out by ship's crew.

**CUSTOMS ALLOWANCES:** On arrival from a foreign port with foreign cargo an allowance of 100 cigarettes per man for each four days in port, whilst discharging foreign cargo, and an allowance of a quarter of one pint of spirits is allowed for each man per day in port up to four days.

**CARGO GEAR:** Valid test certificates required for all cargo gear.

**IDENTIFICATION CARDS:** Not required.

**CONSULS:**

American
Brazailian
Danish
Equador
German
Italian
Netherlands
Panama
Spanish
Uruguayan
Belgian
Cuban
Dominican
Finnish
Liberian
Liberian
Norwegian
Portuguese

**REPAIRS:** All types of deck and engine repairs can be effected in the Clyde Area.

**DRY DOCKS:** Size of largest dry dock in Clyde area: Scott Lithgow dry dock, Greenock: 1,000 ft. long clear from gate to head of dock; 156 ft. cope to cope; 150 ft. clear width between altars; 145 ft. clear width at entrance; 45 ft. top of keel blocks to cope; 37 ft. draft on sill HWOST; 27 ft. draft on sill LWOST.

In addition, there are eight other dry docks in Glasgow/Greenock area.

**REPATRIATION**: Facilities for crew changes, and full repatriation services are available.

**AIRPORT**: Glasgow Airport (12 miles from city centre) and Prestwick Airport (30 miles from city centre) are served by most major domestic and international airlines.

**TIME**: BST (1 hour ahead of GMT) in operation. GMT in winter months.

**HOLIDAYS**: Official dock holidays on which cargo work can not be arranged. Easter Monday; Whit Monday; Autumn Bank Holiday; 27th December.

**POLICE/AMBULANCE/FIRE**: These services can be called by telephone by dialling 999 or contacting Clyde Port Harbour by VHF.

**TELEPHONES**: Telephones can be placed on board at most docks, charges vary according to berth, type of service and whether prepay call-box type or linked to exchange.

**SERVICES**: Tank cleaning. Facilities are available for service to ship's radio, navigation aids, etc.

**SHORE LEAVE**: Crew allowed ashore at Master's discretion and subject to compliance with Immigration and any other interested Authorities' requirements.

**DEVELOPMENTS**: An ore/coal terminal is to be constructed at Hunterston. The berth will be able to receive vessels of 350,000 dwt. Completion is expected in 1977.

**AUTHORITY**: Clyde Port Authority, 16 Robertson St. Glasgow C2.

## GOOLE: 53.42 N. 00.50 W.

**PORT LIMITS**: Goole is a river port with conservancy jurisdiction to the junction of rivers Humber, Ouse, Trent. However, laytime commences from commencement of next normal working shift after ship is on berth and ship's Agent has issued "Notice of Readiness". This may be 0800 hours or 1300 hours dependent on time of issue of notice.

Precedence of order of arrival of vessels is determined by arrival time at Ocean Lock Entrance, Goole Docks.

**DOCUMENTS**:
- Bills of Lading/Manifests (prepared by Agents at port of origination).
- "Imperfect" Customs Entry.
- Request (to work vessel).
- *Request for Immigration Officer to be in attandance – if carrying passengers.
- *Crew List to Immigration Officer (for foreign personnel).
- Ship's Register.

*Agent will normally notify Immigration Officer.

**PILOTAGE**: Compulsory from Spurn to Goole, two stages.

1st stage: Spurn Light Vessel to Hull Roads.

Pilot vessel usually cruising around Spurn Light Vessel in fine weather. In bad weather pilot boat shifts to Bull Light Vessel area or inside Spurn during northerly gales. Vessels for Goole should inform pilot vessel by radio on normal channel, or by VHF on Channel 16. On approaching cutter by day exhibit international code flag "G". By night "PT" by flashing or exhibit blue flare. In fog sound "G" on whistle or siren. Preferably 12 hours prior notice of arrival should be given, through "Humber Radio" to Pilot Officer, Hull.

2nd stage: Hull Roads to Goole. Pilot will board vessel in Hull Roads.

**ANCHORAGES**: Bull Anchorage on chart of Humber Estuary, or in Hull Roads, otherwise only on advice of Pilot.

**RESTRICTIONS**: State of tide, springs or neaps. Port entered during tidal hours, 3½ hours before high water to ½ hour after high water, according to draft. Pilots will advise.

**MAX. SIZE**: Vessels should be within following measurements: 300 ft. overall length, 46 ft. beam and 17/18 ft. draft. Vessels exceeding any of these measurements should seek advice before arranging to visit the port.

**HEALTH**: Pratique issued by H.M. Customs Waterguard (in absence of Port Health Official). Pratique accepted when entering after calling at another port in the U.K.

**RADIO**: Via Humber Radio, call sign GKZ – call on Channel 16. Give ship's name and call sign and pass message.

**TUGS**: Tugs available but not normally used. If required, to be arranged through Agent.

**BERTHING**: Berthing instructions given to vessel on arrival at entrance locks. No specific requirements.

**SPECIALISED CARGO HANDLING FACILITIES**: Four appliances for loading of rail-borne bulk cargoes, e.g. coal, coke, pitch, fluorspar, etc.

Two appliances for loading of canal-borne bulk cargoes (coal, coke, pitch, etc.).

Discharging of bulk cargoes by 12×7½-ton modern quay cranes, equipped with suitable grabs for sand, ores, fertilisers, coal, grain, sulphur, scrap iron, etc.

Road-borne bulk cargoes loaded by same grabs.

32-ton Scotch derrick crane for container handling.

50-ton and 40-ton electric travelling cranes for heavy lifts.

Roll-on/roll-off traffic (cars, etc.) accommodated at various berths. The docks are maintained at a constant level and specialised link span berths are not necessary.

No bulk liquid berths.

**STEVEDORES**: Arrangements made by Agent who shoul given ample notice of time of arrival of vessel.

**MEDICAL**: Agents will arrange for attendance of doctor on n fication. Doctor, dentists and hospital services available. Age can arrange service required.

**DENSITY**: Water in Goole Docks is fresh water and is maintai at constant level. Entry is by locks. Density 1·000.

**FRESH WATER**: Delivery by water-boat through hosepi Rate 30 tons per hour.

**FUEL**: All grades available on reasonable notice being given ship's Agent.

**FIRE PRECAUTIONS**: No specific precautions unless there exceptional circumstances, when special arrangements can be ma with local Fire Service.

**GANGWAY/DECK WATCHMEN**: Necessary. Usually provi from crew. Otherwise by negotiation locally.

**OPENING/CLOSING HATCHES**: Responsibility of crew.

**SHIP CERTIFICATES**:
- Ship's Register (including load-line).
- Radio Safety.
- Life-Saving.
- Light Dues.
- Change of Articles.
- Deratisation Certificates.

**CARGO GEAR**: Normally not required, as ample port facili available.

**IDENTIFICATION CARDS**: May be required to be produced Immigration Officer or H.M. Customs official, especially in the case foreign flags.

**CONSULS**: France, Netherlands.

**REPAIRS**: All types of deck and engine repairs possible by lo ship repairers.

**DRY DOCKS**: No. 2 Dry Dock: 301 ft. length, 50 ft. width at entran 15 ft. depth on sill. Two other dry docks. The water in the wet doc at Goole is maintained at a constant level and all dry docks are enter direct from the wet docks.

**REPATRIATION**: Arranged by ship's Agent.

**AIRPORT**: Yeadon (Leeds–Bradford), 45 miles. Regular servic

**TIME**: GMT in winter; GMT plus one hour in summer months.

**HOLIDAYS**: Good Friday; Easter Monday; Spring Bank Holi (last Monday in May); Late Summer Bank Holiday (last Monday August); Christmas Day; Boxing Day. No cargo working on the days.

**POLICE/AMBULANCE/FIRE**: Dial 999 and ask for serv required.

**TELEPHONES**: No arrangements for ship connection.

**SHORE LEAVE**: No restrictions.

**REGULATIONS**: Visitors to vessels require permits from P Authority and Master or Agent. Smoking not permitted ashore dock area.

**AUTHORITY**: British Transport Docks Board, Dock Offic Goole, Yorkshire. Tel. 2691 (STD 0405). Telex 57626.

**AGENT**: Cutting & Company (Hull Limited, 33 Aire Street, Goo Tel. Goole 2656 (0405). Telex 57628 (AB Gooleship Goole). Cable "Culcut Goole."

## GRANGEMOUTH: 56.01 N. 03.43 W. (See Plan)

**PORT LIMITS**: At Grangemouth a vessel is not considered to an "arrived vessel" until she is tied up at the allocated berth.

**DOCUMENTS**:
- 1 Crew List.
- 1 Passenger List.
- 1 List of all high duty goods in crew's possession.
- 1 Cargo Manifest.
- All Valid Certificates.

**PILOTAGE**: Compulsory in river. Pilot boards at Inchkeith. Pi boat on VHF, see Radio below.

**ANCHORAGES**: North of Grangemouth West Buoy, 2 fathom Charleston Roads 5 fathoms. East of Inchkeith, up to 8 fathoms

**ENTRY RESTRICTIONS**: Vessels are allowed to enter o depart in the period three hours before high water to one hour a high water Monday to Saturday. This period is reduced to two hou before high water to one hour after high water on Sundays. The heig of the tide must always be taken into account when dealing w larger vessels. See "Developments."

**MAX. SIZE**: 570 ft. length. 75 ft. beam. Draft according to stat tide. Vessels other than tankers maximum draft 25 ft 6 in. Tanker up to 32 ft. 6 in. maximum draft.

**HEALTH**: Foreign arrivals to complete Maritime Declaration Health. They are cleared immediately on arrival by either a P Doctor or an Officer of H.M. Customs depending on where t ship comes from and whether there is sickness on board.

Vessels arriving from ports within accepted area (N. Europ ports) and coastal arrivals need not present Declaration. In cases, when there is sickness on board the Port Health Author must be informed preferably not more than 12 hours and not l than 4 hours before arrival.

**RADIO**: Wick – Stonehaven – Cullercoats, coastal stations.

*Port VHF* (*FM*) *Communications:* Station: Dock Foreman's Off Lock Entrance, Grangemouth. This centre will maintain a continu watch. Call sign: Grangemouth Docks.

156·8 Mc/s. Channel 16 calling and safety. All vessels sho maintain a listening watch on this channel and use it to estab contact with Grangemouth Docks. Once contact is established

Duty Operator will request vessels to shift to the Port Operations Channel.

156·7 Mc/s. Channel 14, Port Operations. A working channel restricted to messages relating to the movement and safety of ships, and in emergency, to the safety of persons.

156·6 Mc/s. Channel 10, Inter-ship. A working channel for tug-to-tug and tug-to-bridge communications.

156·3 Mc/s. Channel 6, Inter-ship. A working channel for communication with other vessels.

No message of a personal character or messages of any other nature than those pertaining to the general navigation and safety of ships and persons within the Port Area can be accepted.

**TUGS:** Can join vessel at Hen and Chicken Buoy or Lock Gates. Optional use of towage lines. Cost for tug's line £8 per hawser.

**BERTHING:** The water in Grangemouth Docks is maintained at the same level by impounding pumps. On passing through the lock entrance berthing is allocated according to the nature of the cargo and draft of vessel.

The depth of water available at the berths varies in each dock, the maximum depths being approximately: Grange Dock 26 ft.; Carron Dock 23 ft.; Old Dock 18 ft. 9 in.

**CARGO HANDLING FACILITIES:** Bulk cargoes can be handled at most berths within the port. The East Wall berth has four 10-ton grabbing cranes. Other berths have 7½, 6, 5, 3 and 2-ton cranes. One 40-ton heavy lift crane. Container berth is 1,000 ft. long and has two 32-ton transporter cranes.

A roll-on/roll-off berth in operation. Liquid chemicals and LPG. Carriers are handled at the BP jetties or No. 1 North Jetty, which is a common user jetty.

**STEVEDORES:** No particular advice necessary to stevedores. Essential, however, advise Agent 24 hours prior arrival, who will advise stevedores.

**CUSTOMS ALLOWANCES:** At the discretion of Local Customs Inspector. Normal allowances are equivalent of 5 ounces tobacco per man and equivalent of 1 bottle of wine per man. Allowances may be halved for home trade vessels. Vessels in port more than three or four days may receive extra allowances.

**MEDICAL:** No advance notice necessary. Hospital facilities available in immediate district.

**TANKERS:** B.P. Refinery (Grangemouth) Limited. Private jetties in Eastern Channel: Nos. 2 and 3, 32 ft. 6 in.; Nos 4 and 5, 18 ft. draft No. 1 North Side Jetty, pipelines connected to Ross Chemical and Storage Co. are 1½ in. nitrogen line, 6 in. chemical line, 10 in. heavy fuel line, 2 in. fresh water supply, 8 in. motor spirit line, 8 in. gas oil line.

**DENSITY:** 1019 average.

**FRESH WATER:** Available in most berths. Watermen supervise delivery on request. Delivery rate varies depending on berth.

**FUEL:** All grades available from oil installations.

**DEVELOPMENTS:** New lock entrance 780×101 ft. with a depth of 38 ft. 6 in. at MHWST – in operation 1974.

**GANGWAY/DECK WATCHMEN:** Not necessary but can be done by ship's personnel.

**OPENING/CLOSING HATCHES:** Custom of port crew open and close hatches but stevedores will do so if required.

**CERTIFICATES:** For Customs Clearance valid Certificates in respect of radio, load-line, construction, safety equipment, deratisation, necessary.

**CONSULS:** Norwegian, Danish and Swedish consuls available locally.

**REPAIRS:** All types of repairs can be carried out afloat.

**DRY DOCKS:** Carron dry dock length 350 ft., breadth 50 ft., depth 22 ft. Middle dry dock length 335 ft., breadth 50 ft., depth 19 ft.

**REPATRIATION:** All facilities exist.

**AIRPORT:** One hour from Glasgow and Edinburgh airports where numerous connections for London thence world wide travel.

**TIME:** British Standard Time (1 hour ahead of GMT). GMT during winter months.

**HOLIDAYS:** 1st and 2nd January; 1st Monday May; 3rd Monday July; 2nd Monday September; Christmas Day.

**POLICE/AMBULANCE/FIRE:** In public telephone dial 999 and ask for appropriate service. With dock circuit telephone dial 34 for Police or dial 51 and ask for Fire/Ambulance.

**TELEPHONES:** Telephones available at A, B, and C sheds for placing on board.

**SERVICES:** Compass adjusting, calibrating, etc., can be done in river. No equipment for tank cleaning but can accept tank washings ashore.

**SHORE LEAVE:** Allowed.

**AUTHORITY:** Forth Ports Authority.

## GRANTON: 55.59 N. 03.13 W.

**DOCUMENTS:**

Health Declaration.
1 Crew Declaration Form C.142 (Tobacco List).
1 Crew List.
1 Passenger List.
(Also see "Glasgow").

**PILOTAGE:** Pilot station in Firth of Forth located at Granton. Contact can be made with pilot cutters *Panther* and *Gazelle* on VHF Channels 16/14/12 and radio-telephone 2182 kHz. Pilot cutters – black hull with white superstructure.

**ANCHORAGES:** Good holding ground at Inchkeith Island and Leith roadstead 10–17 fathoms.

**RESTRICTIONS:** The entrance between the breakwaters is 340 ft. in width. The rise of tide, 17 ft. at Springs and 12 ft. at Neaps, permits the entry or exit of vessels up to 22 ft. draft at high water.

A red flag bearing St. George's Cross exhibited at the Middle Pier Head signifies that vessels should not enter the harbour until the flag is lowered. A green light takes the place of the flag during hours of darkness.

**HEALTH:** Vessel boarded immediately alongside berth and pratique granted provided no contagious diseases reported on board, otherwise quarantine restrictions imposed.

Foreign arrivals to complete Maritime Declaration of Health. They are cleared immediately upon arrival by either a port doctor or an officer of H.M. Customs, depending on where the ship comes from, and whether there is sickness on board.

Vessels arriving from ports within accepted area (N. European ports) and coastal arrivals need not present Declaration. In all cases where there is sickness on board the Port Health Authority must be informed, preferable not more than 12 hours and not less than 4 hours before arrival,

**RADIO:** Stonehaven and Cullercoats radio stations.

**TUGS:** Sound signal for vessels requiring tug services is four long blasts. Tugs, if required, join the vessel in the roads. Ship's lines normally used. Tugs towing gear available, not compulsory.

**BERTHING:** *Middle Pier:* 1,700 ft. in length with depth shelving from the shore to 17 ft. LWOST. In addition, there is a 450 ft. cross-piece at the end of the pier where depth of water is 25 ft. LWOST.

*West Pier:* 2,000 ft. of quay. Depth of water varies from 15 to 23 ft. LWOST.

**TANKERS:** Tankers up to 18,000 dwt. are accommodated at the end of the West Pier, adjoining port entrance.

**MEDICAL:** No advance notice of medical attention required. All hospital facilities available.

**FRESH WATER:** Available alongside at all berths.

**FUEL:** All grades available subject 24 hours notice in advance.

**REPAIRS:** Facilities available for all minor repairs.

**DRY DOCK:** Floating dock, length 160 ft., beam 30 ft., depth 15 ft.

**AIRPORT:** Edinburgh Airport, served by regular airlines, situated about 10 miles away.

**HOLIDAYS:** Public holidays observed annually: third Monday in April; first Monday in June; third Monday in September; Christmas Day (25th December); 1st and 2nd January. Cargo work can be arranged on all public holidays except 1st and 2nd January.

**AUTHORITY:** Forth Ports Authority, Tower Place, Leith. Tel. 031-554 6473.

## GRIMSBY: 53.34 N. 00.04 W. (See Plan)

**DOCUMENTS:**

1 Crew List form H.O. IB6.
1 List of Crew's private dutiable stores Form C.142.
1 Health declaration.
Also see "Hull".

**PILOTAGE:** Contact direct by Radio telephone on 2182 kc/s. or on VHF Channel 16 to "Spurn Pilot" at least 6 hrs before arrival (2 hrs required to order Pilot for vessel leaving port). Steam cutter with "Pilots" along the black hull. Either flash G, or fly G Flag. Cutter is usually in the vicinity of Spurn light-vessel but for vessels having a draft of 36 ft. and over Pilot boards at Humber light-vessel by special arrangements between Pilot and Master. In bad weather contact either the pilot cutter direct or Humber or Hull radio on VHF Channel 12 and they will advise location of cutter. The usual International standards are required for the ladders, etc., used on boarding. If vessels have to await Pilot the pilot cutter will advise where the vessel is to wait. Portable VHF units are available on request by the Master to the Pilots.

**ANCHORAGES:** Hawk and Sunk Roads, Hale, Spurn and Bull Anchorages. See "Hull". The Pilots will advise where to proceed to anchor and also provide Pilot.

**MAX. SIZE:** Maximum breadth 65 ft., maximum length of vessel that can be locked 268 ft. but vessels of greater length can enter docks on high water when all lock gates are open. 3 ft. clearance under the keel is required. Vessels having a draft of 19 ft. can normally enter the docks on any tide when the height of water is sufficient to allow 3 ft. clearance. Vessels with 21 ft. draft can be taken on Spring Tides. Vessels can enter usually approx. 3 hrs before and 2½ hrs. after high water.

**HEALTH:** A pratique is issued by the Customs Officers on boarding for all vessels arriving from a port outside the U.K. but this is only done at the first U.K. port of call. If disease is suspected, the master must advise the Customs Officers on boarding and it is advisable that the Agent be informed prior to vessel's arrival.

**RADIO:** Humber Radio. 2182 kc/s, or VHF Channel 16. Also see "Hull".

**TUGS:** Normally join in Grimsby roads. Optional whether use ship's or tug's lines, the cost for using the tug's lines is between £3 and £6.

**BERTHING:** Vessels are restricted from passing through the Union Dock into the Alexandra Dock by a set of lock gates in the Union Dock which are closed when the height of water in the Royal Dock reaches 24 ft. and also a restriction on the beam of 42 ft. 6 in.

There is one roll-on/roll-off berth in operation and another under construction in Alexander Dock.

**STEVEDORES:** Vessels are allocated labour in order of arrival so it is only necessary to give the Agent the ETA preferably before noon on the previous day. Normal working hours 0800 to 1700.

Overtime can be worked 1700 to 1900 Monday to Thursday. On Saturdays and Sundays as required.

**MEDICAL:** Hospitals and all other medical facilities are readily available. If immediate attention is required on arrival please advise agent by radio or telegram.

**FRESH WATER:** Available at all quays. Rate approx. 20 tons per hr.

**FUEL:** Normal gas and diesel oils available by both road and barge with at least 24 hrs. notice.

**GANGWAY/DECK WATCHMEN:** Not necessary, but the service is available if Master requires it.

**OPENING/CLOSING HATCHES:** Responsibility of the crew. The hatch beams can be removed and replaced by the shore cranes but there is an extra charge for this operation.

**CUSTOMS ALLOWANCES:** 200 cigarettes per 8 days. 1 bottle wine and 1 bottle spirits per 4 days. All seals to be broken.

**CARGO GEAR:** In accordance with the regulations laid down by H.M. Factories Inspector.

**CREW IDENTIFICATION CARDS:** Some sort of identification whilst crew are ashore is advisable.

**CONSULS:**

| | | |
|---|---|---|
| Belgium, Vice-Consul | Grimsby | 59101 |
| Denmark, Vice-Consul | ,, | 3063 |
| Dominican Republic | ,, | 59101 |
| Finland, Vice-Consul | Immingham | 2387 |
| France Consular Agent | Grimsby | 55176 |
| Germany (F.R.) Consul | ,, | 77830 |

| Netherlands, Vice-Consul | ,, | 3177 |
| Norway, Vice-Consul | ,, | 3177 |
| Sweden, Vice-Consul | Immingham | 2387 |

**REPAIRS:** Facilities are available for all deck and engine repairs.

**DRY DOCKS:** Nearest at Immingham.

**REPATRIATION:** Can be arranged if required.

**AIRPORT:** No civil airport in the vicinity. Easy access to all major airports via rail, etc.

**HOLIDAYS:** Christmas Day; Boxing Day; Good Friday; Easter Sunday and Monday; Spring Bank Holiday (end May); Late Summer Bank Holiday (end August). All except Christmas Day and Good Friday can be worked on overtime.

**POLICE/AMBULANCE/FIRE:** Docks Police – Grimsby 59171; Grimsby Police – Grimsby 57571. Emergency – Police/Fire/Ambulance 999.

**TELEPHONES:** Not available for connection on board.

**GENERAL:** The Grimsby Dock Master can be contacted on VHF Channel 16 and then change to Channel 18 for speaking.

**SERVICES:** Compass adjusting, tank cleaning, etc., are available.

**SHORE LEAVE:** Crew are allowed ashore.

**AUTHORITY:** British Transport Docks Board, Grimsby.

**AGENT:** Cory Brothers Shipping Limited, 8 Cleethorpe Road, Grimsby, Lincs. Tel: 0472-58266/8. Telex: 527113. Cables: "Spurnship Grimsby."

## HARWICH (Parkeston Quay): 51.56 N. 01.15 E.

**DOCUMENTS:**

1 Home Officer Form 1.B.6 may be obtained from HM Customs Boarding Officer.
1 C.142 Crew Declaration List.
1 Maritime Declaration of Health (Q Flag procedure).
2 Ship's report by Master.
1 Stores List.
1 Certificate of Deck Cargo Tonnage (if carried).
1 Grain Certificate (if carried).
1 Light Certificate.
1 Port Dues Certificate.
1 Passenger List required by vessels other than packet vessels.
1 Landing Card for each passenger.
1 Ship's Certificate of Registry.
1 Mercantile Marine Office Certificate – for British vessels only.
1 Load Line Certificate.
1 Safety Equipment Certificate.
1 Lloyd's Certificate.
1 Derating Exemption Certificate.
1 Ship's Register.
1 Lights Bill.
1 Radio Safety Certificate.

In addition Manifests and Bills of Lading are usually sent to Agent direct from loading port.

**PILOTAGE:** Pilotage into the harbour is compulsory for all ships of 50 tons and over, with the exception of vessels of not more than 3,500 tons gross regularly employed in the home and coasting trades and not carrying passengers.

SUNK PILOT STATION

The Sunk Pilot Vessel has a black hull, a buff funnel, the word "Pilots" painted on her sides and flying the pilot flag, and at night exhibiting lights and signals in accordance with Rule No. 8 of the International Rules for the Prevention of Collisions at Sea, cruises in the vicinity of the Sunk Light Vessel to provide Pilots for ships making the port of London and other ports in the London Pilotage District and to disembark Pilots from outward-bound ships; if unable to carry out her duties there through stress of weather, she moves into smoother water. In these circumstances shipping is warned by means of radio navigation warnings broadcast from North Foreland, Humber and Scheveningen radio stations, which give her position.

*The attention of Masters is drawn to the necessity of stopping giving a satisfactory lee for the pilot vessel's boats. These 18 ft. have a maximum speed of 5 knots and if ships being served excessive headway, unnecessary difficulty is caused to both the vessel and boats, and the operation of shipping a Pilot will be prolonged.*

Trinity House considers it necessary to draw special atten to this matter in view of the considerably different procedure adopted for obtaining a Pilot from a cruising pilot vessel comp with a shore-based fast launch which requires the ship to main headway.

The attention of Masters is also drawn to the need for them ensure, when shipping and landing Pilots, that the boarding of the pilot vessel are clear of their ships before proceeding, so the lives of the Pilots and boat crew will not be endangered or boats damaged.

Ships proceeding to either Maldon or Heybridge Basin exchange their North Channel Pilots for Essex River Pilots at Knolls, in favourable weather conditions, and in Brightlingsea Ro in adverse weather conditions.

Deep-drafted ships can be provided with Pilots in deeper by arranging to be met by the Sunk Pilot Vessel in a suitable pos about 3 miles East of the Sunk lightvessel.

*Ships requiring a Pilot at the Sunk Station should give the pilot 12 hours in advance and through a Post Office Coast Station, estimated time of arrival, gross tonnage, maximum draft and por destination. Confirmation of ETA should be given at least two before arrival.*

Vessels wishing to communicate with the pilot vessel at the by radio-telephony direct may:

(i) *when within MF range at approximately 50 miles,* call on kHz. When contact has been established the pilot vessel transmit on 2,241 and will listen on 2,241 kHz or any agreed licenced intership frequency for passing messages

(ii) *as soon as within VHF range (approximately 20 miles),* cal Channel 16 and then transfer to Channels 6 or 9 for pass adjustments to the original ETA and for maintaining com with the pilot vessel.

The pilot vessel may also be contacted by either W/T or through any Post Office Coast Station addressed Sunk Pilot Ves Northforeland Radio.

CORK PILOT STATION

To facilitate the arrival and departure of ships trading to and the ports of Felixstowe, Harwich and Ipswich, a pilot station opera in the vicinity of the Cork lightvessel in position lat. 51° 56′ 42″ long. 01° 27′ 06″ E. This station is additional to, but is not a substi for, the Sunk Pilot Vessel. It is for the use of ships bound to or lea the above mentioned ports whose normal course does not take past the Sunk Pilot Vessel. Full service is also provided at the S Station. The Cork Station is operated by pilot launches, with hulls and white wheelhouses, flying the pilot flag, and at night exhi ing lights and signals in accordance with Rule No. 8 of the Inte national Rules for the Prevention of Collisions at sea.

*Inward Bound Ships.* Ships requiring a Pilot at the Cork Sta should apply to the Sunk Pilot Vessel in the same manner and gi the same information but station their estimated time of arriva the Cork.

*Outward Bound Ships.* Masters of ships about to sail from Harw and Felixstowe and wishing to use the Cork Pilot Station sho state this when ordering their Pilots for departure but may their Pilots out to the Sunk Pilot Station should they so des Pilots for ships outward bound should be ordered by telephon Harwich (code 02555) 3129 – see "Harwich Shore Pilot Station" be

*Launches.* The Cork pilot launches keep a constant listening wa on Channel 16 VHF (change to Channels 9 or 12 for working). recommended that the ship about to ship or land her Pilot sho keep in VHF communication with the pilot launch.

HARWICH SHORE PILOT STATION

A shore pilot station operates at Harwich in position lat. 51° 35″ N., long 01° 17′ 34″ E. in the Old Low Lighthouse. The buildi 37 ft. high and painted in black and white horizontal stripes.

The station is manned by a Duty Pilot and is equipped with telex, telephone, radar and a daylight signalling lamp.

*VHF:* A 24-hour listening watch is kept on Channel 16. The wor frequencies are Channels 9 and 12. The call sign is "Harwich P Radio." Tel. Harwich (code 02555) 3129. *Telex* 98472, Pilots Harw

Ships not fitted with VHF may contact the pilot station throug Sunk Pilot Vessel on MF.

All requests for the services of Pilots for ships bound into o of the Harwich/Felixstowe/Cork Complex should be made to Station. Incoming ships may also communicate with this station requests for the services of the Ipswich Pilots and for the Pilots the Rivers Colne, Blackwater, Crouch and Roach. Orders for outw bound ships should state whether the Pilot will be landed at the S or the Cork. See above.

**ANCHORAGES:**

Ewarton: Situated to the North and West of Parkeston Quay an average depth of 2½ fathoms at low water.

Parkeston: Situated to the North of Parkeston Quay, wi average depth of 3 fathoms at low water.

Quarantine: Situated on the Eastern side of the junction o Rivers Stour and Orwell. Depth on outer edge 5 fathoms; o inner side 1½ fathoms at low water.

Shelf: Situated on the Western side of the main Channel betw the North and South Shelf Buoys. Average depth of 2½ fathom low water.

Inner: Situated at the Pitching Ground. Average depth 4½ fathoms at low water.

Cork: Situated to the Westward of the Cork Light Vessel. Area approximately 2 miles × 1 mile. Average depth 4 fathoms.

**RESTRICTIONS:** Normal maximum draft allowed alongside the berths at Parkeston Quay is 18 ft.; a deeper draft may be allowed by special arrangement.

Normal cargo working at Parkeston Quay ceases at 2200 hours, but berthing and night work by arrangement at any time.

**MAX. SIZE:** Normal maximum permissible length 500 ft. arrangements for larger vessels can be made. Normal maximum permissible breadth for roll-on/roll-off is 75 ft. Normal maximum permissible draft – 18 ft. The height of the tide does not restrict a vessel berthing alongside the quay if her draft is within 18 ft.

**PRATIQUE:** Maritime Declaration of Health required (Q Flag procedure). Obtain Pratique through HM Customs Boarding Officer if no sickness on board.

If there is sickness on board the Customs Official will notify the Duty Port Medical Officer.

If the vessel is from another port in the U.K. Pratique is automatic.

**RADIO:** North Foreland Radio (call sign GNF) or Humber Radio (call sign GKZ) are the most convenient stations to pass ETA cables, etc., to Agents or receivers. The Pilot Land Station has a Surveillance Radar.

British Rail at Parkeston Quay keep a 24-hour listening watch on VHF Channel 16 and work on VHF Channel 18.

**TUGS:** No tugs are based at Parkeston Quay, but two are available at nearby Felixstowe for use in the Port's complex (MT *Sauria* 1,600 h.p. and MT *Ionia* 1,200 h.p.) 24-hour service, 7 days per week. Constant watch on 2182 kc/s. and Channel 16 VHF Additional tugs up to 2,250 h.p. can be obtained from London at 24 hours notice.

**BERTHING:** There are 8 berths at Parkeston Quay, of which 2 are Portal Roll-on/Roll-off berths and 1 is a Pontoon Roll-on/Roll-off berth. Normally maximum draft permissible alongside is 18 ft., but special arrangements as in (4) can be made.

Berthing, etc., by arrangement. Applications for berths must be made through the Marine Superintendent, British Rail, Parkeston Quay, giving as much advance notice as possible.

**STEVEDORES:** All labour at Parkeston Quay are members of National Union of Railwaymen, and arrangements for their use must be made through the Shipping and Port Manager, British Rail, Parkeston Quay.

**MEDICAL:** Prior notice through British Rail, Parkeston Quay, desirable to arrange attention. All services are available.

**TANKERS:** A berth is available for tankers for the purpose of discharging and loading to the local oil refinery.

**DENSITY:** 1025 (sea water).

**FRESH WATER:** Fresh water can be supplied from quayside hydrants.

**FUEL:** Can be arranged by either barge or road tanker.

**DEVELOPMENTS:** Eastern end of Parkeston Quay to be lengthened in due course to provide more container berths.

**GANGWAY/DECK WATCHMAN:** Watchmen are not provided or required by the port, but ships may use their own watchmen.

**HATCHES:** Opening and closing of hatches to be carried out by ship's crew.

**CARGO GEAR:** There are 10 level luffing cranes, safe working load averaging from 30 cwt. to 10 tons, which can be used for discharging and loading. There are also 2 transporter cranes, 30 tons SWL.

**IDENTIFICATION CARDS:** Seamen's Identity Cards sufficient.

**CONSULS:** Dutch, German, Danish, Belgian.

**REPAIRS:** Minor repairs can be carried out by British Rail workshops at Parkeston Quay. As much advance notice as possible required.

**REPATRIATION:** All facilities available.

**AIRPORT:** Nearest is Ipswich, 22 miles; Southend, 70 miles.

**HOLIDAYS:** All normal Bank Holidays. Only passengers and car travellers are dealt with at Parkeston Quay on these days. Freightliners sail only if loaded before the holiday. Train ferries operate normal services.

**POLICE/FIRE/AMBULANCE:** Dial 999 and ask for service required.

**TELEPHONES:** Arrangements can be made, with advance notice given.

**AUTHORITY:** Shipping and Port Manager, British Rail, Parkeston Quay.

## HEYSHAM: 54.02 N. 02.55 W.

**DOCUMENTS:** As for other British ports plus Walney Light Dues.

**PILOTAGE:** Trinity House Pilotage Service, Barrow District. Compulsory for all vessels of 50 tons gross tonnage and over with the exception of vessels of not more than 1,500 tons gross regularly employed in the home and coasting trades and not carrying passengers. Also see "Barrow-in-Furness".

**RADIO:** Portpatrick Radio and Anglesey Radio. Heysham Harbour Radio, VHF Channels 16 and 14.

**MAX. SIZE:** 400 ft. length, draft 17 ft. At Tanker pontoon, draft 21 ft.

**TUGS:** None available.

**ANCHORAGES:** Heysham Lake. ½ mile N.W. of No. 1 Buoy. Position: 53° 59.4′ N., 3° 00.0′ W. Depth: 40 ft. at low water.

**RESTRICTIONS:** Entry possible at all states of tide.

**BERTHING:** Vessels may be berthed at any time.

**DENSITY:** Salt water.

**FRESH WATER:** Available from the quays.

**FUEL:** Diesel and furnace by pipe-line – any quantity. Gas oil by road vehicle.

**WATCHMEN:** Ship's watchmen required.

**CREW:** No restrictions on landing.

**AIRPORT:** Nearest, Liverpool and Manchester; 60 miles.

**REPAIRS:** Small repairs possible, no docking facilities.

**POLICE/AMBULANCE/FIRE:** Telephone 999 in emergency.

**AUTHORITY:** Shipping and Port Manager, British Rail. Tel. Heysham (0524) 52373.

## HOLYHEAD: 53.19 N. 04.41 W.

**DOCUMENTS:**

1 Crew List and where applicable a Passenger List.
1 Pratique issued by Customs.
1 Crew Declaration (C.142 for HM Customs).
1 List of Consumable Stores (tobacco, snuff, alcohol).
1 Declaration of Health.
1 Cargo Manifest.
1 Ships Report.

**PILOTAGE:** Pilotage compulsory under Trinity House Authority. Local Pilot available on request.

**ANCHORAGES – PROHIBITED ANCHORAGE:** The breakwater affords partial shelter to the outer anchorage and complete protection to New Harbour; there are depths of from 19 to 42 ft. in the former and of from 17 to 40 ft. in the latter.

The accommodation for vessels of deep draught in New Harbour is limited. Small vessels should always proceed into New Harbour and anchor in the South-western part, leaving the outer part and the roadstead for large vessels. The bottom is hard, overlaid with mud but the holding ground is sufficiently good if an adequate amount of cable is veered. During Easterly winds an uncomfortable sea is raised; vessels may then obtain shelter in the Eastern part of outer anchorage. Anchorage is prohibited within 1½ cables on either side of the track followed by Mail Steamers from the head of the breakwater to the entrance to Old Harbour; the limits of this area are shown on charts.

**MAX. SIZE:**

*Inner Harbour* is restricted to vessels of 15 ft. draft and vessels exceeding this draft will only be accepted after consultation with the Shipping and Port Manager.

*Outer Harbour:* Vessels of approximately 60,000 tons can be accepted alongside the Anglesey Aluminium Jetty where the berth is dredged to 46 ft. at MLWS.

**TUGS:** Available through Agents. Tugs up to 1,375 h.p.

**RADIO:** Holyhead Radio, VHF Channel 16. No Port Radar.

**BERTHING:** By prior arrangement with Shipping and Port Manager.

**STEVEDORES:** No stevedores. Vessels loaded and discharged by British Railways dock porters. Outside vessels berthing at Public Quay can be discharged and loaded by making prior arrangements with Agent.

**MEDICAL:** Medical Officer available. Stanley Sailors Hospital situated in close proximity to Harbour.

**DENSITY:** Salt water (1025).

**FRESH WATER:** Available at all berths within the Inner Harbour and alongside Anglesey Aluminium Jetty.

**FUEL:** Fuel oil and diesel oil available provided that adequate warning is given to Agent.

**GANGWAY/DECK WATCHMEN:** Required at all times when vessels are in port.

**REPAIRS:** Repairs can be carried out by the British Rail (SISD) workshops, dry dock available:

*Dry dock:* Length 412 ft., breadth 70¼ ft., depth on sill 20 ft. at spring tides.

**AIRPORT:** RAF Station Valley, Anglesey (6 miles away).

**HOLIDAYS:** Saturdays, Sundays and all public holidays.

**POLICE/AMBULANCE/FIRE:** Tel. 999.

**TELEPHONES:** No telephone connection for outside vessels. Public telephone within port limits.

**SERVICES:** Compass adjusting can be arranged.

**SHORE LEAVE:** Allowed.

**DEVELOPMENTS:** A single-buoy mooring for Shell Oil for the discharge of crude oil, least depth 80 ft., expected to be operational late 1975.

**AUTHORITY:** British Rail Shipping and International Services Division. Tel. (0407) 2304.

## HULL: 53.44 N. 00.14 W. (See Plan)

**DOCUMENTS:**

1 Maritime Declaration of Health.
1 Crew's Effects List.
2 Ships Report by Master.
1 Home Office Form 1B6.
1 Stores List.
1 Certificate of Deck Cargo Tonnage.
1 Grain Certificate.
1 Light Certificate.
1 Port Dues Certificate.
1 Passenger List.
1 Landing card for each passenger.
Ships Certificate of Registry.
Mercantile Marine Office Certificate – for British Ships only.
Load Line Certificate.
Safety Equipment Certificate.

Lloyds Certificate.
Derat Certificate.
Ships Register.
Light Bills.
Safety Radio Certificate.

In addition Manifests and Bills of Lading are usually sent to Agents direct from the loading Port.

**PILOTAGE:** A steam pilot cutter, having a black hull and buff funnel and with the word "Pilots" painted in large white letters on her sides, cruises in the neighbourhood of the Spurn Lightship. In bad weather conditions, the pilot cutter carries out her duties inside the river in the vicinity of the Bull Lightship or the No. 5 (Gate) light buoy.

Vessels bound to the Humber and requiring services of a Humber Pilot must give advance notice by signal through a GPO Coast Station to the Pilot Office, Hull, giving estimated time of arrival at Spurn, draft and destination preferably twelve hours in advance. Any adjustment to the time should be given at least two hours before arrival.

Vessels wishing to communicate with the Pilot Cutter by radio-telephone direct may:

(*a*) If within M.F. range (approximately 50 miles), call "Spurn Pilot" on 2182 kilocycles. As soon as contact has been established the Pilot Cutter will transfer to 2241, 2246 or 2301 or another licensed inter-ship frequency for passing messages; or

(*b*) If within VHF range (approximately 20 miles), call "Spurn Pilot" on VHF Channel 16 (156.80 megacycles) and then transfer to Channel 6 (156.30 megacycles) for passing messages.

**ANCHORAGES:** The undermentioned anchorages have been designated for the use of sea-going vessels. Masters are asked to co-operate by using these anchorages and to avoid anchoring in the Fairway or elsewhere.

Spurn anchorage should normally be used by inward-bound vessels and Bull anchorage by outward-bound vessels and vessels awaiting a berth.

*Spurn Anchorage.* From position "A" 121° distant 3·65 miles from Spurn Lighthouse, in a 125° direction 1·60 miles; thence in a 020° direction 0·60 mile; thence in a 077° direction 1·00 mile; thence in a 347° direction 0·70 mile; and thence in a direction 257° 2·40 miles to position "A".

*Bull Anchorage.* From Position A, 193° distance 2·1 miles from Spurn High Lighthouse, in a 090° direction 1·96 miles thence in a 294° direction 1·76 miles, thence in a 274° direction 0·93 miles, thence in a 206° direction 1·0 miles, thence in a 116° direction 0·88 miles, thence in a 026° direction 0·55 miles to Position A.

**AIRPORT:** Nearest is Leeds/Bradford, approx. 60 miles from docks.

**RESTRICTIONS:** Vessels may be accepted through the day and night, the only restrictions being influence of tides, together with the undermentioned physical limitations. Although vessels may occasionally be penned into or out of the docks outside the high water period it is more usual for them to be handled during the period immediately prior to and following high water.

**MAX. SIZE:** The maximum permissible dimensions for a general cargo/bulk carrier vessel (excluding tankers) requiring a berth in the enclosed docks are as follows: King George & Queen Elizabeth Docks, length 630 ft., beam 80 ft., draft 33 ft. 6 in.

**HEALTH:** Pratique granted by Customs Authorities after berthing. If vessel from non-infected area pratique given after Master declares all well on board. If from infected area pratique given after Port Health Authorities doctor has examined crew and given health clearance to Customs Officer. In case of suspected illness Master can send radio to Port Health Authority – telegraphic address "Portealth" Hull. Pratique is automatic when entering after calling at another port or ports in the U.K. and being granted pratique there, unless of course, illness has developed whilst on passage from previous U.K. port.

**RADIO:** Portishead Radio – call sign GKL but when within 200 miles of the Humber can go through Humber Radio – call sign GKZ.

Humber Ports Operation and Information Service operates a VHF (FM) radio telephone service available to all vessels navigating the River Humber, from the Humber Pilot Office Building, Queen Street, Hull.

A continuous watch is maintained on Channels 16 and 12. The call sign is "Hull Radio". The telephone number is Hull 0482–35599. Telegraphic address "Humerops".

The service provides information regarding the arrival, berthing, anchoring and departure of vessels and also information on navigational aids, navigation generally, visibility, and the safety of vessels and persons. Tidal information, including the height of tide at Bull Sand Fort in the Lower Humber, is also available on request. A general broadcast giving weather reports, tidal information and navigational warnings is made by the Humber Ports operation and Information Service on Channel 12 every 2 hours commencing at 0103 hours, prior notification being given on Channel 16.

**VHF:**

*Saltend Jetties*

Callsign, Saltend Radio
Continuous watch maintained
Channel 16, Calling and Safety
Channel 19, Berthing Instructions for Tankers.

*King George Dock*

Callsign, King George Dock Radio
Continuous watch maintained
Channel 16, Calling and Safety
Channel 20, Docking Instructions.

*Alexandra Dock*

Callsign, Alexandra Dock Radio
Operating 5 hours before HW Hull until 3 hours after HW Hu
Channel 16, Calling and Safety
Channel 5, Docking Instructions.

**TUGS:** Head boat normally joins vessel in vicinity of Saltend, ab 2 miles from dock, and the other tug or tugs connect with ve when approaching the dock. Where vessel supplies own ro for towage these to be good stout hawsers. Wire ropes will no accepted. There is a charge for use of tug's hawsers.

**BERTHING:**

**BULK HANDLING FACILITIES:** Container terminal at Qu Elizabeth Dock equipped with 40-ton transporter crane.

Roll-on/roll-off container services operated from King Geo Queen Elizabeth and Alexandra Docks. Grain silo of 60,000 t capacity.

**STEVEDORES:** Enable Agent order gangs important rec accurate ETA particularly when week-end work involved. La time to order gangs: Normal day work 0730 hrs. same morn Saturday & Sunday 1100 hrs. Friday.

**MEDICAL:** Necessary for Agents to be advised of any urg cases of illness in order that they can arrange for a doctor o necessary an ambulance to be available immediately on berth Hospital facilities available.

If vessel required to remain in river awaiting berth arrangeme can be made for any serious case to be taken from vessel by lifeb and conveyed to Grimsby for immediate Hospital treatment.

**TANKERS:** The Oil terminal at Salt End handles refined or se refined chemical and petroleum products which are transfe from the vessel along the oil jetties through a series of chem and service pipes which range from 4 in. for chemicals, 8 in. f 12 in. for spirit and 16 in. for fuel oils and molasses. Facilities av able for the discharge of Slop residue.

There are 3 tanker berths at Salt End and maximum dimensi of vessels are length 670 ft., draft 34 ft.

**DENSITY:** 1013/1015.

**FRESH WATER:** King George & Queen Elizabeth Docks. Avail at any time. Ex Quay. Rate of delivery – 15 tons per hour.

All other Docks. Available at any time. Ex Water Boat. Rat delivery – 100 tons per hour.

If water required urgently after 1700 hours weekdays or on Sa days or Sundays Agents must be notified in good time to ena them order men out.

**FUEL:** Fuel oil available, viscosity up to 3,500 secs. Redwo Gas oil and diesel also available. At least 24 hours notice requi

**FIRE PRECAUTIONS:** Copy of Handbook "Emergency Arran ments" is handed to Masters of Tankers.

**GANGWAY/DECK WATCHMEN:** Watchmen available if req red by Master.

**OPENING/CLOSING HATCHES:** Can be carried out by ste dores when ordered. Ship charged with actual cost, but sh crew may do so if required.

**CUSTOMS ALLOWANCES:** Foreign trade – max. allowa ½ lb cigarettes or cigars or tobacco. Home Trade – (Elbe/Br limits) half the above Wine and/or Spirits. Foreign Trade – 1 pi opened. Home Trade – (Elbe/Brest limits) half the above allowa

**CARGO GEAR:** When working with ship's gear a Registe Machinery, Chains and Wire Ropes, etc., with all Test Certific and record of inspections to be produced to the stevedore bef work commences.

**CONSULS:**

1 copy Declaration of Goods obtained abroad or during a voyage, Form C.142. Suppiied by H.M. Customs.
1 copy Cargo Manifest.
1 copy Dangerous cargo List.

**PILOTAGE:** Contact direct by R.T. on 2182 kc/s. or on VHF Channel 16 to Spurn Pilot at least 6 hours before arrival. Steam cutter with 'Pilots' painted on black hull. Cutter is usually in the vicinity of Spurn Light-vessel, but for vessel having a draft of 36 ft. and over the pilot boards at the Humber light-vessel by special arrangements between the Pilots and the Master. In bad weather contact either the pilot cutter direct or Humber or Hull Radio on VHF Channel 12, and they will advise location of pilot cutter. The usual international standards are required for the ladder, etc., for use for boarding. If vessel has to await Pilot, the pilot cutter will advise where vessel is to anchor. Portable VHF units are available on request by the Master to the Pilots.
**ANCHORAGES:** Hawk and Sunk roads – Spurn and Bull anchorages. The pilot station will advise where to proceed to anchor and also provide Pilot. See "Hull".
**RESTRICTIONS:** No restrictions, vessels may enter the harbour day or night. Maximum draft for entering harbour 34 ft. H.W. Compulsory Pilots boarding Spurn Light-vessel, decide whether vessel shall proceed up river or anchor and await suitable state of tide.
**MAX. SIZE:** Tankers over 100,000 dwt., see "Tetney Terminal".
Immingham Dock max. length 650 ft., breadth 86 ft., draft 34 ft. 6 in.
National Coal Terminal, length no restriction, beam no restriction, draft average 30 ft. See "Berthing".
**HEALTH:** Pratique obtained by Master from H.M. Customs Waterguard on arrival. Any suspected disease or fever must be reported by radio to Agent and Dock Master who will arrange for Port Health doctor on arrival. Pratique is granted on arrival if no contagious disease on bpard.
**RADIO:** Humber Radio – 2182 kc/s. or VHF Channel 16. Dock Master – VHF Channel 16. Tankers use Channel 19. Also see "Hull".
**TUGS:** Will join vessel off dock entrance, optional use of tow lines. If using tug's tow lines, charge for this service £3 to £6, depending on vessel's length.
**BERTHING:** Unless Master or Agent indicates preference, the Port Authorities will decide which side alongside. River Pilot deciding in conjunction with Dock Master most suitable berthing time for harbour and river installations.
*British Steel Corporation Ore Terminal:*
Adjoins N.C.B. Terminal, Max. length 1,095 ft., max. draft subject to approach channel, 40–44 ft.
**STEVEDORES:** Firm ETA to Agent required if possible before noon on previous day before arrival.
**MEDICAL:** No advance notice necessary for medical treatment as all hospital facilities available.
**TANKERS:** Also see "Tetney Terminal".
*Immingham Oil Terminal*. Length up to 1,200 ft., breadth, no restriction, draft depends on height of water in channel, average 43 ft. Three 12 in. lines for crude oil. Two lines 12 in and 10 in. all other products. One 8 in. line for bunkers.
*Eastern Jetty*. Length, no restriction, breadth, no restriction, draft depends on low water, average around 33 ft. 10 in., 8 in., 6 in. lines, depends on Receivers. Bunker line available.
*Western Jetty*. Length, no restriction, breadth, no restriction, draft depends on low water, average around 31 ft.
*Killingholme North*. Length 580 ft. max., beam, no restriction, draft 30 ft. 6 in. One 8 in. line. One 4 in. bunker line.
*Killingholme South*. Length 565 ft. max., beam, no restriction, draft 31 ft. One 8 in. line. Bunker line available. No slop tanks available
**DENSITY:** In harbour 1019.
**FRESH WATER:** Available all berths by hose. Rate of delivery 20 tons per hour.
**FUEL:** 24 hours notice required. All grades available.
**FIRE PRECAUTIONS:** Copy of these regulations handed to the Master on arrival.
**GANGWAY/DECK WATCHMEN:** Watchmen not usually employed, but left to the discretion of the Master.
**OPENING/CLOSING HATCHES:** Normally carried out by stevedores.
**CERTIFICATES:**
Ship's Register.
Load Line.
Safety Radio.
Safety Equipment.
Safety Construction and any British Light Dues Receipts.
Derat Certificate.

**CUSTOMS ALLOWANCES:** 8 days – 200 cigarettes per person approx. Wine/spirits, 4 days – ½ pt. per day; this depends on the Customs Officer's discretion.
**CARGO GEAR:** This must comply with the Department of Employment and Productivity regulations. Normally discharge carried out by shore cranes, although overside berths available.
**IDENTIFICATION CARDS:** Seaman's book or passport sufficient for crew members going ashore.
**CONSULS:**
Finland – Immingham 2387
Greece – Immingham 2166
Norway – Grimsby 55324
Sweden – Immingham 2387

**REPAIRS:** All major repairs possible.
**DRY DOCKS:** 1. Length 740 ft., width at entrance 56 ft. 2. Length 600 ft., width at entrance 90 ft.
**REPATRIATION:** All facilities exist for dealing with crews and passengers.
**AIRPORTS:** Leeds/Bradford. Manchester/Ringway. Daily flights to London for international connections.
**TIME:** GMT. Summertime, GMT plus 1 hour.
**HOLIDAYS:** Good Friday, Christmas Day, Boxing Day are regarded as closed holidays. All other holidays work will be carried out.
**POLICE/AMBULANCE/FIRE:** Police; Docks – Immingham 3441, 2068, 2067; County – Immingham 2222. Ambulance; Docks – Immingham 3441; County – Cleethorpes 62912. Fire; 999 ask for Fire.
**TELEPHONES:** Arrangements for ship's telephone on most quays. Jetty's have public and company telephones available.
**AUTHORITY:** British Transport Docks Board.

**AGENT:** Cory Brothers Shipping Limited, Immingham Dock, Grimsby, Lincs. Tel: 04692–3801. Telex: 52309. Cables: "Coryton Imminghamdock," "Coryship Imminghamdock."

## INVERGORDON: 57.41 N. 04.10 W.

**DOCUMENTS:** *At Boarding on arrival:*
1 copy Maritime Health Declaration and Deratisation Exemption.
Lists C.142 – Crew's declaration of dutiable and prohibited goods obtained abroad or during the voyage.
Form I.B.6 – List of members of the crew who are aliens or who were engaged outside the United Kingdom.
List 142.A – Parcels list – small packages of merchandise and addressed packages not borne on the ship's report.
List of ship's surplus stores and live animals on board.
Account of cargo in unregistered spaces (deck cargo) if arriving from a port outside Home Trade limits.

*At Customs House when making report:*
Form XS1.3 (in duplicate) – Master's report inwards. (A third copy is required if the vessel is carrying cargo for another United Kingdom port or for export.)
Surveys 107 – grain-laden ships only.
Surveys 104 – if carrying deck cargo from outside Home Trade limits.
Forms PR.4, PR.8 or PR.10 – passenger returns in duplicate (one copy for Customs one copy for Immigration). Vessels with passengers only.
Certificate of Registry.
Certificate of British Tonnage.
Light Dues Certificate relating to the vessel.
Certificate of Pratique; Form C.101 – these forms are issued by the Customs Officer who first boards the ship.

*To the Agent:*
Bills of lading.
Cargo Manifests.

**PILOTAGE:** Pilotage compulsory except when under 300 tons gross. Cruising station of pilot boat is the Cromarty Lighthouse where Pilot will board. Pilot boat painted black hull, buff upper structure.

Approaching vessels may give their ETA to pilot station via VHF Channel 16, when in the vicinity of 30 miles, but a 24-hour notice will be required. In the event of bad weather, vessels will be guided by pilot launch to safety where Pilot will board.
**ANCHORAGES:** In vicinity of Cromarty Bank Buoy and Cromarty Ness Light.
**RESTRICTIONS:** Vessels may enter between the hours 0600 and 2200 hours when Pilot will be available.
**MAX. SIZE:** Maximum permissible length 800 ft., draft 35 ft.
**HEALTH:** International quarantine signals to be used. Advise "Portelth Dingwall" in advance if any suspected diseases on board.
**RADIO:** Vessels approaching from North should pass their ETA cable via Wick Radio GKR 431, and vessels approaching from East via Stonehaven Radio GND 458 to their Agents.

**TUGS:** Tugs are not stationed at port. For vessels 20,000 tons deadweight and over, use of a tug is compulsory, advance notice required. Use of ship's lines or tug lines optional. No separate charge.
**STEVEDORES:** None. Local labour employed.
**MEDICAL:** Medical cases can be dealt with at short notice through local Agent. Hospital facilities available.
**DENSITY:** 1022.
**FRESH WATER:** Obtainable alongside quay. Rate of delivery. 50 tons per hour, each hydrant.
**FUEL:** This can be ordered through local Agent, delivery by road tanker, small quantities, notice required.
**GANGWAY/DECK WATCHMEN:** Gangways supplied free of charge with vessel responsible while on board. Watchmen supplied by ship's personnel.
**OPENING/CLOSING HATCHES:** Normally carried out by crew.
**CERTIFICATES:** The following Certificates are required to be held on board for production when required:

International Load Line Certificate.
Safety Construction Certificate.
Safety Equipment Certificate.
Safety Radio Certificate.

**CUSTOMS ALLOWANCE:** Following quantities are generally left out for use on board by each member of the crew:

Ships arriving from foreign ports within Home Trade limits: Tobacco 125 gms. (4 oz. or 100 cigarettes). Spirits 0·185 litre (¼ bottle), wine 0·375 litre (½ bottle).

All other ships from foreign: Tobacco 250 gms. (8 oz. or 200 cigarettes). Spirits 0·375 litre (½ bottle), wine 0·75 litre (1 bottle).
**IDENTIFICATION CARDS:** Not required.
**REPAIRS:** None, small repairs carried out, advance notice required.
**REPATRIATION:** Can be arranged.
**AIRPORT:** Dalcross Airport, operated by BEA, distance from Invergordon 45 miles.
**TIME:** British Summer Time, 1 hour advanced on GMT. GMT in winter months.
**HOLIDAYS:** 1st and 2nd January; 2nd Monday April; Last Monday July; 1st Monday October; Christmas Day.
**POLICE/AMBULANCE/FIRE:** Police, tel. Invergordon 222 or dial 999; Ambulance, arrangements through local doctor, tel. Invergordon 522; Fire Station, dial 999 and ask for their service.
**TELEPHONES:** H.M. ships only.
**SHORE LEAVE:** Allowed.
**AUTHORITY:** Ministry of Defence (Naval) Bath. Admiralty Harbour Master, Invergordon.

## INVERNESS: 57.29 N. 04.14 W.

**DOCUMENTS:**

2 Crew Lists.
2 Passenger Lists.
Customs and Excise and Health Documents.
Manifest.
Bills of Lading, etc.

**PILOTAGE:** Apply direct to Agent or to Pilot, telephone Kessock 217. ETA 24 hours. Pilot equipped with VHF. Pilot cutter blue launch with letter P. Pilot station Munlochy Buoy. Location of anchorage while awaiting Pilot – Munlochy Buoy.
**ANCHORAGES:** Munlochy Buoy in 5/8 fathoms. Beauly Basin in 15 fathoms. Munlochy Bay in 5 fathoms.
**RESTRICTIONS:** 24 hours entry at high water.
**MAX. SIZE:** Ship maximum 280 ft. length, 20 ft. draft, high water springs. 17 ft. draft high water neaps.
**HEALTH:** Pratique as per U.K. procedure.
**RADIO:** Wick Radio
**TUGS:** None.
**STEVEDORES:** Arrange through Agent. 24 hours notice required.
**MEDICAL:** Doctor available.
**DENSITY:** 1012.
**FRESH WATER:** Available on demand, 20 tons per hour, ex hose on quay.
**FUEL:** Marine diesel and petroleum on request.
**GANGWAY/DECK WATCHMEN:** Supplied by ship.
**OPENING/CLOSING HATCHES:** Done by crew.
**CUSTOMS ALLOWANCES:** Tobacco/Wines/Spirits. Usual amount allowed by Customs and Excise.
**IDENTIFICATION CARDS:** None.
**CONSULS:** Netherlands, tel. Inverness 31171.
**REPAIRS:** Possible.
**REPATRIATION:** Facilities available.
**AIRPORT:** Dalcross, 7 miles from Inverness.
**HOLIDAYS:** 1st and 2nd January; Easter Monday; July Bank holiday; First Monday in October; and Christmas Day. All official holidays, cargo work can be arranged on these days.
**POLICE/AMBULANCE/FIRE:** Police Inverness 36111; Fire Brigade Inverness 34633; Ambulance Inverness 31511.
**TELEPHONES:** On Quay.
**SHORE LEAVE:** Unrestricted.
**AUTHORITY:** Inverness Harbour Trust, Harbour Master, Harbour Office, Shore Street, Inverness. Tel. 33291.

## IPSWICH: 52.02 N. 01.10 E. (See Plan)

**DOCUMENTS:** Masters can conclude all documentation in port. Ship's Agent will give the necessary advice.
**PILOTAGE:** Normal International signals for "I require Pilot", VHF Channel 16 calling, Channels 9 and 12 working. 30ft. launch painted black, with word "Pilot" in white on side, available at and Cork Light Vessels or Harwich Harbour. Desirable that A are advised of vessel's ETA at least two hours prior to ve arrival at Harwich Roads or, in the Master's option, at either the or Cork Pilot Stations.

A new pilot station has been established in the Orwell Naviga Centre at Ipswich Dock head. The station will be manned 0700 till 1900 by a duty Pilot, telephone Ipswich 211347, who receive orders, and requests for information, regarding the pilo of vessels in the Ipswich pilotage district.

Outside these hours, from 1900 until 0700 each day, all such and requests for information should be passed to the Orwell Na tion Centre. Telephone 55093, for onward transmission to the Pilot at home.
**ANCHORAGES:** No anchorages within port. All vessels will ceed direct to berth, otherwise anchorage provided in Har Harbour.
**RESTRICTIONS:** Vessels up to 1,500 grt taken up at draught not exceeding 16 ft. Maximum length of vessel 460 ft. M mum draught 25 ft. 6 in. Large vessels navigate on flood tide on
*Night Navigation:*

Vessels of up to 300 ft. length can navigate at any time provi the U.K.C.* is observed.

Vessels between 300 ft. and 360 ft. in length can navigate (pro ing the U.K.C. is observed) on a flood tide only. The deadline be HW at Harwich.

Tankers of over 260 ft. in length will also not be allowed to nav during darkness. Chemical tankers are also restricted to day navigation only.

* U.K.C.: Under Keel Clearance.
**MAX. SIZE:** 460 ft. overall length and 25 ft. 6 in. draft.
**HEALTH:** International signals. Master to contact ship's A when disease or fever is suspected on board. Pratique auton for vessels calling at another port in the U.K.
**RADIO:** Masters to contact ship's Agent through North Fore Humber, Niton or Portishead depending on position of vessel these radio stations hold cable addresses and staff telephone bers of Agents.

A 24 hour VHF radio facility has been established. Vessels arr should contact "Ipswich Port Radio" on VHF Channel 16 on ente the River Orwell and report and/or maintain a listening watc instructed. Channels 14 and 12 will be used for the passin messages which should be restricted to the safety of navigatio persons.
**TUGS:** Tugs available in Harwich Roads and it is customar tugs' lines to be used, for which there is, of course, an additi charge on the towage. It is advisable for vessels to give 4/6 ho notice of arrival at Harwich Roads.
**BERTHING:** Vessels bound for berths in the Wet Dock sh arrive off the lock two hours before high water.

*Cliff Quay:* Length: 3,250 ft. (990 metres).

Depth of water alongside: 28 ft. (8·5 metres) below LWO Subject to silting.

Approach Channel: 19 ft. (5·7 metres) below LWOST.

Cranes: 15 portal jib cranes from 3·00 to 15·25 tonnes lifting capa and one derrick crane capable of lifting 32·5 tonnes at 90 ft. metres) radius, and 40 ft. (12·1 metres) outreach from the face o quay.

Largest vessel which can be accommodated: 460 ft. (140·2 me overall in length, 25 ft. 6 in. (7·7 metres) draft inwards, 24 ft. (7·4 metres) outwards.

The Quay handles containers and heavy lifts up to 32·5 tonnes is particularly well equipped to handle cargoes direct to and both road and rail transport. The South end has been develope a modern terminal for handling all types of general cargo, inclu containers, flats and palletised units. Spacious modern transit sh together with a container park, are sited conveniently behind part of the Quay. Vessels up to 25 ft. 6 in. (7·7 metres) draft ca handled at the terminal.

*West Bank Terminal:* Stage 1 of this terminal provides (1) bulk general cargo berth 400 ft. (122 metres) in length dredge 20 ft. (6·09 metres) alongside. (2) Roll-on/roll-off berth with a 121 ft. (36·9 metres) long and 23 ft. (7 metres) carriageway cap of taking a 45·8 tonne axle load. Water alongside 20 ft. (6·04 me at LWOST.

Two quayside portal cranes, one of 10 tonnes and one of 35 to capacity and a 60 ft. (18·29 metres) 50 tonne weighbridge have provided on Stage 1.

Stage 2A (under construction) will provide one 300 ft. dredged to 20 ft. LWOST, and backed by 12 acres of land.

*The Dock:* The dock is situated within the town of Ipswich some 26¼ acres (10·63 hectares) in extent and is approached entrance lock 300 ft. (91·4 metres) long by 50 ft. (15·2 metres) wide ships up to 47 ft. 6 in. (14·4 metres) beam can be brought in.

The following are the depths on the outer sill: At HWOST, 23 (7·16 metres). At LWOST, 10 ft. (3·04 metres). At HWONT, 20 ft. (6·25 metres). At LWONT, 12 ft. (3·65 metres).

Owing to the shape of the lock-pit modern vessels requi following clearances:

| *Beam* | *Clearance* |
|---|---|
| 40 ft. (12·19 metres) | 3 ft. (0·91 metres) |
| 42 ft. (12·80 metres) | 4 ft. (1·22 metres) |
| 45 ft. (13·71 metres) | 5 ft. (1·52 metres) |
| 48 ft. (14·63 metres) | 5 ft. 6 in. (1·67 metres) |

Inside, in addition to some 2,700 ft. (823 metres) of private owned by merchants having warehouses or mills adjoining, small vessels can berth, there are the following quays owned by the Authority:

(i) *South West Quay:* This quay is 800 ft. (244 metres) in length with a depth of 19 ft. (5·79 metres) of water alongside at mean dock level. The quay is served by three modern 7·63 tonne portal electric travelling cranes and mobiles as required.

(ii) *Timber, Public Warehouse,* and *End Quays* total 940 ft. (286 metres) in length and have a depth of water alongside varying from 12 ft. (3·65 metres) to 20 ft. (6·09 metres). Public Warehouse Quay has transit shed and warehouse space behind the quay and is served by mobile cranes capable of lifting up to 5 tonnes.

(iii) *Tovell's Wharf* is a 600 ft. (183 metres) reinforced concrete quay with 22 ft. (6·70 metres) of water alongside. It is served by two 4 tonne and one 5 tonne electric travelling luffing cranes.

(iv) *Orwell Quay* is 775 ft. (236 metres) in length, with 18 ft. (5·48 metres) of water alongside and includes a combined container and roll-on/roll-off berth with a derrick capable of lifting 32·5 tonnes at 112 ft. (34·14 metres). Two transit sheds, with a floor area of 96,700 sq. ft. (8,983 sq. metres) are situated immediately behind the Quay apron together with further extensive covered and open areas.

**STEVEDORES:** Ship's Master normally advises his Agent of his ETA, disposal of cargo on board, and all relevant details. The Agent passes this information to Stevedores.

**MEDICAL:** All medical facilities available in port. Vessels requiring medical assistance on arrival should advise all details by radio telephone or on their ETA cables.

**TANKERS:** It is desirable that when Master of a tanker gives an ETA he also indicates the size of pipe-line, size of connection and discharging point in order that necessary arrangements can be made at discharging point of receiving oil terminal. There are no slop facilities at port of Ipswich, and all cleaning and gas-free operations must be carried out outside precincts of the Harwich Harbour Conservancy Board. Only one tanker berth at Ipswich but there are six intake points on quay and it is usual for four coastal tankers to be accommodated, depending on the overall length and berth availability. A maximum draft on the berth of 25 ft. 6 in.

**DENSITY:** Approx. 1020 oz. depending on the amount of fresh water in river due to heavy rain.

**FRESH WATER:** Available at all quays. Delivery by hose through meter at 10 tph.

**FUEL:**

Gas oil 35 secs. Redwood.
Light fuel oil 200 secs. Redwood.
Medium fuel oil heated 950 secs. Redwood.
Heavy fuel oil heated 3,500 secs. Redwood.
At least 24 hours' notice required.

**GANGWAY/DECK WATCHMEN:** No watchmen required by Port Authority, but sufficient men available at all times to move vessels, if necessary.

**OPENING/CLOSING HATCHES:** Hatches opened by ship's crew.

**CERTIFICATES:** Following certificates are required by Agents in order to arrange Customs clearance:

Ship's Register.
Radio Certificate.
Load Line Certificate.
Safety Equipment Certificate.
Derat Certificate.
British Tonnage Certificate, if required.

**CUSTOMS ALLOWANCE:** Tobacco, 200 cigarettes, or equivalent in tobacco, per man. Wine and/or Spirits, One bottle per man.

**CARGO GEAR:** Cargo working gear is supplied by stevedores. Normally, quayside cranes are used for discharging and loading. In event of cargo gear being used in port, ship's gear certificate, duly certifying that all gear has been examined and is in every way workable and suitable for discharge and/or loading of cargo, is to be produced.

**IDENTIFICATION CARDS:** Not required as long as each crew member has in his possession a seaman's book and/or passport.

**CONSULS:** Vice-Consul for Sweden and Vice-Consul for Norway. Tel. 59281.

**REPAIRS:** Only small repairs on board.

**REPATRIATION:** Facilities exist at port for effecting crew changing and arranging repatriation.

**AIRPORT:** A non-customed airport.

**HOLIDAYS:** Normal holidays for English ports.

**TIME:** GMT in winter months. Summer time, GMT plus one hour.

**POLICE/AMBULANCE/FIRE:** In emergency dial 999. Otherwise, Police – Ipswich 55811; Ambulance – Ipswich 56407; Fire – Ipswich 75345.

**SHORE LEAVE:** Yes, allowed.

**AUTHORITY:** Ipswich Port Authority, Old Custom House, Key Street, Ipswich, Suffolk. Tel. Ipswich 56011.

**AGENTS:** Cory Brothers Ltd., Dock Head, Ipswich, Suffolk. Tel. 59281. Telex 98282.

## ISLE OF GRAIN: 51.26 N. 00.43 E.

**DOCUMENTS:**

1 Maritime Declaration of Health.
1 Crew's Effects List.
2 Ships Report by Master.
1 Home Office Form 1.B.6.
1 Stores List.
1 Port Dues Certificate.
Ship's Certificate of Registry.
Mercantile Marine Office Certificate – for British Ships only.
Load-line Certificate.
Safety Equipment Certificate.
Lloyds Certificate.
De-rat Certificate.
Ship's Register.
Light Bills.
Safety Radio Certificate.
Safety Construction Certificate.

**PILOTAGE:** See "Medway".

VLCC vessels enter and leave by North Channel. Special pilotage and entry arrangements apply.

**ANCHORAGES:** Vessels proceeding to Isle of Grain must contact Medway Ports Operations Centre (VHF Channels 16 and 14) when a designated anchorage will be allocated appropriate to the size of vessel.

**RESTRICTIONS:** Tidal port. 24 hour movements (except for vessels over 130,000 dwt. daylight berthing only at present), subject to tidal conditions and under-keel clearance appropriate to size of vessel. Minimum depth of approach channel 28 ft. LW. at present.

**MAX. SIZE:** Largest size of vessel accepted to date, 280,420 dwt. part loaded.

**HEALTH:** Foreign arrivals to complete Maritime Declaration of Health. They are cleared immediately on arrival by either a port doctor or an officer of H.M. Customs depending on where the ship comes from and whether there is sickness on board.

Vessels arriving from ports within accepted area (N. European ports) and coastal arrivals need not present Declaration. In all cases when there is sickness on board the Port Health Authority must be informed preferably not more than 24 hours and not less than 4 hours before arrival.

**RADIO:**

Notice of 72 hours and over – Portishead Radio.
Notice of 12–72 hours – Landsend Radio.
Notice up to 12 hours – from South, Northforeland Radio.
from North, Humber Radio.

**RADAR/VHF:** See "Medway".

**TUGS:** Six tugs available. Three of them equipped for fire-fighting. Tugs join and leave vessels at Garrison Point, Sheerness. Normally use tug lines, cost included in tug hire.

**BERTHING:** There are eight main jetties, 1 to 8, and three coaster jetties viz. No. 1 Barge (No. 1 coaster incorporating No. 2 Barge) and No. 9 lub. oil jetty.

Distance between the centre of jetties is as follows: Jetty nos. 1 and 2, 859 ft.; 2 and 3, 831 ft.; 3 and 4, 814 ft.; 4 and 5, 818 ft.; 5 and 6, 830 ft.; 6 and 7, 798 ft.; 7 and 8, 1,050 ft.

There is strictly no maximum length for any vessel using a B.P. jetty berth, being dependent upon length of vessel on adjacent jetties.

Large crude and black oil ships usually use North-east and jetties i.e., 4, 5, 6, 7, 8. Very large ships (super-tankers) generally moor to No. 8 jetty on the first of ebb tide.

Refinery stocks all sizes of connections and reducing pieces, etc. Slop facilities available at all main-line jetties.

**DENSITY:** Approx. 1019.

**FRESH WATER:** Available all jetties by pipeline.

**FUEL:** Most grades available on all jetties. Advance notice advisable.

**MEDICAL:** Advance notice of medical attention and inoculations required is advisable. Hospital facilities available in surrounding areas.

**FIRE PRECAUTIONS:** No immobilisation or repairs allowed without prior authorisation. No hot-work allowed alongside jetties. Standard B.P. terminal regulations apply.

**GANGWAY/DECK WATCHMEN:** Services of shore watchmen not necessary. Vessels' own gangway used.

**REPAIRS:** Local marine repair company can undertake repairs of general nature. No drilling or hot-work permitted alongside jetties.

**REPATRIATION:** All facilities for repatriation by land, sea and air, through London and Dover. Attendance of British Ministry and Foreign Consulate officials arranged through Agent.

**POLICE/AMBULANCE/FIRE:** Dial following extensions on refinery internal system: Police 221; Ambulance and Fire 222. Medway Ports Operations Centre can be alerted on Channels 16 and 14 to call these services.

**TELEPHONES:** Telephones (coin box) placed on board at Master's request. No charge for connection.

**GENERAL:** Agents have difficulty in providing most services at week-ends, therefore, requests for Bond, cash, consular officials, etc., should be radioed as soon as possible.

**CUSTOMS ALLOWANCES:** At the discretion of Local Customs Inspector. Normal allowances are equivalent of ½ lb tobacco per man and equivalent of 1 bottle of wine per man. Allowances may be halved for home trade vessels. Vessels in port more than three or four days may receive extra allowances.

**TIME:** British Standard Time is GMT plus 1 hour. GMT in Winter months.

**AGENT:** William Hurst Limited, Foreshore Marine Offices, B.P. Refinery (Kent) Limited, Isle of Grain, Nr. Rochester, Kent. Tel. 0634–29 235. Telex 96187 Hurst Grain.

## KING'S LYNN: 52.53 N. 00.15 E. (See Plan)

**DOCUMENTS:**

Pilot Note to be filled in and signed by the Master on completion of pilotage services both inwards and outwards.

Cargo tonnage return to be completed by the ship's Agent.

**PILOTAGE:** Pilotage is compulsory between an East-to-West line through Bar Flat Buoy in the Wash and the Freebridge at King's Lynn.

Vessels may be boarded and unboarded by pilot cutter in the Wash from approximately 2½ hours before high water between Daseley Sled, the Sunk Buoy and Roaring Middle Light Float. Unless prevented by weather or breakdown a pilot cutter cruises between King's Lynn No. 1 Light Buoy and the Sunk Light Buoy approximately 2½ hours before high water until such time as it is too late for a vessel to transit the Approach Channel on that tide.

Requests for a Pilot sent at least 24 hours before the service is required (with amendments if necessary up to 12 hours before) to the Pilot Office, Common Staith, King's Lynn (tel. King's Lynn 3411, telegrams "Conservator" King's Lynn) or through local Agent. The Pilot Office is at the Harbour Office and maintains VHF R/T watch on Channels 16 and 12 from 0900 to 1700 hours Monday to Friday and from 4 hours before high water until 1 hour after high water on each tide after 1700 and before 0900 hours. The Pilot Cutter listens on Channel 16 when on station and is fitted with Channels 14, 12, 11 and 6 as working channels.

No. 1 Pilot Cutter *Gore Point* is a 50-ft. steel craft with a blue hull and white superstructure. No. 2 Pilot Cutter *Valnic* is a 50-ft. wooden craft with black hull and a buff superstructure. In the event of bad weather the pilot cutter on duty will fore-run vessels into Daseley Sled (52° 53″ N. 0° 21″ 5′ S.) before boarding Pilots.

Requests for pilots for ships in port, should be made to the Pilot Office at least 2 hours before the Pilot is required to attend the ship. The signals to be used or displayed where the services of a pilot are required are in accordance with the provisions of the Merchant Shipping (Pilot Signals) Order, 1970. Pilots are boarded and unboarded directly to and from the Pilot Cutter as conditions allow.

**ANCHORAGE:** In the Wash vessels anchor within an area bounded by the Roaring Middle Light Float and the King's Lynn No. 1 Light Buoy and the Sunk Light Buoy. Anchoring close to No. 1 buoy in sufficient depth of water assists early boarding of Pilots. Depths of water minimum of 20 ft.

**RESTRICTIONS:** King's Lynn Harbour is situated on the River Great Ouse about 2 miles inland from its mouth, at the South-East corner of the Wash.

The shipping channel in the approaches to King's Lynn and its approaches in the Wash is subject to changes in depth and direction as published on Admiralty Charts.

Harbour Master will advise in advance upon the suitability of vessels and tides. To navigate the approach channel with sufficient under-keel clearance over shoal areas, the vessel's max. draft plus 6 ft. should not exceed the height of the tide above dock sill.

All ship movements are at high water, times in accordance with a position list maintained at the Harbour Office on the basis of information supplied in advance from Masters of vessels and their Agents.

At the Docks entrance lock docking signals are exhibited from a signal mast. Gale warnings are exhibited from a signal mast on Common Staith.

**MAX. SIZE:** Max. dimension for vessels entering the Harbour: length 260 ft., beam 45 ft., draft 11 ft., on lowest neap tides, and 17 ft. on highest spring tides. Access over high tide only. Harbour Master to be consulted for vessels approaching these limits.

**RADIO:** The King's Lynn Conservancy Board operates in the River Great Ouse and its approaches in the Wash a VHF (FM) port operations and information radio-telephone service in the International Maritime Band, call signs: "King's Lynn Harbour Radio" (Channels 16, 12 and 11); "King's Lynn Pilots" (Channels 16, 14, 12, 11 and 6).

British Transport Docks Board operates a docks operations and information service, call sign: "King's Lynn Docks Radio (Channels 16, 14 and 11).

**TUGS:** Controlled by King's Lynn Conservancy Board and in attendance at the discretion of the Board's Harbour Master. Vessels joined in the Wash Approaches and/or lower reach of River Great Ouse (Marsh Cut). Vessels should provide own hawsers. If ordered, tug hawser available at £2 plus cost of damage in excess of normal wear and tear.

Harbour Master may require any vessel to use and employ a tugboat.

**BERTHING:** *Alexandra Dock:* Size 780 ft. × 440 ft. Approached from the River Great Ouse and Kings Lynn Harbour by a lock 50 ft. wide and 200 ft. between gates. The depth of water on sill is 22 ft. to 26 ft. (springs) and 18 ft. (neaps).

*Bentinck Dock:* Size 1,000 ft. × 400 ft. Connected with the Alexandra Dock by a passage and gates over which pass two swing bridges. Double-sided jetty 235 ft. long.

The quays of the two docks have a water frontage of approximately one mile and provide a total of 18 berths.

**STEVEDORES:** Gangs usually can be provided at minimum notice. Main commodities and handling rates: timber (60 tons pre-pack, pre-slung, per gang-hour), steel rods (70 tons per gang-hour), tinplate (90 tons per gang-hour), coal (75 tons per gang-hour), also roll-on/roll-off and container handling.

**TANKERS:** Four tanker berths in enclosed docks. Discharge from vessels is to 6-in. connecting pipes feeding 8-in. pipes to storage tanks.

**MEDICAL:** It is advisable to give advance notice of required medical attendance via Agent. In emergency the Harbour Office will pass on requests received over the VHF R/T Port Operations and Information Service. For other medical information, refer to the Port Medical Officer of Health and H.M. Customs.

**FUEL:** Available at berths alongside King's Lynn Harbour on 24 hours previous notice. Light-grade fuel oil, gas oil, petrol and paraffin only.

**FRESH WATER:** Available on all berths through 4-in. pipe hydrants from public supply.

**OPENING/CLOSING HATCHES:** Done by crew. Cranes a able for heavy beams.

**GANGWAY/DECK WATCHMEN:** Vessels responsible providing own gangways at King's Lynn Harbour berths, where Regulations require the Master or other person having the ca any ship or other craft to have a proper number of hands on b to attend moorings and to comply with all the requirements directions of the Harbour Master or his Deputy or Assistants.

**CONSULS:** Vice-Consul for the Netherlands and German Vice-Consul for Sweden and Denmark.

**REPAIRS:** Limited facilities only available locally for hull and gine repairs.

**AIRPORT:** Charter flights from Cambridge and Norwich airp about 45 miles from King's Lynn. Regular flights from London (He row) about 100 miles from King's Lynn.

**POLICE/AMBULANCE/FIRE:** In emergency dial 999 and as the service required. Normal service: Police – King's Lynn 6 Ambulance – King's Lynn 3503 or 3910; Fire Service – King's L 5163.

**HOLIDAYS:** Cargo work usually available at overtime rates Saturday and Sundays and on all public holidays.

**AUTHORITY:** The King's Lynn Conservancy Board, Harb Office, Common Staith, King's Lynn, Norfolk. Tel. King's Lynn 3 and 3412. Cables: "Conservator" King's Lynn.

## KINGSNORTH: 51.25 N. 00.36 E.

**DOCUMENTS:** See "London".
**PILOTAGE:** See "Medway."

**ANCHORAGES:** Vessels proceeding to Kingsnorth must co Medway Ports Operations Centre (VHF Channels 16 and 14) whe designated anchorage will be allocated appropriate to the size of vessel.

**RESTRICTIONS:** Tidal port. 24 hour movements, subject to conditions and under keel clearance appropriate to size of ves Minimum depth of approach channel 28 ft. LW at present.

**MAX. SIZE:** Max. lengths: 750 ft. No breadth restriction. Dr 38 ft. alongside jetty.

**RADIO:** Notice of 72 hours and over, Portishead Radio. Notice 12–72 hours, Landsend Radio. Notice of up to 12 hours, from S Northforeland Radio, and from North, Humber Radio.

**RADAR/VHF:** See "Medway".

**TUGS:** Six tugs available. Three of them equipped for fire fight Tugs join and leave vessels at Garrison Point, Sheerness. Norm use tug lines, cost included in tug hire.

**BERTHING:** *Oakhamness Jetty:* One tanker berth situated at end of a 1-mile long jetty with T-head cargo handling platfo Vessels moor alongside dolphins abreast of cargo handling p form which is equipped with Chiksan rigid loading/discharge ar each of 12-in. diameter. Depth alongside berth is 44 ft. below c datum.

**MEDICAL:** Advance notice of medical attention and inoculat required is advisable. Hospital facilities available in surround areas.

**TANKERS:** Advisable radio Agents connection sizes requi No slop tank available. One large tanker berth only.

**DENSITY:** Approx. 1018.

**FRESH WATER:** Available by pipe-line on jetty.

**FUEL:** Bunkers not usually available on jetty, but may be deliv by barge. Advance notice essential.

**FIRE PRECAUTIONS:** No immobilisation or repairs allo without prior authorisation. No hot-work allowed alongside jett

**GANGWAY/DECK WATCHMEN:** Services of shore watchm not necessary. Shore gangway may be used.

**REPAIRS:** Local marine repair company can undertake repa of general nature. No drilling or hot-work permitted alongside je

**REPATRIATION:** All facilities for repatriation by land, sea air, through London and Dover. Attendance of British Ministry Foreign Consulate officials arranged through Agent.

**POLICE/AMBULANCE/FIRE:** Dial 999 from public call b Medway Ports Operations Centre can be alerted on Channel 16 14 to call these services.

**TELEPHONES:** No facilities exist for placing telephones onboa

**GENERAL:** Agents have difficulty in providing most services week-ends, therefore, requests for bond, cash, consular offici etc., should be radioed as soon as possible.

**AGENT:** William Hurst Limited, Foreshore Marine Offices Refinery (Kent) Limited, Isle of Grain, Nr. Rochester, Kent. Telephone No. 0634–29 235. Telex No. 96187 Hurst Grain.

## LARNE: 54.51 N. 05.48 W.

**DOCUMENTS:** See "Belfast".

**PILOTAGE:** Not compulsory, though private pilots operate are engaged by ship's Agent. Pilots board off Fairway Buoy. VHF. Channels 16 and 14.

**ANCHORAGES:** Inner anchorage in Larne depth up to 5 fath Anchorage outside Fairway Buoy exposed in N.E. winds.

**MAX. SIZE:** Draught dependent on berth but maximum 19 f MLWS, and 20 ft. at MLWN. Oil tankers proceed to Ballylum Power Station which lies across Larne Lough directly oppo Larne Harbour. Approach channel has depth of 30 ft. at MLWS berth has 35 ft. at MLWS.

**HEALTH:** See "Belfast".
**RADIO:** Portpatrick.
**TUGS:** Not based at Larne, only heavy-duty motor launches, suitable for small vessels. As a rule tugs are not required for vessels using Larne Harbour.
**BERTHING:** Two berths are equipped with two 5-ton cranes for grabbing and general cargo work. Five berths are equipped with cranes from 25 to 35-ton capacity for handling containers. Three berths are equipped with roll-on/roll-off ramps, capable of taking loads up to 160 tons and ships up to 70 ft. beam.
**STEVEDORES:** Larne Harbour Ltd. carry out all the stevedoring. Twenty-four hours notice required for arrangements.
**MEDICAL:** No advance notice required for medical attention, a hospital being situated $\frac{3}{4}$ mile from harbour. No special inoculations or certificates required.
**TANKERS:** One tanker berth in Larne Harbour. Depth alongside, 14 ft. below datum. Maximum length of vessel 260 ft. Pipe diameter 6 in. Discharging only. For Ballylumford, see "Max. Size".
**DENSITY:** 1025.
**FRESH WATER:** Unlimited by shore hose. Rate 7 to 10 tons per hour.
**FUEL:** Fueling carried out by road tanker. Arrangements to be made through ship's Agent.
**GANGWAY/DECK WATCHMEN:** Agents arrange watchmen.
**OPENING/CLOSING HATCHES:** Performed by crew.
**CUSTOMS ALLOWANCES:** Agents arrange with Customs.
**IDENTIFICATION CARDS:** Not required.
**CONSULS:** Norwegian Vice-Consul (C. S. Brown, F.I.C.S.) – Larne 2227. Other consuls in Belfast can be contacted through ship's Agent.
**REPAIRS:** Limited repairs by local firms. Major repairs by Belfast firms.
**REPATRIATION:** Yes.
**AIRPORT:** Twenty miles. Regular flights.
**HOLIDAYS:** 12th and 13th July, Easter Monday and Tuesday, Christmas Day and Boxing Day. No cargo worked on these days.
**POLICE/FIRE/AMBULANCE:** Dial 999 and ask for Emergency service required.
**TELEPHONES:** Only on Cross Channel vessels.
**AUTHORITY:** Larne Harbour Ltd., Larne Co. Antrim, N. Ireland. Tel. Larne 2604, 3110.

## LEITH: 55.59 N. 03.10 W.

**DOCUMENTS:**
Health Declaration.
1 Crew Declaration Form C.142 (Tobacco List).
1 Crew List.
1 Passenger List.
(Also see "Glasgow".)
**PILOTAGE:** Pilot station in Firth of Forth located at Inchkeith Island. Contact can be made with pilot cutters "Panther" and "Gazelle" on VHF Channels 16/14/12 and radio-telephone 2182. Pilot cutters – black hull with white superstructure.
**ANCHORAGES:** Good holding ground at Inchkeith Island and Leith roadstead depths 10–17 fathoms.
**RESTRICTIONS:** None. Vessels can enter harbour day or night.
**MAX. SIZE:** Governed by draft of vessels. Maximum permissible draft alongside in Imperial Dock 30 ft. and in Western Harbour 32 ft.
**HEALTH:** Vessel boarded immediately alongside berth and pratique granted provided no contagious diseases reported on board, otherwise quarantine restrictions imposed.

Foreign arrivals to complete Maritime Declaration of Health. They are cleared immediately on arrival by either a port doctor or an officer of H.M. Customs, depending on where the ship comes from and whether there is sickness on board.

Vessels arriving from ports within accepted area (N European ports) and coastal arrivals need not present Declaration. In all cases when there is sickness on board the Port Health Authority must be informed preferably not more than 12 hours and not less than 4 hours before arrival.
**RADIO:** Stonehaven and Cullercoats Radio Stations.
**TUGS:** Attend inward-bound vessels in Leith roads. Tug's towline available but not compulsory.
**BERTHING:** Vessels arriving on maximum permissible drafts of 30 and 32 ft. normally docked by Pilots $1\frac{1}{2}$ hours before high water.
**STEVEDORES:** ETA advices given by Master to ship's Agent and conveyed by them to stevedores.
**RADAR/VHF:** No port radar service. VHF contact can be made with Leith Harbour Radio on Channels 16 and 12.
**MEDICAL:** No advance notice of medical attention required. All hospital facilities available.
**TANKERS:** One tanker berth available – maximum permissible draft 30–31 ft. Discharge lines 6 in. and 8 in. No slop discharge facilities.
**DENSITY:** 1015.
**FRESH WATER:** Available alongside at all berths.
**FUEL:** All grades available subject 24 hours notice in advance.
**DEVELOPMENTS:** None envisaged at present.
**GANGWAY/DECK WATCHMEN:** Usually supplied by ship but shore watchmen arrangeable by special agreement.
**OPENING/CLOSING HATCHES:** Custom of the port is that this work is normally carried out by ship's crew.
**CERTIFICATES:**
Ship's Register.
Load-line.
Safety Radio.
Safety Equipment.
Cargo Construction.
Deratisation Certificates.
Light Dues receipt.
**CUSTOMS ALLOWANCES:** Two hundred cigarettes in an opened carton or $\frac{1}{2}$ lb cigars or $\frac{1}{2}$ lb tobacco and one pint spirits.
**CARGO GEAR:** No additional requirements necessary to comply fully with local safety regulations as all gear supplied by stevedores.
**IDENTIFICATION CARDS:** Not required.
**CONSULS:**
U.S.A.: 3 Regent Terrace, Edinburgh. Tel. 031–556–2061.
West Germany: 16 Eglinton Crescent, Edinburgh. Tel. 031–337–2323.
Netherlands: 64 Commercial Street,. Leith. Tel. 031–554–1621.
Spain: 100 Constitution Street, Leith. Tel. 031–554–5641.
Finland: 29 Bernard Street, Leith. Tel. 031–554–4311.
Greece: 7 Regent Terrace, Edinburgh. Tel. 031–556–1701.
**REPAIRS:** Facilities available to carry out all types of deck and engine repairs.
**DRY DOCKS:** Largest dry dock "Imperial", length 550 ft., width of entrance 70 ft., depth over blocks at MHWS 23 ft. 9 in. also three smaller dry docks.
**REPATRIATION:** All facilities available for effecting crew changes and repatriation by sea, air and rail.
**AIRPORT:** Edinburgh Airport served by regular airlines and located approximately 9 miles from Leith.
**TIME:** British Standard Time, GMT plus 1 hour. GMT in Winter months.
**HOLIDAYS:** Public holidays observed annually: third Monday in April; first Monday in June; third Monday in September; Christmas Day (25th December); 1st and 2nd January. Cargo work can be arranged on all public holidays except 1st and 2nd January.
**POLICE/AMBULANCE/FIRE:** Tel. 999 and ask for service required.
**TELEPHONES:** No facilities available for placing telephones on board vessels.
**SERVICES:** Compass adjusting facilities available.
**SHORE LEAVE:** No restrictions.
**DELAYS:** Minimal delays in berthing, loading and discharging.
**AUTHORITY:** Forth Ports Authority.

## LERWICK: 60.09 N. 01.11 W.

**PORT LIMITS:** Line drawn from Knab Point to Ham, Bressay.
**DOCUMENTS:** See "London".
**PILOTAGE:** *Pilot Office:* At foot of Victoria Pier in Harbour Master's office. Lat. 60.09′ N., Long. 1.08′ W.

*Call Sign:* Lerwick Harbour Radio.

*Frequencies:* Calling: VHF Channel 16. Working: VHF Channel 12. Pilot Cutter: VHF Channels 6, 11, 12 and 16.

*Port Control:* Fitted with VHF Channels 11, 12 and 16. Continuous watch is maintained 24 hours per day, seven days per week on Channel 16 except when working vessels on Channel 12.

*Procedure:* The Pilot Office controls the movement of all vessels arriving or departing by either entrance and all movement within the harbour from public or private quays or supply bases, whether such vessels are under the control of Pilots or not.

(*a*) Vessels requiring pilotage should arrange with Agent not less than 24 hours before arrival. Vessels without Agent should contact Lerwick Harbour Master through Coast Radio Stations not less than 24 hours before arrival. Vessels leaving ports less than 24 hours steaming away should advise time of sailing, projected speed and ETA at time of leaving last Port. Vessels inward from Continental Shelf should advise time of leaving location, projected speed and ETA at time of leaving last location. Amended ETA's should be advised 2 hours before the time given in the last transmitted ETA. VHF contact should be made with Lerwick Harbour Radio while still 1 hour away when final pilotage and berthing arrangements will be made. Port Control cannot guarantee a Pilot on station unless 1 hour's notice is given.

(*b*) ETA messages should also contain information on which harbour entrance is to be used, draft and length overall. Vessels entering by the South entrance will be boarded West of Kirkabister Lighthouse or near Knab Point if weather conditions are unsuitable. Vessels entering by the North entrance will be boarded abeam of the Green Holm and one half mile N.E. of Beosetter Holm. If boarding conditions in this area are unsuitable the South entrance must be used.

(*c*) Pilot Cutter M.V. *Bard* is a 60 ft. converted wooden MFV. Black hull with large, white letter "P" on each bow, white upperworks and varnished wheelhouse. International pilotage signals are in use.

(*d*) Outward vessels should call the Port Control 1 hour before departure when information on traffic movement will be given and arrangements for pilotage will be made. When moving within the harbour all vessels should maintain a continuous listening watch on Channel 16. All vessels moving within the harbour should report to the Port Control immediately prior to leaving the berth or anchorage, whether a Pilot is on board or not.

(*e*) Pilotage within Lerwick Harbour is compulsory, but all vessels not carrying passengers are exempt.

(*f*) Telephone number of Lerwick Harbour Master and Pilot Station is Lerwick 3462.
**ANCHORAGE:** Ample anchorages in harbour roads.
**MAX. SIZE:** Vessels up to 20 ft. draft and 320 ft. long alongside berth; much larger vessels at anchorage.

**RADIO:** Wick Radio. Lerwick harbour radio VHF operating in office hours.
**BERTHING:** Berths are available for the discharge of bulk cargoes, such as coal, grain, fertiliser, etc., by grab. At present no container or roll-on/roll-off facilities exist, but these are planned and it is hoped will be in operation by 1975. No berths available for handling liquid chemicals. Mobile cranes available with lifting capacity up to 30 tons.
**TUGS:** No tugs available but pilot cutter will give towage assistance within her capabilities.
**STEVEDORES:** Arranged through Agent.
**MEDICAL:** Medical aid can be arranged through Agent or Harbour Master at any time day or night.
**TANKERS:** Shell Oil have their own discharging berth.
**DENSITY:** Density 1025 at all states of tide.
**FRESH WATER:** Available at all berths, 65 to 100 tons delivery per hour. No water boat.
**FUEL:** Gas oil available on demand.
**FIRE PRECAUTIONS:** Non-smoking regulations in operation inside all transit sheds and at oil berth.
**GANGWAY/DECK WATCHMEN:** Ships usually supply own watchmen. No fixed sum if shore watchman is employed.
**OPENING/CLOSING HATCHES:** Crew opens hatches.
**CUSTOMS ALLOWANCE:** Tobacco, wine/spirits; at the discretion of the Customs and Excise.
**IDENTIFICATION CARDS:** Foreign seamen have to supply same if left behind, i.e. hospital, etc.
**CONSULS:**

| | |
|---|---|
| Denmark, | Lerwick 34 |
| Finland (Vice), | Lerwick 1057 |
| France (Consular Agent), | Lerwick 1057<br>House 1060 |

| Netherlands (Vice), | Lerwick 1057<br>House 57 |
| Norway, | Lerwick 1057<br>House 57 |
| Sweden (Vice), | Lerwick 56 |

**REPAIRS:** Repairs to fishing vessels and other small craft.
**DRY DOCKS:** No dry dock available, slip available to take small vessels up to 100 tons d.w.
**REPATRIATION:** Facilities exist.
**AIRPORT:** 25 miles to airport. Two services per day in summer, one in winter, operated by BEA.
**HOLIDAYS:** Scottish holidays. Working can be arranged on these days if so desired.
**POLICE/AMBULANCE/FIRE:** Police, Lerwick 10; Ambulance, Lerwick 751; Fire, Lerwick 318.
**TELEPHONE:** Ships telephones can be arranged.
**SERVICES:** No tank-cleaning equipment. Compass adjuster can be procured if necessary.
**SHORE LEAVE:** No restrictions.
**AUTHORITY:** Lerwick Harbour Trust, 1 and 2 Alexandra Buildings, Lerwick. Tel. Lerwick 191, or Harbour Master, Lerwick 3462; night or day.

## LIVERPOOL: 53.32 N. 03.19 W. (See Plan)

**DOCUMENTS:** Required on arrival, Crew List Form I.B.6 to be completed; this list to include all passengers and any British subjects who joined vessel outside of U.K. If any person falling into this category should be on board they must not leave until permission to land is granted by Immigration Officer.

Customs Form C.142, Declaration of goods obtained abroad or during a voyage, must be completed and signed by Master, and each crew member. Health Declaration must be completed. Above forms should be obtained from Pilot.

Manifest and Bills of Lading should be forwarded to vessel's Agent so as to be available before vessels arrival.

*Ship's Papers Required:*

Ship's Register.
Certificate for British Tonnage (if issued).
Safety Equipment Certificate.
Safety Radio Certificate.
Safety Construction Certificate.
International Load-line Certificate.
Derating Exemption Certificate.

**PILOTAGE:** At least 48 hours before arrival, inward vessels should give ETA Lynas/Mersey Bar to Agent. Agent will then arrange docking and advise Pilot Office, the Master will receive radio giving final docking instructions.

*Pilot Station.* Vessels arriving from South should take Pilot on board at Point Lynas, Pilot Station 1, which shall extend between imaginary lines drawn on the true bearing of North and South from Middle Mouse Island and on the true bearing of North from the Great Ormes Head.

Vessels arriving from North should take Pilot at Mersey Bar Pilot Station 2, which shall extend between imaginary lines drawn on the true bearing of North from the Great Ormes Head on the true bearing of North and South from the Bar Light-float, at the entrance to the principal buoyed channel leading to the Mersey.

| *VHF Channel* | *Call Sign* | *Channel* | *Frequency M/cs* |
|---|---|---|---|
| Point Lynas Station | Lynas Pilot | 16 | 156.80 |
| Mersey Bar Station | Bar Pilot | 6 | 156.30 |

Description of Pilot Boats. Black top sides with 2 in. yellow ribbon and white boot topping to water line. Yellow funnel with black top. The name "Liverpool Pilot" painted on each side.

In heavy weather if Master of the pilot boat considers it imprudent to send a launch to put a Pilot on board an incoming vessel, he will hoist signals to that effect. At night he will signal, viz. a red pyrotechnic light shown simultaneously with the flare-up light.
**ANCHORAGES:** In the event of berths not being readily available for vessels, normally they must wait at the Mersey Bar Anchorage which is in the open roadstead. There are river anchorages, but these are only usually for vessels about to enter the dock system.
**RESTRICTIONS:** No restrictions on night entry, tidal restrictions depend on vessel's draft and to which berth vessel proceeding, larger vessels usually have to wait for high water.
**MAX. SIZE:** Tranmere: up to 48 ft. (14·6 m.) draft dependent on tide. Birkenhead: up to 29 ft. (8·8 m.) draft. Liverpool Docks: up to 40 ft. (12·2 m.) draft.

Seaforth Dock: 50 ft. (15·2 m.) of water depth, up to 75,000 tons dwt.
**HEALTH:** Maritime Declaration of Health Form must be completed and handed to Customs Officer or Port Health Officer, whoever first boards ship. This form is obtainable from Pilot. In event of any suspected disease or fever on board, or if ship has called during last 4 weeks at any port in Brazil, China, Indo-China, India, Pakistan, Burma, Columbia and the port of Dar-es-Salaam, West African ports between latitude 20° North and 20° South, the Master should, prior to entering port, make radio contact with Liverpool Port Health Authority, via Anglesey Radio or port radar station (Signal "Portelth Liverpool") giving them following information:

1. Name of Ship. 2. Date of departure from and name of last infected port. 3. Number, ages and sex of any cases of infectious diseases or other relevant information. 4. Expected time of arrival at Rock Light. Before reaching the Rock Light if medical clearance has not been obtained the following signal must be displayed: by day – fly the flag signal "Z W". By night – show red light over white light.

When medical clearance is obtained pratique will be issued at discretion of Customs Officer.

If there is no suspected disease on board and vessel has not called at any of the above ports listed, Master can radio for Free Pratique. Unless otherwise instructed, Customs Officer will again issue pratique.

Vessels arriving from another U.K. port do not require pratique or health clearance.
**RADIO:** Portishead Radio, call sign: GKL; Landsend Radio, call sign: GDL; Wick Radio, call sign: GKR; but on approaching Liverpool, the local radio station is Anglesey Radio, call sign: GLV.
**RADAR/VHF:** The port radar service extends seaward over Liverpool Bay for radius of 20 miles from the station and in the River Mersey as far South as Eastham. Continuous R/T watch is maintained. Calling Channels:

| *Station* | *Call Sign* | *Hague Channel Number* | *Frequency M/cs.* | *Remarks* |
|---|---|---|---|---|
| Liverpool Port Radar Station | Mersey Radio | 16 | 156·80 | Calling and safety |
| | | 12 | 156·60 | Port operations, general |
| | | 18 | 156·90<br>161·50 | |
| | | 22 | 157·10<br>161·70 | Port operations, radar information and general |

A continuous watch is maintained on all channels at Port Radar Station.
**TUGS:** Join vessel after passing Rock Light. Normally use tug's lines but optional. Charge for tug's hawsers.
**STEVEDORES:** Earliest possible ETA to be given to arrange gangs.
**MEDICAL:** If doctor is required to attend immediately on arrival of vessel, prior notice will be required, but generally doctor is arranged for most convenient time after vessel's arrival. All seamen should be vaccinated against smallpox.

Hospitalisation is available, but seamen will only be admitted if immediate treatment is required. It is preferred for foreign seamen requiring hospital treatment to be repatriated, if able to travel.

Dentist available by appointment only.
**BULK HANDLING FACILITIES:** Seaforth Grain Terminal designed to accommodate up to 75,000 tons dwt. vessels, length 850 ft. Max. draft 42 ft. Discharge capacity up to 2,000 tons per hour. Two marine towers with storage for 100,000 tons.

The container terminal at Seaforth Dock provides four berths each 900 ft. in length, max. draft 42 ft. Equipment includes fi container cranes and 24 straddle carriers.

Four berths equipped for container handling provided on North side of Seaforth Dock. Each length 900 ft. depth 42 ft.

Bulk handling of sugar at North side, Huskisson Branch Dock No. 3. Two berths each equipped with four grab cranes delivering direct to conveyors.

Iron ore is handled at North Bidston Dock. This berth has a quay frontage of over 1,000 ft. and can accommodate vessels of 29 ft. draft. There are three transporters, each with an hourly free digging capacity of 350 tons which discharge either into road or rail vehicles via 175-ton hoppers, or into coasters or barges.

At Cavendish Quay there are two 20-ton cargo level luffing cranes with a grabbing capacity of 15 tons. Each crane is designed to handle up to 450 tons per hour. The loading of bulk materials in either road or rail wagons is speeded up by the use of two 100-ton capacity mobile weigh hoppers.

Duke Street Wharf also has specialised facilities for the handling of these commodities. There are four 7½-ton electric level luffing cranes, each with a lifting speed of 250 ft. per minute. There is good road access to this berth where vessels drawing up to 28½ ft. can be accommodated.

Packaged forest products are handled at two adjacent berths at Seaforth with a combined quay length of 1,400 ft. with a back-up area of 18 acres which includes approximately 15 acres for timber stacking with a timber-storage barn. An overflow berth is provided at North 3 Canada Dock.

Meat is handled at the following berths: North 2 Alexandra, South West Canada, and South No. 2 Seaforth. Seaforth meat terminal, with an 800 ft. quay, can handle the largest refrigerated ships in commission.

There are six berths in the port with roll-on/roll-off facilities, namely South No. 3 Seaforth, North Carriers Dock, the B and I Terminal, Princes Dock, Nelson Dock and North 3 Canada.

*Birkenhead:* East Tower grain berth can accommodate vessels up to 630 ft. length, max. draft 29 ft. 6 in.

Buchanans Mill, max. length 475 ft.* draft 28 ft. 6 in.; Ranks Mill, max. length 475 ft.* draft 28 ft. 6 in.; Spillers Mill, max. length 450 ft.* draft 28 ft. 6 in.

* Up to 500 ft. by special arrangement.

**TANKERS:** Oil tanker cleaning and slops discharging may be carried out at Rock Ferry Tanker Cleaning Jetty.

*Tranmere South Stage* – Capable of accommodating tankers up to 100,000 tons deadweight, maximum draft 40–48 ft. (12·20–14·60 m.), depending on height of tide.

*Tranmere North Stage* – Capable of accommodating tankers up to 200,000 tons deadweight after lightening to 140,000 tons, maximum 48 ft. (14·60 m.) at high water.

*Dingle Tanker Buoys* – River mooring for tankers of 20,000 tons dwt.

*Queen Elizabeth II Dock, Eastham* – 4 berths – can take vessels of 28,000 tonnage dependent on height tide and vessels dimensions. (See "Manchester".)

**DENSITY:** River Mersey salt water. Docks approximately 1020.

**FRESH WATER:** Available at all berths, ex quay. No water barges available. Rate of delivery 15–20 tons per hour.

**FUEL:** Most major oil companies are represented and can supply range of fuels of various viscosities. Notice required depends on the berth at which vessel is lying as bunkers are supplied ex lighter at most berths. Notice required can vary depending on availability of barges, but generally at least three to four days notice is required.

**FIRE PRECAUTIONS:** Tankers may not carry out repairs whilst at discharging berth unless permission is obtained from Harbour Authorities. Fire precautions notice is placed on board by Harbour Authorities.

**GANGWAY/DECK WATCHMEN:** Watchmen not necessary but available if required.

**OPENING/CLOSING HATCHES:** Carried out by ship's crew for bulk cargoes and by stevedores for general cargoes.

**SHIP'S CERTIFICATES**

Register/Certificate of Measurement.
Certificate of British Tonnage (if issued).
Safety Radio Certificate.
Safety Construction Certificate.
Safety Equipment Certificate.
Load-line Certificate.
Derating Certificate.
Cargo Gear Test Certificates.

**CUSTOMS ALLOWANCES:** Crew members who remain on vessel during vessel's stay in port may be allowed, under certain conditions, to keep for their own use on board small quantities of any tobacco, spirits and other goods declared on Customs Form C.142. The amount allowed depends on the number of days the vessel is in port.

**CARGO GEAR:** Cargo Gear Certificates must be produced with the necessary up-to-date endorsement.

**IDENTIFICATION CARDS:** Not required.

**CONSULS:** The following countries have representatives in Liverpool:

Argentina
Belgium
Bolivia
Brazil
Chile
Colombia
Denmark
Dominican Republic
Ecuador
El Salvador
Finland
France
Germany
Greece
Haiti
Iceland
Italy
Japan
Liberia
Netherlands
Norway
Panama
Paraguay
Peru
Philippines
Portugal
Spain
Sweden
Thailand
Uruguay
U.S.A.
Venezuela

**REPAIRS:** All types of deck and engine repairs can be carried out.

**DRY DOCKS:** Largest – length 950 ft.×140 ft. Also 27 smaller dry docks.

**REPATRIATION:** Can be effected, but must be arranged through Agent, so that Immigration clearance can be arranged.

**AIRPORT:** City Centre to Airport approximately 7 miles, regular service to London for international connections.

**TIME:** British Standard Time, which is one hour in advance of Greenwich Mean Time, reverting to GMT in Winter months.

**HOLIDAYS:** Good Friday; Easter Monday (alterable); last Monday in May; last Monday in August or first Monday in September, whichever may be closest to August 31st. December 25th–26th. Weekly holidays Saturday, Sunday. Cargo can be worked on official holidays, other than 25th–26th December, also arrangements can be made for cargo to be worked on Sundays.

**POLICE/AMBULANCE/FIRE:** Telephone 999, ask for service required.

**TELEPHONES:** A temporary telephone can be placed on board a vessel, at most berths, whilst in port.

**SERVICES:** Tanker cleaning and slops services at Rock Ferry Tanker Cleaning Berth. Compass adjusting, D.F. Calibration can be arranged.

**SHORE LEAVE:** All bona vide crew members may be granted temporary shore leave during the vessel's stay in port, on condition that they leave in the same ship. This permission does not apply to any alien member of the crew who is refused leave to land by an Immigration Officer, or to whom an Immigration Officer has given notice prohibiting him from landing without leave.

**AUTHORITY:** Mersey Docks and Harbour Company.

**AGENT:** Lambert Brothers (Shipping) Ltd., Peel House, 5 Harrington Street, Liverpool, L2, OQQ. Tel. 051-236 7206 and 051-236 3644. Telex: 62510. Cables "Lambert Liverpool".

## LONDON and Thames District: 51.30 N. 0.05 W. (See Plan)

**PORT LIMITS:** The seaward limit means lines drawn from 51° 37′ 00″ N. 00° 57′ 19″ E. (Foulness Point in the county of Essex) to 51° 46′ 05″ N. 01° 20′ 32″ E. (Gunfleet old Lighthouse) and thence to 51° 26′ 36″ N. 01° 25′ 30″ E. and thence to 51° 24′ 55″ N. 00° 54′ 21″ E. (Warden Point in county of Kent).

An arrived ship is considered (subject to Charter Party terms) to have arrived when vessel is instructed to anchor at a designated anchorage, as ordered by the Port Authority, if berth where vessel's operations are to be carried out is not available. Otherwise when vessel is alongside. Usual anchorage for larger vessels is below Southend, which is allocated to vessels by the Port Authority.

**DOCUMENTS:**

1 copy of HM Customs and Excise form C.142 to be completed showing each crew members declaration as to the amount of cigarettes, tobacco, spirits, wine, radios, lighters, etc, belonging to them on board the ship to enable Customs to ascertain if in conformity or excess of requirements.
1 copy of HM Immigration Office (pink form) showing Master's declaration of crew members on board.
1 copy of List of Passengers on board, showing names, place of joining vessel, passport details.
Ship's Register to be available for inspection on arrival.
List of space occupied by cargo in unregistered space.
Chief Engineer's declaration as to the quantity of fuel carried in double bottom tanks.
Details of any livestock on board.
Ship's Stores declaration arrival Form C14 to be completed.
Details of previous ports of call.

**PILOTAGE:** Pilotage by licensed Pilots in London pilotage district is compulsory unless previous exemption is granted.

Vessels approaching from South enter the pilotage area off Folkestone Harbour position (lat. 51° 04′ 37″ N. long. 01° 11′ 21″ E.).

Vessels approaching from the North collect the Pilot at Sunk Pilot Cutter which operates in the vicinity of the Sunk Light Vessel off Harwich. Also see "Harwich".

*Radio Communication – General:* The maximum range for radio messages is about 20 miles for VHF. The shore pilot stations and shore based fast launches operate on VHF only.

Attempts to establish communication at extreme ranges cause much unnecessary interference. The first estimated time of arrival should be sent through a Post Office Coast Station giving at least one hours' notice of the ETA. Anything less than one hour's notice *must* involve ships in delay. The maximum range for MF radio messages is about 50 miles.

Ships should if possible remain in direct radio contact with the pilot launch or pilot vessel on their approach, as this facilitates shipping the Pilot.

FOLKESTONE PILOT STATION

Pilot launches, with black hulls and white wheelhouses and flying the pilot flag, operate from a shore station at Folkestone to provide Pilots for ships making the port of London and other ports in the London Pilotage District and to disembark Pilots from outward-bound ships. The conspicuous building is 77 ft. high and flies a pilot flag by day; by night it displays an illuminated sign with the word "Pilots". The launches normally ship and land Pilots in a position 225° distant one mile from Folkestone Pier Light in fine weather but farther off in bad weather.

A shore VHF station is maintained at Folkestone (lat. 51° 04′ 37″ N. long. 01° 11′ 26″ E.), and all requests to ship and land Pilots off Folkestone should be made to it.

*Ships requiring a Pilot at the Folkestone Station should give the shore station, 12 hours in advance and through a Post Office Coast Station, their estimated time of arrival, gross tonnage, maximum draft and port of destination. Any adjustment to this time should be given at least two hours before arrival. The message should be addressed to "Pilots Folkestone".*

The following Channels are in use by Folkestone Shore VHF station (call sign "Folkestone Pilots Radio"):

*Channel 16 (Calling):* A 24 hour listening watch is kept on this Channel, and ships should make contact on it.

*Channel 9 (Working):* After initial contact has been made on Channel 16, a transfer should be made to Channel 9 for the exchange of operational messages. It is stressed that the shore station has no other working frequency and that ships wishing to communicate with it must have Channel 9 fitted.

Masters of ships approaching Folkestone are advised to maintain a listening watch on Channel 16 so that they can receive any messages for their ships from the pilot station.

Masters are warned that it is difficult to receive VHF signals from Folkestone when their ships are to the westward of Dungeness owing to the presence of very large buildings.

The station is manned by a duty Pilot and is equipped with telex, telephone, radar and a daylight signalling lamp. The communications details are:

Tel. Folkestone (code 0303) 56766.
Telex 96381, Pilots Folkestn.
Telegraphic address "Pilots Folkestone".

Ships without VHF should send any amendment of their ETA in sufficient time to allow its delivery through the Post Office telex network. Ships without VHF should also establish their identity by visual means during their final approach.

### N.E. SPIT

Ships bound to or from ports between Amsterdam and Dieppe inclusive may land or ship their Pilots by means of a pilot launch which operates as required, but does not cruise, in the vicinity of the North-east Spit Buoy, but it is emphasised that ships from beyond these two ports or bound to ports beyond them are required to ship or land their Pilots at the Sunk or Folkestone pilot stations.

A shore VHF station operates from North Foreland Lighthouse (51° 22′ 27″ N., 01° 26′ 49″ E.) which is linked by land-line to the pilot station at Folkestone. The call sign is "Margate Pilots Radio" and the only Channel available is Channel 9. A 24-hour listening watch is kept on this Channel.

Advance notification of ships requiring services of a Pilot at the North East Spit should now be given 6 hours beforehand through a Post Office Coast Station, addressed "Pilots Folkestone", or by telephone to Folkestone (code 0303) 56766 or telex 96381.

"Margate Pilots Radio" should then be contacted when within VHF range.

There is a Reserve radio station, call sign "Margate Roads Pilots Radio" situated at Margate Pier Head (lat. 51° 23′ 40″ N., long. 01° 22′ 54″ E.) with Channel 9 which should be used if ships are unable to contact the main transmitter at North Foreland Lighthouse.

Communication with Margate pilot launch may be made on Channel 9 VHF. A ship about to ship or land her Pilot should keep in radio contact with the pilot launch.

Ships without VHF should send their ETA or any subsequent amendment in sufficient time to allow its delivery through the Post Office telex network.

It is emphasised that in bad weather the pilot launches operating from Margate have difficulty in working and therefore in providing a fast and prompt service.

### RIVER MEDWAY

Messages for the Medway Pilots may be passed through the launches of the Medway Ports Authority, call sign "Medway Patrol". They keep a continuous watch on 2,182 kHz.

Ships bound for the River Medway are requested to call on 2,182 kHz., when 20 to 30 miles from Sheerness, stating their estimated time of arrival, requirements and draft. When contact has been made on 2,182 kHz ships should transfer to 2,241, 2,246 or 2,301 kHz or other licensed intership frequency for passing messages. Ships may also call the Medway Port Operations Service, call sign Medway Radio, when within 20 miles of Sheerness, on VHF Channel 16, transferring to Channel 14 for passing messages.

Sea Pilot leaves vessel at Gravesend when River Pilot boards for final river passage.

### PROCEDURE FOR OBTAINING THE SERVICES OF A LICENSED TRINITY HOUSE CHANNEL PILOT

*Ships outward bound from above Gravesend:* Masters are requested to give advance notice of estimated time of arrival at Gravesend. Masters of ships fitted with VHF may pass this information direct to Gravesend Radio on the appropriate Port Operations Channel.

Channel Pilots for outward-bound ships are obtainable only from the Royal Terrace Pier, Gravesend, from where they board ships by means of black-painted pilot vessels flying the pilot flag, in response to the statutory signals or a VHF message to Gravesend Radio. In thick or foggy weather one prolonged blast followed by four short blasts should be sounded by means of a whistle or fog horn or a VHF message should be sent to Gravesend Radio.

In addition to the above, the following signals should be displayed:

| *Ship's gross registered tonnage* | *By day*<br>*International Code pendant* | *By night*<br>*White lights* |
|---|---|---|
| Not exceeding 2,000 | – | 1 over the starboard bow |
| Exceeding 2,000 but not exceeding 6,000 | 3 | 1 over the bridge |
| Exceeding 6,000 but not exceeding 12,000 | 2 | 1 over the starboard bow and 1 over the bridge |
| Exceeding 12,000 | 1 | 1 over the starboard bow |

*Ships outward bound from below Gravesend or shifting between the Nore or Sheerness and Gravesend:* When the services of a Channel Pilot are required for shifting a ship inwards between the Nore and Sheerness and Gravesend, or for conducting a ship outwards from below Gravesend, a telephone message should be sent to the Channel Pilots, tel. Gravesend (0474) 3619, stating Name of ship. Time and place at which Pilot is required to join ship. Where bound. Ship's gross tonnage. Ship's draft.

It is particularly stressed that the Pilot must be given adequate time to travel from Gravesend to the ship for her time of sailing, and that allowance must be made for the slowness of night travel and the Inaccessibility of some wharves and moorings.

### PROCEDURE FOR OBTAINING THE SERVICES OF A LICENSED TRINITY HOUSE RIVER THAMES PILOT

*Duty Pilot:* A Trinity House River Thames Duty Pilot is available in the Information Room at the Gravesend pilot station. He can be contacted by telex (Pilot Gravesend 96444) or by telephone Gravesend (0474) 67716/7. Among his duties is the provision of information to Shipowners and Agents, and the Duty Pilot will be pleased to give advice and guidance on the pilotage of ships in the River. The Duty Pilot is in continuous touch with the Duty Officer of the Thames Navigation Service.

*Ships outward bound or shifting:* When the services of a Trinity House River Thames Pilot are required for piloting a ship down river to Gravesend, or for shifting a ship in the river above Gravesend, a telex message should be sent to Pilot Gravesend 96444. If the message cannot be passed by telex the same information should be given by telephoning Gravesend (0474) 67716/7.

The telex message must start with the word "Pilot" to show that it is an order for a Pilot, and to be consistent with other information now received at the pilot station by telex, should be in the following form:

1. *Order for Pilot.* The word "Pilot should be used to show that it is an order for a Trinity House Pilot rather than general information on expected movement. This should be on a separate line from the other information.
2. *Time Pilot required.* This should be expressed as a time on the 24-hour clock followed by a date, e.g. 1035/15 or 2215/16.
3. *Ship's Name.*
4. *Draft.* This should be given in feet.
5. *Berth where lying.* If a shift is required the shift should be shown as "FM Smiths WHF to Jones WHF". If one location is given this is the place where the ship is lying and where the Pilot is required. The abbreviation FM (From) should precede the place where the ship is lying in all messages.
6. *Route or where is bound.* This should state N., S., or E. to show where ship is bound, i.e. N. for ships outward bound to the North, S. for ships outward bound to the South, and E. for ships outward bound to near continental ports between Amsterdam and Dieppe. If an outward Channel Pilot is required the letter P should be added so that it reads NP, SP or EP.
7. *Name of Owner or Agent.*

The message should start with the heading of "Pilot" and should continue as follows:

| *Time* | *Ship* | *Draft* | *Berth* | *Route* | *Agent* |
|---|---|---|---|---|---|
| 2030/15 | *Tasman* | 13 | FM Robinsons WHF | S | E. Wright |
| 0010/16 | *British Isles* | 18·5 | FM Hightown Tier | NP | Despatch Co. |
| 0830/17 | *Nicola* | 14 | FM Black Bys to Spring WHF | | Noel S.S. Co. |

It is particularly stressed that the Pilot must be given adequate time to travel from Gravesend to the ship for her time of sailing, and that allowance must be made for the slowness of night travel and the inaccessibility of some wharves and moorings. Normally a minimum of 3 hours is required.

*Inwardbound ships:* It is most important that all inward bound ships notify their estimated time of arrival at Gravesend and keep this information up to date. An estimated time of arrival should be given by using the Post Office public correspondence service through North Foreland Radio at least three hours before arrival at Gravesend and preferably immediately after the embarkation of the Sea Pilot. When in VHF range this information may be passed direct to Gravesend Radio on the appropriate port operations channel. In addition the following supplementary information should be communicated: draft, and, if known, berth and name of Agents.

Trinity House River Thames Pilots for inward-bound ships are obtainable only from the Royal Terrace Pier, Gravesend, from where they board ships, by means of black-painted pilot vessels flying the pilot flag, in response to the statutory signals or a VHF message to Gravesend Radio. In thick or foggy weather the letter "G" in Morse code should be sounded by means of a whistle or fog horn or a VHF message should be sent to Gravesend Radio.

*Table of Abbreviations:* Abbreviations used in this notice are:

FM = From. WHF = Wharf. N = The route of an outward ship is to the North. S = the route of an outward ship is to the South. E = the route of an outward ship is to a near continental port between Amsterdam and Dieppe. NP = The route of an outward ship is to the North and she requires a Channel Pilot. SP = The route of an outward ship is to the South and she requires a Channel Pilot. EP = The route of an outward ship is to the East and she requires a Channel Pilot. Bys = Buoys.

*Pilot Ladders:* Instances of the use of unsatisfactory and unsafe pilot ladders continue to be reported by Trinity House Pilots.

Faulty ladders endanger the lives of Pilots.

Instructions have been issued to all Trinity House Pilots to report immediately any pilot ladders which do not comply strictly with the provisions of the Merchant Shipping (Pilot Ladders) Rules 19 the Merchant Shipping (Pilot Ladders) (Amendment) Rules 19 and the Merchant Shipping (Pilot Ladders) (Amendment) Rules 19

Masters of ships are reminded of their obligation to comply with the statutory rules and are requested also to comply with the following Trinity House recommendations, ensuring that:

1. The Officer responsible for the embarkation and disembarkation of the Pilot is a Watch-keeping Deck Officer.
2. The ladder is in one length and does not consist of two or more lengths shackled or lashed together.
3. The ladder is secure.
4. The ladder is used solely for embarking and disembarking Pilots.
5. A light is provided so that the pilot ladder overside and also the position where the Pilot boards the ship is adequately lit.
6. The ladder is clean and free from oil and grease.
7. Means are provided to enable the Pilot to pass safely and conveniently from the head of the ladder into the ship or on to the ship's deck. Where portable stanchions and accompanying bulwark step ladders are used for this purpose, the portable stanchions *must* be rigidly secured to the ship's structure against being unshipped and supported at not less than two points to prevent lateral movement, and the bulwark step ladder should also be independently attached and firmly secured. The stanchions should be of reasonable height and adequately capped to allow firm grip. *Under no circumstances should a stanchion or handrail be attached to the bulwark step ladder.*
8. The ladder is in good condition and its treads remain horizontal. The treads are to have a rough upper surface.
9. The length of the ladder does not exceed 30 ft. Whenever the distance from sea level to a point of access to the ship is more than 30 ft., access from the pilot ladder to the ship must be by means of an accommodation ladder or other equally safe and convenient means.
10. The laddder is rigged so that each step rests firmly against the ship's side.
11. Spreaders are provided not more than 10 ft. apart to prevent the ladder twisting.
12. Two manropes and a safety line are provided; and a lifebuoy with self-igniting light is available.
13. The ladder is rigged well clear of discharges and water outlets, and at a place where most lee can be given to the Pilot Vessel.
14. Where a pilot hoist is used a ladder must be at hand ready for use in case the hoist fails.

The Masters of small, "all-aft" ships, in which the main deck is frequently awash when a Pilot is being shipped or landed, or of any type of ship in which the bulwark rails are below the deck of the pilot vessel coming alongside, are asked to provide a boarding platform on each side of the forward end of the raised quarter deck and on the same level as that deck.

The platform should be easily accessible from the quarter deck and should have adequate handrails, those on the outboard side being portable. Fittings should also be provided for the rigging of a pilot ladder. When a pilot ladder is rigged from a boarding platform the top rung of the ladder should be not less than 12 in. nor more than 15 in. below the level of the platform. The top of the ladder should be secured at least 3 ft. 6 in. above the platform in such a way as to make a safe handhold for the Pilot entering or leaving the platform.

If a pilot ladder is unsafe a Pilot may refuse to board, thus delaying the ship. If the ladder is unsatisfactory for boarding the Master of that ship renders himself liable to a fine of double the amount of the pilotage dues involved, for failure to comply with the pilotage act 1913; and if the ladder does not meet the statutory requirements, the Master renders himself liable to a fine not exceeding £50 in accordance with the Merchant Shipping Act 1894.

**RESTRICTIONS:** No tanker carrying products with Flashpoint 73° F or below is allowed to navigate, or empty tankers which have carried products below 73° F not gas-free are permitted to navigate above Coal House Point between 1 hour after sunset to 1 hour before sunrise, April to September; otherwise ½ hour. If in any doubt check with Thames Navigation Service.

Certain bulk chemical vessels are subject to this restriction also. Vessels with explosives on board to ascertain before arrival navigation restrictions with Thames Navigation Service, Gravesend, or local Agents.

The tides at London have a rise and fall of about 18 to 20 ft. above LAT (datum) depending on the tidal conditions.

The sea approach to Shellhaven is dredged to allow the passage of vessels to 48 ft. at mean neap tides. The depth to Gravesend Reach is about 26 to 28 ft. below MLWS, varying on tides.

**THAMES NAVIGATION SERVICE:**

*Traffic Co-ordination Centre, Gravesend:* This centre programmes all movements with the port, including the docks. All information required by the Authority regarding ETA, ETD, etc., should be passed through this centre. Also deals with all matters concerning provision of tugs in docks, floating derricks, dummy pontoons, or other services for vessels in dock, moorings in the river and any enquiry reference bye-laws, regulations, etc.

*Gravesend Radio:* VHF R/T Channel 16, Working Channels 12 and 20 – Port Health and Duty Pilot, Channel 18.

Radar coverage – Erith to Edinburgh Channel. Information supplied on request.

All vessels to report to this station on entering the port or before leaving the berth and whilst manoeuvring in the River. Also report position at stated intervals at points laid down in Notice to Mariners.

Tidal heights – Tilbury to Estuary given on request. Navigation broadcast given every 30 minutes on the hour and half-hour.

*Gallions Radio:* VHF Channel 16; Working Channels 14 and 22.

Radar coverage (proposed) – London Reach to Blackwall Reach. Information on request. All vessels entering the area above Crayfordness, leaving the berth, manoeuvring, and whilst on passage, report to this station.

Tidal heights at Royals given on request.

*Warden Point Radar:* VHF and radar coverage for Thames Estuary from Southend to outer limits.

*Patrol Service:* 24-hour patrol by launches fitted VHF Channels 16, 14, 12, 6, and radar. Can be contacted through Gravesend or Gallions Radio.

Liaison is maintained through the Thames Navigation Service with Owners, Agents, Pilots, Watermen and all emergency services.

For help, advice, assistance or any matter affecting ships and shipping, contact: Thames Navigation Service: Traffic Co-ordinator; Duty Officer, Gravesend, 0474-6811; Duty Office, Gallions, 01 476-7801.

**ANCHORAGES:** Southend, Warps Deep Water, Great Nore. Little Nore, Higham Bight (check with Thames Navigation if anchorage available), unrestricted time limit; Authorised explosive anchorages at Higham Bight, Mucking Coaster and Chapman Anchorage. Thameshaven (for oil tankers only); Gravesend, 12 hr. time limit. Depth's, boundaries vary. Sea Pilot is aware of safe anchorages depending size, type draft of vessel.

**SIZE OF VESSEL:** Maximum, oil carriers.

| *Berth* | *Depth at low water* | *Size–length* |
|---|---|---|
| Coryton | 46 ft. maximum | 1,100 ft. |
| Shellhaven | 48 ft. maximum | 1,200 ft. |
| Holehaven | 37 ft. maximum | 720 ft. |
| Purfleet | 28–37 ft. maximum | 700 ft. |
| Grays | 37 ft. maximum | 620–750 ft. |
| *Enclosed docks* | *Maximum* | *Maximum length* |
| Royals/K.G. V | 26–35 ft. depth | 720 ft. |
| Tilbury | 37 ft. depth | 850 ft. |
| West India | 26–29 ft. depth | 565 ft. |

Other river and tanker berths restrictions apply according to tides and berth.

Deep-draft tankers for berthing at Shellhaven is sometimes over a period of 2 tides. Passage on the 1st tide to deep water anchorage, vessel to leave anchorage on make of 2nd tide and arrive off the installation ½ hour before high water of this tide.

**HEALTH:** No automatic pratique, or radio pratique given. The London Maritime Declaration of Health Form which is normally handed to the ship by the Pilot boarding vessel is to be completed and strictly complied to. Any doubts can be clarified by VHF to Thames Navigation, Gravesend, who will connect to the Port Doctor, or to "Northforeland Radio". Pratique is issued by the Customs at the berth after health requirements adhered to, and must be retained on board or if doctor boards at Gravesend.

**RADIO:** Outside UK waters from the South call long range station "Portishead Radio"; approaching London, "Niton Radio" or "Northforeland Radio" giving agents draft and ETA.

**TUGS:** Tugs usually pick up vessels for Shellhaven and Holehaven in reaches approaching berth, or Gravesend for berths/docks up river. Tug lines can be hired to ships.

**CARGO BERTHS:** *Containers:*

Tilbury Dock:
No. 39 Berth OCL depth 37 ft.
No. 40 Common User depth 37 ft.
No. 41 „ „ „ 37 ft.
No. 42 „ „ „ 37 ft.
No. 43 „ „ „ 37 ft.
No. 45 „ „ „ 37 ft.
Victoria Deep-water Terminal depth 20 ft.

*Roll-on/roll-off Traffic:* Tilbury Dock
No. 4 berth – Heavy lifts, depth 36 ft.
No. 42 „ – Canadian Transport, 37 ft.
No. 44 „ – SCA Transport, 37 ft.
No. 46 „ – Seaboard Terminals 37 ft.

*Grain*
Tilbury Grain Terminal, depth 40 ft.
Albion Wharf Erith „ 25 ft.
Royal Docks:
Empire „ 29 ft. 6 in.
Spillers „ 28 ft.
Premier „ 25 ft. 6 in.

*Iron Ore*
Fords Jetty, Dagenham depth 15 ft.

*Latex*
Tilbury Cargo Jetty „ 27 ft.

*Cement*
Wouldhams No. 3 Jetty „ 15 ft.
Bevans Northfleet „ 25 ft.
Whites Wharf, Swanscombe „ 20 ft.
Alpha Jetty, Cliffe „ 27 ft.
Tunnel Cement, Purfleet „ 30 ft.
APCM Greenhithe „ 18 ft.

*Sugar*
Thames Refinery, Silverton „ 27 ft.

*Paper and Liner Board*
Imperial Papers Mills „ 28 ft.
Empire Paper Mills „ 20 ft.
Erith Deepwater Jetty „ 11 ft.
S. Williams No. 4 berth „ 35 ft.
Convoys Deptford „ 14 ft.
New Northfleet Wharf „ 25 ft.
Bowaters Northfleet „ 25 ft.

*LPG* (*Methane*)
North Thames Gas Board, Canvey „ 35 ft.

*Fertilisers*
BOCM, Erith „ 25 ft.

The depths quoted are to be taken as approximate only. For detailed information contact the wharf operator or Thames Navigation Service.

**TANKERS:** There are about 40 berths for tankers in the Thames District, main terminals of which are listed below. Recommended that Masters cable terminal with discharge manifold size, enabling wharf have correct pipes ready. Slop tanks are available at most wharves.

**BRIDGES:** No bridges below Tower Bridge which opens for shipping on request.

**STEVEDORES:** Ordered by the Agents; no ETA to stevedores from vessel necessary; labour to be ordered by 1200 hrs. day before required.

**MEDICAL:** Not necessary to contact Agents once port health requirements satisfied unless urgent medical treatment required on board on arrival. All medical treatment, vaccinations available.

**DENSITY:** Varies according to position and tides.

**FRESH WATER:** Available at all berths either from shore or barge.

**FUEL:** All types, grades available by barge, or from terminals.

**FIRE PRECAUTIONS:** Tankers – no smoking on open decks, only cabins. Deck fire hoses to be connected. Explosive workings at Chapman anchorage, same precautions. Red flag to be flown by these vessels. Fire tug to be in attendance when explosives being worked. Smoking not permitted in the docks or berths.

**GANGWAY/DECK WATCHMEN:** Available but not compulsory, Master's discretion.

**OPENING/CLOSING HATCHES:** Liner vessels by crew, with stevedore assistance. Tramp vessels according to charter party.

**CERTIFICATES:** These certificates to be on board.

- Ship's Register.
- Load Line.
- Safety Radio.
- Safety Equipment.
- Safety Construction.
- Derat. Exemption.
- Previous U.K. Light Due Bills.
- Cargo Gear and Chain Register complying to U.K. Factory Acts.
- British Tonnage Certificate if available.

**CUSTOMS ALLOWANCES:** Customs usually permit 200 cigarettes or ½ lb. tobacco per person on board for 4 days. They can refuse to issue duty free or amount allowed at their discretion. Usually permit 1/6th gallon or 1 bottle spirits per person for 4 days, They can issue less or refuse allow as duty free at their discretion.

**CARGO GEAR:** To comply with U.K. Factory Acts, valid chain and Cargo Gear Register to be on board. Stevedores usually supply cargo slings, etc.

**IDENTIFICATION CARDS:** Seamen's identity book required to be retained on board in port.

**CONSULS:** All British Commonwealth countries are represented in London by a High Commissioner's Office.

All foreign countries maintain embassies or a consular representative in London.

**REPAIRS:** All repairs, gas freeing possible; pre-advice recommended.

**DRY DOCKS:** Largest dry docks at Tilbury, 752 ft. length, 133 ft. breadth; King George Docks, 750 ft. length 128 ft. breadth. There are smaller dry docks available.

**REPATRIATIONS:** All facilities exist for changing crews, repatriations.

**AIRPORTS:** All flights serve London Airport, about 18 miles from centre of London. Gatwick and Southend Airports serve local and Continental services also.

**TIME:** British Standard Time which is one hour in advance of GM GMT during winter months.

**HOLIDAYS:** No work is available on official holidays usual Official Days: 1st January; Good Friday; Easter Monday; Wh Monday; August Monday; Christmas Day; Boxing Day. Som weekend work is possible at certain berths only, at overtime rates.

**POLICE/AMBULANCE/FIRE:** Contact by telephone; dial 999 an ask for service needed.

**TELEPHONES:** Ship to shore connections available at mo berths.

**SERVICE REPAIRS:** All types of service for navigational aid radar, compass adjusting, nautical instruments repaired, slop dis charge barges available. Tank-cleaning, gas-freeing service available.

**SHORE LEAVE:** Crew members allowed ashore but must rejoi on sailing.

**REGULATIONS:** No livestock ɘllowed ashore without permissio Customs and Port Health Authorities.

**AUTHORITY:** Port of London Authority, World Trade Centr London. Tel. 01–476 6900.

**AGENT:** Lambert Brothers Shipping Limited, 193–207 High Roa Ilford, Essex. Telegrams: "Lambert Ilford" and "Lambert Londo EC3". Telex: 897147. Tel.: 01 553–3311.

## LONDONDERRY (incl. Moville): 55.00 N. 07.20 W. (See Plan)

The main port of Londonderry is situated about 21 miles from th sea on the River Foyle.

**PORT LIMITS:** Extend from Lifford Bridge to a line drawn fro Greencastle Fort in the County of Donegal to the Tower on Magilliga Point in the City and County of Londonderry.

**DOCUMENTS:** For Londonderry see "Belfast". For Moville se "Dublin".

Since the Port of Londonderry falls within the Republic of Irelan and the United Kingdom, both Governments are concerned in regar to Customs documents. Moville, which is situated down river fro Londonderry, is located in the Republic of Ireland and is the ancho age where deep-sea vessels lie prior to proceeding to Londonderr Should vessels discharge cargo or load cargo at this anchorag Irish documents are required. The port is under the control of th Londonderry Port and Harbour Commissioners who are recognise by both Governments.

**PILOTAGE:** The Londonderry Port and Harbour Commissioner are the Pilotage Authority for the Londonderry Pilotage Distric For information regarding pilotage application should be made t The Secretary, Harbour Office, Londonderry, Northern Ireland.

Pilotage is compulsory, vessels taking the Pilot at the Foyle Bu or Fairway Buoy, about 2½ miles N.E. from Dunagree Point, Inni showen Head.

The pilot station is located at Carrickarory Pier, Moville, 55° 1 57″ N.; 07° 03′ 27″ W.

Deep-sea vessels usually take Pilot 2 hours before High wat time Londonderry, so as to arrive at Londonderry on the top High Water.

Pilotage service may be obtained in response to following signal

*Inward-bound vessels:* By day. 1. The International Code Signal G 2. The International Code Signal P.T.; 3. The Pilot Jack hoisted the fore; 4. By daylight signalling lamp to the pilot station. If require after hours telephone Pilot Station direct. Tel. Moville 92.

**By night.** 1. The pyrotechnic light, commonly known as a bl light; 2. A bright white light flashed or shown at short or freque intervals just above the bulwarks for about a minute at a time; 3. Th International Code Signal P.T. by flashing; 4. By signalling lamp t the Pilot Station.

**By day or night.** 1. By VHF (FM) radiotelephony to the pil station at Carrickarory Pier. 2. By VHF (FM) radiotelephony to th pilot launch "Foyle Leader." 3. By I.F. radiotelephony to the pil launch "Foyle Leader."

**In poor visibility.** By sounding the letter G in Morse Code on th steam whistle or siren.

As visibility to seaward from Carrickarory Pier is restricted it important that Owners, Masters or Agents notify the Harbour Ma ter (tel. Londonderry 3680) or outside Office hours the pilot stati (tel. Moville 92) of the name of vessel; estimated time of arrival the Fairway Buoy; draft of water of the vessel. It is also importa that VHF (FM) communication be established with pilot station pilot launch "Foyle Leader" or IF R/T communication with the pil launch "Foyle Leader" as early as possible before arrival in Lou Foyle. Call signs, frequencies and procedure are as follows:

*VHF (FM) and R/T Communications::*

**1. Pilot Station at Carrickarory Pier, Moville:** Callsign "Fo Pilots". Equipment VHF (FM) R/T single frequency working. A co tinuous listening watch is kept on Channel 16 (156.80 megacycle except when pilot launch is operating, when watch is transferred the launch. When communication has been established on Chan 16 (calling and safety channel) operators should switch to Chan 12 (156.60 megacycles.)

**2. Pilot launch:** Name of vessel "Foyle Leader". Call sign MI Equipment VHF (FM) R/T single frequency working and IF R When launch is operating a listening watch is kept on Channel (158.80 megacycles). When communication has been established Channel 16 (calling and safety Channel) operators should switch Channel 6 (156.30 megacycles).

When arrival of vessels not yet fitted with VHF (FM) R/T is expected a listening watch on IF R/T will be kept on the pilot launch on frequency 2182 kilocycles per second (calling and distress frequency). When communication has been established on this frequency operators should switch to 2246 or 2301 kilocycles per second.

3. **Harbour Office, Londonderry:** Call sign "Harbour Office" Equipment VHF (FM) R/T single frequency working. All vessels fitted with VHF (FM) R/T while navigating in the river or at anchor in Moville Bay should keep a listening watch on Channel 16 (156.80 megacycles). When communication has been established on Channel 16 (calling and safety channel) Operators should switch to Channel 12 (156.60 megacycles).

Messages must be restricted to those related to the movement of vessels and safety of vessels and persons. Messages of any other nature and messages of a personal character cannot be accepted.

*Outward-bound vessels and vessels shifting:*

When the services of a Pilot are required for an outward-bound vessel or for shifting a vessel, notification should be given to Harbour Master (tel. Londonderry 3680) during office hours, of name of vessel; time of departure; draft of water of vessel; where bound. Early notification should be given to enable Pilot to board vessel in good time.

**ANCHORAGES:** The only anchorage at Londonderry is located at Moville.

**MAX. SIZE:** For vessels using main port of Londonderry, overall length 500 ft., draft (salt water) 23 ft. 6 in., beam 60 ft.

For vessels using E.B.N.I. Oil Jetty, Coolkeeragh, Londonderry, overall length 600 ft., draft (salt water) 23 ft. 6 in.

Maximum draft of ships is increased to 24 ft. on Spring tides at Coolkeeragh and Londonderry.

**HEALTH:** Pratique is automatic except in the case where the Master suspects one of the dangerous diseases on board when he should notify the Agent.

**RADIO:** Malin Head Radio Station, Republic of Ireland, covers W/T transmissions and Portpatrick Radio Station, Scotland, covers R/T transmissions.

**TUGS:** One tug is available which is under the control of the Londonderry Port and Harbour Commissioners.

**BERTHING:** Vessels of deep draft or large dimensions can only berth at Londonderry to arrive on top of high water. Decisions in this matter are taken by the Pilots in conjunction with the Harbour Master.

The reconstruction in ferro-concrete of 300 feet of existing wharf at Coal Cranes Berth, Queen's Quay, made a total length of ferro-concrete wharves of approximately 2,000 ft. All berths have been dredged to give depth of 25 ft. at LWOST.

The Commissioners have also completed reconstruction in ferro-concrete of 15 Berth which is used by Anglo-Irish Transport Limited for a container service between Londonderry and Preston.

The port is especially adapted for shipment of live stock on large scale. The pens for reception of cattle, sheep and pigs for inspection by Government veterinary officers before shipment are situated close to shipping berths, and are completely roofed over for protection of animals.

**STEVEDORES:** ETA advices should be given before 1600 hours on week-days to arrange work for the next morning and before 1100 hours on Saturday to arrange work for Monday morning. Bagged cargoes at Londonderry are discharged by the ship's winches/derricks.

**MEDICAL:** Doctors and hospital facilities available. Agents should be advised in advance of any medical attention required.

**TANKERS:** No slop facilities available. Deep-sea tankers discharge heavy fuel oil for electricity power station at E.B.N.I. Jetty, Coolkeeragh, diameter of pipes 8 in. Crew are required to connect and disconnect hoses under port conditions.

**DENSITY:** Water at Londonderry is brackish and average density 1015 to 1018.

**FRESH WATER:** Available at all berths direct from shore lines.

**FUEL:** Gas-oil and light marine diesel available by road tankers. Shell Mex and B.P. can supply light, medium and heavy fuel oil by road tanker.

**GANGWAY/DECK WATCHMEN:** Can be covered by crew; shore watchmen available if required.

**OPENING/CLOSING HATCHES:** This is required to be carried out by ship's crew under local port labour conditions.

**CARGO GEAR:** Ship's winches and derricks should be in good working order and have BOT Certificates or equivalent. Winches are also required to plough grain on grain vessels. Cluster lighting is required for night work.

**IDENTIFICATION CARDS:** Not obligatory but should be carried.

**CONSULS:**

Portugal Vice-consul – A. Mackenzie, Esq., 13 Foyle Street, Londonderry. Tel. 2033.

Norway Vice-consul – A. Mackenzie, Esq., 13 Foyle Street, Londonderry. Tel. 2033.

Norway – Under the Nordic Treaty, Norway also acts for Denmark, Finland, Iceland and Sweden.

**REPAIRS:** Deck and engine repairs are carried out by a local engineering works. No major repairs available.

**DRY DOCKS:** A small dry dock owned by the Harbour is available when harbour equipment is not being serviced. Size: 345 ft. long on floor, 50 ft. wide at entrance, depth of water on sill HWOST., 14 ft. 6 in.

**REPATRIATION:** Can be arranged by ship's Agent on request.

**AIRPORT:** The nearest airport to Londonderry is Aldergrove (Belfast) Airport, which is 80 miles from Londonderry.

**HOLIDAYS:** Port Holidays at Londonderry are: St. Patrick's Day (17th March); Easter Monday; 1st Monday and Tuesday in August; Christmas Day and Boxing Day.

**POLICE/AMBULANCE/FIRE:** Dial 999 and ask for service required, or Police 2244; Ambulance 5171; Fire 2222.

**TELEPHONES:** No telephones available for connecting on board.

**SERVICES:** No tank cleaning available or facilities for discharging of tank-washings. Compass adjusters available from Glasgow.

**REGULATIONS:** Copies of Port Bye-Laws may be obtained through Agent.

**AUTHORITY:** The Londonderry Port and Harbour Commissioners.

## LOWESTOFT: 52.29 N. 01.45 E.

**DOCUMENTS:**

Crew List (at least two copies).
Passenger List (at least 2 copies).
Manifest (at least 3 copies).
Customs & Health Documents (normal U.K. regulations).
Ship's Papers (to be presented to Customs or Port Authorities).

**PILOTAGE:** Pilots on standby at all times. Pilot launch fitted with VHF and maintains listening watch on Channel 16. Pilots can also be ordered by RT via Humber and North Foreland Radio, hence by phone.

Pilot's private telephone no. Lowestoft 4970 or Lowestoft 61976, or at the Lowestoft Harbour Masters Office, tel. Lowestoft 2286 (this number manned 24 hours). Pilot boat, black hull, white upper work with "Pilot" painted on each side. Light and sound signals as laid down in the International Code of Signals.

Pilot boards vessel at West Holm buoy or East Newcome buoy. Vessel should not approach harbour closer than these limits when awaiting Pilot.

**ANCHORAGES:** Pilotage anchorage North of a line joining West Holm buoy and Lowestoft Lighthouse.

**RESTRICTIONS:** No specific restrictions provided the height of tide is sufficient for draft of vessel. Large vessels normally enter on high water slack tide due to cross currents at entrance.

There are regulations governing the passage of vessels through the harbour entrance. Masters of vessels shall observe the Harbour Control Light which is a white flashing light situated below the fixed red light on the South Pier Lighthouse. This light is visible except between 232 degrees to 286 degrees true from the light. When this light is flashing vessels may proceed to sea, but no vessel shall enter the harbour. At all other times vessels may enter the harbour, but no vessel shall proceed to sea.

A green light is shown on the North Pier head and a red light on the South Pier Head, from sunset to sunrise. A green light is shown from sunset to sunrise on each of the Inner Pier Heads. These lights will become visible to the person in charge upon his vessel entering the harbour. A reed signal is fixed on the South Pier Head for use in foggy weather, four blasts of two seconds each will be given every minute.

**MAX. SIZE:** Maximum length approx. 300 ft. Draft 16½ ft. MHS.

**HEALTH:** U.K. Regulations.

**TUGS:** Two tugs are available; tugs' lines normally used.

**BERTHING:** *Outer Harbour* (comprising Hamilton and Waveney Docks and Trawl and Yacht Basins). Used largely for fish traffic:

| | |
|---|---|
| Width at entrance | 150 ft. |
| Depth at entrance | 22 ft. MHWS |
| Water area | 40 acres |
| Length of quays | 4,500 ft. |
| Depth of water at quays | 18 ft. MHWS |
| | 12 ft. MLWS |

*Inner Harbour.* Used for general cargo and grain traffic.

| | |
|---|---|
| Water area | 70 acres |
| Length of quay | 6,500 ft. |
| Depth of water at quays | 20 ft. MHWS |
| | 14 ft. MLWS |

**STEVEDORES:** Shipping Agent should be advised of ETA, etc., to enable gangs to be available.

**MEDICAL:** Advance notice desirable of medical attention required on arrival. Hospital facilities available in Lowestoft.

**FRESH WATER:** Can be supplied at various points on quays from hydrants with waterman in attendance. Normal hours 8.00 a.m. to 5.00 p.m. Monday to Friday, outside those hours overtime rates payable. Approx. flow 15 tons an hour.

**FUEL:** Marine diesel available from road tankers or fueling points within the docks. Twenty-four hours notice is normally required for supplying gas oil or boiler fuel; this comes from road tankers.

**FIRE PRECAUTIONS:** Local fire services available in an emergency. Special arrangements can be made for taking fire-fighting equipment to sea. Normal harbour fire-prevention regulations apply to all berths.

**OPENING/CLOSING HATCHES:** Carried out by crew.

**CONSULS:**

| | |
|---|---|
| Belgium | tel. Lowestoft 2301 |
| Denmark | „ „ „ |
| France | „ „ „ |
| Netherlands | „ „ „ |
| Norway | „ „ „ |

**REPAIRS:** All types of deck and engine repairs are possible in the port.

**DRY DOCKS:** One dry dock. Length 248 ft. Width at entrance 48 ft. Depth of water on sill 13½ ft. MHWS.

**AIRPORTS:** Nearest international airport served by regular airlines is London (Heathrow). Smaller airport at Norwich (27 miles) not served by regular airlines.

**POLICE/AMBULANCE/FIRE:** In an emergency dial 999 and ask for service required. For normal enquiries: Police Lowestoft 2121; Ambulance Lowestoft 2572; Fire Lowestoft 2227.

**GENERAL:** Helipad on Dock Estate, also Heliport at Beccles (8 miles away).

Air/Sea Rescue Services at R.A.F. Cottishall (35 miles).

Royal National Lifeboat Institution, lifeboat berthed at Lowestoft.

200-ton crane available for heavy lifts.

Modern transit sheds, cattle lairage facilities.

**SERVICES:** Compass adjusting. VHF, Radar, radio repairs. All ships' provisions are available by arrangements with the shipping Agencies.

**SHORE LEAVE:** Leave is permitted.

**AUTHORITY:** British Transport Docks Board, Custom House, Lowestoft, Suffolk. Tel. Lowestoft 2286.

## MANCHESTER: 53.29 N. 02.14 W. (See Plan)

**GENERAL:** The port of Manchester includes the whole of the Manchester Ship Canal and Queen Elizabeth II Dock. The Canal is approximately 36 miles long from its entrance at Eastham on River Mersey to the Manchester Docks.

**DOCUMENTS:**

1 Maritime Declaration of Health.
1 Crew Effects List.
2 Ship's Report by Master.
1 Home Office Form 1B6.
1 Stores List.
1 Certificate of Deck Cargo Tonnage.
1 Grain Certificate.
1 Light Certificate.
1 Port Dues Certificate.
1 Passenger List.
1 Landing Card for each Passenger.
Ship's Certificate of Registry.
Mercantile Marine Office Certificate – for British ships only.
Load-Line Certificate.
Safety Equipment Certificate.
Lloyds Certificate.
Derat Certificate.
Ship's Register.
Light Bills.
Safety Radio Certificate.

In addition, Manifests and Bill of Lading are usually sent to Agent direct from loading port.

**PILOTAGE:** Non-compulsory. Orders for Pilots may be lodged with the Pilotage Office at Eastham (Tel. 051–327–1233) or at Dock Office at Manchester (Tel. 061–872 2411, ext. 150/2). As much notice as possible should be given, particularly in the case of inward-bound vessels due to arrive at Eastham. Helmsmen can be obtained in same manner.

**RESTRICTIONS:** Eastham Locks. The main entrance to the Canal is at Eastham where there are two locks side by side, one 600 ft. by 80ft., and the other 350 ft. by 50 ft. The outer or lower sill of each lock is 13 ft. below Liverpool Bay Datum. The levels of upper sills of the 80 ft. and 50 ft. locks are 32 ft. and 29 ft. respectively below statutory water level in Canal.

Both locks are operated for incoming and outgoing vessels of suitable draft during a period of 8 hours on each tide, i.e. from 4 hours before high water to 4 hours after high water.

The Canal is constructed to give an available depth of water of 30 ft. from Eastham to Ince Oil Berth (5⅜ miles) and of 28 ft. from Ince to Manchester Docks.

The size of vessel which can navigate the Canal is governed by dimensions of locks, the height of fixed bridges and limitations for the draft of vessel.

Maximum length: The greatest length measured between perpendiculars drawn at the foreside of the foremost extremity and at the afterside of the aftermost extremity of the hull or any attachments to the hull shall not exceed 560 ft.

The length measured between perpendiculars drawn at the foreside of the stern and at the afterside of the rudder post, or through centre of the rudder stock if there is no rudder post, on the summer load water-line shall not exceed 535 ft.

The length measured between perpendiculars drawn at the afterside of the rudder plate and at the foreside of the foremost extremity of any part of the hull which is below a horizontal line drawn through the top of the rudder plate shall not exceed 544 ft.

Maximum beam: Vessels not proceeding beyond Ince Oil Berth: 72 ft. overall. Vessels proceeding beyond Ince Oil Berth: 63 ft. 6 in. overall.

Provided the height of masts and/or funnels or other structures is not more than 70 ft. 9 in. from water-line, vessels can pass under all fixed bridges under normal conditions. As, however, the headroom is less during periods of high-water levels, a vessel, in order to avoid possible detention, should reduce masts and funnels or other structures to 70 ft. above the water-line. The restriction as regards height does not apply to vessels proceeding only as far as Runcorn Bridge.

Facilities are available at Eastham for removing and replacing tops of masts and funnels.

**MAX. SIZE:** When vessels are Loading inwards for the canal Masters should take these facts into their calculations and have regard to the following limitations, all of which are expressed maximum draft in fresh water:

| *Vessels inward bound to a berth* | *Arrival draft at Eastham no to be such as would excee* | |
|---|---|---|
| Between Eastham Locks and Ince Oil Berth | 28 ft. 10 in. | in fresh water |
| Between Ince Oil Berth and Manchester Docks (other than Pomona Docks) | 26 ft. 6 in. | |
| To or from Pomona Docks (for coastwise shipping) | 16 ft. 0 in. | |

Vessels loading outwards at any point between Eastham Loc and Ince Oil Berth should not have a draft exceeding 28 ft. 6 in. up completion of their loading in this section.

Vessels loading outwards at any point between Ince Oil Be and Manchester Docks (other than Pomona Docks) should n have a draft exceeding 26 ft. 6 in. upon completion of their load in this section.

Large vessels can swing in the basins at Stanlow and Manches Docks. Small vessels can swing at certain other points on the Can

**HEALTH:** Foreign arrivals to complete Maritime Declaration Health. They are cleared immediately on arrival by either a p doctor or an officer of H.M. Customs depending on where sh comes from and whether there is sickness on board.

Vessels arriving from ports within accepted area (N. Europe ports) and coastal arrivals need not present Declaration in all case when there is sickness on board the Port Health Authority must informed preferably not more than 12 hours and not less than hours before arrival.

**RADIO:** A VHF radio-telephone service is available for commu cation between ships and shore and vice versa for exchange information of a navigational character. The Canal Company Control Station, which operate on channels allocated by the Gene Post Office are:

| | |
|---|---|
| Eastham | Hague Channel 2 |
| Latchford | Hague Channel 2 and 20 |
| Manchester Docks | Hague Channel 2 and 18 |

A continuous watch on Channel 2 is maintained.

**TUGS:** The Canal Company maintains a fleet of high-powe tugs which may be hired to assist vessels, 12 hours notice requir

**TANKERS:** *Queen Elizabeth II Dock.* This dock is adjacent to locks at Eastham which give access to the Canal, and is approach from River Mersey through its own entrance lock. This lock is 80 long by 100 ft. wide. The level of outer sill is 20 ft. below Liverp Bay Datum. The dock covers an area of 19 acres in the form o square and has four berths designed to accommodate large tanke the dimensions of berths being as follows:

| | | | |
|---|---|---|---|
| Berth No. 1 | 800 ft. | Berth No. 3 | 900 ft. |
| Berth No. 2 | 725 ft. | Berth No. 4 | 730 ft. |

The dock is directly connected to oil installations by pipelines.

*Stanlow Oil Docks.* No. 1 & 2 (5 berths) 45 miles above Eastham Lo Length 560 ft., draft 28 ft., beam 72 ft.

*Ince Oil Berth.* 55 miles above Eastham Lock. Length 560 ft., dr 28 ft., beam 72 ft.

*Barton.* 32 miles above Eastham Lock. Length 560 ft., draft 28 beam 63 ft. 6 in. Daylight movements only. Max. height above wa line 70 ft.

**DENSITY:** The water in lower section of the Canal betw Eastham Locks and Latchford Locks is brackish. In all sectio above Latchford Locks the water is fresh.

**MEDICAL:** Doctors and hospital facilities available. Agent sho be advised in advance of any medical attention required.

**FUEL:** At Partington, coal tips are available for the loading of cargo coal, etc., and bunkers to vessels. Oil bunkers may be taken by arrangement with oil companies either from craft alongside or at various oil berths along the Canal.

**DRY DOCKS:** The Manchester Marine Limited operates three graving docks at Manchester Docks:

No. 1 Dock–length 535 ft., width 65 ft., depth of water on blocks 20 ft, 3 in.

No. 2 Dock–length 500 ft., width 65 ft., depth of water on blocks 18 ft.

No. 3 Dock–length 450 ft. width 65 ft., depth of water on blocks 19 ft.

There is also a pontoon dock 260 ft. long and 45 ft. wide with a lifting capacity of 2,000 tons.

**CUSTOMS ALLOWANCES:** At discretion of local Customs Inspector. Normal allowances are equivalent to ½ lb. tobacco per man and equivalent to 1 bottle of wine per man. Allowances may be halved for home trade vessels. Vessels in port for more than three or four days may receive extra allowances.

**TIME:** British Standard Time is GMT plus 1 hour. Reverting to GMT during Winter months.

**HOLIDAYS:** Good Friday (variable date); Easter Monday (variable date); Spring Bank Holiday (variable date); August Bank Holiday (variable date); Christmas Day (25th December); Boxing Day (26th December).

**POLICE/AMBULANCE/FIRE:** Dial 999 from any telephone and ask for service required.

**AUTHORITY:** The Manchester Ship Canal Company is the Authority for Port of Manchester, and also controls pilotage, towage and labour services of Port.

Ship Canal House, King Street, Manchester 2. Telegrams: Canal Manchester. Tel. 061–872 2411. Telex 669025.

**AGENT:** Cory Brothers Shipping Ltd., Royal London House, 196 Deansgate, Manchester, M3 3WF. Cables "Cory Manchester". Telex: 667207. Tel. 061 834 1167/8.

## MEDWAY (See Plan)

**PILOTAGE:** *Folkestone.* Vessels for River Medway that are approaching from the South obtain Inward Sea Pilot at Folkestone Pilot Station. Telex: 96381. Tel. Folkestone 56766. Telegraphic Address: "Pilots, Folkestone". Notice required: preferably 24 hours notice ETA, then confirmation 12 hours prior arrival with ETA, draft, gross tonnage and destination.

Pilot boards from launch 1 mile South of Folkestone Pier. Contact Pilots by VHF Channel 16, then 9, two hours before arrival (call sign "Folkestone Pilots Radio").

*Sunk Light Vessel:* Vessels for River Medway that are approaching from the North, obtain Inward Sea Pilot at Sunk Pilot Station. Telegraphic address: "Pilots Harwich". Telex: 98472. Tel. Harwich 3129. Notice required: 12 hours prior to arrival. Cutter cruises in vicinity of Sunk Light Vessel, but in bad weather usually moves to Barrow Deep. Contact cutter on VHF Channel 16, then 9 or R/T 2182 kHz (call sign "Sunk Pilot").

Deep drafted vessels can be provided with Pilots in deeper water by arranging to be met by the Sunk Pilot Vessel in a suitable position about 3 miles East of the Sunk Light Vessel.

*Margate:* Vessels approaching within the range Dieppe/Amsterdam obtain inward ISP at North East Spit Buoy. Telegraphic address: "Pilots, Folkestone". Telex: 96381. Tel. Folkestone 56766. Advance notice essential as Pilots not always on station. Notice required: preferably six hours, giving ETA, draft, gross tonnage and destination, confirming two hours prior to arrival. Contact Pilots on VHF Channel 16, changing to Channel 9 for working (call sign "Margate Roads Pilot Radio"). Light or sound signals as per international code. Pilot boat works from Margate Pier-head and boards in the vicinity of North-east Spit buoy, but often has difficulty working in bad weather. Contact Pilots on Channel 16, changing to Channel 9 for working or 2182 Mz.

*Medway:* Medway Pilots join ships at Little Nore Sheerness for all Medway ports, i.e. Isle of Grain, Sheerness, Beeness, Oakham Ness. Otterham, Rochester, Queenborough and Ridham. Telegraphic Address: "Pilot Sheerness". Tel. Sheerness 2276. Notice required, minimum two hours. Pilots may be contacted through Medway Radio on VHF Channel 14 or "Medway Patrol" on R/T 2182 Mz: Pilot launch keeps watch on Channel 14 when in service. Lights and sound signals as per international code.

**VHF/RADAR:** Medway Port Operations and Information Service (Medway Ports Authority) is situated at Garrison Point, Sheerness. Tel. Sheerness 2035. Telex: 96435 (call sign "Medway Radio"). Fitted with VHF, Channels 16, 14, 9 and 22. The station has radar service surveillance of Inner Estuary, Sea Reach, Medway Approach Channel and Lower Reaches of River Medway. Patrol launch maintains watch on RT 2182 kHz (call sign "Medway Patrol") and is also fitted with VHF and radar.

**REGULATIONS:** All vessels required to proceed in accordance with instructions of Port Authority. Vessels are requested to advise Medway Ports Authority – Medway Port Operations Service (call sign "Medway Radio") VHF Channels 16, 14, 9 and 22, or Medway Ports Authority Launch (call sign "Medway Patrol") on 2182 kc/s of ETA, shifting of sailing movements.

## MILFORD HAVEN: 51.42 N. 04.56 W. (See Plan)

**DOCUMENTS:**

Port Health Form.
Immigration Form.
Customs Forms (Crew Declaration, List of Stores.)
3 Crew Lists.

**PILOTAGE:** Pilots normally board incoming ships from a green-hulled pilot vessel, in a position South-west of Mid-Channel Rock Light-tower, as close thereto, as weather, size of ship and circumstances permit. When the Western Channel is being used by very large ships other ships may be requested by the signal station, or by the pilot vessel to use the Eastern channel, if draft, and length of ship permit, in which case the Pilot will board close to Sheep Buoy. Deep-draft ships should not approach too close whilst awaiting the pilot vessel. They should remain at least two miles South-west of Mid-Channel Rock Light-tower. It is important, when manoeuvring at slow speeds to embark a Pilot to make proper allowance for the set of the tidal stream, which sets across the entrance.

*Accurate times of arrival* are requested so that the pilot vessel may be on station at the correct time. ETAs should be given at least 12 hours before arrival and amendments should be made 2 hours before the latest ETA.

ETAs and subsequent amendments should be passed by radio telegram or radio telephone through any United Kingdom Coast Station (preferably Ilfracombe Radio) to Milford Haven Signal Station (Milford Haven 2343) or to the local Agent of the ship. Alternatively when within 20 to 30 miles of St. Ann's Head ETAs may be passed direct to Milford Haven Conservancy Board signal station calling on VHF Channel 16 then transferring to Channel 12 (the Port working frequency). In addition ships may call the pilot vessel on MF radio calling on 2,182 kHz and transfer to the working frequencies 2,241, 2,246 or 2,301 kHz.

**VHF:** It is important to maintain continuous radio telephone contact with Signal Station when within one hour's steaming of St. Ann's Head, and at all times when in Haven and not safely moored to and alongside berth, including times spent at anchor or at buoys.

All vessels equipped with F/M, VHF, R/T should adopt following procedures:

Entering the Harbour: Contact Signal Station on Channel 16 (156·8 mc/s) when within one hour's steaming of St. Ann's Head. After making contact ship will be requested to maintain watch on Channel 12 (156·6 m/cs) until vessel safely moored alongside or at anchor.

Going to anchor or to a buoy mooring: report to Signal Station when secured and then maintain a continuous listening watch on Channel 16.

Berthing alongside: report to Signal Station when safely moored and may then shut down.

Leaving the Haven: Maintain continuous listening watch on Channel 12 (156·6 mc/s) until Pilot has disembarked, when Signal Station should be informed and vessel should maintain a continuous watch on Channel 16 (156·8 mc/s) until one hour after passing St. Ann's Head.

Navigating within the Haven: Maintaining a continuous watch on Channel 12. When radio telephone is used between vessel and tugs during berthing operation Channel 6 or 8 will be used and Signal Station will be informed before vessel comes off Channel 12.

Signal Station will answer calls on Channel 16 for any ship in the port which has been instructed to move off international calling frequency.

**ANCHORAGES:** Anchorage normally available for vessels up to 40 ft. draught in Dale Roads. Anchorage for smaller vessels normally available in Dale Shelf. Signal Station will advise mariners on the availability of these anchorages.

**RESTRICTIONS:** The "West Channel" with minimum depth of 55 ft. at the entrance and 54 ft. inside is the channel used by the largest tankers. The "East Channel" with minimum depth of 32 ft. is available to all vessels of suitable size and vessels able to do so are requested to use it when the largest tankers are entering or leaving in the "West Channel".

**MAX. SIZE:** Vessels of 65 ft. draft can be handled on virtually all high waters, but draft restriction always dependent on tide, e.g. 63 ft. at worst HW neaps, or up to 67 ft. in favourable conditions. Contact Milford Haven Signal Station on VHF Channel 12 for latest information.

**HEALTH:** All vessels from endemic areas are boarded by Port Health Officials on arrival. Any suspected disease or fever on board radio Port Health, Milford Haven not more than 18 hours before arrival and not less than 4 hours before arrival.

**RADIO:** Lands End Radio, Ilfracombe Radio.

**TUGS:** Tugs normally join vessels to Westward of Esso Jetty, but master will be advised by Pilot. Tug's lines used, cost of lines inclusive of towage charge.

**BERTHING:** VLCCs enter at HW and berth heading East. Vessel will be required to swing after unloading and prior to departure.

The Milford Docks includes a wet dock with a water area of 23 acres over 30 ft. deep, 4,000 ft. of quay frontage including a 600 ft. cargo jetty, and berths in the tidal harbour with a depth of 12 ft. of water at all states of the tide. Preparations are being made to deepen the tidal berths.

**STEVEDORES:** Ordered prior to arrival with at least 3 days notice.

**MEDICAL:** Advance notice to Agent not necessary. Local hospital facilities available. Smallpox and yellow fever certificates required.

**TANKER TERMINALS:**

*Esso* No. 1 Berth depth 57 ft. five 12-in. cargo lines
No. 2 Berth: depth 65 ft. four 16-in. and one 10-in. cargo lines
No. 5 Berth: depth 20 ft. for small coastal vessels
Esso swinging ground dredged to 37 ft. Also see "Developments".

*B.P. Angle Bay*
No. 1 Berth: depth 54 ft. five 10-in. cargo lines; one 8-in. fuel line
No. 2 Berth: depth 54 ft. five 10-in. cargo lines; one 8-in. fuel line
No. 3 Berth: depth 66 ft. five 16-in. cargo lines; one 10-in. fuel line

B.P. swinging ground dredged to 32 ft.

*Texaco, Pembroke*

No. 1 Berth: depth 68 ft. 16-in. crude lines
No. 2 Berth: depth 52 ft. 8-in. crude lines
No. 3 Berth: depth 36 ft. 8-in. product lines
No. 4 Berth: depth 18 ft. 6-in. product lines
No. 5 Berth: depth 21 ft. 6-in. product lines
Texaco swinging ground dredged to 32 ft.

*Gulf Oil*

No. 1 Berth: depth 42 ft. three 10-in. and two 12-in cargo lines
No. 2 Berth: depth 55 ft. six 12-in. cargo lines
No. 3 Berth: depth 34 ft. six 8-in. and one 4-in. cargo lines
Gulf swinging ground dredged to 42 ft.

*Amoco*

No. 1 Berth: depth 68 ft. four 16-in. crude lines; two 12-in. and three 8-in. product lines.
No. 2 Berth: depth 38 ft. one 12-in., two 10-in., three 8-in. and one 6-in. product lines.
No. 3 Berth: depth 22 ft. two 8-in. and three 6-in. product lines.
Amoco swinging ground dredged to 32 ft.

**DENSITY:** 1025.

**FUEL:** All terminals, Amoco, Gulf, Texaco, B.P. and Esso supply all grades of bunkers.

**FIRE PRECAUTIONS:** Fire wires to be rigged fore and aft.

**DEVELOPMENTS:** *Esso:* Two new berths under construction, each to be fitted with two 10-in. and three 12-in. hydraulically controlled loading arms.

**GANGWAY/DECK WATCHMEN:** Supplied if necessary – very rarely.

**CERTIFICATES:**

Register.
Load Line.
Safety Radio.
Safety Equipment.
Light Dues, etc.

**CUSTOMS ALLOWANCE:** Tobacco, ½ oz. per man per day. Wine/Spirit, ¼ pint per man per day.

**IDENTIFICATION CARDS:** Not necessary.

**CONSULS:**

**REPAIRS:** All types of deck and engine voyage repairs carried out.

**DRY DOCKS:** One dry dock at Milford, 600 ft. × 63 ft. × 18 ft.

**REPATRIATION:** Crew changes frequently carried out and repatriation arranged.

**AIRPORT:** Nearest airport at Rhoose (near Cardiff) distance approximately 100 miles. Flights to London, etc., for onward connections.

**TIME:** Local Time is BST (GMT plus 1 hour). GMT during winter months.

**HOLIDAYS:** Standard U.K. Holidays. Cargo work can be arranged on these days.

**POLICE/AMBULANCE/FIRE:** Police Milford Haven 2351, Pembroke Dock 2121; Ambulance Haverfordwest 3347; Fire Haverfordwest 2131.

**TELEPHONES:** No telephones on board. Public call boxes exist on all jetties.

**GENERAL:** Anti-oil Pollution plan in force with facilities for dealing with any oil pollution.

**SERVICES:** Compass adjusting. D.F. calibration. A "Scamp" underwater hull cleaning service is available.

N.B. Crew and stores directed by rail to vessels at Angle Bay (B.P.) or Pembroke (Texaco) should be directed to Pembroke Station. For vessels at Esso, Amoco and Gulf Terminals, stores should be directed to Milford Haven.

**SHORE LEAVE:** Shore leave allowed.

**AUTHORITY:** Milford Haven Conservancy Board, PO Box 14 Milford Haven Pembrokeshire. Tel. Milford Haven 3091/4.

**AGENT:** Cory Brothers Shipping Ltd., 5, Victoria Road, Milford Haven, Pembs. Cables: "Cory Milfordhaven". Telex: 48338. Tel. Milford Haven 2473.

## NEWHAVEN: 50.47 N. 00.04 E.

**PORT LIMITS:** A line drawn from a position 300 ft. South of the breakwater in a 075° direction to Seaford Bay.

**DOCUMENTS:** See "London".

**PILOTAGE:** Trinity House Pilots, Newhaven District: VHF "Newhaven Radio" Channels 16 and 12. Tel. Newhaven 4822 and Neptune 580. Pilot boats are small fast launches painted red and white. Light and sound signals for a Pilot is "G". Notice of ETA 12 hours before arrival, if possible. Anchorage for a vessel awaiting a Pilot is ½ to 1 mile S.W. of the breakwater, depending on weather conditions. Pilots normally board S. to S.W. of the breakwater, but in severe gale conditions they keep station 100 metres from breakwater end, and guide vessels in with VHF or lamp. Notice should also be given to the red and green signal lights at the West Pier end lighthouse, and on no account should vessels pass breakwater end if signal is at red. In normal weather, pilot ladder should be on lee side about 1 m. above water. In Southerly gales Pilots prefer a ladder on each side, if available.

New U.K. Standard Port Signals may be adopted late 1974.

**RESTRICTIONS:** Three fathoms through entrance to port LWOST through to inner harbour then dredged depth of 13 accordance with new chart datum 11·40 ft. above OD Newlyn.

**MAX. SIZE:** 450 ft. length, 21 ft. 6 in. draft taking bottom on mud at low water. Vessels greater than 350 ft. LOA length either be towed into or out of port. Vessels for North Quay must exceed 250 ft. length, draft 17 ft. During new bridge constru 230 ft.

**RADIO:** Radio Station Niton Radio, call sign Niton Radio.

**RADAR/VHF:** No radar service. Ship's may contact West control point on Channel 16, working on Channel 12.

**TUGS:** Available upon request.

**BERTHING:** Vessels may be berthed at any time, with prior no given.

**BRIDGES:** Vessels requiring to berth at North Quay must a within 2 hours either side of high water in order to pass thro swing bridge which governs access to this quay.

New timings to be introduced with new bridge.

**STEVEDORES:** ETA should be given as far in advance as pos and not less than 24 hours before ETA.

**DENSITY:** Salt water.

**FRESH WATER:** Available on request. Supplied by shore ho pipe.

**FUEL:** Available.

**FIRE PRECAUTIONS:** Usual no-smoking precautions on qu side in port area.

**GANGWAY/DECK WATCHMEN:** Not provided by Port Aut ities but recommended at discretion of Ship's Master.

**CONSULS:** Norwegian Vice-Consul and French Consular Age

**REPAIRS:** Repairs of a temporary nature only may be carried by B.R. workshops.

**AIRPORT:** Nearest airport Gatwick, distance 30 miles. Served regular airlines.

**POLICE/AMBULANCE/FIRE:** Police: Civil, Newhaven 5 Port, Newhaven 4131 (extension: 29). Ambulance: 0830–1700 ho Lewes 5400; 1700–0830 hours, Lewes 2819; Fire: 999.

**SHORE LEAVE:** Allowed.

**AUTHORITY:** Shipping and Port Manager, British Rai Board, Newhaven Harbour, Newhaven, Sussex. Tel: Newha 4131. Telex: 87151.

## NEWPORT: 51.35 N. 02.59 W. (See Plan)

**DOCUMENTS:**

Crew List.
List of stores for individual crew members.
Cargo Manifest.
Cargo Plan.
Ship's Register.
Loading Certificate.
Safety Equipment Certificate.
Safety Construction Certificate.
United Kingdom Light Bills.

**PILOTAGE:** Telegraphic address – "Newpilots Barry". Adva notice required – 24 hours. VHF Channel – Channel 16 for cont thence Channel 6 for conversation. Description of pilot boat - di launch, black hull, white superstructure, buff funnel and "New Pilots" painted in white on bulwarks. Particular light or sound sig to be made by vessels requiring a Pilot – Code Signal 8, i.e. 3 lo 2 shorts. Pilot boat is located in vicinity of Breaksea Lightvessel in vicinity of Mercur Buoy, for small vessels. Maintain VHF con (if possible) with pilot cutter and obey instructions with refer to positioning of vessel to facilitate boarding of Pilots.

**ANCHORAGES:** Large vessel should anchor in deep wat North of one Fathom banks. Deeper water anchorage (1 fathoms) in area between Breaksea Lightvessel and East one Fat Bank Buoys to the South, and shallow water off Barry Roads to North. Small vessels will find safe anchorage in Barry Road varying depth, depending on weather conditions and draft.

**RESTRICTIONS:** Entrance to Newport Docks is by means sea lock 1,000 ft. long, 100 ft. wide.

**MAX. SIZE:** Maximum size of vessels accepted at Newport is 8 long, 96 ft. beam, 33½ ft. draft.

**HEALTH:** Port Health Authority Board vessel at entrance lock pratique is automatic.

**RADIO:** At sea – Land's End radio station, call sign GIL. Wi Bristol Channel radio station Portishead, call sign GK– (last le according to frequency).

**VHF:** Vessels requiring entry can contact port on VHF n Channels 16 and 11.

**TUGS:** Normally join at Newport Deeps. Ship's line used.

**BRIDGES:** Junction passage connecting South and North D restricts vessels to a maximum size of 56 ft. 6 in. beam and 25 ft. d

**BERTHING:** South Dock, normal depth of water 35 ft. North D normal depth of water 27 ft.

**BULK HANDLING FACILITIES:** Container terminal on sig former East Lock equipped with derrick crane of 32 tons capac

New container terminal in South Dock equipped with cont crane of 35 tons capacity.

Two side loaders each of 35 tons capacity.

One floating crane of 50 tons capacity.

**STEVEDORES:** Labour is allocated to vessels on arrival.

**MEDICAL:** No advance notice of medical attention for crew m bers is required and hospital facilities are available.

**DENSITY:** Average density of water in docks is 1016.

**FRESH WATER:** Available at all berths.

**FUEL:** All classes of fuel available.

**GANGWAY/DECK WATCHMEN:** Available but not compulsory.

**OPENING/CLOSING HATCHES:** Normally carried out by crew.

**CUSTOMS ALLOWANCES:** Tobacco, ½ lb. per crew member, reduced by 50% on coastal trade. 1 pint of spirit and 1 pint wine per crew member, reduced by 50% on coastal trade.

**IDENTIFICATION CARDS:** Not required.

**REPAIRS:** All wet dock and engine repairs possible.

**DRY DOCK:** 454 ft. × 64 ft.

**REPATRIATION:** All facilities for the changing of crew and repatriation are available.

**AIRPORT:** Glamorgan Rhoose Airport terminal 28 miles from Newport. Regular connection planes to London Airport.

**TIME:** BST, GMT plus 1 hour. GMT in winter months.

**HOLIDAYS:** Work not undertaken on Christmas, Easter, Spring and Summer Bank holidays. With the exception of Christmas holiday (25 and 26 December) dates on other holidays vary.

**POLICE/AMBULANCE/FIRE:** Telephone number 999 stating which service is required.

**TELEPHONES:** Telephone facilities are available aboard vessels.

**SERVICES:** Tank cleaning equipment. Facilities for tank washing, compass adjusting are available.

**SHORE LEAVE:** No restrictions to crew members.

**AUTHORITY:** British Transport Docks Board, Alexandra Docks, Newport, Mon. Newport 65411. Telex 49585.

**AGENT:** Cory Brothers Shipping Ltd., 66 Dock Street, Newport, Mon. Cables: "Corship Newportmon". Telex: 49429. Tel. Newport 66351.

## PLYMOUTH: 50.22 N. 04.90 W.

**DOCUMENTS:** Importer to supply Agent with Customs documentation, e.g. original B/L with cheque to cover various details; plus copies of Invoice and Forms C.105 with packing lists. Derating or Exemption Certificate required.

**PILOTAGE:** Compulsory for merchant vessels. Call sign FSG, or 4 short blasts on whistle. Vessels not subject to compulsory pilotage may obtain docking Pilot in Plymouth Sound otherwise Pilot Station off Penlee Point.

Pilot boat is motor boat with white upperworks, black hull. "Pilot" in black on wheelhouse.

**RADIO:** *Pilots:* The calling and listening frequency is 2,182 kHz and the working frequencies are 2,246 or 2,301 kHz. A listening watch is kept on 2,182 kHz at every even hour to 15 minutes past, local time, and for longer periods when a ship is expected. The pilot vessel is also equipped with VHF and should be called on Channel 16; the working Channels 6, 8 or 12 should be used for passing messages. Alternatively, the shore-based Trinity House pilot station, Plymouth, call sign "Cattewater Harbour Radio", maintains a continuous watch on Channel 16 (calling Channel) and is fitted with Channel 12 (first choice Port Operations Channel).

**ANCHORAGES:** In Plymouth Sound.

**MAX. SIZE:** Maximum depth of water 30 ft. Vessel drawing 26 ft. would leave anchorage two hours before High Water.

**HEALTH:** Pratique. Apply to Customs Waterguard. Pratique issued when requirements satisfied.

**TUGS:** Available in Sound.

**BERTHING:** The Outer Basin is tidal and enters directly from Plymouth Sound. West wharf, 750 ft. length, depth 30 ft. LWOST.

Trinity Pier, 500 ft. length
Mill Bay Pier, 450 ft. length.

The Inner Basin, general depth of water 20 ft., with 25 ft. depth alongside a 600 ft. length of wharf quay

**CARGO HANDLING FACILITIES:** Silo for grain imports owned by Spillers Ltd. Calor Gas plant on North Quay for imports of butane and propane gas. Bulk coal imports and processing for the Plymouth Co-operative Society is situated on South Quay.

A roll-on/roll-off terminal is in operation.

**STEVEDORES:** British Transport Docks Board: Commodities regularly handled include fresh fruit and vegetables, timber, coal, scrap metal and general cargoes.

**MEDICAL:** No advance notice required; hospital facilities in Plymouth.

**FRESH WATER:** Available from shore at all berths.

**FUEL:** All normal grades available at short notice.

**OPENING/CLOSING HATCHES:** Performed by ship's crew or by stevedores at request of ship.

**CERTIFICATES:** Tonnage registration.

**CONSULS:**

| | | | |
|---|---|---|---|
| Norwegian | 65154 | Greece | 60604 |

| French | 65154 | German | 66444 |
| Belgian | 65154 | Dominican Rep. | 63175 |

**REPAIRS:** Ship repairing facilities available.

**HOLIDAYS:** Cargo work can often be arranged on Public Holidays subject to prior notice.

**POLICE/AMBULANCE/FIRE:** Telephone 999.

**TELEPHONES:** By special arrangement with the GPO, can be placed on aboard.

**AUTHORITY:** British Transport Docks Board, Millbay Docks, Plymouth. Tel. Plymouth 62191.

## POOLE: 50.43 N. 01.59 W. (See Plan)

**DOCUMENTS:** As for other British ports.

**PILOTAGE:** Pilots board ½ mile South of Poole Bar Buoy from cutter. Prefer ladder 2 ft. from water and a good lee. R/T watch kept on 2182 k/cs working frequency 2241 k/cs. As much notice as possible. Address: Pilots, Poole.

**ANCHORAGE:** Vessels can anchor anywhere in Poole Bay and Studland Bay. Good holding ground and protected in all but Easterly gale.

**RESTRICTIONS:** Vessels drawing up to 13 ft. can enter at any state of tide. Draughts of 16 ft. must wait to within 2 hours of high water.

**MAX. SIZE:** Maximum length 350 ft., beam – no limit, draft 17 ft.

**RADIO:** Niton.

**TUGS:** Join off North Haven. Ship's lines. No difference in charges.

**BERTHING:** Berthing time depends on draft at some private quays. No restriction at New Quay, Ro/Ro berths in operation Jan. 1973. 25 ton container crane available. Pneumatic bulk grain and fertiliser loading/discharging equipment in operation.

**BRIDGES:** Poole Bridge at West end of Poole Quay. Will open at any time on request by commercial vessel.

**STEVEDORES:** Normal notice for gangs. No Sunday work.

**MEDICAL:** Advance notice required for ambulance services. Normal medical and hospital services available.

**TANKERS:** Three oil berths. Diameter of load/discharge lines 6 in.

**DENSITY:** 1021.

**FRESH WATER:** Delivery 25 tph by 2 in. hose.

**FUEL:** Gas oil only.

**GANGWAY/DECK WATCHMEN:** Not required.

**OPENING/CLOSING HATCHES:** Work carried out by crew.

**IDENTITY CARDS:** Not required.

**CONSULS:** None.

**REPAIRS:** All types deck and engine repairs can be carried out. Slipways (2) available for vessels up to 220 ft. LOA by 40 ft. beam and 120 ft. LOA by 30 ft. beam.

**AIRPORT:** Charter flights for crew changes can be carried out from Poole/Bournemouth Airport 7 miles away from port.

**POLICE/AMBULANCE/FIRE:** Call 999 and ask for service required.

**AUTHORITY:** Poole Harbour Commissioners: Harbour Master and Collector of Dues, Harbour Office, The Quay, Poole, Dorset. Tel. Poole (020 13) 3845.

**AGENT:** John Carter (Poole) Ltd. The Quay, Poole. Tel. Poole 4102. Telex 41176. Cables: Maritime Poole.

## PORTSMOUTH: 50·48 N. 01·07 W.

**DOCUMENTS:** (Those marked* to be produced to H.M. Customs Boarding Officer.)

*1 Maritime Declaration of Health.
*1 Crew's Effects List C142.
2 Ship's Reports by Master.
*1 Home Office Form 1B6.
*1 Stores List.
*1 Certificate of Deck Cargo Tonnage.
*1 Grain Certificate.
1 Light Dues Certificate.
1 Port Dues Certificate.
*1 Passenger List.
*1 Landing Card for each non-British passenger.
*Ship's Certificate of Registry.
Mercantile Marine Office Certificate (British ships only).
*Load Line Certificate.
*Safety Equipment Certificate.
Lloyds Certificate.
*Derat Certificate.
Ship's Register.
Light Bills.
Safety Radio Certificate.
*List C143 for packages not cargo or crew/passenger effects.
*Danish Tollpass for ships arriving from Denmark.
XS4 (Authority for Agent to make Report and clear vessel outwards for Master).

*Note:* Where cargo is to remain on board for unloading at another port after Portsmouth, 3 copies of Ship's Report are required by the Custom House.

**PILOTAGE:** See "Southampton" entry for sea pilotage. As Portsmouth is within the Isle of Wight Pilotage District, a Sea Pilot must be employed by vessels subject to compulsory pilotage. Trinity House Portsmouth Pilots conduct vessels to and from the commercial berths. (Admiralty Pilots must also be employed by commercial vessels making use of any Admiralty berth or tugs.) Harbour Pilots put to sea only as required. Pilot boat "Spit Sand" (call sign "Portsmouth Pilots") is equipped with VHF, Channels 16, 11, 9 and 6, and shows international signals by day and night. In most cases, vessels bound to and from the Westward will find it more convenient to use the Nab or Eastern approach to Portsmouth.

**ANCHORAGES:** Small vessels may anchor close Westward of the "Outer Spit" buoy, unless prohibition signal flying – see "Restrictions". Larger vessels will be allocated a numbered anchor berth in the Spithead Man-of-War anchorage by the Queen's Harbour Master; Sea Pilots will be fully informed before vessel's arrival. If anchorage is prohibited in Spithead, St. Helen's Roads or Cowes Roads are the nearest safe anchorages. Mooring buoys inside the harbour are occasionally used.

**MAXIMUM SIZE:** Commercial berths: Camber – length 260 ft., draft 16 ft. Flathouse – length 280 ft., draft 18 ft. Albert Johnson Quay – length 340 ft., depth at Spring low water, 14 ft.

Draft refers to arrival at spring tides. Vessels at all these berths must expect to take the bottom in soft mud at low water springs.

Admiralty berths used by commercial vessels: South Railway Jetty, Portsmouth, and Admiralty Oil Jetties at Gosport; regular use; maximum length 648 ft., maximum draft 36 ft. These figures may occasionally be exceeded in special cases.

**RESTRICTIONS:** The following traffic signals are exhibited and must be complied with by all vessels. Shown by Central Signal Station (C), Blockhouse (B), Gilkicker (G), Dolphin Pier (D) and H.M. ships concerned (S).

| *Day* | *Night* | *Meaning* | *Shown by* |
|---|---|---|---|
| Red flag with white diagonal. | Red<br>Green<br>Green | No vessel to enter or leave harbour or enter approach channel North of Outer Spit Buoy. | C<br>B<br>G |
| Red flag with white diagonal over black ball. | | No vessel to enter harbour or approach channel. Outward shipping may proceed. | C<br>B<br>G |
| Black ball over red flag with white diagonal. | | No vessel to leave harbour. Inward-bound shipping may proceed. | C<br>B<br>G |
| Black pendant. | White<br>Red<br>Red | No merchant or private vessel to anchor in man-of-war anchorage in Spithead. | G |
| Answg. Pendant over Pt 0. | | All vessels North of Outer Spit keep clear of warship flying this signal. | S |
| Answg. Pendant over Pt. 9. | Green<br>Green<br>Green | All vessels and boats keep clear of H.M. ships under way. | C<br>B<br>G |
| Answg. Pendant over flags N E | Green<br>Red | Proceed with great caution, ships leaving Camber (Not ferries). | B |
| Answg. Pendant over flag A. | Red<br>Red | Divers down, keep clear. | Diving boat. |
| Flag E | Orange | Submarine entering or leaving Haslar Lake. At night, light flashes when sub. under way. All vessels keep clear of submarines. | B<br>D |

Speed limit of 7 knots in harbour and when within 1,000 yards of shore; 12 knots within 1,000 yards of any of H.M. ships and anywhere within the Dockyard Port not covered by the 7 knots limit. Dockyard Port boundaries are shown on Admiralty charts.

Time of entry is restricted by the vessel's draft and state of tide. Enter Camber only at 4 hours before high water or at high water slack. Vessels do not berth at South Railway Jetty from 2 hours before high water until high water.

**HEALTH:** Foreign arrivals to complete Maritime Declaration of Health. They are cleared immediately on arrival by either a Port Doctor or an officer of H.M. Customs, depending on where ship comes from and whether there is sickness on board.

Vessels arriving from ports within accepted area (North European ports) and coastal arrivals need not present Declaration in all cases; when there is sickness on board, Port Health Authority must be informed, preferably not more than 12 nor less than 3 hours before arrival.

**RADIO:** See "Southampton" entry for Sea Pilot Communications. "Portsmouth Harbour Radio" keeps continuous watch during normal office hours and from 00 minutes until +15 minutes of every hour when office is closed. VHF only. Channel 16 for calling and Channel 11 working frequency.

Gilkicker Signal Station is equipped with VHF Channels 16, 13, 12, 11, 10 and 6 with limited range, and is also equipped for visual signalling. Medium frequency radio-telephone only by link call through Nitonradio.

**TUGS:** 200-ton tug with bollard pull of 2 tons and several two-boat launches are available for commercial vessels at commercial berths. Two 1,600 hp diesel paddle tugs and five screw tugs are available for larger vessels using Admiralty berths.

**STEVEDORES:** Registered dock workers and cranes must be ordered by 1500 hours on the day previous to commencement of discharge or loading, depending upon receipt of exact ETA from Master.

**MEDICAL:** All medical facilities available. Agent should be advised in advance. (See "Southampton" entry if arrival is solely to land sick personnel.)

**CUSTOMS ALLOWANCES:** As for "Southampton".

**DENSITY:** 1025 salt water.

**FRESH WATER:** Available.

**FUEL AND DIESEL OILS:** Available by road tanker or bunker barge from Fawley.

**FIRE PRECAUTIONS:** Notices will be delivered to Master if berthing at any jetty where special precautions apply.

**HATCHES:** Opened and closed by ship's crew.

**CRANAGE:** Two mobile cranes of 15 tons, 1 mobile crane of 10 tons and 13 mobile cranes of 2 tons capacity are provided by the Port Authority.

**CONSULS:**

Belgium
Denmark
Finland
France
Netherlands
Norway
Sweden

**REPAIRS:** Minor deck and engine repairs can be carried out locally. Larger repairs and dry dock facilities at Southampton.

**AIRPORT:** Fast train service from Portsmouth to London Airp Portsmouth and Eastleigh airports are local, but mainly short flig to Channel Islands and feeder services.

**SERVICES:** All marine, radio and radar services can be obtai from Southampton.

**REPATRIATION:** All facilities exist.

**TELEPHONES ON BOARD:** No.

**AUTHORITY:** Admiralty acting through Queen's Harbour Mas City of Portsmouth for Commercial berths.

## PORT TALBOT: 51.35 N. 03.49 W.(See Plan)

**DOCUMENTS:**

Ship's Register.
Test Certificate for ship's gear.
Manifest.
Master's Report to be completed on arrival.
Customs and Health Documents as required by H.M. Custo and Port Health Authorities, to be completed on arrival.

**PILOTAGE:** Station – Swansea Bay. Usual International sign VHF Channels 16 and 12.

**ANCHORAGES:** Swansea Bay.

**RESTRICTIONS:** *Ore terminal* in New Harbour, entrance chan 1½ miles long, 550 ft. wide. Depth 60 ft. MHWS, 53 ft. MHWN.

**MAX. SIZE:** *Ore terminal* – 100,000 tons dw ore carriers – draft 4

**TUGS:** Off Breakwater.

**BERTHING:**

*New Harbour.* British Steel Corporation provide two unload appliances on the jetty and also a conveyor-belt system to carry iron ore to the stocking ground close to harbour and steel wor Grabs on the unloading appliances weigh 22 tons each, and ea have a pay-load of 22 tons. The two discharging appliances toget have an unloading rate of 3,600 tons per hour. Average rate throu out discharge from start to finish of the two discharging applian together is 1,800 tons per hour.

**STEVEDORES:** ETA advices sent by vessels to local Agent a then advised to British Steel Corp. as stevedores. Labour orde by Agent from B.S.C.

**DENSITY:** Ore Terminal 1025.

**FRESH WATER:** By gravity 10 tons per hr. Harbour pumping tons per hr.

**FUEL:** By barge or road tanker. Any grade available.

**GANGWAY/DECK WATCHMEN:** None, but bye-laws state t vessel must be manned.

**OPENING/CLOSING HATCHES:** Performed by crew.

**CUSTOMS ALLOWANCES:** Tobacco, 1 oz. per day per m maximum 8 days. Wine/Spirits, ¼ pint per day per man, every 4 da

**IDENTIFICATION CARDS:** Docks Police would require ide fication to be available.

**CONSULS:** None at Port Talbot; contact Swansea.

**REPAIRS:** Facilities exist.

**DRY DOCKS:** 460 ft. × 58 ft.

**REPATRIATION:** All facilities exist.

**AIRPORT:** Rhoose Airport 25 miles away. Mainly short trips c necting with main airports.

**TIME:** GMT plus 1. GMT in winter months.

**HOLIDAYS:** It is the custom, at the Tidal Harbour, to wor Bank Holidays.

**POLICE/AMBULANCE/FIRE:** Dial 999 and ask for service quired.

**TELEPHONES:** Can be connected on board.

**AUTHORITY:** Docks Manager, Swansea & Port Talbot, Swans

**AGENT:** Cory Brothers Shipping Ltd., Commercial Buildi Station Road, Port Talbot. Cables: "Cory Port Talbot". Telex: 48 Tel. Port Talbot 2292.

## ROCHESTER: 51.23 N. 00.30 E. (including Chatha Strood, Upnor, Gillingham, Otterham Quay, Snodla Halling & New Hythe)(See Plan)

**DOCUMENTS:** See "London".

**PILOTAGE:** See "Medway".

**ANCHORAGES:** See "Sheerness".

**RESTRICTIONS:** No entry restrictions only as to state of tide a draft and as directed by Medway Radio (Medway Port Con Authority). Station keeps watch on Channel 14. Medway patrol lau on R/T 2182 kc/s. For vessels exceeding 350 ft. in length, dayli navigation on river only.

**MAX. SIZE:** For Rochester ship berths maximum length 40 and 25 ft. draft. River berths available 160/500 ft. in length, with dep of water HWST 14/25 ft. and HWNT 9/20 ft. All wharves NAABSA.

**HEALTH:** Pratique obtained on arrival at Sheerness where P Medical Officer is available if required.

**RADIO:** From South: Lands End, Niton, North Foreland. F North: Cullercoats, Humber, North Foreland.

**TUGS:** Compulsory for vessels over 300 ft. in length.

**BERTHING:**

*Rochester:* Vessels can remain afloat at all stages of the tide a following:

| *Berth* | *Max. length (ft.)* | *Berth* | *Max. length (ft.)* |
|---|---|---|---|
| Strood | 365 | No. 6 | 460 |
| Upper Acorn | 220 | No. 7 | 250 |
| Middle Acorn | 300 | No. 8 | 150 |
| Lower Acorn | 200 | No. 9 | 220 |
| No. 3 | 390 | No. 10 | 220 |
| No. 4 | 260 | No. 11 | 180 |

Current depths can be ascertained from Medway Port Operations Service.

Buoys are provided at other points within the River Medway and The Swale. Arrangements to use these buoys at current charges may be made through the Medway Port Operations Service.

*Kethole Reach*

| Buoys | |
|---|---|
| 21 & 22 | Fore and aft mooring – distance apart 660 ft. Maximum displacement 16,000 tons. 2nd class mooring. |
| 22 & 23 | Fore and aft mooring – distance apart 330 ft. Maximum displacement 8,000 tons. 3rd class mooring |
| 23 | Swinging buoy – maximum length of vessel 200 ft. Maximum displacement 2,500 tons. 4th class mooring |

*Saltpan Reach*

| Buoy | |
|---|---|
| 2 | Super 1st class mooring – maximum displacement 70,000 tons |
| 3* | 2nd class mooring – maximum displacement 16,000 tons |
| 4* | 2nd class mooring – maximum displacement 16,000 tons |
| 5 | maximum displacement 3,500 tons |
| 6 | maximum displacement 3,500 tons |
| 7 | maximum displacement 3,500 tons |
| 8 | maximum displacement 3,500 tons |
| 9 | maximum displacement 3,500 tons |
| 10 | maximum displacement 3,500 tons |

* By permission of the Ministry of Defence (Navy).

**MEDICAL:** Port Medical Officer available if necessary on arrival at Sheerness with 24 hours notice to Agents. Doctor and hospital facilities available at Rochester.

**DENSITY:** 1020 unless excessive land water coming down river.

**FRESH WATER:** Quantities up to 200 tons available for delivery by water barge.

**FUEL:** Oil bunkers may be obtained at the main installation at the Isle of Grain Oil Refinery, or by barge or by road tanker. The last two methods require minimum 48 hours notice, similarly with supplying lubricating oil which is not available at the Isle of Grain.

**HATCHES:** Opening/Closing to be carried out by crew.

**CARGO GEAR:** Discharge by ship's gear at ship berth and by mobile cranes up to 5 tons at all river berths.

**CONSULS:**

Vice-Consul Netherlands, tel. Medway 43256.
Vice-Consul Sweden, tel. Medway 44632.
Vice-Consul Finland, tel. Medway 44632.

**REPAIRS:** All types deck and engine repairs possible.

**DRY DOCKS:** All repair facilities available on river berths for vessels up to 200 ft. in length; on a grid for up to 250 ft., and a slipway for up to 140 ft.

**AIRPORT:** London Airport (Heathrow), Southend Airport.

**POLICE/AMBULANCE/FIRE:** Police, Medway 41566; Ambulance, Medway 52201; Fire, Medway 50005 or Maidstone 54207.

**SERVICES:** Compass adjustors available.

**REGULATIONS:** See "Medway".

**AUTHORITY:** Medway Ports Authority.

**AGENT:** George Watson & Gill Ltd., 276 High Street, Rochester, Kent. Tel. Medway 43256 and 43257. Telex: 96125. Cable: Tug Rochester.

## SHEERNESS: 51.27 N. 00.44 E. (See Plan)

Situated on Isle of Sheppey at junctions of Thames and Medway Rivers.

**DOCUMENTS:** See "London".

**PILOTAGE:** See "Medway".

**ANCHORAGES:** For vessels entering River Medway up to 350 ft. length, Little Nore Anchorage, Sheerness. Over 350 ft. length – as directed by Medway Port Authority (Medway Radio) or Thames Navigation to Great Nore, Sea Reach or Warps.

**RESTRICTIONS:** Entry restrictions only to state of tide and draft and as directed by Medway Radio (Medway Port Control Authority). Station keeps watch on Channel 14, Medway Patrol launch on R/T 2182 kc/s. Occasional restriction for entering approaching channel when Navy claim priority.

**MAX. SIZE:** Sheerness. Max. length of vessel 650 ft., draft 38 ft. deep water berth. 12 berths in docks for vessels up to 250 ft. in length and 16–18 ft. draft dependent on tides.

Queenborough: Max. length of vessel 335 ft., draft of 22 ft.

Ridham Dock: Max. length of vessel 335 ft., beam 50 ft., draft of 22 ft.

**RADIO:** Portishead. Local Stations: From South – Lands End, Niton, North Foreland. From North, Cullercoats, Humber, North Foreland.

**VHF/RADAR:** See "Medway".

**TUGS:** River Medway – For Sheerness, Ridham Dock, Isle of Grain, Bee Ness, Oakham Ness – Tugs usually meet vessels at Garrison Point Sheerness – 7 tugs available with BHP range from 900 to 3,000 BHP. Tug's lines used, no extra charge.

**BERTHING:** Sheerness, deep water berth – no restriction. Dock berths – limited to 2 hours before and 1 hour after high water.

Berths equipped mainly for handling fresh fruit and vegetables, general cargo, wines in cask and bulk.

Storage facilities available for bulk wine.

No facilities exist for handling bulk cargoes at present.

Containers can be handled in Inner Docks where a 30-ton crane is available.

*Sheerness Deep Water Berths – No. 1* – suitable for vessels up to 570 ft. length and 28 ft. draft.

*No. 2.* Suitable for vessels up to 650 ft. length and 38 ft. draft.

*No. 3.* Suitable for vessels up to 650 ft. length and 38 ft. draft.

*Roll on/roll off ferry berth.* Suitable for either bow or stern door vessels of up to 450 ft. length and 18 ft. draft. Present service daily Sheerness/Flushing and vice versa.

*Inner Docks.* Twelve berths suitable for vessels up to 260 ft. length and 16 to 18 ft. draft, dependent on tides. Berths in Inner docks are n.a.a.b.s.a. berths, there being about 8 ft. of water on berths at LW.

*Oakham Ness Jetty.* Max. size 750 ft. 38 ft. draft, 55,000 dwt.

*Private Docks:* Queenborough and Ridham Dock are privately operated.

Queenborough berthing restricted to daylight only.

*Ridham Dock:* Berthing restricted to daylight hours at present time. Maximum size of vessel length 335 ft., beam 55 ft., draft 22 ft. Four berths equipped mainly for pulp, logs and general cargo. Vessels pass through lifting bridge (Kings Ferry), fitted with VHF Channel 10. Lifts can be arranged firect on this Channel or via Medway Radio.

Agents: Independent Sea Terminals Ltd., tel. 079-5-70881. Telex 96409.

*Queenborough:* Four buoys are available at Queenborough with the following limitation on size and numbers of vessels:

Between Nos. 1 & 2 Buoys – not more than 2 vessels of 260 ft.
Between Nos. 2 & 3 Buoys – not more than 2 vessels of 160 ft.
Between Nos. 3 & 4 Buoys – not more than 2 vessels of 160 ft.

**STEVEDORES:** ETA's of vessels passed to Stevedores in daily consultation with Agents – minimum notice of arrival required being 24 hours for arranging gangs. (Main commodity handled at Sheerness is canned or fresh fruit, perishables, wine and general cargo with average discharge rate of 18 tons per gang hour.)

**MEDICAL:** 24 hours notice to Agents so that Port Medical Officer can be advised. Normal boarding point – Garrison Point Sheerness – smallpox vaccination certificate required for sighting. All usual hospital facilities available within 15 mile range of Sheerness.

**DENSITY:** Average density 1021/22.

**FRESH WATER:** Available alongside all berths at Sheerness. Otherwise available anywhere in River by barge.

**FUEL:** All grades available at BP Refinery Isle of Grain – or available by barge or lorry given 48 hours notice.

**GANGWAY/DECK WATCHMEN:** Gangway watchmen – services recommended as all berths at Sheerness are tidal with average rise and fall of 16 ft.

**OPENING/CLOSING HATCHES:** Within Sheerness Docks rigging gangs are employed by stevedores for this purpose.

**REPAIRS:** All types of deck and engine repairs can be carried out either in berth, in dry dock or at river buoys.

**DRY DOCKS:** Sheerness: 4 dry docks available. Largest for vessels up to 280 ft., otherwise only small slipways available.

**REPATRIATION:** Usual facilities available for crew changes – repatriation can be arranged by various air/sea routes.

**TELEPHONES:** Police: Sheerness 2261; Fire: Sheerness 2382 or dial 999 and ask for Fire Service; Ambulance: Sheerness 2028. At Sheerness coin boxes are available for placing on board.

**GENERAL:** All shipping movements co-ordinated by Medway Port Control Authority, tel. Sheerness 3025, all arrangements being made after notification of arrival or departure by vessel's Agent.

**REGULATIONS:** See "Medway".

**AUTHORITY:** Medway Ports Authority.

**AGENT:** Wm. Hurst Ltd., 19 West Street, Sheerness. Tel. 0795-6-2356. Telex 96116. Cables "Hurst Sheerness".

## SHOREHAM: 50.50 N. 00.15 W. (See Plan)

**DOCUMENTS** and all general information, refer to "London". Distance from London, 50 miles.

**PILOTAGE:** Trinity House Pilotage Service. Pilotage Cutter equipped with VHF.

**ANCHORAGE:** Off Harbour. Depths as per English Channel Charts.

**RESTRICTIONS:** No night restrictions. Port normally accessible 4 hours before and 2 hours 40 minutes after High water. According to size and draft these times can be extended.

Main entrance channel, 400 ft. wide, leads into a 300 ft. channel to the Eastern arm, and a 135 ft. wide channel for the Western arm.

Dimensions of Prince Philip Lock: 374 ft. length, 57 ft. width.

**MAX. SIZE:** Length 350 ft. Draft 21 ft. subject tide.

**RADIO:** Niton Radio/North Foreland Radio.

Port operation and information service manned continuously, contact by VHF calling Channel 16, working Channel 14. Station is situated on the middle pier.

**TUGS:** One tug available if required. Tug lines used for which no extra charge.

**BERTHING:** Vessels passing lock gates have locking period of 4½ hours before High water to 2 hours 40 minutes after – both according draft. Heavy lift crane, 32 tons capacity for container handling.

A bulk wine terminal capable of handling 800,000 gallons of wine is available.

**STEVEDORES:** Reasonable ETA is sufficient for gangs to be called.

**MEDICAL:** All facilities available.
**DENSITY:** Approx. 1025.
**FRESH WATER:** Available at Lock Gates and most berths.
**CONSULS:** Danish – P. D. Wharfage & Transport Ltd.
**DEVELOPMENTS:** The gasworks of 32 acres have been purchased and will, when levelled, piled and dredged give additional berthing accommodation, Expected to be operational late 1974.
**AUTHORITY:** Shoreham Port Authority.

**AGENT:** P. D. Wharfage & Transport Ltd., 31, High Street, Shoreham-by-Sea, Sussex, BN4 5EG. Tel. Shoreham-by-Sea 2345. Telex: 87187. Cables: "Shipbroker Shoreham-by-Sea".

## SOUTHAMPTON: 50.54 N. 01.24 W. (See Plan)

**DOCUMENTS:**
1 Maritime Declaration of Health.
1 Crew's Effects List.
2 Ship's Report by Master.
1 Home Office Form 1B6.
1 Stores List.
1 Certificate of Deck Cargo Tonnage.
1 Grain Certificate.
1 Light Certificate.
1 Port Dues Certificate.
1 Passenger List.
1 Landing Card for each Passenger.
Ship's Certificate of Registry.
Mercantile Marine Office Certificate – for British ships only.
Load-line Certificate.
Safety Equipment and Safety Construction Certificate.
Lloyds Certificate.
Derat Certificate.
Ship's Register.
Light Bills.
Safety Radio Certificate.

In addition, Manifests and Bills of Lading are usually sent to Agent direct from loading port.

**PILOTAGE:** Compulsory, with usual regular Home Trade and other small exemptions. In addition to 48 hours notice to local Agent, advise Nab or Needles Pilot as appropriate, ETA 48 hours and again 2 to 3 hours immediately prior to arrival. The Nab and Needles stations are maintained by fast launches under the control of the Duty Pilot at Ryde Pier Pilot Station. Duty Pilot keeps a continuous watch on VHF Channel 16; call sign NABPILOT or NEEDLESPILOT as appropriate. Working frequency: Channel 9 only, but can listen on Channels 6, 12 and 14. No medium frequency: M/F and R/T messages via NITONRADIO. Duty Pilot's GPO telephone numbers: Ryde 3192 and 3228.

The launches only put to sea when required. *Failure to send an accurate ETA 2 to 3 hours before arrival could cause delay to the offending vessel.*

The Nab and Needles Pilots also act as sea Pilots for vessels bound for Portsmouth, Cowes and other small ports within the Trinity House Isle of Wight Pilotage District. The limits of the District are defined by a line drawn from a point 180°–1 mile from Selsey Bill to a position in latitude 50° 40′ N., longitude 0° 57′ W (Nab Tower), thence to a point 180°–1 miles from Culver Cliff, thence to a position 180°–1 mile from St. Catherine's Point and thence direct to Peveril Point.

Strict compliance with the requirements of the Merchant Shipping (Pilot Ladders) Safety Rules is requested by the Pilots, who may refuse to board vessels with unsatisfactory and dangerous ladders. Manropes are not required. Ladders should reach to approximately 3 ft. from the water and a good lee provided whilst making approximately 5 to 7 knots headway.

*Eastern Approaches or Nab Tower.* The station is maintained by 40-ft. fast launches, black hulls, white wheelhouses, showing international signals. VHF Channels 6, 9, 12 and 16. Vessels under 40 ft. draft are normally boarded between the "New Grounds" and "Dean Tail" light buoys, although in bad weather, boarding at the "Warner" buoy or St. Helen's Roads might be advised by the Duty Pilot. Launches operate from Ryde pier.

Vessels over 35 ft. draft are restricted by tide for time of entry, and will be advised by the Duty Pilot. Vessels of 40 ft. draft and over use the Nab Channel and a message advising Tanker Master of transit times will be sent by Essoship Fawley and confirmed prior to arrival by Duty Pilot on VHF.

The Nab Channel has a limiting depth of 42 ft. below Chart Datum (June 1971). Pilot will board all vessels of 40 ft. draft and over in a position 2 to 3 miles South of the Nab Tower. Masters of such vessels are strongly recommended not to approach closer than 2 miles to the Nab Tower without a Pilot, owing to strong tidal streams. It is advisable for a deep-drafted ship to anchor 3 miles South of the Nab Tower if waiting for the tide. Advice will always be given on request to the Duty Pilot by VHF.

Pilot *will not* board vessels under 40 ft. draft outside the defined pilotage district unless specifically requested by the Master to do so. The additional "Out of District" charge for boarding beyond the normal limits will be debited to Owners.

*Western Approach – Needles:* Vessels drawing more than 31 ft. are advised to enter via the Nab. Masters are strongly urged not to proceed beyond the Fairway Buoy without a Pilot, especially on the flood tide. Safe anchorage in vicinity of Fairway Buoy.

Station maintained by 40 ft. fast launch with black hull and white wheelhouse, showing international signals. Launch operates from Yarmouth pier or Totland Bay Pier. Needles pilot launch is fitted with VHF Channel 6, 9, 12 and 16. No medium frequency.

When it is considered that the weather is deteriorating to the extent that the boarding and landing of Pilots could in the near future become dangerous, a message will be sent to all ships through Nitonradio, as follows:

> "Needles Pilot operating bad weather routine. Vessels should ascertain at least three hours before their ETA Needles whether a Pilot will be available. This information can be obtained either through Niton Radio or direct from Needles Pilot on VHF."

If it is not safe to ship or land the Pilot at the Needles, Master will be advised to proceed to the Nab.

In poor visibility a vessel requiring Pilot at either Nab or Needles uses a distinguishing signal of "G" to which the pilot launch will reply with "H".

Vessels (*a*) drawing more than 35 ft. (*b*) more than 1,000 ft. in length or (*c*) of more than 100,000 tons deadweight exhibit a large black cylinder by day and three vertical red lights by night. Vessels showing these signals are not to be passed or overtaken within channel limits between the "West Bramble" and "Hook" light buoys and may not be able to comply with the Collision Regulations at other times. Will indicate inability by five short blasts on the whistle. "Clear channel" control is exercised by the Operations Officer at Southampton Port Radar Station.

Information on movements of other vessels can be obtained on VHF from this station, which also controls the movements of the Patrol Launch (Harbour Master flag by day; all-round blue light at night) used for pollution detection and keeping yachts and small craft clear of large vessels navigating in the channels of the port. The Thorn Channel has a limiting depth of 40½ ft. (June 1971) at low water datum.

Up to seven vessels of under 300 ft. in length are permitted to anchor out of the channel to the East of the Hook Buoy in the designated Small Ship Anchorage, the limits of which must be strictly observed. Three numbered anchor berths are available in the Fawley Reach Controlled Anchorage, where vessels must moor to two anchors. Permission to use the Small Ship and Controlled Anchorages must be obtained from the Operations Officer, Southampton Port Radio.

**MAX. SIZE:** The largest passenger and container vessels call regularly at Southampton. Tankers: Fawley can accept partly loaded 200,000 dwt. up to 49 ft. draft.

**HEALTH:** Foreign arrivals to complete Maritime Declaration of Health. They are cleared immediately on arrival by either a port doctor or an officer of H.M. Customs depending on where ship comes from and whether there is sickness on board.

Vessels arriving from ports within accepted area (N. European ports) and coastal arrivals need not present Declaration in all cases; when there is sickness on board the Port Health Authority must be informed preferably not more than 12 hours and not less than 3 hours before arrival.

**RADIO:** A Duty Port Operations Officer, responsible to the Southampton Dock and Harbour Master, maintains a continuous watch at 37 Berth Port Communications and Radar Station: call sign "Southampton Port Radio". He is to be informed prior to any movement to, from or within the port area. The following VHF Channels are operated within the port:
Southampton Port Radio: Channels 16, 14, 12, 11, 10, 18, 20 and 22.
B.T.D.B. Patrol Launch: Channels 16, 14, 12, 11, 10, 8 and 6.
Nab and Needles Pilot Launches: Channels 16, 14, 12, 9 and 6.
Berthing Pilot's Launch: Channels 16, 12, 9, 8 and 6.
Tugs: Channels 16, 12, 10 and 8.
Esso Petroleum Terminal, Fawley: Channels 16, 14 and 19. Private frequencies: 163.0/158.5 Mc/s. AM and FM.
Shell-Mex-B.P., Hamble Jetty: Channels 16 and 14.
Duty Pilot, Ryde Pier and Berthing Pilots, Southampton Docks: Channels 16 and 9: can listen on Channels 14, 12 and 6.

**TUGS:** Two tugs are permanently stationed at Fawley; if more than 2 tugs are required it should be noted that week-end requirements have to be advised to the tug operators not later than 1600 hours on Friday of each week.

If a vessel requires more than 2 tugs and is due to arrive at Fawley between 0000 hours Saturday and 0900 hours Monday, ETAs must be submitted well in advance of 1600 hours on the Friday prior to arrival. It is usual to use the wires provided by the tugs for towing.

**BERTHING:**

| *Dock or quay* | *Berth nos.* | *Nominal dredged depth* below chart datum†* feet | *Length of quays* feet |
|---|---|---|---|
| Container berths | 204–5 | 42 | 2,100 |
| Container berth | 202 | 40 | 900 |
| | 201 | 33·5 | 1,000 |
| Western docks | 101–109 | 38·5 | 7,741 |
| | 110 | 33·5 | 273 |
| Ocean dock | 42–47 | 38·5 | 3,807 |
| Dock head | 37 | 25·5 | 470 |
| Empress dock | 20–21 | 24·5 | 848 |
| | 22–23 | 22·5 | 770 |
| | 24–27 | 23·5 | 1,647 |
| Itchen quays | 29 | 18·5 | 350 |
| | 30–33 | 31·5 | 1,406 |
| | 34–36 | 32·5 | 1,590 |
| Princess Alexander dock | 2S–3–4 | 20·5 | 903 |
| | 1–2N–6–7 | 16·5 | 1,760 |
| | 8–9 | | |
| Town quay | 63–65 | 17·5 | 705 |
| | 66 | 21·5 | 340 |
| | 67 | 16·5 | 340 |
| | 68–69 | 17·5 | 700 |

Other berths are available. Lesser draft berths not shown. The depths of water are maintained as far as practicable, but are subject to variation and are not guaranteed.

• To find the depth of water in the berths add the tidal rise to the depths shown in the above table.

† Chart datum is approximately the lowest low water level.

**TANKERS: Esso Marine Terminal, Fawley.** There are 9 berths at Fawley, all running parallel to the main channel. The 5 berths on the outside of the jetty facing the main channel are for ocean-going vessels, No. 1 berth being the most Northerly. The 4 berths on inside of jetty are for small coastal craft. No. 6 berth being the most Northerly.

The following LWD depths are dredged and subject to alteration:

| | *Alongside* | *Approaches* |
|---|---|---|
| Berth No. 1 | 33·5 ft. | 33·5 ft. |
| ,, No. 2 | 37·5 ft. | 35·5 ft. |
| ,, No. 3 | 41·5 ft. | 45·0 ft. |
| ,, No. 4 | 49·0 ft. | 45·0 ft. |
| ,, No. 5 | 49·0 ft. | 45·0 ft. |
| ,, Nos. 6-9 | 18·5 ft. | 18·5 ft. |

Shore gangways are available on Berths 4 and 5 for vessels of 47,000 dwt and over.

*Dirty Ballast Facilities:* Dirty ballast facilities are on all berths with maximum storage of 14,000 tons.

**Shell Terminal, Hamble.** Situated immediately opposite Fawley; has two main berths running parallel to main channel, No. 1 being the Northern berth and also a small inside coaster berth. Depths 32 ft. alongside and approaches 29 ft. at LW.

Facilities and services as for Fawley with the exception of transport facilities, no transport being available within the depot. Ship's personnel are permitted to walk through the depot to Hamble Village where public transport to Southampton is frequent.

All grades of fuel and diesel bunkers and fresh water available on all berths.

**BUNKERS AND WATER:** All grades of fuel oil and diesel oil are available and water is piped on all berths.

**REPAIRS:** All ship repairs can be effected.

**OIL POLLUTION:** Southampton Water is an international yachting centre and has many holiday beaches on its shores. Consequently, oil pollution is treated very severely and heavy fines are imposed on offenders.

The Refinery operates a clean-up service, the cost of which is billed to the offending ship.

**MEDICAL:** Doctors and hospital facilities available. Agent should be advised in advance of any medical attention required.

An organisation exists for hospitalisation of sick seamen from vessels off Cowes, Isle of Wight. Arrange through Nitonradio, Duty Pilot, Ryde, or local Agent. Minimum delay to vessel.

**CUSTOMS ALLOWANCES:** At the discretion of local Customs Inspector. Normal allowances are equivalent to $\frac{1}{2}$ lb. tobacco per man and equivalent to 1 bottle of wine per man. Allowances may be halved for home trade vessels. Vessels in port for more than three or four days may receive extra allowances.

**DEVELOPMENTS:** The limits of the port of Southampton have been extended to join up in the East with the westward limit of the dockyard port of Portsmouth. Legislation is in hand to designate a main shipping channel serving the combined port areas, with priority given to vessels using it.

Plans are well advanced for an amalgamated pilot service for Southampton, thus abolishing the need to change Pilots off Netley.

**TIME:** British Standard Time is GMT plus 1 hour. GMT in Winter months.

**HOLIDAYS:** Good Friday (variable date); Easter Monday (variable date); Spring Bank Holiday (variable date); Autumn Bank Holiday (variable date); Christmas Day (25th December); Boxing Day (26th December).

**POLICE/AMBULANCE/FIRE:** Dial 999 from any telephone and ask for service required.

**AUTHORITY:** British Transport Docks Board, Southampton.

**AGENT:** P. D. Wharfage & Transport Ltd., Dibles Wharf, Belvidere Road, Southampton, SO1 1QY. Cables: "Shipbroker Southampton". Telex: 47373. Tel. Southampton 24682.

## STORNOWAY: 58.12 N. 06.22 W. (See Plan)

**PORT LIMITS:** An imaginary line from Holm Head to Arnish Point. Any vessel anchored inside the line would be normally considered an arrived vessel.

**PILOTAGE:** Pilotage not compulsory. Vessels requesting Pilot request same with ETA. Boarding off Arnish Point lighthouse.

**ANCHORAGES:** Anchorage in harbour between Goat Island and mouth of Creed River, 8 fathoms.

**RESTRICTIONS:** Entry night or day and at any state of tide. No bar on entrance.

**MAX. SIZE:** 400 ft. by 60 ft. by 22 ft. draft to berth alongside, 600 ft. length by 35 ft. draft for anchorage in bay.

**HEALTH:** The customary flying of "Q" flag.

**RADIO:** Wick Radio or alternatively Oban Radio.

**RADAR/VHF:** R/T-VHF established in harbour, Channels 16 and 12. Emergency messages may be passed through Stornoway Coastguard on 81·8 metres.

**TUGS:** No tugs available at port. Fishing vessels have been used, when necessary, for this purpose.

**BERTHING:** Vessels can be berthed at any time, provided berth is free.

Roll-on/roll-off ferry terminal for Stornoway/Ullapool service in operation.

*Depth of water at low water spring tides:* West side No. 1 pier: $24\frac{1}{2}$ ft. shallowing to 12 ft. at junction of North Beach Quay. East side No. 1 pier: $24\frac{1}{2}$ ft. shallowing to zero at inward end. West side No. 2 pier: $17\frac{1}{2}$ ft. shallowing to zero at inward end. East side No. 2 pier: $16\frac{1}{2}$ ft. shallowing to zero at inward end. Inner Harbour decreases from 12 ft. at junction of Esplanade Quay to 8 ft. at upper end of Cromwell Street Quay.

**STEVEDORES:** Arranged by Agents on receipt of ETA.

**MEDICAL:** Advance notice desirable. Hospital facilities available in the town.

**TANKERS:** Normal safety requirements. One tanker berth only 15 ft. mean draught, maximum length 220 ft.

**DENSITY:** Pratically always dead salt; 1025 density.

**FRESH WATER:** Fresh water available by hose at 15 tons per hour.

**FUEL:** 24 hours notice required.

**GANGWAY/DECK WATCHMEN:** Service of watchmen not necessary. Watchmen from shore may be employed if required.

**OPENING/CLOSING HATCHES:** Normally crew.

**IDENTIFICATION CARDS:** Not required.

**CONSULS:** French, Swedish, Norwegian; tel. Stornoway 12 55, and 367, 73.

**REPAIRS:** Minor deck and engine repairs can be carried out locally.

**DRY DOCKS:** No dry dock but one slipway of 750 tons displacement.

**REPATRIATION:** Facilities exist for this service.

**AIRPORT:** 3 miles from port, served regularly by BEA from Glasgow, Aberdeen and Inverness.

**HOLIDAYS:** New Year's Day, Christmas Day and all other local Bank Holidays. Cargo work can be arranged except New Year's Day. (No Sunday work.)

**POLICE/AMBULANCE/FIRE:** Police, Stornoway 222 (can deal with all three).

**TELEPHONES:** Can be arranged by prior application through Aberdeen office.

**GENERAL:** ETA to be sent 24 hours beforehand so that necessary arrangements can be made.

**AUTHORITY:** Stornoway Pier and Harbour Commission, Harbour Office, Stornoway. Tel: Stornoway 3285.

## STRANRAER: 54.55 N. 05.02 W.

**DOCUMENTS:** As for other British ports.

**PILOTAGE:** Not compulsory—no Pilot available.

**MAX. SIZE:** Largest vessel handled 375 ft. long. Working draft 12 ft. 6 in.

**BERTHING:** Three berths dredged to 14 ft. One with vehicular ramp. Deep water anchorage at Lady Bay.

**CARGO GEAR:** Portable crane of 10 tons capacity.

**TUGS:** Not available.

**RADIO:** VHF watch kept on Channel 16 at Ferry Terminal.

**MEDICAL:** Hospital in town.

**FRESH WATER:** Available at Railway Pier.

**FUEL OIL:** Limited quantities of fuel can be supplied from road tankers.

**REPAIRS:** Small repairs can be carried out by local engineering firm.

**AUTHORITY:** Stranraer East Pier is controlled by the British Rail Shipping and Port Manager, tel. 2262; telex 778125.

Stranraer West Pier is controlled by the Town Council Harbour Master, tel. 2460.

## SUNDERLAND: 54.55 N. 01.21 W. (See Plan)

**DOCUMENTS:**

Crew List. One form I.B.6A to be delivered to an Immigration Officer within 24 hours of arrival.

Passenger Lists. Form P.R.4. in duplicate and Form P.R.10. in duplicate.

Customs Documents. Crew Declaration Form C.142 in duplicate.

Cargo Manifests, triplicate.

*Ship's Papers:*

- Register.
- Load Line Certificate.
- Safety Radio Certificate.
- Safety Equipment Certificate.
- Safety Construction Certificate.
- De-ratisation Certificate.
- Customs Light Bills.

**PILOTAGE:** Call Sunderland Harbour Radio, Channel 16, working Channel for port is 14. Pilotage not compulsory, but advisable for all but small vessels. Pilots maintaining continuous watch on VHF Sound signals for vessel requiring Pilot is Morse Code number 6. Pilot boards $\frac{1}{2}$ to $\frac{3}{4}$ mile off piers. In bad weather pilot cutter leads vessel into inner harbour, and Pilot boards there.

**ANCHORAGES:** $\frac{1}{2}$ to $\frac{3}{4}$ miles North-east of Roker Pier Lighthouse.

**ENTRY RESTRICTIONS:** Vessels enter two hours before high-water for entry into South Dock. For Corporation Quay only restriction is on draft.

**MAX. SIZE:** South Dock – length 465 ft. beam 62 ft., draft 26 ft. 6 in. with spring tides, 23 ft. 6 in. with neap tides.

River – length 600 ft., beam – no restriction, draft 27 ft. 6 in. subject to siltage.

**HEALTH:** Pratique procedure: pratique granted by Port Health Authority on arrival.

Suspected disease or fever: all ships from suspected areas must radio Port Health Authority 24 hours in advance of arrival, stating general condition of crew members. Pratique is automatic when ships arrive from other U.K. ports.

**RADIO:** Cullercoats.

**RADAR/VHF:** Radar based in Pilot House on Old North Pier and is used by Pilots in conjunction with VHF.

**TUGS:** Join vessel at or outside harbour entrance. Ship's ropes normally used.

**BERTHING:** In South Dock vessel must arrive from two hours before up to a half an hour after high water. At Corporation Quay small vessels berth at any time. Large vessels usually berth at same time as mentioned for South Dock.

**BRIDGES:** In South Dock bridges operated at tide time two hours before to a half hour after high water. Railway Bridge clearance, 82 ft. 4 ins. MHWS.

**STEVEDORES:** The Port of Sunderland Authority carry out all stevedoring. Agents should advise as early as possible in order to arrange berthing and gangs, 5 to 6 days notice if possible. ETA from ship 2–3 days in advance. Working rates of principal commodities are:

| | | |
|---|---|---|
| Bagged cargoes | 15 tons per hour | |
| Sisal | 20/25 ,, ,, ,, | |
| Scrap – heavy | 30 ,, ,, ,, | |
| Chrome and heavy ores | 30 ,, ,, ,, | |
| Wood Pulp | 30 ,, ,, ,, | (loose bale) |
| Wood Pulp | 50 ,, ,, ,, | (unitised) |

**MEDICAL:** Well served with General Practitioners and hospital facilities, and attention can be arranged at very short notice. However, unless urgent, 24 hours notice desirable.

**TANKERS:** Four installations – lines either 6 in. or 8 in. Three installations in South Dock and two berths, the South-east oil berth 320 ft., the South-west oil berth 290 ft. One vessel of maximum length 465 ft. can use this berth, draft 26 ft. 6 in. spring tides; 23 ft. 6 in. neap tides. At Corporation Quay vessel 600 ft. long, draft 27 ft. 6 ins.

**DENSITY:** Salt water density 1025.

**FRESH WATER:** Available. Arrangements can be made to supply water at any time.

**FUEL:** Bunkers supplied at Corporation Quay by pipe-line from Petrofina Ltd. All grades available – Corporation Quay and Hendon Dock. Viscosities range from 32 seconds to 3,500 seconds, and can be blended to any requirement in this range. 12 hours notice necessary. Rate 250 t.p.h.

**GANGWAY/DECK WATCHMEN:** Services of watchmen recommended.

**OPENING/CLOSING/HATCHES:** This work is normally carried out by ship's crew, otherwise shore riggers.

**SHIP CERTIFICATES:**

Register.
Load Line Certificate.
Safety Radio Certificate.
Safety Equipment Certificate.
Safety Construction Certificate.
Deratisation Certificate.

**CUSTOMS ALLOWANCES:** As per HM Customs and Excise Regulations.

**IDENTIFICATION CARDS:** Not required. Must possess valid Seaman's Book and/or Passport.

**CONSULS:**

| | | |
|---|---|---|
| Denmark | tel. Sunderland | 70811 |
| Iceland | ,, ,, | 70811 |
| Finland | ,, ,, | 72846 |
| France | ,, ,, | 73694 |
| Norway | ,, ,, | 70101 |

**REPAIRS:** All repairs possible.

**DRY DOCKS:** Large dry dock, length 675 ft., breadth 87 ft. 6 in. 2 smaller dry docks.

**REPATRIATION:** Facilities available for effecting repatriations, with good rail, road and air communications.

**AIRPORT:** Approximately 20 miles. Airport served by regular airlines, all the year round, to all parts of the world. Also chartered flights by Britannia.

**HOLIDAYS:** Official Holidays for General Cargo ships: New Year's Day (no work except by special agreement); Good Friday; Easter Monday; Summer Bank Holiday; Christmas Day (no work except by special agreement); Boxing Day (no work except by special agreement).

**POLICE/AMBULANCE/FIRE:** Police Station tel. Sunderland 76155; Ambulance Control tel. Sunderland 72875; Fire Station tel. Sunderland 56456. Or call 999 from any telephone and ask for service required.

**TELEPHONES:** Permanent arrangements do not exist, but a temporary arrangement can be made at any time.

**AUTHORITY:** Port of Sunderland Authority (Sunderland Corporation).

## SWANSEA: 51.37 N. 03.56 W. (See Plan)

**DOCUMENTS:**

Light Bill receipt.
Ship's Register.
Crew List.
Manifests.
Bill of Lading copies.
Customs and Health.

**PILOTAGE:** Request for Swansea Pilots by International Signal Code for Sea Pilots, by telephone call for Dock Pilots. Telegraphic address for Swansea Pilots is "Pilority, Swansea".

Advance notice of ETA required at least 12 hours. VHF Channels 16 and 6. Pilot boat has bright yellow hull with red boot-topping; superstructure painted white. Pilot cutter's sound signal is SM, three shorts and two long blasts. The area of boarding is usually one mile South-east of Mumbles Lighthouse in all weathers. Usual requirements for ladders are in force, and Pilots require ladder to be about four to five feet above water.

**ANCHORAGE:** About 1 mile South-east of the Mumbles Lighthouse.

**RESTRICTIONS:** Berthing is in accordance with tide. King's Dock Lock operates for a minimum of 8 hours each tide. River-side berths and Swansea Ferryport Terminal operate over a greater period.

No night-time restriction of entry.

**MAX. SIZE:** Maximum size for entry is 655 ft. long, 86 ft. beam, 32 ft. 6 in. draft.

These vessels are docked over high water period. Any vessel whose dimensions are approaching maximum for port should advise Docks Manager well in advance.

**HEALTH:** Usual international health regulations are to be observed. Any vessel which is suspect should inform Port Medical Officer of Health.

**RADIO:** All communications for ship movements through "Swansea Dock Radio" Channels 16 and 14 VHF. Agents, receivers, etc., can be called through usual coastal radio stations – this includes Ilfracombe Radio.

**TUGS:** Towage undertaken by private operators. The Alexandra Towing Co. Ltd., at present use a modern fleet of tugs at Swansea and Port Talbot. It is optional whose lines are used, but if tugs line is taken, an extra charge will be made.

**BRIDGES:** Two in-dock bridges are under direction of duty Assistant Dock Master. A vessel which has to pass them will be informed by the Assistant Dock Master as to their availability.

**BERTHING:** Normal depths of water:

Queen's Dock 35 ft.
King's Dock 33 ft.
Prince of Wales' dock 24 ft. 6 in.

**BULK HANDLING FACILITIES:** *Petro Chemicals.* One jetty in Queen's Dock operated by BP Chemicals International Ltd.

*Coal.* Five coal hoists in the King's Dock, operated by the British Transport Docks Board.

*Bulk Cargoes* (Sulphur, ores, etc.). Two berths in King's Dock equipped with five 7½-ton and five 10-ton grabbing cranes. Operated by British Transport Docks Board.

*Ferryport:* On East bank of River Tawe, used by the B & I Line for its fast service between Swansea and Cork for passengers, cars and wheeled freight.

**CRANES:** Fifty-three electric cranes; capacity up to 11·5 tons. Two floating cranes – of 50 tons and 100 tons capacity. Nine mobile cranes with capacity of 3 tons.

**STEVEDORES:** Stevedoring services are provided wholly by British Transport Docks Board. Advice of labour requirements must be received by the following times:

*General Cargo:* By 07.00 hours to start work at 07.00 hours. By 10.30 hours to start work at 11.30, 1400 or 2200 hours same day.

*Coal Shipping*: By 1530 hours for work at 0600 hours next day. By 1030 hours for work at 1400 hours same day.

**MEDICAL:** Port Medical Officer of Health has an office on King's Dock Lock. Medical attention can be obtained at short notice. In emergencies, the duty Assistant Dock Master can be communicated with, to obtain medical help. Hospital facilities available, and there is a first-class medical centre on the Prince of Wales Dock. Vaccination and fever certificates will be examined when receiving pratique.

**TANKERS:** All tankers arriving, working cargo, and departing are required to observe port's Petroleum By-laws and Oil in Navigable Waters Act. British Petroleum Company has further private directives for oil tankers. Five main tanker berths in the Queen's Dock and three main lay-byes. Also several coastal berths. One tanker general cargo berth in King's Dock. Deepest draft permitted is 32 ft. 6 in. A special fire-float to deal with tanker casualties is maintained in the Queen's Dock by the B.P. Company Ltd.

**DENSITY:** King's Dock Lock density is 1025.

**FRESH WATER:** Fresh water supplied from hydrants on quays by watermen. Rate of delivery is 2,000 gallons per hydrant, approximately, depending on the demand.

**FUEL:** Various grades of gas oils and diesels can be supplied by barge or road vehicles, or it can be delivered ex-pipeline at Queen's Dock.

**FIRE PRECAUTIONS:** All matches and lighters must be declared at entrance to oil installation. There are arrangements at the Queen's Dock depot for shore cooking and eating. There is an oil boom between the King's Dock and Queen's Dock to serve as an oil fire break between two docks. A 24 hours observation is kept at Scherzer Bridge for oil pollution and fires.

**GANGWAY/DECK WATCHMEN:** Under Port Regulations, there shall always be on board sufficient men to move or take care of the vessel. Some vessels employ watchmen. Cost is a tariff charge.

**OPENING/CLOSING HATCHES:** Normally done by the ship's crew, but if riggers are employed by vessel for general duties they open up hatches.

**CERTIFICATES:**
Certificate of Freeboard.
Certificate of Registry.
Certificate of Pratique.
Light Bill.
Manifest.
Bill of Health.
Bills of Lading.
AA (1) Certificate.

**CUSTOMS ALLOWANCES:** At discretion of local H.M. Customs inspectors.

**IDENTIFICATION CARDS:** Not compulsory, but they are helpful if a crew member has to identify himself to Authorities.

**CONSULS:**

| | | | |
|---|---|---|---|
| France | tel. Swansea 55274 | Norway | tel. Swansea 50564 |
| *Vice-Consuls:* | | | |
| Belgium | tel. Swansea 50021 | Netherlands | tel. Swansea 53921 |
| Finland | „ „ 53921 | Portugal | „ „ 57757 |
| Greece | „ „ 50957 | Spain | „ „ 25121 |
| Italy | „ „ 55146 | Sweden | „ „ 55146 |

**REPAIRS:** All types of deck and engine-room repairs are possible.

**DRY DOCK:** Two dry docks in port are entered from King's Dock. Dry docks: "Duke of Edinburgh" 670 ft. × 92 ft.; "Palmers" 560 ft. × 75 ft.

**REPATRIATION:** Mercantile Marine Office in Swansea where ship's crews are paid-off before Superintendent of Shipping. Necessary arrangements can be made for repatriation through the Consular Channels.

**AIRPORT:** Nearest airport at Swansea, 8 miles from Docks. Next are Rhoose (Cardiff) and Bristol airports where regular scheduled flights are handled.

**TIME:** Local time is British Standard Time which is plus one hour to Greenwich Time. Reverting to GMT during winter months.

**HOLIDAYS:** Christmas (25th December); Boxing Day (26th December); Easter, Good Friday and Monday (movable dates); Spring Holiday, Summer Bank Holiday (both movable dates). No cargo is worked on these days.

**POLICE/AMBULANCE/FIRE:** Call 999 from any telephone, and ask for service required.

**TELEPHONES:** Arrangements at most berths for placing telephones on board ships in port.

**GENERAL:** Entrance lock is 875 ft. in length, 90 ft. across at cope level. The inner sill is 7 ft. higher than the outer sill. The outer sill is 11·4 ft. below Admiralty Chart datum.

Tugs are available at the port for in-dock as well as sea towage.

A diver can usually be obtained by enquiry to the British Transport Docks Engineer, Swansea.

Docks Manager: Tel. 50855/200. Dock Engineer: Tel. 50855/275. Dock Master and Fire Officer: Tel. 50855/260.

**AUTHORITY:** The British Transport Docks Board, Adelaide Street, Swansea. Tel. Swansea 50855.

**AGENT:** Cory Brothers Shipping Ltd., Powell Duffryn House, Adelaide Street, Swansea. Cables: "Cory, Swansea". Telex: 48186. Tel. Swansea 55146.

## TEES and HARTLEPOOL: 54.42 N. 01.11 W.

**DOCUMENTS:** Ship's official papers including Register, Loadline Certificate, Derat, Safety Certificates.

Immigration Crew List (one copy).
Manifest (normally sent in advance from last port).
Bill of Lading (if any).

On arrival Master signs X.S4 giving Agent right to sign all documents on his behalf. Pratique, Surplus Stores Lists X.51, Z.5, 25 and 35 and other documents are completed by H.M. Customs on arrival.

**PILOTAGE:** Official Address: The Tees Pilotage Authority, 13–14 Bridge Street East, Middlesbrough, Teesside. Tel. Middlesbrough 2924/5 office hours; Middlesbrough 85255 after hours.
Radio telegraphic address: "Tees Pilots Middlesbrough".

Pilot station is situated at South Gare and Pilot cutter on duty is moored there. Pilot cutter is of MFV type painted black with cream structure, flies pilot flag by day and lights as per International Regulations at night.

The Cutter is equipped with R/T, VHF MHF. VHF call sign "Tees Pilots" on Channel 16. MHF call sign "Tees Pilots" last 10 minutes of every hour on 2182 kc/s. Cutter is also equipped with radar.

As much advance notice of a vessel's arrival as possible should be given to Pilots; this is normally passed from Agent about 24 hours before a ship arrives; minimum requirement for vessels arriving is one hour, and one hour fifteen minutes for sailing.

Pilots will board in vicinity of Tees Fairway Buoy, smaller vessels are occasionally boarded at the South Gare. During severe gales pilot cutter moves to Tees Dock and will board ship when possible at South Gare at No. 11 Light Buoy.

Pilotage is not compulsory.

**ANCHORAGES:** Vessels prohibited from anchoring inside dredged channel and within a $\frac{1}{2}$ mile radius of Tees Fairway Buoy and within area bounded by lines projected through 3 and 1, and 4 and 2 light buoys towards the Fairway Buoy.

Small vessels can anchor close N.E. of No. 4 light buoy; larger vessels are advised to anchor in an area about 1 mile N.E. of the Tees Fairway Buoy and in all cases outside the 10 fathoms line. Vessels awaiting Pilots anchor in these areas.

**RESTRICTIONS:** Vessels over 650 ft. length can only arrive and sail during periods of Traffic Control operated by the Harbour Master. During this period only vessels having Harbour Master's permission may move. Control of traffic on the River Tees for periods of up to approximately one hour may be necessary at any time, at short notice during the passage of large vessels.

*Vessels entering the River Tees.* Masters should, before entering contact Harbour Master's Office by VHF R/T on Channels 16, 14 or 12, call sign "Tees Harbour Radio".

*Vessels moving within or sailing from the River Tees.* Masters should first obtain permission to do so from the Harbour Master's Office by any available means, e.g. telephone Eston Grange 2541 (3 lines); VHF R/T on Channels 16, 14 and 12.

Harbour Master will endeavour to give at least six hours notice of traffic control to all those who are likely to be involved during the period.

*Vessels bound for Middlesbrough Dock* can only enter dock during a period of $2\frac{1}{2}$ hours before to $1\frac{1}{2}$ hours after high water.

Dock Sill, 16 ft. LWOST. Draft formula for entry 14 ft. plus height of tide.

*Vessels bound for Tees Dock.* Nominal dredged depth in dock, 25 ft. Nominal dredged depth in berths, 32 ft. These depths subject to siltation.

**MAX. SIZE:** Max. length accepted is 1,000 ft., with a max. draft of 57 ft. Vessels in excess of this max. draft may enter after consultation with Harbour Master.

*Middlesbrough Dock.* Max. size 580 ft. by 76 ft.

*Note:* The channel has been deepened to 47 ft. 6 in. at LWOST in order to accommodate on all tides vessels of 125,000 dwt. drawing up to 54 ft.

**HEALTH:** Pratique procedure is handled on arrival by HM Customs Boarding Officer. No other notice is required except in case of sickness when Agent can advise Port Health and information can also be passed to Tees Harbour Radio via VHF R/T when within 2 hours of the port.

**RADIO:** Ships approaching from North use Cullercoats Radio. Ships approaching from South use Humber Radio.

**VHF:** Frequencies and channels in use in the Tees and Hartlepool are as follows:

| *Channel* | *Frequency* | *Use* |
|---|---|---|
| 16 | 156·80 mc/s | Calling and Safety |
| 14 | 156·70 mc/s | Port Operations |
| 12 | 156·60 mc/s | Port Operations |
| 11 | 156·55 mc/s | Port Operations (Domestic) |
| 10 | 156·50 mc/s | Intership (3rd choice) |
| 8 | 156·40 mc/s | Intership (2nd choice) |
| 6 | 156·30 mc/s | Intership (1st choice) |

| *Station* | *Call Sign* | *Channels* |
|---|---|---|
| Harbour Master's Office (Tees) | "Tees Harbour Radio" | 16, 14, 12, 11, 8 |
| Harbour Master's Launch | "Tees Harbour launch" | 16, 14, 12, 11, 8, 6 |
| Harbour Master's Office (Hartlepool) | "Hartlepool Radio" | 16, 12, 11, 8 |
| Hartlepool Tugs | "Name" | 16, 12, 11, 8, 6 |
| Tees Tugs | "Name" | 16, 14, 12, 8, 6 |
| Middlesbrough Dock | "Middlesbrough Dock Radio" | 16, 14, 12, 11, 8 |
| Tees Pilot Cutters | "Tees Pilots" | 16, 14, 12, 11, 10, 6 |
| Hartlepool Pilot Cutter | "Name" | 16, 14, 12, 6 |
| Tees & Hartlepool Port Authority, Maintenance Craft. | "Name" | 16, 11, 6 |

Whenever practicable ship/tug operations within the port should be conducted on Channel 8.

**TUGS:** Official Address: Tees Towing & Co. Ltd., Cleveland Buildings, Queen's Square, Middlesbrough. Tel. Middlesbrough 47277 day and night.

Fleet of eight tugs between 1,035 and 3,650 horsepower. Tugs join vessel in Redcar Reach between No. 9 and No. 17 buoys depending on size, draft and destination. Tug's lines may be used at Master's discretion. Tugs are on duty daily and only available on four hours notice for sailing and arriving after normal office hours.

**BERTHING:** Small vessels can usually berth at any state of the tide. Middlesbrough Dock is tidal, $2\frac{1}{2}$ hours before to $1\frac{1}{2}$ hours after high water. Deep-drafted vessels enter in accordance to tide.

**STEVEDORES:** In order to prepare for loading/discharging, i.e. ordering of gangs, transport, etc., it is necessary to give ETA through their Agents not less than 24 hours before arrival.

In Tees berths the port works two shifts daily, i.e. 0600–1400 hr. and 1400–2200 hr. Mondays to Fridays, with voluntary overtime at weekends.

**BULK HANDLING FACILITIES:** *Iron Ore Terminal:* On the site of Redcar Wharf, a terminal which handles all iron ore imports for British Steel Corporation plants in the region, berth dredged to 17·63 metres (57 ft. 10 in.) and able to accommodate ships of up to 120,000 dwt. and 150,000 dwt. on suitable sites. Two ore dischargers each able to handle 2,000 tons an hour.

*Potash Terminal:* A terminal for the export of potash mined near Boulby in the North Yorks National Park is being built on the East side of Tees Dock. Ships of up to 30,000 dwt. will be accommodated at the 365·8 metres (1,200 ft.) quay. Two ship loaders will each be able to handle 1,000 tons per hour. The terminal will have a storage silo for 56,898·6 tons capacity. Throughput is expected to exceed 1,000,000 tons.

*Roll-on/roll-off:* Berth at Tees Dock can accommodate vessels up to 525 ft. length and 78 ft. beam. Berth dredged to 25 ft. LWOST:

**TANKER BERTHS:**

| *Name* | *Vessel's Length* | *Depth at Low Water* | *Remarks* |
|---|---|---|---|
| Teesport No. 1 Jetty (Queen Elizabeth II) | 650 ft. | 37 ft. | Port Authority berth used by ICI & Shell/B.P. |
| Teesport No. 2 (West Byng) | 650 ft. | 34 ft. | |
| North Tees No. 1 | 300 ft. | 21 ft. | Owned by I.C.I./ Phillips |
| North Tees No. 2 | 700 ft. | 37 ft. | Owned by I.C.I./ Phillips |
| North Tees No. 4 | 890 ft. | 43 ft. | Used by Phillips for import of crude oil |
| Shell Crude Oil Jetty | 875 ft. | 45 ft. | Used exclusively by Shell for import of crude oil |
| Billingham Oil Wharf | 265 ft. | 16 ft. | Used by I.C.I. |
| Middlesbrough South Wharf | 270 ft. | 14 ft. | Movements subject to tide |
| Middlesbrough No. 2 Quay | 600 ft. | (Max. draft up to 28 ft. depending upon state of tide) | |
| Middlesbrough No. 11 Quay | 300 ft. | 25 ft. | |
| South Bank No. 6 | 750 ft. | 38 ft. | British Steel Corporation |
| Tees Storage No. 1 | 250 ft. | 25 ft. | Tees storage |
| Tees Storage No. 2 | 600 ft. | 35 ft. | Company |
| Seal Sands No. 1 | 250 ft. | 25 ft. | Seal Sands |
| Storage No. 2 | 600 ft. | 33 ft. | Storage Co. |
| Monsanto No. | 500 ft. | 18 ft. | Monsanto Ltd. |

Slop/oily residue facilities available at most berths.

**DENSITY:** At Teesport 1015 at LW to 1025 at HW.

**FRESH WATER:** Plentiful from wharf and small quantities available from tug in emergency approx. 20 tons per hour.

**FUEL:** All grades available, 48 hours maximum if by barge.

**DEVELOPMENTS:** North Tees No. 3 jetty being built by I.C.I. for tankers around 40,000 dwt. drawing up to 38 ft. (completion mid-1975).

Phillips Ekofisk berth being constructed to handle four oil tankers up to 150,000 dwt. and four gas tankers ranging between 2,800 cu. metres and 60,000 cu. metres. The first berth will be completed early 1975.

**CRANE:** A floating crane, lifting capacity 400 tons, is stationed on the Tees.

**MEDICAL:** Notice of medical attention required in advance, as much notice as possible if emergency expected. All medical facilities available.

**GANGWAY/DECK WATCHMEN:** Recommended (tidal berth and spring range 17 ft.). Travel allowance usually charged.

**OPENING/CLOSING HATCHES:** Always by crew. Riggers available.

**CUSTOMS ALLOWANCE:** ½ lb. tobacco or 200 cigarettes. (¼ lb. tobacco for coasters). 1 spirit and 1 wine bottle. (½ bottle spirit and ½ bottle wine for coasters).

**IDENTIFICATION CARDS:** Not used in Tees.

**CONSULS:**

**REPAIRS:** All types of repairs deck and engine available.

**DRY DOCKS:** Largest dock 575 ft. × 73 ft. sill 26 ft. Four other dry docks of smaller dimensions.

**REPATRIATION:** All facilities exist.

**AIRPORT:** Teesside Airport 12 miles from port. Regular flights to London, etc.

**TIME:** BST is GMT plus 1 hour. GMT in winter months.

**HOLIDAYS:** New Year's Day; Good Friday; Easter Monday; Whit Monday; Autumn Bank Holiday (Monday); Christmas Day. Work can be arranged if suitable notice is given and at overtime rates.

**POLICE/AMBULANCE/FIRE:** Telephone 999 in emergency will result in quick action or VHF call to Control Room, Harbour Office (24 hour manning).

**TELEPHONES:** Most berths can be connected to telephone system (coin boxes); small connection charge is made.

**AUTHORITY:** Tees and Hartlepool Port Authority, Queens Square, Middlesbrough, Teesside. Tel. Middlesbrough 48321. Telex 58675 Teesbay, Middlesbrough.

## TETNEY MARINE TERMINAL: 53.32 N. 00.07 E.

**DOCUMENTS,** and all General Information: Refer to "Immingham and Killingholme".

**LOCATION:** *Tetney Marine Terminal* is the deep water crude oil terminal of Crude Oil Terminals (Humber) Limited, operated by Conoco Limited.

The position of the mono-buoy is Lat. 53° 32′ 20″ N., Long. 00° 06′ 51″ E., lying in approximately 65 ft. of water at low water and about 2½ miles offshore.

Tetney is an open roadstead in the entrance of the river Humber on the East coast of England. The currents are particularly strong in the area, at times as much as 6 knots, and 4½ knots is common in spring tides. The currents run, generally, parallel to the Southern coastline. The tides have a rise and fall of about 18 ft.

**PILOTAGE:** Vessels are requested to send ETA to Hull Pilots about 72 hours before arrival.

Pilotage is by the Humber Pilots whose vessel is usually stationed near the Humber Light Vessel, and vessels are recommended to anchor in this area and await instructions. Such vessels may contact "Tetney Base" and request any information.

The Berthing Controller will board as the vessel approaches the buoy and will assist the Pilot in the mooring operation by advising the ship's officers. He will also advise on the hose connection, which will be carried out by the ship's crew and will act as Company representative throughout the discharge.

Vessels must provide adequate means of boarding for Pilots and Berthing Controllers, Customs and Agents. A pilot ladder with spreaders and grab lines for the Pilot and Berthing Controller, or alternatively a mechanised pilot hoist.

While in the berth the vessel should provide a suitable gangway with a pilot ladder near the end in order to board from a small boat.

**COMMUNICATIONS:** There is a VHF station at Tetney which is manned 24 hours a day and has the call sign "Tetney Base".

VHF Channels 16 calling 19 (161.55/156.95) for berthing and communication. 48 (163.00/158.40) for port operations.

UHF. 467.725 mc/s. for berthing emergency.

Portable radios can be provided for vessels not having a VHF set and the Agent should be so informed in order to allow time to despatch a portable to the ship on her arrival. A vessel arriving without suitable means of communication and not having informed the Agent of the fact could incur delays which would be to the ship's account.

**MOORING:** The following equipment is required to moor with safety:

4 each 50-ton SWL alloy steel screw-type bow shackles.

2 each 1½ diameter slip wires, with a soft eye in one end and the other end plain, overall length being not less than 100 ft.; some vessels may need a greater length depending on the distance from the forward fairlead to the bitts.

The vessel approaches the mono-buoy head to wind and tide or the resultant of these forces, and should have two mooring ropes lowered to the water, each having a 15-ft. lashing of 3-in. rope on it.

As the vessel nears the moorings a launch will take the port rope from the ship and connect it to the port pick-up rope and return to the ship to take the starboard rope and repeat the operation on that side.

The vessel should have on these ropes as soon as they are inboard and heave herself to the buoy until the chain is in the fairlead. The slip wire should then be shackled to the chain and turned up on a convenient set of bitts. This applies to both sets of moorings. When the vessel is in the berth, additional moorings can be shackled to the chain as required, dependent on the expected weather conditions.

**HOSES:** The ship should be capable of lifting up to 10 tons on her derrick with a minimum of 7½ tons.

Tankers manifolds should be 16-in. 150 ASA. The following sizes can also be accommodated; 10-in. and 12-in. 150 ASA. Should a vessel have any other than these sizes, or be unable to find adaptors to suit one of these sizes, Tetney Terminal will need to be notified at least 72 hours before arrival.

When both hoses are on deck they may be connected to the ship's manifold by the ship's crew under the supervision of the Berthing Controller.

After completion of discharge the hoses will be filled with sea water by the ship. The hoses can then be disconnected from the manifold and lifted over the side of the ship and hung there on slip ropes to be slipped simultaneously with the moorings. This last operation will be carried out on the advice of the Berthing Controller and will depend on weather conditions at the time.

**POLLUTION:** It is the Master's responsibility to see that no oil of any kind is pumped or spilled overboard from his vessel. This includes oil water from the bilges, crude residues from previous voyages or any other matter that may result in the pollution of the sea. Owners and Masters should comply with any international regulations and recommendations concerning the prevention of pollution of the sea, especially in regard to the river Humber.

**SHORE LEAVE:** None of the officers or crew shall be allowed shore leave and no boats of any kind, except in an emergency, shall be lowered during the vessel's stay in the berth.

## TYNE DISTRICT: 55.01 N. 01.24 W. (See Plan)

(Including Newcastle, North and South Shields, Jarrow, Tynemouth and Gateshead).

**DOCUMENTS:**

1 Crew List for H.M. Immigration Office.

1 Form C.142 (Tobacco List) supplied by H. M. Customs.

1 Health Declaration Form supplied by H.M. Customs.

1 List of Private Addressed Packages not manifested (C.143) supplied by H.M. Customs.

Details of Oil in DBT, also measurement in cu. ft. of cargo in non-registered spaces.

**PILOTAGE:** Pilots normally stationed outside Harbour entrance within 1 mile radius. In bad weather Pilots will advise concerning entering. Twelve hours advance notice via Agent requested. Frequency medium wave 2182 kHz. Call "Tyne Pilots". VHF – Call on Channel 16, working Channel 6. Cutter – 55 ft. in length painted black with white lettering "Pilots" – displaying pilot's flag. Efficient pilot ladder required as per Board of Trade regulations.

**ANCHORAGE:** Off entrance River Tyne, recommended 1½ mile N.E. of North Pier. Minimum 12 fathoms.

**RESTRICTIONS:** Depths below Chart Datum:

From sea to Jarrow Oil Jetty (West end) 30 ft.

From Jarrow Oil Jetty (West end) to Newcastle Bridges (except in main channels of Swing Bridge and High Level Bridge, Newcastle) 23 ft.

From Newcastle Bridges to West end of Dunston Staith 20 ft.

**MAX. SIZE:** Harbour entrance, length and breadth: no limit. Draft 30 ft. any state of tide: up to 36 ft. at high water.

Iron Ore Quay, draft up to 36 ft.

Esso Oil Terminal, draft up to 32 ft.

Newcastle Quay, 25–26 berths – 30 ft.

Ranks Mill, 28 ft.

**HEALTH:** Foreign arrivals to complete Maritime Declaration of Health. They are cleared immediately on arrival by either a port doctor or an officer of H.M. Customs depending on where the ship comes from and whether there is sickness on board. Vessels arriving from ports within accepted area (N. European ports) and coastal arrivals need not present declaration. In all cases, when there is sickness on board, the Port Health Authority must be informed preferably not more than 12 hours and not less than 4 hours before arrival.

**RADIO:** Cullercoats Radio W/T "GCC." Cullercoats Radio On R/T. VHF: Call sign "Tyne Harbour Radio" on Channel 16, frequency 156·80 mHz and on Channel 12, frequency 156·60 mHz. A VHF Radio Port Operations and Information Service on 24-hour coverage is provided for use by vessels approaching the port, for movement of vessels in the port and for giving information to Shipowners and Agents.

**TUGS:** Normally join inside piers, tow ropes optional except manufactured of man-made fibres. Towing hawsers £6.60 per rope. Orders for week-end arrivals must be given before 1030 hrs. Saturdays.

**BERTHING:** Albert Edward Dock – Warehouse Quay: 1,170 ft. long, depth of water 26 ft.

East Dock Wall: 530 ft. long, depth of water 25 ft.

2 roll-on/roll-off berths: depth of water 25 ft. One of the berths can accommodate loads up to 500 tons.

Tyne Commission Quay: 1,100 ft. long, depth of water 25 ft.

Tyne Commission Quay Extension: 390 ft. long, depth of water 22 ft.

Car Ferry Terminal: 25 ft. depth.

Tyne Dock – North-west Quay: 800 ft. long, depth of water 28 ft.

Factory Quay: 645 ft. long, depth of water 23 ft.

Sutherland Quay: 450 ft. long, depth of water 22 ft.

Iron Ore Quay: 867 ft. long, depth of water 36 ft.

Newcastle Corporation Quay: 7,920 ft. long, depth of water 15 ft. to 30 ft.

Spillers' French Tyne Mill, Newcastle: berth 570 ft. long, depth of water 30 ft. discharge rate 200 tons per hour.

Baltic Flour Mill, Gateshead: berth 650 ft. long, depth of water 28 ft. discharge rate 200 tons per hour.

Coal Staiths – Whitehill Point Staith – 1 berth rate of shipment 1,000 tons per hour depth of water 25 ft.

Jarrow Staith – 2 berths, rate of shipment 1,000 tons per hour, East berth, 500 tons per hour West berth, depth of water 25 ft.

Harton Staith – 1 berth, depth of water 21 ft. 6 in.

Dunston Staith – 3 berths, depth of water 21 ft. to 25 ft.

**TANKERS:** Jarrow – (Shell Mex & B.P. Ltd.) Jarrow Oil Jetty, 600 ft. in length with a depth of 30 ft. below Chart Datum and New Berth 620 ft. length with a depth of 34 ft. below Chart Datum.

Tynemouth – (Esso Petroleum Co. Ltd.) 1 tanker berth 900 ft. in length with a depth of 32 ft. below Chart Datum and 1 Coaster Berth 550 ft. in length with a depth of 22 ft. below Chart Datum.

Tynemouth – Tanker Cleaning River Berth, 700 ft. length with a depth of 25 ft. below Chart Datum.

The Lawe, South Shields – Velva Liquids Ltd. Berth 560 ft. length with a depth of water 27 ft. below Chart Datum.

**BRIDGES:** At Newcastle 10 miles from entrance for proceeding to Dunston Staiths, Swing Bridge negotiated against tide; other bridges, max. mast height 80 ft. above MHWS.

**STEVEDORES:** All arrangements through Agent. Stowage plan required prior to arrival.

**MEDICAL:** Hospitals available, Advise Agent in advance if medical attention required on arrival.

**DENSITY:** Entrance/Tyne Dock – 1025; Tyne Dock/Jarrow 1020; Newcastle Quay 1005/1010.

**FRESH WATER:** Available ex Water Boat, rate of delivery up to 150 tons per hour.

**FUEL:** All grades ex installation, or by barge, 24 hours notice required.

**GANGWAY/DECK WATCHMEN:** Available if required.

**OPENING/CLOSING HATCHES:** Crew allowed open and close.

**CERTIFICATES:**

Register.
Load-line.
Safety Construction.
Safety Equipment.
Safety Radio.
Trinity Light Bills.

**CUSTOMS ALLOWANCE:** At the discretion of Local Customs Inspector. Normal allowances are equivalent of ½ lb. tobacco per man and equivalent to 1 bottle wine per man. Allowances may be halved for home trade vessels. Vessels in port more than 3 or 4 days may receive extra allowances.

**IDENTIFICATION CARDS:** Not required.

**REPATRIATION:** All facilities available.

**AIRPORT:** Newcastle Airport, served by regular airlines.

**TIME:** British Standard Time, GMT plus 1 hour. GMT in winter months.

**HOLIDAYS:** New Year's Day; Good Friday; Easter Monday; Whit Monday; Autumn Holiday Monday; Christmas Day.

**POLICE/AMBULANCE/FIRE:** Dial 999, and ask for service required.

**TELEPHONES:** Can be arranged on board at certain berths.

**SERVICES:** The tanker-cleaning berth at North Shields provides accommodation for vessels about 800 ft. length, depth alongside 25 ft. below Chart Datum. The shore installation, which is owned and operated by the Tyne Tanker Cleaning Co. Ltd., includes large reception capacity for tank washing and oily sludge, separators of the latest type which can deal with oily water at the rate of 1,000 tons per hour and various treatment and storage tanks; together with boilers and steam and pumping plant. Expert staff and modern equipment for carrying out tank washing, cleaning and gas-freeing of vessels at the berth, and for other essential duties are also available, making it possible for tanker crews to be paid off immediately on arrival. The whole installation is protected by a most complete system of fire precautions and fire-fighting equipment. Also available is compass adjusting, etc.

**SHORE LEAVE:** Allowed.

**DEVELOPMENTS:** The Iron Ore Quay is to be redeveloped as a general cargo berth. Expected to be completed early 1975.

**AUTHORITY:** Port of Tyne Authority, Head Office, Bewick Street, Newcastle-upon-Tyne, NE1 5HS. Tel. Newcastle 25541.

**AGENT:** Lambert Brothers (Shipping) Ltd., 'B' Floor, Milburn House, Newcastle-upon-Tyne, NE1.1LY. Tel. Newcastle 27314. Telex: 53405. Cable address: "Lambros."

## WHITEHAVEN: 54.33 N. 03.36 W.

**DOCUMENTS:** Usual required for clearing a vessel from foreign, i.e. Crew list, Passenger list, Customs Documents, Ships Register, Manifest and Bills of Lading.

**PILOTAGE:** Request for Pilot is made by International Code signal G, sound and visual. ETA should be sent twelve hours in advance either to ship's Agent or Harbour Master or both. Area for taking Pilot on board 4 to 5 cables West of Harbour. Pilot boat is a 36 ft. varnished boat, name "J. T. Pears". R/T frequency 2241 and 2182. VHF is installed.

**ANCHORAGE:** Same area as for boarding Pilot according to draft.

**RESTRICTIONS:** Vessels may dock from one and a half hours before high water till one hour after high water according to draft.

**MAX. SIZE:** 270 ft. length, 40 ft. beam and 17 ft. draft (deepest) on spring tides, 14 ft. draft (deepest) on neap tides.

**HEALTH:** Usual pratique procedure.

**RADIO:** Port Patrick and Anglesey Radio Stations.

**TUGS:** No tugs

**MEDICAL:** Agent should receive notice in advance of any medical treatment required. Hospital services are readily available.

**DENSITY:** Any state of tide density is 1025.

**FRESH WATER:** Fresh water is available on all berths, any quantity on request to ship's Agent.

**FUEL:** Most grades and types available.

**FIRE PRECAUTIONS:** Usual precautions are taken when inflammable cargo is being loaded or discharged.

**GANGWAY/DECK WATCHMEN:** Advisable to have a watchman but not absolutely necessary.

**OPENING/CLOSING HATCHES:** Always opened and closed by crew members.

**CERTIFICATES:** Derat certificate, Load Line certificate, Radio R/T certificate, etc.

**CUSTOMS ALLOWANCE:** 200 cigarettes. 1 bottle spirits.

**IDENTIFICATION CARDS:** None required.

**CONSULS:** Norway, Sweden, Denmark and the Netherlands.

**REPAIRS:** All types of deck and engine repairs carried out.

**REPATRIATION:** Facilities exist for effecting crew changes and arranging any necessary repatriations.

**AIRPORTS:** Nearest airports are at Manchester, Newcastle and Prestwick, all approx. 130 miles away.

**HOLIDAYS:** Cargo may be worked on following days: New Year's Day, Good Friday, Easter Monday, Whit Monday, August Monday, Christmas Day and Boxing Day.

**POLICE/AMBULANCE/FIRE:** Telephone numbers of these services in order are: Whitehaven 2616, 3181 and 2151.

**TELEPHONES:** No special arrangements exist for placing telephones on board vessels.

**SHORE LEAVE:** Crew members may come and go at all times.

**DELAYS:** There are very seldom any delays in berthing and none in load or discharge or bunkering.

**AUTHORITY:** The Whitehaven Harbour Commissioners, 1 Duke Street, Whitehaven, Cumberland. Tel. Whitehaven 2435.

# United States of America

**HEALTH:** All ports.

### *Masters of Vessels arriving at United States ports*

Effective July 1, 1973, radio pratique as a method of quarantine clearance will be discontinued at all ports under control of the United States. Changes in regulations, policies, and procedures concerning maritime public health clearance have been promulgated.

*Vessels subject to routine inspection*

Only vessels in the following categories will be subject to on-board public health inspection upon arrival at ports under control of the United States:

A. Crew or passengers having:
  1. Temperature of 100°F (38°C) or greater (a) which persisted for two days or more; or (b) which was accompanied or followed by any one or all of the following: rash, jaundice, glandular swelling; or
  2. Diarrhoea severe enough to interfere with work or normal activity; or
  3. On board occurrence of death, regardless of the signs and symptoms above.

B. Vessels which have been in a smallpox infected country during the 15 days prior to arrival in the United States.

C. Vessels which have been in a plague infected country in the 60 days prior to arrival in the United States.

*Procedures.* Vessels in any of the categories, A, B, or C above will be granted provisional pratique and boarded upon arrival for inspection. In addition, vessels boarded for quality control may be boarded upon or subsequent to arrival. In accordance with regulations you must inform the quarantine station, through your vessel Agent, at or nearest the intended port of your vessel's first arrival in the United States of the occurrence of illness as specified in A above. Based on information you provide your Agent, or information your Agent already possesses regarding your vessel's itinerary, your Agent will notify the quarantine station if your itinerary included a smallpox or plague infected country. Arriving vessels no longer need to complete a maritime public health declaration unless boarded for inspections as described above. The boarding inspector will provide the declaration.

These changes reflect our confidence that you will continue to report, in advance of arrival in the United States, the on-board occurrence of illness compatible with the signs and symptoms specified above.

**SHIP'S OFFICER'S REPORT:** The information given for the po of New Orleans (U.S.A.) applies to all the ports in the U.S.A. in th event of the vessel arriving from abroad or from a previous U.S. po All the documents such as Crew List, Passenger List (Form I-41 Deck, Engine, Stewards & Bonded Stores Lists (Form 1303), Crew Effects Declaration (Form 1304), are required in duplicate at ea port for entry inward.

## ALBANY, New York: 42.40 N. 73.45 W.

**DOCUMENTS:** If first port of call in U.S., 2 complete Custon Manifests describing all cargo on board and ports of discha Also 1 Cargo List for Albany cargo; 3 Crew Lists; 3 Store Lis 3 Curio Lists, the Ship's Register, Load Line Certificate and Tonna Tax Certificate.

**PILOTAGE:** Hudson River Pilot boards vessel off Yonkers, N Cable address: "Hudpilots, Yonkers, N.Y."

**ANCHORAGES:** Several anchorage areas in Hudson River route to Albany if required due to weather. Vessels cannot anch at Port of Albany.

**RESTRICTION:** Hudson River Channel to Albany has contro depth of 32 ft. MLW. Vessels with draft in excess of 28 ft. will required to transit river on favourable tide as directed by Pilot.

**MAX. SIZE:** Maximum permissible length 750 ft.; breadth 110 draft 30 ft. Turning basin at Albany 1,100 ft. in width.

**HEALTH:** Free health pratique only when vessel is arriving fr another U.S. port. If Albany is first port in U.S., Master should ra vessel's Agent prior to arrival and arrangements will be made granting pratique at New York based on information available.

**TUGS:** One 2,500-h.p. tug stationed at port at all times; additio tugs available upon advance request. Normally one tug is suffici for turning and docking. Tug's lines are used.

**BERTHING:** 4,000 linear ft. of marginal wharf available at AP terminal for general cargo, grain, lumber, etc., 32 ft. alongside wh Various privately operated deep-water petroleum terminals in p area.

*Facilities:* 13·5 million bushel grain elevator. 17 million ga molasses storage – 3 terminals. Scrap Iron Terminal, Ba Terminal.

**BRIDGES:** Minimum vertical clearance of bridges on Hudson R en route to Albany is 135 ft.

**STEVEDORES:** Rates and information can be obtained from J W. McGrath Corporation; seven gangs available.

**FRESH WATER:** Supplied during regular working hours d except Saturdays, Sundays, and holidays at $1.00 per 100 cub plus $10.00 service charge per daily delivery on straight time. A tional charge if supplied during other periods.

**GANGWAY/DECK WATCHMEN:** Available via ship chandler not required but recommended.
**CONSULS:** Italian Vice-Consulate located at Albany, other consulates available at New York City.
**REPAIRS:** Minor deck and engine repairs can be handled.
**AIRPORT:** Seven miles distant from port; served by Allegheny, America, Altair and Executive Airlines.
**TIME:** Eastern Standard and Eastern Daylight Saving, 5 hours minus GMT.
**HOLIDAYS:** Standard U.S. holidays; cargo work can be arranged on all holidays at overtime rates, except July 4th, Labour Day and Christmas Day.
**SHORE LEAVE:** Crew members allowed ashore unless restricted by Customs or Immigration requirements.
**AUTHORITY:** Albany Port District Commission, Administration Building, Port of Albany, Albany, N.Y., 12202, Tel. 518–463–1103.

## ALEXANDRIA, Virginia: 38.48 N. 77.03 W. (See Plan)

**DOCUMENTS/PILOTAGE/HEALTH:** Refer to "Hampton Roads".
**RESTRICTIONS:** Anchoring necessary between 2200 to 0600. Berthing daylight only.
**MAX. SIZE:** Governed by draft only – maximum 22 ft. 6 in. all times.
**RADIO:** WMH Baltimore, Md.
**TUGS:** None required.
**BERTHING:** Berthing 0600 to 2200.
**BRIDGES:** One bridge, closed Monday through Friday 1600–1830 and 0630–0900.
**STEVEDORES:** Informally arranged through Receivers or Shipper's Agents.
**MEDICAL:** Hospital available.
**FRESH WATER:** Available at berth – 10 tons per hour.
**FUEL:** Not available.
**GANGWAY/DECK WATCHMEN:** Shore watchman provided.
**OPENING/CLOSING HATCHES:** Stevedores. Vessel – depending on understanding.
**IDENTIFICATION CARDS:** Required by Immigration.
**REPAIRS:** Minimal facilities.
**REPATRIATION:** Facilities exist.
**AIRPORT:** 3 miles. Washington National – multiple flights.
**TIME:** GMT minus 6 hours.
**POLICE/AMBULANCE/FIRE:** Agents arrange. Watchmen on duty.
**SHORE LEAVE:** Allowed.
**DELAYS:** No unusual delays.
**AUTHORITY:** Virginia Port Authority, Norfolk, Va.

## ANACORTES, Washington: 48.31 N. 122.36 W.

**DOCUMENTS, PILOTAGE, HEALTH, etc.:** Refer to "Tacoma".
**ANCHORAGES:** East End Guemes Channel, 54 ft. min. depth.
**MAX. SIZE:** Length, open. Draft, 54 ft.
**TUGS:** Join vessel in Guemes Channel at Anacortes – lines optional.
**BERTHING:** Pier no. 1, depth 31 ft.; Pier no. 2, depth 38 ft.
**STEVEDORES:** Request 24 hours notice.
**FRESH WATER:** Available from city water system.
**FUEL:** Available from Shell and Texaco.
**GANGWAY/DECK WATCHMEN:** Not required by port.
**OPENING/CLOSING HATCHES:** Stevedores.
**CUSTOMS ALLOWANCES:** No definite quantities prescribed; reasonable allowance at discretion of Customs Inspector.
**CARGO GEAR:** ILWU requirements.
**IDENTIFICATION CARDS:** Required.
**REPAIRS:** Minor repairs only.
**AIRPORT:** 75 miles Seattle International.
**TIME:** GMT minus 8 hours. From end April to end October, Pacific Daylight Saving Time, GMT minus 7 hours.
**HOLIDAYS:** See "Tacoma".
**POLICE/AMBULANCE/FIRE:** Police 293–3157; Ambulance 293–3183; Fire 293–3155.
**TELEPHONES:** Available at Pier 2 and at Pier 1 by Phone Co.
**SHORE LEAVE:** Allowed.
**AUTHORITY:** Port of Anacortes, Robert D. Keller, MGR. 293–3134.

## ANCHORAGE, Alaska: 61.12 N. 150.00 W. (See Plan)

**DOCUMENTS:**
3 copies Cargo Manifest (Forms 7527.A or 7527.B), the original showing all cargo on board, and 2 copies showing only cargo for this port.
2 copies Crew Manifest (curio list).
2 copies Stores List.
2 copies Passenger List (Form I.418).
2 copies Crew List (Form I.418).
Customs boarding Officer will also examine Ship's Register and Load-line Certificate. In addition, the following documents will be required for formal entry to be made within 48 hours of arrival from abroad, or 24 hours from arrival from a United States port:
Master's Oath (Customs Form 3255).
All foreign clearances.
U.S. Certificates of payment of tonnage tax (Customs Form 1002)
Certified Crew List.
**PILOTAGE:** The pilot station for Anchorage is at Homer, Alaska Vessels may contact Pilot by radio telephone. Telegraphic address "Almarrpilot", ETA notice requested 24 hours. Guards VHF Channel 10. Pilot boat green and white. Pilot flag by day, pilot light at night. Pilot boat 1 mile South of Homer Spit (Coal Point) Homer Alaska. In bad weather, wait inside Homer Spit and advise via radio-telephone.
**ANCHORAGES:** The best anchorage for deep-draft vessels is West of Anchorage in depth of 10 to 12 fathoms, silt bottom. Holding ground is good.
**TIDES AND CURRENTS:** The diurnal range of tide is 29·6 ft, Currents from 1·7 to 6 knots or more in mid-channel.
**RESTRICTIONS:** Flow and pan ice is encountered in the Cook Inlet from approximately the end of November until the end of February. This ice does not freeze solid due to the tidal action. The port is in year-round use and expert information on winter conditions may be obtained from any of the highly qualified licensed ship pilots available in the area.
**MAX. SIZE:** All berths 35 ft. MLLW.
**HEALTH:** Pratique available from Agent subject to U.S. Health Regulations. See "Health Regulation" before first U.S.A. port (Albany).
**RADIO:** Port of Anchorage "KBT-42" on HF-AM and SSB. "WHJ-82" on VHF-FM.
**TUGS:** Join vessel 1½ miles South-west of docks.
**BERTHING:** 600 ft. general cargo Terminal No. 1, apron width 47 ft., live load limit 600 lb. per sq. ft.

General cargo Terminal No. 2, 610 ft., apron width 69 ft. Depth alongside face at MLLW 35 ft.

Shore Cranes: Level luffing gantry and Paceco container cranes. Capacity: Level luffing gantry 7½ tons and 40 tons (5 ton high-speed whip lines). Container cranes 27½ tons.

Outreach from fender face is 70 ft. for the gantries and 81 ft. on the PACECO. Clear height above MLLW is 132 ft.
**TANKERS:** The Petroleum Terminal at the port of Anchorage is contiguous to the general cargo docks. The POL Dock is 612 ft, long and contains multiple petroleum manifolds in addition to those on Terminal No. 1. Depth 35 ft. alongside.
**STEVEDORES:** Working Hours: Stevedores do not work on January 1, September 6, November 25 and December 25. The first six hours of any shift between 8.00 a.m. and 3.00 p.m. is at the straight time rate. Work performed on Saturdays, Sundays, holidays and between 5.00 p.m. and midnight is at overtime rate. Meal breaks are 11.45 a.m. to 1.00 p.m.and 4.45 p.m. to 6.00 p.m. Stevedores do not normally work between midnight and 7.00 a.m.
**SPECIALISED CARGO HANDLING FACILITIES:** Two 27½-ton PACECO container cranes servicing general cargo Terminal No. 2; private bulk cement pipe-lines to shore silos.
**DENSITY:** From 1.0098 to 1.0102.
**MEDICAL:** All facilities available. Three local hospitals.
**FUEL:** All grades available.
**FRESH WATER:** Public Health Service certified watering station.
**WATCHMEN:** Gangway/Dock Watchmen required shipside.
**HATCHES:** Opening/closing hatches by stevedores.
**AIRPORT:** Five miles; served by regular foreign and domestic airlines.
**CUSTOMS ALLOWANCES:** At the discretion of customs officer Normal allowance is 200 cigarettes or 2 lb. tobacco and one quart wine or spirits per man. Additional allowances may be given if considered necessary, due to length of vessel's stay in port.
**IDENTIFICATION CARDS:** Standard U.S. Immigration Forms I.–95 to be made up for each crew member on arrival. Not necessary for crew men already holding Form I.–95, issued for the same vessel
**HOLIDAYS:** New Year's Day (January 1st); Lincoln's Birthday Washington's Birthday; Seward's Day (March 30th); Memorial Day; Independence Day (July 4th); Labour Day; Columbus Day; Alaska Day (October 19th); Veterans' Day; Thanksgiving Day; Christmas Day (December 15th).
**POLICE/FIRE/AMBULANCE:** Police 272–1414; Ambulance/Fire 272–1515.
**TELEPHONES:** Telephones available shipside.
**DEVELOPMENTS:** Present expansion plans call for one full-sized general cargo terminal, a second petroleum terminal and reclamation of approximately 38 acres of tidelands for cargo storage and staging.

Contracts were awarded in 1973 for the first phase of this development, composed of the construction of 366 ft. of additional general cargo berthing space, an additional shore trestle and reclamation of 11 acres of tidelands. Phase I is expected to be completed by the fall of 1974.
**AUTHORITY:** Port Director, 2000 Anchorage Port Road, Anchorage, Alaska 99501. Tel. 272–1531.

## ASHTABULA, Ohio: 41.53 N. 80.48 W.

Refer to "St. Lawrence Seaway" for important general information.
**PILOTAGE:** Nearest pilot station is the Welland Canal, Canada.
**ANCHORAGES:** No anchorage inside boundaries. Good anchorage outside to East of the entrance, depth approximately 20 fathoms,
**MAX. SIZE:** The Pinney Dock and Transport Company stevedoring dock handling overseas cargoes located just East of entrance to the port. Channel depth of 28 ft. Four berths, 27 ft. alongside; length of facilities up to 700 ft. by 75 ft. beam. No facilities for oil carriers.
**RADIO:** Contact Lorain, Ohio ship-to-shore station for local connections.

**TUGS:** Tugs normally join vessels just inside harbour entrance. Use ship's or tug's lines optional; tug lines used at additional charge of 10% of the tons will be added. For tug service call ship-to-shore tug Idaho, FM Channel 51.
**STEVEDORES:** Work gangs for loading and unloading provided by the Pinney Dock and Transport Company.
**MEDICAL:** Vessels requiring medical attention call U.S. Coast Guard station located in the main river by calling AM Channel 20. Ambulance and hospital service available. No inoculation, vaccinations, or fever certificates required.
**DENSITY:** Fresh water.
**FRESH WATER:** Available at stevedoring dock.
**FUEL:** Available on 24-hour notice.
**FIRE PRECAUTIONS:** City fire department. Also water line on face of the dock available.
**GANGWAY/DECK WATCHMEN:** Overseas stevedoring dock enclosed wire fence, watchmen on dock at all times, guard at main gate.
**OPENING/CLOSING HATCHES:** Optional by crew or stevedores.
**CUSTOMS ALLOWANCES:** Only allotments per person consumed aboard allowed.
**IDENTIFICATION CARDS:** Required.
**CONSULS:** Nearest at Cleveland.
**REPAIRS:** All types of deck and engine repairs available; also topside shell repairs.
**REPATRIATION:** Can be arranged.
**AIRPORT:** Nearest airport approximately 10 miles South with commuter services to Cleveland Hopkins Airport. Cleveland Hopkins Airport approximately 70 miles West.
**TIME:** Local Eastern Standard Time except from May to October – Daylight Saving Time.
**HOLIDAYS:** Stevedoring docks double time on holidays and time plus one-half on Saturdays and Sundays.
**POLICE/AMBULANCE/FIRE:** Police, 993–8281; Ambulance, 964–3121; Fire, 964–7123.
**TELEPHONES:** No provisions for placing telephones aboard vessels.
**SHORE LEAVE:** Crew allowed ashore.
**DEVELOPMENTS:** Pinney Dock and Transport Co. are dredging a second slip (length 2,000 ft.) and constructing a third pier (length 2,000 ft., depth 28 ft.).
**AUTHORITY:** Ashtabula Port Authority, 4400 Main Avenue, Ashtabula.

## ASTORIA, Oregon: 46.11 N. 123.50 W.

**PILOTAGE:** Columbia River Bar Pilots, PO Box 81, Astoria, Oregon, 97103. TWX. 910–466–8014. Tel. 503–325–2641.
**FACILITIES:** The port of Astoria has three finger piers with nine berths.

Pier 1: 2 berths – 167,000 sq. ft. covered shed, gallery for elevator – rail trackage.

Pier 2: 5 berths – 600,000 sq. ft. open area, bunkering facilities at berths 3–5–6, rail trackage.

Pier 3: 2 berths – 248,000 sq. ft. covered shed, barge ramp, rail trackage.

Water Depth: 35 ft. at inside berths, 40 ft. at outside berths.
**AUTHORITY:** Port of Astoria, Oregon. PO Box 569, Astoria, Oregon 97103. Tel. (503) 325–4521.

## ATRECO, Texas: 29.59 N. 93.53 W.

**DOCUMENTS, PILOTAGE, HEALTH, RADIO, etc.:** Refer to "Port Arthur".

## BALTIMORE, Maryland: 39.17 N. 76.35 W. (See Plan)

**DOCUMENTS:**

3 copies Cargo Manifest (Forms 7527–A or 7527–B), the original showing all cargo on board, and 2 copies showing only cargo for this port.

2 copies Crew Manifest (curio list).
2 copies Stores Lists.
2 copies Passenger List (Form I.–418).
2 copies Crew List (Form I.–418).

Customs boarding officer will also examine Ship's Register and Load-line Certificate. In addition, the following documents will be required for formal entry to be made within 48 hours of arrival from abroad, or 24 hours from arrival from a United States port.

Health Pratique.
Master's Oath (Customs Form 3255).
All foreign clearances.
U.S. Certificates of payment of tonnage tax (Customs Form 1002).
Certificate Crew List.

**PILOTAGE:** Each vessel entering the Chesapeake Capes under foreign flag or carrying foreign cargo is required to employ a Pilot of the Association of Maryland Pilots. The Association maintains a pilot boat which is anchored at the entrance of the Chesapeake Capes. Pilots will be furnished with a small transistorised portable radio unit, which provide ships bridge to bridge communication system to ensure navigational safety while traversing the waters of Chesapeake Bay. It is a positive means of communication to ensure ship's position reporting, the safety and movement of vessels, as well as messages related to the operational needs of vessels procee ing to the port, and provide the Pilots communications instructio expediting operations of vessels when they are aboard.
**ANCHORAGE:** Numerous anchorages located within harbo limits for ocean-going vessels. Seven such areas are available f vessels of light and heavy draft. Four of these anchorages are locat on the East side of the main ship channel between the entran channel to the Central Soya Company Grain Elevator and F Carroll. Two are on the West side of the main ship channel, and o on the North side of Curtis Bay channel.

At Sandy Point, approximately 22 miles South of Baltimore, the is an emergency anchorage in natural deep water with depth o 50 ft or more.
**RESTRICTIONS:** There are two different approaches and exi to the sea lanes. The principal route is by way of the Southerly cour through the Chesapeake Bay and Cape Henry to the ocean. Th distance by this route is approximately 150 nautical miles. There is main ship channel 20 miles long from Baltimore to the Chesapea Bay; this channel is 800 ft. wide and 42 ft. deep.

The other route to the sea lanes is via the Chesapeake and Del ware Ship Canal. This offers a short protected route betwe Baltimore and other leading North Atlantic ports by way of Delawa Bay and allows ships serving North Atlantic European ports to sa about 115 miles sailing distance.

Entrance to the Chesapeake and Delaware Ship Canal is locat about 50 miles North of Baltimore. The width of the channel is 450 and the depth is maintained at 35 ft. The canal itself is 15 miles length, and from the Delaware Bay side the distance to sea lanes about 60 miles. Navigation lights are maintained so the canal is op to navigation day and night.
**MAX. SIZE:** Length 1,250 ft., draft 42 ft. at Canton Ore pier.
**HEALTH:** Radio pratique is automatically granted arriving vesse provided no communicable disease or death on board, or vessel h not come from country with outbreak of quarantine disease. W free pratique, vessel may enter port and discharge passengers. given provisional pratique, vessel may enter port, but must ta additional measures specified in connection with discharg passengers and cargo, until free pratique is granted.

Quarantine office is located at Friendship International Airpo Immigration and Quarantine board vessels at dockside. In the ev of vessels not docking, launch arrangements must be made Agent.
**TUGS:** The port has an efficient fleet of tug-boats in operati The tugs usually take vessel in two at Quarantine Station.
**BERTHING:** There are approximately forty-five important piers a terminals, some of which are listed below:

*Marine Terminals*

| *Name* | *Berths* | *Max. draft* | *Cranes* | *Special featur* |
|---|---|---|---|---|

**BRIDGES:** The Chesapeake Bay Bridge-Tunnel is located across the entrance to the Bay, between Cape Henry and Cape Charles. This vehicular crossing consists of fixed causeways and bridges, and 2 tunnels – one under the Chesapeake Channel and one under the Thimble Shoal Channel.

No bridges cross the main ship channel in Baltimore Harbour. Vessels en route to the harbour from the ocean via the Chesapeake Bay pass under the Chesapeake Bay Bridge, about 151 statute miles above the ocean entrance to the bay. This bridge is 3·7 miles long from shore to shore; its western end is 0·5 miles South-west of Sandy Point and its Eastern end is on Kent Island, 4·0 miles South-west of Love Point. The Curtis Creek and Middle Branch sections of harbour are each crossed by a highway and a railroad bridge.

**DENSITY:** The salinity of Baltimore harbour waters requires full fresh water draft allowance.

**TANKERS:**

Slop disposal facilities available at Humble Oil Terminal.

**MEDICAL:** All facilities available.

**FRESH WATER:** Can be supplied at all berths. Water barges available.

**FUEL:** All grades supplied by numerous oil companies by barge or ex-wharf at the oil berths.

**REPAIRS:** *Bethlehem Steel Corporation*. At the Sparrows Point Shipyard vessels up to 300,000 tons dwt. are constructed, and the facilities include all the necessary equipment for the construction of large and small vessels.

Two other marine yards, one of which is located at Key Highway, while the second is located on the Eastern end of Locust Point adjacent to Fort McHenry. The facilities of these plants include three dry docks, two graving docks and nine outfitting piers. These facilities handle all types of dry docking and ship repairs.

*Maryland Shipbuilding and Dry-dock Company*. This large marine shipyard is located on the water front at Fairfield. Plant facilities include four dry docks, five outfitting piers and one side launch way. All types of ship repairs are handled in this yard.

In addition to the above mentioned facilities there are numerous companies specialising in minor ship's repairs.

**CUSTOMS ALLOWANCES:** At the discretion of customs officers. Normal allowance is 200 cigarettes or 2 lb. tobacco and one quart wine or spirits per man. Additional allowances may be given if considered necessary, due to length of vessel's stay in port.

**DEVELOPMENTS:** Chesapeake and Delaware Canal to be dredged to 35 ft. depth by mid 1975.

**IDENTIFICATION CARDS:** Standard U.S. Immigration Forms I.–95 to be made up for each crew member on arrival. Not necessary for crew man already holding Form I.–95, issued for the same vessel.

**CONSULS:**

Argentina
Belgium
Bolivia
Columbia
Costa Rica
Denmark
Dominican Republic
Ecuador
El Salvador
Finland
France
Great Britain
Guatemala
Honduras
Italy
Netherlands
Norway
Panama
Sweden
Uruguay

**TIME:** Eastern Standard Time, GMT minus 5 hours. Daylight saving time, GMT minus 4 hours from April to October.

**AUTHORITY:** Maryland Port Administration, 19 St. Charles St., Baltimore. Tel. (301) 383 5700.

## BANGOR, Maine: 44.49 N. 68.47 W.

**DOCUMENTS:**

1 copy of Crew List.
1 copy of Passenger List.
2 copies of Stores Lists.
2 copies of Foreign Purchase Lists.
2 copies of Inward Foreign Manifest.
1 form 3251 (Master's Oath on entry of vessel).
2 forms 1374 outward foreign Manifest

**PILOTAGE:** Cable PENBAY via Chatham Radio. Ship's Agent usually notifies Pilot 48 hours and 24 hours before arrival at the pilot station. Pilot boat usually stands by on their radio one hour before ETA on RT 2182 and the VHF Channel 16 (156·8). Pilot boards at Monhegan Is, lat. 43°45′ N., long. 69° 22′ 5″ W. Pilot uses a white boat 36 ft. long and displays "H" by day and the pilot signals at night. Vessels awaiting Pilot in bad weather must heave-to outside.

**ANCHORAGES:** No restrictions on anchoring at Searsport and the Fort Point area.

**RESTRICTIONS:** Large ships are restricted to daylight navigation and high water. Small coastal ships of 14–15 ft. draft run day and night. South Brewer has a controlling depth of 16 ft. at low water. Lower Bangor has controlling depth of 15 ft. and upper harbour has depth of 11 ft. Average rise of tide is 13 ft.

**MAX. SIZE:** At present ships of 560 ft. are taken up the river two hours before high water during daylight. Size and draft of ship depend on the berth.

**HEALTH:** It is the practice of the Agent to notify the U.S. Public Health and arrange for an inspection at the pier. If any disease is found the vessel is quarantined. When vessel has once cleared U.S. quarantine and proceeds to other U.S. ports, the clearance is still valid. Contact Agents for radio pratique.

**RADIO:** Vessels arriving Bangor use radio station at Chatham Mass., or call on the R/T through station WOU at Boston, Mass.

**TUGS:** Usually meet ship at Bucksport, and use ship's lines.

**BRIDGES:** One suspension bridge with a height of 135 ft. at high water. Horizontal clearance is 750 ft.

**MEDICAL:** No advance notice required. There are three large hospitals. Seamen required to have certificate for smallpox vaccination during past three years.

**TANKERS:** One berth for ocean-going vessels. One 8 in. hose with a 10 in. line. Twenty-two ft. at low water.

**DENSITY:** Nearly fresh water.

**FRESH WATER:** Supplied at ocean-going berth at the rate of 50 tons per hour.

**FUEL:** Only available at oil berth.

**CERTIFICATES:**

Load-line.
Foreign Clearance.
Safety Certificate.
Radio Operator's Licence.

**CUSTOMS ALLOWANCES:** 200 cigarettes per man, 1 bottle wine/spirits per man.

**IDENTIFICATION CARDS:** Form I.–95 must be filled out upon arriving unless seaman has made one out before on a previous trip.

**CONSULS:** None.

**REPAIRS:** Only machinery repairs.

**REPATRIATION:** Arrangements must be made ahead of time by telegram.

**TIME:** GMT minus 5 hours in the winter and minus 4 hours in the summer.

**AIRPORT:** Bangor International is 2 miles from the city.

**POLICE/AMBULANCE/FIRE:** Police 9427377; Ambulance 9893311 Fire 9422293.

**TELEPHONES:** None put aboard. One pay phone on ocean-going berth.

**SHORE LEAVE:** Allowed subject to Immigration approval.

**AUTHORITY:** City of Bangor, Dept. of Harbour and Wharves, Harbour Master.

## BATON ROUGE, Louisiana: 30.28 N. 91.12 W.

**DOCUMENTS:**

Original and 3 Crew Lists.
Original and 3 Passenger Lists.
Clearance from last foreign port.
Original and 3 copies Inward Manifest.
Certified Derat Certificate.
Load-line Certificate.
Safety Certificate.
Ship's Register.
3 copies Curio List.

**PILOTAGE:** Advise Agents ETA sea-buoy 48 hours in advance. Agent then makes arrangements for pilots. Seven 46 ft pilot boats—red hulls white cabins, flying white and blue pilot flags. Suggest pilot ladder 6 ft. above water level, no life-line. Call channel 2738 or VHF channel 9, 30 to 40 miles out. Safe anchorage within two miles Southpass or South-west pass entrance.

**ANCHORAGES:** General anchorage Baton Rouge as directed by Pilots.

**RESTRICTIONS:** No night-time restriction for entry or clearanee, docking or undocking.

**MAX. SIZE:** Humble Oil Docks can accommodate 1000 ft. vessels—unlimited breath; draft governed by South-west pass—project depth 40 ft. usually restricted from 37 ft. to 30 ft. draft May through August, due to low water and silting.

**HEALTH:** Vessels en route Baton Rouge from foreign port rig accommodation ladder and anchor off quarantine station New Orleans for pratique and immigration inspection. Infectious diseases referred to Agent for handling with U.S. Public Health Doctor. No pratique required for vessels arriving from another U.S. port. Radio free pratique may be requested through Agents about 36 hours prior arrival by advising no sickness, no animals, no passengers, etc.

**RADIO CALLS:** ETA cables can be routed through Tropical Radio WNU New Orleans.
**TUGS:** Available at Baton Rouge for docking and undocking. Ship's lines used.
**BERTHING:** No time restrictions on berthing.
**CARGO HANDLING FACILITIES:** Two general cargo docks with total 280,000 sq. ft. transit shed and 2,265 ft. long, 40 ft. wide apron with double marginal tracks; grain elevator and bulk terminal at Burnside, for handling ores, concentrates, etc.; container marshalling yard adjacent cargo docks; also 20-acre paved staging area for import automobiles. Dock equipped for roll-on/roll-off. One dock equipped handle liquid chemicals.
**BRIDGES:** Sufficient clearance for all stages of river at all times; two bridges cross at New Orleans, one at Baton Rouge and one at Donaldsonville.
**STEVEDORES:** May be obtained by Agent with 4 hours notice.
**MEDICAL:** Agents should receive 24 hours notice when medical attention is required. Two excellent hospitals at Baton Rouge, U.S. Public Health Hospital at New Orleans.
**TANKERS:** Oil tankers load various petroleum and chemical products at Humble Oil Docks with sufficient hose, reducers, etc., available. Oil residue slop facilities available.
**DENSITY:** No tide—fresh water at all times.
**FRESH WATER:** At public docks. At Humble Oil Terminal simultaneous with loading or discharging at no cost. Ship's crew to make water connections.
**FUEL:** All grades subject inquiry. Barging essential.
**FIRE PRECAUTIONS:** Usual fire lines and sprinkler systems.
**GANGWAY/DECK WATCHMEN:** Only if Master requires.
**OPENING/CLOSING HATCHES:** Depending on terms of charter, usually by ship's crew.
**CUSTOMS ALLOWANCES:** Tobacco, each crew member allowed 300 cigarettes. Master allowed reasonable quantity. Wine and/or Spirit, each crew member allowed one bottle each of wine and spirits. Master allowed reasonable quantity.
**CARGO GEAR:** Safety certificate required for ships gear in handling. Pkg. cargo, etc.
**IDENTIFICATION CARDS:** Usual passports.
**CONSULS:** Norwegian only, all other consuls at New Orleans – 80 miles distant.
**REPAIRS:** All types of deck and engine repairs may be carried out.
**REPATRIATION:** Crew repatriation and crew changes may be made.
**AIRPORT:** Six miles to Ryan Airport, served by regular airlines.
**TIME:** Local time is Central Standard Time—6 hours later than GMT; from April through October local time is CS daylight saving time, 5 hours later than GMT.
**POLICE/AMBULANCE/FIRE:** Tel. Nos. Public Dock: Police 343–5525; Ambulance 344–0566; Fire 343–4140.
**TELEPHONES:** No arrangements for placing telephones aboard.
**GENERAL:** Tankers in ballast advised of drift wood conditions in river and ballast their vessels accordingly so as to avoid propeller damage.
**SERVICES:** Because of restricted river inadvisable adjust compasses. This is usually accomplished below New Orleans where river of sufficient width to permit large vessels to swing. Two firms engaged in tank cleaning, namely, Two Twenty Eight Terminals Inc. and Port Allen Marine Cleaning Plant. Slop facilities available at the Humble Oil & Refining Co. dock.
**SHORE LEAVE:** Shore leave permitted except when detained aboard by U.S. immigration.
**DELAYS:** Normally no delays at Humble Oil docks in berthing except when vessel's tanks unsuitable for loading. Normal delay at city wharf is one day awaiting berth.
**AUTHORITY:** Greater Baton Rouge Port Commission, PO Box 380, Port Allen, Louisiana 70767.

## BAYTOWN, Texas: 29.44 N. 95.01 W. (See Plan)

**DOCUMENTS, PILOTAGE, HEALTH, etc.:** Refer to "Houston".
**TUGS:** Available if required.
**BERTHING:** Humble Oil & Refinery Co. Terminal, depth alongside 35 ft.
**MEDICAL:** All medical assistance available.
**DENSITY:** Brackish.
**FRESH WATER:** Available ex wharf.
**FUEL:** All grades available ex wharf.
**GANGWAY/DECK WATCHMEN:** Required only if crew detained by Immigration.
**CUSTOMS ALLOWANCES:** Each man 300 cigarettes or 100 cigars or 1 lb. tobacco; 1 quart wine/spirits.
**AUTHORITY:** Port of Houston Authority, P.O. Box 2562, 1519 Capital Avenue, Houston, Texas 77001.

## BEAUMONT, Texas: 30.05 N. 94.05 W.

**DOCUMENTS, PILOTAGE, HEALTH, RADIO, etc.:** Refer to "Port Arthur".
**TUGS:** Meet vessel in Neches River before arriving at berth. Normally two tugs used for docking, one for undocking.
**BERTHING:** Beaumont Elevator, distance from sea 50 m., depth alongside 38 ft. Texas Gulf Sulphur Co., distance from sea 47 m., depth alongside 34 ft.
**CARGO HANDLING FACILITIES:** Five general cargo berths, with total of 400,000 square feet transit shed space. Three open berths with double marginal tracks; 700 ft. of gantry tracks with 6 ton travelling gantry crane.
**STEVEDORES:** Normal working hours 0800/1200 and 1300/170 Monday to Friday.
**HOLIDAYS:** Longshore holidays are: Armistice Day; Thanksgiving Day; Christmas Day; New Year's Day; Washington's Birthday; Texas Independence Day (June 19th); Fourth of July; Labou Day; Decoration Day (May 30th). No work performed on Labour Da or Christmas Day.
**TANKERS:** Mobil Oil Co., distance from sea 49 m., depth alongside 36 ft. Pan American Pet. Co., distance from sea 45 m., dept alongside 38 ft.
**MEDICAL:** All facilities available.
**DENSITY:** Fresh water.
**FRESH WATER:** Available at berths, or by barge.
**FUEL:** Available ex-wharf at Mobil terminal. All grades available b barge to other locations.
**GANGWAY/DECK WATCHMEN:** Not required unless crewme detained by immigration.
**CUSTOMS ALLOWANCES:** 300 cigarettes and one quart wine spirits for each man.
**IDENTIFICATION CARDS:** Foreign crew require only Immigration landing permit.
**CONSULS:** Nearest at Houston.
**REPAIRS, DRY DOCKS:** Beaumont's Bethlehem Shipyard offer all types ship repair or reconditioning – plus vessel conversion an jumboizing 2 side-launching ways over 800 ft. each. Floating dry doc with extreme length of 648 ft.; length on bottom 576 ft.; breadth a entrance, 87 ft.; and lifting capacity, 17,500 tons. Active in desig and construction of mobile drilling platforms and oil and ga production and storage facilities for service off shore.
**DEVELOPMENTS:** Two new 600 ft. berths; one shedded wit 120,000 ft. transit warehouse space, one open with 17 acres bac from shipside area. New facilities to be completed early 1975.
**AUTHORITY:** Port Director, Port of Beaumont, PO Drawer 362 Beaumont.

**AGENT:** Hansen & Tidemann Inc. 705, Goodhue Building. PO Drawer 3528. Beaumont, Texas 77701. Tel. (713) 833–7418. TWX 910–884–5135. Cables "Handt".

## BELLINGHAM, Washington: 48.45 N. 122.31 W.

**DOCUMENTS, PILOTAGE, HEALTH, etc.:** Refer to "Tacoma".
**TUGS:** Available, join vessel in Bellingham Bay.
**ANCHORAGE:** Deep water available, but not good holding ground
**BERTHING:** North Terminal, Berthing length 1,500 ft., dept alongside 34 ft. MLLW. South Terminal, Berthing length 400 ft depth alongside 30 ft. MLLW. Georgia Pacific Dock, Berthing lengt 600 ft., depth alongside 30 ft. MLLW.
**CRANES:** Two 50-ton capacity rail-mounted gantry cranes and on barge mounted 60-ton crane.
**STEVEDORES:** Eight local gangs. Additional gangs imported required.
**HOLIDAYS:** See "Tacoma".
**MEDICAL:** All medical facilities available. Local hospital.
**DENSITY:** Salt water.
**FRESH WATER:** Available at all wharves.
**FUEL:** Available. Barge delivery only.
**GANGWAY/DECK WATCHMEN:** Required only if detainee aboard.
**CUSTOMS ALLOWANCES:** No definite quantities prescribe reasonable allowance at discretion of Customs Inspector.
**AIRPORT:** 3 miles from the city.
**AUTHORITY:** Port Manager, Port of Bellingham, P.O. Box 7 Bellingham, Washington 98225.

## BENICIA, California: 38.03 N. 122.10 W.

**DOCUMENTS:** Health and all General Information: refer to "Sa Francisco".
**PILOTAGE:** Port located about 25 miles above Golden Gate Bridg River pilot joins at San Francisco, using VHF for traffic informatio Passage includes passing under two bridges, Carquinez Str Bridge having the least clearance, with 146 ft. (HW) and 151 ft. (LW (using North Channel). River passage is timed to arrive at Benic at the first of ebb tide; this is approximately 2½ hours after HW Fort Point (Golden Gate).
**ANCHORAGE:** At San Francisco.
**RESTRICTIONS:** Tankers must lighten to 36 ft. fresh-water dra This is done at No. 7 anchorage, 1½ miles East of Alcatraz Isla This cargo will later be pumped back to the tanker as barges can overcome shore back pressure. Turning basin off the berths, radi 1,800 ft.
**TUGS:** One small tug assists berthing. Only one normally requi for unberthing.
**BERTHING:** Continuous wharf 2,404 ft. long with berth for thr vessels. Depth alongside 38 ft. The North berth used for crude discharge and the South berth for petroleum products. The cen berth is equipped for handling general and bulk cargoes.
**MOORINGS:** Berths equipped with quick-release hooks and bo lards. Two head wires, four breasts and two springs forward. Th necessary because of current off the bank during ebb tide. Two st lines, two breast lines and two springs aft.

**BULK HANDLING FACILITIES:** Waterside silos capacity 26,000 tons. With loading conveyor belt capacity 1,000 tons per hour.
**TANKERS:** Crude oil discharge through two 12-in. Chiksan arms and 36-in. shoreline, 2½ miles long. Shore tanks are situated 164 ft. above sea level, initial back pressure 65/70 p.s.i.
**FRESH WATER:** Available from shore lines.
**FUEL:** Can only be delivered by barge. Average rate 300 t.p.h.
**DEVELOPMENTS:** Current plans call for: (1) enlargement to 9 berths; (2) deepening of water alongside, including channels to 45 ft.; (3) installation of bulk handling equipment for wood chips; (4) for bulk iron ore and (5) development of a complete container terminal.
**AUTHORITY:** Benicia Port Terminal Company.

## BOSTON, Massachusetts: 42.21 N. 21.05 W.

**DOCUMENTS:**

3 copies Cargo Manifest (Forms 7527–A or 7527–B), two copies showing all cargo on board, and 1 copy showing only cargo for this port.
3 copies Crew manifest (curio list).
3 copies Stores List.
3 copies Passenger List (Form I.–418).
3 copies Crew List (Form I.–418).

Customs boarding officer will also examine Ship's register and Load-line Certificate. In addition, the following documents will be required for formal entry to be made within 48 hours of arrival from abroad, or 24 hours from arrival from a United States Port:

Health Pratique.
Master's Oath (Customs Form 1300).
All foreign clearances.
U.S. Certificates of payment of tonnage tax (Customs Form 1002).
Certified Crew List.

**PILOTAGE:** Is compulsory. Pilots cruise in boats which are designated by numbers painted in black figures 4 ft. high on deck-house. The outer boat cruises outside the Graves.
**ANCHORAGES:** ANCHORAGE NO. 1.

*Upper Harbour Anchorage:* Steam and motor vessels permitted to anchor in this basin anchor within the following area: South-easterly of a line bearing 205 degrees true from North-easterly corner of Boston and Albany Pier No. 5, East Boston; North-easterly of a line bearing 122 degrees true from South-easterly corner of Lewis Wharf, North Pier; South-westerly of a line bearing 392 degrees true from North-easterly corner of Southernmost Airport Approach Pier; North-westerly of a line bearing 025 degrees true from Buoy No. 12, F1.R.6 sec.

ANCHORAGE No. 2. *President RoadsAnchorage* (40 ft. anchorage): All vessels anchoring in this basin anchor within an area beginning at a point bearing 237 degrees, 522 yards from Deer Island Light; thence to a point bearing 254 degrees, 2,280 yards from Deer Island Light; thence to a point bearing 261 degrees, 2,290 yards from Deer Island Light; thence to a point bearing 279 degrees, 2,438 yards from Deer Island Light; thence to a point bearing 319 degrees. 933 yards from Deer Island Light; thence to a point bearing 319 degrees, 666 yards from Deer Island Light; and thence to point of beginning.

*President Roads Anchorage* (35 ft. anchorage): All vessels anchoring in this basin anchor within an area beginning at a point bearing 256 degrees, 2,603 yards from Deer Island Light; thence to a point bearing 258 degrees, 3,315 yards from Deer Island Light; thence to a point bearing 264 degrees, 3,967 yards from Deer Island Light; thence to a point bearing 261 degrees, 2,290 yards from Deer Island Light; and thence to point of beginning.

ANCHORAGE No. 3. *Nantasket Roads Anchorage:* Vessels anchoring in this anchorage basin anchor within following area; Westerly of a line bearing 143 degrees from wharf at Gallups Island to Bell Buoy No. 2, South-west of Georges Island; Northerly of a line bearing 260 degrees from Bell Buoy No. 2, Georges Island, to the Northerly end of Rainsford Island; Northerly of a line bearing 273 degrees from the Northerly end of Rainsford Island to Bass Point, Long Island; Southerly of a line bearing 270 degrees from the wharf at Gallups Island to Long Island.

ANCHORAGE No. 5. *Peddocks Island and Explosive Anchorage:* Vessels anchoring in this anchorage basin anchor within following area; South-westerly of a line bearing 122 degrees true from the Easterly end of Rainsford Island to the North-easterly end of Rainsford Island to the North-easterly end of Peddocks Island, North-easterly of a line bearing 165 degrees true from the Westerly end of Rainsford Island to the South-easterly end of Peddocks Island.
**RESTRICTIONS:** There are three main channels of entrance from sea to President Roads.

*Broad Sound North Channel* from Broad Sound to President Roads from North-eastward. Dredged 35 ft. deep and 1,500 ft. wide and is deepened to 40 ft. in a width of 900 to 1,100 ft. This channel well marked by lighted buoys.

*Broad Sound South Channel* from Broad Sound South-westerly and Westerly to President Roads. Dredged 30 ft. deep and 1,200 ft. wide. This channel is well marked by buoys and ranges but most aids to navigation are not lighted.

*The Narrows* is channel leading into Boston Harbour from South-eastward between Boston Lighthouse and Lovells Island on the North-east and Point Allerton, Georges Island and Gallups Island on South-west. Depth is 27 ft. Width is generally 1,000 ft. except in a section between Narrows Light and Georges Island where shoaling on North-easterly side limits is to 700 ft. Channel is well marked.

*The Main Ship Channel* of Boston Harbour extends from President Roads to the mouths of the Chelsea and Mystic Rivers and to Charlestown Bridge on the Charles River. Channel has been dredged 35 ft. deep and 1,200 ft. wide to the inner end where widths decrease near the river mouths. It has been deepened to 40 ft. for 600 ft. width from President Roads to the mouth of the Mystic River, with a widening to 1,200 ft. at the bend just Northerly of Commonwealth Pier No. 5, South Boston.

*Charles River* is the approach by water to Cambridge and Watertown. About half a mile above the lower bridge there is a dam with a lock 45 by 350 ft. with depth of 17 ft. over the lower sill. Depths above dam decrease gradually to 9 ft., basin level, at head of navigation. *Mystic River* is approach by water to Everett, Malden and Medford. Controlling depths are 35 ft, from Mystic River bridge to approximately 1 mile above, thence 20 ft. from the 35 ft. Channel to 800 ft. above the Malden Bridge to a point abreast Monsanto Chemical Company plant. *Chelsea River* is approach to city of Revere. Channel from entrance to a point opposite the Tenneco Oil Co. terminal has a controlling depth of 35 ft. *Weymouth Fore River* is approach by water to Quincy and Weymouth. Controlling depth is 30 ft. to Fore River Bridge. Controlling depth for a distance of 2,800 ft. above Fore River Bridge is 30 ft. *Town River* extends North-westward from Weymouth Fore River at Quincy point. River has a controlling depth of 27 ft. from deep water in Weymouth Fore River to a point opposite the Quincy Oil Co. terminal. Opposite Quincy Oil Co. terminal there is a turning basin 18 ft. deep, 400 ft. wide and 1,000 ft. long.
**HEALTH:** See Health Regulations before first U.S.A. port (Albany).
**TUGS:** Steamers can proceed from the sea to Boston Upper Harbour under own power. They are usually met by tow-boats, for docking while in the stream. Barges usually left by the outside tow-boats at the anchorage grounds, to be docked later by harbour tugs
**BERTHING:** There are 259 piers or wharves in the port of Boston providing 158,646 lineal ft. or 30 miles of berthing space measured along the sides and ends of piers and along bulkheads or shore wharves. Many of them have railroad connections. The depths of water available alongside these terminals range up to a maximum of 40 ft. at mean low water. Practically all terminals fronting on main ship channel are in close proximity to storage warehouses, both cold and dry which greatly facilitates transfer of cargo between vessel and warehouse.

**Main Terminals:**

**REPAIRS:** Any type of repair undertaken.

**DRY DOCKS:**

| *Bethlehem Steel Co., Shipbuilding Division, East Boston, Massachusetts* | *Length* | *Capacity* |
|---|---|---|
| Floating Dry Dock No. 1 | 622 ft. | 18,000 tons |
| Floating Dry Dock No. 2 | 479 ft. | 20,000 tons |
| Graving Dry Dock No. 4 | 256 ft. | |

Modern facilities for repair, overhaul, and conversion of vessels of all sizes:

(*a*) A 10,000 ton capacity floating dry dock serviced by two 150 ton overhead cranes with a yoked capacity of 350 tons. The five-section dock is 415 ft. long, 120 ft. wide, and has an inside dimension of 85 ft. 7 in.

(*b*) 3 building basins (actually a three-positioned graving dock), 2 are 132 ft. wide, 867 ft. long; 1 is 150 ft. wide, 938 ft. long Each basin serviced by two whirley type cranes of 75 and 50 ton capacity.

(*c*) Four outfitting piers capable of handling up to 10 ships simultaneously provide adequate space for dockside work and for mooring personnel or service barges.

(*d*) Three conventional "sliding" ways capable of handling ships up to 1,000 ft. in length.

*Major Shops:* Two-bay fabricating shop served by 17 bridge cranes. Machine shop equipped with large vertical and horizontal mills planers, lathes and a complete small machine complement. Fully equipped sheet metal, joiner, boiler, blacksmith, pattern, foundry galvanizing, pipe and copper, and electrical shops. Complete facilities for inspection of all types including nondestructive testing such as radiography, magnetic particle, liquid penetrant and ultrasonic.

**REPATRIATION:** Good facilities exist.

**HOLIDAYS:** New Year's Day (1st January); Washington's Birthday (22nd February); Patriots' Day (19th April); Memorial Day (30th May); Bunker Hill Day (17th June); Independence Day (4th July); Labour Day (first Monday in September); Columbus Day (8th October); Veteran's Day (22nd November); Thanksgiving (fourth Thursday in November); Christmas Day (25th December). *Note:* "Or any day celebrated in lieu thereof".

**TIME:** Eastern Standard Time, GMT minus 5 hours. Daylight saving time, GMT minus 4 hours from April to October.

**AUTHORITY:** Massachusetts Port Authority, 470 Atlantic Avenue, Boston 02210.

## BRIDGEPORT, Connecticut: 41.07 N. 73.11 W.

**DOCUMENTS:** Refer to "New York".

**PILOTAGE:** Vessel usually notifies Agent 48 hours before arriva who will arrange pilot boarding. Pilot boards either at Brenton Re pos. 41.25 W., 71.23 W. or Point Judith pos. 41.17 N., 71.29 W.

**ANCHORAGE:** 2 miles South of No. 2 entrance buoy.

**RESTRICTIONS:** Local Pilot usually boards vessel at anchora at 0600 hours and docks vessel about 0700 hours. Entrance chann 33 ft.

**MAX. SIZE:** Draft up to 33/36 ft. subject to weather and tides.

**HEALTH:** Vessel to cable Agent 24 hours prior to arrival of a illness on board, otherwise radio pratique not necessary.

**RADIO:** Vessels arriving from North use Chatham Radio. Vesse from South use Amagansett Radio on Long Island.

**TUGS:** Assistance is available.

**BERTHING:** Cilco terminal, depth 30 ft. 6 in. at MLW. Length o dock 1,100 ft.

**TANKERS:** Shell dock, depth 38 ft. at MLW. United Illuminati Co., depth 35 ft. at MLW, max. length 800 ft.

**FRESH WATER:** Available at all berths.

**FUEL:** No fuel barge service available. In emergency tank tru delivery can be arranged.

**MEDICAL:** All facilities available.

**AIRPORT:** Bridgeport Airport about 3 miles away. New Yo airports about 50 miles distance.

**CONSULS:** All countries represented in New York.

**HOLIDAYS:** New Year's Day (1st January); Lincoln's Birthda (12th February); Washington's Birthday 18th February); Goo Friday–Memorial Day–Independence Day (4th July); Labour Da Columbus Day (14th October); Veterans' Day–Election Day (5 November); Thanksgiving Day (28th November); Christmas Da (25th December).

**TIME:** Daylight Saving Time, GMT minus 4 hours from April t October.

**AUTHORITY:** Office of the Harbour Master, Room 16 Munici Parking Terminal, 35 John Street, Bridgeport, Connecticut 06603.

**AGENT:** Cilco Terminal Company Inc., (Main office) 75 Third Stre (Terminal and Operations) 535 Seaview Avenue, Bridgepo Connecticut 06601. Tel. (203) 336–3841. TWX 7104534028. Cabl "Cilco".

## BROWNSVILLE, Texas: 25.54 N. 97.28 W.

**DOCUMENTS:** See "Houston".

**PILOTAGE:** When a vessel is scheduled to arrive at the port o Brownsville the vessel's Agent notifies the Harbour Master's offi of the approximate ETA. Later, when a firm ETA is received, t Harbour Master's office notifies the pilot office that the vessel i expected on the bar at a certain time and also gives the time whi she would like to enter.

The telegraphic address of the pilot office is: Brazos-Santia Pilots, 411 First National Bank Bldg., Brownsville, Texas.

If possible, it is desired that the pilot office be notified two hou in advance of the ETA of any vessel.

The VHF Channel to be used when contacting the pilot boat is 1 When contact is made, this will be switched to Channel 13.

The pilot boat is an oil screw vessel, powered by a Caterpil diesel engine. Her gross tonnage is 1,782, length 45 ft., beam 12 7 in. and draft 6 ft.

No light or sound signals are necessary from vessels requir a Pilot, although light signals may sometimes be used at nigh ordinarily a vessel is picked up by visual sighting.

The pilot boat is located on the South tip of Padre Island - t pilot station is adjacent to the entrance to ship channel with a cl view of the approach to the jetties.

The Pilot is taken on board an incoming vessel at the sea bu which is located 2 miles off shore.

The anchorage for a vessel awaiting Pilot is 1½ miles North o sea buoy.

**ANCHORAGES:** Anchorages are marked on charts.

**MAX. SIZE:** The maximum permissible: Length 800 ft., beam 100 draft 35 ft.

**RADIO:** ETA cables to Agent, etc., should be addressed to t Agent via Mackay Radio at Galveston or RCA in Port Arthur. Wh within a 60 miles range of the port, calls may be made through t Harbour Master's office on VHF Channel 16 or 26 and the calls w then be transferred to land lines to any point.

**VHF:** A vessel approaching the port of Brownsville may con the Harbour Master's office on VHF Channel 16 or 26.

**TUGS:** Tugs normally join an incoming vessel 1¼ miles before s enters the turning basin. The tug's lines are used for which ther no charge.

**STEVEDORES:** To arrange for gangs the vessel needs to no the ship's Agent of ETA; the Agent will in turn notify the steved It is necessary that the Agent be advised of an ETA before 1900 an 0800 start.

Main commodities and average load and discharge rates:

| | |
|---|---|
| Grain | Bulk carrier 1,200 tons per hour |
| ,, | between deck 600 tons per hour |
| Cotton | 100 bales per hour per gang |
| Lead and zinc pigs | 30 tons per hour per gang |
| Citrus in boxes | 18 tons per hour per gang |
| Onions and carrots in bags | 18 tons per hour per gang |
| General cargo | 25 tons per hour per gang |

**MEDICAL:** When medical attention is required, advance notice should be given the Agent by ship's radio. U.S. Public Health radio pratique questionnaire should be complied with to expedite vessel's clearance on arrival from a foreign port.
**TANKERS:** Ballast facilities are available up to 6,000 barrels per hour. The port loads residual crude only – about 13·2 API. The port has three tankers berths, with 34 ft. 7 in. maximum draft.
**DENSITY:** The average density is 32 parts per 1,000.
**FRESH WATER:** Fresh water is available and can be delivered to a vessel through hose or pipe line at 150 gallons per minute.
**FUEL:** No fuel is available locally. It must be barged in from Corpus Christi – advance arrangements are necessary.
**FIRE PRECAUTIONS:** Tankers are required to berth head out.
**DEVELOPMENTS:** The Federal Government has made an appropriation to initiate a study on deepening ship channel from 36 ft. to 45 ft. and to widen the channel from 200 ft. to 400 ft., bottom width. Plans are being made to build another grain elevator/bulk materials dock, and another chemicals dock within two years. A bulk liquid cargo dock will be completed early 1974.
**GANGWAY/DECK WATCHMEN:** Such services are necessary only when detainees are held on board.
**OPENING/CLOSING HATCHES:** This work is done by the stevedores.
**IDENTIFICATION CARDS:** Immigration requires form No. 1–95 Landing Permit.
**CONSULS:** Mexico: tel. 542–4431; Guatemala, Costa Rica and Honduras, tel. 542–3506; Nicaragua, tel. 546–6861.
**REPAIRS:** Howard Iron Works, located at the port, is equipped to handle all normal temporary ship repairs.
**DRY DOCKS:** None available.
**REPATRIATION:** There are facilities for this service.
**AIRPORT:** The local airport is located 2 miles from the port. Braniff Airways operates three flights daily.
**TIME:** Local Time is 6 hours behind GMT.
**HOLIDAYS:** The following holidays are observed here: Veterans Day (4th Monday of October); Thanksgiving; Christmas; New Year; Washington's Birthday (Feb. 22); Texas Independence Day (March 2); Emancipation Day (June 19); July 4th; Labour Day (first Monday in September); Decoration Day (last Monday in May).

No work shall be performed on Labour Day or Christmas Day except in case of fire or where property is in danger. When holidays come on Sunday, the following day will be recognised as the holiday. Also, no work will be performed between 1600 and 1900 hrs. on election days.
**POLICE/AMBULANCE/FIRE:** Brownsville Police 546–3751; Brownsville Fire Dept. 542–4375; Ambulance Service 542–2121.
**TELEPHONES:** Telephones are not available for placing on ships.
**SERVICES:** Tank cleaning service is available through the Howard Iron Works at the port. Ballast facilities are available at oil docks 1, 2 and 3. The Gulf Radio Electronics Company can take care of compass adjusting, etc.
**DELAYS:** There are no delays unless an incoming ship has been assigned to a berth now occupied. Bunkers must be barged in; arrangements may be made ahead of time to avoid delay.
**AUTHORITY:** Port Director, PO Box 3070, Brownsville, Texas. Tel. 831–4592.

## BRUNSWICK, Georgia: 31.09 N. 81.30 W.

**DOCUMENTS:**
Crew Lists: 1 certified copy for Immigration; 2 copies uncertified for Customs.
1 copy Pratique.
3 copies Inward Customs Manifests.
3 copies each Stores, Curio & Narcotics List.
**PILOTAGE:** Compulsory. 24-hour pilot service arranged by Agent with 48–24 hour prior notice from ship. Pilot station at Buoy "St. S." Pilot reached through UHF Channels 12, 14, 16 on voice radio (R/T). Pilot boat is 35 ft. white hull. No special signals required to pilot other than International code flag "G" if desired.
**ANCHORAGES:** 3 miles S.E. of buoy "St. S." sand and mud bottom. In event deep draft (30 ft.) and high winds, anchorage near Ocean Buoy 2B and inform pilot as in "Pilotage". Vessels in need or for other good reason, may anchor in St. Simon's Sound, depth 10 fathoms.
**APPROACHES:** The harbour is located about midway between Savannah and Jacksonville. The harbour is reached by a channel from the Atlantic Ocean, running between St. Simons and Jekyll Island. The channel has a minimum width of 500 ft. and a depth of 32 ft. to St. Simons Sound, thence a width of 400 ft. and a depth of 30 ft. to Sidney Lanier Bridge, where the channel divides, thirteen miles from sea. The Northern branch leads to Lanier Dock, State Dock and the city, 400 ft. wide and 30 ft. deep. The other branch leads NW to the pulp plant dock, chemical docks and electrical generating plant, 300 ft. wide and 30 ft. deep.
**RESTRICTIONS:** No restrictions unless vessel drawing 30 ft. or more, then must await high tide to cross bar.
**MAX. SIZE:** Maximum permissible length 650 ft. Max. dwt. over 33,000 tons.
**HEALTH:** Pratique obtained from Boarding Officer upon mooring alongside.
**RADIO:** Prior arrival, use commercial Lantana, Chatham Radio for advices to Agent, 48–24 hours in advance.
**TUGS:** 2 tugs, 500 h.p. each. Join vessel in St. Simon's Sound after passing lighthouse. Tug lines used.
**BERTHING:** 1,600 ft. continuous marginal wharf; steel & concrete construction, 57 ft. wide apron. Vessels normally turned to moor port side alongside unless deck cargo or other vessel obstruction means cargo may not be worked over port side. Gantry crane of 27 tons capacity available.

The Brunswick Port Authority operates a bulk commodity terminal at Lanier Dock. The facility is 500 ft. long and constructed of steel and concrete, with a project depth of 30 ft. MLW, equipped with a grab bucket, conveyors and marginal tracks for handling bulk cargoes at rates up to 600 tons per hour. It operates a covered warehouse with a capacity of approximately 10,000 tons. A limited amount of open storage space is available equipped with a conveyor system and reclaim facilities. Lanier Dock lies directly adjacent to the Brunswick State Docks and warehouses. Both wharves have a turning basin of 1,000 ft. in length and 600 ft. wide with a project depth of 30 ft. MLW (mean low water), also Barge Dock facility 250 ft. long.
**BRIDGES:** One: Lanier Bridge draw bridge; 250 ft. horizontal clearance, 139 ft. vertical clearance, up position, high water. Vessels under pilot and tugs when passing through.
**STEVEDORES:** Wireless to Agent 48–24 hours prior arrival with number of gangs, working hatches and space in hatch, and special factors, e.g., pilferable cargo, autos, heavy-lifts, etc.
**MEDICAL:** Advance notice to Agent, or notify on arrival.
**TANKERS:** Petroleum tankers do not now call at Brunswick. Liquid bulk cargo is pine oil distillates loading.
**DENSITY:** Average 1.0166 (high) to 1.0141 (low). Water inside considered brackish.
**FRESH WATER:** From shore connections at 20 tons per hour.
**FUEL:** Not available locally. Must be delivered from Jacksonville, Florida. If required, 72 hour advance notice to Agent, giving type & quantity.
**DEVELOPMENTS:** Tanker and solid-bulk facility, 1974.
**GANGWAY/DECK WATCHMEN:** Not required but available.
**OPENING/CLOSING HATCHES:** "MacGregor" hatches must be opened by vessel prior working. All others may open at discretion to save turn-around time.
**CERTIFICATES:** Registry, U.S. tonnage tax.
**CUSTOMS ALLOWANCES:** Tobacco, 2 cartons. Customs will open bonded stores on request. Spirits, reasonable amount.
**IDENTIFICATION CARDS:** U.S. Immigration Landing Permits.
**CONSULS:** None, consulates at Savannah, Ga., and Jacksonville, Fla., may be used as required by vessel.
**REPAIRS:** Limited to minor replacement parts to engine, radio, radar of standard makes. Major repairs may be arranged with shipyards of Savannah or Jacksonville.
**DRY DOCKS:** None.
**REPATRIATION:** Through Agent.
**AIRPORT:** 20 minutes drive from quays; 4 flights daily.
**TIME:** GMT minus 5. Daylight Saving Time, 15 April through last Sunday October. April: advance; October: retard.
**HOLIDAYS:** 1 Jan., 15 Jan., 12 Feb., 22 Feb., 30 May., 4 July, 1st Monday in September, 12 October, 11 November, 4th Thursday in November, 25 December.
**POLICE/FIRE/AMBULANCE:** Numbers given in Boarding Brochure.
**TELEPHONES:** None placed aboard. Public pay (coin) telephones on quay clearly marked.
**GENERAL:** Brunswick, Georgia, is a small port specialising in export of woodpulp in bales, pine-tree products in drums. Imports bulk salt, salt-cake, and gypsum, little break-bulk general cargo. Vessel requirements handled by Agent in residence, communication by wireless or R/T essential in advance.
**AUTHORITY:** The Brunswick Port Authority, PO Box 1039, Brunswick, Georgia 31520. Tel. 265–3700, A.O. 265–3703.
Georgia Port Authority, PO Box 2406, Savannah, Georgia 31402.

**AGENT:** Southern Shipping Company, State Port Bldg. Tel. 912/256/7588. Cables: Soshipco.

## BUFFALO, New York: 42.55 N. 78.55 W. (See Plan)

**DOCUMENTS:** For vessels arriving from foreign ports:
3 Unfreighted copies of Complete Manifest covering all cargo to be discharged in the Great Lakes.
4 Personal Effects Lists.
4 Crew Lists.
4 Narcotics Lists.
Vessel's Registry and copies of Paid Tonnage Tax Certificates.
Health Pratique.
Clearance from previous port.
**PILOTAGE:** Not compulsory. Seaway Pilots will assist if required.
**MAX. SIZE:** Limited by Seaway Locks. 730 ft. length and Seaway draft.
**RESTRICTIONS:** St. Lawrence Seaway navigation season approximately from 15th April to 10th December. Controlling depth 25 to 27 ft.
**HEALTH:** Ocean-going vessels must obtain a free pratique before entering the Seaway, which may be obtained from Canadian Authorities in Montreal.
**TUGS:** Available.
**RADIO:** WBL – Buffalo.
**BERTHING:** Outer harbour: Total berth space 2,400 ft.; depth alongside 27 ft. LWD. Two transit sheds – total of 184,000 ft. dry dock space; sprinkler system equipped, seaway piers for bulk cargoes. South and North Piers 3,506 ft. of berth space, 200 acres open storage area. Depth alongside 27 ft.

**SPECIALISED CARGO HANDLING FACILITIES:** Niagara Frontier Transportation Authority has a mobile gantry crane capable of handling lift of 50 tons at 40 ft. with a boom. Additional heavy lift equipment available from commercial sources.
**DENSITY:** Fresh water.
**MEDICAL:** U.S. Public Health Outpatient Clinic as well as numerous hospital facilities.
**FRESH WATER:** Available at most berths.
**FUEL:** All grades available by tank truck delivery or by harbour tank barge.
**REPAIRS:** Machinery and above-water repairs available.
**GENERAL:** Refer to "Great Lakes Pilot".
**AUTHORITY:** Niagara Frontier Transportation Authority, 901 Fuhrmann Boulevard, Buffalo, New York 14203. Tel. 716–852–8985. Telex 91–6423.

## BURNSIDE, Louisiana: 30.08 N. 90.55 W.

East bank of Mississippi River, about 200 miles from sea.
**DOCUMENTS/HEALTH/PILOTAGE:** For all general information refer to "New Orleans".
**TUGS:** Not normally required.
**BERTHING:** Bulk Marine Terminal: berth 800 ft. long, 40 ft. depth; Ormet Corporation berth 825 ft. long, 50 ft. depth.
**FRESH WATER:** Available ex-berth.
**FUEL:** Not available.
**DENSITY:** Fresh water, 1000.

## CAPE COD CANAL, Massachusetts

The Cape Cod Canal is a sea-level canal, extending from a point on Cape Cod Bay about 50 miles South-east of Boston Harbour, Mass., to the head of Buzzards Bay, Mass. In general direction the canal trends from Cape Cod Bay Westerly to Buzzards Bay.
**PILOTAGE:** The Corps of Engineers, Department of the Army, does not maintain pilot service but independent Pilots, licensed by the U.S. Coast Guard, are usually available at the canal. Messages will be transmitted to Pilots with the understanding that the Government will assume no responsibility in connection therewith.
**RESTRICTIONS:**

| | *Width bottom Feet* | *Length Miles* |
|---|---|---|
| Easterly Entrance to Station 430 | 480* | 8·4 |
| Station 430 to Wings Neck (Hog Island Channel) | 500 | 4·3 |
| Wings Neck to Cleveland Ledge (Cleveland Ledge Channel) | 700 | 4·7 |

* Except narrows to 450 ft. opposite State Pier.

The canal and approach channels have been dredged to the project depth of 32 ft. below mean low water.
**RADIO:** Direct communication with the Cape Cod Canal Sub-office, New England Division, Corps of Engineers, is available at all hours by means of telegraph, telephone or radio. The tel. number is 759 4431. The nearest ship-to-shore telephone station is at Scituate (call letters WOU). Bridge to Bridge radio-telephone facilities are available on 156·65 Mc.
**TUGS:** Not available.
**BERTHING:** Mooring basins are located at the East and West ends of the canal. The East Mooring Basin, located on the North side of the canal is 3,000 ft. in length, 550 ft. in width and has been dredged to a depth of 25 ft. at mean low water. The West Mooring Basin, located on the South-east side of the Hog Island Channel is 4,000 ft. in length, 350 ft. in width and has been dredged to a depth of 32 ft. at mean low water. Mooring dolphins are provided in both mooring basins.
**BRIDGES:** Two fixed span high-level highway bridges and one vertical lift railroad bridge cross the canal.
**COAST GUARD STATION AND WEATHER SIGNALS:** A U.S. Coast Guard Station is located near the Eastern entrance. U.S. Weather Bureau Signals are displayed at the eastern entrance and at Wings Neck.
**TRAFFIC LIGHTS:** Red, green and amber electric lights, visible for a distance of about 2 miles in clear weather, day or night, are located at the following points:

(*a*) Eastern or Cape Cod Bay entrance, on South side of entrance at an elevation of about 55 ft. above high water.

(*b*) Supplemental traffic lights at a mean elevation of 28 ft. above MHW are installed at the Easterly side of the Sandwich Control Station, South side of canal, canal station 35+00 and will be energised at such times as power failures and/or other conditions make the regular traffic lights at the Easterly canal entrance inoperative.

(*c*) Western or Buzzards Bay entrance, (1) Wings Neck, near Wings Neck Light at an elevation of about 48 ft. above high water.

(*d*) Station 389 – on North side, near the U.S. Engineer Sub-office, elevation of about 37 ft. above high water, for East-bound traffic only.

**AUTHORITY:** Corps of Engineers, Dept. of the Army, Waltham, Massachusetts.

## CASTLE ISLAND, Alaska

Located in Duncan Canal off Kupreanof Island between Wrangell and Petersburg. Open all year.
**DOCUMENTS:** See "Anchorage, Alaska".
**PILOTAGE:** (From sea via Dixon Entrance up Clarence Strait to Guard Island.) Under pilotage from Guard Island.
**MAX. SIZE:** Harbour depth 45 ft.
**TIDES:** Diurnal range 16 ft. Also see "Berthing".
**ANCHORAGE:** Fair weather anchorage only.
**CUSTOMS:** Quarantine and Immigration available from G Island. Customs available from Petersburg or Guard Island.
**BERTHING:** Alaska Barite facility: dolphins and two floats. sent facilities limited to about 22,000-ton ships. Loading equip consists of one loading spout for bulk cargo. Production averag 1,000 tons per hour.
**TUGS:** From Wrangell three available 500 h.p. each.
**STEVEDORES:** Sufficient to work ore loading facility 24 hou day when necessary.
**REPAIRS/WATER/FUEL:** None.
**MEDICAL:** Facilities available in Petersburg or Wrangell.
**AIRPORT:** Charter airplane only.

## CHARLESTON, South Carolina: 32.47 N. 79.56 W. (See Plan)

**DOCUMENTS:**
3 Crew Lists.
3 Curio Lists.
3 Stores Lists.
3 Manifests.
At least 1 copy of Bill of Lading, if provided by shipper, and 1 c of Parting Crew List.
**PILOTAGE:** Shipmasters to notify Agent 48, 24 and 12 hours arrival at C-2 Buoy. Pilot may be contacted by VHF Channe and 18. Pilot boards on lee side from black-painted launch "PILOT" painted in white letters on the side. Normally vess berthed by Docking Master from tug company.
**ANCHORAGES:** Rarely required.
**RESTRICTIONS:** Only restriction affecting operation relate channel depth of 35 ft. at low tide.
**MAX. SIZE:** Can handle vessels 950 ft. long. Present facil measure 475 ft. from centre of discharge pipeline to end of doc
**HEALTH:** Recommend shipmaster's use of free radio prat request when arriving direct from a foreign port. If Master fai radio for pratique, automatically arranged for boarding of ve by proper Health authority. No pratique necessary if foreign ve is arriving from another U.S. port.
**RADIO:** Normal procedure. No special or unusual proced required.
**TUGS:** Tugs usually join tankers between Cooper River Bridge Coal Pier, approximately ½ mile from dock. Tug lines used. No cha made for this service.
**BERTHING:** No specific requirements exist other than 35 ft. draft at low tide.

There are two container berths equipped with two conta cranes, capacity 40 tons each.
**CRANES:** A 400-ton fixed crane has been installed at Colon Street Terminal.
**STEVEDORES:** *Working hours:* Labour may be ordered for to start at the following times: 0800, 1000, 1200 and 1900. Labour usually work as long as necessary; shift system not used in port.
**RADAR/VHF:** Services required are handled through Agent.
**MEDICAL:** Advance notice when possible.
**TANKERS:** Discharge lines all 8 in. dia. and 1 solvent line Adapter to conform to ship's discharge lines supplied. Draft no exceed 35 ft. low tide. Tanker berths operated by Humble Oil, S Oil, Hess Oil, BPT, and Phillips Petroleum, all suitable for 3 draft. Gulf Oil berth, max. draft 30 ft. Texaco berth, max. draft 32
**FRESH WATER:** Available via 2½ in. hose at a rate of 500 bbls hour.
**FUEL:** Bunker "C" at API of 14.4 to 16.6 (approx.) and blended Bo Intermediate grades from 1 to 30.
**FIRE PRECAUTIONS:** Normal precautions.
**DEVELOPMENTS:** No changes planned in present facilities channel depth is increased.
**GANGWAY/DECK WATCHMEN:** Supplied by Agent request from Shipmaster only.
**CERTIFICATES:** Normal International certificates.
**CUSTOMS ALLOWANCES:** Tobacco, Wine and/or Sp governed by length of time in port and existing Customs regulat
**CONSULS:**
Danish Vice-Consulate 722–7016
Norwegian Vice-Consulate 723–9241
**REPAIRS:** Available.
**DRY DOCKS:** One 10,000-ton floating dock, one 1,500-ton two 1,000-ton floating docks.
**REPATRIATION:** Facilities available.
**AIRPORT:** Ten miles from Terminal, served by regular airline
**HOLIDAYS:** Work continues on holidays.
**POLICE/AMBULANCE/FIRE:** Contact dockmaster at any tim
**TELEPHONES:** No arrangements exist for placing phones ab vessels. Phone facilities are situated within 100 ft. of vessel at
**SERVICES:** No tank cleaning/washing facilities available at Can be arranged and handled at local shipyard. Practically any service available at dockside.
**SHORE LEAVE:** Subject Shipmaster's permission and exi Immigration regulations.
**DELAYS:** Normally, no delays beyond normal time requi connect/disconnect hoses.
**AUTHORITY:** South Carolina State Ports Authority.

## CHICAGO, Illinois: 41.50 N. 87.45 W.

**DOCUMENTS:**
For Agent in Montreal:
3 unfreighted copies of Complete Manifest for Seaway Toll purposes covering all cargo to be discharged in the Great Lakes.
In first U.S. port: a "Traveller" is made up by the Customs Inspector with the following documents:
2 complete sets of U.S. Cargo Manifests, plus 6 copies for Agents.
1 set Manifest of Cargo for first U.S. port.
4 Stores Lists.
4 Personal Effects Lists.
4 Firearms and Ammunition Lists.
4 Crew Lists, Form I418.
4 Narcotics Lists.
4 Vessel's Itinerary Lists.
Vessel's Registry and copies of Paid Tonnage Tax Certificates.
Health Pratique.
Clearance from previous port.
2 sets Bills of Lading.
3 copies Stowage Plan.
In subsequent U.S. ports the following are required:
5 sets Manifest of Cargo for that port.
The "Traveller" and Permit to Proceed issued in previous port.
2 Stores Lists.
2 Personal Effects Lists.
2 Firearms and Ammunition Lists.
2 Crew Lists.
2 Narcotics Lists.
2 sets Bills of Lading.
3 copies Stowage Plan.

**PILOTAGE:** Compulsory unless Master holds exemption "B" license. 24 hours notice of arrival required by Agents who arrange Pilot.

**ANCHORAGE:** In Chicago Harbour, anchorages A, B and F designated for merchant ships and marked on charts. In Calumet Harbour vessels should not anchor within 1,000 ft. of the breakwaters.

**RESTRICTIONS:** St. Lawrence Seaway navigation season approximately from April 15th to November 15th. Controlling depth 27 ft.

**MAX. SIZE:** Limited at Seaway Locks. 730 ft. length, 26 ft. draft. Depth alongside terminals 27 ft.

**RADIO:** Port can be contacted by Illinois telephone station WAY.

Notice of arrival; Master must give at least 24 hours notice to Commander 9th Coast Guard District, Cleveland, Ohio, of the vessel's ETA at Snell Lock. Also at least 24 hours notice of ETA at first U.S. discharge port is required.

**HEALTH:** See Health Regulations before first U.S.A. port (Albany).

Department of Agriculture board all vessels. Immigration board vessels arriving from foreign ports.

Every vessel must obtain a free pratique before entering the St. Lawrence Seaway. This is usually done by means of radio and is automatically granted unless illness on board.

This free pratique is valid also for United States Great Lakes ports and the Customs officer at the first U.S. port of call will secure it from the vessel.

**TUGS:** Available, not compulsory but recommended.

**BERTHING:** *Navy Pier Terminals:* The Great Lakes Storage and Contracting Co. terminal at Navy Pier contains 1,280 ft. of berthing space and a storage area of 450,000 sq. ft. under cover. The terminal has a general cargo capacity of 25 tons per hour. Lift trucks at Great Lakes range up to 20,000 lb. in capacity.

The North Pier Terminal Co. terminal has 1,235 ft. of berthing space and more than 250,000 sq. ft. of dock space, with 185,000 sq. ft. under cover. North Pier also features adjacent warehousing available in its downtown distribution centre. Lift truck capacity at North Pier ranges up to 62,000 lb.

Both terminals feature dockside rail and truck service and mobile cranes for heavy lifts.

*Calumet River Terminals:* Transoceanic Terminal Corp. has its facilities at the mouth of the Calumet River. Transoceanic handles general cargo, automobiles, steel products, bulk liquids and containers. The terminal has 3,000 ft. of berthing space, 130,000 sq. ft. of transit shed storage, and 850,000 sq. ft. of open storage. Heavy lift cranes run from 75 to 110 tons in capacity. Transoceanic also has numerous lift trucks, with capacities to 56,000 lb.

Federal Marine Terminals Inc. handles general cargo, steel products and containers. This facility has 730 ft. of berthing space, 34,000 sq. ft. of covered storage space and 11 acres of open storage space. Heavy lift cranes at Federal Marine range from 20 to 150 tons. Lift truck capacities range up to 52,000 lb.

The Rail to Water Transfer Corp. (RTW) on the Calumet River specialises in handling, storing and distributing raw materials or dry bulk commodities. RTW's twin bulk loading facilities offer two deep-water berths, each more than 700 ft. long. The facility has railroad yards that accommodate 2,200 rail cars adjacent to the dock. The twin loading towers provide fast handling at up to 2,500 tons per hour.

Western Navigation Co. handles bulk cargo, such as coal, coke, pig iron, ore and scrap. Berthing space is 1,000 ft. Western Navigation has 28 acres of open storage space. Rail facilities feature a complete switcharound that holds 30 cars. Heavy lifts include 3 cranes with capacities from 25 to 100 tons. Handling mostly Great Lakes vessels. Western also loads coke and scrap on ocean vessels.

*Lake Calumet Terminals:* Bulk Terminals Co. in Lake Calumet transfers liquid bulk cargoes – animal fats, vegetable oils and chemicals. Bulk Terminals has 400 ft. of berthing space, with storage capacity of more than 550,000 barrels and 16,000 sq. ft. of drumming warehouse space. This facility has a transfer capacity of approximately 200 tons per hour. Bulk also has 5 miles of internal railroad trackage and a switch engine.

The International–Great Lakes Shipping Company (INGLA) terminal at Lake Calumet handles steel, ores, pig iron, scrap and containers. The terminal was designed for easy interchange of cargoes to and from deep sea vessels. Mississippi River barges, Great Lakes vessels, railroads and trucks – both local and interstate. Truck and railcar weighing services are available also. INGLA has 1,500 ft. of berthing space; 45,000 sq. ft. of covered storage, and 27 acres of open storage. Heavy lift equipment includes 5 cranes ranging from 125 to 150 tons. Lift truck capacities range up to 50,000 lb. per unit.

Calumet Harbor Terminals Inc. facilities are at the entrance to Lake Calumet. This terminal handles general cargo, steel, liquid bulk and containers. Berthing space is 2,600 ft. Complete barge facilities are available. There are 300,000 sq. ft. of covered storage space and 13 acres of open black-topped storage space. Heavy lift equipment includes seven cranes, ranging from 35 to 150 tons. Also available are 40 heavy lift trucks ranging from 10,000 to 62,000 lb.

North Pier Terminal Co. facilities on Lake Calumet have 176,000 sq. ft. of transit shed (60,000 heated); 100,000 sq. ft. of general storage, warehouse and distribution area (50,000 heated), and 50,000 sq. ft. of open storage. Refrigerated space is available in the transit warehouse. Equipment includes a 110-ton crane and lift trucks with capacities up to 62,000 lb. North Pier services barge traffic to and from locations along the entire inland waterway system, and as far south as the Gulf, in addition to serving deep draft vessels.

EmEsCo warehousing and marine terminal facilities on Lake Calumet are designed for efficient handling of steel, machinery, containers, scrap, pig iron, ferro-alloys and other metallic bulk commodities. EmEsCo's 800 ft. of heavy duty bulkhead and two 75-ton gantry mounted cranes operating over 3,700 ft. of tracks provide more than 1,000,000 sq. ft. of open storage under cranes. EmEsCo has 100,000 sq. ft. of heated warehouse, with plans to expand that to 425,000 sq. ft. Other features are 25 acres of open storage, miscellaneous auxiliary cranes, an electronic truck and rail scale, 25,000 ft. of railroad track, ship to barge transfer, 100 intra-plant flat and gondola cars.

(The Chicago Regional Port District also has a 110-ton floating crane available for shippers at Calumet Harbour.)

*Indiana Harbour:* Located about 7 miles South-east of Calumet Harbour and has 2 miles of waterfront along Indiana Harbour Canal. Depth of water alongside 22–29 ft. depending on berth.

*Buffington Harbour:* Private harbour owned by Universal Atlas Cement. Located about 9·5 miles South-east of Calumet Harbour. A concrete dock 1,755 ft. long, enclosed by a breakwater with entrance 880 ft. wide. Exposed to heavy North-easterly swell. Depth alongside from 25 to 31 ft.

**BULK HANDLING FACILITIES:** Garvey Grain Co. Rock Island Elevator. Berthing space 650 ft. Storage capacity 3,800,000 bushels. Shipping capacity 25,000 bushels per hour. The elevator has one leg with three spouts. Unloading capacity from rail cars is 12,000 bushels per hour. It is also equipped with pellet mills for pelletizing grain products.

Garvey Penn Central Elevator. Berthing space 770 ft. Storage capacity 2,150,000 bushels. Shipping capacity 25,000 bushels per hour. The elevator has one marine leg and 2 loading spouts. Unloading capacity is 10,000 bushels per hour.

Continental Grain Company's Elevator "B" on the Calumet River has a storage capacity of 6,800,000 bushels. Elevator "B" has 5 loading spouts with a shipping capacity of 40,000 bushels per hour. Unloading capacity from barges is 15,000 bushels per hour. Receiving capacity from rail cars is 10,000 bushels per hour and from trucks 15,000 bushels per hour. The berthing space at elevator "B" is 1,025 ft.

The Cargill Inc. grain elevator on the Calumet River has a capacity of 23 million bushels. In addition to grain, this facility handles salt, molasses, and grain by-products. Cargill has 3,600 ft. of berthing space – 1,200 of this for elevator use, and 20 acres of open storage. Loading capacity is 60,000 bushels per hour, while unloading is 12,500 bushels per hour. Cargill has 3 marine legs, and 5 loading spouts.

The Gateway Elevator of the Indiana Grain Co-Operative at Lake Calumet offers storage capacity of 6,500,000 bushels for bulk grains. The eight loading spouts have a capacity of 20,000 bushels each per hour. Unloading speed is 10,000 bushels per hour. Berthing space is 1,000 ft.

Continental Grain's Elevator "C" at Lake Calumet has a capacity of 6,500,000 bushels of bulk grain and grain products. The 8 loading spouts have a capacity of 20,000 bushels each per hour. Unloading capacity is 10,000 bushels per hour. This facility has 1,000 ft. of berthing space.

**DENSITY:** Fresh water.

**MEDICAL:** Doctors, hospital and all facilities available.

**FRESH WATER:** Available at most berths.

**FUEL:** All grades available, ex-wharf, or delivered by barge.

(1) No storage available at wharf, iron ore is unloaded directly from vessels to rail cars for shipment.
(2) Reserve storage.
(3) Additional open storage area for 261,200 tons of ore available North of Clark Avenue Viaduct.

*Grain:* Two private waterside, grain elevators are located at the port; each has facilities for receiving grain by rail and by water.

The International Multifoods, Inc., owns and operates a 590,000-bushel elevator at the rear of its wharf on the right bank of the Cuyahoga River, approximately 270 ft. above the Centre Street Bridge. This elevator, consisting of 2 wooden, storage bins and 20 concrete silos, is used in connection with the milling operations of the company. The wharf provides 350 ft. of berthing space with 22- to 18-ft. depths of water alongside at low water datum. A marine leg unloads grain from vessels at a rate of 8,000 bushels per hour; grain is unloaded from rail cars by power shovels at a rate of 4 cars per 8 hours. Rail tracks serving the elevator and flour mill connect with tracks of the Penn Central Transportation Co.

The elevator and wharf of Sherwin-Williams Chemicals, a division of The Sherwin-Williams Co., are on the left bank of the Cuyahoga River, approximately 475 ft. below the West 3d Street Bridge. The wharf provides 763 ft. of berthing space with 23- to 18-ft. depths of water alongside at low water datum. A marine leg unloads flaxseed from vessels into 9 steel storage tanks at a rate of 5,000 bushels per hour. The tanks, at rear of the upper part of the wharf, have a total capacity for 700,000 bushels. Additional storage for flaxseed is provided in the holds of vessels moored alongside the wharf during the closed navigational season. In addition to receiving flaxseed, the company also uses the wharf for the shipment of linseed oil. Two 3-in pipe-lines extend to the wharf from 22 storage tanks located at the mill in rear; the tanks have a total capacity for 2,000,000 gallons. Rail tracks serving the elevator and linseed oil mill connect with the Erie-Lackawanna Railway.

**DENSITY:** Fresh water.

**MEDICAL:** Doctors, hospital and all facilities available.

**FRESH WATER:** Available at most berths.

**FUEL:** Marine gas oil and diesel oil readily available, ex-wharf or delivered by barge.

**REPAIRS:** All marine repairs can be effected. Dry dock 730 ft. length at Lorain, Ohio.

**GENERAL:** Refer to "St. Lawrence Seaway" for important general information.

**AUTHORITY:** Cleveland-Cuyahoga County Port Authority. 101 Erieside Avenue, Cleveland, Ohio 44114. Tel. 216–241–8004.

## COOS BAY, Oregon: 43.22 N. 124.13 W.

**DOCUMENTS:** Local Port Authority does not require any documents from merchant vessels entering this harbour. This does not preclude United States Customs requirements for documents.

**PILOTAGE:** No specified amount of advanced notice of ETA required. Radio contact may be made on frequency 8182, also on frequency 2182. Pilot will be taken on board at entrance of Coos Bay channel. No designated anchorages for vessels awaiting a Pilot.

**ANCHORAGES:** Only anchorage in Coos Bay is South of buoy 23. Limiting draft 30 ft.

**RESTRICTIONS:** Only entry restriction is vessel's draft which is normally acceptable at 28½ ft. maximum flood tide, depths of 30 ft. to 33 ft. have been accommodated.

**MAX. SIZE:** Maximum permissable length is 675 ft. Breadth 100 ft. and draft normally 28½ ft. with above-mentioned exceptions. A 2 ft. clearance under keel is considered necessary for safe navigation. Vessels entering Coos Bay from sea draw down about ⅛" per foot of draft because of difference of density.

**HEALTH:** See Health Regulations before first U.S.A. port (Albany). Immigration and Department of Agriculture board on arrival.

**RADIO:** Independent Stevedore Co. KVR 484, Radio frequency 156.9 MEG.

**TUGS:** Pilot vessel acts as Tug. Emergency small harbour tugs available and ship's lines generally used.

**BRIDGES:** Two bridges cross the main ship channel. The Southern Pacific railway drawbridge 9 miles from the entrance and the Coast highway bridge 9·6 miles from the entrance. Clearance height of the highway bridge is 149 ft. in the centre of the span at MLW. Clearance width of swinging railway bridge 194 ft.

**BERTHING:** *Cape Arago Dock:* Length 504 ft. Depth alongside at MLW 22 ft. 6 in. (West end) and 25 ft. (East end). No dock cranes available. Fresh water available. Distance from entrance 5 miles.

*Roseburg Lumber Co. Dock:* Length, 635 ft. Depth alongside at MLW 35 ft. No fresh water available. Distance from entrance 8 miles.

*Ocean Terminals Dock:* Length, 400 ft. Depth alongside at MLW, 33 ft. No dock cranes available. Fresh water available. Distance from entrance 11 miles.

*Weyerhaeuser Dock:* Length: (Lumber Dock) 1,433 ft. (Wood Chip Dock) 694 ft. Depth alongside at MLW 30 ft. No dock cranes available. Fresh water available. Distance from entrance 12 miles.

*Fibrex and Shipping Co Dock:* Length of floating walkway 700 ft. Depth alongside at MLW 32 ft. Wood chip loaded by pneumatic pipe. Fresh water available. Distance from entrance 12·5 miles.

*Bayshore Dock:* Length 504 ft. Depth alongside at MLW 30 ft. No dock cranes available. Fresh water available. Distance from entrance 13 miles.

*Dolphin Terminals:* Vessels moor to dolphins adjacent to apron 60 ft. long and 26 ft. wide which is joined to the shore by a causeway length 190 ft. and width 12 ft. Depth alongside at MLW 30 ft. Fresh water available. Distance from entrance 13 miles.

*Central Dock:* Length 1,348 ft. Depth alongside at MLW 30 ft. No dock cranes available. Fresh water available. Distance from entrance 13·5 miles.

*Portland Dock:* Length 576 ft. Depth alongside at MLW 33 ft. No dock cranes available. Fresh water available. Distance from entrance 15 miles.

*Coos Bay Dock:* Length 1,326 ft. Depth alongside at MLW 30 ft. No dock cranes available. Fresh water available. Distance from entrance 15 miles.

**STEVEDORES:** Should have minimum of 48 hours to arrange gangs. Also see "Radio".

**MEDICAL:** Advance notice of required medical attention is desirable, in order to expedite use of ambulance, if necessary.

**TANKERS:** Two tanker berths, Standard Oil and Union Oil Co., draft 30 ft. Tankers discharge into tank farms. Union Oil Co. is the bunkering agent.

**FRESH WATER:** Available. Cost per ton is negotiable.

**FUEL:** Twenty-four hours advance notice desirable, both bunker and diesel fuel available.

**DEVELOPMENTS:** Depth of channel at entrance 40 ft. Inner channel, to head of channel 30 ft. It is expected entrance channel to be dredged to 45 ft., inner channel to depth of 35 ft. An additional anchorage will be installed, directly East of beacon 17.

**GANGWAY/DECK WATCHMEN:** Service of watchman at discretion of ship's master.

**OPENING/CLOSING HATCHES:** Normally by stevedores.

**IDENTIFICATION CARDS:** Not required by local authorities.

**CONSULS:** None.

**REPAIRS:** Only minor deck and engine repairs possible.

**DRY DOCKS:** Largest dry dock handles vessels not exceeding 125 ft.

**REPATRIATION:** All repatriation handled in Portland, Oregon.

**AIRPORT:** All docks within 5 miles of airport. Airport served by regular airlines.

**TIME:** GMT minus 8 hours, clocks advanced 1 hour on 1st May, clocks retarded 1 hour, 1st November.

**HOLIDAYS:** All legal holidays observed, plus state-wide elections. Cargo work through negotiations with stevedore contractors.

**POLICE/AMBULANCE/FIRE:** Police: Coos Bay 269–1181, North Bend 756–3161; Ambulance 756–3234; Fire Coos Bay 267–4123, North Bend 756–6111.

**SHORE LEAVE:** Crew members allowed ashore except when Federal directives may be applied to a specific vessel.

**DELAYS:** No delays in berthing, loading or discharging, or bunkering can normally be expected.

**AUTHORITY:** Administrator and Harbour Master, Port of Coos Bay, PO Box 787, Coos Bay, Oregon 97420. Tel. 269–1131.

## CORDOVA, Alaska: 60.33 N. 145.46 W.

Located at South-east side of Prince William Sound. Open all year.

**APPROACHES:** Via Prince William Sound to pilot station.

**DOCUMENTS:** See "Anchorage, Alaska".

**PILOTAGE:** Pick-up point is Sheep's Point.
**MAX. SIZE:** Recommend max. draft 25 ft. Tides: diurnal range 12·4 ft. Tide runs parallel to dock. Also see "Berthing".
**ANCHORAGE:** Good holding ground. Mud bottom between Spike Island and City dock.
**CUSTOMS:** Quarantine, local. Immigration and Customs from Anchorage, Alaska.
**BERTHING:** City Dock: 18 ft. deep, 400 ft. long, 72 ft. wide. Open storage – 300 ft. by 45 ft. One 140-ton mobile crane.
**TUGS:** Limited availability.
**STEVEDORES:** One gang.
**REPAIRS:** Minor repairs only.
**WATER:** Available.
**FUEL:** No bunker "C" available.
**MEDICAL:** 22-bed hospital and a medical clinic, 1 doctor, 1 dentist.
**TRANSPORTATION:** Ferry service to Whittier and Valdez, air.

## CORPUS CHRISTI, Texas: 27.48 N. 97.23 W. (See Plan)

**PORT LIMITS:** Corpus Christi's port limits include all of Nueces County, which has been officially designated as Nueces County Navigation District No. 1. The Corpus Christi turning basin, Avery Point turning basin, Chemical turning basin, Tule Lake turning basin and the Viola turning basin are interconnected by the Industrial Canal, the Tule Lake Channel and the Viola Channel and constitute the Corpus Christi Main Harbour. Other Bay points included in the port of Corpus Christi area are: Harbour Island, the North end of Mustang Island, near the inner end of the Aransas Pass entrance, and Port Ingleside and La Quinta along the route of dredged deep-water channels on North side of Corpus Christi Bay.
**DOCUMENTS:**
3 copies Cargo Manifest (Forms 7527–A or 7527–B), the original showing all cargo on board, and 2 copies showing only cargo for this port.
2 copies Crew Manifest (curio list).
2 copies Stores List.
2 copies Passenger List (Form I.–418).
2 copies Crew List (Form I.–418).
Customs boarding Officer will also examine Ship's Register and Load-line Certificate. In addition, the following documents will be required for formal entry to be made within 48 hours of arrival from abroad, or 24 hours from arrival from a United States port:
Health Pratique.
Master's Oath (Customs Form 3255).
All Foreign clearances.
U.S. Certificates of payment of tonnage tax (Customs Form 1002).
Certified Crew List.
**PILOTAGE:** Pilot boards off Port Aransas.
**RESTRICTIONS:** The port of Corpus Christi is situated on the West side of Corpus Christi Bay, in South-western Texas. Port facilities at Corpus Christi lie along a 9½ miles stretch of dredged channels and basins about 18 miles from Aransas Pass entrance at the Gulf of Mexico, Channel depth 40 ft., width 400 ft.
Turning Basins: 3 turning basins in Main Harbour are each 1,000 ft. wide and more than 1,000 ft. in length.
**MAX. SIZE:** Cargo vessels: 39 ft. draft. Tankers 39 ft. draft. (A tanker with a draft of 45 ft. 9 in. has docked.)
**HEALTH:** Radio pratique may be granted basis information received prior to arrival of vessel provided no communicable diseases on board. Normally, vessels are boarded by Medical Officers on arrival unless free pratique previously given at U.S. port in same voyage. If granted free pratique, vessel may enter port and discharge passengers and cargo. If given provisional pratique, vessel may enter port, but must take any additional measures specified in connection with discharging passengers and cargo, until free pratique is given.
**TUGS:** Tug assistance available.
**BERTHING:** The main basin is over a mile long and 1,000 ft. wide. There are four additional basins in main harbour, which extends Westward from Corpus Christi Harbour Bridge for 9½ miles. The water in all basins, channels and canals is 40 ft. deep, enabling port to handle largest merchant ships operating in Gulf trade.
Depth alongside docks:

| | | | |
|---|---|---|---|
| Southside Docks 1–8 | 32 ft. | Northside Docks 9, 10 & 11 | 36 ft. |
| Southside Docks 14 & 15 | 36 ft. | Bulk Materials Dock | 38 ft. |

*Note:* Staging area back of cargo docks 14–15 for storing containers, vehicles, etc.
**TANKERS:** Between Main Basin and Viola Basin are 12 public and 5 private Oil Docks, some capable of berthing tankers of 67,000 capacity.
Oil Docks:

| | | | | | |
|---|---|---|---|---|---|
| No. 1 | depth alongside | 36 ft. | No. 7 | depth alongside | 40 ft. |
| 2 | ,, ,, | 33 ft. | 8 | ,, ,, | 40 ft. |
| 4 | ,, ,, | 40 ft. | 9 | ,, ,, | 34 ft. |
| 5 | ,, ,, | 36 ft. | 11 | ,, ,, | 40 ft. |

**CARGO GEAR:** *Heavy Lift facilities:* Derrick at Cargo Dock 14 100 tons capacity at 53 ft. radius, can handle containers, 40 ft larger. Locomotive cranes (5) 30 tons capacity.
Facilities are available for all types of liquid cargo, dry bulk general cargo, except cannot handle restricted cargo such ammunition and explosives.
**IDENTIFICATION CARDS:** Standard U.S. Immigration Fo I.–95 to be made up for each crew member on arrival. Not neces for crew man already holding Form I.–95, issued for same vesse
**DEVELOPMENTS:** Deepening of all waterways, channels inc ing La Quinta Channel and turning basins to a depth of 45 ft. is in progress and proceeding on schedule. When completed Co Christi will be deepest port on entire Gulf Coast.
Latest port plans include an inshore multi-purpose facili Harbor Island that will accommodate VLCC's up to 275,000 dwt.
**CUSTOMS ALLOWANCES:** At the discretion of custo officers. Normal allowance is 200 cigarettes or 2 lb. tobacco and quart wine or spirits per man. Additional allowances may be g if considered necessary, due to length of vessel's stay in port.
**GENERAL:** Refer to Houston for all general information.
**AUTHORITY:** The Nueces County Navigation Commiss Port Director, PO Box 1541, Corpus Christi, Texas 78403.

**AGENT:** Hansen & Tidemann, Inc. Wilson Building, PO Box 1 Corpus Christi, Texas 78403. Tel. 512–882–9418. TWX 910–876- Cables: "Handt".

## DEER PARK, Texas: 29.44 N. 95.08 W. Refer to "Ho ton".

## DESTREHAN, Louisiana: 29.56 N. 90.21 W.

East bank of Mississippi River about 135 miles from sea.
**DOCUMENTS/PILOTAGE/HEALTH:** For all general informa refer to "New Orleans".
**TUGS:** At least one tug required for mooring/unmooring.
**BERTHING:** St. Charles Elevator, berth 800 ft. length, 45 ft. de Loading rate, 70,000 bushels per hour; two loading belts. B Grain Elevator, berth 600 ft. length, 40 ft. depth. Loading rate, 5 bushels per hour; two loading belts.
**FRESH WATER:** Available ex-berth.
**FUEL:** Not available. Barge not permitted alongside at B Elevator.
**DENSITY:** Fresh (1000).

## DETROIT, Michigan: 42.19 N. 83.05 W.

Refer to "St Lawrence Seaway" for important general informati
**PILOTAGE:** Compulsory unless Master holds exemption license. 24 hours notice of arrival required by Agents who ar Pilot.
**ANCHORAGE:** In depths from 29–51 ft. in the Detroit River of marine terminals and away from main channel.
**RESTRICTIONS:** St. Lawrence Seaway navigation seaso proximately from April 15th to November 15th. Controlling d 27 ft. Minimum depth of 25 ft. in the Detroit River. The Amherst Channel has a depth of 27 ft. 6 in. for up bound traffic.
**MAX. SIZE:** Limited at Seaway Locks. 730 ft. length, 26 ft. dr
**HEALTH:** All ocean-going vessels must obtain a free pra before entering the Seaway. Vessels may obtain quarantine ins tion and clearance from the Canadian Authorities at Mo while awaiting entrance to the Seaway.
**TUGS:** Available, not compulsory but recommended.
**Berthing:** See below

## DULUTH-SUPERIOR, Minnesota: 46.49 N. 92.09 W.

Refer to "St. Lawrence Seaway" for important general information.
**PILOTAGE:** U.S. or Canadian Pilot compulsory except when Master or officer specially qualified to navigate waters concerned. Pilots obtained from Upper Great Lakes Pilots Inc., Clure Marine Terminal, Duluth. Duluth entry – Pilots picked up at point 2 miles due East of pierhead lights. Superior entry – pick up Pilot 2 miles North North-east of lighthouse. Advise Agents 24 hours in advance of ETA for scheduling Pilot, Customs, Immigration, and agricultural inspection. Masters should hold to the South of convergence of shipping lanes at the Duluth Entry and to North of this convergence at Superior Entry when approaching to embark a Pilot.
**ANCHORAGES:** Anchorage areas near Duluth and Superior entries are South and Eastward and North and Eastward respectively of main channel through harbour. Marked by anchorage buoys. Vessels must only anchor clear of channels at all times.
**RESTRICTIONS:** Because of varying conditions of wind and current, no restriction placed on speed passing through entry piers at either Duluth or Superior entry. Speed throughout harbour limited to 7 knots. Speed through bridges other than the Aerial Bridge at Duluth entry limited under normal conditions to 6 miles per hour. Because of current conditions at inner end of Duluth entry, both inbound and outbound vessels must leave vertical black/white striped mid-channel or traffic buoy on starboard hand. This gives outbound ships maximum straight run.
**MAX. SIZE:** Draft 26 ft. Duluth Harbour Entry: Duluth ship's canal, minimum width 300 ft. Superior Entry: Minimum width 500 ft. minimum depth at inner end of 27 ft.
**RADIO:** Prior to entering harbour vessels must make "Security Call" on Channel 51 (2185 kc/s) from 10 to 20 minutes in advance advising intended movement. All vessels should monitor Channel 51 all times when under way to determine position and intent of other vessels moving in constricted areas within harbour and approaches.
**TUGS:** Available, not compulsory.
**BRIDGES:** Aerial bridge spanning Duluth entry vertical clearance of 138 ft. Signal for opening bridge shall be given by vessels approaching from lakes, in all circumstances, when not less than 1 mile from bridge. A flashing amber light on harbour side of Aerial bridge warns outbound vessel of approach of inbound vessel in lake.

**BERTHING:** *Clure Marine Terminal.*
Length of dock: 6,600 lineal ft., nine ship berths, five for unloading/loading, four for fitting, cleaning, standby, etc. Water depth: 30 ft. Two 90-ton Clyde gantry cranes for container handling. One 35-ton mobile crane.

| | | |
|---|---|---|
| *Duluth Iron & Metal* | – length of berth 1,586 ft. | – water depth 26 ft. |
| *Great Lakes Storage & Contracting* | – length of berth 1,059 ft. | – water depth 22 ft. |
| *Hallet 3* | – length of berth 2,080 ft. | – water depth 23 ft. |
| *Hallet 5* | – length of berth 2,373 ft. | – water depth 23 ft. |
| *Hallet 6* | – length of berth 2,060 ft. | – water depth 23 ft. |
| *Northern Pacific No. 2* | – length of berth 2,415 ft. | – water depth 22 ft. |
| *Paper Calmenson– Duluth* | – length of berth 853 ft. | – water depth 21 ft. |
| *Paper Calmenson– Superior* | – length of berth 700 ft. | – water depth 20 ft. |

**MEDICAL:** All medical assistance available.
**DENSITY:** Fresh water.
**FRESH WATER:** Available at most docks in both ports.
**FUEL:** Available from dock or by barge.
**FIRE PRECAUTIONS:** No open fire permitted on deck of any vessel while in harbour. This restriction does not apply to a vessel at a shipyard which will be governed by this shipyard's local rules, nor to vessels in lay-up or fit-out status at ore docks.

Ocean vessels, upon docking, shall put on off-shore side of vessel, wire rope lines fore and aft as tow lines for use in pulling ship off dock face in case of fire. Such tow line shall be securely made fast to bitts with eye about 1 ft. above the water.
**CERTIFICATES:** Masters are required to present Safety Inspection Certificate of cargo handling equipment and gangways to stevedoring companies and other employers of harbour labour upon request.
**IDENTIFICATION CARDS:** Required by Immigration.
**REPAIRS:** All ship repairs can be effected.
**DRY DOCKS:** At Superior, one 831 ft. by 95 ft. and one 628 ft. by 76 ft.
**SHORE LEAVE:** Allowed.
**DEVELOPMENTS:** A grain terminal, meal-handling facility and coal-handling facility under construction.

A container terminal, together with all the back-up facilities located near the South-west corner of Clure terminal is expected to be completed in August 1975. The container crane will be a Paceco Economy Portainer with a capacity of 30 tons, outreach 84 ft., back reach 22 ft. The Portainer will be equipped to handle 20 ft., 35 ft., and 40 ft. containers.
**AUTHORITY:** Seaway Port Authority of Duluth, Superior Board of Harbour Commissioners.

## ERIE, Pennsylvania: 42.10 N. 80.05 W.

Refer to "St. Lawrence Seaway" for important general information.
**PILOTAGE:** Not compulsory. Seaway Pilots will assist if required.
**RESTRICTIONS:** Navigation season from mid-April to end-December approx. The port is connected to Lake Erie by an entrance channel, depth 27 ft. Vessels size restricted by Seaway locks.
**MAX. SIZE:** 730 ft. length; 26 ft. draft.
**HEALTH:** All ocean-going vessels must obtain a free pratique before entering Seaway. Vessels may obtain quarantine inspection

and clearance from the Canadian Authorities at Montreal while awaiting entrance to the Seaway.

**RADIO:** Master must give at least 24 hours notice to Commander 9th Coast Guard District, Cleveland, Ohio, of the vessel's ETA at Snell Lock. Also, at least 24 hours notice of ETA at first U.S. discharge port is required.

**TUGS:** Available. Not compulsory, but sometimes necessary in bad weather.

**BERTHING:** Duquesne Marine Terminal: berth 600 ft. length, 27 ft. depth; berth 600 ft. length, 18ft. depth; berth 1,000 ft. length, 22 ft. depth; berth 1,500 ft. length, 28 ft. depth.

Ore and Coal Docks: berth 1,100 ft. length, 26–17 ft. depth.

Grain Elevator: berth 980 ft. length, 22 ft depth. Average capacity: 16,000 bushels per hour.

**DENSITY:** Fresh water.

**MEDICAL:** All facilities available.

**FRESH WATER:** Obtainable by pipe-line at all docks.

**FUEL:** All grades available by pipeline at all docks.

**REPAIRS:** Local shipbuilding company can handle most repairs. Dry dock available.

**AUTHORITY:** City of Erie, Port Commission.

## EUREKA, California: 40.48 N. 124.10 W.

**DOCUMENTS:** In addition to the documents detailed below, Agent will present to Master normal Customs forms to be signed, such as Master's Oath, Permit to Lade, Inward & Outward Manifest, etc. These forms will be filled out by local Agent and Customs Broker and presented to local Customs house when entering and clearing vessel:

*Foreign Flag Vessels:* I. Entering from another U.S. port:
3 Crew Lists.
3 Passenger Lists (only if passengers on board).
3 Curio Lists.
3 Store Lists.
Permit to Proceed (issued at last U.S. port).
Travelling Manifest (only if there is foreign cargo on board).
Ship's Register.

II. Entering from a foreign port:
3 Crew Lists.
3 Passenger Lists (only if passengers are on board).
3 Curio Lists.
3 Store Lists.
Travelling Manifest.
Permit to Proceed.
Ship's Register.
Ship's tonnage tax Certificate.
Clearance from a foreign port.

**PILOTAGE:** Telegraphic address of pilot station "Humbar". 24 hours advance notice of ETA; in case of change in ETA give minimum 4 hour notice. Contact pilot boat on VHF 156.8 (Channel 16) or radio watch on 2182. Radio watch is maintained two hours prior to arrival at sea buoy on Channel 16. Working Channels are 6, 13 and 18A.

No pilot boat on station. Local Pilots use tug "Thor" length 65 ft. horsepower 800. Tug colours: black funnel, red and white superstructure and black hull. As no pilot boat on station, sound signals not required. Visual international flag and light signals observed. Pilot will board vessel within 1 mile radius North, South and West of sea-buoy. Sea-buoy located 1.4 miles from end of North jetty lined up with range lights bearing 105 degrees true.

Specific requirements: (*a*) Pilot ladder with spreaders in accordance with Solas regulations, and 9 ft. above water. (*b*) At night – brilliant light to illuminate ladder. (c) Recommended anchorage outside Humboldt Bay located 1 mile South of sea-buoy in 15 fathoms of water.

**ANCHORAGES:** Inside harbour, weather permitting. Light draft vessel (22 ft or less) South of Fairhaven Dock (Crown Simpson) and West of Standard Oil Dock. Deep draft vessels (22 ft. to 32 ft.) will anchor North of Union Oil Terminal and South of Samoa Channel entrance buoys.

**RESTRICTIONS:** Humboldt Bay is a 24-hour port; restrictions if any would depend upon manoeuvrability and horsepower of vessel during peak tide. Range of tide normally 8 ft. extreme cases 10 ft. At present vessels normally limited to a deep draft of 30 ft. at zero tide.

**MAX. SIZE:** Largest vessel to enter Humboldt Bay to date had LOA 657 ft. and beam 90 ft. Draft limitation 30 ft. at zero tide. Vessels of this size and draft normally enter and depart about 1½ hours before high water.

**HEALTH:** No specific health or quarantine requirements for vessels coming from another U.S. port; unless vessel is under Public Health remand (example: Derat Certificate expired). If this is the case, it would be necessary for Public Health Officer to board and inspect vessel. Same regulations apply in Eureka as in other major U.S. West Coast ports when pratique required. Radio pratique when required may be granted through the Quarantine officials in San Francisco. For details contact Agent.

**RADIO:** Send cables through one of following stations:

ITT World Communications, Inc.—San Francisco Marine Radio Station KFS.

RCA Global Communications—San Francisco Marine Radio Station KPH.

**TUGS:** Two 800 h.p. tugs available, one tug acts as pilot boat, other tug joins vessel when in harbour. Tug lines are normally used, occasionally a ship's line is used. No extra charge assessed for of tug's line. Depending upon size of vessel and weather conditio Pilots will use one or two tugs.

**BERTHING:** No specific requirements relating to berthing; nor procedures prevail. Vessel normally docks stemming the tide.

Presently available berths at Eureka as follows:
Crown-Simpson Pulp Co.
Eureka Forest Products
Louisiana-Pacific Corporation
Humboldt Dock & Shipping Co.
Kramer Lumber Sales
Olson Terminal
Standard Oil of California
Union Oil of California
North Coast Exporting Co.

Harbour channels maintained to 30 ft. zero tide. Most of berths above-mentioned docks also maintained at 30 ft. zero tide; howe some occasionally fill in and recommended check with Agent as depth available at specific dock which vessel intends moor and lo

**STEVEDORES:** Ten local gangs available. Groups ordered 0630 in the morning for both day and night gangs. Therefore ess tial that local Agent or stevedore company receives accurate E by 0600 in the morning. Normally, vessel will advise arrival sea-b with a 24-hour ETA and correct ETA at a later time if necess The basic commodities exported from Eureka are woodpulp, l and lumber.

Westfall Stevedore Co. Cable Address: Westfall, Eureka. T (707) 443–5688.

**MEDICAL:** Not necessary for Agent to receive advance notice required medical attention unless ambulance and doctor are quired on arrival. Three hospitals in immediate area. Inoculations vaccination certificates should be up-dated.

**TANKERS:** Two tanker berths available: Standard Oil of C fornia – deepest draft 25 ft. at zero tide. Union Oil – deepest d 30 ft. at zero tide. Normally only Company tankers use own facili Facilities privately owned and are not available for bunkering o vessels.

**DENSITY:** Pure salt water. No fresh water allowance on any t

**FRESH WATER:** Available all berths. Delivery by hose. Ra delivery: 10 tons per hour.

**FUEL:** If bunkers required, Agent must go through major c tractors, who in turn will inform their local supplier of requireme Generally speaking bunkers are only supplied to vessels on emergency basis in limited quantities. The bunkers usually de grade and delivered by truck on a prearranged schedule.

**DEVELOPMENTS:** Deepen North bay channel to 35 ft. and wi bends in channel at channel miles 0·74 and 2·6. Deepen Sa channel and outer reach of the Eureka channel to 35 ft. Provide anchorage area in North bay, at a suitable location between je entrance channel and Gunther Island, 35 ft. deep, 1,200 ft. wide 1,200 ft. long.

**GANGWAY/DECK WATCHMEN:** Services of gangway gu available if required by ship.

**OPENING/CLOSING HATCHES:** Normally stevedores' wor Vessel's crew may assist in opening and closing hatches, if hat require special attention.

**CERTIFICATES:**
Ship's Register.
Load-line Certificate.
*valid* Derat Certificate.
Cargo Gear Certificate.
Tonnage Tax Certificate and all other usual certificates requ

**CUSTOMS ALLOWANCES:** Tobacco, 200 cigarettes and pound of tobacco. Wine and/or Spirit, one bottle (approx. one qu

**CARGO GEAR:** Must be in good order and safe operating co tion and all cargo gear certificates must be valid.

**IDENTIFICATION CARDS:** Alien seamen require Crew Landing Pass (U.S. Form I-95).

**CONSULS:** None. Nearest consuls at San Francisco.

**REPAIRS:** Small welding jobs, and minor machine work Major repairs normally carried out in San Francisco.

**DRY DOCKS:** None.

**REPATRIATION:** Normally done in conjunction with San F cisco, Portland, Los Angeles or Seattle Agent.

**AIRPORT:** Airport located approximately 20 miles North of Eu Limousine service available. Major airlines. Air West and Go Pacific Airlines. At present 8 flights per day to San Francisco flights per day to Portland.

**TIME:** Eureka local time is Pacific Standard Time and is GMT m 8 hours. However, from the last Sunday in April to the last Sund October, Eureka is on Daylight Saving Time.

**HOLIDAYS:** No work performed on following holidays: New Ye Day (January 1); Independence Day (July 4); Bloody Thu (July 5); Labor Day (first Monday in September); Thanksgiving (last Thursday in November); Christmas Day (December 25).

**POLICE/AMBULANCE/FIRE:** Eureka City Police 442- Eureka City Ambulance 442–4551; Eureka Fire Department 443- Humboldt County Sheriff Department 443–5671; Arcata Fire Dis 822–2424; Humboldt Fire District No. 1 442–1212.

**TELEPHONES:** No arrangements for placing telephone board; however, there are pay phones nearby at each dock an as phones in nearby offices.

**SERVICES:** Specific services such as tank cleaning, com adjusting, tank washing, etc., are not normally performed in the of Eureka and are usually performed in one of the close major such as San Francisco; however, there are facilities availab minor repair.

**SHORE LEAVE:** Crew members allowed ashore unless restricted for customs or immigration reasons.
**DELAYS:** Berthing delays seldom incurred primarily due to the fact that the prime Agents are always in contact with the local Agent at Eureka informing them of vessel's ETA and prime Agent is always advised with regard to all arrivals and possible berth conflicts at this port.
**AUTHORITY:** State of California, Board of Harbor Commissioners for Humboldt Bay, Foot of Washington Street, PO Box A, Eureka, California 95501. Tel. (707) 443–5688. Teletype 510–742–6015.

## EVERETT, Washington: 47.59 N. 122.13 W.

**DOCUMENTS, PILOTAGE, HEALTH, etc.:** Refer to "Tacoma".
**PILOT:** Boards off Port Angeles pilot station.
**TUGS:** Available, join vessel off berth.
**ANCHORAGE:** Unlimited deep water anchorage in Possession Sound.
**BERTHING:**
Pier 1. North berth, 45 ft. MLLW; South berth, 35 ft. MLLW.
Pier 3. North and South berths, 35 ft. MLLW; West berth, barge dock, 15 ft. MLLW.
Scott Paper Co. berth, 29 ft. MLLW.
Weyerhauser Berth, 32 ft. MLLW.
**STEVEDORES:** Eleven local gangs, additional gangs may be imported if required.

**REPATRIATION:** Available subject Immigration laws.
**AIRPORT:** 8 miles from port. Served by regular airlines with over 30 flights daily.
**TIME:** Central standard time. Central daylight saving time in effect from the last Sunday in April to the last Sunday in October each year.
**DEVELOPMENTS:** The turning basin lying just South of the Chicago and North Western Transportation Company bridge is in the process of being enlarged.
**AUTHORITY:** Brown County Board of Harbor Commissioners, Office of the Port Director, Brown County Courthouse Annexe, Green Bay, Wisconsin 54301.

## GULFPORT, Mississippi: 30.21 N. 89.05 W.

**DOCUMENTS:** See "New Orleans".
**PILOTAGE:** Compulsory from outer sea buoy to docks, provided by Gulfport Pilots Association, arranged through Agent. Pilot boards at Sea buoy
Pilot boat has red hull, white superstructure with "PILOT" in black lettering. When pilot boat is underway, contact can be made by VHF Channel 16.
**RESTRICTIONS:** The Gulfport Channel is 12 miles long running between Ship Island and Cat Island. Channel is 225 ft. wide and has a minimum depth throughout of 30 ft. at MLW. Harbour is dredged rectangular basin about a quarter of a mile wide and half a mile long, this area being protected by piers. Depth in harbour and along wharves is 30 ft. with a 2½ ft. tide variation. No entry restrictions as to time.
**MAXIMUM SIZE:** Length of vessel is restricted to approximately 900 ft. by turning basin, no breadth restrictions.
**RADIO:** Gulfport Radio KKM 650 – VHF Channel 16 (26 safety only). Continuous service.
**CARGO HANDLING:** Four gantry banana terminal capable of unloading 16,000 boxes per hour. 35,000 sq. ft. transit shed refrigerated facility.
**TUGS:** Two tugs available but not required unless requested to assist in berthing.
**STEVEDORES:** Must have 12 hours' notice to arrange stevedore gangs. Normal work day 0800–1200, and then 1300–1700. Monday through Friday.
**MEDICAL:** No advance notice required for medical attention, doctor and hospital care readily available.
**FRESH WATER:** Fresh water is available.
**FUEL:** Only on advance notice.
**DENSITY:** Brackish.
**WATCHMAN:** Port guards or Dubuisson Detective Agency.
**CONSULS:** Many countries have consuls within a 100 mile radius of Gulfport.
**REPAIRS:** Most deck and engine repairs could be arranged within port facilities.
**AIRPORT:** Gulfport Municipal Airport is approximately 4 miles from the port and served by regularly scheduled airlines.
**REPATRIATION:** Can be arranged.
**TIME:** The Port of Gulfport is on Central Standard Time, GMT minus 6 hours; clocks are moved ahead 1 hour during summer months.
**HOLIDAYS:** United States national holidays are observed, cargo work can be arranged on these days at a penalty time.
**POLICE/FIRE/AMBULANCE:** Telephone numbers for emergency services are; Fire 863-1212; Police 863–4211; Ambulance 863–1441.
**TELEPHONE:** Can be placed aboard only by special arrangement not normally available.
**DEVELOPMENTS:** The Wheat Pier is being extended 600 ft. southward into the Mississippi Sound with 10 acres of fill being pumped in which will be a hard stand area for open storage.
The West Pier is being extended 550 ft. southward into the Mississippi Sound with 7 acres of fill being pumped in which will be a hard stand area for open storage.
**AUTHORITY:** Mississippi State Port Authority at Gulfport, POB 40, Gulfport, Mississippi 39501.

## HAINES, Alaska

(Lutak Inlet) Located 5 miles North-west of Haines. Open all year.
**APPROACHES:** Lynn Canal to Lutak Inlet.
**DOCUMENTS:** See "Anchorage, Alaska".
**PILOTAGE:** Pilot pick-up point located in vicinity of Point Retreat.
**MAX. SIZE:** Harbour depth 36 ft. from 0 tide. Tides: diurnal range 16 ft. Also see "Berthing".
**ANCHORAGE:** Lutak Inlet.
**CUSTOMS:** Quarantine, immigration and Customs, local.
**BERTHING:** 1. U.S. Government Dock: can be secured by request through proper channels of the U.S. Army and South-east Stevedore Company Use permit. Berthing length – 1,000 ft. and a clear surface of over 300 ft. in depth. Depth at face of dock – 36 ft. MLLW. No covered sheds. Large open staging area. Adjacent to Alaska State Ferry Terminal with facilities for roll-on/roll-off cargo for barges or ferries (by special arrangement). One berth only as remainder of dock is required for Alaska state ferries.
2. Schnabel Lumber Co. Dock: Berthing length – 520 ft. long and 80 ft. wide. Depth at face of dock – 45 ft. No covered storage. Open storage – acres. 30,000-ton capacity for bulk cargo storage. No crane. Chip loader with 350-ton per hour capacity.
**TUGS:** Three.
**STEVEDORES:** Four gangs.
**REPAIRS:** None.
**WATER:** Available in small quantities in temperate seasons only.
**FUEL:** None.
**MEDICAL:** Doctor/dentist available.
**TRANSPORTATION:** Air, ferry. Highway to Whitehorse, Yukon Territory.

## HAMPTON ROADS DISTRICT, Virginia: (See Plan)
## NORFOLK, 36.51 N. 76.19 W.
## NEWPORT NEWS, 36.59 N. 76.26 W.
## PORTSMOUTH, 36.50 N. 76.17 W.

**DOCUMENTS:**
3 copies Cargo Manifest (Forms 7527–A or 7527–B), the original showing all cargo on board, and 2 copies showing only cargo for this port.
2 copies Crew Manifest (curio list).
2 copies Stores List.
2 copies Passenger List (Form I–418).
2 copies Crew List.
Customs boarding officer will also examine ship's register and load line Certificate. In addition, the following documents will be required for formal entry to be made within 48 hours of arrival from abroad, or 24 hours of arrival from a United States port:
Health Pratique.
Master's Oath (Customs Form 3255).
All foreign clearances.
U.S. Certificates of payment of Tonnage Tax (Customs Form 1002).
Certified Crew List.
F.M.C. Certificate of Financial Responsibility.
**PILOTAGE:** Compulsory; is generally arranged through port Agent. Vessels approaching port may use VHF telephone, Channel No. 16, radio telephone 2738 k/cs. Advance notice of 24 hours is required of ETA. Pilot boat is 165 ft. long, black steel hull, with "VA Pilot" painted on hull, white superstructure, and buff funnel. Long and short light or sound signals are used by vessels requiring a Pilot. Location of pilot boat is 1 mile north of Cape Henry Lighthouse. Pilot boat will issue instructions in event of bad weather or when pilot boat is off station and information on anchorage for vessel awaiting a Pilot.
**ANCHORAGE:** In Hampton Roads, depth 45 ft.
**RESTRICTIONS:** Channels to Norfolk and Newport News – 45 ft. depth. Elizabeth River Channel – 40 ft. depth to Norfolk and Western Railway Bridge, then 35 ft. to Chesapeake.
**HEALTH:** See Health Regulations before first U.S.A. port (Albany).
**RADIO:** Radio-telephone communications in the Hampton Roads area are furnished by the Chesapeake and Potomac Telephone Company of Virginia. A regular ship-to-shore channel transmits to ship on 2538 kHz and the ship returns the call on 2142 kHz. A "daytime" ship-to-shore channel transmits to ship on 2450 kHz and the ship returns the call on 2366 kHz. In the very high frequency band, "XY" ship-to-shore is available which transmits to the ship on 161·9 mHz and the ship returns the call on 157·3 mHz.

**Norfolk:** Elizabeth River Terminal, berth 1,000 ft. long, 35 ft. depth; Imperial Tobacco Piers, Nos. 2 and 3, 27 ft. depth; Southgate Warehouse Terminal, 3 general cargo berths, 18–25 ft. depth; N.B. & C. Line Piers, 4 general cargo berths, 20 ft. depth. Coal: Pier No. 5, 1 berth 1,000 ft. long, 36 ft. depth; Pier No. 6, 2 berths, 1,800 ft. long, 45 ft. depth. Grain: Cargill Grain Elevator, 1 berth 35 ft. depth, loading rate 30,000 bushels per hour. Continental Grain Elevator, 1 berth 35 ft. depth, loading rate 45,000 bushels per hour.

**Newport News:** Coal: Pier No. 14, 2 berths, 1,090 ft. long, 38 ft. and 41 ft. depth; Pier No. 15, 2 berths, 1,000 ft. long and 38 ft. depth. Ore: Pier No. 9, 2 berths, 707 ft. long, 35 ft. and 42 ft. depth.

**Portsmouth:** Lumber: One berth, 400 ft. long, 32 ft. depth.

**TANKERS: Sewells Point:** Humble Oil Terminal, 2 berths, 38 ft. depth.

**Elizabeth River:** *Lower Norfolk:* American Oil Company, one berth, 31 ft. depth; Crown Central, one berth, 31 ft. depth; Gulf Oil two berths, 32 ft. depth; Mobil Oil, one berth, 36 ft. depth; Philips Petroleum one berth, 32 ft. depth; Union Oil Company, one berth, 36 ft. depth; Shell Oil Company, one berth, 38 ft. depth; Tenneco/Cities Service, one berth, 32 ft. depth; Texaco Inc. one berth, 35 ft. depth.

**Newport News;** Humble Oil Terminal, 3 berths, 27 ft. and 35 ft. depth.

**Portsmouth River;** Sinclair Ref. Co., two berths, 30 ft. depth.

**TUGS:** Compulsory, normally join the vessel in Elizabeth River.

**BRIDGES:** Sufficient clearance at all times.

**STEVEDORES:** Labour arranged through International Longshoremen's Association.

1. Straight Time – work between the hours of 8.00 a.m. and noon and between the hours of 1.00 p.m. and 5.00 p.m. daily except Saturdays, Sundays and holidays.
2. Double Time – hours daily between 6.00 a.m. to 7.00 a.m. and noon to 1.00 p.m., 6.00 p.m. to 7.00 p.m., midnight to 1.00 a.m. and all Sundays.
3. Time and one-half – shall be all those hours not included above, except holidays.

**DENSITY:** Average 40% fresh.

**FRESH WATER:** Available at all berths. Barge service available if required.

**FUEL:** All grades available at oil company berths. Delivery by barge to all other locations.

**GANGWAY/DECK WATCHMEN:** Not required unless crew members detained by Immigration.

**SHIP CERTIFICATES:** Cargo Gear Certificate, Derat, Radio, Safety Equipment, and Ship's Register.

**CUSTOMS ALLOWANCES:** At the discretion of Customs Officers. Normal allowance is 200 cigarettes or 2 lb. tobacco and 1qt. wine/spirits per man. Additional allowances may be given if considered necessary, due to length of vessel's stay in port.

**IDENTIFICATION CARDS:** Identification required by Immigration for shore passes.

**CONSULS:** The following countries are represented at Norfolk:

Belgium
Brazil
Denmark
Finland
France
Germany
Great Britain
Iceland
Italy
Mexico
Netherlands
Norway
Sweden

**REPAIRS:** Newport News Ship Building and Dry Dock Company in James River; eight outfitting piers up to 1,050 ft. length. Floating cranes up to 67 tons capacity.

Norfolk Ship Building and Dry Dock Corporation, situated on East Branch of Elizabeth River. Channel depth 25 ft.; seven piers equipped for ship's repairs. Floating crane 25 tons capacity. Other repair companies in addition.

**DRY DOCKS: Norfolk:** one dry dock 450 ft. long, 57 ft. beam; floating dock 360 ft. long, 64 ft. beam.

**Newport News:** Dry docks:

| | *Length inside gate* | *Width of entrance* | *Depth of water over sill MHW* |
|---|---|---|---|
| No. 1 | 649 ft. | 92 ft. | 33 ft. |
| No. 2 | 862 ft. | 118 ft. | 32 ft. 3 in. |
| No. 3 | 536 ft. | 78 ft. | 24 ft. |

Slipways: The shipyard has 3 inclining slipways with lengths up to 715 ft. and capacities up to 15,000 tons.

**AIRPORT:** Norfolk Airport, and Patrick Henry Airport at Newport News, over 100 flights daily.

**TIME:** Eastern standard time, GMT minus 5 hours. Daylight saving time, GMT minus 4 hours, from April to October.

**HOLIDAYS:** New Year's Day; Lee's Birthday (January 19th); Washington's Birthday (February 22nd); Good Friday; Memorial Day (May 30th); Jefferson Davis Day (June 3rd); Independence Day (July 4th); Labour Day; Election Day (1st Tuesday after 1st Monday in November); Armistice Day (November 11th); Thanksgiving Day; Christmas Day. No work can be arranged on New Year's Day, Labour Day or Christmas Day.

**TELEPHONES:** On board telephones only available at shipyards.

**DEVELOPMENTS:** *Newport News Terminal:* One container berth, with container crane and two break-bulk berths recently completed. Berth A, length 750 ft., depth 35 ft. Berth B, length 750 ft., depth 35 ft. Container berth, length 750 ft., depth 35 ft.

*Portsmouth Marine Terminal:* One container berth under construction, completion expected December 1975. Length 800 ft., depth 36 ft. The berth is to be leased to Sealand.

*Norfolk International Terminals:* One container berth under construction with container crane, completion expected September 1975. Length 1,000 ft., depth 35 ft.

**AUTHORITY:** Virginia Port Authority, Maritime Tower, Norfolk, Virginia 23510. Tel. 622–1671.

## HILO: Hawaii 19.46 N. 155.06 W. (including Kawaihae 20.02 N. 155.50 W.) (See Plan)

**DOCUMENTS:**

4 Crew Lists.
4 Passenger Lists.
Customs Documents.
Clearance, Travelling Manifest.
Local Manifests.
Health Documents.
Bill of Health and Vaccination Certificates.
4 Manifests.
4 Bills of Lading.
Ship's Papers.
Certificate of Registration or Enrolment.
Annual Inspection Certificate.
Load-line Certificate.
Derat Certificate.
Drinking Water Certificate.
Radio Certificate and Licence.
4 Store Lists.

**PILOTAGE:** Pilot boats have VHF and Radio telephone Channels 2182, 2638, 2738. Pilot service is provided on a 24-hour basis upon suitable advance notice.

*At Hilo*, Pilot boards on starboard side in position ¾ mile due East of Paukaa light. In picking up Pilot, vessels should be on Southerly course with enough speed for steerageway. Special instructions will be given by radio telephone.

*At Kawaihae* pilot station in position 1 mile 287° true from No. 2 buoy. Pilot usually boards on port side with vessel on course for the entrance at dead slow speed.

**ANCHORAGES:** No safe anchorages either Hilo or Kawaihae for vessels awaiting Pilot. In this situation, a vessel should heave to or steam. Under good weather conditions, safe anchorage can be had in Hilo Bay. Anchorage is inside pilotage waters and requires local knowledge for safety; vessels should not anchor without Pilot.

**RESTRICTIONS:** At Hilo, under good weather conditions, vessels up to 600 ft. with draft up to 32 ft. 6 in. can be handled at any time. Vessels over 600 ft. length are restricted to daylight hours entering and leaving.

At Kawaihae, vessels of T-2 size are restricted to daylight for entering. No restrictions for leaving. Max. allowable draft 33 ft.

**HEALTH:** Usual quarantine regulations, doctor and Customs and Immigration and Agriculture and meat inspectors board at dock for vessels arriving from foreign ports. Serious or contagious diseases should be reported by radio. No quarantine for vessels from United States or Canadian ports.

**RADIO:** Communicate through RCA or ITT stations in Honolulu.

**TUGS:** Tugs join vessels at entrance at Kawaihae and at Coconut Island at Hilo. Tugs lines are usually used at no extra charge.

**BERTHING:** There are many factors which affect berthing at Hawaii Island ports, the most important of which are surge and wind. Vessels should be well equipped with long mooring lines and sufficient additional line to make up two 900 ft. buoy lines. In all instances berthing instructions will be given after details concerning vessel and her cargo are received.

**MEDICAL:** All facilities available.

**DENSITY:** Variable in Hawaii area due to fresh water run-off.

**FRESH WATER:** Available from county of Hawaii by pipe-line.
**FUEL:** Can be supplied subject advance notice.
**GANGWAY/DECK WATCHMEN:** Required for tankers. Other ships as may be necessary due to special circumstances.
**OPENING/CLOSING HATCHES:** Normally carried out by stevedores.
**CUSTOMS ALLOWANCES:** 200 cigarettes, 50 cigars per man, and one bottle U.S. quart, wine or spirits.
**IDENTIFICATION CARDS:** Seamen's passports only required.
**REPAIRS:** Limited repair service available; almost any type of machine work, welding and ordinary electrical repairs can be handled.
**REPATRIATION:** Direct air service to Continental United States and to Honolulu International Airport.
**AIRPORT:** About 1 mile from Port of Hilo and is served by regular airlines.
**POLICE/AMBULANCE/FIRE:** *Hilo:* Police 9353311; Ambulance 9354841; Fire 9351300.

*Kawaihae:* Police 8857334; Ambulance 7757211 or 889699 or 8896211; Fire 9351300.
**TIME:** GMT minus 10 hours all year round.
**TELEPHONES:** Special arrangements may be made with Hawaiian Telephone Co.
**SHORE LEAVE:** Allowed.
**AUTHORITY:** State of Hawaii, Department of Transportation, Harbours Division, PO Box 1555, Hilo, Hawaii 96720. Tel. 935–4877.

## HOMER, Alaska: 59.36 N. 151.25 W.

**APPROACHES:** Via Cook Inlet. Port located at mouth of Kachemak Bay on Kenai Peninsula.
**DOCUMENTS:** See "Anchorage – Alaska".
**PILOTAGE:** Homer Pilots Association, Radio KTE 21, tel. 235–8526. Pilot boards one mile South of Homer Spit Light on Coal Point.
**MAX. SIZE:** Harbour depth 40 ft. MLLW. Tidal range 18 ft. Max. draft for bething 24 ft.
**HEALTH:** Quarantine, Immigration and Customs Officers come from port of Anchorage.
**ANCHORAGE:** Kachemak Bay is excellent anchorage for vessels of any size. Foreign vessels may enter bay to anchor, but must have a Pilot aboard to come to dock.
**BERTH:** 410 ft. face sloping bottom suitable for vessels with 20 ft. draft or less at chine. Inside and outside storage is available for holding and staging. Water, gasoline and diesel are available on dock
**RADIO:** Homer Port Radio – WJU 71 on 5195 Khz and WKD 32 on 2182 Khz.
**BERTHING:** Homer City Dock, 480 ft. long and 50 ft. wide. Limited to draft of 24 ft. Three-ton mobile crane.
**TUGS:** One tug available.
**FRESH WATER:** Available from the berth.
**FUEL:** Available for small craft only.
**REPAIRS:** No facilities for repairs.
**MEDICAL:** Homer Hospital is a nine-bed hospital with 2 full-time doctors.
**EMERGENCIES:** Police department and a volunteer fire department are available plus a rescue truck.
**AIRPORT:** Daily air service.
**AUTHORITY:** City of Homer, Box 335, Homer, Alaska 99603, tel. 235–8597/8767/8756, manager tel. 235–8767, Harbour Master tel. 235–8959.

## HONOLULU, Hawaii (including Barbers Point and Pearl Harbour): 21.19 N. 157.52 W. (See Plan)

**PILOTAGE:** Pilot requested by Agent. Pilot station telegraphic address on VHF (only) Channel 16, call KFQ 907. Pilot boat, 36 ft. cabin cruiser, white house, black hull. Only "G" flag necessary for vessel requiring Pilot. Pilot station, latitude 21° 16′ 12″ N., longitude 157° 53′ 24″ W., no alternative.
**DOCUMENTS:**
4 Crew Lists.
4 Passenger Lists.
Customs Documents.
Clearance, Travelling Manifest.
Local Manifests.
Health Documents.
Bill of Health and Vaccination Certificates.
4 Manifests.
4 Bills of Lading.
Ship's Papers.
Certificate of Registry.
Annual Inspection Certificate.
Load-line Certificate.
Derat Certificate.
Radio Certificate and Licence.
4 Stores Lists.

Vessels scheduled to call at Pearl Harbour are required to furnish six copies of crew lists and passenger lists, if applicable, at least one working day prior to arrival, for Naval security requirement.

The United States Immigration Service require that the Master of vessels manned by alien crew members arriving from a foreign port present the United States Immigration and Naturalisation Service's Officer with a current crew list (Form I. 418) properly visaed in their possession. An I. 94 should be prepared for each passenger prior to vessel's arrival.

U.S. Immigration Department representatives are not stationed at any Hawaiian outports. Customs officials, however, are stationed at all entry ports and accomplish both Customs examination and Immigration.

The United States Agriculture Service examines and seals ship's stores from restricted ports. Special arrangements for garbage disposal may also be required by this agency, if for example meat aboard has been purchased in a port where there is a high incidence of "hoof and mouth" disease. All garbage should be disposed of prior to arrival in port.

All regulatory bodies assess overtime charges for services of their personnel if rendered on Saturdays, Sundays, holidays or after hours on week-days.
**RESTRICTIONS:** Entry at any time subject to harbour control signals. 24 hours notice of arrival is obligatory.
**MAX. SIZE:** Controlling depth 33 ft. MLLW. Length depends on availability of berths.
**HEALTH:** See Health Regulation before first U.S.A. port (Albany). Any foreign flag vessel arriving at any United States port is subject to Department of Agriculture and Department of Immigration and Naturalisation Service on board inspection. This condition governs whether or not the last port of call was a foreign port or a United States port.
**RADIO:** Call KHK, HF—8 Mc/s., 12 Mc/s., 16 Mc/s.; LF-500. VHF Channel 16, call KFQ907, Aloha Tower Harbour Control Station.
**TUGS:** Tugs normally join vessel within harbour limits. Both ship's lines and tug's lines used depending on conditions.
**BERTHING:** Berthing given on a first-come-first-served basis according to type of vessel and particular requirements as to cargo bunkering, etc.
**STEVEDORES:** Gangs must be ordered 24 hours in advance. General cargo, average load per hour: 15 L/tons; average discharge per hour: 15 L/tons.
**MEDICAL:** Agents would like as much advance notice as possible. Complete medical facilities available. Vaccinations in accordance with U.S. Public Health requirements.
**TANKERS:** Four tanker berths, maximum draft 35 ft. No slop discharge facilities.

Barber's Point: Tanker berths, tugs not normally required. Mooring Master attends berthing procedure. Fresh water not available. Fuel available ex pipe-line.

Pearl Harbour: U.S. Navy Terminal. Max. LOA 800 ft. Max. draft 38 ft. 6 in.
**DENSITY:** Pure salt water, no fresh water allowance.
**FRESH WATER:** Delivered via 2½ in. fire hose with meter on pier. Rate of delivery between 30 and 60 tons per hour, depending on the berth.
**FUEL:** All U.S. grades available, no advance notice other than establishment of credit.
**FIRE PRECAUTIONS:** Fire wires required by tankers berthed alongside.
**DEVELOPMENTS:** Container facilities being developed at Sank Island. One 800-ft. berth for tankers and containers under construction.
**GANGWAY/DECK WATCHMAN:** Services of watchman recommended, usually arranged by Agent.
**OPENING/CLOSING HATCHES:** Normally carried out by stevedores.
**CUSTOMS ALLOWANCES:** 200 cigarettes, 50 cigars per man, and one bottle, U.S. quart, wine or spirits.
**IDENTIFICATION CARDS:** Seamen's passports needed.
**CONSULS:** The following countries are represented in Honolulu:

Belgium
China
Great Britain
Japan
Denmark
Finland
India
Norway
Panama
France
Germany
Korea
Netherlands
Philippines
Portugal
Sweden
Thailand

**REPAIRS:** All types of deck and engine repairs possible. Hull repairs below water-line in accordance with dry dock capacities.
**DRY DOCKS:** Commercial within Honolulu Harbour. Dry dock: 2,800 L/Ton lifting capacity, 385 ft. long, 56 ft. wide. Marine railway: 1,400 L/Ton lifting capacity, 223 ft. long, 65 ft. wide.
**REPATRIATION:** All facilities, crews generally leave State within 24-hour period.
**AIRPORT:** International airport, served by all major airlines, 5 miles from harbour.
**HOLIDAYS:** New Year's Day (January 1); President's Day (February 21); Kuhio Day (March 26th); Good Friday; Memorial Day (May 30); Kamehameha Day (June 11); Independence Day (July 4); Labour Day (September 1); Veterans' Day (November 10); Thanksgiving Day (November 27); Christmas Day (December 25th).

Admission Day (August 20th) and Colombus Day (October 11th).
**POLICE/FIRE/AMBULANCE:** Police 944–1212; Ambulance 955–2633; Fire 955–1212.
**TIME:** G.M.T. minus 10 hours all year round.
**TELEPHONES:** Telephones can be placed on board at any dock.
**SERVICES:** All services found in major U.S. ports are available.
**SHORE LEAVE:** No restrictions if papers are in order.
**AUTHORITY:** State of Hawaii, Department of Transportations, Harbours Division, 700 Fort Street, Honolulu, Hawaii 96813; Tel. 5486255.

## HOUSTON, Texas: 29.45 N. 95.20 W. (See Plan)

**DOCUMENTS:**

1 visaed Crew List.
3 Passenger Lists.
3 or more copies of complete Manifests of Cargo for discharge at all U.S. ports.
2 or more copies of Manifest of Cargo for each individual U.S. port
1 Souvenir List.
1 Stores List.
Ship's Register.
Tonnage Tax.
Load-line Certificate.
Nationality Certificate.
No health document required.

**PILOTAGE:** Radio to local Agent who arranges Pilot and specifies boarding time. U.S. Coast Guard requires 24 hours notice in advance of arrival Galveston Bar. Pilot boats and station on VHF Channel 12, Bridge to Bridge is Channel 13 and tugs for docking and off-docking on Channel 14. 3 Pilot boats marked HP No. 1–53 ft., HP. No. 2 – 61 ft. and HP No. 3 – 106 ft. in length. Pilot boats contacted by light in International Morse code; No sound signal. Pilot taken on board at Sea Buoy No. 1, located 6·7 miles from Galveston. Seldom, if ever, is water too rough for boarding at above location. Anchorage located in Bolivar Roads, 6·7 miles inward from Sea Buoy No. 1.

**ANCHORAGES:** Anchorage for Houston is only in Bolivar Roads in Galveston, Texas, which has ample space and depth for all Houston bound vessels.

**RESTRICTIONS:** None with respect to time of day or night, or with state of tide.

**MAX. SIZE:** Maximum 850 ft. long, 115 ft. breadth and 39 ft. draft. Tide minimal, effected primarily by wind only. Should a vessel's draft exceed 39 ft., permission to enter must be obtained from the U.S. Coast Guard.

**HEALTH:** Dock boarding by quarantine officers.

**RADIO:** International Telephone and Telegraph – ITT – Galveston call letters KLC.

**TUGS:** Tugs come alongside just off dock or immediately prior to entering turning basin if vessel is to turn, or at Pilot's discretion.

**BERTHING:** No special requirements other than authority from terminal operator local Agent.

The Port Authority has a public grain elevator capable of storing 6 million bushels. There are four private grain terminals, one with a 10-million bushel capacity, two with 5-million bushel capacity and one with 2-million bushel capacity. This latter specialises in rice while the others handle (principally) wheat and milo. Bulk materials handling plant owned by the Port of Houston Authority, capable of loading or discharging at the rate of 1,000 tons an hour.

Private facilities include a steel plant, five refineries, a paper mill, two fertiliser plants, two cement plants and several petroleum or liquid gas storage farms, all with their own docks. In addition to the Port Authorities 40 docks for public hire, there are four private terminals with a total of ten berths for public hire.

A new facility owned by the Port Authority has been opened at Barbours Cut, 25 miles across Galveston Bay from Bolivar Roads, where the ship channel moves inland at Morgans Point. This is a 500 ft. pier with mooring dolphins for handling the new, large barge-carrying vessels (LASH).

**BRIDGES:** One bridge to be opened 1973 to cross channel immediately East of Public Wharf 31 will have clearance of 139 ft.

**STEVEDORES:** Stevedore, on advice from representative of local Agent, must order labour prior to 1700 for 0700 or 0800 start the following day. Can order at 0800 for 1000, 1100 for 1300 and 1700 for 1900 start. Gangs must be ordered prior to 1700 on Saturday for Sunday or holiday.

**MEDICAL:** Give sufficient notice to order doctor or ambulance. Numerous hospitals available. Seaman's health certificate required.

**TANKERS:** No specific requirements for oil carriers with respect to load/discharge lines. Tankers must be gas free to enter turning basin area. Approximately 12 tanker berths, excluding Humble Oil & Refining Co. in Baytown, Texas.

**DENSITY:** Classed as full fresh but varies with rainfall and tide, usually 4 to 5 in. allowance on full draft.

**FRESH WATER:** Available at all terminals through pipe and hose.

**FUEL:** All grades and viscosities available.

**FIRE PRECAUTIONS:** All standard precautions per code of Federal Regulations plus local ordinances. Tankers, unless gas free, not permitted at wharves in the immediate turning basin area.

**GANGWAY/DECK WATCHMEN:** Not required, but are available and can be arranged by local Agent at Master's request.

**OPENING/CLOSING HATCHES:** By stevedores only—vessel will be charged for this work if done by crew.

**CUSTOMS ALLOWANCES:** Tobacco, 300 cigarettes, 100 cigars, 1 lb. of tobacco or combination for each man. Wine and/or Spirit, one quart for each crew member.

**CARGO GEAR:** Cargo gear safety certificate required.

**IDENTIFICATION CARDS:** Immigration Form I-95 card required.

**REPAIRS:** All types available.

**DRY DOCKS:** Todd Shipyard, 485 ft. long, 17 ft. draft, 8,200 long tons.

**REPATRIATION:** Danner Guard Service can handle all phases.

**AIRPORT:** Approximately ½ hour by car; served by regular airlines.

**TIME:** Central Standard with daylight saving time effective from April to October.

**HOLIDAYS:** January 1; February 22; March 2; May 30; June 1 July 4; First Monday in September; November 11; December 25. N work performed on first Monday in September and December 2 except in emergency.

**POLICE/AMBULANCE/FIRE:** All services provided or available.

**TELEPHONES:** Currently no arrangements for placing telephones aboard but easily accessible on wharves.

**SERVICES:** All services available.

**SHORE LEAVE:** Shore leave granted except when individual no qualified.

**DEVELOPMENTS:** Channel depths to be maintained at 40 ft. Bayport development East and South of Morgans Point to have deep draft berths for liquid bulk and general cargo.

**AUTHORITY:** Port of Houston Authority, PO Box 2562, 151 Capitol Avenue, Houston, Texas 77001. Tel. (713) 225–0671.

**AGENT:** Hansen & Tidemann, Inc. 16th floor, Cotton Ex. Building PO Box 52620, Houston, Texas 77052. Tel. 713–223–4181. TW 910–881–2549 and 910–881–1797. Telex 762842. Cables "Handt".

## HUENEME, California: 34.09 N. 119.12 W. (See Plan)

**DOCUMENTS:** See "San Francisco".

**PILOTAGE:** It is requested that ships entering port stand by one mile off harbour entrance and await port Pilot who will board from a tug. The U.S. Coast Guard Station at the harbour entrance maintains a radio beacon.

All vessels 300 gross registered tons and over entering, leaving and shifting within the Port of Hueneme, including area of the Oxnard Harbor District, must be piloted by a port Pilot duly licensed to perform the services of piloting vessels within the Port of Hueneme. The Oxnard Harbour District does not maintain Pilots; licensed pilots are available on a 24-hour-a-day basis from the Commanding Officer, Naval Construction Battalion Center. As a service to all vessels, requests for Pilots may be made by Agent or ship to General Manager of Oxnard Harbor District, who will act for ship in obtaining necessary Pilots. They can also be obtained by an electronic message request addressed to "CO, CBCEN, PORHUE" or by direct request to the Port Services Officer, U.S. Naval Construction Battalion Center. It is not necessary to change Pilots at this port.

**ANCHORAGE:** If there is a wait for Pilot caused by weather, visibility, congestion in harbour, or any other reason, the best anchorage area is West-south-west of the harbour entrance where there are no hazards and there is some protection afforded by the natural curve of the coastline.

**RESTRICTIONS:** The length of entrance channel is 2,300 ft. The narrowest width of harbour entrance channel is 330 ft. However, because of prevailing fresh winds, this is a one-way channel; thus deep-draft ships not able to manoeuvre easily in a restricted channel have precedence over smaller craft.

**RADIO:** The U.S. Coast Guard Station, Port Hueneme, located at the entrance to harbour, guards the following frequencies: 21 kc/s., 156·8 Mc., 157·1 Mc. After initial call up the Coast Guard can shift to 2670 kc/s., 2694 kc/s., 5080 kc/s. The Naval Construction Battalion Center (Port Hueneme Control) guards, 2150 kc/s. and 2716 kc/s. The harbour tugs guard 2150 kc/s. voice continuously. The harbour pilots, when expecting a commercial merchant vessel guard 2716 kc/s. voice circuit and voice call "Port Hueneme Control Three".

**HEALTH:** Ships required to pass quarantine may enter port and moor. "Q" Flag is to be flown. Upon mooring, ship must post gangway watch until ship has passed quarantine. A local physician has the authority of U.S. Public Health Officer and conducts the check. When port of Hueneme is its port of first arrival in the United States from foreign ports or from states other than California, a ship must be inspected by the Department of Agriculture. There is a local representative in Oxnard. The Oxnard Harbor District will order officials if requested by ship or Agent.

**TUGS:** Tug services for port of Hueneme are furnished by the Commanding Officer, Naval Construction Battalion Center, Port Hueneme, California. Requests for tug services may be made to the General Manager of the Oxnard Harbor District, who will act as Agent for ship in forwarding them. Two tugs are available on a 24-hour basis. They are Class YTM, with 1,000 shaft horsepower. The number of tugs to be used on any movement is determined by port Pilot in charge of the movement. Tugs are not available for deep-sea towing, except in case of emergency to save life or property. As a service to all vessels, the Oxnard Harbour District, acting as Agent for vessel, will pay all necessary tug fees to United States Government, subject to reimbursement conditions as arranged between the vessel, her owners, or Agents, and the General Manager Oxnard Harbour District. Seldom are tug charges more than the minimum due to the short transit time to berths.

**BERTHING:** Berthing arrangements should be made with the General Manager by Agent as far in advance of arrival date as po sible, specifying dates of arrival and sailing, and nature and quantity of cargo to be handled. The Oxnard Harbor District also has a licence agreement with the U.S. Naval Construction Battalion Center, Port Hueneme, for the use of additional berths and terminal facilities on an "as available" basis. Prior arrangements must be made, should use of these additional facilities be desired or necessary. The Port of Hueneme has three 600 ft. berths with depth 35 ft. MLW and appropriate terminal facilities. At the present time there are 10 deep-draft berths within the entire port area.

Bottom is sand and mud. Mean low water is + 1.5 ft. Height of wharf above MLLW is 13 ft.

**STEVEDORES:** All stevedore work is presently performed by resident stevedores, the Marine Terminals Corporation, who also have offices in San Francisco, Long Beach, etc. They maintain an office at 111 Ponoma Street, Port Hueneme. They provide modern handling equipment to suit cargo's need. There is no special fixed bulk handling equipment available as yet. Longshoremen are members of the International Longshoremen's and Warehousemen's Union and conform to the Pacific Coast Longshore Agreement. Hours of work are as outlined in this agreement. Longshoremen at this port do all covering and uncovering of hatches and rig the gear. There are eight gangs available in the port. Day and night gangs for Tuesday through Saturday (except Monday through Saturday, 7 p.m. initial start) must be ordered by 3.30 p.m. the previous day. Night gangs required Monday for a 7 p.m. initial start, and Sunday and Monday gangs must be ordered by 11 a.m. Saturday. Cancellation time is same as ordering time, if gangs which have been ordered are cancelled after the aforementioned deadlines, the agreement's four-hour minimum applies. Normal day shifts begin at 8 a.m. and normal night shifts at 6. p.m. Each shift consists of 8 hours and on sailing day 10 hours may be worked by the final shift. There are no obstructions on the wharf to keep all hatches from being worked concurrently.

**MEDICAL ATTENTION:** Patients are provided medical attention at the Medical Center, Port Hueneme, or St. John's Hospital, Oxnard California. Temporary visa must be obtained from Department of Immigration and Transportation if a crew man or passenger must remain after the ship sails.

**FRESH WATER:** Fresh water is available. There are hydrants along the wharf and delivery to ship is effected by hose. Water is good to taste but is hard. It is suitable for boilers. Contact wharfinger on duty for delivery of water.

**FUEL:** Fuel and diesel oil are obtainable from a local port-based tenant. Quantities beyond the capability of that tenant's ability can be delivered by tank truck direct to ship's tanks. In an emergency, the Navy will make Navy special black oil available.

**REPAIRS:** Minor repairs may be made in port. Machine shops in Ventura and Oxnard are qualified for normal voyage repair work.

**WATCHMEN:** Gangway or special wharf watchmen are available upon request.

**TELEPHONES:** Two pay-telephone booths are located at the South-west corner of Wharf 1 adjacent to the wharfinger's office and maintained for the convenience of ships berthed at Wharf 1. The wharfinger's office has a telephone which may be used by people calling in to contact the ship. This phone is manned 24 hours a day for convenience. Its number is (805) 488–4615. The Port of Hueneme office telephones are available to ship's officers and Agents for local calls or collect long distance calls. Wharf lines permit a telephone to be installed at a nominal charge if desired by Agent.

**HEAVY LIFT EQUIPMENT:** The U.S. Navy, in special circumstances, makes available a 100-ton floating derrick barge, subject to its prior needs. The General Manager of the Oxnard Harbor District will assist those desiring derrick barge services. Typical rental cost is about $150.00 per hour on a straight time basis (8 a.m.–4.30 p.m. on week-days) and $185.00 per hour on an overtime basis (4.30 p.m.–8 a.m. during week-days and all hours on Saturdays, Sundays and holidays). This includes equipment costs, mobilisation time, man-power, fuel and use of required slings.

**HOLIDAYS:** U.S. Federal holidays are observed by the Port and Terminal management. If stevedoring is required on holiday it is performed in accordance with the International Longshoremen's and Warehousemen's Union-Pacific Coast Longshore Agreement.

**AUTHORITY:** The U.S. Navy (Commanding Officer, U.S. Naval Construction Battalion Center) exercises overall Port Control Authority; the Oxnard Harbor District is solely responsible for its commercial operations.

Oxnard Harbor District Board of Harbor Commissioners 105, Port Hueneme Road, Port Hueneme Cal. Tel. (805) 488–3677.

## HURON, Ohio: 41.24 N. 82.35 W.

Refer to "St. Lawrence Seaway" for important general information.

**PILOTAGE:** None required other than what is required for Great Lakes.

**ANCHORAGE:** Depth 3 to 10 fathoms.

**MAX. SIZE:** Length 716 ft., breadth 75 ft., draft 26 ft.

**RADIO:** WMI Lorain.

**TUGS:** Meet vessel at the Pier Head. Use ship's lines.

**BERTHING:** Norfolk and Western Ore Dock, operated by the Lake Erie Dock Co., can handle 15,000 tons of ore in eight hours. Ore slip is 1,400 ft. long with 26 ft. of water.

Limestone Dock, 700 ft. length with 26 ft. of water.

Grain loading facilities operated by the Pillsbury Company. Load speed, 20,000; unload speed, 15,000; berthing space, 832 ft.; max. length, 610 ft.

**STEVEDORES:** None available.

**FRESH WATER:** Available.

**FUEL:** None available.

**IDENTIFICATION CARDS:** Required by Immigration.

**CONSULS:** Nearest at Cleveland.

**REPAIRS:** No facilities.

**REPATRIATION:** No facilities.

**AIRPORT:** 50 miles from port (Cleveland International Airport).

**POLICE/AMBULANCE/FIRE:** 433–4114.

**SHORE LEAVE:** Allowed.

**AUTHORITY:** The Huron Joint Port Authority, 107 Wall Street, Huron, Erie County, Ohio, 44839, U.S.A.

## JACKSONVILLE, Florida: 30.20 N. 81.40 W. (See Plan)

**DOCUMENTS:**

*Public Health:*

Maritime Quarantine Declaration Form HSM 13.19.

*Customs:*

3 U.S. Customs Manifests for cargo to be discharged at first port of entry.
2 U.S. Customs Manifests covering all other cargo on board vessel for discharge at other than first port of entry.
3 Stores Lists.
3 Crew Lists.
3 Passenger Lists.
3 Curio and Crew Personal Items Lists.
Vessel's Clearance from last port.
Vessel's Register and Load Line Certificate.
Vessel Utilization and Performance Report.
Form MA.578 for dry cargo vessels.

*Immigration:*

1 Certified Crew List and Landing Permit form I–95A for each crew member.
Valid passport for each crew member.

**PILOTAGE:** Vessels approach Pilot Entrance Buoy STJ No. 2 (Red) approximately six miles at sea off jetty entrance to St. John's River. Pilot station located just inside jetty on river channel at Mayport Naval Station. Pilot station operates both VHF and UHF frequencies, VHF Channels 16 and 18A. UHF Frequencies 2738 and 2182. Pilot cable address "Jaxpilot". Pilot boards from pilot boat Jaxpilot just east of sea buoy STJ No. 2. Pilot boat does not maintain station at sea but answers call or is dispatched on information by vessels' agents. Vessels anchoring awaiting Pilot should anchor as near entrance buoy as safely possible.

**ANCHORAGES:** Two anchorages located inside harbour near dock sites with depth of about 31 ft.

**RESTRICTION:** For vessel drawing not more than 30 ft. water no restrictions and vessel can enter and clear harbour on 24 hour basis. Pilots and tug assistance available all hours day or night. Vessels drawing more than 30 ft. required to await tide.

**MAX. SIZE:** Draft should not exceed 31 ft. for dry cargo vessels and 34 ft. for tankers.

**HEALTH:** Vessels boarded on arrival at piers by Health Officials. Vessel may obtain radio free pratique by making request at least 48 hours prior to arrival. Request is made to local Agent who obtains clearance from Public Health Service and replies to Master that request has either been granted or denied. In request for free pratique Master must indicate nature of any illness on board vessel. In the event of communicable diseases vessel can proceed in harbour but must give advance notice of disease either in suspect or actually existing.

**RADIO:** Tropical Radio, Miami, Fla. Call letters WAX. Lantana Radio, Boynton Beach, Fla. Call letters WOE.

**TUGS:** Under normal conditions with vessels able to proceed under own power, tugs approach vessel in vicinity of pier at which vessel is to dock. Tugs use own lines but no charge made.

**BERTHING:** Vessels can dock day or night. Transit time from pilot station to berths about two hours.

**BRIDGES:** Only one bridge that vessel would have to negotiate and that only if docking at Commodore Point terminal.

**STEVEDORES:** Master should keep Agents closely advised by radio of ETA and any amendments to first ETA given. Recommended that Master give ETA 72–48–24 hours in advance to arrival. Enables ordering gangs or cancelling gangs ordered in event of delayed ETA.

**MEDICAL:** Hospital facilities available. International Vaccination Certificates required by all crew members.

**TANKERS:** All petroleum terminals provide own hose ranging from 8 in. to 12 in. Prior to arrival, Master should request information from Terminal Company size of connection required. Three berths available. Depth alongside 34 ft.

**DENSITY:** Varies from fresh water 1·000 density to mixed salt water 1·0075 density. St Johns River is fed from fresh water sources and for most practical purposes may be considered fresh.

**FRESH WATER:** Fresh water supplied by barge delivery with minimum 100 tons.

**FUEL:** Most grades marine fuels available ranging from bunker "C" to light marine diesels with intermediate blends in between. Most major oil companies have bunkering facilities.

**FIRE PRECAUTIONS:** No smoking except in officers' lounge and crew's lounge. No open flames. No sparking from funnel.

**DEVELOPMENTS:** New marginal wharves with marginal tracks and supporting warehouses now under construction. Also planned deepening of river channel from sea buoy to dock area from present 34 ft. to 38 ft. Container berth presently under construction at Blount Island which will be equipped with 45 tons Paceco type crane.

**GANGWAY/DECK WATCHMEN:** Watchmen services available but not necessary.
**OPENING/CLOSING HATCHES:** Crew may open hatches prior to vessel's arrival at dock. After arrival at dockside this work reserved for longshoremen. Vessels equipped with McGregor type of other automatic opening devices, crew may open hatches at any time. Longshoremen do not open and close these type hatches.
**CERTIFICATES:** Vessel Register, Load Line, Gear Certificate, Derat.
**CUSTOMS ALLOWANCES:** Tobacco: 200 cigarettes per man. If vessel remains in port over extended period of time, sea stores can be opened under customs supervision and additional allowances made. Wine/Spirits: No specific limits as to quantity allowed per man; customs accept Masters' recommendations for allowances so long as they are reasonable. This applies to beers, wines and spirits.
**IDENTIFICATION CARDS:** Form I–95A only.
**CONSULS:** Vice-Consulates – Norway, Denmark, Sweden, Finland, Italy, France, Venezuela, Guatemala, Uruguay, Dominican Republic.
**REPAIRS:** All types engine and deck repairs possible. Two well equipped shipyards.
**DRY DOCKS:** Three large dry docks of 16,000 to 20,000 tons capacity and three smaller dry docks of 6,000 to 10,000 tons capacity.
**REPATRIATION:** Facilities available to effect crew changes and repatriation.
**AIRPORT:** Airport 20 miles. Daily flights to all major U.S. cities.
**TIME:** Eastern Standard Time and Daylight Saving Time during summer months late April through October.
**HOLIDAYS:** Holidays observed by Stevedores: New Year's Day (Jan. 1st); Martin Luther King's Birthday (Jan. 15th); Lincoln's Birthday (Feb. 12th); Geo. Washington's Birthday (Feb. 22nd); Memorial Day (May 30th); Independence Day (July 4th); Labor Day (First Monday September); Columbus Day (October 12th); Armistice Day (Nov. 11th); Thanksgiving (Fourth Thursday November); Christmas (December 25th).

When holidays fall on Sunday, the following Monday observed to the extent of paying overtime and eight hour minimum pay period shall apply. No work performed on the following holidays: New Year's Day, Independence Day, Labor Day, Christmas Day.
**POLICE/AMBULANCE/FIRE:** Police 356–7392; Ambulance 355–8833; Fire 355–8833.
**TELEPHONES:** No facilities available for placing phones on board vessels except in shipyards.
**SERVICES:** Compass-Adjusting, radar, navigational equipment. No tank-washing or tank-cleaning services available.
**SHORE LEAVE:** No restriction on shore leave if not detained by immigration.
**REGULATIONS:** No garbage to be disposed overside, no pumping of dirty ballast into river. Smoke emissions must be controlled to minimum.

**AGENT:** Southern Shipping Company, PO Box 4668, Jacksonville, Fla. 32201. Telephone Area 904 355–4751. Cable address "Soshipco" After hours contact: C. R. Opper (Area 904 388–4374); J. Miller (Area 904 742–4516). Nature of business: Steamship Agents, Stevedores, Foreign Freight Forwarders.

### JUNEAU, Alaska: 58.18 N. 134.24 W.

Located at North-easterly side of Gastineau Channel, eight miles from Stephens Passage. Juneau is the capital of Alaska. Open all year.
**APPROACHES:** Via Chatham Straits, Lynn Canal and Stephens Passage.
**DOCUMENTS:** See "Anchorage, Alaska".
**PILOTAGE:** Pick-up point is Guard Island.
**ANCHORAGE:** 16 fathoms in centre of Juneau Harbour.
**MAX. SIZE:** Harbour depth 15/19 fathoms. Tides: diurnal range 16·4 ft. Also see "Berthing".
**CUSTOMS:** Quarantine, Immigration and Customs, local.
**BERTHING:** 1. Foss Alaska Line Dock: berthing length 550 ft. 36 ft. LW. No cranes.

2. Juneau Cold Storage (capacity 8,000,000 lb.): berthing length 250 ft., 36 ft. LW. Cranes, 2 electric hoists, 3 lift trucks, 40,000 sq. ft. covered shed space. Fresh water.

3. Juneau Ferry Terminal: berthing length 350 ft. 32 ft. LW. No cranes. This is a roll-on, roll-off facility for wheeled vehicles and self-propelled or towed. 35 tons capacity. No covered shed space. Fresh water.

4. Coast Guard Dock: 750 ft. long, 31 ft. deep at face. No storage.
**STEVEDORES:** One gang.
**REPAIRS:** Minor engine repairs only.
**WATER:** Available.
**FUEL:** Not available.
**MEDICAL:** Hospital available.
**TRANSPORTATION:** Air and ferry.
**DEVELOPMENTS:** Berner's Bay under construction 40 miles north, will produce pulp and lumber for export.

### KAHULUI, Hawaii: 20.53 N. 156.28 W. (See Plan)

**DOCUMENTS:**
4 Crew Lists.
4 Passenger Lists.
Customs Documents.
Clearance, Travelling Manifest.
Local Manifests.
Health Documents.
Bill of Health and Vaccination Certificates.
4 Manifests.
4 Bills of Lading.
Certificate of Registry.
Annual Inspection Certificate.
Load-line Certificate.
Derat Certificate.
Radio Certificate and Licence.
4 Store Lists.

**PILOTAGE:** Request for Pilot normally made through Agent o through Harbour Master's office. Contact Pilot on VHF Channel 1 36 ft. pilot boat, black hull, white cabin. Pilot boards ¼ mile East o Waihee Reef lighted buoy No. 2. Anchorage ½ mile East of buoy.
**ANCHORAGE:** No anchorage inside breakwaters. Only anchorag ½ mile East of Waihee Reef lighted buoy No. 2 in 9 to 12 fathoms.
**RESTRICTIONS:** 24 hours notice of arrival is obligatory. No en at night time for vessels over 600 ft. long. No tide restrictions.
**MAX. SIZE:** Maximum length about 700 ft. Maximum draft 32 ft. 6 i
**HEALTH:** Usual quarantine regulations, Customs and Immigratio and agriculture and meat inspectors board at dock for vesse arriving from foreign ports. Serious or contagious diseases shou be reported by radio. No quarantine for vessels from United Stat or Canadian ports.
**RADIO:** Communicate through RCA or ITT stations in Honolul
**TUGS:** One 1,500 h.p. tug stationed at Kahului. Additional tug dispatched from Honolulu if necessary. Tug joins vessel betwee breakwater and Waihee Reef lighted buoy No. 2. Tug's lines normal used. No extra charge.
**CARGO HANDLING:** Kahului has one berth specially equipped t load bulk sugar. Matson Navigation Company operates a straddle to move Matson containers. Other containers are normally barged t Kahului on roll-off chassis.
**STEVEDORES:** To be ordered by 1500 of day prior to operations.
**MEDICAL:** Hospital facilities available.
**TANKERS:** Discharge only. 8 in. line for heavy fuel oil, 6 in. line for light fuel oils. No slop discharge facilities. Two berths availab for tankers, maximum draft 32 ft. 6 in.
**FRESH WATER:** Available from water line at each berth. Rate o delivery about 150 gallons per minute.
**FUEL:** Small amount of diesel fuel and heavy fuel available in a emergency only.
**GANGWAY/DECK WATCHMEN:** Services of watchman recommended, usually arranged by Agent.
**OPENING/CLOSING HATCHES:** Normally carried out by stevedores.
**CUSTOMS ALLOWANCES:** 200 cigarettes, 50 cigars per ma and one bottle wine or spirits.
**REPAIRS:** Minor deck and engine repairs only.
**AIRPORT:** Distance to airport 1 mile. Served by regular airlines.
**TELEPHONES:** Arrangements made with Hawaiian Telephone Co. to install on board.
**DELAYS:** Occasional delays due to limited berthing space an shortage of stevedore gangs.
**POLICE/FIRE/AMBULANCE:** Police 244–7811; Ambulance 244–9056; Fire 244–4860.
**TIME:** GMT minus 10 hours all year round.
**AUTHORITY:** State of Hawaii, Dept. of Transportation, Harbo Division. PO Box 201, Kahului, Maui 96732. Tel. 877–6051.

### KETCHIKAN, Alaska: 55.20 N. 131.38 W.

**DOCUMENTS:** See "Anchorage, Alaska."
**APPROACHES:** Port located on Revillagigedo Island. Open a year round. Ships coming from Hecate Straits or outside Graha Island proceed into Dixon Entrance to vicinity of Guard Island whe the Pilot will meet them.

Vessels coming up the inside passage from Vancouver BC, a met at Lucy Island pilot station.
**PILOTAGE:** South eastern Alaska Pilots Association, Box 153 Ketchikan Alaska 99901. Telegraphic address; Alaska Pilo Ketchikan.

The Alaska Pilot Service requires 5 days, 48 hours, and 12 hou advance notice of ETA and can be contacted on Channel 16 VHF o 2182 kHz.

The pilot boat "Magdalene" (WA 7513) normally rendezvous w the vessel ¾ mile from Guard Islands.
**ANCHORAGE:** Safe anchorage can be obtained in the area f deep-draft vessels; however there are no specified anchorage areas.
**MAX. SIZE:** The largest vessel to be berthed to date is a 26,000 t freighter; however larger vessels could be accommodated.
**RADIO:** Cables to Agent, Receivers, and Pilots can best be rou through AKM Juneau.
**TUGS:** Tugs can be arranged through the ship's Agent. Lines fro tug are normally used with no additional charge.
**BERTHING:** Alaska Line Dock: berthing length 400 ft., depth 26 f at North end, 39 ft. at South end at low water, no cranes.

Talbots' Inc: private berth length 300 ft., depth 35 ft. low water.

Ketchikan Spruce Mill: berthing length 450 ft., depth 33 ft. lo water. Height of pier at low water 22 ft.

Ketchikan Pulp Company (at Wards Cove, 6 miles North o Ketchikan): private dock, berthing length 800 ft., depth 33 ft. at lo water.
**STEVEDORES:** Stevedores obtained through shipping Agent. hours notice normally required.

Four or possibly five gangs available dependent on obtaining casual labour.
**MEDICAL:** Medical matters may be referred to shipping Agent. Excellent hospital and out-patient treatment facilities are available.
**FRESH WATER:** Ample fresh water available at no cost.
**FUEL:** Fuel available for deep-draft vessels: PS–300. Vis. 33.5 Pour Pt. –15 to –20.
**TANKERS:** Tow-away lines required fore and aft.
**WATCHMEN:** Recommend security watch for passenger vessels. Watchmen can be arranged through the shipping Agent.
**HATCHES:** Opening/closing of hatches done by longshoremen.
**IDENTIFICATION CARDS:** Crew identification cards are required by Immigration officials.
**CONSULS:** The nearest Consul is in Anchorage, Alaska.
**REPAIRS:** Repair facilities are limited. Excellent welding and machine-shop services are available, however.
**REPATRIATION:** Repatriation matters can be handled through the shipping Agent and Immigration officials.
**AIRPORT:** Daily flights to and from Seattle as well as points North may be obtained.
**TIME:** Ketchikan is on GMT minus 8 hours during the winter and GMT minus 7 during the summer. Time changes the third Sunday in April through the third Sunday in October.
**AUTHORITY:** Captain of the Port, c/o U.S. Coast Guard Base, Ketchikan, Alaska.

## KINGS BAY, Georgia: 30.49 N. 81.31 W.

**DOCUMENTS:**

Crew List, from foreign, 1 Crew List visaed by American Consul in or near foreign port of departure; Coastwise, U.S.A., three copies, one for Customs, one for Immigration and one for the Agents' office.
Curio List, three copies, both from foreign and coastwise movements.
Stores List, three copies, both from foreign and coastwise movements.
Five copies of Foreign Manifest.
Five copies of Bill of Ladings.
Permit to sail from foreign.
International Vaccination Certificates and/or other health certificates.

**PILOTAGE:** Channel entrance is between Cumberland and Amelia Islands, and is approximately 11 miles in length, 200 ft. wide and 32 ft. deep at MLW. Kings Bay Pilot usually boards vessels at the St. Mary's Entrance Sea Buoy No. 1 or 1 mile East of St. Mary's Entrance Buoy No. 2. Pilot may be reached by marine phone (ship-to-shore), Fernandina Beach, Florida, tel. 261–3824 or 261–3495. There are two turning basins, one 2,400 ft. long by 800 ft. wide and 32 ft. deep at MLW, and the other is 1,996 ft. long by 800 ft. wide and 32 ft. deep at MLW.
**ANCHORAGE:** Two, capable handling deep draft vessels. Pilot handles this phase.
**MAX. SIZE:** 650 ft. in length, 32 ft. in depth.
**HEALTH:** Boarding physician. New modern hospital located in St. Mary's, Ga.
**RADIO:** Kings Bay has only marine ship-to-shore telephone facilities. Cables arrive through R.C.A. Communications via Lantana, Fla., Radio, and Chatham, Mass., Radio and via Western Union.
**TUGS:** Available.
**BERTHING:** Berthing at any time, except when draft requires to come in on high tide, rise and fall of tide is 6 ft.
**STEVEDORES:** All stevedoring performed by St. Mary's Stevedoring Company, St. Mary's, Ga., on high explosives. General cargo outside stevedores permitted.
**FRESH WATER:** Plenty of fresh water available, pumped into ship's tanks via hose.
**FIRE PRECAUTIONS:** Smoking in the warehouses, on wharf or on any vessel while loading or discharging any inflammable or explosive cargo is strictly prohibited. In the event of a fire occurring on board any vessel berthed at the Kings Bay Marine Terminal, except vessels under way, such vessel may sound five prolonged blasts of the whistle or siren as an alarm indicating fire on board or at the dock to which the vessel is moored. Fire hose on dock and water running therefrom when loading plus fire extinguishers placed at various intervals.
**GANGWAY/DECK WATCHMEN:** Not required.
**OPENING/CLOSING HATCHES:** Crew open, stevedores close.
**CUSTOMS ALLOWANCES:** Tobacco and wine/spirits – reasonable quantities for personal use.
**IDENTIFICATION CARDS:** Immigration issues landing permit.
**REPATRIATION:** Via airlines at Jacksonville, Florida, 41 miles away.
**TIME:** Eastern Standard Time.
**HOLIDAYS:** New Years' Day (1st January); Lincoln's Birthday (12th February); Washington's Birthday (22nd February); National Memorial Day (30th May); Independence Day (4th July); Labor Day (first Monday in September); Columbus Day (12th October); Thanksgiving Day (fourth Thursday in November); Armistice Day (11th November); Christmas Day (25th December). In the event of one of above holidays falling on a Sunday, the following Monday will be observed.
**POLICE/AMBULANCE/FIRE:** Police Departments St. Mary's and Kingsland, Ga., plus County Sheriffs. Ambulance, Kingsland. Fire, both Kings Bay and St. Mary's, Ga.
**TELEPHONES:** Only three lines and all in office of Blue Star Shipping Co. No telephone service to be placed on board vessel.
**SHORE LEAVE:** Only via Immigration landing permit. No taxi service, no bus lines operate from Kings Bay, Ga. Since nearest town is 11 miles away, crew as a rule remain aboard vessel.
**AUTHORITY:** None. Blue Star Shipping Corporation, St. Mary's, Ga., operates the port.

**AGENTS:** Blue Star Shipping Corporation, PO Box 487, St. Marys, Georgia. Zip Code: 31558.

## KODIAK, Alaska: 57.47 N. 152.24 W.

Located near the North-eastern tip of Kodiak Island in the Gulf of Alaska, South of Anchorage and East of the Alaska Peninsula.
**APPROACHES:** South of Trinity Islands then North-west to Cape Chiniak and meet Pilot.
**DOCUMENTS:** Also see "Anchorage, Alaska".
**PILOTAGE:** Pick-up point in the vicinity of Cape Chiniak.
**MAX. SIZE:** Harbour depth in excess of 30 ft. Tides: diurnal range approximately 10 ft. Also see "Berthing".
**ANCHORAGE:** Fair weather anchorage only.
**CUSTOMS:** Quarantine, Immigration and Customs, local.
**BERTHING:** 1. Kodiak City Dock: made of timber, pile and steel deck. One berth only. 350 ft. by 50 ft. Covered warehouse on half of pier 200 ft. by 150 ft. 35 ft. MLLW. Heated space available.
2. Woman's Bay Naval Base: Finger Pier 600 ft. operated by U.S. Navy. Depth of water in excess 40 ft. U.S. Navy permission required for commercial use.
**TUGS:** From Anchorage.
**STEVEDORES:** Two gangs.
**REPAIRS:** Limited. Divers available.
**WATER:** Available.
**FUEL:** Light fuels only.
**MEDICAL:** 26-bed hospital, 3 doctors, 2 dentists, 1 optometrist.
**TRANSPORTATION:** Air and ferry.

## LAKE CHARLES, Louisiana: 30.13 N. 93.15 W.

**PORT LIMITS:** Buoy No. 26, in Calcasieu Ship Channel, 3 miles off Cameron, Louisiana.
**DOCUMENTS:**

3 copies Cargo Manifest (Forms 7527–A or 7527–B), the original showing all cargo on board, and 2 copies showing only cargo for this port.
2 copies Crew Manifest (curio list).
2 copies Stores List.
2 copies Passenger List (Form I–418).
2 copies Crew List (Form I–418).

Customs boarding officer will also examine Ship's Register and Load Line Certificate. In addition, the following documents will be required for formal entry to be made within 48 hours of arrival from abroad, or 24 hours from arrival from a United States port:

Health Pratique.
Master's Oath (Customs Form 3255).
All foreign clearances.
U.S. Certificates of payment of Tonnage Tax (Customs Form 1002).
Certified Crew List.

**PILOTAGE:** Radio Agent ETA., who will arrange Pilot board at Calcasieu Bar.
**ANCHORAGE:** At Calcasieu Bar only.
**RESTRICTIONS:** Entrance channel 40 ft. depth. Distance 40 miles.
**MAX. SIZE:** 1,000 ft. length, 38 ft. draft.
*St. James:* Max. draft at berth 35 ft.; no restriction on length.
**HEALTH:** See "Health Regulations" before first U.S.A. port (Albany).
**RADIO:** Tropical – New Orleans, WNU.
**TUGS:** Meet vessel thirty minutes away from berth. Use tugs' own lines. Two for berthing, one for unberthing.
**BERTHING:** Three bulk-loading berths: No. 1, West bank of Calcasieu River, 8 miles below main port facilities, 800 ft. length, 35 ft. depth, loading rate 1,250 tons per hour.

No. 2, Contraband Bayou Section, main port, 850 ft. length, 35 ft. depth, loading 480 tons per hour. 1,600 tons storage facilities.

No. 3, Contraband Bayou Section, main port, 600 ft. length, 35 ft. depth, loading rate (bulk rice) 180 tons per hour from stationary tower. Twin 1,250 tons storage tanks adjacent.

Cities Service Oil Co. B-Dock, 673 ft. length, 40 ft. depth; C-Dock, 660 ft. length, 40 ft. depth; C-Dock 665 ft. length, 40 ft. depth.

Continental Oil Co. Berth 1, 1,000 ft length, 40 ft. depth; Berth 3, 1,000 ft. length, 40 ft. depth,

Columbia Southern Dock, 650 ft. length, 30 ft. depth.

Olin Mathieson Dock, 400 ft. length, 28 ft. depth.

**DENSITY:** Saltwater in summer, fresh in winter. Allow density 1000 for drafts.
**FRESH WATER:** Available at all berths.
**FUEL:** Bunker "C" and diesel available at Cities Service berths; other berths none available except light marine diesel delivered by tank truck.
**DEVELOPMENTS:** Under construction: forest products berth, specialising in volume handling of wood pulp, newsprint and liner board.
**CUSTOMS ALLOWANCES:** At the discretion of Customs officers. Normal allowance is 200 cigarettes or 2 lb. tobacco and one quart wine or spirits per man. Additional allowances may be given if considered necessary, due to length of vessel's stay in port.
**IDENTIFICATION CARDS:** Standard U.S. Immigration Forms

I-95 to be made up for each crew member on arrival. Not necessary for crew man already holding Form I-95, issued for the same vessel.
**REPAIRS:** Small repairs carried out only; very limited facilities.
**REPATRIATION:** Facilities exist. Arrange through Agent.
**AIRPORT:** Seven miles from port. One line (TI) nine flights per day.
**TIME:** On CST, that is GMT minus 6 hours.
**HOLIDAYS:** Only two days affected on which no work carried out – Labour Day and Christmas Day.
**POLICE/AMBULANCE/FIRE:** Police, 439–4511; Ambulance, 477–5530; Fire, 433–4633.
**TELEPHONES:** None on board ship.
**SHORE LEAVE:** Allowed if not detained by immigration.
**AUTHORITY:** Lake Charles Harbor and Terminal District, H. M. Neely, Director of Port, PO Box AAA, Lake Charles, Louisiana 70601. Tel. 318–439–3661.

## LONG BEACH, California: 33.45 N. 118.13 W. (See Plan)

**DOCUMENTS:**

Certificate of Registry.
International Load Line Certificate– Tonnage Certificate (Admeasurement).
Inspection Certificate.
Derat Certificate.
Radio Safety Certificate.
Inbound cargo for discharge – United States must have a Travellers' Manifest (Form 7527), original manifest, and dock inspection copy covering cargo to be discharged at first U.S. port of entry Custom's Utilization Form 7801 (Inbound), Form 7802 (Outbound) must be filed within 10 working days after vessel's entry at first U.S. port. Landing permits must be made out prior to arrival (Form I-95-A) for each crewman of alien origin for the U.S. Department of Immigration (and Form I-94 for each passenger of alien origin). Three sets of crew lists (Form I-418) must be presented to U.S. Customs, plus two sets to the Immigration Inspector, and One for the U.S. Public Health Service (Quarantine), and three sets stores lists plus three sets curio purchases list for U.S. Customs.

American Ships from Foreign:
Safety Equipment Certificate.
Cargo Ship Safety Construction Certificate.
Customs Form 3415 Affidavit of Repairs Abroad.
Certified Crew List.

Foreign Ships:
1 copy of Visaed Crew List for Immigration (Form I-418 & 5 copies).

Other forms may be necessary under certain circumstances, but normally can be taken care of after the vessel's arrival.

*If a foreign vessel from a foreign port departs for a foreign port, two copies of (Form I 418) covering crew changes in the United States must be submitted to the Department of Immigration upon sailing of the vessel.*

(*a*) Number of copies required: all single except as noted.
(*b*) The reports mentioned above are all government laws, requested by U.S. Customs, U.S. Immigration, Department of Agriculture, Public Health Service, and B.I.A.
(*c*) Purpose of documents: to record all vessel movements such as cargo, crew changes, health standards, etc.
(*d*) Procedure of presenting documents: documents must be presented to Quarantine Boarding Officer and Customs Broker and/or Agent, during or immediately after Quarantine.

**PILOTAGE:** Pilots ordered by local Agents. Order placed by telephone to 435–6354. Local tariff requires at least 1 hour notice prior to arrival. Pilot station contacted on VHF radio Channel 12 (156·6 Khz) or Channel 16 (156·8 Khz). Pilot boats motor cruisers, light grey, fly International Flag "H". Local whistle signal for a Pilot on ship's whistle, one short and one long blast. Pilot boat normally meets vessels in vicinity Long Beach Sea Buoy or approximately 1 mile South of breakwater entrance. Vessels should have Pilot ladder on starboard side, weather permitting. In bad weather vessels may be required to proceed inside breakwater entrance prior to Pilot boarding.

**ANCHORAGE:** Preferable outside anchorage approximately ½ mile South-east of Long Beach Sea Buoy in 66 ft. of water. Inside anchorage available North-east of channel in outer harbour at approximately 8 fathoms of water depth. Special explosive anchorages available by request, on both sides of entrance channel in 48 ft. of water.

**RESTRICTIONS:** Vessels with dangerous cargoes aboard or loading or discharging such cargo within port district shall obtain permit from U.S. Coast Guard, countersigned by Long Beach Fire Prevention Bureau and Long Beach Port Authority, subject to safety inspection prior entry to assigned anchorage or berth. (Application for entry or handling dangerous cargoes must be requested by Steamship Company or authorised Agent and approved prior entry.)

**MAX. SIZE:** (1) Average depth of water at general cargo berths is 37 ft. at mean-lower-low-water.

The Entrance Channel is maintained at 60 ft. MLLW.

(2) No restriction as to length or breadth of vessel at general cargo berths.

(3) Dry bulk facility berths average depth at mean-lower-low-water is 42 ft. No restriction on length. However, ships with over 130 ft. beam might experience some difficulty in loading without turning ship.

There are five bulk oil facilities, two with 55 ft. of water at mean-lower-low-water and three with 49 to 37 ft. of water at mean-lower-low-water alongside berths. It is feasible that vessels over 1,000 ft. in length could use our deep-water oil facilities. There are no restri tions as to beam. A sixth bulk oil terminal is being constructed whic will accommodate vessels in the 200,000 dwt. class, drawing up to ft.

**HEALTH:** Pratique is a certificate issued by Quarantine Office U.S. Public Health Service releasing a vessel from Quarantine. See Health Regulations before first U.S.A. port (Albany).

**RADIO:** Station KOU Marine Operator, San Pedro.

*Channel 1*—ship transmit on 2009 kHz
ship receive on 2566 kHz
**Channel 2*—ship transmit on 2126 kHz
ship receive on 2522 kHz
**Channel 3*—ship transmit on 2206 kHz
ship receive on 2599 kHz
*Channel 4*—ship transmit on 2382 kHz
ship receive on 2466 kHz
* 7 a.m. to 7 p.m. Pacific Standard Time

Station KOU also monitors Channel 16 (156·8 mHz) and Chann 26 (157·3 mHz) for distress, safety and calling.

**RADAR/VHF:** Radar service provided to vessels only if Pilo aboard, in which case radar advisory information will be fed from shore-based radar at pilot station. VHF see "Pilotage".

**TUGS:** Tugs will meet vessel inside breakwater prior reaching inner harbour area. Pilot and tugs are in communication.

**BRIDGES:** No restrictions into port of Long Beach. The Gera Desmond Bridge over Back Channel has vertical clearance of 155 f Cerritos Channel which connects Long Beach through back channe to Port of Los Angeles has two bridges which must be opened fo passage of vessels.

*Signal for Opening:* Three long blasts on horn or whistle. During inclement weather, call through a megaphone or loud and distinc stroke of bell.

**BERTHING:** No requirement as to time of entry providing berthing arrangements have been made with Port Authority. Assignments classified as follows:

Preferential Assignments. Secondary Assignments, Subordina Right granted for use of Preferential Assigned Berth. Tempora Assignment—temporary permission granted to use certain berth.

*Note:* All berth assignments shall be held by Assignee subjec provisions of Port of Long Beach Tariff No. 3 as to charges, rates rules and regulations applicable thereto, and to all of terms, cond- tions and provisions contained in such assignment.

*General Cargo:*

| | *No. of berths* | *Total length* (ft.) | *Depth* (ft.) |
|---|---|---|---|
| Pier A | 11 | 6,309 | 30–36 |
| Piers B, C, D | 12 | 7,686 | 31–36 |
| Pier F | 4 | 2,467 | 32–36 |
| Piers 1 and 2 | 6 | 2,998 | 36 |

**BULK HANDLING FACILITIES:** *Berth 28–29:* Length 993 ft. depth alongside 43 ft. One fixed bulk loading tower with hinged cantilevered boom with 31½ ft. outreach. Maximum loading rate 600 tph. Cargo handled: Borax, coal, coke, iron ore, pitch, potash soda ash and zinc ash.

*Berths 30–31:* Length 992 ft., depth alongside 43 ft. Three electric travelling, revolving, high-tower, full-portal gantry cranes, each with lifting capacity of 30 tons. Cranes can be equipped with buckets and hooks, or electric magnets. Loading rate 200 tons per hour each crane. Types of cargo handled: steel and iron scrap, pig iron, steel slabs, ore, urea, bauxite, rutile sand.

*Berths 210–211* (*Grain Terminal*)*:* Length 1,100 ft., depth alongside 40 ft. Grain gallery with 5 loading spouts extends 335 ft. along rear of Berth 211. Loading rate up to 43,000 bushels per hour. Gallery equipped with electric, belt-conveyor system and connects with an approach gallery extending from 2,225,000-bushel grain elevator. There is an aerveyor system for ship discharging.

*Berths 212–215* (*Bulkloader*)*:* Length 2,110 ft., depth alongside 34 ft. Depth 9 ft. off the berth is 40 ft. Breasting camels 20 ft. wide available Stockpile area 85,682 sq. ft. (7,960 sq. metres). One electric, travelling bulk shiploader with retractable, straight-line bridge boom having 58-ft. outboard reach–height of 60 ft. above MLLW. Boom equipped with 48-in. electric belt conveyor and a telescopic loading spout with mechanical trimming head. Loading rate 3,300 long tons of iron ore per hour. Shiploader travels on rails along rear of face for distance of 600 ft. Bulk materials are handled by 48-in. and 54-in., electric belt conveyor system extending to shiploader through tunnel reclaim from car unloading sheds and storage areas. Types of cargo handled iron ore, coke, coal.

**CONTAINER HANDLING FACILITIES:** *Berths 227–228–2* Length 1,950 ft., depth alongside 42 ft. Pier G expansion: New land has been created on the East side of Pier G to provide for a 65-acre (26·3 hectares) container terminal which is leased to Sea-Land Service Inc. This terminal is complemented by an adjacent 16·3 acre (6·6 hectares) container freight station, also leased to Sea-Land The project includes a reinforced concrete wharf, four travelling 30 long ton container cranes with 100 ft. span and 115 ft. outreach surfaced storage area. There is space for storing 6,541 TEU con- tainers, including 242 spaces for refrigerated containers.

*Berth 230:* Length 650 ft., depth alongside 42 ft. Two 30 long ton travelling container cranes with 100 ft. span and 115 ft. outreach. Has space for storing 1,784 TEU containers, including 50 spaces for refrigerated containers.

*Berths 232–233–234:* Length 2,300 ft., depth alongside 36–42 ft. Four 30 long ton electric, travelling Paceco container cranes, each with hinged cantilevered boom with 113 foot outboard reach. Three Paceco 40 ton capacity transtainers. Has space for storing 7, TEU containers on chassis, plus 200 empty chassis and 140 spaces for refrigerated containers.

*Berths 245–246–247:* Length 2,100 ft., depth alongside 36 ft. Two travelling shore container cranes of 45-ton and 40-ton capacity and one 40-ton transtainer. The only public container terminal in Southern California. Expansion of container freight station will provides 2·35 times more inside storage area. Has space for storing 7,435 containers TEU.

**SPECIALISED CARGO HANDLING FACILITIES:** *Berths 32–33 (Tallow, Coconut Oil, Bulk Copra):* Length 824 ft., depth alongside 36 ft. Two 6-in. pipelines extend from Berth 32 to five coconut oil storage tanks, total capacity 7,750,000 lb.; 13 tallow storage tanks, total capacity 31,000,000 lb. Dry storage 7,500 tons.

*Berth 83* (*Gypsum, Lumber, Oil, Gasoline*)*:* Length 600 ft., depth alongside 38 ft. Vessels unload gypsum rock into an adjustable, elevated, receiving hopper at pier face, served by an elevated 36-in., electric belt-conveyor system extending to a 60,000-ton capacity dome-roof storage building in rear.

*Berth 122* (*Auto or Multi-purpose*)*:* Length 765 ft., depth alongside 40 ft. Multi-purpose open berth capable of handling vessels with self-contained or mobile cranes, lumber, steel and other general and special cargoes. Also ideally suited for automobiles. All adjacent 12·4 acre storage area is available for autos and other commodities. Dolphin and cat walk design to accommodate large vessels.

*Berths 243–244:* Length 1,200 ft., depth alongside 42 ft. These berths are shared by Port Auto Terminal No. 1, operated by Toyota Motor Sales and covering 35 acres, and Port Auto Terminal No. 2, operated by the Pasha Group and covering 40 acres. Toyota's facility provides for offices, warehousing, dewaxing, painting, repairing and accessory installation, with 28,000 sq. ft. under roof and storage for 6,000 automobiles. Pasha's facility furnishes an automobile preparation centre, offices and dewaxing operation, with 41,000 sq. ft. under roof, plus storage area for up to 18,000 automobiles.

*Berth 208* (*Bananas*)*:* Length 550 ft., depth alongside 40 ft. Four electric, travelling banana unloaders, total capacity 3,000 banana boxes per hour. Electric, belt-conveyor system transfers banana boxes from unloaders to 2 rail car and truck loading platforms and to interior of harbour banana warehouse. Banana warehouse is divided into cold storage and ripening areas. Truck loading platform along West side.

*Berth 209* (*Salt*)*:* Length 550 ft., depth alongside 38 ft. Vessels unload bulk salt into a receiving hopper at outer end of a moveable, inclined, 48-in., electric belt conveyor. This conveyor serves an adjustable elevated receiving hopper at outer end of an elevated, 48-in., electric belt-conveyor system extending to a large open storage area in rear. Unloading rate: 800 tons per hour.

*Berth 242* (*Liquid Bulk*)*:* Length 700 ft., depth alongside 36 ft. Storage capacity: 18,612,000 gallons in tanks ranging in size from 6,000 to 3,000,000 gallons. Product handling equipment: the pumping and pipeline system is designed to load and unload products to and from barges, ships, rail cars and trucks. Large, heavy-duty pumps efficiently handle a variety of bulk liquids. Molasses is the principal cargo handled.

**CRANES:** Barge cranes available capacity 45–175 tons. A U.S. Navy floating crane capacity 385 tons available for hire. There is also a derrick barge in the area capacity 500 tons that can handle 750 tons over the stern.

**MEDICAL:** Advance notice preferable. Adequate hospital and medical facilities available for providing necessary or emergency care. From information available, Public Health Department may, if required, request certain information prior to granting free pratique for inoculations, Vaccination/Fever Certificates.

**TANKERS:** There are four tanker berths available, operated by private companies, in addition to the seven municipal tanker berths now in operation and one under construction. Berths have 55 to 37 ft. of water alongside at mean-lower-low-water. The range between MLLW and mean-high-water is about 3·7 feet. Extreme range of about 9 ft. may occur at times of maximum tide. Chiksan loading and discharge arms are used and adapters available for various size fittings. Tanks available for discharge of ship's residue and SG and API local type oil (loading or discharging).

**DENSITY:** Local water density 1025 or pure sea water at all stages of tide.

**FRESH WATER:** Potable fresh water available all Municipal berths through 2 in. lines. Rental charge for use of each 50 ft. length water hose when furnished.

**FUEL:** All grades (viscosities) of bunker fuels available in any amount through pipelines at most Municipal berths, and by barge at anchor or at berths if desired. Notify quantity and type desired to local Steamship Company or Agent.

**FIRE PRECAUTIONS:** Two fire boats and one fire station; in addition City fire service available.

Special fire precautions required at all berths handling petroleum products or dangerous cargoes. In addition to all applicable provisions of Long Beach Municipal Code, flammable and combustible liquids and flammable gases shall be handled and stored at Marine Petroleum Terminals in accordance with minimum fire safety requirements promulgated by Chief, Department of Fire, City of Long Beach.

**DEVELOPMENT:**

(1) The complete containerisation complex consists of 12 cranes, 10 berths and nearly 300 acres. Eight berths in operation 1972.

(2) A new bulk oil terminal is being constructed to accommodate vessels up to 200,000 dwt., drawing 62 ft.

**GANGWAY/DECK WATCHMEN:** Normally used, but only compulsory when detainees aboard.

**OPENING/CLOSING HATCHES:** Crew can open or close hatches at sea or at anchor. If closed or opened at dockside, the use of longshoremen compulsory.

**CUSTOMS ALLOWANCES:** Tobacco, each crew member entitled to 300 cigarettes, 50 cigars and 3 pounds of tobacco or combination of above. If stay in port is such that additional tobacco is required, Customs will so issue. Wine and/or Spirit, not to exceed 1 quart of alcholic beverage each adult non-resident. This exemption for alcoholic beverages may be applied to more than one kind but not to an aggregate volume of more than one quart for each adult crew member.

*Note:* Upon arrival of vessel from foreign port, or vessel engaged in foreign trade from a domestic port, sea stores and ship's stores not required for immediate use or consumption on board while vessel in port, and articles acquired abroad by officers and members of crew, for which no permit to land has been issued, shall be placed under seal, unless Customs Officer is of the opinion that circumstances do not require such action.

**CARGO GEAR:** Employer shall not use ship's cargo handling gear until he has ascertained that vessel has a current and valid Cargo Gear Register and Certificate indicating that cargo gear has been tested, examined and annealed in accordance with requirements of International Labor Organization Convention No. 32.

**IDENTIFICATION CARDS:** U.S. Department of Justice Immigration and Naturalization Service Form I-95-A (Form I-94 for passengers) must be completed.

**REPAIRS:** Within greater port area facilities to accomplish all types of deck and engine repairs.

**DRY DOCKS:** Within greater port area three large private commercial dock yards, Bethlehem Shipbuilding and Repair, and Todd Shipyard Corporation, and California Shipbuilding and Drydock Co. with large floating dry docks and repair facilities. Also, three large capacity graving docks located at Naval Shipyard available for emergency use by merchant vessels when not occupied by naval vessels.

**REPATRIATION:** Through U.S. Department of Justice Immigration and Naturalization Service, and clearance of personal effects by U.S. Customs.

**AIRPORT:** Los Angeles International Airport approximately 18 miles from port, and provides regular scheduled and international airline service.

**TIME:** GMT minus 8 hours. United States observes Daylight Saving Time, begins at 2 a.m. (0200) on last Sunday of April each year and ends at 2 a.m. (0200) on last Sunday of October of each year.

**HOLIDAYS:** The subject Legal Holidays are defined as follows:

| *Name* | *Means* |
|---|---|
| New Year's Day | 1st day of January |
| Lincoln's Birthday | 12th day of February |
| Washington's Birthday | 3rd Monday of February |
| Memorial Day | Last Monday of May |
| Independence Day | 4th day of July |
| Labour Day | 1st Monday of September |
| Admission Day | 9th day of September |
| Columbus Day | 2nd Monday of October |
| Veterans' Day | 4th Monday of October |
| Thanksgiving Day | 4th Thursday of November |
| Christmas Day | 25th day of December |

Notes: (1) Also, every Statewide Election is a holiday.
(2) Also, any other legal holiday that may be proclaimed by State or National authority is a holiday.
(3) When one of the above days falls on Sunday, the following Monday shall be observed as a holiday.

**POLICE/AMBULANCE/FIRE:** Port of Long Beach—Police 436–9811; Ambulance 436–9811 or 436–8211. Fire 436–8211; Harbour Security Officer 437–0041; U.S. Customs 436–3916

In an emergency and unable to dial direct – dial operator giving telephone number and exact location where emergency exists.

**TELEPHONE:** Installation of telephone aboard ship at Municipal berths.

**GENERAL:** For information regarding various social organisations,

call 436–9041. Long Beach Recreation Department, for information.
**SERVICES:** All services from tank cleaning to compass and instrument repair available at various locations within greater port area.
**SHORE LEAVE:** Crewmen allowed shore-leave providing necessary application presented to U.S. Immigration Officer and approved and Crewmen's Landing Permit issued (Form I-95A). Customs declaration required for articles to be landed by crew members (one quart of alcoholic beverage with seal broken is allowed).
**DELAYS:** Arrival at berths are normally on time as scheduled. However, there are times of inclement weather or lack of cargo at a berth which might create a short delay. Shortage of longshoremen can also cause a delay in discharging or loading cargo. No delay experienced in bunkering.
**AUTHORITY:** Board of Harbor Commissioners, Port of Long Beach, 925 Harbor Plaza, PO Box 570, Long Beach, California 90801. Tel. 437–0041 (Area Code 213). Telex 65–6452. Cable Portobeach.

## LONGVIEW, Washington: 46.08 N. 122.55 W. (See Plan)

**DOCUMENTS:**
3 Complete Cargo Manifests.
3 Store Lists.
3 Possession Lists.
3 Crew Lists on Immigration forms.
Vessel Documents.
Tonnage Tax Statement.
Quarantine Form completed.

At first port of arrival, ship is boarded and inspected by Customs, Immigration, Public Health and Agriculture officials. At each subsequent port only a Customs Agent will board prior to docking.
**PILOTAGE:** See "Portland, Oregon".
**ANCHORAGE:** Safe anchorages indicated by Columbia River Pilots.
**RESTRICTIONS:** None in regard to arrival time or state of tide. Channel depth 40 ft. at mean low water and tidal range varies between 2½ and 4 ft.
**MAX. SIZE:** No limitation on length or breadth. Draft limited to 40 ft.
**HEALTH:** Pratique automatic after vessel is inspected by Public Health doctor at first port of entry. See "Portland, Oregon".
**TUGS:** Columbia River Pilots have knowledge of tug positions and other knowledge pertaining to tugs aiding a vessel.
**BRIDGES:** One bridge crossing Columbia River at Longview has sufficient clearance so as not to present a problem.
**BULK HANDLING FACILITIES:** In addition to the Berth 6–7 area, containers are being handled by two gantry cranes at Berths 1 and 2. There is also considerable backland storage area available near these berths for storage of containers.

A facility for unloading aluminium ore from Reynolds Metals Company's custom-built vessels is located at Berth 5. The alumina discharge equipment consists of two travelling hoppers with boom conveyors which extend over the face of the wharf to the side of the self-unloading vessel. These hoppers feed alumina on to a 60-in. electric belt conveyor located along the lower 451 ft. section of the wharf.

The Continental Grain Company operates a 700,000 to 800,000 bushel elevator at the Port of Longview Terminal. An overhead grain gallery equipped with two 36-in. electric belt conveyors extends from the elevator to the grain berth and then for 225 ft. along the rear of the wharf where it serves five vessel-loading spouts located on the face of the berth. Vessels can be loaded with grain through any two of the given spouts at a combined rate of 29,040 bushels per hour.
**STEVEDORES:** At least 24 hours notice necessary to arrange gangs before ETA. Arrange through port Office via Ship's Agent.
**MEDICAL:** Hospital facilities available.
**TANKERS:** Petroleum discharge lines consist of one 12-in. and three 8-in. pipelines. One tanker berth available.
**DENSITY:** Columbia River is fresh water at Longview.
**FRESH WATER:** Available through 8-in. line with 2½ in. connections. Rate of delivery approximately 14½ tons per hour.
**FUEL:** Bunker C fuel available through 12-in. line at 850 barrels per hour, and light diesel fuel through 9-in. line at 1,200 barrels per hour.
**DEVELOPMENTS:** Berth No. 7 is being extended 300 ft. to accommodate roll-on/roll-off vessels.

A 600 ton capacity fixed crane, "Columbia Giant", largest on U.S. West coast has been acquired.
**GANGWAY/DECK WATCHMEN:** Not needed, but arrangements can be made if necessary.
**OPENING/CLOSING HATCHES:** Work carried out normally by stevedores.
**CUSTOMS ALLOWANCES:** See "Portland Oregon".
**IDENTIFICATION CARDS:** Advisable but not necessary.
**CONSULS:** At Portland, Oregon.
**REPAIRS:** Some deck and minor engine repairs are possible at Longview.
**REPATRIATION:** No facilities for effecting crew changes or repatriations.
**AIRPORT:** Nearest airport served by regular airlines is in Portland. Charter flights may be arranged from a small local airport.
**TIME:** GMT minus 8 hours. In addition, clocks are moved ahead one hour on the last Sunday in April and returned back one hour on the last Sunday in October, at 2 a.m. local time on those two days.
**HOLIDAYS:** New Year's Day (Jan. 1); Washington's Birthday (Feb. 22); Memorial Day (May 30); Independence Day (July 4); Labor Day (first Monday in September); Veteran's Day (Nov. 11); Thanksgiving Day (fourth Thursday in November); Christmas Day (Dec. 25). Cargo work can be arranged on most of these holidays.
**POLICE/FIRE/AMBULANCE:** Police 423–1424; Fire 423–3212; Ambulance 425–3820.
**TELEPHONES:** Available at dockside.
**SHORE LEAVE:** Crews allowed ashore if papers are in order.
**AUTHORITY:** Port of Longview, PO Box 1258, Longview, Washington 98632, U.S.A. Tel. (206) 425–3305. Telex (910) 473–8615.

## LOS ANGELES, California: 33.43 N. 118.17 W. (See Plan)

**PORT LIMITS:** The seaward boundary of the port of Los Angeles is, for most purposes, the breakwater through which arriving vessels pass at Angels Gate Light.
**DOCUMENTS:** First Port of Arrival.
1 Complete Manifest deposited with customs, original and traveller.
1 Complete Manifest returned to vessel.
1 Manifest of first port cargo deposited with customs broker.
2 Quarantine Declarations (Form PHS 43).
2 Agriculture Declarations (Form AIQ 43).
1 Visaed Crew List (Form I-418) 5 additional copies.
1 Crewman's Landing Permit (Form 1-95A) for each crew member and (Form I-94) for each passenger.
1 Dangerous Cargo Manifest deposited with Captain of the port. 1 copy in hands of Chief Officer for review by the Fire Department.

The Coast Guard Captain of the Port must be informed of vessel's ETA 24 hours prior to vessel's arrival.

Second and each subsequent Port of Call in U.S.
2 Manifests of Cargo for second U.S. port left with customs.
1 Travelling manifest returned to Master.

(*Note:* Travelling Manifest is carried and deposited with customs at final port of discharge in U.S.—in addition to above required documents 4 additional copies should be available.)
**PILOTAGE:** Request made through Agent. Contact can be made through VHF Channels 14 (156·7 mHz) or 16 (156·8 mHz). Not less than 1 hour notice of arrival or departure. One long and one short blast on ship's whistle or siren, or international signal. Pilot will board in vicinity of sea-buoy (LA entrance buoy, lighted bell buoy "L.A." black and white vertical stripes. Radar reflector).
**ANCHORAGES:** Anchorages defined on charts. No permit required to anchor less than 10 days. Permit for over 10 days obtained from Captain of the Port, USCG and Harbour Department Port Warden. Permit is required for Explosive anchorage.
**MAX. SIZE:** Restrictions on draft only. Main channel and inner harbour 35 ft. Super tanker terminal in outer harbour has fairway of 51 ft.
**HEALTH:** Immunisation certificates for crew and/or passengers. Derating certificate or derating exemption certificate. Report of cargo aboard in general, if any rats have been trapped. Report to the effect of a rat control programme.

Tons of cargo and tons to be discharged. Report of any illnesses. Report of ports touched last 60 days or last port of call. U.S. Public Health to be notified 4 hours in advance of arrival. All foreign ships arriving will be inspected – cleared at first port of entry. Radio pratique available on request to Agent.
**RADIO:** International Telephone and Telegraph, call letters "KOK" Los Angeles radio.
**RADAR/VHF:** The Los Angeles harbour pilot's station equipped with radar for use of Pilots. The Pilots also monitor VHF channels 14 (156·7 mHz) and 16 (156·8 mHz).
**TUGS:** On stand-by 24 hours a day. However, should be ordered prior arrival. Tugs join vessel in main channel, tug lines used, except when towing astern.
**BERTHING:** Generally arranged through Agent. Berthing under control of Port of Los Angeles' Chief Wharfinger. There are 32 general cargo berths with depth alongside 35 ft.
**BRIDGES:** Highway suspension bridge (Vincent Thomas) crosses main channel between berth 95 and berth 225; overhead clearance of 185 ft. in centre. Two bridges on Cerritos channel separating Los Angeles and Long Beach harbours, one a double leaf-bascule (Badger Avenue Bridge) the other is a lift bridge (Schuyler F. Heim), as these bridges are less than 50 ft. apart they will be treated as one, overhead clearance 155 ft. at centre of Heim bridge.
**CONTAINER HANDLING FACILITIES:**
*See Table opposite*
**SPECIALISED CARGO-HANDLING:** There are at least seven terminals capable of handling the port's roll-on/roll-off traffic.

The bulk loading facility, especially designed to handle iron ore and iron ore pellets, also handles other commodities such as coal and other dry bulk materials. Wharf length 800 ft. Depth alongside 51 ft. Loading rates up to 3,000 tons per hour, and unloading 500 tph.

The grain and tallow terminals at berth 174 have 13 silos that hold 410,000 bushels. Vessels can be loaded at a rate of up to 400 tons per hour. Accommodating vessels up to 35 ft. draft, any length.

Other specialised facilities include the McGuire Petro Chemical Terminal, designed especially to receive petro chemicals; the Hugo Neu Corporation installation, where old automobiles are reduced to scrap metal for export; Coos Head and Sun Lumber Terminals; Cargill and National Molasses Terminals; United Fruit Company's Banana Terminals; and the processing and shipping plant of the U.S. Borox Company.
**STEVEDORES:** Agents make necessary arrangements.
**MEDICAL:** Necessary to notify Agents of required medical attention: this can be done when final ETA is determined. Hospital facilities available (private).

Vaccinations/fever certificates, etc., shall conform with rules and models prescribed by the International Sanitary Regulations.

*Notes*

West basin development berths 120–131: A major new container terminal complex is presently being considered in the general area of Berths 120–131. The key element of this project involves relocating Wilmington–San Pedro Road Westward parallel to the Harbour Freeway thereby making the existing backland area more easily accessible to the waterfront. Once completed, the relocation will add approximately 100 acres to the 57 acres that now have direct access to the waterfront.

**TANKERS:** Load and discharge lines have 6- and 8-in. standard flanges (super-tanker terminal has 12-in. lines with standard flanges). If not so equipped ship must furnish its own "C" clamps. Recommend ship have reducers on board to handle 6- and 8-in. flanges. Residue discharge facilities available for limited quantities. All types and grades of petroleum available. Twenty tanker berths available in inner harbour, 35-ft. draft at MLLW, two are available outer harbour 51 ft. draft at MLLW.

**DENSITY:** Average density 0·026 (exception during or after heavy rain).

**FRESH WATER:** Availability unlimited, delivery universal, rate of delivery 100 tons an hour.

**FUEL:** Unlimited fuel, all grades at attractive rates. 48 hours advance notice generally required.

**FIRE PRECAUTIONS:** Whenever vessel bunkering, sufficient serviceable fire hose with suitable nozzles attached to reach all parts of vessel shall be connected to fire main on vessel and made ready for instant use at all times during bunkering operations. If no adequate water pressure available on board, connections shall be made to shore lines to obtain adequate pressure. All Tank Ships shall be moored bow seaward and have wire towing pendants rigged fore and aft readily available for emergency use, fire hoses shall be connected as above at all times while vessel in port.

International fire signals will be used in case of fire (5 prolonged blasts of ship's whistle or siren of 4 to 6 seconds duration).

**DEVELOPMENTS:** Depths at Los Angeles will be increased in the Inner Harbour from 35 ft. to 45 ft. by 1975, and from 50 ft. to 80 ft. in the Outer Harbour by 1978.

A new container wharf is to be constructed in the main Channel of the port on the site of berths No. 233–235. The new facility will serve conventional containerised cargo and LASH vessels.

**GANGWAY/DECK WATCHMEN:** Gangway watch recommended. Tankships and vessels handling dangerous cargo required to have gangway and deck watch.

**OPENING/CLOSING HATCHES:** Automatic hatches may be opened and closed by crew, manual hatches opened and closed by stevedores.

**CERTIFICATES:** *Passenger Vessels:*

Safety Certificate, with 50 or more passengers must comply with 1966 amendment (fire safety amendment) to Solas 60.
Load-line Certificate.
Radio Certificate.
Radio Telephone Certificate, if aboard.

*Cargo Vessels:*

Safety Equipment Certificate.
Load-line Certificate.
Certificate of Inspection/home Certificate.
Trading Certificate
Cargo Gear Certificate.
Radio Certificate, Radio Telephone Certificate, if aboard.
If carrying passengers from U.S. ports, vessels must have PAC (Persons in Addition to Crew) Certificate issued by USCG.

*Tank Vessels:*

Same as cargo. Exception: if carrying exotic cargo, required to have cargo facilities plan, reviewed and approved by USCG, Washington, D.C. On vessel's first visit it will be inspected and receive a letter of compliance.

**CUSTOMS ALLOWANCES:** Tobacco, either 300 cigarettes, 50 cigars, or 3 pounds of smoking tobacco, for the personal use of crew member. Wine and/or Spirit, 1 quart for personal use of crew member.

**CARGO GEAR:** Gangway net attached between ship and dock; extending 5 ft. beyond turntable in one direction and 5 ft. beyond point of intersection of gangway and stringpiece in the other direction. Preventer guy must be rigged separately to head of boom from working guy. Exception if cast head of boom is capable of withstanding the stress of all the lines attached thereto. (This is a West-Coast requirement.)

**IDENTIFICATION CARDS:** 1 crewmans landing permit (Form I-95A) or immigration card (Form D-1).

**CONSULS:**

Argentina – Consul
Australia – Consul General
Austria – Consul General
Belgium – Consul General
Bolivia – Consul General
Botswana – Consul
Brazil – Consul General

**REPAIRS:** All types of deck and engine repairs possible.

**DRY DOCKS:** Largest dry dock 659 ft. by 97 ft., 22,000 displacement tons. 3 smaller dry docks (17,500, 15,000, 10,000 tons).

**REPATRIATION:** Arrangements can be made through immigration on request of agent to have crewman change ship or return to home port.

**AIRPORT:** Approximately 20 miles to International Airport which serves all major airlines.

**TIME:** Standard Time, GMT minus 8 hours. Daylight saving time GMT minus 7 hours (April through October).

**HOLIDAYS:** Cargo may be worked on holidays with holiday pay scale. Exception: the first Thursday in July, at which time it is almost impossible to find working crews, although there are now exceptions to this practice.

**POLICE/AMBULANCE/FIRE:** The telephone numbers are all the same (area code 213) 831–9211, simply ask for Police, Ambulance or Fire. Fire Alarm boxes adjacent to all cargo sheds.

**TELEPHONES:** Connections for passenger vessels at passenger terminals only.

**SERVICES:** A ship-reporting service "The Marine Exchange" located at entrance to main channel, Los Angeles harbour. They monitor Channels 14 (156·7 mHz) and 16 (156·8 mHz) VHF and have Channel 9 (156·45 mHz) VHF as their own. Primary duties are reporting arrivals, departures and locations of vessels.

**SHORE LEAVE:** Crew members are allowed ashore.

**REGULATIONS:** Permits required for hot work (welding, cutting etc.). Permit required for any dangerous cargo. Permit to discharge ballast (clean water) required. Restrictions on bunkering operations (scuppers plugged, valves closed).

**DELAYS:** No delays in berthing, load or discharge or bunkering can be expected.

**AUTHORITY:** The Harbor Department, City of Los Angeles, 255 W. 5th Street – Pacific Trade Center Building, San Pedro, California 9073. Tel. (213) 832–7241.

## MAGPETCO, Texas: 30.02 N. 93.59 W.

**DOCUMENTS, PILOTAGE, HEALTH, RADIO, etc.:** Refer to "Port Arthur". Also see "Port Neches".

## METLAKATLA, Alaska: 55.08 N. 131.35 W.

Located on Annette Island. Open all year.

**DOCUMENTS:** See "Anchorage, Alaska".

**PILOTAGE:** Ships coming up from the Hecate Straits or outside of Graham Island proceed into Dixon Entrance to the vicinity of Point McCartey where the Pilot will meet them. Vessels coming up the inside passage from Vancouver, B.C. are met at Lucy Island Pilot Station.

**MAX. SIZE:** Depths in harbour 120 ft. Tides: diurnal range – 14·7 ft. Also see "Berthing".

**ANCHORAGE:** Good anchorage in gravel and mud.

**CUSTOMS:** Quarantine, Immigration and Customs, from Ketchikan.

**BERTHING:** Two berths: 1. City Dock: 400 ft. long and 60 ft. wide. More than 35 ft. deep. Due to shallow water at East end, a starboard landing is usually made. No covered storage, temporary open storage. Four fork-lifts, two of 20,000 lb capacity.

2. Annette Island Canning Co.; 200 ft. long and 23 ft. deep. 15-ton crane and 2 fork-lifts. One 25-ton fork-lift.

**TUGS:** Available in Ketchikan.

**STEVEDORES:** Four gangs available.

**REPAIRS:** Facilities at Ketchikan.

**SUPPLIES:** Bonded and unbonded stores from Ketchikan.

**WATER:** Available.

**FUEL:** Not available.

**MEDICAL:** Hospital available in Ketchikan; small clinic in Metlakatla.

**AIRPORT:** Small charter plane only. Jet to Juneau and Seattle from nearby Annette. (Water transportation to Ketchikan.)

## MIAMI, Florida: 25.46 N. 80.11 W.

**DOCUMENTS:** See "Jacksonville".

**PILOTAGE:** Address: Biscayne Bay Pilots, PO Box 134, Miami Beach, Florida.

Advance notice, 1 hour. To call pilot office: call on VHF Channel 16 and switch to 12. Pilot boat can be called on 2182 kc/s or 2738 kc/s. Pilot boat black hull with orange deck. 36 ft. long. Fly code flag G for a pilot. Pilot boat flies code flag H. Pilot boat moors at pilot station at Government Cut, 2 miles west of sea buoy.

**ANCHORAGE:** Vessel can anchor near sea buoy. Anchorage area located Eastward of a line about 1·5 nautical miles offshore and Northward of a line about 0·5 nautical miles North of sea buoy at the entrance to the ship channel. Area marked by spar buoys to North and South. Depth of water is 26ft. at MLW to over 100 ft.

**ENTRY RESTRICTIONS:** Pilots available 24 hours per day. Channel, turning basin and main channel have 30 ft. MLW. Mean range of tide at harbour entrance 2·5 ft. and in bay 2 ft. Tidal current average velocity of 2 knots. Extreme tidal range at entrance of 4·5 ft. Main ship channel can have tidal current velocity of 3 to 4 knots through main ship channel.

**MAX. SIZE:** Recommend draft restriction of 27 ft. at MLW. Size restricted by size of turning basin which has 30 ft. at MLW, is 1,700 ft. North and South; 1,650 ft. East and West. No limit to length at new port which has 9,000 ft. of straight bulkheading and 31 ft. at MLW. A 1,000 ft. ship can be handled in turning basin if draft under 27 ft.

**HEALTH:** See "Jacksonville".

**RADIO:** The Coastguard can be raised on 2182 kc/s (distress and calling). Pilot station can be raised on VHF Channel No. 16. Telephone contact to Agents, receivers, etc., can be made via Miami Marine Operator.

**TUGS:** Large tugs up to 2,000 h.p. available 24 hours per day. Request tug service via pilot station. Big tugs privately owned by Belcher Oil Company who work closely with Pilots. Smaller tugs available on Miami River and operated by Backus Towing Inc.

**BERTHING:** All berths assigned on a basis of first come first served. Request for a berth must be made by Ship's Agent on a port form. This request should be made as far in advance as possible, but at least 7 days when possible. Three roll-on/roll-off ramps available, 100 ft. by 40 ft. each and 7½ ft. above MLW. A berth will be held about 4 hours then reassigned if necessary.

**BRIDGES:** There are no bridges between the open sea and the port. To enter Miami River requires passage through a highway and railroad bridge. This bridge manned 24 hours per day. Only smaller ships enter Miami River which is dredged to 15 ft. at high water and is 150 ft. wide for a distance of 3 miles above entrance. A bridge about ½ mile from entrance is closed from 7 a.m. to 9 a.m. and 4 p.m. to 6 p.m.

**TANKERS:** No slop (residue) discharge facilities. One tanker berth (1,000 ft.) available. Maximum draft 30 ft. at MLW. No special fittings required.

**FRESH WATER:** Available every 240 ft. at new port on Dodge Island. Delivered via hose.

**FUEL:** All grades; bunker, intermediate and marine gas oil, Diesel, bunker C. Ships fuelled at dockside from Belcher Oil Co. barges.

**FIRE PRECAUTIONS:** Usual safety precautions on smoking, flying baker, mooring pendant available, ample persons aboard to fight fires, fire hose led out, etc.

**DEVELOPMENTS:** A passenger terminal to serve seven ships simultaneously on main approach channel where ships may turn at berth site in the 900 ft. width provided. Completed in last two years. Additional dredging of all main channels and turning basin approved to 36 ft. MLW started 1972.

**GANGWAY/DECK WATCHMEN:** Usual shipboard watches to tend lines. Special guards (security) through Wackenhut, Burns Security, etc.

**OPENING/CLOSING HATCHES:** Work normally done by longshoremen.

**CUSTOMS ALLOWANCES:** See "Jacksonville".

**IDENTIFICATION CARDS:** Definitely needed in order to return to ship at night. A security guard at new port will check.

**CONSULS:**

| | | | |
|---|---|---|---|
| Argentine | tel. 373–7794 | France | tel. 374–2626 |

**REPAIRS:** All deck and engine dockside repairs available.

**DRY DOCKS:** To 1,000 tons plus two small facilities.

**AIRPORT:** Eight miles or 15 minutes from airport by expressway. Serviced by 24 foreign and 10 United States scheduled air carriers.

**TIME:** Eastern Standard Time, GMT minus 4 hours. Daylight Saving Time in effect from first Sunday in April to first Sunday in October and adds one hour to Eastern Standard Time.

**HOLIDAYS:** Official holidays are New Year's Day (January 1); Memorial Day (May 30th) Independence Day (July 4th); Labor Day (first Monday in September); Columbus Day (October 12th); Thanksgiving Day (last Thursday in November); Christmas (December 25th). Cargo can be worked on holidays by advance arrangement and payment of double time.

**POLICE/AMBULANCE/FIRE:** Police Department, tel. 377-7011; Fire Department 377-6231 (Rescue Squad 377-6231).

**TELEPHONES:** Telephone jacks available at every other bay which places the jacks 240 ft. apart.

**SERVICES:** All types of special services such as tank cleaning, compass adjusting, admeasurement, radar/radio repairs, rathometer repairs, etc. available.

**SHORE LEAVE:** Crew members are allowed ashore after clearance by customs, immigration and quarantine.

**AUTHORITY:** Port of Miami. Bills are to Dade County Seaport Department. Tel. 377-5841. No Telex. Address: 1015 North American Way, Room 210, Miami, Florida 33132.

**AGENT:** Hansen & Tidemann, Inc. PO Box 1470, Miami, Florida 33101. Tel. 305-377-3781. WU 51-9437. TWX 810-848-6535. Cables "Handt".

## MILWAUKEE, Wisconsin: 43.01 N. 87.53 W. (See Plan)

**PORT LIMITS:** The port of Milwaukee limits are generally considered to be the harbour breakwall housing the harbour entrance lighthouse. However, unless specifically declared to the contrary in the covering charter party, a vessel will be considered an "arrived ship" upon anchoring outside the harbour breakwall, in the event that a proper berth and/or anchoring space inside the harbour breakwall is not available.

**DOCUMENTS:**

*Vessels from Canadian ports*
Dominion clearance and Public Health Pratique (both issued at Montreal).
*Vessels from all other nations* (Required only at first port of call)
Inward Foreign Manifest(s)
Stores Lists, over master's oath.
Curio Lists, over master's oath.
Permit to Lade and Unlade.
Discharge Manifest.
Inspection by U.S. Dept. of Immigration (Crew List).
Inspection by U.S. Dept of Agriculture.
Receipt of Entrance fee.
Receipt of Tonnage Tax.

Additional documents may be required, dependent on commodity involved in the carriage, point of origin, flag, or any unusual circumstances existing.

**PILOTAGE:** Pilot boards at Montreal and at several other stations along St. Lawrence Seaway route.

**ANCHORAGES:** The chart does not delineate anchorage area for large vessels but shows the 28 ft. depth just East of South Piers 1, 2, and Liquid Cargo Pier. This deep area, about 2,400 ft.×5,400 ft., used by large vessels for anchorage.

**MAX. SIZE:** 739 ft.×75 ft. with 26 ft. draft. No tidal effect, although lake levels vary seasonally. Minimum depth above low water level 27 ft.

**HEALTH:** U.S. regulations.

**RADIO:** Radio station at City Heavy Lift Dock. Harbour Master and Dock Superintendent can be reached at this facility Monday through Friday between 0800 and 1630; 156·8, 156·6 and 156·5 megacycles.

**TUGS:** Normally pick up vessel inside breakwater. Tugs optional at discretion of ship's Master. Fee for use of tug's lines.

**BERTHING:** The time of passing harbour entrance lighthouse establishes order of berthing, provided vessel is ready to work.

**BRIDGES:** Bridges closed between 0730 and 0830 and 1630 and 1730 except on Sundays and eight legal holidays. In addition, two hours' notice required for opening bridges across Milwaukee River North of and including Buffalo Street.

**SPECIALISED CARGO HANDLING FACILITIES:** In addition to the three general cargo terminals of approx. 340,000 sq. ft. covered area (9 berths), and dry bulk terminal of 60,000 sq. ft. covered area (2 berths), the port is served by a refrigerated warehouse of 10,000 sq. ft.; one open dock area (2 berths) for handling bulk commodities such as pig iron; one open dock (3 berths) for heavy lifts and equipped with a 200-ton stiff-leg crane and two gantry cranes of 70 and 50 tons; one liquid cargo pier for edible and inedible fats, greases and tallow; two grain elevators of 3·5 million and 2·5 million bushel capacity and two scrap iron loading facilities. The port is also equipped with a mobile heavy crane lift/container crane capable of serving all berths.

**STEVEDORES:** Vessel should provide a stowage plan, manifest of inbound cargo and exceptions list (unusual vessel or cargo characteristics effecting facilitation of cargoes). Vessel should comply with the U.S. Dept. of Labor's safety regulations.

**MEDICAL:** Advance notice desirable. Hospitalisation available.

**TANKERS:** Diameter of load lines and discharge lines 8 in. and 10 in. No slop residue facilities. Four berths available, with draft to seaway depth.

**FRESH WATER:** Potable water available at most berthing areas.

**FUEL:** All grades of fuel oil available by truck delivery at shipside.

**GANGWAY/DECK WATCHMEN:** Not necessary.

**OPENING/CLOSING HATCHES:** At the option of ship, if terminal stevedores perform operation, it is based on cost plus 20%.

**CERTIFICATES:**

Registry of Ship.
Master's Licence.
1st, 2nd and 3rd Officer's Licences.
Radio Licence.
Wireless Operator's Licence.
Ratification Certificate (done each year).
(Additional certificates may be required, dependent upon Registry, cargo, trade route engaged in, nationality of crew, etc.).

**CUSTOMS ALLOWANCES:** Tobacco, 10 packages or 200 cigarettes in possession at any time. Wine and/or Spirits, one bottle per officer.

**IDENTIFICATION CARDS:** U.S. Immigration rules.

**CONSULS:** The following countries are represented:

Costa Rica
Dominican Rep.
Ecuador
Germany
Nicaragua
Norway
Pakistan
Sweden
Yugoslavia

**REPAIRS:** Limited to above water line, and boiler repairs.

**REPATRIATION:** Local Agents effect repatriation.

**AIRPORT:** 5 miles distant.

**TIME:** U.S.A. Central Time. Central Daylight Time from late April to late October—5 hours behind GMT. Central Standard Time from late October to late April—6 hours behind GMT.

**HOLIDAYS:** Easter Sunday; May 30 (if on a Saturday, previous day is a holiday); July 4 (if on a Sunday, Monday is a holiday); First Monday in September; Fourth Thursday in November and following day; Christmas Day; New Year's Day. Cargo can be worked on these days at holiday pay.

**POLICE/AMBULANCE/FIRE:** Police – non-emergencies 273-8660; Emergency, including emergency ambulance service 765-2323; Fire, including rescue squad service 347-2323.

**TELEPHONES:** Can be arranged, but unnecessary because sufficient phones available in dockside offices.

**GENERAL:** Chandlery services for foodstuffs, ship complements and laundry services available. Garbage and waste disposal are available through private operators, chandler usually making the arrangements.

The Liquid Cargo Pier is also available for non-petroleum liquid cargoes.

**SERVICES:** Tank cleaning. Tank-washing. Compass adjusting, none, but can be arranged from out of town by Agent.

**SHORE LEAVE:** Crew allowed ashore.

**DELAYS:** Little or no delay.

**DEVELOPMENTS:** A 20-acre container terminal is to be constructed close to the breakwater entrance.
**AUTHORITY:** Board of Harbor Commissioners, City of Milwaukee, Room 606, City Hall, Milwaukee, Wisconsin 53202. Cable "Milharco". Tel. (414) 278–3511.

## **MOBILE,** Alabama: 30.40 N. 88.02 W. **(See Plan)**

**DOCUMENTS:**
3 copies Cargo Manifest (Forms 7527-A or 7527-B), the original showing all cargo on board, and 2 copies showing only cargo for this port.
2 copies Crew Manifest (curio list).
2 copies Stores List.
2 copies Passenger List (Form I.418).
2 copies Crew List (Form I.418).
Customs boarding Officer will also examine Ship's Register and Load-line Certificate. In addition, the following documents will be required for formal entry to be made within 48 hours of arrival from abroad, or 24 hours from arrival from a United States port:
Health Pratique.
Master's Oath (Customs Form 3255).
All foreign clearances.
U.S. Certificates of payment of tonnage tax (Customs Form 1002).
Certified crew list.
**PILOTAGE:** Pilotage is compulsory.
**ANCHORAGE:** If berth is congested, vessel may anchor at the bar (35 miles from harbour).
**RESTRICTIONS:** Controlling depth: 40 ft. for entrance, channel and anchorages. Mean tidal range 1½ ft. Nature of bottom: soft mud. Vessel can dock and sail at any hour at any stage of the tide.
**HEALTH:** See "Health Regulations" before first U.S.A. port (Albany).
**TUGS:** There are seven tugs available 24 hours with maximum horsepower of 1,800.
**BERTHING:** There are 34 berths at most of which, direct loading or unloading can be effected from quayside tracks.
*Public Grain Elevator,* depth alongside 42 ft. Two berths, each with 5 loading spouts. Unloading rate for grain 40,000 bushels/hour at each berth. Loading rate 115,000 bushels/hour for grain and 1,000 tph for meal.
*Bulk Handling Plant,* three berths, depth alongside 40 ft. Total quay length 1,600 ft. Four unloading towers which can unload 2,200 tph and two loading conveyors, rate 2,000 tph.
Depth alongside other public berths as follows:

| | | | |
|---|---|---|---|
| Pier 2 | 38 ft. MLW | Pier River End B | 38 ft. MLW |
| Pier 3 | 38 ft. MLW | North Pier B 1 | 40 ft. MLW |
| Pier 4 | 38 ft. MLW | Pier North B 2 | 40 ft. MLW |
| Pier 5 | 38 ft. MLW | Pier North B 3 | 40 ft. MLW |
| Pier 6 | 38 ft. MLW | Pier South C 1 | 41 ft. MLW |
| Pier 7 | 38 ft. MLW | Pier South C 2 | 41 ft. MLW |
| Pier 8 | 38 ft. MLW | Pier South C 3 | 41 ft. MLW |
| Pier South A | 37 ft. MLW | Pier River End C | 38 ft. MLW |
| Pier River End A | 30 ft. MLW | Pier North C 1 | 39 ft. MLW |
| Pier North A 1 | 38 ft. MLW | Pier North C 2 | 37 ft. MLW |
| Pier North A 2 | 38 ft. MLW | Pier D Cold Storage | 37 ft. MLW |
| Pier North A 33 | 38 ft. MLW | Berth 1 tipple | Under repairs |
| Pier South B 1 | 41 ft. MLW | | |
| Pier South B 2 | 41 ft. MLW | Berth 2 tipple | 44 ft. MLW |
| Pier South B 3 | 41 ft. MLW | Berth 3 tipple | 40 ft. MLW |

**CRANES:** 75 ton stationary crane, 50 ton mobile crane and 80 ton floating crane available.
**TANKERS:** Maximum length 950 ft. restricted by turning basin. American Bituminals & Asphalt Co. – Jetty berth dredged to 38 ft. *Magazine Point:* Hess Terminal: Jetty berth dredged to 43 ft.
**FRESH WATER:** Available ex wharf at all berths.
**FUEL:** Most grades fuel/diesel available via pipeline, barge or truck.
**STEVEDORES:** Normal working hours for the port are 0800/1700 Monday through Friday.
**REPAIRS:** *Alabama Dry Dock & Shipbuilding Company* – Dry Docks ranging from 5,000 to 18.000 tons displacement all serviced by 51-ton gantries. Dock length range from 380 ft. to 620 ft. Also available is a 70-ton floating crane. Any type of repair can be effected.
*Bender Ship Repair.* One Dry Dock of 2,500 tons displacement. Majority of repair work is top-side. 100-ton floating crane available.
**DENSITY:** 1,000 (Fresh Water).
**DEVELOPMENTS:** Improving the present bulk material handling plant, construction of the container yard, and development of the new bulk material handling plant on McDuffie Island, where rotary wheel reclaimers will remove the coal from the vast storage pads on to fast-moving conveyors that will load the ships at a rate of up to 4,000 tons per hour. The McDuffie Terminal is expected to be operational late 1974 and will handle vessels up to 80,000 tons.
**CUSTOMS ALLOWANCES:** At the discretion of customs officers. Normal allowance is 200 cigarettes or 2 lb. tobacco and one quart wine or spirits per man. Additional allowances may be given if considered necessary, due to length of vessel's stay in port.
**IDENTIFICATION CARDS:** Standard U.S. Immigration Forms I.95 to be made up for each crew member on arrival. Not necessary for crew man already holding Form I.95, issued for the same vessel.
**HOLIDAYS:** Absolutely no work is performed on New Year's Day, Easter, July 4th, Labour Day and Christmas Day. Working holidays are Mardi Gras Day, Veteran's Day and Thanksgiving Day.
**AUTHORITY:** Port of Mobile, Alabama State Docks Dept. PO Box 1588, Mobile, Alabama 36601. Tel. 438–2481.
**AGENT:** Hansen & Tidemann, Inc. 2309 First National Bank Building, PO Box 50. Mobile, Ala 36601. Tel. 205–438–9741. TWX 810-741-9237. Cables "Handt".

## **MOREHEAD CITY,** N. Carolina: 34.43 N. 76.42 W. **(See Plan)**

**DOCUMENTS:**
3 copies Cargo Manifest (Form 7527–A or 7527–B), the original showing all cargo on board, and 2 copies showing only cargo for this port.
2 copies Crew Manifest (curio list).
2 copies Passenger List (Form 1418).
2 copies Crew List (Form 1418).
Customs Boarding Officer will also examine Ship's Register and Load-line Certificate. In addition, the following documents will be required for formal entry to be made within 48 hrs. of arrival from abroad, or 24 hrs. from arrival from a United States port:
Health Pratique.
Master's Oath (Customs Form 3255).
All Foreign Clearances.
U.S. Certificates of Payment of Tonnage Tax (Customs Form 1002).
Certified Crew List.
**PILOTAGE:** Pilots obtained from Morehead City Pilots' Association, Morehead City, North Carolina 28557. Tel. 726–6134.
The Port Terminal at Morehead City is 3·5 miles from the sea buoy. The port is located on the Intracoastal Waterway and is situated 75 miles S.W. of Cape Hatteras and 14 miles W. of Cape Lookout.
Pilots should be given 24 hours notice and then contacted by VHF Channel 16 about two hours before arrival at sea buoy R "2BI".
Pilot boat is about 40 ft. long, with white hull and superstructure; the hull is marked with "PILOT" in black letters on both sides.
**RESTRICTIONS:** The channel and basin at Morehead City are maintained at a controlled depth of 35 ft. – mean low water. A 40 ft. channel is projected.
The wharf is constructed of concrete and steel and has marginal tracks and crossovers for full length. Truck ramps are located at various points for easy roll-on/roll-off access.
**HEALTH:** Radio pratique may be granted basis information received prior to arrival of vessel, provided no communicable diseases on board. Normally, vessels are boarded by Medical Officers on arrival unless free pratique previously given at U.S. port on the same voyage. If granted free pratique, vessel may enter port and discharge passengers and cargo. If given provisional pratique, vessel may enter port, but must take any additional measures specified in connection with discharging passengers and cargo, until free pratique is given.
**TUGS:** Available. Service provided by Carteret Towing Co. Inc., Radio Island, Morehead City, North Carolina 28557. Tel. 919-726-5440.
**BERTHING:** The wharf is 5,300 ft. long. This length enables the port to provide berths for ten 500 ft. general cargo ships and one petroleum tanker at any given time.
Adjacent to the general cargo dock area is a 1,000 ft. deep-water berth for out-loading through the bulk handling facility.
Morehead City also provides a barge terminal with 1,200 ft. of modern berths. This terminal was developed as a part of the bulk handling facilities, but is also used for the loading or off-loading of a variety of cargoes.
The bulk handling facilities of the port terminal at Morehead City are designed to out-load bulk and aggregate cargoes at a rate of 3,000 tons per hour.
The out-loader is served by a 1,200 ft. gallery which feeds from a 106,000 ton storage warehouse, and in turn is fed by a portable conveyor system from the barge terminal. The entire system is automated.
*Wharf:* 5,300 ft. of continuous concrete wharf. 1,000 ft. deep-water berth for bulk-handling facility. Additional 2,000 ft. projected.
*Barge Terminal:* 1,200 ft. of dock space providing four 300 ft. berths.
*Bulk Handling Facilities:* 3,000,000 ton annual capacity bulk facility for receipt, conveyance, storage and shipment of bulk cargoes. Loading capacity 3,000 tons per hour, storage capacity 106,000 tons.
**CRANES:** Two 115-ton capacity gantry cranes and container handling facilities.
**FUEL:** Available from Blue Ridge Fuel Company, Esso Oil Company, and Texaco Inc.
**CONSULS:** Finnish Vice-Consul, Wilmington, N. Carolina 28401. Tel. 763–5451.
Royal Norwegian Consulate, Wilmington, North Carolina 28401. Tel. 763–8271.
**IDENTIFICATION CARDS:** Standard U.S. Immigration Forms 195 to be made up for each crew member on arrival. Not necessary for crew man already holding Form 195, issued for the same vessel.
**SERVICES:** There are no shipyards in the port. Service on any kind of electronic equipment is not available.
**REPATRIATION:** This is possible but should be avoided as there is no Immigration Office. Closest airport is about one hour's drive from the town.
**TIME:** Eastern Standard Time, GMT minus 5 hrs. Daylight Saving Time, GMT minus 4 hrs. from April to October.
**AUTHORITY:** Manager, State Port Terminal, PO Drawer 648, Morehead City, North Carolina 28557. Tel. 919–726–3158. Telex: 510–924–2983.

## MYRTLE GROVE, Louisiana: 29.38 N. 89.57 W.

West Bank of Mississippi River, about 62 miles from sea.

**DOCUMENTS/PILOTAGE/HEALTH:** For all general information refer to "New Orleans".

**TUGS:** Two tugs required for vessels under 25,000 dwt. Three tugs for vessels over 25,000 dwt.

**BERTHING:** Mississippi River Grain Elevator Co. berths: distance between buoys 900 ft., alongside 400 ft. dock, depth 40 ft. Loading rates, 80,000 to 120,000 bushels per hour.

**FRESH WATER:** Not available.

**FUEL:** Not available.

**DENSITY:** Fresh Water (1000).

## NAWILIWILI, Hawaii (including Port Allen): 21.57 N. 159.21 W. (See Plan)

**DOCUMENTS:**

4 Crew Lists.
4 Passenger Lists.
Customs Documents.
Clearance, Travelling Manifest.
Local Manifests.
Health Documents.
Bill of Health and Vaccination Certificates.
4 Manifests.
4 Bills of Lading.
Ship's Papers.
Certificate of Registration or Enrolment.
Annual Inspection Certificate.
Load-line Certificate.
Derat Certificate.
Drinking Water Certificate.
Radio Certificate and Licence.
4 Store Lists.

**PILOTAGE:** Vessel's Agent orders Pilot 48 hours in advance by telephone, correcting ETA as necessary with 4 hours final notice if a last-minute change occurs. Tug-boat Lihue III serves as pilot boat for Nawiliwili and Port Allen, 64 ft. long, hull black, house white, topsides orange. Radio telephone and VHF communication within 1 hour of arrival and while tug is working. 2638 and 2738 kc/s. and Channels 6, 12 and 16 on VHF. Pilot boards 1 mile East of Nawiliwili and ½ mile South of Port Allen. Signals in accordance with International Code.

**ANCHORAGES:** Nawiliwili: between Nawiliwili Light and Carters Point in 5–9 fathoms. Not good in strong trade-wind weather. Fair holding ground. Not recommended.

Port Allen: half mile South of Port Allen breakwater light in 5–10 fathoms. Fair holding ground. Untenable in Kona or South-west storms which occur from November to March.

**RESTRICTIONS:** 24 hours notice of arrival is obligatory. Nawiliwili: no entry at night. From October 21 to March 21 Pilot boards at 0630. Balance of year 0600. Port Allen: no time restrictions.

**MAX. SIZE:** Nawiliwili: Length 650 ft., beam 90 ft., draft 32 ft. 6 in.

Port Allen: Length 650 ft., beam 90 ft., draft 32 ft. on north side and 28 ft. on south side. Pier is 600 ft. long, so larger vessels overhang.

**HEALTH:** Customs and Immigration and Agriculture board at dock for vessels arriving from foreign ports. Serious or contagious diseases should be reported by radio. No quarantine for vessels from United States or Canadian ports.

**RADIO:** Communicate through RCA or ITT stations in Honolulu. Also KQM marine operator for radio telephone and telephone to Kauai.

**TUGS:** One 1,100 horsepower tug meets vessels off port and in outer harbour. Both ship's lines and/or tug's line may be used. No charge for tug's line. Tug has bow fender and is used for pushing. Has radio telephone, WP 4371 and VHF with Channel 12 usually used. Extra tugs available from Honolulu.

**BERTHING:** Limited to two large vessels at Nawiliwili and two at Port Allen. Considerable barge traffic. Prior reservations by Agent necessary with District Manager. Berth conflicts usually solved in Honolulu by rerouting of Island ports.

**CARGO HANDLING FACILITIES:** Nawiliwili has two sugar loading gantries on Pier 2; no equipment or storage to handle grain, ore, coal, sulphur. Fertiliser is discharged by self-unloading barge, and the bulk hauled away via truck. There is a container yard but no facilities to off-load containers. Weekly service is by a self-unloader. Roll-on/roll-off cargo is moved on ramps furnished by barges. LPG and petroleum product lines are privately owned.

**STEVEDORES:** All stevedoring by McCabe Hamilton and Renny Co. Ltd., with headquarters in Honolulu and branches in outports. 48 hours notice by Agent for labour and equipment. Inward cargo is containers, general, bulk fertiliser, petroleum products, and building and construction materials. Outward is raw sugar, canned pineapple, general and molasses. Foreign vessels are subject to heavy fines for carrying stevedore gear inter-island without Customs clearance.

**MEDICAL:** Two hospitals on Kauai with two doctors under contract to United States Public Health Service. Standard international inoculations and vaccination required. Advance notice by Agent desirable but not necessary.

**TANKERS:** All piers have pipe-line connections for incoming cargo and outgoing molasses. Fuel oil 10 in., molasses 10 in., water line 6 in., gasoline, kerosene and diesel 8 in. These are the main lines under the wharves. Hose connections to ships vary with the type of riser and hose so size of fittings should be checked with Agent. No slop discharge facilities available. Four tanker berths available.

**DENSITY:** Varies from full salt to brackish in periods of heavy rainfall with freshets in the streams. No specifics available.

**FRESH WATER:** Available from 2 in. dock hydrants via ship's hose. About 100 gallons per minute.

**FUEL:** Bunker C not available for large vessels. Diesel fuel available via tank truck with 6 hours notice. Weekend and holidays order previous day.

**DEVELOPMENTS:** Turning basin may be enlarged to handle liners and large bulkers. Project depth 35 ft.

**GANGWAY/DECK WATCHMAN:** Tankers discharging gasoline required to have uniformed dock watchman. Usually off duty policeman. All ships provide own gangway and deck watch.

**OPENING/CLOSING HATCHES:** Normally done by stevedores. A few foreign ships prefer doing it with own crew.

**CUSTOMS ALLOWANCES:** 200 cigarettes, 50 cigars per man, and one bottle, U.S. quart, wine or spirits.

**IDENTITY CARDS:** Desirable but not required by law.

**CONSULS:** All in Honolulu.

**REPAIRS:** Light machine shop, welding and burning and pipe work available. Plantations may do some heavy repairs if part can be sent to their shop. Their engineers are helpful in emergencies. Heavy or technical repairs must be done in Honolulu.

**REPATRIATION:** Agent can arrange by air via Honolulu. Immigration clearance necessary.

**AIRPORT:** Lihue is 3 miles from Nawiliwili and 20 miles from Port Allen; served by inter-island regular carriers. Numerous lines, and charter flights available.

**TIME:** GMT minus 10 hours, all year round.

**HOLIDAYS:** National: New Year's Day (Jan. 1); President's Day (Feb. 22nd); Memorial Day (May 30th); July 4th; Labor Day (first Monday in September); Election Day (first Tuesday in November); Veterans' Day (Nov. 11th); Thanksgiving Day and Christmas Day (December 25th). Cargo can be worked but at penalty rates.

**POLICE/AMBULANCE/FIRE:** Nawiliwili: Police 245–6721; Ambulance 2721; Fire 245–2222. Port Allen: Police 382–311; Ambulance 338–8311; Fire 335–5444, or call "O" for operator.

**TELEPHONES:** Arrangements by Agent.

**SHORE LEAVE:** Permitted after immigration check. Iron Curtain or Communist visitors may be restricted.

**AUTHORITY:** Department of Transportation, Harbors Division, administered by the District Manager. Honolulu Pilots.

## NEW BEDFORD, Massachusetts: 41.38 N. 70.55 W.

**DOCUMENTS:** See "Boston".

**PILOTAGE:** 3 Massachusetts State pilots available, ordered through Agent. VHF monitored Channel 16. Pilot on station only after 12 hours notice. Small pilot vessel with basic communication equipment. Pilots board all vessels at Buzzards Bay Buoy at the entrance to New Bedford outer harbour situated at long. 70° 50′ 7″ W. and lat. 41° 30′ 42″ N.

**ANCHORAGE:** It is recommended that vessels delayed due to weather, etc., anchor ½ mile South of Buzzard's Bay Bell Buoy.

**RESTRICTIONS:** A modern harbour approach begins at Buzzard's Bay Buoy and runs a straight course of 7½ miles direct to the pier facilities. The channel is 350 ft. wide and has a depth of 30 ft. MLW. The channel leads into a moderate size (1,000 yd.) turning basin.

**MAX. SIZE:** 700 ft. length. Vessels over 30 ft. draft restricted by tides.

**HEALTH:** Radio Pratique and doctor arranged through Agent.

**RADIO:** RCA Chatham Radio, New Bedford Marine Operator for VHF, and Boston Marine Operator for ship to shore frequencies.

**TUGS:** Tugs join vessel in inner harbour. Tug lines used. Two tugs available. Tugs are not normally used at the State Pier in docking and undocking of deep-water vessels. The large turning harbour basin, the wind-sheltered position of the pier and lack of tidal current minimise use of tugs. In extreme weather conditions tugs are used.

**BERTHING:** At State Pier, berthing space for three ships: North side 600 ft. length, South side 775 ft. length, East side 450 ft. length.

Depth of water at all berths is 30 ft. MLW.

Maritime Terminal, depth 27 ft.

**BRIDGES:** Passage to upper reaches of harbour to Maritime Terminal requires navigation through the New Bedford and Fairhaven bridge only in daylight for larger vessels over 250 ft. length,

**STEVEDORES:** 24 hour notice required for New Bedford Stevedoring Corporation to prepare gear. 25 tons discharged or loaded per hour as average production per gang. Nearly all cargoes handled.

**MEDICAL:** 24 hours notice required. Excellent hospital facilities available.

**TANKERS:** Hurricane dike barrier gate 150 ft. wide with depth of 30 ft. MLW.

**DENSITY:** Static, since tidal variations light. Density same as ocean water.

**FRESH WATER:** Fresh water available.

**FUEL:** All types available, to be ordered in advance.

**GANGWAY/DECK WATCHMEN:** Watchmen available. Non police or police.

**OPENING/CLOSING HATCHES:** Depends on negotiated contract and cargo handled.

**CUSTOMS ALLOWANCES:** Designated by U.S. Customs with regard to particular circumstances.

**CONSULS:** Most Consuls available in Boston, 50 miles or 1 hour away.

**REPAIRS:** All types of minor ship repairs available.
**REPATRIATION:** Agent can handle formalities.
**AIRPORT:** Three airports within one hour drive. All international services.
**TIME:** Shift from Standard to Eastern Daylight Saving Time. Local time GMT minus 6 hours.
**HOLIDAYS:** New Year's Day (January 1st); Washington's Birthday (February 22nd); Patriots' Day (April 19th); Memorial Day (May 30th); Independence Day (July 4th); Labor Day (first Monday in September); Columbus Day (October 12th); Veterans' Day (November 11th); Thanksgiving Day (last Thursday in November); Christmas Day (December 25th).
**TELEPHONES:** No telephones on board, but exist adjacent to pier.
**SERVICES:** All services can be obtained if required.
**SHORE LEAVE:** If U.S. Immigration has cleared crew member, he is allowed ashore.
**AUTHORITY:** Harbor Development Commission.

**AGENT:** New Bedford Stevedoring Corporation, PO Box A. 2090, 10 William Street, New Bedford, Massachusetts 02740. Tel. 617–9934522 (24 hours), 617–9979893 (home), 617–44264. Cable address: "NEBCO", New Bedford, Mass. U.S.A.

## NEW HAVEN, Connecticut: 41.14 N. 72.55 W.

**DOCUMENTS:** Refer to "New York".
**PILOTAGE:** Compulsory. State Pilots are available on a 24-hour basis and are usually arranged through the ship's Agent or directly by shipping companies. Pilot will board vessel in vicinity of New Haven Sea Buoy, marked "N.H." – short and long flash; black and white vertical stripes. Boarding will be from a 34-ft. steel launch named *New Haven Pilot* – black hull with "Pilot" marked on both sides in white letters, or from a tug-boat. Contact can be made via VHF telephone, Channel 13 156·65 mHz, Channel 16 156·80 mHz, or Channel 24 157·20 mHz.

Vessels can proceed to and from berths in New Haven Harbour at any hour, day or night, weather, tide and draft permitting.
**RESTRICTIONS:** Vessels can proceed to and from berths in New Haven Harbour at any hour during the day or night, weather and tide permitting. Entrance channel dredged to 34 ft. MLW.
**MAX. SIZE:** Draft up to 35 ft. subject weather and tides.
**HEALTH:** Radio pratique may be granted basis information received prior arrival of vessel, provided no communicable diseases on board. Normally vessel boarded by Medical Officers on arrival unless free pratique previously given at U.S. port in same voyage. If granted free pratique, vessel may enter port and discharge passengers and cargo. If given provisional pratique, vessel may enter port, but must take any additional measures specified in connection with discharging passengers and cargo, until free pratique is given. Quarantine inspection is carried out at the dock.
**RADIO:** Vessels arriving from North use Chatham Radio. Vessels from South use Amagansett Radio on Long Island.
**TUGS:** Assistance is available.
**TANKERS:** *Atlantic Refining Company:* is on the Eastern side of New Haven Harbour about 0·3 mile South of Tomlinson Bridge.

*Humble Oil & Refining Company* is on the eastern side of New Haven Harbour about 0·6 mile South of Tomlinson Bridge.

*T.A.D. Jones Coal Company* is on the Eastern side of New Haven Harbour about 0·2 miles South of Tomlinson Bridge. Only used for loading oil barges.

*Texas Company* uses the North side of the New Haven Terminal Pier located on the Eastern side of the New Haven Harbour about 0·4 miles South of Tomlinson Bridge.

*Wyatt Coal Sales Company Inc.* is on the North-West side of New Haven Harbour about 0·2 miles South of Tomlinson Bridge.

*Gulf Oil Corp.:* (Eastern side New Haven Harbour) 0·1 miles South of Tomlinson Bridge.
**BALLAST:** There are no slop lines available.
**FUEL:** Available from oil terminals or delivered by barge.
**FRESH WATER:** Available at all terminals.
**MEDICAL:** All facilities available.
**CUSTOMS ALLOWANCES:** At the discretion of Customs Officers. Normal allowance is 200 cigarettes or 2 lb. of tobacco and one quart wine/spirits per man. Additional allowances may be given if considered necessary, due length of vessel's stay in port.
**AIRPORT:** New Haven Airport 1 mile distant. New York International Airport 70 miles distant.
**CONSULS:** All countries represented in New York.
**HOLIDAYS:** New Year's Day (1st January); Washington's Birthday (22nd February); Memorial Day (30th May); Independence Day (4th July); Labor Day (first Monday in September); Columbus Day (12th October); Veterans' Day (11th November); Thanksgiving (fourth Thursday in November); Christmas Day (25th December).
**TIME:** Eastern Standard Time, GMT minus 5 hours. Daylight Saving Time, GMT minus 4 hours from April to October.
**AUTHORITY:** State of Connecticut, Department of Transportation, Bureau of Waterways, State Pier, New London, Connecticut 06320.

## NEW LONDON: Connecticut: 41.21 N. 72.06 W.

**DOCUMENTS:** Refer to "New York".
**PILOTAGE:** Vessel usually notifies Agent 48 hours before arrival, who will arrange Pilot boarding. Pilot boards at Sarah's Ledge, which is close to anchorage at harbour entrance.
**ANCHORAGE:** In Thames River, and in Long Island Sound, approx. 2 miles West South-west of New London Ledge Light bounded by lines connecting points which are following bearings and distances from New London Ledge Light: 246°, 2·6 miles; 247°, 2·1 miles; 233°, 2·1 miles; and 235°, 2·6 miles.
**RESTRICTIONS:** Pilots recommend daylight docking but can dock at night if necessary. Entrance channel 33 ft. deep.
**MAX. SIZE:** Dry cargo vessels and tankers 700 ft. long are using the harbour. Facilities for larger vessels will be available when proposed dredging to 36 ft. is completed around June 30th 1975.
**HEALTH:** Quarantine inspections are made either at pier or quarantine anchorage opposite White Rock, usually during daylight hours. Off-hour inspections can be arranged with Medical Officer in Charge. Radio Pratique available.
**RADIO:** Vessels arriving from North use Chatham Radio on Cape Cod. Vessels from South use Amagansett Radio on Long Island. However, either one may serve the purpose.
**TUGS:** Usually join vessel at Ledge light if a dry cargo vessel, and off Sarah's Ledge if a tanker. Tugs use ship's lines; if tug's lines are used this is part of charge.
**BERTHING:** Advance ETA must be made for berthing, and it is suggested to dock during daylight hours when possible.
State Pier No. 1: depth, 28 to 36 ft. MLW.
Dow Chemical Co. Wharf: depth, 22 ft. MLW.
City Wharf Ferry Terminal: depth, 22 ft. MLW.
**BRIDGES:** There are no bridges across Main Ship Channel. However, at New London, at the head of the Main Harbour, the Thames River is crossed by one drawbridge and a twin fixed bridge: the New York, New Haven and Hartford Railroad bascule bridge with a horizontal clearance of 151·5 ft. and a vertical clearance of 30·9 ft. at high water and a fixed highway bridge with a horizontal clearance of 200 ft. and a vertical clearance of 135 ft. at high water.
**STEVEDORES:** ETA of 72, 48 and 24 hours is required, as gangs must be requested by 1500 hours on weekdays. Average discharge, about 20 tons per gang per hour.
**TANKERS:** Discharge at Hess Oil Co. berth, 12 in. and 10 in. lines.
Hess Oil Dock: depth alongside 36 ft.
Texaco Wharf: depth alongside 18 ft.
Pfizer Wharf: depth alongside 18 ft.
**MEDICAL:** All facilities available.
**FRESH WATER:** Available at pier side through 2½-in. and 1½-in. hoses.
**FUEL:** Available at tanker berths or by barge.
**GANGWAY/DECK WATCHMEN:** Not required and not recommended.
**OPENING/CLOSING HATCHES:** Performed by stevedores.
**IDENTIFICATION CARDS:** Not required.
**CONSULS:** Nearest at New York.
**REPAIRS:** Three waterfront marine repair plants are equipped to repair vessels at the port. The Nelseco Navigation Co. and Thames Shipyard Inc. each owns and operates a plant at New London on the right bank of the Thames River; the General Dynamics Corp., Electric Boat Division owns and operates a shipyard and marine repair plant at Groton on the left bank of the river.
**DRY DOCKS:** One floating dry dock, one graving dock and three marine railways are available to the public at two of the marine repair plants.

One floating dry dock, steel construction, with a lifting capacity of 6,500 tons, located on the West side of the pier E, has an overall length of 448 ft. length of 435 ft. 6 in. on the keel blocks, overall width of 97 ft. inside clear width of 70 ft. and depth of 26 ft. of water over the keel block when submerged.

One graving dock, located South of Piers A, B, C, and E, has length of 515 ft., width of 70 ft., and 35½ ft. depth of water over the sill and 34½ ft. over the keel blocks at MHW.
**REPATRIATION:** Facilities exist.
**AIRPORT:** Nearest airport is Trumbull Airport, situated about 3 miles East of Groton, Connecticut. There are scheduled commercial airlines serving this field. Allegheny Airlines and Pilgrim Airlines run frequent connecting flights to Bradley and Kennedy International Airports.
**TIME:** Eastern Standard Time, GMT minus 5 hours. Daylight Saving Time, GMT minus 4 hours, from April to October.
**HOLIDAYS:** New Year's Day (1st January); Lincoln's Birthday (12th February); Washington's Birthday (22nd February); Good Friday; Memorial Day (30th May); Independence Day (4th July); Labour Day; Columbus Day (12th October); Veteran's Day; Thanksgiving Day; Christmas Day (25th December). Cargo work can be arranged on holidays.
**POLICE/AMBULANCE/FIRE:** Police, 443–4315; Ambulance, 443–4388; Fire, 443–4381.
**TELEPHONES:** Available if required.
**SHORE LEAVE:** Allowed.
**DELAYS:** Availability of berthing might cause some delay.
**AUTHORITY:** State of Connecticut, Dept. of Transportation, Bureau of Waterways, State Pier, New London, Connecticut 06320. Tel. area code 203 443–4338.

## NEW ORLEANS, Louisiana: 29.56 N. 90.04 W. (See Plan)

**DOCUMENTS:**
- 3 copies Cargo Manifest (Forms 7527–A or 7527–B), the original showing all cargo on board, and 2 copies showing only cargo for this port.
- 2 copies Crew Manifest (curio list).
- 2 copies Stores List.
- 2 copies Passenger List (Form I–418).

2 copies Crew List (Form I–418).

Customs boarding officer will also examine Ship's Register and Load Line Certificate. In addition, the following documents will be required for formal entry to be made within 48 hours of arrival from abroad, or 24 hours from arrival from a United States Port:

Health Pratique.

Master's Oath (Customs Form 3255).

All foreign clearances.

U.S. Certificates of payment of Tonnage Tax (Customs Form 1022).

Certified Crew List.

The Bureau of Customs at New Orleans, Louisiana, will not, regardless of the circumstances, accept Customs Entry Papers from vessels unless they are on the proper U.S. Custom Forms and properly prepared.

Specially referred to are Customs Forms 1303 (Ship's Stores Declaration), 1304 (Crew Effects Declaration) and 7527 (Inward Foreign Manifest).

U.S. Customs at New Orleans require that the 1303 be completed, that is all stores (deck, engine, etc.) be listed on the form; it must also include fire-arms and medicines. They will not accept "as per attached list".

Form 1304, Crew Effects List, must likewise be properly completed. All effects and curios will have to be listed on the form. The term "souvenirs" is not sufficient and may not be used. All values have to be listed. Attachments to the 1304 are not permitted. (This does not apply to American Flag vessels using the form I 418 Crew List with Crew Declaration numbers listed for their souvenir list.)

The Inward Foreign Manifest must be customs forms 7527–A, 7527–B, or a manifest form approved by the Bureau of Customs, Washington D.C. Should the latter be used it must have the Bureau's approval number printed on the form.

**PILOTAGE:** Advise Agents ETA at sea buoy 48 hours in advance. Agent will arrange for Pilot. Pilot boat 46 ft. long, red hull, white cabin, flying blue and white pilot flag. Pilot boards at sea buoy, requires pilot ladder 6 ft. above water level. Pilot boats can be contacted by VHF, Channel 9 when 30 to 40 miles off, or ship-to-ship Channel 2738. Bar Pilot is exchanged for river Pilot at Pilot town, Head of Passes.

**ANCHORAGE:** Safe anchorage within 2 miles South pass or South West pass entrance. At the Point, below New Orleans, vessels may anchor without tug assistance.

**RESTRICTIONS:** Draft governed by South West pass, project depth 40 ft. Entrance day and night. New Orleans is 115 miles upriver.

**HEALTH:** See "Health Regulations" before first U.S.A. port (Albany).

**TUGS:** Available, and join vessel off berth if required. One tug normally used for berthing/unberthing at New Orleans.

**BRIDGES:** Two bridges cross river at New Orleans, one at Baton Rouge and one at Donaldsonville. Sufficient clearance at all times.

**BERTHING:** *Public Grain Elevator.* No. 2 berth, 670 ft. long, 40 ft. depth; No. 3 berth, 650 ft. long, 40 ft. depth; No. 4 berth, 635 ft. long, 40 ft. depth.

Loading Rates 20,000 bushels per hour per belt, in berths 2 and 3; up to 40,000 bushels per hour per belt, in berth 4. Each berth has 2 loading belts.

*Dockside Commodity Terminals:* berth 1,200 ft. long, 38 ft. depth, Loading/discharge rates about 200 tons per hour. Bulk handling facility: No. 1 berth, 600 ft. long, 36 ft. depth; No. 2 berth, 600 ft. long, 36 ft. depth; No. 3 berth, 600 ft. long, 42 ft. depth. Loading/discharge rates about 600 tons per hour.

*Southern Scrap Material Co:* Berth 550 ft. long, 32 ft. depth. Loading 200 tons per hour with cranes.

**Chalmette:** Humble Oil Terminal: tanker berth 30 ft. depth; Tenneco Oil Terminal: tanker berth 35 ft. depth.

*Terminals on West Bank of Mississippi:*

**Amesville:** Texaco tanker loading berth, 34 ft. alongside. Two 8-in. hoses loading up to 12,000 barrels per hour. No ballast facilities.

**Avondale:** American Liberty Tank Terminals berth, 60 ft. alongside. Four 6-in. hoses loading up to 18,000 barrels per hour. No ballast facilities. International Tank Terminals berth, 45 ft. alongside. 12-in. hoses loading 150 tons per hour.

**Gretna:** Publicker Chemical Corp: berth 30 ft. alongside. Southern Pacific Company: berth 600 ft. long, 35 ft. depth; dry cargo discharging only. Industrial Molasses Corp: berth 27 ft. depth; 2–10-in. pipelines, loading 200 tons per hour.

**Marrero:** Hess Terminal Corp: tanker berth 38 ft. depth; 6–12-in. hoses loading 500 tons per hour. Texaco: tanker berth 35 ft. depth; 6-16 in. lines loading 250 tons per hour. No ballast facilities.

**St. Rose:** Cities Service: tanker berth 35 ft. depth; International Tank Terminals: berth 35 ft. depth; no fresh water available.

**Westwego:** Continental Grain Elevator: berth 600 ft. long, 40ft. depth; loading 1,000 tons per hour, 2 loading belts. Louisiana Dock: 28 ft. alongside, bulk oil products loaded 200 tons per hour. Pacific Molasses Co: berth 35 ft. alongside.

**CONTAINER HANDLING FACILITIES:** Handled at most docks. Full container facilities at Morrison Yard wharf, length 430 ft. France Road berth No. 1 with 830 ft. leased to Sealand. Berth No. 5 of same facility will be in public use January 1974, length 700 ft. Napoleon Avenue wharf 1,520 ft. Nashville/Henry Clay wharf 2,820 ft.

**STEVEDORES:** Working hours 0800–1200 and 1300–1700, Monday to Friday.

**MEDICAL:** All facilities available.

**DENSITY:** Fresh water (1000).

**FRESH WATER:** Available ex-wharf.

**FUEL:** Only available by barge. Oil companies can supply Bunker "C" ex-terminals at Amesville and Marrero.

**GANGWAY/DECK WATCHMEN:** Recommended if any crew detained by Immigration.

**DEVELOPMENTS:** A second container berth under construction at France Road Container Terminal. Wharf will be 700 ft. long with crane capacity 40 tons.

**CUSTOMS ALLOWANCES:** At the discretion of Customs officers. Normal allowance is 200 cigarettes or 2 lb. tobacco and one quart wine or spirits per man. Additional allowances may be given if considered necessary, due to length of vessel's stay in port.

**IDENTIFICATION CARDS:** Standard U.S. Immigration Forms I–95 to be made up for each crew member on arrival. Not necessary for crew man already holding Form I–95, issued for the same vessel.

**AIRPORT:** New Orleans International Airport, served by most airlines.

**TIME:** Central Standard Time. Daylight Saving Time from May to October.

**HOLIDAYS:** New Year's Day (1st January); Martin L. King's Birthday (15th January); Good Friday; Memorial Day (30th May); Independence Day (4th July); First Monday in September (Labor Day); Veteran's Day (Last Monday in October); Fourth Thursday in November (Thanksgiving); Christmas Day (25th December). No work on New Year's Day, Independence Day, Labor Day and Christmas Day.

**SHORE LEAVE:** Allowed for any crew member not detained by Immigration.

**DEVELOPMENTS:** A three-berth general cargo complex, to be built on part of the old Illinois Central–Gulf's Stuyvesant Docks site, beginning at Louisiana Avenue and extending several blocks upstream.

A third full-container berth and marshalling area at the France Road Container Terminal on the Industrial Canal.

A new roll-on/roll-off cargo-handling facility on the Industrial Canal adjacent to the Florida Avenue wharf, and new ship-repair facilities at the Alabo Street wharf on the Mississippi below the Industrial Canal.

The roll-on/roll-off facility is expected to be completed late 1974 and the other facilities during the next three years.

**AUTHORITY:** Port of New Orleans, Board of Commissioners, 2 Canal Street, New Orleans La. 70130. Tel. 504–522–2551. Telex 58–7496.

**AGENT:** Hansen & Tidemann, Inc. 310, Sanlin Building, 442 Canal Street, New Orleans, La 70130. Tel. 810–JA–2–6753/59. TWX 810–951–6127. Cables "Handt".

## NEW YORK, New York and New Jersey: 40.43 N. 74.00 W. (See Plan)

**DOCUMENTS:**

3 copies Cargo Manifest (Forms 7527–A or 7527–B), the original showing all cargo on board, and 2 copies showing only cargo for this port.

2 copies Crew Manifest (Curio List).

2 copies Stores List.

2 copies Passenger List (Form I–418).

2 copies Crew List (Form I–418).

Customs boarding officer will also examine Ship's Register and Load Line Certificate.

In addition the following documents will be required for formal entry, to be made within 48 hours of arrival from abroad:

Health Pratique.

Master's Oath (Customs form 3255).

All Foreign Clearances.

U.S. Certificates of payment of Tonnage Tax (Customs Form 1002).

Certified Crew List.

**PILOTAGE:** Compulsory for foreign flag ships, and U.S. ships bound to and from foreign ports.

24 hours notice of ETA required. Pilot boat should be contacted on VHF Channel 16, or ship-to-ship Channel 2638 or 2738. Vessels requiring Pilot should hoist signal letter "G" in daytime. In foggy weather the letter "X" should be sounded on the whistle.

Pilot boat is generally found about 1½ miles West of Ambrose Light Tower. In bad weather pilot tries to stay to windward of normal pilot station.

In poor visibility an inbound ship should make Ambrose Tower and then proceed at slow speed to the Ambrose Channel sea buoy while blowing the letter "X" on her whistle. If no Pilot is obtained by the time she is in the vicinity of the sea buoy she should then anchor about a ½ mile to a mile North of the line from Ambrose Tower to the sea buoy and await Pilot.

**RESTRICTIONS:** Ambrose Channel, 10 miles long, maintained to a width of 2,000 ft. and a depth of 45 ft. MLW. The Northern approach to the harbour is through Long Island Sound into the East River. Main channels in the port are maintained to a depth of 45 ft. MLW.

**MAX. SIZE:** Restricted only by berth depth and location.

**ANCHORAGES:** For ships entering from Sandy Hook there are anchorages in lower New York Bay, Gravesend Bay, Raritan Bay, and Arthur Kill off Perth Amboy. In the Upper Bay, anchorages available off Bay Ridge for 30 days, off Jersey City for 72 hours, and off Stapleton for 48 hours. For vessels entering via Long Island Sound there are anchorages in the Western end of the Sound and in the East River.

**PRATIQUE:** Medical officers board vessels if necessary in the Narrows from the quarantine station at Rosebank, Staten Island.

Derat. Certificate or exemption required. Master will be required to submit U.S. Dept. of Agriculture AIQ Form 43.

Requests for radio pratique will be received through the vessel's Agent at all ports staffed by full-time quarantine personnel.

Vessels arriving from foreign non-quarantine exempt areas will receive radio free or radio provisional pratique if certain well-defined quarantine criteria are met. In the case of free radio pratique a vessel may proceed to dockside, without boarding by a quarantine officer. In the case of radio provisional pratique the vessel may proceed to dock for partial or complete inspection by quarantine personnel, depending upon the evaluation of information contained in the radio pratique request.

Maritime Quarantine Declaration Form (HSM 13.19 NCDC 7–69) should be completed prior to each vessel's arrival at a U.S. port. Instructions for use of the Maritime Quarantine Declaration are included on the reverse side of the form. Supplies of the Maritime Quarantine Declaration may be obtained from U.S. Quarantine Stations, Shipping Agents and Operators and American Consulates abroad.

**VHF:** All vessels over 100 tons gross are required to keep continuous watch on VHF Channel 13 when in areas where U.S. Inland Water Regulations apply.

**ANCHORS:** Vessels entering New York harbour are required to have two working anchors, by U.S.C.G. regulations.

**TUGS:** Over 50 private towing and transportation companies registered in the port.

**BERTHING:**

*Staten Island* – 15 piers handling general cargo. Gypsum Terminal, 25 ft. alongside.

*Brooklyn and East River* – over 50 piers handling general, bulk, and container cargo, including Brooklyn Marine Terminal (25 berths average 30 ft. depth); Erie Basin Marine Terminal (5 piers); Grain Terminal (2 piers bulk grain and lumber, 30 ft. depth).

*Hudson River* – Edgewater: Sea Train Terminal (26 ft. depth); Weehawken: United Fruit Co. Terminal (27 ft. depth); Jersey City (3 piers, general cargo, 32 to 35 ft. depth); Hoboken Marine Terminal (3 piers, general cargo); Transatlantic Terminal (Passengers and general cargo); Chelsea (26 piers, general cargo).

*Newark N.J.* – Port Newark (31 berths for general cargo, average depth 30 ft.); United Vintners Wine terminal (32 ft. depth).

*Elizabeth N.J.* – Elizabeth Marine terminal (22 berths, mainly container services). Channel depth 35 ft.

*Arthur Kill* – Chemical and bulk handling facilities up to 32 ft. depth.

**CRANES:** Mobile floating cranes with capacity up to 500 tons available.

**STEVEDORES:** Forty stevedoring firms are active in the port, many of whom are also terminal operators. Normal working hours 0800–1700. For bulk cargoes work usually continues through 24 hours.

**TANKERS:** *Brooklyn:* Paragon Oil Terminal, 2 berths, depth 37 ft.; Patchoque Oil Terminal, 2 berths, depth 29 ft. and 35 ft.; Whale Oil Terminal, 1 berth, depth 36 ft.

*Hudson River:* Tappan Oil Co., 1 berth, 35 ft.

*Bayonne, N.J.:* Public Oil Terminal, 3 berths, 32 ft. depth; Humble Oil Terminal, Constable Hook, up to 38 ft. depth; Ross Oil Co., 3 tanker berths up to 38 ft. depth; Texas Oil Co., 4 tankers berths, up to 32 ft. depth; Texaco, 4 berths up to 32 ft. depth.

*Kill Van Kull:* Lehigh Tanker Terminal, chemicals, 35 ft. depth; Humble Oil Co., 3 tanker berths, up to 38 ft. depth; Texas Oil Co., 4 tanker berths up to 32 ft. depth; Ross Oil Co., 1 berth up to 32 ft. depth.

*Newark N.J.:* Four berths, 31 and 32 ft. depth.

*Elizabeth N.J.:* Chevron Oil Company, 1 tanker berth, 26 ft. depth; Crown Central, 1 tanker berth, 30 ft. depth.

*Arthur Kill:* **Perth Amboy:** Chevron Oil Co. (tanker berth, 26 ft. depth); Hess Oil Co. (tanker berth 30 ft. depth); Cities Service (tanker berth, 34 ft. depth). **Sewaren,** Royal Petroleum Co. (tanker berth, 32 ft. depth); Public Service Co. (tanker berth, 35 ft. depth); Shell Oil Co. (tanker berth, 35 ft. depth). **Port Socony,** Mobil Oil Co. (2 tanker berths, 27 and 30 ft. depths). **Carteret,** American Oil Co. (tanker berth M, 25 ft. depth); General American (2 tanker berths, 25 and 35 ft. depths). **Linden,** Cities Service (tanker berth, 32 ft. depth); Humble Oil Co. (tanker berth, 35 ft. depth); Sinclair Oil Co. (tanker berth 31 ft. depth). **Gulfport,** Gulf Oil Co. (tanker berth, 32 ft. depth).

**CONTAINERS:** Newark and Elizabeth, N.J. – Port Newark and Elizabeth Port Authority Marine Terminal (on the Western shore of Newark Bay) – most intensely developed container terminal area in the world, with 7 miles of berthing space, over 1,300 acres for container operations, 19 container cranes with 50-ton capacity. Other terminal facilities at Port Newark. A 10-acre railroad container transfer and storage yard serves both terminals.

**DEVELOPMENTS:** The Passenger Ship Terminal on the Hudson River under development involves reconstruction of Piers 88, 90 and 92 between 48th and 52nd Streets to provide six ship berths with the most modern passenger facilities. In addition, Pier 40 at Houston Street will be improved as a companion three-berth facility, thus providing a total of nine steamship berths to accommodate transatlantic and cruise liners. To be completed 1974.

During construction of the Passenger Ship Terminal, temporary passenger ship facilities will be provided at Piers 88, 86, and 97, as well as at Pier 40.

**FRESH WATER:** Available at most piers in the port district at a nominal rate. Water barge available to serve vessels at anchor in emergency but this is expensive.

**FUEL:** All grades of fuel readily available. Except for tankers loading or discharging, bunkers are normally delivered by barge. It may be economical to shift vessel to refuelling berth.

**GANGWAY/DECK WATCHMEN:** Available and recommende if any crew detained by Immigration.

**CUSTOMS ALLOWANCES:** 200 cigarettes or 2 lb. tobacco, o quart wine/spirits per man.

**IDENTIFICATION CARDS:** Standard U.S. Immigration form I–95 to be made up for each crew member on arrival.

No wor on New Year's Day, Independence Day, Labor Day and Christma Day.

**SHORE LEAVE:** Allowed except for crew members detained b immigration.

**AUTHORITY:** Port Authority of New York and New Jersey, On World Trade Centre, New York, N.Y. 10048. Tel. 446–7000.

**AGENT:** Hansen & Tidemann, Inc. Suite 1623, 1 World Trad Centre. New York, N.Y. 10048. Tel. 212–432–1910. TWX 710–581–607 Telex RCA 232443 ITT 421274. Cables "Handt".

## NIKISKI, Alaska: 60.41 N. 151.24 W.

Located on West side of Kenai Peninsula between Homer and An-chorage. Pan and brash ice in Inlet from November to March. Neve freezes solid. Open all year.

**APPROACHES:** Via Cook Inlet.

**DOCUMENTS:** See "Anchorage, Alaska".

**TUGS:** From Anchorage.

**PILOTAGE:** Pilot pick-up point 1 mile South of Homer Spit light.

**MAX. SIZE:** Harbour depth excess 40 ft. Max. size 80,000 dwt. Tide diurnal range 28 ft. Also see "Berthing".

**ANCHORAGE:** Good anchorage.

**CUSTOMS:** Quarantine, local. Immigration and Customs fron Anchorage, Alaska.

**BERTHING:** 1. Port Nikiski Dock: three sided, 550 ft. long, 200 f on each side, 1,000 ft. wide, 12 feet at MLLW. 400 ft. by 75 ft. covere storage.

2. Three finger piers for tankers and bulk carriers. All exceed 40 f depth.

All three berths are dolphin berths ideal for rapid bulk loadin Main products, (*a*) Collier Chemical Dock: bulk area and ammoni gas. (*b*) Phillips Petroleum Dock: petroleum products and liqui natural gas. (*c*) Kenai Pipe-line Dock: refined and crude petroleu products.

**STEVEDORES:** Two gangs.

**REPAIRS:** Some at Kenai.

**WATER:** Limited.

**FUEL:** Not available.

**MEDICAL:** Health Centre, 3 doctors, 3 dentists.

**TRANSPORTATION:** Highway to Anchorage and Homer. A transport available.

## OAKLAND, California: 37.50 N. 122.18 W. (See Plan

*Also See* "San Francisco" *for Documents, Pilotage, etc.*

**BERTHING:** *Grove Street Terminal:* Operator: Howard Termina Co., PO Box 24454, Oakland, Ca 94623. Tel. 451–4722. Three berths length 1,742 ft., depth 35 ft. at MLLW. Facilities: Break-bulk carg operation utilising fork-lifts and tractors. Rail tracks alongsi berths.

*Outer Harbour Terminal:* Operator: Cresent Wharf & Warehouse Co., 1401 Terminal Street, Oakland, Ca. 94607. Tel. (415) 832–1682. Berth 10 operated by Crescent Warehouse Co., 1625 Maritime Street, Oakland, Ca. 94607. Tel. (415) 763–1550.

Four break-bulk and one combined break-bulk/container berth. Length 2,245 ft. (839 ft. at berth 10). Depth 35 ft. at MLLW. Facilities: Fork-lift and tractor break-bulk cargo operations. 250-ton mobile crane, equipped to handle 20 and 40 ft. containers; rail tracks alongside berth.

*Oakland Container Terminal:* Operator: Oakland Container Terminal Co., 5100 7th Street, Oakland, Ca. 94607. Tel. (415) 834–5822.

Berths: One, length 638 ft., depth 35 ft. MLLW.

Container-handling facilities: One low-profile Paceco, 30-ton container crane; one truck scale; 115 refrigerated container outlets. Container yard utilises wheeled Paceco transtainers. Containers are stored five abreast and two or more high.

*Matson Container Terminal:* Operator: Matson Terminals, Inc., 3050 7th Street, Oakland, Ca. 94607. Tel. (415) 893–2456.

Berths: Three, including one for roll-on/roll-off operations. Length 2,220 ft., depth 35 ft. MLLW.

Container-handling facilities: Three container cranes – 27·5-ton Star; 30-ton Paceco; 33-ton Star. One truck scale; 200 refrigerated container outlets. Container yard is straddle carrier-type operation (containers stored two or more high).

*Seatrain Container Terminal:* Operator: Seatrain Lines California, Inc., 1395 Middle Harbor Road, Oakland, Ca. 94607. Tel. (415) 271–8000.

Berths: Two. Length 1,300 ft., water depth 35 ft. MLLW.

Container handling facilities: 2 Alliance low-profile, 45-ton container cranes; 3 truck scales; 82 refrigerated container outlets. Container yard is chassis-type operation.

*Sea-land Container Terminal:* Operator: Sea-Land Services, Inc., 1425 Maritime Street, Oakland, Ca. 94607. Tel. (415) 835–8240.

Berths: Two. Length 1,355 ft., water depth 40 ft. MLLW.

Container handling facilities: 4 Paceco, 30-ton cranes; 2 truck scales; 250 refrigerated container outlets. Chassis operation.

*7th Street Public Container Terminal:* Operator: Marine Terminals Corporation, 5190 7th Street, Oakland, Ca. 94607. Tel. (415) 839–6490.

Berths: Four. Two container, one roll-on/roll-off and combination break-bulk/container, and one for barge and break-bulk operations. Length 2,931 ft., water depth 35 ft. MLLW.

Container handling facilities: Two Paceco low-profile, 40-ton container cranes; one 140-ton Manitowac crawler crane; two truck scales; 96 refrigerated container outlets.

*United States Lines Container Terminal:* Operator: United States Lines, 1579 Middle Harbor Road, Oakland, Ca. 94607. Tel. (415) 465–4010.

Berths: One. Length 722 ft., water depth 35 ft. MLLW.

Container-handling facilities: Two alliance low-profile, 51-ton container cranes; truck scales and outlets for 51 refrigerated containers. Container yard is chassis-type operation.

*Middle Harbour Public Container Terminal:* Operator: Marine Terminals Corporation, 1567 Middle Harbor Road, Oakland, Ca. 94607. Tel. (415) 839–6490.

Berths: One. Length 721 ft., water depth 35 ft. MLLW.

*9th Avenue Terminal:* Operator: Marine Terminals Corporation, Foot of 9th Avenue, Oakland, Ca. 94606. Tel. (415) 452–3742.

Berths: Three. Length 2,052 ft., depth 35 ft. at MLLW.

Facilities: Import steel and bulk cargo-handling centre. Two Manitowac crawler cranes (capacity 150 and 100 tons). Two Manitowac truck cranes (capacity 100 and 80 tons). Bulk-loading facilities with 10 steel storage silos capable of holding 9,750 cu. ft. each. Bulk bagging plant capable of bagging 600 short tons per five hours. Rail track alongside berth.

**TANKERS:** *Outer Harbour Terminal, Oil Pier:* Operators Mobil Oil Co. and Ashland Oil Co. Length, 623 ft. (Lower Side) 683 ft. (Upper Side). 50 ft. (Face). Depth at MLLW. 33 ft. (Lower Side), 35 ft. (Upper Side), 36 ft. (Face).

Mobil Oil: Pipelines 4×10 in., 2×8 in., 3×6 in. and 1×4 in. 14 storage tanks, total capacity 522,100 barrels.

Ashland Oil: Pipelines 2×8 in., 3×6 in. 9 storage tanks, total capacity 142,300 barrels.

**AUTHORITY:** Port of Oakland, 66 Jack London Square, PO Box 2064, Oakland, California 94607. Tel. (415) 444–3188. Cable address: "Portofoak", Oakland. Telex 336–334.

## OGDENSBURG, New York: 44.42 N. 75.30 W. (See Plan)

Refer to "St. Lawrence Seaway" for important general information.

**PILOTAGE:** Seaway Pilot boards at Cape Vincent or Snell Lock and acts as docking Pilot.

**ANCHORAGE:** Anchorage area West of city at open roadstead area.

**RESTRICTIONS:** No tide. No restrictions other than Pilots' discretion as to wind and visibility.

**MAX. SIZE:** Largest vessel to enter 600 ft. long. Draft 27 ft.

**RADIO:** Western Union to OCN Corp. VHF Seaway Channel via Maria Radio Cardinal.

**TUGS:** No tugs necessary.

**BRIDGES:** Ogdensburg/Prescott International Bridge – 126 ft. clearance MWD.

**BERTHING:** By prior notice only. Port Authority Terminal, length 600 ft., depth 27 ft. One Grain Elevator capacity 500,000 bushels.

**CRANES:** Available, up to 82 tons capacity.

**STEVEDORES:** Order by 18.00 hours day preceeding arrival. Advise any change of ETA.

**MEDICAL:** Excellent medical service and availability of doctors. No vaccination necessary.

**DENSITY:** Fresh water.

**FRESH WATER:** Available by pipeline at Port Authority Terminal.

**FUEL:** One day's notice, all grades. Diesel, Bunker "C", Kerosene.

**GANGWAY/DECK WATCHMEN:** Normally not used.

**OPENING/CLOSING HATCHES:** By stevedores.

**CUSTOMS ALLOWANCES:** Tobacco, wine/spirits, normal Customs allowance U.S. Ports.

**CARGO GEAR:** To be in good working order.

**IDENTIFICATION CARDS:** Needed as per immigration department requirements.

**REPAIRS:** Limited dockside repairs available.

**REPATRIATION:** Can be arranged.

**AIRPORT:** (½ mile from city). Allegheny Airline – three flights daily to Syracuse, New York, etc.

**TIME:** Five hours difference Eastern Standard Time. Daylight Saving time in summer.

**HOLIDAYS:** New Year; Washington and Lincoln's Birthdays; Memorial Day; 4th July. Labour Day, Veteran's Day.

**POLICE/AMBULANCE/FIRE:** Police, 393–1551; Ambulance, 393–1221; Fire, 393–1010.

**TELEPHONES:** Available at Pierside (315) 393–7580.

**SHORE LEAVE:** Crew members allowed ashore.

**AUTHORITY:** Ogdensburg Bridge and Port Authority, Bridge Plaza. Ogdensburg, N.Y. 13669. Tel. 315–393–4080.

## OLYMPIA, Washington: 47.00 N. 122.53 W.

**DOCUMENTS, PILOTAGE, HEALTH, etc.:** Refer to "Tacoma".

**ANCHORAGE:** Good with muddy bottom found anywhere north of the channel entrance and the Olympia shoal.

**MAX. SIZE:** Olympia's turning basin is 800 ft. in width; the pier, 2,000 ft. in length; depths in channel, 30 ft., and alongside pier, 35 ft.; both at MLLW. Depth at Berths No. 1 and 4, 35 ft. and at Nos. 2 and 3, 40 ft. MLLW.

**TUGS:** Tugs normally join vessels in outer channel, use ships lines and are primarily engaged for turning vessel in turning basin on entry.

**STEVEDORES:** Available.

**FRESH WATER:** Available.

**FUEL:** Available.

**CARGO GEAR:** Usual requirements only as good facilities are available.

**REPAIRS:** Most types of repairs undertaken.

**AIRPORT:** Located 4 miles South of Olympia, fronts on Interstate Highway 5. Operates twice daily service to and from Seattle and Portland.

**TELEPHONES:** Shipboard telephone service is provided..

**SERVICES:** Most services are available upon request.

**SHORE LEAVE:** Allowed.

**AUTHORITY:** Port of Olympia, 915 North Washington Street, Olympia, Washington 98501. Area Code 206, 357–4433.

## ORANGE, Texas: 30.06 N. 93.44 W.

**DOCUMENTS:** See "Port Arthur."

**PILOTAGE:** Radio to Agent, 12 hour advance of ETA, also Sabine Pilots may be contacted by VHF Channel 12 KKB 150.

Pilot boards at Sabine Pass, sea buoy position 29.36 N. 93.48 W., buoys marked "17" and "18".

Pilot will upon request and at extra cost board incoming vessels at buoy marked "SB" position 29.25 N. 93.40 W.

Ships headed for Orange with a draft of 30 ft. are only handled during daylight.

**ANCHORAGE:** Off Sabine bar – 40 ft.

**RESTRICTIONS:** Sabine River Channel; project depth 30 ft.; bottom width 200 ft., including slip at port; marked and lighted for 24-hour navigation. Turning basin, 1,000 ft.×3,000 ft.

**MAX. SIZE:** Length – no limit, breadth – no limit, draft – 30 ft.

**RADIO:** RCA – Port Arthur, McKay – Galveston.

**TUGS:** Join vessel in port turning basin. Tug's line used, no charge.

**BERTHING:** 2100 ft. mooring space to accommodate four deep-sea vessels; all concrete docks; additional berthing space in slip for laying-up four vessels.

**STEVEDORES:** Five stevedore companies – handled through Agent.

**MEDICAL:** Local facilities – complete.

**TANKERS:** Limited to 30 ft. draft.

**DENSITY:** Brackish.

**FRESH WATER:** Ample fresh water, through 2 ½ in. connection, rate of delivery about 500 gallons per minute.

**FUEL:** All grades available; 8 hours advance notice required.

**FIRE PRECAUTIONS:** No welding or burning without U.S. Coast Guard welding permit; also special authority required for ships loading explosives.

**DEVELOPMENTS:** 50-acre tract of land on the East bank of the Neches River in the area of Mobil Refinery to be developed for port.

**CONSULS:** None available locally.

**REPAIRS:** Facilities available.

**DRY DOCKS:**

Levingston Shipyard – Orange.

400 ft.×126 ft. 11,000 tons, 17 ft. draft over blocks.

350 ft.×60 ft. 3,000 tons, 15 ft. draft over blocks.

250 ft.×72 ft. 3,000 tons, 11 ft. draft over blocks.

**REPATRIATION:** Can be arranged through area immigration.
**AIRPORT:** Distance to airport 2 miles; no regular air lines and scheduled flights.
**HOLIDAYS:** New Year's Day (January 1); Texas Independence Day (March 2); Memorial Day (May 30); Independence Day (July 4); Labour Day (first Monday in September); Veterans' Day (November 11); Thanksgiving Day (November 26); Christmas Day (December 25); No work performed on Labor Day or Christmas Day.
**POLICE/AMBULANCE/FIRE:** Police 883–5654; Ambulance 886–4445; Fire 886–7431; County Sheriff 883–2612.
**TELEPHONE:** Can be connected on board.
**GENERAL:** No strong tidal currents at the berths, excellent shelter during tropical storms.
**AUTHORITY:** Orange County Navigation and Port District, POB 516, Orange. Tel. 883–4363.

## OSTRICA, Louisiana: 29.22 N. 89.32 W.

East Bank of Mississippi River about 42 miles above S.W. Pass entrance.
**DOCUMENTS/PILOTAGE/HEALTH:** For all general information refer to "New Orleans".
**ANCHORAGE:** Available in river downstream of docks.
**TUGS:** Not normally required.
**BERTHING:** Gulf Refining Co. Terminal, tanker berth 45 ft. depth. Two 8-in. hoses loading 34,000 bbls. per hour. Ballast line 18 in. for slop discharge.
**FRESH WATER:** Not available.
**FUEL:** Bunker "C" available ex-wharf.
**DENSITY:** Fresh water (1000).

## PALM BEACH, Florida: 26.46 N. 83.03 W.

**LOCATION:** Port is located on a salt water sound known as Lake Worth and lies 1½ miles from the 27 ft. contour of the Atlantic Ocean to which it is connected by an artificial cut at the North end of Lake Worth known as Lake Worth Inlet. The Inlet is located within the boundaries of the City of Riviera Beach, Florida.
**PORT LIMITS:** Sea buoy at channel entrance. Dockage charges commence when vessel is made fast to wharf, and are on a 24-hour basis or fraction thereof.
**DOCUMENTS:** See "Jacksonville". All vessels shall, upon arrival, report to Port Director all cargo to be discharged. Such report shall be in form of copies of Ship's Manifest, or certified statements, and shall show number of units, commodity, weight, destination, consignee, and all other information which port of Palm Beach deems necessary for compilation of commercial statistics, for reserving of necessary warehouse or wharf space, or other purposes.

All vessels shall, before sailing, report to the Port Director all cargo loaded into such vessels. Such reports shall be in the form of copies of the ship's manifest, or certified statements, and shall show numbers of units, commodities, and all other information which the port of Palm Beach deems necessary for compilation of commercial statistics, or other purposes.
**PILOTAGE:** Compulsory. Provided by Pilots' Association of the port of Palm Beach, 130 East Port Road, Riviera Beach, Florida, 33404.
**CHANNEL:** Entrance to the harbour is by a dog-leg channel running due West through the jetties and then turning South-westerly to the terminals. The channel is 400 ft. wide, narrowing to 300 ft. in width as it continues across the lake another 3,000 ft., leading into a trapezoidal turning basin, 1,400 ft. by 1,310 ft. adjacent to the port terminals on the West shore. Present depth of entrance channel is 35 ft. at MLW.
**ANCHORAGE:** Anchorage is designated by the Bar Pilots, which in most instances is at sea. Port has no established anchorage.
**MAX. SIZE:** Vessels up to 620 ft. in length with draft of 34 ft. have used facilities.
**RADIO:** Port has no communication equipment. U.S. Coast Guard Station, Peanut Island, Riviera Beach, Florida, be reached by 2182 kHz – 2678 kHz – 156·8 MHz.
**TUGS:** Available to assist berthing. Service is provided by the Port Towing Corporation, PO Box 12425, Lake Park, Florida 33403. Office tel. 844–4781 or 844–6422, at night 844–4244 or 844–6422.
**BERTHING:** Two slips and three marginal wharves for docking vessels; with four ramps for roll-on/roll-off facilities:

| *Berth* | | *Length* (ft.) | *Depth* (ft.) |
|---|---|---|---|
| No. 1 | South Marginal | 190 | 35 |
| No. 2 | East Half, South Side of Slip 2 | 325 | 35 |
| No. 3 | West Half, South Side of Slip 2 | 325 | 35 |
| No. 4 | West End of Slip 2 | 225 | 35 |
| No. 5 | West Half, North Side of Slip 2 | 325 | 35 |
| No. 6 | East Half, North Side of Slip 2 | 325 | 35 |
| No. 7 | Middle Marginal | 150 | 35 |
| No. 8 | East Half, South Side of Slip 1 | 345 | 25 |
| No. 9 | West Half, South Side of Slip 1 | 345 | 25 |
| No. 10 | South Ramp, West End of Slip 1 | 40 | 25 |
| No. 11 | Middle Ramp, West End of Slip 1 | 40 | 25 |
| No. 12 | North Ramp, West End of Slip 1 | 40 | 25 |
| No. 13 | West Half, North Side of Slip 1 | 345 | 25 |
| No. 14 | East Half, North Side of Slip 1 | 345 | 25 |
| No. 15 | South Half, North Marginal | 330 | 27 |
| No. 16 | North Half, North Marginal | 280 | 27 |
| No. 17 | Ramp, Northside of Port | 145 | 12 |

Supplementing the berths are 157,400 sq. ft. of warehousing space. Open storage area is within easy reach of all berths.

All vessels, their Owners or Agents, desiring a berth at wharves shall, as far in advance of date of docking as possible, make application to port specifying date of docking, sailing, nature and quantity of cargo to be handled, and name of the vessel.
**SPECIALISED CARGO HANDLING FACILITIES:** Ramps for roll-on/roll-off cargo and wharfside accommodation for equipment to handle containerised cargo only.
**STEVEDORES:** The recognised working hours of port shall be from 08.00 until 12.00 and from 13.00 until 17.00, Monday through Friday, holidays excepted. During the recognised working hours services will be charged for on a straight time basis.

When vessels are loading or discharging cargo the port may furnish checker-foremen to supervise release of cargo being loaded and/or check cargo being discharged. The charge for each man furnished will be based on labour-furnished rates for foremen, with the Port reserving right to furnish as many men as they deem necessary to protect their interests. Charges for this service will be rendered against the vessels, their Owners, or Agents.
**TANKERS:** The port receives tankers each month in the 15 to 18 thousand gross ton limit.
**FRESH WATER:** Fresh water delivered to vessels at wharves or docks.
**FIRE PRECAUTIONS:** Smoking is strictly prohibited in transit sheds, warehouses, or on apron of wharves and on vessels, handling dangerous, hazardous, or inflammable cargo. Smoking is also strictly prohibited in any areas where gasoline or like materials are being handled or serviced to equipment.

Explosives and hazardous or highly inflammable commodities or materials may be handled over, or received on, the wharves or other facilities of port of Palm Beach by special arrangements with and at the option of the Port Director, and the receiving, handling, or storage of such commodities shall be subject to Federal and State laws, rules and regulations.

In all cases where explosives and hazardous or highly inflammable commodities or materials are to be handled, prior consent by the U.S. Coast Guard must be received and a copy of the consent filed with the Port Director. Responsibility for safeguarding of life and property will be the duty of the shipper. Proof of sufficient liability insurance must be presented to Port Director prior to arrival of such materials.
**DEVELOPMENTS:** Plans for the development of acreage adjacent to Highway I–95 as a liquid storage area, and development of Peanut Island as an Oceanographic Centre.
**CARGO GEAR:** Crane capacity can accommodate single lifts up to 300 tons. Also available are two 150 ton cranes, one 40 tonnes, and one 23 ton fork lift.
**HOLIDAYS:** New Year's Day; Washington's Birthday; Decoration (Memorial) Day; Independence Day; Labour Day; Veteran's (Armistice) Day; Thanksgiving Day; Christmas Day. When any one of these falls on Sunday, the following Monday is observed as a holiday. When any one of these falls on Saturday, the preceding Friday is observed.
**GENERAL:** Marine terminal 1·3 miles from the open sea, served by U.S. Highway 1 and is directly connected by port-owned belt-line railroad to the Florida Coast Railway.

Broad aprons (80 ft.) with ship-side rail, and warehouses backed by open storage areas. The slips and wharves are located on a salt water sound, fully protected from the sea by barrier islands; departures from the slips average only 15 minutes through inlet to open sea.
**AUTHORITY:** Port of Palm Beach. PO Box 9935, Riviera Beach, Florida 33404. Tel. (305) 842–4201.

## PANAMA CITY, Florida: 30.10 N. 85.40 W. (See Plan)

**DOCUMENTS:**
2 Passenger Lists.
2 Crew Lists.
2 Curio Lists.
2 Stores Lists.
Register.
Load-line Certificate.
Tonnage Tax Certificate.
**PILOTAGE:** Compulsory. Pilots board at sea-buoy. Guard Channel 16 VHF. Safe anchorage at sea-buoy if waiting for Pilot. Pilot boat black hull with white lettering.
**ANCHORAGE:** Several safe anchorages inside bay with 32 or more ft. depth.
**RESTRICTIONS:** Maximum safe draft over bar is 32 ft. No other restrictions except in case of bad weather.
**HEALTH:** See Health Regulations before first U.S.A. port (Albany).
Immigration, Customs and Department of Agriculture will board all foreign arrivals.
**RADIO:** Preferably WLO Radio, Mobile, Alabama, U.S.A. Also good service from RCA. Vessel should radio ETA and cash requirements.
**TUGS:** Only one tug, Tug is used only to assist in berthing. Always uses ship's lines.
**BERTHING:** Anytime, except for unusual weather. Good safe port. Berths are about 1 hour from pilot station.
**STEVEDORES:** Must have ETA by 1500 hours local time in order commence loading 0800 next day. Normal work day 0800–1200, and then from 1300–1700, Monday through Friday.
**MEDICAL:** Medical and hospital service available.
**TANKERS:** No slop discharge facilities. One tanker berth – 29ft. maximum draft.

**ENSITY:** Salt water. 18 ft. tide range.
**RESH WATER:** Available all berths but ships must supply hose.
**UEL:** Only on advance notice – limited supplies.
**ANGWAY/DECK WATCHMEN:** Only if required by ship's wners or Master.
**PENING/CLOSING HATCHES:** Normally done by stevedores. some cases, is done by ship's crew.
**USTOMS ALLOWANCES:** Tobacco, one carton 200 cigarettes. ine/Spirits, reasonable quantity – one or two bottles.
**ARGO GEAR:** Must show safety inspection if requested.
**DENTIFICATION CARDS:** All crew must have U.S. Immigraon Landing Permit.
**ONSULS:** None.
**EPAIRS:** Limited deck and engine repairs can be effected.
**EPATRIATION:** Available.
**IRPORT:** Approximately 12 miles from port. Served by two cheduled air lines.
**IME:** Central Standard Time (GMT – 6 hours or 90° Meridian). entral Daylight time in summer (minus five or 75° Meridian time).
**OLIDAYS:** No work holidays: New Year's Day; Easter; Fourth of uly; Labour Day; Christmas Day; Working holidays: Veteran's Day; hanksgiving Day; (time and-a-half).
**OLICE/AMBULANCE/FIRE:** Dial operator, or 785–6161.
**ELEPHONES:** Placed aboard only by very special arrangement – ot normally available.
**ERVICES:** Most repairs to radio, radar and other such equipment. dvance notice required.
**HORE LEAVE:** Any time—any berth.
**ELAYS:** Normally, delays infrequent and for short durations.
**UTHORITY:** Panama City Ports Authority.

**GENTS:** Fillette, Green & Co., Inc., PO Box 1640, Panama City, lorida 32401 U.S.A. Address: 432-a Magnolia Avenue. Tel. 904–63-7675–6–7. Teletype 510–738–7897. Office phone answered 24 hours day, 7 days a week.
Steamship Agents & Brokers – Freight Forwarders – Stevedoring rrangement Personnel. Phones: Vice-President and Manager 04-763–1916. Operations 904–785–8798. Dock Superintendent 904–63-1912.

## PASADENA, Texas: 29.43 N. 95.13 W. Refer to "Houson" for all general information.

## PASCAGOULA, Mississippi: 30.21 N. 88.34 W. (See Plan)

**OCUMENTS:** See "New Orleans".
**ILOTAGE:** Pascagoula Bar Pilots' Association (no code addess). Pilot boat to be contacted on VHF Channel 16, pilot boat has lack hull with white house, International light and sound signals to e made by vessel requiring a Pilot. Pilot to be taken aboard vessel n vicinity of Horn Island sea buoy. Usual safety measures are equired, with respect to boarding. Vessels may anchor in this area while awaiting Pilot, there is a 35 to 50 ft. depth with good holding ottom.
**ESTRICTIONS:** The Pascagoula channel and turning basin imensions are: through Horn Island Pass, 350 ft. wide by 40 ft. deep; rom Horn Island Pass to the Pascagoula River turning basin, 350 ft. y 38 ft. deep with a turning basin 950 ft. wide by 38 ft. deep; into ayou Casotte (East Harbor) from Beacon "A" into the mouth of the arbour channel, 225 ft. wide by 38 ft. deep; thence an inner harbour 00 ft. wide by 38 ft. deep to a turning basin 1,000 ft. wide by 38 ft. eep.
No entry restrictions as to time or state of tide.
**AX. SIZE:** Length of vessel is restricted to approximately 900 ft. y turning basin, no breadth restriction, draft 38 ft.
**ADIO:** Mobile Marine operator, Station WLO best for vessels to oute ETA cables to Agent.
**ADAR/VHF:** Radar and VHF radio on pilot boat, Channel 16.
**TUGS:** Tugs will join vessels in harbour or off docks. No escort equired.
**BRIDGES:** Two bridges cross the Pascagoula River above the turng basin, not passed through between channel and harbour.
**BERTHING:** All berths have 38 ft. water depth.
*West Harbour:* Grain elevator with 3,100,000 bushels capacity.
Terminal "A": One pier 500 ft. length. Terminal "B" 544 ft. length.
*East Harbour:* H. K. Porter dock 650 ft. length.
Standard Oil Co. dock 750 ft. length.
Coastal Chemical bulk handling plant, four berths.
Terminal "E" 540 ft. length, Terminal "F" 650 ft. length.
Terminal "G" 516 ft. length. Terminal "H" 555 ft. length.
**CRANES:** The Port has a heavy lift capability of 400 tons by an rrangement with Ingalls West Bank Facility.
**STEVEDORES:** 12 hours notice requested to arrange stevedore angs.
**MEDICAL:** No advance notice required for medical attention, octor and hospital care readily available.
**TANKERS:** The Standard Oil Co. owns and operates three harves on East side of Bayou Cosotte harbour. Facilities have 6, 8 nd 12 in. lines with adaptors, discharge tanks with a capacity of 60,000 tons, three tanker berths with a 38 ft. draft.
**FRESH WATER:** Fresh water is available.
**DENSITY:** Density varies with the state of tide and wind, from resh to salt water.
**FUEL:** Large vessels are bunkered at berth in the harbour by two tank barges, operated by Fuel Services, Inc. All grades fuel are available.
**WATCHMEN:** Port guards are furnished for the general cargo terminals at the port's expense. At least one watchman must be on duty aboard vessel.
**CARGO GEAR:** No requirements for cargo gear other than it be certified by a recognised International organisation.
**IDENTIFICATION CARDS:** Crew Identification Cards are recommended.
**CONSULS:** Many countries have consuls within a 100-mile radius of Pascagoula.
**REPAIRS:** Most deck and engine repairs could be arranged within port facilities.
**DRY DOCKS:** Two floating dry docks, five marine railways, and a graving dock are located at four of the marine repair plants within this area. Lifting capacities of the floating dry docks are 800 and 600 tons and haul-out capacities of the marine railways range from 20 to 425 tons.
**REPATRIATION:** The city of Pascagoula is served by regularly scheduled transportation.
**AIRPORT:** An airport is available approximately five miles from the city and is served by regularly scheduled airlines.
**TIME:** The port of Pascagoula is on Central Standard Time, GMT minus 6 hours; clocks are moved ahead 1 hour during summer months.
**HOLIDAYS:** United States national holidays are observed, cargo work can be arranged these days at penalty time.
**POLICE/FIRE/AMBULANCE:** Telephone numbers for emergency services are; Fire 762–1133; Police 762–2211; Ambulance 762–6332.
**TELEPHONES:** Telephones can be installed aboard vessels at a nominal charge.
**SERVICES:** Facilities are available for fuel service, compass adjusting, and many other special services that may be required.
**DEVELOPMENTS:** A dry bulk handling facility with a 3,000–6,000 ton per hour loading capacity, scheduled for operation during 1974, built South of the Corchem, Inc. plant. Adjacent to this facility a wharf equipped for the transfer of liquid commodities is planned. This also is scheduled for operation during 1974.
**AUTHORITY:** Jackson County Port Authority, Chancery Court Building, Room 211 235 Canty Street (PO Box 878), Pascagoula, Miss. 39567.

**AGENT:** Hansen & Tidemann, Inc. 309 Pascagoula/Moss Point Bank Building. Pascagoula, Miss 39567. Tel. 601–762–9154. TWX 510–990–3172. Cables "Handt".

## PENSACOLA, Florida: 30.25 N. 87.13 W.

**BERTHING:**

| *Number* | *Length* (ft.) | *Depth at MLW* (ft.) | *Use* |
|---|---|---|---|
| No. 2 | 400 | 35 | General Cargo |
| No. 3 | 425 | 35 | General cargo and Lumber |
| No. 5 | 425 | 34 | General Cargo |
| No. 6 | 580 | 35 | General Cargo |

**BULK HANDLING FACILITIES:** No. 1 Berth. Length 600 ft. Depth at MLW 35 ft. Discharge of bulk materials by conveyor, rate 400 tph.
No. 1 Berth is also used for the discharge of oil, creosote oil and liquid chemicals into private facilities.
**FRESH WATER:** Available.
**AUTHORITY:** Port of Pensacola, Department of Transportation. PO Box 889, Pensacola, Florida 32594. Tel. (904)–438–8537.

## PETERSBURG, Alaska: 56.49 N. 132.57 W.

Located on Mitkof Island, Northern end of Wrangell Narrows. Open all year.
**DOCUMENTS:** See "Anchorage, Alaska".
**PILOTAGE:** (From sea via Dixon Entrance up Clarence Strait to Guard Island.) Under pilotage from Guard Island.
**MAX. SIZE:** Harbour depth 24 ft. MLLW. Tides: diurnal range 15·7 ft. Also see "Berthing".
**ANCHORAGE:** Good anchorage in Scow Bay, mud bottom.
**CUSTOMS:** Immigration, Guard Island. Quarantine and Customs, local.
**BERTHING:** Pacific American Fisheries Inc.: 75 ft. long, 65 ft. wide. Should dock at slack water. Strong current.
**TUGS:** One 320 h.p.
**STEVEDORES:** One gang.
**REPAIRS:** Marine Ways to 35 tons.
**WATER:** State approved water available.
**FUEL:** Diesel and Gasoline available.
**MEDICAL:** 21 bed hospital.
**TRANSPORTATION:** Scheduled and Charter Airlines and ferry.

## PHILADELPHIA, Pa.: 39.57 N. 75.10 W. (See Plan)

AMERIPORT (Ports of Philadelphia)
**DOCUMENTS:**
3 Crew Lists Form I.418 (suggest 6 be made).
3 Passenger Lists Form I.418 (suggest 6 be made).
3 Customs Stores Lists (suggest 6 be made).

3 Curio Lists (own ship Form) (suggest 6 be made).
3 Narcotics Lists (own ship Form) (suggest 6 be made).
Manifest (Ship Cargo List). If Philadelphia first port of call, require 1 copy for Customs and 1 copy to be used as "traveller" surrendered last port of call. If Philadelphia not first port of call, required 2 copies, all cargo to be discharged at Philadelphia.

*For Immigration Service:*
Visaed Crew List.
Valid passport or Seaman's Book for each person on board.
Crewman's landing card (Form I.95) for each crew member.

**PILOTAGE:** The pilot boat serving the Delaware River and ports of Philadelphia is a 165 ft., 1,000 gross ton steam vessel, painted light blue with letter "P" on stack. All pilots carry portable radios for bridge-to-bridge traffic to facilitate movement of vessel (VHF 156·7). Pilot boat is on permanent station in Cape Henlopen on a 24-hour basis and guards following frequencies: 156·65 VHF and 2738 and 2182 Khz. Telegraphic address is Del. Riv. Pilots, 214 S. 11th St., Phila., Pa. 19107. Arrangements for Pilot are normally made by ship's Agent but can be made direct by vessel.

No particular advance notice is required and incoming vessels are served as they arrive. Normally no delays are encountered. There are no particular boarding or safety measures required, other than the usual practice of good seamanship. In event of an unscheduled delay in berth availability, a deep-water anchorage is readily available in the bay adjacent to pilot boat. There are 18 anchorage areas available along the Delaware.

**RESTRICTIONS:** There are no restrictions imposed upon entry except those dictated by vessel draft. Throughout most of its length, the Delaware River is dredged to 40 ft. at MLW. In addition there is a mean tidal range of about 5·7 ft. Vessels of 38 ft. draft can readily navigate the river.

**MAX. SIZE:** Deep-draft vessels (oil-carriers) can off-load to barge in the lower Bay in water capable of handling vessels up to 60 ft draft.

**HEALTH:** Pratique procedures required for first port of entry. Pratique is automatic for subsequent port calls. Vessels can request "radio pratique" clearance at all ports in the U.S. The Maritime Quarantine Declaration is usually delivered by Pilot, and the Master, after completion of the Declaration, may then send the radio request to ship's Agent via ship's radio.

**RADIO:** RCA Global Communication. "WSC" Tuckerton, N.J.

**TUGS:** Tugs normally join vessels adjacent to berth. Ship's lines are used.

**BERTHING:**

| | | | |
|---|---|---|---|
| Northern Metal Co. Terminal | 9 berths depth | | 25 ft. to 32 ft. |
| Tioga Terminal | 7 ,, | ,, | 40 ft. |
| Delaware River Terminal | 4 ,, | ,, | 29 ft. ,, 32 ft. |
| Port Richmond | 10 piers depth alongside | | 26 ft. to 36 ft. |
| Delaware River | 21 ,, | ,, ,, | 26 ft. ,, 35 ft. |
| Greenwich Point Tide-water Ore Terminal | 2 berths 850 ft. length, depth 37 ft. and 42 ft. | | |
| Girard Point | 3 piers depth alongside | | 28 ft. to 36 ft. |
| Camden | 3 ,, | ,, ,, | 30 ft. ,, 40 ft. |
| Gloucester | Ore Pier, depth alongside 25 ft. and 31 ft. | | |

Packer Avenue Terminal, 5 berths, depth alongside 35 ft.
Port of Wilmington, 5 berths, depth alongside 35 ft.

**CONTAINER HANDLING FACILITIES:** *Tioga Marine Terminal:* Handles containerised and roll-on/roll-off cargoes. The terminal is equipped with two container cranes and a 300-ton mobile crane. Length of the marginal wharf is 3,300 ft., upper slip berth 725 ft. and lower slip berth 625 ft.

*Packer Avenue Marine Terminal:* Handles containerised and roll-on/roll-off cargoes. The terminal is equipped with two container cranes. The marginal wharf is 3,200 ft. in length and the roll-on/roll-off slip berth is 825 ft. in length.

**STEVEDORES:** Ship's Agents make arrangements for stevedore gangs. Agents should be kept advised of any change in ETA.

**MEDICAL:** Advance notice of requirements desirable to the extent possible. Hospital facilities are available. Smallpox vaccination certificate required (see Quarantine Declaration Form).

**TANKERS:** There are 83 petroleum handling berths along the Delaware River. All terminals are equipped with reducers. There are slop (residue) facilities at most terminals. Some main terminals listed below:

| | | |
|---|---|---|
| Fort Mifflin | Atlantic-Richfield | 40 ft. depth |
| Point Breeze | Atlantic Richfield | 32 ,, ,, |
| | Ballast Wharf | 32 ,, ,, |
| Hog Island | Gulf Oil Terminal | 40 ,, ,, |
| Paulsboro | Mobil Oil Terminal | 30 ft. and 40 ft. depth |
| | Patterson Oil Terminal | 36 ft. depth |
| Marcus Hook | Sinclair Refining Co. | 35 ,, ,, |
| | Sun Oil Co. | 33 ,, ,, |
| Westville (Eagle Point) | Texas Oil Terminal | 40 ,, ,, |
| Pennsauken | Greater Valley Oil Co. | 34 ,, ,, |
| Girard Point | Gulf Oil Co. | 33 ,, ,, |
| Delair | Hess Oil Co. | 31 ,, ,, |

**DENSITY:** Philadelphia ports are fresh-water ports.

**FRESH WATER:** Fresh water normally not available directly at berth. Fresh water available by tank truck or through Fire Department. No water barges available.

**FUEL:** Bunker C and diesel fuel available most oil terminals. Vessel's Agent should confirm berthing space at least 24 hours in advance.

**WATCHMEN:** These services are left to the discretion of the Master. It is often recommended by ship's P & I Club that watchmen be engaged when seamen are detained by U.S. Immigration. Ship subject to heavy fines by U.S. Government if any detained seam deserts vessel.

**HATCHES:** Normally opened/closed by stevedores.

**CERTIFICATES:** Ship's Register and Load-line Certificate mandatory. If vessel is carrying passengers from the U.S. they require a U.S. Coast Guard Certificate. This can easily be obtain in about one or two days subject to meeting the requirement life-saving equipment.

**CUSTOMS ALLOWANCES:** No set rule. Reasonable amou allowed for personal use.

**CARGO GEAR:** For exceptionally heavy lifts, Philadelphia Nav Shipyard has a 350-ton crane. Special permission is required to u this machine when there are no commercial facilities available.

**CONSULS:** The following countries are represented in Philadelphi

Belgium
Brazil
Canada
Chile
Colombia
Costa Rica
Denmark
Ecuador
Germany
Great Britain
Guatemala
Haiti
Honduras
Iceland
Israel
Italy
Japan
Liberia
Mexico
Netherlands
Norway
Panama
Paraguay
Peru
Portugal
Sweden
Switzerland
Thailand
Uruguay
Venezuela

**REPAIRS:** All types of ship repairs can be effected.

**AIRPORT:** Philadelphia International Airport is located approx mately 6 miles from central harbour area.

**TIME:** Standard time GMT minus 5. Daylight Saving Time (minu 4) is usually implemented about the last week-end in April.

**HOLIDAYS:** New Year's Day (1st January); Lincoln's Birthda (12th February); Washington's Birthday (22nd February); Goo Friday; Decoration Day (May 30th); Flag Day 14th June); Independence Day (4th July); Labor Day (1st Monday in September Colombus Day (12th October); November Election Day (1st Tuesda in November); Armistice or Veteran's Day (11th November); Thanksgiving Day; Christmas Day; and any other national holiday as may b provided by executive authority.

**POLICE/FIRE/AMBULANCE:** Fire LO 3–6700; Police 231–313 Port Disaster 609–WO 3–6420, WA 5–8780.

**GENERAL:** If garbage removal is required while in port, it must b done under supervision of the plant quarantine service.

**AUTHORITY:** Delaware River Port Authority, Public Ledger Building, Independence Square, Philadelphia, 19106. Cable address "Delripva."

## PINEY POINT, Maryland: 38.08 N. 76.32 W.

Steuart Petroleum Company Terminal on East bank of Potomac River 82 miles from sea.

**DOCUMENTS/PILOTAGE/HEALTH:** Refer to "Baltimore".

**ANCHORAGE:** Unlimited, available in Chesapeake Bay.

**RESTRICTIONS:** Berthing 24 hours a day with maximum draf of 38 ft. Vessels exceeding 725 ft. or 37 ft. draft, 2 tugs required docking – 1 sailing. Vessels under, 1 tug docking, none sailing.

**MAX. SIZE:** Limited by depth at berth, 38 ft.

**RADIO:** WMH Baltimore Radio. VHF channel 26.

**TUGS:** Two tugs available for berthing, join vessel off berth.

**BERTHING:** One tanker berth only. Long lines required for firs ashore.

**FRESH WATER:** Available at berth.

**FUEL:** Bunker "C" only, available ex-berth.

**GENERAL:** Nearest city with full services is Washington, 65 miles distance.

**AIRPORT:** Washington National or Friendship International.

**TIME:** GMT minus 6 hours.

**SHORE LEAVE:** Allowed.

**AUTHORITY:** Maryland Ports Authority.

## PORT ADAMS, Texas: 29.45 N. 95.11 W. Refer to "Houston" for all general information.

## PORT ANGELES, Washington: 48.08 N. 123.25 W.

**DOCUMENTS, HEALTH, etc.:** Refer to "Tacoma".

**PILOTAGE:** Compulsory for all vessels except those in coasting trade. Pilot station at Ediz Hook serves all vessels bound for Puget Sound ports. Pilot boards off Port Angeles.

**ANCHORAGE:** In harbour, depth at least 42 ft. MLLW.

**BERTHING:** Four principal wharves, depth alongside 28–38 ft. MLLW.

**STEVEDORES:** Eight local gangs, additional gangs may be imported if required.

**HOLIDAYS:** See "Tacoma".

**MEDICAL:** All medical facilities available. Local hospital.

**DENSITY:** Salt water.

**FRESH WATER:** Available at all wharves.

**FUEL:** Barge delivery only.

**GANGWAY/DECK WATCHMEN:** Required only if detainees aboard.

**CUSTOMS ALLOWANCES:** No definite quantities specified: reasonable allowance at discretion of Customs Inspector.

## PORT ARTHUR, Texas: 29.53 N. 93.57 W.

**DOCUMENTS:**

*Entrance Direct from a Foreign port:*

Master's Oath on Entry, CF.3251 (signed by Master and notarised).

Master's Certificate on Preliminary Entry, CF 3255 (soon to be abolished, at which time this certificate will be made on the reverse of the last page of the manifest.)

Oath on Repairs, CF.3415 (American vessels only).

Clearance from last port.

Store List.

Crew List on Form I. 418 (including the certified copy from last American port).

Passenger List on Form I. 418.

Manifest of Cargo on CF.7527A or 7527B in the order of ports of discharge, or if in ballast use the same form and state that the vessel is in ballast.

*Entrance from another Domestic Port with residue cargo, American or Foreign vessel:*

Master's Oath on Entry, CF.3251 (signed by Master and notarised).

Master's Certificate on Preliminary Entry CF.3255 (if vessel boarded).

CF.1385 from latest port, Master signs sub-div. 3.

Store List.

Crew Curios List.

Passenger List (Form 1.418) but only if passengers are disembarking.

Cargo Manifest for cargo to be discharged at this port. If there is no cargo for this port it will consist of a "pro-forma manifest".

In addition to the customs forms needed, as shown in the above, Master will also need to present the following ship's papers to ustoms on arrival: (*a*) Certificate of Nationality; (*b*) Ship's Registraion; (*c*) Safety Equipment Certificate; (*d*) Load Line Certificate; ) Tonnage Tax Certificate. These papers are returned to the vessel pon filing clearance. Every vessel must have these papers onboard n arrival and on departure.

**PILOTAGE:** Come up in vicinity of the sea buoy. Twenty-four hours otice of ETA should be given and revised if ship is delayed one our or more. Telegraphic address is Sabine Pilots, Port Arthur, Texas. Pilot station stands 24 hour continuous watch on VHF Channel 12 – 156·6 mc/s. and on Channel 2738 kc/s. Pilot boat is otor vessel with black hull, white housing flying pilot insignia by ay and pilot light by night. Location of pilot boat is in general icinity of Sabine Pass sea buoy. Pilot ladder only on lee side of essel.

Pilot will, upon request and at extra cost, board incoming vessels t buoy marked "SB" in position 29.25 N. 93.40 W.

**RESTRICTIONS:** Port Arthur ship channel is in operation 24 ours a day. Only restriction that might hamper traffic would be raft of vessel. Able to handle vessels taking up to 40 ft. draft. Extremely bad weather conditions, such as fog or high winds, may elay entry.

**MAX. SIZE:** Port Arthur ship channel authorised to 40 ft. in depth nd will vary from 400 to 800 ft. in width. Turning basin, which is ocated at mile 19 (only about ½ mile upstream from existing port acility) 900 ft. in width. Bulk carriers going to grain elevator at Port Arthur or to one of the oil refineries would only be restricted by draft hich would vary from 30 ft. to 40 ft. depending on load/discharge erth. See "Berthing".

**HEALTH:** See Health Regulations before first U.S.A. port (Albany).

**RADIO:** For a vessel in Gulf of Mexico, and *en route* to Port Arthur, adio "Port Arthur Radio" (Radio Marine Corporation of America) hose call sign is WPA. Also radio stations located in Galveston, exas (Mackay Radio, call sign KLC) and in Mobile, Alabama (call gn WLO).

**TUGS:** Exact position that the tug meets vessel varies with each essel, but usually they meet just below Texaco Island. In some cases hey meet as far up as Great Lakes Carbon (when vessel is in ballast nd going to Gulf Oil Docks). The tugs usually use ship's lines. Port of Port Arthur is served by two towing companies (1) D.M. Picton Towing Company and (2) Sabine Towing Company, Inc.

**BERTHING:**

| | *distance from sea* | *depth alongside* |
|---|---|---|
| Atlantic Refining Co. | 30 m. | 38 ft. |
| Cargil Grain Elevator | 17 m. | 32 ft. |
| Great Lakes Carbon Corp. | 17 m. | 30 ft. |
| Gulf Oil Terminal | 18 m. | 38 ft. |
| Texaco Terminal | 17 m. | 35 ft. |

Public Ocean Terminal, 19 miles from sea, 40 ft. depth alongside. Three berths, six more to be added in future. Equipped with gantry rane, 75 tons capacity.

Topco Terminal, 26 miles from sea, 40 ft. depth alongside. Can ccommodate bulk carriers up to 100,000 dwt. Discharge rates up to 000 tons per hour. Shiploader capacity also 3,000 tons per hour.

See also "Beaumont", "Magpetco", "Port Neches", "Smiths Bluff".

**STEVEDORES:** Advance order for longshore gangs varies as to ontract held by ILA (International Longshoremen's Association). Port Arthur, gangs have to be ordered as follows: Order by 7 p.m. or the next morning (either 7 a.m. or 8 a.m.); order by 5 p.m. for 7 .m. Order by 8 a.m. for 10 a.m.

**MEDICAL:** Port Arthur is served by two hospitals: (1) St. Mary's ospital and (2) Park Place Hospital, both of which are very well taffed and have adequate facilities for almost any emergency. Also, dvanced notice is helpful when vessel is scheduled to dock late in vening or during night, as doctors have to be located.

**TANKERS:** There are three major oil companies, Gulf Oil Corporation; Texaco Oil Company, Inc.; and Atlantic Richfield Company. Gulf Oil Corporation and Texaco Oil Co., Inc. are two of largest oil refineries in the country. The diameter of load/discharge lines range anywhere from 4 in. to 12 in. depending on the grade of the petroleum product being loaded. As far as slop discharge facilities are concerned, ballast tanks are sure at all major oil companies. Tank cleaning in port must be done by longshore labour. Gulf Oil has 3,400 linear ft. of berth accommodations and Texaco Oil Co. has 5,299 linear ft. of berth accommodations, together enough to accommodate 11 supertankers plus barges. Atlantic Richfield Co., being the smallest of the three oil companies, has berth accommodation for three vessels.

**DENSITY:** Varies from almost fresh water (1000) to pure salt water (1025) depending on amount of rainfall and tide variations. According to figures obtained from the National Cargo Bureau, average density is 50% salt water or (1012·5).

**FRESH WATER:** Available at wharves, or by barge.

**FUEL:** Almost any grade of fuel or marine diesel is available. In some instances there are fuel lines running directly to docks, but if not a bunkering barge is available. An advance notice is usually required by bunkering barge depending on number of vessels awaiting bunkering.

**GANGWAY/DECK WATCHMEN:** Under normal conditions a watchman is not necessary on most vessels. Under certain conditions such as a communicable disease or a malafide crewman a watchman would be feasible but the decision is left to Master. There is a $1,000 fine if a malafide crewman disembarks from vessel.

**OPENING/CLOSING HATCHES:** Paragraph 2, Rule 1 of the Deep Sea Longshore and Cotton Agreement for Texas ports and Port of Lake Charles, Louisiana, states as follows: "When vessel is in loading or unloading berth, loading and laying of dunnage and the opening and closing of hatches, when in connection with the handling of general cargo and/or cotton, is longshore work and will not be done by ship's crew."

**CUSTOMS ALLOWANCES:** Tobacco: Each crewman is allowed to keep 300 cigarettes out of bond while in port. Wine and/or Spirits: Each crewman is allowed to keep one quart of spirits out of bond while in port.

**CARGO GEAR:** A current certified Gear Certificate is required to be on board at all times and is to be kept up to date.

**IDENTIFICATION CARDS:** American crewmen do not need any identification card. Foreign crewmen need only the landing permit from Immigration Department in order to go ashore.

**CONSULS:** The nearest Consul-Generals are in Houston, Texas. Port Arthur has only 5 honorary Vice-Consuls, which are: Norwegian, Spanish, Panamanian and Honduran. Houston is approximately 90 miles from Port Arthur.

**REPAIRS:** All types of deck and engine repairs can be accomplished. Main ship repairers are; Gulfport Shipbuilding Corp., Burton Ship Yards, Inc., Sabine Propeller Company and Sabine Neches Shipbuilding Corporation.

**DRY DOCKS:** Two dry docks, largest being Gulfport shipbuilding Co., which occupies 50 acres with 3,300 ft. of frontage on Port Arthur Ship Channel. Yard designs, constructs and repairs barges, tugs and other vessels. It has fully equipped shops and four floating dry docks with lifting capacities of 500, 1,800, 4,000, and 4,200 tons. Smaller dry dock is Burton Shipyards, Inc., which occupies 60 acres with 3,200 linear ft. of frontage on Port Arthur Ship Channel. This yard also designs, constructs and repairs barges, tugs and other vessels. It has fully equipped shops, two marine railways with haul-out capacities of 1,000 and 1,500 tons and one floating dry dock of 3,000 ton capacity.

**REPATRIATION:** There are facilities for effecting crew changes and repatriation.

**AIRPORT:** Is located approximately 10 miles north of port on Highway 69. The Mid-Jefferson County Airport is served by TI (Texas International) and Delta Airlines and offers 16 arrivals and 16 departures daily.

**TIME:** Central Standard Time during winter. Beginning April 28th until October 27th Central Daylight Time (clocks are moved ahead one hour). Central Standard Time is GMT minus 6 hours.

**HOLIDAYS:** Longshore holidays are: Armistice Day or Veterans' Day (Nov. 11th); Thanksgiving Day; Christmas Day; New Year's Day; Washington's Birthday; Texas Independence Day (June 19th); Fourth of July; Labor Day; Decoration Day (May 30th). No work shall be performed on Labour Day or Christmas Day, except in case of fire or where property is in danger. When holidays come on Sunday, the following day is to be recognised as the holiday. No work to be performed between 4 p.m. and 7 p.m. on election days.

**POLICE/AMBULANCE/FIRE:** Police Department 983–5101; Fire Department 985–5511; Ambulance Service 985–5504 or 983–5666.

**TELEPHONES:** No facilities for placing a telephone on a vessel. However, a coin-operated telephone on the dock for anyone's use.

**SHORE LEAVE:** Shore leave is allowed. Only requirements being; each crewman on shore leave must have a landing permit issued by Immigration Department and no malafide crewman may be granted shore leave.

**DELAYS:** Delays in berthing usually arise from vessels ETA being delayed and thereby causing a berth conflict. The port of Port Arthur is on a first come first serve basis.

**AUTHORITY:** Port of Port Arthur Navigation District of Jefferson County, Texas, 500 World Trade Building, PO Box 1428, Port Arthur, Texas 77640.

**AGENT:** See "Beaumont".

## PORT CANAVERAL, Florida: 28.25 N. 80.35 W.

**DOCUMENTS:** Vessels arriving in the Customs Territory of the United States, Bureau of Customs Documentary Requirements:

1. The vessel's Register, Load-line International Certificate, Tonnage Tax Certificates, Clearance from last Foreign Port, and Public Health Pratique (if applicable) must be available for the Boarding Customs Inspector and later for entry at the Customhouse.

2. Additional Documents required:

(*a*) Original Manifest (lists) of:
All Cargo on Board.
All Passengers on Board.
Stores List.
Crew Purchase List.
Crew List.
Narcotic List.

(*b*) All items listed in Nos. 1 and 2 (*a*) must be presented to the boarding Customs Inspector and later at the Customhouse for entry. In addition a Customs Form 1300 (Masters Oath) must be presented at the Customhouse.

(*c*) Duplicate Manifest (lists) of:
1. All Cargo to discharge at this port.
2. All Passengers for discharge at this port.
3. Stores List.
4. Crew Purchase List.
5. Crew List.
6. Narcotic List.
7. CF3171 – Permit to Lade or Unlade (this will usually be furnished by the vessels agent prior to the arrival of the vessel.

(*d*) If vessel is proceeding coastwise from Port Canaveral with residue foreign cargo on board, prepare a Traveling Manifest which is a true copy of everything listed in the Original Manifest (2(*a*)). This must be presented to the boarding Customs Inspector and later at the Customhouse.

3. Other Documentary requirements: The Immigration Officer will require the original certificate crew list on form I–418. The same for passengers. He will also require the presentation of all passports and documents of seamen and pax as to their immigration status for entry into the United States. A supply of Seaman's Landing Permit Form No. I–95A and passenger Permit No. I–94 should be maintained and they should be typed and ready for landing.

The Public Health Officer will require a copy of the crew and the stores lists and the Quarantine Declaration Form PHS 43 already executed by the Master of the vessel. The Immigration and Quarantine Officers will want to inspect the entire crew. The Customs and Agriculture Officers will want to inspect the food storage areas and the quarters of the crew. The Agriculture Officer will also require a stores list. The Customs Officer will place a seal on the Bonded Stores Locker.

**PILOTAGE:** Pilotage is compulsory for all foreign vessels and for United States vessels under register in the foreign trade. Pilotage is optional for United States coastwise vessels who have on board a Pilot licensed by the Federal Government. Vessel applies for Pilot through Agent or Port Authority. May also call Pilot Office direct, 305–783–4645. Pilot will board at buoys 7 and 8 (28° 23.8′ N. 80° 33.4′ W.). Pilot boat is 30 ft. long with grey hull, white house and buff deck, has "Pilot" painted on sides. There is no particular signal for Pilot. Pilot boat stations itself one mile S.E. of buoys 7 and 8 ½ hour before ETA of vessel. Vessels may anchor anywhere in area. Pilot boat is equipped with VHF Channels 12 (156.60 mHz) and 16 (156.80 mHz), but no continuous radio watch is maintained. Advance notice of at least 24 hours should be given.

**ANCHORAGES:** Within harbour itself, none. Vessels may anchor anywhere in the area of the pilot station, buoys 7 and 8.

**RESTRICTIONS:** Docking and undocking carried on day and night. Draft restrictions – if vessel draft exceeds 33·6 ft. must await rising tide to enter port.

**MAX. SIZE:** Length and draft at Tanker Berth No. 1 and No. 2 600 ft., with 32 ft. draft. Cargo dock length unlimited – 30 ft. draft.

**HEALTH:** See "Health Regulations" before first U.S.A. port (Albany).

**RADIO:** Pilot boat is equipped with VHF Channels 12 (156.60 mHz) and 16 (156.80 mHz) but no continuous radio watch is maintained. Advance notice of at least 24 hours should be given. Best to route ETA cables through Western Union Telegraph. Port Canaveral is equipped with VHF Port Operations frequency 156.6.

**TUGS:** There are two 1,800 h.p. tugs at Port Canaveral; most ships use the tugs for docking and undocking. Tugs normally join vessel inside jetties and tugs lines are used.

**BERTHING:** All vessels unless prevented by conditions will be turned around upon entering turning basin and will be berthed headed seaward. No berthing permitted without Port Pilot aboard.

**STEVEDORES:** Important vessel gives accurate ETA at least 24 hours in advance to enable Agent to order gangs.

**MEDICAL:** Advance notice for Agents not required, but if available is appreciated. No Public Health Clinic in area, but there are good hospital facilities available. A contract physician's office of the U.S. Public Health Service is in Cocoa Beach, just South of the port.

**TANKERS:** Two Tanker Berths available, 32 ft. draft at these berths. No oil to be pumped overboard. Heavy fines imposed for oil pollution, however slight. The ship or ship's Agent will immediately report any spillage of oil on the wharf or on the water and the extent of the spill to the Port Manager and the Harbour Master. If spillage is considerable all cargo operations must stop and vessel prepare to undock.

**FRESH WATER:** All wharves have facilities for supplying fresh water, delivered by 4-in. water line.

**FUEL:** The general cargo wharf, and Tanker Berth No. 1 has fa ties for supplying fuel. 24 hours notice requested.

**FIRE:** Ships discovering fire on board or close by on shore sound repeated long whistle blast signals and use every o available means to report the fire. Gasoline Tankers: All deck sc pers must be plugged before starting to discharge cargo. Su of sand or sawdust must be on hand near the discharge head Static cable must be connected to wharf. Minimum 100 lb. press must be on water main and fire hose connected. Discharging m be stopped during severe lightning. Deck Officers must keep cl check on hose connections for gasket leaks. Emergency Ship Mo ment Policy of Port Canaveral must be observed.

**GANGWAY/DECK WATCHMEN:** Not usually employed, t service left to discretion of Master.

**OPENING/CLOSING HATCHES:** Usually done by stevedore

**SHIP CERTIFICATES:**
Ship's Register.
Load Line Certificate.
Tonnage Tax Certificate.
Derating Certificate or Derating Exemption Certificate.

**CUSTOMS ALLOWANCES:** 300 cigarettes per crew memb Wine and/or spirits: One quart per crew member.

**CREW IDENTIFICATION CARDS:** Required.

**CONSULS:** None.

**REPAIRS:** None – nearest port would be Jacksonville.

**REPATRIATION:** All facilities available for effecting cr changes and arranging any necessary repatriations.

**AIRPORT:** Two airports available, serviced by regular airlin McCoy Airport, Orlando, Florida approximately 50 miles from t Port, Cape Kennedy Regional Airport at Melbourne, Florida appro mately 35 miles from Port and Ti-Co Airport approximately 25 mil from the Port, but this airport has only limited service.

**TIME:** GMT minus 5 hours normal, GMT minus 4 hours Dayli Saving Time.

**HOLIDAYS:** Numerous holidays do not affect operation of po which operates 24 hours a day, seven days a week.

**POLICE/AMBULANCE/FIRE:** Police/Fire, tel. 783 8203; Amb lance, tel. 632 1444 and 636 2929.

**TELEPHONES:** Arrangements are not available for placing o board.

**GENERAL:** All vessels, civilian and military, will provide wire rop from the bow and stern with eyes that can be reached by tugs comi alongside. Pilots will make sure wires are in proper position befo leaving vessel. Eme gency movement of ships will be made with an able sea wat without awaiting for return of other ships personnel.

**SHORE LEAVE:** Crew allowed ashore.

**REGULATIONS:** All radio frequency radiations from ships i Port Canaveral must be scheduled to prevent any possible inte ference to missile tests conducted on the Cape Canaveral Missi Test Annex. The only exception is standard ship/shore HF harbo control frequencies. Vessels desiring to radiate will request permi sion from the Port Manager and/or Harbour Master.

**AUTHORITY:** Canaveral Port Authority, PO Box 267, Port Cana veral Station, Cape Canaveral, Florida 32920. Telephone numb 305–783–7831.

## PORT EVERGLADES, (including Fort Lauderdale) Florida: 26.05 N. 80.05 W.

**DOCUMENTS:**
3 copies Cargo Manifest (Forms 7527-A or 7527-B), the origin showing all cargo on board, and 2 copies showing only carg for this port.
2 copies Crew Manifest (curio list).
2 copies Stores List.
2 copies Passenger List (Form I.418).
2 copies Crew List (Form I.418).

Customs boarding Officer will also examine Ship's Register an Load-line Certificate. In addition, the following documents will b required for formal entry to be made within 48 hours of arrival fro abroad, or 24 hours from arrival from a United States port:
Health Pratique.
Master's Oath (Customs Form 3255).
All foreign clearances.
U.S. Certificates of payment of tonnage tax (Customs Form 100 Certified Crew List.

**PILOTAGE:** Pilot boards at Port Everglades sea buoy, locat 26° 05′ 30″ North latitude, 80° 04′ 45″ West longitude.

**ANCHORAGE:** The prescribed anchorage area at Port Everglade is outside the harbour and North of the channel. Vessels desiri to anchor off harbour of Port Everglades are required to do so i this area to avoid possible damage to cables laid on ocean flo South of the channel.

South of the channel, immediately offshore, there is a Governme Restricted Area.

North of the channel, immediately offshore, there is a spoil ba visible at low water.

**RESTRICTIONS:** Entrance to Port Everglades is by a straig channel running in a due Westerly direction for a distance of miles from the 50 ft. contour of the ocean to the turning basin. Th hannel is 500 ft. wide at its seaward end, narrowing to 300 ft. wide rom jetty entrance to turning basin. The water depth is 39 ft. includ- g the turning basin. All depths are at Mean Low Water.

**AX. SIZE:** Max. draft 36 ft. MLWS.

**ASIN:** The main turning basin is 1,200 ft. East and West and 2,450 . North and South with a depth of 39 ft. The North extension of urning basin is 620 ft. wide East and West on the North limits and 00 ft. wide East and West on the South limits and 1150 ft. North and outh, with a depth of 33 ft. The South extension of turning basin is 300 ft. wide East and West by 1,300 ft. North and South, with a epth of 32 ft., except Berths 17 and 18, which have a depth of 37 ft. ll depths are at Mean Low Water.

**EALTH:** See "Health Regulations" before first U.S.A. port Albany).

**ADIO:** The following radio channels are available to communi- ate with facilities at Port Everglades:

Ship calling and safety: Channel 16, 156·8 Mc.

Business and operation: Channels 14, 156·7 Mc; 7A, 156·35 Mc; 18A; 156·9 Mc.

Port Everglades Bar Pilot: Channels 16, 13, 14, 18A, 19A.

Port Everglades Towing Co.: Channels 16, 13.

**UGS:** Three tugs available to assist berthing.

**ERTHING:** Port Everglades has 16,200 linear ft. of berthing facili- es, as follows:

| Berth | *Length in feet* | *31 ft. depth* | *32 ft. depth* | *37 ft. depth* | *38 ft . depth* |
|---|---|---|---|---|---|
| -2-3 | 1,601 | 1,300 | | 301 | |
| | 700 | | | 700 | |
| | 700 | | | 700 | |

When any of the above holidays fall on a Sunday, hey will be observed on the Monday following. Work on these holi- ays is by special arrangement only.

**IME:** Eastern Standard Time, GMT minus 5 hours. Daylight aving time, GMT minus 4 hours, from April to October.

**UTHORITY:** Port Everglades Authority, Port Everglades, Florida 3316.

**GENT:** Hansen & Tidemann, Inc. PO Box 13044, Fort Lauderdale, LA 33316. Tel. 305–527–1503. TWX. 510–955–9899. Cables "Handt".

## ORT HURON, Michigan: 42.59 N. 82.26 W.

efer to St. Lawrence for important general information.

**ILOTAGE:** Compulsory, by Seaway Pilots.

**NCHORAGES:** Near head of St. Clair River at Sarnia. Vessels hould anchor as close to shore as safely possible to keep channel lear for passing vessels.

**ESTRICTIONS:** Navigation season from mid-March to end- December approx. Dock channel depth – 25 ft. Vessels size restric- ed by Seaway locks.

**AX. SIZE:** 730 ft. length; 26 ft. draft.

**EALTH:** All ocean-going vessels must obtain a free pratique efore entering the Seaway. Vessels may obtain quarantine inspec- ion and clearance from the Canadian Authorities at Montreal hile awaiting entrance to the Seaway.

**ADIO:** Master must give at least 24 hours notice to Commander th Coast Guard District, Cleveland, Ohio, of the vessel's ETA at nell Lock. Also, at least 24 hours notice of ETA at first U.S. dis- harge port is required. Port can be contacted through Marine perator, Sarnia.

**UGS:** Available. Not compulsory, but sometimes necessary in ad weather.

**BERTHING:** Port Terminal Co. Dock: 700 ft. long 26–31 ft. depth.

**DENSITY:** Fresh water.

**MEDICAL:** All facilities available.

**FRESH WATER:** Obtainable by pipe-line at all docks.

**FUEL:** All grades available by pipe-line at all docks.

**REPAIRS:** Machine shops available for limited deck and machinery repairs.

**AUTHORITY:** Port Huron Maritime Commission, PO Box 273, Port Huron 48060.

## PORTLAND, Maine: 43.39 N. 70.14 W.

**DOCUMENTS:**

1 Crew list.
1 Passenger list.
2 Stores lists.
2 Foreign purchases lists.
2 Inward foreign manifests uniform cargo.
Original bill of lading.
1 form 3251 Masters oath on entry of vessel.
2 form 1374 outward foreign manifest.

**PILOTAGE:** Ship's Agents usually notify pilot approximately 48 hours in advance of arrival then changes are made at 24 and 12 hours. Pilot boat usually called on Channel 16 and then switched to Channel 11 to continue conversation. Pilot goes aboard ship in vicinity of lightship using ladder on lee side. When weather bad suggest vessel anchor approximately 1 mile North of lightship.

**ANCHORAGES:**

*Anchorage A (general)*

Beginning at Eastern corner of Grand Trunk Railway Company Pier No. 3; thence approximately 90°, 1,700 yd. to Brooklyn Ledge Buoy 16; thence 330°, 350 yd.; thence 25°, 780 yd.; thence 303°, 750 yd.; thence 254°, 560 yd.; thence 186°, 750 yd.; and thence to the point of beginning.

*Anchorage B (general and quarantine)*

Beginning at Brooklyn Ledge Buoy 16, thence 58° to Little Diamond Island thence along the South-western shore to the pier on the Southern end of Little Diamond Island; thence 143°, 1,200 yd.; thence 270¼° to House Island Light; thence along the western shore of House Island to Fort Scammel Point Light; and thence 329°, 1,620 yd. to the point of beginning. Anchorage B is intended for general purposes, but especially for use by oil tankers and other deep-draft ships entering the harbour at night and intending to proceed to the dock allotted at daylight the following morning, or as soon as practicable. This area also is to be used for quarantine anchorage. Any vessel anchored in this area shall be ready to move on short notice.

*Anchorage C*

Bounded on the North-west by House Island; on the North by a line running 90° from House Island Light to Peaks Island; on the East by the Western shore of Peaks Island, by a line running 198° from the Westernmost point on Peaks Island to Cushing Island, and by the shore of Cushing Island to its Westernmost point; and on the South-west by a line running from the Westernmost point on Cushing Island to Fort Scammel Point Light. Anchorage C is intended for use only by small vessels and for temporary anchorage.

*Anchorage D*

Southerly and Westerly of a line beginning at Lighthouse Channel Buoy 1; thence 35° to Anchorage Buoy E; and thence 145° to the mainland. Anchorage D is for use only by small yachts and pleasure craft, and small, light draft coastwise freighters.

**RESTRICTIONS:** No entry restrictions at night. Deep draft vessels brought in on high water only.

**MAX. SIZE:** Size of vessel restricted to 45 ft. draft in harbour area. No outside installations at port yet.

**HEALTH:** Agent notifies Public Health Service and arranges for inspection at pier. If any disease or fever suspected, vessel quarantined. When vessel once cleared at U.S. port and proceeds to another, clearance still valid. Radio pratique available on request to Agent.

**RADIO:** Tugs in Portland Harbour use Channel 07. Vessels arriving Portland go through radio station in Chatham, Mass., RCA installations, or call station WOU via radio-telephone. VHF Harbour Control at Portland.

**TUGS:** Tugs join vessel at Spring Point in Portland Harbour. Tugs use own lines at no additional charge. Docking Pilots not supplied by Company but are available.

**BERTHING:** Tidal conditions govern arrivals and departures.

**BRIDGES:** No undocking on ebb tide through bridge.

**STEVEDORES:** Four hours notice on ordering gangs.

**MEDICAL:** No advance notice required by Agent. Two hospitals, Maine Medical Center and Mercy Hospital, who take bed patients. All seamen require certificate showing they have had a smallpox vaccination during last three years.

**TANKERS:** Tankers arriving at Portland Pipe Line, Pier 2, make preparations for two 10 in. and 12 in. hoses.

| *Berth* | *Depth Alongside* |
|---|---|
| American Oil Terminal | 30 ft. MLW |
| Chevron Terminal | 32 ft. MLW |
| Portland Pipeline Pier No. 1 | 35 ft. MLW |
| Portland Pipeline Pier No. 2 | 48 ft. MLW |
| Texaco Terminal | 30 ft. MLW |

**DENSITY:** Average density 1024.

**FRESH WATER:** Available by tug for boilers only at rate of tug hire. Drinking water available at piers.

**FUEL:** No. 6 diesel oil and blended interfuel oils. Delivery is via barge only and 24 hours notice required.
**FIRE PRECAUTIONS:** None—except at certain oil piers where information given to Shipmaster upon arrival at pier. Ample fire protection, salt water lines, sprinkler system on pier, local fire department.
**DEVELOPMENTS:** Plans under way for redevelopment of waterfront. Plans call for deepening Fore River from 35 ft. to 45 ft. and studies also under-way to provide offshore unloading of giant super-tankers. Plans to construct a $140 million oil transfer facility. In order to complete project, existing 40 ft. ledge will be removed to 90 ft. and dredging in the inner harbour of Hussey Sound will be done. No date set for final completion.
**GANGWAY/DECK WATCHMEN:** Not required.
**OPENING/CLOSING HATCHES:** Ship's crew open hatches.
**CERTIFICATES:**
Load-line certificate.
Certificate of Foreign Clearance.
Ship's Safety Certificate.
U.S. tonnage tax certificate of previous trip if available
Radio Operator Licence.
**CUSTOMS ALLOWANCES:** Tobacco, 200 cigarettes per man. Wine and/or Spirits, 1 bottle per person.
**CARGO GEAR:** No additional cargo gear necessary.
**IDENTIFICATION CARDS:** Form 1-95 must be filled-out on arriving unless seaman has had a prior one made out for a previous arrival on same ship.
**CONSULS:**
Norwegian: Allan Kjos-Hanse, 30 Mayer Road, Portland, Maine, Vice-Consul.
French: Dr. Paul O. Proudian, 776 Main Street, Westbrook, Maine.
Finnish: Frank W. Bjorklund, 163 Main Street, Norway, Maine.
Italian: Dr. Domenico A. Santoro, 43 Deering Street, Portland, Maine.
Panamanian: Mary Navarro de Cerrillo, Lafayette Town House, Portland.
Swedish: Martin Johnson, Vice Consul, 443 Congress Street, Portland.
**REPAIRS:** Repair facilities for all types of machinery available.
**DRY DOCKS:** Three basins divided into 7 berths which can handle a vessel up to 455 ft. long and 62 ft. wide (not currently activated). Also three other smaller marine slipways.
**REPATRIATION:** Arrangements must be made with Agent in advance by telegram.
**AIRPORT:** Portland Municipal Airport 3½ to 4 miles distant. Served by Northeast Airlines and Executive Airlines.
**HOLIDAYS:** New Year's Day; Washington's Birthday; Patriots Day; Memorial Day: Independence Day; Labor Day; Thanksgiving Day; Christmas and Veterans Day. Possible to get gangs to work all days except Labor Day and Christmas.
**POLICE/AMBULANCE/FIRE:** Police 773–5651; Ambulance 772–5463; Fire 772–6531.
**TELEPHONE:** Arrangements can be made to have phone put on ship, but most docks have pay phones.
**GENERAL:** Discussions underway with Coast Guard and other officials to install fixed lighthouse stations to replace lightships at entrance.
**AUTHORITY:** Maine Dept. of Transportation Bureau of Waterways, Maine State Pier, Portland, Maine 04111, (207 773–5608).

## PORTLAND, Oregon: 45.30 N. 122.40 W.

**PORT LIMITS:** The seaward boundary of the Port of Portland is Astoria, 96 miles North West of Portland.
**DOCUMENTS:**
3 Cargo Manifests.
3 Store Lists.
3 Crew Curio Lists.
3 Crew Lists.
1 Clearance from Last Port.
1 Tonnage Tax Certificate.
1 Copy of Vessel's Register.
1 Itinerary of Vessel, port by port.
**PILOTAGE:** When entering from sea (without service of bar Pilot) vessels or Agents must give notice between 0800 and 1700 and at least 12 hours prior ETA at Astoria. Calls may be placed with Astoria office (325–4532) or Portland office (228–9325) or by radio to "Colrip Astoriaore". River Pilots board at Astoria in channel in vicinity Astoria Crossing Lighted Buoy No. 37. Signal for river Pilot one long, three short whistles. When ordering bar Pilots, request by radio via KLB, Seattle, Wash., about 12 hours before arrival. Address Bar Pilots, "Astoria, Ore.," giving date and time of arrival at lightship. When "Peacock" on station Pilot boards from small power boat; when "Columbia" on station. Pilot boards directly from "Columbia". When Pilot boarding from small boat, maintain reduced speed about 4 knots. Do not change course or speed until signalled by pilot vessel. Vessels having radio telephone contact pilot vessels for instructions on following frequencies: radio phone watch Channel 16 VHF (156·8 mgc/s) also 2182 and 2738 kc/s. Pilot boat "Peacock" call WS 7217; pilot boat "Columbia" WZU 7337; Astoria bar pilots' office (Channel 16) KOK 360.
**ANCHORAGES:** The only designated anchorages are at Tongue Point (Astoria), Oregon. Two anchorages at No. 1 Lower Tongue Point, and No. 2 Upper Tongue Point. Additional locations Columbia and Williamette Rivers where safe anchorages can made upon advice of Columbia River pilots. Anchorage in Portla harbour by permission of Harbour Master.
**RESTRICTIONS:** No restrictions on night entry. State of tide draft restrictions not applicable to vessels drawing less than 40
**MAX. SIZE:** No restrictions length and breadth. Depth at Columb River entry 48 ft. River channel to Portland/Vancouver maintained 45 ft. by 600 ft. Seasonal tidal effect up to 3 ft. at Portland.
**HEALTH:** Radio pratique procedure extended to all vessels requ ing quarantine clearance. Vessels requiring clearance must comple Maritime Quarantine Declaration HSM 13.19 available from U.S Consular Offices abroad, from steamship agents, custom hou brokers, and U.S. Quarantine stations.
**RADIO:** Route ETA cables through KLBITT Seattle, Wash.
**TUGS:** Tugs normally join vessel at designated berth. Tugs line used at no charge.
**BERTHING:** Present depths alongside berths at new facilit 45 ft. minimum at mean low water. Older piers 35 ft. minimum at mea low water. A 1,341-ft. container/general cargo pier with a 40 to and a 50 ton straight line crane and two 65-ton gantry cranes. Pi has a 25-acre open storage yard with rail and truck service. Piersid warehouse about 80,000 sq. ft.

A container pier, length 1,400 ft. with three 50-ton straight li cranes and 60,000 sq. ft. Container freight station in service mid-19 
**BRIDGES:** No arrival times designated if coming from sea and excess of 750 tons gross. Departures regulated, with bridge closure during peak traffic flow (0700 to 0900 hours and 1615 to 1815 hour unless permission granted by Harbour Master.
**SPECIALISED CARGO HANDLING FACILITIES:** The po operates four public ocean cargo terminals containing 26 dee water berths, including five container berths with six high-spee container cranes. At terminal two, a 90,000 sq. ft. transit shed handle break-bulk cargo. Four straddle carriers, capable of stacking 20-foo containers three high, or 40-foot two high, serve the yard.

At Terminal four there is an 8,000,000 bushel capacity grain el vator, a box car tipper, truck dumper and eight storage tan capable of storing 5 million bushels of grain. Log dock is equippe with three whirley cranes. There is a Dravo bulk unloader wi digging capacity of 900 tons per hour for unloaded ores. Tank farm are available for special cargoes such as petroleum, molasses, tallo and ore concentrates.

There are general cargo berths and berths for commodities whic require special handling. Terminal two contains a roll-on/roll-o berth. Port facilities include 21 transit sheds, and four warehouse with almost 2 million sq. ft. of sprinkled storage area.

As well as six whirley cranes and a 150-ton capacity sheer le crane, there is a 175-ton mobile crane, largest of its kind on th Pacific Coast.
**STEVEDORES:** Allocation for gangs Monday to Saturday mu be confirmed at 1100 to longshore hiring hall. Allocation for gang Sunday and Monday made at 1100 Saturday for both day and nigh gangs. Same procedure applies to allocation of night gangs, bu night gangs may be cancelled by 1400 in afternoon if night gangs ar to work.
**MEDICAL:** Any type medical treatment provided and hospita facilities available. Only inoculation requirements for entry to U.S is smallpox, except when vessels have called at an area infected b another disease.

**TANKERS:**

| Berth | Max. Size Vessel<br>Length | Draft |
|---|---|---|
| Shell Oil Company | 575 ft. | 32 ft. |
| Standard Oil | 660 ft. – 700 ft. | 35 ft. |
| Texaco Inc. | 650 ft. | 30 ft. |
| Phillips Petroleum Co. | No maximum | 30 ft. |
| Time Oil Co. | 600 ft. | 40 ft. |
| Mobil Oil Corp. | 550 ft. | 31 ft. |
| Richfield | 600 ft. | 30 ft. |
| Union Oil Co. | 550 ft. | 30 ft. |

**DENSITY:** Fresh water at all times.
**FRESH WATER:** Available at all berths delivered through pier-sid connections.
**FUEL:** Viscosity grades of B and lower. No advance notice require Barging essential.
**FIRE PRECAUTIONS:** Fire precautions respecting tanker administered by U.S. Coast Guard, which enforces shipboard regu lations under the Code of Federal Regulations, Part 46, Sub-Part D Sections 20 to 40; the Police Harbour Patrol, which controls po movements, boards vessels to warn Master regarding harbou regulations, including spilling of oil, etc.; Fire Marshal exercise jurisdiction regarding fire regulations at shoreside facilities servi tankers.
**GANGWAY/DECK WATCHMEN:** Option of vessel owner/age and available through private firms.
**OPENING/CLOSING HATCHES:** While ship at dock, openin and closing is work of longshoremen. Ship may open or close ow hatches while underway.
**CERTIFICATES:** Registered tonnage certificate.
**CARGO GEAR:** Valid cargo gear certificate required, acceptab to U.S. Bureau of Labor Standards.
**IDENTIFICATION CARDS:** Immigration Dept. requires for No. 595 and No. 31 (Repatriation). Changes can be effected at an U.S. Consulate.
**CONSULS:** The following countries are represented in Portland

Austria
Belgium
Costa Rica
Denmark
El Salvador
Finland
France
Germany
Ghana
Great Britain
Iceland
Italy
Japan
Korea
Lebanon
Mexico
Netherlands
Nicaragua
Norway
Panama
Peru
Senegal
Sweden
Venezuela

**REPAIRS:** All types of deck and engine repairs possible.
**DRY DOCKS:** Three floating docks, largest 661 ft. long by 114 ft. wide.
**REPATRIATION:** Arrangements possible for crew changes or other repatriation.
**AIRPORT:** Airport 10 miles distant, served by eight regularly scheduled airlines with direct service and/or connections domestically and world wide.
**TIME:** GMT minus 8 hours. Daylight saving time becomes effective annually on the last Sunday in April through the last Saturday in October.
**HOLIDAYS:** *New Year's Day; President's Day (Feb. 21); Memorial Day (May 30); *Independence Day (July 4); *Labor Day (First Monday in September); Veterans' Day (Nov. 11), Thanksgiving Day, *Christmas Day (Dec. 25), State-wide Election Days. Other legal holidays may be proclaimed by state or national authority. When holiday falls on Sunday, the following Monday is observed as holiday. Longshore work performed on any of above listed days is overtime, which is one and a half time rate. Days marked (*) are stop-work days, i.e. no ships will be worked. This also applies to July 5, which observed locally on unilateral basis.
**POLICE/AMBULANCE/FIRE:** Police 226–7551; Fire 232–2111; Ambulance: provided by several private firms, but can be obtained through police or fire number.
**TELEPHONES:** Available by order from terminal superintendents at $5.00 connection charge.
**SERVICES:** All services available such as compass adjusting, major or minor repairs either with work barges or at ship repair berths; lay berths available; charts available from private companies; all chandlery supplies available.
**SHORE LEAVE:** Crew members permitted ashore except where vessel has made first arrival from Communist-controlled port.
**AUTHORITY:** Port of Portland, POB 3529, Portland, Oregon 97208. Tel. (503) 233–8331. Twx: 910–464–6151 FAX/FDH.

## PORT LAVACA/POINT COMFORT, Texas: 28.40 N. 96.35 W.

**DOCUMENTS:**
2 Cargo Manifests.
2 Stores Lists CF1303.
2 Crew's Effects Declaration CF1304.
1 Clearance from last Port.
Vessel's Register, tonnage, tax receipts, etc.
2 Copies Crew List.
2 Copies Passenger List.

**PILOTAGE:** Ship's Agents usually notify Matagorda Bay Pilots as to vessel's ETA. Pilot boat can be contacted on VHF Channel 16, then switch to Channel 26 to continue conversation. Pilot boards at buoy 1-A at position 28° 23′ N. 96° 17′ W.
**ANCHORAGES:** Marked on chart of Matagorda Bay and approaches.
**RESTRICTIONS:** Vessels may enter any time day or night. Entrance channel depth 38 ft. Bay Channel depth 36 ft.
**MAX. SIZE:** Alcoa Dock – size restricted only by channel depth of 38 ft. Public Dock – max. length approximately 600 ft. Draft controlled by channel depth of 38 ft.
**HEALTH:** Vessel may request radio pratique in accordance with USPH Form 13.19 or may be boarded by contract physician.
**RADIO:** Galveston Radio (ITT Mackay Marine) and Port Lavaca Marine operator can be contacted on VHF Channel 16, then switch to channel 26 for continued conversation.
**TUGS:** One tug available joining vessel shortly before arriving at berth.
**BERTHING:** Ore carriers berth at Alcoa private dock. All other vessels berth at Public Dock.
**STEVEDORES:** Richard Bugg & Co. Inc., PO Box 457, Corpus Christi, Texas. At Alcoa's Dock all plant labour is used.
**MEDICAL:** No advance notice required. Several clinics and one hospital available in Port Lavaca.
**DENSITY:** Average density is 1010/1012.
**FRESH WATER:** Fresh water available alongside berth.
**FUEL:** Not readily available, must be barged or trucked from either Houston or Corpus Christi. Very expensive.
**DEVELOPMENTS:** Plans for lengthening dock and another warehouse are now being considered.
**OPENING/CLOSING HATCHES:** At public Dock this is done by stevedores. At Alcoa Dock this is done by ship's crew.
**CERTIFICATES:** Load line, foreign clearance, safety equipment, financial responsibility (oil pollution), tonnage tax receipts, will be required.
**IDENTIFICATION CARDS:** Immigration Crew Landing Permit I-95 required for each man.
**CONSULS:** Only Norwegian Vice-Consul Tel. 512–987–2311.
**REPAIRS:** Only minor repairs possible. No dry docks.
**REPATRIATION:** Arrangements are possible but preferably should be accomplished in larger ports.
**AIRPORT:** Nearest airport 20 miles at Victoria, Texas, served by Texas International only, Corpus Christi airport about 90 miles; Houston airport about 150 miles.
**TIME:** Central Standard Time during winter. Beginning last Sunday in April until last Sunday in October, Daylight Saving Time (clocks are moved ahead one hour).
**HOLIDAYS:** All holidays observed by contract with ILA. See "Houston".
**POLICE/AMBULANCE/FIRE:** Police Department, 552–6767; Fire Department, 552–2222; Ambulance Service, 552–2988.
**TELEPHONES:** Telephones are available ashore only. Telephone booth on Public Dock.
**AUTHORITY:** The Calhoun County Navigation District, PO Box 107, Port Lavaca, Texas 77979. Telephone number: Area Code 512 – 987/2813.

Private Dock owned by Aluminium Company of America with its Agent being Alcoa Steamship Company Inc., PO Box 646, Point Comfort, Texas 77978. Telephone number: Area Code 512 – 987/2311

## PORT NECHES, Texas: 30.00 N. 93.57 W.

**DOCUMENTS, PILOTAGE, HEALTH, RADIO, etc.:** Refer to "Port Arthur".
**TUGS:** Meet vessel in Neches River before arriving at berth. Normally two tugs used for docking, one for undocking.
**BERTHING:** Jefferson Chemical Co.: distance from sea 30 m., depth at berth 36 ft. Texaco terminal: distance from sea 34 m., depth at berth 32 ft.
**MEDICAL:** All facilities available.
**DENSITY:** Fresh water.
**FRESH WATER:** Available by barge.
**FUEL:** Bunker C not available ex wharf at Texaco terminal, only by barge from Port Arthur or Beaumont.
**GANGWAY/DECK WATCHMEN:** Not required unless crewmen detained by Immigration.
**CUSTOMS ALLOWANCES:** 300 cigarettes and one quart wine or spirits for each man.
**IDENTIFICATION CARDS:** Foreign crew require only Immigration Landing Permit.
**CONSULS:** Nearest at Houston
**REPAIRS, DRY DOCKS:** See "Port Arthur".

## PORT ST. JOE, Florida: 28.49 N. 85.19 W.

**DOCUMENTS:**
All documentation must be on United States forms. At least:
3 Passenger Lists.
3 Crew Lists (1 for visa crew list).
3 Curio Lists.
3 Stores Lists.
2 Complete Manifests.
Clearance Papers from last port.

**PILOTAGE:** Apply for Pilot through ship's Agent – address is "Port St. Joe, Pilots" and advance ETA 18 hours. "VHF – Channel 16." Pilot boat station is at Sea Buoy, Port St. Joe only and location of anchorage for vessel awaiting a Pilot is 1 mile West of Sea Buoy.
**ANCHORAGES:** Local harbour charts indicate safe anchorages.
**MAX. SIZE:** Draft 28 ft. 6 in.
**HEALTH:** Quarantine inspection pratique on all ships entering from foreign port. Contagious disease kept under watch on board. Persons critically ill transferred to Municipal Hospital. All ships that have previously, on this voyage, docked at another United States port enter without inspection. Radio pratique granted under certain circumstances as per Maritime Quarantine Declaration.
**RADIO:** Call sign WLO, Mobile, Alabama.
**TUGS:** None presently available.
**STEVEDORES:** ETA must be received by 1800 in order to have gangs at 0800 following day.
**MEDICAL:** No notice required. Hospital facilities available. Inoculations required same as public health U.S. Government requirements.
**TANKERS:** Discharge lines 8 in. No residue discharge allowed. Two tanker berths 32 ft. draft.
**DENSITY:** Salt water – heavy concentration.
**FRESH WATER:** Available in unlimited quantities by hose connection from dock to ship, 1½ in. to 2½ in. size at 60 psi.
**FUEL:** Fueling facilities limited. Tanker trucks only. Two days advance notice advisable. Two grades of fuel oil available: *(a)* grade 6 – Bunker C – 156SSF at 122 degrees Fahrenheit; *(b)* Diesel oil – 36.5 SSU at 100 degrees Fahrenheit; *(c)* Gasoline, kerosene and motor oils available.
**GANGWAY/DECK WATCHMEN:** Only when requested by ship.
**OPENING/CLOSING HATCHES:** Work can be performed by either stevedores or crew.
**CUSTOMS ALLOWANCES:** one carton of cigarettes per week per crew member permitted. Further allowances would depend on circumstances. Wine and/or Spirits one bottle per crew member as allocated by Customs.
**CARGO GEAR:** Must be in compliance with "U.S. Government Longshoremen Safety Codes".
**CONSULS:** None.
**REPAIRS:** None.
**DRY DOCKS:** None.
**REPATRIATION:** Can be accomplished by Agent and Immigration but should be accomplished in larger ports if possible.

**AIRPORT:** Served by regular airlines. (Southern Airways, National Airways). Six combined flights a day. Distance 40 miles.
**TIME:** Saving time from first Sunday in May to last Sunday in October. GMT minus 5 hours Standard Time. GMT minus 4 hours daylight saving time.
**HOLIDAYS:** No Work Holidays—No work performed New Year's Day, Fourth of July, Labor Day, Christmas Day, or December 24 & December 26, and Easter Sunday, except handling of mail, baggage and perishables (except bananas) or unless a ship is in distress, such as fire or leaking bottom, or, other causes that would damage cargo or vessel. In event work done on New Year's Day, Fourth of July, Labour Day, Christmas Day, December 24 & December 26, or Easter Sunday, rate of pay for such ship work shall be double the normal time rate. Should above holidays fall on Sunday, double time will be paid. Following Monday will be paid at time and one-half.

Working Holidays—Armistice Day, Thanksgiving Day and Memorial Day are to be paid for at overtime rate – one and one-half times straight-time rate. Should any of above holidays, except Sunday fall on Sunday, the following Monday will be observed.
**POLICE/AMBULANCE/FIRE:** Police 227–3181; 227–4526; Ambulance 227–3511 (Comforter), 227–2491 (Prevatt), 227–4011; Fire 227–4011.
**TELEPHONES:** None available for placing aboard.
**GENERAL:** In sending ETA when ship is going to arrive over weekends (Saturday and Sunday), a notice wire should be placed and notice ETA should arrive prior to 1700 Friday.
**SHORE LEAVE:** Shore leave allowed when cleared by Immigration.
**REGULATIONS:** Normal working hours of longshoremen from 0800 to 2230 only seven days a week.
**DELAYS:** Only when due to port congestion.
**AUTHORITY:** Port St. Joe Port Authority, PO Box E, Port St. Joe, Florida. 32456.

## PORT SAN LUIS, California: 35.10 N. 120.45 W.

**TERMINAL OPERATORS:** Union Oil Company, Avila Beach, California. Tel. 805 595 2069.
**MAX. SIZE:** Tankers up to 750 ft. length and 26 ft. draft.
**RADIO:** Vessels should contact Union Oil Company through Marine Operator. "Walkie-talkie" sets used for communication with terminal. VHF station KTD 411, Channels 10 and 16.
**BERTHING:** Tanker berths only at Union Oil Company Pier. Vessels tie off pier at berths No. 4 and 5. Depth alongside 36 ft. MLW.

Two 12-in. and one 16-in. load/discharge lines. Ballast discharge available through one 8-in. line to ballast tank of 20,000 barrels max. capacity.
**DENSITY:** Salt water, 1025.
**FRESH WATER:** Limited amounts only available from the pier.
**FUEL:** Not available.
**CONSULS:** Nearest consuls situated at Los Angeles and San Francisco.
**AIRPORT:** County Airport, San Luis Obispo, situated 12 miles distant. Two flights daily to Los Angeles and to San Francisco.
**AUTHORITY:** Port San Luis Harbor District, PO Box 248, Avila Beach, California.

## PORT SULPHUR, Louisiana: 29.28 N. 89.41 W.

**DOCUMENTS/HEALTH ETC:** Refer to "New Orleans".
**PILOTAGE:** A vessel coming into port from sea can arrange to pick up a Bar Pilot (Associated Branch Pilots) by furnishing ETA to the ship's Agents, radio contact by VHF Channel 9 and AM Channels 2738 and 2183. Bar Pilot is exchanged for river Pilot at head of Passes, Pilot town, Louisiana. River Pilot (Crescent River Port Pilot's Association) can be arranged through ship's Agent in New Orleans and radio contact as above. Vessel awaiting Pilot for departure may remain at dock until Pilot arrives. Advance notice of three hours is required for departing Pilots. This can be arranged by the ship's Master with our shipping foreman.
**ANCHORAGES:** Anchorage is available on East bank of river opposite to Freeport Sulphur Company dock. Depth of water at anchorage is 40 ft, the controlling depth in the river.
**RESTRICTIONS:** No restrictions for entry because of time of day, nor conditions of tide or draft except the controlling depth of Mississippi River to Port Sulphur (35–40 ft. as published in reports by U.S. Army Corps of Engineers).
**MAX. SIZE:** Maximum permissible length – 560 ft., breadth not limited, draft equal to controlling depth of river.
**RADIO:** Tropical Radio WNU New Orleans.
**TUGS:** Tugs not normally required. Shore crews usually handle ship's lines. Tug may join the vessel opposite the dock. Charges for handling ship's lines.
**STEVEDORES:** Not normally required. When requested, stevedoring services can be obtained from port of New Orleans; contact ship's Agents for particulars.
**MEDICAL:** Advance notice for personnel requiring medical service is required through ship's Agents. Hospital facilities are available.
**TANKERS:** One tanker berth, permitted draft equal to or greater than controlling depth of Mississippi River. Diameter of loading/discharge lines is 12 in. and 16 in. respectively.
**DENSITY:** Density in port not affected by tide. Fresh water.
**FRESH WATER:** Fresh water is available, can be loaded with 1½ in. fire line.
**FUEL:** Fuel may be loaded by barge with vessel at anchor. F transfer is not permitted at dock.
**FIRE PRECAUTIONS:** No welding repair permitted at docksi Fuel transfer is not permitted. No other specific precautions obse ved except for "no smoking" precautions, etc.
**GANGWAY/DECK WATCHMEN:** Services of watchmen d sirable but not required. Port does not furnish this service.
**CERTIFICATES:** Certificate of condition of cargo handling ge required when use of gear is necessary.
**IDENTIFICATION CARDS:** Immigration form I–95.
**CONSULS:** Consuls offices are located in New Orlean Louisiana.
**REPAIRS:** Engine and deck repairs are possible when the dock not otherwise occupied.
**AIRPORT:** New Orleans International Airport, served by mo major airlines. 55 miles from Port Sulphur.
**TIME:** Local time is Central Standard Time, except from May/Oc ber, Daylight Saving Time is in effect.
**HOLIDAYS:** Vessels are loaded on all holidays except Christma Day.
**POLICE/AMBULANCE/FIRE:** Port Sulphur, Louisiana, 564-25 564–2525; 564–3231, respectively.
**TELEPHONES:** Jacks for telephones are provided at no additio cost to tankers loading at port.
**SHORE LEAVE:** Crew members are allowed ashore.
**DELAYS:** Loading will not commence until all holds are clean scale and other foreign matter.
**AUTHORITY:** Private port, Freeport Sulphur Company, Po Sulphur, La., tel. 564–3341; New Orleans Office, Freeport Su phur Company, New Orleans, La., tel. 529–4393; teletype 810-98 5386.

## REDWOOD CITY, California: 37.50 N. 122.28 W.

**DOCUMENTS, PILOTAGE** and all general information refer t "San Francisco".
**RESTRICTIONS:** Though a natural deep water channel extend down the bay to Redwood City there is controlled depth chann 500 ft. wide and 30 ft. deep across San Bruno Shoal. The entran channel to the port is 2 miles long and 30 ft. deep (all depths are MLLW) and 300 to 350 ft. wide. There are two large turning basins either end of the port harbour channel.
**BRIDGES:** The San Mateo Hayward Highway Bridge with a vertic clearance of 138·5 ft. and horizontal of 500 ft. crosses the ship channe
**BERTHING:** *Wharf No. 1*, 500 ft. of berth space, and *Wharf No.* 355 ft. of berth space, are dredged to a depth of 32 ft. alongsid Wharf No. 1 has 32,000 sq. ft. There are pipe-line connections f petroleum products and bulk cement.

*Wharf No. 3* is an open wharf, 450 ft. long, and is used primarily f handling lumber and gypsum rock. It also has petroleum pipe-line

*Wharf No. 5* has 500 ft. of berthing space with a depth of 33 f alongside. It was designed to accommodate large oil tankers an freighters, and for handling heavy lifts.

Capabilities include complete facilities to handle LASH (Ligh Aboard Ship) system.
**AUTHORITY:** Port of Redwood City, 775 Harbor Bouleva Redwood City. California 94063. Tel. (415) 365–1613.

## RICHMOND, California: 37.56 N. 122.25 W. (See Pla

(a) *STANDARD OIL COMPANY OF CALIFORNIA TERMINAL.*
(b) *OTHER TERMINALS AT RICHMOND.*

### (a) STANDARD OIL COMPANY OF CALIFORNIA TERMINAL

**DOCUMENTS** and all general information, refer to "Sa Francisco".
**LOCATION:** Richmond Long Wharf and Point Orient Wharf a situated on North East side of San Francisco Bay, a protect harbour. The refinery and storage tanks are near the wharves.

The exact position of the Long Wharf is Lat. 37° 55′ 20″ N. Lon 122° 24′ 35″ W. Wharf heading is 324° to 144°.

The exact position of the Point Orient Wharf is Lat. 37° 57′ 20″ Long. 122° 25′ 39″ W. Wharf heading is 356° to 176°.

There is adequate anchorage and room for manoeuvring in the ba
**MAX. SIZE:** The main ship channel into San Francisco has project depth of 50 ft. However, the 35 ft. depth of the Southampto Shoal channel restricts the size of ships to wharves.
**LIGHTENING:** When a lightening operation is necessary th terminal management will direct the ship to anchorage nine. Th ship to be lightened will install fenders before the lighter ties alon side. The terminal will provide the fenders. The lightening supervis and ship's officer will hold a meeting to discuss the cargo transf During transfer, follow the same precautions and safety regulatio that apply to cargo transfer at the wharf. The transfer rate will b regulated by the lightening vessel. The lightening supervisor w observe all the lightening operations. The terminal will provide o spill recovery equipment during lightening.
**RADIO:** San Francisco harbour advisory radar system, designat bridge-to-bridge frequency: VHF Channel 18a (156·9 mHz).

Federal communication regulations require that at any time VH radio is in operation, Channel 16 must be monitored (156·8 mH distress and calling frequency).

The 2–3 mc. radio telephone call letters for the San Francisc Bay area are KLH.

Richmond Long Wharf (radio call – Chevron Shipping) is equipp with VHF radio, manned 24 hours per day. Channel 10 (156·5 mH is the operating frequency. While at anchor, in San Francisco Bay, vessels should maintain normal listening watches on VHF Channel 10.

The Master of a vessel bound for San Francisco Bay is requested to advise Chevron Shipping (Cables address: Chevronship Richmond Sanfrancisco) of ETA, seven days, three days and again one day (24 hours) before arrival at the wharf. First ETA message should include:

Estimated time of arrival at the wharf (local time).
Last port of call.
Estimated deep draft at arrival.
Quantity of ballast to be discharged.
Quantity and grade of cargo to be transferred.
Distance from bow to cargo and bunker manifolds.
Size and type of cargo and bunker connections.
Quantity and grade of bunkers and lubes required.
Quantity of fresh water required.
Number of crew replacements expected.
Amount of provisions and stores to be loaded.
Repair work anticipated.
Make 24-hour ETA as accurate as possible and whenever arrival time changes, by one hour or more, send a correcting message promptly.

**BERTHING:** At least one hour before docking contact Chevron Shipping, in Richmond, by VHF radio (Channel 10, 156·5 mHz) and request a berth assignment. They will try to berth as soon as you arrive. However, if no berth is available, anchor in the prescribed anchorage (as directed by the captain of the port) and maintain radio contact with Chevron Shipping, Richmond.

There are two piers that accommodate oil transfers. They are referred to as Richmond Long Wharf and Point Orient Wharf.

*Long Wharf:* Richmond Long Wharf, a "T"-head pier, has an overall length of 2,464 ft. It consists of concrete and wooden piles and a concrete superstructure connected to the shore, 4,200 ft. away by a piled causeway. The fender-to-fender width is 114·5 ft.

There are four deep water berths on the West side, each approximately 600 ft. long. They are numbered 1 to 4 from South to North. Water depth is 38 ft. at MLLW. Carefully observe deep draft during periods of low water. There is an inner berth, No. 5, that may be used for bunkering small ships; water depth is 18 ft. at MLLW. The other inner berths, Nos. 6 to 12, are used primarily for barge loading.

*Point Orient:* The Point Orient wharf, an "L"-head pier, is 2¼ miles North of the long wharf. It is 504 ft. long and 60 ft. wide. It is supported on wooden piles and has a causeway that extends 1,200 ft. to the shore.

There is one ship berth, No. 1, where the water depth is 36–40 ft. at MLLW. There is also one barge berth No. 2.

**LOADING AND UNLOADING:** All berths are fitted with 4-, 6- and 8-in. hoses for cargo transfer. Berth No. 4 is fitted with one 8-in. and two 12-in. Chiksan loading arms. Berth 1, at the Long Wharf, has a similar Chiksan system – two 12-in. arms. All flange facings are ANSI 150-pound rating.

Several products can be loaded at each berth.

**BALLAST:** The terminal has facilities to receive some ballast (maximum capacity 25,000 bbl/s – normal capacity 15,000 bbl/s). However, arrangements for this to be made through Agent before arriving at the wharf. All ballast to be discharged must be pumped to shore while berthed at wharves.

**POLLUTION:** The Federal Water Pollution Control Act prohibits the discharge of oil or oily waste in the waters of San Francisco Bay which causes a film or sheen on the water or discolours it or causes a sludge or emulsion beneath the surface of the water.

Regulations enforced by the Bay Area Pollution Control District also prohibit the emission of smoke and soot. Vessel can be fined if it emits visible smoke (Ringelmann 1) for more than three minutes in one hour, or blows its boiler tubes enough to create a soot nuisance on shore.

In addition, the terminal has certain regulations designated to eliminate obnoxious odours. Vessel may, therefore, be required to follow special procedures before tank cleaning, loading or ballasting. If, in spite of precautions, vessel does cause such odours, loading or unloading operations may be stopped.

**MEDICAL:** No facilities at wharves. Local ambulance may be reached at: Cadillac Ambulance Service (415) 234–3242; Alhambra Air-ground Ambulance Service (air) (415) 228–1096; California Aviation Service Inc. (air) (415) 569–3855.

**FUEL:** Many grades of bunkers, diesel and lubricating oils are available in bulk or drum quantities. Agents order them from Traffic and Distribution or Chevron International at least 48 hours before vessel arrives, otherwise, vessel may be delayed.

To take on bunkers and diesel, vessels must be able to connect to terminal's 3-in., 4-in. or 6-in. 150-lb. ANIS flanges.

**PROVISIONS:** Provisions and stores will be loaded only at Richmond Long Wharf, and only when loading does not interfere with cargo or ballast transfer. If vessel is large and not equipped with booms, Agent need to supply a crane for the loading. Stores will not be handled by wharf personnel.

**FRESH WATER:** Potable water provided. Make arrangements through Agent.

**REPAIRS:** Terminal Management approval required for any repairs, hot work or maintenance work at the piers. No repairs will be allowed that delay cargo transfer or lengthen the time it takes.

**SHORE LEAVE:** Ship's personnel are not permitted ashore and shore personnel are not permitted aboard for any purpose whatsoever until pratique has been granted. Once it is granted, no one may walk to shore on the Long Wharf causeway.

**AUTHORITY:** Standard Oil Co. of California, Richmond, California.

### (b) OTHER TERMINALS AT RICHMOND

**BERTHING:** *Parr–Richmond Bulk Commodity Wharf:*

*Owners:* Parr–Richmond Terminal Co.

*Operated by:* Parr–Richmond Terminal Co.

*Use:* Receipt and shipment of various dry-bulk commodities.

*Water Depth:* 35–36 ft.

*Mechanical handling facilities:* On wharf; four 50-ton electric, travelling full portal gantry cranes, each with 100-ft. boom and two 45-ton electric travelling full portal gantry cranes, each with 118-ft. boom, 36-in. belt conveyor for shiploading with 10,000-ton-capacity covered storage warehouse.

*Santa Fe Sugar Dock:*

*Owned and operated by:* Atchison, Topeka and Santa Fe Railway Co.

*Use:* Receipt of sacked sugar by inland waterway vessels for transfer to railroad cars.

*Dimensions:* Length of face 545 ft., lower end 51 ft.; depth alongside at MLLW 24 ft.

*Levin Metals Corporation:*

*Owner:* City of Richmond Port Commission.

*Operated by:* Levin Metals Corporation.

*Use:* Scrapping of ships, consolidation of scrap and export loading of cargo.

*Dimensions:* Length of face 555 ft. each; Pier 1 depth 35–38 ft., Pier 2, 17 ft.

*Richmond Terminal No. 3 General Cargo Wharf:*

*Owners:* City of Richmond.

*Operated by:* Canal Industrial Park.

*Use:* Receipt and shipment of general cargo in foreign and domestic trade, automobiles; bulk liquids, including petrochemicals, chemicals, and vegetable oils.

*Dimensions:* Length of face 900 ft.; South side 75 ft.; depth alongside at MLLW 35–32 ft.; usable berthing space with dolphins 960 ft.

*Mechanical handling facilities:* Forklift trucks and other types of cargo-handling equipment are available.

*Remarks:* Face of wharf is in line and contiguous with the face of adjacent wharf providing 1,340 ft. of continuous berthing.

*Richmond Terminal No. 4 Wharf:*

*Owners:* City of Richmond.

*Operated by:* Richmond Terminal Agency, Pacific Molasses Co. Ltd., & Dorward & Sons Co.

*Use:* Bulk Liquids.

*Dimensions:* Length of face 1,047 ft.; South side 175 ft.; North side 100 ft.; depth alongside at MLLW 32–50 ft.

*Canal Industrial Park and Willamette Iron & Steel Co.:*

*Owner:* City of Richmond Port Commission.

*Operated by:* Canal Industrial Park (Pasha Truckway) & Willamette Iron & Steel Co.

*Use:* Import service and delivery of foreign automobiles; ship repairs.

*Dimensions:* Length of face 700 ft.; depth alongside at MLLW 35 ft.; usable berthing space with dolphin 900 ft.

*Mechanical handling facilities:* Mobile handling equipment available. Complete range of crane and ship facilities for major ship repair.

**TANKERS:** *Atlantic Richfield Tanker Dock:*

*Owned and operated by:* Atlantic Richfield Co.

*Use:* Receipt and occasional shipment of petroleum products; bunkering vessels.

*Dimensions:* Length of face approx. 250 ft.; lower and upper sides 40 ft. each.

*Atlantic Richfield Barge Dock:*

*Owned and operated by:* Atlantic Richfield Co.

*Use:* Receipt and shipment of petroleum products by barge; bunkering vessels.

*Dimensions:* Length of face 150 ft.; depth alongside at MLLW 34 ft.

*Richmond Terminal No. 1 Wharf:*

*Owners:* City of Richmond.

*Operated by:* Petromark Inc.

*Use:* Receipt and shipment of petroleum products, chemicals and petrochemicals.

*Dimensions:* Length of face 557 ft.; West side 90 ft.; East side 90 ft.; depth alongside at MLLW face 33 ft.; West side 33 ft.; East side 32 ft.

*Richmond Terminal No. 3 Liquid Cargo Wharf:*

*Owners:* City of Richmond.

*Operated by:* Canal Industrial Park.

*Use:* Receipt and shipment of vegetable oils, chemicals and petrochemicals.

*Dimensions:* Length of face 380 ft.; depth alongside at MLLW 34–32 ft.

*Texaco Wharf:*

*Owners:* Texaco Inc.

*Operated by:* Texaco Inc.

*Use:* Receipt and shipment of petroleum products.

*Number of berths:* 1.

*Water depth:* 35 ft.

*Time Oil Company Wharf:*

*Owned and operated by:* Time Oil Co.

*Use:* Receipt and shipment of petroleum products.

*Number of berths:* 1.

*Water depth:* 35 ft.

*Special remarks:* Three 10-in. pipe-lines extend to 25 steel storage tanks in rear; total capacity of 618,000 barrels.

*Union Oil Co. Tanker Dock:*

*Owned and operated by:* Union Oil Co. of California (also services GATX Terminal).

*Use:* Receipt and occasional shipment of petroleum products; bunkering vessels.

*Dimensions:* Length of face 225 ft.; lower end 45 ft.; upper end 45 ft.; depth alongside at MLLW 35 ft.

*Mechanical handling facilities:* Hosehandling at wharf is by ship's gear and small tractor crane.

*Union Oil Co. Barge Dock*

*Owned and operated by:* Union Oil Company of California.

*Use:* Shipment and occasional receipt of petroleum products; bunkering vessels.

*Dimensions:* Length of face 150 ft. (approx.); lower end 45 ft.; depth alongside at MLLW 35 ft.

*Mechanical handling facilities:* Hosehandling at wharf is by ship's gear and small tractor crane.

*Remarks:* Wharf and Tanker Docks are spaced about 230 ft. apart; together they provide one large tanker berth.

## RICHMOND, Virginia: 37.32 N. 77.25 W.

**DOCUMENTS:** See "Hampton Roads".
**PILOTAGE:** Entrance through Hampton Roads. Virginia Pilots Assn. original contact same as for Norfolk, Virginia. Pilots will arrange for change of pilots to proceed up the James River.
**ANCHORAGE:** Hampton Roads anchorage, also river anchorage approximately 40 miles up river, shown as "Upper Brandon" on charts.
**RESTRICTIONS:** Navigation of river above Upper Brandon recommended in daylight hours, except vessels under 250 ft. length.
**MAX. SIZE:** Maximum length recommended by pilots 550 ft., draft 21 ft. 6 in. any tide, depth of channel 25 ft. mean low water tide, change 3 ft. 5 in.
**HEALTH:** See "Hampton Roads".
**RADIO:** See "Hampton Roads".
**TUGS:** Not needed for berthing unless vessel is to be turned around on arrival. Tug available at Terminal on reasonable notice.
**BERTHING:** Vessels berth alongside wharf 1,200 ft. long.
**BRIDGES:** Two bridges across river between Hampton Roads and Richmond. No specific time or notice required.
**STEVEDORES:** Arrangements to be made through Agents. 48 hours notice requested.
**MEDICAL:** Vessels cleared by U.S. Health officials at Hampton Roads before proceeding up river.
**DENSITY:** Water considered as 100% fresh.
**FRESH WATER:** Available at pier.
**FUEL:** Bunkers available only at Hampton Roads.
**GANGWAY/DECK WATCHMEN:** None required, unless crew detained by U.S. Immigration.
**OPENING/CLOSING HATCHES:** On bulk cargo usually opened and closed by ship crew, also steel hatches handled by ship crew, sometimes determined by terms of Charter.
**CERTIFICATES:**

Ship's register.
Load-line Certificate.
Safety Certificate.
Tonnage tax receipts.
Certificate of nationality.
Passenger Certificate.

**CUSTOMS ALLOWANCE:** Tobacco, 200 cigarettes (1 carton for 2/3 days) if further allowance is needed Customs Officer will return on request of Master. Wine and Spirit, 1 bottle per officer, Customs Officer will return on request of Master.
**IDENTIFICATION CARDS:** Immigration landing permit required.
**CONSULS:** No consuls in Richmond, handled through Hampton Roads if needed.
**REPAIRS:** Only minor repairs, no shipyards.
**REPATRIATION:** Handled through Norfolk, Virginia.
**AIRPORT:** Approximately 10 miles from port, regular airline service.
**TIME:** Eastern time GMT minus 5 hours. Daylight saving time from first Sunday in May to last Sunday in October.
**HOLIDAYS:** January 1, May 30, July 4, Labour Day (first Monday in September), Thanksgiving Day, Christmas Day.
**POLICE/AMBULANCE/FIRE:** Police 644–9461; Ambulance 644–9404; Fire 649–9191.
**TELEPHONES:** No arrangements for placing aboard vessels.
**SHORE LEAVE:** Allowed. Proper papers should be available.
**AUTHORITY:** Port of Richmond Advisory Commission, 217 Governor Street, Richmond, Virginia 23219.

## RIVERHEAD, Long Is., New York. Petroleum fuel storage terminal operated by Northville Industries Corporation. (See Plan)

**DOCUMENTS:** See "New York".
**LOCATION:** Steel berthing jetty, with North and South berths, is situated in latitude 41° 00′ 01″ North and longitude 72° 38′ 50″ West. One and two-tenths nautical miles offshore from Long Island and four miles 257° true from Mattituck Inlet Light. A white flashing bell buoy is situated three-tenths mile West-north-west of the jetty which has four navigation lights situated on each corner of the structure flashing every second.
**PILOT:** Pilot arranged by ship's Agent. Generally Pilot boards off Brenton Reef Lightship or at South-east buoy, Block Island. Distance from Brenton Reef 65 miles and 69 miles from Block Island.
**ANCHORAGE:** Vessels arriving at night or at times not suitable for mooring should anchor 1 to 1½ miles North-east of lighted bell-buoy marking area. Holding ground good and 75 fathoms of chain in t water is considered safe. Mooring Master and crew will board abo one hour prior scheduled mooring time. Generally launch does n arrive before this time except for emergency.
**MAX. SIZE:** Length in North berth 1,150 ft. LOA and draft not exceed 60 ft. Length in South berth 550 ft. LOA and draft not to exce 50 ft.
**TUG SERVICE:** Arranged by ship's Agent. Tug boats genera come from New Haven. When ordering tug, sufficient time shou be allowed for tug to cross Sound, a distance of approximately miles.
**RESTRICTIONS:** Vessels are moored on any stage of the tide an during daylight hours only.
**COMMUNICATION:** Telephone at Riverhead Park 7–5600 (Co for station to station: dial 516 PArk 7–5600). Cable Address Nor ville Riverhead New York. Radio I.T.T. Amagansett.
**BALLAST:** No ballast disposal facilities. Long Island Sound inland water and United States Anti-pollution Regulations rigid enforced. No bilge water, oil-contaminated water, garbage or a waste matter which may pollute sea water is to be discharged ove board while vessel within Long Island Sound and approaches.
**STORES/FRESH WATER/FUEL:** No fresh water faciliti Small quantities provisions may be purchased at local stores Riverhead, 4 miles inland. All services contingent upon Moorin Master's approval and on weather conditions. No fuel availab except by barge from New York.
**QUARANTINE, CUSTOMS AND IMMIGRATION:** New Yo City is port of entry for Northville. Entry and clearance must b arranged by ship's Agent. Boarding officers board in the anchora prior to arrival within mooring area. Pertinent Government officia should be advised in sufficient time, usually not less than 24 hou Monday through Friday and 48 hours on Saturday and Sunda Generally, entry and clearance can be arranged by agent who shou advise Customs well in advance of vessel's arrival, thus savi necessity of having Master go to Custom House in New York. Whe pratique granted, Mooring Master will board vessel to assist Maste to moor in berth.
**MEDICAL:** Hospital in Riverhead. Medical attention must be arra ged by ship's Agent. U.S. Public Health Service not available local Nearest Marine Hospital in New York City 80 miles West of Rive head.
**BERTHING:** North berth: Vessels berthed during flood tide curre will moor starboard side to and during the ebb tide current wi moor port side to. Forward and stern spring lines are secured to th breasting dolphins and bow and stern lines are secured to fo mooring buoys situated South of the jetty.

South berth: Vessels berthed during flood tide current will moo port side to and during the ebb tide current will moor starboard sid to. Forward and stern spring lines are secured to the breasti dolphins in the South berth and bow and stern lines are secured t the North berth breasting dolphins.

Masters will note that jetty is situated in an open roadstead an that all mooring equipment must be in proper working order and i good condition. If, in the opinion of the Mooring Master, the vessel mooring equipment is inadequate the vessel will not be permitte to remain in the berth.

Vessels must be equipped with manilla or better mooring lines o not less than 8 in. circumference and not less than 90 fathom length.

Vessels having wire moorings secured on warping winches wi surge valve and brake are very acceptable. Warping winches must b adequate to handle mooring lines under heavy strain. Efficie stopper lines must be readily available to "stop off" mooring line for transfer from winch to bitts without loss of tension.

Mooring Master will pilot vessel into moorings, supervise moori and unmooring operation and connecting and disconnecting steel loading arms.

**OIL TRANSFER CONNECTIONS:** In each berth there are tw steel loading arms with reducers from 12 in. to 10 in., from 12 in. 8 in. applicable to standard U.S. flanges.
**LOADING AND DISCHARGE OF CARGO:** Oil transfer opera tions are entirely in accord with the Rules and Regulations of th United States Coast Guard. Declaration of Inspection by the Doc Person in Charge and the Vessel Person in Charge must be com pleted prior to commencement of any oil transfer operations.
**WEATHER AND TIDE:** Strong winds from North and North-wes experienced during winter and spring. Tide during maximum eb and flood often reaches 3½ to 4 knots velocity.
**VHF:** Communication with shore and launch via portable VH radiophone. This equipment on continuously during vessel's sta Mooring Master's crew maintain radio watch and constant com munication with shore for general purposes and emergencies.
**DENSITY:** Flood tide density 1025. Ebb tide density 1020.
**CUSTOMS ALLOWANCES:** Tobacco, Wine and/or Spi Allowance: Same as permitted in New York Harbour.
**IDENTIFICATION CARDS:** Issued by Immigration Officer.
**CONSULS:** All Consuls Offices located in New York City.
**REPAIRS:** No repair facilities available.
**DRY DOCKS:** At New York Harbour.
**REPATRIATION:** Agent arranges all crew repatriation via Ne York.
**AIRPORT:** New York Airports 80 miles distant.
**TIME:** Standard time GMT minus 5 hours. Daylight Saving Tim first Sunday of May to last Sunday of October GMT minus 4 hou
**POLICE/AMBULANCE/FIRE:** Terminal attends Polic Ambulance and Fire services.
**SHORE LEAVE:** Shore leave permissible.

**LAUNCH SERVICE:** The terminal does not provide launch service for crew shore leave. There is a local contractor who has launch service available and arrangements must be arranged by the vessel's local Agent.

**AUTHORITY:** Northville Industries Corp., PO Box 111, Riverhead, N.Y. 11901.

## ROCHESTER, New York: 43.17 N. 77.36 W.

Refer to "St. Lawrence Seaway" for important general information.

**ANCHORAGE:** No anchorage available within harbour limits.

**MAX. SIZE:** Channel depth 23 ft. (LWD). All depths in channels or alongside wharves should be checked carefully against the latest recorded elevated or lake level. This may vary from month to month. Entrance width 300 ft., turning basin depth 23 ft., 600 ft. in width.

**TUGS:** Available. Arrange via ship's Agent.

**BERTHING:** Entrance piers are parallel to each other, and about 450 ft. apart. The West Pier is 3,036 ft. long and the East Pier 2,699 ft. long. Fog horn and beacon on West Pier, East pierhead lighted. Radio beacon. Port Authority Terminal located on West bank of Genesee River at end of Lake Pier. Has a quay wall of about 1,400 ft. in length, Depth of water alongside 23 ft. (LWD). Charlotte Docks located about 2 miles upstream from mouth of river on West bank. Consists of gravity bulk coal loading facilities and cement loading.

**BRIDGES:** New York Central Railroad swing bridge near mouth of the river and upstream from Port Authority Terminal. Traffic lift bridge about ½ mile upstream from railroad bridge.

**STEVEDORES:** Available by request. Charges to suit individual commodities.

**DENSITY:** Fresh water.

**FRESH WATER:** Available at both docks.

**FUEL:** Available coal bunker facilities, at Charlotte Docks. Oil may be furnished direct from trucks at Port Authority Terminal.

**IDENTIFICATION CARDS:** Required.

**CONSULS:** None.

**REPAIRS:** Minor only.

**REPATRIATION:** Can be arranged.

**AIRPORT:** Approximately 10 miles from port.

**POLICE/AMBULANCE/FIRE:** Police, 232–3311; Ambulance/Fire, 232–2121.

**SHORE LEAVE:** Allowed.

**AUTHORITY:** Rochester-Monroe County Port Authority, 4664 Lake Avenue, Rochester 12, N.Y. Tel. 716–663–6600.

## SACRAMENTO, California: 38.32 N. 121.30 W. (See Plan)

**DOCUMENTS/HEALTH:** See "San Francisco."

**PILOTAGE:** Pilots board vessel in San Francisco Bay.

**RESTRICTIONS:** *Ship Channel:* Distance, Fort Point to Sacramento, 79 nautical miles (146 kilometres). Bottom width in river reach 300 ft. (91·4 metres). Bottom width in channel reach 200 ft. (61·0 metres). Minimum depth at MLLW tide 30 ft. (9·1 metres).

*Harbour:* Area 60 acres (24·3 hectare). Minimum depth at MLLW tide 30 ft. (9·1 metres). Tidal variation average 5 ft. (1·5 metres).

**MAX. SIZE:** 750 ft. LOA and 110 ft. beam, 30 ft. deep at MLLW.

**RADIO:** KBA 386, 156·9 megacycles (24 hours).

**TUGS:** Join vessel at Light 99 (turning basin).

**BERTHING:** Anchor – ships will have at least one anchor ready to let go in case of emergency, when docking or undocking. Anchor will be raised immediately upon ship being made fast to wharf.

Insurance lines are required on off-shore side, fore and aft, immediately after ship is made fast to wharf.

A cargo net shall be securely placed under gangways. Save-all nets shall be rigged abreast of holds at which general cargo is being handled.

Rat guards, at least 3 ft. in diameter, shall be placed on all mooring lines immediately after docking, and shall be maintained in place until ship's departure.

*Pier 1:*

*Owned and operated by:* Port of Sacramento.

*Use:* Bulk-loading rice facility.

*Construction:* Concrete with timber fender piles, length 600 ft. (182·9 metres).

*Water depth:* 32 ft. (9·8 metres).

*Storage capacity:* 22,000 tons; 8 silos at 2,200 tons each; 6 silos at 470 tons each; silos at 270 tons each.

*Mechanical handling facilities:* Three loading spouts dockside, conveyor system to storage facility.

*Loading rate:* 600 tons per hour.

*Wharf 2:*

*Owned and operated by:* Port of Sacramento.

*Use:* General cargo.

*Construction:* Concrete with timber fender piles; apron width 60 ft. (18·3 metres); length 600 ft. (182·9 metres).

*Water depth:* 30 ft. (9·1 metres).

*Transit sheds:* One, 40,000 sq. ft.

*Pier 5:*

*Owned by:* Port of Sacramento.

*Operated by:* Cargill of California, Inc., as a public utility.

*Use:* Bulk-grain facility.

*Construction:* Concrete and steel silos; concrete with timber fender piles; length 600 ft. (182·9 metres).

*Water depth:* 32 ft. (9·8 metres).

*Storage capacity:* 1,250,000 bushels (30,000 tons); 17 concrete silos; total capacity 500,000 bushels; 6 steel silos; total capacity 750,000 bushels.

*Mechanical handling facilities:* Conveyor system to storage facility.

*Wharf 6:*

*Owned and operated by:* Port of Sacramento.

*Use:* General cargo and containers.

*Construction:* Concrete with timber fender piles; length 600 ft. (182·9 metres), apron 60 ft. (18·3 metres).

*Water depth:* 30 ft. (9·1 metres).

*Mechanical handling facilities:* Two gantry cranes, 45 ton each.

*Remarks:* 6 acres of open wharf; 70,000 sq. ft. off dock warehouse.

*Wharves 7–8:*

*Owned and operated by:* Port of Sacramento.

*Use:* Bulk-material facility and general cargo.

*Construction:* Concrete with timber fender piles; apron 60 ft. (18·3 metres), length 600 ft. (182·9 metres).

*Water depth:* 30 ft. (9·1 metres).

*Storage capacity:* Covered 75,000 tons, open 850,000 tons.

*Mechanical handling facilities:* Conveyor-belt system from truck to storage, from ship to storage; from storage to ship, or from storage to truck; two gantry cranes.

*Loading rate:* 600 tons per hour.

**STEVEDORES:** Same as San Francisco.

**MEDICAL:** All normal medical facilities available.

**DENSITY:** Full fresh.

**FRESH WATER:** Available at all berths.

**FUEL:** All grades available with 24 hours notice. Delivered by barge.

**GANGWAY/DECK WATCHMEN:** Each ship shall have a security detail in readiness on board at all times it is in port. The security detail shall perform tasks of an emergency nature and shall have information concerning cargoes aboard in case of need for fire fighting purposes.

**OPENING/CLOSING HATCHES:** Opening/closing hatches is stevedore work while docked in port.

**IDENTIFICATION CARDS:** A pass signed by the Master or his designated officer will be required for crew members, passengers and their personal property to leave the port's fenced area. Property may be subject to physical inspection before leaving the fenced area.

**CONSULS:** Nearest at San Francisco.

**REPAIRS:** Limited repair facilities available.

**REPATRIATION:** Can be arranged through local Agent.

**AIRPORT:** 16 miles from port and served by regular airlines.

**TIME:** GMT minus 8 hours.

**HOLIDAYS:** Only days not worked are 4th and 5th July, Labor Day, Christmas Eve and Day, New Year's Eve and Day.

**POLICE/AMBULANCE/FIRE:** Tel. 371–8000. Extensions 252 and 228.

**TELEPHONES:** Telephones available on board free of charge.

**SHORE LEAVE:** Crew members allowed ashore subject to Immigration clearance.

**GENERAL REGULATIONS:** Ships will not blow boiler tubes while in port. Bilge water or oil will not be discharged into harbour. Accidents will be reported immediately to the Terminal Superintendent. Splash boards will be placed over disposal vent-pipe openings on inboard side of vessel.

Garbage – United States and California State laws make it unlawful to dispose of ship's garbage except in approved ways. Port makes approved garbage disposal available – contact the Terminal Superintendent. Garbage retained on board must be kept in tightly closed containers.

Smoking – Smoking prohibited in and around cargo compartments, and on open decks except that it may be permitted in marked areas under sheltered portion of weather decks on offshore side. Smoking prohibited on wharfs and piers except in marked areas. Smoking prohibited on or near ship while it is bunkering.

Welding/Burning – Welding or burning will not be done until written approval is obtained from the Terminal Superintendent and the Fire Marshal. All requirements of both the Superintendent and Marshal will be strictly adhered to.

Fire Signal – Upon detection of a fire, regardless of location or size, the alarm of fire will be sounded. The alarm shall be sounded by telephone and/or whistle or siren blasts. Five each, five second blasts repeated as necessary.

**AUTHORITY:** Sacramento-Yolo Port District, PO Box 815, West Sacramento. Tel. 910–367–3581.

## SAN DIEGO, California: 32.41 N. 117.07 W. (See Plan)

**PORT LIMITS:** The seaward boundaries of the port of San Diego at which a vessel is considered to be an "arrived vessel" is that time when the vessel is boarded by a Port Pilot at Seabuoy No. 1 and (subject to charter party terms) lay time commences when notification of readiness is tendered at berth.

**DOCUMENTS:**

Crew Lists.
Passenger Lists.
Customs Documents.
Manifests.
Stores Lists.
Crew Curio Declaration List.

If the vessel arrives from foreign direct, 3 copies each of the above documents are required.

If the vessel movements are between U.S. ports, 2 copies each of the above documents are required.

*Health Documents.* Arrival from foreign direct, 1 copy only. All crew members should be in possession of valid vaccination certificates.

*Manifests.* Arrival from foreign direct, 1 copy of travellers manifest which remains with vessel, and 3 copies each of U.S. Customs inward foreign manifest. Bills of lading, ship's papers carried aboard vessel varies with steamship companies.

**PILOTAGE:** The San Diego Pilots do not maintain Pilots on station. Service is rendered according to ETA received from vessel. If any vessel's arrival or departure is delayed over one hour, an additional charge will be made. Telegraphic address of pilot station – radio ETA to "Pilots", San Diego. Advance notice of ETA required – 24 hours prior to arrival of vessel. Pilot boat is 54 ft. in length, painted white. The exact area where pilot boards the vessel is No. 1 sea buoy.

**ANCHORAGE:** 3 miles South-east of Point Loma Light.

**MAX. SIZE:** Length, breadth – no restrictions. Maximum draft alongside face of terminal, 36 ft.

**HEALTH:** Vessel remains under quarantine until such time as pratique procedure is completed by an officer of the U.S. Department of Health and clearance is given to lower quarantine flag. Pratique automatic for vessels moving to another port within United States.

See "Health Regulations" before first U.S.A. port (Albany).

**RADIO:** All radio messages go through the Los Angeles station for relay.

**TUGS:** Tugs normally join vessel approximately one mile before berth. Five available with h.p. ranging from 200–1,700. There is no charge for the use of tug's lines.

**CONTAINER FACILITY:** A new generation, high-speed, all-electric container crane capable of handling 20-ft. and 40-ft. units, or single hook lifts of 40 long tons at National City Marine Terminal. This 17·4 acre facility will include 32,500 sq. ft. for a container freight station, a container steam-cleaning facility, office, maintenance shop, truck scales, railroad spur, and paved storage for 2,280 containers including electrical outlets for 45 refrigerated containers. Depth 35 ft.

**SPECIALISED CARGO HANDLING FACILITIES:** High-speed bulk-loading facilities exist with 800 ft. of 37 ft. deep water berthing space and bulk storage for 13,600 metric tons, plus a bulk loader boom that travels 500 ft. laterally and can be extended or raised enough to load nearly any size or type of ship.

High-speed bagging of bulk commodities is available for bagging of bulk materials from powder to pellets at the rate of 1,000 tons per 8-hour shift.

**STEVEDORES:** Advance notice of 24 hours desired in order to arrange gangs.

**MEDICAL:** Agents should receive notification of medical attention required 24 hours prior to ETA of vessel. Complete hospital facilities available.

**TANKERS:** Diameter of load/discharge line 6 to 8 in. Slop (residue) discharge facilities available upon request. Two tanker berths – maximum draft 30 ft. There are also 2 new Tanker Berths at National City Marine Terminal with 12 in. discharge lines.

**DENSITY:** Salt water in bay.

**FRESH WATER:** Fresh water available, delivery via pipeline.

**FUEL:** Diesel and Bunker fuel available.

**GANGWAY/DECK WATCHMEN:** Available if considered necessary.

**OPENING/CLOSING HATCHES:** Carried out by stevedores.

**CERTIFICATES:** Registered Load-line Certificate, Certificate of Inspection, Safety Certificate.

**CUSTOMS ALLOWANCE:** Tobacco: Per each crew member U.S. Customs allowed two cartons of cigarettes and one box of cigars. Wine and/or Spirits: Quantity allowed per each crew member – 1 quart.

**CARGO GEAR:** Up-to-date certification of all cargo gear required in order to comply with Pacific Coast Marine Safety Code.

**IDENTIFICATION CARDS:** U.S. Immigration requires completion of Form 95, U.S. Coast Guard requires landing permits.

**CONSULS:**

Chile
Costa Rica
Denmark
Dominican Rep.
Ecuador
El Salvador
Finland
France
Honduras
Italy
Mexico
Netherlands
Norway
Panama
Peru
Sweden
West Germany

**REPAIRS:** All types of deck and engine repairs are available.

**DRY DOCKS:** Largest dry dock 700 ft. length, 104 ft. width. Capability can accommodate C–2 mariner type or San Diego type hulls (600 ft. length, 85 ft. width) and up to and including 28,000 displacement tons. Four additional floating dry docks with capabilities up to and including 3,500 displacement tons.

**AIRPORT:** Distance from marine terminal approximately 5 miles. Airport is serviced by major airlines.

**TIME:** Local time GMT minus 8 hours. Daylight Saving Time becomes effective the last Sunday in April and continues to the last Sunday in October.

**HOLIDAYS:** Recognised holidays are: New Year's Day; Lincoln's Birthday; Washington's Birthday; Memorial Day, Independence Day, Labor Day, Columbus Day, Veteran's Day, Thanksgiving Day, Statewide Election Day, Christmas Day, or any other legal holiday that may be proclaimed by State or National Authority; when a holiday falls on a Sunday, the following Monday shall be observed as a holiday.

**POLICE/AMBULANCE/FIRE:** Police 238–7373; Emergency Ambulance 238–7373; Fire 238–1212.

**TELEPHONES:** Arrangements exist for placing telephones on board. No charge for hooking up.

**SERVICES:** Tank-cleaning equipment. Facilities for tank washings. Compass and radar adjustments, etc.

**SHORE LEAVE:** Permitted.

**DEVELOPMENTS:** Broadway Pier has been reconstructed f use as a passenger vessel facility, public park, for berthing of publ visit Naval vessels, and for berthing and clearance of fishing vessel U.S. Customs has an office at the end of the pier.

**AUTHORITY:** Port of San Diego, Unified Port District, 31 Pacific Highway, San Diego, California. Tel. 291–3900. Mailin address PO Box 488, San Diego, California 92112. Telex Sun Harbo San Diego, California.

## SAN FRANCISCO, California: 37.48 N. 122.25 W.

**DOCUMENTS:** **(See Pla**

General Declaration (arrival) on Customs Form 1301.

Cargo Manifest (Customs Form 7257 A or 7527 B). One origin copy indicating all the cargo on board, used for making form entry. One copy listing all cargo on board, used as travellin manifest. One copy indicating cargo for this port only.

2 copies Crew's Effects Declaration on Customs Form 1304.
2 copies of Ship's Stores Declaration on Customs Form 1303.
2 copies Passenger List (Form I 418).
2 copies Crew List (Form I 418).

Customs boarding officer will also examine ship's register an Load-line Certificate. In addition, the following documents will b required for formal entry to be made within 48 hours of arrival fro abroad, or 24 hours of arrival from abroad, or 24 hours of arrival fro a U.S. port:

(*a*) Health Pratique.
(*b*) Master's Oath (Customs Form 1300).
(*c*) U.S. Certificates of Payment of Tonnage Tax (Customs For 1002).
(*d*) Certified Crew List (U.S. vessels only).

**PILOTAGE:** Pilotage in and around Golden Gate Region i provided by two groups of experienced, licensed ship Pilots.

The San Francisco Bar Pilots' Association, maintains a sea station 12 miles outside the Golden Gate, in the vicinity of the lightshi for vessels arriving and leaving the area.

On station around-the-clock. Pilot boats are equipped with VH radio-telephone, and maintain continuous watch for ship traffic an operate co-operatively with the Marine Exchange communicatio centre and lookout station. The Bar Pilots also carry portable VH radios.

Some 8,500 ships are piloted annually into and out of the po complex, through the Golden Gate and the 2,000-ft. wide, 50-ft. dee main ship channel across the alluvial sand bar about 9 miles outsid the Gate.

Considerable Summer fog is experienced on the pilot grounds. I Winter months radiation or tule fogs frequently occur. The tida prism of hundreds of square miles of inland waters cause unusual swift and changing currents in the area. Pilotage for San Francisc Bar and entrance is compulsory and available 24 hours a day. Th Pilot boat is at a station 3 miles outside Main ship Bar channe about 14 miles from San Francisco, VHF Channels 18A and 10 fo radio contact. Vessels with a draft of 42 ft. or more are requested t arrive at the pilot station for the inward passage about one hou before high water at the Golden Gate Bridge.

**ANCHORAGE:** Several anchorages available in San Francisc Bay for any type of vessel up to 50 ft. draft.

The well-protected bay affords excellent shelter and anchorage i all weather. The Captain of the Port (Coast Guard) will assign a anchorage to a vessel upon request. In San Francisco and San Pabl Bays, there are a large number of anchorages available for nava quarantine, general and explosives.

**RESTRICTIONS:** The San Francisco Bay region is the first on th West Coast to have sea lanes established by the Coast Guard fo greater safety in its ocean approaches. Use of the lanes is not mandatory, but is strongly recommended to reduce chance of ship collisions in congested approach and departure areas. The lanes are no intended to supersede or alter applicable rules of the road.

The lanes begin within 6 miles of the San Francisco Lightship, wi each lane inbound and outbound separated by a buffer zone. Th headings are: North lane outbound, 305°: North lane inbound 120°; main line outbound, 247°; main line inbound, 058½°; Southern lan outbound, 169°; Southern lane inbound 343°.

The size of the bay and the narrowness of the Golden Gate caus tricky and sometimes difficult tidal and current conditions. The floo current sets into all parts of the bay and causes swirls as far East a Alcatraz and Angel Islands. At the San Francisco–Oakland Ba Bridge there are large current eddies near the foundation pie which may require care to maintain proper course.

The bar channel is dredged to 50 ft. mean lower low water by th U.S. Army Corps of Engineers. Entrance channels to the variou ports are dredged to 35 ft., with the exceptions of Sacrament Stockton and Redwood City, which are 30 ft. Stockton, however, i approved for a 5-ft. deepening, and study of similar deepening fo Redwood City is being completed.

**MAX. SIZE:** The maximum permissible draft for tankers at the oi installation is 35 ft., for regular freighters and passenger ships at th San Francisco piers is 30 ft. No restrictions on length or berth. Th best time to dock with maximum draft is at a rising tide.

**HEALTH:** Radio pratique may be granted basis information received prior to arrival of vessel, provided no communicable diseas on board.

Normally, vessels are boarded by Medical Officers on arrival unless free pratique previously given at U.S. port in the same voyag If granted free pratique, vessel may enter port and discharge pa sengers and cargo. If given provisional pratique, vessel may enter port, but must take any additional measures specified in connection with discharging passengers and cargo, until free pratique is given.

**RADIO:** Radio station via RCA – Radio Corporation of America – Station KPH ITT – World Communications – Station KFS.

Safe and efficient navigation for all bay vessel traffic is maintained through a Ship Location and Reporting Service operated by the Marine Exchange. VHF radio and radar are used to report all bay activity, 24 hours a day.

**TUGS:** Tugs available and normally join the vessel when approaching their pier. Always the tug's lines are used, with no extra charge.

**BERTHING:** No restriction on berthing other than draft limitation and preferable at slack water.

| Pier | No. of berths | Length (ft.) | Depth (ft.) | Remarks |

**Alameda:** Alameda, an island and city across the Inner Harbour channel from Oakland, is the home of Encinal Terminals, the largest privately owned and operated steamship terminal in the United States. There are six berths for vessels at Encinal.

*Berths 1, 2, 3 and 4:* Used for general cargo and bulk or drummed liquids. Total berthing length 2,125 ft. Depth 31 ft.

*Berth 5:* Used for general and containerised cargoes. Length 750 ft. Depth 35 ft. Berth equipped with Paceco container crane.

*Berth 6:* Used for receipt and shipment of bulk or drummed liquids. Depth 30 ft. Facility has tank storage of 12 million gallons.

**BULK HANDLING FACILITIES:** *Copra Terminal, Pier 84:* Pier assigned to Cargill Company for receiving bulk copra. Berthing for 1 vessel. Length of face 185 ft. and 430 ft. North side 120 ft. Depth alongside face 32 ft. Facilities include four portable pneumatic unloaders, total capacity 180 tph.

*Port of San Francisco Grain Terminal, Pier 90:* Berthing for 2 vessels. Length 1,285 ft. Depth alongside 40 ft. The terminal is used for receiving, storing and loading of grain, feeds, chemicals, fertilisers and storing automobiles. Facilities consist of a 2 million bushel grain elevator. Rail holding yard for 100 cars. Six marine loading spouts with capacity of up to 1,500 tons of bulk material per hour (no shifting required).

**CONTAINER HANDLING FACILITIES:** *Mission Rock Terminal, Pier 50:* Berthing for 6 vessels. Pier used for container traffic, general cargo and passengers. Length of face 1,000 ft. North side 1,480 ft. and South side 1,100 ft. and 582 ft. Depth alongside terminal 35 ft. Facilities include a 250-ton container crane rated at 25 containers per hour. Container wharf length 1,000 ft. and width 200 ft. Storage for 900 (20 ft.) containers on pier.

*Pier 80:* Berthing for 8 vessels. Length of face 1,296 ft. North side 1,138 ft. South side 2,657 ft. Depth alongside 40 ft. Pier equipped with container cranes.

*Pier 94:* Container terminal under construction. One berth to be completed late 1975. The terminal will be served by a rail-mounted container gantry.

*Pier 96:* Berthing for 2 vessels. Depth alongside 40 ft. The facility is used by LASH vessels, container ships and general cargo vessels. Lifting equipment consists of 2 Paceco container cranes, miscellaneous fork lift and straddle carriers and mobile cranes.

**STEVEDORES:** Stevedores orders must be placed 1000 hrs. for night gangs and day gangs. Two 8 hour shifts 7 days a week. Sunday and Sunday night gangs must also be ordered on Saturday 1000.

**MEDICAL:** Medical, and all hospital facilities available. No advance notice required.

**TANKERS:** San Francisco is an oil discharging port. All major oil companies have their own oil discharging pier. Reducing pieces are available. The maximum drafts are 35 ft. Tankers arriving with a greater draft are partly discharged in the bay before docking.

*Davis Point:* Union Oil Co. Oleum Refinery Wharf, depth up to 38 ft. MLW.

*Martinez:* Shell Oil Co. Wharf, depth alongside 30 to 42 ft. MLW. Phillips Petroleum Co. Amorco Wharf, two berths, depth 30–42 ft. MLW. Phillips Petroleum Co. Avon Wharf, depth alongside 35 ft. MLW. Urich Oil Co. depth alongside 35 ft.

*Ozol:* Oil Wharf, depth alongside 39 ft. MLW.

*Hercules:* Sequoia Ref. Corp. Terminals, depth 35 ft. MLW.

**DENSITY:** Average density in the bay is 1016.

**FRESH WATER:** Available at all piers rate between 25 and 50 tons per hour.

**FUEL:** Fuel available by barge or at the oil companies own pier. Special blends require some advance notice.

**FIRE PRECAUTIONS:** Any special instructions are given to the Master upon docking.

**DEVELOPMENTS:** At present a LASH terminal under construction at Pier 92 for lease to Pacific Far East Lines.

**WATCHMEN:** Not required but this service available at Master's request.

**OPENING/CLOSING HATCHES:** Normally done by stevedores. But crew may open and close before arrival at the dock or after departure.

**CUSTOMS ALLOWANCES:** Each crew member may land free of duty and/or taxes articles acquired abroad not exceeding $10 in value, plus 50 cigars or 300 cigarettes or 3 lb. of smoking tobacco, and not over 1 quart of alcoholic beverages.

**IDENTIFICATION CARDS:** Standard U.S. Immigration Forms I.–95 to be made up for each crew member on arrival. Not necessary for crew man already holding Form I.–95, issued for the same vessel.

**CONSULS:** All Maritime countries represented at San Francisco.

**REPAIRS:** The major yards in the Golden Gate region have fully equipped machine-shop facilities capable of handling virtually any job; welding, heavy plate construction, turning, boring, facing, grinding, milling and rolling.

The larger yards also have facilities for pipe, sheet metal, electrical carpentry, painting, rigging, machining and boiler work.

Pacific Ship Repair and Triple "A" Repair are both located in San Francisco and provide berth space for all types of ship repairs at plant and at any location in the San Francisco Bay area.

**DRY DOCKS:** Bethlehem Steel's San Francisco shipyard has three floating dry docks, one with 22,000 tons capacity and 654 ft. long, one of 11,400 tons capacity and 542 ft. long, and one of 6,500 tons capacity and 450 ft. long. With a recently completed pier, it's tie-up and outfitting space totals 4,271 ft.

*Todd Shipyards Corp.* has two dry docks at Alameda. Their larger dry dock is 873 ft. long with a clear width between wing-walls of 140 ft. and a lifting capacity of 40,000 tons. The smaller dry dock has a lifting capacity of 10,000 tons and is 542 ft. long with a clear width between wing-walls of 86 ft. There are 3,500 ft. of berthing space for ships undergoing in-the-water repairs. Todd has three mobile units for out-of-yard work.

*Williamette Iron and Steel Company's* yard in Richmond has five concrete graving docks. Four of these docks can each accommodate a vessel 600 ft. long with 83 ft. beam, and one dock can handle a vessel 750 ft. long by 83 ft.

Tonnage capacity is limited only by the above dimensions. Williamette's facilities include 1,500 ft. of concrete outfitting pier for in-the-water repairs. The graving docks are served by four gantry cranes of 60-ton capacityand two of 45-ton capacity, and the outfitting pier by three 45-ton cranes. Williamette has fully equipped shops for repair and conversion work, and mobile units for out-of-yard work at all Bay Area piers.

**DEVELOPMENTS:** The channel over the bar will be deepened to 55 ft. A new channel will be cut 600 ft. wide and 45 ft. deep (at low water), through the upper bay and the channel through San Pablo and Suisun Bays will be deepened to 45 ft. Manoeuvring areas near Richmond and the refinery terminals will be widened. The Stockton Deep Water Channel will be deepened to 35 ft. and the channel alignment improved.

**REPATRIATION:** All facilities available for crew changes by sea, air or land.

**AIRPORT:** Distance about 10 miles from San Francisco and is served by regular airlines.

**TIME:** GMT minus 8 hours, summertime from last Saturday in April till last Saturday in October GMT minus 7 hours.

**HOLIDAYS:** New Year's Day; Lincoln's Birthday (February 12); Washington's Birthday (February 22); Good Friday (afternoon); Memorial Day (May 30); Independence Day (July 4); Labor Day (first Monday in September); Admission Day (Calif. only Sept. 9); Columbus Day (October 12); Veteran's Day (November 11); Election Day (First Tuesday after the first Monday in November); Thanksgiving Day (last Thursday in November); Christmas Day.

When any of the holidays fall on Sunday, the holiday will be observed on Monday.

On a holiday the longshoremen are working at the overtime rate (time and one half) except on the following days when no work will be performed:

1 New Year's Day;
2 Bloody Thursday (July 5, memory of three longshoremen killed during the 1936 strike);
3 Labor Day;
4 Thanksgiving Day;
5 Christmas Day.

**POLICE/FIRE/AMBULANCE:** Police, tel. 533–0123; Fire, tel. 861–8020; Ambulance, tel. 431–2800.

**TELEPHONES:** On some piers telephone connections to ships are available, no extra cost for this service.

**GENERAL:** Vessels arrival has to be reported to the U.S. Coast Guard 24 hours prior arrival by agent.

**SHORE LEAVE:** Crew members are allowed to go ashore after passing U.S. Immigration at first U.S. Port.

**AUTHORITY:** San Francisco Port Commission.

**AGENT:** Holland America Line, 350 Sansome Street, San Francisco Tel. 362–7510. Telex 470397.

## SAVANNAH, Georgia: 32.02 N. 81.07 W.

**DOCUMENTS:**

3 Crew Lists.
3 Store Lists.
3 Curio Lists.
3 Manifests.
3 Passenger Lists.

These documents required in order to enter vessel at U.S. Customs. *Direct Foreign Arrival*—Quarantine Pratique issued by Public Health Service representative; Cargo on Inward Foreign Manifest Form 7527 A or B or substantially similar form, in duplicate with abstract manifest of Savannah only cargo; Crew list on Form I-418, in triplicate; Passenger list on Form I-418, or other acceptable form, in triplicate; Crew curio list, in triplicate, with crew declaration on Form 5123, or crew list on Form I-418, in triplicate, with numbers of attached Forms 5129 endorsed thereon; List of sea stores and ship's stores, in triplicate; for American vessels, repair declaration on Form 3415; for American vessels, certified crew list; Clearance from last foreign port, if one issued.

*Coastwise arrival with Residue Foreign Cargo or Passengers*—Form 1385, "Permit to Proceed", in duplicate; Travelling Manifest; Abstract Manifest, in duplicate, of cargo to be discharged in Savannah— if none, two "pro forma" manifests; Stores list, in duplicate; Crew list, in duplicate; Crew purchase list, in duplicate, and any crew declarations on Customs form 5123 for Savannah; Passenger list, in duplicate, if passengers are disembarking in Savannah.

**PILOTAGE:** Savannah Pilots' Association, 204 East Bay Street, Savannah, Georgia, 31401 (telegraphic); Pilot required all vessels; ETA 24 hours advance notice, change ETA 8 hours; VHF Channel 16 (monitored at all times), 18, 12, 13 – Radio telephone 2182, MG, 2738; Pilot boards vessel one mile outside fairway buoy.

**ANCHORAGES:** Outside fairway buoy North and North-east of fairway buoy; no anchorages in river.

**RESTRICTIONS:** 27 ft. at any time; over 27 ft. on incoming tide, no restrictions day or night.

**MAX. SIZE:** Abbreviation OT: Ocean Terminal. Vessels berthing at OT 10 A/B and OT 12 A/B should not exceed 550 ft. length and 32 ft. draft. For berths OT 14–15–16–17 vessels 550 to 600 ft. on slack water; vessels less than 550 ft. any time to berths 14 and 17; vessels docking or undocking at OT 15–16, with vessels in OT berths 14–17, can be docked or undocked during slack water. Vessels entering Stevens Terminals should not exceed 525 ft.; maximum of 550 ft. could be handled under ideal conditions, i.e. slack water and all berths clear in slip. Vessels over 500 ft. undocking from berths 35–37–41–42, Stevens Terminals, should not be undocked during strength of ebb or flood tide, but may be undocked at or near high or low water slack. Vessels berthing at river front berths: vessels up to 650 ft. will be handled any time and vessels from 650 to 800 ft. on tide conditions; vessels will be handled at whatever drafts Bar Pilots will bring them in or out. Also see "Developments".

**HEALTH:** Radio Pratique in effect by U.S. Public Health Servic Captain on 4 hours notice in advance to Agent can obtain rad pratique. Also see "Documents".

**RADIO:** Vessels route ETA cables to agents, etc., via radio Lanta

**TUGS:** Tugs join vessels at city front for berths above city; berths below city, tugs usually meet vessels in vicinity of Fort Jac son or well below berth. Tugs' lines used all times.

**BERTHING:** The Georgia Ports Authority operates 17 gener cargo berths, 2 tanker berths, 2 containership berths and 2 bulk cargo berths. Max. draft will vary from 34 ft. to 40 ft. dependi on facility.

*Special cargo–handling facilities:* Located at The Garden C Terminal of the Georgia Ports Authority is a container facil consisting of two container ship berths and two 45 ton contain cranes. Also at Garden City Terminal is a dry bulk facility consistin of one loading berth, one unloading berth and dry storage for bu cargo of many types.

**BRIDGES:** *S.A.L.R.R. Lift Bridge:* Horizontal clearance 200 Vertical clearance is 10 ft. when closed and 135 ft. when open MHW.

*Eugene Talmadge Memorial Bridge:* 135 ft. vertical clearance 400ft. at MHW.

**STEVEDORES:** In order to order gangs agent should receive ETA from vessel no later than 1300 hours day prior to arrival, when vess coming coastwise. When calling at Savannah from a foreign po agent normally receives ETA 72 hours and again 24 hours prior arrival.

**MEDICAL:** Agent should be advised as far in advance as practic able for required medical attention. U.S. Public Health Hospital Savannah, also other extensive medical facilities. Standard informa tion required as to inoculations, vaccinations, etc.

**TANKERS:** Standard requirements on diameters of load–discharg lines. No facilities for slop (residue) discharge facilities excep American Oil Company. S.G. & A.P.I. of local types of oil is gravity marine diesel fuel. 6 tanker berths in port, maximum draft 32 ft. (Draft at tanker berth will in all probability be increased to 34 upon completion of the current improvement programme.)

**DENSITY:** Average density of water at 20 degrees Centigrade i channels of Savannah Harbour are:

| | High water | Low water |
|---|---|---|
| | *Savannah River Entrance* | |
| Surface | 1.0196 | 1.0090 |
| Bottom | 1.0196 | 1.0181 |
| | *Port Area* | |
| Surface | 1.0022 | 0.99915 |
| Bottom | 1.0120 | 1.0075 |

**FRESH WATER:** Available at all terminals. Charge $1.05 per ton.

**FUEL:** Light marine diesel fuel (No. 2 Fuel), heavy marine diesel fue (No. 4 Fuel), all Intermediate grades from Intermediate 2 (equals 20 secs. Redwood 1 scale at 100° F.) through No. 30 (equals 3,000 secs Redwood 1 scale at 100° F.), Bunker "C" Fuel (No. 6 Fuel). All above grades available in either bonded or domestic except light marine diesel, which is domestic only. Advance notice required 24 hours.

**FIRE PRECAUTIONS:** No special fire precautions. All tanker berths have water and fire extinguishers on dock. Fire fighting equipment on dock. Fire fighting equipment on tugs.

**DEVELOPMENTS:** The Georgia Ports Authority is making plans for the construction of a third container berth.

The channels project depth and width ranges from 40 ft. depth and 600 ft. width at the entrance to 38 ft. depth and 400 ft. width to the upstream end of Kings Island turning basin.

**GANGWAY/DECK WATCHMEN:** Garden City and Ocean Terminals of Georgia Ports Authority require that a watchman, or someone in authority, will be aboard any vessel tied to their facilities at al times. Seaboard Coast Line Terminal watchman furnished by Steamship Company if watchman required. The Stevens Shipping and Terminal does not require a watchman.

**OPENING/CLOSING HATCHES:** By crew if mechanical; by stevedores if not mechanical.

**CARGO GEAR:** No additional cargo gear necessary.

**IDENTIFICATION CARDS:** Form I-95 must be filled out on arriving unless seaman has had a prior one made out for a previous arrival on same ship (on a plastic card.)

**CONSULS:**

Norwegian: Allan Kjos-Hansen, 30 Mayer Road, Portland, Maine, Vice-Consul.
French: Dr. Paul O. Proudian, 776 Main Street, Westbrook, Maine.
Finnish: Frank W. Bjorklund, 163 Main Street, Norway, Maine.
Italian: Dr. Domenica A. Santoro, 43 Deering Street, Portland, Maine.
Panamanian: Mary Navarro de Carrillo, Lafayette Town House, Portland, Maine.
Swedish: Martin Johnson, Vice Consul, 443 Congress St., Portland, Maine.

**REPAIRS:** All types of machinery repairs.

**DRY DOCKS:** None.

**REPATRIATION:** Arrangements must be made with Agent in advance by telegram.

**AIRPORT:** Bangor International Airport, 30 miles, Northeast Airlines.

**HOLIDAYS:** New Year's Day; Washington's Birthday; Patriot's Day; Memorial Day; Independence Day; Labour Day; Thanksgiving Day; Christmas Day and Veteran's Day. Possible to get gangs to work all days except on Labour Day and Christmas.

**POLICE/AMBULANCE/FIRE:** Police 548–2256; Ambulance 548–2900; Fire 548–2900.

**TELEPHONE:** Arrangements can be made to have phone put on ship, but most docks have pay phones.

**AUTHORITY:** Maine Port Authority, Maine State Pier, Portland, Maine 04111 (207) 773–5608

## SEATTLE, Washington: 47.36 N. 122.20 W. (See Plan

**PORT LIMITS:** Port of Seattle limits are co-extensive with the boundaries of King County in which Seattle is situated. A vessel has "arrived" when it has tied-up to a berth.

**DOCUMENTS** (on arrival from foreign):

Clearance from Last Foreign Port.
2 Crew Lists on Form I.418.
2 Passenger Lists on Form I.418 (if applicable).
Passenger Declarations if applicable.
2 Store Lists.
2 Crew Purchase (curio) Lists.
2 Manifests of Cargo for discharge on CF.7527–A or 7527–B.

If first arrival port on an inward voyage, must also have 2 sets of Manifests of complete cargo on CF.7527–A or 7527–B, one for Customs at this port and the other for use as a "Travelling Manifest" to go forward to other discharge ports.

A – For U.S. Public Health Quarantine Boarding Officer: "Quarantine Declaration" on Form PHS.43.

B – For U.S. Dept. of Agriculture Boarding Officer: "Shipmaster's Declaration and Warning Notice" on Form AIQ.43.

C – For U.S. Immigration Boarding Officer:
1. Crew List on Form I.418 visaed by U.S. Consul abroad.
2. Passenger List on Form I.418.
3. Attachment to Passenger List on Form I.92.
4. Form I.94 for each passenger.
5. Form I.95 or ID Card (Form 184) for each crewman. (These are reusable for multiple entries, but for seamen on first trip to United States a new Form I.95 must be ready for presentation on arrival.)

D – For U.S. Customs Boarding Officer and Agent or Broker:
1. 3 copies Crew List (Form I.418).
2. 3 copies Cargo Manifest on Form 7527A or B.*
3. 3 copies Store List – no official form provided.*
4. 3 copies Crew Purchases or Curio List (no official form provided).*

5. 3 Passenger Lists on Form I.418.
6. For U.S. Ships – Declaration re foreign repairs on Form 3415.
7. For U.S. Ships – Certified Crew List from last U.S. port before going foreign.

*At subsequent U.S. ports of call two copies required of extracts Cargo Manifests of cargo for the port concerned, and two copies of lists of stores and curios remaining on board.

**PILOTAGE:** Compulsory for all vessels except those on coasting trade. Pilots may be obtained from Puget Sound Pilots' Association, Seattle, at short notice. Inward, Pilot boards vessel at pilot station off Port Angeles.

**ANCHORAGE:** Extensive anchorage in Eliott Bay, depths of 90 ft.

**RESTRICTIONS:** Only for Inner Harbour, entrance through Canal Locks, maximum 800 ft. ×80 ft.×29 ft. fresh water.

**MAX. SIZE:** Controlled by depth at berth.

**HEALTH:** Vessels subject to Quarantine inspection usually proceed to their docks where they are boarded by the Quarantine officer. Fumigation service is performed at the port; however advance notice of 24 hours should be given to the U.S. Public Health Service at Seattle.

**TUGS:** Available, but not normally required.

**BERTHING:** Over 62 berths for ocean-going vessels. Depths alongside, 30 to 73 ft. MLLW.

**SPECIALISED HANDLING FACILITIES:** Terminal 20 has among its equipment a 200-ton capacity shear-leg crane. Also has pipe-lines to carry molasses, tallow or other non-petroleum liquid cargo, and has a tank farm for storage.

Terminal 115 – two berths, capacity, Auto-Terminal.

Terminal 115 – Foss Alaska Barges, has specialised finger piers, to handle container-to-barge operations.

Terminals 5, 18, 46 and 25 – Container Terminals, equipped with large container cranes and yards to handle van shipments. Depth alongside, Terminals 18 and 25 – 50 ft.

Pier 86 – fully automated, deep water, Grain Terminal. With one berth it can accommodate a vessel with up to 73 ft. draft and length up to 1,400 ft. Storage capacity 4·2 million bushels. Loading rate 3,000 tph.

Terminal 5 – Banana Terminal. One berth, fully automated and is the only one in the North West with four pocket elevators.

**CRANES:** *Terminal 18:* Two 45-ton and two 33-ton container cranes.
*Terminal 20:* One 45-ton container crane, three 50-ton revolving cranes and one 200-ton sheer leg.
*Terminal 25:* Two 45-ton container cranes.
*Pier 28:* One 50-ton gantry crane.
*Terminal 46:* Two 34-ton container cranes.

**STEVEDORES:** 58 local gangs available. Gang requirements must be made known to the contracting stevedore prior to 11.00 on day before vessel plans to dock. Order before 10.30 on Saturday for Saturday afternoon, Sunday, and Monday.

**DENSITY:** Salt water in Outer Port. Fresh water inside Canal Locks.

**FRESH WATER:** Available at all wharves.

**FUEL:** Available.

**GANGWAY/DECK WATCHMEN:** Watchmen required if detainees aboard.

**OPENING/CLOSING HATCHES:** Normally carried out by stevedores while vessel in port.

**CERTIFICATES:**
- Certificate of Registry.
- Certificates for any previous U.S. tonnage tax payments within the past year.
- International Load Line Cert.
- Safety Radio Cert.
- Deratisation Cert.
- Cargo Gear Inspection Cert.
- Cert. of Inspection (for U.S. vessels).

**CUSTOMS ALLOWANCES:** No definite quantities prescribed; reasonable allowance at discretion of Customs Inspector.

**IDENTITY CARDS:** Required.

**CONSULS:**
Austria
Belgium
Bolivia
Canada
Chile
China
Denmark
Dominican Republic
Ecuador
El Salvador
Finland
France
Germany
Guatemala
Honduras
Iceland
Italy
Japan
Korea
Mexico
Netherlands
Nicaragua
Norway
Paraguay
Peru
Philippines
Sweden
Switzerland
United Kingdom

**REPAIRS:** All types of repair possible.

**DRY DOCKS:** Ten dry docks for vessels up to 20,000 tons.

**REPATRIATION:** All facilities exist.

**AIRPORT:** Seattle International Airport.

**TIME:** Pacific Standard Time, GMT minus 8 hours; Pacific Daylight-saving Time, from end April to end October, is GMT minus 7 hours.

**HOLIDAYS:** New Years' Day (January 1) no work; Lincoln's Birthday (February 12); Washington's Birthday (February 22); Memorial Day (May 30); Independence Day (July 4) no work; Bloody Friday (July 5) no work; Labour Day (September 1) no work; Columbus's Day (October 12); Veteran's Day (November 11); Thanksgiving Day (November 27) no work; Christmas Day (December 25) no work.

**SHORE LEAVE:** Allowed, except for crewmen detained by Immigration.

**AUTHORITY:** Port of Seattle, PO Box 1209, Seattle, Washingto 98111. Tel. (206)–587–3300.

## SEWARD, Alaska: 60.06 N. 149.27 W.

**DOCUMENTS:**
- 3 copies Cargo Manifest (Forms 7527–A or 7527–B) the origin showing all cargo on board, and 2 copies showing only carg for this port.
- 2 copies Crew Manifest (curio list).
- 2 copies Stores List.
- 2 copies Passenger List (Form I.–418).
- 2 copies Crew List (Form I.–418).

Customs boarding Officer will also examine Ship's Register an Load-line Certificate. In addition, the following documents will b required for formal entry to be made within 48 hours of arrival fro abroad, or 24 hours from arrival from a United States port:
- Health Pratique.
- Master's Oath (Customs Form 3255).
- All Foreign clearances.
- U.S. Certificates of payment to tonnage tax (Customs Form 100
- Certified Crew List.

**PILOTAGE:** Alaska Marine Pilots' Association, Box 273, Home Alaska 99603. 48 hours advance notice. 2182 calling frequency KC KTE–21. Anchorages as noted on chart. C. & G. S. 8529 Resurrectio Bay.

Pilot boards at Cains Heads in Resurrection Bay.

**MAX. SIZE:** Harbour depth 35 ft. MLLW.

**ANCHORAGE:** Suitable anchorage in 30 fathoms depth availab for deep draft vessels at the head of the Bay, South of marked buoy

**HEALTH:** Radio pratique may be granted basis information rece ved prior to arrival of vessel, provided no communicable diseases o board. Normally, vessels are boarded by Medical Officers on arriv unless free pratique previously given at U.S. port in the same voyage If granted free pratique, vessel may enter port and discharge passe gers and cargo. If given provisional pratique, vessel may enter por but must take any additional measures specified in connection wi discharging passengers and cargo, until free pratique is given.

**RADIO:** KWA 364 (AM) Alaska Railroad Dock, frequency monito red 2182 kc/s. KWA 364 (SSB) Alaska Railroad Dock, frequenc monitored 4–6–8–12 Megs.

**TUGS:** No regular tug service available. Prior arrangements nee be made with tugs from Cook Inlet. Foss Tug & Barge or Puge Sound Tug & Barge Company.

**BERTHING:** 24 hour berthing. Berthing permit required. Advanc notice of 48 hours requested.

200 ft. by 735 ft. steel and concrete finger pier.
East Side – 600 ft. long with 35 ft. depth of water.
West Side – 600 ft. long with 35 ft. depth of water.
South End – 200 ft. long.

(East and West Berths serviced by railroad spurs).

**STEVEDORES:** Northern Stevedoring and Handling Corporatio supply labour force.

**MEDICAL:** Fully staffed 30 bed hospital. All medical facilitie available.

**DENSITY:** 1.0248 water density at Mean High Water.

**FRESH WATER:** Available at berths. 4 in water line; 67 l pressure.

**FUEL:** Diesel fuel available from pipeline at West Berth only. Othe grades delivered by tank wagon.

**HATCHES:** Handled by crew, if done before berthing ship. B stevedores if tied to dock.

**IDENTIFICATION CARDS:** U.S.C.G. Port Security Card o Seaman's Card required.

**REPAIRS:** Radio, radar, welding, machining and light engin repairs can be effected.

**AIRPORT:** 1 mile. Charter Service. No regular air service.

**TIME:** Alaska Standard Time.

**HOLIDAYS:** All holidays are time and one half. Cargo can b worked on all except Christmas, New Year and Labour Day.

**POLICE/FIRE/AMBULANCE:** Police, tel. CA 4–5201; Ambulanc tel. CA 4–3042; Fire, tel. CA 4–3444.

**AUTHORITY:** The Alaska Railroad, Box 95, Seward, Alaska 9966 Tel. CA 4–5550.

## SITKA, Alaska: 57.03 N. 135.20 W.

Located on the Western side of Sitka Sound, Baranof Island. Ope all year.

**APPROACHES:** Three natural channels: Western, Middle an Eastern.

**DOCUMENTS:** See "Anchorage, Alaska".

**PILOTAGE:** Pilot pick-up point – close aboard vicinity Eckhol Light.

**ANCHORAGE:** Jamestown Bay.

**MAX. SIZE:** Harbour depth 22 ft. MLLW. Tides: diurnal range 9·9 ft.

**CUSTOMS:** Quarantine, Immigration and Customs, local.

**TUGS:** 7 tugs 300 h.p. to 1,200 h.p.

**BERTHING:** Three wharves.

1. Conway Dock: Berthing length 160 ft., depth 30 ft. MLLW. N cranes, 3 lift-trucks; 10,000 sq. ft. covered shed space; fresh wate
2. Japonski Dock: Government dock only for limited commercia use.
3. Alaska Lumber & Pulp Co.: (Private) Berthing length 700 f depth 35 ft. LW. Walking cranes only. Not less than 12 lift-truck

30,000 sq. ft. covered shed space; fresh water. (Located at Silver Bay, Sawmill Cove, 4 miles South of Sitka). 30,000 sq. ft. open storage.
**STEVEDORES:** Three gangs.
**REPAIRS:** Light repairs only.
**WATER:** Available.
**FUEL:** Not available.
**MEDICAL:** Sitka Community Hospital and U.S. Public Health Service Hospital on Japonski Island.
**TRANSPORTATION:** Air and ferry.

## SKAGWAY, Alaska: 59.27 N. 135.18 W.

Located at the Northern end of Lynn Canal, 14 miles North of Haines.
**APPROACHES:** Via Lynn Canal.
**DOCUMENTS:** See "Anchorage, Alaska".
**PILOTAGE:** Pick-up point located in vicinity of Point Retreat.
**MAX. SIZE:** Harbour depth 30 ft running out to 300 ft. Tides diurnal range 16·7 ft. Also see "Berthing".
**ANCHORAGE:** In Lutak Inlet, 14 miles south of Skagway.
**CUSTOMS:** Quarantine, and Customs, local. Immigration from Haines.
**BERTHING:** 1. White Pass and Yukon Railroad Dock: Containerized cargo to Vancouver and Whitehorse is the principle use, also used for tankers and cruise ships. 900 ft. long, 100 ft. wide; depth at face varies from 20 to 43 ft. Southern end in poor condition. No covered storage. Open storage 80,000 sq. ft. One fork-lift is available. Containers presently loaded and unloaded with ship's gear. Two straddle cranes for containers on dock.

2. Skagway Terminal Co.: Ore loading facility. 1,000 ft. berth, fender dolphins, and walkway. 42·5 ft deep at face. Sole use for bulk cargo ships. Adjacent to the berth is a warehouse of 108,000 sq. ft. Also available are 50 acres for open storage. Loading equipment consists of one fixed loading spout with a capacity of 1,500 tons per hour.
**TUGS:** Three available from Haines.
**STEVEDORES:** Three gangs.
**REPAIRS:** None.
**WATER:** Available in small quantities in temperate seasons only.
**FUEL:** None.
**MEDICAL:** Medical clinic and one nurse.
**TRANSPORTATION:** Rail, ferry and air.

## SMITHS BLUFF, Texas: 30.00 N. 93.59 W.

**DOCUMENTS, PILOTAGE, HEALTH, RADIO, etc.:** Refer to "Port Arthur".
**TUGS:** Meet vessel in Neches River before arriving at berth. Normally two tugs required berthing/unberthing.
**BERTHING:** Pure Oil Co.: distance from sea 38 m., depth at berth 37 ft. Sun Oil Co.: distance from sea 38 m., depth at berth 36 ft.
**MEDICAL:** All facilities available.
**DENSITY:** Fresh water.
**FRESH WATER:** Available ex wharf at Pure Oil terminal, otherwise by barge.
**FUEL:** Available ex wharf at Pure Oil terminal. All grades available by barge from Port Arthur or Beaumont.
**GANGWAY/DECK WATCHMEN:** Not required unless crewmen detained by Immigration.
**CUSTOMS ALLOWANCES:** 300 cigarettes and one quart wine or spirits for each man.
**IDENTIFICATION CARDS:** Foreign crew require only Immigration Landing Permit.
**CONSULS:** Nearest at Houston.
**REPAIRS: DRY DOCKS:** See "Port Arthur".
**AUTHORITY:** Port Director, Port of Beaumont, PO Drawer 3626 Beaumont.

## STOCKTON, California: 37.57 N. 121.19 W.

**DOCUMENTS:** See "San Francisco".
**PILOTAGE:** Pilots commissioned by Stockton Port District. Pilots obtained by contacting Secretary of California Inland Pilots' Association, located at Marine Exchange, World Trade Center, San Francisco, California (KBP 386).
**ANCHORAGE:** Emergency anchorage only permitted in Turning Basin, 32 ft. depth.
**RESTRICTIONS:** Restrictions only in effect if water at flood stage. See "San Francisco".
**MAX. SIZE:** No restrictions to length or breadth; draft restrictions of 30 ft. at low tide, 32 ft. at high tide.
**HEALTH:** Clearance through San Francisco. No further clearance necessary for Stockton.
**RADIO:** Ship to shore Radio (KBP 376) enables constant contact with Pilots who therefore aware of any problem that may develop up or down river. Arrangements also may be made for readiness of ordered gangs within 15 minutes of ship's arrival.
**TUGS:** Tugs join vessel one-half mile up river from Main Channel; generally, ship lines used, however, tug lines may also be utilised.
**BERTHING:** *Port Stockton Rough and Ready Island Wharf, Berths 14–15:*
*Owners:* U.S. Government.
*Operated by:* Stockton Port District.
*Use:* Receipt and shipment of general cargo.
*Dimensions:* Length of face 1,200 ft., East side 60 ft.; depth alongside at MLLW 30 ft.; usable berthing space 1,200 ft.; width of apron 51·7 ft.
*Mechanical handling facilities:* Cranes and forklift trucks and other cargo-handling equipment are available.

*Port Stockton Bulk Material Wharf, Berths 12–13:*
*Owned by:* City of Stockton and Stockton Port District.
*Operated by:* Stockton Port District.
*Use:* Shipment of dry-bulk commodities, including iron ore and petroleum coke; receipt of molasses and petroleum products.
*Dimensions:* Length of face 566 ft.; lower side 13·5 ft., upper side 13·5 ft.; depth alongside at MLLW 35 ft.; usable berthing space 566 ft.
*Mechanical handling facilities:* Maximum vessel iron-ore loading rate 800 long tons per hour. Two small bulldozers available for trimming cargo in holds of vessels, in addition to 360 degrees spout trimmer.
*Remarks:* Car dumper has an operating rate of 550 tons iron ore/hour.

*Port Stockton Ore Wharf, Berths 10–11:*
*Owned by:* City of Stockton and Stockton Port District.
*Operated by:* Stockton Port District.
*Use:* Container-handling dock; receipt of molasses and petroleum products.
*Dimensions:* Length of face 810·5 ft., lower side 102 ft.; depth alongside at MLLW 32 ft.; usable berthing space 810·5 ft.
*Mechanical handling facilities:* Loading tower located at centre portion of wharf.
*Remarks:* Face of wharf is in line and contiguous with face of Berth 9 providing a total of 1,455·5 ft. of berthing.

*Port Stockton General cargo Wharf, Berth 9:*
*Owned by:* City of Stockton and Stockton Port District.
*Operated by:* Stockton Port District.
*Use:* Receipt and shipment of general cargo, receipt of molasses.
*Dimensions:* Length of face 645 ft., upper side 75 ft.; depth alongside at MLLW: Face 37–34 ft., upper side 35 ft.; usable berthing space; Face 645 ft., upper side 110 ft. with dolphin; width of apron: Face 41·25 ft.
*Mechanical handling facilities:* Forklift trucks and other types of cargo-handling equipment, owned by the Port District and by stevedoring companies, are available as needed.

*Port Stockton Wharf No. 8:*
*Owned by:* City of Stockton and Stockton Port District.
*Operated by:* Stockton Port District.
*Use:* Receipt and shipment of general cargo; shipment of wine and receipt of molasses.
*Dimensions:* Length of 396 ft.×88 ft.; depth alongside at MLLW 37–36 ft.; usable berthing space 484 ft. with trestle.
*Mechanical handling facilities:* One 32-ft., hinged boom, four 6-in. stainless-steel pipe-lines for loading wine into ocean tankers.

*Port Stockton Wharf No. 7:*
*Owned by:* City of Stockton and Stockton Port District.
*Operated by:* Stockton Port District.
*Use:* Receipt and shipment of general cargo.
*Dimensions:* Length 516 ft.; depth alongside at MLLW 37–36 ft.; usable berthing space 516 ft.; width of apron 31 ft.

*Port Stockton Wharf No. 6:*
*Owned by:* City of Stockton and Stockton Port District.
*Operated by:* Stockton Port District.
*Use:* Receipt and shipment of general cargo.
*Dimensions:* Length 418 ft.; depth alongside at MLLW 37–36 ft.; usable berthing space 418 ft.; width of apron 31 ft.

*Port Stockton Wharf No. 5:*
*Owned by:* City of Stockton and Stockton Port District.
*Operated by:* Stockton Port District.
*Use:* Receipt and shipment of general cargo.
*Dimensions:* Length of face 428 ft.; depth alongside at MLLW 34–32 ft.; usable berthing space 429 ft.; width of apron 31 ft.

*Port Stockton Grain Wharf No. 4:*
*Owned by:* City of Stockton.
*Operated by:* Stockton Port District.
*Use:* Receipt and shipment of general cargo, receipt of bulk phosphate rock by self-discharging vessel; and shipment of bulk fertilisers.
*Dimensions:* Length of face 461 ft.; depth alongside at MLLW 32–35 ft.; usable berthing space 462 ft.; width of apron 31 ft.

*Port Stockton Wharf No. 3:*
*Owned by:* City of Stockton.
*Operated by:* Stockton Port District.
*Use:* Receipt and shipment of general cargo.
*Dimensions:* Length of face 461 ft.; depth alongside at MLLW 32–36 ft.; usable berthing space 461 ft.; width of apron 31 ft.

*Port Stockton Open Wharf No. 2:*
*Owned by:* City of Stockton.
*Operated by:* Stockton Port District.
*Use:* Receipt and shipment of general cargo; shipment of logs, and handling of heavy-lift cargo.
*Dimensions:* Length of face 506 ft.; depth alongside at MLLW 32–36 ft.; usable berthing space 506 ft.; width of apron: open.
*Remarks:* Wharf has 39,000 sq. ft. of open storage area with an additional 2·3 acres of open storage area in rear. At the Industrial Park approximately 104 acres of open storage area are located South of W. Washington Street; over 50 acres of this area are used for storing logs awaiting shipment. An additional 56 acres of open storage are located North of W. Washington Street.

Logs are transferred to wharf by trucks and by tractors equipped with log clamps.

*Stockton Elevators Grain Elevator Main Wharf No. 1:*
*Owned by:* Stockton Elevators Inc.

*Operated by:* Stockton Elevators Inc.

*Use:* Shipment of grain by vessels and by ocean going and inland waterway barges; receipt of grain by self-unloading barges.

*Dimensions:* Length of face 564 ft., West side 20 ft., East side 20 ft.; depth alongside at MLLW 35–37 ft.; usable berthing space 564 ft.; width of apron, open end 20 ft.

*Mechanical handling facilities:* Two towers on wharf, each with 13-in. diameter, telescopic, mechanically operated, grain-loading spout; loading rate, 900 short tons/hr. (29,877 bu.) at East tower; 800 (26,557 bu.) at West tower; combined rate, 900 short tons.

*Remarks:* Grain gallery connecting towers on wharf has a 30-in., electric-belt conveyor; and gallery extending from East tower to grain elevator has two 30-in. belt conveyors.

**BRIDGES:** Fixed-span high-level toll bridge across Carquinez Strait, with minimum clearance of 135 ft. above mean higher high water. Southern Pacific Railroad lift span bridge crosses Suisun Bay 6.5 miles upstream from Carquinez bridge, with minimum clearance above mean higher high water of 70 ft. when closed and 135 ft. when open. Horizontal clearance on lift span 290 ft. A third bridge, 22 miles above Southern Pacific bridge, near Antioch, has minimum clearance 70 ft. when closed and 135 ft. when open. Horizontal clearance of span 265 ft.

**STEVEDORES:** *General Cargo* – For gang start at 0800, orders must be placed at 1600 of previous day; night gangs must be ordered by 1100. These times pertain to week-day gangs. For week-end gangs, 1100 Saturday for Saturday night, Sunday morning, Sunday night and Monday morning. Day shifts run from 0800 to 1700. Night shifts 1700 to 0300. Arrangements can be made for a special third shift from 0300 to 0800. Rates quoted on request.

*Bulk Ore and Grain Cargoes*—Orders for gangs must be placed at same time as for general cargo. This operation on 24 hour basis; day shift, 0800 to 1600, night shift 1600 to midnight, swing shift, midnight to 0800. Also see "Radio".

**MEDICAL:** Arrangements with San Joaquin Medical Society for physicians, surgeons and dentists. Five hospitals within radius of 6 miles from port. Ambulance service readily available. Telephone number for this service is 466–9535 (day or night).

**TANKERS:** Two berths, 32 ft. depth available.

**FRESH WATER:** Available through pipelines.

**FUEL:** All grades of fuel available with one day's advance notice.

**DEVELOPMENTS:** Deepening of channel to 35 ft. proposed.

**GANGWAY/DECK WATCHMEN:** Services of watchmen not necessary. Available if requested.

**OPENING/CLOSING HATCHES:** Hatches may be opened prior arrival and closed after ship sailed from port; any opening or closing of hatches at dockside must be performed by stevedores.

**CERTIFICATES:** See "San Francisco".

**CUSTOMS ALLOWANCES:** Tobacco, Wine and/or Spirit, see "San Francisco".

**CARGO GEAR:** Safety regulations require strict adherence to maximum loading or unloading weight capacity of ship's gear.

**IDENTIFICATION CARDS:** Not required.

**CONSULS:** See "San Francisco".

**REPAIRS:** Minor types of repairs carried out.

**DRY DOCKS:** Nearest dry docks, San Francisco.

**REPATRIATION:** No facilities in Stockton for effecting crew changes and arranging any necessary repatriations. Special arrangements may be made through Customs.

**AIRPORT:** Stockton Metropolitan Airport located approximately 6 miles from port. Serviced by United Air Lines and Air West.

**TIME:** Pacific Standard Time in effect from last Sunday in October to last Sunday in April; Pacific Daylight Time goes into effect on last Sunday of April until last Sunday in October, when clocks are advanced one hour.

**HOLIDAYS:** New Year's Day; Lincoln's Birthday; Washington's Birthday; Memorial Day; Independence Day; Labour Day; Admission Day; Columbus Day; Veteran's Day; Thanksgiving Day; Christmas Day are all holidays. In addition to above. General Election Day, both State and National, as well as any day proclaimed by Governor of California or President of United States shall be observed as holiday. Work can be arranged for all holidays.

**POLICE/AMBULANCE/FIRE:** Security Force on duty 24 hours a day and can be reached by dialling extension 246 for any emergency that might arise. Stockton Police Department's emergency telephone number (209) 466–6843. Stockton Fire Department (209) 464–4646. Ambulances may be secured by telephoning (209) 466–6869; 464–4846; 463–3202; 466–1601; 464–4611; 464–1546.

**TELEPHONES:** Telephones placed aboard on request.

**ELECTRIC CURRENT:** At wharves where current available for ship's use, it is 110 volt, single phase, 60 cycle for lighting and 440 volt, 3 phase, 60 cycle for power.

**SHORE LEAVE:** Permitted.

**REGULATIONS:** Port of Stockton requests notice of ship's intent to come into port at least seven days prior to arrival; vessels, who have made prior arrangements will have precedence over vessels who sail into port without previous notice.

**AUTHORITY:** Stockton Port District, PO Box 2089, 2201 West Washington Street, Stockton, California, 95201. Tel. (209) 466–6011. Telex 510–765–6661.

## TACOMA, Washington: 47.14 N. 122.28 W.

**DOCUMENTS** (on arrival from foreign):

Ship's document.
Clearance from Last Foreign Port.
2 Crew Lists on Form I.418
2 Passenger lists on Form I.418 (if applicable)
Passenger declarations if applicable.
2 Store Lists.
2 Crew Purchase (curio) Lists.
2 Manifests of cargo for discharge on C.F. 7527–A or 7527–B.

If first arrival port on an inward voyage, must also have 2 sets of Manifests of complete cargo on CF.7527-A or 7527-B, one for customs at this port and the other for use as a "Travelling Manifest" to go forward to other discharge ports.

A – For U.S. Public Health Quarantine Boarding Officer: "Quarantine Declaration" on Form PHS.43.

B – For U.S. Department of Agriculture Boarding Officer: "Shipmaster's Declaration and Warning Notice" on Form A1Q.43.

C – For U.S. Immigration Boarding Officer:
  1. Crew List on Form I.418 visaed by U.S. Consul abroad.
  2. Passenger List on Form I.418.
  3. Attachment to Passanger List on Form I.92.
  4. Form I.94 for each passenger.
  5. Form I.95 of ID Card (Form 184) for each crewmen. (These are reusable for multiple entries, but for seamen on first trip to United States a new Form I.95 must be ready for presentation on arrival.)

D – For U.S. Customs Boarding Officer and Agent or Broker:
  1. 3 copies Crew List (Form I.418).
  2. 3 copies Cargo Manifest on Form 7527A or B.*
  3. 3 copies Store List – no official form provided.*
  4. 3 copies Crew Purchases or Curio List (no official form provided).*
  5. 3 Passenger Lists on Form I.418.
  6. For U.S. Ships – Declaration re foreign repairs on Form 34
  7. For U.S. Ships – Certified Crew List for last U.S. port before going foreign.

* At subsequent U.S. ports of call two copies required of extract Cargo Manifests of cargo for the port concerned, and two copies of lists of stores and curios remaining on board.

**PILOTAGE:** Is compulsory for all vessels except those under coasting trade on West coast of the United States, including Alaska and British Columbia. Pilots board off Port Angeles Pilot Station.

**ANCHORAGE:** The depths as a rule are too great for convenient anchorage, but vessels occasionally anchor under the Northern shore about 1 mile Eastward of Brown's Point. Vessels may anchor in about 60 ft. 450 yd. North-north-westward of the outer end of Puyallup Waterway West jetty.

City regulations permit anchorage in any part of the bay outside harbour lines so as not to interfere with vessels arriving or departing from their docks.

**MAX. SIZE:** Length over 1,000 ft. (centre to centre dimensions of mooring dolphins), draft subject to berth depth.

**HEALTH:** Vessels subject to quarantine inspection usually proceed to their docks, where they are boarded by Quarantine Officer. Fumigation service is performed at the port; however advance notice of 24 hours should be given to Quarantine officer at Tacoma or the U.S. Public Health Service at Seattle.

**TUGS:** Available, join vessel in Commencement Bay, approximately half way between Brown's Point and the designated Dock. Tug's lines are used and there is a charge for tug's lines.

**BERTHING:** 28 Deep water berths.

General Cargo: 1,327,000 sq. ft. warehouse space, 83 acres of open storage area serving all piers.

Water depths: 30 to 50 ft. below MLLW.

**BULK HANDLING FACILITIES:** 1,800-ft. pier with 40 to 50 ft. water depth. Five heavy lift whirley cranes and bulk unloading cranes with 750 to 1,500 tons per hour capacity; 50,000 tons capacity alumina storage structure with load-out facility; 30-acre stockpile area including holding area for 300 rail cars.

Bulk grain elevator: 4,500,000 bushel capacity; loading rate: 60 tons per hour; 700 ft. dock; 50 ft. water depth.

**BRIDGES:** The Port Industrial Bridge and the 11th Street Bridge all ships are required to notify for opening two hours in advance. The Puyallup River Bridge on 11th Street has been deactivated. The Hylebos Bridge. There are no restrictions on the Hylebos Bridge. Closed periods apply to the 11th Street Bridge and the hours are as follows: 6.45 a.m. to 7.45 a.m., 3.30 p.m. to 5.30 p.m.

**STEVEDORES:** Seattle Stevedoring Company, Rothschild International Stevedores, Crescent Wharf and Warehouse Co.

Gang requirements must be made known to contracting stevedore prior to 11.00 a.m. on day before the vessel plans to dock. (10.30 on Saturdays for gangs on Saturday p.m., Sunday and Monday.)

Stowage of cargo for discharge or load determines the gang size requirements. Sufficient information for intelligent gang orders is a necessity – i.e. advance cargo plans, unusual size and/or weight, etc.

**TANKERS:** Loading/discharge lines 8 in. and 10 in. 150 ASA flanged connections. Slop discharge facilities not available. Fresh water available. Coast Guard regulations strictly enforced.

**DENSITY:** The average density in the port is 16·8 at 15°C.

**FRESH WATER:** Available. Delivers to vessel through portable meter hose.

**FUEL:** Available.

| *Grade* | *Viscosity at* 122° *SSF* |
|---|---|
| Bunker "C" | 165–175 |
| PS–400 | 112–116 |
| Bunker Special | 50–60 |
| PS–300 | 32–35 |

Advance notice required

**FIRE PRECAUTIONS:** Very strict precautions in force.

**GANGWAY/DECK WATCHMEN:** Watchmen required if detainees are aboard.

**OPENING/CLOSING HATCHES:** Normally carried out by stevedores. In practice, however, the crew can perform this task while in transit.

**CERTIFICATES:**

Certificate of Registry.
Certificates for any previous U.S. tonnage tax payments within the past year.
International Load-line Certificate.
Safety Radio Certificate.
Deratisation Certificate.
Cargo Gear Inspection Certificate.
Certificate of Inspection (U.S. vessels).

**CUSTOMS ALLOWANCE:** Tobacco: Wine/Spirit: No definite quantities prescribed; reasonable allowance at discretion of Customs Inspector.

**IDENTIFICATION CARDS:** Required.

**REPAIRS:** The largest repair yard in Tacoma can haul out vessels up to 1,000 tons for all kinds of repairs, including electronics, welding, painting and machining; shafts up to 30 ft. in length are machined here. Another plant does shipbuilding exclusively, but will perform topside repairs if needed. Wreckage and salvage facilities are available. Larger vessels go to Seattle for dry-docking. Minor repairs and services for small craft are available at marinas on the City Waterway and the North-eastern shore of Commencement Bay.

**AIRPORT:** Seattle – Tacoma Inter Airport is 16 miles North from port and Tacoma Industrial Airport 8 miles West.

**TIME:** Local time reference is GMT minus 8 hours. In Summer time it is GMT minus 7, or Pacific Daylight Saving Time, started the last week-end in April and finished the last week-end in October.

**HOLIDAYS:** New Year's Day (January 1st) no work; Lincoln's Birthday (February 12th); Washington's Birthday (February 22nd); Memorial Day (May 30th); Independence Day (July 4th) no work; Bloody Thursday (July 5th) no work; Labour Day (September 1st) no work; Columbus Day (Friday after Thanksgiving); Veterans' Day (November 11th); Thanksgiving Day (November 27th) no work; Christmas Day (December 25th) no work.

**POLICE/AMBULANCE/FIRE:** Emergency tel. numbers: Police MA 7–6141; Fire MA 7–0151; Ambulance MA 7–4118 or FU 3-1555.

**TELEPHONES:** Pay telephones available at Piers 1, 2, 4, 7 and Blair Waterway. There is no charge for this service.

**SHORE LEAVE:** Allowed.

**AUTHORITY:** Manager, Terminal Division, Port of Tacoma, Box 1837, Tacoma, Washington.

## TAMPA, Florida: 27.57 N. 82.28 W.

**DOCUMENTS:**

Passports and Seamen's Books.
Vaccination Certificate for each Seaman.
Certified Crew List: must be on American form and certified by American consular office at foreign country from which departed.
U.S. Customs requires Inward Foreign Manifest (original and 3 copies). This must describe cargo which is to be discharged this port and/or any other port in vessel's itinerary. It must show:
Vessel's name and flag.
Master's name.
Last foreign port of departure.
Net registered tons of vessel.
When and where vessel built.
Consigned to Agent.
Bill of Lading Number.
Marks and numbers (on cargo).
Complete description of merchandise.
Weight in kilos or pounds.
Port of loading.
Port of discharge.
Stores Lists (original and 3 copies)
Crew Curio List (original and 3 copies)
Narcotic List (original and 3 copies)
*Dangerous Cargo List (original and 3 copies)
*This should be filled out even if nothing dangerous aboard.
Health officials will board vessel first. Bills of Lading not needed for Customs purposes.

**PILOTAGE:** Vessel applies for Pilot through radio station WPD and through Agent. Telegraphic address for Pilots is: Tam-pilot. Advance notice is not necessary. However, U.S. Coast Guard requires a 24-hour notice of the vessel's ETA. VHF Channel in Tampa is Channel 12.

Five pilot boats – each are different. All 40–45-ft. motor launches flying "H" flag and carrying prescribed red and white pilot lights. No light or sound signals necessary by vessels requiring Pilots.

Normally pilot boat located between sea buoy and No. 2 Buoy in main channel. During bad weather they are located off lighthouse at Egmont Key. Anchorage within 1 mile area of sea-buoy.

**ANCHORAGES:** Vessels with good ground tackle can anchor anywhere outside Egmont Bar in depths of 35 to 50 ft. Inside anchorages Southward of Mullet Key in depths of 30 to 35 ft.; and Southwestward of Gadsden Point in depths of 29 to 36 ft.

Explosives and quarantine anchorages East of Mullet Key and South of Interbay Peninsula.

(1) Explosives anchorage East of Mullet Key. A rectangular area in Tampa Bay, approximately 4,459 yd. long and 1,419 yd. wide, beginning at latitude 27° 38′ 30″, longitude 82° 39′ 09″, and extending North-easterly to latitude 27° 39′ 48″, longitude 82° 37′ 15″; thence South-easterly to latitude 27° 39′ 17″, longitude 82° 36′ 46″; thence South-westerly to latitude 27° 37′ 52″, longitude 82° 38′ 38″; thence North-westerly to point of beginning. Anchorage is used by vessels awaiting loading or unloading at Port Tampa where duration of anchorage will exceed 72 hours.

(2) Temporary explosives anchorage South of Interbay Peninsula. Beginning at a point bearing 107°, 1,750 yd. from Cut F Range Front Light; thence to a point bearing 125°, 2,050 yd., from Cut F Range Front Light; thence to a point bearing 180°, 1,725 yd., from Cut F Range Front Light; thence to a point bearing 222°, 2,180 yd., from Cut F Range Front Light; thence to a point bearing 251°, 1,540 yd., from Cut F Range Front Light; and thence to the point of beginning. Anchorage is used for vessels engaged in loading explosives when duration of the anchorage is less than 72 hours.

(3) Temporary explosives anchorage off Port Tampa. A circular area with a radius of 200 yd. with the point at latitude 27° 50′ 22″, longitude 82° 34′ 15″.

(4) Quarantine anchorage. South-east of the temporary explosives anchorage, beginning at a point bearing 97° true, 4,370 yd., from Cut F Range Front Light; thence to a point bearing 113° 30′, 5,370 yd., from Cut F Range Front Light; thence to a point bearing 161° 30′, 3,770 yd., from Cut F Range Front Light; thence to a point bearing 163° 30′ 2,070 yd., from Cut F Range Front Light; thence to the point of beginning.

**RESTRICTIONS:** Draft recommendation is 33 ft. 6 in. No tidal restrictions with exception of loaded vessels into Port Tampa.

**MAX. SIZE:** Maximum draft 34 ft. MLW. No limit on length and breadth.

**HEALTH:** Vessel to notify Quarantine Station by radio if any communicable disease is suspected to be on board or if vessel has been in an infected port within 15 days. This is to be done prior to arrival in port so that medical officer can check ship and take necessary control measures such as isolation for persons involved or hospitalisation.

**RADIO:** Radio station "WPD" should be used by vessel to route ETA cables to Agents, receivers, etc. Station KUZ 383 on Channel 25 VHF, available for public messages.

**TUGS:** Positions are:

Main port area – right past Beacon No. 35
Port Sutton & East Bay – Beacon No. 29
Port Tampa – Cut "K"
East Tampa – Beacon No. 16

Tug's lines only.

**BERTHING:** Port Sutton: Max. length 800 ft., draft 33 ft. 6 in., waterline to hatchcoaming 43 ft.

Rockport Berth: Max. length 900 ft., draft 33 ft. 6 in., waterline to hatchcoaming 50 ft.

Eastern Associated Terminal: Max. length 850 ft. draft 33 ft. 6 in. waterline to hatchcoaming 50 ft.

All berths can accommodate large vessels by shifting.

**STEVEDORES:** Stevedoring gangs must be ordered approximately 24 hours in advance (before 1700 on day before needed).

**MEDICAL:** Advance notice for medical attention not required, but is preferable. All U.S. ports require valid certificate of vaccination (renewable every three years) for smallpox.

**TANKERS:**

| *Company* | *Pipe lines* | *Berthing space* | *Depth* |
|---|---|---|---|
| American Oil Co. | (1) 12″ (2) 10″ | 275 ft. | 30 ft. |

| Detsco Terminals | (1) 10″ | 380 ft. | 32–34 ft. |
| Pasco Terminals Inc. | (1) 10″ | 600 ft. | 30 ft. |
| Texaco Inc. | (1) 12″ (2) 8″ (4) 6″ | 250 ft. | 33 ft. |
| Gardinier Inc. | (1) 12″ | 448 ft. | 32 ft. |
| Warren Petroleum Co. | (1) 4″ | 325 ft. | 14–12 ft. |

Note that part of above terminals use same piers. Most terminals have residue discharge facilities.

**DENSITY:** Density is affected by local rains due to Hillsborough River. Seasonal variances too great to allow advance prediction.

**FRESH WATER:** Available all over port and delivered through hoses and meters. Rates of delivery various.

**FUEL:** All grades and types available, including all types of blended fuel and Bunker "C". 24 hour notice required. All types of lube-oil available with delivery in bulk or drums – 24 hour notice is required.

Major oil companies (i.e. Shell, American Oil, Texaco, Gulf, Standard, etc.) represented in Tampa. Delivery ex pipeline, barge or truck.
**PRECAUTIONS:** No specific precautions other than usual.
**DEVELOPMENTS:** The Tampa Port Authority is now completing three new general cargo berths, a total of 1,800 ft., on the East Bay Channel and Turning Basin at the Port of Tampa.

The berths were designed with container capability in mind. The Port Authority is in the process of purchasing a heavy-lift crane capable of handling containers.

Plans are also underway for the construction of a possible four additional 600-ft. general cargo berths to meet the requirements of the port as indicated by port operators.

The U.S. Corps of Engineers plans to begin dredging operations for deepening the harbour channels from their present 34 ft. to 43 ft. Commencement of this project is scheduled for early 1975 with work continuing until completed, a total of about five years.
**GANGWAY/DECK WATCHMEN:** Watchmen not necessary, but available when required.
**OPENING/CLOSING HATCHES:** Longshoremen open and close hatches.
**SHIP CERTIFICATES:**

Documentation Papers.
Load-line Certificate.
Certificate of Safety at Sea (when carrying passengers).
Certificate of Safety Equipment.

**CUSTOMS ALLOWANCES:** Tobacco, two packs of cigarettes per day per man. Wine and/or Spirit, no set amount. Each boarding officer has different views (i.e. German and Scandinavian vessels allowed two bottles of beer per day per man). Allowances made within reasonable bounds at Master's discretion subject to boarding officer's approval.
**CARGO GEAR:** No local special safety requirements. Longshoremen and U.S. Department of Labor requirements are uniform over the U.S.
**IDENTIFICATION CARDS:** Passports required.
**CONSULS:** The following countries are represented in Tampa:

Belgium
Colombia
Costa Rica
El Salvador
Finland
France
Guatemala
Honduras
Italy
Mexico
Netherlands
Nicaragua
Norway
Peru
Sweden
Turkey

**REPAIRS:** All types are possible.
**DRY DOCKS:** Graving dock: 525 ft. long on bottom × 80 ft. wide, and depth over keel blocks 16–18 ft. at MHW; Dry dock: 200 ft. long × 65 ft. wide. There are two other dry docks besides those listed above.
**REPATRIATION:** No foreign crew pools in Tampa (located in New Orleans, San Francisco and New York). But crew changes can be made when Master radios requirements to Agent who arranges with local consul or through crew pool in nearest city named above for applicable country (if no consul is available in Tampa). American crew pools for all unions in Tampa.

Repatriation available at Tampa International Airport and is handled by consul or Master.
**AIRPORT:** Tampa International Airport served by regular airlines and located approximately 5 miles from main port area; 5 miles from Port Tampa and 16 miles from East Tampa.
**TIME:** Tampa normally on Eastern Standard time with Daylight Saving Time in effect from last Sunday in April to last Sunday in October.
**HOLIDAYS:** New Year's Day (January 1); Jan. 15th; Gasparilla Day (2nd Monday in February, local holiday); Lincoln's Birthday (February 12); Memorial Day; Independence Day (July 4); Labor Day (1st Monday in September); Columbus Day; Veterans Day; Thanksgiving Day (last Thursday in November); Christmas (December 25).

When any of these holidays fall on a Sunday, they will be observed on Monday following. Work on these holidays by special arrangement only.
**POLICE/AMBULANCE/FIRE:** Police 223–8521; Ambulance 223–1551; Fire 223–4211.
**TELEPHONES:** Installation of telephone aboard can be arranged.
**SERVICES:** Compass adjustments available; radio direction finder; radar repairs; tank cleaning.
**SHORE LEAVE:** Immigration authorities grant clearance after examination of passport or bona fide seaman's papers.
**DELAYS:** Delay can be expected in loading phosphate rock (one to two days), and same delay applicable for berthing at elevators. No delays in general cargo loading or berthing and bunkering.
**AUTHORITY:** Tampa Port Authority, PO Box 2192, Tampa, Florida 33601. Tel. (813) 248–1924.

## TEXAS CITY, Texas: 29.22 N. 94.53 W.

**DOCUMENTS, PILOTAGE, HEALTH, Etc.,** refer to "Galveston".
**RESTRICTIONS:** Controlling depth in entrance channel 40 ft. Otherwise restricted by depth available at berth. Vessels enter day and night.
**TUGS:** Available if required.
**BERTHING:**

| | | |
|---|---|---|
| American Oil Tanker Docks | depth | 36 ft. |
| Monsanto Tanker Dock | „ | 32 ft. |
| Texas City Oil Docks | „ | 36 ft. |
| Union Carbide Terminal | „ | 33 ft. |

**MEDICAL:** All medical assistance available.
**DENSITY:** Brackish.
**FRESH WATER:** Available at all wharves except Union Carbide Terminal.
**FUEL:** Bunker C available to tankers loading/discharging. All grades available by barge from Houston.
**GANGWAY/DECK WATCHMEN:** Required only if crewmen detained by Immigration.
**CUSTOMS ALLOWANCES:** Each man 300 cigarettes or 10 cigars or 1 lb. tobacco. 1 qt. wine/spirits.
**CONSULS:** See "Houston".
**TIME:** Central Standard Time. Daylight saving time effective from April to October.
**SHORE LEAVE:** No restrictions unless detained by Immigration.
**AUTHORITY:** Texas City Terminal Railway Co.

## TOLEDO, Ohio: 41.42 N. 83.28 W. (See Plan)

Refer to "St. Lawrence Seaway" for important general information.
**PILOTAGE:** By Seaway Pilots.
**RESTRICTIONS:** Navigation season from mid-March to end December, approx. The port is connected to Lake Erie by an entrance channel, depth 27 ft. Vessels size restricted by Seaway locks.
**MAX. SIZE:** 730 ft. length; 26 ft. draft. Height restriction of 104 ft. above water-line which applies to grain berths only.
**HEALTH:** All ocean-going vessels must obtain a free pratique before entering the Seaway. Vessels may obtain quarantine inspection and clearance from the Canadian Authorities at Montreal while awaiting entrance to the Seaway.
**RADIO:** Master must give at least 24 hours notice to Commander 9th Coast Guard District, Cleveland, Ohio, of the vessel's ETA at Snell Lock. Also, at least 24 hours notice of ETA at first U.S. discharge port is required. Toledo Port can be contacted through Lorain, Ohio, or Port Colborne, Ontario.
**TUGS:** Available. Not compulsory, but sometimes necessary in bad weather.
**BERTHING:**

C & O Railway Dock: 2,000 ft. long, 26 ft. depth alongside.
Lake Front Dock: 1,200 ft. long, 26 ft. depth alongside.
Interlake Steel Corporation: 23 ft. depth alongside.
Mid States Terminals: 27 ft. depth alongside.
East Side Iron Elevator: 27 ft. depth alongside.
Port Authority Facility: 4,000 ft. long, 27 ft. depth alongside.
Anderson Elevator: 27 ft. depth alongside.

**CARGO HANDLING FACILITIES:** Three grain elevators at Toledo load vessels at 50,000 bushels per hour. There are six coal loading machines, each of which can dump one 100-ton car per minute, also one machine which dumps two cars simultaneously for a maximum of 6,000 tons per hour. There are seven Hulett ore machines; unload lake vessels at a rate of 4,000 tons per hour. Bulk liquids handled include petroleum products, industrial molasses, palm kernel oil, liquid sugar, trichlorethylene and perchlorethylene.
**TANKERS:**

Hocking Valley Pier: 22 ft. depth alongside.
Ashland Oil Company: 22 ft. depth alongside.
Standard Oil Company: 23 ft. depth alongside.
Gulf Refining Co.: 21 ft. depth alongside.

**DENSITY:** Fresh water.
**MEDICAL:** All facilities available.
**FRESH WATER:** Obtainable by pipe-line at all general cargo docks.
**FUEL:** All grades available at oil piers, and by harbour fuel barge.
**REPAIRS:** Major repair facilities available.
**DRY DOCKS:** No. 1: 510 ft. × 72 ft. 6 in.; No. 2: 641 ft. × 78 ft.
**AUTHORITY:** Toledo – Lucas County Port Authority, 241 Superior Street, Toledo.

## VALDEZ, Alaska: 61.07 N. 146.21 W.

Located at head of Valdez Arm in Prince William Sound.
**APPROACHES:** Via Prince William Sound to the Valdez pilot station.
**DOCUMENTS:** See "Anchorage, Alaska".
**PILOTAGE:** Pilots board approx. 2 miles North of Busby Light.
**MAX. SIZE:** Harbour depth over 300 ft. Tides: diurnal range 12 ft. Also see "Berthing".
**ANCHORAGE:** Excellent, close by dock. Bay is too deep.
**CUSTOMS:** Quarantine, local. Immigration and Customs from Anchorage.
**BERTHING:** 1. Valdez City Dock: 36 ft. MLLW. 600 ft. long by 4 ft. wide. Two warehouses, one heated, one unheated. Stevedore provides equipment which includes fork-lifts and two 100-ton mobile cranes and one 150-ton mobile crane. Dock operated by North Star Stevedoring Co.
**TUGS:** Limited availability.
**STEVEDORES:** Three gangs.
**REPAIRS:** Minor repairs only.
**WATER:** Available in temperate seasons.
**FUEL:** Not available.
**MEDICAL:** 150-bed mental patient hospital; 15 beds for local use; 1 doctor, 1 dentist regularly from Anchorage.
**TRANSPORTATION:** Air; highway to Fairbanks and Anchorage.
**DEVELOPMENTS:** Valdez is the projected terminus of the Trans-Alaska Pipe-line and construction of tanks and oil dock facilities is anticipated across Valdez Arm from City Dock.

## VANCOUVER, Washington: 45.36 N. 122.40 W.

**DOCUMENTS**: Three copies of following:
Cargo Manifest.
Store List.
Crew Cargo List.
Crew List.
One copy of following:
Clearance from Last Port.
Tonnage Tax Certificate.
Copy of Vessel Register and itinerary of vessel port by port.

**PILOTAGE**: When entering from sea (without service of a bar pilot) vessel or Agent must give notice between hours of 0800 and 1700 and at least 12 hours prior to ETA Astoria. Calls may be placed with Astoria office (325–4532) or at Portland office (228–9325) or by radio to "Colrip Astoriaore". River Pilots board at Astoria in channel in vicinity of Astoria Crossing Lighted Buoy No. 37. Signal for river Pilot is one long and three short whistles. When ordering bar Pilots, request radio via KLB, Seattle, Wash., about 12 hours before arrival. Address "Bar Pilots, Astoria, Ore.", giving date and time of arrival at lightship. When "Peacock" is on station Pilot boards from small power boat; when "Columbia" is on station, Pilot boards directly from "Columbia". When pilot is boarding from small boat keep engines at about 4 knots speed. Do not change course or speed until signalled by Pilot vessel. Vessels having radio telephone contact pilot vessel for instructions on following frequencies: radio phone watch on Channel 16 VHF (156·8 mgc/s) also 2182 and 2738 kc/s. Pilot boat "Peacock" call WS 7217; pilot boat "Columbia" WJ 8200; Astoria bar Pilots' office (Channel 16) KOK 360.

**ANCHORAGES**: Only designated anchorages on U.S. Coast and Geodetic Charts are at Tongue Point (Astoria), Oreg. Two in number and designated on Chart 6151 Columbia River, Pacific Ocean to Harrington Point, as 1 Lower Tongue Point and 2 Upper Tongue Point. Additional locations on Columbia and Willamette Rivers where safe anchorages can be made upon advice of Columbia River pilots. Anchorage in Vancouver harbour by permission of Harbour Master.

**RESTRICTIONS**: No restrictions on night entry. State of tide and draft restrictions not applicable to vessels drawing less than 40 ft.

**MAX. SIZE**: No restrictions length and breadth. Depth at Columbia River entry 48 ft. River channel to Vancouver maintained at 45 ft. by 600 ft. Seasonal tidal effect up to 3 ft. at Vancouver.

**HEALTH**: See Health Regulations before first U.S.A. port (Albany). Department of Agriculture board all vessels. Immigration board vessels arriving from foreign ports.

**RADIO**: Route ETA cables through KLBITT Seattle, Wash.

**TUGS**: Normally join vessel at designated berth. Tug lines used at no charge.

**BERTHING**: No special requirements for berthing and no special arrival times required except under particular circumstances.

**STEVEDORES**: Allocation for gangs Monday through Saturday must be confirmed at 1100 to the longshore hiring hall. Allocation for gangs Sunday and Monday are made at 1100 Saturday for both day and night gangs. Same procedure applies to allocation of night gangs, but night gangs may be cancelled by 1400 afternoon of night gangs are to work.

**MEDICAL**: Any type of medical treatment can be provided and hospital facilities available. Only inoculation requirement for entry to U.S. is smallpox, except when vessels have called at an area infected by another disease.

**DENSITY**: Fresh water at all times.

**FRESH WATER**: Available at all berths delivered through pier-side connections.

**FUEL**: Viscosity grades of B and lower. No advance notice required. Barging essential.

**FIRE PRECAUTIONS**: Port fire precautions respecting tankers are administered by U.S. Coast Guard, which enforces shipboard regulations under Code of Federal Regulations, Part 46, Sub-part D, Sections 20 to 40; Police Harbour Patrol, which controls port movements, boards vessels to warn Master regarding harbour regulations, including spilling of oil, etc.; and Fire Marshal, who exercises jurisdiction regarding fire regulations at shoreside facilities serving tankers.

**DEVELOPMENTS**: Will continue building new cargo warehouses, additions to dock facilities, three 50-ton gantry cranes available, berths for four cargo vessels, container yard and lumber yard.

**GANGWAY/DECK WATCHMEN**: Services at option of vessel Owner/Agent and available through private firms.

**OPENING/CLOSING HATCHES**: While ship is at dock, opening and closing hatches is work of longshoremen. Ship may open or close own hatches while under way.

**CERTIFICATES**: Registered tonnage certificate.

**CUSTOMS ALLOWANCES**: Tobacco, reasonable quantity. Wine and/or Spirit, reasonable quantity.

**CARGO GEAR**: Valid cargo gear certificate required, acceptable to U.S. Bureau of Labor Standards.

**IDENTIFICATION CARDS**: Immigration Dept. requires forms No. 595 and No. 31 (Repatriation). Changes can be effected at any U.S. Consulate and are honoured here.

**CONSULS**:
Austria
Belgium
Costa Rica
Denmark
Dominican Republic
El Salvador
Finland
France
Federal Republic of Germany
Great Britain
Iceland
Italy
Japan
Lebanon
Mexico
The Netherlands
Norway
Republic of Panama
Peru
Sweden
Venezuela

**REPAIRS**: All types of deck and engine repairs possible.

**DRY DOCKS**: See "Portland, Oregon".

**REPATRIATION**: Any arrangements possible for crew changes or other repatriation.

**AIRPORT**: Airport 10 miles from town, served by seven regularly scheduled airlines with direct service and/or connections domestically and world-wide.

**TIME**: GMT minus 8 hours. Daylight saving time becomes effective annually on last Sunday in April through last Saturday in October.

**HOLIDAYS**: Following holidays are recognised: *New Year's Day; Lincoln's Birthday (Feb. 12); Washington's Birthday (Feb. 22); Memorial Day (May 30); *Independence Day (July 4); *Labor Day (First Monday in September); Columbus Day (Oct. 12); Veteran's Day (Nov. 11); Thanksgiving Day; *Christmas Day (Dec. 25); Statewide Election Days. Other legal holidays may be proclaimed by State or national authority. When holiday falls on Sunday, following Monday observed as holiday. Longshore work performed on any of above-listed days is at overtime, which is one-and-a-half time rate. Days marked (*) are stop-work days, viz., no ships will be worked. This also applies to July 5, which observed locally on unilateral basis.

**POLICE/AMBULANCE/FIRE**: Police 693–2555; Fire 693–1441; Ambulance provided by several private firms, but can be obtained through police or fire number.

**TELEPHONES**: Available by order from terminal superintendents at $5.00 connection charge.

**SERVICES**: All services available such as compass adjusting, major or minor repairs either with work barges or at ship repair berths; lay berths available; charts available from private companies; all chandlery supplies available.

**SHORE LEAVE**: Crew members permitted ashore except where vessel has made first arrival from Communist-controlled port.

**AUTHORITY**: Port of Vancouver, Washington, Foot of West 16th Street and Lower River Road, Vancouver, Washington 98660. Tel. Vancouver 693–3611, Portland 289–8824. Telex 910–474–8673.

## WILMINGTON, Delaware: 39.44 N. 75.32 W.

**DOCUMENTS/PILOTAGE**: See "Philadelphia."

**ANCHORAGE**: At Cherry Island.

**MAX. SIZE**: Length unlimited, breadth unlimited, draft 40 ft. MLW tide rise and fall 5½ ft.

**HEALTH**: U.S. Public Health Service requirements.

**RADIO**: Station W.S.C., Tuckerton, N.J.

**TUGS**: Normally, tugs are not required. A docking Pilot is available. If tugs are required, they must be ordered from Philadelphia, Pa.

**BERTHING**: 3,000 ft. marginal berth, 25 to 140 ton crane capacity. 600 tons per hour bulk unloader. Covered bulk storage of 725 cubic feet. Dockside freezer capability for liquid import and export.

**DENSITY**: Fresh water port. Normal 12 hour tide.

**FRESH WATER**: Hose connection from dock.

**FUEL**: Available.

**GANGWAY/DECK WATCHMEN**: Required.

**OPENING/CLOSING HATCHES**: Optional.

**IDENTIFICATION CARDS**: See "New York".

**CONSULS**: All Consuls are located in Philadelphia, Pa.

**REPAIRS**: Engine and other repairs at Wilson Ship Yard, Wilmington, Del.

**DRY DOCKS**: Major repairs and dry dock facilities – Sun Ship Yard, Chester, Pa.

**REPATRIATION**: Facilities are available and arranged by Agent.

**AIRPORT**: Philadelphia International Airport, regular service.

**TIME**: U.S. Eastern Standard and Daylight Time.

**POLICE/AMBULANCE/FIRE**: Police, tel. 302; Ambulance, tel. 654; Fire, tel. 5151.

**TELEPHONES**: Dock-side pay phones.

**SERVICES**: All services available.

**SHORE LEAVE**: Allowed unless restricted by Immigration.

**AUTHORITY**: Port of Wilmington, Board of Harbour Commissioners, PO Box 1191, Wilmington, Delaware. Tel. 302–656–8566. TWX: 510–666 2181.

## WILMINGTON, N. Carolina: 34.14 N. 77.57 W. (See Plan)

**PORT LIMITS**: A ship is considered an "arrived vessel" upon arrival at Buoy 2CF.

**DOCUMENTS**:
3 copies Cargo Manifest (Forms 7527-A or 7527-B), the original showing all cargo on board, and 2 copies showing only cargo for this port.
3 copies Crew Manifest (curio list) (Customs Form 1304).
3 copies Stores List (Customs Form 1303).
3 copies Passenger List (Form I.418).
3 copies Crew List (Form I.418).

Customs boarding Officer will also examine ship's Register and Load-line Certificate. In addition, the following documents will be required for formal entry to be made within 48 hours of arrival from abroad, or 24 hours from arrival from a United States port:
Master's oath (Customs Form 1300).
All foreign clearances.
U.S. Certificates of payment of tonnage tax (Customs Form 1002).
Certified Crew List.
Oil Pollution Cert.
General Declaration (Customs Form 1301).
Load Line Certificate.
Safety Equipment Certificate.

**PILOTAGE:** Pilots board vessels at Buoy 2CF off the mouth of the Cape Fear River. Masters should notify local Agents by radio of their ETA's at Buoy 2CF in order that the Pilots may be on station in advance of arrival. Additionally, Masters may communicate with Pilots by radio telephone on 2738 frequency and by VHF Channel 18A. Pilots remain on board until harbour limits of Wilmington, where docking masters normally board vessels for purposes of docking.
**APPROACHES:** The port terminal at Wilmington is located on the East bank of Cape Fear River, approximately 26 miles from the sea buoy at the mouth of the river. Wilmington is 150 miles South-west of Cape Hattaras and 26 miles North of Cape Fear.
**RESTRICTIONS:** The approach channel and basins adjacent to the port are maintained at a depth of 38 ft. MLW.
**ANCHORAGE:** Vessels awaiting Pilots normally anchor in area off Buoy 2CF. There is no safe anchorage in the port of Wilmington for large vessels to be accommodated. Small vessels can be accommodated for brief periods in anchorage basin, although it is necessary to swing with the tide in order to avoid blocking channel.
**MAX. SIZE:** No limit on length, breadth, and draft limit is present channel project depth of 38 ft. Master should communicate with local Agent regarding stage of tide for passage of vessels drawing 34 ft. or above.
**HEALTH:** Radio pratique not required. Vessels not boarded by health authority, unless vessel from plague infected country or illness on board.

Vessels are boarded by Immigration, Customs and Agriculture.
**TUGS:** Two towing companies operate at Wilmington.
**BERTHING:** A continuous marginal wharf, 6,680 ft. long. Docking at any hour, day or night.
**SPECIALISED CARGO HANDLING FACILITIES:** State Port Terminal: fully equipped to serve cellular type container ships, for bulk handling; equipped with 6 yard rehandler buckets, receiving hoppers, and paved open storage areas, two 45-ton, one 115-ton and one 225-ton gantry crane; one berth with tank farm for handling liquid chemicals.

Almont Shipping Company: three berths, open and covered bulk storage, two 25-ton cranes and one 85-ton derrick. No facilities for LPG carriers.
**TANKERS:** Ten tanker berths with drafts from 30 to 40 ft. MLW. Night berthing at all berths. Fresh water available.
**FRESH WATER:** Available from shore connections at rates up to 50 tons per hour.
**FUEL:** Bunker "C" and diesel fuels available locally.
**FIRE PRECAUTIONS:** Normal precautions observed.
**DEVELOPMENTS:** One 225-ton gantry crane, nine additional acres paved open storage and dockside sewage facilities to receive waste from ships to be available 1973.
**REPAIRS:** Minor ship repairs available.
**DRY DOCKS:** One 1,000-ton lift floating dry dock.
**AIRPORT:** New Hanover Country Airport, 7 miles from N.C. State Port Terminal. Served by Piedmont Airlines.
**IDENTIFICATION CARDS:** Standard U.S. Immigration Forms I.95 to be made up for each crew member on arrival. Not necessary for crew man already holding Form I.95, issued for the same vessel.
**TIME:** Eastern Standard Time, GMT minus 5 hours. Daylight Saving Time, GMT minus 4 hours from April to October.
**AUTHORITY:** North Carolina State Port Authority. PO Box 3037 Wilmington, N.C. 28401. Tel. (919)–763–1621.

**AGENT:** Wilmington Shipping Company, North Carolina State Terminals, POB 1809, Wilmington, North Carolina. Tel. 763–7333, Cables "Wilshipco."

## WRANGELL, Alaska: 56.28 N. 132.22 W.

Located on Wrangell Island. Open all year.

**DOCUMENTS:** See "Anchorage, Alaska".
**PILOTAGE:** (From sea via Dixon Entrance up Clarence Strait to Guard Island.) Under pilotage from Guard Island.
**MAX. SIZE:** Harbour depth 32 ft. MLLW. Tides: mean range 13·7 ft., diurnal range 16·1 ft. Also see "Berthing".
**ANCHORAGE:** Good anchorage North-east of Woronofski Island in 22 fathoms of water.
**CUSTOMS:** Immigration, Guard Island or local Customs office. Quarantine and Customs, local.
**BERTHING:** Three wharves. 1. Wrangell Wharf Co. Berthing length 220 ft., East end depth 24 ft., West end depth 38 ft. Two lift-trucks; 4,800 sq. ft. covered shed space.

2. Wrangell Lumber Co. Dock; Berthing length 320 ft., 150 ft. wide, depth South end 32 ft. North end 40 ft. LW. Height of pier from 0 tide 23½ ft. Crane – 1 mobile, 8 ton, 6 lift-trucks. No shed space. Three acres open storage.

3. Alaska Wood Products: Berthing length 300 ft., 50 ft. wide. Depth at LW 32 ft. Height of pier from 0 tide 23 ft. No shed space.
**TUGS:** Three available, 500 h.p. each.
**DEVELOPMENTS:** Possible mineral potential for future development from Iskut River and Stikine River lodes.
**STEVEDORES:** Four gangs available.
**REPAIRS:** None.
**WATER:** Available.
**FUEL:** None.
**MEDICAL:** Small but new hospital.
**TRANSPORTATION:** Air and ferry.

# Uruguay

**REGULATIONS:** Increased fines became effective in June 197 respect of infringements of the Uruguayan Marine Code. There approximately 119 Articles to the Marine Code, and Owners a Masters of vessels proceeding to Uruguayan ports are reco mended to obtain a copy of the Code (which lists port regulatio and amounts of fines for infringements) prior to arrival. We und stand that copies of the Code, entitled "Reglamento Preventiv Represivo de Infracciones Maritimas, Fluviales y Portuarias", m be obtained from Centro Navegacion Transatlantica, Colon 14 p. 3, Montevideo.

Freely translated, we give below some extracts of Port Regulatio as specifically applicable to Montevideo, but also to all Urugua ports in general:

Articles 1 to 8 cover respectively the reasons for setting up th preventive set of regulations; the definition of what a vessel is terms of the legislation; the establishment and amount of fine (they may be tripled in the event of repeated offences); the fact th very small vessels may only have imposed 10 per cent of the fu fine; the jurisdiction for the regulations covering the whole of th Uruguayan coast and river frontage; the stipulation whereby th General Marine Prefecture must send to the Captain of the vess a statement of the offence immediately it is observed and this i triplicate and to the local Agent for the vessel.

The actual information which the form must contain is delineate Notification of offences can be made after a vessel has sailed, th being to the local ship's Agent by phone and confirmed with 24 hours in writing; All Captains must give written consent to the local Agent, and the Agent must accept this in writing, empoweri the Agent to act in the Captain's name in all cases of fine paymen The Authorities may delay the sailing of a vessel if they see fit i connection with any offence. Finally, article 8 deals with the right t appeal to the General Marine Prefecture against any fine impose this having to be done within 10 days dating from the day followi personal notification of the offence.

Articles 9 to 119 cover the specific offences subject to fine an indicate individually the full fine imposable in local pesos.

An abridged summary of each of the articles is as follows: N anchoring within 900 metres of the illuminated buoy in the port acces channel.

Vessels carrying hazardous cargo must hoist flags according t the Int. Code of Signals.

Vessels with anyone on board with contagious diseases mus hoist appropriate flag (letters QL).

Flag Q must be hoisted and maintained in position until healt authority has given free pratique.

All vessels anchoring in the roads, bay or ante-port must take du precautions not to harm or cause damage to other vessels; the fin will be imposed notwithstanding claims for damages from thir parties.

Agents of vessels which may wish to anchor in the roads mus obtain prior permission from the Marine Authority, specifying vessel's measurements and the reason. If authorised, the anchorage to b used will be notified.

No anchoring at the docks unless justified, and anchors must b raised immediately the reason for dropping them has gone. Ther must be no delay on the part of vessels in complying with the Marin Authorities instructions to change berth or anchorage.

No tying up to other vessels without Marine Authority per-mission; no attachment to berths which have not been allocate and no changing of berth without authorisation.

No anchoring in places not authorised by the Marine Authorit the maximum fine being applied should this have caused damag to third parties.

No small craft to be tied up obstructing gangways or quays Where this is necessary for embarking crew members, passengers provisions, etc., the small craft must be removed immediately the operation has been completed.

Small craft must not be tied up to buoys or beacons. Vessels must not tie up at buoys or beacons.

Maximum speed of vessels in docks is 4 knots.

Navigation in channels of access to ports is governed as follows:

Maximum speed 8 knots.

Vessels must always keep to starboard.

Vessels must not overtake each other, but where this is necessar they must conform to the International Signal Code.

No anchorage in channels.

No fishing in channels.

Vessels navigating in channels must keep a distance of 1,000 metres from each other.

Vessels must not cross in front of each other in the fore-ports.

All vessels entering or leaving the ante-port or docks, changing berths or anchorages must be assisted by a Pilot and a tug, unless specifically given exception to this rule by the Marine Authority.

No vessel must enter port with damage to hull, machinery or rudder unless prior inspected by the Technical Commission of the Mercantile Marine Directorate.

Any vessel springing a leak whilst navigating in the access channel and which the bilge pumps cannot overcome, must go aground as quickly as possible off the channel so as to leave the channel open.

In case of fire on board whilst navigating in the access channel, Captains must observe usual procedure and give signals accordingly.

The strict use of semaphore signals within port must be observed.

When vessels enter the docks or remain in them, Captains owners or Agents must request permission from the Marine Traffic Office, and report to the Office of Pilotage, and proceed in whatever form they may instruct. On leaving the same procedure must be followed.

Captains and owners of vessels must see that their vessels do not obstruct or cause harm to port works, beacons, buoys, or semaphores and once tied up they must not slacken ropes without permission of the Marine Authority except under conditions covered by items 1, 2 and 3 of article 64 of the Port of Montevideo Marine Regulations.

No vessel to have badly stowed cargo, excess weight, or evidence of lists due to bad trim of cargo.

Only those lines necessary for tying up to be used. When two or more vessels tie up alongside to load or discharge they are all obligated to ensure that the handling of their respective cargoes does not prejudice the working of the others.

Vessels must take proper precautions when loading or discharging raw material, i.e. sand, bones, ash, coal, etc., by placing suitable planks of wood close together to prevent any such material falling into the water.

No vessel to enter docks with the gangway already rigged.

During unloading operations, no goods to be thrown on to the quay. This must be done manually or mechanically.

During discharge operations, cargo must be so positioned on the quay as to leave adequate passage for vehicular traffic, i.e. police, fire-brigade, health authorities, customs and port officials.

Planks of wood – when planks are used for any operation, they must not be placed in contact with mooring bitts or cables. When work ceases all pieces of wood, ladders, small trucks, etc, must be removed from the quay, and those belonging to the ship must be taken on board, this so as not to obstruct the public path along the quay.

When cleaning or washing ships tied up at quays, no rubbish, water or cleaning material must be allowed to fall on the quay.

A very serious offence is the throwing into the water of any rubbish, sewage or other materials susceptible to dirtying the water.

Very serious offences are the lightening of ships carrying petrol, crude oil, or the like, likewise the washing-out of tanks, except in authorised zones. The fine is based on the area spoiled by the wrongful discharge.

All ships should have local Agents, otherwise in the case of offences the Captain is held responsible and vessels may be detained.

Vessels are responsible to ensure that no damage is made to quay installations by the cargo they load or discharge, and must always leave berths in a tidy and clean state.

Vessels' auxiliary small craft, launches and the like must not hang over the side of the vessel in port, except during the operations of launching and reshipping on board, where such operations are conducted at points indicated by the Marine Authority. Such small craft may only be used for the purpose and at the times authorised by the Marine Authority.

Usual regulations concerning carriage of passengers in vessels and heavy fines are imposable for the carriage of passengers or crew members not listed.

Vessels exceeding their navigation limits shown in their Certificate of Navigability are subject to fine.

All vessels must be cleared to sail by the Marine Authority.

Vessels must use their proper name, and this must be painted on in letters of a minimum of 15 centimetres height and 8 centimetres wide. Letters must be white on black or black on light colour.

Captains, Owners and Agents must report any crew offence or irregularity on board to the Marine Authority.

Vessels in port must hoist the Uruguayan flag. *N.B. It is recommended that Masters correctly establish the proscribed times for raising and lowering the Uruguayan flag, in order to avoid fines.*

Vessels must have their gangway equipped with handrails, and the gangway must be clearly lit at night.

All lines to shore must have rat-guards fitted.

When there are hazardous goods on board or when such goods are being worked, the vessel must hoist the International Signal Code letter B, and at night show a red light on the bow masthead, must always have engines in a state of readiness in case of danger, keep two-thirds of the crew on board, keep watchmen and firemen available (the number of whom will be determined by the number of holds containing the hazardous material), must only work with incandescent lights, and keep a port pilot on board if the Marine Authority so directs.

Vessels moored at quays must not move propellors, except under the direction of the Marine Authority.

Vessels must not moor in the port access channel. There must be no improper use of the International Signal Code. Signal flags must not be interspersed with flags of nationality.

If a vessel wishes to dress flags over all, or fly a flag at halfmast due to a bereavement on board, the Marine Authority's permission must be first obtained.

The use of whistles, sirens or any other audible signal within the area of the roads, bay, ante-port or docks, for any reason other than justifiable for navigation is prohibited.

Any vessel anchored, tied up to other vessels or to the shore or quays, must show a white light from sunset to sunrise which can be seen at a distance of 500 metres.

In the access channel to Montevideo, no more than four vessels may navigate at one time – two entering, two leaving.

Maximum speed in the Montevideo ante-port is six knots. There must be no anchoring in the Free Zone, reserved for the manoeuvring of vessels entering and leaving.

At Montevideo there must be no anchoring along the route leading from the Free Zone to channel "A", between the quay and the pier of the same letter. Also on the route leading from pier "A" along a line to 100 metres to the North of the end of the West Jetty.

No anchoring in any area less than 200 metres from pier "A" in a semi-circular coverage, taking as middle point a position half way between quay "A" and pier "A".

All vessels must keep to the right or to the middle when there are no other vessels in the vicinity.

International Regulations for the Prevention of Collisions apply, plus the following:

Vessels navigating along the routes established in the anteport or which have to pass directly through the passage between jetties "A" and "B", must keep to the right when another vessel is coming in the opposite direction.

Vessels which have to cross the North, the South route or directly between jetties "A" and "B", must ensure that they pass any other vessel at a distance not less than 50 metres.

Any vessel navigating under her own power must give way to a vessel under tow by a tug.

Vessels with tugs following routes which cross one another, thereby creating a collision risk, the one passing to starboard of the other is the vessel which must take the precautionary measures to avoid collision. If, however, the risk persists, the vessel passing to port of the other must also take measures to increase the distance between the two vessels.

No vessels to pass in pairs or in opposite direction between jetties "A" and "B"; the semaphore signals transmitted by quay "A" must be observed. If the signal is "vessel entering from the ante-port to the docks", the vessel in the docks, ready to sail, must wait until the incoming vessel has entered.

If the signal is "vessel leaving the docks for the ante-port" the vessel in the foreport, moving towards jetty "A" to enter the docks, must wait in the free zone, stop engines, keeping to the right, and drop an anchor if necessary, until the outgoing vessel is outside and well clear of jetty "A".

The same regulation applies to vessels leaving the River Dock. In this case, the vessel leaving to jetty "A" has priority, coming from docks I and II and the first will wait for the second before starting engines.

All vessels navigating in the same direction in the ante-port must keep a distance of not less than 300 metres from each other stern to bow. They must not pass each other or navigate in pairs.

In the event of offences being incurred whilst an Uruguayan pilot is on board, at the request of the local ship's Agent, the Marine Authority will determine whether the Pilot is responsible for the offence having occurred, and take measures accordingly.

Vessels which load beyond the appropriate load line will be subject to a fine of 1,000,000 pesos.

**DOCUMENTS:**

*1. Required by Vessel*

*For Customs:*

Visaed Manifest and Bills of Lading – see below.
1 Visaed copy of ballast certificate from each port of origin.
1 Visaed negative cargo certificate from each port of call; if there is no Uruguayan Consulate at any of the ports the negative cargo certificate must be visaed at the next port of call where there is a Uruguayan Consul.
3 Copies of Store List covering Deck, Engine and Cabin Stores. List giving detailed declaration of crew effects for each individual on board. List detailing total available stocks on board of cigars, cigarettes, tobacco and all spirits. *Note:* All these lists must be made out in triplicate, original and duplicate to be handed to Customs and triplicate to be kept on board for reference purposes. Store List covering Engine Room stores must include total quantity of bunkers on arrival – *this is most important.*
1 Copy of list of passengers finally disembarking at Montevideo (or negative). Passengers' Baggage declaration forms, signed by each passenger.

*For Port Health Officer*

1 International Health Declaration, signed by Master and Doctor, if aboard. This is the first document requested by the Receiving Commission, and must be ready for delivery immediately the authorities come on board.
1 Copy of list of passengers finally disembarking at Montevideo.
1 Copy of crew list.
Consular clearances – see note.

*For Immigration Officials:*

2 Copies of list of passengers finally disembarking at Montevideo (or negative list).
1 Copy of crew list.
2 Copies of transit list of passengers.

*For Police Authorities:*

2 Copies of list of passengers finally disembarking at Montevideo.
1 Copy of crew list.
2 Copies of transit list of passengers.

*For Port Captaincy (Prefectura):*

2 Copies of list of passengers finally disembarking at Montevideo.
1 Copy of crew list.
2 Copies of transit list of passengers.
1 Visaed copy of passenger list from port of origin.
1 Visaed copy of crew list from port of origin.
1 Visaed passenger list or negative list from all ports of call.
1 Visaed crew list from every port of call in which there have been changes in crew.

*For Agents:*

2 Copies of list of passengers finally disembarking at this port.
2 Copies of transit list of passengers.
2 Copies of crew list.
2 Copies of all Store Lists.

*Other Documents*

Masters must also have at hand all the usual certificates, such as Freeboard, Classification, Measurement, Safety Equipment, Radio, Fumigation, or certificate of exemption (valid for six months only).

All persons on board must have their smallpox vaccination certificates, while vessels proceeding from recognised endemic or epidemic Cholera or Yellow Fever zones must also have the necessary certificates, or Inoculation or Vaccination. All these certificates will be examined by the Boarding Commission before pratique is confirmed.

In resumé, the following number of various documents are needed, plus extra copies where possible:

Crew List: six, plus one visaed form from each port where changes are made.
Passenger List for the port: ten, plus one visaed list from port of origin and from each port of call with new passengers.
Store Lists: Five.
Health Declaration: One.
Baggage Declaration: One for each passenger.
Manifest and Bill of Lading: One visaed, alternatively Ballast certificate or Negative plus sufficient copies for Agents as per individual needs.

*Consular Clearances and Manifest etc.* – Great importance is attached to these documents. Consular clearances must cover all ports declared in the Health form by the Master, irrespective of whether the ship has cargo or passengers for Uruguay from those ports. These documents must be carefully checked prior to arrival to make sure that the Health form only shows those ports with clearances and/or cargo or passengers for the Country.

A vessel receiving orders en route to call at Montevideo, if not previously contemplated, must take out Consular Clearances at that port and take care with the declarations.

Vessels arriving from Buenos Aires, with no cargo or passengers from previous ports of call for Uruguay, can declare Buenos Aires only on this form.

At first port of sailing, the crew list is legalised by the Consul, and any subsequent changes must be legalised at the port where the change takes place, or if not at the next port of call where there is a Consul.

The Consuls at first and subsequent ports will send, care of the Master, envelopes addressed to the Dirección General de Aduanas (Custom House) and to the Prefecto del Puerto de Montevideo. The former will contain the legalised manifest and stamped Bill of Lading, or a negative manifest, and the latter a Consular Passenger List or a legalised Negative passenger declaration. Such envelopes must by produced for each port as declared by the Master.

A vessel arriving direct from a port or series of ports where there is no Uruguayan Consul will pay the dues on arrival, but without fine.

The fine for non compliance with these regulations is heavy.

*2. Required by Passengers*

*Valid Passport* – With or without visa, see below.

*Vaccination Certificate* – International form against smallpox.

*Tourists* – Citizens of the following countries can enter as Tourists for 90 days without visa:

Austria
Belgium
Bolivia
Canada
Colombia
Costa Rica
Chile
Denmark
Rep. Dominica
Greece
Great Britain
W. Germany
Guatemala
Haiti
Holland
Honduras
Hong Kong
Ireland
Italy
Mexico
Nicaragua
Norway
Panama
Peru
E. Salvador
Spain
Sweden
Switzerland
United States

while citizens of these countries require visas:

Australia
Dutch West Indies
Egypt (UAR)
Hungary
India
Japan
Lebanon
Portugal
Syria
South African Republic
Thailand
Turkey
Yugoslavia

Citizens of Argentina, Brazil and Paraguay can enter with their own police identity cards.

Tourists in transit, without a visa, are permitted from all countries, provided they have a confirmed outbound passage, and with the exception of European Communist countries.

Consular Visas are valid for one year.

Passengers intending to reside in Uruguay must complete all formalities in the respective Consulate before embarking.

*3. Store Lists*

Separate lists for Deck, Engine and Cabin stores must be prepared before arrival, and be ready in triplicate for the authorities with extra copies for the Agents, whose intervention is later needed in any ordering of further stores or in case of difficulties.

The same forms as in use in Buenos Aires are accepted, and the same regulations as to weights in kilos or measures in litres, etc., rule. There are some points of difference, however.

Full quantity of bunkers must be declared. A separate list must also be made, detailing ship's store of cigarettes, cigars, tobacco and liqueurs.

This refers to the maximum quantities which it is permitted to purchase in Montevideo for ship's stores of these particular items, as the final permit for such shipments will be subject to the lis cigarettes, spirits and liqueurs on board on arrival.

According to the latest decree, vessels of over 1,000 tons gr will have the right to purchase, ex bond, one litre bottle per pers on board for each six days of voyage, with a maximum of 40 cas of 12 litre bottles. In cigarettes, the allotment is one packet of 20 p person per day of voyage, with a maximum of 20,000 such packe

Agents must be informed of any orders placed for Bonded sto since their signature is required on the documents.

Bonded lockers are sealed by Customs on arrival, and any bond stores purchased in Uruguay must not be opened or used whi in port.

**PILOTAGE:** Pilotage is compulsory in all river and port zone except for vessels coming from the East to ports between La Palom and Montevideo Roads, or entering Montevideo Roads for a commercial reason. All coastal vessels either Uruguayan or forei are also exempt.

*Pilotage Zones.*

(1) RIVER PLATE – Comprises zone between imaginary Lin in the East between Cape Santa María and San Anton (Argentina) and on the West between Colonia and San Isid (Argentina).
(2) RIVER URUGUAY – From 56·5 km. of Farallon Channel t Uruguayan ports on the River Uruguay.
(3) PORTS – Pilotage zones, comprises limits of each po including its Roads.

In the River Plate, Pilots presently board to the South of the wrec of the *Calpean Star*, approximately 4½ km. South and lying 70 metre West of the dredged access channel.

Several of the pairs of buoys are missing, and only the mi channel buoy indicating the entrance to the access channel, 5 mile South from the port, and the two pairs nearest to the breakwate are operating.

When taking tankers, the port Pilot usually goes out to the fiv mile mark.

There is no more than 30 ft. in the access channel at the momen dredging is being carried on, but there are only two dredgers opera ting between the channel and the port of Montevideo itself.

The current is across the channel, running at about one knot, an changes direction more with the wind than the tide.

Vessels awaiting Pilot should anchor on the West of the chann and South of the *Calpean Star*; there is 24 ft. up to 500 m. West of th channel. The zone to the East of the access channel has submarin cables and must therefore be avoided.

Pilots are ordered through the Agent, and have an up to da communications system installed in their office on the 21st floor of modern skyscraper, whence they dominate a large area of th estuary.

Permanent watch is kept on Channel 16 VHF, and operator speak English. It is possible to call "Prácticos Montevideo" and ask to b connected by phone to the vessel's Agent's office for last minut instructions, etc.

| Channel | Frequency |
|---|---|
| 9 | 15450 |
| 11 | 15550 |
| 16 | 15800 |

The port is closed when wind force exceeds 35 knots or, at nigh 40 knots, or if visibility is less than one kilometre, but otherwis vessels can enter or sail at any time.

There is also a Telex machine with 24 hour watch, over whic messages can be transmitted to Agents out of office hours, over a weekend, for example. Call sign is 843 Pilot CX. This is particular useful for vessels sailing late from Buenos Aires, and the Offic will pass on the message to the corresponding Agency by phone

All pilots carry a "walkie-talkie" and can communicate either wit their office, the Port Authority or the Semaphore station, usin Channel 9 for the port offices and 11 for the Pilot's office, 16 bein kept for use with vessels.

*Ordering of River Pilots for sailings from Uruguayan River Ports* – Although Masters can apply directly for pilots such applicatio must be made by telegram addressed to the Practico Mayor Montevideo, it is preferable for them to keep their Montevideo Agent full informed and leave the latter to order the Pilot.

The opportunity of ordering pilots at any hour having been discontinued makes it more essential than ever that Montevideo agents are kept accurately informed regarding expected readiness to sa Failure to do so will result in unnecessary demurrage being pai to pilots or delay to the ship concerned.

*Pilots for vessels proceeding from sea to a Uruguayan Port on th River Uruguay* – A Uruguayan Pilot must be employed to conduc ships from sea to a Uruguayan Port on the River Uruguay.

Vessels must call at Montevideo Roads to embark pilot and pa the cost of tug to take out pilot. They can also, alternatively, take an Argentine Pilot at Recalada who will take the vessel to Intersectio where in either case an Argentine river pilot will board to take th vessel to the Roads of port of destination, where a Uruguayan Po pilot will come aboard, this being a simpler procedure and a handled by Agents in Buenos Aires (one radio advice).

*Vessels from an Argentine Port bound for Uruguayan River Port* – Such vessels are normally taken to immediately off port of destination by an Argentine pilot, but they must be berthed by a Uruguayan pilot who has to be sent from Montevideo, thus Montevideo Agents must be kept promptly informed of vessels's position to enab them to order a pilot to [illegible]th ship without delay.

*Vessels leaving Uruguayan Port for Argentine Ports on the Riv Parana* – Uruguayan River Pilot supplied from Montevideo must b employed for unberthing, and this pilot takes vessel to the Bravo Channel off Nueva Palmira, where the Argentine River Parana Pilot, who is normally already aboard, takes over.

The Uruguayan Pilot is paid in accordance with tariff to Nueva Palmira plus an unberthing fee and travelling expenses.

**HEALTH:** In order to be able to enter port and berth without delay, the Authorities accept a radio, cable or telex request, couched in the following terms (messages must be sent in Spanish).

*Vessels arriving from elsewhere*

Capitan ........................................ solicita libre platica
here the name of the vessel
informando proceder de Buenos Aires, siendo su escala anterior
..........................................................
here a port in another previous country which could be Santos, Valparaíso, Capetown, etc.
condicion sanitaria buena ................................ Capitan
here the name of the Master

*Vessels arriving from Buenos Aires*

Capitan ........................................ solicita libre platica
here the name of the vessel
informando proceder de ....................................
here a port of origin, say London – Liverpool – San Francisco – Rijeka – Kotka – Tokyo – Oslo, etc.
siendo su ultimo puerto ....................................
here say Santos – Valparaíso – Capetown, etc.
condicion sanitaria buena ................................ Capitan
here the name of the Master

There have been cases of delay in delivery of radio messages, even though passed on by phone, but the original message must accompany Agent's request for free pratique, hence it is advisable to use cable or telex services if possible. Messages must be sent at least twenty four hours ahead, and changes in ETA advised.

Although it is possible to take pratique in Uruguayan River ports, there is frequently delay there, and since vessels must enter Montevideo to pick up the river port pilot also, it is advisable in these cases to ask for pratique at Montevideo as above, and the order from Sanitary Authorities granting Free Pratique will be handed to the Pilot to take on board with him.

In no case, however, does the granting of pratique by radio modify the inspection in port, where the usual commission must be the first to go on board.

*Illness on board* – Any private doctor attending a patient on board must immediately inform the Sanitary Inspector should the disease be contagious.

No patient can be landed without the consent of the doctor of the Health Department with the exception of accident cases that require immediate medical attention, and even in those cases the Health Department Doctor must be informed in order to issue a Sanitary Pass for the Hospital where the man was taken to.

If a Captain does not report the existence of illness on board he is liable to fines which are double if patients land without the consent of the Sanitary Authorities.

**RADIO:**

*Notices to Mariners*

Official Uruguayan Notices to Mariners are transmitted in Spanish only preceded by the signal TTT, the number of the Notice, letter R, then contents and are repeated for 15 days. Should there be no Notices to transmit, the wording "no hay avisos para navegantes" will be radioed.

*Punta Carreta* CWF 2768·5 kc/s. A 3 0·4 kW. at 00.03, 14.03 and 19.03. (after the weather forecast).

*Cerrito* CWA on 4346, 8602, 12750, 17208·8 A1, 1·5 kW., also on 421·5 kc/s. A1 and A2 5 kW. at 00.00, 14.00 and 19.00 (after the weather forecast).

*Montevideo* CX 16 850 kc/s. A3 10 kW. at 13.02 and 16.02 on working days, at 17.00 on Sundays.

| | | | |
|---|---|---|---|
| *Montevideo* | CX 6 | 650 kc/s. | A3 2·5 kW. |
| | CX 26 | 1050 | A3 all transmit Notices to Mariners at 16.00. |
| | CX 38 | 1290 | A3 5 kW. |
| | CXA 4 | 6125 | A3 10 kW. |
| | CXA 6 | 9620 | A3 20 kW. |
| | CXA 10 | 11900 | A3 20 kW. |

*Weather Forecast*

A weather forecast is transmitted in Spanish to cover three zones.

Reference AAA 830 is the Coastal area from 30′ S. 50 W. out to 30′ S. 46 W. and down to 33° 30′ S. 53° W. and 35° S. 49° W.

AAA 860, River Plate zone from 33° 30″ S. 57° W. to 35° S. 49° W. and down to 35° 30″ S. 57° W. to 39° S. 53° W.

AAA 870 Coast of Argentina from 35° 30″ S. 57° W. to 39° S. 53° W. and down to 41° S. 62° W.

Details of all three zones are transmitted as follows, valid for 24 hours.

CWA on 421·5 A1 5 kW. at 00.00, 14.00 and 19.00.

CWF on 2768·5 A3 0·4 kW. at 00.05, 14.05 and 19.05 and in A1 over 4346 kcW. 8602 kc/s., 12750 kc/s. and 17208 kc/s.

*Time Signals*

Are transmitted from two stations in Montevideo at 15.00 and 20.00. The hour is indicated by six dots preceded by a ten second dash and a five second silence. The last dot indicates the hour.

| | | |
|---|---|---|
| CX 6 on | 650 kc/s. | A3 25 kW. |
| CXA 6 | 9620 kc/s. | A3 20 kW. |

Standard time is GMT less three hours.

*Direction Finding*

There are two radio beacons specially for maritime navigation. Both operating on circular sweep from the lighthouses at Cape Polonio and Isla de Lobos.

*Cape Polonio* at 34° 24′ 00″ and 53° 47′ 45″ W. frequency 295 kc/s. A2 range 380 miles, and 500 kc/s. A1 A2.

The signal is P repeated three times in ten seconds followed by 18 dashes in 30 seconds, repeat P three times and ten seconds silence total period one minute. This is repeated four times after five minutes silence, total ten minutes.

In good weather transmission must be requested from CWM 21 on 500 kc/s. A1 A2. In fog, there is continuous transmission from the hour.

*Isla de Lobos* 35° 01′ 33″ S. 54° 53′ 17″ W. frequency 300 kc/s. A2 range 380 miles. The signal is L repeated three times in ten seconds, followed by 18 dashes in 30 seconds, repeat L three times, silence ten seconds. Total period one minute, repeated four times, then five minutes silence total period ten minutes.

In good weather this transmission must be requested from CWM 26 on 500 kc/s. A1 and A2.

In fog transmission is continuous from 05 minutes in each hour.

There are also the following airbeacons which can be used.

## GENERAL INFORMATION:

*River Uruguay*

Rises in Brazil, and later separates Argentina and Uruguay. Its right bank is generally low, wooded and swampy, the left bank high and hilly. Preparatory work has commenced on a large hydroelectric dam to be built at 332 km., above Concordia, which will take some years but will contribute to a regularisation of the river, which at present rises and falls twice every year, with the varying rainfall seasons in its basin, so that approximately half the year the water is low, usually from January to April and again in August. However, the wind also affects the depth of water as in the River Plate, so that any seasonal forecast is impossible. A safe year round draft to Concepcion del Uruguay can be taken at 20 ft. 6 in., though vessels from time to time load to 22 ft. 6 in.

The Ministry of Marine publishes fortnightly a bulletin with all information on depths of water in the channels, as well as of changes in buoys, lights, etc.

A road bridge is being built from Argentina (Puerto Unzue) into Uruguay opposite Fray Bentos, which will have a clearance of 36 metres over zero at Fray Bentos, and a main span of 220 metres.

This, when ready in two years time, will bring Buenos Aires and Montevideo within 600 km. of each other by road, the bridge being almost equidistant from each city.

**CARGO**

*Movement of Cargo*

Once stevedores have come aboard, no cargo, either for the port or in transit, may be handled by the crew, as otherwise the vessel will be called on for high extra wages to stevedores. This also affects the lashing of transit cargo on deck.

Stevedores will not work in the rain, except when loading meat, earning double wages while doing so. They can also be persuaded to handle baggage or mail.

When handling dusty cargo in general, or which gives off ammoniacal, nicotine, or organic emanations, masks must be provided for stevedores' use.

*Overcarried Cargo*

Cargo for Montevideo is often overcarried to Buenos Aires with the consequent delays in delivery and expenses for the vessel. Holds should be carefully inspected as soon as discharge is said to have been finished to avoid possible overcarrying.

*Clean Receipt*

Agents will advise if they wish to receive any cargo for which a clean receipt cannot clearly be given, otherwise the cargo should be rejected. Mate's receipts cannot be claused to cover any damage from rain, wetting or other causes which might be sustained after the cargo is received on ship's tackle.

*Bulk cargoes falling or drifting into water or on dock*

When handling bulk cargoes vessels must place between the vessel and dock side a wooden scaffolding, with lateral boards, or strong canvas to collect all material which is liable to fall into the water or on to the Dock during handling. There is a heavy fine for non-compliance.

This should be remembered when writing charter parties, especially under FIO conditions, as this should be for account of shippers or receivers.

*Delivery of cargo from vessels*

The cargo is discharged direct to Fiscal Warehouses, to lorries, lighters or waggons. When the cargo is delivered to Fiscal Warehouses, receipt for this is given to the vessel's agents by the Custom House official in charge of the Warehouse. If discharged to lighters the lighterman obtains receipt from the Custom House official once the cargo is received in warehouse. When the cargo is delivered direct to Consignees' lorries, the receipt is given by special Custom House officials called "Cargo Receivers".

The goods are delivered by the Custom House officials to the Consignees against the presentation of the "transferencia" (transfer ticket) signed by the Agents of the vessel. The agents sign the ,'transferencia", extended on stamped paper, against the Original

Bill of Lading, which must be legalised by the Uruguayan Consul at the port of loading.

The steamship Agents must keep a special register of all "transferencias", and are responsible to the Authorities for keeping this register. Agents must retain original Bill of Lading for cargo discharged, as it must be shown to the Customs Authorities immediately if demanded.

When the Consignees have not received the original documents and they wish to take delivery of the goods from the Custom House they must present a Bank guarantee, drawn up in accordance with the form approved by the Shipagents Association.

Cargo manifested to this country in transit to other countries without documents for Uruguay may not be re-shipped to other countries without government permission.

*Marks on goods imported to Uruguay*

By a Decree dated 30th January 1939, the Uruguayan Government decided that:

"Packages entering Bonded Warehouse, excepting those containing provisions or beverages, and excepting also 'Barraca' articles, shall be marked with the gross weight, the nett weight and corresponding measurement, in a clear and legible manner. These marks may be either 'fire-branded or printed'.

"The 9th August 1939, the Customs Authorities requested that marks and numbers of cases entering Montevideo warehouses should be placed on the extreme ends".

The Customs Authorities have also made known that it is necessary for the packages entering the warehouse to show their weight and measurement in the decimal-metric system.

The inspection of potato cargoes can be effected on board the carrying vessel, and if found in good sanitary condition, can be discharged direct to shore.

*Opening and Closing of Hatches*

This can be carried out by either crew or stevedores, and hatches must be kept closed when not in use.

*Shipments of Meat*

These are controlled by the Ministry of Agriculture, whose inspectors check ships' holds before shipment can commence. Holds must be clean and disinfected, and temperature controlled to minus 1° to a maximum of plus 1° Celsius for chilled meat, or to minus 10° for frozen meat.

Chilled is to be hung on hooks adjustable for height and space and stow of frozen must give a uniform distribution of weight. Alternatively, special cuts are packed and shipped in cartons.

*Containers*

Use of containers is very limited, since these must be opened up and emptied on the dock alongside, or even on board the vessel. The container itself is considered as part of the vessel's gear, and must be reshipped without delay.

On rare occasions the Armed Forces have had containers moved out to their barracks.

The Port Authority is buying a crane to handle containers of 8 ft. × 8 ft. × 20 ft. and a maximum loaded weight of 44,800 pounds.

*Consular Dues*

All ships arriving at Montevideo must pay Consular dues, with the following exceptions:

Ships that due to a change en route, or by special call of their Agents in Uruguay, during passage, arrive at Montevideo with the sole purpose of receiving orders, as long as no commercial operations are effected.

Ships arriving in distress and which leave port without effecting operations.

Ships arriving for the sole purpose of landing or embarking pilot.

The Ministry of Foreign Affairs consider bunkering as an operation, therefore ships calling at Montevideo for bunkers must pay Consular dues.

*Consular value of the Uruguayan Peso* – For the payment of fees abroad, the Executive Power will fix periodically the respective values of the peso, in accordance with exchange fluctuations.

*Hours of Attendance at the Uruguayan Consulates* – The Office hours of the Consulate will be those fixed by the Government in agreement with the Consuls in each country, endeavouring in each case to have the same working hours as those of the Custom House and other Public Offices of each City. Outside these hours, overtime is charged.

*Consular dues on Bills of Lading* – When vessels load cargo for Uruguay at ports where there is no Uruguayan Consulate, these dues are collected when the vessel arrives at Montevideo or at any other Uruguayan port. The Agent then recovers these charges from the Consignees.

**CREW:**

*Deserters* – Captains and/or Agents must report any deserters when the vessel sails. The Maritime Authorities give intervention to the Police Department, and if the men are located, the Agents must hand them over to the respective Consuls. However, the Agents continue to be responsible before the Authorities for the ultimate repatriation of the men, which must be done at first opportunity.

Vessels are subject to a fine per man. The Agents have also to pay repatriation expenses, in cases where the respective Consuls will not do so.

They must also deposit a guarantee which can be used for repatriation expenses in case the deserter stays in the country for more than 15 days.

*Time limit for getting crew members left behind out of the country* – According to law, Agents must arrange that such crew members leave the country within fifteen days. This period of grace commences as from the date of vessel's departure in respect of deserters and for those disembarked for medical treatment as from date which they are medically certified as fit for travel.

*Upkeep of men left in hospital or temporarily disembarked and transit deserters* – The Agents are responsible for the maintenance of men disembarked for medical treatment, or temporarily with a special Immigration permit, and for deserters, until they leave the Country.

*Stowaways* – Captains of vessels having stowaways on board must report them to the Authorities, stating their name and port of embarkation. The stowaways must be kept on board. If they escape and are found after the vessel sails, Agents will be responsible for their repatriation and upkeep charges until they leave the Country. As with deserters, vessels with stowaways on board are liable to fine per man if this regulations is not complied with.

Agents must also deposit a guarantee per man, amount to be used for repatriating the stowaway or for conveyance to the port of embarkation.

*Landing members of crew* – Paying off men for other than medical assistance is not permitted, but exceptions are granted in special cases. An application must be presented by the Agents to the Immigration Department, and, if the permit is granted, a form declaration is signed by the Captain of the vessel, the Agents, the Immigration Inspector and the person wishing to disembark, setting forth length of time he is going to remain in the Country and conditions of departure. The personal documents of the person allowed to land, remain in charge of the Immigration Board.

If any member of the crew is landed for medical treatment or paid off without the corresponding permit, the vessel will be fined.

*Gangways and Rat-Guards*

A gangway must be placed and ready after a vessel comes alongside the quay, but this must not be presented before coming in to the quay. Authorities will only come aboard by the gangways.

Gangways must also have a lifebuoy with suitable line attached and handy, and a safety net must be placed under the gangway otherwise shore labour will not board vessels, with consequent delay.

The gangway must also be brightly illuminated at night; an oil lamp is not sufficient.

As soon as vessel is securely moored, regulation size (not less than 80 centimetres) rat-guards must be placed on all ropes, wires, fenders, lines and hoses.

Heavy fines are imposed for non-compliance with any of these or other regulations.

*Overside Discharges*

All overside discharges from latrines, bathrooms, galley, scuppers, engine room, etc. must be screened or covered when vessel is alongside the quay, as vessels will be fined if the discharge falls on the dock or gangway.

*Adjustment of Compasses*

*Vessels proceeding through Magellan Straits* – The disposition issued by the Chilean Shipping Authorities on 13th April 1953, states "When a foreign ship arrives at the Magellan Straits and applies for a pilot, official or private, for navigating the Channels, the pilot must first check the compass for deviations of more than 5 degrees and if such deviation has been determined more than six months ago, especially in a place with great difference of latitude or different hemisphere, compensation of compass is obligatory when not in true order, and a written declaration to this effect will be made in the pilotage agreement. The Authorities will also send an officer to verify that the compass is in satisfactory condition before entering the Straits".

To avoid probable delays, ships heading for the Straits can make the necessary compensation in the Port of Montevideo or in the ante port whilst waiting for orders for departure. This port is most convenient for this class of compensation because at the present moment there is no magnetic variation and also because it is a quiet harbour with sufficient depth for turning. A compass adjuster may be obtained at any time.

*200 Mile Limit and Fishing*

Uruguay has declared sovereignty over 200 miles off shore, reserving all fishing and undersea exploitation rights. A number of foreign flag vessels fishing without permits have been seized and heavily fined, their catch and gear being confiscated.

Permits are obtainable, but in no case for vessels over 500 tons gross, to operate within sixty miles from shore, while all activity in territorial waters (200 miles) is forbidden in the months of May and June.

*Garbage*

Garbage is collected every morning by truck. There is a strict prohibition of dumping anything into the port, and oil tanks must not be cleaned within 30 miles of the coast, and on a falling tide.

Old dunnage should not be dumped or sold, without permission from the Authorities, through Agents.

*Ships' Boats*

Use of ship's boats is forbidden within the port, unless they are being lowered, with prior permission, for maintenance or exercises.

*Fenders*

All vessels must have at least two large fenders, to keep them five feet or more off the quay. If the vessel has no fenders, or due to deck cargo cannot use them Agents should be warned in advance to rent the necessary equipment and have it ready on arrival.

*Dropping Anchor when Berthing*

If an anchor is dropped when approaching a dock to berth, to control the vessel as she moves in, it is essential that the anchor should be hove in again once the ship is moored. Port regulations require this and any damage to other craft, real or imaginary, through fouling anchor or chain, would cause considerable trouble.

## COLONIA: 34.28 S. 57.51 W.

On the right bank of the River Plate from seaward exactly 27 miles in a straight line E.N.E. of Buenos Aires, to which it is connected by ferry and hydrofoil services.

**DOCUMENTS/PILOTAGE/HEALTH/RADIO:** See beginning of Uruguay section.

**DESCRIPTION:** There are three accesses to the port, of which only two are of use to ocean-going vessels. Canal del Medio, for those coming down river, with 18 ft. and Canal Gabriel from S.W., with 16 to 33 ft.

The port consists of an angled breakwater, and a basin with two quays. One of these, with 17 ft. is used for ocean-going vessels and has four 3 ton cranes and two 5 ton cranes.

The west quay is for coastal vessels, with only 13 ft. of water.

**FUEL:** Not available.

**FRESH WATER:** Available.

**MEDICAL:** Attention available.

**CONSULS:** Argentine, all others at Montevideo.

## FRAY BENTOS: 33.06 S. 58.18 W.

Km 95 River Uruguay. On the right bank of the River Uruguay from seaward 213 miles by river from Montevideo or 145 miles from Buenos Aires.

**DOCUMENTS/PILOTAGE/HEALTH/RADIO:** See beginning of Uruguay section.

**RESTRICTIONS:** Vessels loading should pay particular attention to the daily river and draft forecast issued by local authorities. Draft depends on depth at Martin Garcia Bar.

**MAX. SIZE:** For berthing maximum draft 26 ft. fresh water, depending on river conditions.

**BERTHING:** Official Pier: 325 metres long, depth in deepest berths 26 ft. Grain and general cargo handling. Railway Pier: One berth, depth 26 ft., used principally for discharging coal. Anglo Pier: Depth alongside 26 ft., used for loading frozen meat and products.

**STEVEDORES:** Working hours: 0700–1100 and 1300–1700. Saturdays: 0700–1100.

**MEDICAL:** Doctors and hospital facilities available.

**FRESH WATER:** Obtainable from berth at Official and Anglo Piers.

**FUEL:** Not available.

**REPAIRS:** Only minor repairs can be effected.

**CONSULS:** Argentina is represented locally. All others at Montevideo.

## MONTEVIDEO: 34.55 S. 56.13 W. (See Plan)

**DOCUMENTS/PILOTAGE/HEALTH/RADIO:** See beginning of Uruguay section.

**APPROACHES:** The Roads of Montevideo consist of the Outer Roads situated to the South of the bay and the Inner Roads situated outside the Western breakwater.

Both anchorages are very exposed and vessels are recommended to enter the anteport.

The entrance channel has 30 ft.; the channel to Ancap's wharf (La Teja) 30 ft. 6 in. Basins I and II have a depth of 28 ft. to 31 ft., and the River Traffic Basin, 15 ft., These depths depend on dredging being maintained, but even so vessels often "drag" when on the higher marks; the bottom is fine soft silt.

**BREAKWATER:** The Eastern breakwater projecting from Punta Sarandi is 940 metres long and the breakwater lying to the West at right angles with the Eastern one is 1,300 metres long. The passage between the two breakwaters is 300 metres wide.

**ANTEPORT:** The Anteport is to the North of the entrance, between the breakwaters, and has 27 ft., but requires dredging, there not being safe room for more than five vessels at present.

**PORT:** The port is formed by the North side of the Montevideo Peninsula and the "Dique de Cintura", a breakwater running parallel to the coast, about 840 metres distant.

It consists of 3 basins, two of which are for ocean-going vessels and one for river traffic.

Basins 1 and 2 have a depth of 30 ft., and the basin for river traffic 15 ft.

**ANCHORAGE:** In Montevideo outer or inner roads. Vessels must not anchor within half a mile of the entrance channel to the anteport, not in the area bounded by latitudes 35° S. and 35° 15′ S. and longitudes 55° 66′ 30″ W. and 56° W. where there are submarine cables. Outer roads and inner roads are separated by the Western breakwater. Both anchorages are exposed in bad weather.

Captains of vessels anchoring in the roads should bear in mind that as the bottom consists of soft clay, it does not afford a good hold for the anchors, which are liable to drag during a severe storm. In consequence, precautions should be taken to anchor at a safe distance from other vessels already riding at anchor, and to use a stout anchor and chain, while having another ready for emergency.

A vessel that anchors in the Outer or Inner Roads and does not effect commercial operations is not considered an arrived vessel in Uruguayan waters, and is not boarded by the Authorities.

*Semaphores:* There are two Semaphores, one on the corner of Depot 1, on Pier A, which controls traffic in the port and which is in constant touch with Pilots on board through the "walkie-talkie". At night the following emergency code signals are used.

| | |
|---|---|
| Red light | meaning stop |
| Green light | meaning proceed |
| White light | meaning anchor |

These are beamed with an aldis lamp to the bridge of the vessel, and must be obeyed.

The other semaphore is situated 47 metres above sea level, on the S.W. post of the anemometric tower of the Central office, and indicated wind forecast as follows:

| | |
|---|---|
| Red<br>Red | strong wind starting to blow from the N.W. |
| White<br>White | strong wind starting to blow from the S.W. |
| Red<br>White | strong wind starting to blow from the N.E. |
| White<br>Red | strong wind starting to blow from the S.E. |
| Red | strong wind from indeterminate quarter. |
| Green | winds over 100 km/hour are expected. |

**RESTRICTIONS:** Entrance channel is dredged to 33 ft. for a distance of 5 miles out of the port. Channel to Ancap Basin dredged to 30 ft.

**MAX. SIZE:** Up to 30 ft. fresh-water draft. Also see "Tankers".

**TIDE:** Rise and fall is nominal, rarely exceeding one foot.

**TUGS:** Compulsory for vessels berthing in the harbour basins. Two tugs normally used, join vessel in the anteport.

*Booms* – Masters are reminded that the Port Authorities require a special boom to be placed on the side of the vessel where the nose of the tug will push, to avoid damages and subsequent claims.

**BERTHING:** Anteport: 7 anchorage berths in 27 ft. depth. Muelle de Escala: 288 metres long, 28 ft. depth. Basin No. 1: 7 berths, 28 to 33 ft. depth alongside. Basin No. 2: 4 berths, 28 to 33 ft. depth alongside. La Teja: Ancap basin with berths for two tankers 30 ft. depth in basin and entrance channel.

Berths are allotted by the Port Authorities in the order of arrival of the vessels and according to their category, as follows.

1. Mail vessels.
2. Regular Line vessels carrying immigrants.
3. Cargo vessels.
4. Sailing vessels.

The Authorities allocate the deposit at which vessel must discharge or load.

Port Authorities give preference at Deposit No. 10 to ships operating with refrigerated cargo from this Deposit; and at Deposit No. 11 (Florida Wharf) to tankers discharging to the pipeline situated there. Conditional that they vacate the berth within two hours notice, to permit berthing a preference vessel, other ships may operate at either berth.

*Muelle de Escala* – On the pier head, formed by the Southern side of the River Traffic Basin, and running Westwards, a quay has been built, known as "Muelle de Escala", 288 metres long, originally constructed for berthing passenger liners and war vessels, but now only used by cargo vessels, loading and discharging, when there is port congestion. There are no shore cranes and work is very slow, nor are there shore deposits. A fixed heavy lift boom capacity 200 tons is placed at the East end.

The berth is very exposed to wind and swell, and Masters are recommended to take every precaution to ensure their vessels are strongly moored and a lookout kept for changes of weather which, locally, are very sudden.

The depth of water alongside depends on dredging, but generally is over 28 ft.

Vessels must leave this berth immediately passengers are disembarked.

*River Traffic Basin* – This basin is situated on the Western side of Pier "A". It is 400 metres long and has a passenger landing station on one side. The opposite side of the basin is used for coasting vessels, but mainly by the Navy.

Two warehouses, called Warehouse "A" and Warehouse "B", have been built on the other side of this basin and are serviced by 3 electric cranes. In addition, there are on the quay a 1½ and 6-ton steam crane, which are employed when necessary.

These berths can only be used by light-drafted vessels, as depth of water is around 16 ft.

*Basin No. 1* – This basin is situated between piers "A" and "B". Its entrance between the "Dique de Cintura" and the pier head "A" is about 150 metres wide. It encircles a total mooring space of 1,093 linear metres and 7 vessels can comfortably berth along the quay walls.

Pier "A" is 501 metres long on the West side; 306 metres on the East side, and 50 metres wide at the Northern pier-head.

On this pier two brick and concrete warehouses, Nos. 1 and 2, have been constructed, consisting of a ground floor, 3 storeys and a basement.

On the City side of Basin 1, there are three brick warehouses, numbered 3, 4 and 5, consisting of a ground floor of between 17,000 and 19,600 cubic metres capacity.

On the Western side of Pier "B" facing Basin No. 1, there are two brick and concrete warehouses, Nos. 6 and 7, with a ground floor and one storey having a capacity of 30,174 and 33,140 cubic metres respectively.

In Basin No. 1, berths Nos. 1, 2, 3, 4 and 5 are generally used for the discharge and/or loading of liners running to timetable.

Depths alongside vary, as it depends upon dredging, but generally are 28 ft. to 31 ft.

*Basin No. 2* – This basin is situated between Pier "B" and the foot of Florida Street. The entrance to this basin is also about 150 metres wide. It has a total mooring space of 722 metres and it can accommodate 4 vessels.

Pier "B" is 294 metres long on the Western side, 328 metres long on the Eastern side, 148 metres at the Northern pier-head and 13 metres wide on the bend at the Western corner of the pier-head.

At the Northern end of pier head "B", livestock is embarked. This berth is also used for general cargo operations in times of congestion. Moorings must be strong and carefully watched as the berth is very exposed to wash of passing vessels.

There are two warehouses on this pier, numbered 8 and 9, facing Basin No. 2, built of brick and concrete, with a ground floor and one storey and with a capacity of 33,320 cubic metres each. On the city side, there are two warehouses, built of brick, numbered 10 and 11, consisting of a ground floor with a capacity of 15,362 cubic metres each. Warehouses No. 10 carries an additional storey, and is being used for refrigerated cargo. Vegetable oils can also be loaded at Warehouse 11 berth ex pipe-line from 4 storage tanks each of a capacity around 1,250 tons, in the vicinity.

Depths of water alongside vary, depending upon intensity of dredging but are generally 28 to 31 ft.

*Coasting Quay Wall* – From Florida Street to Mole F, which is the end of the Port, and over a distance of 1,900 metres, there is a quay used for coastal craft, and on part of which a fish-receiving and industrialising plant is being opened; depth in this zone is 15 ft.

A floating dock is also anchored in the North-east part of this section.

*Basin For Inflammables "La Teja"*. (Also see "Tankers".)

On the North side of the Bay, the National Admininstration of Alcohol, Cement and Fuels, known as A.N.C.A.P., has a basin with concrete walls for the discharge of tankers arriving with oil to their consignment. This basin is known as the "Dársena de Inflamables", and has one berth for tankers on the North side in 30 ft. 6 in. and for liquid gas discharge on the Southern side, maximum draft 22 ft.

Receiving rate from tankers is around 900 cubic metres per hour if vessel has centrifugal pumps and around 600 cubic metres per hour with piston pumps.

Coal and cement are also discharged at this berth. The coal is discharged to Decauville wagons, and the cement to trucks. The average work per day is 750 tons; 5 gangs, two shifts of 4 hours each.

There are 7 cranes: 3 electric, 2 hydraulic and 2 diesel.

A channel with lighted buoys has been dredged from the anteport across the bay to this basin. Depth of the channel is 30 ft. 6 in.

The other parts of the bay are not used for shipping excepting small coasters, as there are numerous shallows and rocks.

The depth outside the dredged area varies between 10 and 15 ft.

*Railway Connections* – Basins 1 and 2, River Traffic Basin and also Deposits "A" and "B" have railway lines on all sides, belonging to the Port Administration, which are connected with the main lines of the Uruguayan State Railways.

The Port Administration has 2 electric locomotives used exclusively in the port.

*Cranes* – The Port Administration has one heavy-lift floating crane of 80,000 kilos, a mobile crane of 20,000 kilos, also 46 movable electric cranes of 5,000 kilos each; 5 movable electric cranes of 1,500 kilos each; 1 fixed electric crane of 4,000 kilos; 33 of the aforementioned 5,000 kilos cranes, are placed alongside the quay walls for vessel's operations.

There are also 24 electric trolleys of 1,500 kilos, and one of 1,000 kilos. There is a fixed crane for 200 tons on Muelle Escala.

*Fiscal Lorries* – The Port Administration has purchased special lorries and 12 auto cranes for receiving cargo, as the railway wagons available are not sufficient to carry all the cargo that is at present being handled at this port.

*Loading Operations* – Loading is effected from carts, lorries and/or wagons and the cargo is hoisted on board with the cranes. Cargo is also loaded from lighters.

*Grain Loading* – There are 2 Mobile grain vacuvators, each of which can load bulk grain at around 35/50 tons per hour, also ten smaller machines that can each load around 20 tons per hour.

*Fumigation* – Montevideo is the only port in Uruguay at which vessels can fumigate, using the Cyanide method. The tariff is per cubic metre fumigated over a basic charge which varies according to nrt. There are surchages for overtime.

*Disinfection of Mail Bags* – To avoid delay through disinfection mail bags can be fumigated on board in a 10% formalin solution and kept in a closed space for four hours before vessel gets into port. The closed space will be opened in the presence of a Health officer who will verify the use of formalin. When in doubt, fumigation will be carried out again and exposed for two hours.

*Height of Quay above water* – Tide being very small, the height of quay above water only varies from 8 to 10 ft. at low water to 10 to 12 ft. at high water. Wind influence is felt even in the bay, as a South wind will raise water as much as 5 ft., or a Northerly wind reduce it 2 or 3 ft.

*New Equipment* – In process of supply:

Fork-lift trucks – 3 of 5 tons and 1 of 6 tons, to lift to 3 metres.

Container lifter – 1 to lift to 22·4 short tons, size 8 ft. × 8 ft. × 20 ft.

Fork extensions for fork-lift trucks in use – 25 pairs.

Mobile cranes (diesel) – 2 capacity 7·5 tons with telescopic arm up to 10 metres, turning through 360°; 8, capacity 7·5 tons, fixed arm; 1, capacity 10 tons with telescopic arm up to 12 metres, 360°; 1 truck-mounted crane no less than 60 tons, with arm not less than 21·5 metres.

Pallets – material for making 15,000 pallets, in two sizes.

Slings for these pallets, also for heavy-lift cargo for use with the mobile cranes.

Lighters – 7 new lighters, ranging from 100 to 400 tons.

**STEVEDORES:** Working hours: 1st shift, 0700 to 1300 hours; 2nd shift, 1300 to 1900 hours; 3rd shift, 1900 to 0100 hours; 4th s 0100 to 0700 hours.

Normal capacity per gang per hour: (*a*) Rice – about 80/90 t per gang/hour. (*b*) Meat – about 60/100 tons per gang/hour.

Overtime is compulsory if port congested.

*Lavatory Conveniences for Shore Labour* – Each vessel m furnish conveniences for all shore labour employed on board. W has been stopped until such conveniences are installed. I advisable, therefore, for vessels calling at Montevideo to be equipp with two spare lavatories, one for tally clerks and one for stevedo etc.

**FRESH WATER:** Fresh water is supplied by the Port Authori at all quay berths. Request must be made through the Age vessels supplying their own hoses where possible. It is importa that the water meter should be read together with the Port offic both at connecting and disconnecting to verify the exact quant Water is also available ex barge, but cost is very much higher.

**FUEL:** All grades available by barges during loading/discharg Vessels calling for bunkers only are refuiled in the anteport. T are two barges, capacities respectively 311 tons and 598 tons.

**TANKERS:** Apart from La Teja Basin, mentioned above, tank discharge in Basin No. 2 at Muelle Florida. Distance to oil tanks considerable and discharge rate is about 80/100 tons per ho Heavy grades of cargo require high heating to facilitate dischar

At La Teja, vessel's max. dimensions LOA. 230 m., Draft at Hi 31 ft. Maximum dwt. 35,000. Max. loading rate 300 m³/hour. Maximu discharge rate 850 tons per hour.

**REPAIRS:** All repairs possible.

**DRY DOCKS:** Two dry docks available: Nacional, length 463 f width 61 ft. Maua, length 260 ft., width 28 ft. Also a floating doc lifting capacity 12,000 tons, 545 ft. long and 93 ft. wide.

Entrance is by turn, counting from presentation of the applicatio but this may vary.

(*a*) when the vessel has damage to repair.
(*b*) when there is a fixed sailing date.
(*c*) when a vessel requires a dock for no more than four days, an is preceded by one requesting 15 days or more.
(*d*) when by reason of size a vessel cannot enter with anothe which is on turn.
(*e*) national Naval vessels.

**GANGWAY/DECK WATCHMEN:** Shore watchmen compulsor Arranged by Agents. One required on deck and one for eac gangway. Vessels carrying dangerous cargo must also employ guard of the Prefectura.

Vessels calling for supplies only, for orders, in distress or to lan sick crew members, or to enter dry dock, need not employ Watchmen. Repairs afloat require a watchman, if they do not carry ou commercial operations.

Shifts are of eight hours, commencing at 0700. Vessels unde repair, and those at Ancap moles may fix 12-hour shifts, paying shift and a half.

If special watchmen are required for goods or working equipmen application must also be made to the Union.

If watchmen are needed in the holds, same applies.

Regulations also require a watchmen in the holds wherever th ship has a crew member, cadet or officer permanently on watch t prevent pilferage. However, where ship's personnel are in the hol to watch the stowage of the cargo, no extra watchman is required Masters should therefore, advise Agents if they intend to plac crew members permanently in the holds during discharge, so tha Agents can advise the Association before they make their claims.

Care must also be taken on arrival, since the watchman is on dut from 0700 on, whereas it may be necessary to place the gangwa safety net, etc., before that time, and the Pilot may disembark.

Only those involved in this operation should go ashore. The Receiving Commission may ask for the gangway to be opened befor 0700, which is in order, but no one else should use the gangway t avoid claims from the Union.

Vessels lying in the anteport must provide launches for th transport of watchmen employed.

**DENSITY:** This varies according to wind and tide. The degree o salinity is broadcast daily in the weather reports by radio, and varie from fresh to brackish to sea water. Steady South winds give th highest degree of salinity.

**LAYING UP MONTEVIDEO:** Montevideo Ante-Port is considered the most convenient and cheapest place for vessels arriving in the Plate in ballast, unfixed, to anchor, lay up or await orders.

Vessels could subsequently load at any of the Argentine or Uruguayan River Ports and would also be in a handy position to load at an Argentine South Atlantic coast port. She could also be ordered away again from the Plate in ballast having incurred no heavy pilotage bills or other expenses, as would be the case had vessel proceeded up to, and anchored in Buenos Aires Roads, or entered an Argentine port.

The expenses at Montevideo, including inward and outward pilotage, light dues and clearance, are not high, and no written permit is necessary for a vessel to lie in the anteport, but the permission of the Captain of the Port must be obtained in each case. This permission will not be refused unless there is congestion in the anteport.

No vessel can be laid up at Uruguayan ports, unless a responsible shipping Agent is nominated to attend.

**HOLIDAYS:** 1st and 6th January, Carnival Monday, Shrove Tuesday, Easter (six days), 19th April, 1st and 18th May, 19th June, 18th July, 25th August, 12th October, 2nd November, 8th and 25th December.

**AIRPORT:** International airport with world-wide connections.

**TIME:** April to October: GMT minus 4 hours; October to April: GMT minus 3 hours.

**SHORE LEAVE:** Allowed.

**TELEPHONES:** Can be connected on board vessels berthed at the quays.

**AUTHORITY:** Administracion Nacional de Puertos.

## NUEVA PALMIRA: 33.53 S. 58.25 W.

Situated on East bank of Uruguay River, 155 miles above Montevideo. Km 0 on River Uruguay.

**DOCUMENTS/PILOTAGE/HEALTH/RADIO:** See beginning of Uruguay section.

**RESTRICTIONS:** Vessels loading should pay particular attention to the daily river draft forecast, issued by local authorities. Draft controlled by depth of Martin Garcia Bar.

**ANCHORAGE:** Off Montevideo.

**MAX. SIZE:** Up to 25 ft. draft fresh water depending on river conditions.

**TUGS:** Not required. Mooring launches available.

**BERTHING:** Manganese Pier: Depth alongside 25 ft. Loading rate: 600 tons per hour. Pier Head Berth: Depth alongside 21 ft. Grain loading.

**STEVEDORES:** Working hours: 0700–1100 and 1300–1700 hours. Saturdays: 0700–1100.

**MEDICAL:** Doctor and hospital facilities available.

**FRESH WATER:** Obtainable from berths.

**FUEL:** Not available.

**REPAIRS:** Only minor repairs can be effected.

**GENERAL:** Refer to "Montevideo" for all general information.

## PAYSANDU: 32.18 S. 58.02 W.

Situated on the East bank of Uruguay River, 300 kms. above Montevideo. Km 207 on River Uruguay.

**DOCUMENTS/PILOTAGE/HEALTH/RADIO:** See beginning of Uruguay section.

**RESTRICTIONS:** River navigation controlled by depth on Martin Garcia Bar, and in the passes at Almiron, Vera and Urquiza. Since river conditions vary from season to season, Agents should be consulted beforehand regarding available draft at any particular time.

**ANCHORAGE:** Off Montevideo.

**MAX. SIZE:** Up to 20 ft. draft fresh water, depending on river conditions.

**TUGS:** Available.

**BERTHING:** Grain Elevator Berth: 30 ft. depth alongside. General Cargo Berth: 30 ft. depth alongside, 100 metres long. Ancap Pier: One berth for tankers, 22 ft. depth. Grain berth output 120 tons per hour. At the general cargo berth there are railway lines and 7 electric cranes of 5 and 3 tons lifting capacity. There is also a movable diesel crane, that can lift up to 5 tons. Ancap tanker berth has a 2-ton crane.

**STEVEDORES:** Working hours: 0700–1100 and 1300–1700 hours. Saturdays: 0700–1100 hours.

**MEDICAL:** All assistance available.

**FRESH WATER:** Available at all berths.

**FUEL:** Not available.

**REPAIRS:** Minor repairs can be effected.

**CONSULS:** Local representation for Argentina, Brazil, Italy and Paraguay. All other Consuls at Montevideo.

**GENERAL:** Refer to "Montevideo" for all general information.

# Venezuela

## AMUAY BAY: 11.46 N. 70.15 W. (See Plan)

**OPERATORS:** Creole Petroleum Corporation. Cable address, Creole Judibana.

**ESSENTIAL REQUIREMENTS:**

1. Incoming vessels must send ETA at least three days before arrival at Amuay Bay.
2. If a ship originally cleared for another port (including some other Venezuelan port) is diverted at sea to Amuay Bay, certain information must be radioed prior to arrival to avoid heavy fine and/or delays. See "Radio".
3. No dirty ballast may be pumped overside in port or in Venezuelan coastal waters. Ballast disposal facilities are available at Amuay Terminal.
4. The use of Venezuelan Government Pilots is compulsory for docking and for movements inside the bay.
5. The Venezuelan flag should be displayed at the mast-head during daylight hours by ships anchored and berthed in Venezuelan waters.
6. In addition to other clearance documents, two copies of an itemised list of articles in the ship's slop chest must be presented to Authorities on arrival.
7. Emergency fire signal is five long blasts on ship's whistle or siren. No other signal is to be given in the case of emergency.
8. Ratguards must be in place on all mooring lines.

**LOCATION:** The port of Amuay Bay is located on the Gulf of Venezuela, on the West Coast of the Paraguana Peninsula, Venezuela. The seabuoy marking the entrance to the bay is located in Latitude 11° 44′ 25″ N., Longitude 70° 14′ 53″ W.

**DOCUMENTS:** Inward clearance is effected on board immediately after docking by Government Port Officials and a representative of the Marine Department. It is necessary that the following documents be ready on arrival:

- Clearance from last port (1 copy).
- Ballast Manifest from last port (1 copy, visaed according to paragraph (*a*) if there is no Venezuelan Consul).
- Crew Lists (6 copies).
- Passenger and Baggage Lists (5 copies visaed, 2 copies not visaed).
- Lists of Passenger in Transit, if any (4 copies not visaed).
- Lists of Personnel Effects (3 copies not visaed).
- Store Lists (3 copies, see note below).
- Lists of Slop Chest (3 copies not visaed).
- Sailing Permit (issued by Maritime Authority of last port).

Vessels arriving with cargo to discharge, will also require:

- Manifest (Sobordo) (one original visaed and 2 copies not visaed from each loading port).
- Consular Mail (one sealed envelope from each loading port).
- Bills of Lading, one original and 1 copy visaed, and 4 copies not visaed from each loading port.
- Tally Books (6 from each loading port).
- Consular Invoice (3 originals visaed and 3 copies not visaed from each loading port).
- Commercial Invoices (3 from each loading port).
- Store Lists prepared should indicate separately all deck, engine and cabin stores.

The store lists may be prepared on board prior to arrival unless the ship is coming from the Islands of Aruba, Curacao, Barbados, Jamaica, Trinidad and the Guianas, in which case they must be visaed by the Venezuelan Consul at the port of departure.

(*a*) Cargo and clearance documents should be visaed by the Venezuelan Consul at the last port of call. In the absence of a Venezuelan Consul, they may be visaed by the Consul of a friendly nation, by the Chamber of Commerce, or by two reputable merchants, the latter's signatures to be notarised. In the absence of a Venezuelan Consul the following notation should be written on each document, in Spanish, and signed by the alternates designated above:

"Por no existir en la localidad Agente Consular Venezolano y a petición de los embarcadores, certifico el presente documento."

(Signature)..................................................

Although vessels proceed directly to Amuay Bay, clearance documents should be prepared showing the port as Las Piedras, Paraguana (Amuay Bay). Failure to observe this requirement may result in penalties up to a maximum of Bs.2,000.

All ships calling at a Venezuelan port for the first time must be measured for tonnage by the Captain of the Port. It is the usual practice to take ashore the ship's Panama Canal or Suez Canal

Certificate, which is used as a basis for recalculating tonnage under the Venezuelan Regulations, and is returned before sailing. The Venezuelan Admeasurement Certificate, when later issued, is forwarded to the owners. A fee is charged for this certificate, which is payable only on the ship's first call. Vessels registered in the following countries are excluded from the above regulations: Netherlands, Germany, France, Portugal, United Kingdom, Denmark, Sweden, U.S.A., Ireland and Norway.

Outward clearance and cargo documents are delivered on board by the Marine Dispatcher. However, in order to obtain the sailing permit, a special form, delivered on board on arrival, must be completed, not later than two hours before sailing time. This form gives cargo and freeboard information by the Captain of the Port.

In the event the berth is required by another vessel, a vessel having completed loading may be required to vacate the berth promptly and proceed to anchorage to await cargo documents.

**PILOTAGE:** Pilots are employees of the Venezuelan Government and pilotage is compulsory for vessels entering or leaving the harbour. The Marine Department will arrange for Pilots to board all vessels as necessary.

The Pilot acts in an advisory capacity; the Master retains responsibility for the ship at all times. In the event it becomes necessary to disregard the Pilot's instructions in order to ensure the safety of the ship, the Master must forward through the Marine Department a full written report of the circumstances, for delivery to the Captain of the Port.

**ANCHORAGE:** For vessels awaiting berth, there is a good anchorage about 1 mile N.W. of the seabuoy in 8 to 12 fathoms with a sand and mud bottom. Ship Masters are requested not to anchor at a distance greater than three miles from the seabuoy.

**RESTRICTED AREA:** A restricted fishing area has been established by the Venezuelan Government which is prohibited for mechanically propelled vessels drawing more than 5 ft. This zone lies within the area off the Paraguana Peninsula from Punta Macolla, Lat. 12° 5′ 32″ N., Long. 70° 12′ 55″ W., to Punta Estanques (Los Taques), Lat. 11° 48′ 45″ N., Long. 70° 16′ 45″ W., and a line connecting the positions below indicated: Latitude 12° 07′ 40″ North, Longitude 70° 14′ 25″ West; Latitude 12° 03′ 15″ North, Longitude 70° 19′ 23″ West; Latitude 11° 49′ 25″ North, Longitude 70° 21′ 50″ West.

**MAX. SIZE:** Length 1,000 ft.; draft 42 ft. 06 in.

**BERTHING:** Four finger piers provide eight berths, numbered one to eight, from South to North.

| Max. Length Ship | 1000′ | 1000′ | 650′ | 700′ | 700′ | 700′ | 700′ | 700′ |
| Max. Beam | Unl. | Unl. | Unl. | * | * | * | * | Unl. |

Ballast line, fresh water and all grades bunkers at all berths.

* Maximum beam permissible varies dependent upon the beam of vessel berthed on other side of the slip.

The use of an anchor when docking is permitted at all berths. It is considered prudent to have the outboard anchor hove-out prior to entering the harbour in order to facilitate speedy release if necessary while docking. The Pilot will advise whether the ship is to be berthed port or starboard side to the dock.

**LOADING:** Loading rates, particularly for low-flash products loaded during the hours of darkness or when topping-off cargo tanks, will be reduced by the terminal to meet existing conditions

All loading and discharging will be stopped during the passage of an electric storm, and ullage covers must be closed and dogged down. During periods of calm, loading of gasoline or other similar low-flash products may be loaded at reduced rates or loading stopped if the heavy vapours are not being dispersed quickly enough to prevent hazards from accumulated gas pockets. Ship's officers are cautioned to be on their guard during such conditions.

Loading rates will be reduced when topping-off, if requested by the ship's officer.

Some of the fuel cargoes are loaded from fuel reservoirs through certified positive displacement meters, and shipping documents are prepared on the metered figures. All reconstituted crudes are line blended with conditions recording of component rates and quantities. Actual loading rates of both this crude and metered fuel cargoes are available at any time upon request of the standby.

Instructions as to grade or grades of cargo, and the approximate loading rate anticipated, will be given to the Master on completion of inward clearance. Supplementary information including number and size of lines and hoses will be furnished to the Chief Officer before loading commences.

If vessel's loading order from owners or charterers do not agree with the terminal's orders, either as to grades or quantity, the marine representative should be advised immediately. The terminal is authorised to load 10% more or less than the quantity nominated; if the cargo to be lifted will be more or less than this 10% limitation it is necessary to cable New York for confirmation.

A terminal employee is stationed at each pier during the entire time the ship is discharging ballast, bunkering, or loading ca Fifteen minutes "stand-by" notice should be given to this man p to completion of ballast, bunkers, or cargo.

**TUGS:** Tug-boat assistance is considered essential and is affor all vessels entering, leaving or shifting in the harbour by two 1 h.p. tugs. Disposition and manoeuvres of tug-boat are directe the Pilot, who uses a "walkie-talkie" to convey orders to the tu

**RADIO:** The cable and telegraphic address for the Creole Pe leum Corporation at Amuay is "Creole Judibana". Radio messa to and from ships at sea are routed through the government ra station at Maiquetia (La Guaira) call letters YVG. This sta operates on a 24 hour continuous watch, on the following freque cies:

Listening Frequencies: Long Wave, 500 kc/s., Short Wave, 47 6267, 8356, 12534, 16712, 22225 kc/s.

Transmitting Frequencies: Long Wave, 500, 472, 464, 417 k Short Wave, 17141.6, 12817.5, 8730, 8722, 6519.5, 6505·5, 4352, 4 kc/s.

Master should call Amuay Marine, two hours before arri by VHF or on 2182 kHz, to confirm the exact arrival time at the s buoy.

Vessels that were originally cleared for another foreign port, another Venezuelan port, and were subsequently diverted at se should radio the following information to "Creole–Judibana" pri to arrival:

| | |
|---|---|
| Vessel's name | Last port of call |
| Master's name | Port for which originally cleared |
| Vessel's flag | |
| Number of crew | Grade and quantity of cargo to be lifted. |
| Estimated time of arrival. | |

This information is required in order to make in advance spec arrangements for inward clearance, to avoid payment of fine.

Radio notice of arrival should be sent 72 hours prior to arrival Amuay.

Ship-to-shore telephone: Radio-telephone listening watches a maintained on a 24-hour basis in the Marine Office on the follow frequencies: 2182 kc.; 156·8 Mc.; 8797·3 kc (single sideband).

International telephone: International telephone calls are rout through Caracas, Venezuela. Telephone number is Punto Fijo 34 (It is usually difficult if not impossible to complete a call.)

**BALLAST:** Vessels should arrive with sufficient ballast to perm safe handling. The Pilots require a draft of minimum 8 ft. forwa 18 ft. aft, on a T-2 or similar size tanker, 11 ft. forward and 20 ft. aft o a 26,000 dwt. or larger vessel. Ballast should be carried in a minimu number of tanks, and all other tanks stripped, so as to minimi deballasting time.

A relatively small amount of salt water remaining in ship's tanks lines can contaminate crude and cause operating problems for th refiners. It is important therefore to strip tanks and lines as dry a possible.

Vessels provided with completely segregated ballast system a permitted to discharge ballast and load cargo simultaneously.

Absolutely oil-free ballast may be discharged overside. All di ballast must be pumped ashore. A 20-in. ballast line, two 60,000 bar slop tanks and separator system are available.

A considerable number of vessels are now participating in th programme to eliminate pollution of the seas. Under this programm vessels may arrive carrying quantities of oil/water emulsion. If it desired to follow the "load-on-top" procedure in such instances is requested that the Marine Representative be informed on arriva

**MEDICAL:** Medical treatment and hospitalisation, if required, provided at a hospital located in the Creole concession, operated b the Society of Catholic Medical Missionaries. Several dentists a located in the area.

Italian crew members covered by Casa Maritime insurance r ceive medical attention from the appointed medical representat in Punto Fijo.

Authorisation forms for medical and dental treatment are pr vided, which require Master's signature. Transportation is availab at the Marine Office. Please note that if the patient does not spea Spanish or English, an interpreter should accompany him.

**FUEL:** Ship's requirements specifying grade and quantity desi are to be given to the Marine Representative boarding the vessel o arrival. All grades of bunker fuel, intermediate fuels and Diesels a available, except Esso diesel. Bunker delivery rates average 2,5 3,500 barrels per hour. Bunkers are loaded through meters whi automatically register quantities on bunker receipts. It is the respo sibility of ship's engineer to give "standby" notice to the termi employee and advise him when to shut down.

**FRESH WATER:** Fresh water can be supplied if necessary; how ever, supplies are limited to essential requirements. All fresh wa is piped from distant sources. Loading rate is about 10 tons per hou

**CUSTOMS:** Venezuelan laws are strict in regard to contraband a Masters are requested to instruct their crews not to take cigarettes other articles ashore. Cigarettes in carton lots, cigars, tobacc souvenirs, gifts (particularly items of women's apparel) should b collected prior to arrival in port, listed with the items in the slop ch and placed in the custody of the Master for deposit in the slop ch or closet which will then be sealed for the duration of the vesse stay in port.

Firearms on board any merchant vessel calling at Venezue ports must not exceed one per officer, nor can the ammunition e ceed 18 cartridges per officer. All firearms and ammunition must b noted on the stores list. Officers must not carry firearms while th ship is in Venezuelan waters and these sidearms and ammuni should be collected and held in the Master's safe custody. C members should be warned against taking knives or other weapons ashore.

While the vessel is in port, Venezuelan National Guard Officials are assigned on board to ensure compliance with Customs regulations. The law requires that meals be supplied to these officials during regular meal hours. Masters are requested to give them the privilege of eating in the officers' mess-room, to avoid difficulties.

**DENSITY:** The usual specific gravity of sea water at the berth is 1.025, temperature ranges from 78°F. to 85°F.

**CONSULS:** Brazil, Great Britain, Italy, the Netherlands, and Norway have consular representatives in the area.

**TIME:** GMT minus 4 hours.

**SHORE LEAVE:** Shore leave is permitted and a representative of the Captain of the Port boards on arrival and issues the required number of passes. Shore passes are to be collected prior to sailing, and given to the Pilot undocking the vessel. Vessels are not permitted to sail until all crew members are on board, unless hospitalised or prior arrangements made for disembarking.

**REGULATIONS:** (i) *Pollution:* The laws of Venezuela are very strict in regard to the pollution of harbour and coastal waters by oil, and heavy fines are imposed for violations. No dirty ballast, oil or bilge slops are to be pumped or allowed to escape overboard. All overboard discharge valves from cargo tanks and bilges are to be secured before loading or discharging commences. Loading is to be conducted with the greatest care and vigilance in order that errors or delays in handling cargo valves may not result in overflows. All deck scuppers should be plugged before loading to avoid harbour contamination should an overflow occur. The Authorities require that a written report be submitted by the ship involved in the event of an oil spill.

(ii) *Gangways:* All vessels using the port of Amuay must provide a safe gangway. The use of rung ladders, pilot ladders, etc., is contrary to Port Regulations, and Port Authorities will not board except by means of a safe gangway or accommodation ladder.

(iii) *Passengers:* Passengers will not be permitted to disembark unless in possession of the required visa and documents. To facilitate clearance, if passengers are carried, the Master should include advice to this effect in his radio ETA.

(iv) *Visitors:* All visitors to ships are prohibited except those company employees, petroleum inspectors, etc., whose duties require their presence aboard.

**GENERAL:** (*a*) *Weather Conditions:* There is little rainfall at Amuay Bay; annual precipitation averages 12 in. The so-called rainy season usually coincides with the Caribbean hurricane season, from August to November, although Amuay lies South of the usual hurricane track. During these months calms are often experienced and winds from a Westerly direction may be expected. Normal winds are steady from the North-east, average force 4, Beaufort Scale, with a maximum of force 8. Temperatures average about 85°F., with little variation from day to night or season to season.

(*b*) *Tides:* The normal range of the tide is about 11 in.; however, a 28-in. range has been observed during spring tides.

(*c*) *Lubricating oil:* Supplies of Essomarine lubricating oils are available. Requirements should be given in vessel's radio notice of arrival.

(*d*) *Bonded Stores:* Cigarettes or other stores in bond are not obtainable in Amuay Bay.

(*e*) *Cash Advances:* The local currency is the Venezuelan Bolivar and cash advances are made only in this currency. It is requested that any requirement for cash advances be included in the vessel's ETA radio, to permit delivery on board on arrival.

(*f*) *Charts:* No supplies of charts or sailing directions are available at Amuay Bay.

(*g*) *Laundry:* A six-hour laundry service is available throughout each working day. Such service should be requested in the vessel's ETA message.

(*h*) *Mail:* Itemised lists are required for ship's mail, to be signed by the Master. Unless other instructions are given, ship's mail received after sailing, or for vessels on which no advice has been received, will be held for 30 days and then returned to Owners or Operators at ship's expense.

(*i*) *Inspection – Petroleum Products:* Chas. Martin & Co. and E. W. Saybolt, petroleum inspectors, are available if specified. Telephone numbers, Chas. Martin 44665, 44650; Saybolt 44639.

(*j*) *Norwegian Government Seamen Service:* A field representative of the above service is stationed at Amuay providing Norwegian and Swedish film exchange and other usual services. His telephone number is 44511.

(*k*) *Personnel – Seamen Left Ashore:* In the case of seamen left ashore for hospitalisation, repatriation or other reason, all documents and personal effects are to be delivered to the Marine Office before sailing. A letter is required from the Master advising the maximum advances to be made to the seamen, if any, and instructions concerning his repatriation. All expenses incurred by seamen left ashore, including cost of repatriation, are for ship's account. It is important that Masters bear in mind that the Venezuelan law will at all time hold the vessel, her Master, Agent or owner, responsible for any seamen left behind in Venezuela.

(*l*) *Provisions and Stores:* Provisions and stores in limited quantities are available, the prices and quality of some items, such as fresh fruit, fish, shrimps, vegetables, etc. are competitive; dry stores are considerably higher than in most ports. The Port Steward will assist in filling requisitions.

(*m*) *Radar and Radio:* Radar and radio repairs can be effected in Amuay. A service repair man is available, but spare parts are limited.

(*n*) *Repairs:* Shore facilities are available only for emergency repairs of a minor nature. The nearest dry docks are those at Puerto Cabello and Curacao, N.A. Several contractors in the area provide labour for hull painting and for tank cleaning. Contracts for these services are made by the ship's Master directly with the contractor.

(*o*) *Surveyors:* There are no appointed surveyors to American Bureau of Shipping or Lloyd's in the area. However, with sufficient advance notice, arrangements can be made to have their nearest representatives come to Amuay to attend surveys.

(*p*) *Walport Film Exchange:* Subscribers to the Walport Service may exchange films at the Marine Office.

**ATTENDANCE:** Representatives of the Marine Department board vessels immediately on arrival, and it is particularly requested that Masters indicate at that time all ship's requirements. The Marine Office building is located at the Pierhead Trestle and personnel are available for assistance at all hours. Telephones are located on all docks and the Marine Shift Supervisor can be called on telephone No. 444475 or 444465.

## CARIPITO: 10.09 N. 63.02 W.

**OPERATORS:** Creole Petroleum Corporation.

**LOCATION:** Caripito is located on the West bank of the San Juan River in latitude 10° 09′ 25″ N., longitude 63° 02′ 01″ W.

**ESSENTIAL REQUIREMENTS:**

1. Incoming vessels must send to Caripito their ETA Guiria at least three days in advance.
2. If a ship originally cleared for another port (including some other Venezuelan port) is diverted at sea to Caripito, certain information must be radioed to Caripito prior to arrival to avoid a heavy fine and/or delays. See "Radio".
3. No dirty ballast may be pumped overside in port or in Venezuelan coastal waters. Limited ballast facilities are available at Caripito Terminal.
4. Vessels calling at Caripito must obtain Government Pilots at Guiria.
5. The Venezuelan flag must be displayed during daylight hours while vessel is within port limits.
6. The emergency fire signal in Caripito dock area is six short and one long blasts on ship's whistle or siren. No other signal is to be given in the case of emergency.

**APPROACHES:** The traffic in San Juan River is restricted to one-way from Marieta Point to Caripito. Therefore, instructions are issued at Guiria to incoming vessels relative to what action to take on arrival at Marieta Point. Outbound traffic is controlled so as not to conflict with these instructions.

1. Guiria. The town of Guiria is located on South coast of Paria Peninsula on N.W. shore of Gulf of Paria. When approaching from East a signal tower will be observed on a bluff slightly to North of town.
2. Maturin Bar. Buoy E-1, marks the entrance to Maturin Bar Channel. At Punta Gorda there is a light tower located in approximare Lat. 10° 09′ 50″ N., Long, 62° 37′ 52″ W. displays a flashing red light.
3. Channel. Maturin Bar Channel is 14 miles in length and 400 ft. in width. The tidal range over the bar varies from 4 ft.-6 in. to 4 ft.-9 in. with currents up to 3 knots. The average salinity of water is 1.009; however, this may vary considerably between wet and dry seasons and spring and neap tides. Maximum draft permitted by Venezuelan regulations is 34 ft. in fresh water. There is a restriction of 6 in. less for all motor tankers. On leaving Maturin Bar Channel the San Juan River narrows from approximately $1\frac{1}{4}$ miles in width to about 0.7 miles with slight variations in width up to Marieta Point where it narrows to about 1,200 ft. and varies between 800 and 2,000 ft. up to Caripito. Marieta Point marks intersection of Caño Frances and the San Juan River. It is also at this point that course of San Juan River changes approximately 100° to starboard and it is the beginning of one-way traffic. Frequently, incoming vessels are requested to anchor below this point to await outbound traffic. There are 32 lights marking strategic points in San Juan River between Maturin Bar and Caripito terminal. These light towers are painted aluminium and are easily visible during daylight hours.

**DOCUMENTS:** (also see under "Radio").

1. *Clearance (inward and outward).* Inward clearance is effected at Caripito. The sanitary inspector boards vessel at anchor or at berth depending on tidal conditions and/or the availability of a berth. The Customs and other Government officials usually board at the berth. However, should there be a delay awaiting berth or tide, the entry will be granted while vessel is at anchor, in which case accommodation ladder must be rigged.

It is necessary that the following documents be ready on arrival:

Ballast List (1 original, visaed).
Passenger List (5 copies, of which none visaed).
Baggage List (5 copies, of which none visaed).
Crew List (7 copies, of which none visaed).
Sailing Permit from Last Port (1 original, visaed).
Stores List (5 copies, see *Note*).
List of Personal Effects (3 copies, of which none visaed).
List of Contents of Slop Chest (3 copies, of which none visaed).
List of Passengers in Transit (5 copies, of which none visaed).

*Note:* The Stores Lists may be prepared on board prior to arrival unless ship is coming from Netherlands Antilles or the Guianas, in which case they must be visaed by Venezuelan Consul at port of departure.

2. *Cargo documents.* The Port of Caripito has in force a system of cargo documentation for expediting the sailing of vessel. It is as follows:

*a.* Certain documentation with approximate cargo figures of unofficial nature are placed on board and official cargo documents are airmailed to discharge port.

*b.* Blank signed documents are placed on board to vessel's departure from Caripito and thence correct figures are radioed to sub-agency at Guiria who delivers them in writing to Master, who acknowledges its receipt by signing carbon copies of transmittal sheet.

**PILOTAGE:** Pilots are employees of Venezuelan Government and act in an advisory capacity. The Master retains responsibility for ship at all times. In the event it becomes necessary to disregard the Pilot's instructions in order to ensure the safety of the ship, the Master must forward through the Marine Department a full written report of the circumstances, for delivery to the Captain of the Port.

Pilots are compulsory and are embarked and disembarked at port of Guiria through a sub-agent. Vessels should proceed to the Guiria sea buoy (position 10° 33′ 12″ N. 62° 15′ 00″ W.) and await instructions. If arriving during the hours of darkness, certain instructions are usually transmitted by light signals from the signal tower. Voice radio communications can be established at any time with Guiria or Creole Caripito on frequencies 2182 kc/s, 2638 kc/s and 2738 kc/s. The launch which embarks the Pilot will also deliver instructions to the Master relative to the movements of his vessel en route to Caripito, port regulations, facilities, etc. The regular pilotage fees cover the area from the entrance to Maturin channel to and from Caripito. The Pilot is to be provided sleeping quarters and food equal to that provided the officers aboard ship.

*Note:* Complaints or observations concerning the Pilots handling of vessel should be noted on back of pilotage ticket.

**TIDES:** The normal range of tide in the dock area is about 12 ft. with currents up to 3 knots during the flood and 4 knots during the ebb in rainy season (May-December). The normal current is 2½ knots during the flood and 3 knots during the ebb.

**ANCHORAGE:** For vessels awaiting berth, there is an anchorage about 1,000 metres up-stream from the Caripito terminal. Vessels awaiting clear channel may at times be requested to anchor at Punta Marieta. Vessels awaiting high tide anchor at Punta Marieta or off Punta Gorda.

**MAX. SIZE:** Vessels up to 780 ft. and 48,000 dwt. can be accommodated with a low water depth of 35 ft.

**RADIO:** The cable and telegraphic address for the Creole Petroleum Corporation at Caripito is "Creole – Caripito". Radio messages to and from ships at sea are routed through the Government Radio Station at Maiquetia (La Guaira), call letters "YVG". This station operates on a 24-hour continuous watch, on the following frequencies:

Listening Frequencies: low frequency, 500 kc/s; high frequency, 4178, 6267, 8356, 12534, 16712, 22225 kc/s. Transmitting Frequencies: low frequency, 500, 472, 464 417 kc/s; high frequency, 4322, 4352, 6505·5, 6519·5, 8722, 8730, 12817·5, 17141·6 kc/s. Radio notice of arrival should be sent 72 hours prior to arrival at Guiria and corrected if weather or other conditions delay the vessel.

Radio telephone listening watches are maintained on a 24-hour basis at Guiria and at Caripito on 2182 kc. The following frequencies are available for communications after contact: 2638 kc and 2738 kc.

All vessels en route to Caripito may also communicate with Amuay or La Salina Marine offices and request that message dealing with corrected ETA's, Pilots and other business be relayed to the Caripito Marine Office.

Vessels that were originally cleared for another foreign port, or another Venezuelan port, and were subsequently diverted at sea, should radio the following information to Creole Caripito prior to arrival:

Vessel's name
Master's name
Vessel's flag
Number of crew
Estimated time of arrival at Caripito
Last port of call
Port for which originally cleared.
Grade and quantity of cargo to be lifted.

This information is required in order to make in advance special arrangements for inward clearance, to avoid payment of a fine. It is necessary in such a case that the following documents be ready on arrival:

Crew List (original and 6 copies).
List of Personal Effects (original and 2 copies).
List of Contents of Slop Chest (3 copies).
Stores List (original and 1 copy).

Also required are the original and 2 copies of the radiogram instructing Master to proceed to Caripito. Outward clearance documents are placed on board the vessel prior to departure from the Caripito terminal.

Masters should bear in mind that while vessels are within Venezuelan territorial waters, Government authorities do not permit the use of ship's radio equipment. Cables and radiograms should be handed to the company representative for transmittal via shore radio communication system. Caripito has also radio telephone communication with North and South America and Europe. For further information contact Port Services Section in the terminal building, telephone C-335.

**BALLAST:** Ballast is not required when mooring. Any ballast carried should be in a minimum number of tanks, and all other tanks stripped, so as to minimise deballasting time.

A relatively small amount of salt water remaining in ship's tanks or lines can contaminate crude and cause operating problems for the refiners. It is important therefore to strip tanks and lines as dry as possible.

Vessels provided with completely segregated ballast system are permitted to discharge ballast and load cargo simultaneou Absolutely oil-free ballast may be discharged overside. Cons dated residues may be pumped ashore, where facilities are availa for receiving up to a maximum of 20,000 barrels.

A considerable number of vessels are now participating in t programme to eliminate pollution of the seas. Under this programm vessels may arrive carrying quantities of oil/water emulsion. If i desired to follow the "load-on-top" procedure in such instanc it is requested that the Marine Representative be informed arrival.

**BERTHING:** The Marine Office Building is located on the We bank of the San Juan River upstream from the berths. Represen tives of the Marine Department board vessel immediately up arrival and it is particularly requested that Masters indicate at th time all ship's requirements. Personnel are available for assistan at all hours.

Caripito Creole maintains a deep water terminal, consisting two ocean tanker berths, Nos. 2 and 3. These are T-type piers wi breasting dolphins located approximately 10 ft. off the face of eac pier.

All terminal facilities are under the control of Creole Petroleu Corporation. The port is open for navigation during day and nig All ocean tankers are moored at berths No. 2 and 3 on the flood ti only. Vessels may sail from berth No. 3 at any stage of the ti Sailings from berth No. 2 are restricted to flood tide only when ber No. 3 is occupied.

A vessel entering or leaving port must be assisted by a Dockin Master in the general employ of and furnished by Creole Petroleu Corporation. The Docking Master will board an inbound vessel a San Juan River Light Beacon No. 29 and relieve the Governme Pilot of his duties. A Custom guard will board at the same time an remain with the vessel. The Docking Master will deliver to the Ma ter his loading and docking instructions together with any othe information pertinent to the vessel's call. He will also sign the Notic of Readiness if requested. The vessel will proceed to anchor to awa flood tide to dock, to await berth, or will swing to the flood tide in th turning basin and proceed directly to the berth depending on ci cumstances.

**LOADING:** Loading rates, particularly for low-flash produc loaded during the hours of darkness or when topping off carg tanks, will be reduced by terminal to meet existing conditions.

All loading and discharging will be stopped during passage of a electric storm, and ullage covers must be closed and dogged dow During periods of calms, loading of gasoline or other similar low flash products may be loaded at reduced rates or loading stopped the heavy vapours are not being dispersed quickly enough to prevent hazard from accumulated gas pockets. Ship's officers ar cautioned to be on their guard during such conditions.

Loading rates will be reduced when topping off, if requested b the ship's officer.

Instructions as to grade or grades of cargo, and the approxima loading rate anticipated, will be given to the Master. Supplementar information including number and size of lines and hoses will b furnished to the Chief Officer before loading commences.

If vessel's loading order from Owners or charterers do not agre with terminal's orders, either as to grades or quantity, the marin representative should be advised immediately. The terminal is authorised to load 10% more or less than the quantity nominated; if th cargo to be lifted will be more or less than this 10% limitation it i necessary to cable New York office for confirmation.

A terminal employee is stationed at each pier during the entir time the ship is discharging ballast, bunkering, or loading cargo Fifteen minutes "standby" notice should be given to this man pri to completion of ballast, bunkers, or cargo.

**MEDICAL:** Medical treatment and hospitalisation, if required, i provided at a hospital located in the Creole concession. Severa dentists are located in the town of Caripito. Authorisation forms fo medical and dental treatment are provided, which require Master's signature. Transportation is available at the Marine Office. Pleas note that if the patient does not speak Spanish or English, an interpreter should accompany him.

**FRESH WATER:** Fresh water is available in any quantity. Deliver is made through 2½ in. national standard fire hose thread hydrants Ships personnel must provide hoses and connect up.

**FUEL:** Bunker "C" fuel oil, marine diesel and intermediate fuels ar available. It is the responsibility of ship's engineer to give "standby notice to the terminal employee and advise him when to shut dow

**CONSULS:** There are no consular representatives in the area Vessels bound for U.S.A. or British Caribbean ports will be provide with a letter stating this fact.

**CERTIFICATES:** All ships calling at a Venezuelan port for the firs time must be measured for tonnage by Captain of the Port. It is th usual practice to take ashore the ship's Panama Canal or Suez Cana Certificate, which is used as a basis for recalculating tonnage unde the Venezuelan regulations, and is returned before sailing. Th Venezuelan Admeasurement Certificate, when later issued is forwarded to the Owners. A fee is charged for this certificate, which i payable only on ship's first call. Vessels registered in followi countries are excluded from above regulations: Netherlands, Germany, France, Portugal, United Kingdom, Denmark, Sweden, U.S.A Ireland and Norway.

**CUSTOMS:** While the vessel is in port, Venezuelan National Gua officials are assigned on board to ensure compliance with Custom regulations. The law requires that meals be supplied to these of cials during regular meal hours. Masters are requested to give the the privilege of eating in the officers' messroom, to avoid difficultie

Venezuelan laws are strict in regard to contraband and Maste e requested to instruct their crews not to take cigarettes or other ticles ashore. Cigarettes in carton lots, cigars, tobacco, souvenirs, fts (particularly items of women's apparel) should be collected ior to arrival in port, listed with the items in the slop chest and aced in the custody of the Master for deposit in the slop chest or oset which will then be sealed for the duration of the vessel's ay in port.

Firearms on board any merchant vessel calling at Venezuelan rts must not exceed one per officer, nor can ammunition exceed cartridges per officer. All firearms and ammunition must be noted n the stores list. Officers must not carry firearms while ship is in enezuelan waters and these side-arms and ammunition should be llected and held in the Master's safe custody. Crew members ould be warned against taking knives or other weapons ashore.

**EPAIRS:** Only minor repairs of an emergency nature can be ade. There are no electronic repair services available in the area.

**HORE LEAVE:** Shore leave is permitted and a representative the Captain of the Port boards on arrival and issues the required mber of passes. Shore passes are to be collected prior to sailing, d given to the Docking Master undocking the vessel. Vessels are t permitted to sail until all crew members are on board, unless spitalised or prior arrangements made for disembarking.

**IME:** Local time is Greenwich Mean Time minus 4 hours.

**ENERAL:**

*Gangways:* Gangways at berths No. 2 and 3 are provided by the rminal.

*Plimsoll Marks:* The Captain of the Port requires that the Plimsoll arks of all vessels using the port be clearly visible. Vessels will e checked on completion of loading, and if the Plimsoll Marks are t readily legible, permission to sail may be withheld.

*Surveyors:* There are no appointed surveyors to the American ureau of Shipping or Lloyd's in the area. With 48 hours notice, n-exclusive surveyors can be obtained from Caracas, or at times om Puerto La Cruz, or qualified Masters or chief engineers may e available for appointment as surveyors when required.

*Bonded Stores:* Cigarettes or other stores in bond are not obtain- le at Caripito.

*Cash Advances:* The local currency is the Venezuelan Bolivar d cash advances are made only in this currency. It is requested at any requirement for cash advances be included in the vessel's TA radio, to permit delivery on board on arrival. Cash returns can e accepted only during the normal work day – 0700 to 1600 hours. undays and holidays excluded.

*Provisions and Stores:* Provisions and stores in extremely limited rieties and quantities are available at prices considerably higher an in most other ports.

*Charts:* No supplies of charts or sailing directions are available Caripito.

*Personnel* – Seamen Left Ashore: In the case of seamen left shore for hospitalisation, repatriation or other reason all documents d personal effects are to be delivered to the Marine Office before iling. A letter is required from the Master advising the maximum vances to be made to the seamen. if any, and instructions con- rning his repatriation. All expenses incurred by seamen left shore, including cost of repatriation, are for ship's account. It is portant that Masters bear in mind that the Venezuelan law will at time hold the vessel, her Master, Agent or owner, responsible r any seamen left behind in Venezuela.

*Laundry:* Laundry service is available.

*Lubricating Oil:* Supplies of Esso marine lubricating oils are ailable from Puerto La Cruz. Quantities required should be included the ETA cable.

*Mail:* Any pending ship's mail will be delivered on board by the arine dispatcher on arrival at Caripito. At the same time he will eceive any ship's mail to be dispatched. The marine dispatcher ll accept personal mail only if it carries the proper amount of Vene- uelan postage, or if Master authorises postage by signing seven opies of the Company Post Transmittal form. Masters interested knowing the individual postage amounts to be paid by each crew ember, should provide a list, in duplicate, of the senders, and umber of letters sent by each one identified by a number written on ach letter. Copy of this will be returned aboard vessel when leaving his port outward bound. If not ready on time, it will be airmailed to e vessel's next port of call.

*Inspection* – Petroleum Products and Crude Oil: Charles Martin & o. and E. W. Saybolt, petroleum inspectors, are available from uerto La Cruz if specified.

*Visitors:* All visitors to ships are prohibited except those company mployees, petroleum inspectors, etc., whose duties require their esence aboard.

*Passengers:* Passengers will not be permitted to disembark unless possession of the required visa and documents. To facilitate earance, if passengers are carried, the Master should include vice to this effect in his radio ETA.

*Pollution of Harbour and Coastal Waters:* The laws of Venezuela e strict in regard to pollution of harbour and coastal waters by oil, d heavy fines are imposed for violations. No dirty ballast, oil or ge slops are to be pumped or allowed to escape overboard. All erboard discharge valves from cargo tanks and bilges are to be cured before loading or discharging commences. Loading is to e conducted with greatest care and vigilance in order that errors delays in handling cargo valves may not result in overflows. All ck scuppers should be plugged before loading to avoid harbour ntamination should an overflow occur. The authorities require a written report be submitted by the ship involved in the event an oil spill.

**AUTHORITY:** Creole Petroleum Corporation, Marine Department, Caripito, POB 152. Cables: "Creole Caripito".

### EL PALITO: 10.29 N. 68.07 W. (See Plan)

**OPERATORS:** Mobil Oil Company de Venezuela.

**LOCATION** (of El Palito Terminal): The terminal facilities operated by Mobil de Venezuela at the port of Puerto Cabello (Punta Chávez), are situated on the Venezuelan coast, 7 miles West of Puerto Cabello. The terminal has a 2,475 ft. pier, part causeway and part trestle, extending out from Punta Chávez along a shallow reef then angling into water 45 ft. deep. Two tankers can tie up simultaneously at the berths.

**WEATHER:** Winds are normally from the N.E. with an average Beaufort scale force of 2–3. Average temperature about 85°. The months of January, February and March have the roughest sea and swell, and vessels may not be able to dock due to the weather.

**TIDE:** The normal range of the tide is 1 ft.

**ESSENTIAL REQUIREMENTS:**

1. Incoming vessels must send ETA 72 hours before arrival at El Palito Terminal and another 24 hours before arrival advising any change of ETA.

2. If a vessel originally cleared for another port (including some other Venezuelan port) is diverted at sea to El Palito, certain information must be received prior to arrival, to avoid heavy fine and/or delays.

3. *No ballast* may be pumped overside in port. Ballast disposal facilities are available at the El Palito Terminal.

4. The use of Venezuelan Government Pilots is compulsory for docking and undocking.

5. The Venezuelan flag should be displayed at the mast-head during daylight hours by vessels anchored and berthed in Venezuelan waters.

6. In addition to other clearance documents, two copies of an itemised list of articles in the ship's slop chest must be presented to the authorities on arrival.

7. The emergency fire signal is five long blasts on the vessel's whistle or siren. No other signal is to be given in case of emergency.

8. Rat guards must be in place on all mooring lines.

**APPROACHES:** The terminal pier is marked by the following lights: One occulting red light at the top of No. 1 (North-west) Hose Rack, 80 ft. above sea level. Latitude 10° 29′ 51″ N., Longitude 68° 07′ 13″ W., and one green light, flashing every 3 seconds at the top of No. 2 (South-east) Hose Rack, 80 ft. above sea level, located 275 ft. S.E. of No. 1 Hose Rack. A group of 5 crude storage tanks, painted aluminum, visible 20 miles on a clear day, are located 1.25 miles 200° from the head of the pier.

**DOCUMENTS:**

A. Admeasurement Certificates. All vessels calling at Venezuelan ports for the first time must be measured for tonnage by the Captain of the Port. It is the usual practice to take the ship's Panama Canal or Suez Canal Certificate, which is used as a basis of recalculating the tonnage under the Venezuelan regulations and is returned before sailing. The Venezuelan Admeasurement Certificate is forwarded to the owners at a later date. A fee is charged for the certificate which is payable only on the vessel's first call. Vessels registered in the following countries are excluded from the above regulations: Denmark, France, Germany, Ireland, Netherlands, Norway, Portugal, Sweden, United Kingdom and U.S.A.

B. Inward clearance is affected on board immediately after docking by Government Port Officials and a representative of the Marine Department. It is necessary that the following documents be ready on arrival:

Clearance from last port (1 copy).
Ballast Manifest from last port (1 copy, visaed according to paragraph (*d*) if there is no Venezuelan Consul).
Crew List (9 copies).
Passenger and Baggage Lists (5 copies, visaed; 2 copies not visaed).
List of Personal Effects (5 copies not visaed).
Store List (3 copies, see paragraph (c)).
List of Slop Chest (3 copies not visaed).
Sailing Permit (issued by maritime authority of last port).

Vessels arriving with cargo to discharge, will also require:

Consular Mail (one sealed envelope from each loading port).
Manifest (Sobordo), 1 original visaed and 2 copies not visaed from each loading port.
Bills of Lading, 1 original and 1 copy visaed, and 4 copies not visaed from each loading port.
Tally books; 6 from each loading port.
Consular invoice: 3 originals visaed and 3 copies not visaed, from each loading port.
Commercial invoices: 3 from each loading port.

C. Store list prepared should indicate separately all deck, engine and cabin stores. The store lists may be prepared on board prior to arrival unless the vessel is coming from the Netherland Antilles or the Guianas, in which case they must be visaed by the Venezuelan Consul at the port of departure.

D. Cargo and clearance documents should be visaed by the Venezuelan Consul at the last port of call. In the absence of a Venezuelan Consul, they may be visaed by the Consul of a friendly nation, by the Chamber of Commerce or by two reputable merchants, the latters' signature to be notarised. In the absence of a Venezuelan Consul, the following notation should be written on each document in Spanish, and signed by the alternates designated above: "Por no existir en la localidad Agente Consular Venezolano y a peticion de los embarcadores, certifico el presente documento".

(Signature)

Vessels originally cleared for another port, and diverted at sea to El Palito, should radio Mobil Puerto Cabello the following information as soon as the change of sailing orders are received:

1. Advise diverted.
2. Name and class of vessel.
3. Number of crew.
4. Flag of vessel.
5. Last port of call.
6. Port from which originally cleared.
7. Estimated time of arrival at Pilot station.
8. Type and amount of cargo vessel will load.
9. Time required to discharge ballast.
10. Master's name in full as signature (John Jones, Master).

This information is required in order to make in advance special arrangements for inward clearance to avoid payment of fines.

Outward clearance and cargo documents are delivered on board by the Marine Dispatcher. However, in order to obtain the sailing permit, a special form which is delivered on board on arrival must be completed, not later than two hours before sailing time. This form gives cargo and freeboard information required by the Captain of the Port. In addition, one of the 9 copies of the crew list specified above, corrected to show any changes made while in port, should be attached to the form.

**PILOTAGE:** The Pilot's working hours are from 0600 to 1800 hours. There are no charges for their assistance during those hours on workdays. On Sundays and holidays they charge overtime. There is also a charge when ship has anchored in the bay as according to the pilotage law each movement (and entering the bay is one movement) requires a Pilot. By special agreement only Pilot's overtime will be charged for anchorage, as anchorage and docking is considered as one movement with respect to Government Pilotage Fee.

Pilotage is compulsory government service. The government charges the Pilot's assistance according to ship's net tonnage. Vessels under flags of Panama and Liberia are required to have their Venezuelan Tonnage Certificate. The government charges for docking and sailing.

Pilots are employees of the Venezuelan Government and pilotage is compulsory for vessels entering or leaving the harbour. The terminal will arrange for Pilots to board all vessels as necessary. Pilots meet the vessel via launch provided by the terminal. The Pilot may decline to moor the vessel if it is not equipped with satisfactory mooring equipment, lines, gear, etc., or if it is not sufficiently ballasted. It is the responsibility of the Master to notify the Pilot of any special conditions or peculiarities, such as defective navigation equipment, mooring lines, tackle, gear or lack of necessary equipment, which might impose hazards in connection with the handling, mooring, discharging or loading of vessels.

At the berths, vessels must be moored to the entire satisfaction of the Pilot and the terminal operators' Mooring Master.

The Pilot acts in an advisory capacity. The Master retains responsibility for the vessel at all times. In the event it becomes necessary to disregard the Pilot's advice in order to ensure the safety of the vessel, the Master must forward a full written report of the circumstances through the terminal for delivery to the Captain of the Port.

**ANCHORAGE:** Notice of Readiness can be tendered at anchorage. The suggested anchorage for El Palito Terminal is located ½ to 1 mile North or West of the seaward end of the pier. The area to the East of the pier is not recommended as an anchorage.

**RESTRICTIONS:** None. Vessels enter day or night and at any state of tide.

**MAX. SIZE:** East berth draft 38 ft. 6 in. West berth draft 40 ft. Length 800 ft.

**BALLAST:** Due to the exposed location of the oil piers, vessels are required to be ballasted to the following minimum drafts for safe manoeuvring to and from the berths:

| *Overall Length of Vessel* | *Minimum Draft Required* |
|---|---|
| 400–480 ft. | forward 9 ft., aft 17 ft. |
| 481–700 ft. | forward 12 ft., aft 20 ft. |
| 701–800 ft. | forward 14 ft., aft 23 ft. |

A total capacity of 220,000 barrel slop pits and a 20 in. ballast line are available to receive all ballast.

Vessels with separate ballast tanks, lines and pumps may discharge ballast overside. Ballast for entering the harbour should be carried in the minimum number of tanks, and all other tanks stripped dry so as to minimise the time required for discharging ballast alongside berths.

All ships in ballast from abroad are charged for Consular Ballast Certificate.

**HEALTH:** No radio pratique. Health officers board vessel at berth.

**RADIO:** Puerto Cabello, Venezuela, Coastal Station call sign YVL, makes radio contact with all vessels "CQ" on 8722 kc. at the following hours: 1130, 1330, 1530, 1830, 2130, 0030, 0200 GMT. Also "CQ" on 17.141 kc. at 1630 GMT and "CQ" on 4.322 kc. at 0430 and 0630 GMT.

Vessels originally cleared for another port, and diverted at sea to El Palito, should Radio Mobil Puerto Cabello the following information as soon as the change of sailing orders are received:

Advise diverted.
Name and class of vessel.
Number of crew.
Flag of vessel.
Last port of call.
Port from which originally cleared.
Estimated time of arrival at pilot station.
Type and amount of cargo vessel will load.
Time required to discharge ballast.
Master's name in full as signature (John Jones, Master).

This information is required in order to make in advance spec arrangements for inward clearance to avoid payment of fines.

**TUGS:** Tugs are not available at El Palito.

**BERTHING:**

1. The use of both anchors is required for docking at both berth It is considered prudent to have both anchors hove-out prior entering the harbour in order to facilitate speedy release while moo ing. The Pilot will advise whether the vessel is to be moored port starboard side to the dock.

2. In the event the berth is required by another vessel, a vess having completed loading may be required to vacate the berth prom ptly and proceed to anchorage to await cargo documents.

3. East Berth. Approach at very dead slow speed along a lin parallel to a line formed by the East and the West berth at a distan from it equal to the distance of the North buoy. Drop the starboar anchor at the point of intersection of the ship's fore with a li formed by the two East shore range markers. Continue along sam path at very dead slow speed until reaching with the ship's fore t East berth. Drop the port anchor. Allow the ship to drift in position alongside berth. This will be done by tying mooring lines a required by Pilot and with the help of the ship's engines.

4. West Berth. Approach at very dead slow speed along a li parallel to a line formed by the East and West berths and at a di tance from it equal to the distance of the North buoy. Drop the po anchor at the point of intersection of the ship's fore with a li formed by the two West shore range markers. Continue along sam path at very dead slow speed until reaching with the ship's fore t West berth. Drop the starboard anchor. Allow the ship to drift in position alongside berth. This will be done by tying mooring line as required by the Pilot and with the help of the ship's engines.

5. General. Available hose connections, all 8 in., are as follow Three for Fuel oil, one for diesel products and one for leaded a unleaded gasolines. All dirty ballast to be pumped ashore throug the fuel oil loading hoses.

**LOADING:**

1. *Cargo:* On completion of inward clearance, information rega ing the number of hoses and loading rate will be given to the Maste and Chief Officer. During ballast discharge supplementary informa tion will be given the Chief Officer. A 15 minute standby is require prior to finishing any grade.

2. *Contamination of Crude:* It has been established that one of th major causes of contamination of crude oil is the small amount o salt water remaining in the ship's tanks, pumps and ballast line after discharging ballast. This small amount of salt water frequent results in costly damage and downtime to refining equipment an also presenting many other problems. Therefore all tanks and line must be pumped as dry as possible.

3. *Draining of Hoses:* Hoses are drained by gravity on all produc and crude. Ship personnel must co-operate with terminal personne in this operation to ensure complete draining of hoses into sh tanks and adequate drip cans must be placed to catch the remainin oil in line. Sawdust or equivalent must be on standby to clean up an oil leaks.

4. *Loading Rates:*

| *Commodity* | *Available at berths* | *Size of line* (in.) | *Estimated max. barrels per hour* | *Hoses Pier 1* (in.) | *Pier* (in.) |
|---|---|---|---|---|---|
| Crude oil | 1–2 | 30 | 27,000 | 3–8 | 2-8 |
| Bunker C | 1–2 | 24 | 17,500 | 3–8 | 2-8 |
| Diesel | 1–2 | 16 | 9,000 | 1–8 | 1-8 |
| Unleaded gasoline | 1–2 | 16 | 8,000 | 1–8 | 1-8 |
| Leaded gasoline | 1–2 | 16 | 8,000 | 1–8 | 1-8 |
| Ships' bunkers | 1–2 | 24/16/8 | 6,000 | 1–8 | 1-4 |
| Lube | 2 | 8 | | 1–8 | 1-4 |

Loading rates will be reduced by the terminal when topping of tanks at the vessel's request.

5. *Scuppers:* Loading will not be started till all deck scuppers ar properly sealed to the satisfaction of the terminal.

6. *Simultaneous Deballasting and Loading:* Vessels equipped wi separate and completely segregated ballast tanks, lines and pump and never used for oil may be permitted to discharge ballast an load simultaneously providing approval has been obtained from th terminal.

**MEDICAL:** Medical treatment and hospitalisation, if required, ar available at the Seguros Sociales in Puerto Cabello. Several dentis are located in Puerto Cabello. Authorisation for any medical and dental treatment must be made by the Master. Transportation i available at the Terminal Office. If the patient does not speak Spanis an interpreter should accompany him.

**FRESH WATER:** Available.

**FUEL:** Bunkers are available only for vessels loading cargo. Dis putes as to quantity should be registered by signing the bunk receipt under protest and noting the ship's quantities thereon.

**CUSTOMS:** While the vessel is in port, Venezuelan National Guar officials are assigned on board to ensure compliance with Custom regulations. The law requires that meals be supplied to these of cials during regular meal hours.

Venezuelan laws are strict in regard to contraband and Maste are requested to instruct their crews not to take cigarettes or oth articles ashore.

Cigarettes in cartons, cigars, tobacco, souvenirs, gifts (parti ularly items of women's apparel), should be collected prior to arri in port, listed with the items in the slop chest and placed in th custody of the Master for deposit in the slop chest which will be sealed for the duration of the vessel's stay in port.

**CONSULS:** French, Norwegian, Danish, Italian and Panama Consulates are represented in Puerto Cabello. There is no American Consulate. It is necessary for Masters of Panamanian flag vessels to visit the Panamanian Consulate at Puerto Cabello to present documents and receive dispatch as required by law. Regular office hours are from 0800 to 1200 and from 1400 to 1700 Mondays through Fridays; any dispatch issued outside of regular office hours is billed at double fees. Terminal Office will arrange transportation to Puerto Cabello upon request.

**REPAIRS:** Only emergency repairs of a minor nature can be made. Prices are very high.

**REPATRIATION:** The documents and personal effects of seamen left ashore for hospitalisation, repatriation or other reason, must be delivered to the Terminal Office before sailing. A letter from the Master is required advising the maximum amount of advances to the seaman and any other instructions concerning his repatriation. All expenses incurred by the seaman, including the cost of repatriation, are for the vessel's account. Venezuelan law at all times holds the Master, Agent or Owner responsible for any seaman left behind in Venezuela.

**AIRPORT:** Distant about 4 miles.

**TIME:** Local time is four hours slow of Greenwich Mean Time.

**SHORE LEAVE:** Shore leave is permitted and a representative of the Captain of the Port boards on arrival and issues the required number of passes. Shore passes are to be collected prior to sailing and given to the National Guard watchmen on board.

Vessels are not permitted to sail until all crew members are on board, or special permission has been obtained to sail without a crew member.

**REGULATIONS:**

1. *Engines:* No engine repairs will be made while the ship is in dock. Engines are to be kept at standby at all times while the ship is in port.
2. *Rat-guards:* Vessels must use ratguards on all mooring lines.
3. *Visitors:* All visitors to vessels are prohibited, without written permission in each case by the Port Captain or his assistant. Mooring Master, petroleum inspectors, dispatchers, and terminal employees handling hoses may board ship in performance of their duties.
4. *Pollution:* The laws of Venezuela are very strict in regard to the pollution of harbour and coastal waters by oil, and heavy fines are imposed for violations. No dirty ballast or oil is to be pumped or allowed to escape over the side. No engine-room or pump-room bilges may be pumped overboard. All pump-room sea suctions and overboard discharge valves must be secured prior to loading or discharging cargo. Loading must be conducted with the utmost care and vigilance so that errors or delays may not result in spills. All deck scuppers must be plugged tight before loading so that in the event of a spill pollution of the harbour may not result.
5. *Garbage:* No garbage is to be thrown over the side while the vessel is in port.
6. *Passengers:* Passengers will not be permitted to disembark unless in possession of the required visa and documents. To facilitate clearance, if passengers are carried, the Master should include this information in his ETA.
7. *Firearms:* Firearms on board any merchant vessel calling at Venezuelan ports must not exceed one per officer, nor can the ammunition exceed 18 cartridges per officer. All firearms and ammunitions must be noted on the store list. Officers must not carry firearms while the vessel is in Venezuelan waters and these sidearms and ammunition should be collected and held in the Master's safe custody.

**GENERAL:** 1. *Bonded Stores:* No cigarettes or bonded stores are available at El Palito.

2. *Cash Advances:* Cash advances are available in Venezuelan bolivares only and should be included in the vessel's ETA radio, to permit delivery on board at arrival.
3. *Charts:* No charts or sailing directions are available at El Palito.
4. *U.S.S. Club:* There is no U.S.S. Club available at El Palito nor movie film exchange service.
5. *Inspection Petroleum Products:* Chas. Martin and Company and E. W. Saybolt, petroleum inspectors, are not available at El Palito. However, if specified in sufficient time, they may be obtained from Puerto La Cruz.
6. *Laundry:* Laundry facilities are available at El Palito.
7. *Lubricating Oil:* Certain types of Mobil lube-oils only are available in small quantities. Requirements should be sent by radio with ETA.
8. *Mail:* Mail service posted from El Palito has been found to be fair.
9. *Provisions:* Provisions are available at El Palito.
10. *Radio and Radar:* No repairs made at El Palito.
11. *Gangways:* Gangways are provided by El Palito Terminal.

**AUTHORITY:** Mobil Oil Company de Venezuela, Apartado del Este 5373, Caracas, Venezuela.

In the absence of special arrangements, Mobil does not, as operator of the terminal, act as Agent for any vessel or for firms or agencies engaged in coastwise or international transportation operations. All services in connection with the arrival, loading or departure of vessels are performed as a Representative and for the account of the shipper in the case of cargoes loaded, and as the consignee in cases where cargo is received.

Terminal Operator, El Palito, Mobil Oil Company de Venezuela, Apartado 102, Puerto Cabello, Edo. Carabobo, Venezuela. Radio Address: "Mobil Puerto Cabello".

**AGENT:** See "Puerto Cabello".

## LA GUAIRA: 10.36 N. 66.56 W.

**DOCUMENTS:**

Sealed envelopes for Customs.
Visaed B/L and Sobordos not in envelopes.
Consular Despatch for all Venezuelan ports.
Despatch from last Venezuelan port, if any, or
Zarpe from last foreign port, if arriving directly from abroad.
Fumigation Certificate.
Vaccination Certificates of Crew.
Landing Cards for Crew and Passengers.
6 Store Lists (with arms and narcotics).
6 Lists of Personal Effects.
10 Crew Lists.
10 Lists of Passengers for La Guaira, or negative Passenger List.
10 Lists of Passengers in Transit.
2 Sets of B/L not visaed.
4 Sobordos not visaed.
14 Tally Books.

**PILOTAGE:** Compulsory and vessels have to wait for Pilot in the pilotage zone North-West of the port entrance.

**MAX. SIZE:** Berth depths as follows, (approx.):

| | |
|---|---|
| No. 1 | 36 ft. |
| No. 2, 3, 3a (4), 5, 6 | 35 ft. |
| No. 7, 8 | 34 ft. |
| No. 9, 10 | 24 ft. |
| No. 11, 12, 13, 14, 15, 16, 17, 18, 19 | 36 ft. |

**RADIO:** In order to enable Agents arrange for quick entry and berthing, Masters should give their ETA message at following intervals, via Curacao Radio (ITT): 72, 48 and 24 hours prior to arrival, indicating in the 48-hour message, the quantity of parcels (or tonnage if bulk cargo) per hatch. This is imperative for applying for the necessary personnel of the National Port Services. Also, draft, passengers, requirements for bunkers, fresh water, provisions, repairs, medical assistance, etc. This telegram the Master to sign with his full name.

**TUGS:** The use of tugboats within the port is compulsory, both for entering and leaving port, as well as for manoeuvres in the port basin. Ships longer than 139 metres must be assisted by two tugboats.

**BERTHING:** Normally a minimum of 19 ocean-going vessels can berth at a time. Berths No. 1, 2 and 3 are along the breakwater pier East-West, parallel to the coast.

Within the port is a finger pier, parallel to the breakwater pier, with two Customs warehouses alongside, with berths North and South, two each. The main pier is parallel to the coastline, East-West, with berths Nos. 10, 11, 12, 13, 14 and 15, along which piers there is ample Customs warehouse space, including outdoor space on the roofs as well as ample uncovered storage area.

The Passenger Terminal is on a finger pier, in direction North-East with its land end in the corner of berth No. 15. There are two berths each side, namely Nos. 16 and 17 in the inner basin and Nos. 18 and 19 in the outer basin.

Passenger vessels have priority for berthing and they have to leave port within 24 hours.

**LOADING/DISCHARGING:** Cargo is discharged into railcars alongside the piers, or directly into the transport means of the Importer and vice versa when loading. The latter, however, applies only for bulk cargo or considerable one-type commodity.

If electric shore cranes are used, the same procedure applies unless the cargo is to be stored outdoors on the roof of the warehouses. Piers Nos. 4 and 9 have no rails alongside, so the cargo is discharged on the pier, wherefrom it is immediately taken away by two-boys, fork-lifts and/or other mechanical equipment supplied by the National Port Services as per kind of cargo. The use of such equipment is included in the handling fee per weight.

**STEVEDORES:** Supplied exclusively by the governmental National Port Services at costs per weight of cargo in accordance with governmental decrees.

The Port Agent applies for the necessary number of gangs per ship. Each gang consists of 11 stevedoremen (estiba) and 11 longshoremen (caleta).

Switching of gangs from one hatch to another is not permitted.

There are no longshoremen costs for cargo handled during straight time, but only for cargo handled during overtime.

(*a*) *Straight time*

| | |
|---|---|
| Monday–Friday | 07.00–11.00<br>12.30–16.30 |
| Saturday | 07.00–12.00 |

(*b*) *Overtime*

| | |
|---|---|
| Monday–Friday | 18.00–23.00 |

(*c*) *Saturday afternoon* work is not permitted, but if a vessel could terminate operation and sail within a maximum of three additional working hours, a special permit would be granted by Customs and Port Authorities. In such a case, the additional working hours are considered as overtime.

(*d*) *Work on Sunday* is not permitted except for passenger vessels (officially those carrying 60 passengers, but exceptionally vessels with less passengers might occasionally obtain same consideration by authorities).

**EQUIPMENT:**

(*a*) *Electric Shore Cranes:* Piers 12, 13, 14 and 15 have electric shore cranes on rails, of 6 tons capacity each. The National Port Services allow two 6 ton cranes to lift pieces up to 9 tons weight. The arms of the cranes reach the roofing of the warehouses. Use of shore cranes is not compulsory, unless the Technical

Board of the National Port Services rules to use them. Other piers have no shore cranes.

(*b*) *Diesel – Driving Rolling Cranes:* There is a considerable number of these cranes which can lift heavy pieces of about 17 tons.

(*c*) *Floating Cranes:* not available.

(*d*) Special lumber carriers of about 20 tons capacity.

(*e*) Tow trucks, fork-lifts, trucks and trailers up to 10 tons capacity.

**HATCHES:** Opening and closing of hatches is not performed by the National Port Services but by either the ship's crew, or the assistance labour of the Agent.

**FRESH WATER:** Available through pipe-line on the pier, day or night, or by water trucks of up to 10 tons capacity in day time only.

**OFFICIALS:** Once the vessel is anchored at La Guaira, Representatives of Customs, Port Captain, National Guard, Health Service, Immigration and Agency board the vessel.

**AGENTS:** Head Office (Direction and Control), Victor H. Selinger, PO Box 1632, Caracas 110. Cables "Selvic" or "Seltank". Local Office: PO Box 28, La Guaira. Tel. (031) 23735 or (031) 27042. Cables: "Selvic La Guaira" or "Seltank La Guaira".

## MARACAIBO LAKE (See Plan)

Including, Section A – BAJO GRANDE
Section B – LA ESTACADA
Section C – LA SALINA
Section D – MARACAIBO
Section E – EL TABLAZO AND
PUERTO MIRANDA
Section F – PUNTA DE PALMAS
Section G – SAN LORENZO

(N.B. Certain information common to all Vessels entering Maracaibo Lake is given below. For specific details of ports/terminals within the Lake, see relative Section as indicated above.)

**FLAG:** Local authorities require that the Venezuelan ensign be flown at vessel's masthead, from the time of entering the outer channel until clear of the outer channel outbound.

**DOCUMENTS:** (*a*) *Inward Clearance for Scheduled Vessels:* Vessels arriving in ballast or with cargo in transit require following documents:

1 copy Sailing Permit from Last Port.
2 copies–1 visaed Ballast Certificate.
1 or more letters Consular Mail (in sealed envelope).
4 copies–2 visaed Passenger Lists.
4 copies–2 visaed Baggage Lists.
4 copies–2 visaed List of Passengers in Transit.
4 copies List of Slop Chest.
4 copies List of Personal Effects.
4 copies–2 visaed Store Lists.
5 copies Crew Lists.

Vessels arriving with cargo should have, in addition to the foregoing:

4 copies–2 visaed Sobordos (Venezuelan Inward Manifests).
6 copies–2 visaed Bill of Lading.
2 copies visaed Inward Manifests.

In absence of a Venezuelan Consul at the last port, clearance documents should be signed by consul of a friendly nation, one of the Port Authorities, Notary Public, the Chamber of Commerce or by two well-known firms.

(*b*) *Inward Clearance for Diverted Vessels:* Vessels diverted to Maracaibo Lake Ports to load cargo, should submit all documents indicated in 1 through 10 above, except consular mail, which they will not have.

Vessels diverted at sea to Maracaibo Lake Ports which do not have a Venezuelan clearance on board, must advise loading port via radio prior to arrival, the name of vessel, master's name, vessel's flag, Venezuelan net tonnage (if available, if not, the registered net tonnage), last port of call, destination port for which originally cleared, ETA San Carlos pilot station and grade and quantity of cargo to be lifted. This information is required in order that Inward Clearance may be arranged with government officials in ample time prior to vessel's arrival. Also 3 copies of the diversion telegram received by vessel and signed by Master, together with copies of those documents listed under (*a*) should be presented to the Port Authorities upon arrival at Maracaibo. In the absence of this information, or of presentation of each of these documents to the Port Authorities the vessel will be subject to a fine. Please note, that the documents covered under (*a*) have to be presented upon arrival, regardless, if the vessel is or is not arriving with consular clearance or arriving after being diverted at sea.

(*c*) In Maracaibo two clearances from Custom's authorities are needed: One for proceeding from Maracaibo to loading berth, and another after loading for proceeding from Maracaibo to destination. For this reason Custom Dispatch charges may be incurred twice.

(*d*) *American Crew List.* All non-American vessels loading for a U.S.A. port should have the American Crew List ready on arrival in Maracaibo to be visaed by the American Consulate in Maracaibo and placed aboard ship before departure. The crew list should be prepared on Immigration and Naturalization Service form No. I.–418 (Crew List Manifest) and should contain two sections:

Section 1 should list those crew members who are American or who possess individual visa documentation to the United Sta

Section 2 should list, in the alphabetical order of their last na those alien crew men who lack United States visa documenta and therefore require inclusion in the visa of the crew list.

Only one name may be placed on each line of the crew list. T names should not be placed in the space of one line, nor shou full line between two names be left vacant. All copies of the cre presented must be legible. Occasionally the names of the crew included on the carbon copies of some crew lists presented at consulate are blurred beyond recognition.

The information requested under columns 1, 2 and 3 shoul filled in completely. Column 1 should always contain the comp first name and middle initial of the crew man. Column 2 should s the nationality of each crew member and the number of his tr Document. Column 3 should always include the name of the p where the crew man was shipped, not simply the country.

At the time of vessel's first application for a crew list, the c list must be presented in four copies: Original and One copy sho contain only information requested under Columns 1, 2 and Two copies must include following information of those crew to be included on crew list visa. Column 4 should list date, city country of each crew men's birth. Column 5 should show place issuance of seaman's travel document and name of Governm which issued travel document. (It is not necessary to list date issuance of travel document.)

Below is a sample line correctly entered on the Master crew l

| (1) | (2) | (3) | (4) | (5) |
|---|---|---|---|---|
|  | Z.23455 | Maracaibo | December 8, 33 |  |
| Bello, Tomás E. | Venezuelan | Venezuela | Caracas, Venez. | Cabimas, Ve |

Upon subsequent crew list applications by same vessel wi same year, the crew list need be presented in duplicate only, and information in Columns 4 and 5 need be provided only concern any new crew members who require visa documentation. Wh twelve months have elapsed since presentation of Original cr list, a crew list should again be prepared in 4 copies and shou contain all the information required in columns 1–5. Such a mas crew list is required after each 12 months period.

**APPROACHES:** The Channels leading to the Lake of Maraca are called the Outer channel, the Inner Channel and the Lake Ch nel. The controlling depths of the Outer Channel, Inner Channel a the channel Southward to buoys M1 and M2 are normally 45 At certain times the controlling depth may be less. At such tim suitable notices are published advising mariners of these tempor reductions of controlling depth.

**Outer Channel.** The Outer Channel starts at the E.M. Buoy in po tion 11° 13′ 47″ North and 71° 33′ 31″ West. The light characteris of E.M. buoy are: flashing white every five seconds, visibility appr imately five miles. The distance from E.M. buoy to the Southern e of the outer Channel, marked by buoys B–27 and B–28, is appro mately 15·75 miles. The channel is 1,000 ft. wide and has a norm controlling depth of 42 ft. minimum monthly observed lowest wa MMOLW) with tidal range varying about 2 ft. 3 in. This depth maintained by periodical dredging. Tankers are required to have keel clearance of at least 2 ft. and dry-cargo vessels a keel clearan of at least 3 ft. Vessels navigating the channel at the maxim allowable draft are confined from two hours before to two hou after high water. There are no turns in the channel and the cou is 189°.

There is a breakwater 0·5 mile East of, and parallel to, the Ou Channel and extending 1·6 miles Northward from the North side Zapara Island. The end of this breakwater is marked with a skelet steel tower with a light 27 ft. above sea-level. Light characteristic flashing white light every eight seconds; visibility about three mile

On Zapara Island there is a skeleton iron tower with a height 136 ft. above sea-level.

Cross currents are sometimes encountered near Zapara, S Carlos and Pescadero Islands, especially at low water when t cross currents are strong. Overtaking at these points should b avoided.

There is one anchorage zone in the Outer Channel which is trapezoid on the port side when navigating inbound near the Buo B–14, B–15, B–16 and B–18. All buoys in the Outer Channel a equipped with radar reflectors.

*Caution:* Masters are warned to keep adequate speed in th Outer Channel even when embarking the Pilot as strong cro currents are encountered near San Carlos and Zapara Island. Pi boats are fast and fitted with a flying bridge.

**Inner Channel.** The Inner Channel continues on the sa course as the Outer Channel for about 10 miles, whereafter th direction changes to 150°. Entire length of the Inner Channel is abo 12 miles.

The beginning of the Inner Dredged Channel is marked by buo B–29 and B–30. Channel is marked by beacons, and terminates a beacons T–55 and T–56. The channel is 800 ft. wide and the norm controlling depth is 43 ft. MMOLW with tidal range varying fro 1·5 ft. to 2·5 ft.

The channel from beacons T–56 to Maracaibo Harbour is a dredg channel, the end of which is marked by buoys Nos. B–73 and B–

About 0·2 mile South of buoys B–29 and B–30, there are loca two towers – one on each side of the channel, and about 1 mi further South are two more towers. These four towers are mark E–31 and E–32 (North) and E–33 and E–34 (South). Towers No. E– and E–32 are of single steel pipe construction on a concrete pi base. Towers No. E–33 and E–34 are of skeleton steel construct (former oil-well derricks) each mounted on four concrete pi The characteristics of these towers are:

| Tower No. | Height above water (LWS) Light | Light |
|---|---|---|
| E–31 | 43′ | Green – Fl. |
| E–32 | 43′ | Red – Fl. |
| E–33 | 123′ | Green – Fl. |
| E–34 | 128′ | Red – Fl. |

Vessels are not allowed to overtake each other in the Inner Channel between buoys B–29 and B–30 and light beacons T–25 and T–26. Vessels may overtake each other in the Inner Channel between light beacons T–39 and T–40 after having exchanged prescribed signals with the vessels to be passed. This manoeuvre is, of course, allowed only if conditions are favourable and no vessel navigating in the opposite direction is in sight.

**Lake Channel.** The channel starting at light beacons T–39 and T–40 and leading to Maracaibo Roads is called the Lake Channel. This is a natural channel 3,000 ft. wide and 11 miles long.

The Main Channel through Maracaibo Lake is approximately 33 miles long, not less than 244 m. wide and with a greater depth than the outer channels.

The access channels to the various ports and terminals branch off from the main channel as described under Section for each port.

**CHANNEL NAVIGATION:**

(*a*) Inbound vessels leave to starboard side the buoys and beacons marked with even numbers and to port side the buoys and beacons marked with odd numbers.

(*b*) Outbound vessels shall leave to port side the buoys and beacons marked with even numbers and to starboard side the buoys and beacons marked with odd numbers.

(*c*) Vessels should pass as close as possible to the channel's edge on starboard side. Loaded vessels have preference.

(*d*) Approaching vessels are to reduce speed in order to minimise the suction force of the displacing waters.

(*e*) Vessels must maintain a distance of five ship's lengths by day and eight ship's lengths by night from other vessels navigating in the same direction.

(*f*) No vessel should start to manoeuvre to overtake another vessel before having received clearly the affirmative signal from the ship to be passed.

(*g*) A grounded vessel is not allowed to start any manoeuvre when another vessel is passing.

(*h*) Dredgers are frequently at work in the channels and caution should be exercised in passing them. Signals used by the dredgers are as follows:

*Daytime*

Black cylinder hoisted on side of yardarm: You can overtake me on the side on which the cylinder is shown.

Two black balls over the bridge: The channel is blocked.

*Night*

Green light on side of yardarm (a white light on mast-head helps to show on which side the green lights is placed): You can overtake me on the side on which the green light is shown.

Two red lights over the bridge: The channel is blocked.

The tidal range is 4 ft. at neaps.

(*i*) Maximum speed for vessels navigating in lake channels has been limited to 10 knots. Masters should exercise the outmost care in complying with this regulation as heavy fines may be imposed to offending vessels.

**PILOTAGE:** (N.B. Maracaibo Pilotage Regulations require that inbound tankers, in ballast, while crossing the Bar, shall not have greater than 8 ft. difference between the fore and aft draft. The Government pilot will not take the vessel if this requirement is not met, unless he is satisfied that the actual draft of the vessel will permit safe navigation through the Outer and Inner Channels.

Every Master of a vessel navigating in Lake Maracaibo who desires to enter the main ship channel in Pilotage Zones No. 1 or No. 2 must first ensure that said channel is free of traffic.

The limits of the Main Ship Channel in Pilotage Zone No. 1 are from buoys B1/B2 located at the entrance to the Outer Bar Channel and buoys B73/B74, of the city of Maracaibo. Pilotage Zone No. 2 begins approximately one mile below Maracaibo and extends Southward to lightfloats M36/M37. All other channels are considered as access channels to their respective port zones and subject to special local rules. Every vessel navigating to or from any port in Lake Maracaibo must follow the prescribed routes through the main and access channels leading to or from such ports, (unless special permission has been granted to do otherwise.)

(*a*) Pilots are employees of the Venezuelan Government and act in an advisory capacity; The Master retains responsibility for the ship at all times. In the event it becomes necessary to disregard the Pilot's instructions in order to ensure the safety of the ship, the Master must prepare a full written report of the circumstances, for delivery to the Captain of the port.

(*b*) Inbound vessels have the option at present to embark government Pilot at the following areas:

(*i*) In the channel off San Carlos Pilot Station between buoys B–24 and B–26.

(*ii*) Anchorage area approximately 5½ miles North-east of pilot station, San Carlos Island. Position N. 11° 04′ 22″, W. 71° 33′ 48″ East of buoy B–17. This area is demarcated with green light buoy equipment with radar reflector.

(*iii*) At the E.M. Buoy.

(*c*) The Port Captaincy of Maracaibo is unable to guarantee embarking or disembarking Pilots at the E.M. buoy or at anchorage area position. For this reason Masters should communicate with San Carlos pilot station for necessary instructions as to where to pick up Pilot, who usually embarks between buoys B–24 and B–26. The communication system between San Carlos pilot station and vessels will be by Morse lamp and radio-telephone. The stand-by frequency at San Carlos is 2182 kilocycles. Other existing frequencies are 2120 and 2080 kilocycles; 156·6 and 156·8 megacycles. Each pilot launch has a radio-telephone with 2182 kilocycles frequency. The launch that leaves San Carlos pilot station with Pilot for ship, takes approximately 20 to 30 minutes to cover distance, and distance between Buoys and San Carlos is approximately 6 miles or 10 kilometres.

(*d*) Pilot Permit to navigate the Outer Channel without aid of a government Pilot will be granted to those Masters who desire to obtain same. In order to fill the application required, a blank sealed paper and three copies should be signed by Master on arrival. Copy of this solicitude duly endorsed by port Captain of Maracaibo, will serve the Master as temporary permit until the official one has been received. Masters in possession of permits to cross the Outer Channel without a Pilot, have the option to enter channel either at the E.M. buoy or between any other buoy, taking into consideration the heavy traffic of the channel. Government pilotage through the inner channel is compulsory at all times.

(*e*) Outbound vessels will receive Pilot in Maracaibo, who will pilot vessel up to San Carlos area approximately between Towers E–31 and E–33, where he will disembark. The Port Captain of Maracaibo has instructed that all Captains should always in ample time identify themselves with the San Carlos pilot station by radio-telephone regardless of time of day. While inbound – between buoys B–17 and B–19 and sailing outbound – between markers T–42 and T–40. These instructions are obligatory and are required in order for the pilot service to be aware, at any moment, of any emergencies which may arise, and also to avoid, especially during the night, the launch departing with an official pilot aboard believing that the ship in sight needs his services, in which case, even though the launch or pilot services are not rendered, the same will be charged to the company owning the ship, or its representative.

**TONNAGE:** Venezuelan Port Authorities base part of their pilotage charges on the size of the vessel, i.e.:

(*a*) On Registered Net Tonnage. Venezuela will accept the tonnage of ships registered in countries with which they have a reciprocal tonnage agreement. As of this date, such countries are:

Norway
England
France
Sweden
Ireland
Germany
U.S.A.
Denmark
Holland
Portugal

(*b*) On Venezuelan Net Tonnage. Ships not registered in countries listed above, when calling at Venezuelan ports for the first time, must be measured for Venezuelan tonnage by the Captain of the Port. It is the usual practice to take ashore the ship's Panama Canal or Suez Canal Certificate, which is used as a basis for recalculating tonnage under the Venezuelan regulations, and return it before sailing. The Venezuelan admeasurement certificate, when later issued, is forwarded to the Owners. A fee is charged for this certificate, which is payable only on the ship's first call.

(*c*) In practice, the procedure for stating the tonnage of all ships entering the Lake of Maracaibo is as follows: The inward Pilot boarding the ship presents Master a form on which among others the Master should fill in the tonnage of ship. Pilotage charges are based on this tonnage given by the Master. Master's attention is drawn to the fact that the Venezuelan net tonnage is usually higher than the International net tonnage. Care should be taken if an old Venezuelan net tonnage certificate is on board, because the country in which the ship is registered might later have signed the reciprocal tonnage agreement with Venezuela. If the pilotage charges are made on basis of a higher tonnage than the one that should be applied, it is later very difficult, if not impossible, to get a refund.

**CUSTOMS:** (*a*) *Customs Watch*. While vessel is in port, Venezuelan National Guard Officials are assigned on board to ensure compliance with customs regulations. The Law requires meals be supplied to these officials during regular meal hours. Masters are requested to give them the privilege of eating in officers' messroom, to avoid difficulties.

(*b*) *Firearms and Ammunition*. Firearms must not exceed one per officer nor may the ammunition exceed eighteen cartridges per officer. All firearms and ammunition must be carefully declared on Store List and should be collected and held in Master's safe custody while vessel is in Venezuelan waters.

(*c*) *Contraband*. Strict compliance with the customs law of the country is enforced by the authorities, and Masters are strongly advised to caution crew members against attempting to smuggle cigarettes. One open package per person is allowed to be carried ashore, but greater quantity will result in fine and imprisonment of the offender as well as lost ship's time. Due to very strict enforcement of the customs regulations, it is recommended that no goods be carried which are not shown on Store List. Any new articles (clothes, shoes, etc.) should be included in Store List and marked as personal belongings. If during a check-up by Customs, articles considered as contraband are found, this will not only mean confiscation of these articles, but also hours or days of lost ship's time, while the case is handled at court.

**CONSULS:** The following nations maintain consular representative in Maracaibo:

Belgium
Chile
Colombia
Costa Rica
Denmark
Ecuador
El Salvador
France
Germany (West)
Great Britain
Guatemala
Italy
Netherlands
Norway
Nicaragua
Panama
Peru
Portugal
Spain
Sweden
Switzerland
United States
of America

**TIME:** Local time is Greenwich Mean Time minus 4 hours.
**VISITORS:** All visitors to ships are prohibited except those company employees, petroleum inspectors, etc., whose duties require their presence aboard.
**PASSENGERS:** Passengers will not be permitted to disembark unless in possession of the required visa and documents. To facilitate clearance, if passengers are carried, the Master should include advice to this effect in his radio ETA.
**POLLUTION:** The Laws of Venezuela are very strict in regard to the pollution of harbour and coastal waters by oil, and heavy fines are imposed for violations. No dirty ballast, oil or bilge slops are to be pumped or allowed to escape overboard. All overboard discharge valves from cargo tanks and bilges are to be secured before loading or discharging commences. Loading is to be conducted with greatest care and vigilance in order that errors or delays in handling cargo valves may not result in overflows. All deck scuppers should be plugged before loading to avoid harbour contamination should an overflow occur. The Authorities require a written report to be submitted by the ship involved in the event of an oil spill.
**SEAMAN LEFT BEHIND:** Sailing may be withheld until all crew members are aboard with exception of those ashore for justified reasons. It is important that Masters bear in mind that the Venezuelan Law will at all times hold the vessel's, Master, Agent, or Owner responsible for any seamen left behind in Venezuela.

*Section A*

## BAJO GRANDE: 10.29 N. 71.38 W. (See Plan)

(1) OPERATOR: Chevron Oil Company of Venezuela. Oil Terminal. 10.29 N. 71.38 W.

(2) OPERATOR: Venezuelan Sun Oil Co. Natural gas liquids processing facilities. 10.30 N. 71.36 W.

(N.B. For important details of Documentation, Pilotage etc., see "Maracaibo Lake".)

**OPERATORS:** Chevron Oil Company of Venezuela.
**CHANNEL:** Entrance and leaving this terminal is made between buoys B.85 and B.86.
**DOCUMENTS:** Cargo Documents and Outward Clearance.

Captain's copy of Bill of Lading – Bill of Lading form used is usual Warshipoilvoy form. Masters wishing to use another form should Furnish twenty blanks on arrival in Maracaibo.

A Pencil copy of the Certificate of Quantity and Quality.

Customs Clearance – Duplicate of "Conocimiento de Embarque". Duplicate of "Manifiesto de Carga".
(Both stamped and signed by Customs).

Communication – A letter from Maracaibo Customs Authorities to Customs Authorities in Port of Destination.

Zarpe – Permission to sail signed by Maracaibo Port Captain. This is brought on board in Maracaibo by outbound Pilot.

**PILOTAGE:** Chevronmar's Mooring Master will assist in docking. It should be borne in mind that Docking Master acts as adviser only. The Master retains full responsibility at all times. Any damage incurred to vessel or loading platform which may be deemed to have been caused by Mooring Master or Docking Master's fault or negligence, may be held against the ship.
**MAX. SIZE:** *No. 1 berth.* Vessels up to 55,000 dwt. tons acceptable, with maximum draft of 40 ft.

*No. 2 berth.* Tankers at this berth should not exceed 36,000 tons dwt. or displacement on berthing of 20,000 tons, maximum draft 34 ft. 6 in.

Minimum drafts for berthing: 12 ft. forward and 18 ft. aft. Vessels over 18,000 dwt. should have deeper drafts.
**RADIO:** Information to be cabled to Chevronmar three days prior to arrival.

(*a*) Cable Address is: Chevronmar Maracaibo. Please send through PJC (Curacaoradio) and AAC (All America Cables). Chevronmar offices in Bajo Grande have direct teletype communication with the offices of All America Cables in Maracaibo, and Chevronmar also receive cables over the telephone from AAC until 9 p.m.

(*b*) Flag. If vessel has loaded in Bajo Grande before the nationality of the vessel need not be cabled.

(*c*) Sailing port, and at which other port vessel will call in this area. For clearing vessel in and out in Maracaibo, Chevronmar must know beforehand from where ship comes and which other port it will call in this area. Therefore, it is of importance to inform Chevronmar whether vessel will load part cargo or bunker, at which terminal, and whether inbound or outbound.

(*d*) Port for which Vessel is cleared. In case vessel was diverted en route and consequently is not cleared for Maracaibo or one of the terminals in Lake of Maracaibo, Chevronmar must obtain from authorities special permit for vessel to enter Lake of Maracaibo.

(*e*) Ballast Certificate. If vessel arrives in ballast a Ballast Certificate is mandatory. A fine against vessel will be issued by Port Authorities if vessel does not have this certificate.

(*f*) Estimated Time of Arrival. Cable ETA San Carlos pilot station Buoys 25–27, 72 and 48 hours prior to arrival there, or, if vessel is taking part cargo or bunkering inbound, cable ETA bunker or first loading port. Please use local time if possible (four hours slow of Greenwich Mean Time).

(*g*) Net Tonnage. If vessel has not loaded in Bajo Grande before, also cable net tonnage. To determine whether international or Venezuelan net tonnage should be mentioned, see "Maracaibo Lake".

(*h*) Master's full name. Please sign first message with Mas first name and surname.

(*i*) Changed ETA. An additional cable should be sent abo hours and 24 hours prior to arrival at pilot station buoys 25- ETA is changed.
**TUGS:** The Venezuelan Government has ruled mandatory the of two tugs for docking and undocking and also to have stan tugs during loading operations.
**BERTHING:** Loading Pier in position 10° 50″ North and 71° 3 West or about 8 miles or 12·8 kilometres South of Maracaib Western shore of lake and about 9000 ft. offshore with its centr North-south. Two vessels can berth simultaneously, one ou at berth number one and inside at berth number two. Bajo Gr Pier heads are 700 ft. apart. However longer ships have been tie Design of fenders permits berthing of vessels with a displacem of 42,000 tons.
**NOTICE OF READINESS:** Masters are free to tender their s as being ready to load at any place and time which, in their opin conforms with the terms of the charter party. Chevronmar's pers nel authorised to countersign notice of readiness have been ins ted to indicate the time vessel was all fast or, if vessel anchore wait for berth, the time vessel anchored. This does not imperil in way the rights of the shipowner in his negotiations with the char and it limits Chevronmar's liability to the consignee.
**BALLAST:** Shore deballasting facilities are available at B Grande. Deballasting facilities at Bajo Grande are subject to special regulations and procedures. Tanker ballast water is pum through two 8 in. hose connections into a 24 in. line of about 9,00 in length to a 120,000 bbls. receiving basin situated on shore. C tamination of Lake Maracaibo waters with only material of any na is strictly prohibited by Venezuelan Laws. Chevron Oil Compan Venezuela is required to report to the authorities any such cont nation by vessels docked at Bajo Grande. Heavy fines are then as sed against the ships. Co-operation is requested to prevent cont nation from tank overflows, bilge oil, line leaks or any other sou
**TANK CLEANING:** (Before Loading). Precautions as are com for any heavy oil should be taken to insure that no ballast was in any tank. If the cargo is contaminated with water, the water not separate from the oil. The salt content of the oil will be ra approximately ten pounds per one thousand barrels for every 0 contamination by sea water. All cargo compartments must be s ped extremely dry. Cargo pipelines should be drained and/or pu of water. On standard T–2 type vessels, this can be done by drai the fore and aft main cargo lines, both suction and discharge si into the pump room bilges followed by opening of main suction ves on each individual compartment, thereby releasing water tained in dead and transverse lines. After this procedure is com ted, each compartment should be restripped with stripping pu and lines, followed by draining the stripping line to pump-ro bilges. On other ships equipped with looped systems, it is poss to blow the system with air and drain water into the bilges. In o situations, fresh water might be used to flush cargo systems of water and in turn strip salt water and fresh water as outlined T–2 vessels. All deck scuppers should be securely plugged and precautions should be taken to avoid pollution of lake waters.
**LOADING:**

| *Product* | *API Gravity* | *Loading Temperature °F* | *Loading Lines used* | *Loadi Rate* |
|---|---|---|---|---|
| Boscan Crude | 10.3–10.4 | 160 | 2×18″ | 12,00 |
| Boscan Crude Blends | 18.2–31.0 | 120 | ,, | ,, |
| Topped Boscan Crude | 10.0 | 160 | ,, | ,, |
| Topped Boscan Crude Asph Grade | 8.0–11.0 | 160 | ,, | ,, |
| Cutback Asphalt | 11.0–15.0 | 170 | 2×12″ | 4,00 |
| Asphalt Cement | 5.0–8.0 | 300 | 1×14″ | ,, |
| Gas-oil | 35.0–42.5 | 90 | 1×12″ | 5,000 7 |
| Fuel Oil No. 6 (Bunker "C") | 16.0–17.0 | 140 | 1×12″<br>1×18″ | 3,00<br>14,00 |
| Heavy Naptha (HSR) | 52.5–53.5 | 80 | 1×12″ | 5,000 7 |
| Light Naptha (LSR) | 70.0–73.0 | ,, | 1×12″ | 5,000 7 |
| JP – 4 | 45.0–52.0 | ,, | 1×12″ | 5,000 7 |

(*a*) Inspection of Tanks. Before loading can commence, tanks loading system must be inspected and passed. This is usually d by Chevronmar's own cargo inspector but, if consignee so reque third party inspection can be arranged. Both Chas. Martin and E Saybolt & Company are represented in Maracaibo.

(*b*) Line Displacement. When a vessel is loading crude and p ducts, it is usually necessary to displace lines once or twice du loading. Masters will be advised of necessary line displacem before loading starts and are requested to take note because no has to be given by vessel when pumping should be stopped tank changed. Once shore tanks have been changed it will not possible to change the quantity of the product already in the s as shore lines will then contain a product different from the one ready loaded. Ship's gauges and/or draft should be carefully chec when calculating required quantities.

(*c*) Spillage. In case spillage occurs, the port supervisor m be advised immediately, as any spillage must be reported to Authorities without delay.

(*d*) After Loading. All butterworth plates, tank tops and ul plugs should be inspected to insure against entry of salt wa Inspection of ullage plugs should follow on completion of tem ture readings because of the necessity of taking temperatures route. Sea suction valves should be secured by positive means until all cargo has been discharged. This may be accomplished by numbered seals, chains and padlocks. The method of securing should be noted on the inspection documents. Regardless of which method is used, appropriate log entries should be made indicating the date, time and method used and under whose supervision, both vessel officer and/or cargo inspector, such method was applied. About one hour is required for preparation of documents.

**BUNKERING:**

(a) Advance Notice of Requirement. Owners, operators, or Agents should place their nominations with Chevron International Oil Company Inc., San Francisco, California; Chevron International Oil Company Inc., New York, N.Y., and Chevron International Oil Company, Ltd., London.

Cable addresses: "Chevronint, Sanfrancisco;" "Chevronint, New York," and "Chevronint, London".

In order to serve customers without inconvenience or delay nominations should be placed as much in advance of the delivered date as possible.

(b) Bunker Facilities. Bunkers available ex pipe line for vessels loading and unloading cargo at berths No. 1 and No. 2. Bunkering rate up to 10,000 barrels per hour for Bunker Fuel and Intermediate Bunker Fuel, up to 6,200 barrels per hour for Marine Diesel.

(c) Marine Fuels and Lubricants available: Bunker Fuel, Intermediate bunker fuels, Marine diesel, Lubricants – Full line of Chevron Marine Lubricants subject to seven day's advance notice.

(d) Lighterage. Bunker fuel, Intermediate bunker fuels and Marine diesel available for ships in the Maracaibo area. 72 hours advance notice is required for barge deliveries of all products.

**WATER:** Delivery of boiler and potable water is made by barge. Minimum quantity 80 tons. The barge holds about 160 tons and the pumping rate is about 25 tons per hour. Requirements should be cabled in advance.

**REPAIRS:** No major repair facilities are available in Maracaibo but small jobs can be taken care of by local machine and electric shops. Shore labour can be furnished if required. Technicians are available for minor radio repairs. Nearest dry docks are at Curacao for vessels up to 18,000 dwt and at Puerto Cabello for vessels up to 30,000 dwt. There is a submarine 2400 volt power line to the pier. Electric power can be supplied.

**SHORE LEAVE:** Shore Leave is permitted at the discretion of the port authorities: required number of shore passes will be brought on board on arrival in Maracaibo and have to be returned to the customs guard again before the vessel leaves Bajo Grande. Shorts may not be worn ashore.

**GENERAL:** (a) *Visitors.* According to port regulations concerning access to ships and loading terminals and in the interest of industrial safety, only persons directly concerned with loading operations will be permitted to board vessel or visit the loading platform at Bajo Grande.

(b) *Guards.* Two customs guards are stationed on the platform at Bajo Grande. They must be provided with sleeping quarters on the ship and seated in the officers' mess for their meals. Non-compliance may cause cargo stoppage and fines. The Customs Guard will request master to countersign his time on board the vessel. This is counted from time first hose was connected until all hoses were disconnected, regardless of whether vessel was receiving cargo or not.

(c) *Plimsoll Marks.* Port Captain requires that Plimsoll marks be readily visible. If they are not clearly legible, permission to sail may be withheld.

(d) *Marine Stores/Charts.* Marine stores are available in limited supply. Marine charts are not available.

(e) *Compass Adjusters.* There are no compass adjusters in Maracaibo.

(f) *Classification.* American Bureau of Shipping and Lloyd's Register have Agents in Maracaibo.

(g) *Cash Advance.* Cash advances are made only in local currency (Bolivares). In order that money be available on arrival, Masters are requested to include the amount required in the arrival message.

(h) *Launch Service.* The launch is primarily for the use of the port staff, but will transport crew when convenient.

(i) *Taxi.* Taxi service is generally available at Bajo Grande. It is recommended that the price be fixed in advance.

(j) *Crew in Transit.* In case a crew member is left ashore for a justified cause, as hospitalisation, repatriation, etc., his documents and personal effects are to be delivered to the port supervisor at Bajo Grande before sailing. A letter is required from the Master with detailed instructions as to maximum cash advance etc. All expenses incurred by such members are for vessel's account.

(k) *Gangways.* The ship is to supply a safe gangway, which allows easy access to the vessel. Chevronmar has a gangway which may be used at request with the understanding that any damage to the gangway or ship or shore personnel through its use may be held against the ship.

**SAFETY:** Vessel must be in readiness to move at all times. The attention of Masters of turbine steamers is called to this regulation.

Ship's fire-fighting equipment must be ready for instant use while vessel is alongside. Shore personnel will render assistance in an emergency but, since no fire-boats are stationed in the immediate area, vessels should be prepared to combat fire without outside assistance. It is necessary to obtain docking Master's approval for repairs of propelling machinery. Normal safety precautions apply, no smoking is permitted on the pier. No hotwork is permitted on vessels alongside without a written permission from the Port Supervisor. Swimming alongside pier is dangerous and absolutely prohibited.

**CARGO TEMPERATURE:** On short voyages, as for instance to the U.S.A., it was proved most practical to maintain the loading temperature. On longer voyages, as for instance to Europe, the temperature may be dropped to 130 °F, which does no harm as long as sufficient time is given to bring the temperature up again to that required for discharging. Masters should, however, not expect a temperature rise of more than 5°F per day, especially if the sea temperature is low. The heat transfer properties of Boscan Crude are very poor as are those of the heavy products made from this crude. Many ships have been delayed at the discharging port due to too low cargo temperature. Without exception, Boscan Crude, Topped Boscan and cutback asphalts should have at least 160°F on arrival in discharge port.

**DISCHARGE:** Boscan Crude has a flash point of 90–160°F and a maximum viscosity of 1400 SSF at 140°F. The viscosity at other temperatures follows the pattern of other petroleum products. Boscan Crude has been successfully handled in ships fitted with both reciprocating and centrifugal type pumps with forward and after pump rooms respectively. It is generally found that this crude can best be handled at a temperature which brings its viscosity to about 600 SSF 160°F. Vessels with forward pumproom should control stern trim so that it does not exceed about four feet while stripping the after tanks. Also a five-degree list is very helpful when stripping. Once the cargo gets below heating coils, tanks must be pumped empty as fast as possible. At times if has been found helpful to gather tanks strippings into a single tank for discharge ashore, as it is very difficult to strip against heavy back pressures. Watch reciprocating pumps for vapour-lock. Because of high viscosity, proper care should be taken that no oil is left in vessel discharge lines at low temperature.

**TANK CLEANING:** (After Discharge). Many Masters have expressed concern over tank cleaning after discharge. Assuming that ship proceeds to sea for this operation and has sufficient time for proper execution, vessel may be cleaned quite thoroughly using the butterworth system. However, it is of vital importance that the system be used at maximum pressure, and temperature not below 160 PSI and 170°F respectively. At these readings and with two machines, it has been found that about four hours are required for each tank. It is important to keep the tanks well stripped during the butterworthing.

Some Masters prefer to steam out the tanks before butterworthing. If this course is adopted care should be taken that the steaming does not last more than one hour as the heat will drive off the light ends of the oil and leave a rubbery residue that is very difficult to remove.

It has been found helpful to keep the machines in low position for about one hour and then high – middle and low in order, in the usual manner.

**AGENT:** Chevron Oil Company of Venezuela, Apartado 93, Maracaibo. Cable address: "Chevronmar".

(2) **OPERATORS:** Venezuelan Sun Oil Co. Location: South-west of Channel Buoys B–87 and B–88.

**PILOTAGE:** A government Pilot will assist each vessel from Maracaibo to Bajo Grande and on the outbound trip to Maracaibo. The government Pilot will also assist in the berthing and unberthing operations. The ship's Agent will inform the Master of each vessel, as well as the government Pilot, the schedule for berthing the vessel.

The Plant mooring master will board each vessel prior to approaching the dock. Mooring master will assist in the mooring and unmooring operations. It should be understood that the mooring master acts only in an advisory capacity to the Master. The vessel's Master retains full responsibility at all times. The Plant assumes no responsibility in connection with any acts or advice given by the mooring master.

**RESTRICTIONS:** Bridge, clearance at MHHW 146 ft.

**MAX. SIZE:** The maximum permissible fresh water draft at the dock is 36 ft. and the maximum overall length vessel the dock will accept is 700 ft. Vessels with a berthing displacement up to 20,000 long tons will be accepted, providing the approach velocity can be controlled to 0·3 ft. per second or less.

**RADIO:** VenSun's Export Department also has radio-telephones with the following frequencies: 2080, 2120, 2182 (stand-by), 2638 and 2738 kilocycles and 156·6 (stand-by) and 156·8 megacycles, operated in accordance with the following schedule:

Monday through Friday: From 0730 until 1130
From 1300 until 1700
Saturday, Sunday and Holidays: From 0730 until 1030 approx.

Any tanker or vessel bound for Bajo Grande shall cable the Venezuelan Sun Oil Company, at least five days in advance of its scheduled arrival time in Maracaibo, giving notice of its estimated time of arrival, cargo capacity, amount and type of product to be lifted and condition of ship's tanks.

At least 48 hours in advance of arrival at the San Carlos Pilot Station, the vessel's estimated time of arrival, nationality, Venezuelan net tonnage (if available, otherwise the amount and type of cargo to be lifted), condition of ship's tanks, name of Agent, last port, Master's name and all requirements of the vessel while in port should be cabled to Venezuelan Sun Oil Co. and to the ship's Agent. The cable address for the Venezuelan Sun Oil Co. is "Sunoil, Maracaibo". As the cable office in Maracaibo is not able to communicate directly with vessels at sea, messages to Sunoil Maracaibo and to Agent should be routed via PJC Curacao, and should be prefixed "Via AAC" (All America Cables and Radio Inc.). Failure to give such proper notices shall absolve the Plant from any claim for delays or demurrage.

**TUGS:** 2 tugs, each 1,600 h.p., will be used for mooring and unmooring operations.

**BERTHING:** The dock proper may be identified by the overwater pipe-line trestle that connects the dock with shore.

The dock is located approximately 10° 30′ N. 71° 36′ W., which is two miles off shore from the Bajo Grande Natural Gas Liquids Processing Plant and South-West of channel buoys B–87 and B–88 on the Maracaibo channel. The dock is single sided and consists of 4 breasting pilings, 4 mooring dolphins and a loading platform.

The dock is equipped with a compressor and auxiliary equipment to assist the ship in compressing and re-condensing the ship's vapours. No liability will be assumed by the Plant Operator for unavailability of the Dock's vapour compressor. The dock is also equipped with a vent system to dispose of contaminated vapours.

A tie-up crew will handle all mooring or pick-up lines before and after loading. The Plant tie-up crew will assist the ship's crew in positioning and connecting the cargo loading arms and in removing same on completion of loading. The dock loading arms are equipped with 10 in. ASA 300 lb. RF flanges. It shall be the responsibility of the ship to furnish its own fittings to mate with the dock's 10 in. ASA 300 lb. FR flanges.

*Mooring procedure.* Any vessels calling at Bajo Grande must be equipped with mooring hawsers of sufficient length and strength to run a line to each of the two bow and two stern mooring dolphins and shall use such equipment while at the dock. Vessels equipped with tension winches and cables shall utilise these in addition to the mooring hawsers or alone if the vessel has sufficient cables to meet the minimum requirements of running a cable to each of the bow and each of the stern mooring dolphins. For added security of those vessels not equipped with tension and/or cables, one steel cable will be furnished for a bow and another for a stern mooring dolphin by the Plant. It should be recognised by all parties that while the use of these cables is strongly recommended, the Plant accepts no responsibilities for loss or damage to any vessel or to any facility or to any person that may result from the failure of this equipment.

For the convenience and safety of all personnel boarding or unboarding while at Bajo Grande it is recommended that the vessel's accommodation ladder be rigged on the port side, this being the side normally laying against the dock. The ladder should be suspended after the mooring master boards and during docking operations to avoid being fouled.

*Notice of Readiness:* Upon arrival at Bajo Grande and after clearance by Customs Authorities, and after obtaining any other governmental approval required prior to loading, the master of a vessel shall notify Operator in writing that the vessel is ready to load cargo. Such notice shall include a report of the condition of vessel's tanks which shall accurately state the temperature, pressure, last cargo, amount of fuel, possibility of contaminants or any other conditions which might affect loading and except as hereinafter provided, laytime as hereinafter defined, shall commence upon the expiration of six hours after arrival in Bajo Grande. Laytime shall cease when last mooring line is cast off from the dock.

For purposes herein, actual exchange of the written notice referred to above may be made after the vessel is secured at the dock; however, arrival at Bajo Grande shall be defined as the point in time when the vessel passes between the buoys numbered B–87 and B–88 which are markers of the Maracaibo ship channel and are located approximately 1,000 m. in front of the Bajo Grande dock.

**BALLAST:** There are no disposal facilities for dirty ballast at Bajo Grande. Vessels calling on Bajo Grande must arrive at Bajo Grande with *clean* ballast. In the event, the Plant representative or the representative of the National Guard observes dirty ballast, bilge or other contaminants being discharged into the lake, such operations shall be suspended immediately. All consequences resulting therefrom shall be strictly for the vessel's account. It is strongly recommended that the Master instruct all ship's personnel to avoid any possible spillage or contamination of the lake.

**LOADING:** Loading arm position and connections must be to the satisfaction of ship's personnel in charge. Upon approval of ship's personnel in charge of loading, the cargo valves may be opened to test connections for leaks and to commence loading.

The responsibility for and custody of cargo passes to the ship when the cargo reaches the connection owned by the ship.

The minimum loading rate is 250 barrels per hour (bph) and then only when starting to load or when slowing down to trim vessel at completion of loading. The maximum loading rate to be expected under normal conditions is 8000 bph.

All loading and discharging will be stopped during the passage of an electric storm, and ullage covers must be closed and dogged down. During periods of calms, loading of gasoline or other similar low flash products may be loaded at reduced rates or loading stopped if the heavy vapours are not being dispersed quickly enough to prevent hazards from accumulated gas pockets. Ship's officers are cautioned to be on their guard during such conditions.

Under normal operating conditions it may be necessary to displace the loading line. This will require the ship's personnel in charge of loading to advise the Plant representative when the cargo is short by an amount equal to the content of the loading line.

Cargo documents: Vessel's clearance and cargo papers will be delivered to the Master by the ships' Agent on arrival in Maracaibo Harbour outbound.

**FUEL:** Heavy and medium marine diesel, intermediate fuel, and bunker "C" fuel oil are available in the area from Creole, Shell and Chevron. Lubricating oils in limited quantities is also available from local contractors. All bunker, lubricating oils, water and other requirements should be cabled to the ship's Agent. For reasons of safety, no bunkers may be taken on the vessel while berthed at B Grande.

**WATER:** Available at Maracaibo Harbour.

**MEDICAL:** Complete medical services are available in Maraca

**REPAIRS:** Maracaibo: No major repair facilities are availa minor repair jobs can be taken care of through local machine electrical shops. Shore labour can be furnished if required. Ra radar and gyro compass technicians are available upon request.

Bajo Grande: No repair facilities are available, but when requi personnel from shops in Maracaibo will travel to Bajo Grand effect repairs.

**SHORE LEAVE:** Launch service for official business purposes emergencies is readily available in Maracaibo. Launch service shore leave can be arranged through contact marine service will be the responsibility of ship's personnel. Arrangements shore leave transportation can be made through the ship's Ag No shore leave facilities are available at Bajo Grande.

**CLASSIFICATION SOCIETIES:** American Bureau of shipp and Lloyd's Register of shipping, U.S. Salvage Association, Salv Association of London, Det Norske Veritas, Bureau Veritas, Regi Italiano Navale, and Germanisens Lloyd have agents in Maraca Surveyors are available by appointment from any of these Agents

**CURRENCY:** The Venezuelan unit of currency is the Bolivar ( and is the only currency recognised as legal tender within country. Masters desiring a cash advance should make the requ to their Agent when advising ETA.

**MAIL:** Outgoing mail for ship's account may be given to the Age representative who boards the vessel on arrival at Maraca inbound. Personal mail will be accepted only if carrying the corr amount of Venezuelan postage, or if postage is authorised by Master for the vessel's account.

**OPERATING RULES:** (Some of which follow). Refrigerated L vessels will not be considered ready for loading at Bajo Gra unless all LPG. Tanks contain LPG vapours and are cooled do sufficiently to permit loading of product(s) nominated.

The dock is equipped with a vapour compressor and condens facilities for liquifying vapours, however, no liability will be accep for failure or unavailability of the equipment.

Vessels must be able to match the dock's loading connecti which are:

| | | | | |
|---|---|---|---|---|
| Propane | 10 in. | flange | ASA 300 RF | |
| Butane | 10 | ,, | ,, | ,, |
| Vapour return | 10 | ,, | ,, | ,, |
| Gasoline | 10 | ,, | ,, | ,, |

No facilities are available for inerting. LPG vessels requiring c down, purging or other assistance at Bajo Grande may be accep for such purposes upon request by the Master of the vessel, howe a charge for such services shall be made to the Agent of the ves

The charge for assistance to effect purging and/or chill dow Bs 733 per hour for all time that such purging or chill down operati causes the vessel to exceed allowed laytime. Such charge s include the use of the dock vapour compressor. The quantity product involved in such purging or chill down shall be for account of the owner(s) of the product to be lifted by the ves concerned.

In the event that the dock vapour compressor is operated at request of the Master of the vessel for purposes other than purg or chill down, a charge of Bs 500 per hour will be made to the Ag of the vessel. The plant also has the facilities to odorise vess when required. The charge to the vessel for the odorant shall be actual landed cost for such odorant.

If, in the event a vessel is berthed at the dock and after six runn hours have expired after notification by operator to the Master the vessel that the facilities are ready to deliver products and vessel at the end of such time is unable to receive products, th at the discretion of operator, the vessel may be cast off from dock to prevent flaring of products or curtailment of production.

A vessel may be cast off at any time for reasons of safety.

Maximum percentage by volume of air or oxygen allowable safe loading of respective product when vessel's tanks are iner with $CO_2$ or $N_2$.

| | *Air* | | *Oxygen* | |
|---|---|---|---|---|
| *Product* | *($CO_2$)* | *($N_2$)** | *($CO_2$)* | *($N_2$)** |
| LPG | 50 | 40 | 8 | 7 |
| Gasoline | 50 | 40 | 8 | 7 |

* Nitrogen percentages do not include nitrogen of the air in mixtures.

Example: If a vessel is to be loaded with LPG and is to be iner with $N_2$, enough $N_2$ must be added to ensure that the mixture contain no more than 40% by volume of air. The other 60% being

*Section B*

## LA ESTACADA: 10.42 N. 71.32 W.

(N.B. For important details of Documentation, Pilotage etc., "Maracaibo Lake").

**OPERATORS:** Texaco Maracaibo Inc.

**LOCATION:** Loading terminal in the Lake of Maracaibo at Estacada, located at 10° 42′ 30″ N. and 71° 31′ 40″ W. Entrance leaving this terminal is made between buoys B.65 and B.66.

**DOCUMENTS:** As soon as vessel is safely moored Texac marine dispatcher will board the ship together with the port autho ties.

**PILOTAGE:** (see "Maracaibo Lake").

1. All vessels must call Texacomar on 2182 kc when passing the E.M. buoy and when embarking the Pilot at San Carlos.

2. Reduce speed approaching inner channel buoy B–63; rig accommodation ladder starboard side properly illuminated. Company mooring master will board between B–63 and B–65.

3. Listen during transit on 2182 kc.

4. In event of unforeseen circumstances requiring vessels to anchor, area West of Estacada Northern buoy mooring outside of channel limits will be used.

Vessels proceeding to La Estacada Terminal must enter the Outer Channel and embark the Government Pilot between buoys B–25 and B–27. After vessel arrives in the vicinity of the E.M. buoy, Master must contact San Carlos Pilot Station by radio-telephone on frequency 2182 kc requesting Pilot between buoys B–25 and B–27.

Once Pilot is on board, the vessel will proceed to Estacada, reducing speed in vicinity of Inner Channel buoys B–63 and B–65 where Texaco's mooring master will board. Vessel should have a strong line ready to hoist Texaco's mariner radio on board. The official Pilot will stay on board until vessel is moored.

**MAX. SIZE:** Water depth in both buoy moorings is 44 ft. mean monthly observed lowest water (MMOLW). Because of the depth of the surrounding approaches, 41 ft. (MMOLW), admissible mid ship's maximum draft in both moorings is 39 ft. freshwater. Under certain tidal conditions, however, with vessels over 60,000 dwt and LOA exceeding 750 ft., it may be necessary to restrict loading to 38 ft. 6 in. Masters are requested to be guided by Mooring Masters in appropriate draft to be loaded.

Berth No. 2 will accommodate vessels up to 850 ft. LOA, and Berth No. 1 up to 720 ft. LOA. Beam in both berths is unlimited.

**RADIO:** Information to be cabled to Texaco Maracaibo Inc. Cable address: "Texacomar, Maracaibo".

Upon vessel's departure from the last port bound for La Estacada cable 72–48 and 24 hours ETA at San Carlos pilot station, including in this message last port, Master's name, if a.c. current on board and any requirements. If diverted, cable original destination, also have 5 copies of diversion cable ready on arrival. If the vessel is nominated to load a part cargo only at La Estacada, indicate at which port cargo will be completed. All cables should be sent via PJA (Curacao Radio) and via ITT all American Cables.

**BERTHING:** (*a*) *Description:* Marine Oil Loading Terminal, owned by Texaco Inc., is an off-shore installation and consists of two permanent buoy moorings, No. 1 to the South, and No. 2 to the North.

Berths No. 1 and No. 2 consist of 4 fourteen-foot cylindrical steel buoys, each fitted with a pelican hook to which ship's mooring lines are attached by Texaco's mooring launches. On each buoy there are two 1⅝ in. improved plow steel wirelines to supplement mooring lines in order to provide additional security during strong winds. In berth No. 1 the plow steel wires are 520 ft. long and in berth No. 2 585 ft.

Both berths are two directional; ships moored heading North or South according to prevailing current.

(*b*) *Deballasting.* No facilities at La Estacada to receive dirty ballast. Ballast must be clean, and is discharged into the Lake.

(*c*) *Mooring.* All ships should have an adequate supply of stoppers or other special equipment necessary to handle wires attached on mooring buoys. Vessels mooring in berths must be equipped with four ropes forward and four ropes aft. Vessels are cautioned that good quality ropes are essential and that they will be held liable for any damage occurring through improper or poor mooring ropes or inability to properly handle same.

Vessels in buoy moorings must have deck winches in readiness for use at all times. Method of berthing will be at discretion of Company's mooring master, as weather and other conditions permit. During berthing and unberthing, ship's engines, tackle and all other gear must be in operative condition and in a state of readiness for use on immediate notice.

Weather permitting, and berths being available, vessels may be berthed at any hour of the day or night. Mooring buoys are properly lighted. Texaco's mooring master will assist in mooring the vessel in berth No. 1 or 2. Loading hoses can be connected both port and starboard side, according to ship's position. The mooring master will remain on board ship to advise on connecting and disconnecting loading hoses, and loading of cargo. He will later unmoor vessel and hand over to government Pilot on departure.

Mooring Master acts as adviser only and the Master retains full responsibility at all times. When ship is in position and mooring wires tautened, mooring winches such as tension winches must have their manual brakes put on securely, and should not rely on automatic rendering devices.

During time vessel is at the berth, frequent and regular inspection of mooring is essential to ensure that mooring lines are kept taut and that movement of ship is kept to a minimum. When tugs are alongside or assisting a tanker, all cargo openings, permanent ballast tanks, lids and pump-room doors must be closed no matter what grade oil is being or has been carried, unless these spaces are gas-free.

The mooring operations are carried out by two mooring launches and two tugs.

**TUGS:** Use of two tugs of at least 1,600 h.p. is compulsory for mooring and unmooring at La Estacada (Government Decree). Use of two mooring launches with crew including a diver, who inspects the submarine loading hoses, is compulsory at La Estacada. These mooring launches remain alongside ship during stay in berth order act in any emergency.

**TANK INSPECTION:** As soon as all ballast is discharged and hoses connected, production supervisor from La Estacada boards to inspect ship's tanks. If same are dry and clean he will sign corresponding certificate.

**LOADING:** Berth No. 1 has two loading lines (one 24 in. and one 16 in.) with corresponding manifold, and Berth No. 2 also has two lines (one 24 in. and one 18 in.). Twelve-inch – 150 pds. marine loading hoses are used. Each berth capable of a maximum loading rate of 25,000 barrels per hour, with an appropriate reduction for topping-off.

However, maximum loading rate entirely at Company's option and will vary according to circumstances and type of tanker concerned. When completing loading, stoppage of cargo will be determined on board, and Masters are requested to inform mooring master at least 30 minutes in advance in order reduce pumping rate for topping-off. Mooring master will be in continuous contact with pumping station by means of portable radio. Should this means of communication fail, the following signals on ship's whistle will apply:

| | |
|---|---|
| One long blast | Stand by |
| Two long blasts | Commence pumping |
| Three long blasts | Stop pumping |

Upon completion of loading, marine dispatcher, together with ship's officer, will gauge ship's tanks and later prepare cargo documentation.

**FUEL:** Bunkers and marine fuels supplied by barge before or after loading operation at anchorage. Chevron, Creole, and Shell have bunker service in Maracaibo.

**FRESH WATER:** Must be ordered with first ETA cable so that arrangement can be made with supplier. A water barge and a tug must be hired. Although the water may be supplied by Texaco, the hire of tug and barge is very expensive. Recommended that Masters obtain adequate fresh water at other ports.

**REPAIRS:** Only smaller repairs can be effected locally; however, technicians available for radio and radar repairs.

**SHORE LEAVE:** Launch is primarily for use of authorities and company staff, but will effect trips for crew if required by Master. Contact mooring master who will make necessary arrangements.

**GUARDS:** One National Guard stationed on board. He must be provided sleeping quarters and seated in officers' mess for meals.

**CLEARANCE:** Immediately after termination of loading operations, hoses are disconnected and Texaco's mooring master will proceed to unmoor vessel. In the meantime, cargo documents are prepared by Agency personnel, the government Pilot is ordered, and as soon as vessel is cleared, she will proceed to her destination.

**CURRENT/DENSITY/TIDE:** Current velocity maximum 4 knots. Nature of bottom, mud. Salinity of water, 997–1003. The tidal range in feet for the Estacada Terminal is springs 1.5 neaps 0.5.

**GENERAL:** (*a*) *Cash Advance.* Cash advance will be in local currency (Bolivares). Cable in advance any such requirements.

(*b*) *Mail.* Outgoing correspondence may be given to our marine dispatcher. For personal mail (crew) a list should be made, indicating name of crew member, quantity of letters and destinations.

(*c*) *Ship Chandlers.* Two ship chandlers in Maracaibo who can supply vessels with fresh meat, fish, vegetables, fruits, etc. Requirements should be transmitted in first ETA cable.

**AGENT:** Texaco Maracaibo Inc.

## *Section C*

## LA SALINA: 10.22 N. 71.28 W.

(N.B. For important details of Documentation, Pilotage etc., see "Maracaibo Lake".)

**OPERATORS:** All terminal facilities are under the control of the Creole Petroleum Corporation.

**APPROACH:** Entrance and leaving this terminal is made between buoys B.97 and B.98.

**LOCATION:** La Salina located on Eastern shore of Lake Maracaibo, in latitude 10° 22′ 18″ N., longitude 71° 27′ 49″ W.

**CARGO DOCUMENTS:** These are generally placed on board prior to departure. Vessels whose Master accepts the early departure procedure may sail with documents in blank. Figures are then radioed for inclusion in blank documents. Outward clearance documents are placed on board the vessel prior to departure.

**PILOTAGE:** In the event that no contact can be made with San Carlos pilotage station, or if there is a language problem, contact should be made with Creole Marine at La Salina by voice radio on 2182 kc or 156·6 Mc.

A vessel entering or leaving the harbour must be assisted by a Docking Master in the general employ of area furnished by Creole Petroleum Corporation, an inbound vessel being boarded by him at the anchorage area approximately 3 miles off shore.

**ANCHORAGE:** For vessels awaiting berth there is an anchorage area located West of a line between rig L–175 to buoy S3 and the light buoys M1, M1A and S1 (chart No. MO-G-4-C) about 3 miles West of the loading Terminal in 6 to 7 fathoms of water with a mud bottom.

**RESTRICTIONS:** None. The port is open for navigation during the day and night, allowing ships to enter and sail at any hour.

**MAX. SIZE:** Up to 110,000 dwt. The access channel to La Salina has a least depth of 41 ft.

**RADIO:** The cable and telegraphic address for the Creole Petroleum Corporation at La Salina is "Creole La Salina". Radio messages to and from ships at sea are routed through the government radio station at Maiquetia (La Guaira) call letters YVG. This station operates on a 24 hour continuous watch, on the following frequencies: Listening frequencies: long wave: 500 kc/s; short wave: 4178–6267–8356–12534–16712–22225 kc/s.

Transmitting frequencies: long wave: 500–472–464–417 kc/s; short wave: 17141.6–12817.5–8730–8722–6519.5–6505.5–4352–4322 kc/s.

Radio notice of arrival should be sent 72 hours prior to arrival at La Salina and corrected if weather or other conditions delay the vessel.

La Salina Port Services section maintains radio-telephone listening watches on a 24 hour basis on following frequencies: 2182 kc/s., 156·8 Mc/s.

Frequencies 2638 kc/s, 2738 kc/s, 2120 kc/s and 156·6 Mc/s are available for use after initial contact on one of the above listening frequencies.

All vessels en route to La Salina may also communicate with Creole Amuay or Caripito Marine offices and request that messages dealing with corrected ETA's, pilots and other business be relayed to the La Salina Marine Office.

**TUGS:** Creole maintains one 3,000 h.p. diesel tug and one 1,600 h.p. diesel tug. Tug-boat assistance is considered essential and is afforded all vessels entering, leaving or shifting in the harbour.

**BERTHING:** At La Salina, Creole maintains a deep-water terminal (Lacustre) consisting of an island where are located two finger piers, each 1,100 ft. in length and 500 ft. between piers, providing four berths to accommodate tankers up to 110,000 dwt. Berths are numbered 6N, 6S, 7N and 7S, from North to South. At these berths various crudes can be loaded simultaneously. In addition there is an offshore platform (Pier No. 3) where liquefied petroleum gases (Butane and Propane) can be loaded and refined products can be loaded or discharged.

Instructions concerning berthing are given by Port Services Section by means of radio-telephone.

The use of an anchor when docking is permitted at all berths. It is considered prudent to have the outboard anchor hove-out prior to entering the harbour in order to facilitate speedy release if necessary while docking. The Pilot will advise whether the ship is to be berthed port or starboard side to the dock.

**BALLAST:** Vessels should arrive at La Salina with sufficient ballast to permit safe handling. Docking Master requirements in this connection under normal weather conditions are interpreted as drawing approximately 8 ft. forward, 18 ft. aft. on a T–2 or similar type tanker, and 11 ft. forward, 20 ft. aft on a 26,000 dwt, or larger type vessel.

Ballast should be carried in a minimum number of tanks, and all other tanks stripped, so as to minimize deballasting time.

It has been established that one of the major causes of contamination of crude oil is the relatively small amount of salt water remaining in the ship's tanks, pumps, and ballast lines after ballast discharge. This very small amount of salt, nevertheless, frequently results in costly damage and downtime to refining equipment, besides presenting many other processing problems.

It is therefore requested that the full co-operation of the Master and Officers of ships loading for Aruba, be given to ensure that all ballast tanks and lines are flushed with lake water and stripped as dry as possible.

Vessels equipped with a separate and completely segregated system of ballast tanks, lines and pumps, will be permitted to discharge ballast and load cargo simultaneously, providing approval of both the pier foreman and Petroleum Inspector is secured.

A pier supervisor who is in direct communication with the loading pumphouse is stationed at each pier during the entire time the vessel is discharging ballast or cargo or receiving cargo.

Absolutely oil-free ballast may be discharged overside. All dirty ballast must be pumped ashore. A 34 in. ballast line, with dirty ballast treating facilities are available.

If it is desired to follow the "load-on-top" procedure it is requested that the marine representative be informed on arrival.

**LOADING:** Instructions as to grade or grades of cargo, and the approximate loading rate anticipated, will be given to the Master on arrival. Supplementary information including number and size of lines and Chiksan arms will be furnished to the Chief Officer before loading commences. Loading rates will be reduced as required when topping off.

If vessel's loading order from owners or characters do not agree with the terminal's orders, either as to grades or quantity, the marine representative should be advised immediately. The terminal is authorised to load 10% more or less than the quantity nominated; if the cargo to be lifted will be more or less than this 10% limitation it is necessary to cable Creole New York for confirmation.

A terminal employee is stationed at each pier during the entire time the ship is discharging ballast, bunkering, or loading cargo. Fifteen minutes "standby" notice should be given to this man prior to completion of ballast, bunkers, or cargo.

Shut-down controls for all crude oil pumps are available at each loading berth at ship's rail of loading vessels for use in case of emergency only.

**LOADING RATES:** Loading operations at La Salina Terminal are normally carried out at relatively high pumping rates; up to an average of 40,000 bph. Ship's officer will be advised by the pier supervisor at what rate the cargo will be loaded. LPG is loaded up to an average maximum rate of 7,500 bph at Platform No. 3.

The loading and discharging of all crude petroleum and its products will be stopped during the passage of an electric storm, and ullage covers must be closed and dogged down. During periods of calms, loading of gasoline or other similar low flash products may be at lower rates or loading stopped if the heavy vapours are not being dispersed quickly enough to prevent hazards from accumulated gas pockets. Ships' officers are cautioned to be on their guard during such conditions.

Loading rates will be reduced when topping off, if requested the ship's officer.

**MEDICAL:** Complete medical, dental and hospitalisation facil are available at La Salina. Medical treatment is provided at a Cr operated clinic.

Authorisation forms for medical treatment are provided wh require the Master's signature. Transportation will be supplied Port Services section.

If the patient does not speak Spanish or English, an interpr should accompany him.

**FRESH WATER:** A limited supply of fresh and boiler wate available at La Salina Lacustre Terminal. Delivery is made thro 2½ in. National Standard Fire Hose Thread hydrants. Ship's perso must provide hoses and connect up.

**FUEL:** Bunker C fuel oil, marine diesel and intermediate fuels available at La Salina Terminal Lacustre. Delivery is made along Piers 6 or 7 by 8 in. diameter Chicksan hose, located about midsh

It is the responsibility of the ship's engineer to give "stand- notice to the terminal employee and advise him when to shut do

Supplies of Essomarine lubricating oils are available. Deli will be effected while loading and requirements should be inco rated in the ETA radio.

**DENSITY:** The average density at the berth is 1002 but va dependent upon amount of rainfall. The temperature ranges 82° to 86°F.

**REPAIRS:** The Marine Port Staff will assist with emergency rep as may be required in each case depending upon availabilit competent personnel and equipment. The company's shop facil while not equipped for extensive ship repairs, may be made avail to fabricate or repair items that are urgently required.

The nearest dry docks are those at Puerto Cabello and Cura N.A. Several contractors in the area provide labour for hull pain and for tank cleaning. Contracts for these services are made by ship's Master directly with the contractor.

Radio technicians are available for minor repairs. With suffic advance notice a radar specialist can be arranged to board ships at La Salina.

**CONSULATES:** The following countries have consular re sentatives in the area:

Belgium
Chile
Columbia
Costa Rica
Denmark
Dominican Rep.
Ecuador
El Salvador
France
Germany (West)
Great Britain
Guatemala
Italy
Netherlands
Norway
Nicaragua
Panama
Peru
Spain
Sweden
Switzerland
U.S.A.

**SHORE LEAVE:** Shore leave is permitted and a representati the Captain of the Port boards on arrival and issues the requ number of passes. Shore passes are to be collected prior to sai and given to Pilot undocking the vessel. Vessels are not perm to sail until all crew members are on board, unless hospitalise prior arrangements made for disembarking. No launch service liberty parties is available while vessel is anchored off La S awaiting berth.

**GENERAL:** Representatives of the Marine Department b vessels immediately on arrival, and it is particularly requested Masters indicate at that time all ships requirements. The Ma Office Building is located at the Pierhead Trestle and personne available for assistance at all hours.

(*a*) *Bonded Stores*. Cigarettes or other stores in bond are obtainable in La Salina.

(*b*) *Cash Advances*. Cash advances are made in local curre the Venezuelan Bolivar. Cash requirements should be include the ETA radio.

(*c*) *Charts*. On first arrival of each tanker, the Marine Dispat will furnish a set of local charts if required. No supplies of Hydrographic or British Admiralty charts, or sailing directions available.

(*d*) *Classification Societies*. American Bureau and Lloyd's Reg have non-exclusive Agents in Maracaibo, and qualified Masters Chief Engineers are available for appointment as Surveyors required.

(*e*) *Gangways*. All vessels using the port of La Salina must pro a safe gangway. The use of rung ladders, pilot ladders, etc contrary to port regulations and port authorities will not b except by means of a safe gangway or accommodation ladder.

(*f*) *Plimsoll Marks*. The Captain of the port requires that the P soll Marks of all vessels using the port be clearly visible. Ves may be checked on completion of loading, and if the Plimsoll M are not readily legible, permission to sail may be withheld.

(*g*) *Port Services*. On arrival at La Salina terminal, a comp representative boards vessels, so it is particularly requested Masters make known to him all ship's requirements. Master sh bear in mind that while vessels are within Venezuelan territ waters, Government authorities do not permit the use of sh radio equipment. Cables and radiograms should be handed to company representative for transmittal via shore radio commun tion system. La Salina has also radio telephone communication North and South America and Europe. For further information tact Port Services Section in the terminal building, tel. 88694 88695.

(*h*) *Rat-guards*. By order of the Port Authorities, vessels are quired to use ratguards on all mooring lines.

(*i*) *Personnel* – Seamen left ashore. In the case of seamen ashore for hospitalisation, repatriation or other reason, his d ments and personal effects are to be delivered to the Marine Office in La Salina before sailing. A letter is required from the Master advising maximum advances to be made to seaman if any, and instructions concerning his repatriation. All expenses incurred by seamen left ashore, including cost of repatriation, are for ship's account.

It is important that Masters bear in mind that the Venezuelan law will at all times hold the vessel, her Master, Agent or Owner, responsible for any seamen left behind in Venezuela.

(j) *Provisions and stores.* Fresh and dry provisions are supplied by various shipchandlers in Maracaibo and Cabimas (La Salina). Master should deliver his signed requisition to the Marine Department representative who boards on arrival. Provisions would then be delivered to the vessel while loading. The prices and quality of some items, such as fresh fruit, fish, shrimps, vegetables, etc., are competitive; dry stores are considerably higher than in most ports. The Fleet Steward will assist in filling requisitions. It is important that the Master sign the ship-chandlers invoice as authorisation for the Marine Department to make settlement.

(k) *Mail.* Any pending ship's mail will be delivered on board by the Marine Dispatcher on arrival at La Salina. At same time he will receive ship's mail to be dispatched. The Marine Dispatcher will accept personal mail only if it carries the proper amount of Venezuelan postage, or if Master authorises the postage by signing seven copies of the Company Postal Transmittal form. Masters interested in knowing the individual postage amounts to be paid by each crew member, should provide us with a list, in duplicate, of the senders, and number of letters sent by each one identified by a number written on each letter.

Copy of this list will be returned aboard the vessel when leaving this port outward bound. If not ready on time, it will be airmailed to the vessel's next port of call.

(l) *Inspection of Petroleum Products and Crude Oil.* Chas. Martin & Company and E. W. Saybolt petroleum inspectors are available if specified.

(m) *Laundry.* Laundry service is available between 0700 and 1700 on week-days. No guarantee can be given on time of delivery.

*Section D*

## MARACAIBO: 10.42 N. 71.39 W.

On the North-western shore of the Lake Maracaibo.

Maracaibo is the capital of the State of Zulia and seat of all Government and Consular Offices, as well as the port of entry for all vessels loading at one of the Terminals in the Lake of Maracaibo.

(N.B. For information details of Documentation, Pilotage etc., see "Maracaibo Lake").

**ANCHORAGE:** The Pilot will not con the ship into the anchorage, but will indicate the proper location to anchor. Care should be taken because of small boats and ferry traffic.

**ACCOMMODATION LADDER:** Vessels must provide an accommodation ladder. The use of trunk ladders, pilot ladders, etc., is contrary to port regulations. Port authorities will board only by means of an accommodation ladder. It is recommended to rig this in advance in order to avoid unnecessary delays.

**BOARDING PARTY:** The boarding party usually consists of the following persons: One Quarantine Official, Two Customs Officials. One Port Captain's Representative, Two representatives (Agent and Mooring Master).

**RADIO:** "Radio Marina" transmits information of interest to navigation every day from Monday to Friday from 1000 to 1015 hours and from 1600 to 1615 hours on frequency of 4,420·7 kHz in the 60 metre band, output 1 kilowatt. All bunker, lubricating oils, water and other requirements should be included in the cable giving the ETA of the vessel.

**TUGS:** Service not compulsory, assistance is rendered if required by the Harbour Master. Tugs are privately owned by the companies who operate their own terminals.

**BERTHING:** The manoeuvring area within Maracaibo harbour has a depth of 26 ft.

| | | | | | |

**FUEL:** Heavy and medium marine diesel, intermediate fuel, and bunker C fuel oil are available at Maracaibo from Creole, Shell, Chevron and local contractors with barges. Supplied only by barge at the wharves or anchorage. Lubricating oils are also available.

**FRESH WATER:** All wharves supplied with fresh water by 2 in. hoses. Fresh water also available from local contractors with barges.

**MEDICAL:** Complete medical services are available.

**CONSULS:**

| | | | |

**STEVEDORES:** Normal working hours 0700–1100; 1300–1700 and 1800–2300.

**TELEPHONES:** There is no service for connecting telephones on board vessels. Public telephones are situated in the warehouses adjacent to all wharves.

**HOLIDAYS:** All Sundays; 1st January; Good Thursday and Friday; 19th April; 1st May; 24th June; 5th July; 24th July; 12th October; 24th October; 18th November; 17th December; 25th December.

**POLICE/FIRE/AMBULANCE:** Police tel. 3821; Fire, tel. 6585; Ambulance, tel. 2209.

**REPAIRS:** No major repairs facilities are available; however, repair jobs can be done through local machine and electrical shops, and shore labour can be furnished if required. Radio and radar technicians are also available.

**SHORE LEAVE:** Launch service in the Maracaibo harbour is readily available for official ship business. For shore leave personnel, depends on launch availabilities on arrival.

**AIRPORT:** Modern International Airport "Granode Oro" situated North-west of Maracaibo City served by many national and international airlines. A second airport with cargo and passenger services is situated at Santa Barbara del Zulia, on the banks of the Escalante river.

**PROVISIONS:** Fresh and dry provisions are procurable through ship chandlers in Maracaibo for delivery at Maracaibo Harbour or at the terminal.

**AGENT:** Head Office, (Direction and Control), Brokers, chartering and tramp agents, Victor H. Selinger, PO Box 1632, Caracas 101 Venezuela. Cables "Selvic" or "Seltank". Tel. 81.25.28–81.86.38–81.28.78. Telex: 21402. New Boe Code.

Local Office: PO Box 496, Maracaibo. Tel. (061) 24960. (061) 24962. Cables: "Seltank", or "Selvic".

*Section E*

## EL TABLAZO: 10.45 N. 71.32 W. (See Plan)

**OPERATORS:** Instituto Venezolano de Petroquimica.

**LOCATION:** South-East part of Puerto Miranda.

**BERTHING:** There are two jetties, one for liquids and one for solid cargoes:

*Liquid Berths.* (Length 869 ft.):

| | | |
|---|---|---|
| Place No. 3 | Max. OAL | 650 ft. 00 in. |
| | Max. Depth | 39 ft. 00 in. |

| | Max. Draft | 34 ft. 00 in. |
| Manoeuvring | Area Depth | 37 ft. 00 in. |

*Cargo Equipment:*

| | |
|---|---|
| Place No. 1 | One urea in bulk loader<br>Cargo capacity 650/700 t.p.h. |
| Place No. 2 | Three urea in sacks conveyors.<br>Cargo capacity 2,400 sacks of 50 kgs each per hour. |

**FRESH WATER:** Available, 8 t.p.h., but expensive.

**AGENTS:** Agencia Maritima de Representaciones C.A.

## PUERTO MIRANDA: 10.46 N. 71.34 W.

(N.B. For important details of Documentation, Pilotage, etc., see "Maracaibo Lake".)

**LOCATION:** Situated at Eastern shore of entrance to lake of Maracaibo, in position lat. 10° 46′ N., long. 71° 34′ W.

**OPERATORS:** Compañia Shell de Venezuela Ltd.

**CLEARANCE:** Pratique and Custom's clearance will be granted on arrival either at the anchorage or after the vessel has been berthed. Masters therefore requested to have the accommodation ladder ready on arrival to avoid delays, since the Government Officials do not board the vessels by pilot ladder.

On arrival when pratique is requested, all vessels should fly International flag signal "Q", or show a yellow light during hours of darkness.

**PILOTAGE:** On arrival Puerto Miranda under Government Pilot's advice the vessel will be boarded by company Berthing Master, who will assist Master in docking vessel. He will also assist in undocking.

**CHANNEL:** Channel has a leading mark formed by the towers "P" and "M" and is marked by buoys.

(1) Incoming traffic bound for Puerto Miranda must leave the main channel between the buoys B–59 and B–61 towards the anchorage.

(2) Vessels coming from the Lake in ballast or to complete cargo at Puerto Miranda must leave the main channel when passing the buoy B–63 on their starboard side and proceed in the direction of Jetty 3 towards the anchorage.

(3) All vessels on leaving Puerto Miranda should enter the main channel by the buoyed exit channel marked by the buoys numbered AP3, AP2, AP1 and B57B.

Once the ship is unmoored, the Berthing Master on duty at Puerto Miranda will emphasise to the official Pilots the route to be followed in each case.

**MAX. SIZE:** The maximum permissible draft is 43 ft. even keel, including the ship's sagging when taking advantage of high water. Otherwise, draft must be in accordance with depth available at time of departure, which under no circumstances can be higher than 43 ft.

**RADIO:** Port Services Office equipped with radio-telephone installation operating on 24 hours basis, transmitting on following frequencies (simplex press to talk system).

| | | *Int. Channel* |
|---|---|---|
| Approach calling and safety | 156·8 mc/s | No. 16 |
| CSV and other tankers port operations | 156·6 „ | No. 12 |
| *Emergency calling* | 2·182 kc/s. | |

**ARRIVAL ADVICE:** Vessels equipped with radio-telephone installation operating on above frequencies are requested call Puerto Miranda about three hours before arrival at port. Calls made in Spanish language will be answered promptly, since there is always a Spanish-speaking clerk on duty. Calls in English will be answered by Berthing Master on duty, except when he is occupied, in which case the call should be repeated later on, as an alternative, the Master could ask Government Pilot to report in Spanish his vessel to Puerto Miranda. During hours of darkness all vessels must identify themselves on arrival, either by radio-telephone or Aldis lamp.

**TUGS:** Two motor tugs of 2,800 h.p. assist all vessels in docking and undocking. Also one or two mooring launches will be standing by to take ropes.

**BALLAST:** Discharge of oil or water polluted by oil into lake waters is prohibited and will incur heavy fines and compensation to beach owners and fishermen for cleaning nets.

All dirty ballast must be discharged ashore. Clean ballast in cargo tanks may only be pumped overboard after prior consultation with Port Services Dept. Deballasting line pressure must not exceed 100 lb. p.s.i. Vessels equipped with a special separate and clean ballast system are to discharge their ballast into lake.

Ocean vessels should be ballasted on arrival E.M. Buoy for inward passage with minimum ballast necessary for safe handling, taking into consideration Article 31 of Maracaibo Pilotage Zone Regulations, which states all vessels entering lake Maracaibo shall have a trim of no more than 8 ft., to permit safe navigation through channels.

One of the major causes of contamination of crude oil is relatively small amount of salt water remaining in ships tanks, pumps and ballast lines after ballast discharge. This very small amount of salt, nevertheless, frequently results in costly damage and down-time to refining equipment, besides presenting many other processing problems. It is therefore requested that full co-operation of Master and officers be given to ensure that all ballast tanks and lines are stripped as dry as possible.

**BERTHING:**

| | | *Maximum Permissible* | | |
|---|---|---|---|---|
| *Jetties/berths* | *Depth MMOLW in feet* | *Draft in feet* | *Length in feet* | *Type of vessel* |
| *Jetty No. 2* | | | | |
| No. 1 (North Outer) | 45 | 43 | 720 | 45,000 |
| No. 2 (South Outer) | 45 | 43 | 720 | 45,000 |
| No. 3 (North Outer) | 36 | 34 | *575 | 23,000 |
| No. 4 (South Outer) | 36 | 34 | †575 | 23,000 |
| *Jetty No. 3* | | | | |
| No. 5 (Inshore North Seaward) | 45 | 43 | 910 | 90,000 |
| No. 6 (Inshore South Seaward) | 45 | 43 | 910 | 90,000 |

Under-keel clearance. Clearances recommended in still water conditions. Alongside under-keel clearance for ships up to 700 ft. OAL = 1 ft. Alongside under-keel clearance for ships over 700 ft. OAL = 2 ft.

* OAL in Berth No. 3: This can be increased up to 620 ft. whenever vessels at Berth No. 1 have OAL up to 665 ft.

† OAL in Berth No. 4: This can be increased only for LPG vessels up to 610 ft. if Berths No. 2 or 5 are empty when a vessel arrives, then Berth No. 2 has to be temporarily restricted to vessels up to 665 ft. OAL.

(1) Nature of bottom, soft mud, but near buoys VB-59 and VA
is partly hard.

(2) Density of water at berths, 997–1003.

(3) Density of water outer channel 1015–1025.

(4) Least depth in exit route for loaded vessels with draft o
40 ft. is 45 ft. MMOLW.

(5) These alongside drafts are subject to reductions owing
depth in exit channels.

(6) Recommended under-keel clearance in exit channel is 2 ft.

**MOORING:** Vessels are to be moored to satisfaction of Pier Maste
A suitable gangway will be provided by shore installation. Whe
it is out of order vessel's gangway has to be used, which will
notified on VHF telephone before arrival at E.M. buoy.

Vessels of any deadweight must secure with at least: *Forwar*
Two headlines; four breasting ropes fibre or two wires of 1½ i
diam. minimum each connected by a 2½ in. shackle to a 1½ in. dia
shore wire, plus one polypropylene line from jetty in berths 1, 2, 5
6; one spring. *Aft:* Two sternlines; four breasting ropes fibre or tw
wires of 1¼ in. diam. minimum each connected by a 2½ in. shack
to a 1¼ in. diam. shore wire plus one polypropylene line from je
in berths 1, 2, 5 or 6; one spring.

When vessel are fitted with tension winches (forward and a
the following ropes are required:

*Forward:* Two headlines; two wires from tension winches a
breasting lines plus one polypropylene line from jetty in berths num
bered 1, 2, 5 or 6; one spring. *Aft:* Two sternlines; two wires fro
tension winches as breasting lines plus one polypropylene li
from jetty in berths numbered 1, 2, 5 or 6; one spring.

When vessels are nominated to load at berth 1 or 2 of Jetty 2 on
extra headline and a second spring is required. Vessel's best rope
or wires should be used as breasting lines.

**LOADING:** Vessels should load in accordance with Internation
Loadlines Regulations taking into account maximum permissib
draft at this Terminal and also at Maracaibo bar channel.

The Captain of the Port requires that the load-line marks of a
vessels using the port be clearly visible. If Harbour Authoritie
should refuse to pilot an out-going vessel due to being overloade
Master will be held responsible for all delays, expenses, in connec
tion with discharging any overloaded cargo and all further losses

Vessels' maximum permitted loading rate should always be re
quired. Maximum shore loading rate is 7,000 M.T. per hour, usin
two shore lines and four hoses.

Following ship's whistle signals should be used for loadin
Two blasts = Stand by (15 minutes prior completion of cargo an
or part cargo). One blast = Stop (2 minutes prior to complete carg
and or part cargo).

**EMERGENCIES:** In order to deal quickly and efficiently with an
emergency during loading/deballasting operations, the followin
equipment is available:

(*a*) Control for quick closing of shore manifold valves. This is
red-painted hydraulic valve situated on the ship/shore gangway. I
the event of a spillage aboard, this valve must be opened. Within
ninety seconds the shore manifold valves will close against the load
ing pumps.

(*b*) Direct ship/shore telephone. This is a red telephone and i
order to obtain instant communication with the loading supervisor
in the Control Room it is only necessary to lift the receiver. An Alar
Bell will alert the supervisor and a light will advise him from whic
berth the call originated.

**FUEL:** Available ex wharf: Bunker "C", thin fuels from 200 to 3,50
seconds Redwood 1 at 100 deg. F., and marine diesel. Delivery rat
400 and 80 tons respectively. Gas oil, F. oil and thin fuels may b
supplied by barge ex Maracaibo delivered at anchor, at a maximu
rate of 110 and 140 tons.

**FRESH WATER:** Available on all jetties with a loading rate between 20 and 30 tons per hour. This depends on number of vessel
at the same time.

**MEDICAL:** Ship's personnel may visit local doctor on week-days
between 0700 and 1130 hours, or 1400 and 1700. Outside these hours
or in cases which require special treatment, patients receive atten-
tion in Maracaibo. Written request for medical attendance, as wel
as a shore pass, is always required.

**CUSTOMS:** One opened packet of cigarettes allowed to be take
from vessel by each crew member when going ashore. Master
advised to strongly caution crew against attempted smuggling.

**SHORE LEAVE:** Not granted until shore passes are stamped an
signed by Authorities. Passes must be shown to guards at gangwa
and gates. Crew members must be properly dressed (long trouser
and shirt) before proceeding ashore. Master must collect all passe
and return them to Agent before vessel's departure.

**GENERAL:** (*a*) *Tides:* In view of the available depth in the channel
which allow navigation to vessels up to about 70,000 dwt. ful
laden at high water, permanent predictions of sailing draft table
have been prepared by Shell, and they will send these on boar
ships of over 47,000 tons dwt.

(*b*) *Currents:* The tidal current (Lunar tide) at this port can at time
be very strong and subject to changes. Usually outgoing tide run
for 7 to 8 hours against 4 to 5 hours for incoming tide. Directio
approx. at right angles to jetty.

(*c*) *Movement of Passengers:* Embarkation or disembarkation o
passengers through this port is not allowed by Venezuelan law, a
this Terminal is only authorised by the Treasury Ministry (Ministe
de Hacienda) exclusively for exporting crude oil.

(*d*) *Short Dispatch Procedure:* This procedure is available fo
ships loading cargoes consigned to Shell Companies.

(*e*) *Failure to rejoin vessel:* If any member of crew is not aboard a
sailing time, Authorities will not clear vessel although permissio

may be given to proceed to anchorage if the berth is required. If sailing permission is granted, Master is required to sign letter accepting all costs in connection with missing crew member to be for Owner's account.

(*f*) *Launch Service.* A charge will be made for a round trip to Maracaibo, but launches are only available on written request by Master. Masters who have to go on business to Maracaibo (Agency or Consulates) can make use of public service launches.

(*g*) Proceeding to Cardon: Vessels proceeding to Cardon to load or to take bunkers, are required to have ready on arrival Cardon:

4 Lists of Deck and Engine Stores and Spares.
4 Lists of Stewards Stores.
6 Lists of Personal Effects.
6 Crew Lists.

In order to prevent delays it is imperative that these documents are presented to the port officials when they board to clear the vessel.

(*h*) *Loading for Curacao:* Unless Master requests otherwise, arrangements will be made for Government Pilot to board ship one hour after vessel has signalled "stand-by".

(*i*) *Guards:* Custom Guards (Guardia Nacional) will be posted on all vessels and Masters are reminded that these guards must be accommodated and treated in the same manner as ships' officers. Non-compliance entails not only a fine but will result in delays in clearance and cargo operations.

(*j*) *Visitors:* Only persons on business allowed on piers. Visitors, as guests of Master, allowed board vessels provided a written and signed request presented by Master to Port Services Department. Further particulars covering procedure for obtaining permits for visitors can be obtained from Port Services Office.

(*k*) *Cables and mail:* Crew mail list forms put on board all vessels when entering Puerto Miranda. Crew's private mail accepted for posting provided all letters bear the sender's name and a list in duplicate is prepared showing addresses and sender. One copy of list will be forwarded to Master showing individual charges. Cables can be dispatched at all times.

(*l*) *Norwegian Government Seamen Service:* A field representative of the above service is stationed at Puerto Miranda providing Norwegian and Swedish film exchange and other usual services.

(*m*) *Charts – Nautical publications:* On arrival of each tanker the Agency Representative will furnish a set of lake charts if required. No supplies of U.S. Hydrographic or British Admiralty charts or Sailing Directions, Nautical Almanac, etc., are available at this port.

(*n*) *American Crew List:* Vessels sailing for U.S. ports requested have American Crew List ready on arrival, so it can be forwarded to U.S. Consulate without delay.

(*o*) *Films Exchange:* Films may be exchanged at this Terminal.

(*p*) *Fire Alarm:* Each Friday morning at 1000 hours there will be a test of fire alarms including sirens at the wharves. Before the test will be a warning message in English and Spanish.

(*q*) *Cash Advances.* Local currency is Venezuelan Bolivar and cash advances are made only in this currency. It is requested that any requirement for cash advances be included in vessel's ETA radio, to permit delivery on board on arrival.

**REGULATIONS:** Following regulations should be strictly observed by Masters of vessels alongside jetties. Non-compliance with these instructions entails not only a fine but delays in cargo operations.

Use of rafts for painting the ship's sides is strictly prohibited.

Lifeboats should not be lowered without the special permission of the Government Port Captaincy (obtainable on request).

Swimming in the harbour is strictly prohibited.

Waste water sanitary or other must not be discharged on jetty.

It is strictly prohibited to paint ship's name or others on jetties. When this occurs the vessel will be charged for the cleaning.

Painting in ships alongside is strictly prohibited.

Before commencing loading, all dock scuppers should be securely plugged.

It is necessary to keep a close and constant watch on moorings and to adjust when necessary. When adjusting, call for assistance of harbour tugs before slackening off any mooring lines.

**TELEPHONES:**

Head Port Services Operations Office 228 during day.
Head PRDP Operations Office 222/310/323 during day.
Operation Supervisor (PRDP) Office 353/343/350 during day and night.
Berthing Master Office 238 during day and night.
Ship's Services Office 338/275 during day and night.
Dispatch Clerk Office 274 during day and night.
Wharf Supervisor (SP-2) Office 244 during day and night.

*Section F*

## PUNTA DE PALMAS: 10.26 N. 71.38 W.

(N.B. For important details of Documentation, Pilotage etc., see "Maracaibo Lake".)

**OPERATORS:** Venezuelan Sun Oil Co. Punta de Palmas Terminal is jointly owned by Venezuelan Sun Oil Company, as Terminal Operator; and Venezuelan Atlantic Refining Company, Texaco-Seaboard, Inc., Pan American Venezuela Oil Company, Signal Oil & Gas of Venezuela, Sohio Venezuela Company, Pure Oil Company of Venezuela, Inc., Hancock Venezuela Oil Company, Phillips Petroleum Company, Ashland Oil & Refining Co., El Paso Venezuela Company, Sunray DX Oil Company, Triangle Refineries Inc., Venezuelan Canadian Oils, C.A., Venezuelan Pacific Petroleum, C.A., and Murphy Oil Venezolano, S.A., as non-operators.

**LOCATION:** The terminal is located at Punta de Palmas del Sur, approximately 13 miles South of the port of Maracaibo on the West shore of Lake Maracaibo. The terminal proper may be identified by a 300 ft. radio tower, having two small red lights 200 ft. from base, and one large red light on top of tower. The top light flashes every two seconds.

**CARGO DOCUMENTS:** Vessel's clearance and cargo papers will be delivered to the Master on arrival in Maracaibo Harbour outbound. Venezuelan Sun will accept no responsibility for delay in clearing a vessel due to unavailability of personnel from offices of the Port Authorities.

**CHANNEL:** The channel between Punta Palmas and Maracaibo is 10 miles long with a minimum width of 244 m. and a maximum width of 305 m. Depth 45 ft.

**LAKE PILOT:** A government Pilot will assist each vessel from Maracaibo to Punta de Palmas, and on the outbound trip to Maracaibo. The government Pilot will also assist in the mooring and unmooring operations. The ship's Agent will inform the Master of each vessel, as well as the government Pilot, the mooring scheduled for berthing.

**MAX. SIZE:** The maximum permissible fresh water draft in Mooring No. 2 is 38 ft. and the maximum length vessel this mooring will accommodate, is 835 ft. in length. Vessels exceeding 785 ft. in length must be equipped with two bow and two stern tension deck winches with sufficient wire rope to run a line to each of the bow and stern buoys.

The maximum permissible fresh water draft in Mooring No. 1 is 38 ft. and the maximum length vessel this mooring will accommodate is also 835. ft in length. Deeper water exists to North-west of both moorings.

**RADIO:** When vessel departs from its last port bound for Punta de Palmas Terminal, the date of departure and best ETA Maracaibo should be cabled to Venezuelan Sun Oil Company in Maracaibo. At least 48 hours before arrival at pilot station the ETA should be sent by cable to Venezuelan Sun Oil Company. Vessel's nationality, Venezuelan net tonnage (if available, otherwise registered tonnage), last port, Master's name and all requirements (fuel, water, etc.) should be included in cable. The cable address for the company is "Sunoil Maracaibo". As the cable office in Maracaibo is not able to communicate directly with vessels at sea, messages to Sunoil Maracaibo, should be routed via PJC Curacao, and prefix the message "Via AAC" (All American Cables and Radio).

**MEDICAL:** Emergency cases only will be transported to Maracaibo for medical treatment.

**BALLAST:** Since there are no disposal facilities for dirty ballast at Punta de Palmas Terminal, it is imperative that vessels arrive with clean ballast as Venezuelan laws are very strict regarding contamination of lake water.

**TUGS:** Tug service consisting of two tugs of not less than 1600 h.p. each is provided by the terminal operator for all vessels. Both tugs will assist all vessels in mooring and unmooring operations. Should it be deemed necessary by the terminal operator to require a tug in addition to the two terminal tugs for mooring or unmooring vessels exceeding 750 ft. in length, charges for this additional service will be for the account of vessel.

**MOORING:** moorings are designed as No. 1 and No. 2 and are located approximately 5½ miles off shore from the Terminal and approximately 1¼ miles due West of channel buoy B–95 and B–96 on the Maracaibo ship channel.

Mooring No. 2 is located North-east of Mooring No. 1 and is further off shore. Mooring No. 2 is equipped with two bow buoys, two stern buoys, and a starboard stern breasting piling with cable.

All vessels planning to moor in either Mooring No. 1 or Mooring No. 2 shall be equipped with mooring hawsers of sufficient length and strength to run two lines to each of the bow and stern buoys and shall use such equipment while in moorings. Vessels equipped with tension winches and cables shall utilise these in addition to mooring hawsers or alone if vessel has sufficient cables to meet minimum requirements of running two cables to each bow and stern buoy. For added security of those vessels not equipped with tension winches and/or cables, one steel cable will be furnished on each of the bow and stern buoys by Venezuelan Sun Oil Company. It should be recognised by all parties, that while use of these cables is strongly recommended, Venezuelan Sun Oil Company accepts no responsibilities for loss or damage to any vessel or to any facility or to any person that may result from failure of this equipment. Two carpenter stoppers are available with each mooring for handling the steel safety cables and their use is also recommended.

Vessels in excess of 750 ft. length are required to moor in Mooring No. 2 and must use their starboard bow anchor for mooring and starboard stern breasting cable furnished in this mooring.

For convenience and safety of all personnel boarding or unboarding while at Punta de Palmas, it is recommended that vessel's accommodation ladder be rigged on port side, this being lee side under prevailing weather conditions in this area. The ladder should be suspended after mooring master boards and during mooring operations to avoid being fouled by mooring tugs or launches.

Venezuelan Sun Oil Company's mooring master will board each vessel prior to entering mooring to establish radio contact between ship and tie-up launch as well as with terminal office. The Venezuelan Sun Oil Company's mooring master will assist in mooring and unmooring operations. It should be understood that mooring master acts only in an advisory capacity to the Master. The vessel's Master retains full responsibility at all times. Venezuelan Sun Oil Company assumes no responsibility in connection with any acts or advice given by the mooring master.

The tie-up launch will handle all mooring or pick-up lines before and after loading. Tug service is on call 24 hours per day from the main terminal harbour. The Venezuelan Sun Oil Company tie-up crew will assist the ship's crew in lifting and connecting the cargo hoses and in removing same on completion of loading. The approximate lift required to haul cargo hoses into connecting position is 4 tons. The tie-up launch will carry connections and other equipment to facilitate hose connecting, which will be at the disposal of ship's crew, if required.

**LOADING:** Cargo hose position, supports, and connections must be to satisfaction of ship's personnel in charge. Upon approval from ship's personnel in charge of loading, cargo hose valves may be opened to test cargo hose connections for leaks and to commence loading.

The responsibility for and custody of cargo passes to ship's personnel when cargo reaches the connection owned by ship.

The minimum loading rate is 4,000 b.p.h. and then only when starting to load or when slowing down to trim vessel at completion of loading. The maximum loading rate to be expected under normal conditions is 15,000 b.p.h.

Under normal operation conditions it may be necessary to displace terminal sea line as cargo loading is completed. This will require ship's personnel in charge of loading to advise terminal representative when cargo is short by an amount equal to the sea-line displacement.

The sea line displacement is a *set* amount and should *not* be cut short or exceeded. Therefore, when displacements are to be made, the cargo should be carefully planned by ship and terminal personnel to eliminate the possibility of either cutting the displacement short or short loadings of cargoes.

The mooring master will be equipped with charts and drawings of both sea moorings and will make these, as well as advice, available to Captain, if so requested. The mooring master will also be available to inspect ship's tanks as required, and will act as a liaison between the ship's Captain and the Agent or Punta de Palmas Terminal to transmit any information pertinent to the ship. This person should be furnished with food and accommodation fitting a ship's officer.

**FUEL:** Heavy and medium marine diesel, intermediate fuel, and bunker "C" fuel oil available. Lubricating oils also available.

**FRESH WATER:** Available from local contractors with barges.

**STORES:** Fresh and dry provisions procurable through ship chandlers in Maracaibo for delivery at the terminal.

**REPAIRS:** No repair facilities are available, but when required, personnel from shops in Maracaibo, will travel to Punta de Palmas to effect repairs.

**SHORE LEAVE:** Launch service for business purposes and emergencies is readily available. Launch service for shore leave can be arranged through contract marine service and will be responsibility of ship's personnel. Arrangements for shore leave transportation can be made through loading master on board.

**CUSTOMS:** All vessels entering from foreign ports and bound for Punta de Palmas Terminal are required to anchor in Maracaibo harbour for formal customs clearance and visit of government port authorities prior to proceeding to destination.

The vessel's accommodation ladder should be rigged prior to the vessel's arrival at Maracaibo. A member of the National Guard will board each vessel at Punta de Palmas to observe all activities connected with loading or unloading operations. This official is authorised as the customs representative, and is referred to as Customs Watch. Food and accommodation similar to officers should be made available to him by vessel in order to avoid difficulties.

**CONSULS:** See "Maracaibo".

**GENERAL:**

(*a*) *Oil spillages:* There has been considerable discussion in Venezuela concerning oil spillages resulting in contamination of Lake Maracaibo, to the extent that a special commission has been formed by the oil companies in order to collaborate with government officials in combating and eliminating oil spillages. In addition, considerable pressure has been exerted by governmental agencies and commercial organisations to eliminate oil spillages in lake water. Venezuelan Sun is making every effort to prevent contamination of Lake Maracaibo because, if this is not done, stronger measures will be taken by government officials.

Because of the above, it is strongly recommended that Masters emphasise to the officers on deck to endeavour avoid spillages all possible and to make certain that the scupper plugs are installed prior commencement of loading operations in order to withhold on deck any spillage that might occur.

(*b*) *Mail:* Outgoing mail for ship's account may be given to the Agent's representative who boards vessel on arrival at Maracaibo inbound. Personal mail will be accepted only if carrying the correct amount of Venezuelan postage, or if postage is authorised by mas for the vessel's account.

(*c*) *Classification Societies:* American Bureau and Lloyd's Re ter have Agents in Maracaibo. Surveyors are available by appo ment from any of these agents.

(*d*) *Currency:* The Venezuelan unit of currency is the Bolivar (B and is the only currency recognised as legal tender within t country. Masters desiring a cash advance should make the reque when advising ETA. Payment of all invoices for disburseme shall be made in Bolivars to the Venezuelan Sun's Maracaibo offic unless other instructions are given.

**AUTHORITY:** Venezuelan Sun Oil Company, Calle 77 No. 10- Apartado 663, Maracaibo. Telex: 61126.

## Section G

## SAN LORENZO: 09.47 N. 71.05 W.

**OPERATORS:** Compania Shell de Venezuela Ltd.

**LOCATION:** South-East side of Lake Maracaibo.

**BERTHING:** Continuous wharf 2,340 ft. in length with dolphi This terminal is only for handling crude and its products. Maximu berthing displacement: 20,000 tons.

| | *Berth No. 1* | *Berth No. 2* | *Berth No. 4* |
|---|---|---|---|
| Max. OAL | 560 ft. 00 in. | 665 ft. 00 in. | 580 ft. 00 in. |
| Max. Depth | 24 ft. 06 in. | 36 ft. 00 in. | 26 ft. 00 in. |
| Max. Draft | 23 ft. 06 in. | 35 ft. 00 in. | 25 ft. 00 in. |
| Loading Rate | 1,450 t.p.h. | 2,000 t.p.h. | 1,450 t.p.h. |

These depths are referred to the minimum monthly observe lowest water level (MMOLW).

**APPROACHES:** Vessels have to arrive at Maracaibo Road through a dredged channel with controlling depths of 45 ft. in out bar, inner channel and Punta Palmas area. In vicinity of terminal th controlling depth is 36 ft.

**PILOTAGE:** It is compulsory from San Carlos to Maracaib Pilot normally boards vessel at buoy B–26 (Posn. 11.01 N. 71.35 W It is also compulsory for all vessels which have to load at any term nal located South of the bridge Rafael General Urdaneta. Th bridge has a horizontal clearance of 656 ft. and a vertical one 148 ft. at 45 ft. MMOLW level. Pilots have to embark and disemba at Maracaibo.

When Masters have no Pilot exemption Certificate for crossi outer bar, permission has to be requested by VHF or 2182 kc prior arrival, which is being granted on request.

**ANCHORAGES:** Masters may use the following:

(*a*) Near E.M. Budy, (not recommended because of the distanc from San Carlos. The pilot launch never reaches this point).

(*b*) At Maracaibo Roads.

(*c*) At terminal approaches, in accordance with depths availab in the area, and ship's draft.

**LIGHTENING POSITION:** In the Southern lake Area, arrange ments have to be made in advance. Also at Maracaibo.

**HEALTH:** Quarantine officials board vessels at Maracaibo road Pratique cannot be granted by radio.

**RADIO:** San Carlos Pilot Station has VHF Channels 12 & 1 Emergency call 2182 kc/s. Terminal has VHF Channel 12.

**FRESH WATER:** Available ex-barge at Maracaibo roads.

**DENSITY:** At berths 0998 and at outer bar between 1020 and 10

**FRESH WATER:** Available ex-barge at Maracaibo roads.

**FUEL:** Any grade. In case vessels require grade not available berth it may be supplied ex-barge at Maracaibo, which has mixi equipment able to supply the grade involved. Rate 20–140 tons p

**TUGS:** Compulsory. When vessel is over 25,000 dwt a second tu is required, which is available in the area, 1,200 h.p. each. There also a launch to assist the vessel during manoeuvring.

**MOORING-UNMOORING:** Carried out by Berthing Master du authorized by Shell Oil Co. Mooring is Head-out to facilitate d parture.

**DEBALLASTING:** Installations have ballast pit with capac 650 cubic metres. Max. discharge rate 600 t.p.h.

**TANK CLEANING FACILITIES:** Carried out by outside co tractor.

**REPAIRS:** Minor ones only, including electronics.

**AGENT:** Agencia Maritima de Representaciones C.A.

## ORINOCO RIVER: 08.36 N. 60.25 W.

General information, followed by:

Section A – MATANZAS
Section B – PALUA
Section C – PUERTO ORDAZ (Orinoco Mining
Section D – PUNTA CUCHILLO
(Phillips Petroleum Terminal)

**ESSENTIAL REQUIREMENTS:**

1. As early as possible, advise Puerto Ordaz Radio Station, c letters YVM, giving ETA at Buoy EO of North (natural) chann or at Buoy 0.1 of South (dredged) channel.

2. Twenty-four hours prior to arrival, send another ETA to YVM.
3. Upon arival, depending on whether Master intends to enter Orinoco waterway through North or South channel, adhere to following procedure:

(a) *North Channel*. Notify Port Captain, Ciudad Bolívar, via YVM, of time of arrival at Buoy EO and give ETA at Beacon G7 (mile 27·7).

(b) *South Channel*. Request permission to enter from Port Captain, Ciudad Bolívar, via YVM. *Do not enter* until notified by YVM that Port Captain has granted permission; while awaiting, lay to or anchor at least 1 mile outside of Buoy 0.1.

4. While navigating waterway, inbound or outbound, report position to YVM hourly on the hour.
5. No Pilot required nor available for navigation along North or South channel at the Boca Grande of the Orinoco River.
6. The International Rules for Preventing Collisions at Sea apply outside of Beacon G7, mile 27·7.
7. Given the case of two vessels navigating North and South channel respectively, the one navigating South channel is the privileged vessel.
8. Anchoring either in North or South channels is forbidden.
9. Throughout Orinoco waterway, the down-bound loaded vessel is the privileged vessel.
10. It is compulsory to fly Venezuelan ensign inside of Buoy EO or Buoy 0.1.
11. Vessels can only carry clean ballast within Orinoco Waterway
12. Pilotage compulsory within Pilotage Zone No. 1 of the Orinoco Pilots board at outer boundary of said pilotage zone. in upstreamward vicinities of Beacon G7.
13. Regulations for the Pilotage Zone No. 1 of the Orinoco apply inside of Beacon G7.

**APPROACHES:** (Also see "Radio" – paragraphs (*b*) and (*c*) ).

1. *The Waterway*

A Radio Direction Finder, located at Lat. 8° 31′ 45″ N., Long. 60° 28′ 28′ W., transmits following signal continuously: YV – AYV. The transmitter has an output of 500 watts with a range of about 200 miles and operates on a frequency of 305 kc/s. While navigating the waterway, ships should favour the shore on their starboard side to the extent possible, giving preference of manoeuvre to loaded vessels in all cases. Ships navigating upstreamward (inbound), upon approaching narrow channels should await the passing and give way to downbound vessels. It follows, therefore, that downbound loaded vessels are the privileged vessels.

2. *The Boca Grande* (*Barima Bar*) *Channels*

There are two navigable channels across the Boca Grande (Barima Bar), identified as follows: North channel (or natural channel), and South channel (or dredged channel). The two channels have converging courses and meet at mile 27·7 in the vicinity of Beacon G7. Vessels navigating the South channel are privileged, regardless of the direction in which they travel.

(a) *The North* (*Natural*) *Channel*

This channel has a minimum depth of 12 ft., referred to Mean Low Water. The approach from the sea is marked by a battery-operated electric flashing black buoy, identified with the letters EO. This buoy is located in 46 ft. of water at Lat. 9° 00′ 10″ N., Long. 60° 18′ 20″ W. Its characteristics are: colour of light, white; flash, 1.0 seconds; eclipse, 6.0 seconds; height above water, 10·7 ft., visibility, 7 miles. From seabuoy EO, the channel develops for 7.3 miles to Buoy EOA on a course of 213° 40′ true, then for 2·8 miles to Buoy EOB on a course of 198° 57′ true. From this point the channel follows an approximate straight course of about 205° true for a distance of 17 miles to Beacon G7. Starting from EOB distances between successive navigation aids are as follows: G1 at 1·9 miles; G1A at 1·5 miles; G3 at 2·1 miles; G3A at 2·3 miles; G5 at 3 miles; EL 24 at 2·6 miles; G7 at 3·7 miles. All navigation aids are black buoys fitted with white lights, except Beacon G7 and EL 24 which is a range structure indicating the West side limit alignment of the South (dredged) channel. This structure has been fitted with a white flashing light to mark the North (natural) channel.

(b) *The South* (*Dredged*) *Channel*

The South channel is a 400 ft. wide dredged channel. Depths therein accommodate the maximum draft authorised by the Port Captain. The approach from the sea is marked by a battery-operated electric flashing black buoy, identified with the number 0.1. This buoy is located in 45 ft. of water at Lat. 8° 55′ 52″ N., Long. 60° 11′ 17″ W. Its characteristics are: colour of light, white; flash, 0.5 seconds; eclipse, 11.5 seconds; height above water, 25 ft.; visibility, 11 miles. From seabuoy 0.1, the channel develops along four different courses over a total distance of 27·7 miles to Beacon G7. The course reduces by about 7° true at each of three turning points, located at miles 9, 15 and 21 respectively. The initial course of 234° 18′ true continues to mile 9 where it changes to 227° 07′ true. Upon reaching mile 15, the course again changes to 219° 51′ true to mile 21. At mile 21, the course changes to 212° 45′ true to Beacon G7 at mile 27·7. The centreline of the channel on all courses is visually marked by range structures fitted with green flashing, directionally beamed lights. The West (right ascending) side limit of the channel through mile 21 is also visually marked by range structures fitted with amber flashing, directionally beamed lights; the alignment given by the side ranges develops 200 ft. to the West and parallel to the centreline of the channel. Battery operated electric flashing navigation aids are located along both sides of the channel. All navigation aids along the East (left ascending side of the channel are located 325 ft. from centreline or 125 ft. outside of the channel lateral limit. White flashing navigation aids are located at one mile intervals through mile 25·1; all aids along this side are black buoys, except beacons 8.1, 9.1, 14.1, 15.1, 20.1, 21.1, 22.1, 23.1, 24.1, 25.1, 27.1 and 27.7 (G7). All navigation aids along the West (right ascending) side of the channel are located 200 ft. from centreline or on the exact lateral limit of the channel. Red flashing buoys painted red are located at one mile intervals from mile 1·6 to mile 11·6. From mile 11·6 to mile 27·7, there are only two aids; red buoys 13.6 and 26.0.

3. *The River Channel*

From mile 27·7, the navigable channel develops upstream. The river channel is generally deep and wide, except for the following 12 reaches which require periodic dredging: miles 27·7 to 36·5; miles 37·3 to 38·6; miles 53·1 to 54·2; miles 99·0 to 106·5; miles 109·1 to 111·0; miles 131·7 to 131·9; miles 136·6 to 139·0; miles 141·2 to 145·8; miles 146·2 to 149·4; miles 167·6 to 170·8; miles 178·4 to 182·4; miles 183·5 to 184·1. Dredged channels are normally 300 ft. in width, but occasionally can be restricted to a minimum of 250 ft. The depth maintained therein can accommodate the maximum draft authorised by the Port Captain. By notice to Mariners, the Port Captain has instructed all Masters and Pilots to reduce speed and to proceed with caution while navigating the aforesaid reaches, especially during the low water season.

4. *River Stages*

In response to the cycle of wet and dry seasons, the flow of the Orinoco River follows a relatively regular pattern of rise and fall each year. The river normally begins rising in later March or early April and continues to rise until it peaks at crest in late August. In September, the river begins a fairly steady recession until the extreme low-water stage is reached, generally in March. The amplitude of stage variation above the low water plane of reference (0.0 ft.) at Palúa (Mile 181·7) averages about 35 ft. with minimum variations of 31 ft. and maximum variations of 39 ft. The effects of the flood rise decrease progressively below Palúa and practically vanish in the upstreamward vicinities of the Boca Grande.

5. *Tides and Currents*

(a) The indicated mean tidal range is 5.4 ft. Tidal influence is not experienced above mile 60 during high river stages. At low river stages, a tidal effect can be observed throughout the waterway, although it progressively diminishes, moving upstreamward. However, the tidal effect is still significant at Puerto Ordaz, mile 184, where a maximum semidiurnal change of 1.7 ft. has been recorded.

(b) The strength of river currents is generally commensurate with flow, the strongest currents occurring at high river stages. The velocity of currents at any one time generally decreases moving downstreamward. However, in certain locations, this pattern is affected by particular characteristics of river width and shape as well as by bottom gradient. Maximum velocities of about 6 knots have been recorded.

6. *Navigation Aids*

(a) The navigation aids installed along the waterway consist of buoys, beacon and ranges. All aids are lighted. Identification is provided by means of numbers representing the approximate mileage of each aid, to the nearest one-tenth of a mile. The last digit of numbers identifying white lighted aids is odd, while the last digit of numbers identifying red lighted aids is even. White lighted aids mark the left ascending limit of the navigable channel, while red lighted aids mark the right ascending limit. Aids are placed as to be intervisible, to the extent that – when abreast of any one aid – the preceeding and the following ones can be sighted. Consecutive aids always carry different light characteristics. Buoys are normally placed on the exact lateral limit of the channel (except for black buoys along the South channel at the Boca Grande); beacons, instead, are located at variable distances outside of the channel.

(b) During the execution of dredging along any of the reaches which require periodic maintenance, buoys are generally moved 100 ft. outside of the channel lateral limits. This information is made available to ships by YVM.

(c) The Ministerio de Comunicaciones, Dirección de Marina Mercante, publishes semi-annually a complete list of navigation aids. Monthly lists of changes are also published so that the complete current list can be maintained up to date.

(d) Upon encountering damaged, inoperative, or misplaced navigation aids, vessels should immediately notify YVM.

(e) Vessels are forbidden to make fast to any navigation aid.

7. *Dredging Aids*

Range structures, generally located close to shore or over the bank, are normally used to mark the lateral alignments of the channel along the reaches which require periodic dredging. These ranges are generally fitted with amber flashing, directionally beamed lights. The lights are extinguished except during execution of dredging. Dredging ranges *are not* to be used for navigation.

8. *Navigation Charts*

Navigation charts of the Orinoco Waterway should be aboard vessels for use by the Master. These charts are sold by the Instituto Nacional de Canalizaciones and are also available for purchase from the Orinoco Mining Company. If requested, the Orinoco Mining Company will, if possible, arrange to make the charts and latest revisions available through the Pilot who boards at Punta Barima, provided such request is received by radio (YVM) at least 48 hours in advance of the Pilot's boarding. A set of navigation charts, corrected to latest revisions, is maintained in the office of the Traffic and Ships' Agency of the Orinoco Mining Company in Puerto Ordaz. Masters may use this facility to keep their charts up to date.

**DOCUMENTS:** (Clearance, documentation and other requirements).

1. *Consignment of Inbound Vessels*

The official documents of all vessels proceeding to Puerto Ordaz should show the following consignment: to: Orinoco Mining Company, Ciudad Bolívar, Zona de Puerto Ordaz. The proper consignment of vessels proceeding to Palua, on official documents, is as follows: Iron Mines Company of Venezuela, Ciudad Bolívar, Zona de San Felix.

2. *Customs Requirements*

Vessels bound for Venezuela in ballast, without passengers, from foreign ports outside the West Indies or Guianas, require the following documentation:

(*a*) Vessels must have a ballast despatch statement (Certificado de Lastre) which must consist of a note from the Venezuelan Consul, if such Consul is present at the port of departure; otherwise, in descending order of desirability, from the Consul of another friendly nation, the local Chamber of Commerce or two reputable merchants of the port of departure. The note should include the name and nationality of the vessel, name of the Captain, registration number of the vessel and tonnage, sailing date and assertion that the vessel is en route in ballast, cargo, or with passengers. The note should be given to the Captain of the vessel or his Agent in an open envelope, which the Captain can exhibit in intermediate Venezuelan ports of call and can turn over to Customs authorities in the Venezuelan ports of destination. Under no circumstances may the ballast despatch statement be signed by an Agency of the government of the country from which the vessel is departing.

(*b*) The vessel must have a clearance certificate (Certificade de Zarpe) or sailing authorisation issued by the Customs authorities of the port of departure, representing the government of the country the vessel is departing from. No consular certification need be placed upon this document.

(*c*) Stores List (Lista de Rancho) signed by Master unless vessel is dispatched from the West Indies or Guianas, then the stores list must be visaed by the Venezuelan Consul at port of departure. Stores list must indicate separately all deck, engine and cabin stores. These lists may be prepared on board prior to arrival.

(*d*) Spare Parts List (Lista de Repuestos). It must contain a note of all the spare parts and objects for the service of the vessel, including fuel. No consular certification required. To be signed by the Master and to be current as of the day of entering the Venezuelan port.

(*e*) List of Effects for use of Captain and Crewmen (Lista de efectos personales de la dotacion). No consular certification required. To be signed by the Master and to be current as of the day of entering the Venezuelan port. The Customs are very strict and will confiscate any article that appears new.

3. *Health, Immigration, and Police Requirements*

Vessels bound for Venezuela in ballast, without passengers, from foreign ports outside the West Indies or Guianas, require following documentation:

(*a*) Current individual International Vaccination Certificates for each member of the crew.

(*b*) Rat Eradication Exemption Certificate. No consular certification required.

(*c*) Crew Lists (original and seven copies). No consular certification required.

(*d*) Panama or Suez Canal or any comparable type measurement certificate.

Contraband: The Venezuelan law is very strict on this subject. It cannot be emphasised too strongly that all new articles, clothing, cigarettes, liquor, etc., must be declared and sealed-up upon arrival.

Meals for Pilots and government officials. It is requested these men be granted the privilege of eating in the officers' dining salon.

N.B. Masters of vessels calling at Trinidad for bunkers before proceeding to Venezuela must also have the documents stamped by the Venezuelan Consulate at Port of Spain.

**PILOTAGE:** In order to expedite the movement of shipping in the waterways, Masters are requested to establish contact with YVM station as soon as possible, giving ETA pilot station at Barima (Orinoco River entrance). At the same time a radio-telegraph message must be sent to Agents giving ETA Barima and cargo required. When vessel is 24 hours from pilot station, send another ETA via YVM.

After reporting the ETA in advance of arrival, try to contact directly, by radio, the Estacion de Pilotos when the ship approaches the sea-buoy of the bar entrance (about two hours before arrival at the pilot station).

After taking the Pilots aboard, report to Radio Marina and continue giving the ship's position according to the mile, up-river, at exactly every hour on the hour, and receive from Radio Marina the pertinent information concerning the traffic in the river waterway. If no communication can be established by voice radio aboard, comply by radio-telegraph by way of the YVM station.

Pilots are employees of the Venezuelan Government and act in an advisory capacity. The Master retains responsibility for the ship at all times.

(1) Pilotage is not required and Pilots are not available for navigation outside the pilotage zone. Masters will take charge of inbound and outbound navigation on the North or South channel outside Beacon G7 at the Boca Grande, without Pilot's assistance.

(2) Pilotage is mandatory within the Pilotage Zone No. 1 of the Orinoco. Inbound vessels will embark the government River Pilot in the upstreamward vicinities of Beacon G7. It is important that vessels pass Beacon G7 and be in sight of the pilot station at Barima in order to avoid any delay, as Pilots may not proceed until vessel is sighted. The government River Pilot will pilot the vessel while navigating the waterway; a special government Docking Pilot will generally take the ves into and out of the Puerto Ordaz harbour.

*Signals*

(1) All signals used outside of the pilotage zone (that is to s seaward of Beacon G7 – mile 27·7) shall conform to the Inte national Rules for Prevention of Collisions at Sea.

(2) Within the pilotage zone (that is to say, inside of Beacon G mile 27·7) the signals used shall be in accordance with t "Regulations for the Pilotage Zone No. 1 of the Orinoco It should be noted that these signals are peculiar to the Orinoc Waterway, and are not necessarily in conformance with t International Rules.

(3) Within the pilotage zone, special signals are used for passi dredges at work along the waterway.

*Speed*

The Captain of the Port has the authority to impose speed restri tions. By means of "Notices to Mariners", the Port Captain h ordered that all vessels reduce speed while navigating by the follo ing locations: San Felix Dock, mile 179·8; Ei Toro, miles 95·4 to 9 It is recommended that speed be also reduced while navigating i the Palúa Dock (mile 181·8), Barrancas (mile 143·2), and Curia (mile 60·4). At the inception of the low water season each ye (generally in early January), the Port Captain has in the past issue a "Notice to Mariners" instructing all vessels to reduce speed a proceed with caution while navigating the following river reache (1) miles 184 to 178, (2) miles 171 to 167, (3) miles 150 to 141, (4) mile 140 to 137, (5) miles 133 to 131, (6) miles 112 to 109, (7) miles 106 to (8) miles 55 to 53, (9) miles 39 to 36

**ANCHORAGES:**

(1) No ships are permitted to anchor either in the North or Sou channel at the Boca Grande. Vessels are to anchor at least o mile outside of Buoy EO or Buoy 0.1.

(2) Within the pilotage zone, no vessel is allowed to anchor in narro channels, nor close to a turn.

(3) Between Beacon G7 – mile 27.7 and mile 137, vessels which nee anchoring may do so by coming as close as possible to sho on the ship's starboard side.

(4) Between mile 137 and mile 184, the Pilotage Regulations provi for three permanent anchorages and one seasonal anchorag as follows: Area No. 5 (permanent): miles 139.3 to 140.4. Ar No. 6 (permanent): miles 150.1 to 151.7. Area No. 7 (permanen miles 178.0 to 179.0. Area No. 8 (seasonal): at the junction of th Caroní and the Orinoco. It should be observed that Area No. as determined in the Pilotage Regulations, partially encroache on the narrow (dredged) channel and on shore. Vessels are t anchor in the naturally deep and wide part of the area.

(5) The low-water anchorage (for one ship only) previously esta lished by the Port Captain between miles 182 and 183 is no longe in use. This area is currently used as the turning basin for vesse exiting the Palúa channel, upon sailing from the new Palúa doc at mile 181.8.

(6) If due to emergency a ship is required to anchor in places othe than the designated areas, it may do so in such a way as not obstruct the channel and by taking the necessary precautio to avoid swinging around.

(7) Upon anchoring, vessels should notify YVM.

**MAX. SIZE:**

(1) *Maximum permissible draft.* The Port Captain of Ciudad Bolív can establish the permissible draft for the Orinoco waterway to maximum of about 43 ft.

2. *Controlling Depths and Authorised Draft*

The draft authorised by the Port Captain for the Orinoco Waterwa is made public by means of a "Daily Bulletin of Depths and Draf (Boletín Diario de Profundidades y Calado). Each daily bulleti issued by the Port Captain carries the following information, i Spanish and English:

(*a*) Controlling (minimum) depth between miles 184 and 133, an corresponding location.

(*b*) Controlling (minimum) depth between miles 133 and 42, an corresponding location.

(*c*) Controlling (minimum) depth between miles 42 and 0, and co responding location.

(*d*) Predicted high tides (heights and times) at mile 13.5.

(*e*) River stage (height of river level above low water plane) a Puerto Ordaz and Palúa.

(*f*) Authorised draft, in feet and inches.

The controlling depths given for locations comprised betwe miles 184 and 42 are actual depths, and reflect depth conditions a of the date of the bulletin. The controlling depth given for locatio comprised between miles 42 and 0 is referred to mean low wat springs and does not include the height of tide at high water.

The authorised draft may be predicated either on the controlli depth existent between miles 184 and 42 or between miles 42 and dependent upon whichever is the least.

When the controlling depth between miles 184 and 42 is the sig ficant factor, the permitted draft authorised is at least 2 ft. less tha the controlling depth in this sector.

When the controlling depth between miles 42 and 0 is the sig cant factor, the permitted draft authorised is generally less than th mean low water springs controlling depth but occasionally can b equal to the mean low water springs controlling depth.

Whenever the MLWS controlling depth existing between miles 4 and 0 does not provide sufficient clearance under the keel of th vessel at low water, the Master is expected to navigate by the s where the controlling depth is located only at times when the heig of tide will assure a safe passage.

(3) *Variations in authorised draft:*

(*a*) The authorised draft is generally increased or decreased by multiples of 6 inches.

(*b*) Throughout the year the authorised draft is susceptible to variations, according to the conditions of depth and width existing in the channel at any one time. On the basis of average river stages it is estimated that the authorised draft should be about 33 ft. in the dry season from December to May.

During the rainy season, from June to November, the maximum permissible draft may be as high as 43 ft.

**HEALTH:** Radio pratique may be obtained by sending a message, after picking up Pilot, to the Port Health Officer, advising that there is no sickness on board, name of last port, ETA, number of crew and nationality of vessel and name and nationality of Master.

**RADIO:**

(*a*) *Communications:* Communications are generally handled through the radio-telegraph station at Puerto Ordaz, call letter YVM. This station is operated on a 24 hour basis. The operating frequencies are: 440 kc/s; 472 kc/s; 4322 kc/s; 6505.5 kc/s; 8722 kc/s. The GMT – CQ times and frequencies are: 0900 hours, 4322 kc/s; 1200 hours 6505.5 kc/s; 1430 hours 8722 kc/s; 2000 hours 8722 kc/s; 0030 hours 8722 kc/s; 0300 hours 4322 kc/s.

There is no charge for messages from ship to shore or from shore to ship handled directly through YVM. A VHF frequency modulated radio system provides voice communications along the Orinoco Waterway. Master sets for the system are installed in the Puerto Ordaz radio-telegraph station (voice call: "Marine Radio"); Marine Radio handles shipping matters exclusively, The system consists of a high-band VHF frequency modulated voice radio net. To ensure a more efficient and satisfactory coverage, this system operates on dual frequencies alternating according to location, so that ships can either transmit on 161.700 megacycles receiving on 159.000 megacycles, or transmit on 161.150 megacycles receiving on 159.850 megacycles. For best results, ships should select frequencies according to the following: From sea to mile 50: transmit on 161.700 mc., receiving on 159.000 mc.; From mile 50 to mile 112: transmit on 161.150 mc., receiving on 159.850 mc.; From mile 112 to mile 159: transmit on 161.700 mc., receiving on 159.000 mc.; From mile 159 to mile 184: transmit on 161.150 mc., receiving on 159.850 mc.

Pilot station at Barima Bar, Palúa and Matanzas are equipped with this system. For the Puerto Ordaz area, ships will transmit to Marine Radio on a frequency of 43.02 megacycles and to others on a frequency of 43.18 megacycles, receiving in both cases on a frequency of 43.18 megacycles.

(b) *Control of Navigation:*

(*i*) Navigation on the North (natural) channel at the Boca Grande is free. However, vessels are requested to notify the Port Captain, Ciudad Bolivar, via YVM, upon arrival at Buoy EO, giving ETA at Beacon G7, mile 27.7.

(*ii*) Simultaneous navigation in opposite directions by two or more vessels is not permitted on the South (dredged) channel at the Boca Grande. The restriction is placed on inbound traffic, to the extent that any vessel wishing to enter the South channel requires prior authorisation from the Port Captaincy of Ciudad Bolivar. The request for permission to enter the South channel is to be addressed to the Port Captain, Ciudad Bolívar, via YVM, and is to be transmitted before the vessel reaches Buoy 0.1. Upon receipt of the request, the Port Captain will notify the vessel via YVM whether permission is or is not granted, indicating, in the latter case, the approximate waiting time. Until permitted to enter, vessels are to anchor at least 1 mile outside of Buoy 0.1. Once that authorisation has been granted, vessels are to enter the South channel at the earliest opportunity. Any vessel which has been notified to wait may elect to proceed and enter through the North (natural) channel; in this case, the vessel will have to satisfy the requirements outlined in paragraph (1) above.

(*iii*) While navigating the Orinoco Waterway inbound or outbound vessels are to report their position to YVM hourly on the hour.

(c) *Accident, Stranding, etc.*

(*i*) Should a collision, stranding or other accident occur in the waterway, or should it be found necessary to take control of the vessel away from the Pilot for any reason, the Venezuelan law requires that a written report be made to the Captain of the Port by the Master of the vessel involved within 24 hours. The report is to be addressed to the Captain of the Port and may be handed to the Pilot or the ship's Agent for delivery. The Master need not appear in person before the Captain of the Port unless specifically ordered to do so.

(*ii*) Slight groundings or touching of banks and bottom may simply be noted on the reverse side of the receipt for pilotage signed by the Master.

(*iii*) In case of collision, stranding, slight grounding, touching of banks and bottom, or other accidents, vessels should immediately notify YVM.

### *Section A*

## MATANZAS: 08.17 N. 62.50 W.

N.B. See "Orinoco River" for all important entry requirements.

**OPERATORS:** CVG Siderurgica del Orinoco CA.

**ANCHORAGES:** Between miles nos. 195 and 197, Orinoco River.

**MAX. SIZE:** Length 600 ft., breadth 74 ft., distance between rail and hatch combing 23 ft., max. draft 30 ft. in rainy season May to November, and 26 ft. in the dry season.

**RADIO:** See "Orinoco River". Cable address of Matanzas terminal operators is "Sidor Matanzas – Telex 22709" and cables may be routed through Caracas, Curacao or Trinidad Radios.

**TUGS:** Every vessel over 2,000 registered tons is required to use a tug when berthing. Tug is 1,600 h.p.

**BERTHING:** Undertaken day or night. One quay 300 metres length with 5 cranes. Floating derrick 85 metres length and 100 metric tons capacity.

**MEDICAL:** Private hospital and several doctors available.

**TIDE:** 6 inches rise and fall at the berth. Current, in winter 6 knots; in summer 1·5 knots.

**FRESH WATER:** Available at rate of 12 metric tons/hour.

**FUEL:** Available in emergency.

**CUSTOMS:** 200 cigarettes and 1 bottle spirits allowed for crew member for personal consumption.

**IDENTIFICATION CARDS:** Provided by authorities, and necessary if crew going ashore.

**REPAIRS:** Local workshops undertake minor repairs.

**AIRPORT:** Distant 10 miles. Six flights a week to Caracas.

**HOLIDAYS:** No work on 1st January, Maundy Thursday, Good Friday, 1st May and 24th December. Work can be arranged on other holidays.

### *Section B*

## PALUA: 08.21 N. 62.41 W.

N.B. See "Orinoco River" for all important entry requirements. Specific details, relevant to Palua only, are as follows:

**SUPPLIER:** The ore supplier is Iron Mines company of Venezuela, cable address El Pao San Felix (Venezuela). Their Palua office is fitted with VHF radio-telephone on 161.150/159.850 megacycles and 2182 (call) kilocycles.

**CLEARANCE:** Agent will secure the Clearance dispatch.

*Note:* The Palua dock and facilities are the private property of Iron Mines Company of Venezuela. All Company regulations must be obeyed by vessels and vessels personnel.

The Bill of lading will be prepared by Iron Mines Company of Venezuela, also the Commercial Invoice on the Consular Invoice form 138. The Inward Foreign Manifest, U.S. Customs form 7527–B, should be prepared by Master after sailing from Palua.

**BALLAST:** To provide the best manoeuvring trim on docking, it will be at the discretion of the Master to properly ballast the vessel. But in order to lose no time on loading operations, as well as to prevent short loading, the ballast should be pumped out as soon as possible, using utmost caution not to pump oil or sludge overboard in the port area.

**APPROACH AND DOCKING IN PALUA:** After passing the village of San Felix, and before reaching the turn off from the main channel, a Tug and a Docking Pilot will meet the vessel and will assist in the docking manoeuvre. Although the Master will always be responsible for the vessel's movements either in the case of docking or undocking, the Docking Pilot will actually pilot the vessel to and dock the ship at Palua.

At mile 180.5 the ship should leave the main channel, turning to the left to follow the new dredged entrance channel of approach which is marked by two flashing buoys: white on the port and red on the starboard side. Diamond-shape range marks of 6 ft. side, painted white with black diagonal cross, indicate the centre line of the approach channel. The front range, fastened on the ore loading pier, shows flashing green light, and the rear range, set on a tower approximately 2,000 ft. away, has fixed green light.

The docking shall be port side to in all events; and please stow all hatch boards, or pontoons, or steel battens, etc., on the starboard side of the hatch; as this will keep the gear cleaner and lessen the work of the ore handling gang.

The dock will provide a gangway for access to the ship. Nothing should overhang the port side of the vessel on docking.

If the loading berth is not available the arriving vessel would be instructed to anchor at an anchorage just below the entrance to Palua approach channel at mile 179.

**LOADING DOCK:** The ore loading port is located at mile 181.5 of the Orinoco waterway, along the left bank going up-river. The new steel dock here is aligned up and down stream in the general direction of the current. It is 907 ft. long between its pointed heads, with 791 ft. of boarding side along, the deck fixed at about 6 ft. over the maximum expected rise of the river in the flood season. It has a strong fender system of steel structure covered with timber overhanging the side, down to near the lower river stage; and is fitted with 14 bollards plus two more, one on each head, for proper docking and securing the vessel.

Once the vessel is moored alongside the new ore loading dock, there shall be no further shifting necessary to load, as the loading tower moves along the dock on rails to facilitate the loading through the various hatches.

**LOADING:** The ore handling and loading equipment for Palua has a capacity to load 3,000 metric tons of ore per hour, for the time being. With this capacity, the vessel's mooring lines should be tended during the operation.

The boom of the loading tower is so designed as to allow free movement in any direction, fore and aft. The gantry and boom travel along the dock for a distance of 518 ft., and can place the ore at a distance horizontally out from the dock fenderline of 23 ft. minimum and 62 ft. maximum at the highest water stage, and from minimum 29 ft. to maximum 67 ft. horizontally out at the lowest stage.

Care must be taken during the course of loading to avoid piling the ore too high in the holds, as this necessitates hand trimming before the hatch covers can be properly secured, and incurs unnecessary trouble.

**UNDOCKING:** The Master, assisted by a Docking Pilot if required, will handle the vessel on leaving the dock, going upstream from the dock not less than $\frac{3}{4}$ mile distance to the turning basin in the same heading as when the ship moored alongside. One tug (or two tugs if required), will go alongside the ship prior to undocking and will assist the vessel until it is headed downstream in the main Orinoco channel. The amber lights at the heads of the dock form a range to mark the shoreside boundary of the local dredged channel. A red light high up on the loading gantry will come in the same range as the two amber lights. In the turning basin a tug-boat will assist the vessel swinging downstream.

When the ship is in the main channel, properly headed downstream, the Docking Pilot will leave on the tug, and the River Pilots (two of them) will assume the navigational direction. Report to Radio Marina by voice radio and give ETA at mile 31.

Report again to Radio Marina giving position every hour, and try to contact Barima pilot station sometime before arrival at mile 31, where the Pilots will disembark.

If Voice radio communication is not possible, comply by radiotelegraph by way of the YVM station.

**HEALTH:** The vessel will be boarded by the Public Health Doctor after docking at Palua; unless instructions to the contrary.

In the event that the Authorities have to board the vessel anchored out in the stream, an accommodation ladder should be rigged, preferably on the starboard side, to keep the port side clear for docking. Venezuelan authorities and workmen will not use pilot ladders.

**REGULATIONS:** The Master, members of the crew and passengers if any, are required to have in their possession individual smallpox vaccination certificates. Serious delays may result in the dispatch of the vessel if this requirement is not complied with.

The Venezuelan law is very strict on the subject of contraband. It cannot be stressed strongly enough that all *new* articles, clothing, cigarettes, liquor, etc., must be declared and sealed up on arrival.

Concerning passes, the regulation states that "members of the crew who are not officers of the vessel, in order to go ashore and return aboard, have to be supplied with an identification card to be issued by the Purser of the vessel or his substitute, which card will contain the name of the vessel, the name of the crew member and the date of issue. This card will have to be signed by the person issuing same and has to be authorised by the respective officer of the Port Captain's office for the district".

**GAS-FREE CERTIFICATE:** Vessels reporting to Palua to load ore should have the holds and cargo compartments swept clean and ready to receive cargo. Also, any combination ore/tanker vessel tendering to load iron ore at Palua shall present, along with the notice of readiness, a Gas-free Certificate if said vessel has in the past been employed in the carriage of petroleum products. Such certificate shall be dated subsequent to the discharge of the vessel's last petroleum cargo. But they are advised that around Palua in Venezuela there is no chemist available for granting such a Gas-free Certificate. It may be secured before arriving at Venezuela by calling at Trinidad, reporting to cable address: Harriman, Port of Spain.

In case of necessity, or for convenience, it could be arranged for the chemist to travel to Venezuela to meet the ship in Palua, advising Harriman (Port of Spain) at least three days before arrival at Palua.

If the vessel is equipped with a gas-indicating meter (explosimeter), Iron Mines Company of Venezuela will accept the Master's certification in writing that the vessel is gas-free. However, they reserve the right to check the vessel with their own equipment prior to acceptance.

**RADIO:** Should a vessel receive radio advice at sea to proceed to Palua, and the clearance is to another port, the Master must radio to Agents-Alcoaships Puerto Ordaz (Venezuela) and advise the name of the vessel, flag, port of embarkation, original port of destination, Captain's name and the number of members in the ship's crew including the Master. This is necessary in order to comply with the Venezuelan Customs Law.

**CONSULS:** At the present time there are no Consular Agents located around Palua, the nearest being in Ciudad Bolívar or Caracas.

**FLOOD SEASON:** The port experiences a yearly flood season from the middle of June to the middle of November, to a maximum of about 38 ft. at the last days of August, above the lowest stage (during the first days of April) in the dry season that occurs from the middle of November to the middle of June.

**TIDE:** The wind in the locality blows generally upstream, and on exceptional occasions during the dry or low-river season, when the current is weak, does overcome the current and cause the anchored ships to tend with stern upstream.

**REPAIRS:** Minor emergency repairs of mechanical, electrical and electronical types may be carried out in the shops by the personnel of the Iron Mines Company of Venezuela. The American Bureau of Shipping has a surveyor at Puerto Ordaz, near Palua.

**MEDICAL:** There is a medical dispensary at Palua, and a hospital of the Company at El Pao, where seamen may be admitted when requiring hospitalisation in emergency cases.

**FUEL:** All grades of bunker fuel are available at Palua, delivered by barge.

**FRESH WATER:** Drinking water is available at the dockside in limited quantity of about 100 tons every 24 hours. Small amounts of fresh provisions may be obtained in the locality.

**AGENT:** Alcoa Steamship Company, Cable address: Alcoaship, Puerto Ordaz.

*Section C*

## PUERTO ORDAZ: 08.21 N. 62.43 W. (See Plan)

**OPERATORS:** Orinoco Mining Company.

**LOCATION:** The operations of the Orinoco Mining Company a centred in the State of Bolívar in Eastern Venezuela and iron ore loaded into ocean-going vessels at Puerto Ordaz 8° 21′ N., 6 43′ W.) at the junction of the Caroní and Orinoco rivers, appro mately 184 nautical miles from the open sea.

**GAS-FREE CERTIFICATE:** Any combination ore-tanker vess tendering to load iron ore at Puerto Ordaz shall present, along wi the notice of readiness, a gas-free certificate if said vessel has in th past been employed in the transportation of petroleum produc Such certificate shall be dated subsequent to the discharge of th vessel's last petroleum cargo. Gas-free certificates can be obtaine through an approved surveyor in Puerto Ordaz.

**HEALTH:** Vessels will be boarded by the Public Health Doctor i the stream off Puerto Ordaz. He will not come up a pilot ladder an will insist on an accommodation ladder which should be rigged an ready when he approaches. In order not to delay docking, this accom modation ladder should be rigged on the port side during low rive stage, and starboard side during high river stage.

**RADIO:** Should a vessel receive radio advice at sea to proceed t Puerto Ordaz, and the clearance is to another port, the Master mus radio station YVM Puerto Ordaz, and advise the name of the vesse flag, port of embarkation, original port of destination, Master's nam and number of members in the ship's crew. This is necessary i order to comply with article 17 of the Venezuelan Customs Law.

**TUGS:** All vessels touching at Puerto Ordaz will be assisted by tug in docking and undocking manoeuvres. Line-handlers are avai able on the dock to secure mooring lines on vessel's arrival, and t release them on vessel's departure.

**BERTHING:**

1. **The Harbour:** The Puerto Ordaz Harbour extends from mil 183.5 to mile 184.1 of the waterway. The harbour consists of a natur basin formed by the mouth of the Caroni as it flows into the Orinoc The width of the turning area within the basin varies from a minimu of about 1,600 ft. at low water to a maximum of about 2,000 ft. at hig water. The lighted buoys marking the navigable limits on either sid of the harbour are moved to different positions according to rive stages in order to achieve full utilisation of navigable waters. Th bottom of the harbour is generally rock, with scattered layers of san overburden deposited as sediment by the river. This sand is regular removed by dredging in order to maintain depths which will accom modate the maximum draft authorised by the Port Captain. Th bottom configuration across the harbour consists of a rocky she extending about 900 ft. from the face of the dock. Beyond this she the bottom slopes steeply into a deep gorge, then rises to form sandy beach along the opposite shore. The velocity of river curren at this site varies according to stage levels. A slower current i generally experienced over the rocky shelf adjacent to the doc with velocities averaging about 1.5 knots at flood stages and abo 0.5 knots or less at reduced river stages. The velocity of the curre over and along the deep gorge averages about 3.5 knots at floo stages and 1.5 knots or less at reduced river stages. During extre low water, the basin is subject to tidal influence and the velocity o currents is minimal, although there is no reversal of flow. The direc tion of the current is aimed slightly toward the face of the dock a its South-east end but deflects away from the pier about 500 f downstreamward. Access to the harbour is by way of a natura deep and wide fairway which is the continuation of the gorge as enters the Orinoco River.

2. **The Dock:** The Puerto Ordaz dock is located along the rig ascending side of the harbour and extends outward from shore on South-east by East alignment. The all-steel fixed-height dock i 1,885 ft. long; its elevation is 41 ft. above low water plane (0.0 ft. stage This dock is fitted with a strong fender system and with a sufficie number of accessible bollards for proper docking and securing.

3. **Arrival:**

(*a*) *Notice of Readiness:* When completely ready to recei cargo, vessels will submit "Notice of Readiness" to Orinoco Minin Company. Vessels will be loaded in the order in which Notices o Readiness are accepted by Orinoco Mining Company. The Compa will advise when the vessel may proceed alongside the dock.

(*b*) *Docking:* Special Docking Pilots are provided for the dockin and undocking of vessels at Puerto Ordaz. These Pilots are qua fied River Pilots, thoroughly familiar with local conditions. All ve sels will dock starboard side to. During the low water stage, which i from the middle of November to the middle of June, no gangwa should be rigged and nothing should overhang the starboard si of the vessel. When the river is sufficiently high which is from th middle of June to the middle of November vessels are requested t have starboard gangway or accommodation ladder rigged and rea to lower immediately after docking in order to expedite the com mencement of loading. Venezuelan authorities and workmen wi not use pilot ladders. Vessels reporting to Puerto Ordaz to load o should have holds and cargo compartments broom clean and rea to receive cargo. Considerable time will be gained if this requi ment is met prior to reporting.

(*c*) *Hatches:* On arrival at Puerto Ordaz all hatch boards or po toons, beams, tarpaulins, steel battens, wedges, etc., should b stowed on the port side of the hatch. This will keep the hatch ge cleaner and lessen the work of the ore handling clean-up gang.

(*d*) *Ballast:* In order to lose no time with the loading operation as well as preventing short-lifting, all ballast should be pumped o before arrival at the dock. Use utmost caution not to pump oil sludge overboard in the port area. The Orinoco Mining Company Ships' Agency Representative will contact vessel on arrival and will assist in every way possible.

4. **Departure**: All vessels which have completed loading at Puerto Ordaz and have received the latest river information from the port officials, and are ready for their river transit in every respect, will proceed outward via the Orinoco Waterway, disembarking the Pilot at mile 31. Once the Pilot has disembarked, vessels shall proceed over the South (dredged) channel to mile 0, and exit the waterway.

**TANKERS**: See "Punta Cuchillo".

**MEDICAL**: There is a hospital at Puerto Ordaz which will admit seamen requiring hospitalisation.

**FRESH WATER**: Drinking water is available alongside the dock.

**FUEL**: Bunker "C" and diesel oil is available.

**CONSULS**: An Italian Consulate Agent at Puerto Ordaz, nearest consuls for other countries at Cuidad Bolivar or Caracas.

**REPAIRS**: Minor emergency repairs may be carried out in the shops of the Orinoco Mining Company.

**TIME**: The legal time of Venezuela, which is four hours behind Greenwich Mean Time, shall be used in Pilotage Zone No. 1 of the Orinoco River.

**SHORE LEAVE**: Permitted, but it is mandatory that all crew members should report back to their respective ships before sailing time.

**GENERAL**: 1. *Ore Loading Equipment*: The ore handling and loading equipment installed on the pier has a speed ratio of 6,000 long tons of ore loaded per hour. Due to this great loading capacity the vessel's mooring lines must be tended at all times.

2. *Handling Facilities*: A movable 110-ton, rail mounted stiff-leg derrick is installed on the dock for the handling of general cargo.

3. *Provisions*: Small amounts of fresh provisions are available.

4. *Surveyor*: The American Bureau of Shipping has a non-exclusive surveyor in Puerto Ordaz. Lloyds has an agency in Ciudad Bolivar with a branch office in Puerto Ordaz, and will appoint surveyors upon request.

**AGENTS**: Mailing Address: Orinoco Mining Company, Apartado 2736, Caracas, Venezuela. Cable Address: Oconiro, Caracas.

The Orinoco Mining Company acts as ship's Agent for all vessels consigned to load iron ore at Puerto Ordaz. This function is performed by the Superintendent, Traffic & Ship's Agency and his staff, whose offices are located adjacent to the loading dock at Puerto Ordaz.

*Section D*

## PUNTA CUCHILLO, (Puerto Ordaz Terminal): 08.20 N. 62.47 W. (See Plan)

*N.B.* See "Orinoco River" for all important entry requirements. Specific details relevant to Punta Cuchillo only are as follows:

**OPERATORS**: Phillips Petroleum Company.

**LOCATION**: Phillips Petroleum Company terminal and dock is located near Mile Post 192 on the South side of the river.

**PILOTAGE**: Government Pilot will pilot vessel to Puerto Ordaz. In some cases this same Pilot will act as Mooring Pilot and dock vessel at Phillips' terminal. If River Pilot does not also act as Docking Pilot, the River Pilot will disembark at mile 178 during low water, and mile 183 in high water, and a Docking Pilot will embark and take the vessel to mooring.

Pilots are obtained at the G7 buoy of the old channel, which is the same as Buoy 27.7 of the new channel and is located five miles West of the old lighthouse at Punta Barima at lat. 08° 36′ 00″ N., long. 60° 30′ 40″ W. It is important that vessels pass this buoy and be in sight of the Pilot Station (one mile E.S.E. of Punta Barima Lighthouse), as pilots will not proceed to the vessel until it has been sighted.

**RADIO**: The cable address for Phillips Petroleum Company, Caracas, is Filven. Messages to the Phillips Petroleum Company's Puerto Ordaz Terminal should be addressed to Alcoa Steamship Co. Inc., Puerto Ordaz. Cable address: Alcoaship, Puerto Ordaz.

Vessels diverted at sea to Puerto Ordaz (Phillips Terminal) which do not have a Venezuelan clearance on board, must advise Zlcoa, Phillips Petroleum Company's Agent at Puerto Ordaz, by radio as soon as they receive their orders to change destination. The following information must be given: Master's name, vessels flag, net tonnage, last port of call, port to which originally cleared and ETA. This information is required in order that inward clearance may be arranged with government officials in ample time prior to vessel's arrival. In absence of this information, vessel will be subject to a fine.

**MAX. SIZE**:

| Gauge Reading | Maximum Draft | Tide Required at Bar |
|---|---|---|
| 12–14 ft. | 33 ft. | None |
| 14–17 ft. | 34 ft. | None |
| 17–20 ft. | 35 ft. | None |
| 20–23 ft. | 36 ft. | None |
| 23–26 ft. | 37 ft. | None |
| 26–29 ft. | 38 ft. | None |
| 29–32 ft. | 39 ft. | None |
| 32–35 ft. | 40 ft. | None |
| 35–38 ft. | 41 ft. | ½ of high tide |
| 38–41 ft. | 43 ft. | ½ of high tide |

**HEALTH**: Vessel will be boarded by the Public Health Doctor in the stream off San Felix or Puerto Ordaz or occasionally at the Phillips Terminal. If he boards before docking, an accommodation ladder should be rigged and ready when he approaches, as he will not come up a pilot ladder.

All Masters, members of the ship's crew, and passengers, if any, are required to have in their possession individual smallpox vaccination certificates. If this requirement is not complied with, a serious delay may result in the dispatch of the vessel.

**BERTHING**: The dock at the terminal consists of a docking platform, two breasting dolphins and two mooring dolphins. The docking platform is connected to shore by a 10 ft. causeway capable of carrying a light truck.

At mean low river stage, water depth at the face of breasting structures is 40 ft. The bank rises sharply from face of dolphins toward shore. The 40 ft. depth contour extends parallel to shore for a considerable distance upstream and down stream from the dock, allowing a flat approach angle.

Current is negligible during low river stage and is approximately 6 knots at midstream at high river stage. Current runs generally parallel to the face of the dock at the dock site.

Top of dock elevation is 45 ft. above low water stage. Buffering system extends from a point below low water stage to a point immediately below top of dock. Nothing should overhang the shoreward side of the vessel when docking during the lower stages of the river. The buffering system is designed to accommodate forces exerted by a vessel of 47,000 tons displacement, approaching the dock with a velocity component perpendicular to the dockface, of ½ ft. per second.

Bollards for vessel's lines are provided at the mooring dolphins and at the breasting structures. Mooring dolphins will safely withstand 200,000 pounds of mooring line tension.

Phillips Petroleum Company facilities include a 24 in. diameter submarine pipe-line which crosses the river a short distance downstream of the dock. The crossing is marked by triangular-shaped signs on both banks of the river. Masters are cautioned against use of vessel anchors in this area.

The terminal pumps are capable of loading oil aboard ship at the rate of approximately 14,000 barrels per hour.

**INWARD CLEARANCE FOR DIVERTED VESSELS**: Vessels diverted to Puerto Ordaz to load cargo should submit all documents, except consular mail, which they will not have, In lieu of this, they should submit four copies of the cable to divert, leaving enough space for the translation in Spanish. Vessels diverted at sea to Puerto Ordaz (Phillips Terminal) which do not have a Venezuelan clearance on board must advise ALCOA, Phillips Petroleum Company's Agents at Puerto Ordaz, by radio as soon as they receive their orders to change destination. The following information must be given: Masters name, vessels flag, net tonnage, last port of call, port to which originally cleared and ETA. This information is required in order that inward clearance may be arranged with government officials in ample time prior to vessels arrival. In absence of this information, vessels will be subject to a fine.

**SAFETY**: The following is a condensation of the safety precautions that should be observed when the vessel is alongside the dock:

(i) All passageway doors leading to the cargo deck areas are to be kept closed during cargo-loading operations.

(ii) Ship's firefighting equipment must be kept ready at all times while berthed at Phillips dock.

(iii) Smoking or carrying lighted or unlighted pipes, cigars or cigarettes on the weather decks of the vessel, or on the dock, is strictly prohibited under all circumstances. Masters are requested to instruct their crew not to throw lighted cigars or cigarettes over the side or out of the portholes.

(iv) An efficient watch must be maintained on deck and in the engine-room on the vessel, and a sufficient number of men must be on board at all times to move the vessel any time, in case such is required.

(v) If the galley is located near oil-handling operations of any nature, the skylight lids should be kept down and secured to prevent the galley being sprayed with oil in the event of a burst hose.

(vi) Ventilators in the vicinity should be turned away from the scene of operation.

**TUGS**: The use of tugs is necessary in docking and undocking manoeuvres of boats at this Marine Terminal. Alcoa has a 2,100 h.p. tug available for this service. A tie-up launch will be provided to assist in the mooring of the vessel, and will handle all the mooring lines before and after loading.

**LOADING**: Phillips Petroleum Company Lot 9 Monagas crude is the only cargo available at the Puerto Ordaz Terminal. This crude has an API gravity of 11·9° to 12·5°F. (6·490–6·517) U.S. barrels per long ton. This cargo must be heated to approximately 140°F. in order to attain normal discharge rates.

Loading is accomplished through three 10 in. hoses provided with 10 in., 150 lb. ASA flanges. Hoisting gear is provided for handling the hoses. A dock crew will connect the cargo hoses and disconnect them on completion of loading. Some adapters and other tools are available on dock. The oil will be loaded at an elevated temperature.

Precautions, as are common for any heavy oil, should be taken to ensure that no ballast water is left in any tank to be filled with this oil. If the cargo is contaminated with water, the water will not separate from the oil. The salt content of the oil will be raised approximately 10 lb. per 1,000 barrels for every 0·10% contamination by sea water.

All cargo compartments must be stripped dry. Cargo pipe-lines should be drained and/or purged of water.

There is no provision at the Puerto Ordaz Terminal for disposal of dirty ballast or tank washings. Tankers bound for Puerto Ordaz for loading must dispose of all dirty ballast and tank washings before entering the Orinoco River.

Prior to proceeding to sea, all butterworth plates, cargo tank hatch covers and ullage plugs should be inspected to ensure against entry of salt water.

**FRESH WATER:** Fresh water is available ex-barge; cable advice of 24 hours is required. Dry provisions may be obtained in very limited quantities.

**FUEL:** Bunker fuels are available at all hours from Astilleros Orinoco C.A., who operate a floating storage and blending facility in the Orinoco River. Bunker fuels may be received at Phillips dry dock while loading crude. Fill cargoes can be made available.

**TIME:** GMT minus 4.

**MEDICAL:** Medical assistance can usually be arranged, particularly in the case of an emergency.

**REPAIRS:** No major repair facilities are available. However, small repair jobs can be taken care of through local machine and electrical shops, and shore labour can be obtained if required.

**AGENCY:** Phillips Petroleum Company uses Alcoa Steamship Company, Inc., Puerto Ordaz, as its Agent in the handling of all papers and documentation connected with the ship's business. Alcoa will also help the ship's Master in providing required land transportation, limited provisions, or any other assistance that may be required for the operation of the ship's normal business. Alcoa will also assure that the ship's requirements are met in regard to Sanitary Inspection, Customs Inspection and Guardia Nacional.

## PERTIGALETE: 10.15 N. 64.34 W.

**LOCATION:** Situated in a sheltered bay about 2 miles East of the port of Guanta, or about 4 miles from the pilotage zone situated in the North.

**PILOTAGE:** The pilotage zone in Pozuelos Bay is the same as for Guanta, i.e. an area situated between the islands of Borracha and Chimana, in the Bay of Pozuelos (formerly called Bergantin Bay).

From the pilotage zone for the port of Guanta/Puerto La Cruz, the private pier Pertigalete is to be approached by sailing between the Isla de Plata and the island of Cachicamo. Pilotage is compulsory in and out and is performed by well-trained government Pilots. The navigation is considered very safe.

**MAX. SIZE:** The depth of water for ocean-going vessels alongside the Pier is 20 ft. (shore side) to 40 ft. (sea side).

**BERTHING:** The private pier in Pertigalete for berthing ocean-going vessels is up to 150 metres (492 ft.) long. The apron is ample and allows easy manoeuvre of trucks with cement. On the same pier the cement factory is regularly receiving raw material and machinery, but the berthing is along the West side of the pier for coastwise trade, so does not interfere with operations for ocean-going vessels. There are chutes, conveyor belts from the nearby silos, and a heavy crane.

**TUGS:** Available from inward clearance port at Guanta/Puerto la Cruz.

**TANKERS:** Berth at private wharf at Pamatacualito, operated by Baroid de Venezuela SA.

Length of berth 113·60 metres, depth alongside 10 metres.

**LOADING:** The cement factory is able to deliver to the pier 2,000 to 2,300 bags per hour, to be loaded simultaneously into arrived vessels. According to experience load rate is about 300 bags per hour and gang by steam winches, and about 400 bags per hour and gang by electric or hydraulic winches.

**STEVEDORES:** Loading operations are performed exclusively by the personnel of the cement factory. Winchmen are also supplied by the cement factory. All costs, including overtime, are for account of the cement factory, inclusive of stowing and trimming the vessel.

Under normal conditions on Saturday afternoon there is no work, but almost without exception the cement factory works overtime on Saturdays if by doing so the vessel can be despatched that day. On holidays, if circumstances call for urgent operation, the cement factory has the option to work overtime. Work on Sunday is prohibited.

**AUTHORITY:** Private pier of C. A. Venezolana de Cementos and is under the jurisdiction of Customs and Harbour Master of Guanta/Puerto La Cruz, Eastern Venezuela. All charter business and general administration is covered by Caracas Headquarters of C. A. Venezolana de Cementos.

**AGENTS:** Head Office (Direction and Control), Brokers Chartering and Tramp Agents, Victor H. Selinger, PO Box 1632, Caracas. 101, Venezuela. Cables: "Selvic" or "Seltank". Tel. 81.25.28, 81.86.38, 81.28.78. Telex: 22859, 21402, 21631.

## PUERTO CABELLO: 10.29 N. 68.07 W.

**PILOTAGE:** Pilotage is compulsory and vessels have to wait for Pilot in the pilotage zone, West and North West of the port entrance (South West of Punta Brava).

**MAX. SIZE:** Bulk Cargo Pier: up to 32 ft. draft. Inner Port: up to 28 ft. draft.

**TUGS:** The use of tug-boats within the port is compulsory both for entering and leaving port, as well as for manoeuvres in the port basin, for foreign flag ships over 300 tons.

**BERTHING:** The port entrance is 100 metres wide in direction West to East. Berth No. 1 and half of Berth No. 2 are along the same entrance channel, where ships are berthed only as an exception or when the port is rather congested. The total length of the North (main) Pier for the berthing of ocean-going vessels is 1,025 metres, room enough for six to eight vessels. For administrative reasons the pier is divided into eight berths of about 128 metres each. Between berths No. 2 and 3, the pier is bent Southwards. Along the pier there are warehouses which under normal circumstances provide sufficient indoor space.

Along the East Pier, of 350 metres length, there are no warehouses. This pier gives berthing facilities to three or four middle-sized vessels.

Along the South Pier, of 500 metres length, there are two warehouses. This pier is exclusively used for coastwise shipping, fishery and small craft in general.

The dredged channel along the East Pier is only 80 metres wide. This is the only channel which connects the main basin of the port with the South basin of the port, the latter served through the South Pier.

**BULK-HANDLING FACILITIES:** 400 metres long new pier designed exclusively for the handling of bulk cargoes.

This bulk cargo pier has an apron of about 25 metres and allows ships with a draft of 10 metres at any time.

Ships moored along this new pier are not able to take water there, but have to be shifted to the general cargo piers in the port of Puerto Cabello.

There is no telephone installation on the new pier.

At a later stage there will be erected silos for grain, chemicals, fertilisers and likely also storage tanks for liquid cargo and other installations for the handling of all kinds of bulk cargo.

Tug-boat service and assistance of Pilots is compulsory to negotiate the distance to and from the bulk cargo pier.

General cargo is not allowed to be handled at this pier. There are no cargo handling facilities whatsoever and no kind of rolling equipment either. All the vessels, unless they have up-to-date discharging equipment of their own, have to provide derricks of minimum 5 tons capacity to support the SKT discharging equipment of receivers. The cargo is discharged in bulk cargo trucks, fully closed and with only rather narrow manholes for the SKT arm.

**TANKERS:** About 2 miles East of the port entrance, Shell has a bunker terminal called Borburata. Heavy fuel oil, gas oil and diesel oil are supplied upon prior arrangement. Borburata belongs to the jurisdiction of the Ports and Customs Authorities of Puerto Cabello. Governmental Pilot is compulsory for calling at Borburata. If the vessel is cleared outward at Borburata the governmental Pilot is to be brought back by automobile to the pilot station in Puerto Cabello.

For the time being, vessels piloted into/from Borburata only between 0500 and 0600 hours.

Ships of about maximum 425 ft. length, drawing not more than 24 ft. Vessels longer than 425 ft. may be handled provided the Captain and/or Owner's Agent are ready to assume full responsibility in writing, by letter, to be filed with the Harbour Master.

**STEVEDORES:** *Straight time:* Monday to Friday: 0700–1100 hours and 1300 to 1700 hours.

*Overtime:* Monday to Friday: 1800 to 2300 hours. Normally overtime beyond 2300 hours is not permitted.

*Relief Gangs:* Obtainable, if there are not too many ships working in the port at a time, for the hours from 1100 to 1300 and 1700 to 1800.

*Work on Sunday:* Not permitted except for passenger vessels, and considered as such are those carrying more than 60 passengers and with a medical doctor on board.

*Saturday afternoon work:* Not permitted. But if a vessel can terminate operation and sail with a maximum of three additional hours' work, a special permit can be obtained from Customs and Port Authorities. In such case, the additional working hours are considered straight time work.

**FRESH WATER:** Water is supplied through pipe-line on the pier, day or night.

For night work, a special gratuity to watermen is customary.

The drinking water in Puerto Cabello is tropical treated, well-filtered and wholesome.

Every vessel of over 600 tons net calling at Puerto Cabello, and other ports in Venezuela, should arrange to take water only at Puerto Cabello in order to avoid double water dues.

**OPENING/CLOSING HATCHES:** Is not performed by the National Port Services, but instead either the ship's crew or hired assistance labour must be used. Recommended that ship's crew open and close hatches.

**REPAIRS:** The adjacent Naval Yard, the entrance to which is within the main ports, opposite the North Pier, is equipped for minor repairs both on engine and hull. For emergency purposes, the dry dock could be used. Its capacity is for ships up to 30,000 to 35,000 tons. All repairs on the hull are effected by a special crew transferred from the Naval Yard.

At the dry dock there is one crane of 15 tons capacity. Within the Naval Yard there are two slipways for ships of 125 ft. maximum and 210 ft. length maximum respectively.

Venezuelan Navy ships always have priority.

**AGENTS:** Head Office (Direction and Control). Brokers, Chartering and Tramp Agents, Victor H. Selinger, PO Box 1632, Caracas, 10 Venezuela. Cables: "Selvic" or "Seltank". Tel. 81.25.28, 81.86–3 81–28–78. Telex: 21402, 22859, 21631. New Boe Code. Local Office PO Box 108, Puerto Cabello T31. Tel. (042) 2866, (042) 3088. Cables: "Selvic" or "Seltank".

## PUERTO DE HIERRO: 10.38 N. 62.05 W.

**DOCUMENTS:**

Last Port Venezuelan Consulate Clearance.
6 Crew Lists.
6 Passenger Lists.

6 Stores Lists.
6 Narcotic Drugs Lists.
2 Health Declarations (forms provided and filled by doctor on arrival).
Smallpox Vaccination Certificates of Crew.
Derat Certificate.

**PILOTAGE:** Pilot boards at sea buoy 10° 37′ N., 62° 06′ W. If no pilot boat meets vessel on arrival, ship must anchor to wait orders. Send 72, 48 and 24 hour ETAs to cable address "Transterm Guiria". Vessels should anchor in the vicinity of sea buoy. No radio-telephone available.

**ANCHORAGE:** Vicinity of sea buoy. Good holding ground.

**RESTRICTIONS:** Vessels may have to wait at anchorage until slack water for docking when tide/current is strong.

**MAX. SIZE:** Dock, East berth: 30 ft. at low water 33 ft. at high water 690 ft. length, 90 ft. beam. Dock, West berth: 19 ft. at low water, 32 ft. at low water. 600 ft. length, 60 ft. beam.

**HEALTH:** Doctor boards at berth and grants pratique. Any suspected disease or fever to be reported at that time. Vessels arriving from a Venezuelan port do not require pratique.

**RADIO:** La Guaira, Venezuela.

**TUGS:** None available.

**BERTHING:** Berthing at times limited to slack water period depending on strength of tides. Pilot will advise.

**STEVEDORES:** Bulk cargoes: discharging rate 700/800 tons p/h., loading rate 800/1,000 tons p/h. No facilities available for handling general cargo.

**MEDICAL:** No notice required. Venezuelan Navy Hospital with limited medical assistance.

**TANKERS:** No oil carriers.

**DENSITY:** Low water – 1020. High water – 1023.

**FRESH WATER:** Available in limited quantities at berth. Rate of delivery 30 tons p/h.

**FUEL:** In an emergency. Esso diesel fuel medium, specific gravity at 60°F. 0.85, API gravity at 60°F. 35, viscosity SSU at 100°F. 37, viscosity engler at 20°C. 1.40.

**DEVELOPMENTS:** Possibility of increasing draft to 42 ft. at loading berth, and to 30 ft. at discharging berth.

**CUSTOMS ALLOWANCES:** Two cartons of 200 cigarettes each or equivalent in tobacco. Two ¾ litre bottles.

**IDENTIFICATION CARDS:** Issued locally by Navy on arrival.

**REPAIRS:** None. Small company workshop.

**CONSULS:** None.

**AIRPORT:** Nearest airport (one hour voyage on launch) is Guiria with two weekly flights to Caracas and the same number to Port of Spain, Trinidad. Next nearest (one hour launch plus two hours car) is Carúpano with four daily flights to Caracas.

**TIME:** GMT minus 4 hours. Permanent.

**HOLIDAYS:** Cargo worked 24 hours a day, 365 days a year.

**GENERAL:** The whole of Puerto de Hierro is a Venezuelan Navy Supply Base. The dock and cargo installations are operated by Puerto de Hierro, S.A., a subsidiary of Caribbean Steamship Company, S.A. Only bulk cargoes transhipped by Caribbean Steamship are handled.

**AUTHORITY:** Puerto de Hierro, S.A., c/o Agencia Miguel Petrosini, Campo Creole, Guiria, Estado Sucre. Cable: "Transterm Guiria" Tel. 109 of Guiria.

## PUERTO LA CRUZ, (Puerto La Cruz Terminal): 10.13 N. 64.38 W. **(See Plan)**

**OPERATORS:** Mene Grande Oil Company. Postal Address, Apartado 709, Caracas, Venezuela. Radio Address, Meneg, Puerto la Cruz. (Venezuela).

**FLAG:** Venezuelan flag must be displayed from the foremast when entering zone as well as in docking operations. At all other times the Venezuelan flag must be displayed between sunrise and sunset.

**LOCATION:** Puerto La Cruz located on Pozuelos Bay on the North-east coast of Venezuela. Its harbour is well protected by numerous islands against sea currents. The hurricane path is several hundred miles to the North and has never affected the flow of navigation in the Puerto La Cruz area.

The light-house marking the entrance to Pozuelos Bay is located: Latitude 10° 18′ 18″ North, Longitude 64° 41′ 7″ West. Visibility is 20 miles.

**DOCUMENTS:** Arrival clearance is effected on board vessel shortly after docking by Government Officials and a representative of the Company. The following documents are required:

1. Ship's Register.
2. Dispatch issued by Venezuelan Consul at last port (1 copy).
3. Ballast Manifest (1 copy).
4. Crew List* (6 copies).
5. Passenger and Baggage List, if any (5 copies).
6. List of Passengers in Transit, if any (5 copies).
7. List of Personal Effects (4 copies).
8. Store List (5 copies).
9. List of Slop Chests (4 copies).
10. Sailing Permit issued by Marine Authority at last port of call.

* Store List should indicate separately all deck, engine and cabin stores.

**PILOTAGE:** The use of Government Pilots is compulsory for all vessels entering or leaving territorial waters. The Company will arrange for this service at all times. If it becomes necessary for the Master of the vessel to disregard Pilot's orders in order to ensure safety of the ship a written report from the Master shall be submitted promptly to the Government Port Captain in Spanish. Meneg will assist in translation, when necessary.

The zone for Pilot to board or to anchor awaiting Pilot is delineated by the following three lines: South by parallel 10° 15′ N., East by meridian 64° 40′ W., and West by an imaginary line from Punta Puinare on Isla Chimana del Oeste to the North point of Morro de Barcelona.

When ready to dock, a Pilot will be despatched by launch to ship

**MAX. SIZE:** No limitation is placed on width of tankers. Ships up to 1,000 ft. in length can be turned around in the inner harbour area. Max. safe draft alongside (berth No. 5) is 55 ft.

**HEALTH:** In theory the Government Port Doctor is to board each incoming vessel and board only outgoing vessels which carry passengers. In practice, however, the doctor boards at his discretion.

Ships cleared between the hours of 5 p.m. and 8 a.m. Mondays through Fridays and all day Saturday, Sundays and holidays are charged by Immigration Service for the issuance of shore leave passes. There is no charge for this service from 8 a.m. to 5 p.m. Mondays through Fridays. Transportation and immigration clearance fees on movement of seamen are billed at cost.

**RADIO:** Masters are requested to advise Meneg Puerto la Cruz by radio 48 hours in advance of estimated arrival outlining vessel's name, date and hour of arrival, bunkers and cash required, if any. Vessels may contact the terminal by radio-telephone on any of the following frequencies: 2080 kc., 2120 kc., 2182 kc., 2638 kc., and 2738 kc and VHF channel 16. There is standby attention 24 hours a day to all frequencies mentioned.

Notice of diversion at sea, not received prior to arrival of vessel, subjects ship to incontestable fine from the government.

Ship-to-shore radios are installed on the oil dock and on both tugs. A 350-watt AM transmitter-receiver operates on the following frequencies which are monitored 24 hours a day: 2080 kc. 2120 kc., 2182 kc., and 2738 kc. VHF Channel 16 for calling.

**TUGS:** Two-tug service is compulsory by law in this port. The Company has available a first-class diesel-electric tug of 1,600 h.p. and a contract tug of 2,100 h.p.

Tug assistance is charged from the moment the tugs leave their mooring, after having been requested, until they have returned and made fast. In other words, time is charged during the entire period the tugs are at the service of the requesting vessel, whether or not the latter is under actual manoeuvres. Generally, the Pilot will not commence movement of the vessel until he is assured that the tugs are standing by.

**BERTHING:** The loading facilities consist of five berths. Products available and safe draft are as follows:

| | *Berth 1* | *2* | *3* | *4* | *5* |
|---|---|---|---|---|---|
| Crudes | × | × | × | × | × |
| Heavy fuel oil | | | | | × |
| Refined products | | | × | × | |
| LPG | | × | × | | |
| Bunker "C" fuel | × | × | × | × | × |
| Diesel fuel | × | × | × | × | × |
| Intermediate fuels | × | × | × | × | × |
| Fresh water | × | × | × | × | × |
| Max. safe draft | 38′ | 38′ | 38′ | 38′ | 55′ |

Upon arrival at dock the following rules must be observed:

(*a*) Masters must ensure that mooring lines are properly tended during the discharge of ballast and loading of cargo, and that sufficient personnel is on board at all times to handle same. Discharging or loading will be temporarily suspended upon infringement of this regulation.

(*b*) Masters are requested to remove the blank flanges from their vessel's loading manifold before docking, so as to expedite the connecting of the shore hoses by company personnel. Vessels using berth No. 5 are also requested to have their derrick and gangway ready for use.
*Note:* Vessels normally dock with starboard side to dock.

(*c*) While docked, circulating sea water, hot water or steam on starboard side of ship is prohibited. Hot water or steam may activate the automatic sprinkler system as well as damage piping located under the dock surface.

(*d*) Rat-guards must be placed on all ropes connected with the shore.

(*e*) Heavy exhaust smoke from vessel's smoke stack is not permitted. Any infringement of this rule will result in Government fine and/or removal of ship from dock.

(*f*) Meals must be provided in officers' mess-room for Venezuelan National Guard personnel who may be assigned to the vessel during stay in port.

**LOADING:** After the vessel has been cleared, the Company Dock Supervisor on watch will give the Master of the vessel written instructions as to grade or grades of cargo, loading rates, information on size of hoses and lines, and other information pertinent to the loading of the vessel.

During loading operations, company employees are on watch to administer to the needs of each vessel.

Upon termination of loading cargo, hoses are normally displaced with air at controlled rates prior to disconnecting. If the ship's officers request that the alternate procedure of draining hoses be effected, shore personnel will be happy to comply provided the following steps are observed by ship's officers:

1. Advice be received prior to termination of loading cargo.
2. Ship's receptacles be situated to receive oil drained on board. It should be noted that heavy fines are imposed for spills or overflows which contaminate the bay.

Shortly after completion of loading company personnel will take ship's ullages and, later, deliver cargo and sailing papers to an officer of the vessel.

Ships must vacate berth upon completion of loading and await papers at anchorage if the berth is needed for another vessel. The Dock Supervisor on duty will advise ship's officer of this matter.

**MEDICAL:** All requests for medical or dental treatment must be accompanied by a written request from the Master to the Company Dock Supervisor on duty. The Company makes available to ship's personnel the same clinic which has been designated for its employees. Seamen requiring medical attention should first contact the Company's Dock Supervisor who will provide them with a medical order and also provide transportation to and from the hospital.

In the event of hospitalisation, and after a seaman has been discharged, he must rejoin his vessel if it is still in port. Otherwise, he will be lodged in a hotel pending instructions as to his disposition.

Company doctors do not visit ships. If medical attention is required aboard ships, the Government Port Doctor will board and attend the patient.

**BALLAST:** Although climatic conditions in Puerto La Cruz are relatively mild, vessels should arrive with sufficient ballast to permit safe handling. Venezuelan regulations strictly prohibit the pumping overboard of dirty ballast while vessel is in sight of land. All ballast must be pumped ashore with the exception of vessels especially equipped with clean segregated systems which are reserved for ballast only. Vessels so equipped will be permitted to pump overboard after first being inspected and approved by shore personnel. Heavy fines are imposed for pollution of waters and industrial fishermen are quick to report any infringement. Maximum discharge pressure to shore installations is 90 psi. through the 16 in. line which dumps into ballast lakes approximately 300 metres south of dock.

**FRESH WATER:** Fresh chlorinated water is available at an average rate of approximately 10 tons per hour. Total volume of water that can be supplied during the normal period alongside averages about 150 tons. As water is not held in special reserve for vessels requirements but supplied from Terminal water system, availability may be limited dependent on time of year and other conditions.

**FUEL:** The terminal is not a general bunker station. Only ships loading petroleum may take bunkers.

Bunker "C", heavy diesel fuel and complete range of intermediate fuels are available in quantity. Delivery rates to the ships are approximately as follows: Bunker "C", 200 tons per hour; heavy diesel, 150 tons per hour; intermediate fuels, 150 tons per hour.

Whenever a vessel takes bunkers the Master or Chief Engineer, or whomever they may appoint, may inspect the shore tanks and meters to satisfy themselves as to quality and quantity. Meters are installed on all bunker systems with the exception of light diesel, and the master meter has been certified by E. W. Saybolt & Company.

Gas oil for galley fuel is supplied only by tank truck or in barrels through local suppliers. Quantity is limited to 15 tons maximum.

The dock valves on the bunker lines will only be opened and closed upon advice from the ship's personnel.

Bunkers are delivered concurrent with the cargo.

**CUSTOMS:** Crew members should be warned against taking knives or other lethal weapons ashore, as this is strictly prohibited. All firearms and ammunition must be noted on stores list. They cannot exceed one per officer nor 18 cartridges per gun. No arms may be carried while ship is in Venezuelan waters or tied up at dock. Contraband of any description will be confiscated. Each man is allowed one package of cigarettes on his person and this package must be opened. No liquor is to be taken ashore. It is prohibited to carry liquor from shore to ship without authorisation from captain of vessel. It is further strictly prohibited to consume liquor in dock area.

It is normally forbidden to take photographic cameras ashore. However, upon written request to the National Guard contingent on the oil dock, special permission may be obtained. This is subject to two limitations: one, that the camera is returned to the ship; two, that no photographs are taken of the petroleum installations.

**IDENTITY CARDS:** Passes for shore leave are issued by the officials of the "Capitanía de Puerto", who board with the Customs authorities upon the vessel's arrival at dock. These passes are valid for the duration of the vessel's stay in port and must be returned before sailing to the guard assigned to the vessel.

In order to comply with Immigration Regulations, crews should be carefully checked before sailing, and any missing seamen reported to the Dock Supervisor. Crew members left behind when the vessel sails will be held in custody until deported at the vessel's expense.

**CONSULS:** The following foreign countries have consular offices in the vicinity of Puerto La Cruz:

Belgium
Brazil
Colombia
Denmark
France
Great Britain
Italy
Norway
Sweden
The Netherlands
Dominican Rep.

Dock personnel should be apprised of vessels' consular requirements promptly upon docking. Transportation, if necessary, will be furnished by the Company for this purpose.

**REPAIRS:** Request for repair work by local contractors must be accompanied by a written request from the Master of the vessel.

**REPATRIATION:** Seamen discharged from hospital for transfer to another port, seamen arriving from another port or those being repatriated are handled by company personnel without charge. However, hotel, transportation, government and handling fees are billed at cost.

In the case of seamen left ashore for any reason, Masters are requested to furnish a letter accepting responsibility for all expenses incurred, advances if any, and instructions for repatriation. Venezuelan regulations, at all times, hold the vessel responsible for seaman during his stay in the country. Close contact is maintained by radio with ship owners regarding disposition of their seamen.

**AIRPORT/MAIL:** With the exception of Saturdays, Sundays and holidays there is daily airmail and airfreight service to and from Puerto La Cruz.

Mail handed to company representatives for posting shall be separated by "ship" and "crew". Separate charges will be noted on disbursement account. The Company will not, however, keep a record of postage expense of any individual. This is the responsibility of the Master.

About 75% of all ship's mail received is eventually reforwarded or returned. This is due to late receipt of mail, diversion of a vessel or cancellation of a scheduled trip. The following rules have been set up to eliminate any misunderstanding between the Company and interested parties:

1. Mail arriving for a ship on which *no advice whatsoever* has been received will be kept for thirty days and thence returned to the point of origin. A bill for postage will be sent to the interested party.
2. Mail arriving for a ship which has already sailed, and on which *no forwarding instructions* have been left by the Master of the vessel, will be retained for thirty days and thence returned to the point of origin. Postage costs will be charged to the disbursement account of the interested vessel.
3. When parts and machinery are received for a vessel which does not arrive within a reasonable period of time, we will advise the sender of the material on hand. If no instructions are received from the sender of the material, we will not be responsible for disposition of material. Air express packages usually arrive through Maiquetra Airport which is 200 miles distant from Puerto La Cruz. Receipt and transshipment of air express packages to Puerto La Cruz usually take several days. Shippers should, therefore, not expect one day service within Venezuela and should time their shipments accordingly.

**TIME:** GMT minus 4 hours. Permanent.

**REGULATIONS:**

*Excessive Smoke.* It is absolutely prohibited to exhaust heavy smoke through a ship's funnel while tied up at the Company's dock. It is also prohibited to blow boiler tubes. Failure to comply with this regulation will result in any or all of the following actions:

1. Vessel's discharge of ballast or loading of crude or products will be immediately shut down.
2. Vessel will be subject to fine from authorities.
3. Vessel may be removed from dock.
4. Owners will be advised of infractions of this regulation.
5. Fines, time lost, and other related expenses will be charged against the vessel.

*Pollution*. Venezuelan laws are very strict on this subject and local authorities quickly enforce existing statutes. For this reason each Master is handed a circular that emphasises the necessity of complying with federal and local laws and customs.

The spilling or discharge of dirty ballast, crude oil or petroleum products into coastal waters is defined as pollution, as is also the throwing overboard of garbage, trash or other unwanted objects while the vessel is at anchor or dockside. Prior to the start of loading operations all discharge valves, bilges and scuppers must be closed and strict vigilance exercised during deballasting and loading operations.

When a spill does occur, the Master, Government officials and a company representative evaluate the quantity and submit a report to the Government Petroleum Inspector. This report becomes the basis for a federal fine that is practically incontestable. An additional expense occurs when local authorities require assistance in cleaning beaches and shorelines after a major spill and can pinpoint the responsible vessel or source.

**TONNAGE CERTIFICATE:** Due to reciprocal agreements between Venezuela and the following countries, ships flying the flag of any of the below-named countries exempted from Arqueo compliance and payment of fees: Denmark, England, France, Germany, Holland, Ireland, Norway, Portugal, Sweden, United States.

Ships bearing the flag of any other nation shall require a Venezuelan Arqueo Certificate. The cost of measuring is contingent on the size and tonnage of vessel. The certificate is usually issued after the ship sails from port. It is then sent to the marine department of the Owners of the vessel by airmail.

**GENERAL:**

(*a*) *Cash*. Masters are requested to consider their cash requirements carefully, as return cannot be accepted. The local currency is the Venezuelan "Bolívar". No other currency is available from the Company. Foreign exchange may be secured from local banks by interested parties. Local banks are open Monday through Friday from 9 a.m. to noon, and from 2.30 to 4.30 p.m., excepting holidays.

(*b*) *Stores*. Foreign cigarettes or other bonded stores are not available in Puerto La Cruz. There is ample supply of national and imported products through the ship chandler. During the past several years there has been improvement in the supply of fresh and canned food items. Prices are competitive due to favourable exchange rates.

(*c*) *Laundry*. Laundry service is available during daylight hours excepting Sundays and holidays, provided prompt notice is given to ship chandler upon arrival in port.

(*d*) *Charts*. No charts or sailing documents are available in the terminal. Same should be forwarded by airmail to the Company for delivery to the ship.

(*e*) *Launch*. Launch service in transporting Pilots to and from ships handling lines to dock, and for other official business is supplied by an outside firm under the direction of the Dock Supervisor. In the Puerto La Cruz Terminal no government launch is available. Therefore, the service performed for transportation of government officials is for account of the vessel, at cost. The present fee is subject to change without notice.

**PETROLEUM INSPECTORS:** E. W. Saybolt Company, Chas. Martin & Company and Redwood have resident representatives in Puerto La Cruz for independent petroleum or product inspections. Their offices are located in the dock office building located between berths nos. 1 and 2 (second floor).

**AGENCY:**

It is unnecessary to request "Agency" on vessels loading at the Company's terminal. The Company does not act as "Agent" and, also, ship's business is taken care of automatically.

Mene Grande Oil Company, as operator, charges a fixed fee for General Services. The Company does not act as Agent for a vessel, but it does render all of the services required for a prompt and efficient tanker turnaround.

Offices of Mene Grande loading and marine personnel are located on the first floor of the building between berths nos. 1 and 2. Any matter concerning loading, bunkering, mail, cash advances, medical dental or Consular requirements, etc., is handled through this office, which is open 24 hours of every day. On the ground floor of this same building is located the Documentation Section.

## PUNTA CARDON: 11.36 N. 70.15 W.

**PORT LIMITS:** The area enclosed by the parallels of 11° 38′ 00″ N. and 11° 36′ 38″ N. and the meridian of 70° 14′ 25″ W.

**OPERATORS:** Compañia Shell de Venezuela.

**FLAG:** It is compulsory to display a Venezuelan flag at the foremast starboard yardarm during daylight hours for ships anchored or berthed in Venezuelan waters. The ships Services will provide a Venezuelan flag at any time for ship's account.

**LOCATION:** The port of Punta Cardon is located on the Gulf of Venezuela, on South-west coast of Paraguaná Peninsula, Venezuela. Punta Cardon is an open sea port with practically no swell, due to the Easterly winds prevailing almost all year from the shore side.

**ESSENTIAL REQUIREMENTS:**

1. Incoming vessels must send ETA at least three days before arrival at Punta Cardon.
2. If a ship, originally cleared for another port (including any other Venezuelan port) is diverted at sea to Punta Cardon, certain information must be radioed prior to arrival in order to avoid heavy fine(s) and/or delays.
3. No dirty ballast may be pumped overside in port in Venezuelan coastal waters. Ballast disposal facilities are available at Punta Cardon Terminal.
4. The use of Venezuelan Government Pilots is compulsory for berthing and unberthing.
5. In addition to other clearance documents, five copies of an itemised list of articles in the ship's slop chest must be presented to the authorities on arrival.
6. The emergency fire signal is five long blasts on the ship's whistle or siren. No other signal is to be given in cases of emergency.
7. Rat-guards must be placed on all mooring lines.

**DOCUMENTS:** Clearance (inward pratique). Inward clearance is effected on board by Government Port and Customs Officials and a representative of the Oil Movements Department immediately after berthing. The following documents must be ready on arrival:

(1) In ballast:

*(*a*) Clearance from Last Port (1 copy).
*(*b*) Ballast Manifest from last port (1 copy).
(*c*) Crew List (7 copies).
(*d*) Steward's Store List (all foodstuff, liquors, tobacco, etc.), to be declared on a separate and independent sheet (5 copies, see note (2)).
(*e*) Deck and Engine Stores and Spare Parts List (paints, varnishes, chains, ropes, etc.), to be declared on a separate and independent sheet (5 copies, see note (2)).
(*f*) Medicine Chest Lists (including narcotics accurately itemised) (5 copies).
(*g*) Slop Chest Lists (5 copies).
(*h*) Personal Effects Lists (4 copies).
(*i*) Sailing Permit (issued by Maritime Authority at last port of call) (1 copy).
(*j*) Passenger and Baggage Lists (if any) (2 copies).
(*k*) List of Passengers in transit (if any) (4 copies).

* Documents marked with asterisk are to be visaed by Venezuelan Consular Authorities at the last port of call.

In the absence of a Venezuelan Consul the documents must be visaed by the Consul of a friendly nation, or by the Local Chamber of Commerce, or by two local reputable businessmen, whose signatures shall be notarised.

In the absence of a Venezuelan Consul the following notation should be written in Spanish on each document signed by the alternates designated above.

"Por no existir en la localidad Agente Consular Venezolano y a petición de los embarcadores, certifico el presente documento".
(Signature)

(2) Both the Steward's Store List, the Deck and Engine Stores and Spare Parts List may be prepared on board prior to the vessel's arrival. However, if the vessel is dispatched from the colonial Antilles or Guianas, these lists as well as the Personal Effects List must be visaed by the Venezuelan Consul at the port of departure. The Steward's Stores List must be comprehensive and accurate, especially with regard to cigarettes and liquor. All new clothing, gifts, souvenirs, etc. are to be clearly marked. All personal effects of the crew are to be collected and placed in the Bonded Stores Locker, ready for sealing by the Customs Authorities on arrival.

Although vessels proceed directly to Punta Cardon, clearance documents should be made out showing the port as "Las Piedras, Paraguana (Punta Cardon)". Failure to comply with this requirement may result in fines up to a maximum of U.S. $600.00.

(3) Clearance documents out-bound: Outward clearance and cargo documents are delivered on board by the Ships Services Representative.

In the event that the berth is required by another vessel, a vessel having completed loading may be required to vacate the berth promptly and proceed to anchorage to await cargo documents and clearance.

**PILOTAGE:** Pilots are employees of Venezuelan Government and pilotage is compulsory for vessels entering or leaving harbour. The Ships Services Office will arrange for this service at any time. If it becomes necessary for Master of the vessel to disregard Pilot's orders in order to ensure safety to the ship, the Master must promptly submit a written report to the Harbour Master on the matter, via the Ships Services Representative, stating the reason for his action.

Pilots sustaining injuries: It is compulsory to submit a full report in cases where a Pilot is injured while performing duties on board vessels.

**ANCHORAGE:** The anchorage at Cardon roads within a radius of 2 miles from end of jetties has depths varying from 54 to 100 ft. (LWS) and a bottom consisting of mud with some patches of small stones, sand and shells. There are no known obstructions from West to North-west of the Piers and there is ample water for a clear approach when coming from West and North-west, but the anchorage is limited on the South by a sandspit projecting 1 mile South-west off Punta Cardon Cape. A beacon is located on this sandspit in position: Latitude 11° 36′ 03.4″ North, longitude 70° 14′ 15.6″ West. Fl.R. ev. 1 sec. 17 ft. 5 miles (U).

**APPROACHES:** Restricted Fishing Area. Masters when approaching coast should keep a particularly sharp lookout for fishing boats, nets and small craft.

Mechanically propelled vessels drawing more than 5 ft. are prohibited from navigating in the restricted fishing area that extends off Paraguaná Península from Punta Macolla, latitude 12° 5′ 32″ North, longitude 7° 12′ 55″ West to Punta Estanques (Los Taques), latitude 11° 48′ 45″ North, longitude 70° 16′ 45″ West, and a line connecting the position indicated below:

(*a*) Latitude 12° 07′ 40″ North, longitude 70° 14′ 25″ West.
(*b*) Latitude 12° 03′ 15″ North, longitude 70° 19′ 23″ West.
(*c*) Latitude 11° 49′ 25″ North, longitude 70° 21′ 50″ West.

*Leading Lines*

| | *Position* | | | *Height in Metres* |

*Land Marks*

Two radio towers, very conspicuous, with micro-wave antenna at the middle painted in aluminium white, in position, Latitude 11° 38′ 03″ North, longitude 70° 13′ 56.2″ West. Height 205 ft. (62·5 m.).

*Navigation aids*

A light is located on the outer radio tower.

Position: Latitude 11° 38′ 03″ North, longitude 70° 13′ 56.2″ West.

Characteristics: Fl. White and Red, ev. 10 secs. Height 205 ft. (62·5 m.) 21 miles (U).

Sectors: Red 340° – 009°, White 009° – 009°, Eclipse 202° – 340°. (All bearings are true from seaward).

Beacon: Located on sandspit of Punta Cardon.

Position: Latitude 11° 36′ 03.4″ North, Longitude 70° 14′ 15.6″ West.

Characteristics: Fl. Red. ev. 1 sec. Height 17 ft. (5·2 m.) 5 miles (U).

Two large chimneys are very conspicuous in the Refinery Area. The North chimney is situated Latitude 11° 37′ 54.6″ North, Longitude 70° 13′ 10.8″ West. Height above MLWS 399.6 ft. (121·8 m.). The South chimney is situated Latitude 11° 37′ 52.9″ North, Longitude 70° 13′ 09.8″ West. Height above MLWS 396.3 ft. (120·8 m.). For daylight distinguishing marks, both are painted with broad red and white bands and at night both have a string of all round fixed red lights at the top and the same at the middle height.

A steel tower. A commercial radio tower is situated outside the Refinery Area in position: Latitude 11° 36′ 29″ North, Longitude 70° 13′ 42″ West. Height above MLWS 164.7 ft. (50·2 m.). This is not very visible during the day, but at night it has at the top, flashing every second, an all round Red Light, visible at 12 miles.

**MAX. SIZE:**

**BALLAST:** It is suggested that vessels nominated to load at this installation arrive with the minimum of ballast on board, necessary for the safe handling of the vessel under normal conditions. In this connection experience has shown that, under normal weather conditions, vessels can be safely berthed and unberthed with a quantity of ballast of approximately 20% of their respective summer deadweights. Clean ballast can be pumped into the sea, but Masters are reminded that pollution of the sea incurs heavy fines. Dirty ballast can be received ashore. Maximum discharge pressure to shore installation is 150 psi. in the 20 in. ballast line of Jetty No. 2; Jetties Nos. 4 and 1 have a 24 in. ballast line, and Jetty No. 3 has a 16 in. line. Masters are requested to endeavour to arrive at this port with 20% SDW ballast.

**TUGS:** Two tugs of 1,200 h.p. and 1,600 h.p. respectively are available, and their assistance is compulsory for berthing. Number, disposition and manoeuvres of tugboats are directed by the Pilot. The following tug signals in practice in this port are listed below for Master's guidance:

Short blasts are used to give orders to the tug situated ahead.

Long blasts are used to give order to the tug situated aft.

One blast means *push* tug engine, ahead (if it is stopped); *stop* tug engine, stop (if it is moving).

Two blasts, *pull* tug engine, astern.

One long, one short, one long and one short whistle, "Calling tugs".

Two long and two short whistles, "Tugs Dismissed".

**RADIO:** Arrival messages (ETA). Master of vessels bound for, or diverted to Cardon are requested to radio the following information to "Shellref. Caracas" via "La Guaira Radio", call sign YVG, 72 hours in advance of estimated arrival, or as soon as possible.

(*a*) Name of vessel
(*b*) Flag
(*c*) ETA
(*d*) Last port
(*e*) Master's name
(*f*) Number of crew and passengers
(*g*) Port for which the vessel is cleared
(*h*) Quantity of clean ballast on board
(*i*) All requirements

This information is of the utmost importance to the Harbour Authorities in facilitating the entry of vessels in general, and in case of diversion.

VHF Radio Telephony. The radio and communication centre is located in the Oil Movements Office Building situated at the foot of No. 2 Pier at a height of 50 ft. above sea level. The roof of the building is painted black and the word "Marine" painted across in large white letters.

There is a RT set operating 24 hours a day on the following frequencies, and manned by English speaking operators:

| | | | | | | |
|---|---|---|---|---|---|---|
| 156.6 | mc/sec. | FM | VHF | (Channel 12) | Range limit | 25 miles |
| 156.8 | mc/sec. | FM | VHF | (Channel 16) | ,, ,, | 25 ,, |
| 2120 | kc/sec. | AM | HF | | ,, ,, | 150 ,, |
| 2182 | kc/sec. | AM | HF | (Channel 1) | ,, ,, | 150 ,, |
| 7620 | kc/sec. | (SSB) | HF | (Channel 3) | ,, ,, | 300 ,, |

Call sign: "Marine Cardon".

Vessels not equipped with radio telephone may call the installation by signal lamp (Aldis' lamp) whereupon the service launch will be sent out to vessel to pick up any message it may have.

**BERTHING:** Without exception ships always moor head-in on all berths. It is considered prudent to have the outboard anchor hove out prior to approaching piers to facilitate speedy release while socking if necessary. Vessels are to be moored to satisfaction of the Port Services Superintendent or his deputy; mooring lines must be tended regularly and kept hove taut to prevent surging and possible damage to ships, docks or hoses. When adjusting mooring lines, the assistance of harbour tugs should be requested before slackening off any mooring line.

**MEDICAL:** Facilities are available for medical and dental treatment, vaccination and hospitalisation in a private clinic.

The doctor's working hours for out-patient treatment are as follows: Monday to Friday, 09.00 to 11.00, 14.00 to 17.00. Saturdays, Sundays and holidays, only urgent cases will be attended to.

Emergency cases will be attended to at all times.

Masters requiring medical or dental service or vaccination for their crew members should call Ships Services by dialling 2105. Our representative will make the necessary arrangements with the clinic and arrange for transportation to pick up the crew members on the pier and to take them to the clinic and back. Any crew member who is sent ashore for medical or dental treatment, and who does not speak English or Spanish, must be accompanied by a crew member who speaks one of these languages.

Doctors do not attend patients on board. In serious cases where the patient is unable to walk an ambulance will be provided to ta him to the hospital.

**FRESH WATER:** Fresh water is available at all berths. Loadi rate is 30 tons per hour.

**CUSTOMS:** Venezuelan National Guards are stationed at th piers to ensure that vessels in port comply with regulations.

1. *Smuggling*. Strict compliance with the Customs laws of th country is enforced by the Authorities and Masters are strong advised to caution crew members against attempting to smugg ashore cigarettes in carton lots cigars, tobacco, souvenirs, gi (particularly items of women's apparel) or other articles. A maximu of twenty cigarettes per person for personal use is allowed to b carried but a greater quantity will result in the imprisonment of th offender with possible heavy fines and delay to the vessel.

2. *Bar*. On Customs Authorities instructions vessels maintaining a "Bar Service" on board for the use of officers, crew, passengers and visitors, must keep the bar closed during the vessel's stay i port.

3. *Firearms*. Firearms on board any merchant vessel calling a Venezuelan ports must not exceed one per officer, nor can the am munition exceed 18 cartridges per officer. All firearms and ammunition must be declared on stores list. Officers must not carry firearms while ship is in Venezuelan waters. Said arms should be collected together with the ammunition and held in the Master's saf custody. Crew members should be warned against taking knive or other weapons ashore as these will be confiscated and the beare fined.

**CONSULS:** Brazil, Great Britain, Italy, the Netherlands and Norwa have Consular representatives in this area.

**TIME:** Local time is Greenwich Mean Time minus 4 hours.

**CERTIFICATES:** All ships arriving in Venezuelan ports for th first time must be measured by the Maritime Authorities for issuanc of a Venezuelan Tonnage Certificate, known as "Certificado d Arqueo". This document gives the measurements and weight o the vessel in accordance with existing laws. The cost of measurin and issuing of the Certificate is contingent on size and tonnage o vessel.

It is usual practice to take ashore the ship's "General Arrangement" and "Capacity" plans, which are used as a basis for calculations. These plans and the Venezuelan Tonnage Certificate an later forwarded to ship's Owners.

Vessels registered in following countries are exempt from abov regulations, due to existing reciprocal agreement with Venezuela U.S.A., Great Britain, Denmark, France, Germany, Holland, Ireland, Sweden, Norway, Portugal.

The Venezuelan Tonnage Certificate is used in calculating Venezuelan Government Port charges, such as Port Captain Habilitation for entry and despatch of vessels and Pilotage Dues, for all vessels except those registered in the countries mentioned above, in which case the Lloyd's Registered Tonnage is used.

**HOLIDAYS:** By order of the local Port Authorities it is requested that all ships in port be fully dressed on the following nationa holidays: January 1st, April 19th, July 5th, July 24th, October 12th, December 25th.

**REPAIRS:** Shore facilities are available for emergency repairs of a minor nature. The nearest dry docks are located at Puerto Cabello and Curacao, N.A. Request for repairs should be mentioned in ship's ETA message.

**SHORE LEAVE:** Shore leave is permitted and Harbour Master's representative who boards vessel on arrival issues the required number of shore passes. These passes must be shown when proceeding ashore to the Government and Company Guards at the gangway and refinery gates. They are to be collected by Master prior to sailing and handed to Pilot unberthing the vessel. Masters are reminded that in accordance with the instructions of local police, crew members be properly dressed before leaving the vessel, i.e. long trousers and shirts.

Masters are requested to have shore leave expire at least two hours before expected departure. Men then found missing should be reported to the Ships Services Office, tel. 2105, who will endeavour to locate them. An officer must accompany shore personnel in order to identify the missing crew member.

Vessels are not permitted to sail until all crew members are on board, unless said crew members are hospitalised or previously signed off by the Master through the Ships Services representative. If any crew member is missing at sailing time and cannot be found, his passport and other personal documents must be handed to the Ships Service representative, as well as written instructions as to his repatriation, when found. All costs and expenses of a crew member so left behind will be for ship's account.

**GENERAL:**

1. *Animals:* The importation and transit of all birds belonging to the genus parrot or parakeet is prohibited. For other birds a valid health certificate is required. For so-called "small animals" e.g. dogs, cats, monkeys, rabbits, etc. a valid health certificate and a valid rabies vaccination certificate are required.

2. *Bonded Stores:* Stores in bond are not obtainable in Punta Cardón. The nearest port with bonded stores facilities is Curacao.

3. *Board of Trade Gangway:* A safe gangway must be provided by the vessel and should be rigged as soon as possible after mooring to allow the Port Authorities to board, and should not be taken in until Pilot has boarded to unmoor vessel. The use of rung ladders, pilot ladders, etc. is contrary to Port Regulations and Port Authorities will not board except by means of a safe gangway or accommodation ladder.

4. *Damage during Manoeuvres:* When a vessel or the pier sustains damage during manoeuvres with an official Pilot on board, it is the

responsibility of the Master to submit to the Ships Services representatives, immediately after the accident, a report in quintuplicate, for presentation to the Harbour Master. Such reports should give full details of the accident and of all engine movements as ordered by the Pilot, as well as a sketch in triplicate of the ship's manoeuvring position at the time. These will be translated by the Agents into Spanish and forwarded to the Harbour Master.

5. *Cash Advance to Masters:* Cash advances to Masters are made only in Venezuelan currency, which is the Bolívar. Cash requirements should be included in the vessel's ETA message. Foreign currencies are accepted in the United Seamen's Service Club.

6. *Rat-guards:* By order of the Port Authorities rat-guards must be fitted to all mooring lines. Non compliance entails a fine of 200 bolivars for each unguarded line.

7. *Kerosene, Motor Gasoline, Gas-Oil, Solvents:* Supplies for ship's purposes are available in drums. The return of empty drums ashore is prohibited by Customs regulations. therefore the cost of each drum will be billed to the vessel in the Port Disbursement Account.

8. *Lubricants, Oils and Greases:* Supplies of Shell products are available. Vessels arriving at Punta Cardon on Saturday or Sunday or on a holiday should give ample notice of their requirements by cable in order that the necessary labour arrangements for delivery can be made. This procedure also applies to the delivery of white oils mentioned under 7 above, when required outside working days.

9. *Laundry Service:* Laundry service is available throughout each working day. Such service should be requested in the vessel's ETA message.

10. *Wireless Transmitters in Port:* It is strictly prohibited to use vessel's wireless transmitters in the Port of Cardon. Non-compliance with this regulation may result in a fine being imposed on the vessel by the authorities.

11. *Mail:* On vessels' arrival, blank Mail List Forms will be handed to the Master to be completed in sextuplicate and duly signed by him, when sending ship's and crew mail ashore for posting. Ship's mail received after ship has sailed, or for vessels on which no advice has been received, will be held for 15 days and then returned by airmail to the owners or operators or senders, at ship's expense unless specific instructions have been received beforehand.

12. *Marine Surveyors:* Both the Lloyd's Agents at Maracaibo and Norsk Veritas at Caracas have a representative in Punta Cardon who acts on their behalf when a surveyor is requested. However, in the case of continuous or classification surveys, advance notice of four days should be given in order to arrange for an appointed surveyor to come from Caracas. There is also a representative of the American Bureau of Shipping in this area (Caracas).

13. *Miramar Club:* Masters, chief engineers and their wives can visit the Miramar Club. For this purpose entrance passes should be requested from the Ships Services Office, tel. 2105.

14. *Manaure Bathing Beach:* The above mentioned bathing beach is open to all ship's staff and crew members.

15. *Norwegian Government Seamen Service:* A Norwegian Vice Consul and Welfare Officer is stationed at Punta Cardon, and provides the usual services to seamen of this nationality. His telephone number is 4359.

16. *Navigation Charts:* Navigation charts are not available at this port.

17. *Passengers:* Movement of passengers over Cardon Piers is subject to restriction under terms of agreement with the government. Passengers will not be permitted to disembark unless in possession of the required Venezuelan visa and travel documents. If passengers are carried, Master should so advise in his radio ETA so that arrangements can be made for Immigration Authorities to visit vessel on arrival and thus facilitate clearance.

18. *Petroleum Inspection:* Charles Martin & Co., and E. W. Saybolt, petroleum inspectors, are available in this area. Contact can be made through the Loading Supervisor (tel. 2821).

19. *Personnel – Seamen Left Ashore:* In the case of seamen left ashore for hospitalisation, repatriation, desertion or other reasons, all documents and personal effects are to be handed to the Oil Movement Department's representative before sailing. A letter is required from the Master advising the maximum advances, if any, to be made to the seaman, and instructions concerning his repatriation. All expenses incurred by seamen left ashore, including cost of repatriation, are for ship's account. It is important that Masters bear in mind that the Venezuelan law will at all time hold the vessel, her Master, or Owner responsible for any seaman left behind in Venezuela.

20. *Photographing:* The taking of photographs within the boundary fence of the Cardon Refinery is prohibited. Taking cameras ashore is likewise prohibited.

21. *Provision and Stores:* Provisions and stores are available. Requisitions should be conducted through the Ships Services Office. Telephone number 2105 or the Ships Services representative when he calls on board with the authorities on arrival. Ships chandlers are not permitted to visit ships, unless specifically instructed to do so by the Agents.

22. *Radar and Radio Repairs:* Repair and maintenance services for radar, radio, gyro compass, radio direction finder, echo sounder, etc. are available. The repair man should be contacted through the Ships Services Office, telephone number 2105.

23. *Safety of Personnel:* It will be appreciated that persons intoxicated by alcoholic drinks can create risks of accidents; therefore we ask the Master's co-operation to ensure that these persons do not enter the refinery gates and/or board their vessel unless accompanied by sober members of their crew. In this connection we will advise the Master or one of his officers, so that measures can be taken to ensure the safety of the forementioned person(s) e.g. by sending one or more of the crew to the gate to accompany him (or them) to the ship.

24. *Visitors:* Visits to ships are prohibited except from those company employees, petroleum inspectors, etc., whose duties require their presence on board.

25. *Walport Film Exchange:* Subscribers to the Walport service may exchange films at the U.S. Seamen's Club situated at the foot of No. 2 Pier, from 7.30 a.m. to 10.00 p.m. every day, by telephoning 2803.

26. *Staff and Crew Changes:* No staff and/or crew should be engaged or discharged without consulting Ships Services (telephone 2105). In case of discharge, identification documents must be handed to the Ships Services representative or the Norwegian Consular Officer in the case of Norwegian vessels.

27. *Tank Cleaning and Mopping:* Several contractors in the area provide labour for tank cleaning and mopping. Masters in need of this service should submit their requirements to our Ships Services Office (telephone 2105), who will contact and request a contractor to go on board to discuss details and estimate costs of work to be effected. It must be pointed out that the Master of the vessel is solely responsible for the proper fitness of the ship's tanks for loading his next cargo, and will therefore be held liable for any contamination of the cargo after loading, due to inadequate tank cleaning. Therefore it is up to him to decide the degree of tank cleaning necessary. He may, of course seek advice from the installation representative in this respect, whenever there is any doubt.

28. *Turnaround:* To promote the economical operation of their vessel, Masters are requested to co-operate with installation representatives in minimising their in-port time. Any delays which are considered unnecessary or extensive should be reported to the loading Supervisor (tel. 2133) so that corrective measures can be taken.

29. *U.S.S. Club:* All seamen are welcome to the club operated by United Seamen's Service which is located at the shore end of Pier No. 2. Shore passes are required to reach this Club. Beer, soft drinks, ice-cream, candies and various souvenirs and presents can be purchased at reasonable prices. Free cinema shows are usually held twice weekly. A letter-posting service is available as well as recreational facilities, e.g. billiards, table tennis, darts, etc. A barber shop operates during daytime.

**TELEPHONES:**

Communications Office (General and Port Information, 24 hours service), 2604. Ships Service Office (All services to ships: mail, doctor, taxi, papers, etc., 24 hours service), 2105. Agents Office (Weekdays) (07.00 to 12.00 – 13.00 to 16.00), 2125. Loading Supervisor (Re cargo and bunkers), day, 07.00 to 16.00, 2821/2133; night, after 16.00, 2133. U.S.S. Seamen's Club, 2803.

**AUTHORITY:** Compañía Shell de Venezuela, Punto Fijo, Venezuela. Postal address: Compañía Shell de Venezuela, Cardon Refinery, Punto Fijo, Estado Falcon, Venezuela. Cable address: Shellref, Caracas.

*Stevedoring Agencies:*

8 Saigon Inward Cargo Manifests or In-transit Cargo Manifests at Saigon.

2 Crew Lists.
All Original Cargo Manifests.
3 Landing or In-transit Passenger Lists.
2 Landing Passengers Luggage Lists.
2 Free of Tax Goods Lists.

*Saigon Port Authority:*

Following Documents are to be presented to the Saigon Port Authority by the Stevedores:

1 Report, informing the arrival of the ship.
2 Cargo Plans on board.
3 Cargo Manifests.
3 Cargo Unloading Plans.
1 General Cargo Unloading Permit.
6 Requests to Sanitary Officer for sanitary examination operation.

*Important Notices:*

(1) Manifests of Saigon Inward Cargo are to be compiled by complete set, each set comprising original port's manifests; a recapitulation table will be added to each set indicating the total amount of parcels, tonnage or volume loaded on board for each port. This total amount will be repeated in all letters, stating: "This total amount has been visaed by the Customs Office."

(2) On arrival at Vung-Tau, (Cape St. Jaques), the Commandant of the ship should collect all required documents and get them ready to be presented. The Quarantine Officials may possibly come unawares on board for prior examination and would never admit mistakes.

**PILOTAGE:** Upon arrival at pilot station the pilot service should be informed by cable of the exact position of anchorage, draft of the vessel, and the maximum speed the ship can do in the river.

Every evening from 2000 hours to 2200 hours (local time) radio watch should be kept with Saigon XVS on the frequency of 500 kc/s. In case the vessel is to proceed up the river the next morning the pilot service will cable the Captain the exact hour of departure from Cape St. Jacques (Vung Tau).

The pilot service will not send any Pilot to ships that do not give the information as to draft, speed of vessel, and exact position at the anchorage station at Cape St. Jacques (Vung Tau).

Pilot station at Vung Tau, tel. 6. Pilot station at Saigon, tel. 21222 and 90503. Pilot boards at Vinh Dua (Gulf of Coco Trees).

**RESTRICTIONS:** River transits, berthing and unberthing are effected in daylight hours only. Vessels should arrive 2 hours before daylight HW. At least 1 ft. keel clearance required. Least depth in channel, 27 ft. below chart datum.

**ANCHORAGE:** In depths of about 30 ft.

**MAX. SIZE:** Length 673 ft. Vessels can proceed without restrictions above 27 ft. depending on daily tide.

**RADIO:** Saigon Radio, call sign XVS.

**HEALTH:** Port officials board at Vung-Tau if vessels call at Vung-Tau. Free pratique will be obtained from local authorities. For vessel calling at Saigon, port officials will board upon docking alongside at Saigon Port and free pratique will be pratique at Saigon.

**TUGS:** Available up to 2,600 h.p. Tankers usually berth without tug assistance.

**BERTHING:** Depth at quays 26 ft. to 36 ft.

**TANKERS:** Discharge at Nha-Be: Caltex Terminal, narrow pier with mooring buoys, depth in berth 27 ft. Shell Terminal, "T" jetty with mooring buoys, depth in berth 31 ft. Stanvac Terminal, pier with mooring buoys, depth in berth 30 ft. No slop disposal facilities.

**DENSITY:** About 1005 at berths.

**MEDICAL:** Doctors and hospital facilities available.

**FRESH WATER:** Can be supplied by barge subject to advance notice of 24 hours.

**FUEL:** Diesel oil can be supplied.

**REPAIRS:** Machine shop facilities only.

**AIRPORT:** Situated about 5 miles from the city. International services.

**AUTHORITY:** Port Manager, Saigon.

# Virgin Islands

## FREDERIKSTED, St Croix: 17.43 N. 64.53 W.

**DOCUMENTS:** All forms are standard U.S. Government Forms:

Passenger List (1–418) – 3 copies.
Crew List (1–418) – 3 copies.
Clearance from Last Port.
Inward Customs Manifest (7527–B) – 4 copies.
Ship's Stores Declaration – Customs Form 1303 – 2 copies.
Crew Effects Declaration – Customs Form 1304 – 1 copy.

(Also see separate headings – "Health" – "Customs" – "Immigration".)

**PILOTAGE:** Services available day or night. Payment for pilot services is mandatory whether Master uses pilot or not. (Vessels commissioned by the U.S. or foreign government, yachts and vessels under 100 gross tons are exempt from pilotage fees, except when the services of a pilot are requested).

**ANCHORAGE:** Open roadstead on the lee (West) side of St. Croix, providing a good anchorage with no significant tide.

**TUGS:** None readily available – tugs can be arranged with 48 hours advance notice.

**BERTHING:** A government-owned pier with a 1,400 ft. long approachway, bridging Maritime Zone to a pier-head 240 ft. long by 60 ft. wide. Vessels 600 ft. and over with a maximum forward draft of 25 ft. have been accommodated.

**RADIO:** (*a*) Vessels may communicate with Island via:

| | |
|---|---|
| Mackay Radio, Amagansett, New York | Call Letters WSL |
| Chatham, Massachusetts Radio | Call Letters WCC |
| Lantana, Florida Radio | Call Letters WOE |
| Barbados Radio, Barbados | Call Letters VPO |
| Destrellan Radio, Guadeloupe | Call Letters FFO |
| Fort de France Radio, Martinique | Call letters FFP |
| Tuckerton Radio, New Jersey | Call Letters WSC |

All stations maintaining 24-hour service. These radio stations th relay the messages by cablegram to Frederiksted via either IT World Communications Inc. or Cable and Wireless, Western Uni International.

(*b*) Master of every vessel arriving Frederiksted is required to gi at least 24 hours advance notice of arrival to Captain of the Po U.S. Coast Guard – San Juan, Puerto Rico, by wireless on 500 ki cycles or by radio telephone 2182 kilocycles.

Call Letters for U.S. Coast Guard, San Juan, Puerto Rico – NMR

(*c*) Masters are requested to advise Agent their expected time arrival as far in advance as is possible, vessels arriving from por other than U.S. or Caribbean Islands should give at least 7 da notice, and vessels arriving from U.S. ports should give at leas days notice. In addition, a message should be sent verifying arri at least 48 hours in advance, with delays reported as necessar Arrival messages should include information regarding repai stores, number of crew and passengers on board. If cash is require a minimum of 7 days (prior to data of arrival) notice is mandatory.

(*d*) While vessels are in Frederiksted the authorities do not perm the use of the ship's radio transmitters.

(*e*) Vessels equipped with VHF equipment should commenc radio watch on Channel 16 when vessel is 100 miles from St. Cro Contact with Agents and shore facilities can be made direct or v Virgin Islands Marine Operator – Station WAH – Call Letters WA

**FRESH WATER:** Very limited, delivered by truck.

**TIME:** GMT minus 4 hours. Atlantic Standard Time.

**HOLIDAYS:** The following are legal holidays: Sundays; Janua 1 (New Year's Day); January 30 (Roosevelt's Birthday); February (Lincoln's Birthday); The third Monday in February (Washington Birthday); March 31 (Transfer Day); Holy Thursday; Good Frida Easter Monday; Whit Monday; Last Monday in May (Memorial Da June 22 (Organic Act Day); July 4 (Independence Day); July (Supplication Day); The first Monday in September (Labour Da The second Monday in October (Columbus Day); The fourth Mo day in October (Veterans Day); November 1 (Liberty Day); Th fourth Thursday in November (Thanksgiving Day); December (Christmas Day); December 26 (Christmas Second Day), and suc other days as the President or the Government may by proclamatio declare as holidays.

The following are legal half-day holidays, commencing at Noo viz: Every Thursday during the months from April to Novembe inclusive, except Thursdays in those weeks where there already a legal holiday other than Sunday. Whenever any holiday falls upon Sunday, the Monday following is a legal holiday.

**REGULATIONS:** The U.S. Coast Guard strictly enforces the Ha bour Pollution Act of 1924, prohibiting discharge of refuse and oil navigable waters of the U.S.Virgin Islands. Local Port Regulation are similar to those applying in U.S. Mainland Ports.

**HEALTH:** See "Health Regulations" before first U.S.A. P (Albany).

Garbage should be disposed of beyond the three-mile limit. O passing the three-mile limit all garbage disposal units which open the sea should be closed. All garbage should then be placed i covered cans and retained on board until the ship is again beyond th three-mile limit.

**CUSTOMS:** Customs Officers will board at anchorage or wha berths, and will require an accommodation ladder.

Vessels required to enter and clear through Customs House:

Vessels loading or unloading cargo;
Vessels embarking or disembarking passengers;
Vessels remaining in port over 24 hours:
Vessels requesting permission for their passengers to go ashor during the stay of the vessel in port.

Vessels in above categories must present following documents:

Clearance from Last Port;
3 copies of Crew List(Form I. 418) or substantially similar form - se note below*)
3 copies Passenger List (Form I. 418) or substantially similar form see note below*)
4 copies Inward Foreign Manifest covering all cargo for dischar at St. Croix, V.I., showing weights or measurements (of bas of how cargo is freighted) on all items (Customs Form 7527- or 7527-B).
2 copies Stores List (Engine-Deck-Commissary-Narcotics).
1 copy Crew Effects Declaration (Custom's Form 1304).

* List of passengers and crew shall be on Customs and Immigr tion Form I. 418 or on a substantially similar form, except that whe no steerage passengers are aboard upon arrival, the listing of th passengers may be in the form of a vessel "Souvenir List". O similar list, in which the names of the passengers are listed alphabe cally by class.

Sealing of Stores: Upon arrival of a vessel from a foreign port, or vessel engaged in foreign trade from a domestic port, sea stores an ship's stores not required for immediate use of consumption o board while vessel is in port and articles acquired abroad by officer and members of crew, for which no permit to land has been issue shall be placed under seal, unless customs officer is of the opini that circumstances do not require such action. Customs Inspec tors in charge of vessel, from time to time, may issue stores from un der seal for consumption on board by passengers and crew.

Passengers disembarking must present personal baggage declaration if from foreign.

**IMMIGRATION:** Recommended that Masters who are unfamiliar with U.S. Immigration Procedure should seek clarification from Agents as far in advance as is possible.

If a vessel arrives direct from a United States mainland port or from Puerto Rico no immigration inspection will be performed. If a vessel arrives direct from a foreign port the vessel shall undergo immigration inspection.

Vessels arriving without a visaed crew list, may be able to obtain a waiver from Officer in Charge of U.S. Immigration & Naturalisation Service, by making application on Form 1. 193. A fee of $10.00 is required to obtain a waiver.

In order to expedite the clearing of the vessel. It is suggested that prior to arrival all passengers subject to inspection should be assembled where the inspection is to be performed.

Stowaways must be reported in ETA Message and listed on a Passenger Manifest (Form I. 418) and on Form 1. 94. and must be reported to the U.S. Immigration Officer as soon as he boards.

All non-resident alien crew members, whether shore leave is required or not, are required to have in their possession valid Passports, Seaman's Book or Identification Card (with photo) and Form I.95 (crewman's Landing Permit) or Form I. 184 (Alien Crewman's Permit and Identification Card) on arrival. All resident alien crewmembers are required to have in their possession Alien Registration Receipt Card (Form I. 151) on arrival.

**SHORE GANGWAYS:** Available.

**LAUNCHES/TENDERS:** Not available.

**AIRPORT:** Distant 8½ miles.

**AUTHORITY:** Virgin Islands Port Authority.

**AGENT:** Rob't. L. Merwin & Co., Inc., 1 Strand Street (mailing address PO Box 427), Frederiksted, St. Croix, U.S. Virgin Islands 00840. Cables "Merwin St. Croix via either ITT or C & W/WUI. Telex Merwin 3473286 via ITT or 367812 Merwin via C & W/WUI. Telephone (809) 772–0913 Mon.–Fri. 8–5 or (809) 772–0519 after 5, week-ends or holidays. Shipping Agents and Customs Brokers, Contract Stevedores and Truckers, Lloyd's Agents.

## LIMETREE BAY, St. Croix: 17.41 N. 64.44 W.

**LOCATION:** The facilities of Hess Oil Virgin Islands Corp. (Hovic) are located in Limetree Bay on the South cost of the island of St. Croix, U.S. Virgin Islands. St. Croix is 32 miles South of St. Thomas and St. John Islands and 50 miles South-east of the island of Puerto Rico. It is the largest of the U.S. Virgin Islands being 19 miles long and averages 3.5 miles in width.

The sea buoy "ELB" No. 2 marking the entrance to Limetree Bay channel is located in 60 ft. of water on the Westerly side of the channel: Latitude, 17° 40′ 42″ North, Longitude 64° 44′ 18″ West.

The sea buoy is painted red and is equipped with a flashing white light having a one second flash, nine second eclipse with a visibility of seven miles.

**DOCUMENTS:** Clearance (U.S. – Foreign). Inward clearance is effected on board immediately after docking Clearance should be made for Christiansted, St. Croix, via Limetree Bay.

The following documents are required by the Customs and Immigration authorities for entry and clearance:

Master's Certificate on Preliminary Entry.
Master's Oath.
Stores List.
Crew Purchases List (Curio List).
Inward Foreign Manifest.
Quarantine Free Pratique.
Deratisation Certificate.
Crew List (Certified).
Clearance from Last Port.
Crew men Landing Permits.
Passengers List (if any passengers).

**PILOTAGE:** Service is available 24 hours a day and is compulsory for all vessels using HOVIC facilities in Limetree Bay. The HOVIC Harbour Master acts as Pilot and will assist the Master in docking and undocking vessels using Hess facilities; however, the Master of the vessel retains full responsibility for the ship at all times. The Pilot can be contacted by VHF Channel 16. Pilot boards at the sea buoy, position 17° 40.7′ N., 64° 44.3 W. Vessels over 45,000 dwt. are subject to movements in daylight only. Vessels should remain outside the sea buoy until boarded by the Pilot. The Pilot will be placed aboard by a company tug.

The tug HOVIC 1 is equipped with a radio-telephone having the following crystals: 2182 k.c., U.S.C.G., 2638 k.c., Ship to ship. 2738 k.c., Ship to ship. 2134 k.c., San Juan, Puerto Rico and Galveston, Texas. Ships having the above crystals should call the HOVIC 1–3 hours before their arrival at the sea buoy, and advise of any change in their ETA.

**ANCHORAGE:** There is no suitable anchorage for deep draft vessels off the port. Normal practice is to stop engines and wait 6 to 8 miles from the sea buoy if required to wait instructions. In bad weather vessels should proceed to Frederiksted and anchor in the vicinity of the long pier in depths of 30 to 60 ft. Vessels shall have their anchors ready to let go upon entering the channel into Limetree Bay.

**APPROACHES:** Entrance to channel marked by a black sea buoy, equipped with a white flashing light, visible 8 miles. The buoy (ELB No. 1) (flashing every 5 seconds) is at the West side of the channel (Lat. 17° 40′ 42″ N. Long. 64° 44′ 18″ W.). At sea buoy there is 60 ft. of water and the channel has a depth of 60 ft. to Nos. 3 and 4 berths.

The turning basin opens up Eastward from the channel line and is approx. 1,200 ft. long and 1,000 ft. wide. The West turning basin is 1,500 ft. by 1,200 ft. with a maximum depth of 35 ft.

**RESTRICTIONS:** Navigation permitted 24 hours a day except for ships over 50,000 dwt.

The Harbour Master will check and report on each vessel's draft before piloting them inbound or outbound.

**HEALTH:** National quarantine laws are enforced in the U.S. Virgin Islands by officers of the U.S. Public Health Service. All vessels are subject to inspection.

**RADIO:** Masters are requested to advise both HOVIC – St. Croix and their Agents by radio 48 hours and 24 hours in advance of their ETA giving the vessel's name, date and hour of arrival (local time), bunkers and water required.

**TUGS:** Tug assistance in the channel, docking and undocking is mandatory and is provided by three 1,800 h.p. diesel tugs stationed in the port to provide this service. All tugs are under the orders of the HOVIC Harbour Master and are equipped with fire pumps and monitors to assist in fire fighting.

There are also two tugs of 7,000 h.p. available for the mooring of large tankers.

**BALLAST:** United States laws prohibit the pumping overboard of dirty ballast while a vessel is within U.S. coastal waters. All ballast must be pumped to facilities available ashore. However, if a vessel is especially equipped with clean segregated systems which are reserved for ballast use only, it is permissible to pump overboard at the dock after first being inspected and approved by the dock master.

In pumping dirty ballast ashore, the ballast is received through one 12-in. shore line at a maximum discharge pressure to shore installations of 125 psi. The ballast is pumped into a ballast facility about 1 mile North of the dock. Due to the limited facilities and to the possibility of two vessels deballasting at the same time, it is requested that vessels arrive with the minimum possible ballast.

The U.S. Oil Pollution Act of 1924 applies to the Pollution of Coastal Waters. Violators are subject to fines of up to $2,500 and a year's imprisonment for each offence.

**NOTICE OF READINESS:** Notice of readiness to load or discharge is a warranty that the vessel is in all respects ready to load or discharge, and that all of the ship's equipment (including, but not limited to tanks, pumps, valves, and pipe-lines) is ready and fit to load or discharge petroleum and/or petrochemical products. Notice of readiness will not be accepted unless the vessel is in all respects ready to load or discharge, as appropriate. Vessel will not be deemed ready to load or discharge and pumping will not commence until the senior deck officer shall have executed and delivered to HOVIC a "Declaration of inspection prior to bulk cargo transfer" as required by U.S. Coast Guard Regulations.

**BERTHING:** A shore gangway is provided.

There are, at present, seven berths on finger pier, three on East side and four on West side.

Deepest berths are No. 3 and No. 4 each with 60 ft. depth of water alongside.

**LOADING:** Loading operations are normally carried out at relatively high pumping rates. Loading rates may be reduced by request. Loading cargo overall will not be permitted without specific written authorisation from HOVIC'S General Manager.

Hose pressures should not exceed 125 psi during loading or discharging.

Oil Dock is serviced by: 1 24 in. diameter crude line, 1 24 in. diameter no. 6 oil line. 1 20 in. diameter gasoline line, 1 20 in. no. 2 oil line, 1 10 in. diameter kerosine line, 1 12 in. diameter ballast line, 1 8 in. diameter fresh water line.

Four 10 in. hoses are available for connecting up to each of the 20 in. and 24 in. shore lines – single 10 in. hoses are available for the kerosine and ballast lines.

Oil Dock 2 serviced by: 1 24 in. diameter crude line, 1 24 in. diameter 6 oil line.

**MEDICAL:** Medical attention is generally available from the public hospital at any hour of the day or night to crew members of all vessels. The representative of the ship's Agent should be contacted by the Master with any requests for medical attention for the crew. For each man needing medical or dental attention, a form should be completed in duplicate and signed by the Master, or in his absence, by the Chief Officer. The form should provide the date, patient's name, rating, and the name of the vessel. In case of emergency, or when a patient cannot be moved from the vessel, the Master should advise the ship's Agent by radio if at sea, or on the telephone if in port.

**DENSITY:** 1025.

**FRESH WATER:** The island of St. Croix is dependent almost entirely on rainfall for its supply of fresh water. There are wells but many of them are rather saline in nature. As a result fresh water is scarce and expensive. In conjunction with its refinery operation HOVIC operates a desalination plant and limited quantities of fresh water are available providing at least 48 hours notice of these requirements is given prior to the ship's arrival. All fresh water is metered aboard ship.

**FUEL:** Both no. 6 fuel oil (Bunker C) and light marine diesel are available by prior arrangement. Advice concerning quantities should be given in the vessels arrival message (ETA) sent 48 hours prior to arrival.

**DEVELOPMENTS:** New docks under construction.

**AIRPORT:** Situated 5 miles from port facilities.

**SHORE LEAVE:** Under normal circumstances, no restrictions are imposed by the Immigration Authorities on shore liberty. Masters are requested to have all crew members on board at least 1 hour prior to departure time, to avoid delay "awaiting crew members". If crew members of foreign vessels are to be given shore leave, Form 1–95 must be prepared for each member of the crew.

**TIME:** The U.S. Virgin Islands use Atlantic Standard Time, which is four hours slow of Greenwich Mean Time.

**GENERAL:** (*a*) *Immigration:* The United States immigration laws apply in the U.S. Virgin Islands. Passports and visas are required.

(*b*) *Customs:* The customs collection district of the U.S. Virgin Islands is under the jurisdiction of the U.S. Treasury Department but has its own Customs laws.

(*c*) *Liquors:* The transportation of alcoholic beverages inside HOVIC's property is strictly prohibited; consequently, no liquor or beer may be removed from vessels. The only exception to the foregoing is in the case of bonded stores ordered by Masters.

(*d*) *Visitors:* No visitors are permitted in the dock area. Only persons on official ship's business are permitted on the piers.

(*e*) *Laundry:* Only limited facilities are available to handle ship's laundry.

(*f*) *Surveyors:* Representatives of the American Bureau of Shipping, Lloyds' Register and other maritime classification societies are available in San Juan, Puerto Rico on 12 to 24 hours notice. The ship's Agent will assist Masters in soliciting their services.

(*g*) *Mail:* Official and personal mail will be delivered on board by the ship's Agent when vessels are being cleared inwards. Mail received for vessels while in port will be delivered on board prior to sailing. Outgoing mail is accepted from Masters, provided it is accompanied by a mail transmittal slip to support disbursements.

(*h*) *Transportation:* Walking through the refinery is not permitted. Arrangements for transportation will have to be made through the ship's Agent or the Refinery General Manager's Office.

(*i*) *Supplies and Repairs:* Limited supplies of provisions and marine hardware are available on the island. There are no facilities for major repairs closer than San Juan, Puerto Rico. Machine shops in Christiansted and Fredriksted can assist in making minor repairs.

(*j*) *Overloading:* Masters are advised that the international laws are strictly enforced with regard to overloading and should be guided accordingly. In cases where overloaded cargo has to be discharged, all expenses incurred, including ship delay, will be for the vessels account.

(*k*) *Weather Conditions:* The loading and discharge of all crude petroleum and its products will be stopped during any electrical storm. Ullage screens or ullage plugs must be in place. Loading gasoline or other similar low-flash products will be stopped during periods of calms when the heavy vapours cannot be dispersed quickly enough to prevent hazards from accumulated gas pockets. Ship's officers are cautioned to be on their guard during such conditions. In the event of abnormal weather conditions in the area as a hurricane, vessels will be notified that additional moorings are required. If the situation so demands, Masters will be told to suspend all operations and proceed to sea until normal weather conditions again prevail.

(*l*) *Demurrage:* Vessels are required to vacate berth promptly upon completion of cargo handling operation (loading or discharging operations, as the case may be). Permission to lay alongside at any time the vessel is not engaged in cargo handling operations must be granted in writing by the Dock Master. The Harbour Master will keep vessels advised of other vessels awaiting berth. If any vessel fails to vacate its berth upon completion or cargo handling operations and expiration of free laytime for dock usage as outlined below, the vessel will be responsible for penalties and demurrage as follows:

(*a*) To pay dock demurrage.

(*b*) To hold HOVIC harmless for any demurrage and damages incurred as a result of other vessels awaiting berth.

The following rules shall govern the determination of demurrage:

(*a*) One hour free laytime will be allowed after completion of cargo handling operations. This free time will start at the time cargo hoses are disconnected from the ship's manifold on completion of loading or discharge of cargo. Vessels awaiting cargo papers and/or Customs clearance must vacate the berth within 1 hour of such completion and move outside to wait for their papers.

(*b*) Three hours free laytime will be allowed for ballasting after discharge operations.

**AUTHORITY:** Hess Oil Virgin Islands Corp., Kingshill, POB 127, St. Croix, U.S. Virgin Islands 00850.

**AGENT:** See "Frederiksted".

## ST. THOMAS: 18.20 N. 64.56 W.

Harbour of St. Thomas, U.S.V.I. situated on south side of Islands of St. Thomas. It is 1,434 miles from port of New York. Northern side of Islands borders on Atlantic Ocean, and Southern side on Caribbean Sea. The Harbour is one of the best in the West Indies, being almost landlocked.

**WEATHER:** There is a signal station on Cowell Hill which shows storm signals. The weather is usually mild with little wind. Squalls, when they occur, usually come from the north-east.

**DOCUMENTS:** *Quarantine.* – see "Health". *Customs* – see "Customs". *Immigration* – see "Immigration". *Agent:*

1 Copy Crew List (Form I. 418).
1 Copy Passenger List (Form I. 418).

**PILOTAGE:** Compulsory and available day and night. Pilot Boat has letter "P" on deck house and flies International Code flag "P". Pilots will meet vessels 1 to 3 miles outside harbour, boarding via Jacob's ladder.

**ANCHORAGE:** Outer Harbour Anchorage located beginning at Scorpion Rock Lighted Buoy No. 1 (18° 91′ 25.6″ N; 64° 55′ 8″ then 180° 1,580 yards; thence 263°, 2,490 yards; thence due North 1,2 yards; thence due East to the Southerly tip of Sprat Point, Wa Island; thence to Cowell Point, Hassel Island, and thence to po of beginning. This anchorage is considered good and is abou fathoms with sand bottom.

**TUGS:** Normally not considered necessary for docking, howev tugs are available for docking and undocking ships.

**BERTHING:** Wharf of the West Indian Company Limited, locat on Eastern shore of harbour basin. Wharf is of bulkhead type, 2,2 ft. long, running North-east/South-west, and is well protected seaward, Mooring bits are spaced at intervals of 50 ft. There is "cut out" in the wharf 950 ft. from North-eastern corner, which is ft. wide and approximately 3.5 ft. above low water. This ramp slanting from 8.3 to 3.5 ft. over a distance of 20 ft. Similar type ramp located on West Corner of wharf. Safe depth alongside fro 27 ft. near North-east end to 30 ft. on South-west end. Bulkwark 8·3 ft. above mean tide. Average difference between high and lo tide is 11 in.

Dockage dues are payable to the West Indian Company Limite as per tariff.

In the Crown Bay area (access via East or West Gregerie Cha nels) the VI Port Authority maintains facilities which include "T"-head pier extending 500 ft. from shore, where ships up to 25,0 g.t. are mooring to breasting dolphins 200 ft. on centres, and moori dolphins 200 ft. fore and aft from them. Controlling depth present 30 ft. This pier is used for berthing tourist and tanker vessels on A curved bulkhead at top of Crown Bay, approximately 900 ft. lon is used for roll-on/roll-off, container and break bulk cargo. Contro ing depth 15 ft. 24-hour arrival notice required.

**CARGO HANDLING:** Containers are handled at the West India Company and the Crown Bay area (VI Port Authority), but no speci gantry cranes are available. Roll-on/roll-off cargo handled at thes facilities as well. No liquid chemicals facilities exist here but there a small privately-owned LPG plant limited to 20 ft. draft and 250 f length. Shell uses this facility for gasoline and light diesel. Th "T"-pier in Crown Bay is used for the VI Water and Power Autho ity for movement of fuel and water, and Texaco has its own pipeli on the same pier for their products.

**STEVEDORES:** Discharging and/or loading arranged by the We Indian Company Limited for account and risk of vessels.

Rates of discharging and/or loading dependent on vessel's equip ment and stowage. However, following may be considered averag

General Cargo 6 weight tons per gang hour.
Bagged Goods 8/10 weight tons per gang hour.
Lumber 10/12 weight tons per gang hour.

Each stevedore gang normally consists of 12 stevedores (10 o board and 2 ashore) 2 winchmen, 1 signalman, 1 foreman

**RADIO:** The St. Thomas Marine Operator will guard the followi from 0800 to 2100: Channels 26, 16 VHF, 2009–2506 and 2182 AN and the upper side band (2010·4–2507·4) of the same frequen The St. Thomas Signal Station and the Harbour Master's Offi maintain a 24-hour watch on VHF Channel 16 (talk Channel 12).

(*b*) Master of every vessel arriving St. Thomas is required to gi at least 24 hours advance notice of arrival to Captain of the Por U.S. Coast Guard – San Juan, Puerto Rico by wireless on 500 kilo cycles or by radio telephone 2182 kilocycles.

(*c*) Masters are requested to advise Agents their expected time o arrival, at least 36 hours in advance. Arrival messages should in clude cash requirements (local currency U.S. Dollar) and advi regarding repairs, stores, etc. This information is particularly neces sary in the cases of vessel arriving on weekends or holidays. Fo cruise vessels the arrival messages should also include the numbe of passengers and crew on board.

(*d*) While vessels are in St. Thomas Harbour, the authorities d not permit the use of the ship's radio transmitters.

(*e*) U.S. Coast Guards: This organisation maintains a small Ligh Attendant Station in St. Thomas to observe, service and effe repairs to aid navigation in vicinity of St. Thomas. An 82-ft. Coas Guard Patrol Boat "Point Whitehorn" (82364) is attached to the sta tion for primary purpose of search and rescue work. Maintai watch on VHF Channel 16. Radio telephone marine informatio broadcasts, including Notices to Mariners, will be made on 26 kilocycles, after first making a preliminary announcement on 218 kilocycles. Radio telephone urgent and safety broadcasts or Mari Informations will continue to be made on 2182 kilocycles.

**FUEL:** The West Indian Company Limited operates the bunkerin terminal and are agents for Esso. Bunker fuel "C" and marine di sel fuel handled through 6 in. or 8 in. pipelines (4 in. or 6 in. hoses) a maximum rate of approximately 125 tons per hour, at the wharf of th West Indian Company Limited, where vessels drawing up to 30 f can be accommodated.

Delivery by barge is not available. Bunkers available at all hour including Sundays and holidays. Owners of vessels must mak prior arrangements for bunkers.

Overtime as incurred will be charged to ships for bunkers supplie outside normal working hours, Saturdays, Sundays and holidays.

**FRESH WATER:** Mostly rain water which when available is su plied by the West Indian Company Limited. Delivery effected by pip alongside wharf. Water by barge can be delivered in St. Thomas.

**MEDICAL:** Local hospital is the Knud-Hansen Memorial Hospit which is equipped with facilities for operations, etc.

**TIME:** Official St. Thomas time is Atlantic Standard Time, which i four hours behind GMT.

**HOLIDAYS:** The following are legal holidays in St. Thoma Sundays; January 1 (New Year's Day); January 15 (Martin Luthe King); January 30 (Roosevelt's Birthday); February 12 (Lincoln'

Birthday); The third Monday in February (Washington's Birthday); March 31 (Transfer Day); Holy Thursday; Good Friday; Easter Monday; Whit Monday; The last Monday in May (Memorial Day); June 22 (Organic Act Day); July 4 (Independence Day); July 25 (Supplication Day); The first Monday in September (Labour Day); The second Monday in October (Columbus Day); The fourth Monday in October (Veterans Day); November 1 (Liberty Day); The fourth Thursday in November (Thanksgiving Day); December 25 (Christmas Day); December 26 (Christmas Second Day), and such other days as the President of the Government may by proclamation declare as holidays.

The following are legal half-day holidays, commencing at Noon, viz: Every Thursday during the months from April to November, inclusive, except Thursdays in those weeks where there already is a legal holiday other than Sunday. Whenever any holiday falls upon Sunday, the Monday following is a legal holiday.

**REGULATIONS:** The U.S. Coast Guard strictly enforces the Harbour Pollution Act of 1924, prohibiting discharge of refuse and oil in navigable waters of the U.S. Virgin Islands.

Local Port Regulations are similar to those applying in U.S. Mainland Ports.

**HEALTH, CUSTOMS, IMMIGRATION:** Refer to Frederiksted.

**CONSULS:** Following countries have consular representatives in St. Thomas.

Belgium
Denmark
Dominican Republic
El Salvador
France
Great Britain
Haiti
Netherlands
Norway
Panama
Sweden

**AIRPORT:** Distance 2 miles. Connections with International flights from Puerto Rido.

**GENERAL:** *Gangway.* One aluminium gangway available which is 34 ft. long and 2 ft. 6 in. wide – made with skidding prevention strips only and therefore not recommended for use as a passenger gangway. Since presently this is the only gangway it is made available to vessels on a first-come-first-served basis.

Stores. St. Thomas should not be depended upon for large quantities of provisions or deck and engine stores, as practically all commodities are imported making prices higher than United States mainland ports and Puerto Rico. No regular Ship's Chandlers established in St. Thomas, V.I.

*Storage Facilities:* The West Indian Company Limited undertakes ordinary storage for a limited period of time in eight transit warehouses, all 14 ft. high with a total floor area of 80,000 sq. ft., plus an additional 9,600 sq. ft. roof covered area. There is also a large uncovered area available for outside storage. Only limited cold storage facilities are available on The West Indian Company's Dock.

*Ice:* Small quantities may be obtained.

*Laundry:* Modern laundry service is available.

**POLICE/AMBULANCE/FIRE:** Police 915; Ambulance 774-1212; Fire 921.

**AUTHORITY:** Virgin Islands Port Authority, PO Box 36, St. Thomas, Virgin Islands, U.S.A. 00801.

**AGENTS:** The West Indian Company Limited, (Shipping Department), PO Box 660 – St. Thomas, V.I. 00801. (Passenger & Crewmail PO Box 4400) Telegraphic Address: Occident. Telex Numbers: 3472313 (Wico) (ITT System) 365246 (Wicostt) (Cable & Wireless Western Union System) Tel. (809 774–1780)

Office Hours: Monday through Friday: 8.00 a.m. to 12.00 noon; 1.00 p.m. to 5.00 p.m.

Outside Regular Office Hours Tel. Manager Shipping Department. (809) 774–2683; Ass't. Manager Shipping Dept. (809) 774–0625 Dockmaster (089) 774–5285; Shipping Department (809) 774–4170.

## Windward Islands

### CASTRIES, St. Lucia: 14.00 N. 60.59 W.

**DOCUMENTS:**

5 Crew Lists.
5 Passenger Lists.
1 Stores List.
1 Clearance from Last Port.
2 sets of Manifest mailed prior to arrival.
2 copies each Bills of Lading.
3 copies each of Manifests on arrival,
1 Health Certificate.

**PILOTAGE:** ETA to Agents at least 48 hours in advance, and further advice if any changes. Agents inform Pilot's office of expected time. Ship remains approximately 3 miles out of harbour, and is located by Lighthouse guard who immediately informs Pilot's office. Pilot meets ship in pilot boat – small white canoe-shaped boat, no top, with letter "P" painted in black on both sides of bow. Signal for Pilot: day time flag "G"; and night: white light or blue light. VHF channel 2182. Pilot embarks on the starboard side via pilot ladder.

**ANCHORAGE:** North of leading lights, about ½ mile from harbour, depth about 12 fathoms.

**RESTRICTIONS:** Ships must at no time enter without a Pilot.

**MAX. SIZE:** Not longer than 600 ft. (cargo and passenger). Tankers – not longer than 400 ft. Alongside, all ship's, draft 24 ft.

**HEALTH:** Pratique given by Pilot. Health Officer boards ship and if any infectious diseases are on board, ship is anchored out until doctor arrives.

**RADIO:** Barbados Radio, call sign 8PO, 2182 kc. 2527 kc. 2537 kc. 2638 kc.

**TUGS:** Not necessary.

**BERTHING:** First ship goes up to top or first berth, and others follow down line.

**MEDICAL:** In urgent cases only, advise requirements in advance. Hospital facilities available.

**TANKERS:** Discharging by marine and floating hose, 6-in. and 4-in. lines. Berths alongside quay (2), off shore (2) Presently fuels discharged: Mogas 95 and 83, kerosene gas oil, colas RS2, cutback RC2, banana spray oil.

**FRESH WATER:** Available by delivery hose from water hydrant on wharf.

**FUELS:** Gas oil 48/52 DI-API. Viscosity at 60° 36.3 S.G. at 60° 0.8435.

**GANGWAY/DECK WATCHMEN:** Available if required.

**OPENING/CLOSING HATCHES:** By crew.

**CERTIFICATES:** Ship's Register required on board.

**CUSTOMS ALLOWANCES:** Tobacco, one carton of 200 cigarettes. Wine/Spirit, one quart.

**CONSULS:**

| | | | |
|---|---|---|---|
| Norway | Tel. 2214 | France | Tel. 2351–2 |
| Portugal | ,, 2811 | U.K. | ,, 2484–5 |
| Holland | ,, 2811 | | |

**REPAIRS:** Only welding and painting work available.

**DRY DOCKS:** None.

**REPATRIATION:** Facilities available.

**AIRPORT:** Distance from wharf 2 miles. Flights per day 4. Airlines: BWIA, LIAT, Caribair.

**TIME:** GMT minus 4 hours. No alterations to clock.

**HOLIDAYS:** New Year's Day (1st January); New Year's Holiday (2nd January); Statehood Day (1st March); Good Friday (late March or early April); Easter Day (April); Easter Holiday (April); Labour Day (1st May); Whit Monday; Corpus Christi (late June); Queen's Birthday (12th June); Emancipation Day (1st Monday in August); Harvest Day (1st Monday in October); Discovery Day (13th December); Christmas Day (25th December); Boxing Day (26th December).

**EMERGENCIES:** Police dial 99; Fire 97; Ambulance 95.

**TELEPHONES:** Arrangements exist for placing on board.

**GENERAL:** Ships arriving after 2000 hours cannot be attended to until 0700 hrs. following day.

**SERVICES:** Compass adjusting.

**SHORE LEAVE:** Allowed.

### KINGSTOWN, St. Vincent: 13.09 N. 60.57 W.

**DOCUMENTS:**

*Customs:*

2 copies Ship's Store List.
1 copy Crew Store List.
1 copy Crew List.
1 copy Passenger List.
1 copy List of Cargo not manifested.

*Immigration:*

2 copies Passenger List.
2 copies Crew List.

*Port Officer:*

1 copy Declaration of Health.
1 copy Passenger List.
1 copy Crew List.
2 copies Port Officer Return.

**PILOTAGE:** Not compulsory. Cable agents 24 hours prior arrival order arrange Pilot. English-speaking Pilot boards at harbour entrance – about 2 miles from anchorage. By day pilot vessel flies pilot flag and by night signal lights.

**ANCHORAGE:** Well protected. Tourist vessels lie at anchor, between 15 and 20 fathoms, or at pier.

**RESTRICTIONS:** None. Vessels may arrive and/or sail any hour day or night.

**HEALTH:** Port Health Officer boards vessel at anchorage requires Bill of Health or Master's declaration, and one copy Passenger List. Vessel's own form of manifest accepted. Vaccination Certificates are not required to be shown and passengers and crew do not require inoculation. Passenger and crew muster, not required. Health Doctor requires letter signed by Ship's Doctor (if any) and certified by Master stating all passengers and crew in possession of valid smallpox vaccination certificates. No persons allowed leave vessel before pratique granted and Immigration officials boarded vessel.

**BERTHING:** No tidal restrictions, no strong currents. Occasional on-shore South winds during August and September but only light winds. Rest of year off-shore winds. Mooring boats available for taking lines. No special moorings required. Jetty situated at South-east corner of harbour about 70 ft out from beach. Bow and stern lines to landing stage. Landing stage in good condition and well lit. If vessel at anchorage and not at berth transit ashore by ship's motor launches only. Anchorage about 2 cables distant from quay.

**TUGS:** Not required.

**FRESH WATER:** Available.

**TELEPHONE:** May be connected on board if required, charge about 1 Dollar per day.

**CUSTOMS/IMMIGRATION:** Customs and Immigration officers board vessel at anchorage or quay. Vessel entered and cleared at Customs House by Agents. Ship's own form of manifest accepted by Customs and Immigration. On passenger vessels, ship's bar is sometimes sealed.

**IDENTIFICATION CARDS:** Not required for going ashore.

**VISAS:** Not required for crews or passengers, but nationals of foreign countries other than U.S.A. or Canada disembarking for permanent residence require Visas.

**PROVISIONS:** Limited quantities of provisions, fish, fruit and vegetables. Pasteurised cows' milk obtainable. Stocks of ice available.
**CURRENCY:** No special currency regulations in force and passengers permitted to take ashore any amount of U.S., Canadian or foreign currency. Currency exchanges at Banks or tourist bureaux, but Bank tellers do not board vessel to exchange currency. Local currency may be re-exchanged for U.S. dollars at local Tourist Bureau before departure. U.S. or Canadian currency accepted by stores, shops, restaurants and hotels.
**AUTHORITY:** Port Officer.

**AGENT:** Corea & Co. Ltd., PO Box 122, Kingstown, St. Vincent. Windward Islands, West Indies. Tel. 2201. Cables "George".

# Yemen Arab Republic

## HODEIDAH: 14.48 N. 42.55 E.

**FLAG:** It is essential that from the time they enter Yemen territorial waters all vessels fly the Yemen Arab Republic flag and this should be flown continuously until they leave these waters on sailing. Failure to observe this courtesy may result in a heavy penalty. The design of the flag is red, white and black in horizontal strips of equal size with green star in centre of white strip.
**DOCUMENTS:** On arrival eight (8) copies of Manifests of cargo for discharge are required and each must be endorsed with the word *Correct* by the *Customs Authorities* at the Port of Loading. It is also advisable that at least two of the eight copies of manifests on board the ship should be freighted copies, otherwise two additional copies, showing freight details should be airmailed to Hodeidah separately to arrive in advance of the vessel. The Master should also be in possession of one copy of each Bill of Lading and certificate to show vessel is not blacklisted.
**PILOTAGE:** Pilotage is compulsory and as the entrance of the Channel giving access to the Port cannot be observed from the port area itself it is essential that accurate ETAs be given to Hodship Hodeidah (the Agent) in order to avoid delays waiting for a Pilot.

Vessels will be piloted down a dredged channel of about eight miles in length. The channel, which is buoyed with black starboard and red port buoys, is 7½ metres deep and 100 metres wide. —*The buoys are not at present lit and therefore entrance and exit from the harbour can only take place during daylight hours.* It is understood that in due course illumination of buoys and leading marks will be carried out and night movement possible.
**ANCHORAGE:** Masters are also recommended to ensure that on arrival they anchor off the entrance to the new port to await the Pilot and do not anchor off the old port opposite the town some five miles to the South and which is still shown as being the Port of Hodeidah on some charts. Vessels anchoring in the wrong area may suffer some delay before they can be contacted and asked to proceed to the correct area. Masters should be advised to anchor at the outer anchorage in the following position: 14° 55′ N., 42° 54′ E.
**MAX. SIZE:** Max. draft alongside 23 ft.
**HEALTH:** All members of the crew must be vaccinated against yellow fever, smallpox and cholera otherwise permission will not be given to disembark.
**RADIO:** Masters should also ensure that a radio watch is kept to receive calls from the Port Authorities. The Hodeidah Radio Station is operative between 0600 and 1800 hours daily, the call sign is: 4WD or 4WD3 (short).
**TUGS:** One tug of 450 h.p. Pilot launch 250 h.p. also available to assist.
**BERTHING:** The quay is 370 metres in length with three berths the first 70 metres long depth 6 metres, the second and third are of 150 metres length and 8½ metres depth. *Officially, ships berthing are restricted in length to 140 metres and to a maximum draft of 23 ft., but vessels up to 150 metres have berthed. For such vessels prior advice is required.*

The quay is concrete construction and is well founded, vessels being secured to bollards in the normal manner. Use of rat-guards is recommended. The quay is equipped with three electric cranes described as having a maximum capacity of 5 tons. At present only two of these cranes can be operated simultaneously owing to insufficiency of current.

There is also a dolphin berth for discharging of petroleum products, which is connected by submarine pipes to storage tanks near the port area. The depth alongside is 6 metres.
**STEVEDORES:** All labour is provided by Agent's representative including winchmen and tally clerks, but winchmen are provided entirely at ships' risk.

Rates of discharge vary but are quite satisfactory and with bagged cargo the average obtained is 15 tons per hatch per hour. Night work is possible.

It is normal for labour working on board to request drinking water to be supplied. Whilst this may be unusual Masters are advised to comply, as otherwise slow working or perhaps even stoppages may result.

Vessels are expected to supply food on board to cargo-supervisors, foreman, and tally clerks. It may be left to Masters' discretion whether this is supplied, but if not the Agency will have to supply same and the cost will be debited to the vessels.
**WORKING HOURS:** Normally from 0600 hours to 1400 hours and again from 1700 hours to midnight. Additional work outside these hours, including after midnight can usually be arranged if necessary, although this cannot be guaranteed. Any work after midnight overtime.
**MEDICAL:** Hospitals at Hodeidah and Sanaa-Taiz.
**FRESH WATER:** Available; pumping rate 10–15 t.p.h.
**FUEL:** Available from Yemen Petroleum.
**CONSULS** (and Embassies):

**REPAIRS:** Light repairs can be carried out.
**AIRPORT:** Flights from Cairo to Hodeidah, Asmara to Taiz an Jeddah to Sanaa. International airport under construction.
**TIME:** GMT plus 3 hours.
**HOLIDAYS:** 1st January Eid Al-Adha Wagfa; 26–28th Janua Eid Al-Adha; 16th February Islamic New Year; 5th May birthday the Prophet; 26–30th September Proclamation of the Republ 5–8th November Eid Alfitr.

Friday is the weekly day of rest, Sunday being a normal workin day. There are also a number of Moslem holidays, the date bei based on the Moslem calendar, and which therefore vary from ye to year on the Christian calendar. Work is usually possible on suc days but cannot be guaranteed. Holidays for special occasions a also liable to be declared at short notice. Friday if worked 25% an public holidays 100% surcharge. During the Moslem fast period o Ramadhan lasting about twenty eight days, which again varies fro year to year, work is slower.
**SHORE-LEAVE:** Allowed. The Master should prepare a list o persons wishing to go ashore as Agent has to issue I.D. cards.
**REGULATIONS:** It is strictly forbidden for crew and passenge on board to take photographs while a vessel is in the harbou approaches or secured to the jetty in harbour.

Any vessel which permits oil and/or water to be discharged in the harbour will be liable to a minimum penalty of US $100.
**AUTHORITY:** Hodeidah Port Authority, Hodeidah, Yemen Ara Republic.

## MOCKA: 13.17 N. 43.10 E.

Mocka is a small port with equipment for loading and unloadin
**BERTHING:** 100 metres of quay for small craft up to 7 ft. dra Vessels of up to 28 ft. draft may anchor in open roads 1·5 km. fro pier. Cargo is discharged into lighters with total capacity of ove 2,000 tons. It is inadvisable to stow cargo in No. 1 hatch during wind season September to May.
**TUGS:** Two available.
**FUEL:** Not available.

# Yemen, People's Democratic Republic of

## ADEN, (including Little Aden): 12.48 N. 44.54 E.

**DOCUMENTS:**

3 Crew Lists for Ship's Agent, Police and Immigration.
3 Passenger Lists for Ship's Agent, Police and Immigration.
1 Health Form to be shown to Pilot on boarding and handed t Ship's Agent.
Manifests, Bills of Lading if landing cargo only.
Ship's Register to be sighted by Pilot.
Arrival Declaration to be filled in by Ship's Agent after arriva
Dangerous material declaration to be handed to Pilot on boarding.

**PILOTAGE:** Compulsory for all vessels proceeding to oil berths o over 100 tons net. To call Pilot fly International Code Flag G o red/white/red lights at night. Call "Harbour Control" on VHF Channe 16, or R/T 2182 kcs., or Signal Station by lamp. 48 hours notice o ETA with draft to Harbour Office.

Pilot boat will meet ship at the Fairway Buoy in all weathers. Pil boat is 50 ft. launch painted red, flying Pilot flag by day or white/re lights at night. Pilot will board on port side of ship by pilot ladde Vessels waiting Pilot can anchor anywhere in Outer Harbour exce in a Prohibited Area of 2,000 ft. from Fairway Buoy.
**ANCHORAGES:** Ample anchorage area available with dept from 18 to 54 ft.

(*a*) Anywhere North of Fairway Buoy clear of Main and Little Ade Channels and clear of Prohibited Area mentioned above.
(*b*) Deep water anchorage anywhere to S.W. of Fairway Bu clear of Little Aden Channel and Prohibited Area mention above.

**MAX. SIZE:**
**Aden:**

(*a*) Maximum length 900 ft., breadth no restriction, depth 38 ft. a datum for vessels taking bunkers from BP, Shell or Gulf.
(*b*) Vessels taking bunkers from Mobil, Caltex, Stanvac and Ess maximum length restricted to tankers of 750 ft., and passeng ships of 600 ft., breadth no restriction, depth 39 ft. at datum
(*c*) Larger vessels can be considered on application to the Po Officer. Longest vessel to enter 940 ft.

*Little Aden (Refinery):* Maximum length 760 ft., breadth no restriction, depth 40 ft. at datum and maximum deadweight 55,000 tons.

*Note:* In both harbours vessels manoeuvring require 2 ft. water under keel, and vessels of draft 37 ft. and above require 4 ft. water under keel.

*Ballast draft for Tankers:* All tankers when manoeuvring within the port shall be ballasted properly to a mean ballast draft which shall not be less than half the summer draft and the trim by the stern not exceeding 6 ft. These figures are the minimum for normal conditions and may be increased when conditions necessitate at the discretion of the Pilot.

**HEALTH:** Vessels requiring pratique fly International Code Signals or 3 red lights at night.

Control of quarantinable and infectious diseases is direct responsibility of Port Health Officer. All passengers from infected local areas except children under age of one year are required to have valid international certificate of vaccination or revaccination against yellow fever and cholera. Valid certificates of vaccination against smallpox are required of arrivals from all countries.

**RADIO:** All ships landing passengers are boarded by Assistant Port Health Officer unless radio pratique has been given. Pratique may be obtained by wirelessing Port Health Authorities no earlier than 12 hours and no later than 4 hours before arrival, in accordance with international procedure. All landing passengers medically inspected and vaccination certificates checked on board before free pratique granted. Ships having infectious diseases on board are also boarded; after examining the case and taking any necessary precautions the Assistant Port Health Officer grants restricted pratique. Ships also inspected for issuing deratting exemption certificates. Deratting carried out when necessary and deratting certificate issued.

| 4 | Dolphin & mooring dolphins | 750 | 40 |

**DENSITY:** Salt water at all times.

**FRESH WATER:** Ample available, delivered by barge in Aden at about 50 tons an hour. Ordinary water in Little Aden supplied by pipe line at about 40 tons an hour and condensate at about 2 tons an hour.

**FUEL:**

(*a*) B.P., Shell, Gulf.
Marine fuel 2500 sec., 1000 sec., 600 sec., 200 sec.
Diesel oil and gas oil.

(*b*) Caltex, Mobil, Esso, Stanvac.
Marine fuel – all grades below, 3,500 sec.
Diesel oil and gas oil.

All supplies done on a Nomination basis through the Company's Head Offices, with the vessel giving at least 48 hours notice to Aden.

**FIRE PRECAUTIONS:** As per the Refinery regulations. Tug wires to be rigged.

**GANGWAY/DECK WATCHMEN:** It is recommended watchmen are employed; they can be supplied by Ship's Agent.

**OPENING/CLOSING HATCHES:** Normally carried out by stevedores, derrick-topping by ship's crew. Vessels not to move in harbour with beams off.

**CUSTOMS ALLOWANCE:** Tobacco/Wine, Spirit allowance. No restriction at the moment. Bonded stores not allowed to be supplied more than one hour before ship sails.

**IDENTIFICATION CARDS:** Not required at the moment.

**CONSULS:**

**REPAIRS:** Workshops are equipped to carry out: Boiler repairs; Plating and sheet metal work; Galvanising work/moulding work; Welding and blacksmith's work; Main and auxiliary machinery repairs; Carpentry and joinery work; Electrical and plumbing work; Refrigeration repairs; Painting, cleaning and chipping. Repairs afloat to vessels up to 80,000 tons are undertaken; repairs to the largest vessels carried out mostly in Outer Harbour.

Wireless engineering section with fully qualified personnel giving round-the-clock service of repairs and maintenance of radar and wireless equipment.

**DRY DOCK:** One sideways slipway taking 1,500 tons and one floating dock lifting about same tonnage.

**REPATRIATION:** Arranged through Ship's Agent and Immigration.

**AIRPORT:** About 5 miles from port. Flights to U.K. via Beirut (Middle East Airlines), Nairobi (East Africa Airways), Khartoum (Sudan Air Lines), Cairo (United Arab Airlines). Two flights each a week.

**TIME:** GMT plus 3 hours. No alteration of clocks.

**HOLIDAYS:** Most holidays are religious which have moveable dates. National holidays are 14th October and 30th November. Cargo work usually carried out during all holidays. Friday is a public weekend holiday.

**POLICE/AMBULANCE/FIRE:** Ambulance Crater 53232; Harbour Police 22851; Port Health 22626/7; Fire 22222.

**TELEPHONES:** No connection to ships but link calls can be made on VHF through Cable & Wireless Ltd. using Channel 16 to call and working on Channel 26. Some Agencies have private VHF channels.

**GENERAL:** Outer harbour contains ample anchorage area for vessels requiring datum depths up to 54 ft. Inner harbour approached by 2·7 mile dog-leg channel, dredged to 36 ft., from Fairway buoy in Outer harbour where pilots board. Inner harbour protected by breakwater at Steamer Point and by rubble mound. It provides 24 buoy or anchor-and-buoy berths, including 13 with oil bunkering facilities. Majority of these berths have a datum depth of 30 or 38 ft., with maximum length of ship ranging from 275 to 750 ft. In addition three dolphin berths, with bunkering facilities, of 39 ft. datum depth and normally accommodating ships of 750–900 ft. maximum length; vessels of greater length can be accommodated with the approval of the Port Officer. Quays and wharves cater for shallower-draught vessels and lighters.

Oil harbour, serving refinery at Little Aden, reached by 38 ft. channel from Fairway buoy, provides facilities for tankers of up to 750 ft. All berths and anchorages are under the jurisdiction of the Port Officer.

**SHORE LEAVE:** *Regulations:* In accordance with Art. 8 of the Immigration Rule No. 28 of the year 1969, all crew members coming ashore will be excused from obtaining visa provided they surrender their passports to the Immigration Officer-in-Charge. These passports will be given back to the holders before they return to their particular vessels. Any crew member unable to comply with these instructions will not be permitted to visit the town.

Ships' crew are not allowed to stay ashore after 0300 hrs., unless permission is granted for longer period.

**REGULATIONS:** Vessels must fly the National flag of PROSY at foremast. No movement of "dangerous petroleum" at night. Vessels must vacate oil berths on completion of bunkering. Main engines must not be immobilised in an oil berth. Sufficient crew must remain aboard vessel at all times to move her.

**AUTHORITY:** Yemen Ports Corp., Steamer Point, Aden, POB 22666. Cables: "Maway Aden".

# Yugoslavia

## BAR: 42.05 N. 19.03 E. (See Plan)

**DOCUMENTS/HEALTH:** Same as "Rijeka".

**PILOTAGE:** Pilot boards vessel off breakwater.

**ANCHORAGE:** Off breakwater. Safe anchorage in about 27 fathoms.

**RESTRICTIONS:** Vessels enter/leave port day and night.

**MAX. SIZE:** Only limitation draft. Maximum allowed draft 33 ft. See "Tankers" below.

**RADIO:** Bar Radio – 2182 kc/s. and 2574 kc/s.

**TUGS:** Available.

**BERTHING:** Berths assigned at Agent's request for liners or at Receivers/Shippers request for tramp vessels at daily meeting of the Harbour Board.

**STEVEDORES:** Sole stevedoring enterprise "Luka Bar" – Bar.

**MEDICAL:** Medical care available, nearest hospital at Titograd about 60 km. from Bar (train and bus).

**TANKERS:** Tankers call at Bar with bunkers for local bunker station. Berth used for this cargo can accommodate vessels drawing up to 23 ft. In 1973, new berth for tankers will be in use, up to 60,000 dwt. Tank cleaning, pumping of slops and de-gasing not permitted in port. Tankers must be ready to leave the port in 30 minutes at any time and at request of Port Authorities.

**CARGO-HANDLING FACILITIES:** Available for fuel and chemicals in development for bulk cargoes, containers.

**DEVELOPMENTS:** Now in construction, second phase berths for bulk, fuel and container cargo. To be one of largest ports in Yugoslavia. Their realisation depends on completion of normal gauge railway to Hinterland, which is to be completed end 1974.

**FRESH WATER:** Available from hydrants on quay.

**FUEL:** Available from local bunker station.

**GANGWAY/DECK WATCHMEN:** Available.

**OPENING/CLOSING HATCHES:** If not performed by crew, stevedores.

**CUSTOMS ALLOWANCES:** About 40 cigarettes and reasonable amount wine/spirits per man per day.

**CARGO GEAR:** 4 cranes of 5–6 tons, 3 cranes of 3 tons. Shore mobile cranes, vacuvators, conveyors, fork lifts.

**IDENTIFICATION CARDS:** Shore passes issued by local police.

**REPAIRS:** At nearby shipyard of Bijela (Boka Kotorska).

**REPATRIATION:** By train, bus or plane from Dubrovnik and Titograd.

**TIME:** Central European time. GMT plus one hour.

**HOLIDAYS:** January 1st and 2nd; May 1st and 2nd; July 4th and 13th; November 29th and 30th. Work can be arranged on Sundays and 2nd day of two-day holidays.

**POLICE/AMBULANCE/FIRE:** Police, Tel. 22232; Ambulance, 94; Fire, 93.

**SHORE LEAVE:** Allowed.

**AUTHORITY:** Lucka Kapetanija, Bar. Tel. 22161.

**AGENT:** Transagent, Bar, 13 Juli 30. Tel. 2134. Cables: "Transagent".

## DUBROVNIK (Gruz Harbour): 42.38 N. 18.07 E.

**DOCUMENTS/HEALTH/HOLIDAYS:** Same as "Rijeka".

**PILOTAGE:** Compulsory. Pilot boards at a point situated approximately in centre of triangle formed by Kolocep Island, Daksa Island and Grebeni Rocks.

**ANCHORAGE:** In about 22 fathoms in channel between Daksa Island and mainland. This anchorage is exposed to strong N.N winds in winter time.

**RESTRICTIONS:** Only port of Gruz is open to commercial traf the old port of Dubrovnik (within the city walls) can accommoda only yachts and small craft drawing under 9 ft.

**MAX. SIZE:** Maximum length 230 metres, maximum draft 32 ft., limits on beam.

**RADIO:** Call sign YUX, working on 500 kc/s. and 447 kc/s, fro 0800 to 1100 and 1600 to 1900.

**TUGS:** No permanently stationed tug boats, but can be orde when necessary from other ports.

**BERTHING:** Berths for 5 ocean going vessels. Six cranes fro 1, 5 to 25 tons lifting capacity.

**CARGO-HANDLING FACILITIES:** The port handles some bu cargoes (grain and bauxite) occasionally and in small quantities b is not specially equipped for handling these and other cargoes.

**STEVEDORES:** One State stevedoring company.

**MEDICAL:** General hospital and medical facilities available.

**FRESH WATER:** Available from hydrants on quay.

**FUEL:** Not available. Only oil for diesel engines in limited qua tities. Heavy fuel can be delivered by coastal tankers from Split.

**GANGWAY/DECK WATCHMEN:** Available.

**OPENING/CLOSING HATCHES:** If not performed by cre stevedores.

**CUSTOMS ALLOWANCES:** About 40 cigarettes and limite amount wine/spirits per man per day.

**CARGO GEAR:** Although operations are performed usually wi shore cranes ship must have efficient cargo gear and relative certi cates.

**IDENTIFICATION CARDS:** Issued by local police.

**CONSULS:** None.

**REPAIRS:** Small repairs only.

**REPATRIATION:** By bus, ship or plane from Dubrovnik Interna tional Airport.

**TIME:** Central European Time. GMT plus one hour.

**POLICE/AMBULANCE/FIRE:** Police, tel. 92; Fire, 93; Ambulanc 94.

**SHORE LEAVE:** Allowed.

**AUTHORITY:** Lucka Kapetanija Dubrovnik, Gruska Obala 7 Dubrovnik.

**AGENT:** Transagent, Dubrovnik, Gruska Obala 50. Tel. 318 Cables: "Transagent".

## KOPER: 45.31 N. 13.44 E.

**DOCUMENTS/HEALTH:** Same as "Rijeka". If the vessel has t wait for a berth the Agent, immigration officer and Customs offic will board at the anchorage in the Bay.

**PILOTAGE:** Pilot boards in roads.

**ANCHORAGE:** During winter N.N.E. gales best anchorage is i 10 fathoms of water West of Debeli Rt. (Punta Grossa).

**RESTRICTIONS:** Vessels enter port by daylight. However bert ing possible also during night hours in fair weather.

**MAX. SIZE:** General cargo berths, vessels drawing up to 31 f Crude oil berth, berth for tankers up to 60,000 dwt.

**RADIO:** Communication on MW and SW through Rijeka Radi VHF Communication ship-shore on short range to vessels in roads

**TUGS:** Two of 600 h.p.

**STEVEDORES:** Port Enterprise Koper. *Working hours:* 0600–130 1400–2100; 2200–0500. Overtime is worked if necessary.

All discharging is by ship's gear, and there are no cranes in th port. The stevedores will cover and uncover the hatches, but wi not trim the derricks.

**MEDICAL:** Medical assistance and hospital available.

**CARGO-HANDLING:** 1,000 metres of operative quays with dept from 6 to 12 metres. One crane of 20 tons and two of 10 tons capacit

Two more quays for bulk goods are under construction. Particula moorings for minor corn transports.

A special wharf is under construction, with 17 hectares (42 acre of acreage for the transhipment of containers. The port is able t handle roll-on/roll-off traffic and the transhipment of all kinds o freight in units.

A timber yard with two 8-ton portal cranes.

All harbour services are mechanised, i.e. performed by fork-li trucks, transporters, pallets and other modern means. Moreove the port is able to trans-ship heavy lifts up to 25,000 kg/s.

**TANKERS:** Crude oil terminal, depth alongside 16 metres.

**FRESH WATER:** Available from quay. Rate of delivery abo 10 t.p.h.

**FUEL:** Diesel available locally. Marine fuel delivered by barge fro Rijeka or Trieste.

**GANGWAY/DECK WATCHMEN:** Available at ship's reques

**OPENING/CLOSING HATCHES:** If not performed by crew, the stevedores.

**REPAIRS:** Minor repairs possible.

**CUSTOMS ALLOWANCES:** About 40 cigarettes and reasonab amount wine/spirits per man per day.

**IDENTIFICATION CARDS:** Shore pass issued by local poli

**REPATRIATION:** By train or bus, and by plane via Ljubljana Ai port.

**TIME:** GMT plus one hour.

**HOLIDAYS:** January 1st and 2nd; April 27th; May 1st and 2nd July 4th; July 22nd; November 1st; November 29th and 30th.

**POLICE/AMBULANCE/FIRE:** Police, No. 92; Ambulance, No 94; Fire, No. 93.

**TELEPHONE:** Can be installed aboard at many berths.

**SHORE LEAVE:** Allowed.

**AGENT:** Interagent, International Shipping Agency, Verdijeva 5, POB 27. Cables: "Interagent – Koper". Telex: 34150 – Yu Intrag. Tel. 22-051, 21–750.

## PLOCE: 43.03 N. 17.26 E.

**DOCUMENTS/HEALTH/HOLIDAYS:** Same as "Rijeka".
**PILOTAGE:** Compulsory for vessels over 500 grt. Pilot boards vessel at entrance of the channel.
**ANCHORAGE:** Vessels may anchor under lee of the coast between Point Visnjica and Dobrogosce Bay except in case of S.W. and W. winds when recommended drop anchor about 1 mile south of Soline Bay (S.E. of the entrance of the channel). Good holding.
**RESTRICTIONS:** Ship entering channel between Visnjica Point and embankment of right hand bank must keep in middle leaving buoys to starboard. Recommended speed 5–8 knots.
**MAX. SIZE:** Only draft limited to a maximum 38 ft.
**RADIO:** Nearest Radio Station Split Radio YUS – 2574 kc/s.
**TUGS:** 2 tugs of 850 h.p.
**BERTHING:** New Dock No. 5, depth 38 ft. Channel depth 38 ft. All other berths depths from 31 to 34½ ft.
**STEVEDORES:** Port Enterprise of Ploce is sole stevedoring company.
**MEDICAL:** Medical service available. Nearest hospital at Mostar (64 km.).
**FRESH WATER:** Available from quay.
**FUEL:** Nearest bunker station at Split.
**DEVELOPMENTS:** Dredging to accommodate vessels of 60,000 dwt. and construction of facilities for unloading tankers with crude oil for new refinery of Bosanski Brod.
**GANGWAY/DECK WATCHMEN:** Available.
**OPENING/CLOSING HATCHES:** If not performed by crew, stevedores.
**CUSTOMS ALLOWANCES:** About 40 cigarettes and reasonable amount wine/spirits per man per day.
**IDENTIFICATION CARDS:** Shore pass issued by local police.
**REPAIRS:** Only small repairs.
**REPATRIATION:** By train or bus. By plane from nearby airports, Mostar, Split and Dubrovnik.
**TIME:** GMT plus one hour.
**POLICE/AMBULANCE/FIRE:** Police, Tel. 79–006; Ambulance, 79-115; Fire, 79–029.
**SHORE LEAVE:** Allowed.
**AUTHORITY:** Lucka Kapetanija – Ploce. Telegraphic address: Luckap Ploce. Tel. 79–008.

**AGENT:** Transagent Ploce, Saobracajni Trg BB. Tel. 79025. Cables: "Transagent".

## RIJEKA: 45.21 N. 14.26 E.

**DOCUMENTS:**

5 Crew Lists – 2 by mail from last port of call if time allows.
5 Passenger Lists.
3 Manifests of Dangerous Cargo (send cable before arrival with description).
3 Stores Lists.
2 Private Declaration.
Cargo Manifests with one extra for customs.
2 Transit Cargo Manifests.
1 List of Organic goods.

Cargo Manifests and copy of Cargo Plan with Hatch Lists, if possible, should be mailed to Agent from loading port.

Cargo Manifests and copy of Cargo Plan with Hatch Lists, if possible, should be mailed to Agent from loading port.
**PILOTAGE:** Compulsory in Inner Harbour only. Pilot boards in the roads half a mile from main breakwater.
**ANCHORAGE:** All vessels, with the exception of those loaded with dangerous or hazardous cargoes, must anchor in the zone enclosed by the following points:

a) 45° 20,0′ N. – 14° 22,7′ E. c) 45° 15,1′ N. – 14° 27,1′ E.
b) 45° 17,5′ N. – 14°20,0′ E. d) 45° 18,4′ N. – 14° 28,5′ E.

Tankers and vessels with dangerous cargoes must anchor in the following zone:

a) 45° 17,8′ N. – 14° 28,0′ E. c) 45° 14,1′ N. – 14° 29,4′ E.
b) 45° 15,1′ N. – 14° 27,1′ E. d) 45° 16,1′ N. – 14° 31,8′ E.

**RESTRICTIONS:** At Bakar petroleum berth only daylight berthing permitted.
**MAX. SIZE:** Rijeka and Susak Basins, permitted draft 34 ft.; Bakar Basin, permitted draft 50 ft. Vessels up to 100,000 dwt. have discharged ore at Bakar.
**HEALTH:** To obtain free pratique radio 48 hours before arrival advising following details; number of crew and passengers, health conditions and possible infectious diseases. No one allowed to leave vessel until free pratique obtained.
**RADIO:** Rijeka Radio, call sign YUZ, 500 and 512 kc/s. Radio telephone on 2 metres band covering area of Kvarner Gulf.
**TUGS:** From 600 to 1,200 h.p. available.
**STEVEDORES:** Port works five days a week in two shifts: 1st shift from 0630 hours to 1430 hours. 2nd shift from 1430 hours to 2230 hours. The third shift may be worked on overtime, from 2230 to 0630 hours. Saturdays, Sundays and holidays may be worked on overtime.

Unloading of bulk cargo at the basin of Bakar during the first shift on Saturday from 0630 to 1430 is considered to be an ordinary working shift. The working week of this basin, therefore, lasts from Monday 0630 hours to Saturday 1430 hours.

Unloading of bulk cargo at the above mentioned Basin includes, as well as the unloading, continuation of unloading the vessels that might be for some special operational reasons shifted from Bakar Basin to Susak Basin.

Loading/unloading of cereals and oilseeds in bulk by means of loading/unloading towers in Silo Rijeka in the first shift on Saturday, from 0640 to 1430, is considered to be an ordinary working shift, and therefore the working week for such operations lasts from Monday 0630 to Saturday 1430 hours.
**MEDICAL:** Two hospitals and all kinds of medical assistance.
**TANKERS:** Old Petroleum Port, for tankers up to 150 m. length, berthing alongside breakwater.

Splitska Obala, berth for medium-size tankers up to 30,000 dwt. Mooring stern to quay using anchors forward.

Bakar, two berths for tankers up to 70,000 dwt. stern to quay. One berth alongside quay for tankers up to 30,000 dwt.

Urinj, 5 miles East of Rijeka, a new berth for tankers up to 100,000 dwt. Slop reception facilities available. Vessels moor stern to quay using both anchors.
**DENSITY:** 1020 to 1025, depending on place, season and weather.
**FRESH WATER:** Available from quay in any quantity. Not available at Urinj.
**FUEL:** All grades of bunkers available by barge at 48 hours notice.
**FIRE PRECAUTIONS:** If two tankers moored side by side in Bakar a tug required standing by. Tankers moored stern to quay must have towing wire rigged.
**GANGWAY/DECK WATCHMEN:** Service available
**OPENING/CLOSING HATCHES:** Crew may do this, otherwise stevedores for extra payment.
**CUSTOMS ALLOWANCES:** About 40 cigarettes and reasonable quantity wine/spirits per man per day.
**CARGO GEAR:** Although operations usually by shore cranes, ship must have efficient cargo gear and relative certificates.
**IDENTIFICATION CARDS:** Shore passes issued by local police.
**CONSULS:** Only in Zagreb and Beograd.
**REPAIRS:** All kinds available. Floating cranes up to 100 tons capacity.
**DRY DOCKS:** One for "Liberty" size vessels, and one for vessels up to 60,000 dwt.
**REPATRIATION:** Possible by train, bus, and air. New airport at Rijeka.
**TIME:** GMT plus one hour.
**HOLIDAYS:** January 1st and 2nd; May 1st and 2nd; July 4th; July 27th; November 29th and 30th. Work can usually be arranged on Sundays, January 2nd, May 2nd and November 30th from 0700 to 1400 for extra payment. If a holiday falls on a Sunday the first working day after becomes a holiday.
**POLICE/AMBULANCE/FIRE:** Police, tel. 92; Ambulance, tel. 94; Fire, tel. 93; Port fire brigade, tel. 25–126.
**SHORE LEAVE:** Allowed. Crew members and passengers have to be on board one hour before scheduled sailing time.
**AUTHORITY:** Lucka Kapetanija – Rijeka, Obala 10 rujna No. 3. Cables: Luckap Rijeka. Tel. 22–201.

**AGENT:** Transagent, Rijeka, Trscanska Obala 8. Cables: Transagent Rijeka. Tel. 22–406. Telex: 24219.

## SIBENIK: 43.43 N. 15.52 E.

**DOCUMENTS/HEALTH/HOLIDAYS:** Same as "Rijeka".
**PILOTAGE:** Pilot boards vessel at the entrance of St. Ante Channel, within a circle of 3 miles radius from Jadrija Lighthouse.
**ANCHORAGE:** Vessels waiting Pilot must anchor between Prvic Island and the shore if incoming from the West, or between the South point of Zlarin and the shore if coming from the East, all in depths of 22 metres.

In the Bay of Sibenik, vessels may anchor in 20 fathoms of water in front of the N.N.E. light on quay. Alternatively, a buoy mooring is available.
**RESTRICTIONS:** All vessels over 50 grt. must apply for permission to enter St. Ante Channel by using International Code Signal Z by flag, or sound signal or light signal. Alternatively, a white light above a red light visible all round may be used.

Vessels may enter channel only when authorised by a signal, two black balls vertically disposed by day or two green lights vertically displayed by night, made by the signalling station of Port Sv Nikola.
**MAX. SIZE:** Only draft limited. 33 ft. alongside in deepest berth.
**RADIO:** None. Vessel may call Agents through Rijeka Radio.
**TUGS:** One of 750 h.p. One of 350 h.p.
**STEVEDORES:** Port Enterprise Sibenik.
**MEDICAL:** Medical service available including hospitalisation.
**FRESH WATER:** Available from quay.
**FUEL:** Can be delivered by barge from Split. Recommended to check well in advance.
**GANGWAY/DECK WATCHMEN:** Available.
**OPENING/CLOSING HATCHES:** If not performed by crew, can be done by stevedores.

**CUSTOMS ALLOWANCES:** About 40 cigarettes and reasonable amount wine/spirits per man per day.
**CARGO GEAR:** General cargo discharged using ship's gear. Ore and other dry bulk cargoes handled by shore cranes fitted with grabs.
**IDENTIFICATION CARDS:** Shore passes given by local police.
**REPAIRS:** Small repairs only.
**REPATRIATION:** By train or bus, by air from Split Airport nearby, or from Zagreb or Zadar.
**TIME:** GMT plus one hour.
**TELEPHONE NUMBERS:** Police, 92; Ambulance, 94; Fire, 93.
**SHORE LEAVE:** Allowed.
**PORT AUTHORITY:** Lucka Kapetanija, Obala Jugoslavenske Mornarice b.b., Sibenik.

**AGENT:** Transagent Sibenik, Obala Oslobodjenja. Tel. 2582. Cables: Transagent.

## SPLIT: 43.31 N. 16.26 E.

**DOCUMENTS/HEALTH/HOLIDAYS:** Same as "Rijeka".
**PILOTAGE:** Pilot boards vessel in roads.
**ANCHORAGE:** Vessels anchor in Solin Basin within a circle with centre approximately in 43° 32′ 36″ N. 16° 24′ 36″ E.
**MAX. SIZE:** Length and breadth not limited. Draft permitted in Southern Basin 29 ft. Northern Basin 34 ft. (ore, coal), 36 ft. (grain) General Cargo, 31 ft.
**RADIO:** Split Radio working on 2182 and 1574 kc/s.
**TUGS:** from 240 to 1350 h.p. available.
**MEDICAL:** All medical assistance including hospitalisation.
**TANKERS:** Two berths for tankers, max. length 200 m., draft 31 ft.
**FRESH WATER:** Available from quay.
**FUEL:** Available from local storage tanks.
**GANGWAY/DECK WATCHMEN:** Available.
**OPENING/CLOSING HATCHES:** By crew or stevedores.
**CUSTOMS ALLOWANCES:** About 40 cigarettes and reasonable amount wine/spirits per man per day.
**IDENTIFICATION CARDS:** Shore passes issued by local police.
**CONSULS:** British, Dutch, Italian, and German.
**REPAIRS:** Any kind, including dry docking.
**DRY DOCKS:** Floating dock at Trogir for vessels up to 28,000 dwt.
**REPATRIATION:** By train, bus or air from Split Airport.
**TIME:** GMT plus one hour.
**TELEPHONE NUMBERS:** Police, 92; Ambulance, 94; Fire, 93.
**GENERAL:** Port consists of two basins: The Old Southern Port for passenger ships and with a few berths for general cargo.
**SHORE LEAVE:** Allowed.
**AUTHORITY:** Lucka Kapetanija – Split, Obala Lazareta 1. Telegraphic address: Luckap Split. Tel. 2588.

**AGENT:** Transagent Split, Saveznicka Obala 10. Tel. 3351. Cables: Transagent.

## ZADAR: 44.07 N. 15.14 E.

**DOCUMENTS/HEALTH/HOLIDAYS:** Same as "Rijeka".
**PILOTAGE:** 48 and 24 hours notice of ETA must be given to Agent. According these notices Agent arranges for Pilot to board on arrival. Pilot boat blue motor launch with large "P" on bows. No particular signals to be made by vessels requiring Pilot. Pilot boards ship in the anchorage.
**ANCHORAGE:** About 4·5 cables, 245° from green port light, (FL G 2 sec.) on the North part of Zadar Peninsula. Average depth about 18 fathoms.
**MAX. SIZE:** Zadar, old port, maximum permissible draft 22 ft. Zadar-Gazenica, new port, max. draft 30 ft., both in dry and oil cargo berths. Max. length in dry cargo berth, 160 metres.
**RADIO:** Rijekaradio, YUZ.
**TUGS:** No tugs available.
**STEVEDORES:** Number of gangs required to be stated in usual notice of ETA.
**MEDICAL:** Advance notice not necessary, hospital facilities available.
**TANKERS:** At Zadar-Gazenica Port, one tanker berth max. draft 34 ft.
**DENSITY:** Average density in the port – 1026.
**FRESH WATER:** Fresh water connections on piers, rate of delivery 8–15 tons/hour.
**FUEL:** Fuel available for coasters only.
**DEVELOPMENTS:** Completion of Zadar-Gazenica Port, railroad and road terminals. In future completion of second berth for dry cargo ships.
**GANGWAY/DECK WATCHMEN:** Not necessary.
**OPENING/CLOSING HATCHES:** Normally, but not compulsorily, carried out by stevedores.
**CUSTOMS ALLOWANCES:** 200 cigarettes per person. Tobacco and liquor sealed in bond.

**IDENTIFICATION CARDS:** Shore passes issued by local poli
**CONSULS:** None.
**REPAIRS:** Any kind of repairs including dry docking at near shipyard "Rijeka".
**DRY DOCKS:** Floating dock lifting capacity 10,000 tons, LOA 184 m., length over keelblocks 165·6 m., inside free breadth 25·5 m

Floating dock lifting capacity 33,000 tons, LOA 252 m., length ov keel blocks 235 m., inside free breadth 44 m. will be put into operati in October 1975.

The yard "Bijela" is about 4 miles East of Zelenika. The yard ha 700 m. of fitting pier and another 600 m. is under construction an will be put into operation in June 1975.
**REPATRIATION:** By bus to Dubrovnik, and from there bu plane or ship to main cities in Yugoslavia.
**TIME:** Central European Time. GMT plus one hour.
**HOLIDAYS:** January 1st and 2nd; May 1st and 2nd; July 4th an 13th; November 29th and 30th. Work can be arranged on Sunday and on 2nd day of two-day holidays.
**POLICE/AMBULANCE/FIRE:** No direct connection, in case o necessity call Agency, Tel. 436.
**SHORE LEAVE:** Allowed.
**AUTHORITY:** Lucka Kapetanija Zelenika. Tel. 87 408.

**AGENTS:** Jadranska Pomorska Agencija, Zelenika. Tel. 87 436. Telegraphic address: Jadroagent Zelenika.

# Zaire Republic

## BANANA: 6.01 S. 12.25 E.

**DOCUMENTS:**
6 Crew Lists.
4 Passenger Lists or "No Passengers" Declaration.
Stores List.
Import and Export Manifests (made up by Agent).
Ship's Register.
Maritime Health Declaration.
3 Vaccination Lists (valid books for vaccination/inoculatio against Smallpox, Yellow Fever are obligatory).
**APPROACHES:** In view of the strong current, and in view of th fact that the lights of the navigation buoys on the Congo River do no always work properly, night navigation is practically impossibl Tankers, therefore, arriving at night, or in times of congestion, a recommended to anchor approx. 5 miles West of Moita Seca Ligh in approx. 10 fathoms, about 12 miles from Stella Buoy.
**PILOTAGE:** River Congo can be entered direct from sea in dee water. Pilots not compulsory. Mooring master boards incomin tankers to assist mooring at buoys. Notice of arrival to be given t Harbour Master, radio Maritime Banana. No VHF.
The position of the flare of the SOCIR Refinery at Moanda is:
5° 57′ 51″ S.
12° 25′ 07″ E.
The flare is visible during day and night and may be a good bear for vessels approaching Congo River.
**MAX. SIZE:** Tankers up to 40 ft. draft may discharge at buoy moo ings. Banana Creek is limited to vessels draft not exceeding 15 ft
**HEALTH:** Quarantine Officer boards at sea buoy. Free pratiqu usually granted as soon as Maritime Health Declaration complete

Valid smallpox and yellow fever inoculations required for all crew members.

**RADIO:** At least three days notice required to Agent (ETA and draft only) and to Harbour Master, Maritime Banana (ETA only). As it is necessary to transmit these notices via another shore station (e.g. Capetown Radio, Libreville Radio, etc.), as the Banana Radio Station can only be reached two days prior arrival. Close advice on changes in ETA necessary to prevent delays in waiting for cargo-lighters and push-boats.

Radio Banana (9 PA) working on 495 kc/s. and 8714 kc/s.

**BERTHING:** Tankers berth in river anchorage between buoys 12 and 14, both anchors used. Tugs not available and not required.

Upon arrival at the berths, tankers should use both anchors on long scope in view of the current. When anchoring it is recommended to drop outside anchor first, up to approx. three shackles and subsequently, after the ship's swinging to starboard, the starboard anchor. Thereafter it is essential that ample cable is used on both anchors, approx. eight shackles. Tankers sail without Pilot and may leave any time.

**CARGO OPERATIONS:** Tankers discharge-into/load-from cargo barges moored alongside either side. These barges (three in total) are equipped with 8-in. cargo hoses (position of hose connection amidships) and suitable fenders, have a capacity of 1,650 long tons or 2,050 cub. metres, and can receive the cargo at a rate of up to 800 tons per hour or, alternatively, can load at a rate of approx. 400 tons per hour. Under normal conditions the refinery will handle three barges per shift of 12 hours. Cargo operations are effected continuously day and night, during Sundays and holidays, in shifts from 0600 to 1800 hours and from 1800 hours to 0600 hours. Therefore a tanker of approx. 19,000 tons can be completed in a net discharging/loading time of approximately 48 hours. During the cargo operations, six Congolese deckhands stay on board to handle cargo hoses and barges. These men are to be provided with meals and accommodation (one spare cabin will be sufficient). Masters are also requested to instruct their crew to assist with the mooring/unmooring of cargo barges alongside.

**DENSITY:** Brackish to salt.

**FRESH WATER:** Not available.

**FUEL:** Subject to enquiry through Agent.

**MEDICAL:** Doctor available for emergency only. No dental or hospital facilities.

**TANKERS:** No tank-cleaning facilities. Barge available for dirty ballast reception limited to 2,000 cub.m. per trip.

**REPAIRS:** No facilities.

**GENERAL:** During stay of tankers at anchorage the discharge and/or loading operations are constantly supervised by 1 or 2 European representatives of the refinery, who are to be accommodated on board and to be provided with meals.

**SHORE LEAVE:** Shore leave is presently not allowed due to lack of communications; only in urgent cases a crewmember may join one of the refinery tugs. There is no entertainment whatsoever ashore.

**AUTHORITY:** Office d'Exploitation des Transports Coloniaux.

## BOMA: 05.15 S. 13.03 E.

**DOCUMENTS:**

6 Crew Lists.
4 Passenger lists (or "no passenger" declaration).
3 Stores Lists.
3 Crew personal effects lists.
Import and Export Manifests (made up by Agent).
3 sets Cargo Manifests and 4 sets Bills of Lading to be airmailed to Agent in advance.
Maritime Declaration of Health.

**PILOTAGE:** Port is situated on the right bank of River Congo, about 44 miles above Pilot Station at Banana.

Radio Maritime Banana 24 hours prior arrival giving ETA at Banana and requesting Pilot. Pilot available between 0700 and 2200 for arriving vessels. No VHF.

**RESTRICTIONS:** Depth at bar 30 ft. Permissible draft for navigating Congo River varies between 20 ft. to 27 ft. according to local conditions and should be checked with Port Authority in advance.

**HEALTH:** Quarantine Officer boards on arrival. All crew members require valid smallpox vaccinations and yellow fever inoculation certificates.

**TUGS:** Two tugs of 200 and 300 h.p. available to assist berthing.

**BERTHING:** Total quay length 450 metres with three berths alongside. Depth of water at the quay 8 metres at low water. Maximum current at the berths is 3 knots.

**FRESH WATER:** Available from quays, not suitable for drinking.

**FUEL:** Not available.

**MEDICAL:** Doctors and hospital facilities available.

**REPAIRS:** No facilities.

**AUTHORITY:** Office d'Exploitation des Transports Coloniaux. Cables: Onatra Boma.

## MATADI, (including Ango-Ango): 05.49 S. 13.27 E.

**DOCUMENTS:** 7 days before arrival of vessel the following must be in the hands of the Agent:

4 Manifests (detailing explosives, general cargo, heavy lifts).
3 Stowage Plans.
6 Copies of Bills of Lading.
1 Freighted Manifest.

On arrival:

Maritime Declaration.
Ship's Register.
3 Crew Personal Effects Lists.
2 Stowage Plans.
1 Freighted Manifest.
3 List of Ports of Call.
7 Passengers Landed.
7 Passengers in Transit.
5 Crew Lists.
5 Crew Boys Lists.
2 Provisions Lists.
4 Individual Manifests.

**PILOTAGE:** Compulsory for vessels over 500 grt. Radio Maritime Banana 24 hours prior arrival giving ETA at Banana and requesting Pilot. Pilot boards at Banana pilot station. Distance from Banana to Matadi about 75 miles. Pilot available between 0700 and 2200 for arriving vessels. No VHF.

**RESTRICTIONS:** Depth at bar 30 ft. Permissible draft for navigating Zaire River varies between 20 ft. and 27 ft. according to local conditions and should be checked with the Port Authority 3 days in advance.

**MAX. SIZE:** Controlled by draft in river.

**HEALTH:** Quarantine Officer boards on arrival. All crew members require valid smallpox vaccination and yellow fever inoculation certificates.

**TUGS:** Three tugs, largest 1,300 h.p., available to assist berthing.

**BERTHING:** At Matadi.

| | | | |
|---|---|---|---|
| Pier 1 | 149 metres | Pier 6 | 144 metres |
| Pier 2 | 161 metres | Pier 7 | 152 metres |
| Pier 3 | 156 metres | Pier 8 | 149·5 metres |
| Pier 4 | 158 metres | Pier 9 | 167 metres |
| Pier 5 | 128 metres | Pier 10 | 14·3 metres |

At Ango-Ango:

Pier A. Length 110 metres

(As a rule for discharge of inflammable goods and explosives.)

**UNLOADING RATE:** 400 to 600 tons of general cargo per day of two shifts.

**CRANES:** 33 cranes electric. (3 tons at 20 metres reach), (6 tons at 10 metres reach).

| | | |
|---|---|---|
| 15 Cranes Electric | 5 tons | |
| 2 Cranes Steam | 5 tons | |
| 1 Crane Steam | 10 tons | |
| 1 Derrick Fixed | 50 tons | Pier 4 |
| 1 Floating Crane | 8 tons | |
| 1 Portic Crane | 5 tons | |

**BULK HANDLING FACILITIES:** Palm oil is stocked by four companies in Matadi, three of which have pipe-lines to a main quay. The palm oil installations of CCP are at Ango-Ango where ships must berth at Sep Zaire pier. Vessels handling Sep Zaire cargoes are given priority at this pier and in case of unavailability of berth, palm oil would be loaded by barge of 260 tons capacity at Matadi.

| | |
|---|---|
| P.L.Z. (Plantations Lever au Zaire) capacity | 13,450 t. |
| AMATO-Freres | 3,700 t. |

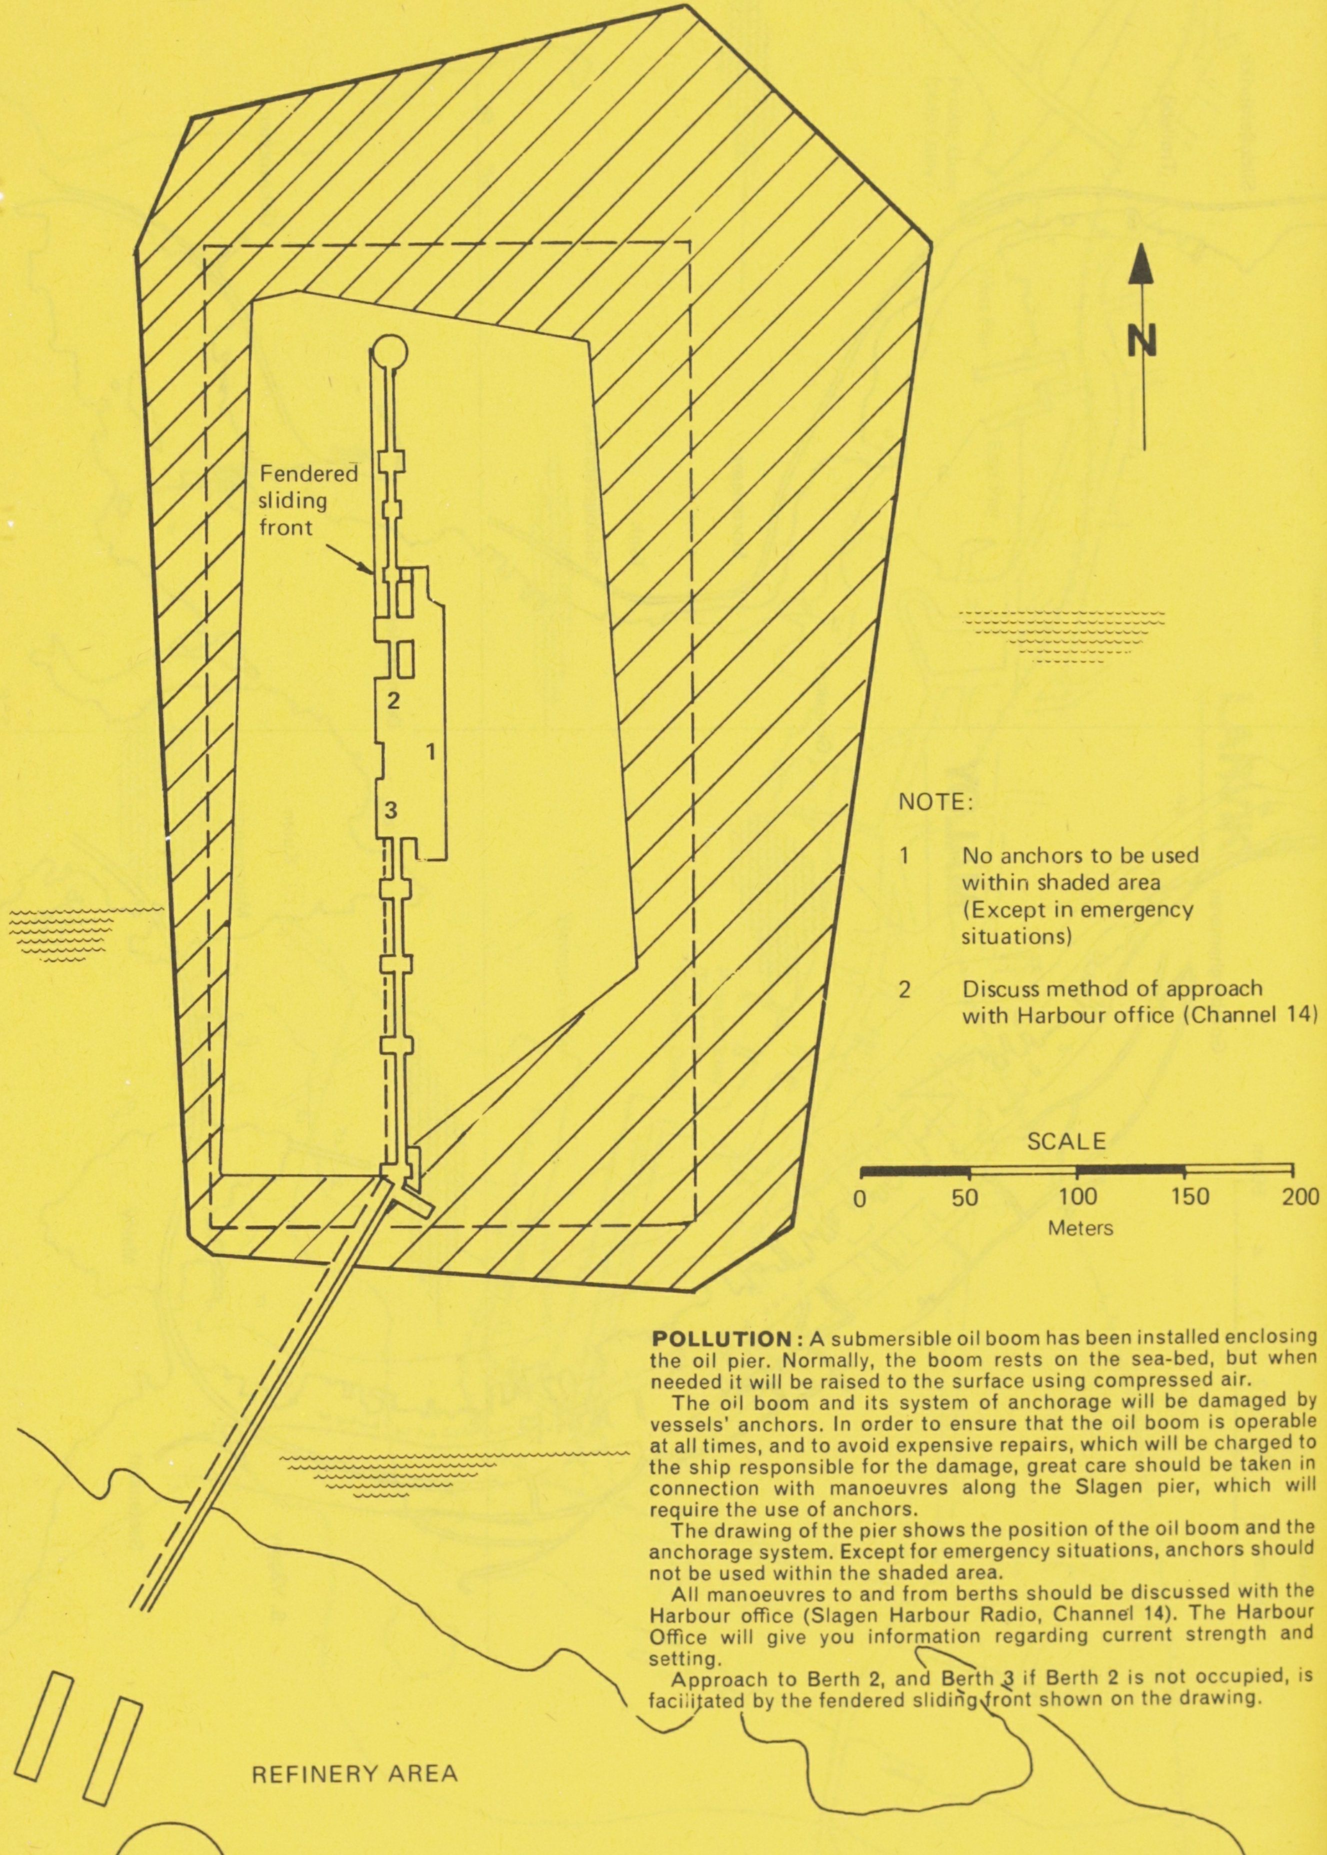
# Slagen Pier

## SUBMERSIBLE OIL BOOM INSTALLATION



NOTE:

1 No anchors to be used within shaded area (Except in emergency situations)

2 Discuss method of approach with Harbour office (Channel 14)

**POLLUTION :** A submersible oil boom has been installed enclosing the oil pier. Normally, the boom rests on the sea-bed, but when needed it will be raised to the surface using compressed air.

The oil boom and its system of anchorage will be damaged by vessels' anchors. In order to ensure that the oil boom is operable at all times, and to avoid expensive repairs, which will be charged to the ship responsible for the damage, great care should be taken in connection with manoeuvres along the Slagen pier, which will require the use of anchors.

The drawing of the pier shows the position of the oil boom and the anchorage system. Except for emergency situations, anchors should not be used within the shaded area.

All manoeuvres to and from berths should be discussed with the Harbour office (Slagen Harbour Radio, Channel 14). The Harbour Office will give you information regarding current strength and setting.

Approach to Berth 2, and Berth 3 if Berth 2 is not occupied, is facilitated by the fendered sliding front shown on the drawing.

## QATAR–UMM SAID TERMINAL MOORING ARRANGEMENT FOR NORTH BERTH (SPM)

MOORING OPERATION:

Tanker veers out messenger line (2 Nos 8″ circ x 120 fm nylon). Through centre line Panam lead, which mooring launch attaches to pick-up wire. Tanker heaves up mooring hawser and shackles snotter to triangular plate attached to inboard end of chafing chain.

# LATEST REPORTS

# Australia

## PORT HEDLAND, WEST AUSTRALIA

### SHIPMASTER'S REPORT

**APPROACHES:** Proceeding from Kobe, the vessel passed 10 miles East of Imperieuse Reef L.H. thence to position 7 miles North of Bedout Island L.H. From there the track printed on the Australian charts was followed until the Sea buoys were picked up. From Bedout Is. the Decca was found to be fairly reliable improving as we neared the land.

The buoyage system is as follows:

| *Name or No. of Buoy* | *Position* | *Type* | *Inwards Pass* |
|---|---|---|---|
| Cornelisse Shoal Buoy | 20° 02′ 10″ S<br>118° 22′ 51″ E | Conical<br>GP.Fl.(3) 9 sec. | Stbd. Hand |
| C.1 | 19° 59′ 58″ S<br>118° 25′ 45″ E | Conical<br>Fl.3 sec. | Stbd. Hand |
| C.2 | 20° 02′ 24″ S<br>118° 25′ 07″ E | Can<br>Fl.R.ev.5 sec. | Port Hand |
| C.3 | 20° 04′ 36″ S<br>118° 25′ 32″ E | Can.<br>Gp.Fl.R (4) ev. 12 sec. | Port Hand |
| C.4 | 20° 06′ 33″ S<br>118° 28′ 02″ E | Conical<br>Fl.2.5 sec. | Stbd. Hand |
| C.5 | 20° 10′ 29″ S<br>118° 30′ 36″ | Can<br>Fl.R.5 sec. | Port Hand |
| C.6 | 20° 11′ 32″ S<br>118° 31′ 11″ E | Sarus Tower<br>Fl.R. 10 sec. | Port Hand |

Charts L (D4) Aus. 53 and L (D4) Aus. 739 are Decca lattice charts.

The most conspicuous land object, by daylight, ashore is the crushing plant of Mt. Newman Mining Co. This plant is an oblong shape, about 47·24 metres high (above sea level) situated 095 degrees true × 1,383 metres from the Shipping Control Tower in Lat. 20° 19′ S., Long. 118° 34′ 50″ E.

Cooke Pt. Lt. is exhibited from position Lat. 20° 18′ 16″ S., Long. 118° 37′ 52″ E., Gp.Fl.(3) ev. 15 sec. 37 metres high. Visible for 17 miles.

Port Hedland is entered between Airey Pt. (Lat. 20° 18′ S., Long. 118° 35′ E.) and Hunt Pt. 3¼ cables N.N.W. It has a dredged channel with a depth of 12·8 metres below datum, a turning basin with a depth of 8·8 metres below datum. The channel extends for 7¾ miles to seaward from the turning basin and is well marked by buoys. The limits of the port are defined as; "all that piece of water within a radius of 10 miles off Hunt Pt. Beacon (No. 29). "Numerous shoals exist either side of the approach channel.

At the entrance to Newman Channel is No. 8 buoy, (No. 7 buoy is now non-existent). A pair of Beacons No. 9 and No. 10 showing red and green lights respectively also mark the entrance to the channel. The Pilot boards in this vicinity.

Cornelisse Buoy is fitted with a radar reflector and marks "Cornelisse Shoal", has been known to shift from its position and should be passed well to the Eastward.

The buoy known as "Spoil Ground Buoy" is in a position 357 degrees true, 5·4 miles from Finucane Is. Water Tower and in conjunction with No. 6 buoy marks the Southern end of the anchorage. Vessels should anchor North of the line joining these two buoys. The bottom is sandy, but the holding ground reported good.

Vessels should call Broome Radio for emergency Notices to Mariners affecting Port Hedland approaches.

Vessels inward bound may encounter vessels outward bound displaying signals for deep drafted vessels, showing that they must keep to the buoyed tracks.

**PILOTAGE:** Under the control of the Harbour Master and is compulsory for all overseas vessels and Australian vessels over 6,500 g.r.t. Pilots board either by helicopter or Pilot boat.

There are well defined instructions for ships embarking pilots by helicopter by day or night, however, the Pilot said that our ship was unsuitable for this operation owing to our corrugated hatch tops.

Boarding by boat, the Pilot requires a good lee at all times. Anchored vessels taking a pilot should get underway before the pilot boards. Pilot ladders should be clean and properly constructed, fitted with spreaders to prevent turning and spacing pieces to maintain treads in a horizontal position. Manropes of 3 in. manilla should be rigged each side of the ladder and the full length thereof.

In addition to the cleanliness of the pilot ladder on arrival, the gangway or accommodation ladder must be washed down after completion of loading, before the Pilot boards for departure.

Unless the ladder is satisfactorily washed down and free of ore dust, Pilot may refuse to board with resulting loss of time and expense until the ladder is washed down to Pilot's satisfaction. Failure by Masters to comply with these requirements in the past in Australian ports has resulted in delays and off-hire situations in the case of time-chartered vessels, heavy fines for the Master plus court costs and substantial compensation for the injured against the owners.

A boat rope is not required at this port.

*Keel clearance:* Official scale of keel clearance for vessels up to 12·3 metres draft is: 1·0 metre clearance inside the harbour. 1·2 metres clearance outside the harbour.

**TUGS:** Five tugs each of 2,400 h.p. are available, plus two small tugs of about 350 h.p. Line running boats and ferries are also available.

**BERTHING:** Due to the tidal range and strength of current, ships over 10,000 dwt do not sail on the ebb tide. When the tidal range is more than 19 ft., no ships sail on the ebb. Vessels usually berth close to low or high slack water.

Vessels bound for Port Hedland should advise the Harbour Master 48 hours and 24 hours before their arrival, indicating their draft fore and aft and last port. A continuous watch is kept in the Port Shipping Control tower, on VHF, and vessels should call "Port Hedland Harbour" on Channel 16 2 hours before arrival at anchorage confirming their ETA, in order that they may be kept acquainted with berthing instructions and the movement of other vessels.

No ship may enter the dredged channel or depart from any berth without permission from Port Control.

There are six berths situated within the inner harbour as follows:

*Goldsworthy pier:* This is situated on the Western side of the harbour on Finucane Island and lies S.W. of Hunt Pt. Beacon (No. 29). The face of the jetty extends over 177 metres and lies in the line 017–197 degrees true, it consists of six breasting dolphins, each of which has a Firestone Burleigh floating fender unit. There are two dolphins ahead and astern of the jetty, set back from the jetty face, for mooring, they have no fenders.

Distance from No. 1 dolphin (North) to the No. 10 dolphin (South) is 378 metres and the dredged mooring basin is 366 metres long, 61 metres wide and has a depth of 15·85 metres below datum. The shiploader has an overall length of travel of 180 metres and a maximum capacity of 4,500 tph.

Fresh water and fuel are not available at this berth.

Vessels will normally berth port side to, heading out to sea. Accommodation ladder should be rigged before berthing on the off-shore side, as gangways are not acceptable on the jetty. The accommodation ladder may be used by quarantine officials for boarding vessel berths.

The height of the shiploader underside in the raised position above chart datum is 23·1 metres. The loader is not completely retractable behind the berth face, but retracts to a position 0·84 metres behind the fender line.

*No. 1 berth:* Being reconstructed and available early 1974. This landbacked berth will lie in a 350–170 degree direction and have a length of 213 metres with a mooring dophin 58 metres from the North end. Depth alongside is 12·2 metres. For dry and general cargo. Oil fuel, fresh water and telephone will be available at this berth.

*No. 2 berth:* A wooden jetty, 121 metres long with depths alongside of 6·7 metres so not likely to be used by Bulkers.

*No. 3 berth:* Is situated to the South of Mangrove Pt. and is constructed of steel piles with a steel and concrete decking. The wharf runs in a 117–297 degree true direction for a distance of 183 metres with dolphins 46 metres ahead and astern to facilitate mooring. There is a mooring basin alongside the berth and dolphins. The full length of the wharf is protected by a "Raykin" fender system. Depth alongside is 12·2 metres. A mechanical bulk loading facility is operated by the Leslie Salt Co. on this wharf. The loader has a capacity of 1500 tph.

*Mount Newman piers A and B:* These two berths form a continuous line running in a 117–297 degree true direction from a position immediately South of No. 3 berth towards Nelson Pt. Pier A is the Northward berth and extends for a distance of 305 metres, the depth alongside being 18·29 metres. Pier B the Southward berth has a length of 353 metres and is dredged to a depth of 17·07 metres below datum.

The two shiploaders are completely retractable and have an average capacity of 6,000 tph. each. Loader No. 1 at B berth has a boom reach of 28 metres from the wharf face and the height of the underside of the loader is 23·5 metres above datum. Loader No. 2. at A berth, has a boom reach of 29·6 metres and a height above datum of 26·5 metres. Vessels will normally swing on entry and berth starboard side to on these berths. Starboard gangways should be rigged prior to arrival so that no time is lost in the boarding of Quarantine and Customs officials on berthing.

The whole length of the berth is protected by "Raykin" fender system. No bunkers available at these berths.

**STOWAGE FACTORS:** Based on most recent experience stowage factors of iron ore cargoes loaded at Port Hedland are as follows, per ton of 2,240 lb.; Lump ore, approx. 15 cu. ft., Fines, approx. 13 cu. ft. However these factors sometimes vary from cargo to cargo, it is recommended that Masters check with loading agents for each shipment.

**ANCHORING AFTER SAILING:** If the Master wishes to anchor outside prior to proceeding to sea, he must advise the Pilot when leaving the berth and the Pilot will advise suitable anchorage. The Master will advise the Pilot estimated time of departure in order that this may be reported to Port Control.

**DELAYS:** Delays of port operations, including delays of other vessels waiting for berths, caused by a vessel which for any reason is not prepared and able to move from the berth when so ordered, are chargeable to the vessel which causes such delays.

**STORES:** Ship Providores, Elder Smith Goldsborough Mort Ltd. of Port Hedland, were able to provide a varied and comprehensive service, particularly in catering stores. Despite the fact that most foodstuffs had to come 1,000 miles from Perth, this firm have large storage and refrigeration facilities in Port Hedland and have no difficulty in satisfying most ships requirements, particularly dry stores and refrigerated meats and fish. The only difficulty is with Muslim killed meats, in order to fulfil any orders for this commodity they require seven day's notice, as the meat has to be ordered from Perth. All other stores can be ordered after berthing.

**FRESH WATER/FUEL:** Fresh water is available at normal rates of 35 tph. and bunkers can be obtained at rates of 100 tph.

Health Declaration.
Passenger, or nil-Passenger List, indicating vessel in ballast.

**ANCHORAGES:** Any location in Santana River. This vessel anchored 0·5 miles to West of Jetty, depth varying from 126 to 160 ft. under the keel depending on state of the tide. The vessel held well without dragging with five shackles in the water. If necessary to anchor in the main river, recommended to anchor outside the main channels in order to avoid the main current.

**HEALTH:** Officials board at the anchorage. Accommodation ladder required. Doctor, Agent and representative of Federal Police (Immigration). Doctor attends to quarantine clearance, and will also attend to sick crewmembers and arrange any necessary vaccinations for smallpox or yellow fever.

**BERTHING:** Density of water at berth 995. Loading rate 650 tons per hour. This vessel loaded 14,637 long tons in 29 hours 30 minutes, but 4 hours were lost in shifting up and down the berth, and 3 hours for meal breaks.

**RADIO:** *Radio Officer's Report: Notes for the guidance of ships calling at Santana, Macapa Territory, Brazil.*

There are many possible ways of obtaining communication with Santana, however it is suggested that the three most probable ways are:

(1) Through the United States using station WSL (Amagansett) or station WCC (Chatham). This is the most expensive way and also difficulty was experienced in maintaining schedules when approaching the Brazilian Coast due to the great distance involved. If this method is used the telegram must be addressed to ICOMI, Santana, Macapa, Brazil, otherwise delay in delivery may be experienced as there are at least five other Santana's in Brazil.

One major point in favour of using this method is that communication with the USA is possible from European Waters. All information regarding frequencies, schedules, etc., is contained in Admiralty List of Radio Signals, Volume One.

(2) Using station PPR (Rio de Janeiro). Depending on propagation conditions it should be possible to maintain schedules with this station from about 4–5 days out from the Amazon Mouth. This is the only Brazilian station with HF capability and it has a direct Telex link with Santana. This station is cheaper to use than going through the USA and is probably the better of the two methods so far mentioned especially if communication is not necessary until nearing the Brazilian Coast. As above, all pertinent information can be found in Admiralty List of Radio Signals, Volume One.

(3) Using the ICOMI private radio station call-sign ZZK5. This station operates on 6765 MHz. and listens on the band 6200 MHz.–6400 MHz. at 0930, 1230, and 1530 hours Brazilian time, i.e. GMT minus 3. At all other times he works an internal communications network and does not listen out for Ship stations calling on this band.

It is possible to hear ZZK5 at about three days out from the Amazon Mouth, however, it must be pointed out that this vessel was unable to make a schedule with him even after many hours of repeated calling. Also, under normal conditions, this station does not use his call sign when maintaining internal communications and some difficulty was experienced in identifying him. However he works almost continuously using a "Bug" Key and this may be of some help when trying to pick him out.

Whilst alongside in Santana this vessel, by previous arrangement, made a communications test with ZZK5 which proved to be very satisfactory. The standard of morse was very good and the operator spoke quite good English.

*Note:* After leaving Santana schedules were maintained in the mornings at 0930 and in the afternoons at 1530, both on Brazilian local time, until this vessel was some 500 miles out. At this time ZZK5 was still readable but getting weak, however he was still giving this station a readability of 5 and a signal strength of 4/5. No further communication was attempted after this time. This station, ZZK5, being privately owned makes no charge for official messages transmitted to and from it.

*Note 2:* It is suggested that the Brazilian Coast Stations be left severely alone as making communications with them proved to be almost impossible.

This vessel did work one station which proved to be an experimental station on the Embratel Net (PPL2) which is just being set up. The operator spoke English and was kind enough to relay, free of charge, one of our messages to his parent station PPL whom we had been calling for hours with no response. PPL2 listens on 500 kHz. and uses for his working frequency 438 kHz.

The ICOMI agent in Santana informed us that the Brazilian Government was in the process of setting up a new network, of which PPL2 is part, which would have M/F, H/F, W/T and R/T facilities as well as VHF. This should prove to be a more satisfactory arrangement but unfortunately it is not due to come into service until at least 1976.

**FRESH WATER:** Available when not required for the loading belt, that is when cargo is not being loaded, but the rate is very slow being about 5 to 10 tons per hour. Good quality water.

**SHORE LEAVE:** No restrictions during this visit. No shore passes were issued.

**MAIL:** Two deliveries of two packages received during our stay. Mail from the ship is sent by air to Belem agents for forwarding. Cables are sent by the Santana Agent by telephone to Belem for forwarding.

**TIDE TABLES:** Brazilian tables show HW Barro Norte for Ilho do Brique (00° 55′ N., 50° 05′ W.). HW off Pta do Guara is two hours earlier. HW outer bar (01° 15′ N., 49° 10′ W.) is four hours earlier. British Admiralty Tide Tables show HW Barro Norte for 01° 36′ N., 49° 09′ W., also for Ilho do Brique 00° 55′ N., 50° 05′ W. Vessel, according to Brazilian Tide Tables obtained at Santana, entered the Barro Norte on the 11th January at LW steaming against the ebb from the outer bar to the Banco do Neio. Echo Sounder showed minimum 10 ft. under keel. Outward bound on the 16th vessel left about three hours before LW Santana to reach Banco do Neio about two hours before HW Ilho do Brique. However, better speed in river transit resulted in arriving Banco do Neio about LW Ilho do Brique. Decided to proceed seawards as conditions favourable. Echo Sounder showed minimum 10 ft. under keel. Admiralty Pilot states Amazon rises this time of the year due to snow melting in the Andes during the Northern summer, this results in big increases of water depth.

**SHIPPERS:** Industria Comercio de Minerios S/A. Icomi. Cable: Icomi – Santana Macapa.

# Peoples Republic Of China

## HSINGKANG

SHIPMASTER'S REPORT. (End 1974.)

B.A. Chart 2653. China Sea Pilot No. 32, Vol. 111.

**NAVIGATION:** The lighthouse in position 38° 55′ N., 117° 59.5′ E. was visible at a distance of 10 miles, flashing every 10 secs., and is surrounded by 4 unlit buoys at a distance of about 180 metres from the tower. The Fairway to berth installations is being dredged, but presently appears to permit a draft of only 25 ft. LW with a draft of 27 ft. it was necessary to await HW before sailing.

**PILOTAGE:** Pilot and Port Authority Agent board at the anchorage. Pilot boat is a large tug which may also be used as an ice-breaker, and has black hull with white superstructure. Pilots are careful and efficient, and speak some English. No VHF or HF radio facilities are available to the Pilot.

**MAX. SIZE:** See "Navigation". All berths are suitable for vessels of up to 9 metres draft.

**BERTHING:** The harbour is under considerable development, and at present has availability for about 15 or more vessels. All berths have rail connections and are approachable by trucks. There are no sheds at the berths and refrigerated stores are only available at Tientsien to where they are transported by train, lighters or trucks. Berths are equipped with rubber fendering, suitable for all requirements.

**TUGS:** Six large tugs, and three smaller tugs.

**CARGO GEAR:** There are some cranes available and in operation with a lifting capacity of about 10 tons. There are also about three floating cranes with capacities of up to about 80 tons. Where no cranes are available, vessels are required to load and discharge with ship's gear.

**FRESH WATER:** Connections at some points have still to be made, but otherwise fresh water is available at all berths. Due to the very long waiting time for berthing and the lack of some of the connecting points, it is advisable to arrive with full F.W. tanks.

**PROVISIONS:** It is essential to check all provisions when delivered since they may be of poor quality. Rejected goods are accepted back without problems.

## SHANGHAI

SHIPMASTER'S REPORT. (End 1974.)

B.A. Chart 1602. China Sea Pilot No. 32. Vol. 111.

**NAVIGATION:** Marine flashing light Yangtse North – the position quoted in the Nautical Light Service 11 agrees with Pilot's information. Marine flashing light North Saddle – very weak, signals KK. Marine flashing light Gutzlaff Island – out of service.

The wreck shown on the chart between the entrance of the Wangpoo into the Yangtse Kiang and buoy 51 (new numbering) has been removed.

On the Yangtse Kiang there has been considerable dredging, particularly between buoys 54 and 51–3 (new numbering) in order to clear the Bar. According to the Pilot, until the present time, only vessels with less than 25 ft. draft could pass at slack water.

Following the Pilot's disembarkation, vessels proceeding Northbound should make an Easterly course to 31° 05′ N., 122° 31′ E. and then alter course Northerly. Chi-ku Chiao Lt. (Amherst Rocks) should be passed at a distance of about 6–8 miles.

Buoy No. 51–0 (Entrance) is in position at 31° 04.9′ N., 122° 10′ E. Same signal. Buoy No. 51 (Fairway) is in position at 31° 03.8′ N., 122° 14′ E. Same signal. Buoy at 31° 12.8′ N., 122° 19.1′ E. Non-existent. Buoy at 31° 07′ N., 122° 22.5′ E. Flashing green every 3 seconds. Buoy Nos. 54 (now 51–2), 57 (now 51–3), 58 (now 53), and 61 (now 54) are in process of positional alterations. Characteristics are not as on chart. Shaweishan Lt. Gp.Fl. (2 and 1) 12 seconds was observed. Numbering of the buoys on the Yangtse is now changed, and the numbers given on the chart no longer apply. The buoys are spread-out in accordance with the depth of the river. Lt. Vs. No. 60 (old number) now carries the words Jui Dan, and is in approximately the same position. Lt. Vs. Ch'ang Chiang K'ou was replaced end-1974 for repairs, by a buoy with Radar reflector.

**DOCUMENTS:** Clearance takes place quickly. On arrival the following documents are required:

6 Crew Lists.
Health Clearance Certificate.
List of Effects.
Declaration of Navigational Equipment. Make, type and quantity of Sextants, Binoculars, Radio Station Equipment and Emergency Signal, must be quoted.

If no pre-printed Chinese Forms are on board, the Authorities will accept the vessel's own forms, and will themselves carry out the transfer of information to their own documents.

When proceeding to another port within the People's Republic of China, only the Seamen's Books, Landing Permit and Seamens' Club Purchasing Cards are required. The Authorities will still require a list of Chinese currency remaining on board but only wish to know the total sum and not the amounts held by individual crew-members.

**PILOTAGE:** Pilots are requested via Shanghai Coastal Radio. Installation of a VHF service is planned within the next three years, but at present the Pilot boat is not fitted with VHF, and no radio service is available for pilotage. Installation of Port Radar Service is planned within the next five years, but is presently not available.

Shanghai Harbour Control is equipped with VHF, and Pilots communicate with Harbour Control on Channel 10 concerning ship's movements. Traffic is passed in the Chinese language only and may be operated by the Pilot. A total of up to five Pilots board the vessel together with the Agent of the Harbour Authority. The Pilot boarding position is approximately 31° 05′ N., 122° 01′ E. The main Pilot craft is usually at anchor in that position, and the Pilots board from small launches. The main Pilot craft corresponds closely to those used in Germany and the Netherlands, and has white superstructure and a white hull. Pilots are available day and night. Pilots are efficient, speak some English, and control the vessel very carefully. After the Pilot's boarding, no further use may be made of the vessel's own charts, and the Pilot brings his own charts with him.

**ANCHORAGE:** The main quarantine and inward clearance zone is now on the Yangtse in the area of 31° 04′ N., 121° 06′ E. and is of sufficient area to accommodate about 15 deep-sea vessels. The anchorage is good with sufficient depth for loaded vessels. The two quarantine areas shown on B.A. Chart 1602 (October 1974) have been abolished, and a new zone has been established due East of the Lt.Vs. Ch'ang Chiang K'ou, with middle point 10 miles due East of the Lt.Vs. extending about 5 miles by 5 miles.

A Notice to Mariners issued by the Shanghai branch of the China Ocean Shipping Agency, and dated December, 1974, reads as follows: "As Woosung Quarantine Anchorage is effected by the current of Changkiang, vessels anchored there are apt to drag anchor if no proper safety measures have been taken or there is negligence in keeping watch, thus resulting in grounding or collision with other vessels. To ensure safety of vessels at anchor, we hereby draw your attention to the following:

(1) Vessels waiting for berth or for other reasons drop anchor at Quarantine Anchorage, someone must be appointed to keep watch of the anchor.
(2) To have no less than 6 (six) shackles of anchor chain in the water.
(3) On the following occasions, watch should be re-inforced and, at the same time, have the engine ready against accidents:
  (a) Bad weather.
  (b) Wind force 6 and upwards.
  (c) Foggy and misty weather.
  (d) Stormy weather.
  (e) Spring tide.
(4) If a vessel is dragging anchor or any accident has happened to a vessel anchored at anchorage, the Captain of the vessel should report to this Agency *immediately*, enabling this Agency to make arrangement for sending Pilot on board or take other effective measures."

**RESTRICTIONS:** Permission to swing-out lifeboats must be obtained in writing from the Port Authority, through the Agent. If the request is made 24 hours in advance stating that the vessel's own country's laws require it to be done, then permission is given the same day, for the operation to be carried-out the following day. Lifeboat engine trials are not permitted in view of the very intensive traffic on the Wangpoo, and the very strong current. No filming is permitted in the port area, but is permitted in the Town with the exception of military installations. Electronic navigational equipment, navigational aids, echo-sounding equipment and radio may not be used except with the Pilot's permission during the approach to port.

**MOORING:** Mooring to buoys takes place with assistance of tug and mooring craft. Pilots manoeuvre vessel to forward buoy with use of the anchor which remains paid-out after tying-up, and is only raised prior to sailing. Approximately one to one-and-a-half shackles used. Vessel is moored to buoys with four lines fore and aft, and slip-wires. Lines are paid-out in equal lengths either side through the mooring leads and not through the Panama hawse.

**TUGS:** When proceeding from buoys to alongside berth, tugs provide assistance in un-mooring, but not in berthing which is conducted by Pilot without tug assistance. When leaving the berth, tugs are used to assist, and use their own lines.

**BERTHING:** Pier installations are partly damaged and have no fendering. If possible, vessels should have their own cork or wooden fenders.

**CARGO GEAR:** Loading and discharging is by means of ship's gear. There are three heavy-lift floating cranes with lifting capacities of about 130 tons, and of modern construction. A number of mobile cranes are available with lifting capacities of about up to 5 tons.

**CURRENCY:** For vessels tied to buoys there is an hourly boat-service to the Seaman's Club where foreign currencies may be changed into Chinese Yen, and where purchases may be made.

**PROVISIONS:** Stores, alcohol and cigarettes are not sealed. Fresh provisions are available depending upon time of year. Sufficient quantities are available including beer, poultry, meat and fish. Ample advance notice is required.

**TELEPHONES:** Telephone calls to foreign countries are possible either from the Agency or from the main Post Office in Nanking Road.

# Gabon

## LUCINA MARINE TERMINAL: 03.39.37. S. 10.46.12. E.

Sea Terminal: S.B.M.

**APPROACHES:** Vessels should proceed as if making for Gamba Terminal, and establish early contact with Gamba Radio (see Gamba). Instructions concerning Pilot's boarding position will be given by V.H.F.

**MAX. SIZE:** Up to 120,000 dwt.

**MOORING:** Same procedure as for Gamba, which see.

**HOSES:** A hose of 16 in. diameter is connected on the port side.

*Line System:* SBM. Off-shore field about 7 miles off coast in deep-water. Oil is stored in a tanker, supplying to the SBM through a 20″ submerged pipeline 1,000 metres in length.

**LOADING RATE:** About 3.500 tons per hour.

**AUTHORITY:** Shell Gabon, (see Gamba).

# India

## MADRAS

**CRANES:** Heavy duty floating crane capacity 120 tons available.

**STEVEDORES:**

*Working hours:* 1st shift, 0630–1530 (Recess 1130–1230); 2nd shift, 1530–2230 (Recess 1930–2000); 3rd shift, 2230–0530 (Recess 0200–0230).

# Italy

## MONFALCONE: 45.48 N. 13.32 E.

**PORT LIMITS:** A vessel is considered to be an "arrived ship" when it arrives within the anchorage zone, S.W. of Duino.

**DOCUMENTS:**

Arrival Report.
Crew List.
Passenger List.
Customs Documents.
Health Documents (only for vessels that are not arriving from the United States, and are members of the West European Union).

**PILOTAGE:** Pilotage service is the responsibility of the Harbour Office, and is carried out by local Pilots. Pilots are not supplied with radio equipment. Pilotage service has to be requested by radio via Trieste radio station, to the Harbour Office. Pilotage is compulsory for vessels over 400 g.r.t. Pilot boat is equipped with VHF and is stationed along the access channel or near to the channel entrance buoy. Pilot boards about one mile from the entrance buoy.

**ANCHORAGE:** Vessels awaiting entry to the port are required to anchor between Duino and Sistiana, about three miles from the entrance. At the port entrance the depth is about 10 metres. The anchorage provides good shelter from winds from the first and fourth quarters. Good anchorage in sand and gravel.

**RESTRICTIONS:** Entry to port is permissible from daybreak to sunset. Entrance channel has depth of 12 metres.

**MAX. SIZE:** Maximum permissible draft 24 ft. 3 in.

**HEALTH:** Vessels calling from countries that are not members of the West European Union are required to provide a Maritime Declaration of Health. In the event of any disease or epidemic on board, advice has to be sent to the Maritime Health Office by radio.

**RADIO:** Nearest coast station is Trieste Radio, through which all radio messages should be routed.

**TUGS:** Tug service is optional, but the Maritime Authority can make service temporarily compulsory.

**BERTHING:** 630 metres of berth length for discharging generals, and 120 metres berth length for discharging cereals. Depth alongside berths approximately 7 metres. Berths are equipped with mobile cranes.

**BULK HANDLING FACILITIES:** Silo berth is well equipped for discharging cereals.

**TANKERS:** The port receives tankers with cargoes for Enel.

**DENSITY:** Average 1027.

**FRESH WATER:** Available at all berths.

**FUEL:** Bunkering is by barge or tank truck only.

**CONSULS:** None at Monfalcone, but available at Trieste.

**REPAIRS:** Minor repairs only.

**GANGWAY/DECK WATCHMEN:** Not compulsory, but available through Agent.

**OPENING/CLOSING HATCHES:** Opened and closed by ship's crew.

**AIRPORT:** Distance to airport 5 kms. Two flights a day to Rome.

**HOLIDAYS:** 1st and 6th January, 19th March, 25th April, 1st May, 2nd and 29th June, 15th August, 1st and 4th November, 25th and 26th December, first day after Easter, Ascension Day, Corpus Domini Day.

**POLICE/AMBULANCE/FIRE:** Police 113 or 72715. Ambulance 72249. Fire 72222.

**TELEPHONES:** Not available to be placed on board.

**SHORE LEAVE:** Permitted.

**AUTHORITY:** Harbour Master, via Cosulich. Tel. No. 72331/72631.

# Korea, Republic of South

## CHINHAI. (Jinhae)

SHIPMASTER'S REPORT

**LOCATION:** 35° 09′ N., 128° 40′ E. (Town); 35° 07′ N., 128° 42′ E. (Pier).

**DOCUMENTS:**

8 Cargo Manifests.
8 Crew Lists.
4 Stores Lists.
3 Lists of Crew's Personal Effects. Tobacco/Spirits.
1 Vaccination List.
1 Health Declaration.
2 Currency Lists.

All documents are Standard Form. Although currency lists are required, there are no restrictions on importing or exporting either Korean or other currencies.

**PILOTAGE:** Pilotage not compulsory but recommended. Pilots are ordered through Agents and board vessel about 10 cables West of Kadok Do Island. VHF not available. No pilotage during night hours. Pilot boat is a wooden launch exhibiting International pilotage signals.

**ANCHORAGE:** Recommended 7 cables in northwesterly direction off Tongdu Mal Lt.Ho. (Kadok Do). Depth 25 metres. Good anchorage in sand and mud. Quarantine anchorage is located about one mile N.N.W. from from Chori Som Island.

**RESTRICTIONS:** Curfew effective from midnight until 0400 daily.

**HEALTH:** Radio pratique not available. Pratique granted after inspection.

**RADIO:** Pusan Radio, call-sign "HLP".

**TUGS:** Required for mooring and unmooring. Two tugs available of 600 and 1,000 h.p.

**BERTHING:** Chinhai is a principal naval base. Vessels drawing up to 17 ft. can be accommodated alongside inner harbour.

A buoyed channel with a depth of 36 ft. MHW leads from East of Madang So, to the only berth available for deep-sea vessels about $1\frac{1}{2}$ miles N.E. The berth, about 660 ft. in length belongs to the Chinhai Chemical Co. and can accommodate vessels with a maximum draft of 34 ft.

Depth-sounding alongside showed at least 43 ft. 3 in. at HW. (officially 34 ft.). Distance from HW level to deck of pier 2·10 metres. Bottom thick mud, and density 1025.

Vessels not exceeding 34 ft. saltwater draft berth two hours prior HW., and discharging commences immediately.

The berth is equipped with one grab only, and with conveyor-belt to nearby factory. The berth is used for discharging phosphate and potash, and very few general cargoes are handled. Discharge rate for phosphate is a maximum of 8,000 tons per 24 hours, with average of 6,200 tons.

**STEVEDORES:** Work is continuous throughout 24 hours including Sundays, and without mealbreaks.

**MEDICAL:** Attention available.

**FRESH WATER:** Available ex-barge from Masan, minimum 200 tons at US $3.00 per ton.

**FUEL:** Available ex-barge from Masan.

**CONSULS:** Nearest at Pusan.

**REPAIRS:** Minor repairs only.

**GANGWAY/DECK WATCHMEN:** Available and recommended.

**REPATRIATION:** Possible from Pusan.

**CUSTOMS ALLOWANCES:** No restrictions. Stores remain unsealed.

**TIME:** G.M.T. + 9 hours. No alterations.

**AUTHORITY:** Masan District Marine Bureau.

## POHANG

SHIPMASTER'S REPORT

**LOCATION:** 36° 03′ N., 129° 22′ E.

**PILOTAGE:** The pilot usually boards the vessel after anchoring in position 36° 03′ N., 129° 26′ E.

**RESTRICTIONS:** Entry and departure only in daytime. Night berthing is not allowed.

**QUARANTINE:** Quarantine anchorage is in same position as for Pilot.

**FRESH WATER:** Available ex-wharf at all times without limitation.

# Philippines

## HONDAGUA, Luzon Island.

SHIPMASTER'S REPORT

**LOCATION:** 13° 56′ N., 122° 14′ E.

**APPROACHES:** B.A. Charts 3806 and 3475, neither of which are of very much use. There are no navigational marks by night, but the water is deep and we made a comfortable approach by Radar.

**PILOTAGE:** Minimum 12 hours notice required. Pilot boards at Siain, a village 10 miles West of Hondagua on the North coast of the mainland. Pilot boat is a small dug-out canoe fitted with outriggers and an outboard motor, and by day exhibits the Pilot flag, and at night a single white light similar to a normal fishing canoe. Pilot shouts to attract attention when close to the vessel at night.

**DOCUMENTS:** Officials embark at Siain but not before 0630 hours due to curfew. Accommodation ladder required. All documents required as for first port of entry, excepting quarantine which is not performed twice.

10 Ships Store Lists.
8 Crew Personal Effects Lists.
12 Crew Lists.
3 Health Declarations.
2 Visaed Crew Lists.
2 Plant quarantine Lists.
2 Animal Lists.

Officials disembark again at Siain with the exception of the 3 Customs Officers, who remain on board and who require meals and accommodation.

**BERTHING:** One berth only, for grain discharge and for coastal tankers supplying fuel to the Mill. Berth lies East/West with approx. depth at L.W. East Dolphin 28 ft., Elevator about 34 ft. 6 in., and West Dolphin about 39 ft. The berth is thought not to be suitable for vessels exceeding 500 ft. L.O.A. The dolphins are of timber-pole construction, and the elevator is concrete. Arrival and departure from the berth is during daylight only. Mooring arrangement is 2 headropes to buoy, 2 breastropes to shore, spring-wire to bollard on elevator, 4 sternlines to concrete dolphin, and 1 spring-wire to bollard on elevator. An old landing-barge is used as a mooring boat, but this has only one engine on the port side and is not very manoeuvrable. A motorised dug-out canoe also assists, but is not powerful enough to pull a line very far. The elevator has two discharging suckers, but these are fixed and the vessel has to be shifted hatch to hatch. Combined capacity about 80 tons per hour which could be improved, but foundations of conveyor-belt system damaged by recent earthquakes.

**TUGS:** Not available.
**FRESH WATER:** Available at berth but not of very good quality. Ship's hoses required.
**AIRPORT:** None. There is a train service to Manila, about a six-hour journey.
**CURFEW:** Area is under Martial Law. Curfew from 2300 to 0600.

### ILIGAN. Mindanao. 08.14 N. 124.14 E.

SHIPMASTER'S REPORT

**APPROACHES:** B.A. Chart 3426. This is of not very much use as an approach chart as the scale is too small. However, the water is deep and therefore it does not matter too much. On this voyage we made an approach in darkness and solely on Radar. The only navigational light, a fixed red, being very hard to distinguish.
**PILOTAGE:** The Pilot boards about one mile N.W. of the piers. Pilot boat is a river-type launch about 50 ft. in length with a grey hull and a white funnel.
**ANCHORAGE:** 2 cables from old-harbour piers. 7 shackles in 50 fathoms.
**RADIO:** No VHF facilities.
**OFFICIALS:** Iligan is a Port of Entry. Officials board at the anchorage. Accommodation ladder required. Usual procedures take about 1 to 1½ hours.
**DOCUMENTS:**

20 Ship's Store Lists.
14 Crew Personal Declarations.
3 Vaccination, and inoculation dates.
3 Ports of Call and dates for previous 3 months.

*Immigration:* Before leaving last foreign port for the Philippines, obtain four official Crew List Forms from the Philippine Consul. Complete these forms and have them visaed by the Consul who will retain two, and return two to the ship. Passes are required for crew members going ashore.
**CUSTOMS ALLOWANCE:** 1 bottle and 200 cigarettes per person. Three Customs officers live on board all the time, and require accommodation and meals.
**TUGS:** Up to four tugs available if required, but it is advisable to give notice of requirements well in advance, since these tugs may be engaged in towing barges elsewhere around the island.
**BERTHING:** *Quinalang Cove.* One grain discharge berth. Depth at berth 40 ft. and ample room for a vessel of 600 ft. L.O.A. Discharge is by sucker direct to the Silo. There are two suckers with a combined average discharge rate of 100 tons per hour, but suckers are located in fixed positions requiring the vessel to be shifted hatch to hatch. Berth is well-fendered, with a shore gangway. Stevedores supply a good hatch-tent for working in the rain. One bulk-copra loading berth, 600 ft. in length and draft said to be 32 ft. One bulk-cement loading berth, reported to be capable of accommodating vessels of 25,000 grt.

*Camp Overton.* Located south of Iligan, there is reported to be a steel-loading berth to accommodate vessels of 750 ft. length, and 36 ft. draft.
**FRESH WATER:** Available at most berths.
**SHORE LEAVE:** Crew members should take special care when proceeding ashore, and should not carry cameras or wear wrist-watches etc. It is advisable to return aboard before darkness.
**AIRPORT:** About 20 miles distant. Daily flights to Cebu and Manila.
**STORES:** Fresh fruit available, also good supply of seafood.
**REPAIRS:** Only very minor repairs can be undertaken.
**TIME:** GMT plus 8 hours.

## Romania

### CONSTANTZA

Following is extract from "Notice to Sailors" issued by authorities at Constantza:

1. Crew members are required to observe international rules covering work protection, port sanitation and customs regulations, and in addition, Romanian law, both within the port area and outside that area.
2. In order to avoid accidents concerned with port equipment, cranes, trucks, tractors and trains etc., crew members walking inside the port area are permitted to walk only on the main streets and between the berths where their vessels are moored, and/or to entrance/exit No. 1, the Navlomar Agency, the Harbour Station, the Navlomar tax-free shop or the Seamen's clinic.
3. Crew members are required to enter or leave the port area at gate No. 1.
4. Crew members are required to be back aboard their vessels by 0400 hrs.
5. Crew members wishing to visit other zones in the country are required to obtain a visa from the ship's Agent.
6. Transportation with the port by motor-boat, which leaves the Harbour Station every fifteen minutes and calls at all berths in the port, is available subject to crew members being in possession of the proscribed ticket as issued by ship's Agent and duly signed and stamped by the ship's Master.
7. The tax-free shop is located next to the Harbour Station. All purchases must be retained aboard under customs control until the vessel has sailed.
8. It is forbidden, either to bring-in or to take-out Romanian currency. Such currency is obtainable from Navlomar agency at Master's request and for Owner's account. All Romanian currency remaining in crew members possession must be returned to the Master before sailing, and the Master is required to return the currency to Navlomar.
9. The port Polyclinic is available for medical attention to crew members at the following times: Monday, Wednesday and Friday, between 1300 and 1600 hours. Tuesday, Thursday and Saturday, between 0800 and 1300 hours. In cases of emergency, assistance is obtainable by telephoning 16528.
10. Crewmail and messages are delivered daily by the ship's Agents, and outgoing crewmail is collected for despatch at the same time.

## Saudi Arabia

### RAS TANURA:
